CHIGNECTO POST AND BORDERER

SACKVILLE N. B., JUNE 9, 1892

TO SUBSCRIBERS.

This is not for you unless you are in arrears in subscription. If you are behind in payment we know it is only an oversight on your part and that is why your attention is drawn to it. Look up last year's receipt and see how you stand. It is easier to pay \$1 in advance for a paper than \$1.50 after the year is out. These are the unvarying rates for the Post.

ENGLAND AND FREE TRADE.

Lord Salisbury, Britain's premier, in the course of a speech delivered at Hasting recently, gave utterance to a sentiment which has been at work as an undercurrent for some time among the people of England. He came out boldly and told his hearers that the waning condition of the country's manufactures and the great loss her industries had sustained through the tariff hostilities leveled against her by other countries, demanded that the trade policy of Great Britain should undergo a change. For upwards of half a century the markets of England have been practically open to the world. Other countries had the advantage of selling in her markets such commodities as could be sent there to advantage, while in return England had to reciprocate in such ways as she could by allowing her country to put up a fifty per cent. tariff, and another country keeps her ports open to all comers. We live in an age of war tariffs and the country whose policy will not admit of her granting reciprocal favors will have to go to the wall sooner or later. Up to within the past ten years the markets of the United States, where a large portion of English manufactured goods found a market, was open to her, but with the advent of the McKinley Bill and certain trade treaties in Europe, this and other markets have been closed and the industrial population is suffering in consequence. If England expects to retain her prestige in the commercial battle she must place herself in a position to grant favors or return hostilities. There is nothing to gain by making a trade treaty with a country having no manufactures to grant and while the rest of the world is busy making favored-nation and reciprocal treaties, England is being left entirely in the cold because she already gives without consideration an open market to the world and nothing in view of the matter, while not bearing directly on the Imperial Federation movement, is a step towards the abolition of Free Trade, and should it ultimately result in the creation of a tariff, it is quite within the limit of probability that a clause favoring the colonies in certain lines will be included. One thing appears to be certain: unless her manufactures are going into the details into the various discussions which led to the appointment of a judge, but my hope, friend, makes one statement or indicates his belief in a state of things which I can assure him without any hesitation at all is entirely without foundation. The Canadian Commons, April 25th has created considerable interest in British political circles and may result in suggestions at this period advantageous to both Great Britain and Canadian trade.

DIRECT TAXATION.

The first effects of Mr. Blair's direct taxation bill, passed in the house last winter to fold their work. In order to meet the government tax imposed upon banks, the agencies, etc., as well as in other parts of the province advised their customers that a charge of ten cents extra will be made on all paper discounted after the 6th inst. It will be clearly seen now who will be the sufferers by this bill. The farmers who may find it necessary to discount paper during the summer while waiting for fall returns, and those who give notes in settlement of accounts will pay the whole tax. When Mr. Blair says, "he finds that the revenues of the province will be made to make a \$25,000 concession to the lumbermen of Northern Ontario and lumbermen in Western Canada will be in a better position to talk practical finance to him than they were a year ago."

Sheep Killing Dogs.

In another column appears a letter relating to revenge upon dogs recently among sheep at Midgie. The large number of vagrant and worthless dogs running at large in country districts has long been a sore trial to sheep raisers, and not a few sheep are killed through these worthless curs. The law is sufficiently explicit on this point, provided the ownership of the dog can be proved. The owner of the dog is responsible in every case for all damage arising from his dog worrying sheep, and if on conviction he refuses to kill the dog, the justice may order a certificate to be way with the animal. The law further provides that any dog seen chasing sheep may be killed while in the act by the person seeing him. The trouble has always been in locating the owner of the pest, for no one will admit that the dog is his. The law is not lessened any by the time the dogs take to their ravages. The consensus of opinion is that were a license fee collected on dogs in the rural districts as in incorporated towns it would work a salutary benefit in ridding the place of worthless dogs.

—William Flaherty, a middle aged man, attempted to hang himself with his suspenders in the Halifax jail the other day.

Dominion Parliament.

OTTAWA, June 1.—The Redistribution Bill was before the House to-day and both sides of the case were aired. Hon. Messrs. Bower and Foster left for Washington this afternoon. It is understood they go at the request of Mr. Blaine to discuss personally the certain matters which were left over at the February conference, chiefly in reference to details respecting mutual rights in cable and internal navigation. It was reported here this afternoon there was probability of securing a treaty on the basis of that of 1888, but it is learned that there is positively no truth in the report. The invitation came on very short notice, but the government promptly responded.

Commissioner Saunders left for Fredericton today, to meet the New Brunswick government for the purpose of completing arrangements with them respecting the part they will take at the Chicago exposition.

June 2.—The Redistribution Bill was again on the taps for discussion. Mr. Laurier moved an amendment to the bill which was voted down by 58 to 110.

The Royal Society passed a resolution to-day urging all Canadian railways to adopt the twenty-four notation on October 12th next, being the four hundredth anniversary of the discovery of America. Dr. Bourinot has been elected president of the society and Dr. G. M. Dawson vice-president.

June 3.—Hon. Mr. Patterson in reply to Mr. Laurier said the government intended next year to introduce a bill to simplify the revision of the voters' list.

Secretary of State, Blaine, having resigned, Messrs. Foster and Bower have returned from Washington. June 6.—Mr. Devlin brought on his promised Home Rule motion. It was as follows:

In the opinion of this house of commons of Canada the time has arrived when a substantial measure of home rule should be granted to Ireland, and this house expresses the hope that at the approaching general election in the United Kingdom a majority will be returned to parliament pledged to enact a measure which, while safeguarding the unity and interests of the British empire, will satisfy the legitimate and national aspirations of the Irish people by granting to them a parliament with jurisdiction over all matters of a local character.

Senator Poirier, in moving for papers relative to the appointment of a successor to the late Judge Wetmore on the Supreme Court of New Brunswick, took the ground that Judge Wetmore had been promoted to the position because, as he (Mr. Poirier) claimed, the Roman Catholics were not represented in the judiciary of New Brunswick as fully as they ought to be. He regretted that the government had not adhered to the principle which animated the government of Sir John Macdonald. Dr. Poirier's motion was well received.

Sir John Abbott in reply said: "I find it difficult to say all I would desire to say in answer to Mr. Poirier's speech. The subject is a delicate one and I should be sorry to wound anyone's feelings by going into the details into the various discussions which led to the appointment of a judge, but my hope, friend, makes one statement or indicates his belief in a state of things which I can assure him without any hesitation at all is entirely without foundation. The Canadian Commons, April 25th has created considerable interest in British political circles and may result in suggestions at this period advantageous to both Great Britain and Canadian trade."

Maritime Matters.

—Henry Munroe, independent Liberal, was elected in Annapolis on Saturday to the Local House.

—John McNeil, 94 years old, was run over by a locomotive at a crossing at the crossing of the railway and he was killed. He had been a few minutes later.

—Some soldiers on a spree in Halifax the other night kept part of the town in a uproar. Several prominent citizens were knocked down and beaten and some property damaged. The miscreants are in jail.

—In Mrs. Robinson's garden at Berwick, N. S., there may be seen the smallest fruit tree yet reported. It is an apple tree in full bloom and measures from the ground to the outside of the highest blossom just three inches.

—The Archibald Wetherill reports that the experiment of shipping live lobsters from Arichat to Boston has been a success. Although the lobsters had been knocked down and beaten and some property damaged. The miscreants are in jail.

—The New Brunswick government imported last fall a lot of thoroughbred sheep of the Lincoln breed. Three of these were purchased by the Hardingville Agricultural Society. One now in possession of William Connor, of Bannville, Kings county, when shepherded recently, yielded the Hardingville Society pounds, when washed and dressed ready for carding netted eleven pounds. Mr. Connor has some spring lambs by her side which he considers to be very fine stock.—Sun.

—Six weeks ago Mr. William Hampson, of Trenton, Pictou Co. N. S. went to Winnipeg intending to buy a farm in Manitoba. Where he had heard he became sick and on recovering somewhat decided to return home. Yesterday he told Detective Barrett that on Friday while on the C. P. R. train he was robbed of fifty dollars in cash and a valuable monogram pipe, the gift of his son, who has since died. Mr. Hampson is staying at the Vancouver hotel awaiting the arrival of funds, for which he has telegraphed, to take him home.

—Provincial females who go to the United States take their "lives in their own hands" when they go. The remains of some of the many provincial girls in the United States are not carried home either by steamer or rail. Even this week the Herald's obituary column gives evidence of this. From comfortable homes they leave for Boston where many of them have to work like slaves until their health becomes impaired and they are obliged to seek the refuge of hospitals only too late to regain health and strength.—Sydney Herald.

—The Windsor Tribune tells a gruesome story of depravity revealed at a recent trial in the supreme court there: "A young girl scarcely past fifteen, unable to read and write, ignorant of the law, brought before a magistrate of the nature of an oath, living with mother and step-father, habitually debauched by the father and others, had been seduced and had run away, was arrested and lodged in jail. In retaliation she makes a charge against the step-father, and for an instant the current of her life is changed. She is lifted and we get a glimpse of its lurid depths, only before guessed at by many."

Personal and Political.

—Dr. J. G. Schumann has been appointed president of Cornell University. The salary is \$16,000 per annum.

—The London Post says: "The Government and the Opposition have agreed to pass all the estimates and that Parliament is certain to be dissolved before June 28."

—Lord George Hamilton, first lord of the Admiralty, states that the experiment of sending sailors to Vancouver by way of the Canadian Pacific Railroad, has proved a success.

—Under the reciprocity treaty between Austria and the United States, Austrian sugar, molasses and skins will enter the States free of duty. In return Austria gives the United States favored-nation treatment.

—Sir John Thompson has been appointed a British arbitrator in connection with the Behring Sea arbitration. Hon. C. H. Tupper will act as agent to the British arbitrator, to assist to prepare the British case.

—John Allen, one of the steamship owners of that name at Montreal has eloped with the wife of the Inspector of the Bank of Montreal at that place. Both leave families behind. It is supposed they have gone to the States.

—The case of criminal libel preferred by J. N. Coffee against C. B. MacDough, editor of the Montreal Herald, is now before the court. The witnesses who appeared before Justice Wortman have been notified not to appear.

—A reputation of Newfoundland merchants has asked Sir Charles Tupper to co-operate to secure for Newfoundland most favored treatment from Spain. A member of the Newfoundland Legislature is coming here shortly to act with Sir Charles Tupper and the British Government.

—In accordance with usual custom, Her Majesty confers the honor of Knighthood upon such of her subjects as were deemed worthy, on the late anniversary of her birth. Among the Canadians to receive this honor were Premier J. C. Abbott, who in future will be known as Sir John Caldwell Abbott, Oliver Mowat, the late Liberal Premier of Ontario, who will now be Sir Oliver, and Chief Justice LaCrosse. The battle cry of "Sir John" appears to have been changed to "Sir Oliver" in the third of that name, to lead public affairs in the past year.

Industrial and Commercial.

—T. S. Whitman has shipped 1,000 cords of pulp wood from Annapolis to the United States and has 800 or 900 cords ready for shipment.

—For the month of May the C. P. R. have sold 35,000 cords of land to settlers for \$121,000. For the corresponding period last year 6,000 cords were sold for the sum of \$20,000.

—The St. John cordage works will be started up again in about a fortnight to their full capacity. Messrs. Connor having received instructions to that effect from the Canadian government, to supply the cordage for the St. John works are affiliated. The negotiations have been going on for some time. Permanent employment has been furnished to some two hundred operatives.

—Last year there were about 1000 Canadian horses shipped from Montreal and it is expected that the total export will be about 1,500 this year. The Canadian horse trade with Britain has commenced to develop itself in earnest. There are at present no less than seven British agents in Canada and they are doing their buying principally throughout Ontario, but make Montreal their headquarters.

—The officials of the Winnipeg grain exchange report that in Manitoba wheat is well advanced and the prospect most favorable. They say that there is considerable surplus in crop this year and that the price of wheat is dropping not more than fifteen or thirty per cent of last year's wheat has been threshed and is now being brought to the market. The weather is very favorable for the grain. The reserve of such a large quantity of grain in the country will make summer trade in the Canadian Pacific Railway unusually heavy. There is still an enormous quantity to be shipped east, making the ensuing season an exceptionally busy one for the country.

—There will be a continual circulation of money, which will tend to relieve the hopelessness of both the farmer and the merchant. The weather still continues warm and dry throughout the province in a short period.

Around Town.

FIREWORKS.—All interested in the proposed fireworks display on Dominion Day are requested to meet in Chignecto Hall, Saturday evening, at 8 o'clock local.

STONE.—Both quarries at Wood Point are working full time and are getting out a large quantity of fine stone. Since the 20th ult., the N. Y. Co. have shipped 15 cars to Toronto. This company expects to get out about 600 tons during the season. The Atlantic Quarrying Co. have shipped 300 tons so far, principally to Philadelphia. The sch. Henry, cleared with a cargo of 200 tons for Philadelphia yesterday.

THE GOVERNMENT TAX.—The Banks have now notified their customers that a charge of ten cents each will be made on all notes discounted after June 6th. The maximum charge where more than ten are discounted at one time will be one dollar. The charge is to cover the tax imposed on Banks by Mr. Blair's government during the last session and will be made by all Banks doing business in the province.

THE STORM.—The storm of Thursday did considerable damage at different points in its course. At St. John in the afternoon a large barn belonging to Mayor Tucker was struck by lightning and burned together with five head of pure bred Jersey cattle. A Macdonald barn was burned and at Southampton a cow was struck and killed. Thirteen telephones were burned out in Sackville.

BAPTISM.—There was a large gathering of people at the lakeside, Middle Sackville, on Sunday morning last to witness the baptism of two young women, one of whom, a daughter of Deacon Willard Thompson, has just completed her course in Music at the Ladies' College, Mr. Allison. It is expected that a number of other candidates, who have already been received for membership, will follow in the same ordinance on Sunday next. The forward movement among the young people in spiritual life is most gratifying. A quiet, intelligent and steady work of grace is in progress.

BAND CONCERT.—The 8th Cavalry Band will give its first open air concert at Middle Sackville on Saturday evening next weather permitting. The following program will be given.
Major Taylor's March.....Tillard.
Overture, L'Interprete.....Tillard.
Major Burke's March.....Tillard.
Grand Fantasia....."Crown of Gold."
Victor Boat.
Serenade.....Will & Barrington.
Waltz, "Crown of Hearts".....Gazet.
Galop.....Hazel.
God Save the Queen.

As the Band will be at Camp Sussex on Dominion Day, it has been decided to hold the annual excursion to Cape Tormentine about the middle of July.

FIRE.—During the storm of Thursday evening last the house of Mr. Francis Siddall, Westcock was struck by lightning and destroyed. Mr. Siddall had just returned from Sackville and was in the house but a few moments when the fire broke out. The other members of the family had retired. The neighbors soon gathered and through their efforts in tearing down a small building, the large building in the rear of the house was saved. Some of the furniture on the lower flat was saved but much was lost. The building was insured for \$700 and the furniture for \$200. Mr. Siddall desires to thank those who so kindly assisted in preventing the spread of the fire.

A spark from a chimney caught upon the roof of Stewart Goodwin's house, Wood Point on Sunday and when discovered had burned a large hole in the roof.

THE AMERICAN ROAD MACHINE.—One of these machines was shown at work on York St. on the 26th ult., and gave general satisfaction. The machine, which is quite simple in construction, consists of a curved mouldboard about 6 ft. long carried by a four wheeled truck and is easily operated by one man besides the driver. The mouldboard placed at the proper angle will scrape the sides of the road into the centre levelling all obstructions and making a perfectly smooth and hard road by a few passes of the machine. It takes 8 horses to draw it in moderately hard ground but it is many times faster and more economical than the old method of hand labour. Mr. Albert Palmer, M. P. P., Queens, who is agent for the machine, showed its operation. The cost is about \$270. The government proposition to purchase these machines for parishes wanting them and to withhold a certain portion of the road grants each year until paid for.

PERSONAL.—Mr. Edward Murphy, Sr. of Toronto, contractor for the Cape Tormentine Breakwater and Pier works arrived in town on Thursday evening and went forward on Friday. Engineer E. T. P. Shoven went down by the same train.

—C. B. Horrodt, Sackville N. B. was registered at the Walker House, Toronto, on the fifth.

—Among the B. A. graduates at the University of N. B. Fredericton, appears the name of Van Buren Thorne, son of Dr. B. S. Thorne, Sackville.

—The name of Archibald R. Tingley, Sackville, appears in the list of essayists at the recent Convention at Acadia, Wolfville. Mr. Tingley came home on Saturday.

—Mr. Chas. W. Fawcett graduated the St. Martin's Seminary on Tuesday and arrived home last evening.

—T. J. Carter, Barrister, of Andover, N. B. formerly of Westmorland was in town on Saturday.

—Mr. R. P. Foster, of the Menhaden is spending his vacation among the tempting salmon haunts of the Nipigon. Mr. Fred Shreve, of the Dorchester branch is filling his position here.

—Hon. Senator Botsford has been confined during the past week with an attack of acute Bronchitis with complications. Last night he was resting much easier and is considered out of danger.

Local Matters.

Sch. Robbie Godfrey is fixed to load stone at Wallace, N. S., for New York at \$300.

Barney "Amy J. Lane," now at Philadelphia, has been fixed to load at Harvey Bank for W. C. England, deals, 40s.

Farmers of Malagash are complaining of disease among their cows, some having lost two. A weakness in their knees is a noticeable feature of the disease.

Notice has been given to twenty-six employees in the Intercolonial railway shops at Moncton that their services were no longer required. This makes thirty-one discharged from the shops there and completes the list. Ten have been discharged at Campbellton and twenty-six at River du Loup.

The Chronicle says: Wednesday afternoon Charles Amerino of this city, and Dr. Leonard M. Warrall, played a game of English billiards at the St. James, and the doctor won by 60 points. The match was for \$10 a side, and yesterday afternoon the winner played a city commission merchant for the same amount and defeated him by 20 points.

The annual Amherst Roman Catholic picnic is announced to take place on June 21st, at the exhibition grounds there. The committee of management are endeavoring to arrange for excursion trains from St. John and Halifax. The programme of sports and other entertainments will be on a very extensive scale, and no pains will be spared to make the affair the most attractive of the season. An attendance of three or four thousand people is expected.

At the recent annual meeting of the Amherst Boot and Shoe Manufacturing Company, the directors' report for the past year showed that, although the year had been one of depression in the shoe trade, the business done for the company was very satisfactory. The sales amounted to \$339,800; the amount paid in wages and salaries \$54,653. The average number of hands employed 200. The officers for the past year were re-elected as follows: L. R. Lamy, president; T. N. Campbell, Secretary; A. D. Warren, Treasurer. The old board of directors was re-elected.

Presentation and Address.

What proved to be an agreeable surprise took place at the residence of Rev. A. H. Lavers last Friday evening. The ladies connected with the W. M. A. Society of the Sackville Baptist churches, accompanied by their husbands, repaired to Mr. Lavers' residence at about eight o'clock, beautifully supplied with refreshments and things, and, after their object, took possession of the house. After many exchanges of good wishes and a pleasant talk of half an hour, a choir was formed from among the younger women and with Miss Thompson at the organ, a musical programme was creditably gone through with. Ice cream and cake was now in order, after which the Rev. Mr. Warren addressed the assembly. The Rev. gentleman stated the object of the meeting was to say good-bye to Mr. and Mrs. Lavers who are about leaving Sackville for their new home at Port Elgin. He expressed regret at their departure, and said that the warmest Christian feeling had existed between Mr. and Mrs. Lavers and himself, that their loss would be felt as active church members, in the Sunday School and in the work of Temperance, he hoped that his brother minister would meet with success in his new charge. Stipendiary Callih being called upon delivered a timely and stirring oratorical style, after which Dr. Sangster made some very pleasing remarks. Mr. Lavers replied briefly and thanked those present for their expression of good-will and said that though they would soon part from their friends in Sackville, yet he would always remember them as true Christians and friends. Mr. Warren thought that the ladies present had something of a pleasing nature in store for Mrs. Lavers and thought that the time had now arrived when their parting should be a happy one. The Rev. gentleman stated the object of the meeting was to say good-bye to Mr. and Mrs. Lavers who are about leaving Sackville for their new home at Port Elgin. Around Town.

A special meeting of the W. C. T. U. will be held at the Reading Room on Friday at 7 1/2 p. m. Members are urgently requested to attend promptly.

CATTLE.—A. W. Fawcett shipped two cars cattle on Monday, one to Halifax and one to Chatham. Jas. McGrath will load a car with cattle for St. John on Tuesday next. He purchased 4 fine steers from J. E. Estabrooks yesterday.

INSURANCE.—Mr. J. B. Paton, manager for N. S. of the Manufacturers Life Insurance Co., was in town this week in the interests of his company. Mr. T. B. Lavers of the North American paid a short visit to Sackville on Monday.

SCOTT ACT.—On Tuesday George Fillmore of the Intercolonial Hotel was fined \$50 and costs for selling liquor and for the same amount and costs for keeping for sale. Same day Fred Brownell was fined \$50 and costs for keeping for sale.

EARLY CLOSING.—The merchants of Sackville have agreed to close their respective places of business on Tuesday and Thursday evenings at 6 o'clock (local time) until further notice, commencing this evening. See adv. next week.

HYMNAL.—There was a quiet wedding at the Rectory on Tuesday evening, in which Mr. Murray Gray, the genial and obliging baggage master at the I. C. R. Station, was united in marriage to the Edith M. S. Sacks. Mr. and Mrs. Gray will occupy the residence on main St. lately occupied by Dr. Ross. The Post congratulates.

THE SHIP RAILWAY.—The signs of life at both ends of the line indicate that work will be commenced on the Ship railway at an early date. Work has commenced at the docks at Sackville, the water out, an operation which will take upwards of three weeks, pumping day and night. There is a depth of 30 feet to be pumped at Talmah and about the same at Port Lawrence. Those in authority are very reticent concerning the exact position of affairs, but it is generally understood that the order to begin pumping is a preliminary towards the completion of the work.

ASSIGNMENT AT AMHERST.—Alderman B. W. Ralston, of Amherst has assigned to J. H. Goodwin and D. J. McLeod two schedules of preferred creditors. Liabilities \$125,000, assets not known.

In schedule A:
D. J. McLeod \$2,927.00
