Distressing Details.

PELEE SMOKING SINCE MAY 3. Fort-de-France, Island of Martinique, May 11. - Advices received here today from the vicinity of St. Pierre (ten miles from here) contain further details of the horrible volcanic upheaval which resulted in the utter destruction of that town and the death of nearly all its inhabitants. The crater of Mont Pelee has been wearing its "smoke cap" since the third of May, but there was nothing until last Monday to indicate that there was the least danger.

THE FIRST OUTBREAK. On that day a stream of boiling lava burst through the valley of the River Blanche, overwhelming the Guerin sugar works and killing 23 work people and

the son of the proprietor. A commission was appointed by the governor to investigate the outbreak, and it returned a reassuring report on Wednesday evening; but about eight o'clock on Thursday morning

A SHOWER OF FIRE rushed down on St. Pierre, and the coast from Le Carbet, which had a population of 6,000, to Le Precheur, which had a population of 4,000, burning up everything in its path. Throughout Thursday the heat in the vicinity of St. Pierre was so intense out of the city are choked with dead and the stream of flowing lava was so unremittilng that it was impossible to bodies. A second relief expedition was approach the town during the early sent out and brought back some of part of the day. As evening approached the French cruiser Suchet, the inhabitants of Corbet. They were after a heroic battle with the heat, suffocation and sulphur fumes, succeeded in making a dash towards the shore, nearing the land close enough to enable her to take off thirty survivors of the disaster, all of whom

were horribly burned and mutilated. St. Pierre at that time was an absolute smoking waste, concealing 30,000 completing their cremation, which was

Ten Thousand People Take Part in an Anti-Corn Tax Demonstration in Old London.

Paris, May 12.-The death of Senhor Severo, the Brazilian aeronaut, who, with his assistant, was killed this morning by the explosion of his airship La Paix, in which he was making a trial trip, created terrible consterna-

Senhor Severo had invited a number of friends to witness the ascension, and his wife and a number of relatives were following the course of the baloon in motor cars. Suddenly the spectators were horrified by a bright flash of light, followed by a loud explosion. The balloon, which was at this time 1,500 FEET ABOVE THE GROUND, fell rapidly, landing on the roof of a

The aeronaut fell into the street and was dashed to pieces. The bones of his legs were forced through the soles of his boots. The engineer who accompanied him was burned to death. The accident is said to have been

caused by a leakage of gas. Senhor Severo started with the intention of sailing to the military parade ground at Issy, and a large number of his relatives and friends were preceeding in the direction of that village, situated five miles southwest of With an engineer named Sachet, Severo sailed out of his balloon-house, near the Boulevard de Vagirard, at 5:30 a.m., in excellent spirits, and full of confidence. The aeronaut put his airship through a series of evolutions before starting in the direction of Issy. There seemed to

The flame which caused the explosion burned the engineer in most shocking manner. Practically not a bone of either victim was left

unfractured and both skulls were terribly crushed. ANTI-CORN TAX DEMONSTRATION London, May 12.-About 10,000 people took part in the anti-corn tax dem-

onstration held at Hyde Park. Numbers of trades unions, demoratic bodies and friendly societies marched from all parts of London to the park. Banners were borne with inscriptions such as "No Protection" and "Down With the Bread Tax." A resolution denouncing the government for imposing the tax was carried with tremendous enthusiasm. A large force of police was present, but the proceedings were quite orderly.

The seat was at the previous election the Conserva-tive headed the poll by 849. A great surprise, consequently, has been causnsidered safe for the government, as

ed by the announcement. The figures show that Toulmin, the Liberal candidate, received 4,213 votes, and Lawson, the Conservative, only 3,799. This is the severest blow sustained by the government since the general election, and will encourage the Liberal party in its agitation against the corn tax

RAILWAY FIRE GUARDS. This afternoon in committee Mr. Walter Scott moved the insertion of a clause in Mr. Blair's bill to amend the railway act, requiring all railway

Europe. Gen. Kitchener refused permission, and the request was dropped. Great Britain intimated that the Boers should make serious proposals

or the negotiations should be dropped.

The Boers asked for an armistice with the view of consulting the burghers. This was also refused. Gen. Kitchener, however, undertook not to molest the meetings necessary to secure to the leaders authority for further negotiations. A warning was given to the Boers that if they return-

ed to Pretoria they must come with full powers. It is understood that Acting President Schalkburger gave his unqualified

assent to these terms, but Mr. Steyn was more reserved. COMPENSATION FOR BOER LOSSES Mail advices received from Pretoria, continues the Times, declare that Lord Kitchener and Lord Milner promised general compensation for burned farms, raised no difficulty with re-

and gave assurances that the question of amnesty for rebels did not present insuperable difficulties. FRESH PEACE RUMORS. London, May 11.-There was a fresh crop of peace rumors yesterday. It was stated that a hopeful dispatch had been received by the government

HEAP OF SMOKING RUINS. A cablegram from the commander of the Suchet, dated Fort de France, Martinique, saying that he conducted a search at St. Pierre yesterday. The captain reports that the town is now a mere heap of smoking ruins, under which the victims of the catastrophe are buried. The Suchet was able to convey some of the inhabitants of Le Precheur to Fort de France, but could not reach the northernmost part of the island on account of the dense rain of ashes which was falling. The captain further reported that the Mont Pelee volcano still had a threatening aspect. Pouyer Quertier is proceeding to repair the northern cable. The waves of lava are still reported to be flowing northward. They have extended even to Le Carbet.

Another Account.

LAVA FLOWED FIVE MILES IN THREE MINUTES.

Castries, St. Lucia, B. W. I., May 10. On May 4 hot ashes covered the whole city quarter of St. Pierre an inch thick and made Mont Pelee invisible.

At noon, May 5, a stream of burning lava rushed 4,400 feet down the mountain side, following the dry bed of a torrent, and reaching the sea, five miles from the mountain, in three minutes. In its rush the fiery flood swept from its path plantations, buildings. factories, cattle and human beings over

a breadth of about half a mile. As the lava rushed into the sea the latter receded three hundred feet all along the west coast, returning with greater strength, a big wave covered

Terrible detonations, heard hundreds of miles northward, followed at short irregular intervals, and continued at night. In the intense darkness the electric light failed, but the town was illumined by lurid flashes of flame from the mountain. The terror-stricken in-habitants rushed for the hills in their night clothes, screaming, shouting and

wailing-mad with terror. The Plissino family escaped to St. Lucia in a small steamer. Thirty-five persons, mostly women and children, arrived here in the forenoon of the 6th and furnished the above details. The men remained at Martinique. The same afternoon, later, telegraph-

ic communication, was interrupted with both the islands of Martinique and St. Vincent. During the afternoon of the 8th the British steamer Roddam, which had left St. Lucia at midnight on the 7th for Martinique, crawled slowly into the Castries harbor, unrecognizable, gray with ashes, her rigging dismantled and the sails and awnings hanging about torn and SUDDENNESS OF THE OUTBURST.

By superhuman efforts, having steam up, the cable was slipped and the steamer backed away from the shore and nine hours later managed to reach Castries. Ten of the Roddam's men were lying dead, contorted and burned out of human semblance, among the black cinders which covered the ship's deck to a depth of six inches. Two more of the crew have since died.

The survivors of the Roddam's crew

were loud in their praises of the heroic conduct of their captain in steering departure of the English mail steamhis vessel out of danger with his own hands, which were badly burned by the rain of fire which kept falling on his ship for miles after she got under way. Beyond burns all over his body, the captain is safe, as is also the ship's agent, though he is badly scorched.

DESTRUCTION OF SHIPPING. Mr. Plissono is believed here to be the sole survivor of the 40,000 inhabitants of St. Pierre who remained there, for the town and all the shipping in the port have been utterly destroyed, the West India and Panama Telegraphic Company's regaining steamer Grappler, going first, then the Quebec liner Roraima, Capt. In the afternoon a French coasting steamer arrived from Fort-de-France, seeking assistance, as all the country was burned up, the stock was dying, all the plantations were charred, the country people were flocking into the towns, and famine was feared. The steamer was loaded with food of all sorts, and was sent back to Martinique at 7 p.m. The captain of this vessel reported that some thirty persons left St. Pierre by the 6 boat Thursday morning for Fort-de-France and consequently were

WHAT A SAILOR SAW. Pointe-a-Pitre, Guadeloupe, May 11. The first mate of the Roraima thus describes the disaster at St. Pierre: "Between 6:30 and 7 o'clock in the morning on Thursday, without warning, there came a sort of whirlwind of steam, boiling mud and fire, which suddenly swept the shipping in the roadstead. There were some eighteen vessels anchored in the harbor, including the Roraima, the French sailing ship Tamaya, four larger sailing ships and others. All of the vessels immediately canted over and began to burn. The Tamaya was a bark from Nantes (Captain Maurice), and was on her way to Pointe-a-Pitre. All the boats except the Roraima sank instantly and at the same moment. Every house ashore was utterly and apparently burned under the ashes and burning lava. An officer who was sent ashore penetrated but a short distance into the city. He found only a few walls standing and the streets were literally

Some Who Escaped.

A FEW SURVIVORS. New York, May 11 .- A few private

telegrams renew the hope that some of the inhabitants of St. Pierre escaped. The Bishop of Martinique sent a cable message from Fort-de-France, announcing the safety of Pastor King, of St. Pierre, who escaped the disaster, and sought refuge at Morne-Rouge. It

is hoped that others fled there. The French Cable Company's offices in this city were advised that their repair steamer Pouyer Queentier has arrived at Fort-de-France, having rescued 450 persons from St. Pierre.
Paris, May 11.—At a meeting of the
French Cabinet the minster of finance, M. Callaux, was authorized to expend all the money necessary to succor the sufferers by the Martinique disaster. An official of the colonial office sailed

from Brest for Martinique with \$100,-000 in cash. M. De Crais informed the cabinet meeting that Senator Knight (president of the Legislature of Martinique, who was believed to have lost his life at St. Pierre), had escaped.

Pointe-a-Pitre, May 12.—The Quebec Line steamship Korona has arrived at the Island of Dominica, bringing a number of survivors from the sister ship, the Roraima.

MORNE-ROUGE SPARED. Paris, May 11.—The Patre says the wife of Senator Knight has received a cable dispatch from her husband, dated Fort-de-France, Martinique, at 3 p.m., yesterday, saying: "Well; property safe." The dispatch also said that Morne-Rouge was spared. Morne-Rouge is a beautiful resort between the city of St. Pierre and the crater of Mont Pelee. During the hot

A SERIOUS DISEASE

Becomes Chronic and Returns Year by Year, or Develops Into Bronchial Pneumonia, Croupous Bronchitis, Asthma or Consumption.

The real dangers of Bronchitis are omtimes overlooked. It is too serious a disease to trifle with, and for that reason everybody should be familiar

with the symptoms. Children are most likely to contract bronchitis, and, if neglected, it be-comes chronic, and returns year after year, until it wears the patient out or develops into some deadly lung dis-

The approach of bronchitis is marked by chills and fever, hasal or throat catarrh, quick pulse, loss of appetite, and feelings of fatigue and languor. Bronchitis is also known by pain in the upper part of the chest, which is aggravated by deep breathing or coughing, until it seems to burn and tear the delicate linings of the bronchial tubes.

The cough is dry and harsh, and is accompanied by expectoration of a frothy nature, which gradually increases; is very stringy and tenacious, and is frequently streaked with blood. There is pain, not unlike rheumatism, in limbs, joints and body, constipation and extreme depression and weakness. In some people the exhaustion amounts almost to nervous collapse, delirium follows, and in young children convul-

sions may follow. Dr. Chase's Syrup of Linseed and Turpentine is, we believe, the most effective treatment for bronchitis that money will buy. This fact has been proven time and time again in many thousands of cases.

It is the most effective remedy for

bronchitic, because it is far-reaching in its effects on the whole system, not merely relieving the cough, but actually and thoroughly curing the disease. It loosens the cough, frees the chest of tightness and pain, aids expectoration and permanently cures.

PROCESSION

Will Parade Through London on June 27.

ous Colonies.

Mr. Rhodes' Proposed Newspaper-Mr. Morgan's Next Step Will Be Watched-He May Try to Get Some English Railways.

London, May 10. - The Chronicle states that the colonial premiers have been invited to take part in the royal procession through London on the day following the coronation. As on the occasion of Queen Victoria's jubilee, they will have a prominent position in the procession, and will, it is expected, have a special escort of colonial troops. The arrangements for this procession are now almost complete, and there can be little doubt that it will be one of the most striking sights we have ever seen in London.

As many of the colonial premiers are distinguished lawyers, and many of them King's Counsel, the benchers of the Inner Temple are making the most important of their coronation festivities a banquet to the premiers of the colonies and other distinguished visitors. Tuesday, July 1, is the night fixed for it in their hall. Prince Christian, the ord chancellor, the speaker of House of Commons, and several judges as benchers of the Inner Temple, will be among those acting as hosts on the occasion, but barristrs and students are to be invited to join in the banquet on the same terms as the benchers. MR. RHODES' PROPOSED NEWS-

PAPER. Mr. Stead states that up to the year 1899 he was sole executor to the will of the late Mr. Cecil Rhodes. It had been the intention of himself and Mr. Rhodes to found an international newspaper, with offices in London and New York, which should be largely conducted on educational lines. Mr. Rhodes had resolved to devote his fortune to the scheme, as he considered it would be a step towards the realization of his dream of Anglo-American reunion. Mr Stead's name was removed from the list of executors in consequence of his opposition to the Boar war and the scheme was then abandoned.

ENGLISH RAILWAYS NEXT. Mr. Morgan's next step will be carefully watched. It is rumored that he is contemplating the acquisition of one 8c and 10c yard. This is less than or more English railways, and people are wondering how such a possibility should be met. Harland & Wolff are referred to as the servants of Morgan by one paper, while another says the famous Belfast shipbuilding firm will have no alternative but to cross the Atlantic and set up an establishment

DO YOU FEEL SEEDY? WESTERNONTARIO

You Are Nervous, Depressed, Sleepless, and Suffer From Sick Stomach, Headache, Constipa-Build Up the System.

Thousands are in this dreadful condition, only half alive, unable to stand the strain of work and worry. There is no sense or reason in trying to be comfortable with the idea that it pass off, and that you are going to be better soon. Unless the system is cleansed of the impurities that poison the blood, you will never be better. The best remedy is Ferrozone. It achieves marvelous results in chronic wasting diseases, nervous prostration. faulty nutrition, heart disease and

stomach troubles. Ferrozone promotes healthy digestion, which results in all food being assimilated. Nutrition is vastly improved, the blood grows rich and red and gives stability to the entire system. The store of nerve energy and force increases daily by the use of Ferrozone. The process of waste is arrested, cured about four years ago.

A blind man, penniless and friendless, landed in Windsor on Tuesday from the ferry, and later made his way to the mayor's office, where he applied for transportation to St. Thomas. "My name is Samuel Flemming," he said, "and I am trying to get to my son at St. Thomas. For 28 years I was a professor in Aylmer College, at Janesville, Wis., but over-work used up my eyes, and a year ago I went blind from paralysis of the optic nerve. I spent the little money I had in treatment for my eyes, and now I want to reach my son, with whom I shall live in the future." The authorities at Windsor advised him to apply to the Detroit officials for assistance, on the ground that he is a United States citizen. He is 69 years old. and in its place a rebuilding of the whole system takes place.

Diseased conditions cannot exist where Ferrozone is used. It attacks disease at its very foundation, and by keeping the body well nourished and supplied with strong blood and a powerful nervous organization prevents and keeps away all manner of sick-

There is no blood builder, nerve tonic and strength producer that can equal Ferrozone, and few people are so well but they could derive great benefit from its use. It is valuable in Nervous Dyspepsia, Anaemia, Weakness, Impure Blood, Bronchitis, Neuralgia and Rheumatism. It is prepared in the form of a chocolate-coated tablet, and is both Courtenany, of Brainerd, Minn., wife of

pleasant and convenient to use. Ferrozone produces that high standard of health so much desired by everyone. It brings back the rosy tint to the pale cheeks of the Anaemic girls and women. It puts grace and elasticity into their movements, gives lustre and brightness to the eye, and symmetry and roundness to the form. It gives a man new strength and en-ergy with which to pursue his daily toil, and can be relied upon at all times to benefit and give perfect satisfac-

> Surplus \$3,383,115-Public Bebt Reduced by Two Millions-Figures That Talk.

Ottawa, May 9.-The financial statement for the ten months ending April 30 affords cause for much jubilation. The ordinary receipts exceeded the ordinary expenditure by the handsome sum of \$12,683,703, and yielded a surplus of \$3,383,115 over the ordinary and capital expenditure combined. Furthermore, there was a reduction in the public debt of \$2,047,653. This is a splendid showing, and indicates that the country's feet are firmly set on the highway of prosperity. The total revenue on consolidated fund account for the ten months amounted to \$46,600,-728, whereas the expenditure under the same head was \$33,917,025. The revenue for this period shows an increase of \$4,611,425 compared with the previous ten months. The expenditure during the same time increased by \$2,-304,559. Every branch of revenue shows a gain, the several increases being: Customs, \$2,754,534; excise, \$700,713; postoffice department, \$338,145; public works, including railways, \$\$806,824; miscellaneous, \$11,172. ACTRESS FOUND LOST COUSIN

Mrs. Patrick Campbell's Surprise | 8 in Detroit.

M. H. Von Jasmund le a Michigan Central Railway Conductor.

Detroit, May 11.-The Free Press says: Years ago-no matter how many -there lived in London, England, a brother and sister, John and Emily Tanner, children of well-to-do parents, and devotedly attached to each other. The children grew to manhood and womanhood, each married, and the brother and sister drifted apart, the former remaining in London, where he engaged in banking, while his sister went back to India, the early home of the family, later coming to Ameri-

cay, where she died. To John Tanner was born a daughter who early displayed unusual intelligence, coupled with a grace of person and attractiveness of feature which bespoke for her a brilliant career. The years passed by, and while children came to brighten the home of the sister in India, who had tion and Indigestion, You Need | married a man named Von Jasmund, a Good Tonic Like Ferrozone to the English girl grew and developed, finally adopting the stage as a profession. Success crowned her efforts, and the name of Mrs. Patrick Camp-

bell became a houseword.

Among the children born to Mrs. Von Jasmund was a son, Mortimer H., who settled in Detroit some fifteen years ago, being a conductor on the Michigan Central Road. He had faint recollections of having heard of an uncle across the sea, likewise of a cousin, a distinguished actress, whose maiden name had been the same as his, and who afterwards married Patrick Campbell. So it happened that when Mrs. Pat came to Detroit for a week's engagement at the Detroit Opera House, Mr. Von Jasmund determined to ascertain whether she is the cousin of whom he had often heard, though never seen.

He called at the Russell House Friday, secured an interview with Mrs. Campbell, and, to the delight of both himself and the distinguished actress, had no trouble in establishing the relationship. Mr. Von Jasmund and wife later enjoyed a drive about the city with Mrs. Campbell, and in the evening Mrs. Von Jasmund and a party of friends occupied a box at the Detroit Opera House and witnessed the production of "The Second Mrs. Tanqueray," as guests of Mrs. Campbell, Mr. Von Jasmund being out of the city. The party included, besides Mrs. Von Jasmund, Mrs. S. A. Von Jasmund, of St. Clair; Mrs. Solis, Mrs. C. H. Buell and Mrs. Elizabeth Rooney. Besides her Detroit relative, who lives at 26 Peterboro street, Mrs. Campbell has three other cousins in this country, all of the same family—Seymour and Wasa Von Jasmund, of St. Clair, Mich., and Mrs. Walter the chief surgeon of the Northern Pa-

cific Road. Strength and Bndurance Are factors of the greatest success.

Afraid of the Past.

One of the things not to be forgotten in this contest is the fact that the Ontario Government has stood firmly elections, and we do not hear today one echo from any of these contests.

This is a very significant fact. Do we find any Conservative from Mr. Whitney down defending the Opposition's course in the past in any thing? Will they today claim that the licenses should be handed back to the municipalities? Will they echo Sir John Macdonald's declaration that Ontario would never get one stick of timber or one ounce of gold, iron or lead? Will they, beaten back as they have been time and again, seek to raise an unjust religious cry? Not one of guilt and error in the past and the war cry of today, is reduced to solely this-"It's time for a change."

"At no period since the settlement of Canada has it received so large an inflow of immigration as within the last two years. The production of the country is immense, when it is considered that the population is not over 5,500,000. Manufacturing industries are increasing and are generally prosperous. The men managing them are enterprising, and with great energy are seeking trade all over the world. "The agricultural wealth of the country is enormous. Immense cultivated areas furnish grain for the miller; fruit and vegetables for the canner; beef, pork and mutton for the meat trade; and cream for the butter and cheese factories. Canada's forests are now regarded as one of the chief sources for the supply of pulp wood for the paper industry of the world; and on her famous fisheries rest many important industries. Great deposits of the finest iron have recently been found; while good lead, asbestos, nickel. copper, silver and mica mines are

being opened up in all directions. "No country except the United States has gone forward so rapidly in its transportation facilities as Canada. In 1897 the total railway track laid was 2,087 miles, and in 1900 it was 17,824 miles. Several hundred miles were added last year. The total amount spent in construction and enlargement up to 1900 was \$95,316,000, of which \$74,-600,000 was expended since confederation. Canada can justly boast of having one of the most complete systems of canals in the world. The governments since confedation have con-tributed for the construction of railways and canals \$292,921,000. The total capital invested in railways and canals in Canada is \$1,100.600.000. "During 1901 Canada reached the

ighest mark in her progress. Compared with 10 years ago, her exports have doubled, having increased from \$98,000,000 to \$196,000,000, while her imports have grown from \$119,000,000 to \$190,-000,000. These figures are evidence of great prosperity. The value of farm products in Manitoba alone last year was \$40,000,000, exclusive of the revenue derived from the sale of stock, hay or root crops. During the year the Canadian Pacific sold 830,000 acres, compared with 416,000 acres in 1900. The Canada Northwest Land Company disposed of 121,000 acres, compared with 71,000 acres in the preceding year. "During last month, there were 101,-029.22 acres sold by the Canadian Pacific for \$333,852 22; for the same month in 1901, 4,614 acres were sold for \$122,-

> COAL STRIKE INEVITABLE. Pottsville, Pa., May 12.—The news

that the miners will suspend work tolay was received with consternation here. It is the sentiment that a strike is inevitable, and it is feared it will be a longer one than that of two years ago. The Schuylkill miners, who constitute the influential part of district No. 9, fought hard against a strike, but the sentiment of the upper two districts was stronger.

STRIKE DEPLORED. Scranton, Pa., May 12 .- After issuing the order for a temporary cessation work in all the collieries, and the call for a miners' convention in Hazelton on Wednesday next, the 28 members of the executive committee of the three anthracite districts of the United Workers of America hastened back to their homes. They will at once assume charge of the election of delegates to the convention, the basis of representation being one delegate for each one hundred members. This will produce a convention of more than 1,000 delegates. Whatever action is taken by the convention will be announced as unanimous. There is a general opinion that the convention will be in session several days. The business men of the anthracite region deplore the strike, and feel that its effects will be disastrous.

THE PUL-MO CO., TORONTO, ONT. CURSE OF DRINK

Cured by COLONIAL REMEDY — Can be Given in Glass of Water, Tea or Coffee Without Patient's Knowledge. Colonial Remedy will cure or destroy the diseased appetite for alcoholic stimulants, whether the patient is a confirmed inebriate, "a tippler," social drinker or drunkard. Impossible for anyone to have one to have an appetite for alcoholic liquors after using Colonial Remedy. Indorsed by Members of W. C. T. U. in United States.

Mrs. Moore, superintendent of the Woman's Christian Temperance Union, Ventura, Cal., writes: "I have tested Colonial Remedy on very obstinate drunkards, and the cures have been many. In many cases the Remedy was given secretly. I cheerfully recommend and In many cases the Inches of the recommend and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

Mrs. A. M. Townsend (for years secretary of the W. C. T. U.), Boston, Mass., states: "I know of so many people redeemed from the curse of drink by the use of Colonial Remedy, that I earnestly request you to give it a trial."

Shape-retaining

Feet widen, and contract, in walking. Shoes over-run when over-stretched. In the RESILIA shoe, however, the foot sinks down into the cushion centre-

sole when it is borne upon. This makes the shoe a size wider inside when the foot expands, and thus prevents undue stretching of the upper leather over the front part of foot.

When the foot is lifted and narrows, the insole expands again up into the shoe, from the out-sole.

It thus takes up slack in the leather, prevents creasing, cracking, and overrunning of sides.

The RESILIA shoe retains shape longer than any other kind, because it is never over-stretched across ball of foot. Observe construction beneath.

Scrofula

Is a disease as old as antiquity, and as young as the newest born infant. It has infested the blood of humanity from ancient times down to the present minute.

It is hereditary or may be acquired. It appears in swollen glands, scrofulous sores, hip disease, boils, pimples, eruptions, and, as believed by high authorities, even in the forms of catarrh and rheumatism.

It can be cured by taking Hood's Sarsaparilla faithfully and persistently. We know this, because Hood's Sarsaparilla has done it.

It will cure you if you give it a trial. You should begin to take it today. Hip Disease-"I suffered from hip disease; had 5 running sores; used crutches and each winter I was confined to my bed for weeks at a time. TRIBUTES TO REV. DR. GRANT

From Many Prominent Men of the Country.

Messages of Sympathy for the Bereaved Relatives - Kind Words From Premier Ross and Hon. David Mills.

Kingston, May 11.-The remains of Principal Grant, garbed in academic suit, rest in a plain black coffin in the drawing-room. There are no flowers, and everything is marked by the greatest simplicity, a thing the principal greatly loved in life.

Telegrams of sympathy are pouring in from all over Canada and the United States to Mr. W. L. Grant, son of the following:

Sir Wilfrid Laurier - I have heard with deep sorrow of the death of your father. The loss is not yours only. Canada loses a most valuable citizen." Principal Caven, Knox College, To-ronto says: "My deepest sympathy with son and relatives in this great sorrow.' Dr. Parkin, Upper Canada College, Toronto—"Accept our sincerest sympathy. By your father's death Canada has lost on of her greatest sons and best citizens."

FROM PREMIER ROSS. Hon. George W. Ross said of the late

Dr. Grant: "Canada has lost one of its great men in the death of Principal Grant. Not only did he exert a great influence educationally through the university of which he was principal, but he also exerted great influence on the public opinion of the whole provon public questions outside university matters. Principal Grant stood pre-eminently for individual liberty of opinion, and signalized his attitude in that respect by courageously expressing his own opinions, whether he believed they were approved by the majority or not. In the counsels of the Presbyterian Church, in which he was a prominent figure, he ranked among its foremost men, and never hesitated even to take the unpopular side in defense of his convictions.

"For the last decade he had adopted with a great deal of enthusiasm that larger view of imperial matters which has recently taken such strong possession of the Canadian mind. To him the empire was a unit and its best interests could be served by so considering it. He insisted upon the colonies expressing their loyalty to the empire in a practical way, particularly in matters of trade and commerce. His imperialism was the expression of that larger loyalty which he felt was due to the

colonies of the empire. "In national affairs Principal Grant played the part of a peacemaker. MR. JUSTICE MILLS. Mr. Justice Mills paid the following tribute to the late principal: "I re- fax. gard Principal Grant as among the cleverest of men in the matter of education, and his death will be a severe loss to Queen's University especially, and to the cause of education generally throughout the province. Principal Grant was a very broad-minded man as well as a first-class educationist. He was the head of Queen's for 25 years and today the university is twenty times stronger than when he first became principal. He has shown great ability in the selection of the staff by which he has surrounded himself. Many of the professors in the buildwho would take a prominent position in their respective departments in any institution in Christendom. Professor Grant has done a great deal for Kingston and that district, and not a little for the whole Dominion, for his professional services at Kingston have proved a stimulating force in every part of Canada. The death of Principal Grant will be a very great loss to Canada, and I do not know who there is of the same ability, enterprise and enthusiasm to take his place. He has not only exhibited a great deal of ardor in the work in which he was engaged, but he has inspired others, and he leaves his mark for good upon this country for many years to come.'

Biographical Sketch.

The Very Rev. George Munro Grant, D.D. known to all of Canada by his title as 'Principal' Grant, was born at Albion Mines. Pictou county, N. S., on Dec. 22, 1835. He received his education at the Pictou Academy and at year 1853, he received a bursary that entitled him to a course in the University of Glasgow, at which his career was distinguished by exceptional brilliancy, and at which he carried off the lord rector's prize for the best essay on Hindoo literature and philosophy, as well as being first in clasmoral philosophy and chemis-ORDAINED.

He was ordained to the ministry in November, 1860, and, returning to his native province, was appointed in the following year to be a missionary in Pictou county, being afterward sent to Georgetown, P. E. I.

In May, 1863, he accepted the pastorate of St. Matthew's Church, Halifax, where he remained fourteen years. While at Halifax he was a director of Dalhousie College, a trustee of the royal palace. Theological Seminary, a member of various committees of the presbytery and the synod, and filled different offices in many benevolent societies.

In 1872 he accompanied Sir Sandford Fleming in his journey overland to British Columbia, concerning which he published, in 1873 his successful work,

"From Ocean to Ocean." PRINCIPAL OF QUEEN'S. In 1877 he was appointed principal of Queen's College, Kingston, receiving from Glasgow University. His first work in connection with his new appointment was to place the finances institution on a sounder footing than they had been hitherto. He quickly inaugurated a building and endowment scheme, and succeeded in raising the sum of \$150,000 for the purpose, to which he added at different periods since that time sums of money aggregating \$250 .-000. As principal of the university Dr.

AS TRAVELER.

In 1888 Principal Grant went on a Journey around the world, lecturing in Australia and other places. In 1889 he was elected moderator of the Genequally conciliatory in his attitude to-ward the great republic to the south. Church in Canada, and also president of the Imperial Federation League, Kingston. In 1891 he was elected president of the Royal Society of Canada, and in 1894 President of St. Andrew's Society, Kingston, being re-elected to the latter office in 1895-96 He was honorary chaplain of the 47th Regiment, and in 1892 was made an LL.D. of Dalhousie University, Hali-

The late principal's most recent honor was that of C. M. G., for which he was recommended by His Royal Highness the Duke of Cornwall and York. His illness, however prevented him from proceeding to Ottawa to be formally invested with the order.

AS AUTHOR. Besides "Ocean to Ocean," Principal Grant was the author of a number of theological and political works, including "New Year Sermons," 1865-66: "Reformers of the Nineteenth Century," 1867: "Our Fine Foreign Missions, "Advantages of Imperial Federaing are men of a very high order, tion," 1889; "Our National Objects and Aims." 1890: "The Religions of the World in Relation to Christianity,"
1894; "The Religions of the World," 1895. In 1882 he also edited "Picturesque Canada," the handsomest and best illustrated book that has ever been issued from the Canadian press. He has written frequently for English, Canadian and American magazines. In 1883 he went on a journey round the world, lecturing in Australia. In 1872 Principal Grant married Jessie, daughter of Mr. William Lawson, of Halifax, N.S. The result of this union was two sons, one of whom is dead, and the other, William, is now engaged in university work. The death of Mrs. Grant, occurring about a year ago, was a great blow to her husband.

FIRE GUARDS FOR RAILWAYS.

[Continued from page 1.] proposal of Mr. Demers might be a proper and wise provision, to make it involved a most important departure from existing practice and law, and could hardly be dealt with in the dying hours of the session. Mr. John Haggart objected to the adoption of the amendments without the railway companies being given an opportunity to be

heard. Frank Oliver supported the amendments, and pointed out that the public interest even more than the interest of the settlers demanded protection from the railway companies, as it was the public lands that suffered

SIR WILFRID LAURIER. Sir Wilfrid Laurier expressed his nearty sympathy with both amendments, and especially with that of Mr. Demers. He could not conceive how, if here is an organization carrying on certain works and in the course of its operations it sets fire to a poor man's property it should not be responsible. The railway companies claimed that having taken all the precautions they could they should not sustain any if it was not their fault. But it cer-tainly was not the fault of the poor man whose property was destroyed. It was a question of equity upon whom Dr. Chase's Ointment the loss should fall, and equity required that the victim of the fire should not bear the loss, but rather the company which caused it. For that reason he was in favor of Mr. Demers' amendment. He was also in sympathy with the amendment moved by Mr. Scott, but parliament might not have the power to say that the company should be authorized to go on private property. He asked the makers of both the amendments not to press them at present, not because he was not in favor of them, but because certain methods of procedure had been adopted, and he thought it better the rules should be observed and the matter thoroughly discussed in the railway committee in order that all parties could be heard. The government would see that the whole question should come up early next session in order that it could be threshed out. Mr. R. L. Borden suggested that while the evil complained of might be greater in the Northwest than elsewhere, there were undoubtedly many occasions upon which men's property had been destroyed by fire started by

railway locomotives, but the sufferers were unable to recover damages owing to their inability to show there had been neglect on the part of the company. When this question came up next session the subject of the lia-bility of the Intercolonial Railway to

the general provisions of the railway act should also be discussed,. The suggestion of the premier was accepted and both amendments were withdrawn.

In the evening \$331,000 was voted Mr. Tarte for wharves, dredging and other river and harbor works in Nova Scotia, New Brunswick, Prince Edward Island, Quebec, Manitoba and Ontario, the amounts ranging from \$500 to \$50,000.

A Physicians Testimony For Labatt's Stout.

ALEXANDRIA, DEC., 20th. 1901. Speaking from personal experience I can state that your Stout is excellent in building up the system—I was very much run down and was advised to use Labatt's Porter—this I have done for some time and I largey attribute to its effects my steady improvement in strength and weight. I deem it but justice to you, and it certainly is a pleasure to me, to add my testimony to its sterling qualities, and I gladly recommend your Stout as an excellent tonic and food in cases where such is required. WEDDED AT TORONTO.

A pretty wedding took place on Wednesday afternoon April 23 at 16 Clarence Square, Toronto, the residence of the bride's mother when Miss Annie Watson Jeffery was united in marriage to David Leonard Skeldon of Pittsburg. The nuptial knot was tied by Rev. A. L. Geggie. The bride wore a beautiful bisque crepe trimmed with white silk and applique and carried bridal roses. The sister of the bride, Miss Ethel Chalmers, acted as brides-maid, and was attired in pale blue organdie, white satin ribbon and applique trimining, white sash and pink roses. Little Vera Doole was flower girl, and looked pretty in white, carrying a basket of pink and white carnations. The bride was given away by her uncle, Mr. John Watson, and Mr. James Swann acted as groomsman. The house was prettily decorated with flowers. Miss Beatrice and Master Benedict Clarke played the Wedding March on violin and plano. The bride and bridegroom were the recipients of many beautiful and costly presents, among them being a handsdome check from the bride's uncle, Mr. John Watson, and, to the groom, a gold ring, set with a large amethyst. The groom's presents to the bride and flower girl were gold chain bracelets. A sumptuous wedding breakfast was greatly enjoyed. The young couple will reside in Pittsburg. The bride had many friends in London who wish her long life and happiness.

ELOQUENT TRIBUTE TO PRINCIPAL GRANT. FRUIT DAMAGED

Hev. W. J. Clark Speaks of the Lesson of His Life.

Rev. W. J. Clark, of the First Pres--Pte. Clarkson, of No. 1 Regimental byterian Church, made an appreciative morning to the death of Principal Grant. Three great leaders of the Presbyterian Church had been called away during the present year, all of whom had occupied the distinguished position of moderator of the General Assembly. They were Rev. Dr. James Principal Grant. He spoke of Dr. Grant as a man possessing great versatility of talent, as there was scarcely a subject on which he did not express himself fearlessly and independently, and so as to command attention. He was always manly and outspoken. Perhaps no better evidence could be had to the greatness of the man than the affection of the students for their principal. It seemed strange to think of him, so full of energy and interest in God's work, lying dead, yet it was not strange. For, said Mr. Clark, as we see ness and that there is no resurrection. No nobler tribute to his true worth can be given than to say, "He has done his day's work nobly, and well, and in God's good providence he has fallen on sleep.'

Three separate charges of stealing Says Legislation Is an Unsatisfactory Solution of Evil.

> According to the Teachings of Christ.

Rev. Canon Dann preached at St. Paul's Cathedral last evening on the text, "If meat maketh my brother to offend, I will eat no meat while the world standeth." (I. Corinthians, viii., The many friends throughout Mid- 13.) He showed that there was no andlesex and Oxford of Mr. John Empey, alogy between the circumstances of the of Thamesford, will be pleased to text and its application to the advocates of prohibition. The eating of the meat in question was a sin, but the simple drinking of wine is not. Only the excessive use of wine is a sin. The reverend speaker pointed out that prohibitory legislation was not taught by Christ. His teaching was to influence the outer life by the inner, not the inner by the outer. If this teaching was right in dealing with one sin, it was right for all. In conclusion Canon since the fearful stream of lava pour-Dann urged his hearers to take the ed down Mont Pelee. right method of overcoming intemperance; to come to Christ, and be rid of not one sin only, but every sin.

BY SEVERE FROST.

St. Catharines, May 11 .- The peach and grape crop of this portion of the Niagara district was almost entirely ruined by the heavy frost of last night. The trees and vines were far advanced and had given every promise of a heavy crop for the coming season. Pears and plums, being later, were not so badly injured, but this class of fruit will also be very scarce. All tomato and other Robertson, Rev. Dr. John Lane and plants that had been set out were ruined, and in some cases those in the cold frames were frozen. That portion of the country along the lake shore did not suffer so severely as farther inland, as the trees and vines were not so far advanced. CITY LEAGUE OPENING. The local baseball season opened auspiciously at Tecumseh Park Saturer was not of the auspicious brand. after all, with the fans. The day was dull and cold, but despite the circumstances, a very fair crowd turned out and filled the stands. The wisdom of a small admission fee was never before so apparent. Had the day been a pleasant one, seats in the stands would no doubt have been at a premium. The Aberdeens disposed of the Orients and the Rockets won from the Londons by hard hitting. None of the teams played good ball, and, considering all the circumstances, no one expected them to. It will not take them long to round into shape, however, and the baseball-loving public may look forward to a good season's sport. Umpire Reid gave the utmost satisfaction in both games. The scores:

TURE. THE KING'S PLATE CANDIDATES. Says the Toronto World: Recent trials at Woodbine Park would go to show that the coronation King's plate should be a very open race, and yet simmering down all the doings, would indicate that the struggle at the finish would be, as usual, between two horses

of Hendrie and Seagram, with the chances as pointed out here a month ago in favor of the Waterloo stable. Hamilton will depend alone on Maple Sugar, while Seagram will have Oneiros, Fly-in-Amber and Elcho and they may run 1, 2, 3, as one close folower of the game suggested yester-

Cardigan's trial feats have forced his followers to feel assured of cashing all the show bets, and many of these supporters have sufficient faith in the validity of the performances to back Denny Higgins' candidate clean off the winter books. So it is with the Hendrie favorite, while Oneiros is still selling at 2 to 1. Wise money has also gone in on Fly-in-Amber, with Seagram's Elcho, like Hendrie's Lyddite and Scotland Yet, unbacked.

The Toronto books stand to \$8,000 on Cardigan in \$50 and \$75 bets at 50, 30 and 15 to 1. Five hundred went in on Maple Sugar at 5 to 1. Mr. Moyes' Lady Bevys and Dolly and O'Neill's Golden Way are the long shots that have been backed. Some one will get rich if Reinhardt's entry wins this year's King's plate, as an early bet of \$20 was placed at 500 to

on Saturday, after a four-months' illness. Mrs. McPherson was born in Scotland, and came to Canada when scotland, and came to Canada when quite young. After her marriage to Mr. John McPherson, they lived for many years on con. 8 of Westminster township. They removed to St. Thomas and later came to London, residing here for the past five or six years. Mrs. McPherson is survived by her husband, one son, John McPherson, jun., of St. James street, and two daughters, Mrs. Macdonald, widow of the late Norman Macdonald, of St. Thomas, and Mrs. Fisher, residing in Scotland.

IS SERIOUSLY ILL. Mr. Clare Ferguson, the manager of Sleeman's Brewery office here, is reported to be seriously ill. He is suffering from a complication of pneumonia and typhoid fever.

DEATH OF HY. MONTEITH One of Westminster township's most respected old residents passed away yesterday in the person of Mr. Henry Monteith. He was born in Ireland nearly 61 years ago, came to Canada when a child, and had lived in Westminster township about half a century. Besides his wife, a family of one daughter and three sons survives him — Mrs. John Scott, Delaware; Albert, also of Delaware; John, of this city, and Tyler, at home. The funeral tomorrow afternoon will be attended by the members of Lambeth Lodge, A. O. U. W., to which Mr. Monteith belonged.

CHEESE MARKET OPENED SATURDAY.

Attendance Was Light and the Offerings Lighter. The London cheese market opened Saturday with a light attendance and

no cheese offering. Cheese is so scarce that the buyer is seeking the seller, nstead of the seller looking for a buyer.

The election of officers resulted as E. S. Hunt, of Lambeth, elected pres-

ident for third term; J. W. Crinklaw, of Delaware, vice-president; J. A. Nelles, secretary-treasurer; J. S. Pearce, auditor; board of directors, Messrs. John Brodie, James Thomas, Thomas Ballantyne, jun., S. P. Brown and John Sullivan.

President Hunt referred to the death of John W. Cooke, of Ingersoll, for years a cheese buyer at the London market, and to the late J. T. Coughlin, of Glanworth, one of the old-time salesmen. A committee was appointed to draft and forward resolutions of condolence to the bereavel families. The only matter discussed was that of having coverings for cheese wagons, in transporting cheese. Mr. Isaacs announced that he would pay for no more cheese that came wet to the sta-

The buyers present were Messrs. John R. Isaacs and T. B. Millar, London; R. A. Simister, J. B. Mür, R. F. Rundle and A. H. McDermott, Ingersoll, and T. Ballantyne, jun., and J. B. MacLaren, Stratford.

Village is Disturbed Over Whereabouts of Aifred Cumming.

Residents of London township, a district which in the past couple of years has furnished more than one newspaper sensation, are now perplexed over the Cumming, general storekeeper and postmaster at Arva, the pretty village six miles north from London. Mr. Cum-ming, who is 70 years of age, left his home on April 17, intending to come to the city with some eggs and other some bills at London wholesales. Since then Mr. Cumming's whereabouts have been a mystery, and diligent search has failed to discover any trace of him. His son in Chicago came to Arva and made diligent search wherever it was thought possible his father might have gone, but to no avail. Detective bureaus were notified, anl they also have taken steps to locate the missing man, but so far without result.

No reason can be adduced for Mr. Cumming's disappearance, as he was in good financial circumstances and enloyed good health. Me was an old re-

MEAT QUESTION SETTLED

Right Food to Take Its Place.

"The shortness of the meat supply and the high price of steak is not an unmitigated evil. On the contrary it is a probable blessing," says the

Brooklyn Eagle.
"If meat could be raised to a price that would make it prohibitory, it might still be of good result, because it would teach those who depend almost entirely upon it to widen their dietary and learn to enjoy many good things of which they are now ignorant. To many, especially in the cities, there are but three foods; meat, potatoes and bread. The weary nonotony of this programme, the unsatisfied but indefinite longings for a

widening of it, affect appetite and surely affect spirits and temper. "The laborer goes to his work filled with meat, potatoes and bread. At noon he finds cold meat and bread in his dinner-pail and at night he is confronted by meat and potatoes, sometimes separate, sometimes combined

CIRCUS COMING ON WEDNESDAY

Dayolheasala's Imperial Railroad Caused by the Recent Earth-Show to Exhibit Here.

Management Guarantee to Satisfy The Whole Northwestern Region Re-Their Patrons-Some Sensational Features.

The proprietor of Dayolheasala's Imperial Railroad Show, which gives afternoon and evening exhibitions in this city on Wednesday next, claim that there is no show on the road whose management is more zealous in providing comfortable seats and accommodations for its patrons. The most ample arrangements are made to prevent the annoyance of overcrowding, and every appliance is provided for the convenience of patrons, and to positively obviate the necessity of any visitor standing and thus obstructing the view of others. The officers in attendance will be found uniformly courteous and polite. Capable and efficient ushers have been engaged to escort ladies and children to the most comfortable and eligible positions. The show is said to be a most complete and up-to-date one. Its claim to the latter title is evidenced by the fact that one of its many features is the sensational cycle whirl, a thrilling acrobatic act, never yet seen in this city which has been the rage in vaudeville performances for a year or more. Another pleasing feature will be Col. Schult's \$25,000 troupe of performing Great Danes. The show will exhibit at the Chapter House grounds on Richmond street, just north of the C. P. R. This central and convenient location should result in the show receiving a generous

ported To Be in Ruins—Thousands ef Persons Perished.

Salt Lake City, Utah, May 12 .- In letter to the presidency of the Mormon Church, dated April 23, from Paul Kenning, elder and representative of the church in Guatemala, further details are given of the disastrous

earthquakes in that country. "The whole northwestern region," says Mr. Henning, "one of the richest in Central America, is in ruins. On the evening of April 18, about 8:20 o'clock, the first shock was felt. This lasted from 30 to 40 seconds, and caused the wildest panic. There was no loss of life in Guatemala City and the property damage was less than at first feared, though walls were cracked all over the city and many houses were tumbled in ruins. Since then the shocks have continued with more or

less violence. The worst damage was done in the City of Quesaltenango, the second largest in the country. Here it is estimated that from 5,000 to 6,000 peo-ple were killed. At the time of the first shock a violent storm and rain was raging. The electric lighting plant of the city had been disabled, and when the people, panic-stricken by the rumbling and shaking of the earthquake, rushed from their houses, it was only to meet death. Stumbling and falling in the narrow, winding streets in total darkness, save when the lightning lit up the crumbling city with an unearthly glare, the people died by thousands under the falling walls, while other thousands were caught like rats, only to die of suffo-

cation or drowning.

The quaking and rain kept up continually for three days. This made it almost impossible to do effective relief work, and as a consequence, now that the hot weather again prevails, the stench from the thousands of dodies in the ruins is unbearable.
and fears are entertained of an epidemic. Hundreds of bodies probably never will be recovered.
