HARRY E. HAYWARD HAS PASSED AWAY

Was Prominent Athlete at Ottawa and
Well Known Government Sur-
veyor—Born in Ashland
Thirty-seven Years Ago

The town and surrounding country was deeply grieved on Tuesday over news of the death of Harry E. Hayward, only son of Mr. and Mrs. Jarvis Hayward of Ashland, which occurred at his home at Ottawa on the morning of that day.

Mr. Hayward was taken ill with pneumonia only a few days before. On Friday his father received a telegram bearing news of his dangerous illness, and he departed for Ottawa on Saturday. On Sunday he wired Mrs. Hayward that the patient's condition was favorable. Tuesday morning the sadder news came.

Many friends in all parts of the county will learn of the sad death with regret for the loss of a bright young man, and with deep sympathy for the bereft parents, whose only child he was.

Harry Hayward was born at Ashland 37 years ago and 20 years ago was a classmate of Dr. G. N. Belyea at Hartland school. He later attended the U. N. B. and upon graduating joined the staff of the Department of Interior at Ottawa. He married Miss Annie Downing of Albert county, who, with their three children, survive him. The remains are expected to arrive here today and the funeral service will be held tomorrow afternoon.

The following despatch from Ottawa appeared in the daily papers yesterday:

Ottawa lost one of its most popular athletes and supporters of amateur sport, and the dominion civil service one of its valued professional men in the sudden death early this morning of Harry Edward Hayward, more familiarly known to thousands of football lovers as "Happy" Hayward. He became ill a few days ago and pneumonia developed. He was in his thirty-eighth year. The funeral will take place here tomorrow, the body being sent for burial to the birthplace of Hayward, Hartland, N. B., where his parents still reside.

"Happy" attended the University of New Brunswick, where he played his first football. Graduating in civil engineering in 1907, he came to Ottawa, entering the service of the dominion government in the topographical survey. He was married in 1909, his wife being a New Brunswick girl. He continued to practice his profession in the dominion service, and last summer was one of a government survey party sent to the Fort Norman oil fields.

For several seasons he was a member of the Ottawa second team, and several times on the executive of the Ottawa football club. He is survived by his wife and three young children.

CONSUMPTION OF TEA

The London Graciers' Gazette for January 8, states that the consumption of Tea in Great Britain and Ireland has increased 34 per cent since 1912. They now use about nine pounds per head per annum in the United Kingdom, and the increase in 1921 over the previous year amounted to 17 million pounds. This enormous

consumption accounts for the great rise in the price of tea.

The consumption of Tea in Canada only amounts to 4½ pounds per head per annum, but is increasing.

WHO IS THIS ?

The Observer has on hand a great number of photographs of soldier boys, but in most cases the names of them have become detached and they can no longer be identified by the office staff. Here is one of them. Surely some one can write and tell who this is, when and where and with what unit he enlisted, and give a brief story of his subsequent career. Let us have the story right away, please, and we will be able to print it next week. Each week we will print a different picture and ask our readers to supply the description for the following issue.

Watch this page. Your own boy's picture may appear next.

The lad whose portrait was printed last week is reported to be Gayton Sparks of Wicklow. He enlisted in the 104th and from England was drafted into the 5th C. M. R. He fought and was wounded at Vimy Ridge. Otherwise he returned home safely, bringing with him an English bride and they are now living happily at Wicklow.

ELECTION EXPENSES

The election expenses of Mr. T. W. Caldwell, M. P. for Carleton-Victoria, as set forth in detail in the Hartland Observer, have been made a subject for jest by a Toronto Tory paper. The total expenses of the contest were \$322.97, of which \$798.47 was contributed in small sums by members of the Progressive party. It is not much cause for wonder that those who have a fair knowledge of the size of the boodle fund at the disposal of the Tory candidates in the late election should cast envious eyes on the modest financial statement of Mr. Caldwell's campaign. The fact that Mr. Caldwell got off so easy in regard to election expenses should strengthen rather than weaken his influence in the House. In the matter of election expenses Mr. Caldwell certainly fared much better than some of the Tory members elect from New Brunswick and he had no huge boodle fund to dip into either. He will go to Parliament free and untrammelled and with a mandate to labor in the interests of the free, independent and unpurchasable electors of Carleton-Victoria. It would be better for Canada if all elections could be conducted as economically as that of Mr. Caldwell—Fredrickson Mall.

HORSE RACING DUE TOMORROW

Good String of Speeders Lined Up for
Hartland Ice Track and Good
Sport in Store—Woodstock
and Centreville Horses
as Here

Racing on the river is arranged for tomorrow and if there is good weather some very interesting sport is assured. So far Hartland Driving Club has been unable to stage a really exciting event this year, but only adverse weather conditions will prevent some fun tomorrow.

Horses from Woodstock and Centreville will be here and try conclusions against the local fast ones. In Class A, pace, Ben Ali owned by Hartland Driving Club will be matched against the popular and speedy Lucky Strike of Woodstock, while in Class A, trot, Rhonda Adair owned by W. B. Belyea of Woodstock will race with Antelle G. owned by Eric Brown of Centreville. The four are horses of real class and distinction and the races will be worth seeing. Class B, pace, will be fitted by Don W., a Centreville horse, and Flying Dick, owned by Charles Crabbe of Cloverdale. Another Woodstock horse is expected to enter, Freddy Hal, while among the local horses will be Queenie Patchen, owned by Frank Hayden, and Lady Bell, owned by William Stevens.

If the day is fine and all conditions favorable there should be a good crowd on the ice tomorrow afternoon.

The racing last Friday was confined to a rather pretty exhibition between Antelle G. and Ben Ali. The latter winning the three heats in 30, 30½ and 30.

PICTURE HIGHLY RECOMMENDED

Dear Sirs:

It was with great pleasure that I viewed your screen picture, "The Battle of Jutland." From the first view until the end I was simply thrilled and on the tip toe of expectation and excitement. No amount of written description could explain the vastness and the strategy of the Battle of Jutland like the screen does, and its accuracy is marvellous.

I am sure that if the public realized that it is not an imaginary screen, but something based upon the accurate data gleaned from the ships' logs and from their course charts, they would flock in thousands to see it.

As an education to any child or adult, it is invaluable. Who would not to-day pay almost any sum to see such a picture of the Battle of Trafalgar, and here is a battle fifty times its magnitude to be seen for a song.

Everyone with a drop of British blood will delight in seeing it, and every naturalized Canadian should see it in order to make them realize the heritage they are enjoying in the protection that such an organization as the British Navy has afforded them.

Yours faithfully,
AEMILIUS JARVIS
Dominion President,
Navy League of Canada.

STOMACH ULCER AND GALL STONES

After Suffering 25 Years, Completely Relieved by "FRUIT-A-TIVES"

MR. EDWARDS

MAPLEHURST FARM, HILLHURST, P.Q.
"I am in my 78th year. About 25 years ago, I began to have trouble with my stomach. One doctor said I had Cancer; another said, Ulcer of the Stomach; another, Gallstones; others, Ulcers of the Liver and Inflammation of the Gall Bladder."

Three years ago, I consulted one of the best specialists in Montreal. He said I must go to the hospital, have an Ulcer cut out of my stomach and gall stones removed. I was then 74 years old. I said "NO." Then, I began to take "Fruit-a-tives". I found they helped me a lot, and I still take them occasionally, and I am so much better that my old friends often ask me what I have done to myself to look so well. I am gaining in weight and enjoying life very much."

LAST YEAR WAS A RECORD ONE FOR THE SUN

Canada's Leading Assurance Company Transacts Enormous Business

Although it has been established for 51 years and has, during that time, registered a phenomenal rate of advancement, the Sun Life Assurance Company of Canada has succeeded in passing all its previous records. The figures for 1921, which the Company has this week submitted to the public prove it too have transacted an enormous amount of business, and this in spite of the very trying circumstances under which all Canadian industry and finance was laboring during the year. One of the most interesting features

presented through the medium of the Sun Life annual report is the exceedingly low rate of mortality which was experienced among policyholders. It would appear that our people are healthier than they have ever been. This is certainly not due to a more discriminative selection of lives for assurance, as the great Life companies have, if anything, been opening, rather than closing, the door to protection. That the actual death-rate should have been so much below that anticipated by the actuaries is a healthy and encouraging sign, both from the point of view of the Company and of the public at large.

The volume of Assurance now in force with the Sun Life has reached the imposing figure of over \$536,000,000. The sum of \$11,967,069.00 was paid either to policyholders or their beneficiaries during the year, which brings the amount paid out to the Company's friends since its incorporation in 1865 up to \$114,155,003.00.

The assets, which stand at \$129,372,127.00, show a striking expansion. A surplus is disclosed of \$10,383,909.00 over all liabilities and capital stock. This surplus, both in fact and proportionally, marks the year which has just closed as being phenomenal even in the history of a concern which has been busily engaged in breaking records for over half a century.

The income from premiums, interest and other sources is far greater proportionally, than was obtained in any preceding year. At the present moment it approximates to considerably more than \$100,000.00 a day for every working day of the year.

The enormous sums which the Sun Life has at its disposal for investment have earned 6.07 per cent interest. During last year exceptionally fine opportunities presented themselves of buying large blocks of first-class, high-interest, long-term securities, and the Company appears to have availed itself of the chance thus offered to the full extent of its resources.

The year 1921 represented a period of all-round depression. Our great financial houses might very reasonably have looked forward to the final results of their operations with misgiving. The Sun Life, it must be remembered in this connection, operates not only in this connection, but in many other countries, not all of them as immune from trouble as is Canada.

That the Company should have fought through the black times of 1921 with such a triumphant denouement, and with all its previous records broken, speaks volumes for the care, forethought and energy with which it has studied and conformed to world conditions.

ROSS-DEWITT

A very pretty wedding was solemnized at the home of David DeWitt, Foreston, Feb. 8, when his sister, Annie R., was united in marriage to Arthur E. Ross of Houlton. The bridal party entered the room to the strains of "Wedding Bells" played by Mrs. Frank R. Burlock, sister to the groom. The ceremony was performed by Rev. H. V. Bragdon under an arch of evergreen in the presence of invited guests, the double ring service being used.

The bride who was becomingly attired in a dress of navy blue satin messalin, was the recipient of many valuable and useful presents. Mr. and Mrs. Ross will reside at Houlton, Me., where Mr. Ross is employed as book-keeper. Their many friends join in wishing them a happy voyage through life.

ODDUR EBBETT OF SIMONDS DEAD

The death of Oddur L. Ebbett of Connell occurred on Feb. 11 at the Fisher Memorial Hospital after an illness of ten weeks of a complication of diseases. Backache

Backache is the outstanding symptom of kidney disease. Women often make the mistake of attributing other causes and overlooking the derangement of the kidneys until serious developments have made it difficult to obtain permanent relief.

This letter points to a treatment which has been so thoroughly tried and proven so effective in the great majority of cases that you cannot afford to overlook it when cause arises for its use.

Mrs. Albert Brunet, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kidney-Liver Pills for the past two months, having been afflicted with kidney trouble. I used two doctors' medicine previous to this, without any good results. A friend told me to use Dr. Chase's Kidney-Liver Pills, and the second box made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved."

THE GOOD CORNER - SCHOOL "TROUBLE"

In reply to "School Troubles" at Good Corner, which appeared in last week's issue, we as true citizens of a community wish to explain matters:

The "school trouble" was slight to begin with. The teacher punished the four children of four different families for offense on Friday, Jan. 27. The parents in three cases felt that the teacher was justified in doing so, but in the fourth case the parents sympathized with their children, and on Saturday sent the teacher a saucy letter. Between Friday night and Monday morning the school registrar disappeared. On Monday the children of the offended parents left school.

months' vacation, as he has not en-
joyed the best of health of late. He
is succeeded by W. A. Armstrong,

the railway company in Toronto.

Kentville, N.S.—The Dominion
Atlantic Railway has moved 105,000
barrels of apples to Halifax for
export. There are still approxi-
mately 350,000 barrels left for ex-
port. From the beginning of the
season 1,490 more cars of apples
were moved than for the corre-
sponding period last year.

St. John, N.B.—During the pres-
ent season the Canadian Pacific has
hailed 2,048 cars of grain contain-
ing 4,265,908 bushels which have
been unloaded to the elevators at
West St. John, as compared with
2,063 cars with 3,473,545 bushels
during the corresponding season last
year. The elevators at West St.
John still contain a million and a
half bushels of grain.

The new Canadian Pacific Steam-
ship "Montcalm," with sails be-
tween St. John and Liverpool, is
equipped with motion pictures. The
showing of motion pictures on board
ship has proven a big success ever
since its inauguration last summer
and has met with the same popu-
larity and appreciation by pas-
sengers as other Canadian Pacific
features. The films are distinctly
and characteristically Canadian in
subject and treatment.

Victoria, B.C.—There are no bet-
ter known golf courses in the Do-
minion than those at Victoria on
Vancouver Island, no doubt due to
the fact that the game is played
every day in the year. It will,
therefore, come as a pleasant sur-
prise to know that the Cana-
dian Pacific Railway has completed
arrangements whereby guests of the
Empress Hotel at Victoria will be
accorded playing privileges on the
excellent 18-hole Colwood Course.

Winnipeg, Man.—Miss Hazel
Tompkins, candidate of the Canadian
Pacific Railway employees, is queen
of the Winnipeg winter carnival.
When the voting contest closed Miss
Tompkins had 27,955,000 votes to
her credit. Miss Katherine McTag-
gart, candidate of the Canadian Na-
tional employees, ran second with
14,262,000 votes and Miss Esther
Cummings of the T. Eaton Com-
pany, third with 12,484,000. There
were 25 candidates. Bonds were
sold to finance the carnival, each
bond bearing a voting coupon.

There has been more than usual
interest manifested since the an-
nouncement, first made by the Cana-
dian Pacific in December, of the
next international Eucharistic Con-
gress which is to be held in Rome
in May. The Canadian Pacific, as-
sociated with La Compagnie Fran-
caise du Tourisme, is organizing a
personally-conducted pilgrimage un-
der the spiritual direction of a well-
known Canadian priest. The pil-
grimage will include the famous
shrines of Italy and France, with
special optional tours to the Passion
Play at Ober-Amunghaus and the
battlegrounds of the Great War.

Edmonton, Alta.—Demonstrations
on raising of bacon type hogs, the
value of dairy cows on the farm and
the value of sheep are being given
from the train that has been out-
fitted by the Alberta Government
and is now on tour through the
province. The train itself is pro-
vided by the C.P.R. and has
Thos. Atcheson, C.P.R. agricultural
representative in charge. Repre-
senting the Provincial Government,
S. G. Carlyle, live stock commis-
sioner, is in charge of this work.
The speakers include Mr. Carlyle,
Guy Herbert, Medicine Hat; G. H. G.
Hutton, Calgary; Professor A. A.
Dowling, Captain Latimer, University
of Alberta; W. L. Carlyle, Calgary
and Dr. Morrison of the Dominion
Live Stock Veterinary service.

A Promise that has made good

When KING COLE TEA was in its
infancy we associated with it the
slogan—"You'll like the flavor." It
was a modest statement, yet when
you come to think of it, it covers all
that you are looking for in the tea of
your choice. How well KING COLE
has lived up to its promise is proved
by the many thousands of
users today.

Montreal, Que.—J. J. Sullivan, for
many years well known here as
chief engineer for the C.P.R., was
elected president of the Engineering
Institute of Canada, at the annual
meeting of that body. Dr. Sullivan
succeeds the retiring president, J.
M. R. Fairbairn, present chief en-
gineer of the C.P.R. In his valedic-
tory address Mr. Fairbairn said
the past year had been a serious
one for engineers, following the re-
action from the feverish war activi-
ties, and he hoped the turning point
had been reached. The depression
had been particularly hard on the
younger members of the profession.
Despite the deflation period, the in-
stitute, for the first time in its his-
tory, showed a surplus, \$10,000, on
the year's operation.

HOLD YOUR CALENDAR ORDERS

The Observer Ltd. is showing per-
haps the most extensive and varied
line of 1923 calendar samples in Can-
ada and the merchants of the upper
St. John Valley in particular really
owe it to themselves and to The Ob-
server to withhold ordering until they
have had an opportunity to see this
really remarkable line. Our traveller,
G. P. Black, is doing the larger cities
at the present time and will not cover
the Valley territory for a few weeks
simply for the fact that we feel rather
certain that business is going to im-
prove as spring advances and sales
are going to be easier. There have
been many calendar travellers over
this territory since the first of Decem-
ber, but merchants have not yet seen
the best that is offering either in va-
riety or price. Nothing can be gained
by ordering too soon, and it is a fact
that the tendency of the prices is
downward. Those who have been in
a hurry to place their orders will dis-

cover that they made a mistake. Look
for the coming of Mr. Black and The
Observer samples.

CANADIAN LEADERS URGE OPEN GATE TO WORTHY IMMIGRANTS

Two family home in Venice on Italian settlement in northern Alberta

The two families live in the Italian farmstead

Farm buildings and fuel supply of peat of Russian settlers in southern Manitoba

In pre-war days immigration flowed toward America from the four ends of the earth. This tide was dammed by the war and its resumption retarded by after-war conditions. Canada erected legislative barriers as to quantity, quality and kind.

Canadian leaders now declare that so far as Canada is concerned, the barriers must be raised and immigration encouraged. Lord Shaughnessy, under whose administration as its president, the Canadian Pacific Railway performed miracles of colonization and development for Canada, says: "We must have immigration. We have had very little since 1914. On the contrary, I am afraid we have lost somewhat. Then, after the war, the natural feeling that grew out of the war encouraged the placing of restrictions on immigration that have been most disastrous in their re-

sults. We must have settlers from all over the world, not artisans, but men who will go out on our land, to our forests and to our fisheries and help to develop these resources. There must be an insistent demand upon Parliament to pass legislation that will open the doors to them to a reasonable extent and will permit them to come in."

No man in Canada knows better than Lord Shaughnessy what the immigrants of various countries have contributed to the Dominion's wealth and welfare. There are

thriving colonies of Ukrainians, Poles, Hungarians, Swiss, Dutch, Scandinavians and Welsh, in addition to many of these nationalities that have been merged into united communities. Between 1900 and 1915, Canada absorbed 256,942 immigrants from the Central Powers and less than 100 have come in during the succeeding years. Canada realizes the value of worthy immigrants, no matter whence their origin, and the first steps are being taken to open her gates to all such.

Italy's New Riviera

Few regions can boast of so great a variety and so large a number of climatic and health resorts as the bounty of Nature and the activity of man have created in the Venezia Giulia. Before the war some of these resorts were flourishing and popular. There assembled in crowds the flower of the aristocracy of the nations; the rich and elegant, not only of Europe, but from more distant countries beyond the ocean. They went there as to a charming refuge from freezing climates, or as to an oasis where they could rest in physical repose and intellectual enjoyment from the worry and stress of the daily fight for life.

The fury of the war-storm and the innumerable disquisitions of the long conflagration have naturally had a discouraging effect on the movements of visitors, and for several years there has been only a dreary desert where formerly life had triumphed in its most fascinating expressions of joy, beauty and richness.

A journey in this beautiful country, now in full process of rebirth and development, offers the greatest artistic attractions and rich and varied material for observation.

Take Abbazia for example. Abbazia, on the eastern coast of Istria, in the embrace of the Quarnero, slopes gracefully at the foot of Monte Maggiore (1400 m.), which protects it from cold winds. The vegetation there is superb, almost tropical, deep and vast laurel woods, innumerable gardens, flowers in profusion. The climate is excellent, the beach delightful, the sea of a fascinating blue; which with its charming walks have given world-wide fame to Abbazia.

Before the war every year 50,000 visitors passed through Abbazia during all seasons, since that fortunate district enjoys an eternal spring. Many illnesses are cured there. The best results, however, are obtained as a winter climatic station in the treatment of all diseases of the heart or of the nervous and circulatory systems, the lungs, or of any constitutional weakness. It is highly beneficial to weak or sickly babies.

An entirely different type of bathing and climatic resort is the island of Brioni, near Pola.

Brioni, until a few decades ago, was desolate, and now, thanks to Signor Koppewieser, proprietor of the great hotels established there, is a veritable Paradise.

The aristocracy of Austria, Germany and Hungary used to make Brioni their chosen retreat.

(1) Portofino, Italy. (2) Grotto di Portofino. The Great Cave.

Brioni seems, so far as vegetation is concerned, to be a strip from the Riviera of Liguria; there are delicious woods, flowering walks, palms and yuccas in profusion everywhere. The larger island was the summer abode of the Roman patricians, and there are still interesting Roman remains, ruined temples, mosaics, etc.

Moreover, there is at Brioni a large Hagenbeck Zoo, an establishment for rearing ostriches, tennis courts, etc. But the specialty is a large swimming-bath made of tiles of mosaic, large enough for two hundred persons, for hot sea-water bathing in winter.

Also at Brioni the climate is excellent.

Another charming climatic and balneic resort in Istria is Portofino, near Trieste, about one hour from Trieste. Portofino is in the neighborhood of the finest cliffs, springs in Europe, and has one specialty truly unique, the so-called "spongia marina," which is the liquid residue of the marine crystallized salt during the summer months.

This saline "spongia marina" brought to the bath of the establishment and heated to a temperature of 50°C. is used for various medical purposes.

There are many other climatic and bathing stations in the Venezia Giulia. We must not forget Lussan, quite near to Abbazia and with surroundings perhaps even more beautiful as regards vegetation and position, than those of Abbazia.

Moreover, also are Lussan's and Lussan's, with magnificent beaches and delightful climates, being perfectly adapted for the cure of intestinal diseases.

Sumptuous and elegant hotels are provided also at Portofino and Portofino, towns that remind one of the beauty of Venice, picturesque and charming for the arrangement of art that they possess.

MRS. ESTHER SOMERVILLE

Naming the Montclare

At the Naming Ceremony of the New Canadian Pacific Steamer "Montclare" by Lady McLaren Brown
From left to right: Sir Thomas Fisher, Sir Charles Ellis, Lady McLaren Brown, Lady Gracies, Sir George McLaren Brown, Mr. Kenneth MacKenzie, Sir Thomas Bell and Captain Morris.

WHY SHIPS AS "SHE"?

Inspecting the "model" room before the luncheon, Lady Brown remarked how strange it was that since first they sailed the main ships had always been spoken of as "she." "I suppose," she added, "they made her a woman because they found out that, loved and humoured, she is an angel, but driven—well, she isn't." She thought it was Kipling who said that ships were like women in that they had many secret hopes and dreams. However that might be, her ladyship trusted that the good ship "Montclare," the new C. P. R. liner, would prove to be what all women hoped and dreamt of—the beautiful, the strong, and the true.

One of the raciest speeches ever heard at a Clyde launch was that by Lady McLaren Brown, following the luncheon at Messrs. Brown's Yard, December 16. While the new Canadian Pacific liner was not put into the water, her ladyship christened the vessel, and as a souvenir she received a beautiful brooch which the recipient declared would give a fresh lease of life to her dress and thereby gratify her husband.

The new Canadian Pacific Steamer "Montclare" 16,000 tons, as she appeared before launching at the Yards of Messrs. John Brown & Co., Clydebank, Scotland. The speaker was the wife of Sir George McLaren Brown, the European Manager of the C. P. R., who, with a distinguished party, travelled from London to Liverpool for the launch.

stantial taken of their regard and esteem in the form of a nice silk umbrella. The gift was in honor of his birthday, and was accompanied by a short address to which Mr. Grant replied in a few well chosen words.

SAVED HER FROM AN OPERATION

So Thanks Mrs. Tracey of Ontario, Regarding Lydia E. Pinkham's Vegetable Compound

Knightington, Ontario.—"I took Lydia E. Pinkham's Vegetable Compound at the change of life for troubles that women often have at that time. I had not been well for a year and was not really able to do my work. A friend who had taken the Vegetable Compound herself recommended it to me and I think it has saved me from an operation. I highly recommend it to all women who have troubles like mine, and am willing for you to use my testimonial."—MRS. DANIEL J. THACKER, Knightington, Ontario.

"Some female troubles may through neglect reach a stage when an operation is necessary. But the more serious ailments are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing symptoms first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles."

The Woodstock G. W. V. A. played "Col. Bogey" a comedy drama in three acts, to a good house on Monday evening. Space will not permit of individual mention, but suffice it that all the parts were admirably portrayed from the trachele though love-lorn colonel himself, through to his petite and altogether charming ingenue, Penelope Moon. The piece was spicy comedy with no dull moments, and no tinge of melodrama beyond the overdrawn bank account of a proxy widow, who had no sense of finance. Arthur Sprague in a character song, and Miss Edith Dalling in a couple of most pleasing solos, put over their numbers in excellent style and filled the interludes most acceptably. An orchestra of eight pieces furnished delightful music for the bill and played for a subsequent dance, which was abbreviated just a bit too much to please. Following the dance a delightful lunch was served by Miss Host Kennedy at the hotel.

Dr. H. M. Martell of Woodstock spent Monday and Tuesday in town on business.

A. H. L. Bell and Robert Bell of Woodstock were in town on Monday. Mrs. Beale Campbell entertained a few friends at a delightful tea on Saturday evening.

The Misses Irvine of Mars Hill attended the dance on Monday evening. Mr. and Mrs. Wallace Goodspeed have returned from a visit at Penniac. Mrs. E. R. McChintock left on Monday evening for Lawrence, Mass., following a telegram with news of the sudden illness of her father, Dr. P. W. Cody.

Mr. and Mrs. Roy Huggard of St. John arrived on Monday for a visit with her parents, Mr. and Mrs. Jan. Crone.

The Ladies Guild of St. James Episcopal church were entertained on Thursday last by Mrs. Charles Wilkinson at her home on Main Street.

Miss Rosie Jameson and Miss Glenna Weade are at Avondale assisting in revival services there.

AVONDALE AFFAIRS

The evangelistic services conducted by Lee Good, assisted by the pastor, Rev. C. N. Burton, in the Baptist church, which began on Sunday, Feb. 5, are continuing this week, with three services on Sunday, Feb. 19. About 20 made a start in the Christian life, during the first week of the campaign. Mr. Good is the guest of Mr. and Mrs. F. D. Flewelling during the meetings.

Our school is under the efficient management of Miss Lucy Ballie of Southampton.

F. D. Flewelling has sold the stock of his store to G. W. Green, who has rented the building and is now in charge of the business.

The widespread epidemic of sickness is interfering seriously with our school attendance, as well as the church attendance.

Some thirty friends of Mrs. S. W. Burt, constituted a surprise party and arrived at her home at 3 o'clock on Wednesday afternoon to celebrate her birthday. Dr. F. M. Brown spent Wednesday in St. John.

Dr. and Mrs. H. W. Peppers entertained a few friends at dinner on Friday evening.

The Bridgewater orchestra of seven pieces gave a dance in the Opera House on Friday evening. The crowd wasn't quite up to the average, owing to the fact that most of the Jassers had stepped out to other other functions earlier in the week.

F. Joe Estabrooks returned to St. John on Saturday after having spent a week with his parents, Mr. and Mrs. Horace Estabrooks.

Harry Grazi is ill at his home here.
