The picnic of St. Stephen's (Methodist) Sunday School was held on Wednesday at Kingsport. The weather was perfect there was a large attendance, and all present enjoyed themselves to the full. By the courtesy of the D. A. Railway the picknickers were given a trip to Wolfville and back on the Prince Albert, which the fine bracing air of the Basin and the affability of Capt. Holmes and staff made doubly pleasing.

Capt. Wm. McBride was home on Saturday last until Monday from his naval duties at Halifax. He was accompanied by Capt. Murdoch who has been a busy man since the opening of the war having served thru the Mediterranean campaign against the Turks at Gallipoli with a hospital ship, has had his ship torpedoed three times and with all the responsibilities and misfortunes of war was obliged to seek some rest from his arduous and dangerous toil. He has been in the West Indies and came to Halifax. Getting his nerves under control and health improved he has joined the patrol at Halifax and will ere long be ready to assume command in the danger zone.

Farm Boot For Summer Wear

Here at last is the perfect combination of boot and moccasin, and of Cromme-tanned and Oil-tanned leathers.

The general shape is that of a moccasin — but the boot is built on a last, with a long, solid counter to hold up the heel. It has all the easy, foot-fitting comfort of a moccasin, and at the same time it will stand up and keep its shape with any boot. They outwear any other boots of their kind on the market, and give solid comfort and satisfaction every day.

Suitable for farmers, dairymen, mechanics and carpenters, in fact for anyone requiring foot comfort

CROPS IN CANADA

Ottawa, Aug. 2, 1917—A special press bulletin issued today by census and statistics office gives the following report on the condition of field crops throughout Canada, as compiled from telegrams despatched at the end of July.

Atlantic Provinces—In Prince Edward Island frequent beneficial rains have assured excellent cereal crops, insect damage reducing wheat below average. Hay an average crop. Potatoes promise full crop with 15 p. c. increased acreage. In Nova Scotia all crops made excellent for growth. In New Brunswick weather was excellent for growth. Potatoes and roots are good, grain in a bad color.

Quebec—Rimouski: Rains frequent; all crops have splendid appearance, good hay crop Ste Anne de la Pocatiere (Kamouraska): Frequent showers favorable to all crops. Hay good. Grains poor, but better than expected in June. Potatoes promise average crop. Lennoxville (Sherbrooke): Hay crops late, about 40 per cent being harvested. Yield above average. Heat of last few days very beneficial to corn, roots etc. Aubrey (Chateaugay): Hay averages two tons per acre. All grains promise average crops; roots a failure. Potatoes doing well, also corn except on lowlands where drowned out. Cap Rouge: Hay crop very heavy, pastures fine. All grain suffering from excess of precipitation. Roots promise well, corn for silage poor, potatoes fair. Lac a La Torture (Champlain): Wheat, oats and barley good, potatoes very good; corn better than in June; beans promise well; hay abundant; roots fair.

Ontario—Ottawa: Hay harvesting about two weeks late, crop average. Grain and roots promise well. Corn with favorable weather should be abundant crop. Potatoes promise to be above average. Pastures very good. Prescott (Greenville): Hay full crop of good quality, three quarters cut. Grain promises full head and filling well. Corn for husking doubtful, for fodder very promising potatoes good. Peterborough: Fall wheat ripe, thin, but heads well filled. Barley above average, peas best for several years. Oats and mixed grains specially good; potatoes and roots looking fine; fodder corn large acreage and good appearance. Everything ten days late. Oshawa (Ontario): Hay about average, one third well saved, third fairly well, rest poor. Barley, oats and spring wheat prospects above average; corn mangolds, turnips doing well; potatoes big crop if blight does not damage. Farm help very scarce. Conestogo (Waterloo): Hay crop harvested in good condition. Wheat nearly ready to cut, some rust prevalent. Spring crops look well, but need rain, so do roots and potatoes. Hyde Park (Middlesex): Wheat badly infested with ball smut and rust. Oats developing open smut, but look well; peas, corn, barley, potatoes, turnips excellent, though late; hay half well saved.

Manitoba—Willwood: Cereals injured by drought, about half crop; potatoes and roots late but good; hay and pastures half crop; summer fallows very fair; late crops suffering from great heat. Brandon: Drought continued during July. Wheat will not average more than 12 bushels. Oats and barley worse, hay a failure; cutting will begin about August 20.

Saskatchewan—Indian Head: July very dry with hot southwest winds; crops suffered considerably throughout district. Early sown grain on fallow filling fairly well. Stubble and spring ploughing will be very light. Crops are maturing rapidly. Cutting will commence

from tenth to fifteenth and should be general by August 20th. Saskatoon: Crops very short owing to continued drought. Best grain fields very weedy. Yields of hay much below normal. Many vegetable gardens almost total failure. Rosthern: No rain since July 12. Hay and corn poor, roots fair. Grain good, but needs rain. Yield about 50 p. c., unless copious rains soon. Potatoes promise above average.

Alberta—The Alberta Department of Agriculture reports hot and dry weather generally throughout the province except in a few districts. Grain and roots have advanced well, but all need rain, particularly in southwest portions. Haying general. Barley turning in many districts. If rain comes soon a big crop can still be harvested. Lacombe: High temperature and dry weather last three weeks of July have hastened maturity and reduced prospective yield of all cereals; some districts not suffering from lack of rain, but all central Alberta would be benefited by good rainfall. Hay harvest 60 p. c. completed. Early varieties of grain will be ripe next week.

British Columbia—Agassiz: July exceptionally dry and hot. No rain fell until the last five days. All hay stored in excellent shape. Grain crops maturing rapidly. Corn growing fast; roots and pastures need rain. Live stock in good condition. Summerland: Apple crop will not exceed that of 1916; it is very patchy. Well kept orchard have held out well during water shortage and heat. Early peaches are just ripe; apricots coming in. Both running small this year. Invermere: Crops under irrigation good, and have made rapid growth. Weather good for haying. Fodder crop promises well. Sidney: Very few areas in the Island district received beneficial rains during the month. In consequences of long drought all spring sown grain, roots and potatoes have not developed as usual. A heavy hay crop, was gathered in excellent condition. Small fruit has given an average crop.

The Germans have been taught to believe that the reason they are fighting is because they were set upon by neighbors. The French-Canadians have been taught to believe that the reason they are not fighting is because their compatriots are not well treated in Ontario and Manitoba.

Mederic Martin, Liberal M.P., and Mayor of Montreal, calls Dr Clark an "English immigrant." What business has an Englishman in this country anyway.

Many threatening letters are being received by members who voted for conscription. They come from Quebec. The man who means to kill you is not likely to advise you about it.

Prefers Jail to Service

Le Progres du Golfe, referring to what that paper calls "the muzzling of the press," says: "Before we are strangled and before our editors are thrown behind the bars, we wish at least to say a last word to our fellow-citizens. Not recognizing the legitimacy of the obligatory military law upon the people we are of the opinion that if our oppressors command us to conform to their sanguinary edict, our strict right and duty to refuse to obey. If we are forced to resist we will be acting in self-defence, and if resistance is impossible, then let us be arrested and sent to the penitentiary. Better to go freely to jail in order to safeguard a sacred principle than to go to foreign battlefields to fight as slaves to defend the liberty of others."

WANTED—At once a boy to learn trade and do chores. Apply to Box. 103, Kentville.

MAID WANTED—New Home; Light Work; Good Wages; No children. Capable girls only need apply. Address Box 204, Wolfville.

BOSTON ROAST

Two cups baked beans, put through meat chopper; from 1-2 to 1 cup of grated cheese, 1 chopped onion, if preferred. Add enough bread-crumbs to shape into a loaf. Grease a bake pan, shape loaf on it, and bake one-half hour in moderate oven. Baste with 1 teaspoon of butter and 8 tablespoons hot water. Serve with Tomato sauce.

Note—The beauty of this receipt is that it may be made of left over beans from the day before, cheese that is past table use, and bread crumbs saved from day to day by the economical housekeeper.

WANTED—Ten tons Prime Old Hay at \$8 per ton. Address Box 378, Kentville.

THE BUSINESS OF HOMEMAKING.

Here are a couple of tested receipts for the homemaking who is trying to solve the problem of the "meatless day," which everyone is being asked to observe. Each receipt is a meat substitute, and will provide the necessary nutriment;

Auntie (visiting in the country):

"What a lovely morning it is, Nina! I feel as though I should like to make someone supremely happy today?"

Nina (catching the same feeling): "Yes, auntie, and so do I. Let's go and scratch the pig's back."

Blame the Fathers

London, July 25—Colonel Obed Smith has received a letter from a French Canadian at the front who is recommended for a commission, who, after relating incidents of daily life, proceeds to speak of conscription. The question should be handled with steel gauntlets," he says. "Ignorance is rampant in my native province, and the blame rests on the shoulders of the fathers of confederation who allowed two official languages beget separate schools, and they beget ignorance. It may require a small army to enforce radical changes after war, but we shall have them. Indifference of Quebec in this struggle will be a powerful lever in the hands of a bold leader."

SIR ROBERT BORDEN HOPES FOR A UNION GOVERNMENT

OTTAWA, Aug 4—Sir Robert Borden today received the delegation which presented the resolution of the win-the-war convention, in Toronto. They asked for national government, and for an extension of parliament, without an election.

In his reply, the premier, pointed out that an election was necessary, but he expressed the hope that in the near future there would be a union government, without reference to party or race or creed.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedy and the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."

—Mrs. E. H. BEAN, 625 1/2 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

"LET US PRESS ON TO VICTORY"—BOTH

LONDON, Aug. 4.—Via Reuter's Ottawa Agency—Among the many messages received by the Government in connection with the anniversary of the war, is one from General Botha, Premier of South Africa, saying:

"At the close of the third year of this terrible war I can only reiterate what I said yesterday namely, let us press on to victory."

LONDON, Aug. 6.—To mark the beginning of the fourth year of the war an impressive inter-cessional service was held yesterday morning in Westminster Abbey. King George attended, accompanied by numerous members of his household, including Prince John, his youngest son; Princess Mary and Princess Victoria. Nearby sat Premier Lloyd George Sir John Jellicoe the first sea lord of the admiralty, and numerous other prominent men, while a special block of seats in the center was occupied by a large party of wounded soldiers. The sermon was by the Archbishop of Canterbury, from the text: "Let us run with patience the race that is set before us."

SIFT YOUR ASHES

Americans are starting an agitation to sift ashes as one means of economy, and it is a wise move. It is estimated that in the United States \$500,000,000 worth of coal could be saved annually by sifting. This figure seems large, but there is not the least doubt that the sifting of ashes in Canada would save well up in the hundreds of thousands. This surely is worth while.

THE CORRECT WAY TO TREAT A COLD

A cough is not a distinct disease, it is the result of inflammation caused by a cold. Therefore, the only way to cure a cough is to allay the inflammation which invades the delicate bronchial tubes. All of the narcotics in the world will not correct the conditions which cause a cough—they simply deaden the senses and afford temporary relief.

Penslar White Pine and Spruce Balsam with Menthol will promptly soothe and heal the inflamed membranes and overcome the nervous irritation. Price, 25c and 50c the bottle.

LETTER TO SOLDIER'S WIFE

Mrs. Lillian Schofield, Kentville has received the following from France dated July 9th in reference to her late husband:

Dear Mrs. Schofield: It is with most sincere and deepest regret that I inform you of the death of your husband Pte J. Schofield who was instantly killed by an enemy's shell on the night of July 6th, 1917.

Since coming to France he has been in my platoon and I am pleased to say that I found him to be a very true loyal and exceptionally good living soldier.

He was very popular in our midst and shall be very much missed not only by his relatives and immediate comrades but by everyone who knew him.

He was buried on the following night with one of his comrades in a French village cemetery some distance behind the lines. It is not possible for me to give you the exact location but such can be obtained from the Canadian Records Office in London.

On behalf of his fellow associates we extend to you our deepest sympathies in your bereavement.

Yours truly, P. S.—I might add that your brother Private Pearl, who is also in my company is quite safe and enjoying perfect health.

Lt. Charles Trask,

The shortage of various necessities of life in Sweden is already beginning to bring various substitutes into the market. One of these is a liquid called "economy sweetening" purporting to contain to each bottle of 120 grams the equivalent in sweetening value, has just shown the contents to consist of one-tenth of one per cent of crystalloes, 12 1-2 per cent of ordinary sugar and 87-4 per cent water.

MILLVILLE AND VICINITY

Aug 6, 1917. On Sunday, July 29, at the Baptist Church in Morristown there was held a memorial service in memory of Erwin Bar-teaux, Phillip Beals, Vernon Wilson, Edmund Saunders and Dana Felch who was residing in Millville at the time he enlisted, also Major Hudgins of Millville.

The attendance was very large. Dr. Cutten who was president of Acadia College before he enlisted, being one of the speakers. He gave one of his powerful addresses which was enjoyed by all who heard him.

Miss Goldie Weir is guest of Mr. and Mrs. Reginald Dargie.

Miss George Whitman of New York is visiting her parents, Mr. and Mrs. A. D. Whitman.

Mrs. Smith of Boston is visiting her parents, Mr. and Mrs. Amos Ewing.

The funeral took place at the home of Mr. and Mrs. Ewing on July 28 of their daughter, Mrs. Robert Joudrey of Greenwood. She leaves a husband and several small children to mourn the loss of a wife and mother. Much sympathy is felt for them in their grief.

Baptist Beginnings in Canada.

The first Church in Canada was organized in 1763 at Horton, N.S. by a visiting Baptist minister from New England but this seems to have disappeared.

Later in 1763 a little Baptist Church of 13 members organized at Swansea, Mass., with its pastor migrated in a body and settled at Sackville, N. B., but in 1771 moved back to New England. Nicholas Pierson, a local baptist preacher, with 9 others organized in 1778 the Wolfville Baptist Church and from that time the denomination had a firm footing. This church has thus had an honored history of 139 years. The small band of 1778 has grown into a large flourishing and solid church in 1917.—His Dominion.

It is stated that a new subtropical fruit is destined to divide the honors with the banana and fruit in popular favor. It is the alligator pear, and grows on an evergreen tree of the laurel family, varies in weight from one to two pounds, and has a firm marrow like pulp. Mr. E. Page Wilson, an authority on subtropical fruits says: "While the grape fruit is a luxury that is undoubtedly beneficial to the human system, it gives very little actual nourishment. The avocado or alligator pear, on the other hand is a complete and almost perfect food for it contains all the necessary elements in good proportion." The avocado is being grown in certain districts of Southern Florida.

Things to Smash

An anti-conscription orator in Montreal declared the other night that there were three things which needed smashing up, the British Empire, the Canadian Confederation and the Montreal Gazette. It isn't often that a mere newspaper is honored by inclusion in such distinguished company. But the three, have been going strong for a good many years, and the future should have something in store for them all.—Edmonton Bulletin.

Canadian Troops Have Made Another Advance Along a Front of 600 Yards—Germans are Fighting Hard.

Canadian Headquarters in France, via London, Aug. 7.—The Canadian outposts around Lens have established a new line in a group of houses which is within a few yards of the enemy front line at that point. The Lens-Bethune road is now safely within our lines almost up to the City of Lens.

The enemy does not intend to submit to the loss of Lens a little bit at a time, as in recent advances, without making a fight for it. While our outposts were establishing their new posts this morning the Germans turned loose a heavy artillery and machine gun barrage upon the crater recently captured and buildings nearby. Sheltered by this barrage his infantry advanced upon the crater which was only lightly held as an outpost. Our men in the crater withdrew without suffering any casualties and the Germans re-occupied it.

Destructive artillery shooting was continued yesterday by our artillery at an accelerated rate because of the better light, but dull weather has again come and the gunners are disconsolate.

During the terrific thunder storm in Boston on Friday last four persons were instantly killed, scores were injured and the property loss is estimated at hundreds of dollars. The storm extended to Portland, Maine, where extensive damage is also reported.

Military Service Bill Passes Third Reading in Senate of Canada

Ottawa, August 8.—The Military Service Bill passed the third reading in the senate today and now awaits only the Commons endorsement of the government amendment, inserted in the upper house making approval of the minister of justice a necessary preliminary to any prosecutions under the act, and the signature of the governor general, before it becomes law.

Letter From Pte. Chris. Porter, No. 901841, 5-A Ward, Branford War Hospital, Fishponds, Bristol, Eng.: w July 15, '17.

Dear Mother—

I am going to try to write you a good long letter now that I am in England I can tell you some things which I could not tell while I was in France. First of all though I will tell you I am feeling fine only I am a bit deaf yet but that is not near as bad as it was I also have a fractured skull but I am feeling good and getting along fine.

Now, I'll try to tell you how I got hit. We went over the top which means to jump out of our own trench go out across No Man's Land and capture Fritz's trenches and Fritz too. Well we had fine luck, took two lines of trenches and the second line was all battered to pieces by shells so we only had a shell hole for a whole Lewis Gun crew, six men. I guess I never told you before I am in the machine gun crew. Well I was going to tell you on the morning of June the 30th we were digging out our shell hole and trying to connect our shell holes so as to make a trench, and we worked too long for it had begun to get light and old Fritz spotted the mud flying so he promptly put his S.O.S. (send over shell) and we sure got some of his dirt. Well by and by along comes a shell looking for me, it lit right among us and a piece of shrapnel got me in the forehead and the concussion deafened me, so after I had come to myself a bit I walked out to the dressing station from there I was taken to a hospital in an ambulance at a place called Barlin only a few miles behind the lines from there by train to Camiers, stayed there eight days and then by train from Camiers to Calais, from Calais in France to Dover in England by boat and from Dover to Bristol; another train ride and I enjoyed every bit of my trip I had a good bed all the way both in the train and boat, I tell you Mother it is wonderful how the Red Cross trains are fitted up.

Well I guess you will be tired of reading about my trip so I will tell you where the 85th Batt. got her baptism of fire I guess you have heard of Vimy Ridge and the 9th of last April, gee I never want to go through anything like that again.

Well dear Mother, how are you all. I hope you won't worry about me for I am Jake and my deafness isn't near as bad as it was, Mother I hope you will forgive me for not writing before or rather oftener, but we were having some fun with Fritz before I got hit and the last month it seems as if it was almost impossible to get time to write. Now I'll ring off for this time with lots of love to all and may God bless you all.

From your loving son,
Cris.

Yarmouth Herald—Mr. N. B. Borden, of N. B. Borden Lumber Co., Fernandina, Fla., accompanied by Mrs. Borden and her mother, arrived in Yarmouth on Saturday morning. They brought with them a beautiful touring car and proceeded in the afternoon for Wolfville, to visit Mr. Burgess.

Election Necessary Says Premier Borden

Ottawa, Aug. 4.—(Canadian Press)—Sir Robert Borden, today received the delegation which presented the resolution of the win-the-war convention in Toronto. They asked for national government, and for an extension of parliament, without an election.

In his reply the premier pointed out that an election was necessary, but he expressed the hope that in the near future there would be a union government, without reference to party or race or creed.

MRS. F. W. CHIPMAN

The death of Mrs. F. W. Chipman took place at her residence, Kentville on Thursday, Aug. 2nd, at the age of 73 years. The funeral service was held on Saturday, Aug. 4th, conducted by Rev. R. B. Layton. The floral offerings were many testifying to the high esteem in which she was held.

Mrs. Chipman was a daughter of the late Rev. George Struthers, Kentville, and was married about 49 years ago to Mr. Chipman, then in business with his father. He died about 15 years ago. Mrs. Chipman has been an invalid for many years and bore her afflictions

with christian patience. Mr. Kenneth Chipman of the freight department of the D.A.R., Halifax, is the only surviving child. Three children died, Aubrey in Montana and Harry and Laura died here in Kentville. Her sister Miss Mary Struthers has resided with her for many years and has been a constant and attentive companion.

Her last illness was caused by a stroke of paralysis, May 1st, she lingered along being unconscious during the last week. She was a consistent member of the Presbyterian church.

At present there are about sixty returned soldiers under treatment at the Nova Scotia Sanatorium—the one hundred others who were expected not having arrived yet. These men now here are deserving of our attention and gratitude for having served for us. There is one way in which Kentville people and others can show their gratitude and relieve the monotony of their daily routine. Fresh air is good for them and Lieut. (Dr.) Miller has consented for owners of autos, etc., to drive them out in the country any day between the hours of 3 and 5 o'clock. Will all owners of autos kindly remember this when they can spend a couple of hours off.

OBITUARY MRS E. H. SHAW

The death of Mrs. Elizabeth
Hall Shaw, widow of Jonathan
Shaw, Esq., and mother of Mrs.
T. C. Mellor, St. James' Rec-
tory, Kentville, occurred on
Monday, August 6th at the age
of 92.

Mrs. Shaw was a native of
Yorkshire, England, and came
to Nova Scotia, to reside with
her daughter, her only child,
after the death of her husband,
27 years ago.

She was a woman, full of good
works, charitable disposition,
never discouraged because of
difficulties-undaunted in the day
of trial, and possessed unwaver-
ing faith in God and in man-
kind.

Her closing days were marked
by wonderful patience, and ap-
preciation of all that was done
for her by those who ministered
to her.

The attention given her
throughout her life so lovingly
and unselfishly bestowed by
her daughter, Mrs. Mellor, was
most marked.

The Funeral Service was held
at 9 o'clock on Wednesday
morning in St. James' Church
and was conducted by the Rev.
Rural Dean Dixon, Rector of
Wolfville.

The body was then conveyed
by the 10 o'clock train to An-
napolis Royal and interred in
the beautiful and picturesque
cemetery at Le Quille. The Rev.
H. S. Wainwright, locum
tenens, officiating.

Judge J. A. Grierson of Wey-
mouth was in town a week ago
visiting his relatives.

Mrs. Johnson Spicer, Mrs.
Edward Spicer and Mrs. Corey
Jenks of Parrsboro were in
Berwick last week attending
the Institute meetings. They
came to Kentville on Tuesday
and called upon Mrs. W. S.
Blair and Mrs. H. G. Harris
returning home to Parrsboro
on Tuesday's boat.

About 70 men of the 249th
Battalion left for Valcartier on
Tuesday morning a number be-
ing at the station to bid them
adieu. These men remained af-
ter the battalion left to take a
course in musketry, etc., at the
R. S. I. They were a fine lot
of men and were pleased to
again join their battalion.

A Summer Beard on a Sunburned Face

is one of the toughest jobs a razor is ever asked to handle. It's a job that needs a

Gillette Safety Razor

YOUR beard grows its fastest in the summer. Your face is more sensitive. The sun burns your skin; the wind cracks it. Perspiration and dust settle around the roots of the beard.

Then it is that the Gillette is most appreciated. Guarded—adjustable—matchless in its keenness—it shaves smooth, as close as you like, and cool. No pulling or irritation—nothing but grateful comfort—especially for the man whose skin is over-tender or whose beard is over-tough.

If you are sticking close to the job this summer, a Gillette shave every morning will make it easier. If you're taking a vacation trip, a Gillette in your grip will be a friend indeed.

Standard Sets "Ballpoint" and "Aristocrat" may be had at any hardware store for \$5.00—Pocket Edition at \$3 to \$5—Combination Sets at \$8.50 up.

China Will Soon Be At War With Germany

Peking, Aug. 2 (delayed)—Acting president Feng Kwo Chang today approved the unanimous decision reached at a special meeting of the Chinese cabinet to declare war on Germany and Austria Hungary. The ministers of the entente probably will meet at the Chinese foreign office on Saturday to discuss China's declaration of war, which is expected to be issued next week.

Prominent Germans in Peking are conferring with the Dutch minister to China with the object of making arrangements to go to Java. The Spanish minister, probably will take over the interests of Austria-Hungary. Premier Tuan Chi Jui and his political followers insist that Feng Kwo Chang, as vice president when Li Yuan Hung declined to resume office.

Parliamentarians are assembling at Canton and are preparing to organize the military government with sanction of parliament and to elect a president.

Acting President Feng Kwo Chang has asked for liberal appropriations to be used in suppressing the southern military elements.

Peking, Aug. 1—(delayed)—Li Yuan Hung, the former president, who has been in the French hospital since the time of the recent crisis, left the hospital today and returned to his private residence in the Chinese city. Acting President Feng Kwo Chang, who arrived in Peking today, called upon Li Yuan Hung after the latter reached his home and urged him to re-assume the presidency. Li Yuan Hung declined, however, to comply with the request of the acting president expressing the desire permanently from public life. His hope was, he said, that Feng Kwo Chang would have a successful administration.

HOUSEHOLD HINTS

Add a pinch of baking powder to the pie crust.

Mutton is one of the most easily digested meats.

Carrots and peas mixed make a very good dish.

Grate an apple into your horse radish and you will have a fine relish.

Ashes should always be sifted to save the cinders.

If the soles of shoes are coated occasionally with painters' oil they will outwater the uppers.

Scrambled eggs and onions are made by first frying the onions, then the eggs into the pan and stirring as usual.

Sour milk should never be wasted—it can be used in biscuits and gingerbread or for Dutch cheese, or for griddle cakes.

Have on your pantry shelf several cans of condensed milk, and if the milkman is delayed you are not without milk.

Large oranges are more economical than small ones, because half of a large orange is enough to serve one at breakfast.

Colored cloths should never lie in soapy or dirty water, but be washed in clean water, instantly rinsed and hung in a shady place.

It is never wise to ask the cook to serve an untried dish to guests. To be sure of a good dinner, have the things the cook has made successfully.

If the shoe soles are worn, even to holes, they may be mended by applying a coat of glue and covering with a piece of thin leather or even felt. Will not stand wetting.

Glue may be made waterproof by soaking it in water till it becomes liquid and then adding painters' oil. Keep it in a warm place till the remaining water has evaporated.

JAPAN BUILDING SHIPS

Every shipbuilding plant in Japan has been working overtime for more than a year and new yards for turning out ships have been built.

The Tokio government already has inquired as to the attitude of the United States toward the exportation of steel from this country to Japan, and has received a favorable answer.

BY GOD'S HELP WE MEAN TO TRIUMPH.

LONDON, Aug. 6—King George writing to the lord mayor of London, thanking him for his re-affirmation of loyalty and expression of confidence in the efficiency of the fighting forces, says:—

"Three years of war, with all they have meant to every home in the British Empire, have served to weld more closely than ever the bonds of unity and steel the hearts of the whole Nation in their firm resolve to secure the sacred principles of justice, freedom and humanity. It is for these we fight. And by GOD'S HELP we mean to triumph."

TOMATO SAUCE FOR MEATS

Two tablespoons butter, 2 tablespoons flour, one cup tomato juice, salt and pepper. Cook altogether slowly.

TO TRY TO RECOVER BAGDAD

GENEVA, Aug. 5—The Germans and Turks are repairing to make a great effort to regain Bagdad, according to the Secolo di Roma. General Von Falkenhayn, who commanded the Austro-German armies in Roumania last year, has arrived at Constantinople to take command of the forces now being assembled. Four Turkish divisions from Dobruja and Turkish troops from Thrace are being concentrated. Austria is supplying the heavy artillery and Germany is furnishing the officers. The offensive the paper says will take place in the middle of September.

RICE SAUSAGE

One cup cooked rice, 1-4 cup chopped walnuts, 1 egg, a little breadcrumbs. Salt and pepper. Mix shape as sausage, and fry in butter or pork dripping. Serve with tomato sauce.

NOT LOOKING BACK ACROSS THE LONG DARK NIGHT BIT LOOKING FORWARD TO CERTAIN DAYBREAK

PARIS, Aug. 6—On the third anniversary of the war, Premier Lloyd George telegraphed the anniversary of the war, premier of the French republic:

"During recent years French soldiers have fought in brotherly union, side by side, in more than one desperate battle. By our common sufferings we are not only attuned to a more thorough mutual understanding and affection, but we have created a better world for our successors."

Lord Milner telegraphed: "We are determined to follow the beacon of the heroic example of France not looking forward to that certain daybreak in which the free peoples of the world will together celebrate the final triumph of the rights of nations."

Sir Edward Carson telegraphed: "We entered together into this war for the defence of liberty and of rights. We will carry on land and sea shall bring the common enemy to his knees."

British Troops Throw Hun Attackers Back

London, Aug. 6—German forces last night again attacked the neighborhood of Hollebeke, on the Belgian front but were repulsed according to the official report received by the war office today from General Haig. A German attack on the British positions at Westhoek also was unsuccessful. The text of the statement reads:—

"Early last night the enemy attacked in the neighborhood of Hollebeke. He was driven off before reaching our lines. An attack made under cover of a heavy barrage against our positions at Westhoek was unsuccessful. A German raiding party was repulsed during the night east of Ephy."

RUSSIAN GENERAL WILL BE SHOT

Sentenced After Trial by Court martial for Non-Compliance With Order to Shoot Deserters.

LONDON, Aug. 6—General Masovisky, commander of the Guards corps which headed the Russian retreat on the southwest front, has been ordered shot, according to a despatch to the post from Petrograd.

This sentence came after a court-martial, which was ordered by General Korniloff, commander-in-chief, for non-compliance with his order to shoot deserters.

SOLDIERS CANNOT OBTAIN FURLOUGH

Sir Edward Kemp, minister of militia, replying to an inquiry from the secretary of the Great War Veterans' Association in Toronto as to the possibility of bringing back on furlough soldiers who have seen active service since the beginning of the war writes:—

"The question of giving three months' furlough has received serious consideration both here and overseas, but Sir George Perley, minister of militia overseas, while expressing every sympathy for these men and their relatives, states that under the present conditions it is impossible to give leave to go to Canada to any man who is fit for service in the field."

Col. Phinney Tells the Rotary Club of Brave Deeds Done By 85th Men

(Herald)

Halifax, Aug. 8.—Always interesting, the Rotary Club luncheon yesterday reached the superlative of interest with Col. E. C. Phinney as a speaker of the day. The colonel of the gallant 85th was given a rousing reception when he rose to speak and at many points of his address there was hearty applause.

He confined his talk to the doing of the boys of the famous Nova Scotia battalion and pictured the location and the events that have made Vimy Ridge a place that will ever live in the history of the Empire.

His story was told well. His pride in his battalion was unmistakable. He told of the splendid work done by Major Rudland and Major Ralston and other Nova Scotians. The greatest enthusiasm was aroused, however when he told of two men in the ranks, Private Thompson and Private Claude Colwell, the latter a son of Alderman R. B. Colwell. These two young men were on scout duty at Vimy Ridge. Preceding the charge they were sent forward to discover certain conditions. They took with them a number of bombs and by themselves they succeeded in clearing out some dugouts and brought back a couple of prisoners. On this occasion, in one of the dugouts, Private Colwell secured a package of documents which he held onto and brought back to his commanding officer. The documents proved to be of great military value, in fact the most valuable find made at Vimy Ridge.

Germans are Uneasy.

(By the Associated Press)

British Front in France, and Belgium, Aug. 7.—The British lines continue to advance on the French City of Lens, north of Arras. Canadian troops, who, on Saturday night, pushed their positions forward approximately 200 yards along a front of a thousand yards in the Western environs of the city, late yesterday added a 600 yard front of a similar depth to their defences south and west of the outskirts of that mining centre.

The Germans have been showing signs of decided uneasiness in the Lens sector for several days as has been evidenced by their practice of throwing a curtain of fire on the British trenches each morning at dawn.

Vimy and Farnus towns behind the British lines south of Lens, also have been shelled daily by the enemy batteries.

The rest of the British front has continued in a state of comparative calm, so far as infantry actions have been concerned.

One of the Worst Explosions That Has Occurred There Since War Began Three Hundred Killed or Injured

LONDON, Aug. 6.—According to reports received from the German frontier by the correspondent at Amsterdam of the Exchange Telegraph company the explosion at Henningsdorff was one of the worst catastrophes of its kind that has happened in Germany since the war began. A munition factory was wiped out, 300 people were killed or injured, and enormous damage was done. Henningsdorff has been isolated by troops and police.

Negro Republic Has Declared War on Germany

Washington, Aug. 7.—Liberia, the negro republic on the coast of Africa, has declared war on Germany. Some time ago Liberia broke off diplomatic relations. The declaration of war now gives opportunity to intern German merchants and others who have been accused of unlawful activities. The United States was advised today of the little republic's action.

Attacks Crushed by the French

Paris, Aug. 6.—German attacks were made last night on the French positions east of the Naisy farm, in the region south of Bouville at Avocourt wood and in Alsace. The French official statement issued this afternoon says that all the attacks were crushed by the French artillery. On the French front in Belgium the situation was unchanged.

THE NEXT PARLIAMENT

When the dissolution of Parliament occurs, candidates of election will face a new division of constituencies in all the provinces as result of the redistribution of seats following the census of 1911. Representation is based on population, and the apportionment among the provinces is simple and equitable. Quebec is given for all time the fixed number of 65 members, and there is assigned to each of the other provinces such number of members as will bear the same proportion to its population as 65 bears to the population of Quebec. The census of 1911 returned the population of Quebec as 2,002,712, and this divided by 65 makes the unit of representation in the Commons 30,811. The great increase in population in the decade 1901-11 having been in the northwest, that portion of Canada becomes entitled to much larger membership in the next House, while Ontario, Nova Scotia and New Brunswick not having gained population proportionately with Quebec, will have their representation reduced. The provincial representation in the present and in the next House of Commons is thus shown:

	Present House	Next House
Ontario	86	82
Quebec	65	65
Nova Scotia	18	16
New Brunswick	13	11
Manitoba	10	15
British Columbia	7	13
P. E. I.	4	4
Saskatchewan	10	16
Alberta	7	12
Yukon	1	1
Totals	221	235

The membership of the next house of Commons will be 14 larger than at present, the increase being drawn entirely from the Western provinces. These provinces will send to Ottawa 57 members or 1-4 of the whole; they will have nearly two-fold the representation of the three Maritime provinces: 57 seats against 31; and their combined membership will be only eight less than that of Quebec. Truly, westward the course of Empire takes its way, and it is easy to appreciate that in the next and succeeding Parliaments the influence of Northwest opinion will be much more potent than in the past.

Political Crisis Has Developed in Newfoundland

St. John's Nfld., Aug. 7.—A political crisis developed in the Legislature today when the Upper House rejected the Bill for the taxation of business profits for war revenue. It is said the Government will prorogue the legislature tomorrow, and consider further action. This may take the form of an attempt to force the Bill through a special session, or there may be an appeal through a general election.

Large Quantity Apple Barrels Required

The apple crop of 1917 in the Annapolis Valley, will require according to present estimates, very nearly one million barrels. The potato crop will also make very large demands. Whence will these demands be supplied. We are informed, on good authority that the material now available for the supply of barrels will be exhausted before the million mark is reached. Under the circumstances, the saving of flour barrels, old apple barrels, etc. becomes the duty of every household.

Liquor Advertisements and Literature To Be Kept From The Malls By The Doherty Act

Ottawa, Aug. 7.—Hon. C. J. Doherty today introduced his promised bill to amend the "act in aid of provincial legislation prohibiting or restricting the sale or use of intoxicating liquors," which is generally known as the Doherty Act. The Minister of Justice said that the amendments were designed to strengthen the hands of the provinces in the enforcement of their legislation by adding to the facilities for dealing with the importation of liquor from outside the provincial boundaries for use in contravention of the provincial law.

The first paragraph of the Bill made the description more complete by adding the words, "for beverage purposes" to the word, "liquor."

One section provides that the mails shall not be used for the circulation of liquor advertisements and literature in provinces where such advertisements are prohibited. Any person who sends an attempt to send from any province to persons living in prohibition provinces advertisements or documents regarding the sale of liquor for beverage purposes shall be guilty of an offense, and liable on summary conviction to a penalty of not less than \$10 nor more than \$100, with the alternative of imprisonment for 30 days, or to both fine and imprisonment.

Canada's War Expenditure is \$850,000 a Day

Ottawa, Aug. 7.—Canada's war expenditure now totals \$850,000 a day, the expenditure up to July 20 being \$623,000,000, including the upkeep of the Canadian troops in France, for which the amount, estimated to be owed Great Britain is \$272,000,000. The advances to the Munitions Board amounted to \$283,000,000 and \$22,000,000 was spent for cheese, hay, flour, etc. Canada is finding about ten million dollars a month for the purchase of cheese, and contributing \$25,000,000 a month to the Imperial treasury for the purchase of munitions in Canada.

NO EMBARGO ON COAL

Washington, Aug. 7.—Reports that the United States would embargo coal shipments to Canada, were denied officially today. Canada has been receiving large quantities of coal from this country recently because of the Dominion's reduced production but coal experts now connected with the American Government say the United States is producing enough coal for both countries.

British Front in France, and Belgium, Aug. 7.—The British lines continue to advance on the French City of Lens, north of Arras. Canadian troops, on Saturday night, pushed their positions forward approximately 200 yards along a front of a thousand yards in the Western environs of the city, late yesterday by our artillery at an accelerated rate because of the better light, but dull weather has again come and the gunners are disconsolate.

The British war expenditure is rapidly approaching \$40,000,000 per day.

Digby, Aug. 4—The Esther Hankinson, a three-masted schooner built by the Esther Hankinson Shipbuilding Company, of Belliveau's Cove, was successfully launched at high water this morning before a large number of onlookers. She is 157 feet in length with a beam of 32 feet and depth of 11 1-2 feet and has a gross tonnage of 351 tons. She is finished internally in oak and fitted with hoisting machinery.

MEMORIAL SERVICE

A memorial service was held at the home of the father, Waterville in honor of Harry Power on Sunday, July 29th, conducted by Mr. Dakin, the Waterville pastor, a very impressive sermon was heard also two fine letters read written by Harry last autumn sailing for overseas. Belonged to the 219th battalion later being transferred to the 25th Battalion he entered the trenches in March, 1917, and has been facing the enemy and death since then. However we know that he has faithfully fought and has earned a peaceful rest which he is now taking although in distant lands where so many of his comrades lie beneath the sod of France, Harry was a bright young man and had just past his thirtieth birthday, he left his farm and home to enlist as did his brother, Howard who is a wounded prisoner in Germany. Although our hopes for him is faint yet those for Harry are gone but oh how many others are sorrowing by the same affliction and doubtless many more to endure the parting of loved ones Four sisters and four brothers and father are left to mourn the loss of this brave boy who has died in defence of our King and Country.

The proposed amendment to the Doherty Act will make it illegal to publish liquor advertisements in Nova Scotia and other provinces. Good idea this. About every week we are receiving offers to run liquor advertisements from Montreal, Quebec, etc., at prices that would make our local merchants turn pale if we quoted such a rate to them.

We will bet dollars to doughnuts that if the Germans can't stop those big British tanks we have some sample roads in Kings County that would rattle the monsters to pieces.

Wilson's former plea of "too proud to fight" no longer holds in the United States. The whole country is alive with efforts towards prosecution of the war. The germ in a most aggravated form has descended upon Quebec and there is where the shirkers are found now.

Clubs for the workingmen are being strongly advocated now. If the workingman needs a club where they can spend their evenings their own homes is the best place. Any man can have one. Many of our people ought to wake up now and find out what a fine place home is.
