THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, AUGUST 12, 1920

LONG PADDLE TO THE SCOUT CAMP

Three Lads Came Down in Canoe from Woodstock — All Goes Well.

The Boy Scout camp at Bellefleur is very well attended having at present sixty boys. These scouts represent Fredericton, Woodstock, Moncton, Sussex, Hillsboro, and St. John. Three of the boys paddled down to the camp from Woodstock last week, a distance of more than 200 miles, arriving on Sunday night. There is an excellent swimming place near the camp with a good sloping sandy beach and there are scouts who can swim spend a great deal of time, while those who have not yet learned are trying to get the idea as soon as possible. Swimming is one of the qualifications for the first class badge.

Y. C. Timberly, assistant provincial secretary for the Boy Scouts of Nova Scotia is at the camp and in charge of the swimming. Mr. Timberly is himself an excellent swimmer and under his supervision the boys will advance in the aquatic art.

Scout Master Andy Watson of Sydney is also at the camp. Towards the end of the week the first and second class badges will be held as well as those for the service badges. The boys are having the time of their lives at the camp and everything is going smoothly. Mr. Eaman left for the camp yesterday.

N. B. JEWELERS ORGANIZE HERE

The jewelers of New Brunswick entered the Canadian National Jewelers' Association yesterday when an organization meeting was held and a dinner at Bond's restaurant tendered to the visiting jewelers. The organization is to be known as the New Brunswick Jewelers' Association. H. C. Page, of this city, was elected chairman of the provincial branch, which was divided into two districts, the St. John and Moncton districts. The dinner, which was attended by about fifty jewelers, was a great success and it is expected that M. C. Ellis, of Toronto, president of the Canadian National Jewelers' Association, who was present to assist in the organization of the New Brunswick branch which is the last to enter the dominion association. His Worship Mayor Schuchman was present at the banquet and he welcomed the visiting jewelers to the city.

The first district, known as the Moncton district, includes Moncton, Campbellton, Bathurst, Newcastle, Chatham, Shediac and Port Elgin. The second district, it is known as the St. John district, includes Sussex, Fredericton, Woodstock, St. Stephen, Doaktown, St. Andrews and St. John.

The following officers were elected: H. C. Page, chairman (St. John); A. Melanson, vice-chairman (Moncton); C. C. Goggin, secretary (Moncton). The officers of the St. John district for the coming year are: A. Shute, chairman (Fredericton); Edwin A. Ellis, secretary-treasurer (St. John); A. Gibson, director (Woodstock). The officers of the Moncton district: C. F. Gilmore, chairman (Campbellton); J. H. Brown, secretary-treasurer (Moncton); W. H. Williston, director (Newcastle).

Among the other speakers at the dinner were M. C. Ellis, of Toronto; S. Melanson, of Moncton; and George Schuchman, of Fredericton. H. C. Page, of St. John, presided.

MORNING NEWS OVER THE WIRES

The members of the Red Cross Society at Richibucto were entertained on Monday evening by an address delivered before them by Miss Riddick, representative of the New Brunswick branch of the Dominion Red Cross. The lecture was well illustrated by illuminated charts, and a great deal of information was imparted.

A serious accident occurred near Enfield this week when a car driven by a Welsford people collided with a carriage in which were Mr. and Mrs. W. K. Kirkpatrick, of Petterson Settlement. Mrs. Kirkpatrick sustained serious injuries, which may prove fatal. The automobile was travelling at a high rate of speed when it struck the carriage.

Edmund Tibbitts, a war veteran, was drowned while bathing at Burnt Church, N. B., on Monday. He was rescued over his death and was drowned before help arrived.

Mystery surrounds the death of Daniel M. Beaton, aged thirty-one, of New Glasgow, who was found by an automobile party yesterday morning lying on South street, Glace Bay. The police suspect murder as the man had been sending fictitious news to several newspapers, including some in St. John, has been arrested by United States marshals on the charge of issuing false stories concerning the young girl students of Walsley, Smith, Mount Holyoke and other colleges.

Captain Hugh A. Dickson, of Onalwa, was nominated by the United Farmer party of Colchester last night to oppose the election of Hon. F. B. McCurdy, minister of public works, at the by-election on September 20.

Frank E. Smith, Liberal member of the Nova Scotia house of assembly for Shelburne, and colleague of Hon. Robert Irwin, has resigned in order to make his seat available for Hon. E. H. Armstrong, commissioner of works and mines, who was defeated in Yarmouth county at the last election.

A large brass tablet mounted on oak has been dedicated by the Anglican parish of Norton to the memory of the late Rev. Canon Clarence Peters Hanington, a former rector of Norton.

BOY IS RE-CAPTURED.

A boy from Coal Branch, who had been serving some time in the Boys' Industrial Home here, and who made his escape in July, was not re-captured until yesterday. He is accused of theft of a purse containing a railway pass and two cents from a lady resident of Coal Branch. Inspector Collins, of Moncton, went to Coal Branch and made the arrest. The lady will not prosecute on this charge, but the boy will be sent back to the home. He had served but a short time of his three year sentence when he made his escape.

RECENT WEDDINGS

Greig-Gordon.

The home of Mrs. Frederick Fellow, 112 Pitt street, was the scene of a quiet wedding ceremony on July 30, when Miss Eva E. Gordon of St. John became the bride of Robert W. Greig of Scotland. Rev. Samuel Howland, of the Holy Trinity Methodist church, performed the ceremony. The bride wore a tailored suit of navy blue serge and carried a bouquet of roses and carnations. After the ceremony a dainty wedding supper was served by the hostess, Mrs. Greig, and the couple leave in the near future for Ottawa, where they will reside.

Ogilvy-Kilburn.

At the home of the bride at Kilburn, N. B., on Aug. 11, Beatie Evelyn Kilburn, daughter of Mrs. Benjamin Kilburn, was united in marriage to John Ogilvy, of Oxbow, N. B. Her mother gave her in marriage. Lochgair's wedding march was played by George Trant of Fredericton. The ceremony was performed by Rev. Charles Flemington. There were no attendants. The house was beautifully decorated. After the ceremony and reception, supper was served. Many beautiful presents were received. The guests from a distance included Mr. and Mrs. Hugh McLellan of St. John, Mrs. Theodore H. Eastbrooks and Mrs. Wm. C. Rising of St. John, and Mrs. Ogilvy left by motor on a two weeks' camping trip, after which they will make their home at Kilburn.

At the home of the bride's parents in Truro a very pretty wedding took place on Tuesday afternoon when Elizabeth Blanche Fuller was united in marriage to William Anderson Graham Stevens of Bathurst, N. B. The ceremony was performed by Rev. H. J. Fraser. The bride wore duchess lace over white silk with veil of chintilly lace, the bridegroom carried a bouquet of white roses. Miss Freda Fuller, her sister, was bridesmaid. William Pierce of Halifax was groomsmen. The groom is a returned soldier.

In St. John the Baptist church, yesterday, Rev. Simon Orm united in marriage with Nuptial Mass, Miss Lucy Couture of Bathurst and George Daniel Beckingham. The bride was becomingly attired in a gown of navy blue satin and carried a white prayer book. The witnesses were Miss Alice Soud-grass and J. Les Gillies. The groom is a music teacher and has been residing with his brother at 168 Carmarthen street.

A very pretty wedding took place recently at Kilburn, N. B., when Beatie Evelyn Kilburn became the bride of John Ogilvy. The wedding ceremony was performed at the bride's home by Rev. Charles Flemington, in the presence of relatives and friends. The bride was dressed in a traveling suit of dark blue with a black backless festoon and carried a bouquet of Ophelia roses. She was given away by her mother, Mrs. Benjamin Kilburn.

A very pretty ceremony was performed at the home of Mrs. Lillian London, in Fredericton, N. B., on Tuesday afternoon, when her daughter, Hazel Maud London, was united in marriage to John D. H. Murray. The bride was dressed in white crepe de chene, a bridal veil held in place by a band of pearls, and carried a bouquet of sweet peas and madras hair fern. She was attended by her cousin, Miss Louise Carle.

RECENT DEATHS

The many friends of Stephen Toomey will regret to learn of his death, which occurred yesterday. Mr. Toomey was employed with A. W. Adams, and is survived by one son, Stephen.

The funeral will be held from P. J. Fitzpatrick's undertaking rooms on Friday morning at 8 o'clock to the Cathedral for high mass of requiem.

The regular meeting of the Coal Handlers' and Trimmers' Union was held in their rooms, 14 Canterbury street, last evening, with the president, Wallace Johnston, in the chair. The meeting was occupied with the transaction of routine business.

William McIntosh, curator of the Natural History Museum, returned to the city yesterday from Sussex, where he has been lecturing in nature study at the Summer School of Rural Science. He reports great enthusiasm on the part of the pupils and members of the staff.

Dr. William Bell Dawson, of Ottawa, superintendent of the tidal survey of the dominion, is in the city in connection with the recording of the tidal statistics of the harbor and the reversing falls. Dr. Dawson is one of the engineers who designed the Cantilever bridge over the St. John river here.

MARRIAGE IS CONDITION OF LEGACY LEFT TO GIRL

"Provided that she shall marry my nephew, George W. Anderson," Anne Greville of London, England, is left a legacy of \$5,000 by a clause in the will of Jane Paton, a spinster, of 55 Castle street, Toronto, who died suddenly on May 12. Her estate amounted to \$181,128. George W. Anderson receives \$6,000 without any conditions. The Muskoka and Weston Hospitals for Consumptives, each receive \$1,000, and \$800 is left to the Toronto Hospital for Incurables. There are thirteen other legatees.

BARN, HOUSES AND CROPS DAMAGED BY STORM.

Damage to barns, buildings and to the crops resulted from yesterday's electrical storm and downpour of rain. During the storm 2.66 inches of rain fell, most of it coming in heavy showers that was injurious to standing crops. A barn at Nauwigewauk, owned by James Henderson, was struck by lightning and burned to the ground. Dog and some harness were saved. There was no stock in the barn but a quantity of hay was destroyed.

A house was struck at Ritchie's Lake, near Quispamsis. It was the property of Fred Carell. Lightning struck the chimney and ran down to the stove, which exploded. A barn was struck at Norton owned by a man named Raymond. Ten cows were burned.

BREAKS HIS KNEE-CAP.

James Barry of Melrose, Westmorland county, N. B., father of Dr. J. M. Barry, of this city, was brought to the city last evening suffering from a broken knee-cap, sustained by falling from the platform of the Melrose railway station and striking a rail. He was met at the station by the ambulance and conveyed to the infirmary.

CHICKEN THIEVES HAVE A MOTOR CAR

After they had successfully cleaned out the roosts of one farmer and were in the act of stripping those of another, Albert Moffat, Shuter street, Toronto, and John Robins, Duchess street, two chicken thieves, were arrested Saturday morning a mile north of Agincourt.

Len Woods, a young farmer, returning to his home late at night, noticed a large motor car drawn up at the side of the Kennedy road, close to the barn of Hugh Clark. From the back seat of the car he heard sleepy cracklings.

Without waiting to investigate further he roused the farmer and his son, but just as the three were making their way cautiously toward the barn the thieves saw them, dropped the chickens they were carrying and made a rush toward the car. They reached it ahead of their pursuers, but as they got it under way, Moffat, grabbed the steering wheel and turned the car into the ditch. The men were held until Constable Thomas Shaddock of Agincourt arrived to take charge of them.

More than forty chickens, taken from the farm of John Tapscott, were found stored in crates in the back of the car.

NEW STEAMSHIP SERVICE.

According to advice received here by Senator Armando Lopez, Cuban consul here from Major Stables, the Cuban consul-general at Ottawa the Gulf Navigation Company of New Orleans, has inaugurated a steamship service between Cuba and Canada. The regular ports of call will be Toronto, Montreal, St. John, Halifax and the Cuban ports with Halifax and St. John as the Canadian terminals in the winter months.

TENDER GUMS — A WARNING

Beware of gum tenderness that warns of Pyorrhoea. Four out of five people over forty have Pyorrhoea—many under forty also. Loosening teeth indicate Pyorrhoea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—inflicting the joints or tonsils—or causing other ailments.

Forhan's positively prevents Pyorrhoea, if used in time and used consistently. As it hardens the gums the teeth become firmer.

"Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

If gum-shrinkage has already set in, start using Forhan's sand consist a dentist immediately for special treatment.

3c and 6c tubes in Canada and U. S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

THE PREMIER'S SPEECH

Premier Meighen, in his speech at Sterling Village, West Hastings, Ontario, yesterday, made it clear that a high tariff is the chief plank of the government's platform. He took occasion also to declare himself strongly against the farmers' party. Mr. Meighen does not lack courage, and he has thrown down the gauntlet to all opponents with evident relief for the fray. There is, however, a palpable error in his statement of the genesis of the new party which he leads. It was not "born of the war," but of the desire of the Conservative party and some former Liberals to join on to the reins of power. The Union government was born of the war, and of the people's will; but this new party is a peace-time product of political ambition. The people have not been given the opportunity to express their views in regard to its existence. It is not born of the people's will. The prime minister has, however, seen the light in relation to the province of Quebec. He now declares himself the champion of unity of race and creed. This attitude will be applauded, even if Quebec falls to the lot of the Union. If the Conservative party had stood for unity in the early stages of the war there would be less need to offer a plea for it at the present time.

How much of eloquence may be expended in its behalf the present government is not the people's government. They were not consulted and have not given it their endorsement. That is the fatal weakness of Mr. Meighen's case.

THE BUSINESS OUTLOOK

Disquieting the financial situation in the United States the Chicago correspondent of the New York Evening Post notes as the chief factors a strained credit position, car shortage, slow movement of both old and new grain to market, and a large prospective demand for bank funds in the coming months. A return to former methods of marketing wheat has affected both financing and the movement of wheat. Kansas wheat is 160,000,000 bushels of old and new wheat, and this presents a serious problem for the banks, as the movement by rail is much slower. As a result, banks seek to restrict borrowing and reduce large loans in some cases, as in the steel industry, by car shortage and shortage of fuel. The steel mills are running far below their capacity. This correspondent says that a condition corresponding to the demoralization of the wool, hides, and leather markets, and that there has been a reduction of 30 to 40 per cent in the output of the shoe factories. Of the retail situation he says there appears to be a material check in the receding buying that has been on for the past two years.

An Ottawa correspondent of the same paper says that "The supply of goods on hand in Canada is not large in proportion to the needs of the country, but the cost of replacing it will almost certainly be higher than present prices." This correspondent says that, while American immigrants are bringing a large amount of money into the country, bankers assert that the emigration of European workers who grew rich during the war is beginning to have a serious effect upon bank deposits. He further points out that the figures of Canada's export trade are somewhat unsatisfactory, and that at the end of the year Canada will be back in her old position of possessing a heavy adverse trade balance. One reason for this, in addition to the termination of the munitions business, is thus stated: "By extending credits to Greece, Rumania and other European countries we managed to maintain our exports at a decent level for a period, but these credits are now practically exhausted, and the government does not contemplate adding to them. The exchange situation also is a barrier to any extensive purchases by European countries. Therefore the figures of our export trade have been showing a steady decline, and but for the demand of American newspapers for our pulp and newsprint they would not make a good showing."

It has been pointed out to the Times that while a floating elevator from Montreal might be acceptable as a temporary expedient the extension of grain conveyors to Bertha No. 7 and 14 at West St. John, which would not be difficult at all, would be very much better and would be of a permanent nature. Why incur the expense of getting the floating grain elevator? Why not add a little more and make a job of it? As to the provision by which the operators at Courtenay Bay may get a convenient place to dump stone, it is pointed out that in the original specifications for the breaker extension the core was to be of stone weighing one to five tons, and the sides were to be of stone weighing five to twelve tons, at least half to be of the latter weight. Why depart from the specifications?

The jewelers of Canada are now united. Of course they used a gold band for the wedding ceremony.

No class of men need more to be instructed in first aid than those who operate railway trains, and none should be more eager to qualify themselves. When an accident occurs it is not always with in easy reach of a doctor or nurse, and in cases of urgency it is most desirable that someone on the spot be able to render first aid to the injured. These remarks are suggested by the announcement that in the next few weeks trainmen on the Canadian Pacific on this division will be given the opportunity to receive instruction in first aid work. Not only should they desire to gain the desired efficiency for their own sakes, but in order that they may be of prompt service to other victims of accident. It is an accomplishment easily gained under proper instruction, and the knowledge and skill acquired may be of great value at other times as well as when the men are on train duty. The opportunity to take such a course should therefore be regarded as one not to be neglected, but rather welcomed as a means to greater efficiency not only on service but at all times.

Bangor Commercial. Within a few days votes will be taken in the legislatures of Tennessee and North Carolina upon the ratification of the Susan B. Anthony suffrage amendment to the constitution of the United States. If the legislatures of either state declares for ratification, universal suffrage for women will immediately become an established fact, subject only to a court decision. It is generally believed that ratification by the North Carolina legislature is very unlikely but the verdict in Tennessee is expected to be very close. Both the advocates and opponents of suffrage claim victory in Tennessee but neither claim that the margin will be much more than the margin in North Carolina. The vote will probably be taken the last of the present week.

In an address in Ontario last week the minister of labor said he considered Canada's labor situation to be far better than that of any other country in the world. "There is not another country on earth that passed through the reconstruction period so successfully and with so little strife as Canada," he claimed. "There is no country where there are so few unemployed and with so little agitation in evidence." He warned his hearers, however, against Bolshevism, which would destroy democracy and the true principles of organized labor. The warning is timely, for though organized labor has set its face against Bolshevism there are sinister influences at work throughout the world to persuade people that the Soviet form of government should be adopted in all countries. That way lies a worse autocracy than that of Imperial Russia or Germany.

Some very striking illustrations of the increased cost of materials and labor were given by President Hanna of the C. N. R. and President Kelley of the G. T. R. before the Railway Commission yesterday. Railway spikes have gone from half a cent in 1914 to four cents, and ties from forty-five cents to ninety cents. On the G. T. R. the average wage in 1913 was \$608. Now it is \$1391, and if the American scale is adopted it will go to \$1,750.34.

The announcement that it is easy to get a drink in Toronto does not come with the shock of a great surprise. They say it is not difficult to get a drink in St. John—if one is not particular as to the brand. It is announced that in Quebec the government will take over the control of trading in alcoholic liquors. That may help some, but until it gets better wine and beer laws the other provinces will have trouble in enforcing prohibition.

Hon. Manning Doherty is fully justified in denouncing the British embargo against Canadian cattle. The late Sir Charles Tupper years ago had to go into the cattle pens at Liverpool and vindicate the quality of the Canadian product by actual tests in order to get justice and prove that the animals were not diseased. If the British breeders want protection they should get it in a legitimate manner.

The United States having declared itself for an independent Poland, the Poles will ask immediate financial aid from the United States to preserve their independence. It cannot very well be refused.

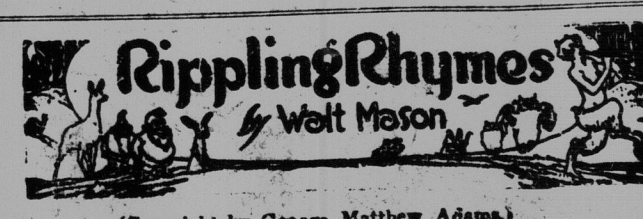

If harvesters en route to the west coast brigands, they must expect to be treated in western fashion. The Kapuskasing man who objected with a gun to being held up was quite within his rights.

The farmers have replied to Mr. Meighen by choosing a farmer candidate in Colchester to oppose Hon. F. B. McCurdy.

A new company is to enter into the steamship traffic between Canada and Cuba. This will mean more winter business for the port of St. John.

The news from Mesopotamia suggests more trouble in that quarter for the British forces.

Quebec has a surplus. The new premier is fortunate. So also is the province.

(Copyright by George Matthew Adams.)

Hired Help

We used to have a stately butler, the most impressive gent alive, a major-domo and a suter, and proud domestics four or five. Before the war they did their duties as good retainers ought to do; they seemed to us a bunch of beauties who well deserved the wage they drew. But since the times became unsettled they tried to travel on their gull, and they became so highly minded we had to can them, one and all. And now my wife does all the cooking, rejecting that the gang is gone, and I, besuited and gadsquipped, keep up the fires and mow the lawn. About twice a week I take a stroll, and I sing carol songs aloud, and I sing my household tasks I sculler, so say I. Without hired help my wife is singing "Annie Rooney" and other good old songs of yore, before song writers all grew looney, as she mops the kitchen floor. With hired help my wife is filled with trouble for fear some haughty maid will quit. The pies are burned, the bread is soggy, the meat comes smoking from the stove, and I do not care two jots or tittles what people say of us in town; far better live on ruined vittles than will beneath a servant's frown.

CANADA—EAST AND WEST

Dominion Happenings of Other Days

SURRENDER OF MONTREAL

On the night that General Amherst arrived before the walls of Montreal to lay siege to the place in August, 1760, the French commander called a council of war of all his leaders. Amherst had in all about 17,000 men and he was bringing up from Lachine the cannon with which his force was equipped. The French, however, estimated his force at 20,000 to 40,000 men.

"The council decided that since the militia and many of the regulars had abandoned the army and also most of the French considered it inadvisable to submit to the English. The next day they were carried to Amherst's tent where they were accepted at once, others were modified and some he rejected at once. That which the French officers thought most important was refused instantly. It was that the French forces were to march out with all the honors of war and depart with all their weapons, stores and cannon. His answer was that the whole garrison of Montreal and all the French troops in Canada must lay down their arms and shall not serve again during the present war. But Amherst refused to accept that. He insisted upon the French to sign a parchment to make the French for flagrant violations of the terms of the surrender to make the Indians to commit some horrible cruelties.

There was nothing for the French but acceptance and although the negotiations were drawn out until the eighth of September, the terms were signed and the army surrendered. The whole of the French lands passed into the hands of the British in English ships. Amherst issued orders to make the French settlers and as a result they were safe from any more attacks from the redskins of either army.

BEFORE AND AFTER.

There is nothing new but only before and after. Before you went and after you left me alone; Before is a garden green of roses and After is a gray world, cold as stone. Did I shed my tears and you there to dry them? 'Twas love, love, nobly, oh my nine own. Tears, my beloved! but sweet in your arms, my dear, my dear, my dear. Now you are cold to my sorrow, cold as a stone.

Before—why did I fret, why was I grieving? After—there was enough for each other who had such love. Could you come back to me darling, and be my living? Nothing could hurt me, having you was enough. But it is After—Before is so dim in distance. Not to be counted by days that fled and the years. We lived, we loved, we were glad in another existence. Now it is After: Before is hidden in tears. Katharine Tynan in New Writings.

LIGHTER VEIN.

His Limit. "You refuse to buy me a new costume!" (Bob.) "Yet you make me buy you a new coat and a new pair of trousers!" "But my darling! I never said I'd go through the millinery court!"—Passing Show (London).

Might Be Much Later.

The railroad official invited the stern citizen to communicate his troubles. "I want you to give orders," demanded the visitor, "that the engineer of the express which passes through Elm Grove at 11:55 be restrained from blowing his whistle on Sunday mornings." "Impossible!" explained the official. "What prompts you to make such a ridiculous request?" "Well, you see," explained the citizen, "in an undertone, my pastor preacher until he hears the whistle blow and that confounded express was twenty minutes late last Sunday."—New York Central.

OTHERS MIGHT DO IT.

Acton Free Press.—The council, the municipal officers and numbers of other merchants and citizens are trying to make Acton the next, cleanest, most attractive town in Ontario. "What you all help? Make a resolution that you will hereafter cease that little careless habit of dropping the envelopes off your letters, the wrappers of your papers, the empty candy and fruit bags and those cigarette wrappers on the streets. Pick up occasionally what the other fellows drop, and he'll begin to feel mean and do it himself or not drop it."

Grand Circuit.

Cleveland, Aug. 12.—Today's Grand Circuit card at North Randall was generally conceded to be the greatest ever attempted in the history of harness racing. Seven races, including a \$10,000 stake and two for \$5,000 each were listed. Racing was scheduled to start at noon. The card consists of the championship stables stake for three year old trotters.

HAZARD GUARANTEED NO-FADE GREEN

There is no color in paint so beautiful as a rich, harmonious green—no color more difficult to produce—but none more sensitive to the action of the sun and atmosphere. HAZARD GUARANTEED NO-FADE GREENS are unequalled for painting shingled roofs, blinds, doors, store fronts, poles, fences and structural iron work. They will stick to any surface and are especially recommended for use where a lead paint shows a tendency to peel. Furnished in the following greens:—Light, Medium, Dark, Emerald, Shamrock and Chrome. Put up in from 1 lb. to 25 lb. tins. Color Card and Prices on Application

CANADIAN BANKS.

(Toronto Globe.) No lack of enterprise and forethought is being displayed in the foreign departments of Canadian banks, and the recent establishment of another overseas branch by the Bank of Nova Scotia draws attention to the extensive change in view in regard to that factor. It was not many years ago that some of the Canadian banks looked with but little favor on the foreign field, and felt that the transfer of capital from Canada to branches abroad, would, to a certain degree, check necessary development of business. The war, however, has done much to alter that opinion, and the number of branches established this year has far exceeded the record of any other year. The Bank of Nova Scotia, it might be pointed out, has been one of the pioneer banks in extending its branches to foreign countries. As far back as 1859, the Kingston, Jamaica, branch was established in London, England, this bank making forty-four branches outside of Canada.

SERIOUS CAR SHORTAGE ALL OVER CONTINENT

General Superintendent D. Bowker of the Grand Trunk Railway pointed out last Saturday that there was a serious shortage of cars all over the American continent on account of shortage of labor and material. Cars are not turned out at the same rate as the older ones are scrapped. "Freight cars are moving about twenty-four miles a day in the United States," he said, "and while this is two miles less per day than under the war emergency of 1917, it would not be sufficient to meet the demand of the present requirements of business." "Railway officials who recently met in New York to discuss the matter of the freight car shortage pledged their support to increase the average car movement to at least thirty miles per day.

THE PROBLEM.

Goderich Signal—Dr. Tolmie, dominion minister of agriculture, says that the tendency in farming methods in Canada is downhill, and that \$800,000,000 could be added annually to the wealth of the country by the adoption of more enterprising methods of agriculture. The difficulty is that the farmer, without sufficient help, has to get through the best way he can, and he has no opportunity to adopt methods which would be possible in farm labor were available. "Development of agriculture in Canada up to anything like its possibilities seems to wait upon a solution of the farm-labor problem."

HIGH TAX RATE.

New Toronto taxes for 1920 will be thirty-five mills on the dollar. Last year's rate was forty-two mills, and it was only after radical paring that the council managed to keep the rate down. The council consented to issue debentures for \$67,000 for school purposes, as the school board requested, but that would have been six mills higher.

QUIT TOBACCO

So easy to drop Cigarette, Cigar, or Chewing habit. No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from craving for tobacco in any form, your druggist will refund your money without question. No-To-Bac is made by the owners of Cascares; therefore is thoroughly reliable.

KLIM

Delicious Cakes

When the recipe includes milk, try KLIM—pure separated milk. For cakes, pies, and all cooked dishes, KLIM gives that delicious genuine milk flavor.

KLIM is the food part of pure pasteurized separated milk dried into powder form. In the drying process, only the water is removed from the liquid separated milk. This you replace when making liquid milk.

KLIM will not sour nor spoil and remains fresh and sweet until the last particle is used. One pound makes four quarts of liquid.

One great advantage in using KLIM is that you spoon the dry powder out of the tin and dissolve it in water by simply whipping for a moment just whenever you need it, for cooking, baking, tea, coffee, or cocoa, etc.

Keep an ample supply on hand and you will find it as convenient and economical to use, and the flavor so satisfying, that you will use KLIM in preference.

Your grocer has KLIM in the blue-and-white striped half pound, pound, and ten pound tins.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, AUGUST 11, 1920

U. S. IS TAKING MORE INTEREST IN CANADA

The Work of the Canadian Bureau of Information
More Editorials Dealing with Dominion Affairs — The Assistance of the Canadian and Associated Press.

(By Canadian Press.)
New York, Aug. 11.—The increased interest which the people of the United States are displaying in Canada and Canadian affairs is reflected in the columns of the United States newspapers. The Canadian Bureau of Information during June collected no fewer than 1,700 items concerning the Dominion and the bureau's records cover only twenty-two of the forty-eight states. This number, too, does not include Canadian items published in trade papers and special publications.

Statistics for July are not yet available, but the present indications are that this month will exceed June in the matter of publicity accorded the Dominion by the press of the United States.

A significant fact in connection with this newspaper matter is that the United States editors appear suddenly to have awakened to the fact that their readers are interested in the people and the problems of their big British neighbor. This is shown in the remarkable increase in the number of editorials dealing with Canadian affairs. During June fifty-four editorials of this nature were collected by the Bureau of Information on the papers in the twenty-two states covered. Six months ago—or even more months ago—an editorial on a Canadian topic was but very rarely seen in any publication south of the international boundary. It is probable that during the whole of 1919 there were fewer Canadian editorials in the United States papers than during June of this year.

The record is considered particularly gratifying by the officials of the Bureau of Information because the publicity has not been solicited but is the result of the natural growth of interest in Canada.

"It is due in a large measure to the very excellent reports of events in Canada which are furnished the United States papers through the Canadian Press and the Associated Press," said Col. J. A. Cooper, chief of the bureau, in discussing the question of publicity for Canada the other day. "Some people perhaps imagine that we are running around to the various newspapers asking the editors to print items about Canada as a favor. We are not doing anything of the kind. It is not necessary. The United States editors realize that their readers are interested in Canadian affairs and they are only too anxious to give them the news of the Dominion.

"The new service sent to New York by the Canadian Press and distributed by the Associated Press appears to be meeting the demand, and I believe it largely due to the good work of these two news distributing organizations that Canada is now receiving the attention which is rapidly growing importance as a nation warrants."

"Valuable assistance in making Canada better known in this country has been given by all the New York papers," added Colonel Cooper, "but I would like particularly to mention the New York Sun. The Sun's special Canadian pages are full of interesting and reliable information concerning the Dominion, and

I am told they are one of the most popular features of that paper. Keeping tabs on the publicity which the Dominion receives in the United States is only a small part of the work of the Canadian Bureau of Information. The chief task of the officials of the bureau is the supplying of reliable information concerning the Dominion to New Yorkers who may desire it, and the bureau is under a constant bombardment of questions. These deal with every possible subject. Travelers intending to go to Canada call up the bureau to inquire as to passport and customs regulations; business men wanting to buy or sell in Canada look to the bureau for complete details as to tariffs, banking, or commercial regulations; intending investors inquire about Canadian securities; vacationists ask about trains and hotels in the Dominion.

A record is kept of all of these demands for information and this record shows that New York's interest in Canada has been steadily on the increase every month the value of the bureau to the Dominion has increased.

PRICE OF SUGAR MAY BE LOWER

Hope for a reduction in the price of sugar is sustained by the early reports from the Cuban sugar plantations, which have started their summer harvest. In the Puntalones district the first crop weighed 120,000,000 pounds and 8,500 tons of this was sold at the plantation

for six and one-half cents a pound, a lower quotation than has been accepted for raw sugar for many months. The balance of this crop sold later at eleven cents a pound. It is estimated that the value of the first crop for the entire country this year will be more than \$22,000,000 and the investors are looking forward to a profit of \$10 a bag, or about five cents a pound on all the sugar sold.

WHOLE FAMILY HIT BY SPEEDING AUTO

Mother Dead, Two Children May Die, Father Hurt — Were Crossing Street — Score of Other Victims.

(New York Times.)
In the worst of a series of automobile and motorcycle accidents in the dense Sunday pleasure traffic one little family in Queens almost was annihilated yesterday.

Samuel Abramowitz, who lives in Woodhaven, was crossing the street in front of his home at 121st Avenue, when with his wife and two children to buy ice cream for the family in a little shop across the way. His wife was holding the baby in her arms, while with one hand she clutched the older child, Rose, aged 5. Pleasure cars were speeding past, and the Abramowitzs waited several minutes for their chance to get across. Finally the father thought he saw a safe lull in traffic and gave the signal. They had gone but a few yards when a neighbor suddenly screamed a warning at them. Mrs. Abramowitz stooped and tried to lift Rose to her arms. The father attempted to snatch the baby to safety, but before either they could act a touring car owned by Andrew Storms of 19 Leff Avenue, Union Course, and driven by Frank Phiberg of 1103 Jamaica avenue, Storms' brother-in-law, was upon them.

Not one of the little family escaped. Mrs. Abramowitz was killed instantly. The baby, despite the mother's last frantic effort to clutch it closer to safety, was injured internally and cut about the head and body. Little Rose fared about as badly, getting internal injuries and a fracture of the left shoulder.

Two ambulances from St. Mary's Hospital in Jamaica found the little ones unconscious and the surgeons said, dying. The mother was beyond help. The frantic father alone had escaped with minor injuries. His excited companion necessitated his removal to the hospital. The driver of the auto, excited after the accident, according to the police report, drove the car onto the sidewalk, where already a crowd of women and children had gathered. The police report says the machine plunged into their midst. Several children were knocked down and some received the police report.

There was wild excitement and indignation in the neighborhood, and so great a throng gathered that police officers were hurried out to preserve order while the driver and the car owner were taken to the station. The police report says marine engineers, were held on technical charges of homicide.

WANT HIGHER RATES

Ottawa, Aug. 11.—Two railway presidents appeared before the Dominion Railway Commission this afternoon to support the application for increased rates for a long period of years by men engaged in the exploitation of the mineral and timber resources of Ontario. The charges made are sufficiently specific to warrant the attorney-general in bringing them before the Latchford-Riddell Commission to the end that a searching inquiry be made and evidence secured in liquidate extremely large concessions on certain brands of cotton goods and as these will be guaranteed up to October 15 it is believed that the market will become more stable, thus stimulating demand. Large interests are trying to stop ruinous competition between first hands and speculative holders. Many of the latter have been forced to liquidate in Ontario, where the price of production, whereas leading market factors are endeavoring to increase production and bring about accumulation of goods as the best means of reducing prices.

Duns Review says: Evidence of economic readjustment is varied in character, and recognition of the changed conditions, which for some time past have been in process of development, is now more general. Doubts as to the genuineness of the price reaction steadily diminish as successive weekly and monthly comparisons of wholesale quotations disclose continued yielding, and the sharply increased commercial mortality, as revealed in statistics of failures, is an added indication of the transition that is now in progress, while the rise in railroad freight rates, which has influenced sentiment favorably, may tend to retard the deflation of some prices, yet other elements are operating to depress the markets for different important commodities, and the conviction grows stronger that the lessened requirements are still restricted or practically absent in leading lines, reflecting the disposition of buyers to await further concessions, and the effects of recent cancellations and revisions of orders are now more clearly apparent in the appreciable curtailment of production at many manufacturing establishments.

FEED NERVES PLENTY OF PHOSPHATE IN SUMMER

Keen Minded Men, Energetic and Successful Rely on It, Asserts Prominent New York Physician.

Bitro-Phosphate a Godsend.

Men and women, nervous and fretful, easily upset and often fatigued, need plenty of organic phosphorus, and if they heed this advice the better their health will be.

In every one of the millions of cells that make up your body, phosphorus is a most important part.

Your nervous system, your brain, your blood and even your bones must have a sufficient supply of phosphorus or weakness, nervousness and a general run-down condition, as well as lack of normal mental power is sure to result.

Big men of affairs—mighty men who control industries because of sheer will power and nervous force, know this, or if they don't, they are clever enough to have a physician who does.

Physicians more and more are realizing that Bitro-Phosphate, as dispensed at drug stores, is a necessity to over forty per cent of men and women, because present day foods do not contain enough phosphate to give the body and especially the nervous system the supply it needs.

Speaking on this very subject, Dr. Frederick S. Kelle, Editor-in-Chief of Physicians' "Who's Who," and a nationally known author of medical text books, in a most emphatic statement said:

"If I had my way, Bitro-Phosphate should be prescribed by every doctor and used in every hospital."

Later, Dr. Kelle said: "When the nerve tissue begins to lose its vitality, woman begins to lose her youth and vivaciousness. Her lively, pleasant disposition fades away—she becomes irritable, uncompanionable, moody and despondent. It would indeed be a good thing if more men and women were aware of the efficacy of Bitro-Phosphate."

Hot weather is dreaded by men and women who are weak, thin, nervous, timid and lacking in vigorous development because it saps their vitality almost to the breaking point.

To all such people, Bitro-Phosphate is recommended because it is the organic phosphate which, when absorbed by the system, will supply the element necessary for a vigorous, healthy body free from any suggestion of weakness or disordered nerves.

Your druggist has Bitro-Phosphate in the original package with complete instructions for best results.

Only for ladies who end corns

Dainty shoes are only for those who end corns. Or they pay them. Or they use a treatment harsh and ineffective.

Blue-jay is scientific. This world-famed laboratory created it.

Year after year, it is keeping millions entirely free from corns.

Perhaps half the corns that start are now ended by it.

Ask your druggist for Blue-jay. Learn tonight how much it means to you.

HAS ONTARIO BEEN FLEECEED?

Toronto Globe Urges Investigation of Charges Made by Financial Post.

(Toronto Globe.)
The people of Ontario are determined to get at the truth behind the assertion of the Financial Post that the public life of the province has been debauched for a long period of years by men engaged in the exploitation of the mineral and timber resources of Ontario. The charges made are sufficiently specific to warrant the attorney-general in bringing them before the Latchford-Riddell Commission to the end that a searching inquiry be made and evidence secured in liquidate extremely large concessions on certain brands of cotton goods and as these will be guaranteed up to October 15 it is believed that the market will become more stable, thus stimulating demand. Large interests are trying to stop ruinous competition between first hands and speculative holders. Many of the latter have been forced to liquidate in Ontario, where the price of production, whereas leading market factors are endeavoring to increase production and bring about accumulation of goods as the best means of reducing prices.

Duns Review says: Evidence of economic readjustment is varied in character, and recognition of the changed conditions, which for some time past have been in process of development, is now more general. Doubts as to the genuineness of the price reaction steadily diminish as successive weekly and monthly comparisons of wholesale quotations disclose continued yielding, and the sharply increased commercial mortality, as revealed in statistics of failures, is an added indication of the transition that is now in progress, while the rise in railroad freight rates, which has influenced sentiment favorably, may tend to retard the deflation of some prices, yet other elements are operating to depress the markets for different important commodities, and the conviction grows stronger that the lessened requirements are still restricted or practically absent in leading lines, reflecting the disposition of buyers to await further concessions, and the effects of recent cancellations and revisions of orders are now more clearly apparent in the appreciable curtailment of production at many manufacturing establishments.

TRADE SITUATION

Markets Extremely Unsettled as Result of European Developments.

(New York Evening Post.)
The great unsettlement and uncertainties recently prevailing in the principal markets have been further complicated by the extremely serious political developments in Europe, which have caused great disturbance in foreign markets and a sharp drop in exchange rates. Unsatisfactory domestic conditions, especially with regard to money and transportation, have shown little or no improvement. Conditions in the iron and steel industries have continued unsettled as demand has been dull and traffic conditions are extremely bad. Speaking broadly, conditions in textile circles show no change of moment. When prices are right it is said that retail business is good, but attempts to dispose of goods at recent high figures are futile. Mills have named lower prices on certain brands of cotton goods and as these will be guaranteed up to October 15 it is believed that the market will become more stable, thus stimulating demand. Large interests are trying to stop ruinous competition between first hands and speculative holders. Many of the latter have been forced to liquidate in Ontario, where the price of production, whereas leading market factors are endeavoring to increase production and bring about accumulation of goods as the best means of reducing prices.

Duns Review says: Evidence of economic readjustment is varied in character, and recognition of the changed conditions, which for some time past have been in process of development, is now more general. Doubts as to the genuineness of the price reaction steadily diminish as successive weekly and monthly comparisons of wholesale quotations disclose continued yielding, and the sharply increased commercial mortality, as revealed in statistics of failures, is an added indication of the transition that is now in progress, while the rise in railroad freight rates, which has influenced sentiment favorably, may tend to retard the deflation of some prices, yet other elements are operating to depress the markets for different important commodities, and the conviction grows stronger that the lessened requirements are still restricted or practically absent in leading lines, reflecting the disposition of buyers to await further concessions, and the effects of recent cancellations and revisions of orders are now more clearly apparent in the appreciable curtailment of production at many manufacturing establishments.

Game Did Not Work

On last Thursday afternoon on the Fair grounds at Alexandria, Ont., an attempt was made to sell a large quantity of sealed liquor brought into the village by a man from Montreal. Angus McDonald, license inspector, heard of the presence of the man and sent Chief of Police Seger and his staff to investigate. The car contained considerable sealed liquor, which was confiscated and will be sent to the License Commission in Toronto. The alleged seller was brought before the magistrate and fined \$1,200 and costs.

HON. M. W. DOHERTY ON THE EMBARGO

A Challenge to Sincerity of British Government on Cattle Question.

Guelph, Ont., Aug. 12.—A challenge to the sincerity of the British government in maintaining the embargo placed many years ago on the importation of Canadian cattle on account of disease, was thrown down by Hon. Manning W. Doherty last night at the close of a lengthy speech, following a dinner given the Imperial Press Conference delegates by the Ontario Agricultural College.

Mr. Doherty said that the suspicion of pneumonia in Canadian cattle had long since been wiped out and the health of Canadian cattle proved. The British government had promised that the embargo on importation into the British Isles would be removed at the end of the war when space would be available on transatlantic steamers. The fact that the embargo was still maintained suggested a measure of protection for British cattle growers.

He asked that the protection be afforded the British cattle dealer in the shape of a tariff and the sur on the quality of Canadian cattle removed.

FALLS FIVE STORIES FROM BLAZING LOFT

Thousands See Trapped Clerk Crash Through Glass Canopy, Missing Firemen's Net—Spark Ignites Celluloid.

(N. Y. Times)
A crowd of several thousand which gathered when smoke poured from the upper floors of an eight-story loft building at the north-east corner of Lafayette and Walker streets, saw a man hang for nearly five minutes from the ledge of a fifth-floor window and then drop through a steel-framed glass canopy over the building's entrance, missing by a few feet a net which firemen had hastily got into place. He suffered a fractured skull and internal injuries.

As the flames burned through the fifth and sixth floors, licking up a store of celluloid in the loft occupied by the Universal Merchandise Company on the fifth floor, the noon hour throng of factory and office workers looked for a repetition of the terrors of the Triangle fire. They saw the man fall to the street and looked for others to follow, but police and firemen soon learned that all of the 100 or more workers on the upper floors had escaped, leaving Benjamin Finkel, 21 years old, an assistant shipping clerk, trapped in the rear of the fifth floor.

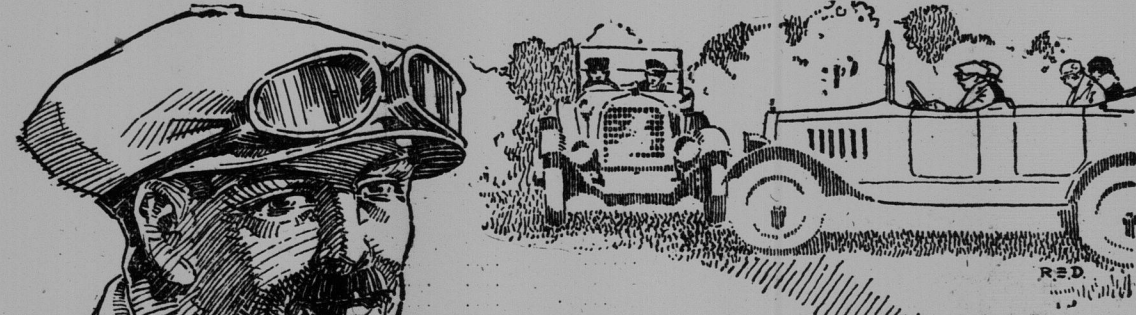

Unable to reach the fire escape on the Walker street side of the building Finkel apparently followed the north wall around to the front. The intense heat and thick smoke drove him back out the window, from which he hung while those below were powerless to help him. Finally the flames reached the window and he was forced to drop.

Those who witnessed his plunge turned their heads away when they saw that its course led directly into the canopy, fastened on both outer ends with two sharp spiked iron standards. But Finkel missed these and the resistance of the shattered glass broke his fall.

He was taken to Volunteer Hospital in an automobile, where it was said last night that his condition was favorable.

As Finkel was falling, firemen of Engine 31 had reached the sidewalk with a crisis of onlookers after a member of the engine company from the firehouse at Lafayette and White streets, dispatched the apparatus. A first alarm of fire was turned in, bringing other apparatus, and then a second alarm which called deputy chief "Smokey Joe" Martin.

The flames spread rapidly to the sixth floor, occupied by the Lufkin Rule Company, manufacturers of tape measures. According to chief Martin, the rapidly sweeping flames had their source in a large stock of celluloid and inflammable material.

A Perpetually Neat Collar for Motorists

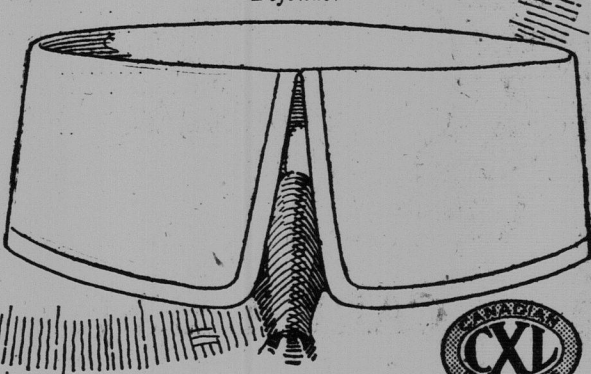

A collar that once soiled by the dust of the road is instantly cleaned. The problem of clean collars is one the motorist has to contend with, whether on a trip or around town, and

Challenge Cleanable Collars

dispense with all worry on this score. A damp cloth instantly gives a clean collar. Motorists everywhere are adopting Challenge Cleanable Collars. They cannot be told from linen collars, they wear longer, never fray or wilt, and eliminate all laundry bills. Made in all the newest styles and heights.

QUEBEC SURPLUS

Quebec, Aug. 12.—(Canadian Press)—The Hon. W. G. Mitchell, provincial treasurer, announced at the government offices yesterday that the ordinary receipts of the Province of Quebec for the fiscal year ended June 30, 1920, amounted to \$14,472,650.87 and the ordinary expenditure amounted to \$13,520,740.87. The surplus of ordinary receipts over ordinary expenditure is \$951,910.00.

A London landlord who advertised a four-room flat at a rent of \$8 a week awoke in the morning to find 600 applicants outside his door.

ALASKAN TIMBER WELL SUITED FOR MAKING PAPER.

Could Supply Half U. S. Requirement—Water Power and Transportation Available.

The timber on the Tongass National Forest in Alaska is said in a report issued by the United States Forest Service to be of particular importance in connection with the paper situation. It is estimated that there are about seventy billion board feet in Sitka, spruce and western hemlock well suited for paper making. The timber is located in a comparatively narrow belt along some 1,200 miles of coast line. Water power is available, as is also deep water transportation from numerous mill sites.

It is estimated that the cut from this region alone would insure a perpetual supply large enough to meet one-half of the present newspaper requirements of the United States. Alaska is one of the centres to which the newspaper industry of the United States should look for a large future development, says the report. The same is true of centres in pulp wood supply are now almost wholly undeveloped. Much of this timber is in the national forests.

To bring about properly the development of the pulp and paper industry in new regions of abundant timber supplies the report recommends a comprehensive survey to furnish exact information upon the stand and location of suitable timber and other needed data.

CHILDREN'S BARBER SHOP, OAK HALL, WILL CLOSE FOR REPAIRS

Oak Hall wish to announce that, starting next Monday, their children's hair-cutting shop, 4th floor, will be closed for several days for renovations. Oak Hall make this announcement in advance so that their patrons can anticipate their children's tonsorial needs and have them attended to before one o'clock on Saturday.

THE SILVER YOU PRIZE

Your silver should be cleaned gently—with much care—with soft cloths—with a smooth, creamy polish that will not mar its brilliant finish.

IDEAL SILVER CREAM

Preserves the beauty of your silver. It can neither scratch nor stain; it will not stick in the chasing. Smoothly, gently but surely it removes all tarnish. It is the Ideal Silver Polish.

IDEAL SILVER CREAM is also invaluable for cleaning cut glass, gold plate, mirrors, brasses, copper and statuary.

At Your Dealers.

Vote to Continue Strike.

Denver, Colo., Aug. 12.—Striking employees of the Denver Tramway Company voted 771 to 36 against calling off their strike and returning to work under conditions named by the company following a conference with Major Gen. Wood Tuesday.

MAINE'S APPLE CROP.

State Horticulturist Frank H. Dudley states that at the present time, an account of a bad June drop, he does not think that Maine will get over 50 per cent of a normal crop of apples. He also predicts that with barrels costing over \$1 each—on account of the high cost of labor—that many more seconds will be sent out in bulk this year than last.

Thirteen full-ripe, large and luscious blueberries on one twig of a blueberry bush not more than three inches high were gathered by a Worcester woman in a Rutland pasture.

MUTT AND JEFF—THE LITTLE FELLOW HAS A FINE EYE FOR DISTANCE By "BUD" FISHER

THE SENATORIAL RACE HERE IN NEW YORK IS INTERESTING, JEFF, ISN'T IT? THESE MEN ARE EAGER FOR THE CHANCE TO SERVE THEIR CONSTITUENTS!

QUITE SO, QUITE SO!

IT'S A GREAT HONOR TO BE A SENATOR, AND NOT ONLY THAT BUT \$7,500 A YEAR AIN'T A BAD SALARY. AND OF COURSE THEY GET MILEAGE!

THEY'RE ALLOWED 20 CENTS A MILE AIN'T THEY?

RIGHT! JEFF, IF YOU COULD BE A UNITED STATES SENATOR, WHAT PART OF THE UNITED STATES WOULD YOU LIKE TO REPRESENT? NEW YORK, OHIO, PENN.

MUTT, AN IMPORTANT QUESTION LIKE THAT REQUIRES SOME THOUGHT! I'LL HAVE TO THINK IT OVER!

MAP OF NORTH AMERICA.

I'D LIKE TO REPRESENT ALASKA, MUTT! JUST THINK OF THE BLOOMING MILEAGE!

Sport News of A Day; Home and Abroad

BASEBALL

American League. New York made it two straight from Cleveland yesterday. Cleveland scored four runs on a home run by Smith with the bases filled in the third. Beatty weakened a bit in the fifth and sixth, and a misplayed fly let New York tie the score. May's batting was a feature, as he drove in one run in the fifth with a double and started the winning rally in the tenth with another two bagger. Ruth dislocated his right knee in the first inning, sliding into second base and had to be carried off the field. Muscular, who took his place, scored the tying run and drove in the winning run. New York, Cleveland, 4; Boston, 6; St. Louis, Philadelphia, 4; Detroit, 4. Chicago made it four straight from Washington yesterday when Erickson weakened in the seventh. Washington, 1; Chicago, 2. Harper kept St. Louis in check for seven innings yesterday, while Boston aided timely hitting with Sober's wildness and errors by Gerber and Smith to defeat St. Louis. Boston, 6; St. Louis, 1; Chicago, 2.

American League Standing table with columns for Team, Won, Lost, P.C.

National League. The Giants continued their dash to first place yesterday by winning games of a double-header from New York. Benton and Glas pitched fine ball for the Giants. In the sixth inning of the second game Douglas faltered and was touched for five hits. Spencer, formerly of Toronto, in the Giants' half tripled with one on bases and scored on Doyle's fly. Pittsburgh, 1; New York, 3; second game, Pittsburgh, 3; New York, 6. Brooklyn and Chicago divided a double-header in Brooklyn yesterday. Cited fans heaved pop bottles at Umpire Quigley in the seventh inning of second game when he declined arguing. Dodgers on a close decision at the plate. Chicago, 2; Brooklyn, 2. Second game, Chicago, 4; Brooklyn, 3.

National League Standing table with columns for Team, Won, Lost, P.C.

International League. Akron, 11; Jersey City, 2. Second game, Akron, 3; Jersey City, 1. (Seventh inning agreement.) Buffalo, 4; Baltimore, 5. Second game, Buffalo, 7; Baltimore, 11. Toronto, 0; Reading, 4. Second game, Toronto, 5; Reading, 0. (Called seventh inning.)

International League Standing table with columns for Team, Won, Lost, P.C.

"Babe Ruth" Vacation. Cincinnati, Aug. 12—Judge Edward T. Dixon of the Common Pleas Court is out to go on a vacation. One of his neighbors asked him how long he intended remaining away. The judge replied: "Dunno; depends on Babe Ruth."

tended remaining away. The judge replied: "Dunno; depends on Babe Ruth." "What cities will you visit?" "Dunno that either—also depends on Babe Ruth?" "Will you get to New York?" "Yes, I might, then again I might not—that's up to Babe Ruth, too."

Warning to Ball Players. The M. P. B. A. U. of C gives notice that any ball player who goes with the team to Portland, St. Stephen and Fredericton is warned that by doing so he will forfeit his amateur standing.

MARKSMEN HAVE POOR WEATHER FOR MATCHES. Sussex, N. B., Aug. 11—Weather conditions were most unfavorable for the marksmen on the rifle range today. The severe storm and heavy downpour of rain made it impossible to shoot this forenoon. The fog was so thick that it was struck by lightning and splintered to pieces. Two or three men standing near were stunned and one man escaped from death. This afternoon two matches were shot under trying difficulties, the light was very bad and the rain made it impossible to shoot this forenoon.

Grand Circuit Meet. The results of the opening events of the grand circuit racing in North Brantford, Cleveland, yesterday are as follows: First division 2:12 trot won by Lady Wilgus, best time 2:09 1/4; second division 2:12 trot won by Walnut Friend, best time 2:07 1/4; the American Sportsman three year old race won by Princeps Mary, best time 2:08 3/4; first division 2:12 pace won by Frank Little, best time 2:08 1/4; second division 2:12 pace won by Lillian S., best time 2:04 1/4.

PERFECTING PLANS FOR RACES HERE. As evidence of the local support which is being given the Maritime Racing Association the Royal Hotel, through Kenneth Raymond, the manager, yesterday offered to guarantee the \$500 purse offered for the free-for-all pace at the first meeting at Moosepath Park on Aug. 26, 27 and 28.

TEXTILE MILLS NOT AT CAPACITY. British Labor Situation Bad—Prices Higher, Says F. H. Yapp. Frederick H. Yapp, secretary of the Canadian Woolen Manufacturers' Association, arriving on the White Star liner Adriatic, after a business trip to England, France and Belgium, during which he looked over the wool situation and closed large contracts for finished goods from Canadian mills, said, on Monday, in New York:

"In the textile districts of Great Britain the mills are operating at about 75 per cent. capacity. Spring prices are higher. The small decline in the raw market was for the moment only. English manufacturers are confident of the future. At the London wool auction about 35 per cent of the material was withdrawn because they refused to let it go at prices offered. There seems to be plenty of wool, but the prices of better grades will remain up. The labor situation is bad. However, believe manufacturers will come to terms with operatives because the mills cannot afford to lose the business. Agreements with operatives expired July 31, and now they are asking 40 per cent. increase over present wages, which are 120 per cent. above pre-war rates. They are offered 25 1/2 per cent. advance over pre-war wages. Operatives are asking full pay for all legal holidays and one additional week. The mills of England have made more money than the refiners, while in America the opposite is true. It is the general belief that Germany need not be feared as a competitor during the present generation. She is trying to market paper goods for clothing at about four times a yard. However, it is of little value of wear. Belgium is slackening a little in the textile line now, although she came back rapidly after the war."

CANADIAN OIL PRODUCTION. More than ninety per cent of the production of crude petroleum in Canada is still obtained from the old oil fields

You can pay more than 7c for a cigar but you can't get a better cigar than the Pippin.

We claim it's the best 7c cigar in the land. Four of them cost a quarter.

This afternoon two matches were shot under trying difficulties, the light was very bad and the rain made it impossible to shoot this forenoon.

Grand Circuit Meet. The results of the opening events of the grand circuit racing in North Brantford, Cleveland, yesterday are as follows: First division 2:12 trot won by Lady Wilgus, best time 2:09 1/4; second division 2:12 trot won by Walnut Friend, best time 2:07 1/4; the American Sportsman three year old race won by Princeps Mary, best time 2:08 3/4; first division 2:12 pace won by Frank Little, best time 2:08 1/4; second division 2:12 pace won by Lillian S., best time 2:04 1/4.

TEXTILE MILLS NOT AT CAPACITY. British Labor Situation Bad—Prices Higher, Says F. H. Yapp. Frederick H. Yapp, secretary of the Canadian Woolen Manufacturers' Association, arriving on the White Star liner Adriatic, after a business trip to England, France and Belgium, during which he looked over the wool situation and closed large contracts for finished goods from Canadian mills, said, on Monday, in New York:

CANADIAN OIL PRODUCTION. More than ninety per cent of the production of crude petroleum in Canada is still obtained from the old oil fields

Thirty Dollars and Its Application Towards a Suit

Surprising what \$30 will do here in the way of a suit for men. More will do more, naturally, but \$30 here means more than in other stores in higher rent districts.

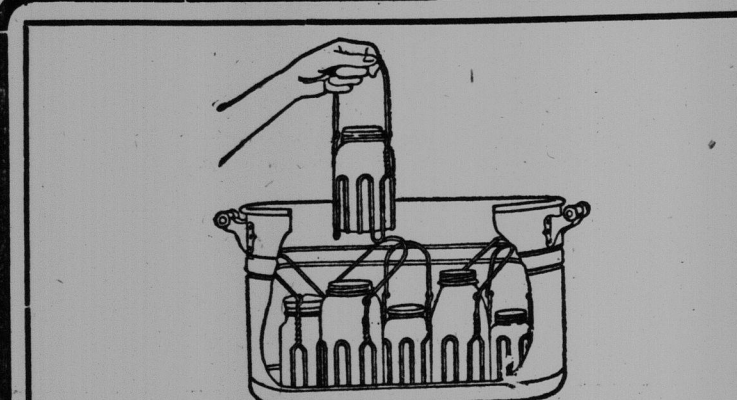

This "out of the high rent district" isn't a mere play on words, but it effects an actual saving in money, as men all over town will testify.

LOCAL NEWS

THE TRAINS
The Boston train was fifteen minutes late this afternoon and the C. P. R. one hour behind the schedule.

FOR THE LUDLOW
Boiler tubes for the ferry steamer Ludlow arrived yesterday and are being placed in the steamer, which is undergoing the usual summer overhauling.

DEATH OF CHILD
Friends of Mr. and Mrs. Harry McCarthy, of 289 Newman street, will be sorry to learn of the death of their five months old daughter, Mary Florence, which occurred early today.

HELD UP
A Prince William street car and a Fairville car were stalled in Duke street this morning for more than ten minutes while workmen were engaged in running an iron girder into the new wing of the Victoria school.

GUILDFORD DEFEATED
The "Victors" defeated the Guilford Streets in a game of baseball on Queen square diamond on Tuesday night. The batteries were—For the "Victors," Leonard and Phillips; for the losers, A. Craig and N. Mahoney.

BANK CLEARINGS
The bank clearings here for the week ending today were \$2,460,877. For the corresponding week last year they were \$2,687,541 and in the same week in 1918, \$2,840,028. Moncton bank clearings this week were \$31,716.

BOARD SECRETARY HOME
R. E. Armstrong, secretary of the board of trade, returned this afternoon from Ottawa, where he had been viewing Hon. J. D. Reid with regard to the proposed increase in railway traffic and transportation rates.

THE RAINFALL
During the night the rainfall continued and the total fall up till noon today was 2.9 inches. The storm, which began the night before last, has done more rain than has fallen since the storm in May when rain, snow and sleet combined to make a fall of more than four inches.

AT BAY SHORE
Work of constructing a septic tank at the foot of Sea street, Lancaster, is now well under way and will probably be completed before September 18, so Commissioner O'Brien said this morning. The contract cost for the work is in the vicinity of \$5,000.

NO WORD YET
Commissioner Frink said this morning that he had received no word regarding the combined motor sprinkler and street sweeper which was ordered by his department. The order passed through the common council on June 15 with the understanding that delivery would be made within six weeks.

THE NEW HOUSES
Good progress is reported in the construction of houses by the county housing board at McKel street and at Champlain street. There are six now ready for occupation in McKel street, with another well under way. Five in Champlain street are receiving their finishing touches. It is said by members of the board that there have been applications for the buildings.

VACCINATION
The vaccination of school children was begun this afternoon in the office of Dr. Mabel Huntington, in the Ritchie building. These vaccinations are free and compulsory for all school children who have not been vaccinated. There will be more than 600 vaccinations to be made before the opening of the schools. It is expected that the medical officer hopes that as many as possible will have it done early so as to lessen as much as possible the final rush.

ALL BETTER
All cases of smallpox in Chipman and vicinity have been completely cured and there is no case of that disease in the southern district of the province now. It is the report made by Dr. Warwick, sub-district health officer, who returned from Chipman last night. There were several cases of smallpox in the Chipman district at one time, all confined to two families and all contracted from one person from Quebec, who was visiting relatives at Chipman.

HOME FROM ANNAPOLIS
Hon. J. B. M. Baxter, M. P. P., returned home last evening from Annapolis, where he was attending a reception of the Annapolis Historical Society. The function was held in the old fort and members and friends had an opportunity of visiting the museum, which was lately assembled by L. M. Fortier, who recently retired from the immigration service, and will now devote his time looking after collection and to historical research. At a special meeting of the society, presided over by Chief Justice Harris, Dr. Baxter delivered an interesting address on Maritime Union.

TILTING AGAIN IN COMMITTEE

There was a lively tilt at words between some of the city fathers at a committee meeting in city hall this morning, when Commissioner Frink drew attention of the board to the fact that he had been the first to arrive for the meeting. His remark that he was at the committee room first and that he had to wait some time for the others to arrive was questioned by Commissioner Bullock, who said that he was also at the committee rooms on time and that he used his watch for guidance and not the clock over the old post office.

When both Mayor Schofield and Commissioner Thornton said that the commissioner of public works was wasting the time of the committee, Commissioner Frink denied this vehemently and said that he had a right to speak fifty times if he so desired. When quiet had returned, the usual routine matters were considered.

FREDERICTON MARKETS
Gleaner, Wednesday: Prices were about the same as last week with eggs selling for 65 cents and butter the same. Potatoes sold at 90 cents a peck early in the morning and about 11 o'clock dropped to 80 cents. Other prices were about the same. The ruling prices were as follows: Eggs, 65 to 70 cents; butter, 60 to 65 cents; potatoes, per peck, 80 to 90 cents; potatoes, per barrel, 85 to 90.

ENGAGEMENT ANNOUNCED
Mr. and Mrs. G. W. Slipp, of Woodstock, have announced the engagement of their daughter, Maude Louise, to Donald Raymond Manser, manager of Bank of Nova Scotia, Channel, Newfoundland, the marriage to take place Thursday afternoon, August 19.

CASH AND BONDS STOLEN FROM STORE

Burglary at Frank E. Jones' Electrical Supply Premises in Germain Street.

Frank E. Jones' electrical supply store, 124 Germain street, was broken into some time on Tuesday night or early Wednesday morning and more than \$100 in cash and several stock certificates and bonds were stolen; the safe was not blown open, but unlocked by some one who knew, or overcame the combination. Mr. Jones said that his private papers were all stolen, envelopes opened and the contents scattered about. So far as he can remember, he said, he had \$68 or \$78 in American currency and about \$80 in Canadian currency in addition to bonds and some stock certificates.

The burglar forced the lock of the front door and, after completing his task inside, fastened it on again with the elastic bands. It was not until Wednesday morning that the break was discovered. George Sterling, an employe, upon arriving to open up discovered the broken lock and upon entering saw the safe and papers strewn over the floor. The police were notified and have since been working on the case. The police did not know about the break until this morning, as he was absent from the city. He is offering a reward for the return of his private papers, which are of value to him in his business.

A FOOTBALL MATCH BUT NO SPORT SERIES

Entries Not Sufficient for Saturday Afternoon to Make Good Competition.

The programme of sports to have been held on Saturday afternoon on the East East grounds under the auspices of the Commercial Club, have been called off by A. W. Covey, chairman of the committee, owing to a lack of entries. There were not enough athletes interested and as a result many of the events had no entries and others not sufficient to make good competition. However, there will be a football match between two local teams composed of English and Scotch players and a keenly contested game is anticipated.

MORE TRUCKAGE IN THE PETTINGILL WHARF VICINITY

It is understood that the C. N. R. will begin laying rails for more truckage in the vicinity of the Pettingill wharf as soon as the necessary arrangements are completed with the city. This will enable the C. N. R. to do more business, and do it more rapidly on the wharf side of the harbor front.

The appraisal of the brick-enclosed warehouse on McLeod wharf, occupied by T. McLaughlin & Sons, Ltd., which was made last week by two disinterested business men, has been sent to the management of the C. N. R. at Moncton, and it is expected that action will be taken by the railway authorities within a week. It is thought the building will be razed to provide the additional track area at the wharf front.

MARRIED IN SEATTLE

A very pretty wedding took place at the University Episcopal Church, Seattle, on August 4 at 7 p. m., when Miss Jennie A. Shanks, eldest daughter of Mr. and Mrs. Samuel A. Shanks, of 460 Douglas avenue, St. John, was united in marriage to Albert L. Colson, formerly of Strassburg, Nebraska, but now of Seattle, Rev. H. C. Freeman, D. D., performed the ceremony in the presence of friends and relatives of the bride and groom.

The bride was given in white duchess satin with over-lace and pearl trimmings and wore a bridal veil caught up with orange blossoms. She carried a bouquet of American Beauty roses. The bridesmaid was Mrs. Hazel Rhoades, sister of the groom. She was dressed in pink silk taffeta with black picture hat, and carried a bouquet of sweet peas.

The ring bearer was Master Donald Rhoades, who carried the ring on a rose. Senor Tito was best man. After a reception held at the home of the groom, Mr. and Mrs. Colson set out for a trip to Portland, Oregon, and Spokane, Wash. The bride's traveling suit was navy blue with a white satin hat and white fox fur. On their return they will live at 2812 Eastlake avenue, Seattle, Washington.

FIRST AID CLASSES

Beginning next week, S. A. Gidlow, general secretary of the C. P. R. Centre, St. John Ambulance Association, with his assistants will begin classes, first aid for C. P. R. trainmen of this division. They will remain several weeks, and all trainmen will be given an opportunity to qualify themselves for giving first aid to the injured in any case of accident. The teaching is simple and practical, as was demonstrated when Mr. Gidlow was here on a similar mission some years ago. Mr. Gidlow and his assistant instruct men not only in the best use of prepared appliances, and how to make use of what they usually carry on their own person, such for instance as pocket handkerchiefs, mufflers, braces, belts, neckerchiefs, neckties, walking sticks, etc., with which to treat broken limbs, to arrest severe bleeding, in fact to treat any accident in an intelligent manner until the arrival of the doctor. It is expected all trainmen will welcome the opportunity to take the simple but very valuable course.

POLICE COURT

In the police court this morning Walter McCann and Walter Morris were charged with wandering about Chapel street and not being able to give a satisfactory account of themselves. They both pleaded not guilty. Sergeant Journey testified that about 11.45 last night he saw them travel along to Long wharf to Main street, then go up as far as Portland street. There, he said, they saw him and went into Acadia street. Here he lost track of them, but later saw them in Chapel street and placed them under arrest. They were remanded.

Herbert McDonald charged with assault upon his mother-in-law, Mrs. Rose Allen, pleaded not guilty and was remanded.

Upon putting up a deposit of \$208 for his appearance in court tomorrow afternoon at two o'clock, William Bell was allowed his liberty.

One man arrested on a drunkenness charge was remanded.

Out-of-Doors Yet Safe from Harm!

Nature works the same with the child as with the plant. Transplant a flower from your garden and bring it indoors, away from the air and sunshine and watch it lose its strength and beauty.

A baby, like a plant, needs all the fresh air it can get during the summer. Don't keep the little one indoors these nice days when for a few dollars you can purchase a Kiddie Koop in which you can leave the baby on the porch or in the yard without fear of it toddling into danger.

Think of the time you, mother, will save in a day if you can attend to your household duties without interruption and leave the child in the fresh sunshine with its toys.

We have a complete line of Children's Furniture which will minimize the time you must spend with the baby, and we shall be glad to demonstrate any of these articles at any time.
