PAMA GIVES UP CUBAN PRESIDENCY CONCEDES INTERVENTION IS AT HAND

Prefer to See Government in the Hands of U. S. Than of Liberals—Secretary Taft Notified That Moderates Decline Preferred Terms.

Havana, Sept. 25.—It is declared on very high authority that American intervention in Cuba is certain. President Palma is expected that the proclamation of intervention will be issued from Oyster Bay.

Havana, Sept. 25.—At the close of a meeting of the Moderate leaders, held to-night, it was announced that President Palma, Vice-President Mendez Capote and the Moderate senators and representatives would all resign their offices, and that possibly President Palma would call congress to-morrow, and place the resignations in its hands.

President Palma to-night declined the request of the correspondent of the Associated Press for an interview. It is known, however, that he contemplates a special session of congress, to which he will send the resignations of himself and Mendez Capote.

All the Moderate police officials concede that intervention is at hand. They appear perfectly satisfied with that course as against delivering the government of the island to their adversaries.

Mendez Capote has been directed to advise Messrs. Taft and Bacon that the Moderates refuse the preferred terms.

Appeal From Roosevelt. President Roosevelt has cabled to President Palma, appealing to the latter's patriotism to accept the terms suggested by Messrs. Taft and Bacon as being the only conditions under which calm political conditions could be restored.

Gen. Freyre Andrade, Speaker of the lower house, made to a correspondent of the Associated Press to-day the following statement in behalf of the government officials:

"If the Americans wish to take our government and give it to the rebels they may do so, but not without our consent. We shall never consent to the holding of new elections on any terms whatever. It would not only be a great injustice but if the rebels won Cuba would have the worst elements in control, and if the government were we would have another revolution on our hands."

Continuing, Gen. Andrade said that Vice-President Mendez Capote had gone to inform Secretary Taft that the Cuban government positively rejected the liberal proposal. A comparatively small force of marines, which was sent to Cuba originally, will be immediately augmented, orders having been issued for several additional warships to sail at once for Cuba.

These reinforcements will reach there within a few days, and will be ready to land marines if necessary long before the regular troops now awaiting orders from the United States. Intervention comes, these forces undoubtedly will form the vanguard of the invading army.

Secretary of War Taft has not yet given up hope of bringing about a settlement of the difficulty between the Cuban government and the United States without resorting to armed intervention. The advices from Cuba, however, are to the effect that the United States would do all in its power to protect the road.

Veteran Reformer Says Russian Cablot Must Give Up.

Moscow, Sept. 25.—M. Shipoff, the veteran reformer, in an interview, declared that the only honorable and possible escape from the painful ordeal through which Russia is passing, and from a blacker future, was the immediate replacement of the Stolypin cabinet by one composed of men supported by public opinion, the immediate announcement of the election of members to the new parliament, and the immediate declaration of the responsibility of the cabinet to the parliamentary majority.

TAFT FINDS SITUATION DISGUSTING ELECTIONS WERE THOROLY ROTTEN

Havana, Sept. 25.—(1.30 p.m.)—Secretary Taft and Assistant Secretary of State Bacon informed the Associated Press this afternoon that they were thoroughly disgusted with the petty methods of the government leaders here, and the American commissioners admitted that they had practically abandoned their efforts to bring peace from the turmoil unless by the use of force. Mr. Taft said:

"The government officials, instead of co-operating with us to save the republic, have resorted to every kind of obstruction with the object of continuing their control of the administration. President Palma and his advisers have rejected terms of peace which were honorable to them, and in the form of a compromise with their opponents.

"We are still striving to arrange a settlement, and we trust the American people will give us credit for doing everything possible to accomplish a settlement without resorting to force.

"I cannot say that we are hopeful, for I have never known a more disgusting situation.

"Investigation convinces us that the elections were thoroly rotten. We do not want to intervene, but the conditions itself may necessitate it. Our reports show that the insurgent commanders have lost control of their forces, which are now lawless bands which at any moment might loot and burn. The situation seems to demand the use of force."

The American commissioners have decided not to keep their engagement to revisit President Palma because of his attitude today. Secretary Taft added that the terms agreed upon retain Palma as president, but he had listened to the bad counsel of the cabinet ministers, who were less fortunate.

U. S. RUSHES TROOPS SOUTH TRANSPORTS READY TO SAIL

Negotiations Under Way to Acquire Merchant Ships—Secretary Taft Still Hopes to Settle Difficulty Without Intervention

Oyster Bay, Sept. 25.—Plans for the transfer of troops of the U. S. to Cuba in the event of the failure of Secretary Taft's mission to bring about a peaceful solution of the trouble in the island have been completed.

The final step was taken to-day, according to an announcement made here to-night when the transport Sumner, now lying at the New York navy yard, was put in commission. The Sumner is in readiness for the immediate embarkation of troops.

Negotiations already are under way for the acquisition of merchant steamers to be used as transports. A comparatively small force of marines, which was sent to Cuba originally, will be immediately augmented, orders having been issued for several additional warships to sail at once for Cuba.

These reinforcements will reach there within a few days, and will be ready to land marines if necessary long before the regular troops now awaiting orders from the United States. Intervention comes, these forces undoubtedly will form the vanguard of the invading army.

Secretary of War Taft has not yet given up hope of bringing about a settlement of the difficulty between the Cuban government and the United States without resorting to armed intervention. The advices from Cuba, however, are to the effect that the United States would do all in its power to protect the road.

FOSTER YIELDS STOCK BOOK AFTER LONG ARGUMENT PUBLIC INTEREST DEMANDED IT

Ex-Manager of Union Trust Reports Attitude of Commission Towards Himself—Timber Transaction in B.C. Looms Up as Another Sensation—I. O. F. Will Demand Return of \$55,000

After strenuous objections made by himself and his solicitor, Wallace Nesbitt, K.C., and considerable talking on the part of the Dominion counsel, Hon. Mr. Foster reluctantly handed over the stock book of the Great West Land Company to Mr. Shepley before the insurance commission yesterday afternoon.

The World Mr. Foster gave the following as the list of stockholders in his company, which Mr. Shepley will present as evidence to the commission this morning: Hon. Robt. Rogers, Winnipeg; Hon. W. L. Wilson, Chatham; Lt.-Col. J. A. McGillivray, Toronto; Hon. George Eulas Foster, Toronto; Sir John Lister, Toronto; Walter Curry, K. Toronto; G. W. Fowler, M.P., Sussex, N.B.; Rufus H. Pope, ex-M.P., A.A. Lefurgy, M.P., Nova Scotia; Emil J. Bobb, W. Vancouver; G. P. Schofield, E. A. Dusseau and Fred Diver, Toronto.

Elliott Stevenson of Detroit was in the box all day. Mr. Shepley said that he has yet been before the commission. He has a grasp of business methods and explains them in a clear-cut way.

When the commission opened Mr. Shepley stated to the committee that George W. Fowler and A. A. Lefurgy had been subpoenaed, and neither had put in an appearance.

"Both of these gentlemen," he said, "are concerned in the enquiry, and both ought to be here. Neither is here, although the time has been permitted, a representative of Mr. Lefurgy was here to-day, and asked me when he was wanted. Mr. Fowler has gone west, and notwithstanding the commission that he was back after a while or 'in a short time' that sort of thing, I desire to state publicly, cannot be permitted at all. When witnesses are subpoenaed, they must be on hand. They must obey the subpoena or be in contempt, and suffer the result."

Mr. Stevenson took the box and counsel read from a statement submitted to the directors of the Great West on Feb. 25, 1904, showing receipts of the following items: July 2, G. E. Schofield, call on stock, \$300; Aug. 22, do, 900; undated, Union Trust advance, \$148,063.31. The disbursements to the C. P. R., on account of land, to Pope and Fowler and for some minor expenses, and \$2884 Union Trust interest, amounted to the same total, \$148,063.31. Mr. Shepley commented that the statement seemed to indicate that whatever money was distributed was the money received from the Union Trust offers.

A report submitted at a later meeting recited that the Townships Commission, July 16, 1904, received \$37,499.49 across Pope and Fowler lands, for which \$149,000 was to be paid in stock at par. On July 21 the name was changed to the Great West Land Co. On July 9, Pope and Fowler lands to the extent of 8400 acres adjoining, at \$1 per acre, making \$8,400,000 across the total holding of the company.

Favorites Win at Hamilton Five in Front on Opening Day

Books Gave Good Odds and Crowd of 600 From Toronto Backed the Winners—Something About Odds.

THE WINNERS.

- 1 Broadcloth, favorite, 1-1
2 Chan, Gilbert, favorite, 1-1
3 Gov, Orman, favorite, 1-1
4 Pretension, favorite, 1-7-10
5 Scarlet, favorite, 1-3-5
6 Rebounder, 2nd choice, 4-1

Hamilton's eighth day autumn meeting was auspiciously opened yesterday in ideal racing weather. The red clay track didn't look the best, but it was that two track records being beaten—5/4 furlongs by Gov. Orman in 1:08, and 1-1/16 furlongs by Pretension in 1:46 3/5.

The program yesterday was the first round of the Championship, First Consolation and Second Consolation. The surprise in the championship was the defeat of Miss F. Harvey by Mrs. Dick, the Hamilton lady making a five-foot putt on the last hole, missing her 1 down. All credit must be given Mrs. Dick, who managed to turn a defeat into victory.

The program for today is the driving competition at 10 a.m. and the second round of the championship and consolation competitions. Yesterday's results: Championship—First Round—Mrs. Burritt beat Miss Linton, 4 up and 2 to play.

Fourth race he handled without the barrier. Solo's being back of the line at the break, two of them were left in the dirt, and the field was always struck out. The Scarlet, favorite, was off in front, remains. The attendance was large for Hamilton.

COY MAID, 3 TO 1, REPEATS BOY ACCIDENTAL HANDICAP

Dolly Spanker 2, Good Luck 3—Ostrich and Dandelion Split Favorites, Also Ran.

New York, Sept. 25.—Coy Maid, a 10 to 1 shot, easily won the Occidental Handicap at Gravesend to-day, defeating a fair field of handicap horses.

Ostrich and Dandelion, the 5 to 1 favorites, never were dangerous, and finished away back. At the start, Dolly Spanker led the pack.

Good Luck, the 3 to 1 favorite, was injured when Jockey Freshman was killed last Friday, had the mount today on Ed Ball, and was a winner.

Second race, selling, 1-1/16 miles—Ed. Ball, 104 (C. Ross), 5 to 1; John Lytle, 109 (Miller), 7 to 2; Neptunus, 105 (Garner), 15 to 1.

IN THE PUBLIC EYE

Hon. George E. Foster, M.P. for North Toronto, is fifty-nine years of age and one of the most prominent public men in Canada.

Mr. Letourney is one of the youngest members of the house of commons, sitting for Prince Edward, P.E.I.

Then there are George W. Fowler, M.P., and A. A. Lafurque, M.P.

REFORM SPELLING. The board of governors of Toronto University is for all things to know to the contrary, doing excellent work.

PUBLIC CONTROL AND PURE MILK. In the current number of The New York Medical Journal Dr. J. M. Miller of Philadelphia treats of "the dangers that may lurk in ordinary milk and the duty of the physician to educate the public as to the authorities as to the necessity of a pure milk supply."

Dr. Miller presents a formidable array of facts to demonstrate the possibilities of milk as a cause of disease and carrier of infection, and says that one of the greatest obstacles to the

gospel of clean milk is the increased cost which its production entails.

This difficulty, he believes, cannot be overcome until the state supervises the production of milk.

Some strong advice was extended to the board of control by Property Commissioner Harris yesterday in touch with the radial railway question.

"I proceeded to several American cities, and examined into existing radial or inter-urban railway conditions, and find that experience has shown that when such railways secure entrance to cities, their business increases enormously."

"Another city smaller than Toronto boasts probably the finest and most extensive terminal facilities on the continent."

"Having regard for the conditions and accomplishment in the cities visited, and profiting by their experience, I am firmly of the opinion that the City of Toronto is more essential to radial lines than such lines are to the city."

"If these railways are to secure running rights in the City of Toronto, I believe that we should receive the following conditions as a basis of negotiation."

Whether or not this is so, British itself can undoubtedly do much to meet the deficiency, and the men imported would without difficulty be absorbed into the general population and develop into excellent citizens.

No Excuse For Not Being Well Dressed When Good Fall Suits Are So Lowly Priced

The picture shows two of our new fall and winter suits at \$8.50: one a tweed; the other a black serge.

Not like everybody's, nor anybody's. Tailoring as good, styles as correct, as are to be found in any store's highest grade suits.

For thoroughly good-looking, well-made, service-giving suits we recommend them.

Five distinct, stylish patterns in tweeds—season's leading color mixtures, grey and brown, with overplaid; or a navy blue or black Campbell serge. Single and double-breasted. Sizes 36 to 44.

The Price \$8.50. And a Handsome Fall Overcoat.

Real cold weather may come in a night. In the morning an overcoat—or, maybe, a cold that will end in a doctor's bill bigger than any overcoat price.

This best overcoat store, with its distinctive and superior stock, can surely give you best satisfaction in the choice of the garment and in price. Probe into the merits of this one—

The price is \$12.50, but—it's well worth it. Of a very good black cheviot; medium and three-quarter lengths; deep centre vent; silk faced lapels and roll; sizes 34 to 42. We promise you a perfect fit—and sure price satisfaction.

ALL IS LOST.—STENSLAND.

Always in Hope of Paying Back Stealer Money.

New York, Sept. 25.—The discomfort of a night in a narrow and bedless cell, which was experienced by Paul O. Stensland, the former president of the Milwaukee-Advocate State Bank of Chicago, who was returned from Morocco last night, was followed to-day by additional unpleasant details of examination at police headquarters.

Stensland was removed to the department of the Bertillon system. Then his photograph was taken to be placed in the group on file at police headquarters.

An early visitor to Stensland's cell was his son, Theodore. The former bank president tottered rather than walked from his cell to the various offices and leaned heavily upon the supporting arm of his son.

Stensland made a voluntary statement to Police Inspector McLaughlin to-day. With tears falling down his cheeks the ex-bank president said:

"I made some bad investments, and they did not act as quickly as I thought they would. I am not paying."

The man under me—the cashier, I meant—took advantage of the situation. I am not paying."

"I don't know what the other man got. The money I went away with was a few thousand dollars that I made in a real estate speculation last summer. I had been always in hope of paying the money back but I suppose it is lost."

The final word of the returning official as he left New York was that he was glad to go back to help in closing up the bank's affairs. He wanted to protect innocent people, he declared, to incriminate those who should be incriminated and to show the Chicago public that he was not the black sheep that he had been painted.

FINLAYSON AT LIBERTY

JURY COULDN'T AGREE

Judge Winchester Charges Fairly Advising That Player Be Given Benefit of Any Doubt.

"That George Finlayson did unlawfully make an assault upon, beat and occasion actual bodily harm to Charles Querrie at Hanlan's Point on July 25."

It took the jury in the general sessions one and one-half hours to find out that they could not make up their minds whether Finlayson did or did not do this.

When Judge Winchester saw there was no chance of a decision he discharged the jury, remarking Finlayson until called upon, and accepted his own bail for \$200. This practically ends the "doing up" of Charlie Querrie by Finlayson in the lacrosse game.

Finlayson appeared in court, accompanied by Thomas A. Carling, president of the Montreal Club. Thru his counsel, Mr. Robinette, he pleaded not guilty.

Several witnesses for the crown were of the opinion that the blow that put Querrie out of business was struck deliberately by Finlayson. Others for the defence were just as positive it was an accidental crack.

Finlayson Takes Stand. Querrie did not remember much about the incident outside of seeing several planets and millions of stars and being some tests. In his opinion, the law should not have "outed" him, as the Lacrosse Association could deal with the law stopper.

Finlayson testified that he thought Querrie had the ball when he checked him. He did not know where Querrie was, and there was no bad blood between them.

Mr. Drayton said if the authorities had a wrong they try to right it. He had no doubt, aho Finlayson was a resident of Montreal, he would be given a fair trial. When Querrie was struck, he said: "It was a foul blow. The Lacrosse Association took no steps to redress the wrong done Querrie, then it was wrong. It is the duty of the authorities to interfere when a crime has been committed."

The witnesses differed as to whether the ball had passed Querrie or not. If it had passed Querrie, then it would look an intentional blow might have been accidental.

"If you have any doubt, give the accused the benefit of the doubt, in a verdict of not guilty," he concluded. True bills were returned against John Gobel and Joseph Hedges, but charges of keeping a common betting house.

George Arkesy, the farmer charged with placing a bomb on the road for the purpose of breaking up automobiles, will come up for trial this morning.

WEDDING POSTPONED.

Prospective Bridegroom Arrested on Serious Charge.

Brookville, Sept. 25.—(Special).—Charles Sangster, a young railroad worker, who had been married this morning at the Roman Catholic Church to Miss Fox, daughter of Joseph Fox, a gardener, living three miles from Brookville, and arrangements were made for an elaborate celebration of the happy event, the whole countryside and many town guests having received a bid to be present.

But Mrs. Anthony White spoiled all calculations by issuing a warrant for Sangster's arrest, charging him with seducing her daughter, Florence, a girl over 14 and under 18 years. The police searched the town many hours before charging of keeping a common betting house.

Information was conveyed to the bride to be in time for preparing the tables were set and the wedding gifts arranged in gorgeous display.

Sangster was sent to jail and remained, as the prosecution was not ready to proceed with the case. Miss Fox is terribly distressed over the unfortunate affair.

Colistene Gauthier Attempts Suicide When Locked Up for Drunkenness

He was a cook on the steamer Kingston. His name is Colistene Gauthier and he is 47 years of age. Since he quit work he has been "going some."

He was arrested Monday because he was drunk, and yesterday again for the same reason. Last night he tried to choke-himself with his necktie. He was caught in time. Then he tried to hang himself from the cell door. An officer had to remain and watch him.

Hit With a Beer Glass. John Thompson, married, living at 59 Frederick-street, went into the Central Hotel, George and Front-streets, last night. There he met an acquaintance. They drank some beer, and then they drank some more beer. An argument was followed by a fight, and a bartender separated the gladiators. When Duncan McFadden the bartender, turned to go behind the bar, Thompson picked up a heavy tumbler and landed on McFadden's head, leaving a gash which required several stitches. Thompson was arrested.

These underskirts come from our own workrooms, therefore we can speak of their excellence from knowledge gained through following the making from the starting point. There are 43 of the garments in brown—34 navy blue—42 black—3 fawn and 4 grey—a total of 126 underskirts. We made them to sell at \$4.00—as a matter of fact there was a big number sold at this price—but the color range is broken now—practically only brown, navy and black left—that's our reason for saying \$2.85 to clear instead of \$4.00. They're well made, perfect-fitting underskirts of superior quality moirette, deep full, flaring flounce, composed of 5 narrow shirred flounces. On sale in the Whitewear Section—SECOND FLOOR.

British Grain Men Opposed to Selling by Sample.

(Canadian Associated Press Cable.)

London, Sept. 25.—The proposals reported to have been placed before the royal grain commission in Canada in favor of making Winnipeg a sample and quotation market instead of having sales made on standard grades, as at present, has created much interest among members of the corn trade in Britain.

A prominent member of the London Corn Trade Association says he would regard the step proposed as most retrograde. Manitoba inspection has gained the confidence of the trade, the

OFFICIAL NOTES DESTROYED AT SUGGESTION OF JUDGE

Evidence of Text Book Commission of 1897 May Be Lost to Present Inquirers.

Something of a sensation was created at yesterday's meeting of the provincial text book commission...

The investigation at that time was conducted under the Liberal administration for the purpose of ascertaining the cost of production of text books...

Following Mr. Nudel in giving testimony yesterday was Arthur A. Paul, clerk of the records, who admitted the stenographic report had not been filed...

John Macdonald, secretary-treasurer of the Kingston board of education, also told of the method of handling free text books in Kingston under the fee system...

In Brantford the board had obtained their books at a nominal cost, and no complaint had been made from parents...

The board of education makes no profit on the system. Last year Mr. Macdonald said it cost \$135,228.

Friend From Cannington Continues Hamilton Musings

The Trend. Out there in the purpose twilight, Out there in the drift of the sea, There deep in the moan of a world's light, The same voices call to me.

Culike, yet the same in their meaning— The clanking of chains not to be bright, The glances of a shaken dreaming— Nature, the soul's right to be free. —Billey Glynn.

Once upon a time there was an elemental man, became ashamed of himself and that was the worst ever happened him. Since then he has played with most things and he has ended himself—when a storm gods—even himself—and when a storm is fond of falls—immensely fond; and under all his paraphernalia he scarce knows that his heart is a mere decoration, artificial virtues, artificial vices, the laws to maintain them along rocky-hemmed paths, or rather runs, with no horizon where you cannot turn, and which lead to nothing. Yet the man, grown little with his environment, straggles along with a flourish of all his glitter, and when a storm rages above the peaks this slave man knows only that the lightning flashes like gold. Only when some huge boulder falls across his path does he catch a glimmer of real meaning. He struggles with the impediment and at last makes his way clear, but his badges, his decorations are soiled. He has a sense of their meanness, their instability. On that receptiveness the cry of some wild, free thing floats down to him. He shivers; he is afraid. Why? The same note is in his soul, and he apprehends the future. Some day it will help him scale those peaks, stand out bare of any decoration but his own being beneath a clear sky of honest aspiration—the freedom that makes the love, that makes eternity. But the man shivers, it is not now. Some day—he brushes the dust from his golden baubles, plumes himself again and looks around. Ahead is the path he knows—which leads to nothing. But because once in a moment of weakness he became ashamed of himself, he forever loses the sense of real shame that nothing represents content. The force of habit comes back to him; he beholds his reflection in a tiny pool at his feet that has not space enough to reflect the eternity above, and smiles at it. All that is good, because he has it. He throws back his shoulders and struts again—down the rut! So it is. And yet in his place and in his way he is a pleasant fellow.

So is Mr. Barry of the Grafton store. He is a tall, plump man, with a plump, square face and almost a plump, square manner. At any rate, he is mostly square, and being so, has made his hair, which is thick-grown with a curly pompadour, iron-grey—for it is easier to roll in this world than have corners—the more so if a case of principle. The moustache licks out with a silken flourish over lips that smile quickly and grow serious quickly; and the eyes are so kind that the glasses fail to hide them. He has a lot of hair on his face, shaved close, and he should have a lot, too, on his breast. He is like a day in August with ripening fruits glistening to the sun, the smell of them in the air; he promises much outwardly. But as for fruits in themselves, so, he has eaten more vegetables and beefsteak in his time, and he should like the latter a little tough, also a little dry. He is exact for certain tendencies of his red-bloodedness he is not at all imaginative; but principally matter of

fact. He's like a meat pie with a short crust; he is mostly brains—with the concomitant masculine intellectuality and some flavors—and perhaps a little too much hard. He would be a great deal better at least for training, tho that is not saying that he is not good now. But it would give such a tone to him physically that a woman might turn to look after him. He reminds you mostly of a bear that has been taught manners in a cage and has forgotten the smell of the woods. If a bee happened around and stung him on the nose it might wake him up to the love of honey and wildness. He would look better if he shed his coat—in shirt sleeves. Mr. Southam, who owns The Spectator, is a rustler, with dark, bright eyes, under black brows, and a mouth that chops merrily in the midst of a grey beard. He is tall, very erect, and a little corpulent, and he dresses in grey—you would judge to look even bigger. For he is the kind of a man who might have a love for scare headlines. And he would probably run plump into the hind legs of a mule before he thought of whether or not they would kick. He would get away then just as quick, and might on the spur of the moment blame somebody else for not telling him. But he wouldn't argue the point. He wouldn't have time, for one thing, and besides, he is not so much of a fellow—in a little too big a rush to get anything else out of life besides money. A holiday would go a long way to kill him, and he would have a greater tendency to linger over his business drinks—if he does drink, which is not quite presumable—than his meals. He has a tendency to be brilliant, but spoils it with energy, so that he blusters slightly. But in the wind of him he carries a good odor, and you would not mind joining his sail if there was more of a chance to pause over the scenery. On the whole, perhaps he is a little metafine. His mind has formed the habit of cutting things, and in doing so very often wounds itself. He is so fond of discarding mentally the things he does not want, that he always has some of them. Like a mustard plaster, you would judge that he is too hot for one place very long, and has a tendency to rove. He is quick, but jerky. But these things are only the outward fashions of the man; for he has a good heart inside him, and tho it beats perhaps a little too fast for his own happiness, it is to be hoped it will beat long. As long as it does Hamilton will have a newspaper with scare headlines. The city editor there smokes a pipe and talks cynicism. I would judge that he was a bachelor—tho he did not say anything about women. If a widow didn't make him one, she might possibly cure him. Sometimes a poison acts two ways. —Billey Glynn.

PROBABLY MURDERED. Fargo, North Dakota, Sept. 25.—John Lund, who had a valuable land claim near Kamsack, Sask., is thought to have been murdered in this vicinity. Last March he bought a threshing outfit, and started for home with considerable money. He has not been seen since.

Brothers Reunited. Detroit, Sept. 25.—After a separation thirty-four years ago at the home in Wellington County, Ont., Matthew and William Hans have just been reunited here.

How to Exercise the Bowels

Your Intestines are lined inside with millions of little suckers, that draw the Nutrition out of food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition.

This Poison makes a Gas that injures your system more than the food should have nourished it. You see, the food is Nourishment or Poison, just according to how long it stays in transit.

It does slacken the Bowel-Muscles more than ever, and thus weakens them for their next task. Another remedy is to take a strong Cathartic, like Salts; Calomel, Jalap, Phosphate of Sodium, Aperient Water, or any of these mixed. What does the Cathartic do? It merely flushes-out the Bowels with a waste of Digestive Juice, set flowing into the Intestines through the tiny suckers.

But, the Digestive Juice we waste in doing this today is needed for tomorrow's natural Digestion. We cannot afford to lose it. That's why Cascarets are the only safe medicine for the bowels.

They do not waste any precious fluid of the Bowels, as Cathartics do. They do not relax the Intestines by greasing them inside like Castor Oil or Glycerine. They simply stimulate the Bowel Muscles to do their work naturally, comfortably, and nutritiously. And the Exercise these Bowel Muscles are thus forced to take, makes them stronger for the future, just as Exercise makes your arm stronger.

They are purgative to take. They are pleasant to take. They are easy to take, and let them go down gradually with the saliva, which is in itself, a fine, natural Digestive. They are put up purposely in thin, flat, round-cornered, Enamel boxes, so they can be carried in a man's vest pocket, or in a woman's purse, all the time, without bulk or trouble. "C.C.C." Because the time to take a Cascaret is not only when you are Sick, but when you first suspect you need one. Price 10c a box. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "C.C.C." A safe and the famous booklet, "Curse of Constipation," free for the asking. Address Sterling Remedy Company, Chicago or New York.

WESTMINSTER RIFLE TEAM PAYS TRIBUTE TO GEN. GRANT New York, Sept. 25.—The rifle team of the Queen's Westminster Volunteers, which will shoot against a team from the 7th Regiment New York National Guard at Creedmoor, L.I., Oct. 2 and 3, placed a wreath of English oak and laurel entwined with the Union Jack on the tomb of General Grant, last Riverside Drive. With the wreath was this inscription: "To the memory of General Ulster Grant, Rifleman, patriot, statesman, from the Queen's Westminster Volunteers of the British Majesty, Edward VII, the peacekeeper. Let there be peace. There is peace between all the Anglo-Saxon races. May they endure forever."

Two Boats Daily on Magnetawan River. For the convenience of travelers, tourists and hunters, two boats will run daily between Burk's Falls and Amnic Harbor, reached via Grand Trunk Railway from all points. Full information at Grand Trunk City Office, northwest corner King and Yonge-streets.

U.S. BECOMING EXCLUSIVE.

After Saturday, All Intending Citizens Must Undergo Examination. Detroit, Sept. 25.—The new law which puts directly under federal control the process of making citizens as a move toward consistent naturalization laws takes effect next Saturday, Sept. 29, at every port of entry in the United States. Along the border of Canada and Mexico it will mean a lot of extra work for the immigration inspectors. Heretofore a Canadian, for instance, has never been subjected to an examination of any kind unless his condition, physical or financial, was bad enough to attract attention. Under the new law it will be compulsory for him to undergo the examination, providing he ever expects to become a naturalized citizen of the United States. The questions asked relate to his place of birth, the date, his business and his personality. The examination does not in any way displace the declaration of intention, commonly referred to as "first papers," but it is essential to naturalized citizenship.

MORE OF THE 2-CENT RATE.

Boston, Sept. 25.—Two cents a mile will be the rate for fares on the Boston & Albany Railroad on and after Nov. 1. This reduction has been for some time promised, but owing to the interstate commerce commission's rule that rate changes shall be made only on thirty days' notice, the reduction will go into effect only after notice to be posted on Oct. 1 shall have been up a month. The change in rates will help to minimize the competition of electric lines. It will save the passenger 50 cents between Boston and Albany and 10 cents between Boston and Worcester. But rates will be reckoned in multiples of five, so that if the distance between two stations is six miles the charge will be 15 cents. Where the commutation rate between suburban points is now less than two cents per mile there will be no change.

TOO STRICT SUNDAY LAW.

Essex, Sept. 25.—For some time the Essex Canning Company has been awaiting the filling of a large order for cans by an eastern factory, and in the meantime stock on hand was spoiling and the company suffering a large financial loss. On Sunday last the company decided to open its own can factory, and at once put men at work in it. They had no sooner started than Secretary Naylor of the local branch of the Lord's Day Alliance notified the factory people that if work was not stopped complaint would be laid against them for a violation of the act. Mr. Naylor is secretary and principal stockholder of the local Electric Light Company, and the officials of the Canning Company say they will at once start proceedings to see whether the Light Company, which operates its plant on Sunday, has any special privileges.

SALVATION ARMY CONGRESS.

Series of Big Anniversary Meetings to Be Held in October. Commissioner Coombs is conducting great anniversary meetings from Oct. 10th to the 16th in Toronto. There will be officers from all parts of the Dominion, between three and four hundred being present, and also some hundreds of soldiers and local officers. Mayor Coatsworth will welcome the delegates in the Temple Building on Wednesday night, Oct. 10. The night following there will be inaugurated a great holiness movement. On Sunday afternoon, at 3 o'clock, in the Massey Hall, the commissioner will conduct a great memorial service. There will be masses, bands and white-robed songsters. In the Massey Hall at night a service, entitled "From Bethlehem to Cavalry," will be given by moving pictures. This is the first time these pictures have been shown in Canada. The congress will end on Monday, Oct. 15, with a "Day With God," in the Temple Building. It is expected that the coming congress will surpass anything that has ever been done in Army circles in Canada.

BATTLE IN MADAGASCAR.

French Troops Defeat Natives After Being Saved by Reinforcements. Marseilles, Sept. 25.—Mail advices from Madagascar received here to-day brought the news of a sanguinary conflict near Majunga between 150 French troops and a large number of Pahavolo tribesmen, who lost 300 men killed. No details were given of the French casualties, which are stated to have been heavy, the column having been surrounded and placed in a critical situation until the arrival of reinforcements. Other tribes in the northern part of the island are taking the offensive.

SUSPECTS RELEASED.

New York, Sept. 25.—John Dandakos and George Capennek, two Greeks, arrested on suspicion of knowing about the murder of a man whose dismembered body was found here on Saturday, were discharged to-day.

HOPELESS TASK.

Concord, N.H., Sept. 25.—The Democrats of New Hampshire nominated, Nathan C. Jamison of Antrim as their candidate for governor. The convention was not fully attended, and there was little enthusiasm.

BOTH LEGS CUT OFF.

Winnipeg, Sept. 24.—A street railway conductor named Waters fell between two trolley cars to-night and had both legs cut off. He died a few hours later.

NOBODY NEED HAVE INFLAMMATORY RHEUMATISM! THAT'S FACT THAT MEDICAL SCIENCE CAN PROVE TO YOU EVERY DAY IN THE YEAR—CARELESSNESS COURTS IT—PRECAUTION PREVENTS—IT'S NOT A CONTAGION THAT STEALS IN UNAWARES! South American Rheumatic Cure is the fortress behind which you may be perfectly secure; and why take chances if, through exposure to heat and wet, you feel those unwelcome chills, then the fever, then the sweating, then the pains in the joints. Do not put off securing the greatest of rheumatic and neuralgia cures. Experience shows that the duration of inflammatory rheumatism, and what ordinary treatment, will cover a period of six to eight weeks; and what a wracking it gives to the sufferer, and it seems almost incredible that the great South American Rheumatic Cure has, in thousands of instances, controlled and conquered most stubborn and next to baffling cases in from one to three days. It comes and prostrates at times with the suddenness of a thunderclap, and yet, as in the most acute inflammatory cases, the great South American Rheumatic Cure comes as a ministering angel, holds out its healing hand, and bids the bent and bedridden take on the suppleness of youth. Lots of testimony for the asking. Healthy kidneys are kept so by South American Kidney Cure, and unhealthy kidneys are cured by the same great remedy.

MEN... MY CASCARET POCKET... MY WATCH POCKET... The usual remedy for this delayed passage (called Constipation) is to take a big dose of Castor Oil. This merely makes slippery the passage for unloading the clogged cary. It does not help the Cause of delay a trifle. It does slacken the Bowel-Muscles more than ever, and thus weakens them for their next task. Another remedy is to take a strong Cathartic, like Salts; Calomel, Jalap, Phosphate of Sodium, Aperient Water, or any of these mixed. What does the Cathartic do? It merely flushes-out the Bowels with a waste of Digestive Juice, set flowing into the Intestines through the tiny suckers. But, the Digestive Juice we waste in doing this today is needed for tomorrow's natural Digestion. We cannot afford to lose it. That's why Cascarets are the only safe medicine for the bowels.

DEBENTURES MUST CARRY HIGHER INTEREST RATES.

World Office, Tuesday, Sept. 25.

Bonds and debentures are a drug in the money markets, both of Canada and the United States. Municipal and corporate expenditures are growing on at an enormous rate, and contributing to the use of funds faster than they are accumulating. With money on so exact securities returning on an average of 4 per
