and the Villers-Cotterets line in order to reach beyond the forest on the left wing and obtain a base for future operations against Paris. There is no doubt that the battle may be considered lost by the enemy, the Germans having only the coubtful satisfaction of a slight advance in the centre for which precious divisions were sacrificed ruthlessly. The check, however, is merely momentary. We must expect the Germans to make other attempts, as they are in a great hurry to reach their goal, which, owing to the decreased forces and shortening time, ap-

Herbert J. Anderson, provincial inspector under the theatre tax act, has returned after a trip of inspection around the province. He was agreeably surprised to find how well the act is being observed, and how carefully the managers are carrying out its provisions, even in the smaller places. He finds, however, that there is one feature of however, that there is one feature of the act which does not seem to be known as well as it should be and that is the fact that the act applies to all entertainments for which an admission is charged, with the exception of those given purely for patriotic or church purposes. Any other entertainment, no matter how worthy the object or by whom given, or even if a percentage of the profits is given for patriotic purposes, is subject to the ticket tax.

A NERVOUS BREAKDOWN

When the Blood is Out of Order the

Nerves Are in a Starved Condition The nerve system is the governing system of the whole body, controlling system of the whole body, controlling the heart, lungs, digestion and brain; so it is not surprising that nervous disturbances should cause acute distress. The first stages of nervous debility are noted by irritability and restlessness, in which the victims seem to be oppressed by their nerves. The matter requires immediate attention, for nothing but suitable treatment will prevent a complete by present due 12.00 noon, will arrive ten minutes earlier.

It is because Dr. Williams' Pink Pills actually make new, rich blood that this medicine has cured extreme nervous disorders after all treatment had failed. The nerves thrive on the new blood made by these thrive on the new blood made by these pills; the appetite improves, digestion is better, sleeplessness no longer troubles the former nerve-shattered victim, and life generally takes on a cheerful aspect. Every sufferer from nerve troubles, no matter how slight, should lose no time in giving Dr. Williams' Pink Pills a fair trial, thus regaining their old-time

A National Asset

SPECIALLY in these days when thrift is patriotism, you can conscientiously own a motor car. It is a mistaken idea of economy that would prompt you to put

Clear thinking men realize today that the automobile is absolutely essential to business and domestic life. One prominent manufacturer has said: "Take the telephone, the wireless and the automobile out of our lives and we would

retrograde fifty years." National economy is a thing to be applied carefully, and with a view to preserving the interests of commerce and business in the healthiest possible state.

The realization is growing everywhere that anything that will speed up production, that will serve to get things done more rapidly, that increases man's personal efficiency is a big national asset. The automobile is an essential utility today because it is doing these things. The Ford offers the best value on the market. All prices subject to war tax charges, except trucks and chassis

PREVENT GRASSHOPPER DAMAGE. PREVENT GRASSHOPPER DAMAGE.

In districts where grasshoppers are abundant, farmers and gardeners should co-operate and arrange to fight the insects at the same time. The young hoppers hatch in May, the exact date depending upon local meteorological conditions. As soon as they are noticed to be destroying crops, either of the following mixtures should be used early in the morning, about the time the insects begin to move about after their night's rest: (1) Bran—20 pounds; Paris green or white arsenic—one-half pound; cheap molasses—2 quarts; oranges or lemons—3 fruits; water—2 to 2½ gallons. The bran and poison are mixed thoroughly in a wash tub while dry. The juice of the fruit is squeezed into the water and the pulp and peel are added after being cut into fine bits. Then add the molasses and when the whole is thoroughly mixed, pour it over the dry bran and poison, stirring constantly so as to dampen the bran thoroughly. The other mixture is as follows: (2) Sawdust—20 pounds; Paris green—one-half pound; salt—one-quarter pound; water—3 gallons. The quantities given here would make sufficient for a fair-sized community and it might best be handled in this way.

Register Ahead of Time Where You Can

HERE is good sound advice in the old saying—"Come L early and avoid the rush." Come early to the registration booth on Registration Day-but better still-register before Registration Day, if you can.

It is going to tax the powers of deputy registrars to the utmost to handle the crowds on June 22nd. Realizing that to be so, many of these deputies are arranging to take beforehand the registration of any persons who care to present themselves.

The Board urges you to read the papers carefully for news items in regard to prior registration in your locality, and to take advantage of any facilities offered in that connection. Enquire of your employer as to the arrangements in effect for advance registration at the place where you work. He can readily make such arrangements, if he has not already done so.

REMEMBER

That registration ahead of time is valid registration --- it is

complying fully with the law.

That by so registering you will almost certainly be saving yourself great inconvenience on Registration Day. That every registration taken beforehand is so much of the job done --- so much of the load lifted from the overburdened

registrar---so much congestion avoided. Study your own convenience, aid the Volunteer Deputy, obey the law, and serve Canada, by registering early in the week if you can, or, in any event, early on The Day.

Issued by authority of Canada Registration Board

Boys This Lovely Pony

THE 16 Circles above can be made to spell out the names of the four chief things that are going to win the war. Our bright loyal Canadian boys and girls can help provide at least one of these things. Every boy and girl should know all of them. Can you tell what words the four magic circles represent?

25 Extra Cash Prizes of \$1.00 each

25 Extra Cash Prizes of \$1.00 each

ET your pencil and paper right now. Try to figure out the words and when you think you have them, write them out as neatly as you can and send them to us. We will reply right away telling you figure out your colutions are correct and sending you the complete illustrated list of grand prizes that you can win. Use one side of the paper only, putting your name and address in the upper right hand corner. If you want to write anything besides your answer to the puzzle use a separate sheet of paper. Be neat and careful because in case of ties the prizes will go to the boys and girls whose answers are neatest and best written. Proper spelling and punctuation will also count. What Others Have Done You Can Do

you tell what words the four mage curseles represents a letter of the word called for. The number of dots in the circle represents the position of that letter in the alphabet. For instance: "A" would be represented by a circle with one dot because it is the first letter of the alphabet. "B" would be represented by a circle with one dot because it is the first letter of the alphabet. "B" would be represented by a circle with two dots because it is the good letter. "C" would be represented by three dots, "D" by four dots and so m. You must correctly count the dots in each circle, figure out the letter represented by its position in the alphabet and when you have them all figured out in the finto proper rotation to spell name wanted. It's not an easy ale but if you can solve it correctly ou may win this lovely shetland pony rone of the grand Cash prizes above. Here are the names of only a few of the boys and girls to whom we have recently awarded big prizes.

LADY WHITE

Wife of the Minister of Finance.

"In order that the soldiers who are fighting for us may be well supplied with the most nourishing food and that the people of Great Britain and the Allies may be saved from hunger, we in Canada are asked to increase our production of foodstuffs and to assist to the utmost of our ability in conserving what has been produced.

"As is being reiterated every day, the object of increased production and of the saving of food is one and the same—namely, that more may be available to "Apart from the question of saving in Nations Arranging to Check Work"

France is debating regulations to compel registration of nationality by manufacturers and trades people, so that the nation which has borne the brunt of the nation which has borne the brunt of the German assault may not unwittingly send gold to provide funds for another war. Italy has issued a decree requiring declarations of nationality. Others of the Allied countries are discussing similar measures, despite opposition in some official quarters to anything savoring of an "economic war after the war."

German duplicity and intrigue revealed in the last four years have strengthened fears in European countries that Germany may attempt to market her goods when peace comes by means of "masked exports," giving the impression that they originated elsewhere. Three Thousand New Yorkers Waited Twelve Hours to Hear Her Sing!

Think of three thousand people waiting twelve hours on the street to hear her sing! Think of selling \$440,000 worth of records of her voice in six months! Think of being only twenty-eight and having the musical world at her feet! That's Galli-Curci—the greatest living soprano who had all New York wild about her last Winter.

Pictorial Review for July contains a magnificent set of special rotogravure pictures of Mme. Galli-Curci—the wonder singer of the world. These pictures are in delicate soft tints and are all ready to be removed and framed. They were taken exclusively for Pictorial Review and cannot be obtained elsewhere. They are included in the magazine

without extra cost. Accompanying these pictures Jane Lee has written an intimate account of the romantic career of Mme. Galli-Curci, based on personal interviews in her own home. Many striking facts are made public for the first time.

Do you know why it is so powerful? Do you know any members? Don't miss reading "The Golden Bough," by George Gibbs. What a mysterious story it is! In Pictorial Review for July there is a twenty-five thousand word instalment telling all about the fight for the treasure and the reason why Rowland and Tanya swore to defend it with their lives.

Two More Pictures for

Framing In addition to the Galli-Curci rotogravures, don't miss a patriotic rotogravure picture by Henry Mosler of "The Liberty Bell" which should be in every American home. There is also a cunning rotogravure picture of a baby you could almost hug. Both these rotogravures are in the softest

Why Women Must Learn

Mrs. Ida Clyde Clarke, Pictorial Review's Washington Editor, makes it her business to find out anything you want to know about your boy in the Army or Navy. Every month in Pictorial Review she conducts a page called "Your Boy and Mine," which is a mine of valuable information to mothers with boys in the service. Do You Know Why Drying Is the Easiest Way to Save Food? Helen Christine Bennett shows you absolutely new methods of drying food. She shows how cheap it is, how easy it is and how to save the flavor and nutritive value. She also shows an what mistakes to avoid—and she knows.

It shows you how to save money on everything you wear, everything you make, everything you cook and everything you buy for the home. It contains a corking serial novel and some of the finest short stories money can buy. There are four pages of rotogravure pictures for framing. These alone are worth double the cost of the whole magazine. Pictorial Review sells very rapidly each month and this July issue probably will be sold out within a few days after publication. We would suggest your going to your Newsdealer or Pictorial Review Pattern Agentitoday to make sure of your July copy. We don't want any of our good friends to miss the Galli-Curci rotogravures.

IN LETTER FROM LIEUT.

"I saw a few Germans in the distance today, and they were running like the dickens. They are very much afraid of our guns and never lose any time getting out of range," says Lieut. Frank X. Jennings, formerly of Times staff, in a recent home letter. He speaks of seeing Lieut. James B. Dever, formerly an associate in the Times, who has just been reported severely wounded. At the time Edward, who has been growing so big that he had difficulty in recognizing him. Edward has since been gassed. Lieu-tenant Jennings says that the impression

Raider Fought by British Steamship Off the Virginia Capes

HOME TODAY

An Atlantic Pork, June 15—A story of an all day fight with a German submarine off the Virginia coast on Thursday was brought here by the captain of a British ship. He said the raider gave up the chase seventy miles from the Virginia Capes, apparently fearing to brave the coast patrol.

The captain, whose ship is one of the few armed craft to be attacked by the U-boats since they came to American waters, said the Germans showed no disposition to come within the range of the guns of his armed guard of British blue-jackets, though he trailed them at long range for twelve hours. Many shots were fired without effect. An Atlantic Pork, June 15-A story
