Note and Comment

Rev. Dr. Goforth declares that he smelled whiskey at the Presbyterian General Assembly at Owen Sound this summer, which prompts the Toronto Mail and Empire to remark that it is important to know whether this aroma, once closely associated with Scottish theology, came from the Unionist or anti-Unionist section of the gathering.

The question to appear on the ballot for the liquor plebiscite to be held on October 23rd have been announced and are clear cut. The first is, "Are you in favor of the continuance of the Ontario Temperance Act?" The second reads, "Are you in favor of the sale as a beverage of beer and spirituous liquor in sealed packages under Government control?" There is no ambiguity about these questions and each voter should find no difficulty in marking his or her ballot for either one.

Peru passed a law compelling every male to work at road building one or two weeks a year, depending on age, or to pay enough extra tax to hire somebody else to work. The law is working splendidly, the Peruvian government reports. A network of good roads is being developed. Many a man in our civilization who "stood for" the military draft during the war, would violently oppose being drafted for work in peacetime on behalf of the community. Why?

Glencoe Transcript:—"Assessment notices for 1925 are being delivered by the Glencoe assessor. Notices are being sent out this early in order to be prepared for the collection of taxes semi-annually, a new regulation which will be inaugurated next year. While it will not be compulsory for ratepayers to pay their taxes in semi-annual instalments, those who do so will receive the benefit of a discount. The object of the semi-annual collection is to furnish the council with sufficient funds for current expenses without having to borrow from the banks. It also works out to the benefit of the ratepayer, who is placed in a position to practically receive the interest that formerly went to the banks. The system has been adopted in many other municipalities with success."

Bronzes and gilt ornaments can be cleaned only by brushing carefully with fine quality small paint brushes. When too dull and shabby they must be done over by a professional. When the cheaper quality of gilt frames get shabby, take enough four of sulphur to give a golden tinge to a pint and a half of water and add four bruised onions. Boil twenty minutes, then strain and cool. Wipe the dust from the frame, and with a small, soft brush paint it over with the liquid, then set to dry. When dry it will look almost like new. The more expensive big frames must be regilded by a professional when very shabby, though they may be touched up once or more times with this liquid, which will help their appearance.

Over six thousand chain stores, have been established in U. S. in the last three years, says a writer in the American Review of Reviews. It will be a surprise to Canadian readers to learn that Woolworth does not lead in the total number of these establishments; in fact, the name of Woolworth is fourth on the list with 1,260 separate establishments the Atlantic and Pacific Tea standing first with 10,000. In average volume of turnover for store, S. S. Kresge is first with \$351,258, but in total volume for all stores under one name. The Atlantic and Pacific it at the top, with nearly \$301,000,000. Most remarkable of all is the fact that the cost of doing business is these stores is quite as great as in small individually-owned places, running from 25 to 30 per cent, on turnover. The profit of the "chains" is made on the frequency of turnover, only quick-selling articles being handled.

New "Shin-Plaster"

The third issue of 25 cent paper bills, commonly known as "shin-plasters," to appear in the fifty years since the first bills were issued, is now being put into circulation. The new bills are considerably neater and more artistic in design, and show a decided improvement over the old type of bill. The figure of Britannia holding a trident is retained, but is transferred to a small upright oval in the centre of the bill. Over the top is the legend "The Dominion of Canada will pay on demand," and underneath "Twenty-five cents." On the right is a replica of the seal of the department, and on the left appears a large "25" in brown. Small figures appear in each of the four corners. The bill is printed in black and white save for the red serial number, and a half inch panel of light brown inside the border at the bottom. The design on the reverse side has not changed. The bill is the work of the Canadian Bank Note Company, and bears the date "July 2, 1923." Though over a year old, the new bills are only just beginning to appear in circulation.

A Proper Sentence

(Welland Tribune)
Two hundred dollars fine and thirty days in jail, and his license to drive a motor car suspended for six months!

That was the penalty imposed by Magistrate Campbell of St. Catharines on a motorist. Magistrates, of course, stand aloof from public opinion but, anyway, we are going to record it here that we thoroughly agree with him.

Five men, all more or less tight, were driving aimlessly about in a Ford roadster that Henry designed and built to carry two people. Near the Black Horse the overladen (in two senses) Lizzie collided with a car driven by Neil Chrysler. Mr. Chrysler's two little children were thrown through the windshield.

The sentence disposes of one fool for a time at least and should also be a warning to other fools.

The Vote on October 23rd

Malice and prejudice have levelled two charges against the Premier of this province. One was that he had no right to provide for a vote on the continuance of the O. T. A., and the other was a prophesy that the ballot would have a joker in it to befoul or befuddle the elector and becloud the issue.

After a session of the cabinet council on Friday the Premier announced the questions to be placed on the ballot paper as these:—

(1) Are you in favor of the continuance of the Ontario Temperance Act?

(2) Are you in favor of the sale as a beverage of beer and spirituous liquor in sealed packages under Government control?

The ballot has certainly put the lying prophets out of countenance. It is a simple, plain and eminently fair statement of the issue. It is neither too much nor too little.

So here we have the specific matter that is to engage the attention of the electors on October 23. It is true that the Premier has committed a political crime in providing the means that the voter may go to the polls on the question? The people may express their will. Is it wrong that they should do so? On what rights has he trampled in giving them facilities for doing so?

The final result of the O. T. A., or its defeat. If the temperance measure is sustained it will be so much the better for it; if it is defeated it will be because the electors willed it so, and it is strictly their question.

The O. T. A. has been laid at the door of the elector. It is his to sustain or kill. In his duty to himself and his duty to the state he should reach a calm judgment. He is in no need of special guidance from the propagandists. If he has lived in this province for eight years, if he has reasonable powers of observation, if he is able to make a sane deduction from what he sees and knows he will be able off his own bat to reach his conclusion. The O. T. A. is not a theory or an experiment; it is an eight-year-old fact. Nor has it been hidden under a bushel.

A tax on gas used in cars is good as far as it goes. But a readjustment of the expense incurred on road maintenance will not be complete until trucks which are more destructive of roads than any other form of traffic, are called on for much larger fees than now imposed.

IN THE PUBLIC EYE
By Carl A. Class

DO YOU EVER HAVE AN EYE-HEADACHE?

AN eye-headache some times accompanied by an ache and burning sensations of the eyes is caused by an over effort of the brain to understand a blurred image that has been thrown on the retina of the eye. In the eye-camera the focus is changed by the eye muscles that swell and reduce the shape of the crystalline lens. When these muscles become weakened an optometrist must prescribe the outer-man-made lenses to bring about this focus accommodation.

TAKING THE MASK OFF
The Brantford Expositor calls attention to circulars put out by a firm of Montreal stock brokers, urging the purchase of two stocks making alcoholic beverages. The speed with which these circulars are being put out is evidence of what the Montreal brokers think of the contest in Ontario. Their interpretation is that a change in Ontario will mean a greater demand for liquor; this in turn will bring more business to the firms making alcoholic drinks.

Speaking of the stocks of the companies in which this firm, McCuaig Bros., is interested, the circular proceeds to give these views on the Ontario situation and what government control will mean. It says:

"The announcements that the Ontario referendum plebiscite on the liquor question will take place on the 23rd of next month is likely to bring the stocks of the two above-mentioned companies very much into the limelight during the coming month, as it is thought that the prospects are decidedly in favor of the repeal of existing prohibition laws owing partly to the failure to enforce them and partly to the large revenue which the province would derive from the sale of spirituous beverages. If Ontario goes wet it is obvious that companies like National Breweries and Canadian Industrial Alcohol stand to benefit very substantially, since, as we have before pointed out, over a third of the entire population of Canada live in that province. As both companies have worked into a strong position and are making large earnings, their stocks are attractive at current level, quite apart from the above-mentioned development."

It is quite evident that government control does not mean a lessening of the demand for liquor. The men in Montreal who seek to interest Ontario investors in brewery stocks know what government control means in Quebec, and what it will mean in Ontario. It will mean more liquor, not less. If it did that circular letter would never have been sent out. Ontario will be well advised to keep away from a system that will make an investment in breweries profitable because there will be a greater sale for the product in this province.

Manitoba Woman Thanks Lydia E. Pinkham's Vegetable Compound

Crandall, Manitoba.—“When I was a young girl at home and working I had terrible pains, almost more than I could bear, and I was not regular. These troubles kept me so tired all the time that I had no strength and no ambition to join in with my friends and have a good time. I was just tired and miserable always and life just seemed as if it wasn't worth living. I saw so much in the papers about Lydia E. Pinkham's Vegetable Compound, and then I had a friend who had taken it and told me about it, so I got some. Every month I made a new woman of me and able to do my work, and it helped me through confinement. You see I am a farmer's wife with a big house to look after, and three babies now. I have told ever so many women about your medicine. Just last week I got a letter from my old chum in the East. Her baby was born fifteen days before mine and she told me she was not feeling very well, her back aches so much, and that she is going to take the same medicine I took. You can use my letter and I hope some one will be helped by it.”—Mrs. JOS. H. KIDD, Box 56, Crandall, Manitoba. C

circulation of at least thirty thousand. Rev. A. R. Johnston extended a welcome to the new men coming into the District.

An auditing committee was appointed to co-operate with the statistical secretary, Rev. R. A. Brooke, in auditing the schedules. Mr. T. B. Taylor of Watford and Mr. J. H. Richardson of Kerwood. Motion of adjournment brought the business session to a close and the delegates were entertained at supper by the ladies of Watford Methodist church, much to the delight of all who stayed. An expression of appreciation was extended to the ladies and a suitable reply given.

A public meeting was held at 8 p. m. following the business session. The chairman was assisted in the devotional exercises by Rev. Mr. Workman of the Presbyterian church. A solo, "The Victory May Depend on You" by J. L. Foster, after which an address was given by Rev. W. E. Millson on "The Plebiscite." The issue (says the speaker) is wet or dry. Its a Provincial issue, its a case of deciding on the 23rd of October whether you want the Prohibition forces to triumph or the wet forces.

Every brewer and distiller are interested in this campaign and they have been carrying on a propaganda to nullify and belittle the O. T. A. The time has come when we must stand on our two feet and defend the O. T. A. The sale of liquor began with Government Control, but no Government has ever been able to control it for you can not control liquor when it is sold. Mr. Millson is optimistic about the coming vote because every time Ontario has voted on the liquor question, we have declared that we didn't want to have anything to do with the liquor business. There has been a certainty in the decisive votes on the liquor question. What have the temperance people to encourage? There is all the history of all the past. Not only the past but about the present? Every where they are organizing, he declared, and the enthusiasm of temperance forces is running high throughout the Province, and if there is to be any change needed let it just be a little more dry.

The chairman of the meeting put the question to the meeting. All who are in favor of the continuance of the O. T. A., please stand, and the vote was unanimous except one.

Moved Rev. A. M. Stuart, seconded Mr. James Peters, Mt. Brydges. We the members of the Strathroy District meeting representing a membership of over 3000 people, hereby express ourselves as being in fullest sympathy with the Ontario Temperance Act, and satisfied that very beneficial results have followed the enforcement thereof in decreased drunkenness, lawlessness and crime.

We would regret the return to conditions of drunkenness and crime such as are found in the Provinces where a system of Government Control is in force. We would earnestly urge our people not to be deceived by the subtle propaganda of the Moderation League, which advocating Government sale of intoxicating beverages, and to loyally support the Ontario Temperance Act which has proved to be such inestimable value, morally, socially and economically.

We would therefore most urgently request our members and adherents to pray and work for the retention of this Act, and mark their X opposite the first question on the ballot on Oct. 23rd.—Carried.

Strathroy District Y. P. L. Field Day

The annual Field Day of the Strathroy District Young Peoples' League, was held in Appin Community Park on August 27., and it was a splendid success. Representatives from almost all the leagues of the district were present in large numbers and showed a keen interest in all the sports of the afternoon, which included, races, soft-ball, tennis and basketball. About 200 sat down to a picnic supper, after which outdoor community singing was enjoyed by many.

The evening programme was held in the Methodist Church. The final debate in the District Tournament, was given by the Appin and Zion Leagues, the Zion League being the winners this year of the pennant given for the district championship. Their side was upheld by Miss Florence Edwards and Mr. James Parker, while Miss MacDovald and Mr. MacFie debated for Appin.

A pageant "The Call of the Nations" was well presented by various Leagues of the District and the costumes showed much skill and preparation. The leading part in the pageant was taken by Miss Dorothy Fowler of Watford, as "Miss Canada." Much credit is due to the Appin League who proved themselves excellent hosts.

Nothing To Equal Baby's Own Tablets

Mrs. Georges Lefebvre, St. Zenon, Que., writes: "I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Lefebvre says thousands of other mothers say. They have found by trial that the Tablets always do just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus banish indigestion, constipation, colic, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ontario.

Warwick-Bosquet School Fair will be held at Arkona on Saturday September 27th.
