Cultivating WEEDS

wouldn't be considered very profitable by the farmers, yet thousands of merchants are cultivating the weeds of business by continuing the Old Style Pass book—errors every day. Forgotten charges. Hundreds of little things make a big aggregate amount. Adopt the modern ALLISON COUPON SYSTEM and throw away your time-wasting devices. Look here—

If a Man Wants Credit

for \$10, give him a \$10 Allison Coupon Book, charge him with \$10, and there you are. No trouble at all. If he buys a plug of tobacco for ten cents, just tear off a ten-cent coupon—that's all. And so on for all his purchases up to limit of the book. **NO PASS BOOK. NO WRITING. NO TIME LOST. NO KICKING.** There are other Coupon Books, of course, but why not have the best? Let us send you a free sample.

YOUR INQUIRIES ABOUT THAT TRIP
YOU ARE GOING TO TAKE TO THE

British West Indies

this winter. We have just issued a booklet telling what some people saw and did on the same voyage last winter, and if you write us we will send you one.

THERE IS NO MORE DELIGHTFUL
WAY OF SPENDING SIX OR SEVEN
WEEKS THAN ON SUCH A TRIP AS
THIS. THE WHOLE COST FROM
HALIFAX AND RETURN IS \$130.00.

Pickford & Black - Halifax.

*First,
Last
and Always!*

Quality is the keystone to success. "First, last and always" it is *quality* that counts. You can deceive yourself into thinking otherwise, but it doesn't pay in the end. There is no time like the holidays to prove this to your satisfaction. People are seeking for the highest quality *now* as never before ---are you going to disappoint them by selling inferior goods?

*Moir, Wilson &
Co's Scotch Fish*

Herring and Tomato, Herring and Mustard, Kipperd Herring, etc. They stand at the very top notch for quality in England, where they are packed.

Every can or tin is as near perfection as money, skill and experience can make it. Year after year the Moir, Wilson goods maintain their reputation in the front rank. They are A No. 1 "first, last and always."

*"Griffin" Brand
Dried Fruits*

Seeded Raisins, Prunes, Dried Apricots, Peaches and Pears. The product of the finest orchards on the Pacific Coast. They reach you in the original package, just as they leave the hands of the growers and packers.

They are not shipped in bulk and then put up in fancy packages—they reach you at first hands. Nothing finer can be produced than the "Griffin" Brand. It is the standard for highest quality "first, last and always."

Sold by leading wholesalers everywhere.

Stealing Your Profits Every Time You Use Your Scales.

The Toledo Springless, Automatic, Computing Scale, "The Scale with Brains," is the only scale in the world that positively stops the giving of **DOWNWEIGHT**. It is the only Automatic Computing Scale in the world without springs. No hand operation in weighing; no prices to set; no levers to move; no weights to lift; no poises to shift; you simply place the article to be weighed on the scale, and the scale instantly and automatically shows in plain figures:

1. The weight of the article in pounds and ounces.
2. The price per pound.
3. The total value of the article in dollar and cents.

It is a mechanical wonder, marvelous in its Simplicity, Sensitiveness, Accuracy and Rapidity of Operation. Made in many styles and sizes for all kinds of stores. Write to-day for illustrated catalogue.

MONTREAL AND TORONTO, NOVEMBER 7, 1902.

No. 45.

GOOD ADVERTISING.

A LARGE bread manufacturer in Toronto is at present announcing his intention of giving prizes for the best advertisements of his bread, written by the school children of the city. There is no entrance fee; only the children are advised to try a loaf of the bread before writing their copy, so that they can describe its good qualities accurately.

Here is a man who evidently believes in publicity, and he knows how to get it. It is all well enough to appeal to the men and women who have to purchase the bread, but it is a stroke of policy to start first with the children. Through them the whole family is bound to become interested and outsiders as well. If the

25 Cents Will Not Buy any such Pound of Butter

Anywhere as it will at this store. Here twenty five cents buys a pound of the famous Elgin creamery butter, a butter than which there is absolutely nothing better. It always pleases pleases in lots of cases where people had tried butters till they had almost become discouraged.

We'll deliver it quickly whether it be butter or any other article that is to be found in our full stocked grocery store. Try us.

A GOOD BUTTER AD.

average contestant doesn't let everyone within a radius of two miles know what he is doing he is no ordinary child.

This instance is cited here just by way of a hint. There may be merchants throughout the country who will find a helpful idea in this scheme. While it may not be advisable for the great majority of tradespeople to attempt it, yet a good many may be in a position to put it to the test.

* * *

In looking over a pile of newspapers the other day in a vain endeavor to find some

bright and interesting grocers' advertisements, the writer came across a considerable white space in the centre of which appeared the important (?) announcement, "This space belongs to Blank, the dry goods merchant."

Looking at this so-called advertisement from a purely utilitarian point of view, what commercial advantage is it going to give Mr. Blank? Is it going to arouse the slightest interest on the part of the public in Mr. Blank's business? Pause, and think to what good purpose that white space might have been used. Surely, Mr. Blank, if he had any business worth advertising at all, might have put something in it to interest the average housewife. But no, he has lost the opportunity.

Advertising is a serious matter and should not be treated with levity. Moreover, it costs money and is expected to bring in returns. If a merchant is going to make an April fool joke of it, like Mr. Blank has done, he will have to take the consequences.

* * *

In last week's issue of The Toronto Moon, some fun was made of the great preponderance of advertising matter in the leading magazines of to-day. The periodicals were viewed from the standpoint of the advertising, as if that portion were the only part worthy of attention. When reference was made to the few pages of reading matter, they were put aside with a few remarks about their lack of interest and their uselessness.

All these may, of course, be pure and simple irony, but it has a vein of truth in it. There is no doubt that the advertising matter in the magazines has more attraction for some people than the literary portion. Even to the magazine reader the pages of advertising have a decided interest; so that all around the advertising

matter forms a fair percentage of the total value of a magazine from the standpoint of the average reader.

* * *

"Ad World" is the title of a new monthly published in Montreal devoted to the interests of the advertising public and to the study of modern office methods.

* * *

There are few things that advertising can't do, no matter how good it may be or how wisely placed. It can't restore health and strength to a broken-down business that's drawing its last breath and hasn't enough vitality to take any nourishment. It can't sell enough of a poor article to make it profitable in the long run. It can't sell very much of a good thing if an equally good and well-adver-

ENTICING.

tised thing of the same kind is sold at a lower price. And it can't do the most good anyhow unless it is pretty good itself—unless there's real thought and method in it—business arguments, interesting details, facts.

There are a few things that advertising can and will do—that it is doing right along for those who know how to use it. Advertising of the right sort will help any legitimate business under Heaven that deserves help. Backed by the right goods and prices it will do more to build up a business than any other one force known to the business world. Under its influ-

ence the small business will grow in that easy, continuous way that pays after spurts and booms are dead and forgotten. It widens and expands the big business along safe, sure lines. It will pull many a business out of the hole when it's a matter of finding a wider market for a good thing and finding it promptly. All this and more advertising has done, and is doing and will do.—American Machinist Mailing Card.

NEW MINCE MEAT PACKAGE.

The Capstan Manufacturing Co., of Toronto, are putting a delicious package mince meat on the market this season known as "English" pressed mince meat. Their reputation for first-class mince meat in bulk is well known among the trade, and doubtless their new brand in package form will meet with merited success.

IMPORTANCE OF BEE-KEEPING.

Few people in America realize the importance of the bee-keeping industry, remarks an exchange. It is estimated that Europe produces about \$18,000,000 worth of wax and honey, and that a similar sum results from the benefits conferred by the fertilizing habits of the bees. So highly is this industry esteemed abroad that Germany has 1,900,000; Spain, 1,690,000; Austria, 1,550,000; France, 950,000; Holland, 240,000; Russia, 110,000; Denmark, 99,000; Belgium, 200,000; Greece, 30,000. These countries practically consume their own honey crop. There is no reason why our consumption should not be proportionately great. The chief obstacle is the general ignorance of the value of honey as food, and the use of it only as an occasional treat, instead of an article of daily food.

The stock of Mrs. S. Langlois, general merchant, St. Samuel De Gayhurst, Que., has been sold at 69¾ c. on the dollar to L. S. Roberge, of Lambton.

TRADE IN CACAO AND BRAZIL NUTS.

THE Brazilian nut crop for 1902 is nearly all in the hands of the dealers or in transit from the fields, and an accurate estimate of the total can be made. The crop is nearly double the combined output of the two previous years. The quality has also been unusually good, and the supply has been so judiciously handled that there has been neither a glut nor a shortage in the market during the season. Prices have ruled firm throughout, and at no time has any stock accumulated. The demand from the United States increases steadily. In 1900 the United States took 44 per cent. of the crop and Europe the remainder. In 1901 50 per cent. of the crop was taken by the United States, and this year that country's purchases have amounted to 55 per cent.

The total shipments of nuts from the Amazon up to date have been 6,871 tons, of which Manaos shipped 3,778 tons and Para 3,093 tons. The most conservative estimates of the remainder of the crop place it at about 300 tons, thus making a total for the crop of 1902 of about 7,200 tons. The crop of 1900 was 2,511 tons; that of 1901, 2,808 tons.

THE CACAO CROP

The cacao market has been steady at average prices, and the demand fully equal to the supply. No crop in this country is subject to such fluctuations as cacao, and for this reason comparisons with previous crops are valueless.

The total shipments from the Amazon for the first six months of 1902 were:

	Tons.
January	314
February	310
March	409
April	408
May	562
June	587
July	300
Total	2,800

Something more than one-third was taken by the United States, and the balance by Europe. France, as usual, is the largest consumer, with Holland second. The trade with the United States is,

however, increasing, and before long that country will doubtless consume the bulk of the cacao product of South America.

FIFTY PER CENT. MORE APPLES.

THE crop of apples harvested makes a liberal total, according to the final estimate of The American Agriculturist, which, in its report of October 25, places it at 43,000,000 barrels, against 27,000,000 barrels in 1901. The present crop naturally shows some marked contrasts when compared with that of a year ago. In the older-established orchard sections in the Middle and Eastern States the increase over last year's failure is very pronounced. In the Central West there are also sharp gains, while in the Southwest, a territory last year favored by exceptionally good yields, the crop this season is unusually deficient. As for quality, this is far from satisfactory in the Central and Western States. In the east apples range from very poor to exceptionally good, with liberal quantities in the aggregate suitable for autumn and winter storage. The Michigan crop is not a full one, yet there is a liberal surplus, with quality uneven. Ohio has a good many apples for shipment, so with Missouri, while Arkansas and Kansas are far behind last year. New York, the most important apple State, has a big crop, yet less than the bumper yield of 1896. The outturn in that State is very uneven in quality. The crop in New England is very much better than last year when it was a failure. The Canadian crop varies greatly in quality, but the total yield is liberal, with the exception of Nova Scotia, which this season faces a failure. apple buyers were in the field early, and the campaign has been active. Within the past fortnight prices in many instances have shown a slight hardening tendency, particularly for varieties of well-selected apples.

S. H. Caswell & Co., bankers and general merchants, Qu'Appelle Station, Man., are opening a branch at McLean.

TRADE CHAT.

LOCK BROS., commission merchants, Winnipeg, have been incorporated into a joint stock company, with a capital stock of \$300,000, to deal in fruits and vegetables. The first directors of the company are: T. K. Lock, W. G. Lock and A. F. Lock.

Symon & Son have opened a new store at Warton.

G. Kempt has started a grocery and provision store at Warton, Ont.

Several Charlottetown men made \$10 a week in the oyster fisheries during their spare time.

Now that the cheese-making season is over, the Stewart cheese factory, P. E. I., has started butter making.

J. P. Webber has opened a grocery store at the corner of Victoria Road and Dominion street, Port Sydney, C. B.

J. J. Barker, the bookkeeper of the Hudson Bay Co., Fort William, has taken the place of Jas. Jackman, the late manager, who has retired.

The Gagetown Cheese Factory, Fredericton, N.B., shipped 228 boxes of cheese weighing 16,427 lb. This is the largest and last shipment of cheese.

The Dominion Paper Box Co., Adelaide street, Toronto, are going to build a factory on King street west, next to the Toronto Lithographing Co.

Refined cotton seed oil has been placed on the free list by an Order-in-Council.

Refined cotton seed oil is a substitute for olive oil in canning sardines.

Patrick Gallery, late of Gallery Bros., bakers, Montreal, died on Sunday of Bright's disease. Deceased leaves a widow, two daughters and three sons.

Fraser & Davis, pork packers, Halifax, have started a bean cannery. They are conducting it on a moderate plan as yet, but will make it more extensive next year.

G. E. Davidson will erect a 40,000 bushel elevator, located on the old stock yards at Manitou. It will be up-to-date in everything, and will be completed about the 1st of December.

Leslie & Wilson, of Saskatoon, N.W.T., have completed their mill. It is lighted by electricity. It has large fields for business, the nearest grist mill being 20 miles distance, at the Hague.

It seems likely that Warton will get the fish hatchery. The Department have written to the Board of Trade. Messrs. Campbell, Bowman & Holiday are using their influence toward the scheme.

The British apple crop was very poor this season. Last month Canada's export to Great Britain was 100,000 bbls. The cheese trade, too, is increasing. The home factories' output is reported small.

J. D. Roberts has accepted the position of general advertising agent for the Blue Ribbon Tea Co., and will leave for Toronto about December 1st. Chas. Peter, of Winnipeg, takes his place in Vancouver.

Goldie-McCulloch Co., Galt, Ont., will supply the machinery for the Renfrew Roller Mills, Renfrew, Ont. They will be built of brick, with a capacity of 200 bbls. and a full gyrator system, and will have a 50,000 bush. elevator.

The G. T. R. have a big gang of men at work doubling their track from Hamilton. The large ravines are being bridged by new double-track bridges, and Jordon claims the largest one of its kind in Canada, if not in America.

J. Ridout's grocery store, St. John's, Nfld., was robbed November 27. The burglars gained entrance in the rear by taking out a pane of glass. The store was ransacked. Some goods and \$8 in a cash box were taken away.

Magdalen Island fishermen have caught this year the largest amount of mackerel for years, estimated at 7,000 barrels, salted. Though not of so good a quality as last year, owing to there being many more buyers, they received higher prices.

The Oakville apple drier, owned by Clarke & Colliner, was destroyed by fire on October 29. The loss is estimated at—building, \$1,500, and stock, \$3,000. The building was insured for \$800, and the stock \$300. The cause of the fire is unknown.

A number of the young men of Tara, Ont., met October 27, and presented Charles Macdonald, who has been working for W. A. Gerolamy, but has taken a situation in Winnipeg, with a gold watch-chain and charm to remember the happy days in Tara.

THE PROVISION TRADE

AND COLD STORAGE NEWS.

COLLEGES FOR BUTCHERS.

A COLLEGE in which the butchering and curing business is taught by experts is thus described in The Springfield Farmer by Andrew Ross, a professor of the Minnesota School of Agriculture:

"This work was made a part of the course in the School of Agriculture, and its object was to give farm boys an opportunity to

LEARN TO DRESS THE ANIMALS

used for meat on the farm and to cut up carcasses into suitable pieces for table use. The work was begun in a very primitive fashion, though it was a very popular line of work from the start. The growth of the school has been rapid, and the quarters for this kind of work have been very crowded. In 1900 the Legislature was asked for an appropriation providing a new building for this work. This was secured and the building put up. The class-room is large enough to seat comfortably 100 or more students, and has folding doors opening into the killing-room and into the cutting-room, so that students can remain comfortably seated while observing the demonstration lectures given in both lines of work.

A GOOD COOLING ROOM

and refrigerator have been provided, with ample room for a carload of cattle. The plant is refrigerated by the ammonia process and is complete in every respect. Besides the refrigerator, a good-sized curing-room has been provided, where the temperature may be controlled and valuable experimental work may be done in learning new methods of curing meat. In addition to the curing-room, freezing-rooms have been provided in the basement, where poultry may be stored and kept frozen through the winter; or where the temperature may be so reduced that the

MEAT MAY BE RIPENED

at different temperatures, thus giving an opportunity for studying experimental methods of curing and preserving fresh meats. A rendering-room has also been provided, with steam-jacket lard kettles, tinking outfit and all the modern equipments for thorough and effective work. These features are essentially necessary where a combination of experimental and education work is carried on. It is not the intention to train the farm boys to be

expert butchers, but simply to give them a knowledge of the work sufficient to enable them to properly dress and care for the meat used upon the farm. With that idea in view, home-made arrangements for handling

STOCK IN THE KILLING-ROOM

will be used as much as possible. This also is true of the work done by the students in the cutting-room. This building is, so far as known, the most complete and substantial structure in the United States, used strictly for the purpose of instruction in the proper handling of meat products. Its benefit to the farming class will readily be seen, and when the opportunity for experimental work and the facilities for securing accurate data on live stock problems are considered, it is believed that the money provided for the building is indeed well spent. To make this kind of work of practical use to farm boys, it is necessary for them to experience the difficulties of dressing the different animals used for meat. With that object in view, a demonstration lecture is given by the instructor before

A CLASS OF ONE HUNDRED

or more students, and the details of the operations gone into. A lecture illustrating some phase of the work is given each week. The students are then divided up into squads of five each, and required to come to the slaughter-house, where they actually dress the beef, pork, mutton and poultry used at the school. Each student gets a chance to dress a beef, a hog, a sheep, and a certain amount of poultry. They are in turn required to divide the carcasses up into suitable pieces for use at the kitchen of the School of Agriculture. This line of work, while not complete enough to make them very expert, is sufficient to give them the principles of the work, and it can be extended as opportunities arise for dressing animals for home consumption. Besides cutting up the carcasses, the students are required to cure a certain amount of beef and pork, and are given recipes adapted to use on the farm."

A NEW PORK-PACKING FACTORY.

For the last 15 years John Wheatley, of Charlottetown, and S. Wheatley, of Halifax, have been shipping hogs in large quantities and manufactured them in Halifax ready for the consumer. As the

hogs deteriorate in value in transit and mostly arrive in bad order in mild weather, which, under such circumstances, renders it impossible to turn out at all times an article to suit the present demands, they have decided to open up a packing-house in Charlottetown. They have secured the commodious warehouse and cellars owned by David Small, corner Powell and Water streets, where they are now in full working order. Messrs. Wheatley are prepared to handle 15,000 hogs this fall. They have secured two first-class men from the other side, W. H. Fader and Samuel Jenkins, who arrived here last Wednesday and are now hard at work in connection with the factory in Charlottetown. Messrs. Wheatley will have a warehouse and cold-storage department in Halifax. As soon as the goods are prepared and ready for use they will be shipped off to Halifax, where they will supply their many customers. S. Wheatley, of Halifax, will attend to the selling, while John Wheatley, of Charlottetown, will do the buying and superintend the work of the factory, where they are now open to receive any number of hogs that may come along. They will endeavor at all times to pay the highest price given for choice goods.—Guardian, Charlottetown, P.E.I.

HOW VIENNA SAUSAGE IS MADE.

The recipe of The Butchers' Advocate for making Vienna sausage is: "To 18 lb. of veal add 72 lb. of lean and 10 lb. of fat pork. Chop finely and mix well, adding 32 oz. of salt, 10 to 12 oz. ground white pepper, 1½ pts. water and potato flour to suit. Stuff and tie into sausages weighing 4 oz. each; smoke 48 hours."

THE DOMINION PACKING CO.

In its issue of Thursday, October 23, The Charlottetown, P.E.I., Examiner makes the following reference to a well-known firm: "The Dominion Packing Co. are to-day taking stock at the Rattenbury plant and are completing all the arrangements of taking over the business. They begin operations on Monday morning."

The same paper, in its issue of the following Monday, says that the firm mentioned above slaughtered 400 hogs on Saturday, "and began the work of packing to-day. We hope to see a straight

business carried on that will be mutually profitable to the farmers of this Province and to the company."

THE PROVISION MARKETS.

TORONTO.

This week's cattle shipments have decreased very considerably, and, as a result, butchers' cattle are scarce. The average run of about 70 to 75 loads has fallen to about 25 loads. Hog shipments average about 4,000 this week. Prices are quoted as follows: Dressed hogs, \$7.00 to \$7.50; beef carcasses, \$4.50 to \$7.00 per 100 lb.; hind quarters, \$5.00 to \$7.00 per 100 lb.; front quarters, \$3.50 to \$5.50 per 100 lb.; veal, 7 to 9c., and lamb 5½ to 6c. Best live hogs, heavy weight (160 to 200 lb.), are worth \$6.00, while light weights are quoted at \$5.75. Choice export cattle are worth \$4.50 to \$5.25, and butchers' cattle, \$3.25 to \$4.25.

The provision trade, on account of it being between seasons, is not brisk, although there is a good demand for smoked meats and lard. Fresh egg receipts are becoming smaller. Prices remain unchanged and are as follows: Long clear bacon, 11 to 11½c.; smoked breakfast bacon, 14½ to 15c.; roll, 12 to 12½c.; medium hams, 13½ to 14c.; large hams, 12½ to 13c.; shoulder hams, 11 to 11½c., and backs 14½ to 15c.; Canadian heavy mess pork, \$21.50; short cut, \$23.50 to \$24.00; lard, in tierces, 10¾ to 11c. per lb.; tubs, 11 to 11¼c., and pails 11¼ to 11½c.; compounds, 8¾ to 10c.; plate beef, \$15.00 per 200-lb. bbl.

MONTREAL.

There has been some improvement in the demand for nearly all lines of provisions and hog products, and the market is active. Prices have been steady throughout the week, and no change has been made. Canadian short cut mess continues in light supply and the market is very firm. Smoked meats are also moving at a lively rate, both hams and bacon being in good demand.

In dressed hogs there is a fairly good business doing. Since our last report fresh-killed abattoir dressed hogs have declined about 25c., and are now quoted at \$8.50 to \$9.00 per 100 lb. Since the decline, however, supplies have not been any too large, and the market has become steadier. Fresh country-killed hogs are quoted at \$8.00 to \$8.25 per 100 lb.

Lard is in active demand, and a good volume of business has been done during the week in both pure and compound brands. Prices are unchanged. We quote: Pure Canadian lard, \$2.37½ to \$2.40 per pail; Fairbank's "Boar's Head" lard

compound, 9½c. tierce basis, with extras as follows: 60-lb. tubs, ¼c. over tierce; 20-lb. tin pails, ¼c.; 20-lb. wood pails, ¼c.; 10-lb. tins, ¼c.; 5-lb. tins, ⅞c.; 3-lb. tins, 1c. Snow White and Globe compound, \$1.80 to \$1.90 per pail; Cottolene, 11¼c. for 20-lb. pails, and 11⅞c. for 60-lb. tubs, for Quebec and Ontario; hams, 12 to 14c.; heavy Canadian short cut mess pork, \$24.50 to \$25; Canadian short cut clear pork, \$23.50 to \$24; American short cut clear pork, \$24 to \$24.50; American fat back, \$24.50 to \$25; bacon, Wiltshire, 11 to 15c. per lb.; extra plate beef, \$14.50 to \$15 per bbl.

ST. JOHN, N.B.

Barrelled pork is scarce, and prices high. Any local packed is very quickly picked up. Beef, while not so much in demand, is high. Ontario pork is something new here. In pure lard, higher prices rule, quite full stocks are held. There is a large sale. In compound lard, sales are active and full prices are asked. In fresh beef prices are easier, more domestic being used. Lamb has a large sale. Mutton is dull. Very little veal is offered. Pork is scarce and high. We quote: Mess pork, \$21 to \$22.50; clear pork, \$23 to \$24; plate beef, \$14 to \$16; domestic beef, 5 to 7c.; Western beef, 7 to

9c.; lamb, 6 to 6½c.; mutton, 4 to 5c.; veal, 5 to 7c.; pork, 8c.; pure lard, tubs, 12c.; pails, 12¼c.; compound, tubs, 9¼c.; pails, 9½c.; Fairbank's refined, tubs, 10¼c.; pails, 10½c.

A car of Fairbank's lard was distributed to the trade this week.

WINNIPEG.

BEEF—Market steady and unchanged at 6c.

MUTTON—Unchanged at 8c.; lambs, 10c.

DRESSED HOGS—In active demand at 9 to 9½c.

CURED MEATS—Market very active, and packers are finding some difficulty in keeping up with the trade. Owing to the shortage of hogs for packing, a number of cars have been brought in from Ontario. Hams, 15½c.; shoulders, 11½c.; breakfast bacon, backs, 14¼c.; breakfast bacon, bellies, 15¾c.; short spiced rolls, 12¾c.; long spiced rolls, 13½c.; dry salt, long clear, 11c.; dry salt, backs, 12½c.

LARD—Demand is very good, and prices for the week are unchanged. Tierces, 2¼c.; 50-lb. tubs, \$6.05; 20-lb. pails, \$2.50; 10-lb. tins, in cases, \$7.60; 5-lb., ditto, \$7.65; 3-lb., ditto, \$7.75.

POULTRY—Receipts are increasing slowly, but all stocks are at present brought in alive. Spring chickens, 40 to 60c. per pair; fowl, 60 to 70c.; turkeys, 10 to 11c.; ducks, 9c. per lb.

PROVISION NOTES.

Alfred Trottier, butcher, Montreal, is dead.

Miller & Mack, butchers, West Lorne, Ont., have dissolved.

T. Turcotte & Cie, butchers, Delorimer, Que., have registered.

Harry McCafferey, butcher, Kenmore, Ont., has started business.

C. D. Fontaine, general merchant, Shawenigan Falls, Que., has assigned to Lamarche & Benoit.

K. E. Stonehouse, dealer in meats, etc., Springhill, N.S., has assigned to A. B. Etter, and his creditors meet November 7.

A fire that destroyed a mill on St. Philip street, Montreal, did considerable damage to Harper's sausage factory and some residences adjoining it.

The National Provisioner says that Sam Etter is running a meat market on wheels out about Crane, Kan. There are those who appreciate such enterprise.

The vegetarian cannot compete with the meat-eater in the quantity or quality of his work. All experience goes to show that man fares best on a mixed diet.

John Hopkins, manufacturer of pork and beef products, of St. John, N.B., says The Charlottetown, P.E.I., Guardian, is at present busy securing large shipments of Prince Edward Island produce, including eggs, hides and dressed pork. This firm have been doing business on the Island for some time past and are well known to the farmers of that Province.

Every Retail Grocer

in Canada needs The **N. K. Fairbank Company**. The **N. K. Fairbank Company** needs every retail grocer in Canada. In other words, we need each other. Let us study those things that are to our mutual interest, laying aside all prejudices. We claim that our **Boar's Head Brand of Refined**

Lard Compound, being practically vegetable oil that grows out of the ground, is more wholesome than it is possible for a product of the swine to be. It is absolutely free from the germs of hog cholera, scrofula and trichina inherent in considerable of the hog product. If this appeals to you, then try **Fairbank's Boar's Head Brand of Refined Lard Compound** and we will both have made use of each other to our mutual advantage. Costs less, works better.

Orders can be filled by any of the leading packing houses or jobbers in Canada or direct.

NOVA SCOTIA MARKETS.

Halifax, November 3, 1902.

THE past week, in fact, the whole of November, has shown great activity in the grocery business, especially with the wholesalers. This has been largely due to the fact, as previously noted, that October is the month when the shore ports, which are closed in by the ice for a considerable part of the winter, put in their winter stocks, and, as might naturally be expected, the orders filled are considerably larger than at any time during the summer. Though Nova Scotia has many miles of railway as compared with its area and population, there are very many towns and thriving villages which still have to depend on vessels and small steamers for communication with the business centres. There are roads, of course, but the days of trucking goods any distance are past.

Reports from all parts of the Province show that business is in a very healthy condition. The ordinary crops have been good; good prices are being realized, which is also secured in cash. The apple crop, which, however, only affects very materially a small number of the counties in Nova Scotia, has been smaller than usual, and the fruit, though apparently grown to full size and well matured, is very defective with black spots and deformity of shape. This results in No. 1 fruit, in most cases, being no better than the No. 2 of ordinary years. A single

barrel of such No. 1, so-called, cannot be bought in Halifax to-day less than \$3 cash, and many parties are asking that price in small lots. Already quite a quantity of apples have been shipped from this port to England, and good prices have been realized.

Hay has been a good crop, and the weather good for harvesting. The price will rule lower this season, as there is not the same large demand from South Africa. Oats have been a good crop also. At present the price is 38½ to 40c. Potatoes are also plentiful, with price ruling lower than a year ago. Large quantities of both are now coming in from P. I. Island. Wheat, where grown, has given a good yield. It may not be generally known

country for miles around. Corn is also imported and ground for meal, or cracked for feed.

Butter is not coming in now so plentifully, and is firm with an advance on all grades of one cent. Eggs have also advanced to 18 cents (for case eggs), while fresh are retailing in the stores or in the Saturday market for 32 to 35 cents. Never during the summer have fresh eggs retailed less than 24 cents per dozen—and small ones sometimes at that. The hen would seem to be a good bird to cultivate.

R. C. H.

A HANDY SHOW-CASE.

The accompanying cut is an illustration of a handy counter show-case for grocers'

that in some counties of the Province, Pictou, for example, nearly all the farmers grow enough wheat for their own use. In fact, there is a roller-process mill in that county which turns out as nice a flour as can be imported. This mill is situated at Durham, some 10 miles from the railway, and is kept busy by the local trade of the

use, manufactured by the Dominion Show Case Co., Toronto. It may be had in any length desired, and at very reasonable prices, and is very suitable for displaying confectionery, cigars, notions, etc. The cut was through a mistake left out of the Dominion Show Case Co.'s advertisement in the Special Fall Number of THE GROCER.

A LESSON FOR CANADA.

IN seeking for the foundation causes of a nation's commercial success, many influences have to be taken into account. Britain owes her supremacy in great measure to her insular nature, which fostered sea-faring, and to the fact that she was first in the modern industrial field. The United States soon forged to the front because they were forced by circumstances to provide for a rapidly expanding population. But when it comes to the reason for Germany's remarkable advance of recent years, other causes must be sought for.

These causes lie principally in the German character itself. The German is a student of men and of methods. He is observant. He travels extensively and mingles with men of other nationalities—much more freely than other foreigners do. These characteristics are at the basis

of imitation and the German becomes an imitator. He sees the plausibility of the commercial ways of other nations and he decides to practice them himself. He appropriates all that he deems valuable in methods for conducting business, and he sets doggedly to work to excel in the mercantile world. Then his scientific knowledge comes to his assistance and helps him out in his plans. That is why Germany has succeeded so well.

Our own nation is in a similar position to Germany. The old-established industries of Britain and the United States will not relinquish their market in this country without a struggle. Canada will have to meet outside competition on its own level, and to reach that level Germany's lesson must be taken to heart. Keen observation of the methods of other nations will constantly be required if Canadian industries are to advance.

It is a long way to success by the short-weight medium.

EXPORTING PEARS.

THE crop of Canadian pears this year has been a good one. One or two fruit men have exported to the markets of England considerable quantities of this fruit.

The pears sent over were principally of the Duchess and Keifer varieties, which are mostly of use for cooking purposes, and these met with ready sales, the prices realized being high enough to enable a considerable profit being obtained after all expenses were paid.

The pears were packed in boxes, after the style of the Californian fruit, and reached their destination mostly in good condition.

None of the table varieties were sent over, as far as can be ascertained, but there seems to be room for the building up in the English market of a considerable trade in Canadian pears.

The one thing needful for the success of this undertaking is a proper supply of improved refrigerator cars for the carriage of the fruit from inland points to the Atlantic ports, and suitable steamers to bear the product across the Atlantic.

APPLE EXPORTS.

ADVICES from Woodall & Co., Liverpool, Eng., bearing the date of November 5, to Eben James, Toronto, report as follows on the apple market: "32,000 bbls. selling. Market active, prices rather higher. Greenings 12s. 6d. to 15s. 6d.; Baldwins, 12s. to 15s. 6d.; Spies, 11s. to 15s.; russets, 12s. to 15s. 6d.; Kings, 15s. to 19s.; seconds, 5s. less."

A cable from J. B. Thomas, Covent Garden Market, London, follows: "Prime and good keeping quality wanted."

During the past week, as compared with the week previous, the shipments to Liverpool have declined 40,000 bbls. The total shipments for the week ending November 1 follow:

From—	Total bbls.	Same week 1902, bbls.
Boston	14,787	11,252
New York	23,964	10,776
Portland	2,312	1,177
Montreal	38,917	12,001
Total for week	79,980	35,206
Same week 1901	35,206	
" " 1900	54,355

FIRST BEET SUGAR.

When the Berlin beet-sugar factory commenced operations on October 30, it was announced in certain newspapers that the factory had the honor of turning out the first sugar made in Canada from the beet. This is scarcely correct. When it is remembered that not ten years ago the Government of Quebec was paying a bounty annually on the beet-sugar industry in that Province, and that not so long ago a factory was removed from Farnham, Que., into New York State, it will be seen that the industry had its birth in Canada prior to the opening of the Berlin factory.

SIR WILLIAM MULOCK'S SURPLUS.

IN his address in Toronto on November 3, Sir William Mulock, Postmaster-General, announced that his Department would show a surplus of \$5,000 for the past fiscal year. This is the first time in the history of the Department that the revenue has been made to even meet expenditure, much more show a surplus.

No doubt some of Mr. Mulock's political opponents will find reason to criticize his statement in regard to the surplus, and to throw some doubts upon its reality. As it is well known that some items of expenditure are charged to the Works Department, their criticism may not be altogether out of place. At the same time, however, it must be recognized that the result of the past year's administration of the Department has been more successful than any previous year in the history of the Dominion.

If there is a deficit, according to the calculations of Mr. Mulock's political opponents, it must be very small indeed; in fact, smaller than ever before. For this he is certainly entitled to a great deal of credit, and not carping, factious criticism.

It must be remembered that this satisfactory statement of affairs is in face of the fact that the postal rates on letters, both within the Dominion and within the Empire, have been greatly reduced since Mr. Mulock became Postmaster-General. Besides this, he has made a great many improvements, which could not, of course, be made without the expenditure of money. That this was warranted has been justified by the fact that not only is there a small surplus, but there has been a very large increase in the mail carried.

The business men of Canada, irrespective of politics, must necessarily feel gratified at the result of the past year's administration of the Post Office Department. Years before Sir William Mulock became Postmaster-General, this journal referred to his business and administrative ability. Since he came into office his action has more than justified this high opinion of his merits. Although actively engaged in law, he has had a wide business experience on account of his connection with large commercial enterprises, and this he has

turned to good account as Postmaster-General. While, in addition to this, he possesses in an eminent degree the quality of adaptation. This in an administrator of a Department, such as that of the Post Office, is a valuable quality indeed, enabling as it does the possessor of it to appropriate and act upon suggestions which may, from time to time, be made to him.

There is another business department in the Government which we wish was only administered in the same efficient manner as that relating to the Post Office, and that is, the Department of Trade and Commerce, over which Sir Richard Cartwright presides. Sir Richard Cartwright is, no doubt, an able man. He is certainly one of the best-informed in Canadian political life, and his attainments are wide and many, but as the Minister of Trade and Commerce he has proved a decided failure. As we have pointed out in the previous issues, it may be because he was not appointed to the Department of Finance when the present Administration was formed, but whatever the reason might be, and whatever his attainments might be, he has certainly not been suited for the Department of Trade and Commerce.

One almost wishes that Mr. Mulock was head of that Department, but it would be scarcely a wise thing to make a change when he has produced such good results in the Post Office portfolio. It is to be hoped that the exceedingly good results which have been obtained in the Post Office Department will open the eyes of the Premier to the necessity of removing Sir Richard Cartwright from the Department of Trade and Commerce. On account of his faithful services, however, he should not be cast overboard, and as the Lieutenant-Governorship of Ontario will soon be vacant, it would be the proper thing for Sir Richard to be elevated to that honorable position. At any rate he should not, in the commercial interests of the country, be permitted to longer cumber the Department of Trade and Commerce.

SUGARS 5c. LOWER.

All grades of refined sugar were reduced 5c. per 100 lb. on Thursday morning, in sympathy with a decline of 10c. in New

York. In the latter city, however, the export price has been advanced 5c. The f.o.b. price of Canadian granulated in Montreal is now \$3.75.

THE COFFEE CRISIS.

AN International Coffee Commission has been sitting recently at the New York Coffee Exchange. Delegates from Venezuela, Costa Rica, Ecuador, Guatemala, Mexico, Uruguay, Dominican El Salvador, Honduras and Peru were present.

The coffee crisis was the all-pervading theme of the discussion. Its cause was attributed to the excess of supply over demand, which has existed since 1898, when the prevalence of high prices led to the establishment of many new coffee plantations.

Various expedients for improving conditions have been suggested, principally along the line of increasing the consumption. Three recommendations were passed:

First—Recommending to all the governments and producing and consuming countries the compulsory use of pure coffee in the armies and navies.

Second—Recommending to the governments and countries which produce coffee that they establish, as soon as possible, in countries in which coffee is not now consumed, places for the demonstration of pure coffee.

Third—That coffee-producing and consuming countries may prohibit the sale of adulterated coffee and of substitutes bearing the name of coffee, and in case this prohibition cannot be enforced that a heavy duty be imposed on such articles.

Besides these more direct methods, it was proposed to attempt to have the duties on coffee imposed by European nations removed, to do something towards improving the actual cultivation of the coffee bean and to diminish the supply by prohibiting the exportation of inferior goods.

So far as THE CANADIAN GROCER is concerned, we would remind our readers that we have always been anxious to promote the welfare of the coffee business in Canada. Not so long since three prizes were offered by us for essays on how best to improve the coffee trade in this country. The prize essays were read far and near with wide interest, and were reproduced and commented upon, not only in England and the United States, but in all the principal coffee-growing countries.

Up to the end of June of this year, 5,345,691 lb. of coffee entered Canada on the free list. This is a decidedly better record than for the preceding year ending June 30, 1901. Then the importation was only 3,345,284 lb. Under the heading of dutiable coffee, it is found that 999,259 lb. entered the country in 1902, and 1,032,741 lb. in 1901. By adding these amounts to the previous figures, the results are not appreciably changed. That is, the importation of coffee showed a decided increase during the last fiscal year.

HINTS TO BUYERS.

Contributors are requested to send news only not puffs of goods they handle, or the arrival of standard goods that everyone has in stock, or that they are offering goods at close figures, or that they have had an unusually large sale this season.

CHOICEST Barbados molasses advertised recently in this paper, by Grocers' Wholesale Co., Limited, Hamilton, made many merchants who inquired familiar with the fact that other good values were also obtainable.

H. P. Eckardt & Co. report a good demand for Heinz' tomato soup.

"Green" codfish in barrels is offered by The Eby, Blain Co., Limited.

A consignment of Sultana raisins arrived here this week for H. P. Eckardt & Co.

H. P. Eckardt & Co. are selling a very fine quality pure cane sugar syrup in half-bbls.

L. Chaput, Fils & Cie have received some fine Japan teas in 700 small packages.

The Eby, Blain Co., Limited, have received another shipment of Trinidad sugar of good color which they are offering at attractive figures.

L. Chaput, Fils & Cie are expecting to receive a shipment of new choice Roquefort cheese shortly.

Henri Jonas & Co. have just got in a large lot of French macaroni from the celebrated firm of Bertrand & Co.

L. Chaput, Fils & Cie expect a carload of 750 boxes of new Californian seeded raisins to arrive in a few days.

Crosse & Blackwell's white onions, 2-pints, patent stoppers, are offered at a bargain by Grocers' Wholesale Co., Limited, Hamilton.

The steamer Bellona is due now in port with 12,000 boxes of all kinds of raisins for L. Chaput, Fils & Cie.

E. D. Marceau is receiving a lot of fanlings in 1-lb., 3-lb. and 5-lb. paper packages, and, with the last arrivals of China teas, he has a full assortment at very interesting prices.

The demand for "Gold Medal" table syrup in tins is very rapidly increasing. The Eby, Blain, Co., Limited, report that it is one of the best sellers they have ever put on the market.

It is not necessary to pay fancy prices for Van Houten's cocoa, French peas, mushrooms, olive oil, Lea & Perrin's sauces, if you will communicate with Grocers' Wholesale Co., Limited, Hamilton.

L. Chaput, Fils & Cie are receiving a lot of green Ceylon and Indian green teas, with which to replace Japan teas. These

are put up in Japan packages and prepared by Japanese brought to Ceylon by Hellyer & Co.

Henri Jonas & Co. are now receiving their annual supply of crystalized fruits from the steamer.

PERSONAL MENTION.

Mr. J. H. Horning, retail grocer, Hamilton, was in Toronto on Saturday. He was accompanied by Mrs. Horning.

Mr. William Mackenzie, Ceylon tea commissioner, is on another of his periodical business visits to Canada. He reports the tea business on this continent good.

Mr. R. G. Cather, one of the firm of Jos. Tetley & Co., London, Eng., is now on an extensive visit of business and pleasure to Canada, calling on the trade in the interests of his firm. Mr. Cather is interesting the trade here with their special line of bulk blend teas, which have been handled so successfully on the home market.

VISIBLE SUPPLY OF LARD.

The N. K. Fairbank Co., Chicago, advise THE CANADIAN GROCER as follows: "Our cable advices give the following estimates of the stocks of lard held in Europe and afloat on November 1, to which we add estimates of former years, and stocks in cities named:

	1902. Nov. 1.	1902. Oct. 1.	1901. Nov. 1.	1900. Nov. 1.	1899. Nov. 1.	1898. Nov. 1.

A MERCHANT'S PLEASANT TRIP.

W. H. McFarlane, general merchant, of Paisley, has returned from an enjoyable trip to Washington and other American cities. Along with a party composed of

members of The Canadian Ticket Agents' Association, he visited a number of places along the Atlantic Coast, including Philadelphia, Atlantic City and New York. The Lehigh Valley Railway gave the Canadian visitors special trains, and they passed through the anthracite coal region of Pennsylvania while the great strike was on. The next excursion of the Association will be to Sydney, Cape Breton.

MILK POWDER IN GERMANY.

A German inventor, it is reported, has discovered a method and constructed an apparatus which obviates the drawbacks formerly encountered in the preparation of milk powder. The apparatus, according to a United States Consular report, evaporates milk to complete dryness at a temperature not exceeding 40 deg. C, and without the application of a vacuum. The powder obtained, it is claimed, has the fineness of flour. Neither the taste nor odor of the milk is altered. Heated with water to from 60 to 70 deg. C. i.e. to a temperature exceeding the melting point of butter fat—milk is reproduced which, on cooling, differs in no way from ordinary milk. By a special treatment, the inventor says he has succeeded in preventing the powder from turning sour; it withstands bacteria, mold, dampness, and changes of temperature. About 1 lb. of powder is said to be obtained from 5 qts. of milk. The apparatus is easily manipulated and is capable of treating at least 2,600 gals. of milk per day. A sample of the powder

obtained from skimmed milk, it is said, was found to contain 30 per cent. albuminous matter, 49 per cent. lactic sugar, 1 per cent. fat (30 per cent. in unskimmed), 7½ per cent. salts, and 6½ per cent. moisture.

"A Proposition for the Earnest Merchant."

Of course you're interested in the newspaper publicity of "Ceylon Green Teas" versus "Japans," their claims and counter claims, with all the argument to date in favor of the young "Rival." This is all right so far as it goes, but it don't go far enough. You've tried Japans, with your customers, now try a sample case of "SALADA" UNCOLORED CEYLON GREEN, we'll take all chances on its sale, prepaying all transportation charges AND GUARANTEE MONEY BACK AT ANY TIME IF YOU WANT IT

MARKETS AND MARKET NOTES

ONTARIO MARKETS.

Toronto, November 6, 1902.

GROCERIES.

A STEADY volume of business has kept up this week in wholesale groceries and trade is satisfactory for the time of the year. The mildness of the weather has kept the farmers busy at home with their fall work and so they have not as yet commenced to deliver their grain so extensively. As soon as they do so, however, trade is expected to be very brisk as there will be a good deal of money put in circulation which will be surely felt in wholesale grocery lines. Canned tomatoes are scarce, and as high as \$1.90 was offered for the product, but jobbers here seem to have none on hand to sell. French sardines, in all lines, have been advanced nominally about 2c., but stocks of these on hand are light. The holiday trade for nuts has not yet set in and the price of tapioca is easier. There has been a good call for the brighter kinds of syrups. There has been a good, steady demand for sugars for this time of the year, and prices have been fully maintained. There has been considerable buying in teas during the week by jobbers and the market keeps strong for Indian and Ceylon blacks and greens, Japans, young hysons and gunpowder teas. New prunes are selling freely to arrive and opening prices here are $\frac{1}{2}$ to 1c. lower than the old ones on all sizes, excepting 50-60s and 40-50s. Quite a few peaches and apricots are moving out.

CANNED GOODS.

Tomatoes continue scarce and prices are almost out of sight. There are none offering and as high as \$1.90 was offered by a buyer here, which, as far as we know, met with no response. One or two sanguine holders expect the price of the article to go up to \$2.25 before long, but this view does not agree with the opinions of others who believe that at that figure there will be no demand for them. This state of the tomato market has had the effect of stiffening the prices of corn and peas, which are up $2\frac{1}{2}$ to 5c. The prices of French sardines have been nominally advanced 2c. all round, but there seems to be very light supplies of the fish in Canada. There is a fairly good demand for the season for haddies, her- ring, lobsters and also canned meats.

COFFEES.

There is a good call for green Rios and the other grades are in fairly good demand. The outside markets were easier in tone and contract prices showed a decline. We quote: Green Rio, No. 7, $7\frac{1}{2}$ c.;

No. 6, 8c.; No. 5, $8\frac{1}{2}$ c.; No. 4, 9c.; No. 3, 10 to 12c. per lb.

NUTS.

Nuts are commencing to move, but the holiday demand has not yet commenced. The outside markets are firm and unchanged.

RICE AND TAPIOCA

There is a fair amount of business being done in rice and tapioca, the latter being easier outside. The New Orleans rice markets are firm and the buying there has been active. Exporters of rice from the United States are beginning to show more interest in the lower grades, which are firmly held. We quote: B rice, $3\frac{1}{2}$ c.; Japan, $5\frac{1}{2}$ to 6c.; sago, $3\frac{1}{2}$ to 4c. and tapioca, $3\frac{1}{4}$ to $3\frac{3}{4}$ c. per lb.

SYRUPS AND MOLASSES

The brighter grades of Syrup have shown increased activity and the other kinds are in good demand also. Molasses is moving out freer. Advices from

See pages 35 and 36 for
Toronto, Montreal, St. John
and Halifax prices current.

New Orleans state that the new crop molasses are slowly coming in, but of the supplies received only a small percentage is of the desirable grades.

SPICES.

Trade in spices continues fair and there has been no change in prices. The outside markets are quiet and firm.

SUGAR.

There is no change to report in the condition of the local sugar market. The demand continues good and the prices are steady and unchanged from last week. In New York a considerable quantity of raws have changed hands at full prices, with buyers willing to purchase and sellers asking fractionally more money than before. United States refined is, however, easier, with a shading in yellows and a general tendency towards lower prices in anticipation of the refill large shipments of Western beet sugar from California, which are due to arrive in New York about the 15th of this month.

In Europe beet sugar has declined $1\frac{1}{2}$ d. for the week, from 7s. $6\frac{3}{4}$ d. to 7s. $5\frac{1}{4}$ d. The latter figure, however, is still about 20c. per 100 lb. over the parity of 96 deg. centrifugals, New York.

The United States stocks for the week show a decline of about 9,000 tons, the receipts being 36,037 tons and the melt-

ings, 45,000 tons. The stocks in the United States and Cuba together show a deficiency of 16,000 tons for the week. The latest cable from Mr. Licht, of Magdeburg, Germany, indicates a probable reduction of 100,000 tons from his previous estimate of the European beet sugar crop, which leaves the present estimated crop at 5,750,000 tons, against a total outturn last year of 6,843,000 tons.

TEAS.

There has been quite a lot of buying in teas on the local market during the past week. Young hysons are becoming scarce and so are gunpowders. Another month will practically exhaust all the Japan and China green teas in first hands. Final shipments are being completed from China and long before it will be possible to have new supplies on the market again there will be a famine in these teas. The demand for Indian and Ceylon greens is greatly on the increase and there is quite a smart demand for face and colored greens. Flavored teas are showing a firmer tendency and the present outlook in cheap Ceylon and Indian teas is for slightly higher prices. London, Eng., mail advices state that although there was a heavier quantity of Indian teas brought forward, medium and good liquoring teas maintained previous rates, but common kinds were not so eagerly bid for. Medium and better grades of Ceylon teas showed an advance over the week before, the competition of exporters proving of great assistance to the market.

FOREIGN DRIED FRUITS.

CURRENTS.—The primary currant market is reported firm and stocks of high-grade fruit are getting much reduced. The local demand is fairly active. We quote: Fine Filiatras, $5\frac{1}{2}$ c. up; Patras, $6\frac{1}{4}$ to $6\frac{3}{4}$ c. and Vostizzas, 7 to 8c. per lb.

VALENCIA RAISINS.—The call for Valencia raisins is quite brisk and the prices are maintained. The ss. Bologna is reported in the St. Lawrence with a cargo of Valencia and Malaga raisins, nuts, etc., for the Christmas trade. We quote: Fine off-stalk, $7\frac{1}{4}$ to 9c.; selected, $8\frac{1}{2}$ to 9c. and selected layers, 9c. per lb.

SULTANA RAISINS.—There is a much firmer tendency in Sultana raisins at Smyrna. Owing to the scarcity of Valencia raisins there has been a great demand for these on the market there, causing the tone of the market to have a bullish tendency. We quote 9 to 13c.

DATES.—The new fruit will be on the market this week. New Fard dates are offered at $7\frac{1}{2}$ to 8c. per lb.; Hallowee, 5c. and Sairs at $4\frac{1}{2}$ c. per lb.

PRUNES.—New prunes are now selling for delivery on arrival. The market is fairly active. The prices on the sizes from 110 to 60s have been reduced from $\frac{1}{2}$ to 1c. per lb. We quote: Californian

prunes, 100-110s, 1c.; 90-100s, 5 to 5½c.; 80-90s, 6 to 6½c.; 70-80s, 6½ to 7c.; 60-70s, 7 to 7½c.; 50-60s, 8 to 8½c.; 40-50s, 8½ to 10c. per lb.

FIGS.—The primary fig market is said to be exhausted, and on account of the smallness of the crop almost any quality offered were booked as layers. Some tapnets arrived on the local market and were sold at 1c. We quote: Elemes, 7-crown, 15c.; 3-crown, 12c. and Star, 11c. per lb.; Naturals, 8c.

CALIFORNIAN EVAPORATED FRUITS—There has been an active demand for peaches and apricots. The latter are higher on the Coast. Prices are unchanged at 9 to 11c. for peaches and 9 to 13c. for apricots.

CALIFORNIAN FIGS.—These have been all sold out.

CALIFORNIAN RAISINS.—Last week Griffin & Skelley Company, San Francisco, advised their Toronto agents that the Raisin Growers' Association had decided to advance the price of both loose muscatels and seeded raisins on the 3rd of this month, with a guarantee that they would not reduce the price before February 1, 1903. What this advance is has not yet been announced, but it took effect at 6 p.m. on the 3rd instant.

Telegraphic advices from San Francisco report brokers there entirely sold out of seeded raisins.

GREEN FRUITS.

The green fruit market is in an active condition. There are on hand large supplies of almost every variety of fruit, both from the temperate regions and from tropical countries. Quite a few grapes are still offering. Considerable quantities of Jamaica oranges are selling, and grape fruit is now on the market in abundance. Apples are in heavy supply and the demand for them is principally in small lots. Nova Scotian cranberries are now on the market at 88 per barrel. We quote: Peaches, 30 to 50c. and pears, 15 to 40c.; grapes, 15 to 20c. for small baskets and 25 to 30c. for large; apples, 19 to 25c. per basket and 81 to 82 per barrel; crabapples, 25c. per basket; lemons, \$1.25 to 87 per box; onions, ordinary, 60c.; Spanish, 90c. per case; peppers, green, 15 to 30c. per basket; ripe, 60 to 75c.; oranges, Jamaica, \$2.25 to \$2.75 per box and 85 per barrel; Jersey sweet potatoes, \$2.50 per barrel; coconuts, \$3.50 per sack; quinces, 20 to 35c. per basket; cranberries, \$9 to \$9.50 per barrel; bananas, \$1.25 to \$1.75 per bunch; grape fruit, \$1.50 per box.

VEGETABLES.

Business in vegetables continues quiet and the prices are about the same as last week, excepting that potatoes have advanced fully 15c. per bag. Cabbage and potatoes are the products most in demand. Our quotations are as follows: Lettuce, 30 to 40c. per dozen; radishes, 20 to 25c. per dozen; mint and parsley, 20 to 25c.; cauliflower, 50c. to \$1 per dozen; cabbage, 30 to 50c. per dozen and \$1.00 per barrel; pickling cabbage, 25 to 50c. per doz.; carrots, 40 to 50c. per bag; beets, 40 to 50c. per bag; potatoes, \$1 to \$1.20 per bag; celery, 50 to 75c. per dozen; corn, 8 to 15c. per doz.; squashes, \$1 to \$1.50 per doz.; pickling onions, 75c. per basket; pumpkins, 50c. per dozen; citrons, 40 to 50c. per doz.; artichokes, 50c. per bushel; spinach, 40c.

COUNTRY PRODUCE.

EGGS.—The receipts of eggs are light, the demand for strictly fresh being good

and the prices firm. The export movement in cold stored and pickled continues good. We quote: 18 to 19c. for strictly new laid, 17 to 18c. for cold storage, 16 to 17c. for pickled and 13 to 14c. for seconds.

BEANS.—The offerings of beans are little, if any, and the quotations of last week are maintained. Beans in large quantities are worth \$2 to \$2.25 per bushel.

DRIED AND EVAPORATED APPLES.—The abundant supplies of green apples makes the demand for the evaporated apple slow. Evaporated apples are quoted at 6½ to 7c. per lb.

HONEY.—There is a fair volume of business doing in honey and the prices are unchanged. We quote as follows: Extracted, 8 to 8½c. for large quantities and 9 to 9½c. per lb. in small lots. Combs, \$1.50 to \$1.75.

POTATOES.—The arrivals of potatoes keep large but the demand is brisk, causing the prices to increase in strength. We quote: 75 to 80c. per bag in carlots.

BUTTER AND CHEESE.

BUTTER.—There have been a good many large rolls brought in during the week. The market is steady for all fresh grades in rolls and tubs. The English market is a trifle easier. We quote as follows: Finest 1-lb. prints, 17 to 18c.; choice large rolls and tubs, 15½ to 16½c.; secondary grades, tubs and rolls, 13½ to 14½c.; bakers', 12 to 13c.; creamery prints, 20 to 21c.; creamery solids, 19 to 19½c. per lb.

CHEESE.—The price of cheese in Canada is still high and the continuance of these conditions has, to some extent, astonished dealers. Little response is at present being made to the inquiries from the other side of the Atlantic at the Canadian factories and there is a large stock being held in this country. The exports from Montreal from May 1 up to the end of last week were: 1,785,906 boxes, as against 1,557,725 boxes for the same period in 1901. We quote as follows: Finest grades, 12 to 12½c.; seconds, 11½ to 11¾c. per lb.

POULTRY AND GAME.

POULTRY.—The receipts of poultry, which were heavy the latter part of last week, have dropped off this week. The ducks and geese arriving are in good condition, but turkeys are scarce and poor. The demand for all kinds of poultry is a little slow. We quote: Choice turkeys, 10 to 11c.; seconds, 8 to 9c.; geese, 7 to 8c.; ducks, 50 to 70c.; chickens, young, 50 to 60c.; old, 35 to 45c.

GAME.—There has not been as yet much game coming forward and jobbers at present are not anxious to receive any as there is no inquiry yet for the fowl. The next few days will probably see an increase in the receipts. We quote: Teal, 20c. per pair; pin tails, 30 to 35c. and black ducks, 70 to 75c. per pair.

FISH.

There is a fair volume of trade doing in fish. The season for trout and whitefish is closed and the frozen fish are now on the market. Oysters are meeting with a steady demand. We quote: Frozen fish, trout, 7 to 7½c. Fresh fish—Lake Erie herring, 4 to 5c.; perch, 4 to 5c.; pike, 6c.; British Columbian salmon, 15 to 20c.; whitefish, 7 to 7½c.; mackerel, 15 to 20c.; rock bass, 4c.; halibut, 15c. per lb.; blue pike, 4c.; live lobsters, 25c. per lb.; oysters, \$1.25 to \$1.35 per wine gallon; smoked ciscoes, \$1.25 per basket;

Persons addressing advertisers will kindly mention having seen their advertisement in The Canadian Grocer.

CLEMES BROS.,
 TORONTO.

Digby herring, 50c. per bundle of six baskets; finnan haddies, 7½ to 8c. per lb. in 15-lb. boxes; codfish, \$1.50 for 25-lb. boxes and \$1.80 for 2 doz. box; quail on toast, 5½c. in boxes; boneless cod, 4½c. per lb.; ciscoes, \$1.25 per basket; kippered herring, \$1 per case of 4 doz. tins; Labrador herring, in half-barrels, \$3 and lake herring, \$4.

GRAIN, FLOUR AND BREAKFAST FOODS.

GRAIN.—The receipts of all kinds of grain for the week have been small and the tone of the market is strong with slightly higher prices in wheat. On the St. Lawrence Market the quotations are as follows: Red and white wheat, 70½ to 71c.; goose wheat, 65½ to 66c.; barley, 45 to 49c.; oats, 36 to 37c.; rye, 57½c. and buckwheat, 50 to 52c.

FLOUR.—The market is stiffer under the influence of an active demand and the firmness of wheat. Our quotations are as follows: Ontario patents, in bags, \$3.60 to \$3.70; Hungarian patents, \$1.10 to \$1.15; Manitoba bakers', \$3.85 to \$3.90; straight roller, \$3.40 to \$3.50 per barrel.

BREAKFAST FOODS.—A brisk demand continues for oatmeal and rolled oats. The other lines of breakfast foods are also active. Our quotations are as follows: Oatmeal, standard and granulated, in carlots on track here, \$1.20; standard rolled oats in carlots on track here, \$1.00 per barrel; in wood, 15c. extra; broken lots are 25c. per bbl. extra; rolled wheat, \$2.25 in 100-lb. bbl.; corn meal, \$1; split peas, \$1.75; pot barley, \$1.25 in 196 lb. bbls., or \$1.10 in bags.

HIDES, SKINS AND WOOL.

HIDES.—A fair amount of business continues in these. We quote: No. 1 green, 8c.; No. 2 green, 7c.; No. 1 green, steers, 8½c.; No. 2 green, steers, 7½c.; cured, 8½ to 9c. per lb.

SKINS.—There is a good call for calfskins. Lambskins are up 5 to 10c. We quote: Veal skins, 6 to 11 lb. inclusive, No. 1, 10c.; No. 2, 8c.; do, 15 to 20 lb. inclusive, No. 1, 9c.; No. 2, 7c.; deacons (dairies), 60 to 70c. each; shearlings and lambskins, 60c.

WOOL.—The wool market is unchanged. We quote: 13½c. for fleece wool and 7½c. for unwashed.

TALLOW.—The tallow market is still weak at 6½ to 7c. per lb.

SEEDS.

The chief business continues doing in alsike and the ruling price for it is \$7 to \$7.75 for prime to choice seed with liberal offerings at outside points. A few small lots of the new crop of red clover have been brought in and sold at \$6.50 to \$6.75 outside. Timothy is quiet at \$1.50 to \$1.70 per bushel.

MARKET NOTES

Lambskins have advanced 5 to 10c. French sardines have advanced 2c. all round.

The opening prices in prunes on the sizes ranging from 60-110s are from ½ to 1c. lower than the old prices.

Canned tomatoes are scarce and as high as \$1.90 has been offered for them to which no response has been made.

In the United States the prices of lard are nearly 1c. per lb. higher than prices ruling in Canada, with an upward tendency, and therefore higher figures may be expected here in the near future.

QUEBEC MARKETS.

Montreal, November 6, 1902.

GROCERIES.

THE wholesale trade is active this week, and until the advance of freight rates shipments will be unusually heavy. Some difficulty is being experienced in getting space on the boats for the lower ports. Prices on imported French sardines are stiffening, owing to the scarcity. Some dealers are entirely out of French goods and are unable to obtain more. Coal oil, both Canadian and American, has advanced, the former being $\frac{1}{2}$ c. higher and the latter, 1 c. higher. Chloride of lime, in $\frac{1}{4}$ -lb. packages, has been reduced from 90 to 75c. Mixed pickles continue to exhibit a higher tendency, both in bulk and in bottles. They are likely to be very dear this year, and indications are that pickles that were formerly sold at \$1 and \$1.05 will now be quoted at \$1.30 and \$1.35 per dozen.

SUGAR.

Since the advance in sugar of last week there has been no further change in price, and granulated now sells for \$3.80 and yellows at \$3.15 to \$3.65. Trade is somewhat quieter this week, but the tone of the market continues firm. The strong position of raw beet is still evident, but contrary to the expectations of most operators the price of the refined article has not advanced in sympathy.

TEAS.

The market for Japans continues strong, although no recent advances have been reported. The local market is practically bare at present of Japan siftings, dusts and fannings. A quantity of Ceylon green teas have been coming into this market designed to take the place as near as possible of Japans. They are prepared by Japanese and put up in Japan packages. The price of Indian and Ceylon teas is still comparatively low. Ceylon and Indian black teas are considered excellent value at present prices. Ceylon greens are a little firmer and are quoted at 15 to 23c. At the Colombo tea auctions of the first part of October, the quality was reported to be deteriorating, with a proportionate weakening in prices of medium to fine grades. A good inquiry for leaf teas was experienced, all kinds of which were firm except common pekoe souchongs, which declined 1c.

SYRUPS AND MOLASSES.

There has been an improvement in the demand for corn syrups, and although the volume of business done was small, there are signs of the markets picking up. There is no change in the price of corn syrups. Cane syrup, in half-barrels, is now quoted at 2c. per lb. for good quality. We quote corn syrups as follows: In barrels, 3c.; in half-barrels,

3 $\frac{1}{2}$ c.; in $\frac{1}{4}$ barrels, 3 $\frac{3}{4}$ c.; in 38 $\frac{1}{2}$ -lb. pails, \$1.40 and 25-lb. pails, \$1.10.

There has been a fair amount of business in Barbados molasses, the demand being chiefly for small lots. The price is maintained, Barbados selling in a jobbing way at 23 to 24c., and the market appears steady. There is but a very light demand for large lots. Business in other molasses is as usual. New Orleans is quoted at 16 $\frac{1}{2}$ to 17c.; Antigua, at 24c. and Porto Rico at 38c.

RICE AND TAPIOCA.

These two staples are quieter this week and the amount of business that has transpired is not large. Prices, however, have been maintained, and no change is shown. Our quotations are now as quote: B rice, in bags, \$3.02 $\frac{1}{2}$; in $\frac{1}{2}$ bags, \$3.07 $\frac{1}{2}$; in $\frac{1}{4}$ bags, \$3.12 $\frac{1}{2}$; in pockets, \$3.17 $\frac{1}{2}$. In 10-bag lots an allowance of 10c. is made. CC rice, \$2.92 $\frac{1}{2}$ in bags; \$2.97 $\frac{1}{2}$ in $\frac{1}{2}$ bags; \$3.02 $\frac{1}{2}$ in $\frac{1}{4}$ bags and \$3.07 $\frac{1}{2}$ in pockets. In the open territory prices are about 10c. less. Patna rice is worth 4 to 5c. per lb. and tapioca, 3 $\frac{1}{2}$ c.

SPICES.

Locally, there has been no change in prices. Jobbers report the demand no more than fair. On the New York market all lines of spices, except gingers, are strong, and in the latter there is a better feeling and more active demand. In cayennes, nutmegs, pimento and cassias, especially, the market is firmer under an improved demand. Notwithstanding that deliveries in October were very large, stocks in grinders' hands are reported exceedingly limited. Our quotations, locally, are as follows: Nutmegs, 35c. to 55c. per lb., as to size; penang mace, 45 to 50c. per lb., as to quality; pimento, ground, 12 $\frac{1}{2}$ to 15c.; cloves, 15 to 25c.; pepper, ground, black, 17 to 22c., according to grade; white, 25 to 27c.; ginger, whole Cochin, 15 to 17c.; Japan, 13 to 14c.; Jamaica, 16 to 20c.; Afghan, 12 to 13c.; ground, Japan, 15c.; Cochin, 16 to 17c.; Jamaica, 20 to 22c.; and Afghan, 13 to 14c.

CANNED GOODS.

Jobbers have advanced prices on canned blueberries to \$1.25 per dozen, and at that figure they are none too plentiful. The position of tomatoes is still very strong, and prices are firm, although no recent advance is reported. Jobbers refuse to sell any large lots at lower prices. Corn is still firm but steady at the price quoted. We quote: Tomatoes, \$1.75; corn, 82 $\frac{1}{2}$ to 85c.; peas, 82 $\frac{1}{2}$ c. to \$1.20; string beans, 82 $\frac{1}{2}$ c. to 85c.; strawberries, \$1.45 to \$1.60; blueberries, \$1.25; raspberries, \$1.45 to \$1.60; gooseberries, \$1.45 to \$1.60; pears, 2's, \$1.60 to \$1.70; 3's, \$2.10 to \$2.15; peaches, 2's, \$1.65 to \$1.70; 3's, \$2.50 to \$2.75; 3-lb. apples, 85 to 90c.; gallon apples, \$2.10 to \$2.20; 2-lb. sliced pineapples, \$2.20 to

\$2.30; grated pineapples, \$2.50; pumpkins, \$1 per doz.; spinach, \$1.50; sugar beets, 95c. to \$1.00; salmon, pink, 92 to 95c.; spring, \$1.25; Rivers Inlet red sockeye, \$1.30; Fraser River red sockeye, \$1.40.

FOREIGN DRIED FRUITS.

CURRENTS.—No change has been made in the price on this market. A good business is doing, the demand being especially good for cleaned fruit. Prices continue firm. We quote: Fine Filiatras, 5 $\frac{1}{2}$ to 5 $\frac{1}{2}$ c. in cases; cleaned, 5 $\frac{1}{2}$ to 5 $\frac{1}{2}$ c. in 1-lb. cartons, 6 $\frac{1}{2}$ to 7c.; finest Vostizas, 6 $\frac{1}{2}$ to 7c.

SULTANA RAISINS.—There is an active inquiry and the tone of the market is firm. The price remains at 9 $\frac{1}{2}$ c. per pound.

VALENCIA RAISINS.—The primary market advanced 2s. per cwt., and local prices are higher in sympathy. Four-crown layers have sold as high as 8 $\frac{1}{2}$ c. There is a good demand. We quote as follows: Finest off-stalk, 7 $\frac{1}{2}$ to 7 $\frac{1}{2}$ c.; selected, 7 $\frac{1}{2}$ to 8c. and layers, 7 $\frac{1}{2}$ to 8 $\frac{1}{2}$ c. according to brands.

CANDIED PEELS.—These are going fairly well at unchanged prices. Citron peel is quoted at 15c.; orange is worth 11 $\frac{1}{2}$ c. and lemon, 10 $\frac{1}{2}$ c. per lb.

MALAGA RAISINS.—New Malaga raisins are now offering for future delivery and an active business is doing. Prices are as follows: London layers, \$1.50 to \$1.60; "Connoisseur Clusters," \$2.10 to \$2.20; $\frac{1}{4}$'s, 65 to 70c.; "Royal Buckingham Clusters," \$3.15 to \$3.25; $\frac{1}{4}$'s, \$1; "Excelsior Windsor Clusters," \$1.50 to \$1.60; $\frac{1}{4}$'s, \$1.30 to \$1.40.

FIGS.—Eleme table figs are scarce. In boxes they are quoted at 10 $\frac{1}{2}$ to 20c. per lb., according to size of fig. Comadres are steady at \$1.20 per tapnet.

DATES.—Hallowees, for delivery during the latter part of November, are quoted $\frac{1}{2}$ c. per lb. lower, being now 4c.

CALIFORNIAN RAISINS.—There is an active inquiry for these, and 3-crown muscatels are now quoted at 7 $\frac{1}{2}$ c. per lb.

PRUNES.—Prices of Californian prunes have not changed. We quote as follows: 8 $\frac{1}{2}$ c. for 40-50s; 8c. for 50-60's; 7 $\frac{1}{2}$ c. for 60-70's; 7 $\frac{1}{2}$ c. for 70-80's; 60s; 7 $\frac{1}{2}$ c. for 60-70s; 7 $\frac{1}{2}$ c. for 70-80s; 6 $\frac{1}{2}$ c. for 80-90s; 6 $\frac{1}{2}$ c. for 90-100s. Italian prunes are offered at the following prices: 40-50s, 7 $\frac{1}{2}$ c. to 7 $\frac{1}{2}$ c.; 50-60s, 7 to 7 $\frac{1}{2}$ c.; 70-80s, 5 $\frac{1}{2}$ to 5 $\frac{1}{2}$ c.; 90-100s, 4 $\frac{1}{2}$ to 4 $\frac{1}{2}$ c. per lb.

NUTS.

New crop of shelled walnuts, for delivery at the end of December, are now quoted at 25 to 26c. per lb. Pecans are now worth 15c. per lb. Peanuts are 1c. lower for the finest grades and $\frac{1}{2}$ c. lower for the poorer grades. They now sell at 7 to 11c., according to quality. We quote as follows: Walnuts, 11c.; Tarragon almonds, 12 to 13c.; shelled walnuts, 24 to 26c.; shelled almonds, 29 to 30c.; filberts, 9 $\frac{1}{2}$ c.; Pecans, 15c.; Brazil nuts, 14 to 15c. per lb.

GREEN FRUITS.

By an inadvertent mistake in our report of last week the price of Boston lettuce read "\$2.15 per dozen," instead of "\$1.15 per dozen." There is a fairly

good demand for fruits and vegetables in season, and the market is moderately active. Jamaica oranges in boxes are 25c. lower this week. Peaches are out of the market. Plums have advanced about 50c. Cranberries are 50c. per barrel higher. Tokay grapes have appeared on the market and are selling well at \$3.25 per box. Sweet potatoes are also offered again, the price being \$2.75 to \$3.25. We quote as follows: Jamaica oranges, in bbls., \$5 to \$5.50 and in boxes, \$3; Messina lemons, \$1 per box; cocoanuts, \$3.50 per bag of 100; bananas, No. 1, \$1 to \$1.50 and 8-hands, \$1; Canadian cabbage, 25 to 40c. per dozen; potatoes, \$1.15 to \$1.30 per barrel; plums, \$1.50; pears, \$3.25 and limes, \$1.50 per box; Canadian apples, in barrels, \$1.50 to \$3 and in baskets, 20c. to 30c.; egg plant, 50c. per basket; Canadian pears, 10c. per basket; Spanish onions, 55c. per crate and \$2.10 per case; sweet potatoes, \$2.75 to \$3.25 per bbl.; Canadian blue and white grapes, 20c. to 22c. per basket; Delawares, 35c. per basket, and Malaga grapes, \$5.50 to \$7 per keg; red grapes, 25c. per basket; cranberries, \$8.50 to \$10 per barrel; red onions, \$2.25 per bbl.; chestnuts, 11c. per lb.; Boston lettuce, \$1.15 per doz.; wax beans, \$2.50 per basket; green beans, \$2.50 per basket, and cucumbers, \$2.25 per doz.; pineapples, 21s. \$5 to \$5.50 per crate; Tokay grapes, \$3.25 per box; grape fruit, \$6 per box; new dates, 4½c. per lb.; figs, 10 to 15c. per lb.

FISH.

Malpeque shell oysters have advanced considerably and are now quoted at \$6 to \$8 per bbl. Other oysters have not changed in price, but the market is firm.

There is a decided scarcity in oysters. Although dealers are receiving stock right along, it is estimated that there will be only about one-half the supply of last year. Whitefish are now out of the market. No. 1 Nova-Scotian herring are higher and mackerel has advanced \$1 per bbl. Dried codfish, on the other hand, is 50c. per 100-lb. bundle cheaper. There is a good demand for almost all lines of fish. Fresh lake fish are commencing to arrive freely. Arrivals have been later than usual owing to the storms on the lakes. The supply, however, is plentiful. A car of fresh halibut and salmon arrived last week from British Columbia. We quote: Haddies, 6 to 7c.; smoked herring, 9c. per box; fresh haddock and cod, 1½c. per lb.; dore, 7 to 7½c.; pike, 6c.; halibut, 12c.; salmon, 15c.; No. 1 herring, Nova-Scotian, \$5.50 per bbl and \$3 per half-bbl.; No. 1 Holland herring, \$6.50 per half-bbl.; No. 1 Scotch herring, \$6.50 per half barrel and 95c. per keg; Holland herring, 70 to 80c. per keg; No. 1 green codfish, \$5.50 to \$5.75 and mackerel, \$20 per barrel; boneless cod, 1 and 2-lb. blocks, 6c. per lb.; loose boneless cod, 5c. per lb. in 40-lb. boxes; dried codfish, \$1.50 per 100-lb. bundle; No. 1 Labrador salmon, \$20 in tierces and in barrels, \$14; standard bulk oysters, \$1.40 per gallon; Marshall's kippered herring, \$1.45 per dozen; Canadian kippered, \$1 per doz.; Canadian ¼ sardines, \$4.00 per 100; canned Cove oysters, No. 1 size, \$1.30 per doz.; canned Cove oysters, No. 2 size, \$2.20 per doz.; Malpeque shell oysters, \$6 to \$8 per barrel.

BUTTER AND CHEESE.

BUTTER.—A continued firmness in the market can be reported this week. Finest

creamery brought from 20½ to 21c. A noteworthy factor at the moment is the call from the domestic trade, who are buying 21½c. for jobbing lots of finest. This is reported to have a tendency to make sellers somewhat more stubborn in negotiations for round lots. Briefly stated the market is satisfactory. We quote: Quebecs, 20½ to 20¾c.; Townships, 20¾ to 21c.; dairy, 16 to 16½c.

CHEESE.—There is little cause for complaint as to the amount of trade passing in cheese. It is said that the stock of cheese on this market is about 251,289 boxes. In London it is reported that they have 100,000 boxes. Prospects for the future are good. We quote as follows: Finest Ontarios, 11½ to 11¾c. and Quebecs, 11¾ to 11½c.

COUNTRY PRODUCE.

EGGS.—A fair volume of business is being done in eggs, although the market is rather more quiet than a week ago. The demand is principally for pickled and cold storage goods. There is a scarcity to be noted in straight stock. Straight receipts are bringing 18 to 18½c. July and August cold storage, 17½c.; pickled, 17½c. and straight candled, 19c.

BEANS.—The market still remains firm and the change anticipated by some dealers has not yet taken place. Prices are \$2.05 per bushel on track for primes and \$2.05 to \$2.10 in broken lots.

HONEY.—There is not a great deal doing in honey. The demand is slow and the supply light. White extracted is selling at 8c. per lb and white comb at 10 to 11½c. Buckwheat honey brings 6½c. in bulk.

AN OVAL FRONT SHOW CASE.

John Taylor & Co., FINE TOILET SOAPS, Toronto.

POTATOES.—The market is steady under a good demand. A good quality of stock is being offered. Dealers are paying 60 to 65c. per bag of 90-lb. on track. In a jobbing way the price is 70 to 75c.

MAPLE PRODUCTS.—A dull and featureless market is to be noted this week. We quote: Syrup, in large tins, 70 to 80c.; in small tins, 50 to 60c. in wood, 5 to 5½c. per lb. Sugar, 8½ to 10c.

ASHES.—The market remains dull. We quote: First pots, \$4.35 to \$4.40; seconds, \$3.60; Pearls, \$6.25 per 100 lb.

FLOUR AND GRAIN.

FLOUR.—Business in flour has been fairly good, the demand being steady and prices ruling firm. There has been no quotable change. Quotations are as follows: Choice Manitoba spring wheat patents, \$4.10; seconds, \$3.80; strong bakers', \$3.40; straight rollers, \$3.50 to \$3.60; winter wheat patents, \$3.75 to \$4.

GRAIN.—The tone of the market for grain has continued firm throughout the week. Peas are quoted higher, and rye has also advanced in price. Barley is quiet, but prices are steady. Oats continue in good demand, and with a continuance of limited offerings the market shows a higher tendency. We quote: Rye, 56c.; peas, 79c.; corn, 72c.; buckwheat, 58½ to 59c.; barley, 49c.; oats, 36 to 36½c. ex-store.

FEED.—There has been no actual change in the price of feed, but the supplies are somewhat light and prices are firm. Shorts are scarce. We quote as follows: Manitoba bran, \$16 to \$17; shorts, \$18 to \$19; Ontario bran, \$15; shorts, \$17 to \$18; mouillie, \$23 to \$20, according to quality.

OATMEAL.—No quotable change has been made, but the tone of the market is firmer in sympathy with the advance in the price of oats. Rolled oats are now quoted at \$4.50 per barrel and \$2.25 per bushel in jobbing lots, and at \$4.15 per barrel and \$2 per bag in large lots.

BALED HAY.—The demand for baled hay continues good and the market is active at steady prices. No quotable change is reported. Prices now are: No. 1 timothy, \$9 to \$9.50; No. 2, \$8 to \$8.75; clover, \$7 to \$7.50 per ton in carlots.

MONTREAL NOTES.

Mackerel is \$1 per barrel dearer.

Mixed pickles are tending higher.

Coal oil has advanced ¼ to 1c. per gal.

Higher prices may be looked for in French sardines.

Malpeque shell oysters have advanced \$1.50 to \$2 per barrel.

Cranberries have gone up 50c. per bbl.

For the week ending November 1, 29,275 boxes of cheese were exported from the port of Montreal.

For the corresponding week last year, 61,797 boxes were shipped from Montreal.

Since May 1, this year, the shipments of cheese from the port of Montreal to present date, number 1,845,460 boxes.

Last week 7,606 packages of butter were shipped.

From May 1 to November 1, a total of 173,011 packages of butter have been shipped.

Robt. Charters, general merchant, Ouilchena, B.C., is succeeded by Arthur Jackson.

NEW BRUNSWICK MARKETS.

St. John, N.B., November 3, 1902.

BUSINESS is very active. The markets, as a rule, are very firm with an upward tendency. There are a few exceptions, such as dry codfish and pickled fish, which are more freely offered. Beans, while high, have dropped off considerably during the week. There is much interest in the winter-port business which will shortly open. Better arrangements than ever have been made to handle it, and there is no doubt the volume of business will be larger than ever.

OILS.—There is nothing new. Burning oil, which is a particularly large business, shipments this fall having been larger than usual, holds firm at the advance. Lubricating oils have a large sale for the season. Paint oils are rather quiet, the lower price in linseeds and the strong market in turpentine continue. Some cod oil is arriving regularly to hand.

SALT.—In Liverpool coarse salt the market is well supplied. Regular receipts will come to hand with the opening of the winter-port business. In fine salt, there is a fair sale at even figures. We quote: Liverpool coarse, 55c. to 60c.; English factory-filled, 95c. to \$1.00; Canadian fine, \$1 per bag; cheese and butter salt, bulk, \$2.40 per bbl.; 5-lb. bags, \$2.75 to \$2.85 per bbl.; 10-lb. bags, \$2.60 to \$2.65 per bbl.; 20-lb. wood boxes, 22-23c. each; 10-lb. wood boxes, 14c. each; cartons, \$2 per case of two dozen; English bottled salt, \$1.25 to \$1.30 per doz.; mineral rock salt, 60c. per 100 lb. (Selected lumps.)

CANNED GOODS.—This is quite an active line. Dealers are holding tomatoes at the full advance, not being able to fill their orders. Corn is quite firm. Peas are unchanged. Salmon is still offered quite freely. There is a wide range in the price. The market is rather firm. In fruits, gallon apples are offered freely at quite low prices. The market is freely supplied by local packed fruit. Blueberries are scarce. Other fruits sell at even figures. Meats are being sold by Ontario packers for spring delivery. Prices are firm. In sardines, the pack, so far, has been light, but prices are low. Haddock and herring are quite freely received.

GREEN FRUITS.—There are still free receipts of soft apples, but Gravensteins and winter fruit are scarce and bring full figures. The Gravensteins seen here are poor. Oranges are quite low, there being free receipts of Jamaicas. In lemons, while prices are still quite high, the market is somewhat easier. Grapes, Ontario stock are not so freely offered, and the season is about over. Keg grapes are more freely offered. There is very little doing in sweet potatoes. Cranberries show quite a range in price. Each season the domestic berry shows an improvement. There is a very light call for bananas.

DRIED FRUITS.—The chief interest is in Californian fruit, particularly seeded raisins. The market is quite bare and direct shipments will be late. Coast prices will be higher by the time the report is in the reader's hands. Californian

prunes are daily expected; in fact, they will be on the market this week. Prices are low. Malaga raisins are more freely offered than usual. Valencias are scarce and high. Currants are low. Cleaned in packages, have the market. Some new peels are daily expected and sell freely to arrive. Figs sell freely and prices are firmer. New dates are shortly expected. Prices are low, but the market is tending higher. Evaporated apples are rather higher. In onions, stock is freely offered and lower prices rule. Nuts have a fair sale. New peanuts are being quoted.

DAIRY PRODUCE.—Butter is rather firmer; best stock is hard to get. There is a good inquiry. Eggs are rather firmer. Sales have not been large, but they show an improvement. Cheese is rather higher and stocks held are quite light.

SUGAR.—The market rules very firm. Prices are still low and the sale is very large. There are several retail houses buying in carlots this season, which is unusual here.

MOLASSES.—There is a fair inquiry. Porto Rico is the grade having the sale. Prices are unchanged, though held firmer. Some Barbados is still offered.

FISH.—There is just a fair business, the big fall demand having been supplied. Dry cod have been very freely received and the price is rather easier. Pollock are rather light supply. Pickled herring are rather easier, there being less demand. Finnan haddies, which have a very large western sale, are rather scarce and the price is firm. Smoked herring are in very light supply for this season and rather higher prices rule. We quote: Haddies, 4½ to 5c.; smoked herring, 6½ to 7c.; fresh haddock and cod, 2 to 2½c.; boneless fish, 4 to 5c.; pollock, \$1.70 to \$1.75 per 100 lb.; pickled herring, \$2 to \$2.25 per half barrel; dry cod, \$3.50 to \$3.65; pickled shad, half barrel, \$6.

FLOUR, FEED AND MEAL.—The firmer prices in flour rule. Manitobas have been advanced 10c. Feed is quite plentiful. Oats and oatmeal are firmly held. Cornmeal is unchanged. Beans are more freely offered, and at much lower prices than were quoted last week. Barley has a rather better sale. Peas are high and scarce. Quotations are as follows: Manitoba, \$4.15 to \$4.20; medium, \$3.95 to \$4.10; oatmeal, easy at \$4.40 to \$4.50; cornmeal, \$3.20 to \$3.25; middlings, in small lots, \$26 to \$28; oats, new, 40 to 41c.; handpicked beans, \$2.25 to \$2.30; prime, \$2.05 to \$2.75; yellow eye beans, \$2.80 to \$3; split peas, \$5.15 to \$5.25; barley, \$4.40 to \$4.50; hay, new, \$9 to \$10.

ST. JOHN NOTES.

Maclaren's cheese has a large sale at present.

Bajrd & Peters landed a car of Matthews' lard this week.

It is many years since the stock of smoked herring held here at this season was so small.

The A. I. Teed Co., St. Stephen, have received a large shipment of Upton's jams, jellies and marmalade.

E. T. Sturdee is finding a large demand for New York cleaned currants. Hills, Bros. & Co., whom he represents, quote low prices.

The first car of Californian prunes received here this year was shipped by The J. K. Armsby Co. to A. L. Goodwin. Mr. Goodwin is the only buyer here importing a straight car of prunes.

MANITOBA MARKETS.

Winnipeg, November 1, 1902.

THE business of the week has been satisfactory. Money is coming in fairly well and all jobbers seem satisfied, with the single exception of the car shortage difficulty. Goods are still very long in coming in and this makes correspondence heavy. The weather is simply perfect. There was a light rain on Friday and Saturday of last week, but since then the weather has been warm and bright. To-day (November 1) has been like a summer's day, and except for the absence of leaves on the trees was more like early June. The mild weather has a tendency to hold back the sale of heavy clothing, but it is popular with those who have long fuel bills to pay and with the builders who are straining every nerve to complete their contracts. There is very little of interest to record in the matter of market changes.

CANNED GOODS.—The interest of the situation still centres around tomatoes. The extreme shortage of supply is now pretty fully known and jobbing houses are adjusting themselves to the conditions. Offers of tomatoes at \$3.10 per case Montreal have been received in the city for lots up to 1,000 cases, but so far as known these have not been bought. At this price it would mean that tomatoes would have to retail at 20c. and at this price consumption would be materially lessened; in fact, jobbers claim that it would be cut down over one-half. Price quoted on tomatoes here at present is \$3.50 per case, but it is understood that this price will go higher. Corn and

peas are very firm but without change. We quote: Corn, per case, \$2; peas, per case, \$2; beans, per case of 2 doz., \$1.75. Strawberries, in heavy syrup, \$3.10; strawberries, preserved, per case, \$3.40; raspberries, in syrup, per case, \$3; raspberries, preserved, per case, \$3.40; black raspberries, per case, \$2.60; pineapples, per case, \$4.10; pineapples, grated, imported, per case, \$3.85; pineapples, American, per case, \$3.85; pineapples, sliced, Singapore, per case, \$3.70; pineapples, sliced, Singapore, per case, \$5.50; pitted red cherries, per case, \$4.50; apples, 3's, canned, per case, \$2.40; apples, gallon, canned, per case, \$1.70; peaches, yellow, per case, \$3.60; peaches, 3's, per case, \$5.75; peaches, 2's, per case, \$3.10; pears, 3's, per case, \$4.25; plums, according to brand, 2's, per case, \$2.15; 2's, per case, \$2.60; 2's, per case, \$2.75; 3's, per case, \$3.20; 3's, Green Gage, per case, \$3.35; Green Gage, Californian, 2½ lb. per case, \$4.25; Damson, Californian, 2½ lb. per case, \$4.20; Egg, Californian, 2½ lb. per case, \$4.20; apricots, Californian, per case, \$4.10; peaches, Californian, per case, \$4.75; pears, Californian, per case, \$4.95.

SUGARS.—The market is steady with a very considerable volume of business moving. No change in prices can be recorded. Extra standard, granulated, \$4.45; bright yellows, \$3.85.

MOLASSES.—In steady demand at the following prices: Black strap, in bbls., per gallon, 28c.; black strap, in half bbls., per gallon, 30c.; black strap, in 5-gallon kits, each, \$2.25; golden, in half bbls., per gallon, 38c.; Barbados, genuine imported, in half bbls., per gallon, 45c.;

Imperial brand, in 3-lb. tins, per case of 2 doz., \$3.25.

EVAPORATED AND DRIED FRUITS.—New Californian muscatels are in and show very fine quality. Prices are as follows: 2-crown, 8½c.; 3-crown, 9c. per lb. There is little change in other lines, quotations for which are: London layers, \$1.90 to \$2 per box; clusters, \$2.50; "Royal Buckingham Clusters," \$3.50 to \$3.75; fine off-stalk Valencia, \$2.25 to \$2.35; layers, \$2.40 to \$2.50. Currants are unchanged at 5½c. for best Filiatras and 6½c. for cleaned. Vostizzas, in cases, 6c. Smyrna figs.—The new stock promises to be very fine. We quote: 6-crown, 20c.; 5-crown, 15c.; 3-crown, 12½c.; glove boxes, 14 to 16c.; cooking figs, 4½ to 5c.

Evaporated fruits are firmer and show a tendency to advance. Prices are as follows: Peaches, peeled, 20 to 21c.; peaches, unpeeled, 8½ to 9½c.; pears, 10 to 12c.; apricots, choice, 9½c.; apricots, standards, 8½ to 9c.; pitted plums, 9 to 9½c.; prunes, 100-120, 4 to 4½c.; prunes, 90-100, 5½ to 5¾c.; prunes, 80-90, 6 to 7c.; prunes, 70-80, 6¾ to 7c.; prunes, 60-70, 7¼ to 7½c.; prunes, 40-50, 9 to 9½c.; evaporated apples, 8½c. per lb.

CEREALS.—A slight decline in rolled oats and a stronger bean market are the only items of interest to record this week. Rolled oats have dropped to \$1.85 for the 80-lb. sack, and other lines in proportion. Granulated and standard oatmeal, \$2.50 per 98-lb.; cornmeal, in sacks, \$1.75; cornmeal, half sacks, per half sack, 90c.; white beans, choice, \$2.35 to \$2.45; split peas, per sack, \$2.70; whole peas, per lb., 2½c.; pearl barley, Ontario, per sack, \$3.30; pot barley, Ont.

ario, per sack, \$2.20; rolled wheat, per sack of 80 lb., \$2.25; wheat, granules, per sack of 6 to 10-lb. bags, \$2.

RICE.—The market is firm and without change. Prices are: Japan, 5½c.; Patna, 5 to 5½c.; B rice, 4 to 4½c. per lb.

FLOUR.—It was rather expected that flour would advance in sympathy with eastern prices, but the advance promised last week has not been confirmed and the mills are selling at the old figures of \$2 for patent No. 1; \$1.85 for No. 2 and \$1.55 for strong bakers. The mills of the West are all heavily oversold.

BUTTER.—For the small amount of creamery still in the hands of the factories 20 to 21c. is being paid at the factory. Another week will see all of it about cleared up. Dairy butter.—Supplies are not increasing to any considerable extent and a good deal of the late receipts cannot be classified as "choice." Anything like a good round lot of fresh, sweet dairy is worth 15c. Winnipeg, and inferior grades, 12 to 14c.

CHEESE.—The market is now down to winter basis. There are small quantities of Manitoba in the city and considerable stocks of Ontario. Jobbers are selling at 13½c. per lb.

EGGS.—Receipts show no signs of increasing and there is a very active demand. One house in the city is offering 20c. net Winnipeg and others quote from 18 to 19c. Retail eggs are 30 to 35c. per dozen, according to the grade of freshness.

NOTES.

The Williamson Company's goods, such as fruits in glass, which first came on this market last season, are growing in popularity. The Hudson Bay are their agents here and have received one car, and another in transit.

OTTAWA TRADE GOSSIP.

BUSINESS here is reported good with both wholesale and retail merchants. The increase in prices of some lines has created an extra demand.

Raisins are still very firm at advanced prices. Californian seeded raisins cannot be bought within ¼c. of last week's prices. Flour is the same as last week and in good demand.

The price of sugar is also the same, the demand at present not being very great.

Canned tomatoes are being retailed here in some stores at 15c., although 12½c. is about the lowest they can be bought for. A small lot was sold the other day for \$1.75 per dozen. Corn is likely to reach \$1 per dozen soon according to a good report. Peas are about 85 to 90c.

Currants are plentiful at 4½c. for fine Filiatras and ¼ to ½c. higher for cleaned fruit.

The price of American oil is advancing. It is now 19½c., being 1c. higher than last week. A prominent firm state that they cannot get enough to supply the demand.

At the Fruit Exchange good stock winter apples are selling at high prices. Buyers are beginning to realize that it is a mistake to look for apples as low as it was talked of some time ago. No. 1 Spies are selling at \$3.25 to \$3.75; Baldwins, \$3 to \$3.50 and Pippins, \$2.50 to \$2.75. No. 2 stock is now plentiful, and

according to sample is selling from \$1.50 to \$2.50 for all varieties.

At the Cheese Board last Friday some 780 boxes were offered, made up of 543 of white and 237 colored; 11½c. was bid and a few sales were made at that figure. The price of cheese of September make or older is about 12 to 12½c. now, and it is scarce at the price.

The regular meeting of the Ottawa Retail Grocers' Association will be held next Monday evening in their rooms, Fruit Exchange Building, Nicholas street.

The fall number of "The Canadian Grocer" came to hand Monday morning and everyone spoken to who has seen it was delighted with its appearance and make up. The information to be had from it is worth a year's subscription alone.

EXPERIMENTAL SHIPMENT OF APPLES.

An experiment recently made by the Experimental Farm authorities here in apple shipping to Great Britain has demonstrated the demand which it is possible to create for Canadian fruit. There was shipped, on October 1, 100 bushels of first grade fall apples, packed in boxes of one bushel each. They were sent to a commission merchant in London in the name of one of the officials, in order that there should be no favoritism shown on account of their being Government farm-grown. The returns received this week show that the apples sold quickly, bringing a profit, after commission and freight was paid, of \$3 a barrel. In the 100 bushels there were about 33 barrels.

SALE OF A HOTEL.

An event that will interest commercial men took place here yesterday when the transfer of the Grand Union Hotel took place. Hugh Alexander, the proprietor, for the past nine years, sold out to J. K. Paisley.

Mr. Alexander intends leaving for the West to go into ranching, and to celebrate his last day as proprietor, he gave a dance and supper. It was an impromptu affair, but there was a large gathering of prominent citizens and guests of the hotel.

H. C. E.

Ottawa, November 4, 1902.

A MYSTERIOUS BLAZE.

One of those fires, the origin of which is wrapped in mystery, was discovered about 10 p.m. on October 29 in the basement of the premises at 22 North John street, Hamilton, occupied by the Garlock Packing Co. The brigade was on hand promptly, and soon squelched the flames, but the squelching process resulted in considerable damage by water. The loss, which will likely exceed \$1,000, is covered by insurance.

The fire will be a serious matter to the company, owing to the delay it will cause in the filling of orders. A. Byrne, the proprietor, has only recently returned from a trip to the Old Country, during which he took a large number of export orders, and these cannot be got at as soon as required.

W. E. Mayhew, general merchant, Bristol, Que., has sold out to W. J. Scobie.

NECTAR THEN AND NOW.

AT the hands of Hebe or Ganymede as cupbearer it assumed a roseate hue, possessed wonderful life-giving properties, and imparted perential beauty and vigor to those who sipped it wisely, remarks London Globe. This, of course, was on the mystical heights of Olympus, where, in hot weather, it was doubtless tempered with a mixture of chastening snow. In the valleys below the early connoisseur, supine but exigent, took his nectar in the form of a

—draught of vintage that had been cooled a long age in the deep-delved earth,

and as often as he took it he seems to have found that it agreed with him. But no sooner was a beverage pronounced the ideal nectar of gods and men than the latter began afresh their experiments with the cup. The only nectar that could be properly idealized must be all things to all men; and as the tastes of mortals were almost as various as their drinks, a rather serious difficulty must have been experienced. This seems ultimately to have been solved by the application of the term to a whole class of beverages, the only necessary condition being that they should be equally delicious and salubrious. In a word, there was nectar, and nectar all the world over. Thus it became not only the most accommodating of drinks, but the ideal beverage according to time, place, circumstance, and last, but by no means least—the fastidious personal equation.

But, of course, the ancients had their special idea of a true nectar, as tested and approved by their own palates. Wine was its natural basis, and it would, perhaps, not be difficult to trace the "cup" drinks of the moderns to the class of beverages which were regarded by the Greeks and Romans as "nectareous." The early practice of adding water to wine and cooling it with ice or snow developed into an entirely new order of thirst allaying beverages. Honey was the natural sweetener of all of them; but this ingredient was apt to pall, and its rather cloying lusciousness had to be corrected by the use of certain flowers and spices. From Lucullus himself might have fallen the inspiration:

Annual for me the grape, the rose, re-
new,
The juice nectareous and the balmy
dew.

A similar development can be traced in the history of the famous beverages, mead and metheglin, once the nectars of Northern Europe. Both were fermented drinks; but the latter—the nectar or "honey wine" of the banqueting table—was rather viciously intoxicating, while mead was chiefly used as a vehicle for the flavoring of fruits and aromatic herbs. Queen

Elizabeth was excessively fond of it, and a mead used to be especially prepared for her use, blended with sweet briar, thyme, rosemary and bay. The effect of metheglin upon the heads and tempers of its consumers was notorious, and remembering the liberal views prevailing among our ancestors on this subject, the cause of many a hot feud and doughty trial of strength between Saxon and Dane may not be far to seek. Mead, however, was a true nectar, as was "morat," a delicate mixture of honey with mulberry juice. "Pigment" was a richer and heavier liquor, composed of wine highly spiced and also sweetened with honey.

As the use of honey waned, and the employment of sugar became general, a new departure occurred in what may not improperly be called "made" or mixed drinks. A genuine nectar was always regarded as a happy blend of several ingredients, and as these were infinitely various, the result was sometimes a little astonishing. One of the most delightful and harmonious of these blends was that of milk with cider or light wine, which one would like to think was the discovery of a genius. As for good cider, it is occasionally so very good as to be almost a nectar in itself, and one of its scientific advocates claims for it that "it satisfies the interior parts of the system, which then cease to importune the stomach." A splendid credential, which also implies a great moral. But where are the ciders of old days with which this truly admirable result might perhaps have been obtained? What has become of the once famous "Cocky Gee," king of all the Somersetshire ciders, of which an excellent judge remarked that never was nectar more delicious? "Full flavored, soft, creamery, yet vigorous, it was preferred to any champagne. Fashions change, tastes vary, and men conform accordingly. Though not even the most drouthy poet would vaunt the vapid inanity of the so-called "claret cup" as ordinarily made and administered. No hint of the nectar of flowers is to be found in that bowl. And in spite of the exquisite nectars of which milk is a leading ingredient, we are content to regard it as sufficiently drinkable when "enthused" by means of a syphon. Such a combination would have chilled the heart of Isaak Walton, a connoisseur of no mean order. He does not say that he was the inventor of the delicious beverage described in his book, but he certainly suggests a most delightful occasion for its enjoyment. On a hot summer afternoon, and within earshot of the drowsy rippling of the stream, we find a shady retreat "which Nature herself has woven with her own fine finger—a contexture of woodbines, sweetbriar, jessamine, and

myrtle." In this enchanting bower art comes to the relief of (human) nature with a nectar composed of sack, milk, oranges and sugar, which, though not iced in the lavish modern manner, was "temperated" to the refreshing point of coolness; which is about "as cool as a cucumber," little more or less. This is a most appealing drink, even to the driest imagination. So good, indeed, that it was declared to be "too good for any but anglers or very honest men." By all means let us qualify for a share of that bowl.

It has been said that in the multitude of beverages there is folly; but there is pleasure, and good service, too, in a few. The ideal nectar for hot weather should be thirst assuaging, bland, and not of too composite a character. Like truth, it may sometimes be discovered at the bottom of a well. Some easily satisfied palates have found it in cold tea lightly sweetened and with a slice of lemon added; while a pinch of oatmeal to a yard of pump water has been voted all sufficient by the teetotalers. It depends upon the drinker. No doubt, simplicity is delightful to the thirsty, though a more nectareous touch is permissible in the draught prepared for an occasion. And here is one which, though originally "made in Germany," should yet commend itself to English tastes. In a large vessel, and in a cool place, lay a freshly gathered bunch of sweet-smelling wood-rosie, with an orange. Then fill up the bowl with any thin Rhenish wine, and allow it to stand for some hours. When required add a bottle or two of aerated water, and serve it as a "cup" with everything floating in it. It should, of course, be cool; but if you affront it with ice it will respond with diminished flavor. And—as is not always the case with nectars of a more ambitious cast—it is said of this delicious beverage that you never have to ask your friends how they like it.

THE ANGLO-FRENCH CHINAMAN.

W. H. Evans, in Montreal Star.

Entering a laundry in Westmount a few days ago I noticed the "celestial" deeply interested in a "classic." I said:

"Gum Choo, what are you reading?"

"Learnee Flenchee."

"Learning French?"

"Yep."

"Who is teaching you?" I exclaimed.

"The San Fliscan Flyer."

"The St. Franciscan Friar?"

"Yes, the Fliscan Flyer at the biggee Jossee house on Dolchester street, no bootee, lopee beltee (rope belt)."

"Well, Gum, how are you progressing?"

"Fline, pallee likee Loctor Dlummond's Labitant (Habitant). Avey vooee checkee po' la washee, chin chin, savee?"

"You are doing well. How do you amuse yourself?"

"Playee plingee plongee with Yow Yow in backee roomee. Comme ca?"

MONTREAL, QUE.

CEYLON TEA

BLACK AND GREEN.

is growing more popular every day.

Facts and figures show that the importation of Ceylon Tea into Canada has been increasing steadily for some time past.

There must be a popular demand to increase the importation of Ceylon Tea, and the wise grocer knows that it pays to sell a popular article.

Once your customers know there is no better tea than Ceylon Tea they will use it exclusively.

Now, don't let the fellow around the corner get your tea trade, but recommend and sell

CEYLON TEA

BLACK AND GREEN

and you will find that the bulk of the tea business will come to your store.

EVERYTHING

comes to the man who

WAITS,

but **Robinson's Patent Barley**
and **Robinson's Patent Groats**

have stood the test of over ninety years, and are now being sold by almost every reliable Grocer in Canada.

Don't **WAIT** until you are asked for them,
but stock these Foods **NOW.**

Current Market Quotations for Proprietary Articles

November 6, 1902.
Quotations for proprietary articles, brands, etc., are supplied by the manufacturers or agents, who alone are responsible for their accuracy. The editors do not supervise them. If a change is made, either an advance or decline, it is referred to in the market reports, as a matter of news whether manufacturers request it or not.

BRADSTREET'S

Capital and Surplus, \$1,500,000.

Offices Throughout the Civilized World.

Executive Offices: Nos. 346 and 348 Broadway, New York City, U.S.A.

THE BRADSTREET COMPANY gathers information that reflects the financial condition and the controlling circumstances of every seeker of mercantile credit. Its business may be defined as of the merchants, by the merchants, for the merchants. In procuring, verifying and promulgating information, no effort is spared, and no reasonable expense considered too great, that the results may justify its claim as an authority on all matters affecting commercial affairs and mercantile credit. Its offices and connections have been steadily extended, and it furnishes information concerning mercantile persons throughout the civilized world.

Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing and manufacturing concerns, and by responsible and worthy financial, fiduciary and business corporations. Specific terms may be obtained by addressing the Company at any of its offices. **Correspondence invited.**
