### LAW RESPECTING NEWSPAPERS

Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions. If subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrears are paid. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their Bill, and ordered their papers to be discontinued. If subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, they are held responsible.

### THE WILL OF PETER THE GREAT.

[The present aspect of affairs in Europe, renders the following well known extract from the Will of Peter the Great, doubly interesting at this time. The plan of action marked out by Peter, has been unceasingly followed by the Russian Court, up to the present moment.]

"We must take away as much territory as possible from Sweden, and contrive that they shall attack us first, so as to give us a pretext for their subjugation. With this object in view, we must keep Sweden in opposition to Denmark and Denmark to Sweden, and sedulously foster their mutual jealousies. The consorts of the Russian Princes must always be chosen from among the German families, in order to multiply our family alliances with the Germans, and so unite our interest with theirs; and thus, by consolidating our influence in Germany, to cause it to attach itself spontaneously to our policy. We must be careful to keep up our commercial alliance with England, who is the power which has most need of our products for her navy, and at the same time may be of the greatest service to us in the development of our own. We must export wood and other articles in exchange for her gold, and establish permanent connections between her merchants and our own. We must keep steadily extending our frontiers northward along the shores of the Baltic, and southward along the shores of the Black Sea. We must progress as much as possible in the direction of Constantinople and India. He who can get possession of these places is the real ruler of the world. With this view we must provoke constant quarrels at one time with Turkey, and at another with Persia. We must establish wharfs and docks in the Euxine, and by degrees make ourselves masters of that sea as well as of the Baltic, which is a doubly important element in the success of our plan. We must hasten the downfall of Persia, push on into the Persian Gulf; if possible, re-establish the commercial intercourse with the Levant through Syria, and force our way into the Indies, which are the storehouses of the world. Once there, we can dispense with English gold. When Sweden is ours, Persia vanquished, Poland subjugated, Turkey conquered; when our armies are united, and the Euxine and the Baltic are in possession of our ships, then we must make separate and secret overtures, first to the Court of Versailles, and then to that of Vienna to share with them the dominion of the world. If either of them accepts our propositions, which is certain to happen if their ambition and self interest are properly worked upon, we must make use of this one to annihilate the other; this done, we have only to destroy the remaining one, by finding a pretext for a quarrel, the issue of which cannot be doubtful, as Russia will then be already in the absolute possession of the East and of the best part of Europe. Should the improbable case happen of both rejecting the propositions of Russia—then our policy will be to set one against the other, and make them tear each other to pieces. Russia must then watch for and seize the favorable moment, and pour her already assembled hosts into Germany, while two immense fleets laden with Asiatic hordes and conveyed by the armed squadrons of the Euxine and the Baltic, set sail simultaneously from the sea of Azoff and the harbor of Archangel. Sweeping along the Mediterranean and the Atlantic, they will overrun France on the one side, while Germany is overpowered on the other. When these countries are fully conquered, the rest of Europe must fall easily, and without a struggle, under our yoke. Thus Europe can and must be subjected."

### Arrival of the "Canada."

#### IMPORTANT NEWS!

The steamer "Canada" arrived at Halifax on Monday night at 8 o'clock. The Atlantic arrived at Liverpool on the 19th.

#### LATEST WAR NEWS

DANTZIG July 20.—The Nicolai arrived here; left Baro Sound with Napier and French fleet. On the 18th, fleet went to the Alano Island. A letter from Kiel of the 19th in a Berlin newspaper says French expeditionary army of Baltic will disembark provisionally in island of Zealand, and Denmark will shortly abandon her neutrality.

Prussia and Austria, it is said, have asked France and England to state the conditions on which they are willing to conclude a peace. Russian party asserts that the military operations of the allies are nearly at a standstill.

The attack on Sebastopol is indefinitely postponed. Attack on Cronstadt will not take place this year. Bucharest is problematical—hostile operations are reduced to simple blockade and in the end Russia will triumph by the diplomacy.

HERMANSSTADT, July 16.—The Turks have taken up a position at Pasapaguri, near Giurgevo. Swedish Legislature reports in favour of the introduction of decimal coinage.

#### THE REBELLION IN SPAIN.

PARIS, Wednesday.—Advices received from Madrid, 18th. Insurgents were masters of Madrid during the night. At 2 in the morning the troops engaged, acted vigorously against the barricades, but mostly unsuccessfully.

#### ENGLAND.

In the House of Lords, Friday, Earl Warington asked Ministers whether they had authorised Westmoreland to state to Cabinet of Vienna, that Polish subjects of Russia would not be allowed to enter the English Army or to follow the standard of allies.

Earl of Aberdeen replied that no such instructions had been given. Earl Aberdeen then brought the following message from the Queen, which was read by the Lord Chancellor.

"Victoria Regina.—Her Majesty deeming it expedient to provide for any additional expenses which may arise in consequence of the War in which Her Majesty is engaged against the Emperor of Russia, relies upon the affection of the House of Lords for their concurrence in such measures as may be necessary for making provision. Accordingly Message should be taken into consideration on Monday."

#### MADRID—THE REBELLION SUCCESSFUL

The latest advices are, the 18th. The Gazette publishes a list of new Ministers. General Garrego is appointed commander of cavalry at Madrid. The insurgents were masters of Madrid.

Fighting was going on in several parts of the capital when dispatch left. A battle has been fought between O'Donnell and Blaser—the latter was defeated, wounded, and taken prisoner. The populace have sacked the Palace of Christina at Salamanca, near Granada. The whole of Catalonia has risen—the Captain General leads it, and there has been fighting at several points.

#### THE WAR.

A private Telegraph from Constantinople received in Paris states that the Russians have met with a check near Batum; 4,000 Turks have been sent from Varna into Circassia.

PARIS.—No change in Eastern question is likely to occur until after further consideration by the English and French Governments of the conduct of Austria.

Paris correspondent of the London Chronicle has following IMPORTANT RUSSIAN NEWS: He says the Cabinets of Vienna and Berlin have communicated to the English and French Governments the impression produced upon them as the seat of further conferences. They moreover express an opinion that it will not be possible to call upon Russia to evacuate the Principalities, if it be not at the same time understood that the allied Powers shall stop all movements in advance of other things. In other words, Austria has fallen back into alliance with Russia. All the Austrian reserves are to be called out and placed on war footing.

#### RUSSIA.

Accounts from St. Petersburg state that the Czar is determined not to yield; but discontent prevailed in the capital. Details received show that the recent victory at Giurgevo was achieved by the Turks unassisted, leaving whole bank of Danube from (some place) to Otieniza on their hands.

#### THE TURKISH ARMY.

Main body of Turkish army is said to be

marshalling towards mouth of the Danube, leaving garrisons at Giurgevo and Cernavoda excepting a handful of French Crovates at Giurgevo.

None of the Anglo French have yet been in action. Anglo-French have repaired and occupied Russian batteries at Salina, mouth of Danube, and are employed removing sunken ships from the channel.

Russian Danube Flotilla must soon fall into hands of allies. Free navigation of the Danube is again established.

English Seamen from fleet have been sent to man Turkish boats on Danube, with intention to capture Russian River Flotilla. Russians had burned town of Matzlin.

General Auroop having been disgraced from rank from want of success shot himself.

French troops from Adrianople are marching towards Varna.

British are in camp at Duma. English and French are slowly drawing their lines closer around the Russians.

Prince Gortschakoff has 7,000, with due proportion of artillery, at Irateschi. Omar Pacha reviewed the Anglo French force at Varna.

#### THE BLACK SEA.

On 7th, combin d fleets were seen off Akermann, sailing East. Was reported that Admiral Bruat had forced the entrance to Novorich, south of Anapa.

ASIA.  
Kerim Pacha surprised 12,000 Russians, and defeated them, capturing 6 guns and 400, at pass in the mountains.

GREECE.  
Porte consents to reopen Turkish ports to Greek merchantmen; but demands from Greece indemnity for losses sustained through recent Greek insurrection.

#### FURTHER AND IMPORTANT FROM SPAIN.

News very important. Insurrection spreading rapidly. Telegraphed from Bayonne that Madrid and its garrison have pronounced against the Queen. The Cabinet dissolved. San Luis the premier, has fled to Navarre, has offered to form a new Ministry. Epistemo has placed himself at the head of insurgents and is marching on Madrid with centre division, while General Sec bala advances with a force from Basque provinces. Victoria, Bargas, Valladolid, Grenada, Saragossa, Scargonia, Pampluna, Barcelona, San Silaster, several smaller cities, also the Caeapic Islands, have declared for the insurgents. Saragossa is expected to join revolt. Insurrection hitherto is mostly military but citizens are now joining it. Watchwords are "Viva Constitution," "Down with the Ministry," "Down with Queen Christina."

Carlist guerrilla bands have appeared in Catalonia.

Rumours were current that Queen Christina had fled to Bayonne, Queen Isabel left Madrid (doubtful), and Duke of Montpensier declared Lieut. Gen. to Kingdom (doubtful). Generals Concha and Gonzales Orava, have arrived in England. Manuel Concha has escaped from Canary Islands. General Mayzaravo has fled to France.

#### BRITAIN.

In Parliament Lord J. Russell informed the House, the Queen will send a Message on the 24th demanding extra vote of credit, 3 millions sterling, for general purposes of War. The rapid passage of steamer Golden Age from Sydney to Panama excites favourable comments.

From the 1st August postage between Britain, Nova Scotia, New Brunswick and Newfoundland will be reduced to 6d.

Wm. Hale, inventor of Hale's rocket, died at Constantinople.

#### FRANCE.

Marshal St. Arnaud has returned to Paris. Emperor and Empress left Paris on 13th for Bapone, on their way to the baths at Bare 2.

Count Cassemir Bathany died in Paris on the 15th.

#### MARKETS.

LIVERPOOL COTTON.—Brown, Shipley & Co., report that in the early part of the week, cotton was very quiet, but fine weather and promising appearances of grain crops, gave more cheerful feeling to markets, which closed steadily at quotations by former steamer.

BREAD.—Panic prevails in market, holders evincing great desire to sell, and buyers holding off. Market closed with retail demand only at 1s. decline on wheat and 4s. 6d. on flour.

Steady business at Manchester, though not active—consumption goes on unchecked. London.—Baring & Brothers, report the Colonial and Foreign produce market inactive.

Money continues in active demand. Consols closed notwithstanding, at 92½ to 92. Billions in the Bank of England decreased £197,934 sterling. Bills were still discounted below the Bank rate.

CHARLOTTE COUNTY AGRICULTURAL SOCIETY.

European Intelligence.

Arrival of the 'Atlantic.'

The Atlantic arrived at New York on Saturday night. Little news from seat of war. Action apparently deferred, waiting decision of Austria. Prussia continues to hold aloof from Western Powers.

Parliament has voted extra war credit £300,000. Frigates still cruising—no action.

Spanish insurrection completely successful. The Palace of Queen Christina and houses of her favourites, have been sacked. The Queen has fled to Grenada.

The Crops in England are very promising.

MARKETS.

Breadstuffs continue to decline. Western Flour sells 28s 6d to 29s. Baltimore and Canada 29s 6d to 30s. Indian Corn 29s to 30s.

SHORT PATH TO SUCCESS.—A proposition has been sent to the Admiralty by an officer of the Navy, of high standing, for the perfect sealing up the entrance to Cronstadt, by doing which the Russian fleet could be kept there for years, and if necessary for ever.

The plan is now under the consideration of the Admiralty, and we are credibly informed the gallant Anglo-French Admirals are being consulted on the practicability of the same. To give further explanations at present, would be most injudicious. If carried out, it will release nine tenths of our fleet from that part of the Baltic; after which Sweden and Heisingfors may have similar cords played at a cost of a few shot or shells, and most certainly without loss of lives compared with Camia Caribey.

FRANCE.

The Emperor arrived at Cologne on the 11th. He reviewed the troops and issued the following proclamation to the army:—

Soldiers!—Russia having forced us to war, France has armed 600,000 of her children, and England has called out a considerable number of her troops. Our troops and armies fight for the same cause—combined—in the Baltic as well as in the Black sea. I have selected you to be the first to go to those regions of the North. English vessels will convey you there—so unique a fact to history which proves the intimate alliance of the two governments to defend the rights of the weak, the liberty of Europe and their honor. Go my children. Attentive Europe, openly or secretly, offers up vows for your triumph. Our country, proud of a struggle which only threatened the aggressor, accompanies you with its ardent vows, and I, whom imperative duty retains distant from the scene of events, shall have my eyes upon you. I shall be able to say they are worthy sons of the Conqueror of Austerlitz, of Egypt and Moscow. May God protect you.

NAPOLEON.

Long and continued shouts of Vive l'Empereur followed the reading of this address.

A SURE CURE FOR CHOLERA.—Remarkable Statement.—An eminent physician of Paris, Dr. Bonet, has written to a professional brother in this town, statements so startling in reference to the results of a very simple mode of treating, in the worst stages, the disease now so fatally prevalent in Paris, that we deem it our duty at once to lay it before the public. The letter, of which the following is a translation, is dated Paris, June 15.—"I think it my duty to inform my professional brethren, that in a great number of patients affected with cholera in the last stage—that is to say, when the pulsation of the heart and the movement of the pulse are absent, and in the commencement of the blue stage—I have succeeded in restoring the action of the heart in recovering the patient from the blue stage by administering, at intervals of half an hour, four cups of a hot and sweetened infusion of the common lime tree, mint, balm, or chamomile, &c. in each of which cup of infusion were four drops of volatile alkali, making sixteen drops, which the patient may take in two hours. The reaction is almost instantaneously. The pulse commences instantaneously to beat, rather irregularly at first it is true, but afterwards with force, the blue stage disappears; the body, face and extremities are covered with hot and copious sweat, and in a few hours the patient is entirely out of danger. It is frequently necessary to combat the reaction when it becomes too strong by the assistance of bleeding."—Liverpool Advertiser.

CURE FOR THE CHOLERA.—Mr. James Hartley, Surveyor of the Liverpool Dock, laid before the Dock Committee these lately, a remedy for Diarrhoea and Cholera, which he affirmed was given to no less than 250 of the workmen attacked, not one of them died, while of those who did not take it, 23 died. The composition is as follows:—

- 6 Drachms Spirits of Camphor, 3 do Laudanum, 3 do Oil of Turpentine, 30 drops Oil of Peppermint.

DIRECTIONS.—Mix, and take a teaspoonful in a glass of weak brandy and water, from time to time, according to the intensity of the disorder, till cured.

These are simple and well-known ingredients, and are very likely to check insipient bowel complaints by which Cholera makes its commencement. A few simple remedies such as this should be at hand in every family to take on the first symptoms of diarrhoea appearing, while the doctor was being sent for, as every thing depends on early application.—Colonial Watchman.

CHOLERA REMEDY.—The remedy which we give below, has, as we are informed on good authority, been used quite successfully in India where the Cholera rages violently, and the R. V. Frederick Pelch, of Newark, N. J., says, he has given it several times, and always saved those attacked when called in time.

Dissolve 1 oz Gum Camphor in 6 oz alcohol, and give five drops on a teaspoonful of loaf-sugar; repeat the dose every five minutes until the subject finds returning heat. After the sixth dose omit for half an hour and resume as before. If seized with vomiting give a teaspoonful of the spirits of hartshorn in a wine glass full of water, administering no other medicine while taking the above.

We have heard it remarked, that any tendency to dysentery is much aggravated by the common practice of people taking doses of opium and salts when they feel themselves unwell. We believe the Cholera is caused or accompanied by watery secretions, and as salts and other such purgative medicines operate by inducing watery secretions from the intestines, it is obvious that all such medicines should be sedulously avoided in times like the present.

When any looseness is felt just now, medical advice should at once be obtained, but where that is impracticable, the only medicines which should be taken are castor oil or such as cause bilious secretions, such as calomel or blue pill, made up with a due proportion of opium or henbane to remove irritation of the bowels. In absence of a medical man, the best remedy for cramps, or any greenish person, a teaspoonful of laudanum, a teaspoonful of camphorated spirit, and a few drops of oil of peppermint, with a wine glass full of brandy and hot water, to be repeated every half hour, until the disease abates.

A small phial of laudanum, and another of camphorated spirit, should be kept in every house just now.—St. John Courier.

MORE FRAUDS.—Letter writers from Washington are reaping a rich harvest in the rumors of frauds committed by certain Members of Congress, and the Clerk, Col. Forney, upon the Minesson Land Bill. There is great excitement at the Seat at Arms here.

Mr. Stephens, Member from Michigan, admits that he made verbal alterations, but without any improper motive. On the whole, we are inclined to the opinion, that it will serve as a warning to other Members, and as a lesson to the public, that such a little talk and threatening of expulsion, and so on, is not as all other such affairs.—[The State of Maine.]

PASSAGE EXTRAORDINARY.—Yesterday about noon a large lumber wagon, to which was attached three horses without a driver, came thundering down Middle street to the tune of "Get out of the way Old Dan Tucker," in double quick time. "One glance at their array" was enough to satisfy all that opposition would be useless, and that the only safety was in the retreat from this formidable foe. Accordingly there commenced a general stampede of pedestrians, and vehicles of all descriptions for the sidewalk, across streets, alleys, or wherever they could find refuge from the approaching juggernaut.

Passers by having as much as they could do to attend to all the side issues involved in the main question. The excitement for a few minutes was intense, and the whole passage of Middle street was made, fortunately, without any accident to life or limb but several carriages were overturned and somewhat damaged, while the drivers of many more were most severely frightened—not without good cause.—[ib.]

Ship Building in New York.—There has been launched at the port of New York, since January 1st, 44 steamers, 24 ships, 9 barques, 6 briggs, 14 schooners, 1 ship and 1 barge, total capacity, 86,031 tons. The number of vessels to be launched at that port this year is calculated to exceed that of 1854 by 20,000 tons.

Steamboat Accidents in the West.—The Missouri "Republican" asserts that during the past six months of 1854, steamboat disasters to an unparalleled degree have taken place on our Western waters; but we believe there have been fewer cases of explosion than during any period for a number of years prior to the passage of the new steamboat law.

The recent debates in the British Parliament, evidently settle the fact, that England is prepared to let Canada be just as free as it desires, and it will not be long, probably, ere they will be permitted to elect their own government.

RECIPROcity TREATY.—Telegraphic Despatches have been received from Washington by M. H. Perley, Esq., of this City, announcing the ratification, by the Congress of the United States, of the Fishery and Reciprocity Treaty. It was agreed to in the Senate on Wednesday evening by three votes more than the requisite vote of two-thirds of that body, and in the House of Representatives yesterday, only half an hour before the adjournment of Congress.

As the Treaty requires to be sanctioned by the several Provincial Legislatures, extra Sessions will take place with as little delay as possible in the Provinces to be affected by it, in order, if approved of, that the treaty may take effect on the 5th December next, the time provided for its going into operation.—[St. John Courier.]

The extensive liquor establishment of Deen

& Hale, at Cincinnati, was fired by lightning, on Friday afternoon last, and totally destroyed. Loss, \$20,000. If lightning is coming to the aid of the Temperance people, the drinkers will have a "thundering" hard time of it.

COMMUNICATION.

Mr. Editor, I cannot but suppose that every human being in N-w Brunswick will rejoice at the "Reciprocal Treaty" so recently passed in Congress of the United States. It is a great boon and blessing to all British North America. I sincerely hope not a legislator will be found so narrow minded as to raise his voice against this praiseworthy measure. Much credit to Lord Elgin, not do I stop here, great praise is due to J. D. Andrews, Esq., the American Consul for the Canada, for his untiring exertions to accomplish this great work.

Yours, A MERCHANT. Aug. 8, 1854.

THE STANDARD.

WEDNESDAY, AUG. 9, 1854.

ENGLISH NEWS.—In our columns to day we have given extracts of the latest intelligence from England. It now appears that Austria and Prussia are in league with him, they have appropriated to themselves, the country of the brave Poles, and that in the event of the Russians being successful in prosecuting the War, the Poles will have no hopes of ever again becoming a Nation; but in this we trust they will be mistaken. England is daily increasing the number of her forces, and our allies the French, are also preparing to augment their armies. The allied army up to the latest intelligence had no pitched battle, and neither the squadron off the Black Sea, nor the Baltic have accomplished any thing important. The pre-emptive attack upon Sebastopol and Cronstadt will not take place it is said during the present year, their operations being principally confined to a blockade.

The Spanish rebellion had been successful; the insurgents were masters of Madrid, and a new Ministry was appointed. The insurrection is attributed to Russian intrigue.

VISITORS.—Every steamer from St. John, for the last three weeks, has brought a number of persons to St. Andrews. A more salubrious retreat the Province does not afford and we are happy to add, that they express themselves delighted with the pure and bracing air, and beautiful scenery of the place. Many of these ladies and gentlemen, although living within so short a distance, (67 miles) had no idea of our healthy and pleasant town and County, and we understand that notwithstanding their present visit, has in many cases resulted from the fear of the scourge which has visited the commercial emporium of the Province; they will for the future give St. Andrews the preference as a place of resort during the summer months. From the proverbial hospitality of its inhabitants, we feel warranted in saying, that no pains will be spared to make their stay as agreeable as could be desired. We embrace this opportunity of suggesting the propriety of a company being formed at once for the purpose of erecting a large hotel on an economical plan, furnish it in a neat, plain manner, consulting comfort rather than style, for those who desire a healthy summer residence. Such an establishment, we believe, would prove a profitable speculation. Our present hotel accommodation is not sufficient for any great influx of visitors, altho' it may be argued with much truth, that the hotels for many months in the year are not half patronized, yet this is no reason why a spacious establishment should not be erected. When such a House is built our town will offer attractions to the invalid and pleasure seeker seldom to be met with. The rural aspect given to our streets by the numerous trees in the gardens and sidewalks—the pure sea air and refreshing breezes that purify our atmosphere—the healthy appearance of the inhabitants—the beautiful drives in the neighborhood our splendid bay and river with its islands all contribute to render the place as desirable a summer residence as could be wished.

The progress of the Cholera in St. John, from latest accounts, is unabated. There is a general gloom over the City, and thousands are fleeing away panic struck. How thankful then, should the people of this Town be to spare them from this direful disease—cholera. Not one case has occurred here, and we are happy to add, the place was never more healthy. Potatoes, peas, beans, cu-

cumbers, and fruit, are used, without any bad results.

Cholera report from Monday at 10 to Tuesday at 10, deaths in the City 18, in Portland 14.

TEACHERS MEETING.—A meeting of the Teachers in this County was held on the 3d inst according to advertisement, in this Town and resulted in adopting a Petition to the Legislature, a copy of which will be published in our next number.

THE ANGLO AMERICAN Magazine for July has not been received. Will our friends MacLear & Co., see to it.

The Middleton another of the Black Ball line of Packet Ships, arrived at St. John on Monday after a passage of 39 days, with about 70 passengers. There was no sickness on board, but the vessel was detained two days at quarantine, according to an order of the Board of Health, "that all Passenger vessels be detained 48 hours at the Island."

Decline in the Price of Flour.—The advices from England for the last three weeks state that the Flour market had been depressed and that Flour had declined in price since 5th July 7s 6d. sterling per barrel. How is it then that such high prices are maintained in this country? Whenever an English man arrived with an improvement in the price of this necessary article, the dealers were ready to double the advance. They should reduce the price in the same proportion now, and not keep the Flour up at such exorbitant prices. The consumers think so!

One of the most pleasant rides we know of in this section—is to take a trip in the cars on our Railroad in the morning. The air is bracing, the scenery romantic, hill and dale, mountain and lake are passed, and one can partake of a hearty breakfast, or if you choose, return in about one o'clock.

ALPINE'S lines were received and will receive attention in our next number. Will be happy to hear again.

The St. John Chronicle noticing our remarks upon the Lt. Governor leaving this Province, and suggesting that the tail of the government should go with him, thus wittily plays upon his successors name:—

We are really surprised, Mr. STANDARD, that you should advise Sir Edward to perpetrate such a shabby trick. Know, Sir, that when he goes away he is bound as a gentleman, to leave his tail for Manners!

We are pleased to learn that the Magistrate has appointed an efficient officer, to examine into the sanitary condition of the yards, cellars &c, in this Town; and that he has been engaged for the last two days in the prosecution of his duty.

CHOLERA it is said has commenced its ravages up the river St. John. 2 men are reported to have died at the Grand Lake, and many persons employed there, had fled from the place. Cases have also occurred, on the New Loch Lomond road.

CHOLERA at the STATE PRISON.—On Thursday night about 11 o'clock, the Deputy Warden of the state prison, Mr. Walker, was called to the cell of Peter York, the colored man in prison for life, for murder committed in Ann street, and found him apparently in the last stages of cholera, with scarcely any pulse, and his extremities quite cold. He administered remedies internally and externally, and sent for the physician of the prison, Dr. William B. Harris. York had scarcely been taken to the hospital before another and another were attacked in a similar manner until some nine convicts were stricken down; and the list continued to swell, and last evening there were sixty patients in the hospital. Seven or eight only were afflicted with cholera; the disorder of the others seemed to be cholera morbus.—Thus far no deaths have occurred.—[Boston Courier.]

On Thursday last the President of the United States sent a message to Congress on the Cuba question, in which he says that Spain has made no reparation in the case of the Black Warrior, and that instead of meeting the demand of the United States, the Spanish Government has merely attempted to justify the conduct of the local authorities of Cuba.—New Brunswick.

A SERIOUS FIRE broke out at Lowell on Sunday last in a barn on Drummer street, which was filled with hay. The flames spread rapidly, and the brick building at the corner, known as the Railroad House, was soon enveloped in flames, which afterwards crossed the street, and destroyed several stores and dwelling houses.—ib.

Holloway's Ointment and Pills, a Superior Remedy for Scorbatic Affections and all Diseases of the Skin.—Cutaneous diseases are in their nature both noxious and painful to those afflicted, causing great anxiety of mind, heaviness, weariness, and dejection of spirits. To effect a cure of those dread-

ful maladies, use Holloway's Ointment and Pills. The latter is the finest purifier of the blood ever discovered, and there is nothing equal to the Ointment for allaying the irritation of the parts affected. By a steady perseverance in the use of these remedies, the most aggravated diseases of the skin may be cured, and the patient restored to sound health.

A FARM situated one mile from the lower, and 7 miles from the upper Falls, on the beautifully romantic River, Magaguadavic, containing about 300 acres of excellent LAND, well timbered with the usual indigenous growth, suitable for fuel, fences, ship timber, and other purposes. The River forms its Western boundary, and Lake Utopia constitutes its Eastern limits. There are on the place a convenient FARM HOUSE, Barn, and Out Houses, good fences, and about 40 acres on the front, well cleared.—The Farm is 45 miles from St. John, 20 from St. Andrews, and from Eastport, by water, about 6 leagues. The scenery on the margins of the River and Lake, and of the surrounding country, cannot be surpassed for native beauty in any other part of the Province.

A Tract of LAND, some 300 acres, fronting on the East side of Lake Utopia, situated on the highway leading from the St. John Road to Fredericton, and being about 3 miles from the Magaguadavic Village. There are some 50 acres cleared and under improvement; the tract is covered with all sorts of wood common to the country, and is abundantly supplied with brooks and springs of salubrious water.

A Lot of LAND situated on the St. John Road, 5 miles from St. Andrews, about a mile from the railroad, and the beautifully cultivated and extensive improvements appertaining to J. Wilson, Esq. The Lot contains 120 acres; it fronts on Passamaquoddy Bay, where there are 30 acres cleared and cultivated; on the rear there are several Dwelling Houses, a good Barn, and other improvements.

A Lot of LAND, 90 acres, fronting on the River Digdeguash, its rear bounded by the Fredericton Road, situated between lands belonging to John Cassilis and Charles Carson, and in the midst of a flourishing settlement.

A FARM LOT, 200 acres, on the West side of Lake Utopia, having about 30 acres and improvement; there are a House and Barn on the place, and a small Orchard, and the premises affords opportunity for the grazing of cattle and it abounds with a fine growth of wood, of all the varieties common to the country; this Lot is on its front bounded by the lake shore, and is in immediate proximity to the most famous trout streams.

Also, a small LOT of LAND, about 30 acres, on the North East side of the Digdeguash River, near to the Episcopal Church, being part of a farm belonging to Alexander Cockburn.

A liberal time will be given for the payment of the purchase money, 4, 5, or 6 years, in annual payments, one fifth of the amount only will be required at the time of sale.

### THE ALL-HEALING REMEDY!!!

### Holloway's Ointment.

A most astonishing cure of Scrofulous Ulcers—a case certified by the Mayor of Boston.

Copy of a letter from J. Noble, Esq., Mayor of Boston, Lincoln hire.  
To Professor Holloway,  
Dear Sir,—Mrs. Sarah Dixon, of Lignpond street, Boston, has this day deposited before me, that for a considerable time she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the best of medical advice was obtained, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain dear Sir, your's truly,  
(Signed) **J. NOBLE.**

An extraordinary and rapid cure of Erysipelas in the leg, after medical aid had failed.

Copy of a letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bignor, Sussex, dated Jan. 12th, 1853.

To Professor Holloway,  
Sir, I suffered for a considerable period from a severe attack of erysipelas, which a length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent cure when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful. For they effected a radical cure of my leg, and restored me to the enjoyment of health. I shall ever speak with the most confident praise of your medicines, and have recommended them to others in this neighbourhood similarly afflicted, who derived great benefit. I am, Sir, your obliged and faithful servant,

A dreadfully diseased Ankle cured after being given up by the Faculty at Malta and Portsmouth Hospitals.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King at Norwich.

Copy of a letter from Captain Smith, of Great Yarmouth, dated January 19, 1853.

To Mr. Dixon.  
Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's valuable medicines.—Mr. John Walton, late in Her Majesty's Service, in the British fleet at Malta, had a very bad ulcerated ankle, and after being in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to leave the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months but his ankle became so much worse that all hope was lost. At this period, by my advice he tried Holloway's Ointment and Pills, which by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, dear Sir, your's very truly,  
(Signed) **JOHN SMITH.**

Surprising cure of a bad Breast, Nervous Debility, and general ill health.

Copy of a letter from Mr. T. F. Ker, Chemist, &c, Lower Moss lane, Manchester, dated Feb'y 12th, 1853.

To Professor Holloway.

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mrs. Martha Bell, of Pitt street, in this town, had been for a considerable time labouring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result, in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain dear Sir, your's faithfully,  
(Signed) **T. FORSTER KER.**  
The Pills should be used conjointly with the Ointment in most of the following cases:

ON THE Philosophy of Marriage and the Secret In- fluences of Youth and Maturity. With fifty Coloured Engravings on Steel, in a Sealed Envelope, price 2s 6d. sterling.

**SELF PRESERVATION:** an Analytical Investigation of the Physiology and Functions of Marriage, in all the bearings in which that important subject affects the health and happiness of man, with its disqualifications, and impediments, tracing their origin to the effects of juvenile soliti- tary habits, youthful excess, tropical climates, or close study; followed by practical re- marks, founded on twenty years' experi- ence in the treatment of impotence, ner- vous debility, local weakness, spermator- rhea, syphilis, and all diseases of the urinary and generative system. Illustrated by my Coloured Engravings on the anatomy of the reproductive organs and their rela- tive conditions in health and disease. By SAMUEL LAURENCE, M. D., No. 37, Bedford-square, London. Doctor of Medi- cine, Manufactured Member of the Univer- sity of Edinburgh Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to point out the fearful consequences result- ing from certain habits, irregularities and excesses, which have produced more mis- ery in youth, degradation in manhood, and premature decay at all stages of life, than perhaps, any other class of disease known to modern pathology. Its pursuit is par- ticularly recommended to persons entertain- ing secret doubts of their physical cogiti- ons, and who are conscious of having haz- arded the health, happiness and privileges to which every human being is entitled. The contents embrace the origin, effects, prevention and treatment of the deplorable catalogue of maladies connected with ner- vous debility, exhaustion of the vital ener- gies, prostration of mental and physical capacity local and general weakness, acute and chronic spermatorrhea, and their end- less modifications. The treatment adopted is founded on experience gained in the most celebrated schools of medicine, and by the most eminent practitioners, both in Great Britain and in Continental Europe. Every peculiarity relating to the physiology, pa- thology and general treatment of the dis- ease incidental to the generative system is clearly explained, and the means of im- mediate relief and ultimate cure described in detail. The professional reputation of Dr. La-Mer, who has taken the most distin- guished medical and academic honours, at home and abroad, is in itself a sufficient guarantee that those who may place them- selves under his care will, in every instance meet with that delicate consideration and inviolable secrecy which are so requisite in the treatment of these cases.

Now Publishing By JOHN TALLIS & CO OF LONDON THE LIFE AND TIMES OF THE LATE Duke of Wellington;

By Lieut. Col. Williams; (a Companion at Arms, of His Grace.) Comprising the Campaigns and Battle Fields of Wellington and his Comrades, the Political Life of the Duke and his Contemporaries, and a detailed account of England's Battles by Sea and Land from the commencement of the great French Revolution to the present time, interspersed with Anecdotes, Personal Incidents, and Adventures, &c.

The earthly career of Arthur Duke Wellington has closed; one of the greatest men of the nineteenth century, the fore- most military commander of any age has paid the debt of nature. The time has arrived for giving to the world a History of the Great Captain—the Events of his Life and Time—a life marked by patriotism, probity and honour, and events the greatest which have ever agitated the civilized world, and whose influence will be felt upon society till the end of time. Such a work must appeal to the best and noblest feelings in the hearts of every Briton—the glory of his country, the honour of its name and position among the nations—may his own existence as a freeman, are recorded and engraven in the annals of the "well-fought fields," and the deadly imminent breaches, the immortal battles and the glorious sieges in which Wellington and his Companions in-estimably distinguished themselves, placed their country's honour and renown on the highest pinnacle of fame and glory, and tore the victor's wreath from the brows of heroes decorated with the trophies of Italy, Egypt, and Germany. To supply such a desideratum in English literature, the publishers of the Life and Times of the Duke of Wellington have determined to produce a book which shall present to the reader, not only the dry details which a mere biographical sketch would afford, but a comprehensive work, embracing the contemporaneous history of the period; exhibiting the circumstances which brought about the great events in which the Duke and his contemporaries were engaged, and giving to the reader a connected narrative of the lives and actions of the Warriors and Statesmen of the nineteenth century; and this from the pen of one who was a companion in arms of the great hero, and participated with him in many a well-fought field.

In order to carry out their views, the Pub- lishers have determined that the work shall be profusely illustrated by Portraits of the Warriors and Statesmen of the last half century who have shed a lustre upon the history of their country; also representa- tions of the most important engagements by sea and land from the period of 1780 till 1832; so that the work, when finished, shall form an illustrated Gallery of the Naval and Military Exploits of England. It has been well said, "Character is the true strength of nations; true glory their best inheritance. When the time shall come that the British heart no longer throb at the names of Cressy, Poitiers, Agincourt, Blenheim, Ramilies, Oudenard, Malplaque; of Talavera, Salamanca, Tou- louze, Waterloo—the last hour of the British Empire will be at hand." The promotion and elevation of national spirit and feeling is therefore the duty and interest of every true and loyal son of England. May Heaven inspire the hearts of every one of us with that spirit and feeling.

Conditions of Publication.—The work will be issued on the 1st and 15th of every month, in Paris at 1s. 3d. and Divisions handsomely bound at 9s. 4d. printed on Imperial 8vo double columns, each part will be embellished by two highly finished steel Engravings, and will contain 32 pages of letter press. A beautiful steel Engraving, 18 by 19 inches, the storming of Sering pa- tam, the first victory in which the late Duke of Wellington was engaged in India, to every subscriber to the work. GEO. GAY, Agent.

**HEALTH RESTORED!! HOLLOWAY'S PILLS.** Surprising Cure of a confirmed Asthma, after five year's suffering. The following testimonial has been sent to Professor Holloway, by a Gentleman named Middleton, of Scotland road, Liver- pool.  
SIR.—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period I suffered the most dreadful attacks of Asthma, frequently of several weeks duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was unfitted for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigour to the chest and digestive organs. I am, Sir, your obedient servant.  
(Signed) H. MIDDLETON. Dated Jan. 1st, 1853.

A Permanent Cure of a Diseased Liver, of many years duration. Copy of a letter from Mr. Gamis, Chemist, Yeovil, to Professor Holloway.  
Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious Complaints I may mention the following case. A lady of this town with whom I am personally acquainted for years was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelve months ago, and she has not expe- rienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.  
I am, dear Sir, yours truly.  
(Signed) J. GAMIS. Nov. 22, 1852.

An astonishing Cure of Chronic Rheuma- tism, after being discharged from the Hospital incurable. Copy of a Letter from Mr. W. Moon, of the Square, Winchester, to Professor Holloway.  
SIR,—I beg to inform you that for years I was a sufferer from Chronic Rheu- matism, and was often laid up for weeks together by its severe and painful attacks. I tried every thing that was recommended, and was attended by one of the most emi- nent surgeons in this town; but obtained no relief whatever, and fearing that my health would be entirely broken up I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded all of which proved of no avail, and I came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to re-sume my occupation, and although a considerable period has elapsed I have felt no return whatever of the complaint.  
I am, Sir, your obliged servant,  
(Signed) W. MOON. Oct 8, 1852.

An extraordinary Cure of Dropsy, after suffering for eighteen months. Copy of a letter from Mr. G. Brigg, Chemist, 1st, Goodle, dated February 15th, 1853, to Professor Holloway.  
SIR.—I have much pleasure in in- forming you of a most surprising cure of Dropsy recently effected by your valuable medicine. Captain Jackson of this place was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his skin, so that a daily change of apparel became necessary, notwithstanding the various remedies tried, and the different medical men consulted, all was of no avail until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cured, and his health perfectly reestablished. If you

deem this worthy of publicity, you are at liberty to use it. I am, Sir, yours respectfully,
