HARBOR GRACE, NEWFOUNDLAND, MARCH 25, 1758

NO XLII

HOLLOWAY'S PILLS

Let no one be longer oppressed with the notion that his malady is incurable. The purifying Pills have had a fair trial. The doses will remove the more urgent symptoms, and therefore completely control disordered actions, rouse the torpid liver, drive the obstructed kidneys, cleanse the blood, and confer on every form of healthful vigour.

Impurities of the Blood.

These wonderful Pills are valued at the humblest hearths as well as in the house of comfort and wealth. They work a thorough purification throughout the whole system without disordering the natural action of any organ, and eradicate those germs which consign tens of thousands to an early grave.

Indigestion, Bilious Complaints and Sick Headache.

No organ in the human body is so liable to disorder as the liver, and none is more apt, when neglected, to become seriously diseased. Remember when nausea, flatulency, or acidity on the stomach warns us that digestion is not proceeding properly, the Holloway's Pills regulate every function, give strength to every organ, speedily remove all causes of indigestion, bile, and sick headache, and effect a permanent cure.

Weakness and Debility.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effects of these Pills is in the highest degree invigorating, and restorative. They drive from the system the morbid causes of disease, re-establish the digestion, regulate the secretions, strengthen the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Turn of Life and Dropsical Swellings.

The turn of life is the most distressing period in woman's existence; it distresses thousands. The whole of the gross humors collect together, and like a tide sweep away health and life itself, if not timely and powerfully checked. The most certain antidote for all these dangers is Holloway's Pills. Armed with them the fiery ocean is passed through, and the sufferer is once more restored to the possession of his natural health. It is but little known that at the so-called "turn of life," man also, when verging on fifty or fifty-five, discovers that his health is considerably deranged, and knows not the cause—a critical period in his life. All perils to both sexes are at once removed by recourse to these Pills.

The Kidneys—their Derangements and Cure.

If these Pills be used according to the printed directions, and the Ointment applied over the region of the kidneys for at least half an hour at bed time, as soon as forced into ment, it will penetrate the kidneys and correct any derangement. Should the affliction be stone or gravel, it is particularly recommended that the Ointment in such cases, be used night and morning, by its judicious application the most astonishing cures may be performed.

Holloway's Pills are the best remedy known in the world for the following diseases:

- Ague
- Rheumatism
- Asthma
- Retention of Urine
- Bilious Complaints
- Scrofula, or King's Evil
- Moles on the Skin
- Sore Throats
- Power Complaints
- Stone and Gravel
- Debility
- Secondary Symptoms
- Dropsy
- Tie-Doloureux
- Female Irregularities
- Ulcers
- Fevers of all kinds
- Veneral Affection
- Gout
- Worms of all kinds
- Headache
- Weakness from whatever causes
- Indigestion
- Liver Complaints
- Lumbago
- Piles

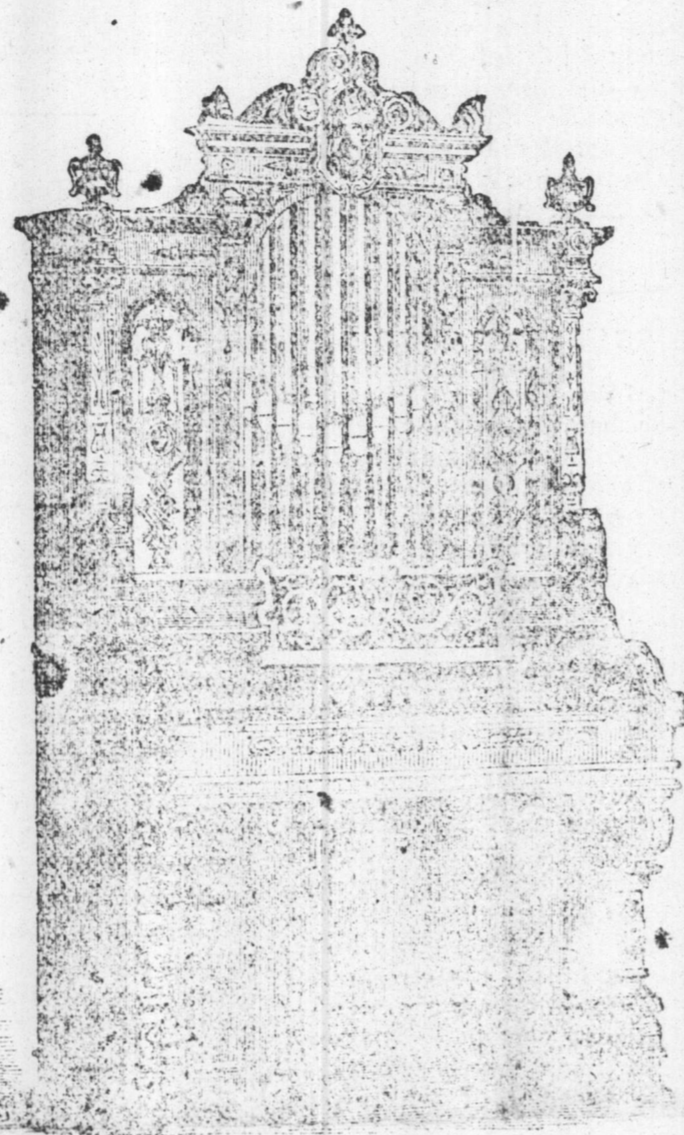

The Pills and Ointment are sold at Professor Holloway's Establishment, 53, Oxford-st., London; also by every respectable Vendor of Medicine through the civilized world in Boxes and Pots, at 1s. 1/4d., 2s. 1/4d., 4s. 1/4d., 11s., 22s., and 33s. each. The 2s. 1/4d. contains three, the 4s. 1/4d. six, the 11s. 1/4d. sixteen, the 22s. size thirty-three, and the 33s. size fifty-two times the quantity of a 1s. 1/4d. Box or Pot. The smallest Box of Pills contains four dozen; and the smallest Pot of Ointment one ounce.

Full printed directions are affixed to each Box and Pot, and can be had in any language, even in Turkish, Arabic, Armenian, Persian or Chinese.

FORMS

always on hand.

The colossal bridge thrown across the length and breadth of the harbor still continues firm. The services of the Ferry-boat have consequently been laid aside for the present. The present official in charge of this public transport appears to have given every satisfaction to the travelling public. We are told that he has petitioned the Legislature for an advance to his salary. We think we are justified in saying that the people of this district will hail with delight the favorable response of the Government in this respect; as to lose Mr. Fitzgerald's valuable services would be considered as a public loss indeed.

Our reporter has learned that the "Standard's" Weathercock's cat was caught on Monday night last, on the premises of a well-known ratter in this town. The person who secured him has however, declined handing him over to his original owner, and has intimated his intention to keep the animal himself, and will give the indications of the winds and weather in the columns of the STAR once every month. It is remarkably fortunate that the gentleman was so lucky in seizing the animal, as the public will receive the weather report as usual. Some talk has been going the rounds within the past day or two to the effect that the Weathercock has entered an action at law against the person who caught the feline, to recover the animal. We will take note of the case as it proceeds.

[TO THE EDITOR OF THE STAR.]

Sir,— I beg to acquaint the public that I am now fully prepared to give a report of the weather once in every month—having procured the necessary prognosticator. As the "Standard's" Observer did not publish a report for the present month and a part of April on account of reasons which were fully described in your paper last week, I now proceed to give the prevailing winds for the remaining part of this month and up to April the 6th: The prevailing winds during that time will be from the North or North East. We may, therefore, expect a continuance of cold, stormy weather up till the above date.

Yours, &c.,
OBSERVER, No. 2.

Parties requiring good work in the Photograph line would do well to read the following complimentary notice to Mr. Wood, St. John's:

"I can confidently recommend any persons wishing to get old pictures of any kind enlarged and coloured in ink, oil, or water, to Mr. Page Wood, Photographer, St. John's, who can execute them in a style and finish not to be surpassed. He has done some work for me, and I can therefore bear witness to the excellent manner in which it was performed."

G. MACKINSON.

On Tuesday evening the town was thrown into confusion by the cry of fire. On proceeding to the scene it was found that a house belonging to Mr. Robert Andrews was on fire. The Fire Company were quickly on the spot, but to the surprise of all present no water could be procured, and the result was poor Andrews' lost his house. We would like to know whose duty it is to look after the hydrants and see that they are kept free and ready for use at a moment's notice. We cannot see what blame can be attached to the Fire Company, they are always on the alert when their services are required. The public can come to but one conclusion—gross carelessness on the part of the Water Company. We deeply sympathise with Mr. Andrews, and hope that the liberality of the people of this community will be extended to him, and thereby enable him to stem the tide of misfortune. Head Constable Fallon with his men were also on the spot.

Our reporter has learned that a few Shopkeepers, Farmers, Jack-of-all-trades, &c., are forming themselves into a company to enter upon a speculation, namely, to establish a settlement of Harbor Gracians in the neighbourhood of Gander Bay. It is believed this company of utopian enthusiasts purpose entering upon this scheme early in the present spring. The object of this Company will be to cut timber and transport the same to foreign markets, in its rough state. All laborers who wish to secure a summer's work will require to conform to certain stipulations which will be seen and made known on application to the Secretary, so soon as this functionary shall be appointed. Our reporter has succeeded in sitting out some particulars from some of the interested parties in the affair, a copy of which we now insert—

ARTICLE I.—Every applicant must be free able, and willing, possessed of a strong muscular frame—not liable to sickness or disease of any kind, &c.
ART. II.—Every applicant will require to subsist on rye during the summer on "Meal and Masses" a sample of the articles will also be seen at the office of the Secretary.

ART. III.—Provides a guaranteed salary of two pounds per month to be taken up in truck; every article will be charged 100 per cent over the cash price in Harbor Grace.

The above is a sample of the stipulations contained in the 'articles of war'. Now we will offer our opinion on this project—and will offer one or two suggestions also for the information of this company of speculators. After they have succeeded in procuring a grant of the land from the government, and the company fully organized, the capital all subscribed, directors, bankers, treasurer, secretary, &c., appointed, we will be prepared to furnish the Secretary with a list of the names of all the 'Starrigan' worthies, and other discontents in this town, also all particulars of the several abilities and qualifications of each individual, and all particulars that can possibly be elicited about the habits and other propensities of these rebels. After having this accomplished, the Gander Bay Company would do well to enter into arrangements with the Allan, Cunard, or other first class steamship company, with the view of conveying this host of Emigrants from this place to Gander Bay. It will be seen that a colony of settlers could be procured whose aspirations would have full swing. There would be soldiers, sailors, tinkers, painters, shop-keepers, farmers, sail-makers, shoe-makers, butchers, bakers, and a host of other miscellaneous hangers on, whose presence seems to be everywhere a necessity. This arrangement would be also useful in many ways besides fulfilling the object of the Gander Bay enthusiasts. It would have the effect of clearing out this rebellious race of inhabitants and thereby ensure more safety to those remaining; and also instead of the 'worthies' being necessitated to erect an opposition religious edifice in this town, a large Synagogue could be built by the whole company of settlers and a form of religion and religious church government established on their own responsibility, and which could be altered and suitably arranged to answer all parties. Amongst the 'learned' and 'intelligent' we have no doubt but a 'preacher' would be forthcoming when wanted. We have arrived at that stage of our remarks when we must conclude for the present. We will, however, bear in mind these suggestions and will take note of the proceedings as they progress. "The Gander Bay Company Limited," however, have our best wishes, and if our remarks touching the class of settlers we have just mentioned are not in accordance with their respective views, we beg that they will carefully consider our suggestions and we feel somewhat assured that they may go further and fare worse."

SCENE IN STARRIGAN CHURCH.

POOR STEPHEN'S HAT.

When poor Stephen came into the new church last Sunday, he placed his new tall stove-pipe, just outside of the pew in the aisle. Presently Mrs. Scrimshank entered, and as she proceeded up the aisle, her abominating skirts scooped up Stephen's hat and rolled it up nearly to the pulpit. Stephen pursued his hat with feelings of indignation, and when Mrs. Scrimshank took her seat, he walked back brushing the hat with his sleeve. A few moments later, Mrs. Puffin came into church, and Stephen had again placed his hat in the aisle. Mrs. Puffin's skirts struck it and swept it along about twenty feet, and left it lying on the carpet in a demoralized condition. Stephen was singing a hymn at the time, and he didn't miss it. But a moment later when he looked over the end of the pew to see if it was safe, he was furious to perceive that it was gone. He skirminched up the aisle after it again, red in the face and uttering sentences which were horribly out of place in the sanctuary. However, he put the hat down again and determined to keep his eye on it, but just as he had turned his head away for a moment the Weathercock's wife came in, and Stephen looked around only in time to see his hat being gathered in under her skirts and carried away by them. He started in pursuit, and just as he did so he must have rolled against Mrs. Warthercock's ankles, for she gave a jump and screamed right out in church. When her husband asked her what was the matter she said there must be a dog or 'cat' under her dress, and she gave her skirts a twist. Out rolled Stephen's hat; the Weathercock being very near sighted, thought it was his lost cat, and immediately kicked it so savagely that it flew up into the gallery and lodged upon the top of the organ. Stephen, perfectly frantic with rage, forgot where he was, and holding his clenched fist under Weathercock's nose, he shrieked: "I've half a mind to punch your nose." Then he flung down his hymn-book and rushed from the church. He went home bare-headed and the sexton (Willie Noble) brought his humiliating hat around after dinner. After this Stephen intends to return to his old church where his hat was always safe.

HARBOR GRACE
MEDICAL HALL
W. H. THOMPSON

Anglo-Bavarian Brewery,

J. LINDBERG & BACKSTROMS

BAVARIAN BEER

AN ESSENTIALLY TEMPERANCE DRINK.

THE VAST QUANTITY OF BAVARIAN BEER
Which we now sell to be used in this Town as a drink, we respectfully offer to all the rest of mankind and in earnest recommend it to all as a
STRONG ALLIANCE OF TEMPERANCE AND MORALITY
in every district wherever unthinking people have not made it an unworthy drink. The most illustrious people in Germany for ages have drunk
BAVARIAN BEER,
and drink it now. Seventy five millions of people—oral healthy, strong, sensible and cultivated men and women—drink
BAVARIAN BEER.
Today, from Russia to the Rhine, and beyond it, you, in Rome itself.

J. Lindberg & Backstrom's BAVARIAN BEER,
is as good as can be made in Germany! so said our respected Spanish Consul D. n Jose Froulay at a feast-board who in the very height of enthusiasm invited all to drink.

BAVARIAN BEER,
He did two good things; he showed what good food the best taste and the highest cultivation think of
BAVARIAN BEER.
And he administered an honest slap to the face of hypocrisy and vulgarity. Sin et at memorabile day the sale of
BAVARIAN BEER.
Have enormously increased in this town. Now we offer it in any shape or quantity to the inhabitants of this Island, Cape Breton, Nova Scotia and West Indies &c., &c.

Loaf-heads, Farrels, or Dozen of Bottles BAVARIAN BEER,
ALL IN ORIGINAL PACKAGES,
Fit for any climate, age, sex or condition.

J. Lindberg & Backstrom's BAVARIAN BEER,
Will be found an invaluable
"Temperance" Drink.
We recommend it to every organized
TEMPERANCE ALLIANCE AS AN AID TO THE CAUSE OF
Temperance, Morality, and Intellectual Enjoyment.
and points with pride to the good character and high standing as citizens of the German and German American people who
ALL DRINK IT CONSTANTLY
As part to their diet.
We urge
All Leading Men in the Cause of Temperance,
do not only show, but to use and encourage such a pure and wholesome beverage as **Bavarian Beer.**

BAVARIAN BEER,
Has killed a great deal of Whisky, and Rum-drinking since introduced.
BAVARIAN BEER,
Will civilize a Madock, from the error of his ways!

WHY NOT?
Since it has converted hundreds of Whisky-drinking Madocks, and changed RUM-SHOOTS and GROGGERIES into quite orderly.

BEER SALOONS,
Where every one can enjoy himself comfortably, learn good manners, and form correct social habits!

IT IS UNWISE
To be prejudiced against
BAVARIAN BEER,
When it does so much good.

It is a shame to encourage Drunkenness by not using
BAVARIAN BEER,

AS THE BEVERAGE,
if good people are to hear talk against such a good thing, they ought to be willing to hear something in favor of it

BAVARIAN BEER,
ALWAYS CROWDS OUT WHISKEY
Why! Because, 1st—People like it better than Whisky when they once try it. It is more agreeable. It is vastly more wholesome. It cannot be anything but pure WATER, pure HOPS and pure MALT put together by a good BREWER as BACKSTROMS claim that he himself really is. It is impossible to POISON it or DOCTOR IT. You can do nothing whatever to

Lindberg & Backstrom's BAVARIAN BEER,

After it leaves them, except to keep it to waste it, or to drink it!

J. Lindberg & Backstroms BAVARIAN BEER
CANNOT BE DRUGGED
And 2nd—Independent of the many bad effects of Spirituous Liquors

Lindberg & Backstrom's Pure, Wholesome Bavarian BEER,
Can be sold much cheaper in consequence of the late tax on the former.

This climate is, by its Providential arrangement the very climate for BAVARIAN BEER.
The climate is natural and uncommonly DRY. It is so dry, in comparison with that of Europe, that it makes a serious difference in various trades and occupations. For instance, in most parts of Europe the climate is so moist that housewives cannot dry their washed clothes except in fine weather, and often in the open fields. It takes them nearly a week to dry their clothes. Here, the clothes washed and hung out in the morning are dry before night. So, a plastered house in Europe is not fit to live in for six months, because even with the help of fires, it takes so long to dry. Here one room is dry while they are plastering the next one. This perpetual drying up of every fluid by the air about us acts on the blood of the people and would dry them up in a little while if they did not prevent it in some way. In the early days they tried West India rum and brandied wines and distilled liquors. But some years ago they found that that remedy was worse than the disease. It was the universal drunkenness upon rum which called for the TEMPERANCE and lastly for the PROHIBITION movement. The last is the remedy of impatient ignorance, if it includes this wholesome and nutritious drink a better, a surer or more complete remedy, founded on science and sense, is

BAVARIAN BEER.
It arrests at once the dryness of the climate and of the fluids. It gives tone to the nerves and digestion to the stomach and strength to the muscles! Some foolish people say that

BAVARIAN BEER
CONTAINS NO NUTRIMENT,
And thing that they make a great argument by saying it. Backstrom never said that

BAVARIAN BEER
Does not contain nourishment. He knows better. He drinks it himself and sells it for others to drink, NOT TO EAT! It is not only

Nourishing, but it is a Mild, Digestible, and a medium of nutriment as well.

Even a prohibitionist might know that Man could not live without nutritious drink. For this and other reasons the Medical Faculty recommend and use

BAVARIAN BEER.
Doctors advise Dyspeptic people to drink

BAVARIAN BEER.
N. B.—It will keep in bottles well corked, and in a cool place

FOR A YEAR!
At the end of that time it is a fact that can be proved at the BREWERY, that

Lindberg & Backstrom's BAVARIAN BEER
Is better than the best Bass, Alop's or Scotch Ale, which cost so much more money. Convalescent patients take

BAVARIAN BEER
From the hands of the Doctor Mothers of Families by the repeated directions of the Family Physician, make daily use of meal-of

BOTTLED BAVARIAN BEER,
Sold by Dealers for family use.
Lawyers, Judges, Clerks, Mechanics, Physicians, Lecturers, Editors, Printers, Writers of works, Literary men of every class in this literary and intellectual community, all use

BAVARIAN BEER.
Even the Legislators like it, and would undoubtedly have made it a beverage in their Refreshment Chamber in the House of Assembly, had not the late Anti-Confederate Government come to an untimely end.

BAVARIAN BEER
Will be made as usual for sale, and any Temperance Organization Or anyone else may have a stock of

Lindberg & Backstrom's Bavarian Beer.

AT THE FOLLOWING PRICES, VIZ:

In Bottles, quarts per dozen.....	7s
" " pints " do.....	4s
In Casks, per gallon.....	2s

Observe! Tare charged extra!
We are sure that nine out of ten to whom
BAVARIAN BEER
Is offered for sale know nothing about it, except from hearsay. Many of them think it is SMALL BEER but
BAVARIAN BEER
Is not SMALL BEER, by any means, and should be understood
We think it no more than right that the sincere but ignorant men who talk against
BAVARIAN BEER
Without knowing anything about it should be enlightened. And we think that those who promote Temperance could not do better to further the good work than to recommend the
BAVARIAN BEER
As they now do water—a clear and sparkling beverage
And we think the Newfoundlanders deserve a better fate than to be the victims of Dyspepsia, Liver Complaint, Kidney Disease, Marasmus and Consumption for want of a pure, wholesome, innocent and cheap drink like

Lindberg & Backstrom's BAVARIAN BEER
Which now can be had "in any quantity from our Dealers, viz:

Mr. Moore, Mrs. Leo, Messrs Connolly, Walsh, Lunnegan, Tobin, Maher, Loughlan, Chambers, Foran (Atlantic Hotel), Carthy, Lery, Whelan, Cox, Deady, Farrell, Emsley, Barr, Moores, Leamey, McCourt, Rankin, O'Donnell, Lash, Olson, Mrs. Farrell, (Arcade Saloon), Cullen, Devine, Veeman, & Murphy, McGrath, Torthy, Toppal Road—Farrel, Dunn vs Doolley and Jouquelyn, Toppal &c., &c.

The Proprietors only regret they did not introduce BAVARIAN BEER some years ago, as it would have saved the Colony the expense of adding a wing to the Lunatic Asylum, and the increased expense in the Pauper relief fund of which the Royal Commission so grievously complain.

THE NEXT IS EVERYBODY'S QUESTION,
"What must we Drink?"
We advocate Temperance to the reasonable extent it is advocated by the foremost temperance men in Europe, and without running the praiseworthy temperance movement in the ground by exaggerated requirements. This, is also the case with many fanatics in this country, who make no distinction between fermented and distilled beverages. They condemn wine, a beverage made of grape juice, in which Christ himself indulged not alone, but even commanded its use at the Communion Table; they condemn also the use of

FERMENTED BEVERAGES,
while statistics prove it to be a blessing to those nations for which it has become a national beverage, by their perfection in the art of preparing it. Any one who has ever visited Belgium or Bavaria, and witnessed the result of the national beverage, the

BAVARIAN BEER and the LAGER,
on these two peoples, must be converted from any prejudice against

THOSE BEVERAGES,
if ever he had any. It is not necessary to go to Europe to be convinced; we may visit the BEER-drinking German quarters in this country, notice the general health and in uterious habits of that people, and compare it with those nationalities not blessed with the habit of being satisfied with BEER, but needing the insatiable stimulus of distilled spirits, whisky brandy, or even alcohol.

It is indeed a common observation among physicians or medical students in our large charity hospitals that a **BEER** subject under examination was a **Beef** of the inferior organs and the presence of a liberal supply of adipose (fatty) tissue, or whether he was a whisky drinker, as proved by the diseased condition of kidneys and liver, a general emaciation and a tendency to atrophy of the urinary system

Persons are opposed to the **BAVARIAN BEER**
12 through prejudice; they will indulge in Ale and Porter at their dinners but decry the use of BEER. Now, the fact is that the

BAVARIAN and LAGER BEER
Contains less alcohol than either Ale or Porter, and that experience proves that an excess in its use carries less injurious consequences with it than excess in the use of any other kind of this class of beverages. It has even been proved that some constitutions can consume **Four Five, or Six gallons** in a single day—a feat perhaps impossible with any other beverage water perhaps excepted, and tending to prove that next to water—

BAVARIAN BEER
Is the most harmless drink. Such a quantity of milk would surely produce severe indigestion, while the drinking of so much Ale, Porter, or wine would be out of the question.

We cannot of course find fault with those who simply dislike BEER from a natural aversion of the bitter principle of the hops, with which it is more abundantly provided than other BEERS. This may be the reason that many people prefer Ale; but we ought to suggest that in order to have the full benefit of the moderately stimulating and nutritious qualities of any kind of BEER, it must not be drunk at improper hours, as then really good BEER may be quite unpalatable. The best time is at dinner during the use of beef, Mutton, Pork, etc., to which it is a very desirable addition.

It is a common observation that the desires in regard to food and drink are, in many individuals, undergoing a change in the course of years. This is simply caused by the modified wants of the system. A young, vigorous person does not need the stimulus of BEER or WINE at the table, which appears to become a necessity for others when they become older. The wisest plan is to follow simply the natural desires as they best indicate the wants of the system, provided these desires are not proverted by the unnatural habits of smoking or chewing tobacco, using an excess of condiments, especially pepper or the habit of distilled drinks, which nobody should use, except largely diluted, as is the case with wine, the strongest qualities of which contain alcohol in as high a proportion as it ever should be introduced in a human stomach.

The inconsistency of temperance people in general is, among other things, shown in the fact that they allow the use of fermented Cider, which contains about as much alcohol as Rhine wine. The latter is often dispensed in New York under the name of German Cider, many of whom we have heard certify that the German Cider is much better than the American article. A curious observation has also been made by dealers in Soda Water; they find that the ginger Syrup, which is the most pungent and stimulating of all, and also contains some alcohol, of which the other syrups are free, is generally preferred by temperance people, who invariably ask for the hot ginger Syrup, while the wine and Beer drinkers take the refreshing syrup of lemon, or some other fruit.

As it thus appears that most people need some stimulus, it may be well to acknowledge this fact, and to allow them to indulge in one which is not only harmless but beneficial, instead of requiring a total abstinence and, in which many are unable to persist, who breaking their pledges, lose their self-respect in so far as to indulge in the most pernicious of all habits—the use of the intoxicating distilled liquors.

It is for reason of the above consideration that we have recommended to all who have a chance to obtain this good beverage in their neighborhood, to do so instead of keeping a "Branly" bottle in the house"—*New York Paper.*

DIRECTIONS.
1—The bottled Beer ought immediately after landing be unpacked from the barrels or boxes and if possible be placed in an erect position in a cool place.
2—In receiving the casks with Beer, Ale or Porter, put them on good solid stand in a cellar, keep them 6 days on the stand before opened, and the bung or vent hole must be opened before the tap is put in a sufficient quantity of clean good bottles is required when drawing of the Beer etc., and as quick as possible be corked with good corks.
3—In returning the empty casks and bottles the name or initials of the person who sent them, ought to be marked on the head of the casks or barrels.
4—The goods to be shipped at the debit and risk of the Purchaser, and any remarks against the article, etc., ought to be made immediately on receipt of goods if any notice will be taken of the same.

The Proprietors also manufacture all kind of Aromatic waters, viz:

Temperance Champagne.....	16s	per doz
Ginger Ale.....	6s	6d
Lemonade.....	6s	..
Rose Water.....	6s	..
Seltzer Water.....	6s	..
Berliner Water.....	6s	..
Soda Water.....	6s	..

HARBOR GRACE
MEDICAL HALL
W. H. THOMPSON
PROPRIETOR,
has always on hand a carefully selected Stock of
Drugs, Medicines
DRY PAINTS, OILS, &c. &c.
And nearly every article in his line that is recommended:
Keating's Worm Tablets
Cough Lozenges
Rowland's Ointment
Oxley's Essence of Ginger
Lampough's Pyretic Saline
Powell's Balsam Aniseed
Medicamentum [stamped]
British oil, Balsam of Life
Chlorodyne Mexican Mustang
Liniment, Steer's Opodeldoc
Radway's Ready Relief
Arnold's Balsam
