INDO-CEYLON TEA.

Woman's World...

Devoted Specially to the Interests of our Women Readers. Conducted by Katherine Leslie.

So I returned and considered all the oppressions that are done under the sun, and behold the tears of such as were oppressed and they could not be comforted...

All about us are the poor, and their cry is exceeding bitter; their poverty is taken advantage of to swell the capital of the rich; they work for a mere pittance and are actually thankful for barest necessities.

The program for the meeting of the Women's Historical Society, which will be held on Thursday afternoon, March 2, in the Educational Department, includes the fourth paper of the series, preceded by a brief outline of the plan of campaign, with map, by Miss Sara Mickle.

These thoughts have been stirred up by many pitiful stories which have come to the "Woman's World" within the last few days. They were written by women who know whereof they speak; women who are well known for their ability to see into the hearts of the women in charge of the work.

Read the following letter from a lady well known for her tenderness to the poor, and for the splendid practical work she does in helping the poor to help themselves. "I am prepared," she writes, "to verify the following statements:—

At Bonaville during the reception of Queen Victoria, in June, 1855, a number of English ladies, in their anxiety to see that the poor were not neglected, organized the soldiers who were keeping the line that the litter were in some instances obliged to serve the state affairs, shouted out: "One roll of the drum—if they don't keep back, they'll have to die!"

At the first sound of the drum the English ladies, who were in the front, were seen to be in a state of commotion. "If they had been French," they would have remained.

What Did He Want?

Henry Duran, who has no particular party to take his meals, was untidy enough to call at the home of C. Spence, 79 Huntley-street, last night. He went around to the back door and heard the merrily voices of children within. He knocked pretty hard in order to make the occupants answer the door, and was surprised to find the door opened by a young girl, who as he was leaving the gate. The children thought that Duran was trying to break in the door and take the children.

TAXATION OF MASSEY HALL

Board of Control Sees No Reason Why the Great Building Should Not Be Taxed.

SO THE TAXES WILL CONTINUE.

Mr. E. E. Kingsford Succeeds the Late Hugh Miller as Assistant P. M.—Chain Ferry in Dead.

The Board of Control languished through a tedious 5-hour session yesterday. When they adjourned close on 6 o'clock they had cleared up some important long standing business. They added some \$12,825 to the Property Committee's revised estimate for finishing the new City Hall.

The Mayor and Corporation Council are to report to-day the result of an interview with Hon. J. M. Gibson last night. If they are advised to ask for authority to issue the whole amount of debentures required all in one lot, then Council is to be called to pass the final estimate to-morrow. If on the other hand they can ask for the original \$88,000 worth already sanctioned by Council, the meeting will not be held till Monday.

Three Hours' Work a Day. But paramount in significance was the matter of appointing a Deputy Police Magistrate, the position held by the late Hugh Miller. Mr. Kingsford's name had been laid before the Board by Magistrate Denison some weeks ago. At that time Ald. Lynd, feeling that Col. Denison needed no assistant, had demanded a report from the Police Court Clerk as to the approximate time consumed daily in dealing with the cases. The report from Mr. Curran was read yesterday. It stated in part the Clerk said: "I have no means of giving an accurate report on this point, but I believe the average length of these sittings would be about three hours. Of course there are other duties devolving upon the magistrates which very materially increase their work, such as taking bail bonds, going to the jail to have them perfected and having the prisoners released. To my mind, great injustice is done, as a magistrate's time is wasted in attending to cases that are not his own. It is to be remanded from day to day before the magistrate, and after being held in jail for days they are finally discharged, not being sufficient evidence to convict them. I may state that the ordinary every-day calendar of the Police Court would make a very fair docket for a Court of Quarter Sessions, or a Justice Court, which would take about two weeks to try, and for which the City has to pay large sums of money."

Will Show It to the M. L. A.'s. The Mayor, by the way, will ask the members of the Legislature down to inspect the new trial of the case before the issue of debentures is permitted.

Hospitality. The chief business of the day was the reception of a delegation from the National Sanitarium Association, consisting of Messrs. E. J. Gurney, Joseph Watson, D. E. Thomson, Dr. Powell, A. Kent and Dr. H. H. H. The delegation was met by the Mayor at the northeast corner of High Park and south of Ridout-street for the purpose of receiving a Commemorative Medal. The proposed site consists of 74 acres, and is owned partly by Toronto University and partly by the Ontario Government. It was a very interesting and profitable day for the Mayor and his staff.

New Ferry Scheme Afoot. Late in the afternoon a report was heard of the "What are you doing about the chain ferry, Mr. Mayor?" The Mayor had been asked to recede from their position of demanding a rental for the use of the chain ferry. The Mayor had refused to recede from their position of demanding a rental for the use of the chain ferry. The Mayor had refused to recede from their position of demanding a rental for the use of the chain ferry.

Consumption Curable. "In recent years there has been a new discovery in the treatment of consumption," announced Dr. Powell. Dr. Oaker had said that he could cure his patients of consumption. He had said that he could cure his patients of consumption. He had said that he could cure his patients of consumption.

Opposed to Gratuitous. Mr. Hoyle (North Ontario). In the course of the discussion, again placed himself on record as opposed to the granting of gratuitous grants in aid of Ontario and the superannuation fund at Ottawa and the maintenance of the Heir and Heir's case, broken down in the service of the province, must be considered.

Called It a Useless Commission. In consideration of the Administration of Justice accounts, Mr. Hoyle again protested against the establishment of a new Justice Commission, which had, he said, practically done nothing for the past five years.

City Hall Notes. The James Bay Commission has been summoned to meet to-day, when the accounts of the Commission will be presented to the Board of Control.

Western Hospital Restrictions. The restriction limiting the number of city patients in the Western Hospital, which has been recommended by the Board of Control, is being indefinitely made at first and the work had not gone on.

But Old Fort Property. By proposal of the Mayor a recommendation was forwarded to the Commission Government for the purchase of the Old Fort property for park, cattle market or any other purpose.

Highest Gets It. In view of the Engineer's contention that the lowest tender should be accepted, the annual supply of sewer pipe was given to the highest bidder, the Ontario Sewer Pipe Co. The highest bidder was the contractor who gets work.

First Governor of Guam. Commander Tausig of the U. S. Warship Bennington Has the Honor.

New Mantles will be opening to-day, of which further particulars appear. In the meantime there will be many choice selections to inspect.

Mail Orders for samples or quantities and all enquiries receive prompt attention.

BUDGET DEBATE ALL OVER

Bill to Amalgamate Two Big Trust Companies Was Discussed Committee.

HOUSE GOES INTO COMMITTEE

Mr. Hoyle Goes on Record as Opposed to the Granting of Gratuitous—Assembly Notes.

The long and wearisome debate on the budget concluded yesterday afternoon at the Parliament Buildings. Mr. John McLaughlin (Stormont) and Mr. Samuel Fox (West Victoria) emphasized the Opposition's criticism. No member on the Government side of the House rising to reply was indicative of the lapse of the discussion. The formal motion—really accepting the Provincial Treasurer's statement—that the Speaker do now leave the chair, carried on strictly, and good progress had been made when the House adjourned at 6 o'clock.

Clearing the Deck. Mr. Alex. Lumsden (Ottawa) presented petitions from the points of Day Alliance against the running of street cars on Sunday at Ottawa; Mr. John Barr (Dufferin), a petition against the passing of the Ontario Veterinary Surgeons' bill, unless a provision be inserted obliging the applicants, although without a diploma. A large number of bills were introduced at a first time, amongst them one by Dr. Jessop (Lincoln), to amend the San Jose School Act, and one by Mr. Crawford (West Toronto), respecting the Queen's Wharf in this city.

Resumed Budget Debate. Mr. McLaughlin continued his speech, criticising the Provincial Treasurer's statement. He contrasted the progressive policy of Hon. John Sandfield-Macdonald with that of the present Government. He pointed out the surplus for railway development. When Hon. Edward Blake was Premier of the province the surplus increased to a considerable amount, and now the revenue, not meeting the expenditures, had to be met by direct taxation. If the Government had dispensed with unnecessary officials and taken generally better care of the public, the result would, he said, have been far better. (Applause.)

Nothing for the Farmers. Mr. McLaughlin created amusement by characterizing the Government as fattening on milk and honey in the Land of Promise. He pointed out that the Government had not given to the country what was promised. He pointed out that the Government had not given to the country what was promised. He pointed out that the Government had not given to the country what was promised.

Resolved Conservative Policy. As to the policy of opening up the agricultural and mineral lands in the north, Mr. McLaughlin said this was the policy of the Conservatives for years. The policy of the Conservatives had always been to open up the north. The policy of the Conservatives had always been to open up the north.

Debate Concluded. Mr. E. J. Fox (West Victoria) followed on the same line. He pointed out that the Government had not given to the country what was promised. He pointed out that the Government had not given to the country what was promised. He pointed out that the Government had not given to the country what was promised.

In Committee of Supply. The House then went into Committee of Supply with Mr. John R. Stratton (West Toronto) in the chair. A number of bills were introduced and discussed. The House then went into Committee of Supply with Mr. John R. Stratton (West Toronto) in the chair.

Markets—Notes and Gossip.

Tuesday Evening, Feb. 28.

Liverpool's wheat market was stronger

to-day than it was on the previous day

and it is expected that the price will

continue to rise to-day.

Paris wheat to-day declined 10 to 15

centimes.

Chicago wheat futures advanced over

half a cent to-day and closed near the top

of the season. There was good buying by

commission houses, and cables helped the

market.

At Liverpool, near-by maize futures to-

day advanced nearly five per cent. Chicago

corn closed nearly five bushels higher than

yesterday.

Exports at New York to-day: Flour, 19

bushels and 36,820 sacks; wheat, 58,231 bu.

and 1,000 sacks; corn, 1,000 bushels.

Bradstreet reports an increase of 291,000

bushels in the world's supply of wheat for

the past week. The increase in the world's

supply of wheat is due to the fact that

the crop in the United States is larger than

in any previous year.

Receipts of wheat at Minneapolis and

Duluth to-day, 234 cars, as against 305 cars

the corresponding day of last year.

The receipts of wheat at Liverpool the past

three days were 214,000 bushels, including

100,000 bushels of American. Corn same

days, 184,000 bushels.
