According to the secular press th Voman's Club topic is a delicate on to touch upon. It seems to be on of the live wires of society, charge as it is, with awe for womankind and popular indulgence in dealing with Now and then inine whims. hard knock is given to women's orga nizations in general, and immediately the culprit is invited to step out on

the carpet and defend his honor. We are liable to make sharp accu sations when we view a thing in its extremes, and there is nothing in the wide world that has not tasted of bitter absurdity and ridicule. And although it would be unjust to con demn every woman's club without exception as silly and dangerous to the home-for any little band of wo men might be called a "club" SC long as there is some object in view -certainly some of the wildest, wickedest, cruelest and most heartles theories are put forth in more than one of the many clubs of women this our day of brain strenuosity Holy Writ tells us that charity is kind and that it is patient and that it "endureth all things." Whem women club together in a charitable

There are many societies organize in the name of charity and in the name of other "uplifting" and "elevating" things which are but thorns in virtue's side. Their origin is sometimes sincerity puffed up to extremes; sometimes heightened vulgarity, and often it is an unnatural ambition for queerness by queer individuals.

What a counterfeit of womanlines is presented in a gathering which has for its purpose the crushing into shapele ness every consistency nature ! Picture a woman frequent ly leaving her home and children and preaching to her sisters on the "Up lift of Society" or "How to Have a Model Home !" It would be more in accordance with a home-loving woman to suggest to her sisters that she and they stay at home as much quietly and swiftly to the great needs as possible unless it be convenient to of the sufferers. have both husband and children ac-

company them on their pastime tours. I don't mean to claim that it is improper to seek advice from vomen in women's gatherings. There are many women who are intellectual and penetrating, observant in home improving ideas; but once a woman has chosen the vocation of wife and mother her place is not the lecture platform. The old rhyme tells us that

'Man works from sun to san, But woman's work is never done."

Of course the woman's work referred to in the couplet means her work in the home, and I believe the wo man is rare who does not love that quotation. I quite agree with them, too, and sympathize with them, and that is good reason for me to argue that there is a contradiction in the attempt to be a public lecturer, or a requenter of clubs, and be a model style, are they ?" she asked, when home-manager, with or without sen vants.

I will repeat that there are many women who, possessing more know-ledge of things in general than the average housekeeper, are fitted by their superior ability to teach house hold hints and hold discourse for the penefit of women wishing to improve conditions in their homes. Women

Ottawa, May 20. On Tuesday evening last the D'Youville Reading Circle held its final regular meeting of the season. Current events were summed up, and reference made to the very delightful lecture given last week by Mgr. Vay de Vaya, and his impressions of the Far His words were recalled which he said that it was the duty of every one to hope and pray for peace. A resume of the year's work was made and conclusions drawn from the studies followed since last October.

Three very charming books were reviewed. In "Adventures Among Books," by Andrew Lang, that clever writer and critic has his say about contemporaries, and says it very well. All who have read "Eliza, beth and Her German Garden," and 'A Solitary Summer," will eagerly welcome another book from the pen of that gifted woman, who possesses the knack of telling things in such a simple and clever way and makes everything so interesting. "Advent sures of Elizabeth in Rugen" will prove delightful summer reading and vastly superior to the great mass of stuff usually in demand on the verandah of summer hotels. A book which every woman ought to have and read is Miss Tooley's "Life of Florence Nightingale," the organizer of the Red Cross during the dreadful Crimean days. It is pleasant to think that Miss Nightingale, who did such brave work half a century ago, is still alive at 84 years of age, and was most likely able to revis 'Life," thus making it something of an autobiography. In connection with this subject, the little poem by Longfellow entitled "The Lady With the Lamp," was recalled, in which he refers to the noble work of the little oand of army nurses in the Crimea. There were no electric lights in those days, and it must have been a beautiful picture to see Florence Nightingale or one of her thirty-eight companions walking, lamp in hand through the crowded wards, tending

SAFETY FOR CHILDREN.

Mothers should never give their little ones a medicine that they do not know to be absolutely safe and harmless. All so-called soothing medicines contain prisonous opiates that stupefy the helpless little one withouts curing its ailments. Baby's Own Tablets is the only medicine for infants and young children that gives the mother a positive guarantee that it contains no opiate or harmful drug. Milton L. Hersey, M.Sc., (Mc-University), has analyzed these Gill Tablets and says : "I hereby certify that I have made a careful analysis of Baby's Own Tablets, which I per sonally purchased in a drug store in Montreal, and the said analysis has failed to detect the presence of any opiate or narcotic in them." This means that mothers can give their little ones these Tablets with an assurance that they will do good-that they cannot possibly do harm. The Tablets cure indigestion, colic, con-

stipation, diarrhoea, simple fever, teething troubles and all minor ailments. Sold by all druggists everywhere or sent by mail at 25 cents a

"We are ushered into a small parlor scantily furnished, with some Scripture prints upon the walls. A Sister enters to us with a bright look of cheerfulness such as faces when hearts are beating to wear some purpose in the world. She accedes gladly to our desire, and at once leads us into another room of larger size, in which twenty or thirty old women are at this moment finishing their dinner; it being Friday, rice stands on the table in the place of meat. The Sister moves and speaks with the gentleness of a mother among creatures who are in or near the state of second childhood. In the dormitories on the first floor some lie bed ridden. In England the circulation of music in libraries is a common thing, and many years ago large music dealers works, that it is worth reproducing in New York and other American cities maintained private musical lending libraries. The first public library in the United States to install such a department was the Brooklyn Public Library, now the Montague Branch of the Brooklyn

When in-1882 the novel idea of circulating music was proposed by the acting hibrarian, William A. Bardwell, the directors consented to the experiment. with some doubt as to its value. Four hundred pieces were purchased, and a few years later an additional four hundred were demanded. The library has grown slowly but steadily ever since, until at present it contains 2100 pieces. The music is all of the highest order, only standard compositions being admitted. The collection includes compositions for the piano, solos, and duets for fourand eight hands, for the violin, the organ, and the harmonium, as well as songs for all voices. Scores of practically all the standard operas and oratorios are on the shelves_ These are especially popular, the calk for them being constant during they musical season. Last winter fifteen cores of "Parsifal" were kept in active circulation for several months, while the interest in the Wagmermusic drama was at its height.

The wear and tear on them is by no means great, and the volumes are in excellent condition. Adjacent to the music shelves is a very selected and fairly complete library of mustral literature. Few books required by advanced students of music are missing, and there are a number

It is quite apparent that operaticand other scores should be desired for short periods by music lovers, but many persons will doubtless wonder that a musician should be satisfied to borrow a composition for two weeks, No ordinary performer could hope to learn and memorize a piece of classical music in that period of time unless the music were extremely simple. People of moderate means find the library a great convenience and also a means of economy. They borrow the worlds of one composer after another, keeping the volumes long enough to decide to own. CATHOLIC REPRESENTATION IN THE CABINET

Premier Gouin gives assurance that the Irish Catholics of this Province will be duly represented in his Cabinet. This is well upon the principle of better late than never. But Premier Gouin should have kept the principle of this representation alive, and not have conducted a session of the House, during which the English speaking Catholic people of Quebec could not look to his government with the confidence they had a right to entertain. It is not to personal or individual feelings that the Pre mier and the Liberal party in Quebec should look when a principle like this is at stake or held in suspension. It is to the electorate, to popular opinion, to the claims of the people There is nothing within the scope of political practical considerations upon which the English-speaking Car tholic portion of the electorate themselves as being in a measure disfranchised, and feel that there can dition of things continuing. HISTORY OF THE IRISH LANGUAGE MOVEMENT.

We publish to-day an instructive paper dealing with the history of the Irish language movement. A few weeks ago we said that the Irish in Canada have not taken in this movement the interest becoming their importance as a branch of the sea-divided family of the Gael. Perhaps one reason is that they have not been kept informed of the pro gress that has been made within the past decade in reviving and restoring the Irish tongue. It has been well said that knowledge is power. And knowledge is also incentive. The True Witness will from time to time devote its space generously to the cause of the old language in the confident hope of enlisting to its aid the sympathy of our faithful Irish Canadian people.

WINNIPEG THE WICKED.

Rev. C. W. Gordon, a Presbyterian minister of Winnipeg, better known his predecessor, so far as the applihere as "Ralph Connor," the story cation of the Associations law wa writer, has been making revelations of western immorality that have been the continent. Mr. Gordon has been treating exclusively, it would appear, of the wives and daughters of the rich class in Winnipeg. He calls these women "Society" and he describes their social functions as pandering to lustfulness, vice and depravity. There are not five women in this precious "Society," he declares, who will not receive a noto rious adulteress. They give absinth and nine different wines and liquors to young girls to drink at dinnen quote Mr. Gordon, they are more re sponsible than the saloons and bro thels for the spread of immorality in Winnipeg.

Resolved, That the Secretary be requested to convey to you and family the sincere sympathy, so fully expressed by all of the membership of

St. Vincent de Paul Society, with THE LATE REV. J. P. McGRATH. whom he worked during the past winand sudden bereavement. And we desire to join with you in your prayers, beseeching God, in His infinite mercy, to grant to your late loving kingdom beyond the earthly grave, there to dwell free from all further care and pain for evermore.

Resolved, That a copy of these resolutions be sent to the family of the deceased, and to The True Witness and Catholic Chronicle of this city.

"Eternal rest grant him, O Lord, And let perpetual light shine on him.

Dearest husband, thou hast left us, And thy loss we deeply feel, But 'tis God Who has bereft us, He can all our sorrow heal. Yet again we hope to meet thee, When the day of life is fled, When in heaven with joy to great thee, Where no farewell tears are shed. Hoping this humble effort will as sist in giving some consolation in your time of trouble, I have the nonor to be, dear madam. Yours respectfully.

REQUIEM SERVICE.

There was a requiem Mass chanted in St. Patrick's Church last Wednesday morning by the Rev. Martin Callaghan for the repose of the soul of the late Rev. J. P. McGrath

We take the following from the ter in distribution of aid to the poor P. E Island Agriculturist of May of St. Mary's parish, in your sad 20 :- The announcemeat of the death of Rev. John P. McGrath of Miscouche, which sad event occurred on Thursday last at Tignish, was quite a blow to his many friends, as about partner in life, as sudden a pardon as was his death, and deign to re-about as usual. He was a son of ceive his soul into that heavenly the late John McGrath, Lot 1, and was highly esteemed by all who knew him. Father McGrath was educated at St. Dunstan's and Laval, Quebec. He was for several years stationed at Montreal, but was, owing to ill health, compelled to live in a more congenial climate, so he went south for a year, and then came back to his native province. About a year ago he succeeded Rev. J. A. Mc-Donald, of Miscouche, during which time he appeared to enjoy comparatively good health. He was only 38 years of age, and leaves a mother, five brothers and six sisters to mourn. One brother, Joseph, is at McGill, Capt. James is at Tignish, and Dr. McGrath, Bloomfield, is another brother. The sisters include a Sister of the Resurrection at Newcastle, N.B., Sister St. John and Sister Winifred in Charlottetown. Another sister is in Prince of Wales College. Two brothers and two sisters are at home.

HIS GIFT TO THE LORD.

(From the Toronto Star.)

Yesterday he wore a rose on the lapel of his coat, and when the plate was passed he gave a nickel to the Lord. He had several bills in his pocket, and sundry change, perhaps dollar's worth, but he hunted about and, finding this poor little nickel, he laid it on the plate to aid the Church Militant in its fight against the world, the flesh, and the devil. His silk hat was beneath the seat, and his gloves and cane were beside it, and the nickel was on the plate -a whole nickel. On Saturday afternoon he had a gin rickey at the 'Queen's," and his friend had a fancy drink, while the cash register stamp ed thirty-five cents on the slip the boy presented to him. Peeling off bill, he handed it to the lad, and gave him a nickel tip when he brought back the change. A nickel for the Lord and a nickel for the waiter ! And the man had his shoes polished on Saturday afternoon and handed out a dime without a murmur. He had a shave, and paid fifteen cents with equal alacrity. He took a box of candies home to wife, and paid forty cents for them, and the box was tied with a

had a debate in the. British House o Commons on the subject of university education in Ireland. The re sult of that debate furnishes latest and strongest proof of the utter falsity and hypocrisy of the chief Tory argument against the claim people for national self-The argument, if it be government worthy of being so-called, is the Imperial Parliament is willing to do full justice to Ireland-willing to legislate justly in regard to all Irish questions and interests-willing. in short, to do every good for Ire land that a Parliament established in

Dublin could or would do. was the alternate of the That to Mr. Gladstone's Home Tories Rule. They (the Tories, or Union ists, as they choose rather to be designated) declared themselves reso lutely and irrevocably opposed Rule, but at the same time they declared themselves ready give Ireland everything she could ain by Home Rule. This was the Unionist position as against Gladstone's programme. It is the Union ist position still. At least the party led by Mr. Balfour still profess that while against Home Rule, they are willing to give Ireland everything else in the shape of good govern-

Now, of course, we all know very well that this is not so. We kno the Unionists are not willing to do anything of the kind. But suppose ing they were; supposing the British Parliament were really willing to redress all Irish grievances, to right all Irish wrongs (except the wrong of the Union), to make all laws tha Irish interests require; supposing the British Parliament would rule Ire land, for the good of the Irish, as it rules England in the interests of th English; supposing all this granted would it be a sufficient reason why the Irish should accept and be con tent with that rule and not seed for the right of self-rule ? Certainly it would not. Under any circun stances whatever Ireland would being ruled by England. against Though England's government in Ireland were as good as it is notorious ly bad, the Irish people would stil reject it. They would still hold to, and insist upon, and strive by all legitimate means to force the conce sion to them of the inalienable right of being masters in their own coun No civilized people have even been satisfied with rule by another people. No people have ever been prosperous under such rule. The thing is against nature. Nationality and what at implies are of divine institution. God has made nations and laces of men to work out their own destinies and their own happiness in their own way. Why should Ireland and the Irish race be an exception, as Michael Davitt thus em phasizes the question in his recently published book :

A few weeks ago (on April 13) they country. Of this university, which is known as Trinity College, a dis tinguished judge-Lord Justice Fitzgibbon-a former scholar and student of the College, spoke these words in 1891: "Our university was founded Protestants for Protestants, and ir

the Protestant interest. A Protest ant spirit has from the first animat At the present moment the ed it. guardian spirit of the place is Pro testant, and as a Protestant I say, and say it boldly, Protestant may it ever remain." It is only right, however, to not

that the man who thus described Trinity College was willing that the Ca tholics of Ireland should have equa advantages in the form of a university which they could make use o without violation to their conscienti ous convictions, for in the same speech he said :

"If Trinity is to be made safe from disturbance, it should rest on the foundation of justice, and that can only be laid by the State providing for others (the Catholics) what Que Elizabeth and King James provided for this place (Trinity College)." Needless to say, the State has no yet laid that "foundation of justice" and the other day it declared in the House of Commons by a large majo rity that it has no intention of do ing so. Queen Elizabeth founded Tri nity college on the confiscated tates of Catholic Irishmen-valuable landed property in many Irish coun ties, north and south. That pro perty of Irish Catholics Trinity Col lege still draws the revenue of for the educatianal benefit of the Pro testant minority, but not one cent

of State money is expended on university education for the Catholic majority. A few years ago Prime Minister Balfour wrote a public let ter, in which he described Trinity College as follows "The vast majority of students in

that great university are Protest ants. Protestant services are ex clusively performed in its chapel. The whole of its teaching staff is Protestant, and the eminent theolo gian who is at its head (the Provost or President) is not least distinguish ed as a brilliant Protestant cham pion in the controversy between Protestantism and Rome.

That was written in 1899. But there is a much later utterance from Mr. Balfour which even more strong ly emphasizes the Catholic position and demand. In the debate on April 13, Mr. Balfour made a long speech in the course of which he said : "Trinity College has been actually

and by statute for the greater part of its history, and since 1873 by cha racter and complexion, a Protestan institution. Many Roman Catholics I am glad to think, have gained by its teaching, but the flavor of institution, the atmosphere of the university is and always has been

Protestant. Is there any Protestan "Why should not the Irish people in this House who sincerely wishe the natural inference ? The only in ference is either that they are pre pared serenely to say that Roman Catholics shall have no higher education, or they are to provide some other machinery than Trinity College by which that education shall be

in this matter, Mr. Balfour spoke a follows :

"It is asserted by some that th honorable members from Ulster (th Protestant party) are the only ob stacle in the way of a solution that were so we would be within measurable distance of a solution ecause, earnest and devoted these honorable members are. I d not believe they would, or could stand up against the general opinion of the majority of England. Scot land and Ireland. The difficulty o this question is not Ulster. The dif ficulty is Great Britain, and that is the only thing which makes me take so dark a view of this controversy It is only by slow degrees that w can convert popular feeling on thi

subject. It is the conversion of England and Scotland that is nece ary, and when that is done, you wil find that Ulster will gladly ac quiesce.

There it is, plainly avowed. Grea Bnitain cannot be persuaded to ope cede the just demand of the Irish The demand is that Iris people. money be spent on Irish university education in accordance with the needs and desires of the Irish people British money is not asked for-only the application of Irish money for a just and proper Irish national pur pose. This Great Britain refuse The British Parliament refuses. Here is the form in which the Irish mer bers put their case on April 13 :

"That in the opinion of this Hou the provision for universities in Ire land is totally inadequate, and non can be regarded as equitable whic does not secure for the Catholic equally with other members of th mmunity facilities for university education without violence to their religious feelings."

This resolution the House of Con mons rejected by a more than two to one majority. The vote was 104 for and 263 against, which means only about twenty British member in favor of the Irish claim, for o the 104 votes for the motion 70 o 80 were Irish, the full strength of the Irish party being 81, of whom however, some few might have been necessarily absent. Only about score of British members, then, ou of a total of over 500 were there to vote for justice to the Irish Catholic people in a matter of high nationa concern, and of all those who wer there nine-tenths voted against th justice. It is perhaps but fair te remember that some of the English Liberals, while opposed to the Iris Catholic demand in regard to univer sity education, are in favor of Hom They are against what the call "Sectarian" education, but the are willing to give the Irish people a legislature of their own in which to settle the question of education and all other Irish matters in their ow

The latest illustration is the result of the recent debate in the House of Ommons on the university justion what the Catholic people of Ireland —the great majority of the popula- tion—ask in this matter is well known. They ask for no favor or special privilege. Their demand is in facilities for university education that is meted out to the Protestant minority. WEAK LUNGS

Williams' Pink Pills.

If your blood is weak, if it is poor and watery, a touch of cold or influenza will settle in your lungs and the apparently harmless cough of to-day will become the racking consumptive's cough of to-morrow. Weak blood is an open invitation for consumption to lay upon you the hand of death. The only way to avoid consumption and to strengthen and brace the whole system is by enriching your blood and strengthening your lungs with Dr. Williams' Pink Pills. They make new, rich, warm They add resisting power to blood. the lungs. They have saved scores from a consumptive's grave-not af ter the lungs were hopelessly diseased, but where taken when the cough first attacks the enfeebled sys tem. Here is positive proof. Mrs Harry Stead, St. Catharines, Ont., "A few years ago I was says : attacked with lung trouble, and the doctor, after treating me for a time, thought I was going into consump tion. I grew pale and emaciated, had no appetite, was troubled with a

hacking cough, and I felt that I was fast going towards the grave. Neither the doctor's medicine nor other medicines that I took seemed to help me. Then a good friend urged me to take Dr. Williams' Pink Pills. By

the time I had used four boxes was plain that they were helping me. I began to recover my appetite, and in other ways felt better. I took six boxes more, and was as well as ever, and had gained in weight. I believe Dr. Williams' Pink Pills saved me

UNPARALLELED EXCITEMENT in the town of Caen, though it has been passed over without mention by the English newspapers in pursuance of that policy which has rightly been stigmatized by a contemporary as a conspiracy of silence. For the bene fit of English readers who may be unacouainted with the peculiar methods of the present French Government I propose to give the particulars as related in the French papers A Caen correspondent writes : *11 had been decided in consultation with the Mayor that the transport of th hallowed remains of the Ursuline Nuns should take place on April 6th at 2 p.m., attended by a cross-bear er and priest in surplice.

"THE BISHOP OF BAYEUX had himself invited the clergy and faithful of Caen to join in the ceremony, and had promised to be present at the cemetery to bless the newly made graves. The legal re presentatives of the families of the deceased religious had taken all the steps necessary for the exhumation of the bodies; letters de faire part and the ordinary notices to the papers had been sent, and all was prepared. On Wednesday, however, at 4 p.m., the Prefect of Calvados, fearing the profound emotion that would naturally be excited in the people by the sight of the mournful ceremony, called upon the Mayor to forbid the interment. The Mayor refused with tignity, whereupon the Prefect took it upon himself to do so. Thus the bones of the exhumed bodies

More than two thousand persons flocked to the convent, where M. Legrand, Cure of St. Pierre, de livered an address and invited the crowd to chant with him the 'De Profundis.' During this M. Souron the liquidator, entered the convent and barred the door behind him when cries of 'A bas Souron !' and 'Vive la liberte !' were heard.'' His Lordship the Bishop of Bayeux has addressed the following letter, dated Caen, April 6th, to the Prefect Calvados :-- "M. le Prefet,-It is with profound regret that I have received the news of your order of yes terday

on the tyrannical action of the Prefect of Calvados and his scandalous infringement of Catholic rights come lurid accounts of the late serious riots in Limoges, and especially of the funeral-civil, of course-of the victim of the strike shot down by the military during the emeute. The coffin of the deceased was borne

through the streets of the town attended by a tumultuous concourse of over 20,000 strikers and their friends, all the trades unions being represented. Far from the demonstration being discouraged as calculated

to disturb the public peace, the Mayor himself headed the cortege, followed by the Socialist deputies who had come from Paris for the purpose. From this it will be seen that though a valiant Prefect may intervene to prohibit a Catholic funeral headed by a cross-bearer and followed by decent mourners, the powers that be think twice about interfering with the proceedings of an incendiary mob flaunting the red flag of anarchy, and bawling such revolutionary songs as the Carmagnole and the International. Only a day or two before he was buried with civic honors under the personal auspices of the Mayor of Limoges, the man had been
