## MAR 21 1915

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, MARCH 21, 1915

### GOOD THINGS COMING TO THEATRES OF ST. JOHN

#### NEW VAUDEVILLE AT OPERA HOUSE

The new vaudeville programme opening at the Opera House tonight offers Cushing and Irene in a comedy, "Thrown Out," with smart songs and dancing; George Back, premier xylophonist and pianist; The Ferraros in comedy acrobatic novelty; Billy Holter, the happy tramp; Bartley and Dana in a lively comedy sketch, "Flying High," written for laughing purposes only; and for a picture, the opening chapter of the new Pathé serial, "The Terror of the Range," a dramatization of popular magazine story, with Betty Compton and George Larkin in the principal roles. This evening at 7.30 and 9, tomorrow afternoon at 2 and 3.30. Popular prices.

#### GOOD PICTURE AT PALACE

Tonight and all Saturday The Palace Theatre offers an exceptionally strong programme including "The Fight for Millions" serial, "A Stinger," western, in two acts; "Mutt and Jeff" in a comedy cartoon by Bud Fisher; a George Ade comedy drama in two acts, and a new comedy by "Fokes and Jabs," two good comedians in a fast slapstick afternoon at 2 and 3.30. Popular prices.

#### INCREASE TAX ON CHILDLESS FLATS

##### Drastic Measure Suggested to Overcome Ban on Kiddies

The ban on children continues to exist in some landlord circles and the matter is taking on a rather serious aspect. A father of a family of three little ones told the Times today that he will probably have to seek employment in another city, although he has a well established business connection here. "I am being continually refused suitable quarters," the man said with some heat, "because of my three children. These funny property owners are actually driving people out of St. John. If I stay here it looks as if I will have to live in a tent."

It is understood a number of influential residents are discussing the idea of petitioning the council to have legislation introduced at Fredericton amending the New St. John Assessment Act to provide a surtax on all rental residential properties where children are barred.

This will at least have one of two results; either the breaking down of the restrictions or of housing rents so high on childless families that a mild form of revolution will follow. Another effect might be the encouragement of more and better residential construction.

#### ALBERT J. BROOKS

The death of Albert G. Brooks took place in Portland, Maine, March 17. He had been ill but a few weeks and died from pneumonia. A word of his death was received by Mrs. Elizabeth Myers of this city. Mr. Brooks leaves his wife who was formerly Miss Edith Myers of this city, and his father, who lives in Berkeley, California. The sincere sympathy of the friends of the family is extended to the bereaved ones.

MRS. ELIZABETH A. HIRLE, aged fifty-six years, died at the home of her brother, Arthur N. Friars, Ward's Creek, near Sussex, early yesterday morning. She was for twenty-six years matron of the nurses' home in connection with the State Hospital, Rochester, Mass. She resigned her position about three years ago and went to Sussex to live with her brother. She was highly respected and many will miss her death with regret.

Divorce is the bothersome corn on matrimony's toe. How to get rid of it is explained by William Fox in his production, "The Strange Woman," now at the Imperial Theatre, Monday and Tuesday.

The many friends of Mrs. L. Patriquin, who is in the General Public Hospital, having successfully undergone a serious operation, will be very much pleased to hear that she is resting comfortably.

Captain and Mrs. J. L. McKinney are leaving this evening for Boston, where they will visit friends.

Those who returned from Montreal at noon today.

Mrs. Percy W. McAvity returned from upper Canada on today's train. Mr. Edw. Hogan, Coburg street, has returned from Brantford.

The case of Murray Chase who is charged with breaking and entering the MacAvity grocery store at the corner of Wentworth and Queen streets on November 4, 1914, was resumed in the police court this morning. Evidence was given by a lad whose name is Horace Garland, this lad was tried last fall for the offence in a higher court and was acquitted. He told the court that a lad came up to him when he was standing on the corner and started to talk. "In a few minutes," he said, "I can make cents into dollars. You stand here and I will do the dirty work." The accused could not be exactly identified in court but the witness said he thought it was the same fellow. The case was adjourned until a later date. At the close of this case the accused escaped from custody. Every effort is being made to catch him, and it is expected that before the day is over he will again be in the hands of the police.

Mayor Hayes has received a request from Kingston, Ont., asking him to vote for the holding of the next meeting of the union of Canadian municipalities at that place. The letter points out the advantages of Kingston and its central location. It is understood this upper Canadian city is making a strong bid for the next meeting of the union and is conducting a canvass towards that end.

C. P. R. BANQUET  
The third annual banquet of C. P. R. officials and employees will be held in Montreal tomorrow evening at the Ritz Carlton Hotel. Officials and employees from all over the system, from the Atlantic to the Pacific coast, will be present. The function is one of the features of the year and there will be more than 400 in attendance. C. C. Kirby of the local C. P. R. headquarters and General McLean of this city will be in attendance.

HOSPITAL SHIP  
The hospital ship Argus is due to arrive in Portland this afternoon with about 100 troops on board. If the boat arrives on time and docks this afternoon, it is presumed that her passengers coming to New Brunswick will arrive on the Boston train tomorrow. It is expected, however, that the New Brunswick men will go to Fredericton and not come to St. John, but the Nova Scotia men will go through St. John on their way to Halifax.

### FROM THE FIRST DOSE

#### Hood's Sarsaparilla Begins Its Reconstruction Work.

First, it creates an appetite. Second, it aids digestion. Third, it perfects assimilation. Fourth, it carries 10 per cent of the nourishment in the food you eat into the blood and the body, thereby enriching and vitalizing your blood, which in time renews your strength and builds up again your reserve strength and vitality.

This makes Hood's Sarsaparilla one of the great remedies of the world. From the first dose you are on a definite road to improvement. It is of inestimable value just now to restore the health and nerve force so greatly exhausted by war excitement, the grip and influenza epidemic and the changing season. It is the right medicine for you this spring. Get a bottle today.

And if you need a mild, effective cathartic, get Hood's Pills.

### TROJA'S CREW HAD TERRIBLE EXPERIENCE

Many of the twenty-seven men of the British steamer Troja, who arrived here last evening on the government steamer Aberdeen, never expected to see St. John again, at one time during the height of a stiff blow Tuesday night, when they were assembled for safety on the bridge of their stranded ship. The vessel and cargo are a total loss, the tide rising and falling freely through a great hole in the hull under the boiler room, forward of amidships.

The Troja, Captain John Calne, while bound from Leithburg (N. B.), with a cargo of about 8,000 tons of coal for R. P. & W. F. Starr, of St. John, was carried on to Old Proprietor Lane on board about 10.30 o'clock Tuesday forenoon. A dense fog and heavy southwesterly wind prevailed. The vessel began to pound heavily and as the ship's boats would not live in the sea the outlook was decidedly blue. The men on the stranded craft were not rescued until twenty-four hours later, when Whitehead fishermen from Wood Island life savers gallantly went to the rescue.

The steamer had a good passage from Leithburg until she passed Cape Sable, Seal Island. Then heavy fog was encountered Monday night and at times it was difficult to see any great distance from the vessel. The steamer reduced her speed, and Captain Calne endeavored to pick his way cautiously through the mist and turbulent seas Tuesday afternoon, but a strong current and a high southeasterly wind set him out of his course. At 10.30 during a rapidly rising tide, the Troja piled up on a boulder of Old Proprietor Lane, the most hazardous spot on the Atlantic coast, and where many staunch vessels have met their doom with the loss of many lives.

The jagged rock punctured the vessel's bottom for a considerable distance, apparently in his way cautiously through the mist and turbulent seas Tuesday afternoon, but a strong current and a high southeasterly wind set him out of his course. At 10.30 during a rapidly rising tide, the Troja piled up on a boulder of Old Proprietor Lane, the most hazardous spot on the Atlantic coast, and where many staunch vessels have met their doom with the loss of many lives.

Great seas came tumbling aboard the stricken craft, but Captain Calne remained cool and ordered his crew to be ready to put over the sides in case the rising tide and wind should sweep the steamer off the ledge. But the steamer clung tenaciously to the rocks. Had she slid off she would have been in the hands of other ill-fated vessels which lie on the bottom in that vicinity.

A high water part of the vessel was awash at times, but the bow was higher out of the sea. The men were unable to see how far they were from the nearest land and none cared to take chances with the boats in those turbulent waters. The only contrivance to report carried no wireless apparatus, and there was no way of attracting the attention of landmen, fisherman or other vessels, while the heavy fog blanket encompassed the ship. And so all day Tuesday was passed.

As the water came the men, who still wore their life-belts, remained on the bridge. A few rockets were sent up, but they could not be seen any distance in the mist. The wind continued high and as the deeply laden and waterlogged vessel was unable to move, many feared the would not live to see morning. Nevertheless some of the crew were so exhausted they were able to sleep.

Early Wednesday forenoon the wind abated and the fog began to lift. The vessel was seen by four Whitehead fishermen in a gasoline boat, and they hastened to the stranded ship. The sea was by no means calm, and it was difficult to approach the Troja. At the consideration the fishermen got near enough to communicate with those on board the steamer.

Captain Calne ordered two boats lowered and these sixteen members of the crew were taken to the shore. The fishermen towed the boats to Wood Island, where the life savers were informed of the wreck. The life saving crew put out in their boat and with some difficulty towed the remainder of the crew on the steamer. The men were all cared for by the life savers and the islanders, who held out to much for their good. The crew remained at the life saving station all night. Captain Calne was the last to leave his vessel.

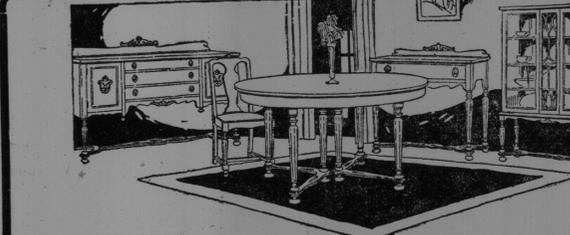

Word Sent Here  
Word was sent to St. John late Wednesday forenoon and the government steamer Aberdeen, which was at Yarmouth, was by one of Marine Agent's boats sent to the scene. The Aberdeen remained in the vicinity of the wreck all Wednesday night and yesterday took up the remainder of the crew, with the exception of the first officer, on board. The Aberdeen arrived here at 6.45 last evening. The first officer will remain in the vicinity of the wreck for a day or two. The Upper States crew, who also went to the wreck, but like the Aberdeen, found that nothing could be done to aid the Troja.

The crew were saved "the most YOU WILL APPRECIATE

The C. P. O. liner Metagama is due here on Monday from Liverpool with a large number of soldiers and their dependents.

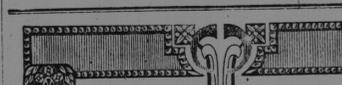

The C. P. O. liner Empress of Britain is expected to arrive at this port in the near future with over 3,000 Canadian troops on board. This will be the first time this season that she is scheduled to come here.

FOR SMALLER GIRLS  
The Y. W. C. A. has decided to take up the work of instructing girls and fourteen years of age in gymnastics, a Miss Berwick, instructor in calisthenics has arranged to conduct classes on Wednesday forenoon. Girls can register after ten o'clock tomorrow at Y. W. C. A., The Y. W. C. A.nasium class for girls over fourteen, full and no more can be taken at 11 o'clock.

SKY'S REMARKS SET GRAND SET ON EDGE  
Clergyman Will Be Asked to Explain Remarks About Soldiers' Brides.  
Says the Toronto Star:—"After fighting for our country in Europe we consider ourselves quite capable of choosing our brides, and do not intend having reflections cast upon them by anybody." The National Council of Women at Ottawa, the G. A. C., at their general meeting in St. George's Hall last night, when discussing the assertions said to have been made by Rev. Lawrence Skye of St. Anne's, Toronto, when addressing the National Council of Women at Ottawa, in the course of his address that some of these women are not fit to become Canadian mothers, and advocated a special divorce court in each province. When this was let loose on the gathering a hot discussion arose, and it was decided to give Mr. Skye the opportunity of explaining himself before the executive committee next Friday night.

The Star submitted the above report to Rev. Lawrence Skye and he declared that, while substantially correct, it does not fully cover the remarks he made causing marriage with girls overseas. "Some of the girls our soldiers are bringing home are beautiful types of women," he said. "The Star, however, says the reverse. It is a pity that soldiers who should have married the latter should be penalized for life. I should be glad to be given an opportunity to make my position clear to the veterans. I am a returned man myself."

Mr. Styles—You know if women get the vote they would have to serve on juries.  
Mrs. Styles—Well, suppose we do. I guess it wouldn't take us as long to disagree as some of the men.—Yonkers Statesman.

### EYEGLASSES OF QUALITY

There is a knack in selecting just the right kind of eyeglasses to suit your individual needs. Out of the hundreds of different styles there is probably one that is best adapted to your purpose. It is in this selection that we excel, as well as in fitting the lenses.

WE FIT THEM RIGHT  
We save you all the discomforts of wearing eyeglasses that do not suit your needs. There are no two faces just alike. Needs differ; eyes are further apart or deeper set in some than others. We take all these things into consideration and give you what you pay for—the BEST for your individual use.

We Are Your Counsellors in All Matters of Eye-Wear

**A Talk on Bread**  
 Most people in buying bread want the largest loaf in the store. You make a mistake, for it does not weigh any more than the medium sized loaf. When a loaf of bread raises so high it is over-proof. The life of the wheat has gone. Buy the medium sized loaf and get full strength of the wheat. One slice is worth more than a whole loaf of over-proof. Ask Your Grocer for

**IN HANDS OF FRENCH**  
 Paris, March 20.—(French Wireless Service)—The small French naval vessel Samson has been taken charge of the German submarine U-38, telegraph from Cartagena, Spain, says. Another small French vessel has taken possession of the German submarine U-48 and U-49 at Ferrol, Spain. Divers have examined the U-48 which was sunk last Saturday by a Spanish destroyer, while trying to escape from Ferrol, and believe that the boat can be salvaged if the weather remains favorable.  
 A Madrid despatch received in London Tuesday reported that the German submarine U-39 and a German submarine at Ferrol had been "seized by French tug boats."  
 ROYAL STANDARD MEETING.  
 A special meeting of the Royal Standard Chapter was held last evening in the chapter rooms, Germain street, with the regent, Mrs. E. A. Smith, in the chair. It was reported that the gross receipts of the St. Patrick's tea exceeded \$2000. The formation of a war saving society within the chapter was decided upon, and a committee was appointed to undertake matters with its organization. The next project for the chapter's activities is the holding of an official war picture and trophy exhibit in the Eastern Steamship building, Prince William street, throughout next week when the 150 official photographs captured and colored by Canadian artists and the Royal Canadian Mounted Police, returned and on the steamer Gratia plan will be on view. Through Mrs. G.

**BEFORE AND AFTER**  
 Before marriage a girl is a dear; afterward, she's something cheap at a price. "The Strange Woman" who killed her own father is spreading the news from the Imperial Theatre screen Monday and Tuesday.

**PLEADED NOT GUILTY**  
 Long Beach, N. Y., March 20.—Dr. Walter Green Wilkins, pleaded not guilty when arraigned before Justice of the Peace Coleman today, on a charge of murder in the first degree in having killed his wife at their home here February 27. This sitting of the court has been the longest for some time, as there was considerable business to be transacted.

**Ernest Barbour**  
 The chapter received a very interesting and precious war souvenir in the shape of a brass shield which it had given to the Le Touquet Hospital, France, which had hung on the wall of the New Brunswick ward furnished by the chapter. This hospital was the first Canadian hospital to be opened in France and did pioneer work in the most strenuous days of the war. Its equipment was afterwards moved to the Le Touquet Hospital, which it had given to the Le Touquet Hospital, France, which had hung on the wall of the New Brunswick ward furnished by the chapter. This hospital was the first Canadian hospital to be opened in France and did pioneer work in the most strenuous days of the war. Its equipment was afterwards moved to the Le Touquet Hospital, which it had given to the Le Touquet Hospital, France, which had hung on the wall of the New Brunswick ward furnished by the chapter. Advance Showing of Spring Styles in Fashionable Footwear

SIMPLICITY AND BEAUTY ON CLASSIC LINES That is what is said of new styles in which the design of the shoe has been worked out on such simple lines as to most pleasingly and strikingly bring out the smooth beauty of the leather.

In the tan colors, as well as the graining of the leather, the same tendency to simple effects has been carried out, as may be seen in many of the new models in Footwear which we are now showing.

FOR IMMEDIATE WEAR Lace Boots with high tops, 8 and 9 inch, are proper, and the colors are grey and brown with about four shades in each. In grey we have ivory, steel and field mouse; browns are here in nut brown, Havana and beaver brown; also a few mahogany in the heavier weight Spring Wear Boots.

We have some pleasing two-tone effects in brown with field mouse grey top, and in brown calf with darker brown suede top.

WOMEN'S HOSPITAL AID GROWS LARGER

The Women's Hospital Aid Association of the St. John General Public Hospital bids fair to be one of the largest of the women's organizations in the city.

As the treasurer, Miss Addy, is at present a patient in the General Public Hospital, Miss Travers was asked to act in that capacity for yesterday's meeting and a vote of sympathy and regret at her enforced absence through illness was extended to Miss Addy.

Reports of the denominational vice-presidents were received with much gratification as they showed that splendid work had been accomplished in securing members for the aid.

Green gave the Hebrew report, saying that both congregations were well organized and that the total number enrolled would be known at an early date. Mrs. Pinkett reported that St. Philip's congregation had been organized but full particulars of the membership were not yet available.

Dr. A. F. Emery, Mr. and Mrs. H. A. Powell, Mrs. L. N.

board of trade rooms yesterday which was to a great extent taken up with the reports of the denominational vice-presidents regarding their membership campaign.

Mrs. E. Atherton Smith, the president, was in the chair, and as many members were unable to get into the room the first act of the meeting was the appointment of a committee with Mrs. H. A. Powell and Mrs. James H. Doody as members to select a meeting place large enough to accommodate the membership.

Reports of the denominational vice-presidents were received with much gratification as they showed that splendid work had been accomplished in securing members for the aid.

Mrs. H. A. Powell reported for the Anglican congregationists and Mrs. Condy for the Salvation Army. Mrs. James H. Doody, reporting for the Roman Catholic committee, said that 100 members had been enrolled. Miss McLellan for the Presbyterians reported 825 members including seven life members. Mrs. Vernon McLellan for the Methodists reported 187 members including sixteen life members from Centenary church. Miss Green gave the Hebrew report, saying that both congregations were well organized and that the total number enrolled would be known at an early date.

Mrs. Pinkett reported that St. Philip's congregation had been organized but full particulars of the membership were not yet available. The life members were as follows: Dr. A. F. Emery, Mr. and Mrs. H. A. Powell, Mrs. L. N.

will stop the irritation, heal the inflamed membranes of the throat and soon cure the severest cough. COLDS, SORE THROAT, BRONCHITIS, ASTHMA and WHOOPING COUGH yield to the soothing and healing influence of this wonderful cough medicine.

FRECKLE-FACE

Now Is The Time to Get Rid of These Ugly Spots.

Do you know how easy it is to remove those ugly spots so that no one will call you freckle-face? Simply get an ounce of Othine, double strength, from your druggist and a few applications should show you how easy it is to rid yourself of freckles and get a beautiful complexion.

Catarhal Deafness and Head Noises

Tells Safe and Simple Way to Treat and Relieve at Home.

If you have catarhal deafness or head noises caused by catarhal, or if phlegm drops in your throat and has caused catarhal of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home.

Seidensticker, W. B. Tennant, Joseph Allison, Mr. and Mrs. W. S. Allison, Walter Allison, Dr. A. E. Rowley, Mrs. T. H. Bullock, Mrs. Simmons, Mrs. Charles H. Peters, R. H. Dockrill, Mrs. William Brodie, Mrs. Neil Brodie, Mrs. G. Fred Fisher, Mrs. F. L. Kenney, Mrs. A. E. Killam, of Moncton, wrote a very interesting letter to the aid and asked that a memorial of membership be taken to commemorate Nursing Sister Anna Stammers who was a victim of the Lindbergh Castle outrage and sent the \$25 fee for this purpose.

ASK NEW DESIGNS. In connection with the proposed memorial for soldiers fallen in the war to be erected in Fernhill cemetery by some of the chapters of the I. O. D. E. in the city a meeting was held yesterday afternoon in the board of trade rooms when two representatives of each society met with Colonel Sturdee and Miss Magre of the Fernhill Cemetery Company and looked at designs and drawings for the proposed memorial.

The designs submitted did not meet with the approval of those present and a committee was appointed to obtain other drawings and to see about placing the order, which will be given to one of the stone cutters. The chapters taking part in this scheme are the Loyalist, DeMont, Brunswick, Valcourier, Royal Standard, and Seven Seas.

BOYS CLUB EVENING. An unusually large number of boys were in attendance at the meeting of the Boys' Club last night, and they were treated to an exceptionally fine musical and literary programme which was arranged by Mrs. H. C. Green, president of the association. Capt. J. A. Mulcahy, vice-president of the association, presided, and two songs were favored by Mrs. Miss Ellen Hanlon, accompanied by her sister, Miss Blanche Hanington. A reading, "The French Mother", written by A. M. Bel-French, Mother, and Mrs. A. C. Wilson in her own inimitable way gave the boys a most interesting and profitable program. The club will meet on Wednesday evening, April 2, at the home of Mr. and Mrs. A. W. Esley, Brunswick place; subject, Charles Kingsley.

WEDNESDAY EVENING CLUB. This week at the residence of Mrs. B. Patterson, subject, The Lowell Centenary. The meeting opened with an introductory talk by the president, Mr. Esley, on the Literary Atmosphere of Lowell's Times and Humor. His Utility and Nature, after which Duncan Campbell Scott's poem on Lowell was read by H. B. Peck. The Biglow Papers, by Mrs. Peck, and the well-known poem, "Estimate Union, prefaced by a very interesting criticism from the British Weekly, was read by Mrs. A. W. Lowell and Diplomacy was given by Rev. Robert Crisp. The pleasure of the evening was greatly enhanced by the sweet singing of Mrs. Montgomery, who accompanied by Miss Margaret Patterson, favored the club with The Land of the Leal, Comin' Thro' the Rye, and The Rose of Plender. The club will meet on Wednesday evening, April 2, at the home of Mr. and Mrs. A. W. Esley, Brunswick place; subject, Charles Kingsley.

Housecleaning Helps

The dirt and dust resulting from the use of so much soft coal make especially desirable the use of Cleaners and Purifiers to lighten housecleaning labors and thoroughly protect the home from unhealthful conditions. Our offerings include:

OLD DUTCH CLEANSER

Babbitt's Cleanser, Bon Ami in cake and powder, Sapolio, Pearline, Lux, Laundry Soap, Lye, "Climax" Wall Paper Cleaner, Saniflush for patent closets, Sultana, Black Knight and Rising Sun Stove Paste, Sultana Stove-pipe Gloss, "Snap" Hand Cleaner, "Goblin" Hand Soap, Le Pages, Chases' and All-around Liquid Glue, etc.

W. H. THORNE & CO., LIMITED

LOCAL NEWS

RETURNS FROM WEST After the completion of his train conducting duties, Major F. W. Wetmore returned from Vancouver yesterday. Major Wetmore is at present commanding the artillery in this district.

FORTY-FOUR YEARS SERVICE John Bond, city marshal, today celebrated on his 64th birthday, that finds him hale and hearty. He has the notable record of being connected with the city fire department for forty-four years.

INFLUENZA It is reported to the Department of Health that a recent outbreak of influenza has taken place in St. George's, N. B., where schools and all public places have been closed. There are about eighty cases in that section and one death from pneumonia. Dr. J. A. Wade, the district health officer for the district, who has been looking after the disease, reports that the situation seems to be well in hand.

IN CHAMBERS Hearing was resumed today in chambers before Mr. Justice McKown in the habeas corpus proceedings over the custody of the infant child of Mr. and Mrs. Edgar Dean of Lorneville, the mother and father are each claiming the custody of the infant. The case was further adjourned until April 4, and in the meantime the mother of the child is to continue to have the custody.

POLICE COURT One drunk was in the police court this morning. He was fined \$8 and remanded. Two men were arrested this morning by the police about 10:30 on account of drunkenness. One man was also arrested at the same time for loitering around the C. N. R. station. These cases will probably come up in the court later. One man who was in court yesterday on the charge of drunkenness and pleaded not guilty, was again before the court this morning. It was shown that he had become intoxicated on lemon extract. He was found guilty, was fined and remanded to jail.

RETURNING SOLDIERS Three trains with soldiers from the S. S. Baltic passed through the city last night en route to their homes. New arrangements have been made whereby all troops arriving in Halifax shall go to their homes in the west over the C. P. R. The soldiers for eastern points will continue over the C. N. R. This morning seven special trains left this city en route to various points in Canada—three from the S. B. and four from the S. S. Corsican, which arrived here yesterday afternoon and docked shortly before six o'clock.

WOULD HAVE MONUMENT The home of Mr. and Mrs. Fisher, Wright street, was the scene of a happy gathering last evening when the members of the Rockwood Court Club assembled to spend a social evening. The event was one of a series which are proving very popular and last night's programme was carried out. It included vocal solos, piano and violin selections, readings, choruses, etc., and all were given hearty applause. A feature of the evening was a candy sale by members of the club. The object was to raise funds to erect a monument in the Public Gardens in honor of the boys from Wright street, who crossed overseas with the Canadian Expeditionary Forces and who made the supreme sacrifice for their King and country.

MEETING TO BOOM THE PROVINCE

Gathering of Enthusiastic Citizens This Afternoon Under Auspices of Tourist Association

This afternoon in the Board of Trade rooms a body of citizens headed by E. A. Schofield is considering means and methods for putting New Brunswick on the map in a brighter red than ever as the recreation ground of the continent and as a source of undeveloped natural wealth and untouched business possibilities. In reality the meeting is being held under the auspices of the N. B. Tourist Association and among those in town for the gathering are Guide Harry Allen of Pennac, York county—the man who has made the hunting preserves famous in the United States—and some special representatives from Bathurst, Fredericton and elsewhere.

These back of the movement have in mind the holding of a provincial convention sometime in May and probably in this city, at which delegates from the merchant and hotel interests of all parts will assemble and hear addresses by specially imported speakers, see movies depicting the beauties and advantages of the province, and have a general get-together for the sake of the home country here. Commercial, social and fraternal organizations will be asked to co-operate and attend. The whole matter is being gone into enthusiastically and from what Harry Allen learned on his recent tour of eastern American cities the province can now reap a big harvest if it gets busy.

SUMMER TRAINS ON THE C. P. R. TO BE ARRANGED SOON

The summer schedule for the C. P. R. is now under consideration, and from present indications will be the same from a local standpoint as it was last year, the Montreal and Boston trains arriving in the city an hour earlier than they do during the winter season. It is also proposed to resume the through train service to Boston instead of to McAdam Junction, a train leaving every morning and evening for Boston and one arriving in the city every morning and evening. A conference regarding the summer schedule will be held in Boston next Tuesday when all changes will be discussed and acted upon. If the daylight saving is not adopted in Canada this year, it will make it awkward on this side, as the measure is assured in the States. If it is adopted in the city, however, it will straighten matters out from a local standpoint and will not cause any confusion regarding mails, etc.

By-Law To Be Drafted Over Again

Electrical Conditions Discussed at City Hall To-day — Council Fails to Agree on Retaining Wall Matter

At a special committee meeting of the common council this morning with the mayor and all the commissioners present, it was decided after much discussion and a varied expression of opinion that the new electrical by-laws for the city be re-written with the recommendations of the especially appointed committee incorporated. Those present besides the civil officials were F. W. Dana and Thomas Drummond, president and secretary of the Retail Merchants' Association, appearing in the interests of the merchants; Peter Clinch of the New Brunswick Fire Underwriters; LeBaron Wilson, city electrician; G. E. Webb and Walter Downing, of the journeymen electricians, who were members of the committee which prepared the by-laws, and R. E. Armstrong, secretary of the Board of Trade. The changes in the electrical by-laws, it was made known, were suggested by the contractors and were apparently made in the best interests of the city. In answer to Commissioner Fisher, Mr. Clinch said that it was very difficult to tell just how to prepare the by-laws from electrical wiring, but there were many serious fees which were suspected of starting from defective wiring. He thought, however, that old wiring should be inspected and pressure brought to bear to have such a state of affairs rectified. There was no authority in the proposed act forcing inspection of wires, but the new by-laws referred more to the installation of electric wiring. However, there was a section that where more than forty per cent of the wiring in a building was found defective it must be brought up to standard. A member of the committee remarked that copies of the amendments were not given all the members of the committee, which was not in accordance to what had been promised. He was not reflecting on the rest of the committee, but he thought copies should have been supplied to all. This caused considerable discussion among the commissioners and the committee. It was moved that the by-laws be re-written, incorporating the recommendations and each member given a copy. Commissioner Thornton objected to having the whole work done over again, as the by-laws and the amendments could be easily checked up. Commissioner Bullock said that evidently not all the committee had been able to do this and he favored a re-writing. Commissioner Jones favored drafting of the whole thing anew, while Commissioner Thornton said he thought all the committee members had copies. The outcome was that a resolution to re-write the by-laws incorporating the recommendations of each member of the special committee, the commissioners, the Board of Trade, the Retail Merchants' Association, the Trades and Labor Council, and any other recognized organization be supplied with a copy. To Day's Horse. Commissioner Fisher brought in a resolution asking permission for the purchase of a pair of horses from Thomas Hayes at \$700. The horses were needed, he said, and this was a good opportunity to secure them. The resolution passed. Regarding the rebuilding of a masonry wall in Brussels street, which was brought up in committee meeting yesterday, Commissioner Fisher this morning introduced the subject again and said that from information he had gathered since yesterday the city could build the retaining wall more satisfactorily and cheaper than by contract. Engineer Hatfield said that in this particular job there would be some difficulty for a contractor to make an estimate, as it could not be definitely ascertained what was needed. He added, however, that the city had the equipment and could do the work cheaper and just as good as by letting it out by contract. Commissioner Fisher moved that his department should do the work. Commissioner Jones said that he favored tendering for the work and made an amendment to Mr. Fisher's resolution, that the work be done by city, that tenders be called and have the city put in an estimate either before or after the raising of the tenders. Commissioners Bullock and Jones voted for the amendment and Commissioners Fisher and Thornton against it. The matter was resting the deciding vote against the amendment. The original motion was passed with Commissioners Bullock and Jones dissenting, but as the work is proposed to be done by bond issue, requiring a unanimous vote, the whole matter of rebuilding the retaining wall in Brussels street on the site of the old foundry lot is just where it was previous to its consideration by the council. The meeting here adjourned.

BOARD OF HEALTH AFTER THE WINNER Given Notice That House Must be Put in Shape to Live in—Revenue of \$72 a Year as it is

A good deal has been done in a quiet way by the officials of the local board of health in the direction of bettering the housing conditions in the city. That these conditions are still far from ideal was strongly borne in upon the mind of His Honor, George Scott when in the course of his duties as agent of the Children's Aid Society he paid a visit in the south end of the city the other day. The flat referred to consisted of three small rooms for which a rent of six dollars a month was being paid. In these three rooms there were besides the father and mother, five small children, the oldest eight years, and the youngest two years. The house itself was an old one, the walls rough with broken plaster here and there and both ceiling and walls badly in need of cleaning. There was water in the house and a sink in the kitchen, but there was no trap under the sink, a straight pipe leading down to the sewer. Nor was there any lavatory in the house. The Board of Health visited the house yesterday and notice will at once be served on the owners to better the sanitary conditions.

MACAULAY BROTHERS & CO. Stores Open at 8.30 a.m.—Close 6 p.m.

New Georgette Blouse Waists

They include all the new popular colors and very latest designs in cut and trimmings. Sizes 34 to 42, in White, Maize, Peach, Flesh, Brown, Black Taupe, Sand, Orchid, Bisque and Navy.

TWO IMPORTANT BILLS INTRODUCED IN HOUSE

Every Provision Made For Ensuring Votes For Women Under Provincial Act

HOUSING ACT HAS GOOD FEATURES

Rapid Progress Made With Business of Session With Soldiers' Settlement Act and Amendments to Highway Act Under Consideration.

Fredericton, March 20.—Two important bills introduced in the legislature today. Under the extension of the electoral franchise to women, the latter will be given the same vote as is now enjoyed by the men. Adequate provision is made for the addition of names of the women to the voters' lists and special provision is made in order that none may miss the opportunity to exercise their franchise on the first occasion through ignorance of the law on their part or oversight on the part of the voters.

The other, the bill to provide for better housing, is largely in accordance with the plan laid down by the federal government which will advance the money which may be loaned to persons wishing to erect dwellings. Municipalities which wish to do so may take advantage of this act, but they are not compelled to do so. Under the act eighty per cent of the value of the building to be erected will be advanced by the government and in case of persons who cannot put up the fifteen per cent required the municipality may erect the building and lease it on terms which will eventually enable the leasee to become the owner.

An interesting variation of the federal plan is the provision for extending the aid to the erection of farm houses which is not included in the federal act, and the government is endeavoring to secure this concession for the benefit of the farmers of the province.

The entire day was devoted to the expediting of the business of the session and considerable progress was made.

In the afternoon a large part of the time was spent in the consideration of the Highway Act, and in the evening the Soldiers' Settlement bill occupied the attention of the committee the whole for a greater part of the time.

Official Report.  
Fredericton, N. B., March 20.—The house met at 10 o'clock.

Mr. Burdell presented the report of the committee on standing rules.

Mr. Dyer, from the committee appointed to inquire into the petition of the lieutenant-governor, submitted the following message from his honor, which was read by the speaker:

Hon. Mr. Murray moved that the house on Tuesday next resolve itself into a committee to consider supply to be granted to his majesty.

Hon. Mr. Veniot submitted the report of the minister of public works in connection with the charges against road superintendents in the parish of Shippegan, Gloucester county.

Hon. Mr. Foster moved that the time for the introduction of private bills be extended to the 27th inst., inclusive.

Hon. Mr. Robinson introduced a bill to provide for better housing. He explained that the measure, as drafted, differed slightly from housing bills submitted to other legislatures.

Hon. Mr. Veniot said that under the act of 1918 it would not be necessary to pay a bond against the election of commissioners.

Mr. Pinder said he noticed in the public works report that \$16,513 had been expended in Gloucester county on the roads and only \$7,741 had been paid by the municipality.

Hon. Mr. Veniot explained that when he took charge of the department he found that in the county of York there was some \$8,000 in back taxes to the credit of the road fund.

Hon. Mr. Veniot said that he was not sure that the bill was not being introduced in the wrong place.

Hon. Mr. Veniot said that he was not sure that the bill was not being introduced in the wrong place.

Hon. Mr. Veniot said that he was not sure that the bill was not being introduced in the wrong place.

that they did not know where to send the money they had collected.

Hon. Mr. Veniot said that he was not sure that the bill was not being introduced in the wrong place.

Hon. Mr. Veniot said that he was not sure that the bill was not being introduced in the wrong place.

Hon. Mr. Veniot replied that no weight was specified.

Mr. Sutton, referring to the section of the act relating to the breaking of winter roads, said that too much power was placed in the hands of the superintendents and easily might cause hardships.

Hon. Mr. Veniot said that the matter had been discussed for more than an hour at the last session, and the clause to which he objected had finally been accepted as the only solution.

Hon. Mr. Veniot said that he was not sure that the bill was not being introduced in the wrong place.

British Officers Like American Cooking, King George Finds On Visit To "Y" Hotel

He Gets Assurance His Men Are Not An Annoyance Because They "Happen To Drop In At Mealtimes"

If the peoples of different nationalities can be brought together at dining tables, there won't be any need of peace tables, in the opinion of King George V. It has been the King's custom recently to go about meeting American officers and men at the camp and Y.M.C.A. centers in England. On a visit to the Washington Inn, the American officers' retreat in London, he remarked to Stanley Ross Fisher, the "Y" man in charge of social activities there:

"You men of the Y.M.C.A. are doing a great work. I understand that a good many English officers frequent this place, especially at meal time. I hope they are not in the way."

"Not at all," replied Fisher. "We like the idea."

"Good," said the King. "So long as American and British officers have their knees under the same table, we needn't worry about international complications."

The King and Queen are more familiar figures to thousands of Americans in England than any President has been. They have visited nearly every big hotel and "Y" but in England and Scotland.

Referring to a statement published in the Daily Mail of Fredericton, the 19th inst., that B. F. Smith was advanced \$2,875 by the province, he said he wished to qualify that statement as absolutely false; also referring to a statement in the same paper to the effect that he had been paid twice for potatoes he made the same statement. Every arrangement had been made with the late deputy and there never was any question of his being paid twice. He lived up to his agreement in every way.

Hon. Mr. Foster rose to a question of privilege, and said that the St. John Standard of the 20th had said he was not up to his agreement in every way.

Hon. Mr. Veniot said that he was not sure that the bill was not being introduced in the wrong place.

Hon. Mr. Veniot said that he was not sure that the bill was not being introduced in the wrong place.

abled soldiers wanted to know why the provision was not extended to all soldiers. He thought that the federal government should offer just as great inducements for the settlement of land in the east as in the west.

Hon. Mr. Tweeddale went fully into the provisions of the bill explaining that the government was merely co-operating with the federal authorities as represented by the soldiers settlement board.

The original act providing for assistance for soldiers to settle on the land was applicable only to the west, but he had represented very strongly to the federal authorities that New Brunswick should be included and had succeeded in having the act amended. He said the federal act was being administered by a committee of three men who had their headquarters in St. John.

Mr. Mavor, the chairman of the board, had visited the province and conferred with members of the provincial government. He explained that the board wanted to protect the public against loss in connection with the settlement of soldiers and also wanted to protect the soldiers. It has been proposed that two commissioners be appointed to act with the board, one a practical farmer who could judge his ability to make a success of farming, and another to see that the farm selected was good value for the money. The board had asked the agricultural department to consult with them in regard to the passage of an act to establish a municipal home.

The house went into session with Mr. Leeger (Westmorland) in the chair and Mr. Hunter presented the petition of the municipality of York and the town council of Margville and Devon for the passage of an act to establish a municipal home.

of failure after a term of years, if the Soldiers' Settlement Board should decide to dispose of the land, the government's lien would take effect.

A Little Tiff.

Mr. Baxter said that the honorable minister had not answered the question asked by the honorable member for St. John.

Hon. Mr. Tweeddale said that he would not attempt to answer a question in some remarks which he had made previously.

Mr. Young wanted to know if the soldier made a success of his farm, if the lien would be removed.

Hon. Mr. Tweeddale said that the soldiers made the terms with the settlers' settlement board, and when those terms were satisfied the lien would come off.

Hon. Mr. Veniot pointed out that the dominion government would advance money to the soldiers to be repaid in twenty years.

The soldier could not get rid of his lien until he had repaid the loan.

Mr. Tilley wanted to know when the plans of the land it was proposed to set aside for soldiers would be placed before the settlement board.

Hon. Mr. Tweeddale said that he had suggested Fredericton as near the crown lands office and the district discharge depot, but St. John had been selected because it was thought to be more easily available for a large number of soldiers.

Mr. Burdell said that if a change to Fredericton should be published, a delegation from St. John would at once go to Ottawa.

Mr. Smith (Carleton) said the prospect of granting lands for agriculture in New Brunswick was not very alluring.

Hon. Mr. Tweeddale—There is still good land there. The Anderson road is all vacant.

Mr. Smith (Carleton) said he doubted if there was any land available for truck farming near a city that could be bought for \$25 an acre.

Hon. Mr. Tweeddale—Some one must put up the difference.

Hon. Mr. Tweeddale—The soldier settlement board is authorized to make the expenditure.

Mr. Robichaud suggested that all farms in the hands of the farm settlement board be made available for soldiers.

On Timber Lands. Hon. Mr. Tweeddale said they were now discussing the timber lands.

Hon. Mr. Tweeddale said that the connection between the concession to return soldiers had been made.

As soon as an application for land already under timber license is approved, the timber lease will expire.

The matter of cutting the timber on the land unsuited for farming had been granted. One crown land official had condemned that land as unsuited for agriculture and another had declared it well suited.

Mr. Veniot pointed out that the dominion government would advance money to the soldiers to be repaid in twenty years.

The soldier could not get rid of his lien until he had repaid the loan.

Mr. Tilley wanted to know when the plans of the land it was proposed to set aside for soldiers would be placed before the settlement board.

lowing year the Harn government amended the act making the location some point in the parish of Kent instead of Bath, but too late for construction of the bridge to be included in the estimates for next year.

The delegation included Dr. Commis, C. F. Gallagher, Matthew Bohan, W. N. Dyer, J. C. Hayes, Michael Keenan, Ed. W. McSheffrey, Carey Estey, Hugh Suffer, Charles A. Giberson, John Patterson, Otis Eshaw, Charles Gee, Gideon Green, Wendell Hutchings, W. H. Bramley, A. D. McCain, D. S. Ceacord, W. J. Gallagher, Harvey Green and W. F. Jones, K. C.

The government will have a busy morning as a delegation from the Federation of Labor will appear before them.

CANADA'S BILL FOR WAR COSTS GOING BEFORE CONFERENCE

Reparation Commission to Consider Claim For \$1,500,000,000

SEEK PERMANENT PEACE IN POLAND

Paris, Mar. 20—Canada has completed her war cost estimates for submission to the reparations commission. It is understood according to the Reuter correspondent that the amount will exceed \$1,500,000,000.

The New Poland. Paris, March 20.—(Havas Agency)—In making his report to the supreme Allied council yesterday on the Polish question, Jules Cambon, head of the peace conference commission on Polish affairs held forth the purpose of the commission to create a Polish state which would have a firm foundation for its future welfare and at the same time respect the principle of national self-determination.

Poland, Mr. Cambon pointed out, was half enclosed by German territory and had an imperative need of an independent outlet to the sea by a route easy of access to ensure her national economy.

Therefore, he said, was necessary to incorporate in the new state some German element which he reminded the council had been introduced there by Germany herself with deliberate intention.

Mr. Lloyd George also remarked that by connecting Danzig with Thorn and Warsaw by two independent railroads it would probably be possible to make Poland economically independent.

The commission's report will probably be discussed by the supreme Allied council at its Friday meeting, when the question of the sending to Warsaw the Polish army divisions, which had fought on the French front also is expected to come up.

Polish Press Approves. Warsaw, Tuesday, March 19.—(French Wireless Service)—The Polish press in the morning expressed approval of the decisions reached by the peace conference commission on Polish affairs regarding the return of Danzig to Poland and the corridor to Danzig.

It is said that this was the result of the event which is of vital importance to the German government. Despatches state that the German high command appears to be in a state of indecision as to whether it will undertake to respect an armistice between the German and Polish armies.

Brussels, March 20.—Belgium has recognized the independence of Poland, Monroe Doctrine Universal. London, March 20.—The Liverpool Post says:

BEECHAM'S PILLS

How Gray's Syrup Breaks Your Cough

In breaking up your cough and correcting the accompanying ailments, you will find that Gray's Syrup brings prompt relief in three distinct ways.

First—Immediately on taking Gray's Syrup the dry, inflammatory condition of the throat is eased. Swallowing becomes less painful and the throat performs its natural functions in comfort.

Second—no matter how tight and dry a cough is, Gray's Syrup loosens it up. The cough rapidly diminishes under constant treatment and does not again become distressing enough to continue to strain the throat and lung muscles.

Third—the phlegm which collects on the inflamed parts and clogs the tubes is gradually raised. The heating and soothing influence of Gray's Syrup coming into direct contact with the inflamed parts brings them back to their normal condition.

Tired, Overworked Mothers What You Need is Vinol

War conditions have made the demand upon a mother's time and energy unlimited. In their zeal to do all in their power for their loved ones, they continually overwork and are soon in a nervous, run-down condition.

Whitman, Mass. "I suffered from a nervous, run-down condition and loss of strength and do my work. After other medicines had failed to help me Vinol restored my health and strength and I heartily recommend it to anyone suffering from a nervous, run-down condition."—Mrs. R. M. Little.

Vinol Creates Strength

Wasson's Drug Store, The Ross Drug Co., St. John. Vinol sold in Fairville by T. H. Wilson, and at the best drug store in every town and city in the country.

Mothers' Advice

The responsibility for a daughter's future largely rests with the mother. The right influence and the information which is of vital importance to the daughter imparted at the proper time has not only saved the life but insured the success of many a beautiful girl.

When a girl's thoughts become sluggish with heat, back or lower limbs and a desire for solitude, her mother should come to her aid and remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, will at this time prepare the system for the coming change and start this trying period in a young girl's life without pain or irregularities.

Thousands of women residing in every part of the United States bear willing testimony to the wonderful virtues of this medicine, and what it has done for their daughters.

Brooklyn, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound enough for what it has done for my daughter. She was 15 years of age, very sickly and pale and she had to stay home from school most of the time. She suffered agonies from backache and dizziness and was without appetite. For 3 months she was under the doctor's care and got no better, she was sure the doctor was to blame for her condition. I read in the papers about your wonderful medicine so I made up my mind to try it. She has taken five bottles of Lydia E. Pinkham's Vegetable Compound and doesn't complain any more with her back and dizziness. She has gained 25 pounds and feels much better. I recommend Lydia E. Pinkham's Vegetable Compound to all mothers and daughters."—Mrs. A. F. Frazier, 515 Mary Avenue, Brooklyn, N. Y.

Lydia E. Pinkham's Vegetable Compound

The Little Doctor always ready—always on hand to relieve kidney and bladder troubles, and help nature purify the blood.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubleless if you are a sufferer from indigestion, you have already tried pills, biscuits, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisulphated magnesia, not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisulphated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little bisulphated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and, moreover, the continued use of the bisulphated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

NUXATED IRON

Increases strength of delicate, nervous, run-down people in two weeks. Tonic for many instances. Used and highly endorsed by former United States Senators and Members of Congress, well-known physicians and former Public Health officials. Ask your doctor or druggist for it.

USE The Want Ad Way

URGE EXTENSION OF VALLEY R. R.

Fredericton, March 20.—A delegation of about thirty members from Andover and the surrounding districts arrived in Fredericton tonight to lay before the government an urgent request for the extension of the Valley railway from Centreville to Andover.

They bring with them petitions largely signed and resolutions adopted by representative bodies. They will meet the government tomorrow morning at 11 o'clock.

A delegation of more than a score of residents of Bath and the surrounding districts arrived in the city tonight and after the house had adjourned had a long conference with the premier, the minister of public works and the minister of agriculture.

Their purpose was to urge the construction of a bridge across the St. John river at Bath, to present the project bridge at Florenceville, more than six

miles distant, and the new bridge would be a convenience to a large number of people.

The Robison government passed legislation authorizing the issue of bonds for the construction of a bridge at this place, but went out of office before it could be constructed.

N. B. Federation of Labor Report Says He Should Receive Same Pay as Others

**FAIRVILLE STRIKE BEFORE MEETING**

Delegates Appointed to Wait on Provincial Government Regarding Legislation Desired—Convention Supports Moncton's Claims—Important Declaration of Principles Announced—The Housing Problem.

(Special to The Telegraph)  
Fredericton, March 20.—The Thursday afternoon session of the N. B. Federation of Labor convention dealt with several new resolutions which were brought up by the various delegates.

The secretary's report was read and was ordered to be handed to the committee for officers' reports.

The report showed a membership of 2,500 members for the last year. The report of the past president, J. L. Sugrue, was read and ordered handed to the same committee. The convention then placed itself on record as being in favor of the salary of the labor representative of the Workmen's Compensation Board being increased by the same amount as that of the other members.

A splendid address on vocational training was delivered by Fletcher Peacock, followed by a vote of thanks was extended to Mr. Peacock by the meeting.

Non-Union Cigars.

The report of the committee on union labels was read and a list of the names of those cigars which at the present were non-union made was read, and the delegates were requested to take a list of the same back to their local committees.

The committee also reported that organized labor would be greatly advanced by demanding that the union label be placed on wearing apparel, tobacco, shoes and printed matter, and recommended in future that delegates attending the N. B. Federation have at least two bona fide union labels on their wearing apparel.

The report of the resolution committee was adopted as a whole and the committee was discharged.

The following delegates were on the

"If high rates of interest must still be paid on Canadian Government borrowings, ALL the people should have the opportunity to earn this interest."  
—SIR THOMAS WHITE, Minister of Finance.

**Why They Are Buying WAR-SAVINGS STAMPS**

The housewife is economizing in comfortable ways and investing in War-Savings Stamps at \$4.02 each this month. In 1924, when these stamps are redeemed at \$5.00 each, every dollar will have greater purchasing power.

The business man is cutting off small and unnecessary expenditures and buying War-Savings Stamps. He knows his money is available any time he really needs it, with added interest. \$5 for \$4 in five years is an excellent return on money otherwise idle.

School children are buying Thrift Stamps at 25 cents each and are filling their Thrift Cards in order to acquire a War-Savings Stamp. They are helping their country and acquiring the habit of Thrift.

Men on the farms are buying W.S.S. because the Government uses the money to finance export orders for the food raised on Canadian farms. This makes their market sure.

Men, women and children of all ages and conditions of life, are investing in W.S.S. because it is a convenient way to "build a bond". The security is absolute and the interest is unusually high. Some day they will look back with great satisfaction to the day when they bought their first War-Savings Stamps.

**Have You Bought Your Stamp Today?**

**GOVERNMENT LEANING TOWARD TARIFF REFORM AS CONCESSION TO WEST**

Temporary Measure "Sufficient to Carry Judgment of Unionist Party as Whole" Promised

Western Members Outspoken at Party Caucus at Which Both Sides Are Heard—General Revision After Study by Minister of Finance and Eastern and Western Members.

Ottawa, March 20.—Although no definite promises of tariff reform were made in so many words at the Unionist caucus this morning, Sir Thomas White's statement that "he saw no insuperable difficulties in the way of dealing with the tariff in such a manner as would carry the judgment of the Unionist party as a whole," is read that way by western members in view of the fact that he had just heard them say that the west was inflexibly determined to have a substantial reduction in the tariff, and to have it now.

In the series of seven-minute speeches by which members of both east and west expressed their tariff views, there were no threats and no loud talk; everybody stated his views moderately and none adopted a chip-on-the-shoulder attitude. Sir Thomas White's conciliatory address at the outset helped in this, but all seemed satisfied that the government had gone as far as it could under present conditions, when Sir Thomas stated that announcements would be made during the present session as to immediate tariff measures which, in his opinion, would suit the Unionist party and the country as a whole.

**In Hands of Government.**

Sir Thomas, though speaking in a conciliatory manner both at the opening and the close of the caucus, made it clear that he stood on the practice of having the government responsible for the tariff as for any other policy. He stated the other day that the caucus was held only for their government to hear expression of views, but the government did not intend to give any promises or intimations one way or the other. His general statement above quoted is being taken, however, as such an intimation. It must be added that Sir Thomas emphasized the necessity of looking at the question from a national, rather than a sectional point of view, and stated that the national interest and welfare would be the sole interests considered in the tariff ultimately adopted.

There was no doubt, he said, that he had had in 1896 and 1897 and 1907, pointed out that there had been a tariff revision in 1914 and that a general revision would have been made in 1916 after a full inquiry by ministers if it had not been for the war. As soon as normal conditions are restored, Sir Thomas declared that this general revision would have to be made, and that it would be accomplished after inquiry by the minister of finance assisted by eastern and western ministers and after all conflicting interests had stated their views.

All Groups Represented.

It may be said that in the caucus over which Sir Thomas White presided, there was sufficient diversity of opinion fairly to represent the different groups in Canada. There were men there who believed in free trade and others who thought high protection necessary, but not one talked as though his views could

be expected to predominate without the other fellow's views being given a show. Colonel J. A. Currie, member for North Simcoe and the arch-apostle in this parliament of protection, was not present, and the "Ginger" group was mainly conspicuous by its absence. Some of the western members did not fail to point out and to say that the west was showing itself more moderate and less truculent than a certain group of eastern members.

"But the west has its extremists as well," warned one man, "and if you do not listen to us, heaven help you with the next bunch of members the west will send you. They won't compromise on anything, so if you are wise you will do the right thing and the right thing is to have a substantial reduction now."

That was the attitude of the whole western group—a substantial reduction now.

The eastern members also spoke, some seeing the same light that the westerners did and others indicating just why they thought the government should "go slow" about making reductions. James D. Chaplin, member for Lincoln and president of the Welland Vale Mfg. Co., a Conservative before he was a Unionist, drew parallels from western members especially when he declared that so far as his business was concerned he could, without any tariff at all, and that he did not fear American competition at all if dumping were prevented. It was stated afterwards that Mr. Chaplin meant by "other conditions being equal," that if the United States removed its tariff against his goods he was perfectly willing to meet American competition in Canada as long as he could invade the American market as well. It is known that Mr. Chaplin has already done so, having a factory at Detroit as well as those in Canada. Manufacturing costs are about the same in both countries, the only difference being that a large market of 100,000,000 people permits a more permanent specialization and standardization of factory processes than is possible with a small market.

Each western member went to the caucus either with a letter in his pocket from Wm. R. Wood, M. P., secretary of the Manitoba Grain Growers' Association, or with its contents fresh on his mind.

This letter, containing a resolution passed by the grain growers, says: "We look to western members of the house of commons for an inflexible stand on the farmers' platform."

After pointing out that the war is over and that there should be no delay in tariff changes which will favor the development of agriculture which is the basis industry of Canada, the resolution goes on to say: "The time for relief is long overdue and western Canada, having formulated its views in the national platform of the Canadian Council of Agriculture, requires that the government at the present session take definite action there is no reason why substantial progress should not be made at once." Further on the resolution adds: "The exorbitant cost of living to the common people must be reduced if actual want is to be avoided."

"Did you take any inflexible stand on the farmers' platform?" your correspondent asked one of the western members afterwards.

"We do stand on that platform and we expect that union government will make that 'substantial progress' spoken of in the resolution. We are responsible people in the west, no matter what interested

**Century Salt**

people may try to make us seem. We know that Canada's interests have to be taken as a whole, but we determined that the west shall not be left out in considering these interests. I think we have shown ourselves reasonable in the meeting fact that the British Columbia members are now meeting with us. British Columbia wants protection on fruit and lumber and we do not want to sacrifice her interests entirely in order to protect our own, no more than we want to get what we want at the expense of any considerable group in the east, but we think our common interests are not so far apart as they may seem."

Favoring the Masses.

Some of the western members who spoke indicated that they were not so much interested in sweeping away the tariff as in getting the most revenue greatly needed by the masses of people. The tariff, they believe, should go as high as is consistent with getting the most revenue on luxuries, but should be lowered or disappear altogether on things absolutely necessary for the masses.

For example one member stated that boots and shoes under \$7 and \$8 should be admitted free, and a woman should pay \$10 a pair of stylish shoes, but should be able to afford a duty as well.

Another member stated that the tariff on furs only bought by the wealthy should have a low duty, while the tariff on the rich, should have the tariff. No member wanted to defend diamonds from the tariff.

Sir Herbert Ames, member for St. Antoinette division, Montreal, and a large manufacturer of boots and shoes, thought that it was better to defer action on leather goods for a year, and deal with them after an inquiry at which all sides could be heard.

Among those who spoke at the caucus in addition to Sir Thomas White were Dr. Chas. Sheard, member for Toronto South; Jas. D. Chaplin, member for Lincoln; John Best, member for Dufferin; John A. Malring, member for Maple Creek; F. L. Davin, member for Nepean; T. J. Stewart, member for Hamilton West; Frank Stewart Scott, member for Waterloo South, and manufacturer; Geo. W. Allen, member for Winnipeg South; Henry A. Mackie, member of Edmonton; Sir Herbert Ames, member for St. Antoinette; Sir Sam Hughes, member for Victoria, who stated that though a protectionist, he is not in favor of a tariff which pressed unduly on any

section of the community. Donald Sutherland, member for Ontario; H. C. Henders, members for Macdonald, and Michael Clark, member for Red Deer.

It was the impression of most of the western members that the inquiry on a general revision of the tariff will be based on the tariff as it stands at the present time and probably start this summer.

Ottawa, March 20.—The government caucus on the tariff which opened this morning at 11 o'clock was the most largely attended session.

The purpose of the caucus is to hear the views of the Unionist members as to the tariff and trade policy of the government and to be reported to the parliament in attendance at today's caucus. Colonel J. A. Currie voicing the protectionist viewpoint and J. A. Malring, of Maple Creek, president of the Saskatchewan Grain Growers' Association, the western farmers.

The western viewpoint was emphasized in a letter received this morning by all western members from William R. Wood, M.P., secretary of the Manitoba Grain Growers' Association, containing a resolution passed by the grain growers, which said:

"We look to western members of the house for an inflexible stand on the farmers' platform."

The resolution states that as agriculture is the basic industry of Canada and that as the war is over there should be a delay in tariff changes which will favor the development of agriculture which is the basis industry of the Canadian people. The resolution requires that the government at the present session take definite action there is no reason why substantial progress should not be made at once.

The exorbitant cost of living to the common people must be reduced if actual want is to be avoided.

There had been, he said, a partial revision in 1914 and a general revision, after a full inquiry by ministers would have taken place in 1914 but for the war.

It was stated, said Sir Thomas, that after normal conditions returned a general revision would be necessary. This should be accomplished after an inquiry by the minister of finance assisted by western and eastern ministers who could hold conferences at which those having conflicting interests could attend and all the different interests of the country could be fully considered. In the meantime the acting prime minister said he was confident that measures could be taken and announced made as to the future which would carry the judgment of the Union following and would not be a detriment to the national interest.

The Biggest Word in Shoe Buying

WE wish we could lead every wearer of shoes to appreciate the importance of one little word—the biggest word in shoe buying. It is not quality nor value nor even price: shorter than any of them, it is still the most important, this little word "FIT."

For no matter what value has been built into the shoes, they will not give the full measure of satisfaction if they do not fit. They will not give you lasting comfort; they will not wear well; they soon will lose their neat and attractive appearance.

So we say: go to a reliable dealer and let him give you the right size and width for your foot. The price you wish to pay may govern your selection of styles and leathers, but no shoe is good value for you if it does not fit.

And if you will look for the manufacturer's trade mark on the shoes you buy you may be assured of good value for your money.

Our booklet "How to Buy Shoes" will be gladly sent to any address in Canada upon request to our head office at Montreal.

**Widows' Pensions.**  
We recommend to this federation that they bring to the notice of the provincial government the enactment of a law to provide pensions for widows and orphans.

No element in this province is more vitally concerned in the future of the province than the working class. The opportunities now before us are without precedent. By following safe and sound fundamental principles and policies founded on freedom, justice and democracy, all problems, however grave in importance and difficult of solution, can be met and adjusted to the advantage of all people in this province.

COAL SETTLEMENT  
COSTS PEOPLE  
MILLIONS

London, March 20.—(By the Associated Press)—Andrew Bonar Law, the government spokesman, in a statement in the house of commons this evening, said that the government accepted the report of the special coal commission, of which Justice Sir John Sankey is chairman, including its undertaking to report on the question of nationalisation by May 20 and to have interim reports from time to time on the problem of improvements in the coal industry.

Proposals of this nature would be put into immediate operation, declared Bonar Law. This involved the continuance of coal control for two years. It was proposed that the profits of the coal masters should be limited to fourteen pence per ton. Taking all things into consideration, the estimated cost to the taxpayers would be nearly £20,000,000. Meanwhile, said the speaker, the government had definitely proposed that wages, including the war bonus, should be retained at the present level until the end of the current year. The men had, in addition to that, however, pressed further demands involving an estimated additional expenditure of more than £10,000,000 which in the present position of the railroads was a very serious thing.

HIGHER SALARY  
IS FAVORED FOR  
JAMES L. SUGRUE

(Continued from page 11)  
ployment, public works on an extensive scale as possible should be inaugurated. Bonds of small denominations could be successfully floated and would provide sufficient funds for this purpose.  
Reasonable hours of labor promote the economic and social well-being of the masses. The shorter work day and shorter work week make for better standards of productivity, health, morals and citizenship. The working day should be limited to eight hours with overtime prohibited, except under extraordinary emergencies. The working week time should be five and a half days.  
Women should receive the same pay as men for equal work performed. Women workers must not be permitted

to perform tasks which tend to impair their potential motherhood and prevent the continuation of strong healthy and intelligent men and women.

The provincial legislature should protect children by prohibiting their employment under sixteen years of age. Exploitation of child life for private gain should not be permitted.

Public employees should not be denied the right of organization and should not be limited in the exercise of their rights as citizens.

Existence of employers' liability insurance should be prohibited in order to secure full measure of compensation to injured workmen.

**Nationalization.**

It should be insisted upon that all immigrants be required to immediately become naturalized. Under existing conditions immigration should be prohibited for at least three years.

It is essential that our system of public education should offer the wage earners' children the opportunity for the fullest possible development. To this end

our endeavors should be toward an application of technical and industrial education in order to provide those advantages which are not procurable under the present system of cultural education. To elevate and advance their interests and to promote popular and democratic education school teachers should affiliate with the movement of organized workers.

Private employment agencies operated for profit should not be permitted to exist. Where federal, provincial and municipal agencies are established they should operate under the supervision of joint committees of trade unionists and employers.

The ownership of homes free of exploiting interests will make for more contented and better citizens. The government should inaugurate a plan to build model homes and establish a system of credits whereby the workers can borrow money at a low rate of interest and under favorable terms to build their own homes. If need should arise to spend public moneys to relieve unemployment the building of wholesome

Canadian Candy  
is wholesome  
It produces real energy

ALL through the war the highest medical and food authorities were insistent in their recommendations to give the soldiers candy.

In Military Hospitals and Convalescent Homes candy was allowed to seriously wounded patients whose condition called for constant nourishment in a light, nutritious, easily-digested form.

As the war progressed, the demand for candy grew to enormous proportions. Soldiers and sailors alike found by experience that candy produced real energy, while stimulants gave only deceptive temporary strength.

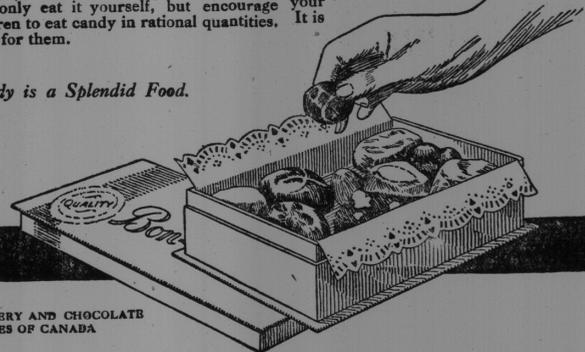

This war experience is supported by scientific opinion, and some misconceptions are set right in the following extract from the *Canada Lancet*:—

"Candy and Chocolate are nutritious, stimulating foods. There is not the least scientific foundation for the opinion that eating candy is injurious to the teeth. The lack of sugar is much more likely to injure the teeth through impaired nutrition than even its excessive use is liable to do by any digestive troubles which might result from overuse."

"In like manner there is little foundation for the common opinion that the consumption of candy causes digestive troubles."

Candy brings sunshine into the lives of children. Children are fond of candy because their bodies require fuel which candy best produces. Not only eat it yourself, but encourage your children to eat candy in rational quantities. It is good for them.

Candy is a Splendid Food.

## AIRSHIPS SOON MOORED TO MASTS IN HARBOR

### Dr. Alexander Graham Bell Sees Immediate Development of Commercial Aeronautics

#### Tells Also of Wonders of Wireless Telephony—Early Experiments in Aerial Navigation Reviewed—An Interesting Session of Canadian Club.

Dr. Alexander Graham Bell, inventor and scientist, is also a fluent and entertaining speaker and before a record gathering of 150 members of the Canadian Club at Bond's last evening he delivered a most heartily applauded address on the fascinating subject of aerial navigation, a subject on which no one has a better right to speak than has Dr. Bell, who was the founder of the serial experimental association for which he claims that it engineered the first flights in America and within the British Empire.

Judge H. O. McInerney, who presided before introducing the speaker of the evening, alluded to the fact that the day was the seventy-ninth anniversary of Dr. Thomas Walker, a valued member of the club, and said that the club would be indeed happy if it could have him with it for many more years. He then introduced Dr. Bell by saying that he had contributed more to science, commerce and the convenience of his fellow men than any of the notable speakers that it had been the privilege of the club to listen to, and that the subject on which he would speak was of universal interest, but particularly of

first flying machine that could carry a man, and Dr. Bell described how the professor had been given \$50,000 by the United States government to perfect such a machine and how it was made in great secrecy, how it was caught by a wire at its first launching from his house back of the Potomac and therefore heralded as a failure, how again at its second launching it met with an accident and was broken by the grappling irons of the tug that went to rescue it and was then utterly condemned as an out and out failure. This very air machine Dr. Bell said had been repaired and after the death of its owner, caused in no small degree by obliquity and shame at his discomfiture, had proved entirely successful in sustained flights. Professor Langley had first started his experiments with this machine after sending up on May 6, 1896, a steam engine with fifteen foot wings that had flown two miles without a pilot.

After describing the work of the Wright brothers in perfecting their air machines, quickly carried on at Dayton, Ohio, Dr. Bell went on to give an account of the formation on October 1, 1907, of the Aerial Experiment Association financed by his wife and composed of himself, F. W. Baldwin and J. A. MacCurdy, two Toronto engineers, Glenn H. Curtis maker of the lightest motor cycle engines and Lieutenant Selfridge, United States army flying expert, and with the definite object of inventing a motor propelled man carrying air machine. The association had carried on its experiments in Baddeck, Nova Scotia, and Hammondsport, New York, and at the end of one year had achieved its purpose and Mr. Baldwin, a Canadian, made the first public flight in America in "The Red Wing" in March 1908, their best performance being three hundred yards. Some time later the Wright brothers made their first flight, one in France and the other at Fort Meyer.

In all five machines were perfected by the association in the year of its existence and the flights made at Baddeck, Dr. Bell believed were the first made in the British Empire.

When he would have concluded his address at this point Dr. Bell received such repeated applause that he rose again to give some impressions of the future of aeronautics and he said that he believed St. John would soon see dirigible balloons anchored to masts in the harbor, its citizens would be used to no need of hangars for these balloons as they could be inflated with the hot gas helium heated from the exhaust of the engine. Referring to the heavier than air machines with their possible speed of 150 to 200 miles an hour he thought and hoped that he would live to see the day when they were used for carrying mails and could be called for as a taxi-cab was called for now. The space required for their initial run before rising was their greatest drawback for such use, he said, but experimenters were seeking to become of overcoming this difficulty in order that the tops of houses might be used for the business man's airplane station.

Judge McInerney expressed to Dr. Bell the thanks of the club for a most instructive and captivating address.

### 49th Anniversary of Alexandra Temple Fittingly Observed

The forty-ninth anniversary of Alexandra Temple, observed last evening in its fine temple in Main street, was one of the most enjoyable in its long history. The programme was as follows: Selections by the orchestra; readings, A. W. Grand Templar W. H. Smith. The hall was filled with people, young and old, and a fine programme was enjoyed, followed by refreshments served by an efficient committee. A feature of the entertainment was the playing of Black's orchestra, in which are Mr. and Mrs. Black and four of their children; and the vocalists with orchestra accompanied by formation of a North End Improvement

### League along the lines of that of the South End, to get behind a playground movement for the girls and boys. He outlined the plan to have four of such leagues, east, west, north and south, to promote the welfare of their sections of the city and compete in friendly rivalry. If Victoria square were ready for use this year there should be behind it a strong organization to provide supervision.

#### Flegg-Mitchell

A happy event occurred on board the mail steamship Corsican last evening after she arrived from Liverpool, and before the passengers disembarked. Alexander Flegg came all the way from Carlisle (Sask.) to meet his intended bride, Miss Lizzie Mitchell, of Scotland, who was a passenger on the ship. When it was learned that the passengers were to leave the vessel last night and enroute for the west, it was decided to have the wedding on board. The ship's commander gladly gave his consent, and the ceremony was performed in the saloon by Rev. W. Lindsay, a Baptist minister, of Nova Scotia. The blushing bride was given away by Commander W. Davidson, R. N. R., and Miss Lindsay, of Scotland, was bridesmaid. Many of the passengers were spectators, and the congratulations were many. The happy pair left during the night for the west.

#### CAR ON FIRE

An alarm was rung in from box 151 at about 5:30 o'clock last evening for a small fire in Fleming's garage, Pond street. As a chauffeur was attempting to start one of the automobiles it caught fire, but was removed from the garage and the flames extinguished before much damage had been done.

## Delicious pancakes without using eggs or milk

Hot, golden-brown Aunt Jemima Pancakes! Um-m-m, how good they are!

The sweet milk (in powdered form) comes already mixed in the flour, and it's so rich you need no eggs—so all you add is a cup of water to each cup of Aunt Jemima Pancake Flour. Pancakes for the whole family cost only a few cents!

When your husband tastes that rich flavor—the flavor that only sweet milk can give—he will want Aunt Jemima Pancakes morning after morning. And they're so delicious, so satisfying and so easy to prepare, you'll be glad to serve them often.

Get a package today. Aunt Jemima Pancake Flour makes wonderful muffins and waffles, too. For a change, serve Buckwheat Cakes from Aunt Jemima Buckwheat Flour in the yellow package. Aunt Jemima Mills Company, St. Joseph, Missouri.

"I see in town, Honey!"

Y. W. C. A. BUILDING FORMALLY OPENED

Wife of the Premier Officiates at Interesting Ceremony

THE ORATION

Stirring Address by Rev. Mr. MacKeigan, Who Pays Fine Tribute to the Girls and Women—Others Who Take Part—The House Inspected.

The Young Women's Christian Association building was formally opened yesterday afternoon by Mrs. W. E. Foster, wife of the premier of the province, and by special invitation the clergy and many of the prominent citizens were present to witness the inspiring opening ceremony, to view the building in all its parts, and in an afternoon tea in the cafeteria. With one accord everyone who had the privilege of being present expressed his or her delight in the appointments of the building and congratulated the board of directors on the success of its endeavor.

The board of directors were the honored guests for the occasion and as the guests entered the building they were received by Mrs. J. A. McAvity, the president of the association, and Mrs. Costigan, the house mother of the new building, assisted by the members of the board and Miss Feunans, the secretary. The ceremony of dedicating the building open and dedicating it to God's service took place in the social room on the first floor of the home.

Mrs. McAvity, in extending the president's welcome to the large gathering, said that the presence of so many friends was not the first mark of interest that had been shown in the providing of this new home for the Y. W. C. A., but last fall, when the appeal for funds had been made, the interest taken in the scheme had been most apparent in the ready response of the citizens. She then called upon Mayor Hayes to take the chair.

His worship, having expressed himself as pleased to assist at such a happy occasion, spoke of the amount of care and attention which had been given by the Y. W. C. A. to boys who left their homes, and said that it was only recently that for young women had been developed to any large extent in St. John and the neighborhood. He felt that as girls were leaving their homes in increasing numbers to take up work independently, there was an increasingly great need for building up such as the one about to be opened. He congratulated the directors in fitting it up at splendidly, and in such a short time, and expressed his conviction that if, on the expiration of the lease, the board should find that there was need for still further extension, and he thought they would do so, then they could feel assured that they would meet with hearty support from the citizens which they appealed to them once more. If the board had been at times discouraged in its efforts it could now rest assured that they had been crowned with success.

Rev. Neil MacLaughlin, in a deeply earnest prayer, voiced the thankfulness to God's service, and called down a blessing upon its future usefulness.

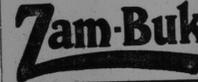

Rev. Dr. D. Hutchinson read the portion of scripture which he had chosen as appropriate to the occasion, the third chapter of First Corinthians, commencing at the fifth verse.

The Oration. Rev. J. A. MacKeigan had been asked to deliver the oration and he spoke with much feeling in eloquent and inspiring language. First congratulating the board of directors and the young ladies who would occupy the home, he went on to congratulate the citizens of St. John also on the opening of the home in as much as it was an evidence of their awakening to the realization of the importance of constructive helpfulness. He said the quotation, "As unto the boy the core is so unto the man is woman, though she bends him she obeys him, though she leads him still she follows," had in the past meant that women lead in doing good works, but had to follow in having good works done for her, and that the Y. W. C. A. was only now beginning to get the local consideration and support which was its due. The citizens were learning that the jails and the rescue homes should not be the institutions to give help to women, but with constructive and positive help rather than correction of faults the good of the nation would

THERE'S NO DOUBT

That you get the maximum return for your money when you buy Zam-Buk, because Zam-Buk is all medicine—not 5% medicine and 95% animal fat as ordinary ointments are. The herbal extracts and vegetable oils of which Zam-Buk is composed are so wonderfully blended and refined that Zam-Buk possesses unusual power of penetration. Instead of remaining on the surface skin, as ordinary ointments do (owing to the amount of coarse animal fat they contain), Zam-Buk literally soaks through until it reaches the "root" of the disease, which is always in the underlying tissues. Then it cures from the "root" up, which is the only thorough and permanent way of curing skin troubles, and is why Zam-Buk succeeds when other treatments fail.

Zam-Buk is best for eczema, pimples, blotches, psoriasis, chronic sores, blood-poisoning, teething rash, boils, piles, cuts, burns and scalds. All dealers or Zam-Buk Co., Toronto. 50c. box, \$ for \$1.25.

be accomplished. He stated that if the money spent on immigration for the ten years which preceded the war had been devoted to the betterment of the then existing population, Canada would now be numerically stronger and morally much higher.

Mr. MacKeigan drew an amusing picture of the women of by-gone days who were supposed to stay at home, sew, mend, wash, put them away in a hope-chest and then—wait. Women today were, he said, following their hoves, or hoves, into far fields. They had helped in every way towards the winning of the war and would take the same high place in solving the problems of peace and building the nation from a foundation of the qualities which shall endure.

He spoke of the great number of girls who have taken up work far from their homes, saying that many of them were lonely and that very loneliness was the opportunity of good or evil. Housed in such a building as the new Y. W. C. A. home they would be safe from dangers and the inspiration received in church on Sunday would be helped in spreading its guiding influence through the week. He emphasized particularly the responsibility of the churches and such institutions that from the girl's loneliness should be brought smiling hope and stouter heart.

The home should also be, he said, an educational centre where the ambitious girl could learn, and from which would come forth better business women to be a factor in bringing about a nobler manhood in the city. In the new home Mr. MacKeigan saw a great centre for co-operation with religious interests for the ultimate good of the common cause, for the solution of community problems and for the realization of the eternity of the common God. In concluding he wished the association "Godspeed" in all its endeavors and hoped that so far from the present building meeting the entire needs of the city it might reveal much greater needs and that the work might increase and expand with time to be a perpetual benefit to the community.

Mrs. W. E. Foster then most gracefully pronounced the words which formally declared the building open. "In the name of the board of directors of the Young Women's Christian Association, I now declare this building open for the physical, social and moral welfare of the young women of this city and community. We hope it may be ever a centre of friendly helpfulness and increase in force and usefulness with the passing years."

Mrs. McAvity extended to all present the cordial invitation to make a tour of inspection of the house and to partake of tea in real cafeteria fashion as the guests of the association, and the guests eagerly accepted the invitation.

GOOD WORK AT Y. M. C. A. EXHIBIT

The annual physical display of the Y. M. C. A. was held in the gymnasium last evening and was a grand success. The programme was varied and consisted of drills, gymnasium work and tumbling, and altogether was one of the best that has been given by the institution. The programme was opened with the grand march in which all the members took part. This was followed by military marching, an Indian war dance,

drills and games by the Junior A boys. The boys came into the gymnasium in regular Indian fashion and after giving an Indian war dance, a ring, representing a camp fire, was formed and four challenge games, consisting of rooster, dog and chicken fights and Oriental wrestling, were fought by various of the chiefs and braves of the tribes. This was followed by a fine exhibition of tumbling by the clowns, impersonated by F. Fee, K. Jones, R. Hayes, G. Stammers, P. Nasc and H. Williams. The best act of the night was the diving through a hoop of fire by Sterling and Williams. A wooden hoop, saturated with wood

alcohol, was suspended from the ceiling. All the light in the gymnasium were then turned out; the hoop was lighted and the clowns then dived through the blazing hoop of fire, making a very picturesque and thrilling picture. This is the first time that this feat has been attempted in St. John.

Next on the programme was a fine exhibition of Swedish exercises by the Junior B boys. Next was a two round comedy boxing match by Kee and Jones, two of the clowns, and needless to say this created no end of amusement. The next was free-hand pyramid building by fifteen members of the

High school class, and the wonderful human pyramids that were thus constructed were in truth one of the leading features of the evening. A humorous event on the programme was a weight-lifting exhibition by "Professor" Sterling, who in turn lifted a 200 pound barbell and a 250 pound pyramid weight to his arm's length. This stunt brought forth rounds of applause. B leaders then gave a fine display of apparatus work on the side horse. This was followed by the Trail Rangers class who gave an excellent demonstration in various group games. The junior business boys under the direction of their

instructor, Basil Robertson, next took the floor and went through their regular setting up exercises, and also did some fine running and marching. Five senior leaders also gave an excellent exhibition of several daring stunts on the parallel bars. The final number on the programme was a funeral procession in which a corpse was carried around the floor to the strains of the dead march and followed by the weeping and mourning clowns. The exhibition came to a conclusion at about 10.15 by the playing of the national anthem. Robert S. Coupe acted as pianist, and much of the success of the evening is no doubt

due to the able manner in which he presided at the piano and accompanied the various exercises, drills and marching. The board of trade has received a request from the Yukon Development League, Dawson, that the local organization co-operate with the league in the development of the vast resources of the territory. President Frank Lowe of the league states that there are 370,000 square miles rich in minerals and other valuable resources. He thinks that all of Canada should assist in developing the Yukon as the United States has done in Alaska.

## A Question And Its Answer

### About Our Made-To-Measure Custom Tailored Clothes

A Customer asked us the other day—  
"How Can You Make a \$35 to \$40 Suit for Only \$17?"

Here is what we told him:—

"WE don't pretend to be philanthropists, but we do not think it fair to make a few customers pay for the upkeep of a whole tailoring establishment. We do not think it is right to charge a man \$35 to \$40 for a suit and make a big profit on one customer, when we can make the same suit for only \$17—and make a LITTLE profit on a LOT of customers.

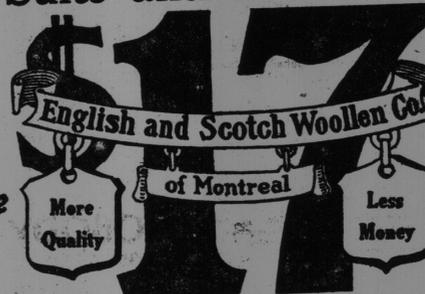

"Our Dominion-wide Made-To-Measure Tailoring Service is operated so that we can give Custom Tailored Suits at a National Purveyor's Price—a system and a service that puts more money in our pockets, and a Whole Lot More in the customer's.

"We prove that by making clothes for only \$17—and by giving fine quality fabrics, style, fit and careful attention to each customer—the men flock to our 25 Stores and Tailor Shops."

This answer satisfied our customer—  
It's perfectly clear to you, isn't it?

The Game in City League.

In the City League, last evening, the Pilots and their opponents the Weasels broke even each taking two points. Both games were very evenly contested and many high scores were made by both teams with McIntyre of the Pilots smashing the pins for a total of 381 being an average of 110-3. The following are the scores:

| Pilots—          |     |    |     |
|------------------|-----|----|-----|
| Beatty           | 296 | 87 | 106 |
| McIntyre         | 119 | 46 | 107 |
| Ramsay           | 84  | 80 | 82  |
| Cromwell         | 106 | 89 | 79  |
| Coughlan         | 102 | 87 | 100 |
| 519 448 484 1461 |     |    |     |

**Weasels—**

|                  |    |    |     |
|------------------|----|----|-----|
| H. Belyea        | 84 | 99 | 100 |
| Kelly            | 91 | 86 | 97  |
| E. Belyea        | 79 | 80 | 84  |
| Lewis            | 90 | 99 | 109 |

**THREE BIG STARS STILL HOLDOUTS**

**Cobb, Speaker, and Ruth Will Not Accompany Clubs on Spring Training Trips**

New York, March 20—With the major league baseball clubs already on their way to Southern training camps, three of the greatest attractions in the American League, Ty Cobb, Babe Ruth, and Tris Speaker, are holdouts and have refused to take part in any spring training. Cobb's stubborn attitude is the surprise of the season. Although the Georgian said, when he returned from France, that he might retire from the game, his statement made yesterday in Atlanta that he had not yet considered signing a contract comes as a shock to the Dan Johnson circuit.

Cobb says: "When I got back from France I said that I probably would not play ball again, and my sentiments haven't changed any since. It isn't a question of money with me exactly. Naturally, I feel that my services are worth a certain sum and I wouldn't play for less. But I am not a hold-out in the sense of demanding more money. I am a hold-out mostly because I have felt the last few months that I wanted to retire from the game. If I decide to return to baseball, I do not plan to do any spring training work this season. The training I had in the army did me a world of good, and I can really say that I have been in strict training since the opening of last season."

there until tomorrow. The Herzog matter, it is said, is keeping him here. Grant has ordered Herzog to report to the club's training camp at Columbus, Ga. but it is not likely that the player will report unless he has some assurance about what Grant expects to do with him after the season starts. Herzog does not intend to go to the training camp, take part in the exhibition games against Detroit, and then come home to Boston for Jacksonville on Saturday.

The Yankee hold-outs are now Pratt, Ernie Shore and Dutch Leonard. Shore notified the club yesterday that he would go to the training camp and talk over his contract with Manager Huggins. Frank O'Doul, the young pitcher the Yanks drafted from the Pacific Coast League, has signed his contract. The first installment of the Yanks expect to start for Jacksonville on Saturday.

Leon Cadore, the Brooklyn pitcher, and Catcher Otto Miller led the Dodger invasion on Florida yesterday when they started for the Jacksonville training camp. Ed Pfeffer is already working out at Hot Springs and the other Brooklyn players will start south on Thursday.

The advance guard of the Giants will get away on Thursday night. In the party will be Manager McGraw, Secretary John B. Foster, Assistant Manager Christy Mathewson, Benny Kauff, Larry Dole, Heinie Zimmerman, George Smith, Ryan Terhune and Brogan, recruit pitchers.

## Y. W. P. A. TAKES UP IMPORTANT WORK

War Savings Society Formed  
and Plans Made For G. W.  
V. A. Today.

At the regular meeting of the Y. W. P. A., held in the Great War Veterans' rooms last evening, Miss Alice Fairweather in the chair, the treasurer's report showed the general fund to be \$1,068.69, the reserved fund, \$120.10, and the returned soldiers' fund, \$8.97. For the Great War Veterans' annual tag day in April the association appointed headquarters committee, motor committee, tagging and boxing committee. Miss Dodge was appointed a convener of the committee to supervise arrangements for a fashion show to be held in acceptance of the offer of a local firm. A committee was appointed to meet the next steamer and assist the women's welcome committee, and plans were made for holding a concert at the Old Ladies' Home in the coming week. The following additions were made to the entertainment committee: The Misses Al-lingham, Collins, Griffiths, Deinstedt, Ewing, Lane and Thompson; and five more members were added to the refreshment committee, the Misses E. Colston, Edward, Wales, Ferris and Holmes. Miss Winifred Uphan was appointed convener for the Seaman's Mission for this month. Volunteers were called for sphagnum moss work and five new members were enrolled in the association, while 100 tickets for the Great War Veterans' recital were distributed among the members for sale. Miss Barnes reported on the furnishing of the nurses' room in the dependant hospital, St. James street, and said that the room looked most attractive, and gave the full list of the furniture provided. She said that the room would be completely furnished by the end of the week. Miss M. DeSoyres gave a very interesting account of a visit of three of the members to inspect the East St. John County Hospital and the nurses' home, and after listening to her graphic description it was unanimously decided to donate \$100 for the furnishing of the head nurse's bedroom in the house. Miss Storm, the secretary of the war stamp saving society, reported that she had procured the chapter of the society and had enrolled thirty members.

## GUNNER HICKMAN WAS KILLED BY CHANCE BULLET

Moncton, March 20—Corporal E. Stone, of the 2nd Siege Battery, who left his position temporarily on the post office staff here to enlist, landed at Halifax from the steamship Celtic Tuesday evening. He went to St. John where yesterday he was discharged and reached Moncton last evening. Corporal Stone was at Kimmel camp during the rioting and gives first-hand information regarding the death of Gunner John Hickman, of Dorchester. Speaking of the firing between rioters and London (Ont.) troops, Corporal Stone said that the shots penetrated the huts in the New Brunswick and Army Service Corps camps several horses were killed. "The first I saw wounded was a young fellow struck on the hip," he said. "I do not know his name. The next who had been shot was Gunner Hickman. I saw him carried in on a stretcher. He was dead at the time. Gunner Hickman took no part in the rioting and was simply looking on like many hundreds of others around there. He was shot by a stray bullet fired, unfortunately, by London (Ont.) troops. The New Brunswick camp was somewhat to the rear of the rioting. That is why we got the stray bullets fired against the rioters. Gunner Merrill, of St. John, remained behind when we asked to identify young Hickman at the request. Young Hickman was popular with the boys. He was a fine young fellow. After the firing we went out and saw where the dead and wounded were lying. The wounded were bleeding terribly. In the majority of cases the boys who were killed or wounded were shot through the head or neck. Besides Gunner Hickman there was an Australian soldier from this province, whose name I cannot remember. He died the next day. We took up a collection and bought wreaths for the New Brunswick soldiers. They are buried in the church yard at St. Anne's, adjoining the Marble Church, so called. "That young fellow looks furtive. Let's be apt to try to pinch something." "Naw," said the experienced jeweler. "He wants to buy an engagement ring." —Kansas City Journal.

## HUSBAND NOT HELD RESPONSIBLE FOR WIFE'S DEBTS

Judge Ritchie delivered an interesting decision yesterday in the case of a grocer who sued Lieutenant Downey for goods sold and delivered to the wife of the soldier. The claim was for \$46.78 and the decision is in favor of the defendant. The judgment follows: "From the evidence it appears that the defendant, a soldier, was at the front for about four years. During his absence the wife was in receipt of his wages from the Government railway, and also an amount of \$25, netting her more than \$3 a day to support herself and four children. The question is—Under the evidence is the defendant liable? "The principle upon which a husband may be held liable for his wife's contracts, is that the wife is acting as his agent and with his authority; that as his wife she could contract and make him liable—the old idea—has exploded. "The house of lords has held that marriage does not imply a mandate in law, making the wife the agent of the husband to pledge his credit. "Under certain circumstances, where in the domestic department the wife bought necessities, such as persons in that class of life are in the habit of

ordering upon credit, the husband may be liable; but even where goods ordered are necessities, the presumption is not absolute, and it may be shown that the wife was supplied with necessities, or with money to pay for such necessities. "The goods sold and delivered must be necessities, and and has been said that the onus, the burden of proof was on the plaintiff to show that they were

necessaries suited to the condition of the husband, and that her husband had not provided her with necessities, or with money to provide the necessities. "The wife having something like \$25 a month, and the plaintiff admits that the wife told him that her husband was an officer overseas, and that she got her husband's money every month from the railway.

"The plaintiff ought to be paid for his groceries, but I cannot order the defendant to pay him. The wife who ordered the goods, and who had in her hands a large sum of money every month should pay him. She may have to be without extra hats or costumes or luxuries, or amusement halls, but owing to the Plaintiff Brown, she should pay him. "I find for the defendant."
