## Sixteen Cars Smashed In Wreck at the Humber

**Sixteen Thousand Bushels of Wheat Poured Out Like Water—Cause of Accident a Broken Track—No One Hurt at Time of Wreck, But Sectionman Cleaning Up Debris Broke His Leg.**

Sixteen box cars fully loaded with wheat were smashed to matchwood in a wreck on the main line of the Grand Trunk at the Humber yesterday morning and all traffic thru this important point—Grand Trunk and C. P. R.—was cut off for nine hours.

It was as bad a wreck as could well be imagined. Sixteen cars, and 16,000 bushels of wheat were squashed into a beautifully scrambled heap, within a space of five car lengths.

It occurred at 10.10 a.m. and, with a full auxiliary crew, with a crane, and three section gangs working like beavers, it took until 7 o'clock in the evening to get the north (west bound) track cleared so that trains east and west could be run over it between Mimico and Swansea. The other track was not cleared until early this morning.

**No One Injured.**

No one was injured; but a brakeman and a Humber native had close calls. The brakeman was trotting over the top of the train and just hopped from the last car that was smashed when it mounted the heap of debris.

"Lefty" Macdonald, who is to pitch for the Toronto ball team this year, and who resides close to the scene of the wreck, was on the track—just going for a pall of water—when the train began to crumple up beside him and he had to step lively over the embankment to save his skin. He was right where the cars buckled, and one of them made for him endwise across the tracks.

Engine No. 674, with Engineer W. Perry and Conductor T. Stebbard, was hauling 35 box-cars laden with wheat from the Grand Trunk elevators at Point Edward to Portland, Me., for export, and two empties.

**Cause of Wreck.**  
The front truck of the eighth car from the engine, broke at a point 250 yards west of Billie Miles' hotel and trailed along the ties until it struck a switch from about 50 yards west of the hotel. Then it tried to take the siding and in a minute sixteen cars were piled up in the hollow behind the hotel, over the tracks and down on the outside of the narrow embankment.

Wheat, worth about 90 cents a bushel poured out of every crack in streams, filling up the mud holes and burying the underneath cars. Superintendent W. H. Farrell and the auxiliary were soon on the spot and thought at first to have one line open in time for the International Limited to get thru at 4.40 p.m. But they couldn't do it. The pile was too dense.

The C. P. R. threw open its Mimico-Bellington spur, and both companies used it, landing their trains into Toronto about 20 minutes late, and missing South Parkdale station.

**Diverting the Traffic.**  
When the north track was cleared in time for No. 2 from London to get thru, the traffic came and went as usual, save for the fact that it was a single track service between Mimico and Swansea.

"Lefty" Macdonald, the southpaw twirler whom Mr. McCaffery has picked up from the Royal Oaks, seems to have been the only eye witness. He told The World that he could hardly remember what happened. He was on the track, heard a screeching sound, saw fire flying up and ducked just as the cars piled up. One car plunged right at him as he went over the bank.

### Grain Disappeared.

**FORT WILLIAM, Feb. 26.**—Two employees of the Empire Elevator, and two other men were arrested Saturday night on a charge of stealing grain from the elevator. The men captured are Nightwatchman Alf Wake, Fireman Alf Constable, a teamster named E. E. Nevinson and J. Payne. Wake, when he obtained his position at the elevator, was recommended by a minister. Manager Jones of the elevator became suspicious, as grain was being offered to local poultry-men and a local miller concern, and he posted two men to keep watch. One of the watch saw a loaded sleigh coming from the direction of the elevator. He halted the rig and ordered the driver, Nevinson, to drive to the coal dock police. Accompanied by the manager, the party then proceeded to the elevator and there the three men were arrested. A search for the storing place of the grain was instituted and in the basement of a house at 331 Ogden-st., occupied by Payne, and owned by Nevinson, 120 bushels of wheat were discovered.

### Robbed of a Fortune in Jewels

**Diamonds and Pearls to Value of \$130,000 Mysteriously Disappeared.**

**NEW YORK, Feb. 26.**—Mrs. Baldwin Drummond, formerly Mrs. Marshall Field, Jr. of Chicago, was robbed of a fortune in jewels last night aboard a trans-Atlantic liner. Diamonds, pearls and other gems to the value of approximately \$130,000 disappeared mysteriously from her stateroom on the steamship America of the Hamburg-American Line some time between 3.30 o'clock last evening and 5.30 this morning.

To the police Mrs. Drummond described the missing jewels as follows: Two strings of pearls of 73 pearls each; one string of 321 pearls; one large black pearl ring set with diamonds; one large white pearl ring set with diamonds; one pair large pearl earrings set with diamonds; one black pearl brooch set with diamonds; with a black pearl; pea-shaped pendant.

A wireless message sent from the America as she neared port summoned detectives down the bay in a tug. They learned from Mrs. Drummond details of the theft and began a combing of the ship and a search of the crew. But not a trace of the jewels was found.

The captain was quickly notified, and a quiet investigation begun. Stewards and stewardesses were questioned closely and their clothes and belongings searched, and when the detectives arrived there were quiet enquiries among the 138 first cabin passengers aboard.

As not a clue was developed, however, the customs authorities were appealed to, and under guise of baggage inspection every one's luggage was sifted thoroughly, both in first and second cabins, but so far as could be learned not even a suspicion was unearthed.

## TAFT HAS FIXED DATE OF EXTRA SESSION

**No Change in Senate Situation on Reciprocity—Insurgent Republicans Still Hold Out Strongly Against the Bill—A Flood of Rumors.**

**WASHINGTON, Feb. 26.**—So probable is it that an extra session of congress will be necessary in order to get action on the Canadian reciprocity agreement that President Taft has fixed April 4 as the date on which such a session may be called.

The April date was selected after consultation with Champ Clark, who will be speaker of the next house, and Representative Underwood of Alabama, who will be chairman of the ways and means committee, which will have charge of and report the reciprocity bill in the house.

The president had intended to convene the extra session at an earlier date, but Representative Clark and Underwood told him that they would like to have a month's time after the present congress adjourns in which to map out the Democratic plan for the next session.

**No Hope This Session.**

There was no change in the situation in the senate to-day regarding the Canadian reciprocity agreement, and the leaders see no hope of bringing to a vote at this session the McCall bill to carry the agreement into effect. Many rumors were circulated of moves to remedy the situation, but apparently they were all without foundation. The most persistent of all was one that Senator Aldrich, famed for winning legislative battles, which his colleagues thought lost, was speeding to Washington at the urgent solicitation of President Taft to take charge of the situation in the senate.

The Aldrich rumor, apparently, was a distortion of a telegram which the senator sent from Jersey City, N. J., asking that a pair be arranged for him in favor of the McCall bill if it comes to a vote this session.

**Wouldn't Help Matters.**

As a matter of fact, no one believes that the coming of Senator Aldrich would alter the situation in respect to the McCall bill. The measure is opposed by Senators Cummings, Bristol, Clapp and many other insurgent Republicans. The arrival of Mr. Aldrich and any attempt by him to force the consideration of the bill upon the senate would be like shaking a red flag in the face of a bull. It would serve, according to the consensus of opinion in the senate, only to intensify the insurgents' fight against the measure. Not only that, but his friendship for the bill unquestionably would alienate some of his best friends, like Senators Hale, McCumber, Smoot, and others who sided him in framing the Payne-Aldrich tariff law, but who are opposed to the Canadian agreement. Senator McCumber spoke against the bill to-day, basing his argument upon the disastrous effect which he said its enactment would have upon the farming industry.

## TIME FOR THE BEAVER TO "DUCK"

POLITICAL POT HUNTER: I'll on'y give him one bar'l.

## FRENCH CABINET TO RESIGN TO-DAY

**A Number of Names Mentioned for Premiership—Conservative Papers Talk of "Intrigue," and Fear That Forces of Extreme Radicalism Are Triumphant.**

**PARIS, Feb. 25.**—Premier Briand and the members of his cabinet will resign on Monday. They reached this decision this afternoon at a conference in the premier's office, when the political situation was thoroughly canvassed from beginning to end. The bare majority of sixteen, which the government received last night in a vote of confidence in the chamber of deputies following the premier's arraignment by the radical socialists, Louis Mally and Paul Meunier, was a sore blow to the premier and his associates, who had been sustained many times in previous crises by much larger votes. In the end, M. Briand declared that he was "sick of it all."

The only reason for waiting until Monday to present their resignations to the president is that the ministers wish to show their respect for the memory of their late colleague, Gen. Brun, whose funeral will take place Monday morning.

**Much Uncertainty.**  
There is much uncertainty to-night as to what will happen, whether President Fallieres, after taking counsel with the leaders of the parliamentary groups, will ask M. Briand to stay in power, or whom he will invite to form a new ministry. Leon N. Bourgeois, former premier and ex-minister of foreign affairs; Redmond Poincare, ex-minister of finance; Theophile Delcasse, ex-foreign minister, and former premier Emile Combes are among the names mentioned, although it is understood that M. Delcasse is personally not liked by the president of the republic.

The decision of the ministry to withdraw has created an enormous political sensation. The conservative newspapers are sounding a note of alarm. They declare that the forces of extreme radicalism are triumphing over sane and progressive reform, regarding the tariff issue, which was raised yesterday, as a mere pretext to attain Briand's downfall. They point out that it is ridiculous to accuse the man who constructed the separation law of clericalism, and now that the church and state are completely divorced, M. Briand has been merely following out a general program of "appeasement."

**Result of Intrigue.**  
The vote in the chamber of deputies last night, therefore, is interpreted as the result of an intrigue among Briand's adversaries in his own party, who have been plotting his overthrow since the great crisis of the railway strike and blocking the premier's program of arbitration in labor disputes in connection with the public service corporations.

Physically and mentally exhausted by several years of unintermitted labor in official life, M. Briand is sincerely anxious to retire. Even now he is discussing with his friends the details of a proposed trip to the Mediterranean. It is understood that M. Pichon, minister of foreign affairs, is equally determined to withdraw, and will not accept a place in the new cabinet if it were offered him.

The Temps in summing up the situation, blames parliament for taking too much interest in the railway employees, who imperiled the security of the country, and not enough in the measures designed to protect the nation from civil war.

"M. Briand," says The Temps, "has the support of public opinion. His departure gives all Frenchmen food for grave reflection, for France is menaced by moral disorder and a senseless parliament."

**"THROW UP YOUR HANDS"**  
Playful Demand May Result in a Fatality.

**LONDON, Feb. 25.**—"Throw up your hands," shouted twelve year old Earl Solman, as he pointed an air rifle at his fourteen year old cousin, Sidney Solman, yesterday afternoon.

Sidney entered into the spirit of the game, but instead of doing as ordered, he grabbed a 22 rifle from the wall and fired at Earl. The bullet entered his playmate's stomach, inflicting a wound which may result fatally. The injured lad now lies in St. Joseph's Hospital, where he was taken immediately after the accident.

### CHARGED WITH WORKING SLICK FLIM-FLAM GAME

**It Operated Six Times, But Seventh Prospective Victim Was Too Careful.**

Six charges of theft of the "flim-flam" variety, are chalked up against Alfred Walmesley, of no particular address, who was arrested on a street-car Saturday night by Detective Sackett. The sleuth had nothing to go on except a description of the man gleaned from the victimized persons; but some of them have since identified Walmesley as the right party.

The game he worked, according to the detective, was bold to say the least. His method was to enter a store and ask if he could get a 40 cent bar for mailing. He would blurt changed for mailings. He would put the "ten spot" in an envelope and tender a wad of "ones." When his benefactors counted the "ones" there would be only 19. When Walmesley's attention would be called to the mistake, he would: "It is alleged, apparently surprised, saying he must have left the other 'one' on the dresser. Then he would hand back a sealed envelope, take up 8 ones and say in would be "right back."

The sealed envelope would be empty. It is charged that he pulled off this game on W. R. Jones, 107 Benson-avenue, on Feb. 18, and four others fell to it on the 18th, namely: Max Pedlar, 506 East Queen-street; J. N. Fowler, 372 East Queen-street; Mrs. Brown, 505 Jones-avenue and Arthur Pickles, Condon-street.

It was thru trying it on James McMurray, De Grand street, that led to apprehension. This gentleman opened the sealed envelope before he let the flim-flammer get away, and his ten-spot was returned promptly. McMurray notified the police.

Walmesley is charged with thefts totaling \$60.

### FORMER PREMIER OF HUNGARY IS DEAD

**Baron Banffy Strove to Maintain Good Relations Between Austria and Hungary.**

**BUDAPEST, Feb. 25.**—Baron Deak-Banffy, former premier of Hungary, and a leader of the new party, died to-day.

Baron Banffy was born Oct. 28, 1842, at Klausenburg. Since 1875 he had been, with more or less regularity, a member of the Hungarian chad. He was a follower of Koloman Tizza. He inherited a seat in the Hungarian house of magnates and was elected to a post of honor in that body in 1875. He served as administrative chief of several counties in the Province of Siebenburgen, and as such he protected with energy the interests of the Magyar nation against the encroachments of the other nationalities of Hungary.

In 1892, when Count Szapary was premier of Hungary, Baron Banffy was made president of the chamber and after the fall of the Weckerle Cabinet, in 1895, he became premier. During the four years he served in this latter capacity, Banffy strove continually to maintain good relations between Vienna and the Hungarian people.

### WILL FORTIFY PANAMA CANAL

**WASHINGTON, Feb. 26.**—After nearly five hours of debate the house, shortly before 10 o'clock to-night, voted overwhelmingly in favor of the policy of fortifying the Panama Canal, and appropriated \$3,000,000 to begin the work, the total cost of which has been estimated at \$12,000,000.

This action of the house practically settles the question of fortification for the sentiment in the senate is said to be more than two to one in favor of protecting the isthmian waterway by sea-coast batteries.

The real test in the house came on an amendment proposed by Representative Towney of Minnesota, chairman of the committee on appropriations. It provided that no part of the money set aside for fortifications should be used until the neutrality and international protection of the canal. This was defeated by a vote of 189 to 82, after a slashing speech against the amendment by Representative Shirley of Kentucky, a Democrat. The appropriation was finally carried by a vote of 123 to 81.

### CUT HER THROAT WITH HER HUSBAND'S RAZOR

**Woman, Sixty-Six Years of Age, Had Been Chronic Sufferer From Asthma.**

Mrs. Annie Weeks, a woman of 66 years, ended her life in her bedroom, 4 Wynona-avenue, yesterday morning by cutting her throat with her husband's razor. Obviously ill-health was the prompter. She had been a chronic sufferer with asthma for several years, and her nerves were badly affected as a consequence.

E. O. Weeks, her husband, heard her utter a cry at a quarter past six in the morning, and found her writhing with a gash in her throat.

Immediately he summoned Dr. G. G. Rowe, and the latter put in a call for an ambulance, but the woman died before the conveyance arrived. She had written a note, saying: "I cannot live, so forgive me, I can't live."

Chief Coroner Johnson has decided not to hold an inquest.

**Rich Comedy and Charming Music.**  
The libretto of "Three Twins," the big musical play, that opens at the Princess to-night, is full of rich comedy and the music has a luring charm. The clever comedian, Clifton Gray, finds dry humor has won him fame in this comedy.

### CROWD BLOCKED STREET REFUSED TO GO AWAY

**Rumor Had Spread of Birth of Baby With Horns Like a Goat.**

**MONTREAL, Feb. 25.**—Some person started a story last week that a baby had been born to Mrs. Alfred Pianta, 41 Joliette-street, Hochelaga Ward, with horns resembling a goat.

The family at first paid little attention to the report, and their neighbors were aware that nothing of the kind had happened. Mrs. Pianta is the mother of eight children, the youngest of whom is a girl, eight months old, a healthy child of normal proportions.

The story of the baby with the horns spread until curious people were attracted to the house.

So bothersome did the curiosity seekers become that the father appealed to Captain Murphy of the East St. Cadorn-street police station, for protection. Captain Murphy said he could not prevent people from calling at the house if they wished to do so, but would stop them collecting in the street or blocking the sidewalk.

One policeman was sufficient Saturday to keep the crowd that gathered in front of the house from blocking the street, but to-day it required two men and an officer to keep them in motion. Captain Murphy stated that in the early part of this afternoon there were between 500 and 600 persons in front of the house.

It was impossible to convince the crowd the story was not true. Some professed to be willing to pay as high as \$5 to get a look at the curious baby, who was supposed to be only a week old.

Captain Murphy stated that he could not tell who the story originated. He had an idea that it started among the children in one of the schools.

### LINERS BATTLED AGAINST A TERRIFIC HURRICANE

**Seaman on the Corsican Knocked Senseless and Had an Arm Fractured.**

**HALIFAX, Feb. 25.**—Twenty-four hours overdue, with one of the crew suffering from a fractured arm, the Allan Line steamer Corsican arrived yesterday after the roughest passage since she was launched.

The Corsican left Liverpool on Friday, Feb. 17, and encountered heavy westerly gales and high seas the first day out. The storm abated Sunday and Monday, but on Wednesday the wind increased until the storm culminated into a fierce hurricane. Mountainous seas swept the ship, tossing her about like a cork, and setting her proper racing racy wild. Next day one of the seamen standing on deck had a narrow escape from death. A heavy sea struck the man, flung him against an iron rendering him senseless and fractured his arm. The ralling was carried away and the forecastle flooded with water, destroying the sailow effects. Doors were broken and other damage done.

The storm did not let up completely till Saturday, when the steamer was off the coast of Nova Scotia. Captain Cook and all the others say the storm was one of the most severe they ever experienced. The Manchester Trader, three days overdue, arrived from Manchester to-day, also reporting terrific storms with several plates started.

CAUGHT A HEAVY COLD.

Mr. J. H. Richards, 1852 Second Ave., East, Vancouver, B.C., writes: "Allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough, and every time I would get a little more cold this hacking cough would become a lung splitting one. It kept on getting worse and I kept on spending money buying different cough remedies until a friend asked me if I had ever tried Dr. Wood's Norway Pine Syrup. I told him I was willing to try anything I thought would cure, and on the same day bought two bottles. Before half the first one was used my cough began to get much easier, and by the time I had used a bottle and a half my cough was gone. I am keeping the other half bottle in case it should come again but I am quite sure I have a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough on throat irritation of any kind."

### Pastor Russell's Sermon

### WHY JESUS REFUSED TO PRAY Election and Non-Election Viewed from a New Standpoint.

FALL RIVER, Mass., Feb. 26.—Pastor Russell preached twice here today. He had fine audiences and excellent attention. We quote one of his instructive discourses from the text, "I pray not for the world, but for those whom Thou hast given me." (John xvii. 9). He said:

"When, years ago, I believed that an eternity of torture awaited all who do not accept God's 'call' of the present time, I had great difficulty with this text. I asked, 'Is it possible that our Redeemer was selectively unjust in His dealings with our race? Can it be true that the Heavenly Father merely calls and draws a predestinated few to Himself and to everlasting bliss? Can it be that the rest of the world are left to suffer eternally, untried, untried, and untried, for the Saviour are going down to eternal torment? My heart answered, 'No! But the misinterpretation of the Bible, which I had received, trained in the doctrine of election and predestination, I like hosts of others, felt something that Brother Wesley's teachings of free will, which were nobler, more God-like, than Brother Calvin's teachings respecting election and predestination."

"Nevertheless, when I reasoned on the subject, I said, can I think of the omniscient God preparing a great place of sufficient size to hold the entire human family and outfitting with every devilish appliance 'for their' torture, and yet being ignorant of the conditions under which they would be born? Can I think that He did not know that we would be born in sin and shapen in iniquity? Can I think that He did not know of the present reign of Satan, an sin and death, and that it would last for six thousand years and injurious-ly affect our entire race? Can I think so far as I can see, Brother Calvin had a wise and powerful God such as I could admire and reverence, if He had only been kind and loving instead of diabolical. And Brother Wesley had a kind and loving God such as I could admire and worship, if He had only the wisdom and power of Calvin's theory."

"So long as we have such confusion in our minds faith and hope and love and trust shake upon the foundations of our reason. We recognize that we know nothing of the future of our world, and we are wholly dependent upon divine revelation. But we cannot expect that our Creator would give us a revelation which to sanctified minds would appear Satanic instead of divine."

"Hearken to the word of the Lord: The Father toward me is not of me, but is taught by the precepts of men! (Isaiah xxix. 18). As the heavens are higher than the earth, so are my plans higher than your plans." (Isaiah lv. 9). Now as the six thousand years have passed and we have entered upon the Sabbath seventh thousand year, beginning to realize that it marks a new dispensation—that the night is passed; that the dawn is upon us. The wonderful inventions of our day alone, the earthy lines are in full harmony with God's word, making its dark places bright and its rough places smooth and enabling us to realize that the path of the just, which shineth more and more unto the perfect day."

"Now we can see why Jesus did not pray for the world. It was because the world was not in any danger of a fiery hell. More than that, it was because of Satan's time for dealing with the world had not yet come. The world, however, is to be dealt with by the great Redeemer. After He shall have set up His Kingdom in power and glory; after He shall have bound Satan for a thousand years that he might deceive the nations no more, the glorious Saviour, Messiah, will cause a general enlightenment of mankind and a full opportunity for all, rich and poor, great and small, to rise up from dust and ashes and the grave to the full perfection of human nature."

"We see, then, that the Father would not pray for the world as that He knew the Father's plan that the world was not to be dealt with during this age, but during the next, the kingdom age. The master prayed for His own, for the class which He has been selecting during the past seven hundred years. These are vari-

ously called "the elect," the "disciples," "His followers," "members of His Body," a "Royal Priesthood," the "Bride," the "Lamb's Wife," the "little flock," to whom it is the Father's good pleasure to give the kingdom.

"Seeing then that there is a difference between God's provision for the world, to be dispensed in the next age, and His provision for the church to be given now, we ask, 'What is the difference between these? The answer is that the world's salvation is to be by human nature and earthly paradise world-wide; while the elect class is a special one called of God, chosen in Christ and faithful in adversity and, by the Lord's grace, is to have a heavenly nature, like unto that of the angels, but superior. There is a 'heavenly calling,' a 'high calling.' They are to be like their Lord and Redeemer and Head and Bridegroom, Jesus, in His glorified state, 'far above angels and principalities, and powers, and every name that is named.'"

"Is this an arbitrary election? Does God arbitrarily draw and call one above another? Yes. He thus selected the Jewish nation to be His peculiar nation—not, however, to the detriment or injury of other nations. He thus called Isaac instead of Esau to be progenitors of His chosen nation Israel, whom He foreknew as a people and predestinated to a certain service. But this selection worked no injury to either Ishmael or Esau. Similarly during the gospel age God chooses from the world a certain class and grants them the hearing ear and the seeing eye, and He passes by others and gives them not this special favor. This, however, is not to be the disadvantage of the others—non-elect, unchosen, uncalled."

"St. Paul speaks of the church as 'called according to His purpose.' He even tells us what the purpose is, namely, that in ages to come He might show forth the exceeding riches of His grace in His loving kindness toward us in Christ Jesus (Ephesians ii. 7). Toward this specially called class God will to all eternity manifest special favor. But we are not to suppose that there is no reason for His selection and favor. There is a reason. It is because of certain intrinsic qualities or characteristics possessed by this class which God is now selecting. They will all be 'saints.'"

"Indeed, this is God's particular predestination. St. Paul tells us that He foreknew that He would provide His only-begotten Son to be the Saviour of mankind and the Head over the church, and He foreknew that He would have a church, a royal priesthood, engaged in the great High Priest's members of His body. God foreknew also the kind of a message He would send forth and that it would be attractive only to a certain class possessing a love for righteousness. These only would hear His call."

"It is of this special class that the apostle declares, 'Whom God did foreknow, these He also did predestinate to be conformed to the likeness (image) of His Son (Romans viii. 29). That is to say, God's predestination was not only that He would have a church, but, additionally, that the terms or conditions of fellowship in that church should be such as each one that church should be. Surely this is a good predestination, with which no one could find fault. Whether we shall gain a place with the heavenly, or a place with the earthly nature, we cannot do otherwise than recognize the justice of God in so deciding that the members of the elect church and joint-heirs with Him in His Kingdom."

"Also our Lord did not pray for the world. He will yet pray for them, and His prayer will be answered. The promise reads, 'Ask of Me and I will give thee the heathen for an inheritance and the uttermost parts of the earth as a possession' (Psalm li. 8). Jesus did not make this request on the night of His crucifixion because He was not the Father's time to answer that prayer. Appropriately He waited, that while gathering the 'elect' from every nation, people, kindred and tongue, the Scripture declares that He is seated at the Father's right hand of glory, expecting or waiting for the time to come when the kingdom under the whole heavens shall be delivered to Him by the Father. This will be done at the end of this gospel age, when the saintly body of Christ shall have been completed. Then 'He shall take unto himself His great power and reign.'"

"A great time of trouble will follow. The plowshare of sorrow will make ready the hearts of mankind for the great blessing which Messiah will then be ready to bestow, because that will be the due time. Then after a thousand years, after having accepted the purpose of the Father in the uplifting of all the willing and obedient of mankind to earthly perfection, the great Prophet-Priest-Mediator and King of Glory will at the end of the thousand years reign down upon the Kingdom even to God the Father, that God may be all in all (I Corinthians xv. 28)."

"While Satan will be bound at the beginning of Messiah's reign and every form of unrighteousness will be rooted out, nevertheless the raising of mankind up out of sin and degradation to perfection will be a gradual work. As the regenerators influence operate in mankind, they will become more and more alive, less and less dead—until at the end of the Messianic reign Adam's death will be no more. It shall have been fully destroyed by the raising of mankind completely out of it; the last Adam's death. The Second Death will never be destroyed, but will be everlasting. It is not an enemy to God and His righteous, but a valuable servant to destroy everything willfully and intelligently out of accord with the Divine Government—righteousness."

"The oneness of God's people is not represented in the various sects and parties of the present time. It is represented in the fact that all the consecrated followers of the Redeemer are individually united to Him as members of His Body. As a result of that Kingdom's coming the world will be brought to the point of believing in

Jesus and will all have the opportunity of obtaining thru Him the gift of God, eternal life. Our Lord's solicitude was not merely for the Apostles and earliest members of the Church whom the Father gave Him in the special sense, as His personal companions and helpers in the founding of the Church; he prayed on, saying, 'Neither pray I for these alone, but for all those also who shall believe on Me thru their Word.'"

"In a word, Jesus, the Apostles and the Prophets alone, are to be considered the special guides and standard-bearers for the Church. We are to believe on Him thru their word and not thru the word of council or synod or presbytery. Each individual of the Church has his personal responsibility. This is in harmony with our Lord's declaration, 'My sheep know My Voice and they follow Me; a stranger will they not follow, but will flee from a stranger.'"

"Soon the Master's prayer for His disciples will have fulfillment. They will be one with Him beyond the veil, sharers of His glory and Kingdom. Then will come the time when the world will believe. The knowledge of the Lord will fill the earth and all the blinding and stumbling influences of the present age will be at an end. The Saviour will not need to pray for the world then, but instead will exercise His power on their behalf, overthrowing and uprooting every wrong principle and all who love righteousness and destroying those who would corrupt the earth."

"LIBRARIAN G. H. LOCKE Who will be asked to give an opinion in court on alleged purulent literature."

"OBITUARY. E. W. WYATT. An old and respected resident of Toronto, E. W. Wyatt, passed away at his home, 840 Davenport-road, on Saturday, Feb. 25th, at the age of 86 years."

"Charged With Theft of Overcoat. Wm. 'Penny' Bellville, 471 Alfr. Covic, 118 West Richmond-st., was arrested Saturday night by Detective Taylor, charged with the theft of an overcoat from the restaurant of Solomon Tobe, 132 York-street."

"Mrs. Van Flashington (at the charity ball), condescendingly to do you know you can do proper justice to my gown and my jewels, Miss Wright?"

### A Reasonable Plea For the Stomach

If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work—Especially When It Costs Nothing to Try?

Not with drugs, but with a reinforcement of digestive juices, as are naturally at work in the stomach? Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus."

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digest and when placed at work in the weak stomach and small intestine, supply what these organs need. The stimulating effect of the glands and gradually bring the digestive organs back to their normal condition."

John R. Brooke, F. I. C., F. C. S. There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water-brash, insomnia, loss of appetite, melancholia, constipation, and kindred diseases originating from improper dissolution and assimilation of foods, because they are thoroughly reliable and harmless. Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy, reliable and harmless to man or child, enough (by test) to digest 3000 grains of steak, eggs and other foods. Stuart's Dyspepsia Tablets will digest your food for you when your stomach can't. Ask your druggist for a fifty-cent package or send us direct for a free trial sample package and you will be delighted at the result. F. A. ## Goodyear Tires Lead by 128% At the Toronto Motor Show

By a careful count on the Opening Night of the Toronto Show, (Feb. 25th), it was found that, comparing the number of Goodyear Tires on cars shown, with the representation of other makes, Goodyear had an actual lead of 128%.

The total number of sets bearing the Goodyear name and trade-mark was 57 sets. The next competitor had only 25 sets.

Is this not an overwhelming demonstration of Goodyear prestige? Is it not a safe assumption that the tires so generally chosen by the car manufacturers as proper equipment, are the tires you should choose to have on your car?

### Goodyear Tires Will Be Standard Equipment on All High-grade Cars For 1911

We have received tire contracts from every Canadian automobile manufacturer, calling for a total of over 60 per cent. of all the cars to be turned out for 1911.

Orders were placed with us long before our factory in Bowmanville was completed. Manufacturers knew the Goodyear reputation, and were prompt to avail themselves of the advantages to be derived from the manufacture of these celebrated Tires right here in Canada.

Already we have been obliged, by reason of the heavy demand, to increase our factory facilities. We are now well equipped to handle the enormous business in Goodyear Tires that is springing up all over the country.

For, be it known, the phenomenal Goodyear lead of 128 per cent. at the Toronto Show is not merely a local popularity—this record is but an index of the strong approbation of Goodyear Tires that is being shown everywhere throughout the Dominion.

### Do You Know These Facts About Goodyear No-rim-cut Tires?

Always oversize—each size is larger than rated. Won't rim-cut or force off the rim, even though ridden deflated.

Won't creep, though no tire bolts are needed. Give extreme mileage, often twice or three times that given by the best of ordinary tires.

Are supreme in resiliency. Are easiest removed and replaced in case of need.

Are the best tires procurable, as demonstrated by contracts from practically every maker of high-class motor cars in Canada and the United States.

If you would have tires that will save you time, trouble and money, get "Goodyear"—the tires that experienced motorists buy. Write for our free book, "How to Select an Auto Tire," and learn how to cut down your tire expense.

### Neglected Colds Lead to Consumption

Unless a complete cure is effected, the inflammation passes rapidly to the throat, bronchial tubes, and then to the lungs.

You can't make new lungs any more than you can make new fingers or a new nose—hence consumption is practically incurable.

But Catarrh can be cured, except in its final and usually fatal stage.

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be cured right at home by inhaling "Catarrhazone."

In using Catarrhazone you don't take medicine into the stomach—you just breathe a healing, pinny vapor direct to the lungs and air passages.

### Catarrhazone Guaranteed to Cure

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance, and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhazone is breathed—sneezing and coughing cease at once, because irritation is removed.

Use Catarrhazone to prevent—use it to cure your winter illness—it's pleasant, safe and guaranteed in every case. Two months' treatment, large size, guaranteed to cure, price \$1. Small size, 50c. at all dealers. Beware of substitutes and imitations. By mail from the Catarrhazone Co., Kingston, Ont.

### TORONTO MAN HEIR TO ESTATE IN LONDON

Albert Edward Taylor Has Reason to Be Thankful He Bears Grandfather's Names.

"What's in a name?" said the poet, but A. E. Taylor, a prominent real estate man of Toronto, has been left a fortune estimated variously from \$50,000 to \$100,000 because he happens to

have the Christian names of his grandfather and father.

Albert Taylor, the grandfather, was a wealthy Londoner, who had estates in different parts of England. Some of the sons disagreed with his method of dealing with his property, and a clause in the will which gave the old London mansion to any Taylor then Mr. Taylor has received several offers for the property, which has special grounds and which overlooks the Zoological Gardens. The first of these offers was for \$40,000, and the second, from

### BRITISH INVESTMENTS IN THE UNITED STATES

Average Return 6.25 Per Cent.—Total Amount Estimated at Two Billions.

Several New York bankers, who deal almost wholly with British investors, have gathered statistics as to British investments within the United States, showing that the amount is about \$2,000,000,000. Of this sum about one-fourth is in railroad securities; industrial investments make up about one-sixth of the total, with mining in third place. Then in order follow gas and electric works, breweries, distilleries, forests, lands, buildings, and federal, state, municipal and county bonds.

British investments without the three kingdoms themselves aggregate almost \$16,000,000,000. Last year's average income from Great Britain's foreign investments within the United States, the average return last year to British capitalists was 6.25 per cent. For gathering information and making reports upon American corporations in which British capital is a large factor, 550 statistical and investigating engineers and accountants are occupied. In iron, steel, copper and electrical engineering works British capital has made large increases within three years, as also in several eastern and western trunk lines.

### LABOR CLOUDS GATHER

Twenty Sections of Building Trades Council Haven't Received Increases.

The threatening clouds of labor warfare are hanging over the Labor Temple, only one of the building trades that are working for an increase having had their request answered. The lucky ones are the bricklayers, who have received a raise of from three to five cents per hour. At present they are getting 50 cents an hour for an eight-hour day. There are still twenty unions, however, in the building trades

### WOULD VERY OFTEN FAINT AWAY.

Doctor Said That Sometimes He Would Never Come Out of One.

Many people may be unaware of having anything wrong with their heart till some little excitement, overwork, or confinement in an overheated or crowded room or public building makes them feel faint or dizzy.

If you neglect the warning the slight feeling of dizziness gives you, and fail to take treatment, there will be a gradual progression to something more serious. There is no reason you should wait till your case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mr. F. S. Chute, Wheatley, Ont., writes: "It is with gratitude I tell you my Milburn's Heart and Nerve Pills benefited me. I was very weak and ran down, and had headache, nearly every day and would very often faint away."

"In fact, my doctor said that sometime I would never come out of one of them."

Am glad to relate that it has been a number of years since I have had a fainting spell and scarcely have had a headache. Too much cannot be said to praise Milburn's Heart and Nerve Pills for in 125 they have effected a perfect cure."

Price 50c. per box, or 3 for \$1.25. At all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

#### YORK COUNTY COUNCIL NAME COMMISSIONERS

##### Informal Visit of Board of Control to North Toronto—Dan Longhouse is Banqueted.

The third and closing day of the special meeting of the York County Council, called to discuss and ratify the "good roads" agreement between the city and the municipalities, was concluded on Saturday, the appointment of commissioners constituting the big feature of the forenoon session. As foreshadowed in The World of Saturday the outside member of the commission, and around which the greatest interest centered, was ex-Warden Henry of York Township. Strong efforts were made to secure the appointment of all the commissioners from within the county council, but unsuccessfully, and Mr. Henry was, on a division, chosen as one of three. The other two are Warden Bull and W. H. Pugsley of Richmond Hill, the former only during his term of office, and all at the pleasure of council. The first move will be the selection of a chairman, and Mr. Henry will doubtless be accorded this position. The government engineer and the city representative will be the other two members of the board.

#### THEY LIKE THE TOWN.

##### City Legislators Make Flying Trip to Northern Suburb.

Mayor Brown of North Toronto accompanied Controller Church, Controller Ward and Secretary Tom McQueen of the board of control, on a semi-private and wholly informal tour of the town late on Friday afternoon.

His worship, who knew nothing of the contemplated trip until within a few moments of starting, took the party over some of the leading streets, and incidentally they paid a short visit to each of the public educational institutions, Davisville, Eglington and Bedford Park schools were visited in turn, and the visitors were delighted with the outlook generally. The town hall, the seat of government, and higher educational institutions, were included in the trip. A short call was made at the immense conservatories of Councilor W. A. Lawrence, where magnificent bouquets were acquired from the superb stock. Then by easy stages they journeyed back to the city, arriving at the city hall shortly before 6 o'clock.

The city men, while not committing themselves, were manifestly delighted and surprised at the great possibilities in store for the northern district, and greatly impressed with its advantages as a magnificent residential section. Some time in the near future a formal visit will be made, when it is expected that Mayor Geary and the other members of the board of control, the city aldermen and the representatives as a body will be invited to the highlands and learn from personal experience what it means to breathe the pure and unadulterated ozone, enjoyed away to the north of the city at a height of between four and five hundred feet above the level of Lake Ontario.

#### GREAT COUNTY MEDIUM.

The increasing number of York County farmers and others who are from day to day using the county columns of The World as an advertising medium for farm sales is very marked. They realize that in no other way and thru no other medium can they reach so large a number of prospective buyers.

#### NORTH TORONTO. Town is Now Fairly Committed to High School Program.

NORTH TORONTO, Feb. 26.—(Special.)—The fact that a high school has been now fully established by the action of council is generally viewed with favor around town, the many take the ground that with its accessibility to the city the move was not a wise one. Councilor Frank Howe has always maintained that there was no demand for a school, and that the cost entailed

would have justified the council in submitting the question to the ratepayers before taking the final plunge. The fact that already 100 pupils are enrolled is a tribute to Principal Reed's ability, however, townspeople may disagree as to the modus operandi. And anyway, they'll soon all be in the city.

"Ladies' Night" was a great affair, taken in conjunction with the annual masonic entertainment of York Lodge, No. 156 on Friday evening. The committee in charge of the affair were: T. W. Bro. Mayor A. J. Brown, R. W. Bro. R. W. Hull, W. Bro. Chas. Murphy, V. Bro. F. W. Goulding, W. Bro. T. Ferron, and Bro. W. J. Hill. A delightful evening was spent by all. York Lodge has over 200 members. #### UNIONVILLE. Anniversary Services Were Largely Attended—Important Sale.

UNIONVILLE, Feb. 26.—(Special.)—Anniversary services in connection with the Unionville Methodist Church were held here today, and despite the somewhat unfavorable weather, were largely attended. The morning and evening services were conducted by Rev. Mr. Smith of Richmond Hill, while the musical exercises were in charge of the local church choir, and were rendered with admirable taste and precision.

The big dairy stock sale of the fine herd belonging to Thos. R. Hagerman, takes place to-morrow (Monday) afternoon, and is bound to attract a great crowd. It is not every day that such a fine opportunity for securing good milk cows occurs. At the same time, everything else will be sold.

Reeve Jonathan Nigh arrived home to-night after attending the special meeting of the county council re the good roads question.

Reeve Nigh was successful in rendering excellent service to the township, he with Deputy Reeve Padgett, getting the greatest mileage for Markham Township over every other municipality.

#### ONTARIO VEGETABLE GROWERS. Exhibits—Two bunches rhubarb, six stalks in bunch, price \$1.50; second prize, \$1.50; and third prize \$1.

At Saturday's meeting, an address on "Rhubarb Forcing" will be given by Thos. DeWorth.

#### WOODBRIDGE. Reeve Longhouse and Mrs. Longhouse Are Kindly Remembered.

WOODBRIDGE, Feb. 25.—(Special.)—On Friday evening about 100 members and friends met at the home of Mr. and Mrs. D. C. Longhouse of the 8th concession, Vaughan, and presented them with two beautiful Morris chairs as a slight recognition of the high esteem in which they are held in the community. Mr. Longhouse has recently retired from active municipal service, where he spent ten years in the council, two years of which he was reeve.

The address was read by A. W. Farr and presentation made by Sam McClure and Chas. Neading. After the reading of the address and presentation, the happy assembly sat down to a sumptuous oyster supper. The inner man being satisfied, the program was turned to toast making. The toast "Our Guest," proposed by the chairman, Rev. Mr. McKinnon, and Mr. Longhouse, in a neat reply, thanked his many friends for so kindly remembering himself and Mrs. Longhouse, and hoped that they would live many years to enjoy them. The following toasts were then proposed by Rev. J. G. Rogers and responded to: Municipal Institutions—Reeve Jas. A. Cameron, John G. Whitmore, A. J. Witherspoon, J. B. McLean, John E. Harris, Ed. W. Brown, E. Smith, Arthur McNair and Fred Cousins; Our Country, Dr. P. D. McLean, W. Farr, W. O. Dunoon, John Johnston and James Kellam; The Ladies, C. L. Wallace, Donald MacKenzie, Lev. El-Hott, Geo. Kilam and J. D. Nairnes. After supper a short musical program was given and the balance of the evening was spent in social chat. About 1 a.m. the party broke up by singing "Auld Lang Syne," having thoroughly enjoyed themselves.

#### WON'T BOTHER ANYWAY

Company to Spend \$600,000 at Hamilton Irrespective of Treaties.

HAMILTON, Feb. 25.—James D. Oliver of South Bend, Ind., president of the great Oliver Chilled Iron Co., which is erecting a two million dollar plant in Hamilton, has written a notable letter to C. S. Funk of Chicago, general manager of the International Harvester Co., denying most emphatically that the company is being influenced by the proposed reciprocity agreement. He originally planned, and has no reference to the confirmation or rejection of the proposed agreement. The company has part of its plant in operation already and has plans out and contracts let which will mean \$600,000 spent on new buildings this year.

### Cold Upsets the Kidneys

And Uric Acid Poisons Bring Pains and Aches to Back and Limbs.

#### DR. CHASE'S Kidney-Liver Pills

You feel pains in the back, find the urine heavy and unduly colored, have indigestion and irregularity of the bowels and there may be rheumatic twinges. You wonder what has gone wrong until you recollect that you have been exposed to sudden changes of temperature, perhaps sitting in a draft or passing from a very warm room to be chilled by the outdoor air.

The kidneys are most susceptible to cold, and a sudden lowering of temperature throws an extra burden on them by closing the pores of the skin, which are ordinarily a great aid to the kidneys in removing poisons from the blood. The danger lies in not understanding the meaning of the symptoms given in the first paragraph. Once you know that the kidneys need assistance you can help them promptly by using Dr. Chase's Kidney-Liver Pills. Every day you put off treatment you are taking the risk of developing Bright's Disease, Dropsy or Rheumatism. Because of the inactivity of the falling kidneys your system is being loaded with poisonous impurities, and that means pain and suffering. Get Dr. Chase's Kidney-Liver Pills today. One pill a dose 25 cents a box. All dealers or Edmondson, Bates & Co., Toronto.

THE DEVELOPMENT OF AMITY AMONG NATIONS

Count Apponyi Lectures at University on European War Perils.

A splendid audience filled all but the upper galleries of Convocation Hall on Saturday afternoon, to hear Count Albert Apponyi speak on "The Menace of War as Europe Sees It." President Falconer introduced the speaker, who was also accompanied by Prof. Mavor. His honor the lieutenant-governor was present and moved the vote of thanks at the close, which was seconded by Sir Charles Moss. Count Apponyi, who arrived in the morning, left on Saturday evening for Cornell University.

The count's address was a lucid and eloquent review of the development of international amity, and the institutions which make for permanent peace. He recognized in the inter-parliamentary union and The Hague conference the germs of an international legislative body which might yet determine and settle international problems.

Peace made secure through institutions was the guarantee of the result of evolution, and of the attainments of individuals. In early times he could imagine that if there had been a perfectly good-natured body of savages, there would have been a happy time on that spot. But if the son of the chieftain of the stone age happened to be quarrelsome, peace was lost.

In modern times peace did not depend upon individuals. And what was desirable depended upon institutions. Permanent institutions. This condition of affairs when institutions took the place of individual peace-making was nearly complete. The institutions were not yet perfect, but the peace problem depended on their permanence. The peace problem ripened at a much quicker rate than had been anticipated half a century ago.

The United States took the lead at the last Hague Conference in suggesting a permanent international institution. The difference between it and the court of arbitration was that the nations might choose arbitrators, while the permanent court elected a president and judged cases not on the basis of international law, but on general broad principles of national law.

No objection was raised by other nations against the idea of an international court; they only differed as to its constitution. The principle of an international judiciary is in a state of evolution which is full of promise for the future," he declared.

Since 1648 and the Westphalian peace, congresses had assembled only to settle particular differences. The late Hague congress should have decided that the nations of the world should meet in congress whether there was any difficulty or not, just to develop international law, just to do preventive work, just to settle principles, just to carry out international legislative work and the laying down of general rules to meet any kind of exigency. In this they had a splendid germ of an international legislature. As long as the congress was merely an executive character, it was national, but the representatives of the nations be appointed, but when the work of a congress became legislative, English people, and Austrians and Hungarians, had to be represented in the creation of international legislation.
