EXPOSING A HOODOO. Something About the Superstition Concerning Opals. "I think Sir Walter Scott is largely responsible for the superstition as to opals," said the traveling salesman of jewelry to a representative of the Birmingham News. "He that as it may, it is still widespread. There is a large jewelry house in one of the big cities which will not handle opals. This means a loss of thousands of dollars annually. The founder of the house put the bar on opals and the third generation is keeping it up. "It was behind the counter of a house in the East. A lady came in and handing me a bracelet set with opals, said: "Mr. Jones, what will you give me for these stones? They were an heirloom in my husband's family, but since they have come into my possession my husband and I have had nothing but misfortune. We have lost our residence by fire; there has been sickness in the family all the time, and he is ex-

periencing business reverses. I must get rid of the opals; so make me an offer for them." "Madam, I said, 'are you sure that your troubles are due to them?' "O, perfectly sure." "You cannot think of any other cause?" "No; make me an offer, please." "Madam, I replied, deferentially, I regret to inform you that those stones are imitations." NOT THERE YET. (Philadelphia Press.) Crittick—Yes, he asked me if you were considered a determined and persevering student. Hamphat—Ah! I suppose he wanted to know how long it had taken me to become an actor. Crittick—No, he was trying to figure out how long it would take you. Advertising is an investment—Sallinas, Col., Index.

SON ACCUSED OF MURDER OF FOUR

Killed Father, Mother Brother and Sister.

House Was Set on Fire in an Attempt to Consume Their Bodies.

AUBURN, Cal., Nov. 15.—Adolph Weber, twenty-year-old son and only surviving member of the family of Julius Weber, who with his wife, his nineteen-year-old daughter, Bertha, and fourteen-year-old son, Paul, was killed and burned on Friday night, is under arrest, charged with the murders. Public feeling against young Weber is very high. He is closely guarded in his cell and no opportunity will be allowed for any public demonstration. Julius Weber, a wealthy retired brewer, lived with his family in a beautiful home in Auburn, Adolph, who has had an excellent reputation, was his eldest son. It is known that the father had a violent temper, and at a preliminary inquest the son said that separation because of this infirmity. When the home was discovered on fire on Friday evening there was an instant rush to save the building or other property. When not a member of the family could be found at the fire men entered the burning building and in a room discovered Mrs. Weber, her daughter and son dead and partly burned. The charred body of the father was found the next day in the bathroom. Superficial investigation showed that the four had been murdered before the fire. Three had been shot, and the son's body had been hacked as if with a hatchet. That the mother and children had been burned in a room which was not on fire is a most important point the police had to work on, and the next was that no robbery had been committed. Adolph Weber, who reached the scene late, said at once that he did not believe robbery or revenge had been the motive and hinted at his father's temper as a possible explanation of the affair. When he was questioned Adolph said he had left the house at six o'clock and had gone down town, where he purchased a pair of trousers. Returning he had found the house in flames and had thrown his old clothes into the fire as the best way of getting rid of them.

JAPS DENY REPORT OF KUROKI'S DEATH.

Absurd Rumor Officially Contradicted—Russian Torpedo Boat Escapes From Port Arthur With Despatches Concerning Surrender

(Western Union despatch via the short cable from Canso to New York.) TOKIO, Nov. 15.—The Japanese war office denies positively the report that General Kuroki is dead. The official staff pronounces the report circulated by a Russian correspondent of the Associated Press that Kuroki was fatally wounded by a shell at the battle of Shake River, to be an absurd rumor. (Associated Press Despatch.) CHEE FOO, Nov. 15, noon.—It is rumored that the Russian torpedo boat destroyer Rastorofsky, which has put into port, brought despatches from General Stoessel asking the St. Petersburg authorities for instructions as to whether he would continue to hold out awaiting relief or make immediate arrangements with the Japanese for surrender upon the most advantageous terms possible. This rumor cannot be confirmed, but it is obvious only despatches of the highest importance would compel Gen. Stoessel to risk the loss of a warship by sending her out upon such a mission in face of the rigid blockade maintained off Port Arthur by the Japanese fleet. The captain of the Rastorofsky has notified the Chinese authorities that he will disarm. It is believed that this despatch was arrived at after communicating with St. Petersburg. There is reason to believe that Japanese cruisers have been watching the port, although a steamer which has just arrived saw no Japanese warships. The Rastorofsky brought a number of copies of Novakral, a Port Arthur newspaper. In one of the issues it is stated that while a Japanese destroyer was laying mines on Nov. 11 she was surprised by the battleship Retvian and sunk. LONDON, Nov. 15.—That the main defenses at Port Arthur will be carried by the Japanese at the next assault is indicated by a belated despatch from Gen. Negoi's headquarters. A correspondent declares that the siege preparations are complete and have been of the most thorough character. The rocky hills have been tunneled, but the most arduous labor until the Japanese works extend to within one hundred yards of the parapets of the forts. Through these tunnels the Japanese can march to the fortifications without losing a man and avoiding the fire which has exterminated their regiments in nearly all the previous assaults.

INSPECTORS PLEASED WITH CENTRAL RAILWAY. Premier Tweedie and Others Return Today—Company Wants Hundreds More Laborers.

George McAvity, president of the N. B. Coal & Railway Co., has returned from a trip of inspection over the road. McAvity was accompanied by Premier Tweedie, Hon. Messrs. Labllois, Farris and Sweney, Geo. Robertson, E. Lantianum and D. J. Farley, M. P. E. The premier and Mr. Labllois came to the city with Mr. McAvity. The party left here Tuesday morning and made a splendid run to Norton. Talking with the Star, Mr. McAvity expressed himself as well pleased with the condition of affairs and his guests were surprised at the great improvement that has been made. "With more labor, and it is badly needed," said Mr. McAvity, "the output would be greatly increased. At present there are about three hundred men employed, but the mines owners are anxious to secure more men, and if they can get enough will work night and day." The railway company has done all in its power to facilitate matters. They have built spurs to all the mines and as an evidence of prosperity call attention to the royalty that the government is receiving. The government pays a cent on every ton of coal mined. Next month the company will pay to the government \$1,500 in royalties. At Minto, Senator King has erected three new houses and intends putting up over twenty more. J. S. Gibbons, the company's agent, has proved to be one of the most satisfactory of the fourteen now being operated. The shafts to this mine have been sunk fifty feet. The average depth of the shafts in the other mines is about thirty feet. Mr. McAvity is very indignant about the statement that Hon. William Pugsley has gone to England to sell the coal. "Why," said he, "it is unnecessary to go that far to sell our coal if we wanted to part with it. I know what business took Mr. Pugsley to England, but it has no connection with the sale of one railway." Mr. McAvity says that his firm have been using the Grand Lake coal for some time with the result of a saving of twenty per cent. The Street Railway Company also have had the same experience.

LITTLE WAR COSTS \$20,000,000. BERLIN, Nov. 15.—A supplementary budget of \$20,000,000 for the expenses of the army in German Southwest Africa as a result of the insurrections will be presented to the Reichstag in December. Even this sum embarrasses the imperial finance ministry, which is striving to reduce the annual deficits and at the same time provide additional funds for various public works and for the army and navy. The progress in suppressing the native rising appears to be going on measurably well. About 1,400 recruits are going to Southwest Africa, and still to replace the losses of the commands in the field from sickness.

TURKEYS PLENTIFUL. The market today has a choice stock of turkeys and other meat products. A dealer said this morning that never before in his memory was the market so plentifully supplied for Thanksgiving. He feared that the abundance of turkey at the present moment would mean a dearth for Christmas. Turkey per pound is selling today at 18c and 20c. Geese are also abundant and are selling at from 80c. to \$1.00 each.

SENSATION IN FREDERICTON.

Warm Melodrama in the Barker House.

Elderly Husband, Young Wife and Strange Young Man Were the Prominent Actors.

FREDERICTON, Nov. 15.—The Barker House, a hotel noted in this city for its calm respectability, was the scene yesterday of a wild disturbance. Despite the efforts of the hotel officials to prevent reports of the occurrence becoming current, the facts have leaked out and tell a tale of a young wife and an elderly husband goaded to acts of rash violence by her behavior, it is alleged with another man. On Monday last a strange couple came to the hotel and registered as man and wife. The man was tall and thin, and apparently much beyond the half century mark. In marked contrast the woman was young and pretty. There was no indication on the register as to where the couple hailed from, but presumably they were Americans. From overheard conversation the man is evidently in the theatrical business, or has been, as he was heard at different times to remark in rather boisterous tones that he had made thousands from his shows. The woman was vivacious and attractive, and was inclined somewhat to disregard her elderly partner for the attentions of young men. Her appearance in the street always attracted attention. Yesterday afternoon about three o'clock the calm of the Barker House was broken by the piercing shrieks of a woman. Bell boys and attendants rushed up stairs to encounter the strange woman partly clothed running down calling for help. Close on her heels was her husband agitated by the furious passion and desperate. Catching up with his wife he led her back, threatening in the harshest language, while between sobs she begged him to desist. The hotel officials stood by mystified. A third person, a young gentleman, is said to be the cause of the occurrence. A revolver also, is said to have figured in the affray, and to have been the only thing which prevented the young man from serious harm at the hands of the enraged husband.

CREW OF ST. JOHN SHIP REPORTED DEAD. Gruesome Story of the Ship Troop—Capt. Wyman Belongs to St. John.

A despatch from Philadelphia says that the St. John ship Troop is believed to be drifting about the Pacific Ocean with all hands dead. The Troop sailed from Manila for the Delaware Breakwater on Aug. 3, with a cargo of coal and was spoken a few weeks later with one of her crew dead and the rest sick and almost helpless with fever. Twenty-three days after the Troop left Manila she was spoken 650 miles east-south-east of Hong Kong by the British steamer Radnorshire, which being a tramp ship and having no physician aboard, could give no assistance to the fever-stricken men. Captain Wyman, of the Troop, signalled that he was about to try and reach Hong Kong for medical aid. He should have reached that port a week later, but no further tidings have come of the ship. Captain Wyman belongs to this city. The crew were shipped in the east.

SUGAR JUMPS AGAIN. Sugar has taken another jump, that is raw sugar, and as a natural consequence it is only reasonable to expect refined sugar to follow. This morning raw sugar advanced one cent per pound. Later, Advice from Montreal this afternoon announce that the refineries there have jumped the price ten cents per hundred pounds on all grades. It is expected that this advance will shortly be followed by others.

WU TING FANG HONORED. (Associated Press Despatch.) PEKIN, Nov. 15.—The emperor's birthday honors include Wu Ting Fang, former Chinese minister to Washington, the honor consisting of permission to ride horseback in the foreign capital. This hitherto has been a rare privilege. [Wu Ting Fang was formerly Chinese minister to the United States and was supposed to be in disfavour in Pekin because of his progressive ideas.]

JUDGMENT DELIVERED. Justice Landry delivered judgment yesterday in the case of Daniel Adams vs. Walter L. Allcroft and George D. Prescott. This was an action for wrongful dismissal. The judge found all the issues in favor of the plaintiff and assessed the damages at \$1,000. The case was tried at the last St. John circuit.

KING OF PORTUGAL ON NORTH SEA COMMISSION. (Associated Press Despatch.) ST. PETERSBURG, Nov. 15.—The King of Portugal, it is believed here, will be selected to name the fifth member of the international commission which is to inquire into the North Sea incident. In the event that the admirals fail to agree on the selection of the fifth member.

DYING, THEY CABLE UNDYING DEVOTION

Man and Wife Both Near Death Tak by Cable Between Paris and Chicago

CHICAGO, Ill., Nov. 15.—James S. Gibbs, said to be dying at his home, No. 409 Superior street, and his wife, said to be dying in Paris, France, are breathing away their lives, but keeping in constant communication.

Separated by more than four thousand miles of land and sea, the husband and wife, both realizing that they cannot recover, send messages after messages of love and sympathy flashing across seas and continents.

Fearing that they will never meet again, each of the devoted couple is trying to cheer the other through their final hours on earth.

The wife, who was visiting her daughter in Paris, was stricken with paralysis, and when the news of her husband's mortal illness reached her she was unable to move.

Mr. Gibbs was stricken two months ago, within a few days after his wife suffered the stroke of paralysis. She strove to keep the news from the other, and they lived in the hope of meeting again.

FOOTBALL RULES.

Change in Scoring Rule Proposed by Rugby Union.

R. T. Macfarlane, of Halifax, N. S., has received the enclosed communication from G. Rowland Hill, president of the Rugby Football Union of England, and he would be glad to receive any suggestions from those identified with football in the Maritime Provinces in reference to the alteration in the scoring laws referred to therein.

Rugby Football Union, 35 Surrey street, Strand, W. C., November 4th, 1904. Dear Sir:— Alteration in the Scoring Laws.

The following proposal was on the notice paper for the annual general meeting held on Sept. 29th. Proposed (Rockcliffe); seconded (North Durham) that law 4 be altered to read: A try equals 3 points. A penalty goal equals 2 points.

BOY WHO KILLED FATHER ACQUITTED.

Lad Fined to Save Sister and Mother from Enraged Parent, and Killed Him Instantly.

WINNIPEG, Nov. 15.—Before Judge Prendergast, at Rosthern (N. W. T.), yesterday the case of Howard Stewart, an 11-year-old boy, charged with murdering his father, Alfred Stewart, was taken up.

The affair happened at Eagle Mills, west of Saskatoon, on June 25th last. The defence averred the father had tried to kill his daughter with an axe. The wife interfered, and the husband turned upon her. The boy ran into the house, seized a gun and aimed it at his father's legs with the intention of wounding him only.

GOT DRUNK AND WAS NEARLY DROWNED.

Daniel Harriott had an experience last night which he will not soon forget.

Dan had been imbibing rather too freely and in crossing the I. C. R. trestle in Lower Cove he suffered from a delusion very common to men in his mental state.

Dan saw two or even as many as six tugs where there were none, and as a consequence he suddenly found himself diving deep into the harbor. The duck sobered him greatly, and he struck out in good style when he came to the surface. There was a boat lying near Dan and he made for the two or three optical illusions, but he grasped the real thing this time and hauled himself partly into the boat.

FORMER ST. JOHN MAN
A SUICIDE IN NEW YORK.

Captain A. T. Rouse, R. N. R., Son of Late
George Rouse, Drank Carbohc Acid
—Relatives Reside Here.

The following telegram was received late last evening:
NEW YORK, Nov. 15.—Capt. A. T. Rouse, Royal Navy Reserve of Great Britain, suicided by drinking carbohc acid at his lodgings, West Sixteenth street. In his room were found letters signed "Your loving sister Annie," dated Carlton, N. B., and also envelopes marked, "Return to 19 King street, West St. John, N. B."

The sister Annie referred to above is Mrs. Dr. Hazelwood of Carlton. Capt. Rouse was a son of the late Geo. T. Rouse, formerly a barrister in this city. At the early age of 14, Rouse was sent to sea, and at 19 became captain of the vessel John B. Gladstone, owned by the late Judge Palmer of this city. This vessel was lost in a storm in mid-ocean.

P. E. ISLAND
ELECTIONS.

The Contest Promises to be a Close One;
And the Conservatives Have Very Fair Chances of Winning.

CHARLOTTETOWN, Nov. 14.—Again the political bug has sounded and the campaign will be a short one, only until December 7th. Nearly all the candidates are in the field, thus rendering it possible to survey the situation somewhat correctly. Both sides have a large degree of confidence. The Conservatives take the dominion vote, and from make their forecasts. Dividing the province into counties we have now in Kings county nine out of the ten local seats held by conservatives. Premier Peters is the only liberal member from Kings county. To expect a more favorable result in the election would be a rather sanguine prediction for any party.

HALIFAX, Nov. 15.—James Donahoe & Son has received a cable from Montevideo notifying him that the Balcombe sealing schooner Agnes G. Donahoe has been seized and is detained there. The Donahoe is a new vessel, built at Lunenburg, and left here last year. She is commanded by Capt. M. Ryan. There are several Halifax men on board. The last meeting of the Nova Scotia exhibition commission was held this evening. The expenditure was \$34,351, which is \$8,230 more than the receipts. President Longley, Senator Black and Mayor Crosby were appointed a committee to press on the government the claims of Halifax for the dominion exhibition of 1905. The eighteen Nova Scotians members of parliament will be asked to use their influence in the same direction.

factis there are those who love it still. The conservatives must not be over-confident. If so they will find Kings county giving nine conservatives and one liberal; Queens county three conservatives and seven liberals; and Prince county four conservatives and six liberals; total conservatives, 16; liberals, 14.

HALIFAX, Nov. 15.—At a meeting of the congregation of James' church, held this evening, it was decided to extend the call to Ernest Forbes of Little Harbor. Quite a number favored Rev. Thos. Stewart of Dartmouth, formerly of Sussex, and a third choice was Rev. Mr. Crawford of Mahone, but the majority favored the young Pictonian. It is thought that Mr. Forbes will hardly accept the call as it is in the missionary field. The prospect of Rev. Thos. Stewart being added to the Picton presbytery is hailed with delight.

CELEBRATED THEIR
SILVER WEDDING.
Senator and Mrs. Baird
Had an Anniversary.

Nearly Two Hundred Friends Assembled at Their Home in Andover.

ANDOVER, N. B., Nov. 14.—A very brilliant social event took place at the residence of Senator Baird on Saturday evening, the 12th inst., being the 25th anniversary of the marriage of Mr. and Mrs. Baird. Guests to the number of 175 assembled and completely filled the spacious parlors and halls, and were cordially welcomed by Mr. and Mrs. Baird, who were untiring in their efforts to make everyone enjoy themselves. During the evening music was furnished by the Andover orchestra, a solo by Miss Florence Porter, and a duet by Mrs. P. D. Sadler and Herbert Baird. A dainty lunch was served in the dining room, which was prettily decorated with carnations and chrysanthemums, which were a present from the lady friends in the village. No presents were desired, but several friends at a distance who could not attend sent very handsome pieces of silverware.

Mr. Baird received in a white costume of broad silk and shiftoe. Miss Baird looked very sweet in a gown of white albatross lace. Mr. Baird was born at Bairdville, in this county, Nov. 3, 1847, and was educated at the Carlton county grammar school. He taught the superior school at Andover for three years. The grammar school was located at Grand Falls, which was the coroner's attention was diverted by a request made in his ear by one of the detectives. In another moment Mr. Jeffrey had been waved aside and a new witness sworn in.

A RUSSIAN PRISONER
Who Escaped From the Japanese is Visiting Moncton.

MONCTON, N. B., Nov. 15.—Arthur Erion, a Russian, who claims to be an escaped prisoner from the Japanese, is in town on a visit to his brother, who carries on a ladies' tailoring business here. Erion, who belonged to the Russian reserve, was doing duty as a scout at Liao Yang when he was captured and taken to Japan. From there he escaped in a Belgian steamer to Antwerp and from that port came to Quebec on a British steamer. He says the Russians are fighting without heart, and would rather be captured than not.

The Filigree Ball

BY ANNA KATHERINE GREEN
AUTHOR OF
"THE LEAVENWORTH CASE."

(Continued.)
That this special feature, the most interesting one of all connected with this tragedy, should have been kept so long in reserve and brought out just at this time, struck many of Mr. Jeffrey's closest friends as unnecessarily dramatic; but when the coroner, lifting out the ribbon, remarked tentatively, "You know this ribbon?" we were more struck by the involuntary cry of surprise which rose from some one in the crowd about the door, than by the look with which Mr. Jeffrey eyed it and made the necessary reply. That cry had something more than nervous excitement in it. Identifying the person who had uttered it as a certain tiny little woman well known in town, I sent an officer to watch her; then recalled my attention to the point the coroner was attempting to make. He had the ribbon, and he recognized the ribbon as the one which had fastened the pistol to his wife's arm; and he asked whether, in his opinion, a woman could tie such a bow to her own wrist, and was obliged to say no, waited a third time before he put the general suspicion again into words.

CHAPTER XIV.
I do not know why the coroner had so long delayed to call this witness. In the ordinary course of events his testimony should have preceded mine, but the ordinary course of events had not been followed, and it was only at the request of Mr. Moore himself that he was now allowed the privilege of appearing before the coroner and jury.

What he said was in the way of confirming the last witness' testimony as to his having been in the Moore house on Tuesday evening. Mr. Moore, who was very particular as to dates and days, admitted that the light which he had seen in a certain window of his ancestral home on the evening when he summoned the police was but the repetition of one he had detected there the evening before. It was this repetition which had alarmed him and caused him to break through all his usual habits and leave his home at night to notify the police.

CHAPTER XV.
Mr. Jeffrey's examination and his triumphant conclusion created a great furor in town. Topics which had hitherto absorbed all minds were forgotten in the discussion of the date at which had been made by the police to fix crime upon one of Washington's most esteemed citizens, and the check which they had ritually suffered for this outrage. What might be expected next? Something really bold and reprehensible, of course, but what? It was a question which at the next sitting completely filled the inquest room.

CHAPTER XVI.
As he had appeared at the station-house at a few minutes before ten he was probably correct in this statement. But, notwithstanding this, I did not feel implicit confidence in him. He was too insistent in his regret at not being able to give greater assistance in the disentanglement of a mystery so affecting the honor of the family of which he was now the recognized head. His voice, nicely attuned to the occasion, was admirable; so was his manner; but I mentally wrote him down as one I should enjoy outwitting if the opportunity ever came my way.

CHAPTER XVII.

STRANGE SUICIDE OF YOUNG CARLETON GIRL.

Ruby Ferguson, Aged 15, Drank Carbolic Acid Yesterday and Died Last Night-- The Cause A Mystery.

Ruby Ferguson, aged fifteen, is dead at the home of her brother-in-law, John Connors, Queen street, Carleton, from the effects of carbolic acid which she drank on Tuesday morning. Her death occurred last night about twelve o'clock, after all the resources of the medical art had failed to neutralize the deadly poison.

Miss Ferguson is a Nova Scotia girl, her former home being at Granville Ferry, where her father, who is a carpenter, now resides. After the death of her mother, about a year and a half ago, she came to St. John, and since that time has lived with her half sister, Mrs. John Connors of Minette street, west end.

BRITISH INQUIRY

Into the North Sea Affair Begun at Hull.

Fishermen Positively Deny the Presence of Japanese With the Fleet.

HULL, Eng., Nov. 15.—The inquiry by Great Britain into the North Sea incident began here today. Vice Admiral Bridge and Butler Aspinwall represented Great Britain. Dr. Herbert Woodhouse represented Russia. The Russian consul was present and occasionally asked questions of witnesses.

On March 1, 1903, Mr. Barnes resigned from active railroad life, but had an office in the south station up to the time of his death. He retained a semi-official connection with the management of the New York Central, and also his membership in the directorate of the Boston and Albany.

AN OBLIGING YOUTH. "How did you lose your arm, young man?" asked the inquisitive person. "Oh," inquired the one-armed youth, "the loss was due to my obliging disposition."

MONTREAL, Nov. 15.—Dr. Duncan Campbell MacCallum, who for upwards of thirty years was actively engaged in the teaching of his profession in connection with McGill University, died Sunday at the advanced age of eighty-one years.

THE ELECTION OF OFFICERS for the ensuing year was held and resulted as follows: President, Rev. G. F. Scoville; vice-president, John Montgomery; secretary, Wm. Doherty; treasurer, Jas. Carleton; executive, Oscar King, Roy King, T. W. Watters, Roy Mosher, Robt. Brittain.

THE SARDINE FISHERIES. During the present season about 12,500 barrels of sardines were captured in St. John harbor. About 5,000 barrels of these were sold to parties in Nova Scotia, to be used as bait, and the rest were bought for the canners at \$2.50 per hoghead. There is not much, however, to encourage the industry here, the prices being very unsatisfactory.

THE SARDINE FISHERIES (cont.). The sardine fisheries bring a great deal of money into this city. The fishermen engaged in this business would spend about \$2,000 for provisions alone in one season, besides numerous other expenditures. John McCarver of Lorneville is said to have cleared this season \$115 a month. The American vessels which came for sardines met with considerable opposition by the local fishermen. This will likely result in keen competition at the annual sale of the fishing privileges next spring. Whatever rise this may cause in the price will benefit the city to that extent.

ST. JOHN BOYS OUT WEST. Harry Carpenter, formerly of M. R. A.'s employ in this city, and son of James Carpenter, the Mill street merchant, writes home from Astoria, Ore., that he is well situated with a general store company in that section. He also says that John McAlary of Indian town, formerly employed with Frank Worden, the grocer on Sydney street, is working with Hamelin Bros., departmental merchandisers, who conduct large stores in Astoria, Astoria, in Melita, Napina, Lauder and other places. Both Messrs. McAlary and Frank Worden of St. John are in this employ. Carpenter is working in the same town.

NEPTUNE'S BALL.

The First Event of the Season Was Most Enjoyable.

Assembly Rooms in York Theatre Were Prettily Decorated.

Had a Good Time.

The Neptune Club ball is always looked forward to by the devotees of the terpsichorean art as one of the most enjoyable functions of the St. John's season. Whatever credit is due to the success of the eighth of the series a success had been due to the Neptune boys, and the result marked last night's affair as the most successful of a brilliant series.

Lavish decorations completely transformed the assembly rooms of the York Theatre. The club colors, red and white, were everywhere in evidence, making an effective background for the brilliant dresses and fair faces of the ladies.

The reception room was very gay. The pillars and chandeliers were draped in red and white, with artificial lilies and white chrysanthemums entwined among the drapery. Here and there were masses of spruce, effectually toning down any appearance of too much color. On the walls were pictures, emblems of the club's triumphs at whist.

The ball room was bedecked with flags, artistically arranged. At either end of the room were two shields, one bearing the emblem of the club, and the other the arms of Canada. The bandstand was placed in the corner by the entrance to the reception room, and was daintily draped in green. From the ceiling was suspended a white car, in which a chubby boy was driving a flock of sheep. The pillars were green with spruce, and festoons of the same material swung gracefully between them.

In the supper room the club colors were again predominant. In the centre was a large table, on which were massed a number of chrysanthemums. They were greatly admired by everyone. They were the gift of W. & K. Federson, and formed one of the most effective features of the decorative scheme.

The guests began to arrive about nine o'clock. They were met by Mrs. W. E. White, Mrs. F. E. Hanington, Mrs. E. I. Simonds and Roland Frith, president of the club. The chaperones were Mrs. L. W. Barker, Mrs. J. Lee Day, Mrs. F. E. Hanington, Mrs. J. W. Holly, Mrs. G. West-Jones, Mrs. Alfred Porter, Mrs. J. M. Robinson, Jr., Mrs. E. I. Simonds, Mrs. Percy W. Thomson, Mrs. W. E. Vroom and Mrs. W. W. White.

The rooms rapidly filled, and a little later the sound of music attracted the effective of the ball room. Here the scene soon became one of the most brilliant that has been seen in these rooms. The ladies seemed to have excelled themselves in the beauty of their gowns, which no mere man's pen could do justice to. The gentlemen, and very soon the company settled down seriously to the task of spending a thoroughly enjoyable time.

Arrangements for those whose dancing days are done were not forgotten, and in the reception room were cozy corners and inviting lounges, where the philosophers could sit and watch their most active friends. Nor were those couples who preferred a quiet tete-a-tete forgotten, and it was noted that the most attractive provided for these people were left unoccupied.

When supper time arrived the dancers found an active committee of members here on the shore opposite the wrecked vessel.

At daybreak they saw that the craft had not broken up, and that the harbor was huddled under the lee of the salley.

Shouting to the crew to hold on and that they would bring them ashore in safety, the two men pushed the skiff into the sea, jumped into her and were soon among the rocks and battling with the sea and the gale.

It was a perilous task which the two men had undertaken, and their wives trembled with fear as they watched them.

It was only about 100 yards between ship and shore, but myriads of sunken rocks lay in their path. Carson and Robinson finally got near enough to the vessel to throw a line aboard, but the crew were so exhausted that they could not make it fast. Finally the little skiff, by skillful handling, was brought up under the bow of the schooner and a line made fast to the craft.

Two of the crew, all that the skiff could carry, were taken aboard and the start for shore was made. Every sea between the vessel and the shore was to the bottom, but she was skilfully handled and in a short time sent high and dry on the shore.

The two half-dead seamen were lifted out of the boat and again she was purged of crew and Robinson were pulling seaward to take Captain Nelson and the remaining seaman to safety.

The wrecked vessel was again boarded by life-savers, the sailors helped aboard the small boat and Capt. Nelson, the last to leave his vessel, stepped into the skiff and the trip through the breakers was once more accomplished in safety.

MATE PERISHED.

PICTOU, N. S., Nov. 14.—The schooner Annie Falconer, owned and sailed by Capt. Murray Ackerman, went down in the gale Saturday night between the False Bucks Island and Timber Island. She was bound from Stodds Point, N. Y., to Pictou with coal.

James Sullivan, the mate, after having wandered away, and when found by his mates was dead of cold and exposure.

CAN SAVE BESSIE PARKER.

VINEYARD HAVEN, Nov. 14.—Schooner Bessie Parker, which went ashore on the west side of the harbor last night, is full of water, but is not severely strained and can probably be floated after a portion of the cargo. There is about nine feet of water around her at high tide. Her port anchor and chain were recovered.

The heavy northeast gale of last night changed to northwest today with high seas in Vineyard sound. No vessels passed this port today.

HEROES OF TARPULIN COVE.

WOODS HOLL, Nov. 14.—Lightkeeper Carson and Postmaster Robinson of Tarpaulin Cove rescued Capt. Price and crew of three men from the wrecked schooner E. Arcularius, ashore on Naushon Island, at daylight this morning.

The rescue was one of the most daring ever made along the wreck-strewn shores of Vineyard Sound, the men being taken off the schooner in a 14-foot flat-bottom skiff.

The little schooner lay firmly wedged among the rocky ledges just to the westward of the entrance to the harbor at Tarpaulin Cove, this morning, with the sea rushing through her from stem to stern, the giant combbers breaking over her deck and sending the spray to her mastsheads. She will remain until this morning.

Lightkeeper Carson and Postmaster Robinson were the only male residents on the island last night, and while Mr. Carson took charge of the light, the two men rushed to the scene of the wreck. They could render no assistance to the crew during the night, however, and as the cable to Cuttyhunk was broken they could not get to the vessel.

Nor were the two men able to get to the vessel to throw a line aboard, but the crew were so exhausted that they could not make it fast. Finally the little skiff, by skillful handling, was brought up under the bow of the schooner and a line made fast to the craft.

Two of the crew, all that the skiff could carry, were taken aboard and the start for shore was made. Every sea between the vessel and the shore was to the bottom, but she was skilfully handled and in a short time sent high and dry on the shore.

WILL NOT BE CAUGHT AGAIN.

Up the Bay Merchants are Ordering Heavy Stores for the Winter.

Last fall merchants and others living up the bay, both on the New Brunswick and Nova Scotia sides, seemed to be asleep. They took no thought for the morrow, what they should eat or what they should drink, and rather foolishly neglected laying in sufficient supplies to carry them through the winter.

Before spring their stocks ran out. No one actually went hungry, but different kinds of food were scarce, and many animals suffered from want of feed. One schooner captain who made a very early trip down the bay, while the ice was still along the shores, reported that as his schooner was passing along the pier actually ran out on the ice and sitting up like dogs which have been taught to beg, grunted for food. This report was not generally credited, but it was a fact that the earliest vessels up to the bay received hearty welcomes. Merchants and others had been ordering supplies by rail and hauling them by sleds for long distances to their homes.

That was a lesson which seems to have been taken to heart. The merchants are not apt to be caught again, and that they are determined to lay in sufficient supplies is evident from reports given by wholesale houses.

This is the season when business with bay points begins to freshen up. There are remaining six or seven weeks of navigation and from now until the heavy ice forms the schooners will be kept busy. This season there will not be half as many men working in the woods as was the case last winter, and so such large quantities of supplies for this work will not be necessary. But in spite of this the wholesale people state that orders are coming in much as much stuff as was sent up last year, showing that the merchants will not be caught again.

TWO NEW JUDGES

Of the Supreme Court Appointed.

OTTAWA, Nov. 15.—Matthew Hutchinson, ex-M. L. A. for St. Antoine, Quebec, Montreal, will succeed Judge White as judge of the supreme court in the district of St. Francis. Judge White is in ill-health.

HE IS NOW JUDGE COOKE. THREE RIVERS, Que., Nov. 15.—R. S. Cooke, advocate of this city, and ex-M. L. A. for Three Rivers, has been appointed judge of the supreme court for the district of Three Rivers, to fill the vacancy caused by the death of Justice Desmarais last summer.

The old system of waiting for clients and trade will, in our day, lead to stagnation, failure and bankruptcy.—Henry Reis, Cashier, Old National Bank, Evansville, Ind.

Psychine Strengthened My Whole System

Pure Blood in your veins now will save you much in purse and person before the winter is over, PSYCHINE makes rich red blood, keeps people well and at their best.

"Today I am enjoying good health, solely through the use of Psychine. When I began using Psychine, I was suffering with a heavy cold in the bronchial tubes, and a cough, which seemed to rack me to pieces. The doctors' medicine gave me no relief, and I began to dread consumption working on me. With the second dose, Psychine benefited me and gave new strength. Psychine toned up my whole system, and quickly stopped the cough. I heartily recommend Psychine to persons run-down, in need of a tonic, or suffering with coughs, colds or catarrh. I bless the day I tried Psychine."—Allan Connor, Printer, near Fieton, Ont.
