Believe Body of Man Found Was Sailor on Ship Nellie Eaton

MISFORTUNE IN BRITAIN

MAN'S BODY IS FOUND ON BEACH

Remains are Believed to be Those of George E. Smith Brought to City No Inquest is Planned, it was Stated This Morning.

The body of the man washed ashore near Chance Harbor last night and which was brought to St. John this morning has been identified, almost beyond a doubt, as George E. Smith of Ingham's Hill, Rockland, Me.

The victim was a member of the crew of the ill-fated schooner Nellie Eaton, which was wrecked on Nan Rock, one mile west from Chance Harbor light Tuesday night during the hurricane which was raging in the Bay of Fundy.

The body was washed up on the beach last night and picked up by residents of Chance Harbor, who have been diligently searching for the unfortunate victim.

Many View Body It was brought here this morning by Arthur Abbott in a motor boat named No. 615 which landed at the foot of South Wharf and the body was conveyed to Brennan's undertaking parlors in Main street.

When the body reached the undertaking parlors a search was made of the clothing to see if there was anything which would lead to identification. In one of his pockets was found a card, which reads: This is to identify George E. Smith, Ingham's Hill, Rockland, Me., father of Captain Richard F. Smith of Rockland, Me.

There was another envelope with the name of George E. Smith appeared written on it. There was also a postcard addressed to James A. Collins, but apparently had not been finished by the sender, as the address alone was on it.

The body of the man had no tattoo marks, is five feet five inches in height, weighs about 145 pounds. Four teeth are missing on his upper jaw. He is and has blue eyes. He was wearing a dark grey shaver, khaki overalls, gunnery boots with canvas tops lacing up to the knees, a heavy grey sweater and a vest with a horizontal stripe. In addition to the papers found on the body, was a time check, which was attached to a key-ring. It bore the number 441. There was also an empty pay envelope, with No. 441 printed on it.

No Inquest Planned. The body was viewed this afternoon and from reports received prior to going to press it was announced that there would be no inquest.

Further Search The Times was in communication with N. C. Beading again today and was informed that at low tide this morning another search was made in hopes of finding the crew of the straggling members of the crew of the ill-fated vessel. Their search among the ledges and along the shore proved unavailing and when the tide started rising the party returned to their homes. They plan on making another search at low tide this evening. The tide is now completely submerged and the spars are the only evidence that another vessel has been last seen.

Rolling Stone Scares Quarry Man to Death

New York, April 4—Antonio Serio, thirty-eight years old, was working with other laborers yesterday in a quarry at Tuckahoe, when a large stone, some distance above him, tumbled down and began rolling toward him. Serio, who was leaning against a rock, tried desperately to get out of the way, then stumbled and fell, face downward, the stone passing over his right leg. When the other laborers went to him they found he was dead.

SAYS OTTAWA IS GETTING TOO MUCH

Winnipeg, April 4—Complete revision of the customs and excise duties on wines and spirits to the rates prevailing in 1914, is urged in a resolution passed unanimously by the Legislature of Manitoba. Provision is also made to reduce the taxation on malt liquor.

Bicycle Rider Appeals To Union

Paris, April 4—Peter van Kempen, the Dutch six-day bicycle rider, has appealed to the International Cycling Union against his being forbidden to take part in cycling meets until next June. The suspension was ordered by the National Cycling Association in the United States, and van Kempen argues that it is unduly severe, causing him to be deprived of his means for supporting his family.

SAY BRITISH ARE BACKING MEXICANS

Sensational Charges Made in Connection With De La Huerta Revolution. ARREST IS MADE Case Creates Sensation in Anglo-American Colony in Mexico.

Mexico City, April 4—Sensational charges that British interests were backing the De La Huerta revolution have developed in the trial of Eugene Bailey, prominent British business man here, who is under arrest charged with being a secret rebel agent. It is charged that while the United States was supporting President Obregon and permitting arms shipments to the Federalists, the powerful British armament house of Vickers, Limited, was arranging to sell De La Huerta 30,000,000 cartridges, 300 rifles and also machine guns.

Charges Are Made The charges were made Thursday when certain documents were introduced at the trial. It was said that the documents had been taken from Sir George Thurston who had appointed Bailey as a representative of Vickers Limited here.

SALARY CUT IS URGED IN SENATE

Speakers Would Reduce Judges' Allowances and Sessional Indemnities. SENATE CHANGE Hon. Mr. Turiff Proposes Smaller Membership and Age Limit of 75. (Canadian Press.) Ottawa, April 4—During discussion of the budget in the Senate yesterday, Senator Ross suggested that parliament should be called at a fixed date and business put through rapidly. This would permit the reduction of sessional indemnities to \$3,000. If the Government did this, they could then cut other salaries. He would make a cut of 20 per cent. in all the judges' salaries, which would make a saving of \$400,000. All other Government salaries should be cut, proportionately. He would reduce expenditure on experimental farms by \$100,000. He believed that good business men could take the Government expenditure and reduce it at least \$400,000,000 a year.

Senator Turiff proposed that the membership of the Senate be reduced and that members be retired at the age of 75. The debate was adjourned. The Senate department from common and debated estimates before adopting the interim supply bill. Senator Bennett criticized government expenditure for furniture and auto upkeep, suggested reduction in sessional indemnities and salaries of cabinet ministers and judges. In the House of Commons six branch line bills for the Canadian National Railways reached first reading, making seven out of twenty six resolutions to pass the House. Expenditure of \$8,422,200 has been approved out of more than \$28,000,000 involved in the government programme. The branch line matter will be further considered today. In the discussion yesterday, Hon. J. B. M. Baxter of St. John said the House had come to a place where it was necessary to consider the fortunes of any political party, must be considered. Budget April 15 The budget is expected to be brought down on or about April 15. It is almost expected that Hon. G. P. Graham, Minister of Railways will submit his railway budget before the Easter recess. The net deficit on Canadian National lines for last year after allowance has been made for fixed charges, will probably be between \$40,000,000 and \$50,000,000. The deficit for the year previous, after fixed charges, was \$60,000,000. Fixed charges increased \$5,798,000 last year.

TEN MEN ARE GIVEN DEATH SENTENCE

Seventeen Others Go to Prison in Belgium For Post-War Crimes. Ghent, Belgium, April 4—A trial which surpassed all records in the history of Belgian justice has just been concluded in the eastern Flanders assizes with a verdict condemning ten men to death, seven to life imprisonment, five to twenty years, four to fifteen years and one to twelve years. The men were members of a band of 36 criminals who operated with practical impunity throughout Belgium Flanders in the period immediately following the armistice, profiting by the disorganization of the police at that time. Forty crimes were charged against them and the jury in its verdict had to pass on 343 questions. Only nine of the defendants were acquitted. The trial lasted a month.

Wilson's Name For Street Removed

Genoa, April 4—The name of former President Wilson has been removed from the Via Wilson named for him when he visited Genoa after the Great War. That of Nicola Bonzavelli, founder of the Fascist section in Paris, killed in February, by an anarchist, was erected in its stead.

Woodbury, Ga., April 4.—Beach Thrash, 15 year old negro boy, was taken from the city jail here yesterday and lynched by a mob after he had shot and perhaps fatally wounded Chief of Police Albert Wells, who had arrested him for stealing from a local bank.

They're Firm Friends

Where one goes, there goes the other. It's a sort of mutual admiration society, for Buddy thinks highly of his dog. And we'd hate to see anybody try to harm the little chap with that capable looking guardian hanging around. Hackensack, N. J., April 4—A little haberdashery shop here provides a setting for one of the most pathetic tragedies of American business life. The proprietor of the shop, from which he gets a bare living, enough to pay the rent of his \$1000 apartment, aged 80 a month, in which he lives with his second wife, is Henry Siegel, once the great department store king of America. It is only a few short years ago that Henry Siegel was making so many millions he hardly knew what to do with his money. He founded the great Chicago business of Siegel, Cooper & Co.; built the extensive Siegel store on Sixth avenue in New York; expanded to Boston to occupy the huge structure built for him at Washington and Essex streets. At the height of his prosperity he married a widow from a prominent New York society and settled a fortune on her. His step-daughter married an Italian prince and Mr. Siegel gave her a huge dowry. He had a beautiful town house at Madison avenue and 82d street and an elaborate country estate, now occupied by Nathan Straus, which cost him \$50,000. He belonged to prominent clubs and had a stable full of horses. When the crash came in his business in New York it carried down all his other enterprises. He turned over all his assets to his creditors and stripped himself clean. Some irregularities in the banking business which he conducted in connection with his stores caused his arrest. He was sentenced to ten months in jail, which he served. He came out of jail, in 1914, a ruined, penniless man. Since then he has been engaged in a constant struggle to get on his feet. "I started business life with just three dollars and a half and made millions," he said. "But you can't do it over again at 65. Of course I am not contented, but still life is not too hard for me. I keep my personal expenses within \$10 a week. I like to go to the movies once in a while, but aside from that I'm only waiting for the end."

ELECTIONS THIS YEAR IMPORTANT

Almost Alarming Monarchistic Flare-ups Have Swept Germany. FRENCH WARNED Newspapers Told to Use All Possible Delicacy in Making Comment.

BY THEODORE WOLFF. (Copyright United Press.) Berlin, April 4—The English press does not exaggerate in declaring that an election victory for the German Nationalists would be a misfortune for Germany and would wreck hopes of reconstruction. But the foreigners who see that a victory of anti-democratic elements would ruin Germany, have themselves for more than five years driven their arrows into the German democracy as the arrows were driven into the flesh of the Holy Sebastian. They have made Germany's life a hideous thing. The most that they have done to help us was to lip timid warnings as the Napoleon-actor built fabric of tyranny on German soil aroused our nationalist feelings in order to be able to demand the Rhine as a protective wall against this same Nationalism.

SCOTTISH FISHER FOLK IN BADWAY

Government is Asked to Help Them to Provide Equipment For Season. Aberdeen, April 4—(Canadian Press cable)—Distressing reports about the poverty-stricken condition of the fishermen were heard at a meeting of the Scottish Fishermen's Association here. It was said that they were at the end of their resources and were suffering dire poverty with credit exhausted as a result of a series of successive adverse seasons. Their nets were so worn out and depleted in numbers that the fishermen were unable to catch in quantities and quantities were necessary for a livelihood for the fishermen.

Weather Report

Toronto, April 4—Pressure is high on the Atlantic coast, over Manitoba and the Pacific States and low over the Southwest States and Northern British Columbia. The weather has been fine from Ontario eastward and rather cool in the west, with light snow in many sections. Forecasts: Fair. Maritime—Moderate westerly winds, fair and somewhat milder Saturday, west to northwest winds, fair. Gulf and North Shore—Moderate winds, mostly fair today and Saturday. Northern New England—Increasing cloudiness, tonight Saturday, unsettled, possibly rainy; somewhat colder Saturday; moderate to fresh shifting winds.

Finns Begin To Build Canals

Helsingfors, Finland, April 4—The government has decided to build a canal from Lake Ladoga to the Gulf of Finland at the cost of 750,000,000 Finnish marks. This will be the first step toward a wide development of internal communications, and will be followed by the building of other canals and railroads.

They will be the guests of the company at luncheon at noon and will return to Fredericton on the evening train.

KEEP YOUR MONEY IN THE HOME CITY

The merchants of Union street have combined in an effort to forward the "Buy-At-Home" campaign and offer values which defy all outside competition. Your money spent with local merchants, besides giving you just as good value, helps them to pay their taxes and the wages of their employees, adding greatly to the prosperity of the city.

Newsprint Market Mounting Higher

Our Output Five Times that of 1910

A million and a quarter tons of Canadian Newsprint were produced last year. Just over half that in 1917. One fifth that in 1910.

Production over the border is fast falling behind the demand and multiplied importation from Canada results.

Canadian Newsprint concerns have all thrived from this steadily mounting market.

St. John Fredericton Moncton

R. J. LOGAN GIVES POLICY STATEMENT

Candidate for Commission-ership Announces His Platform.

R. J. Logan, candidate for commissioner, has announced the platform on which he is appealing to the electors. It follows here: The people of St. John have had many ideas put before them regarding a change in the civic government of the city but a change is not necessary. The present commission form of government has been a success in many cities where leading business men have accepted the civic position and run their cities on a systematized basis. In cases where commission form of government has been a failure, as in St. John, the fault lay in the fact that the wrong type of men were elected, men who thought they owned their departments and who did not have the interests of the wage-earners at heart. In the handling of civic affairs in this city there has never been any system, co-operation or harmony and never will be until men are elected who realize that they are after all servants of the people and must carry out the wishes of the taxpayers.

any city in the Dominion. The city is due for a boom and we need public spirit and co-operation and a careful handling of civic affairs.

I personally know of a live wire tourist publicity proposition that will be a big boost, also a scheme to have many manufacturing concerns locate in St. John, and you all know that new industries is what St. John must have in order to prosper.

I will place public lavatories in the city for men and women. I will fight for cheaper street car fare. I will advocate plenty of play grounds for children.

Above all I will fight for tax reduction and a proper system of taxation. Three words of the English language supply a remedy from the present outrageous taxation; they are cut out graft.

The wage-earners' tax in this city is out of the question. I will fight hard to place the wage-earners' tax on the following basis: A tax of five dollars on the first thousand dollars, and all above that amount to be taxed at the city rate.

There are hundreds of working men who have not a vote at the coming civic elections, all due to over-taxation. A city cannot be built up by muzzling the working man who is the backbone of the country and should be encouraged rather than handicapped.

What St. John needs is just one live wire go-getting official who is not afraid to fight in the taxpayers' interests, and any one who knows me knows that I am not afraid to say what I mean and carry it out, and if

KILLS HIMSELF IN LAST EXECUTION

Official Had Put to Death 45 Persons on The Guillotine.

Breslau, March 18.—(By mail).—Paul Spaeche, executioner, who recently shot himself in this city, left a considerable estate. Before the war 800 marks, or \$125, and traveling expenses was the fee paid for each execution, and it has now returned to about the same amount.

Spaeche has guillotined 45 persons. That was emphasized by his lighting 45 candles, one to each of his victims, before he shot himself. He invested his earnings in a restaurant and in real estate which enhanced in value, so his heirs are well provided for.

A century ago the executioners in Europe were a much higher class of men than at present. They were required to be educated in surgery, and practiced medicine. They were state officials and received a fixed salary.

A single teaspoonful of DR. CALDWELL'S LAXATIVE SYRUP PEPIN Will restore good humor

Mothers! Apply Common Sense

THIS is the era of the prevention of disease and sensible people do not wait until sickness has actually come before remedying the trouble. The crowded hospitals everywhere are sad examples of the results of neglect. Be especially watchful of children. Restlessness, lack of normal appetite and feverishness usually indicate constipation. Stop it at once with a spoonful of Dr. Caldwell's Laxative Syrup Pepin and you will have prevented real sickness. Mrs. C. S. Bungey, 19 Chatham Av., Halifax, N. S. and Mrs. W. F. Funtley, Biggar, Sask., seldom have illness in the family because of their prompt use of Laxative Syrup Pepin.

A Great Family Laxative. It may be difficult to decide just what medicine to use out of the many that are offered, but it would not be if you knew the facts. There are laxatives, cathartics, purgatives and pills, and they vary in their reaction on the system. Naturally, the stronger the medicine the more it shocks the system, and the weaker the more it does nothing to children. Dr. Caldwell's Laxative Syrup Pepin is a mild laxative, a vegetable

compound of Egyptian senna with pepsin and desirable aromatic, and so appreciated that it is now the largest selling preparation of its kind in the world, over 10 million bottles being used annually. The formula is on every package.

Three Rules of Health. Purchase a bottle of Laxative Syrup Pepin at a drug store and always keep one in the family medicine chest. Give it to anyone from infant to grandparent, for it is safe, and the cost is less than a cent a day. You can keep a family healthy with just this simple medicine. Give it for constipation, torpid liver, indigestion, biliousness, headaches, colds and other evidence of bowel obstruction. Dr. Caldwell, who was a practicing physician for 47 years and who originated this formula, had three rules of health that he found very effective among his patients and which you can follow with great benefit: Keep the bowels cool, the feet warm, and the bowels open.

Would you want to try it free before buying? Send for a free trial bottle to a family doctor. "Syrup Pepin," 24 Caldwell Bldg., Toronto, Ont.

OUR PUBLIC HEALTH

Recent contributions to the budget debate have included forceful and striking addresses by Dr. L. R. Curran and Hon. Mr. Magee, speeches of wide interest, and these are followed in turn by a contribution from Hon. Dr. Roberts, Minister of Health, which shows a thoughtful examination of every branch of provincial affairs, which contains many constructive suggestions, and which is a well considered vindication of his own particular department.

with each additional year of the department's work. Properly speaking public health is too important to be discussed on a dollars-and-cents basis, but even if it is looked at purely from the material standpoint there is no better investment.

FRANCE KEEPS IT UP

There is evidence and to spare that France is determined not to permit Great Britain to match her in fighting airplanes. During 1922 France built 3,900 battleplanes which, with the serviceable machines already on hand, gave her 140 service squadrons. Britain in the same time had built only 200 battleplanes, giving her in all thirty-five service squadrons—thirty-five to 140.

There was a strong agitation for equality with France in air power, and the British Government laid down a five-year programme which would gradually bring the number of service squadrons up to eighty-two. That was not even a determined bid for equality, but France quickly served notice that its tremendously long lead in air power was not even to be diminished substantially. As soon as the new British air programme was published the French Government successfully appealed to the Chamber of Deputies for authority to construct sixty-eight more squadrons, so that by the time the British would have eighty-two squadrons the French would have 208.

Britain's new Air Minister is going on with the Baldwin Government's air programme, "for the present" as he says, intimating that there may be a curtailment of expenditure later on. This intimation is probably due to the hope that the Premier may succeed in persuading France that it would be an evil policy to drive Britain into any new form of armament race and that persistence in the French air plans can only result in compelling the British to construct aircraft on a scale hitherto unparalleled.

The coming British naval manoeuvres in the Mediterranean are being discussed by alarmists in France as indicating a coming combination of Britain, Spain and Italy for the purpose of countering French military and naval expansion. The manoeuvres have no such significance, but although they represent merely the usual annual fleet drill in the customary waters, they are seized upon by mischief-makers who are not content with Britain's acceptance of a single naval power standard.

It seems all too easy for some people to forget what the British navy did in the great war, and at the same time to ignore France's extraordinary exhibition of its determination to outclass in air power all of its Allies combined.

OUR OWN RESOURCES

The development of Canada's water powers and a greater use of its own coal are shown by the fact that we actually imported less American bituminous coal in 1923 than in 1913, although the country's population increased by some two millions in the interval and there was, in those nine years, a very great expansion of our industries. Pulp and paper manufacturing and mining continue to demand more and more power, and the harnessing of the country's streams will go on at an increasing pace to meet their requirements. The Department of the Interior in a recent report shows that the energy produced by water was \$228,000 H. P. at the end of 1923, while in 1912 it was only 1,446,000. The increase in 1923 alone was 235,000 H. P., and it is estimated that during the present year more than 900,000 H. P. will be added, more than half of it in Northern Quebec.

A pleasing feature of this is the extent to which Canada year by year becomes less dependent upon imported soft coal. In developing our own resources we are keeping a vastly increased amount of our money at home. This makes for Canadian prosperity. To patronize our own local shops and industries is another great means of building up our communities. To keep the greatest possible amount of our money in circulation where we live—and we can get good value by doing so—tends to prevent the native sons from going elsewhere to seek employment, and when we build up a prosperous community we serve ourselves and Canada at the same time.

and constructive proposal, and it is much needed. The good results which follow when employees become stock holders in the enterprises in which they are employed are set forth in a pamphlet issued by the Brotherhood of Locomotive Engineers: "When a wage-earner invests some of his earnings in the business enterprise in which he himself is employed, he becomes a better workman; he takes a new interest in the business; he feels that he has a stake in it which is more important than the weekly pay envelope. And when a man gets this feeling he becomes dependable. For he comes to feel that he also has a part in the prosperity and progress of the country which places upon him the obligation of industry, of thrift, and of good citizenship."

The work of supplying free milk for the many babies that need it sorely is a cause well worth generous support.

Press Comment

"IT MIGHT HAVE BEEN."

(Vancouver Sun.) Robert Wilson Stevenson, cousin of the immortal Robert Louis Stevenson, is being deported from the United States. He went to California two years ago, set himself up as a poet and expected immediate recognition as a genius equal to his famous cousin. He was unwise. While his verse might have earned him a decent living on his own merits, he deliberately showed and abused his gift in a comparison with that of the great R. L. S.

Had Stevenson arrived in America under an assumed name and never mentioned his relationship to his cousin he probably would have succeeded moderately. But instead he permitted himself to starve by insisting upon public obeisance to his name. California has another just such case in the person of Charles Stuart, lineal descendant of the Stuart kings and claimant to the throne of England. This man makes himself miserable by brooding over his family traditions and what have been. The curse of family tradition lies heavily upon 25 per cent. of the human race. Until each individual learns he must stand solely upon his own feet, there is going to be much unhappiness and wasted yearnings in this world.

HUNTING LICENSE FEES.

(Toronto Globe.) There is no suggestion that The St. John Daily Star is the "wild" in the republication of its call for careful consideration of the proposal to increase the license fees exacted from moose and deer hunters. The Star, which announces proudly that its policies are "Algonia first and last," believes that Toronto in this matter is going off at half-cock.

"The Old Ontario sportsman has no moose in his backyard and few deer. He depends on New Ontario pretty much. His scheme, therefore, of making the American visitor pay a \$100 license to kill a moose and \$20 for a deer is designed solely to keep New Ontario game preserves for himself. And in this new evidence of selfishness enters his head. The Fish and Game Department surely hasn't forgotten that it formerly had a \$50 deer fee for Americans, with the result that only a few stragglers entered Algonia. When the fee (which is all sent to Toronto) was reduced to \$25 Algonia at once had a considerable number of American visitors. If we do not make a mistake, there was a jump of some ten times the number of Americans when the fee was \$50. Some years ago the editor of The Star was on a Michigan hunter's train coming across the Straits of Mackinac, and he was informed by several men in the party that Michiganders stayed out of Algonia because they felt the fee was too high. If the Government decided to inflict the fees desired by these Old Ontario boys, let it exempt the districts in New Ontario which object to them. It is not American hunters who reduce the number of deer and moose, but wolves and a certain

type of foreigner who will kill everything he sees." The problem is not so simple as The Star makes it out to be. American sportsmen, who contribute nothing to the cost of preserving Ontario's forests and Ontario's game, should assuredly be required to pay a reasonable fee for the privilege of hunting in the public domain. It is probable that \$50 is a prohibitive rate, and that Algonia and all other parts of the province would have few American visitors during the hunting season were the fee to be fixed so high. But The Star indicates a very real danger when it states that ten times as many American sportsmen entered the woods of Algonia when the fee was lowered to \$25 as when it was placed at \$50. A license fee that is too low to keep out sportsmen in mobs may soon result in the destruction alike of the deer and the revenue, and give The Algonia Star a permanent grievance.

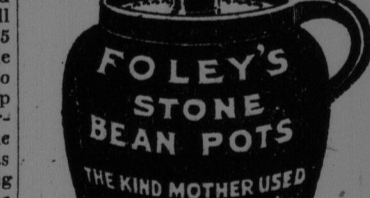

The preservation of the deer in the woods of Ontario is of interest to many citizens who never shoot at them with anything more deadly than a camera. They seek that happy medium between killing a cat, so there may be the interests of the regions to which the deer-hunting season brings much extra business and pleasure, and to endanger the continuance of the deer as a delightful feature of woodland life.

A ROSE BY ANY OTHER NAME—

(London Morning Post.) While America lays upon us the burden of finding some thirty millions a year as the interest of her debt, she has raised a tariff calculated to prevent us from trading with her. If we are to remain solvent we must either get a more free trade with America or go bankrupt. A large part of the problem is to reduce our imports from the United States and transfer that import trade either to home production or to our dominions. As there are said to be several ways of killing a cat, so there may be several ways of reducing or transferring our imports. If our old friend, the Voice of the People, will not permit us to take the obvious and sensible course of doing it by protective duties, we might do it by a system of licenses. If the United States were to object to this system, Mr. MacDonald could reply quite reasonably, that the reduction of the tariff in our favor might induce him to alter his mind. He might add, with equal reason, that he could see no other way of meeting the burden of our indebtedness to the United States.

Floating Specks Before The Eyes Means Liver Trouble

When specks start to float before the eyes, when everything seems to turn black for a few seconds and you feel as if you were going to faint, you can rest assured that your liver is not working properly. The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of Milburn's Laxa-Liver Pills and clear away the accumulated mass of waste and poisonous matter from the system. Mr. Chas. Aylward, Franklinville, Ont., writes: "I used to be awfully bothered with floating specks before my eyes, headaches and sickness to my stomach. I took just half a vial of your Milburn's Laxa-Liver Pills and ever since I have felt as well as I ever did. Now I always keep them on hand." Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**LONDON RUM RUNNERS CENTRE
TRADE IN LIMEHOUSE SLUMS**

Have Moved From Bahamas and Other Centres Formerly Used.

London, March 18—(By mail)—Limehouse, the famous underworld centre of England, is now infested with gangs of bootleggers whose business is to keep supplies of liquor passing through the city on their way to the United States and other nations given over to prohibition.

This waterfront section seems to have become the centre of bootlegging over night, and the headquarters of the gangs once established in the Bahamas, as well as others which worked out of Scotland and from vantage points along the coasts of Norway and Finland.

Every week, it is said, thousands of gallons of liquor are handled by these men, and their ships are busy passing up and down the Thames. They work with a certain amount of stealth and cunning which keeps them within the law. Their methods do not appear to arouse unusual interest, and they are left more or less to themselves.

One of the newcomers to "rum-runners' row," says a leading London newspaper, who has shifted from the Bahamas, is a mysterious "Captain Candido" formerly a shipbroker. He is said to have an extensive organization, to own several ships, and to have established his headquarters in one of the public-houses of Limehouse.

It is related that American prohibition agents have attempted to invade his headquarters, but have never been able to get beyond the outer bar. It is almost impossible to keep an accurate record of the liquor shipped in and out of London every week. An estimate places the amount at about

600,000 gallons. However, most of the liquor which is said to find its way into the bootleggers' hands is handled originally by confederate firms. The reason for the selection of London as headquarters by these bootleggers is said to be that the new liquor treaty between the United States and England makes the Bahamas rather dangerous. Soon after their appearance here the bootleggers were hounded by a small army of prohibition sleuths, but so far their work seems to be ineffective. Their difficulties are great, for there are about 7,000 firms in England interested in liquor shipments and wholesale selling.

**BALFOUR PRAISES
LABOR OF LEAGUE**

Cites Work it Did for the
Financial Salvation
of Austria.

London, April 3—The story of the recovery of Austria should convince the most sceptical and most cynical that the League of Nations is capable not only of great disinterested effort for a common world object, but that through it alone can the peace and prosperity of the world be guaranteed, the Earl of Balfour said in addressing the Anglo-Austrian society.

The society, which is composed of Englishmen and Austrians resident in London interested in the reconstruction of Austria, has grown out of the successful efforts of these people to float the Austrian loan in England. More particularly the society is interested in promoting good relations between England and Austria in the matter of art, science, commerce and education, and to help Vienna to re-assume the leadership in those arts which she formerly held.

Lord Balfour, as chairman of the finance committee of the league, which in November, 1922, investigated the possibilities of stabilizing the Austrian currency and reconstructing the country, is accredited with having drawn up the plan which within 15 months

has made the country one of the most stable and prosperous on the continent.

The Earl declared that the League of Nations had firmly fixed itself as a necessary. "By its capable carrying out of its Austrian policy with wisdom, with caution and with courage, the league has justified its existence once again," he said.

There were problems confronting the world today, the speaker declared, the solution of which seemed impossible. But those who were apt to be pessimistic ought to look at this great experiment which Austria and the League of Nations, acting together, had carried through, and feel that much could be done by human effort, human resolution, honest and genuine co-operation, and a belief that in the future mankind, properly and wisely led, might deal with situations which seemed quite hopeless.

**ARGENTINES NOT
ANXIOUS TO REST**

None Take Advantage of Law Allowing Workers of 25 Years to Quit.

(By MORGAN EASTERLING)
(Bathurst United Press.)

Buenos Aires, April 3—Nobody laid down his tools to take advantage of the new law abolishing work for everyone who has toiled 25 years. The new pensions law became officially effective, but all indications were that it didn't operate.

Everyone in the Argentine who had worked a quarter century or more was entitled to quit and draw a pension from the Government for the rest of his life.

As no provision for raising in advance the huge fund required had been made, however, no one took a chance and stopped work.

Commercial labor organizations are holding aloof to see how the Utopian proposition works and whether the government is going to be able to enforce the measure.

Whereas everyone who had labored 25 years was entitled to stop and draw their pay, anyone who had not was supposed to pay five per cent. of his salary to the pension fund.

Talk of Strike

Opponents of the measure hope to cause it to fall and are talking of a strike due to the dissatisfaction of labor with the provision requiring that the dues be paid in today.

The government is endeavoring to persuade municipalities throughout the Argentine to rally to support of the new law. Business houses and a considerable portion of organized labor have started "passive resistance." Opponents of the law hope that the initial confusion will end in complete chaos and abandonment of the whole scheme.

It is estimated that should the law become fully effective for two years, 15 per cent. of the salaried men of the Argentine, numbering about 150,000, would cease work and draw full salaries forever after, which would mean expenditure of 300,000 pesos annually, which would be considerably more than the receipts plus the cost of operation.

United States' treasury records show income and profit tax payments for 1923 totaled \$1,808,098,422.

Perhaps You Need a Tonic

A tonic is necessary in all run-down conditions, after colds, fevers and illnesses of all kinds. When a person is anemic, undernourished, nervous, tired, listless, he needs a tonic. If you can't sleep, have no appetite, feel miserable and depressed, a tonic will fix you. The tonic best suited for general use is Carnol. It can be given with perfect safety to a delicate child, a convalescent, or to an aged person. It is made from the prescription of an eminent physician. Hundreds of doctors prescribe Carnol in their practice. Here's what Mr. Davis says about Carnol: 'We have sold Carnol for two years. During those two years we have seen many other so-called tonics tried out, but they did not repeat, and people did not advise their friends to buy them. Carnol has been bought by people who used it before. It has been recommended by people to their friends and has enjoyed a good sale. We believe that it has the ingredients that go to make up one of the very best nerve and body builders ever put before the public.' - Davis the Druggist, Columbia and 6th Sts. New Westminster, B.C. Carnol is sold by all good druggists everywhere.

'How do you do?' she said sweetly. So away went the three of them to call on the new arrival. She was keeping house in an old candy box with a hinge lid that did nicely for a front door and when the visitors knocked she answered at once. 'How do you do?' she said sweetly. 'How do you do yourself?' said Mister Fuzz Wuzz hospitably. 'Welcome to Doofoony Land! I do hope you will like us.' 'I'm sure I shall. It will be a nice change,' remarked the new lady. 'I've been sitting on a mantel-piece for nearly a year, and although the family I lived with were very kind, I did get sick of always sticking in one place and never being moved except to be doted. 'Did you ever happen to know a man who—' began Nancy, but Mister Fuzz Wuzz stopped her. 'Sh! Wait a bit,' he whispered. 'Would you mind telling us your story?' asked Mister Fuzz Wuzz, politely. 'Oh, no,' smiled the dancer. 'Do sit down and I'll begin at once. It was a favor at a birthday party. It was a lovely party—all pink and white—even the white birthday cake was covered with pink candles, and I matched perfectly. I was set at a place as a favor, and right beside me was a nice little man who nodded and nodded at me in such a friendly fashion that I was quite fascinated. 'Why, that was—' began Nick, but Mister Fuzz Wuzz stopped him. 'Wait a bit,' he said. 'Not so fast. Please go on, madam!' 'Well, a dreadful thing happened,' sighed the dancer. 'A little boy sat down at the place next to mine and right before my eyes, he pulled my new friend's head off. I was so shocked I fainted dead away right in a plate of ice cream, and even when I was recovered I was too nervous to look at him again. 'Is that all?' asked Nancy. 'Yes, just about. I belonged to a little girl who took me home, and as I said, I was treated kindly, but at the time went on I faded and lost my beauty. Besides my legs and feet which are made of wire, got all bent out of shape. I am no longer graceful. In plain words, I have lost my looks.' 'I can fix you if you like,' said Nancy.

Don't Spoil Your Child's Hair By Washing It

When you wash children's hair, be careful what you use. Do not use prepared shampoo or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces. Two or three teaspoonfuls of Mulsified is all that is required. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. You can get Mulsified coconut oil shampoo at any drug store, and a few ounces will last for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package. The first postoffice in the United States was established in Boston 234 years ago.

Whatever You Do Don't Neglect Your Eyes, Says Dr. Lewis, Who Tells How to Strengthen Eyesight 50% in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa.—Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. He says neglect causes more eye troubles and poor sight than any other one thing. Many whose eyes were failing say they had their eyes restored through the principle of this wonderful free prescription. One man says after trying it, "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It is like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read line print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two or four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to better yourself before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time. NOTE: Another prominent Physician to whom the above article was submitted, said, "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them." The manufacturers guarantee it to strengthen eyesight 50 per cent. in one week's time in many instances or refund the money. It can be obtained from any good druggist, and is one of the very few preparations I feel should be kept on hand for regular use in almost every family. It is sold in this city by all leading druggists.

CHILDHOOD SPENT IN HOME PRISON

Girl is Rescued After Fourteen Years—Parents are Arrested.

Vienna, April 3.—All her life till now a girl of 14 has been imprisoned by her parents, a prosperous farmer and his wife, in a damp and stuffy lumber-room in their house at Bernsdorf, near Graz, in the Austrian province of Styria.

None of the neighbors in that populous village knew anything about her. She had never been in the street, had never seen sunshine, never even left that miserable room. She seems to have been fed regularly and under the circumstances is remarkably healthy.

Her father and mother have been arrested and charged with the offence of not registering her as a resident and not sending her to school. They have given no explanation of their extraordinary treatment of her.

By chance a woman left by herself in the kitchen opened, by mistake, the door of the room which has been the child's prison, and what she saw so amazed her that she told her friends, and the police paid a surprise visit and made a search. The child had now been placed in kind hands under police supervision.

TRAMP-POET LEAVES \$5,000 TO HIS FRIEND

Glasgow, April 3.—A love of music has brought to a young Glasgow warehouse porter a bequest of nearly \$5,000. John Boyle, a wandering minstrel and knife-grinder, who died in a Glasgow model lodging-house, has left his savings to an unemployed friend, John Thomson. The money is in security bonds and cash. Boyle was 65 years of age and suffered from a heart affection. He had sold his grinder with the intention of spending his last days in the country, but he was found dead in his bed.

He was well educated, and had contributed verses to various magazines. He had traveled far, and when he became too old for work in the shippards he took to the open road. In the weather he toured the Scottish villages with his grinder.

He met his heir casually several years ago, both were interested in musical matters, and Boyle admired Thomson for being an abstainer and non-smoker. Those who knew Boyle are surprised to learn he had money.

BUTTERFLIES MOVE IN DENSE CROWDS

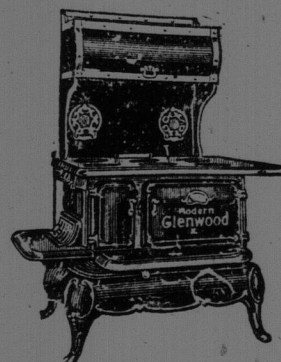

Los Angeles, April 4.—Huge swarms of butterflies, commonly known as "Painted Ladies," have been migrating from Lower California, Mexico, to southern California. The movement lasted about two weeks and reached as far north as Los Angeles, 175 miles from the border. The butterflies traveled in dense clouds, and the radiators of many automobiles were plastered with the var-colored wings.

In 1901 there was a similar northward migration.

Hon. Dr. Roberts' Impressive Speech on Public Health

MINISTER TELLS HOUSE MUCH ACCOMPLISHED

Per Capita Cost Is Only Ten Cents—Death Rate Is Reduced—Speaks on Prohibition and Other Subjects of Importance to the Province—W. E. Scully Agrees With Hon. Mr. Magee on Liquor Question.

Fredericton, N. B., April 3.—The Minister of Health, Hon. Dr. W. F. Roberts, made a remarkable speech this afternoon—remarkable in the subjects which it covered, the ease and fluency of delivery and for the evidences of much careful thought and preparation.

His clear-cut sentences upon the present prohibitory law and his emphatic statement that it was being enforced in New Brunswick as well as in any other place must have caused some thinking on the part of those who know how sincere this member of the Government is in his stand for temperance.

Hon. Dr. Roberts did not fail to point out that in his administration of the Health Act he had been met by much opposition of a political character. He dwelt at some length upon the propaganda of the Opposition against his Department and then spoke with telling effect of what had been accomplished by the health regulations towards conserving life in this province.

His speech was long, perhaps too long to be fully effective, but it was complete, interesting and full of that vigor and force of which Dr. Roberts is capable.

Extends Congratulations.

In opening, Hon. Dr. Roberts extended his congratulations to the mover and seconder of the address and to the Provincial Secretary for his clear financial statement. Referring to the leader of the Opposition, he said the latter was the man par excellence for the position. Complaint had been made about the length of the speech from the Throne, but that length was necessary because the Government was progressive and had something to say.

Regarding the present condition and future outlook of the Maritime Provinces, Hon. Dr. Roberts said that conditions in New Brunswick, commercially and industrially, and from the viewpoint of agriculture, are not what we would have them be. Dealing with our seaboard position and our provincial resources, and impressively enumerating the latter, he held that with capital and cheap power this should be made the most progressive section of Canada, from the standpoint of industry, agriculture and commerce.

Our Canadian Relation. Taking up our relationship with the rest of Canada, Hon. Dr. Roberts rapidly reviewed the situation in regard to western grants and the taking over of branch railways without including the Valley Railway. In his view the construction of the proposed branch line to the Maine border would be a slap in the face to St. John, diverting traffic therefrom and depreciating to some extent the only railroad company which has tried to make of St. John the true winter port of Canada.

Promoting Immigration. To promote the right kind of immigration from the Mother Country he would have there a representative of striking personality, well educated, thoroughly informed regarding the province, and able to represent New Brunswick efficiently, whether talking to a farmer or a capitalist, or on the public platform. This representative should not be tied up in any way with the interests of the Dominion or other provinces, and the question of salary should not interfere with getting the very best man available. An ordinary man, with ordinary pay, cannot get the results desired. It is a business proposition. We need capital and increased population.

The Minister said he feared 90 per cent of our young men and women who go west or south and get good positions will not return home to stay, although he approved of bringing them back if possible. We must take care of those we have by making conditions so attractive they will not desire to go away, and by conserving the lives of the people by an efficient public health service. The death rate in the province in 1920 was 15.5. In 1922 it was 13.16, a difference of 2.35 to every thousand of population. This means the saving of at least a thousand of the "best immigrants" possible for the life of the province.

Rotarians From England To Cross Ocean In State

STEAMSHIP REGINA.

According to advice just received by Angle & Wigmore, the new White Star Dominion Liner Regina, carrying several hundred Rotarians from all parts of Great Britain, will make a special sailing from Liverpool, June 5 and return June 8. Known as the official "Rotary" ship the Regina will bring to this country the visiting Rotarians to the International Convention to be held in Toronto from June 14 until June 20.

Public despatches received by the company yesterday indicate that the "On to Toronto" committee of English Rotarians is making elaborate arrangements for the journey across the Atlantic and many special innovations will be introduced for the entertainment of the party.

It is understood that the Montreal Rotary club has already forwarded an invitation to the president of British rotary to attend a special luncheon which will be given in honor of the visiting British delegates the day after the Regina arrives in port. After the official reception of the visitors by the local club is concluded the party will leave by special train for Toronto. At the termination of the convention the majority of the party will return by the new White Star Dominion liner Doric, sailing from Montreal July 6, while the remainder of the party will return home by way of New York.

Dealing next with the question of prohibition, Dr. Roberts said liquor should be as far removed as possible, and total prohibition properly enforced, was the best medium. He lamented, however, that those agencies which for fifty years or more had created a vast body of public opinion seemed now too much disposed to fold their arms and say, "It is the law and must be carried out." He did not agree with this view, and also suggested that narrowness and a spirit of intolerance and a desire for undue haste may have partially defeated the object of the advocates of prohibition.

He urged a vigorous campaign to increase sentiment in favor of prohibition. Patience, tact and discretion, he said, were needed. While he was far from being satisfied with the manner in which the act is being carried out in New Brunswick, he was forced to believe putting a prohibition law in force is no sin; and it's not carried out better in other places than here. He thought a principal cause was that we have not a sufficiently large majority to put it in force. We should, however, maintain the act, hold what we have, and daily create and add to the sentiment that is favorable to enforcement. Moreover, the law should be observed by every citizen.

The Health Department. Proceeding to discuss the work of the Health Department, Hon. Dr. Roberts said that the department had been put on a new basis since the beginning of the year.

As to smallpox, there were but five cases in the province last year, compared with 1,268 in the previous year, showing that the work is getting a foothold; but as yet it has only begun, and he desired to have a provincial organization of ladies and gentlemen completed to lend aid to the department. The department had also decided to organize a lay campaign, province-wide, against tuberculosis through the agency of anti-T.B. associations. In this connection, the minister paid a splendid tribute to the association in St. John, now over 10 years old and with a great record of work done.

Child Welfare. Coming to the question of child welfare, Dr. Roberts laid special stress upon the need of public health nurses. Out of some 11,183 births in the province last year, only 2,945 of the mothers were attended by physicians. The death rate of mothers has been high, and was 5.1 per 1,000 labors in the year 1922. Our infant mortality for that year was 103 per 1,000 births. These rates must be cut down until New Brunswick becomes a safe place for the prospective mother and her babe.

Suggests a Remedy. The remedy, Dr. Roberts said, is an adequate public health nursing service, and in this connection he reviewed the munificent offer of the Rockefeller Foundation to pay for 32 nurses for the province.

Average Percentage. The average percentage of mental defects in schools between one and two in the United States forty state institutions house and instruct the feeble-minded. A very large percentage of mental defects are found in reformatories, and Dr. Roberts spoke of the economic saving in caring for them instead of permitting them to become a helpless burden, or members of the criminal classes.

Referring to the work of general sanitation, Dr. Roberts spoke of the prompt handling of the typhoid epidemic at Edmundston. In Cochrane, Ontario, from the same cause, they had five times the number of deaths, and a reduction of fully 75 per cent, will be made in these several populations.

Out of some 11,183 births in the province last year, only 2,945 of the mothers were attended by physicians. The death rate of mothers has been high, and was 5.1 per 1,000 labors in the year 1922. Our infant mortality for that year was 103 per 1,000 births. These rates must be cut down until New Brunswick becomes a safe place for the prospective mother and her babe.

Suggests a Remedy. The remedy, Dr. Roberts said, is an adequate public health nursing service, and in this connection he reviewed the munificent offer of the Rockefeller Foundation to pay for 32 nurses for the province.

Average Percentage. The average percentage of mental defects in schools between one and two in the United States forty state institutions house and instruct the feeble-minded. A very large percentage of mental defects are found in reformatories, and Dr. Roberts spoke of the economic saving in caring for them instead of permitting them to become a helpless burden, or members of the criminal classes.

Referring to the work of general sanitation, Dr. Roberts spoke of the prompt handling of the typhoid epidemic at Edmundston. In Cochrane, Ontario, from the same cause, they had five times the number of deaths, and a reduction of fully 75 per cent, will be made in these several populations.

As to smallpox, there were but five cases in the province last year, compared with 1,268 in the previous year, showing that the work is getting a foothold; but as yet it has only begun, and he desired to have a provincial organization of ladies and gentlemen completed to lend aid to the department. The department had also decided to organize a lay campaign, province-wide, against tuberculosis through the agency of anti-T.B. associations. In this connection, the minister paid a splendid tribute to the association in St. John, now over 10 years old and with a great record of work done.

GIRL BANDIT STIRS NEW YORK AGAIN

She and Companion Rob Keeper of Restaurant in the Bronx.

MAKE GETAWAY

Lock Victim in and Dash Off in Taxi—Girl Baffles Police for Weeks.

New York, April 4.—A bobbed-hair bandit believed to be a daring Brooklyn highway woman wanted by the police for a series of sensational crimes, invaded the Bronx last night, held up a restaurant keeper and escaped with jewelry and money totalling \$400 after locking the victim in his place of business.

Accompanied by her sevada companion she entered the 165th street restaurant of Felix Di Maida, seated herself at a table and ordered dinner. After dining leisurely she started for the cashier's desk, where Di Maida, who was alone with them in the place, came forward to receive payment for the meal.

As she advanced the girl thrust the contents of a small automatic pistol toward Di Maida, and he thereupon fled. She then snatched a package from the cashier's desk, and fled. Di Maida, who was alone with them in the place, came forward to receive payment for the meal.

PREMIER EXPLAINS LAUSANNE PACT

Announces British Government Agreed With Position Taken by Canada

London, April 3.—Sir John Simon, Liberal, in the House of Commons today, called Premier MacDonald's attention to the alleged denial by Premier Mackenzie King that the Lausanne treaty imposed obligations on Canada and asked if this accorded with Premier MacDonald's information when he made his statement in the House on Tuesday that Canada had stated that she would do what the

Imperial Government did in the matter of the Lausanne treaty. Premier MacDonald replied that it has been impossible to ascertain yet what Premier King had actually said about the matter. Another Statement. Ottawa, April 3.—The grounds upon which Canada declined to ratify the Lausanne treaty with Turkey were again the subject of a statement by Premier King in the House of Commons this afternoon. During his statement yesterday, Mr. King quoted a despatch dated Dec. 31, 1922, in which Canada gave her reasons why since she had not been a party to the negotiations of the treaty, she did not think it necessary to take part in the ratification. At the time Rt. Hon. Arthur Meighen asked whether any reply had been received to this message from the British Government and Mr. King answered in the negative. Today the Premier explained that he had been mistaken in his recollection and that a reply had been received. In this reply he said the British Government agreed

with the Canadian position that the treaty should be signed by those parts of the empire which had had plenipotentiaries present at the negotiation of the treaty. As an example of sanitary inspection, in one small parish taken at random, there were 168 special inspections last year besides the spring inspection, and of 112 objectionable cases 106 were made satisfactory and the others much improved. The death rate from diphtheria in three years has been cut from 92 to 44, and the infant death rate from 135 to 103 per 1,000 births. Medical school inspection does not, for a two year period, cost the province a dollar. As to the charge that the act is unpopular, Dr. Roberts observed that the people answered this in the last elections. The Opposition leader had charged the Government with misquoting the death rate as 15.6 per thousand in 1920, when it was 14.6, but he had based his charge on an incorrect statement in the Canada Year Book. The rate in 1920 was 15.6 or a fraction higher. Dr. Roberts asked if the people wanted an organization like that prior to 1918 which spent hundreds of thousands of dollars chasing smallpox, and produced two births a year in Sunbury. Act Not Unpopular. As to the charge that the municip-

palities were opposed to the act, Dr. Roberts said that every one is now supporting its sub-district Board of Health, and all in arrears had paid up. They had come to understand the act and its benefits. The Opposition leader appeared to think a decrease of from 15.5 to 18.15 in the death rate incredible; but New York had decreased its death rate from 31 to nearly 12. New Brunswick's high mortality rate was caused by former neglect, and had the Opposition remained in power the rate would have remained what it was instead of having the greatest reduction made in Canada in three years, with the possible exception of one province. As to the charge of rapid increase in cost, the amount expended in 1918 was over \$25,000. In 1919 it was \$27,000. Since then important services were added, at an increased cost of about \$15,000, "a little more than one-quarter of the yearly salary of the man who is making the Intercolonial Railway a paying investment at the expense of these provinces." After referring again to the absolute necessity of engaging a psychiatrist and caring for the feeble-minded, Dr. Roberts concluded by declaring that for every dollar spent by the Health Department ten dollars' worth had been gained. Mr. Guphill, Charlotte. Mr. Guphill in resuming the debate tonight, spoke of the depression in the fishing industry which he said suffered from the lack of a market. Smoked fish put up at Grand Manan, he said, were purchased by New York middlemen and forwarded to the West India markets. He believed they should be forwarded direct from this Province along with agricultural products in the ships of the Canadian Merchant Marine. The scallop industry was developing in Grand Manan and was proving fairly profitable and found a ready market in the United States. Herring scales formerly a waste product, were now purchased by Americans. They were put through a secret process and the residue used in the manufacture of what was an excellent imitation of pearls. He urged the establishment of industries for the manufacture of fish waste as was done on the Pacific Coast. Speaking of hydro development he was inclined to doubt that the Musquash plant would prove a paying proposition. Figures which he had compiled from the report indicated that there would be a deficit of \$85,000 a year on the operation. He claimed that there had been a 400 per cent. increase in the debt since 1918 and he thought it was time to call a halt. What the Province needed was more business and less politics. Mr. Scully, who followed, said that he heartily agreed with the suggestion that there should be more co-operation

Examine Linoleum for Yourself —Then Buy it with Assurance

IT is easy to tell genuine Linoleum—the high grade modern floor covering. But if you do not protect yourself by following these simple tests you may easily be fooled. Always turn over a piece of linoleum or a linoleum rug and make sure that it has genuine burlap backing—all real linoleum has. Then look at the edge—it should have a natural brown tint, much like an ordinary, unused cork. Nowadays it is well to be careful in buying linoleum, for there are many products on the market that look like it, but which have neither burlap nor cork in their make-up. And if you buy, and do not get real linoleum you will probably be disappointed. Linoleum is made of cork, oxidized linseed oil, kauri gum and other materials pressed firmly into a backing of strong, tough burlap. The processes used combine to make a floor covering that is very smooth, durable, clean and highly sanitary. For every type of floor it is ideal. You can buy linoleum by the yard or in the form of rugs, in sizes to suit all rooms. Write us today for rug folder in colors, showing patterns that will please you. TO USE ORPHANAGE FOR SOME IN JULY

Two of Present Institutions to Close When New One Opens

The New Brunswick Protestant Orphanage children of four years of age and more are to be moved to the new orphanage building in the Manawagonish road on July 1. This was decided at the meeting of the board of directors yesterday in the Britain street institution with Dr. James Manning, vice-president, in the chair. Miss Frost, who has been in charge of the Britain street home for more than 25 years, was appointed to take charge of the new home in the Manawagonish road. The new building is very nearly completed and preparations are being made for the construction of an extension slightly larger than the first building.

It was reported yesterday that the health of the children was very satisfactory and that all three institutions were filled. There was a long waiting list of children of two years and less. When the children are moved on July 1 two of the present institutions will be closed but it was not definitely decided which two of the present three, which are located in Britain street, Wright street and West St. John.

MORE LITIGATION MAY COME OF CASE

A verdict of not guilty was given in the case of Thomas Foley versus Irving S. Scott, which was tried before Judge J. A. Barry, under the speedy trials act yesterday afternoon in the County Court. It is reported probable that several civil suits may arise out of the case. Foley contended that Scott had received from him a note for \$142 with which Scott was to purchase plumbing materials to be put in a house owned by Foley. W. M. Ryan appeared for the Crown and Francis Kerr, for Scott. Foley and F. W. Girvan, manager of the North End branch of the Royal Bank, testified. The testimony showed that the note was given on June 25, 1923, for three months, and that on Aug. 4, Foley, accompanied by Scott, went to T. McAvily & Sons, Ltd., and picked out stock for the job amounting to some \$200 for which Foley became personally liable. On Aug. 9, Foley had Scott and his wife to sign a bill of sale absolute on Scott's store including his tools of trade and his Chevrolet car. The bill of sale amounted to \$400 and immediately on the execution of the bill of sale Foley took possession of the store and car and had been in possession since that time, running the business under his own name. Mr. Kerr moved for the dismissal of the case and Mr. Ryan admitted that there was no case of wrongdoing against Scott. Without any witnesses being called for the defence, a verdict of not guilty was entered and Scott discharged.

Civic Commission Willing to Energize Lancaster at Same Rates as City

The Civic Power Commission decided yesterday afternoon to inform the councillors of Lancaster that they were willing to sell current to the parish at the same rate as in the city provided there could be obtained a minimum of 500 customers and 170 street lights of 200 watts each and the councillors would undertake to restrain the New Brunswick Electric Power Commission from

taking any more power loads in the area.

It was estimated that the cost of the distribution system would be \$68,708 and on this the carrying charges, including operation, would be \$7,233.72; the cost of power would be \$4,684, making a total of \$11,877.72. The estimated receipts were \$12,925.40, showing an annual profit of \$1,047.68.

The secretary was instructed to obtain a formal offer of sale from the owners of the Boves building as this was the most suitable for the commission which the committee had seen. The engineer reported it inadvisable to extend the civic distribution system in the rear of Lansdowne and Dufferin avenues and other similar streets as the street lighting would require as many poles as the regular system and the cost would be doubled and because the present service wires to the residences are in front of the houses. With reference to the three cases of interference with the New Brunswick Power Company, the engineer reported that

all of these interferences might have been overcome if the Power Company would allow their wires to be attached to the crossarms of the civic commission poles and prevent their wires from swinging several feet due to excessive sag in their wires.

A communication from G. E. Holder, Jr., saying that he intended to take possession of his property, across which the right of way to the sub-station runs at present, was received and filed.

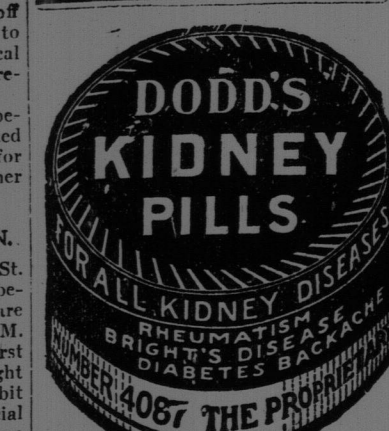

R. A. McAvily presided and other commissioners present were A. M. Rowan, W. L. Harding, James Lewis, J. N. Flood, P. S. A. McMullin and Mayor Fisher.

CONVENTION BEGINS HERE ON SEPT. 9

Executives of Associated and Local Canadian Clubs Make Preparations

Preparations for the annual convention of Associated Canadian Clubs were furthered at a meeting yesterday afternoon in the Board of Trade rooms when the members of the executive of the national organization met with the officers of the two local Canadian Clubs. H. A. Porter, national president, was in the chair. The convention is to meet in St. John, Tuesday, Sept. 9, was chosen for the opening of the convention. The duration will depend upon the length of the program. Various committees were struck off yesterday but each committee was to be added to later and both of the local clubs were to name their own representatives. Besides the general committee special committees are to be appointed for entertainment, for speakers, for automobiles for reservations and other details of the convention.

Ten local Junior teams in the St. John Ambulance Association competition for the St. John junior cup are now being examined by Dr. C. M. Pratt at the Health Centre. The first teams were examined Wednesday night and last night. The Wallace Nesbit trophy competition for the provincial Junior teams will commence some time after April 22 and the winner and runner-up in the St. John cup competition will be the only teams from St. John that will be permitted to enter the provincial competition.

Grand Spring Opening and Birthday Party

Special Birthday SALE features

25

at Robinson's Upstairs Clothes Shop
Saturday, April 5th

TO-MORROW is the biggest day in the year for me—it's my 11th birthday. And it's going to be a big day for you, for I'm giving a Birthday Party at my Spring Opening, and I want you to help me celebrate. When you see the veritable feast of values I've prepared for you, I know you'll agree that there has never been anything like this offered in Canada before. Finer styles than ever—wider variety—more colorful fabrics and bigger savings.

This Birthday event is looked forward to every year by a quarter of a million Robinson customers in Canada, but never before have I been so successful in my efforts to prepare a great style showing. Never before has my direct from-maker-to-wearer policy of upstairs trading proved itself so splendidly.

INTRODUCING 42 NEW SPRING MODELS AT \$17.50 to \$35

I offer 42 different models in Suits and Topcoats—the finest examples of what is worn by the elite of London and New York. English styles with their easy lines and graceful drape—modified American versions; boxy topcoats from Piccadilly and belters that breathe Broadway. More conservative Clothes, too—sensible and serviceable. And the fabrics are unusually gay this Spring, Scotch tweeds and English herringbones, which have taken on new colors—tans, grey-greens and blue-greys; solid colors, mixtures, shadow plaids and harmonizing stripes. Rivaling these staunch fabrics are French Gabardines and Twills in shades from Belgian Blue to Peanut Brown.

It means that this birthday party will bring the biggest crowds that have ever attended my Spring Openings—and it also means that every man and woman who attends this party will be a self-appointed critic who will not be asked to buy—but who will buy because they know that there are no other values like Robinson's.

Come to my party. Let us make this the greatest day in Canadian Clothing Buying History. Bring the ladies with you—they are the best judges of values. There's a souvenir here for them.

ROBINSON'S MONEY-SAVING PRINCIPLES

- 1 Direct from maker to wearer.
- 2 Low rent Upstairs Shops
- 3 No delivery service.
- 4 Cash business—no credit losses.

Every garment is hand-tailored in my own workshops and backed by my million dollar guarantee.

Eleven years ago I started with only \$400 capital, but with an unwavering determination to give the men of Canada better clothes for less money by cutting out the frills and extravagances of the ground floor clothiers. My business soon grew to such proportions that I opened my own factories, and to-day, in a coast-to-coast chain of shops, I am saving you the entire middleman's profit, which is the biggest item of expense between the mill and the man.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

CARPENTIER WILL MEET GENE TUNNEY

Frenchman Has Accepted Terms—Tex Rickard to Stage Bout.

New York, April 4.—Georges Carpentier, French light heavyweight champion, has accepted terms to meet Gene Tunney, American light heavyweight champion, in New York or New Jersey the week of June 16, Billy Gibson, Tunney's manager, has announced.

Gibson said that neither he nor Francis Deschamps, the Frenchman's manager, had signed with any promoter but it was understood that Tex Rickard was ready to stage the proposed match, probably at Boyle's Thirty Acres, his Jersey City arena.

Carpentier, according to Gibson, is expected to arrive the last of May. He said he knew nothing of proposed arrangements for a match between Carpentier and Tom Gibbons in Michigan City, Ind., July 4.

JUMPERS WILL TRY TO BREAK RECORD

Leading Exponents Will Attempt to Establish a World's Mark.

Des Moines, Iowa, April 4.—Announcement was made today that three of the greatest jumpers in the country will compete in the Drake relay April 23 and 26. L. T. Brown, former Dartmouth star and long-time holder of the intercollegiate indoor record of 6 feet 5 inches, now a student at the Colorado School of Mines, and Harold Osborne, former University of Illinois jumper and holder of the world's indoor record of 6 feet 6 inches, will compete in a special event in an effort to crack the world's record of 6 feet 7 1/2 inches. Poor of Kansas, winner of the high jump in the Drake meet last year at 6 feet 4 inches, will again compete in the University class.

IRRIGATION ENRICHES LANDS IN CALIFORNIA

Sacramento, Cal., April 4.—Applications to irrigate lands in California involved more than 4,000,000 acres last year, an area as large as that now under irrigation, it was announced by H. A. Kluge, chief of the division of water rights in the state department of public works. A very large proportion of the development proposed, said Mr. Kluge, "is not at present feasible because settlers and capital are lacking. Nevertheless, the number of filings bears relation to the demand for irrigation and power development." The applications last year represented about five times the average yearly increase during the last decade. What irrigation has done is shown in one of the older central California irrigation districts started in about 1850. In this district the population has increased eight times; the number of farms increased from eight to 2,025. The land in 1850 was valued at about \$30 an acre and now conservative estimates place the average value at \$250 an acre. Thirty-four years ago the district had a total estimated value of \$2,500,000; today it has reached \$20,000,000.

ASSOCIATIONS TO CONTROL SPORTS

New Policy Announced at Semi-Annual Meeting of Union.

At the semi-annual meeting of the M. P. B. of the A. A. U. of C. held in Truro yesterday it was decided to turn over all hockey matters to the newly formed Hockey Association of which C. P. Bolton of Sussex is president. Arrangements were also made to have Maritime Province Amateur Baseball Association to deal with all matters pertaining to this game. Basketball and other sports will be handled in a like manner. The Maritime Branch of the A. A. U. of C. will continue to control the issuing of cards and sanctions.

A protest, which was entered by the Pawnee of Moncton, who lost the Intermediate Basketball Championship to the Trojan Intermediates of this city was sustained. They protested on the grounds that the Trojans had used J. Wilson, who had played in senior company. As a result of the decision handed down by the meeting the deciding game will have to be replayed.

Matters pertaining to the Olympic trials were discussed at last evening's meeting and it was decided that the best way to raise finances was to hold a Maritime tag day on April 19.

Amherst and Halifax made a strong bid for the Maritime Olympic trials, but nothing definite was decided on and the matter was left in the hands of the executive.

President Covey, Secretary Legge, Paul C. Quinn of the Y. M. C. A., and N. Arnold Kee of the Y. M. C. A., who attended the conference returned to the city this morning.

BOYS' CLUB CLOSING WITH PERFORMANCE

"The Village Post Office" was presented with fidelity last evening at the formal closing of the club for the season by members of the East End Boys' Club, Victoria rink building, assisted by several education pupils of the St. John Playgrounds Association and Boys' Club. She directed the farce. Fourteen junior boys put on some splendid athletic stunts under the direction of John Noel and Leo McIntyre, the latter a senior, whose sister, Miss Laura McIntyre, took a leading part in the play. Frank T. Lewis, president of the association, presented 810 in character prizes, donated by Mrs. Flaggler. The winners were Cecil ("Nick") Carter, John McLaughlin and Stanley McLaughlin. Mr. Lewis explained that Mrs. Flaggler wished the boys to receive awards for character development in the club, covering conduct, attendance, faithfulness to classes and general helpfulness. Stanley McLaughlin, who had been right hand man for Miss Heffer in the office, was stricken with paralysis three months ago and has been greatly mislead from the club. Other plans have been made for a recognition of his services and many hopes expressed for his recovery.

SEND SOLDIERS GARMENTS

A large case of warm woolen garments was sent from the Provincial Red Cross office yesterday for the soldier patients at River Glade. The articles included scarfs, wristers, knee caps, socks, bath robes and sweaters. The soldiers recently sent a special plea to the society asking for these comforts.

MUTT AND JEFF—MUTT HAD BETTER BRUSH UP ON HIS LAW

YES, JEFF, I REGRET NOW THAT I USED MY GREAT INFLUENCE IN WASHINGTON TO SIGN AWAY THOSE NAVY OIL LEASES! THE NAVY NEEDS ALL THAT OIL!

WHAT DOES THE NAVY NEED OIL FOR?

WELL, ALL OUR CRUISERS AND DESTROYERS ARE OIL BURNERS! OIL IS OUR NAVY MILK! IT'S TO A BABY!

KNOWING YOU LIKE I DO, ONE THING THAT PUZZLES ME, MUTT!

IT'S A WONDER TO ME YOU DIDN'T GET AWAY THE ARMY OIL LEASES WHILE YOU WERE AT IT!

THEN WHERE DO THE TROOPS GET THEIR SALAD DRESSING? ANSWER ME THAT!

YOU'RE HORRIBLE!

P. J. MULQUEEN HAS IMPORTANT NEWS

Chairman Canadian Olympic Committee to Meet Amateur Officials.

P. J. Mulqueen, chairman of the Canadian Olympic committee, lands in St. John on Saturday en route to his home in Toronto, and has requested a brief conference with local amateur officials before leaving here. He sent this request to Frank White by Jack Keefe, a local boy, now on the C. P. S. liner Montclair as passenger agent, and Mr. White said last evening that he would arrange for the meeting. Mr. Mulqueen says he has some important news affecting Maritime amateurs trying for the Olympic team. Mr. Mulqueen originally had planned to go home via New York, but evidently considered Saturday's conference of more importance. It will be remembered that Charlie Gorman, U. S. national and international skating champion, went over to the Olympics under the personal care of Mr. Mulqueen.

RECORD LIST OF ENTRIES EXPECTED

The Y. M. C. C. committee in charge of the New Brunswick boxing championships here one week from tonight at the Army met last evening and optimistic reports regarding entries were received. It is confidently expected that a record number will appear. The sale of reserved seats will commence at once at the following places: Union Quick Lunch, Union street; Herman's, Charlotte street; de Forest's, Charlotte and Prince William streets; and F. W. Munro's, Main street. Only 200 seats are being reserved so those planning on attending should buy early.

WIFEY RELENTS AND LIFTS BAN

Paris, April 4.—(A. P.)—Madame Eugene Criqui is responsible for the decision of the former featherweight champion of the world to return to the ring. She it was who, last August, after the defeat of her husband at the hands of Johnny Dundee, ruled that he would never fight again. Seven months of the life led by the members of the Paris bourgeoisie worked the change in her attitude toward the ring.

When Gene returned from the Polo Grounds after losing the world's featherweight title to Johnny Dundee and sustaining 13 of the most punishing rounds ever administered to a fighter, Madame Criqui gave one look at her husband's battered face and shouted, "Never again. We will return to Paris and live a retired life."

Criqui had accumulated 2,000,000 francs in Australia and America. He invested the money, rented a little flat, and settled down. He met Hebrans, the Belgian boxer, as he had given his word he would. All he got out of it was a badly broken hand.

Recently Criqui decided to see the Ledoux-Mascart bout. He took Madame along. At the conclusion of the 20 rounds which brought the title back to the veteran Ledoux, Madame Criqui turned to her husband and said: "My word, Gene, I don't know anything about the fighting game, but I am sure you could beat the two of them the same night."

"I am certain I could," Criqui replied with slight interest. "I am quite certain I could give Dundee a real fight, too. Do you want me to do it?"

"All right, go ahead," she permitted, and then Criqui sought Robert Edouling, his manager, and told him he was ready to go back to the ring. He already has started training.

"My hand is all right again. I intend to ask Dundee to give me that return match he promised me before we sailed. I think I gave him a good enough battle for the American public to wish to see me get another chance at him," Criqui told the correspondent. "I made no bones about taking him on right after I won the title. I feel I am entitled to another crack at him."

SUSSEX MEN HEAD MARITIME HOCKEY

Truro, N. S., April 3.—At a meeting here today of the newly formed Maritime Amateur Hockey Association, G. B. Bolton and S. S. Tokos, both of Sussex, N. B., were chosen president and secretary respectively. It was decided that the new organization would have complete control of hockey in the Maritime Provinces.

CONFIDENT LEAGUE WILL MATERIALIZE

Now Assured That Border Towns Will Seek a Franchise.

The meeting scheduled for this evening regarding the formation of a Class D organized baseball league has been postponed until early next week. It was announced last evening, J. V. Shea, representative of the War Vets, said he had been in telephone communication with W. E. Vaughan, Fredericton representative, and Mr. Vaughan had informed him that a team from the border was almost a certainty with the possibility of two entries. Until this had been definitely decided by St. Stephen and Milltown representatives, no meeting would be held here. Border representatives were expected to reach a definite decision by Saturday of this week.

"Joe" Page, who has been giving the new league promoters the benefit of his extended experience in pro-baseball matters, arrived in the city last evening from the border where he attended meetings and explained to business men there the salient points of organized baseball. The well known C. P. R. sportsman is optimistic regarding the league here. He expects to return to Montreal either today or tomorrow.

JIMMY FRUZZETTI HERE

Jimmy Fruzzetti, who is to meet Nedder Healey in Halifax tomorrow evening, arrived in the city yesterday. Last Monday he met Young Tansey at Bangor and lost on a decision, although many thought that he should have been credited with a draw. He left today for Halifax.

STRIBLING BOUT SETS NEW RECORD

New Attendance Mark Established at Recent Bout in New Jersey.

Newark, N. J., April 4.—Young Stribling, Georgia school boy boxer, who recently decisively outpointed and outgrew Mike McTigue, light heavyweight champion of the world in a 12-round no-decision bout, received \$7,024.83 as his share of the receipts. The champion's share amounted to \$15,710, one-third of the net receipts.

The fight, which established a new indoor attendance record for New Jersey, attracted 9,686 paid admissions totaling \$46,088.90, including the 10 per cent tax. New Jersey will get \$4,609.90 as its share.

It was estimated that close to 12,000 persons jammed the Army to witness the fight, breaking the previous record established in 1921 when Harry Wills, the colored fighter, and Fred Fulton met in a local ring.

CONTROVERSY SETTLED

The controversy over the eligibility of St. Francis Xavier High School to play Fredericton High for the Maritime school title has been settled and President A. W. Covey's ruling that the Nova Scotia boys were ineligible has been upheld by a board of arbitration appointed by the Halifax Herald, donors of the championship trophy.

The board, composed of C. H. Bennett, Col. Stanley Build and James A. Holmes, report that they confirm Mr. Covey's ruling. Consequently, Windsor High, which also protested St. F. X., has been declared Nova Scotia school champion and will meet Fredericton next season for the 1924 title. Briefly, Windsor and Fredericton protested the playing of two men who played on the St. F. G. College team. One of these players, it was announced, was over the 19 year inter-scholastic limit.

WEISMULLER SETS NEW 220 YARD RECORD

Chicago, April 4.—Johnny Weismuller, of the Illinois Athletic Club, broke his own National A. A. U. record for the 220-yard free style event at the opening of the senior indoor swimming meet here recently. His time was 2:14.5, two and one-fifth seconds faster than his old record.

RICKARD CLEARED BY BOXING BOARD

Commission Reports There Was No Evidence of Tax Fraud.

Tex Rickard, promoter of the world's heavyweight championship bout between Champion Jack Dempsey and Luis Angel Firpo last September in the Polo Grounds, has been cleared by the State Athletic Commission of charges of alleged fraud in the payment of State and Federal taxes on the title struggle. In its investigation of ticket speculation in connection with the battle the commission uncovered evidence which indicated a small amount of speculation but that the cause for complaint in this direction did not warrant the conviction of submitting the case to the District Attorney for criminal prosecution.

THE HALL OF FAME!

Ben Marshall

A wonder in the water, swimming and diving. Won Maritime Championship at Wolfville indoor events, 1921. NO TEA FOR CRICKET PLAYERS CAUSES A STIR IN AUSTRALIA

A dispute that threatened for a while to disrupt Australian cricket circles was precipitated when the South Australian Cricket Club failed to provide afternoon tea for the visiting players from New South Wales in the recent interstate match. The New South Wales players, amazed at the absence of the customary tea, were inclined to believe there had been insult and there was talk of the team's withdrawal from the match. The South Australian hosts finally heard of the uproar that followed their faux pas, and explained that the absence was purely an oversight. The matter was amicably settled.

BOWLING G.W.V.A. HOUSE LEAGUE

In the G.W.V.A. House League last evening, St. Julien took four points from the St. Eloi. The scores were: St. Julien—Total, 476; St. Eloi—Total, 440.

The first game in the roll-off for the championship of the Clerical League will take place on Monday evening next. Three games will be rolled between M. R. A. Ltd. and the C. N. R. Roundhouse team, the contestants, with total points to decide the issue. This is the first year of competition for the Roundhouse team and they have done well.

INSTITUTE TITLE

The bowling championship of the Y. M. C. I. House League will be settled in a series beginning Monday at the Institute between three teams, Lewis school champions and will meet Fredericton next season for the 1924 title. Briefly, Windsor and Fredericton protested the playing of two men who played on the St. F. G. College team. One of these players, it was announced, was over the 19 year inter-scholastic limit.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

FAILED AT HOME, BUT WON ABROAD

Carl Hertz, American, the Highest Paid Vaudeville Actor for 45 Years.

London, April 4.—A vaudeville performer died the other day here and his career is not likely to be duplicated in the future, as it has never been paralleled.

Such a career had Carl Hertz, an American magician, who failed to interest American managers and couldn't get an engagement.

He worked practically every day, except Sundays, for 45 years and made in salary more than \$2,700,000, sometimes being paid \$4,000 a week.

Both Burton Holmes and E. M. Newman were passengers on the President Harding when it sailed Saturday and both famous globe-trotters are to get fresh news and views of Europe for their future pictorial lectures.

GAS IN STOMACH HURTS THE HEART

Thousands of Cases of Heart Failure Are Caused by Acute Indigestion, Says Medical Writer.

Gas pressure from sour, acid, upset stomach is not only nauseating and highly uncomfortable but some day it may prove fatal.

When your meals are followed by bloating, a feeling of fullness or pressure, shortness of breath and pains around the heart, you may be sure that the acid condition of your stomach is producing a GAS that is pushing upwards and crowding your heart.

To quickly banish gas, cleanse and sweeten the stomach, neutralize the acidity—nothing is better than the daily or "as needed" use of ordinary Bismarated Magnesia.

Any good druggist can supply Bismarated Magnesia, in powder or tablet form, at very small cost—but be sure you get BISMARATED Magnesia—recommended by Doctors and Druggists throughout the civilized world for more than 13 years.

HAYS KEEPS JOB. Movie Dictator's Contract Continued Until March, 1925.

New York, April 4.—Will H. Hays continues official head of the motion picture industry until March, 1925, it was announced following the annual meeting of the Motion Picture Producers and Distributors of America, Inc.

"Robin Hood" Fails Where "Way Down East" Wins Out

London, April 4.—Douglas Fairbanks' great film, "Robin Hood," which was such a success in America and was expected to score a tremendous hit in England and clear at least a million dollars for its producers, has met with a frost.

Cinema theatre patrons do not attend when "Robin Hood" is showing, and many of the houses are losing money, not taking in enough to pay for lights, help and music.

On the other hand a thoroughly American film, story and scenes, "Way Down East," is the most stupendous success in the history of the cinema in England.

New System of Fat Reduction

Here's a new way for all fat people to laugh together at that old bogaboo—Obesity. The saying that "there is nothing new under the sun" does not now apply to fat people any more.

Not until 4 o'clock in the afternoon did Censor Casey telephone to Miss Jane Poor the unhappy information that "profruity," it's Censor Casey's word—must be cut out of sharp and completely.

DELETIONS RUIN PARTS OF "SOPHIE"

Actors Slip Up Trying to Change Phrases Under Boston Ban.

Boston, April 4.—Deletions commanded by the Boston Board of Censors nearly created havoc with The Stage Guild's production of "Sophie" in the Peabody playhouse.

In fact the solemn abbe, the only really proper relief from this risqué setting of the whole business, actually stumbled off the stage laughing at a moment when his face should have worn the severe look of outraged moral rectitude.

Shows Doing a Big Business in N. Y.

New York, April 4.—The passing of "Wildflower" which wound up its run at the Casino last week leaves but three plays in town that have endured for more than a year.

It is, of course, the theatrical phenomenon of the age, no rule of the theatre applies to it. Some five different organizations are now acting; every one has been given full opportunity to view it, and still it runs on.

A WEEK'S ROAMING AROUND BROADWAY

Writer Relates the Worth-While Things That are Going On.

(By Maurice Henle.) New York April 4.—Roaming around Broadway for a week I talked with many persons, but no conversation did I enjoy more than that with the Princess Matchabelli, who told me it took her many weeks to get Morris Galt, the producer, to fix the lining of her coat so that she could appear in his "The Miracle" to advantage.

CALL FOR TENDERS TO BUILD ADMIRAL BEATTY HOTEL IS MADE BY ARCHITECTS

Next Week Will See Influx of Contractors to Inspect Site.

Thomas, Armstrong & Bell, investment firm, this morning received a night wire from St. A. Thomas, who is in Montreal, stating that Ross & MacDonald, architects, yesterday called for tenders for the new Admiral Beatty Hotel in this city. The architects had notified the architects of their intention of submitting bids.

Copies of the plans and specifications for the Admiral Beatty will be brought to St. John on Monday by Mr. Townshend, who is here for several days. All tenders will be given equal time fully to examine the plans, etc.

By the early part of next week representatives of the Upper Canadian contractors will arrive in this city to apply the plans to the actual scene of operations so as to get a definite idea of the mechanical requirements, measurements, etc. Excavating experts and builders to the number of twenty are expected.

This latest word of proceedings in connection with the eminent Dundas United Hotel Co. issue for this city comes at a juncture when spring activities are beginning in earnest.

BLISS GARMAN IN CITY TODAY

N. B. Poet Going to England—Newcomer Near Canada's Gateway.

When the Canadian Pacific steamship Metagama sails this afternoon she will have a large number of notables on board. Included among them are Mr. J. Anderson, eminent Dundas surgeon; Rev. A. W. and Mrs. Balfour, prominent missionaries, who are returning from Africa to London; Bliss Garmann, famous Canadian poet and writer, of Vancouver, B. C., formerly of Fredericton, N. B.; Robert Cowan of W. H. Thorne & Company of this city; Mrs. Hugh MacKay of this city; G. Francis, a prominent member of the Labor Party in Montreal; Rev. M. Lagro, Canadian Director General of the "Servants of Mary," of Papineauville, P. Q.; C. J. Munson, president of the Musson Book Publishing Company in Toronto; Major F. J. Ney, of the Overseas Educational League, whose home is in Winnipeg; Lady Schreiber of Ottawa, who is accompanied by Miss M. Petrie; W. E. Shenstone, president of the Ivory Products Company of London, Eng.; Major J. E. Spensley of London, Eng., secretary of the British War Veterans Association; Robert Wallace, manager of the Royal Bank in Hamilton, Ont.; Dr. H. A. Wardell of Hamilton, Ont.; Captain D. Dick of Toronto, Ont.; Sir William and Lady Brunyate of Hongkong, China, and Mrs. George L. Cairns of Montreal.

The Canadian Pacific steamship Metagama will leave here tomorrow for Glasgow.

On the Canadian Pacific steamship Metagama, which is due to reach port tomorrow morning from Liverpool with over 1,100 passengers, there are a number of special parties. One of the land parties has 109 men consisting of 89 British and 70 Scandinavians. Of this number 88 are destined to points in Eastern Canada and 76 to the Pacific lands in the west. This party will be in charge of Mr. Abramson of the C. P. R. Department of Colonization and Development of the C. P. R. in London. In addition to this party there are a number of farmers coming on this liner who have been engaged by the department and will proceed to assured positions, under the Foreign Labor Service scheme.

On the Marloch, which is due here Monday there is a land party of 84 British. Of this number 60 are destined to points in the prairie provinces and 24 for eastern points. This party is in charge of Major J. Miller of the C. P. R. Department of Colonization and Development in Edmonton. On the same steamer are 289 Hebrews in charge of Rev. Father Andrew MacDonnell and Rev. J. MacMillan.

HAS THE RECORD CARGO OF SEASON

S. S. Bolingbroke Arrives Here With 4,600 Tons of Freight.

Another port record for the season has gone by the boards. The Canadian Pacific steamship Bolingbroke on her arrival here last night from London, Hamburg and Havre brought 4,600 tons of general cargo, which is the largest arriving here on any liner this season. Included in her cargo were a number of electrical operated machines, which were built in Sweden. From present indications this cargo may remain as a season's record although there is always a chance that it will be surpassed before the winter schedule of sailings are concluded.

TRADE MATTERS.

The Board of Trade received this morning from the International Trade Developer, Montreal, information about foreign firms interesting to exporters in this city and this can be seen at the office of the board. A Winnipeg concern wrote giving information about their facilities for storage in that city.

STAFF HONORS BANK MANAGER

F. J. Shreve Leaves Tonight for Amherst—Successor is Here.

A pleasing event took place last evening in the Haymarket square branch of the Bank of Montreal, when F. J. Shreve, until recently manager of the branch, was made the recipient of a fine plaque as a token of appreciation from the members of the staff and former associates in the branch during Mr. Shreve's term of office. The presentation was made by the accountant, Frank W. Hunter, who in a short speech expressed the appreciation of his fellow employees of the many acts of kindness shown them during Mr. Shreve's management of the office. He also extended their best wishes for happiness and success in his new field. Mr. Shreve made a fitting reply in which he complimented the staff on their good work and faithful co-operation.

SAYS OVER 2,000 FEEBLE MINDED

Rev. Dr. Shearer Speaks of Provincial Conditions and Needs.

Legislation to compel the fathers of illegitimate children to pay for their support and ensure proper care of the feeble-minded are two matters which Dr. J. G. Shearer, of the Social Service Council, Canada, is vigorously promoting. The Legislature of Prince Edward Island is moving in regard to the former and that of Nova Scotia in regard to the latter.

Dr. Shearer is in St. John to attend a meeting this afternoon, of the executive of the New Brunswick Social Service Council, dealing with routine matters. He may go to Fredericton for the week-end.

Speaking of mental deficiency, Dr. Shearer said this morning that the latest figures regarding the percentage of feeble-minded are less formidable than many had believed, but still great enough to call for institutional care. Dr. Hincus informed him recently that the proportion of genuine feeble-minded is only about six-tenths of one per cent. This would mean about 2,400 for New Brunswick. Only one-tenth of these, however, require institutional care, although special care and protection should be thrown around the others, along with such training as they could absorb.

TAKEN ON SERIOUS CHARGE. George Pollock was arrested at noon today on a serious charge. It was expected his case would be taken up before Magistrate Henderson this afternoon.

TO WED IN ROXBURY. Mrs. Isaac H. Parker of West St. John announces the marriage of her only daughter, Susan Isabella, to David Wilson on Wednesday evening, April 23 at eight o'clock at St. James Church, Roxbury, Mass. She will be at the altar at 3 Ludlow street, Charlottetown, after May 15.

ICE IS REPORTED. A report received at the signal service, Customs House, this morning says that on April 2 the Schemen passed several proviers and one large berg at latitude 44.50 and between longitude 48 and 49.00 and one large berg at 46.03 north and 51.05 west.

DOKEYS HAVE SESSION. A session of Adla Temple, No. 157, D. O. K. K., held last night in Fredericton, proved one of the best of the season. About 50 members from St. John left by special car attached to the Montreal train and returned this morning on the Fredericton train. A class of 14 tyros walked the journey over the burning sands, following the trail of the camel, and qualified themselves to wear the "liger head."

WINDING UP COMPANIES. An application for the winding up of the Grand Falls United Farmers' Co-operative, Ltd., will come before Mr. Justice Barry in Chambers, at the city of Fredericton, on April 17. Notice appears in the Royal Gazette of April 2. The same issue also contains a notice of a petition for the winding up of the St. John River Log Driving Company, to come before Mr. Justice Barry, in Chambers, at Fredericton, today.

GO TO FREDERICTON. Commissioners Wigmore and Thornton left this morning for Fredericton to appear before a committee of the Legislature in connection with the bill. They were accompanied by D. G. Linsley, city chamberlain. Objection had been taken to the amendment to the assessment act giving the city power to sell real estate in the county if arrears in water rates, and it was in support of this measure the commissioners made the trip.

IS PRESSING COLLECTIONS. A drive is being made these days by the marshal who looks after the collection of taxes and licenses on the west side to collect from all those who have not yet paid up. Some of the men who work around the docks come from outside places and, while not liable for taxes, are required to take out a license. Many have not done this, and the marshal said this morning that all who had not called on the chamberlain by April 10 and secured the necessary document were liable to find themselves deprived of their liberty at short notice.

DIED IN CALIFORNIA.

On March 14, of appendicitis, Mrs. Alexander Brown of Modesto, Cal., passed away. She was formerly Miss Ina Chestnut, daughter of Mrs. Susan Chestnut of Smith's Creek, N. B. Besides her mother, who is her 83rd year, she leaves to mourn four sisters, Miss Minne, R. N. of Modesto, Cal., Mrs. Rose of Winters, Cal., Mrs. Schou, Avon, N. J., and Mrs. Amanda Anderson of Sussex. Three brothers, John and Rowland of Smith's Creek, and Charles of Logan, Utah.

DIED SUDDENLY.

Many friends will hear with regret of the sudden death of Mary Josephine Burke, daughter of Mr. and Mrs. John P. McLaughlin, which occurred suddenly last night between 11 and 12 o'clock at her parents' residence, 11 Wentworth street. The young lady, who was very popular with a wide circle of young friends, was 18 years of age and was a graduate of St. Vincent's High School in the class of '22. Besides her parents, she is survived by one sister, Evelyn, at home, and two brothers, Harry L. of the St. John Dry Dock & Shipbuilding Co. staff, and John F. of the C. P. Telegraph Co. staff here. The funeral will be held tomorrow morning at 10 o'clock. The body will be taken to the Cathedral for requiem high mass.

As Hiram Sees It

"Hiram" said The Times reporter to Mr. Hiram Hornbeam, "what are your views regarding church union, prohibition, the pulp-wood embargo, the Lost Tribes and the income tax?" "Have you got time to write a book?" queried Hiram. "Why do you ask?" "Well," said Hiram, "if you got me started on any one of them there subjects you'll want to hear your meals brought in—'nigger on a session as long as they're here!" "That there budget debate up to 'Fred'?" "Would it be worth while?" asked the reporter. "Well," said Hiram, "we got to settle them these questions some time—'an' I'm the feller kin do it. I'm the only one that kin. Anybody that don't agree with me orto hev his head examined. I aint hankerin' for the job—but if you say so I'll start right now." "On second thought," said the reporter, "I would rather wait—you don't mind?" "Me?" said Hiram—"I hev ten cord o' wood to saw up an' split." "The public will be so glad," said the reporter. "I don't misdoubt that," said Hiram.
