Lord Dufferin's Rambles.

TO THE EDITOR OF THE MERCURY.—The readers of your valuable journal will be pleased to hear of Lord Dufferin's ramble in the neighborhood of Guelph, in company with Colonel Fletcher, on the Sunday afternoon of his stay in Guelph.

He left the beautiful residence of Mr. Lemon—which commands such a fine view of the town and surrounding country—about four o'clock, turned up the lane between Mr. Lemon's and Archdeacon Palmer's, and continuing on the same road passed between the nurseries of Mr. Stevenson and Mr. White's house, thence around Mr. Stevenson's gardens—flanked by his Barbary hedges—and then on by Brange street to the Township of Guelph.

He left his overcoat at Mr. Wm. Hever's and kept on the beautiful road between Judge Macdonald's and Mr. Stevenson's farther nurseries—with their luxuriant trees and embowering shades. Then on to the hill near the residence of the late Mr. James Trainer, where he had a fine view of many rural homes with their pretty surroundings—gardens, orchards and waving grain—proofs of industry and taste.

From thence the two turned to the north, passing through Mr. Raymond's and Mr. Stevenson's woods, with their stately trees, crossed the farms of Messrs. Downie and Murphy, and came back through Mr. Wm. Birney's garden to his house, which they entered, Lord Dufferin introducing himself and Colonel Fletcher.

He wished to see Mr. Birney, who was absent, said they had stolen out to take a walk, that they wanted to see the country, and get information. Mrs. Birney and a lady friend who was present, answered all questions relating to their land and garden, its productions, the profits of their industry, &c., with which information he appeared much pleased. He also noticed their healthy children, and said he considered the children in Canada more obedient and respectful to their parents than those in the United States; yet few of them had that respect and fraternal affection that children have in the old country.

He remarked that the country and scenery about Guelph were beautiful, some of it reminding him of home. After thanking them he left, returned by the same much admired road, and called again at the house of Mr. Wm. Hever—asked some questions about the farms near which Mrs. Hever answered. She said that if he were to go through Eramosa, and for some miles to the north and west, he would see a fine farming country—extensive buildings, large orchards and the best of stock.

He smiled at the innocent sport of their children round the dinner table, and said, "tell your husband I made him a call." She enquired who he was, and Col. Fletcher replied, "Lord Dufferin." She respectfully bowed and expressed regret at the absence of her husband. He then thanked her, shook hands and left.

The visit of Lord and Lady Dufferin to Guelph will be a most pleasant recollection to many, and his Lordship's free, affable manner, as evidenced from what I have written, cannot fail to attach the people to him. I was much pleased with his reception in Guelph, and with the graceful manner of Lady Dufferin, who plain and simply dressed, well illustrated the truth of the poet's lines when he said

"Nature unadorned's adorned the most."

Well may Mother Erie be proud of her lovely, gifted daughter and distinguished son.

Yours truly, JOHN MURPHY. Mount Tara, near Guelph, Aug. 28, 1874.

The Ocean Passage.

TO THE EDITOR OF THE MERCURY.—Sin,—An exceedingly amusing letter appeared in a recent issue of the Mercury, from an irate, and judging by the symptoms, an illogical Orangevillian, denying the truth of statements made by some one of the Globe a few days previous, regarding the treatment meted out to steerage passengers, and the misbehaviour of the crew on board the S. S. Sarnatian. Now, what is your "Passenger" correspondent's reply to the several counts? Simply this; that he sailed in the same ship a year ago, and didn't see anything of the kind! How supremely ridiculous is such a defence!

As well might he deny the presence of the Globe's informant on the ship at all this summer, because, forsooth, he (the Orangevillian) didn't see him there last year. Now, be it known unto this inhabitant of the triangular township that no statement the Globe's correspondent made, however strong it may have been with reference to bribery and corruption, could overshoot the mark. To say nothing whatever of the disgusting manner of serving out "grub," and the miserable sleeping accommodation, the writer can testify to the wholesale system of bribery pursued by cooks, stewards, bakers, and men before the mast, as well as others, their superiors. From five to thirty shillings were paid by passengers in the Sarnatian during her last trip to Quebec for an amelioration of their unhappy condition. Of course there were several on board who found no fault whatever. Greasy barley-water they accepted for soup; ditto pea-ditto for ditto; fragmentary biscuits and sour buns they received thankfully as fresh bread, whilst at one table (and such tables) grubs were actually said before partaking of the blue, clayey Mediterranean potatoes and sloppy-looking beef pushed from the fork into the passengers' plates by the dexterous movement of the steward's thumb. Tongues were usually employed instead of a fork, but sometimes they were a-missing. In

reference to those contented souls only one conclusion could possibly be arrived at, viz: that they were just as well, or better off than when at home. The less said about open immorality by "Passenger" the better, as it is evident that some people are never conscious of the presence of filth or crime. BRIBBER.

The Governor General's Movements.

At St. Catharines addresses were presented from the town and county. The choir sang "God Bless the Prince of Wales," and a procession was formed, passing under an arch formed of chairs, and another which had been put up by the firemen of the town. In the evening at Montebello Gardens the vice-regal party witnessed a pyrotechnic exhibition given by Professor Hand, of Thorold.

During the exhibition two fire balloons of about ten feet in diameter each, and red, white, and blue in color, were sent up with appendages which, as the balloons progressed through the air, kept emitting hundreds of balls of diversified kind. The town stores, private residences, and some of the arches were brilliantly illuminated during the evening. Along both sides of Ann street ran strings of Chinese lanterns, at intervals of about four feet apart, giving the thoroughfare, planted as it is with trees like a park, a most beautiful appearance. The vice-regal party returned from the gardens about ten o'clock, and then held a levee at the hotel.

This morning the Governor-General, accompanied by Col. Fletcher and Capt. Ward, went for a drive through Merrickton and Thorold to the new Welland Canal works, accompanied by a detachment of the St. Catharines troop of cavalry, and followed by other conveyances in which were the members of the Town and County Councils and others. As Merrickton his Excellency was presented with a brief address.

At Thorold there was a guard of honor from the 44th Battalion, together with a band, and the firemen of the town in neat uniform. The streets were nicely decorated. After the address, presentations were made, among the most noteworthy a veteran of the war of 1812 and a U. E. Loyalist whose great grand-children far exceeded his grand-children in number. After an inspection along the route of the new canal, the party got on board the train at Merrickton, and were conveyed to Fort Erie, from which the train was run across the International Bridge into Black Rock, and then turned entirely round on the convenient tracks which are there laid. In returning to Fort Erie the train was stopped on the bridge and the swing was opened to show the party how quickly it could be raised. The swing is 360 feet long, but by means of two small steam engines, the opening of it is the work of only about a couple of minutes.

After a pleasant ride on the C. S. R., the party alighted at the Clifton House Station and were driven along the river towards the mansion, and after a short stay at the Falls returned to the station and were driven to Niagara, arriving about six o'clock.

A guard of honor was present, together with the band of the Orange Young Britons. The party proceeded to the Town Hall, which was decorated inside and outside with festoons of evergreens, &c., in a most beautiful manner, where an address was presented, followed by a reception. The Governor, Lady Dufferin, and Col. and Lady Fletcher were the guests of Mr. Plumb, M.P., the remainder of the suite going to the Queen's Hotel.

In the evening there was an illuminating besides a hop at the Royal, at which Lord Dufferin was present, but Lady Dufferin, on account of fatigue, did not attend.

Aug. 30. This morning the Vice-Regal party attended service in St. Mark's Church.

ROUTE.

The following is the official list of appointments made for the tour of their Excellencies the Governor-General and the Countess of Dufferin east of Toronto: Leave Toronto on Thursday, 3rd September, at 10 a.m.; arrive at Whitby at 11 a.m.; arrive at Bowmanville at 11 p.m.; arrive at Port Hope at 3 p.m. and at Coburg at 4 p.m. on Friday, 4th September; visit Rice Lake and Marmora on Saturday, 5th September; leave Coburg at 10 a.m.; arrive at Belleville at 11:40 a.m.; arrive at Napanee at 2 p.m.; arrive at Kingston at 4 p.m.; Sunday, 6th September, at Kingston; Monday, 7th September, leave Kingston by boat at 8:30 a.m.; arrive at Brockville at 1 p.m.; arrive at Smith's Falls at 4:30 p.m.; arrive at Carleton Place at 6:30 p.m.; and arrive at Ottawa at 7:30 p.m.

THE DAWSON ROUTE.—Speaking of the Dawson Route, the Manitoba Free Press says that claims against the company for damages are extremely fashionable, but a glance at a good deal of the freight will exhibit the fact that the cause of the principal portion of damage done lies with the packers of the freight. A great deal of it has been packed in such a slovenly manner that it would be impossible to transport it over ten miles of Nicholson pavement without damage. According to Le Metis, the service on this route is now regular and satisfactory. The employees are courteous, the food abundant, the travelling more speedy, the vehicles more suitable and the journey less laborious. Everything is becoming comfortable, and nearly so, to the terms of the contract.

An itinerant beggar paid a visit to Goderich recently and managed to get himself into trouble. While going through the streets soliciting alms, a number of children followed him. Exasperated at their attentions, the old fellow suddenly turned upon them with an open knife in his hand, and seizing a lad named Brooks, handled him pretty roughly. Upon letting go of the boy, it was found that his forehead had been severely cut, a flesh wound extending from above the eye back to above the ear. Dr. Malena attended and pronounced the wound not dangerous, although severe. Lammond, the beggar, was immediately taken into custody. About \$50 were found on his person.

We see by the Belleville Intelligencer, that at a railway meeting at Madoc, on the 22nd inst., it was resolved to submit a by-law to grant \$30,000 bounties in aid of the Belleville and North Hastings Railway.

J. E. McELDERRY

2 DAY'S BLOCK,

THE NOTED TEA HOUSE

Guelph, August 1st, 1874.

To the Public.

I take this opportunity to let my old friends and customers know that early this Fall I intend opening up one of the most extensive and varied stocks of Staple and Fancy Dry Goods to be seen in Ontario. I have had erected for my own special retail business a most complete arranged store, and from my long experience in the mercantile business, I feel and know that I will present for the inspection of my old patrons and others not only the most choice selection of Fancy Goods, but goods that will in reality be of such a character as to give to the purchaser the most entire satisfaction. The value will form one of the most important features of my establishment; the fact of going direct to the fountain head for my whole stock, and buying all for the ready money, and in addition having no old stock to palm off, is of itself a positive guarantee that my establishment will present inducements to the purchaser that none other in Guelph can approach. I earnestly request my old friends and customers to pay a visit to my establishment, when the old motto that I used for so many years to their advantage will again be adopted, viz: the best goods in the trade at the smallest possible profit. Good goods and Cheap goods. One price and no abatement. No misrepresentations, and the interests of the public doing business with me strenuously watched.

Yours truly,

JOHN HOGG.

VALUABLE FARM FOR SALE.

The farm occupied by the late James Forster, being the southeast half of lot No. 7, in the 3rd concession of Eramosa, 100 acres, 60 cleared, the remainder good hard wood, chiefly beech and maple. There is a nursery of choice fruit trees ready for transplanting, and a never-failing spring well. The buildings consist of a frame house, a large frame barn, shed and stabling, with other useful buildings. This property is situated two miles from the village of Rockwood, and six miles from Guelph.

For further particulars apply on the premises, or if by letter to Rockwood P. O. **MRS. JAMES FORSTER.**
 June 3, 1874.

The race between Mr. Diracl and Lord Salisbury has been broken. Through members of the same cabinet, Lord Salisbury tried to defeat an amendment which Mr. Diracl favoured, and the latter, referring to his colleague, denounced him to the House as "a master of fibes, flouts, and sneers" and accused him of laying a "trap" for the rejection in the Lords, of a bill which had the Premier for its advocate in the Commons. It might have been thought that after so conspicuous a snubbing administered by Mr. Diracl, Lord Salisbury would have hastened to resign. But instead of this he merely hastened to deny the accuracy of the report that he had called the House of Commons "a blistering majority." That was "a pure fabrication," which is the reverse of complimentary to the reporter.

MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Easton Road, London. —See article in *Cassell's Household Guide*.

An ambitious mama complained to the music master that her daughter was going back in music. "Why so, madam?" said the professor. "Because," she replied, "Seraphia tells me that her last piece was in five sharps, and the one she is now learning is only two."

THE DAN-KILLEN.—We have known the high character of this medicine, and that it is used with great success and satisfaction in our very best families. It is the favourite medicine of our missionaries in heathen lands, where they use it more than all else together for the diseases that abound in those warm climates. It should be kept in every house, and be in readiness for sudden attacks of sickness.—*Christian Press*.

It is reported that some people at Port Henry, New York, use nitro-glycerine for catching fish. It kills everything within fifty feet, and from fifty to seventy-five pounds of fish are taken at a single explosion.

Special Notices.

THE RECENT CASE OF DEATH by strychnine poisoning, noticed in the Montreal *Daily Witness* of August 1st, renders great caution necessary not to confound Dr. Wheeler's Compound Elixir of PHOSPHATES and Calceya with COMPOUND SYRUP OF HYPOPHOSPHITES. Observe well the difference in orthography and bear in mind that medicinally there is no similarity in action or effect.

PHOSPHATES ARE ABSOLUTELY NECESSARY to sustain life, being the element of every solid and fluid of the body, and they are incapable of injurious results in any period from infancy to old age, or under any possible condition of the system, and no more harm can result from taking more than the prescribed dose than from eating too hearty a dinner.

Specific Medicine

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in every case, are produced by over indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhea, Impotency, and all diseases that follow as a consequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to insanity or consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at 25 cents per package, or six packages for \$1.50, or will be sent by mail on receipt of the money, by addressing

TO MY CUSTOMERS.

My Business grown to such immense proportions, I made it my business this summer to go to the manufacturing districts of England and Scotland for the purpose of selecting my Goods personally, and have visited Birmingham, Wolverhampton, Sheffield, London, Glasgow, and other important points at home, and have purchased to a very great advantage, at a very decided reduction in price on former rates, the cheapest and most extensive stock of Hardware, Oils, Paints, Colours, Window Glass, ever brought to Ontario, embracing many designs of rare excellence, all of which are now being shipped at Liverpool and Glasgow, and may shortly be expected in Guelph. I have selected many new patterns in Hardware, specially adapted for my customers, comprising an unusually large collection of original and rich designs, embracing a most magnificent assortment. And have further the pleasure to add that I shall be enabled to make a considerable reduction on every article this Fall, and have determined to give my customers the benefit of my experience; and that I have purchased nothing that I cannot fully recommend for durability.

CARD.

Knowing that a personal call on the Manufacturers with Cash in hand would secure rare Bargains, our Mr. John M. Bond has devoted himself since May last to visiting the chief manufacturing centres and principal markets in Canada, the United States, England, Scotland, France, Germany and Belgium.

The saving on goods bought on this continent proved to be considerably more than we expected, and in Mr. Bond's last letter dated "Paris, France, July 30th," he informs us that in a few weeks he hopes to complete his work, and that during this month and next we may expect to receive one of the Cheapest and Best Selected Stocks ever brought into Canada from the European Markets. As the result of negotiations in person not only have purchases been made at extremely low prices, but unusually favorable ocean freight rates have been secured. Thus, every effort has been made to obtain a cheap, well assorted, and excellent quality of goods, such as will meet the requirements of our trade. When we receive these goods Bargains may be expected. In the meantime we are selling our present stock at very low prices in order to make way for our extensive importations, and invite the attention of all to the peculiar advantages we offer.
