The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

AUDITORS' CERTIFICATE

We beg to report to the Shareholders of the Banque d'Hochelega that in accordance with Section "56" of the Bank Act, we have checked the cash and verified the securities of the Bank at the Chief Office as at November 29th, 1919, as well as at another time during the year, and found they agreed with the entries in the books in regard thereto.

We have also examined the accounts and verified the cash and securities at some of the principal branches during the year. We have examined the books and accounts at the Head Office and have compared the above Balance Sheet with these books and with the certified returns from the branches. In our opinion, the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs according to the best of our information and the explanations given us, and as shown by the books of the Bank.

We have obtained all the information and explanations required by us and in our opinion, the transactions of the Bank which have come under our notice, have been within the powers of the Bank.

S. ROGER MITCHELL, C.A.,  
of Marwick, Mitchell, Peat & Company, } Auditors.  
GEO. GONTIHER, L.I.A.,  
of Gonthier & Midgley, }

Montreal, 16th December, 1919.

The Profit and Loss account shows net profits of \$611,105. being an increase of about \$16,000. on the year 1918. The percentage of net profits to paid up capital is 15.27% against 14.87% in 1918.

Comparative figures for the years 1919 and 1918 show the following changes:—Bank note circulation increased \$677,875., total deposits increased in the course of the year \$10,886,488., cash assets, including gold, silver, and Dominion notes, amounts to \$5,696,229, which added to \$3,600,000., deposited in the Central Gold Reserves, and \$3,974,868., representing cheques on other Banks and deposits in other Banks in Canada and elsewhere, form a total of \$13,271,097., being an increase of \$755,026, for the year, liquid assets now amount to \$33,907,261, being an increase of \$5,721,699, for the year, these liquid assets represent 53½% of total liabilities to the public, exclusive of \$2,414,032, representing short term loans to municipal and school corporations;—current loans amount to \$32,030,872. being an increase of \$8,039,474. over the previous year.

The progress of the Bank is shown by the increase in its total assets which amounted to \$31,894,709. in 1913 and which now amount to \$71,517,806. and there is every hope that its business will continue to prosper.

The Bank has opened in the course of 1919, 31 branches distributed as follows:—

All branches of the Bank were duly inspected in the course of the year.

Your Directors wish to convey their appreciation of the efficient co-operation between all members of the staff towards the development of the Bank, and to acknowledge that their loyal support has greatly contributed to the progress of the Bank. In no other enterprise whether financial, commercial or industrial, is the staff more closely associated with the management than in a Bank. The administration of the accounts, the soliciting of new business, the daily intercourse with clients during which matters of interest, both to the client and the Bank, are discussed, appertain to the duties of the Managers and their assistants. To the activity, prudence, good judgment, courtesy and competency of its employees, does a Bank owe its success when these qualities are efficiently directed. It is not conceivable that interests antagonistic to one another, could exist within a bank inasmuch as all developments detrimental to the Bank cannot benefit the employees, whereas all that profits, strengthens and develops the Bank redounds to the immediate advantage of those who have been instrumental in obtaining these results. The increase in the business of the Bank has enabled your Directors, in December 1918, in the month of July 1919 and again in the month of December 1919 to grant the staff material increases in salary and bonuses which were particularly welcome on account of the high cost of living. In order that the employees might better qualify themselves for the positions they are called to occupy, arrangements were made with the School of High Commercial Studies of Montreal for the purpose of organizing night lectures adapted to the requirements of young men entering the banking business. Mr. Ernest Guinont, chief of the legal department of the Bank, was entrusted with the preparation of special courses on "Banking operations" and these lectures are attended by a large number of employees. It is proposed to extend these

facilities by organizing this schooling by correspondence in order that the same advantages be given to employees outside of Montreal. The physical welfare of the staff has not been neglected and in the course of the year Five-thousand Dollars were subscribed to the National Amateur Athletic Association, entitling the Bank to fifty life memberships, which enable the Bank to help its young men to enjoy pleasant recreation and healthful exercise.

The year 1919 has been prosperous for Canada and the development of our foreign trade since 1913 is remarkable. For the fiscal year 1913 our imports exceeded our exports by \$293,000,000, in 1914 our imports again exceeded our exports by \$163,000,000., in 1915 a change is noticeable and for the first time our exports exceeded our imports by about \$6,000,000., in 1916 this improvement was substantial and our exports exceeded our imports by \$271,000,000., in 1917 this favorable balance of trade reached \$334,000,000., in 1918 the peak was reached, due to war contracts, our exports amounting to \$1,586,000,000., leaving a favourable balance of \$624,000,000., in 1919 with the cessation of hostilities exports were considerably reduced leaving however a favourable balance over imports of \$350,000,000. This favourable balance for 1919 may be considered satisfactory, indicating considerable improvement over conditions obtaining in 1913, 1914 and 1915, but it is advisable to take into account the tendency indicated by the comparative figures of 1918 and 1919 and to note that whilst we are becoming creditors of Europe, impoverished and weakened by the war, we continue to be debtors of the United States by reason of the large difference between our purchases and sales in that country. In 1919 we imported from the United States goods valued at \$727,000,000. whereas our exports amounted to \$444,000,000., leaving a balance in their favour of \$283,000,000. A very substantial part of our

imports from the United States are raw materials which we cannot do without, such as cotton, coal and sugar; however, concurrently with these purchases of necessities large amounts relate to products which are not absolutely necessary, such as tobacco of which we bought for \$10,000,000., silk for \$8,000,000. and automobiles for \$14,000,000. It is becoming more important every day for Canada, on the one hand to increase the output of its farming, forestry and mining products saleable in the United States, and on the other hand to curtail as far as possible, its imports from this country, particularly those relating to goods which may be dispensed with. Under present exchange conditions an additional cost of 8% to 10% must be added to the price of all goods imported from the United States and this increase affects both luxuries and goods of prime necessity. Many remedies are suggested to improve this situation but the most effective will be found in the willingness and determination of our people to work and produce. Our country is young, its resources are still in the early stages of development, its wealth has to bear the heavy price of its participation in the world war and it cannot afford to waste its energies in fruitless strikes which are detrimental both to the individuals and the country. All nations have acknowledged over their signature to the peace treaty which has just been signed, that labour has an indisputable right to an equitable share of that which it helps to produce, but this right entails the obligation and the duty on the part of labour to take into account the economic conditions not only of the country to which it belongs but of the other nations with which trade relations exist. International commerce between civilized countries has reached such proportions, due to greater and more rapid communications, that no country can isolate itself from the others and hope to create for itself a privileged position dependent upon tariff, agreements and

barriers which are more or less artificial and very unstable. Hard work assisted by technical training is the foundation of success provided these energies are directed in a manner to yield the best results; thus should our agricultural production be encouraged and helped to the fullest extent for the purpose of increasing and bettering our crops, stock raising and our dairy industry; thus should means of transportation, both rapid and economical, be provided in order that, amongst other resources, our coal, which is located at the east and west extremities of our country be rendered available in larger quantities to the industrial and commercial centres of Canada so that we may depend to a lesser extent on American coals; thus also must we efficiently utilize and administer our forests, being cautious to conserve this great natural wealth, as they are, after our agricultural products, the greatest feeders of our foreign trade. Our forests, to which nature has generously added magnificent water powers easily developed, have placed Canada and the Province of Quebec in a foremost position as regards the paper and lumber trade. Most of the European and American countries are to-day tributaries of Canada for its merchant lumber, mechanical and chemical wood pulp and newsprint. Although these industries have been increasing their output considerably during recent year, production is much below the demand while prices have been more than satisfactory. Whilst figures above quoted related to the whole of Canada it is of interest to note the progress achieved in the Province of Quebec. In 1914, 4,683,000 acres were under cultivation in Quebec and this figure has trebled in 1918 the amount being 13,293,000 acres. The value of agricultural products amounted in 1914 to \$99,000,000. and in 1918 to \$272,000,000; during the same period the number of milking cows increased from 733,476 to 1,163,865, sheep from 571,287 to 959,070 and hogs

from 634,569 to 997,255; in 1918, 30,000,000 lbs. of maple sugar were gathered against 10,000,000 lbs. in 1911.

On the morrow of the signature of the treaty of peace and at the moment when diplomatic and commercial relations are being re-established between the nations of Europe, after five years of war during which all energies were directed towards mutual destruction, may we hope that the new era will bring to a tired world prosperity with peace. This question which is of such vital interest, far exceeds the purport of this report. The peoples of this world will in a no distant future decide and determine if the civilized countries, after fighting victoriously for the rights and liberties of individuals and nations, shall witness the downfall of their civilization allowing the substitution therefor of bolchevism, anarchy, laziness, inefficiency, incompetence and ignorance invariably wedded to unhappiness and misery. This problem, the solution of which can neither be indefinitely postponed or ignored, must be faced squarely by all and the nations and peoples of the world must make their choice between work, order and prosperity on the one hand, or bankruptcy, idleness and disorder on the other. From the choice made between work honestly performed and equitably remunerated and the pursuit of utopias and chimerical dreams will depend future relations between citizens of a country and between the divers nations of the world. The nations which are wealthy, industrious and thrifty will consent to pool their resources only with nations who pursue a common ideal of progress and industry; in other words international credits await the return of confidence in the economic conditions of the various countries. The course of international exchange, which offers at present such serious obstacles to foreign trade, will again become normal in-so-far and only as rapidly as stable conditions of labour and production are restored in the various countries. We have absolute

confidence in the good sense of our Canadian population and in its fidelity to the traditions of industry, honesty and thrift which have been the source and cause of our progress in the past and we have faith in the future prosperity of our country whose immense resources, as yet untouched, only await for their development capital and men of energy.

Hon. F. L. Béique, in moving the adoption of the report, advised the Shareholders that the Board of Directors had, in the course of the past year, increased substantially the salaries of the staff, and that in so doing, the Directors thought they were voicing the desire of the Shareholders. He stated further that the Directors, together with the President who is unfortunately confined to his home by a slight illness, intended at the time of declaring the next quarterly dividend to raise the rate of said dividend from 9% to 10%. Moved by Hon. F. L. Béique, seconded by the Hon. J. M. Wilson and unanimously resolved that the report of the Directors and statement now read be adopted.

Moved by Mr. J. A. Trudeau, seconded by Mr. L. de G. Beaubien and unanimously resolved that the shareholders express their appreciation to the President, the Vice-President and the Directors for their administration of the affairs of the Bank for the year ended 29th November, 1919.

The Secretary read letters from Messrs. S. Roger Mitchell and George Gonthier, auditors, appointed by the shareholders, offering themselves for re-election and it was moved by Hon. J. M. Wilson, seconded by Mr. A. A. Larocque and unanimously resolved that the remuneration of the Auditors be fixed at an amount of \$6,500., to be divided between the auditors in proportion to the time devoted to the affairs of the Bank, and that Messrs. S. R. Mitchell and Geo. Gonthier be appointed Auditors for the fiscal year 1920.

Mr. Alfred St-Cyr in moving that the meeting now proceed to elect the Directors, suggested that in view of the progress made by the Bank, the Board of Directors examine

the opportunity for the Bank to increase the number of its Directors. It was moved by Mr. Alfred St-Cyr, seconded by Mr. Philippe Payette and unanimously resolved that one ballot be cast for the election of the Directors and that this ballot be considered as the decision of the meeting.

The scrutineers reported that the following had been elected directors of the Bank:—Messrs. J. A. Vaillancourt, Hon. F. L. Béique, A. Turcotte, E. H. Lamay, Hon. J. M. Wilson, A. A. Larocque and E. W. Bonner.

The President brought before the meeting the subscription campaign in favour of the University of Montreal, and invited an expression of opinion from the shareholders as to the opportunity for the Bank of contributing to the foundation of a University in Montreal which would cope with the demands of the French speaking population of North America. Messrs. Alfred St-Cyr, Joseph Versailles and Leo. G. Ryan in turn addressed the meeting and voiced the sentiment of the shareholders that the Board of Directors, after taking into account the charges and obligations of the Bank, subscribe generously to this national undertaking.

The meeting then adjourned.
