COLLECTOR WANTED. Young man about 21 years; one who knows the city thoroughly; good penman; have bicycle; fidelity bond required. H. H. WILLIAMS & CO., 25 Victoria St.

COURT TO FORCE THE PEACE OF NATIONS. Andrew Carnegie Points Out the Peril of Ever-Increasing Armaments by the European Powers.

NEW YORK, April 21.—The Peace Society of the City of New York held its annual meeting to-day at the Hotel Astor. In his presidential address, Andrew Carnegie pleaded for an international league of peace "prepared" if necessary, to enforce peace among warring nations, as we enforce obedience to law among erring men; this league should be perfected by an international supreme court. To this complexion must it come at last.

Germany also has a case, quite strong enough to give her the loyal support of the nation. She is a land of peace and good people, and has to import food largely. Articles of food were imported in 1906 to the value of \$1,000,000. In a contest for food, Germany is in a position of danger from lack of food supplies would be serious indeed, were imports by sea prevented. Hence, she also feels that she must possess an invincible navy.

Within a small radius the two gigantic fleets of Britain and Germany will operate, often in sight of each other. The fop of constant discussion in every ship will be their relative power and the consequences of battle. The crews of the respective navies will regard each other with suspicion, jealousy and hatred, in this representing only two truly the feelings of their countrymen. Under such strain a mere spark would suffice. A few marines ashore from two of the ships, British and German, would be enough to shed, and the pent-up passions of the people of both countries sweep all to the winds. The governments are too weak to withstand a whirlwind, or being men of like passions with their fellows, probably are in part swept away themselves after years of jealous rivalry into this sort of revenge. Such the probable result—given national jealousy and hatred, any trifle suffices to produce war.

War has seldom an adequate cause. It is usually stimulated by invidious comparisons as to relative strength and warlike qualities, which render nations suspicious of each other. Hence, to save nations from themselves, there must sooner or later emerge from the present unparalleled increase of armaments a league of peace embracing the most advanced nations, proclaiming that since the world has now shrunk into a neighborhood and its total commerce yearly exceeding 25 billions of dollars, all civilized nations are deeply interested in world peace, and that the time has past when any one or two nations can be permitted to break it. Their disputes must be arbitrated. Civilized nations have now acquired the right to consider the consequences upon the real disturber of the world's peace. The peaceful nations have a right to know the guilty nation or nations, or the guilty man—very indeed, will be its responsibility.

Laverigne and Choquette In A Near-Fight. Young Politician Resents Appearance of Wife's Name in Print and Breaks Senator's Cane After Hot Colloquy.

MONTREAL, April 21.—(Special).—As Senator Choquette was leaving the public bills committee-room at noon, Armand Laverigne, Bourassa's lieutenant, approached him. The senator had a cane, which he now has no longer. Laverigne had a pair of gloves. "If you mention my wife in your paper again," said Mr. Laverigne, "I will thrash you," and he approached the senator with a threatening gesture and gloves upraised. "I don't want to have anything to say to you; don't speak to me," replied the senator. Laverigne made some indistinguishable reply, and Senator Choquette retorted: "If you bother me any further, I will break my stick across your back."

TRY DYNAMITE ON THE ICE JAM. N. Y. State Experts to Use Two Carloads of Explosive, Beginning This Morning.

NIAGARA FALLS, Ont., April 21.—(Special).—Dynamite will be resorted to in an attempt to break the ice jam at the mouth of the Niagara River. Henry A. Densler, assistant superintendent of public works of New York State, and Chas. A. Tuttle, an expert on high explosives, looked over the situation this afternoon and declared their faith in the use of dynamite for a safe breaking of the jam. They were sent from Albany by Superintendent Stevens, to whom the appeal of the citizens of Youngstown and Lewiston Governor Hughes for help had been referred. The two engineers returned to Buffalo late this afternoon to make arrangements for securing two carloads of explosive. The dynamite will be taken at once from Buffalo in a special car and automobiles to the Niagara River and the dynamiting will begin early in the morning. The men will start at Youngstown and work up to Lewiston. Five hundred pound charges of dynamite will be used.

Power Towers in Danger. There is no abatement in river conditions to-night. While the water subsided about two feet during the night, danger to life and property continues. The steel transmission towers of the Ontario Power Company which cross the river near Queenston have been ripped from their masonry foundations and ice is piled high round them. Any movement of the ice will carry them away. In the upper river the ice formation has increased in height.

Under the falls huge mountains of ice tower high. The generating station of the Ontario Power Company is surrounded by ice nearly as high as the which broke thru the windows last Friday night. There is no danger of a shut down, as the windows have been bricked up. The owners of the Maid of the Mist are getting steam on the ice and lighting huge fires round the river bank occupied their homes last night, and fears are entertained for the safety of the big hotels of Harry Cornell and Phil Fitz.

Dead Body in Ice. The dead body of a man was discovered lying partly submerged in the river below the falls at 10 o'clock this morning. The upper portion of the body rests upon the rocks with the head out of the water. The peculiar manner in which the body lies led to the belief that the man was alive, the face being turned downwards. It appeared as if a glance as if the man had crawled from the water part way upon the stones and was hanging there unable to further assist himself. Superintendent Perry stated this evening that he is still figuring as to means of recovering the body, a most dangerous undertaking.

Ice Breaker Can't Come. NIAGARA-ON-THE-LAKE, April 21.—(Special).—There is no ice breaker available for use in relieving the ice jam at Niagara-on-the-Lake. Hon. I. P. Brodeur, minister of marine and fisheries, wired this afternoon to that effect.

Neither will there be any help forthcoming from the U. S. authorities. United States Engineer Fiske of Buffalo says that to attack the jam with heavy indeed, will be its responsibility.

THE SUITAN PLAYS A WAITING GAME. Already Has Got "the Committee" Divided on the Question of Coming to Terms.

CONSTANTINOPLE, April 21.—The conflict between Mussulman piety and the political ideas of the west has brought the Turkish people to the verge of a civil war. Zeal for the faith has been unopposed and the adjustment of Union relations to the committee of Union Progress probably will only postpone the armed struggle between the deliverers of the ancient teachings of the prophet and those who are urging the teachings from western Europe.

The Sultan's primary demand is to remain the constitutional sovereign, with all the spiritual powers of his caliphate, with liberal allowance for his household, while he also asks for a variety of minor guarantees which it would not be difficult to grant. The demands of the Committee of Union and Progress, is that the Sultan offer no resistance whatever, and submit unconditionally.

Sultan May Yet Triumph. The conservative men of modern spirit, is without definite limits. Its adherents, who have a right to a voice in its affairs, are divided among themselves. The radical faction insists that there should be no compromise; that the Sultan should be deposed and a reasonable prince, for instance, Yusoff Izzeddin, should be named as his successor. Hence, the whole administration should be cleaned; that no promise of Abdul Hamid's can be trusted and that to re-establish the system of tea that was abolished a few days ago would be to settle nothing.

Not a Coward. In parliamentary circles the story is current that the Sultan declared that if possible after severe fighting; that it is uncertain whether the committee would control such an act with their bayonets; that the wavering soldiers of the first army corps, to the number of 25,000 or 30,000 now garrisoning the city, would be inflamed and break into open revolt, and that to demand too much means that they got them to quarrel among themselves, said one of the ambassadors to-day; "and he will have it his own way."

10,000 Victims. LONDON, April 21.—A special despatch received from Athens to-day says that telegrams that have come in there from Messina, set forth that fully 10,000 persons were killed in the anti-Christian rioting of the last few days in the Adonne and Tarasus Districts. Entire villages were razed and the country is a smoking wilderness.

Bulgarian Army to Protect Foreigners. CONSTANTINOPLE, April 21.—M. Llapcheff, the special delegate of the Bulgarian Government to Constantinople, has made the following important declaration: "The Bulgarian Government has decided not to intervene for the present, but it is following events in Constantinople with close attention. If the safety of the foreigners should be menaced, and especially if any massacres of Christians should take place, the Bulgarian army and the Bulgarian navy will at once move on Constantinople."

NEW ANGLICAN SYNOD. Church of England Province of Canada to be Subsidized. It was practically decided yesterday that within two years Canada will have another Anglican synod, with an archbishop and house of bishops and one of the laity.

ALDERMEN MAY APPEAL. But Legislature Will Refuse to Set Judgment. QUEBEC, April 21.—(Special).—Premier Gouin has urged the aldermen of the disaffected aldermen of Montreal, and he has decided that the judgment of the court will be not be interfered with by the legislature.

DECLINE TO DISCUSS RECIPROcity. MONTREAL, April 21.—(Special).—The Montreal Board of Trade to-day declined an invitation from the Delegates from the two bodies to discuss reciprocity between Canada and the United States.

IN MINISTER FIELDING'S GARDEN

THE ROOSTER (to the Crow): "Come into the garden, Maud."

15 DIE IN WIND STORM THAT SWEEPS NORTH OHIO. Six Killed and Nine Fatally Hurt, With Fifty Injured—Gale Lasted Only Five Minutes, But Havoc is Widespread.

CLEVELAND, April 21.—Six persons were killed, nine fatally hurt and at least 50 injured, and property valued at more than \$1,000,000 was destroyed by a tornado which swept thru Cleveland and Northern Ohio to-day. The dead: Jasper Cromwell, blown from a train at Cleveland Furnace Company plant; Mrs. Olive Phalen, nurse at state hospital, skull crushed by stone blown from building. Unidentified woman blown into a pond falling smokestack; Louis Petro, crushed by falling roof, died at hospital; Jos. Slazek, struck on head by flying timber, died at hospital. Fred Grugel committed suicide during height of the storm because he was afraid he was about to be killed. He rushed into a barn out of the rain and drank carbolic acid. He left a note explaining his action. The storm rose suddenly and lasted only five minutes. At 12:30 o'clock Cleveland was shrouded in darkness. From the northeast, off the lake, came a gale blowing 66 miles an hour. In its wake followed a sheet of rain and hail, which fell with terrific force. In the blinding rain, pedestrians were blown off their feet and hurled against buildings, while in many cases they were struck down by flying bricks and timbers which filled the air. Twelve school buildings were damaged and many pupils had remarkable escapes. The roof was lifted from the main building of the Case School of Applied Science, and buildings at Adelbert College sustained impairment. Telegraph and telephone services were ruined. Poles were swept down by the wind. Cross wires set poles on fire. Street cars and trains were delayed. Trees were torn up by the roots at several cemeteries. Many monuments were overturned. Firemen and policemen from all of the stations in the city turned out to assist people whose homes had been wrecked and who were injured in the storm. There was little lighting and few fires. No damage was done to the boats on the lake. The largest single damage was done to St. Stanislaus Church, East 65th-street and Forman-avenue. The wind almost demolished the structure. The loss is estimated at \$125,000.

4 WITNESSES FOR INQUEST. But Crown Attorney Promises Sensation To-night—Miss Kinrade Not Hotel Guest.

HAMILTON, April 21.—(Special).—Interest is again becoming keen in the Kinrade murder mystery. The inquest into which resumes to-morrow night, will feature the testimony of three witnesses from Preston this morning stated that Miss Florence Kinrade was seriously ill there at the Hotel Delmonico on account of nervous breakdown, and would not be able to present to-morrow evening, but a reporter who called at the hotel this morning was positively informed that the Kinrades were not there, and never had been. This is in spite of the published reports of the past three weeks or so that they were at Preston. The proprietor said that the arrival of a Mrs. and Miss Kennedy of New York had been garbled into the visit of the Kinrades. While G. T. Blackstock, K.C., of Toronto, who is representing the crown, as having said to-day that he expected perhaps the most important evidence to be divulged to-morrow evening, there doesn't seem to be much appearance of it on the surface. Subpoenas for four witnesses were made out by Coroner Anderson and served to-day. Three of the crown witnesses are the solicitor for the Kinrade family, the three crown witnesses subpoenaed are: Misses Erskine and Wild, milliners, employed by the Stanley Mills Company, who think they saw Miss Florence Kinrade at the store she operated in the murder, also she swore she was not out of the house that morning, and Luke Coppie, a boy who used to deliver groceries at the Kinrade home. New Witness For the Defence. The witness who has been subpoenaed at the request of Mr. Lynch-Staunton is Miss Fagen, who lives on Main-street, near Ferguson-avenue. Her testimony will be that on the afternoon of the murder, while she was standing at the corner of Pearl and King-streets, about three-quarters of a mile from the Kinrade residence, she saw three men coming up Pearl-street in a great hurry. One of them fitted the first description Miss Kinrade gave of the murderer. He was covered with mud, his hair was matted, and he was talking in great excitement about the Kinrade home. Did you ever hear of a well-dressed man buying a cheap hat? What we mean to ask is, Did he ever buy one that did not have a good name on the inside band? His reputation is at stake if he bought a cheap hat. The name of a good maker does not cost any more than the other kind. Dineen's name on the band guarantees the quality and style. Just now there is no better assortment of hats on the continent than what are being displayed at Dineen's. All prices, \$2.50 and \$3, with Dunlap's special at \$5.00.

VOTE DOWN COMMISSION TO EXAMINE ACCOUNTS. PREMIER OF NOVA SCOTIA WILL ONLY Consent to Partisan Enquiry Into Alleged Grant.

HALIFAX, April 21.—(Special).—In the house of assembly to-day the Wilcox resolution calling for a judicial enquiry into the Murray government's patronage system, was rejected by 20 to 5, the Independent Liberal voting with the Conservative opposition. A long list of particular items of excessive payments are not denied by the government, but Premier Murray has appointed a committee of the offered to conduct the proposed investigation in place of the independent judicial commission asked for by the opposition. After a statement of massed facts giving item after item thru a long list of transactions in the purchase of public supplies, ranging from 25 to 50 per cent. C. S. Wilcox, leader of the opposition, declared that as a result of the government system of buying supplies, the province was losing annually anywhere from \$25,000 to \$50,000.

SASKATCHEWAN LIKELY TO GO IN FOR LOCAL BUSINESS. Premier of Nova Scotia Will Only Consent to Partisan Enquiry Into Alleged Grant.

REGINA, Sask., April 21.—(Special).—Hon. N. A. Calder, minister of telephones, announced to-day that the department had, after negotiations of over a year, purchased the Bell Telephone system thruout Saskatchewan, the system to be turned over at midnight April 30 for a cash consideration of \$367,500, of which \$10,000 is to be returned for unearned rentals. It was the intention of the government to secure all the business it could and it would proceed to add to the system. The government would likely go into exchanges as well as long-distance business and was considering the acquisition of the Moose Jaw and Saskatchewan Phone Co.

ANOTHER KIDNAPPING. Cincinnati Boy of Twelve Stolen For Ransom. CINCINNATI, April 21.—Leo Mulhern, the 12-year-old son of Mrs. John Mulhern, 413 West 50th-street, is missing, following the receipt by his mother of two letters threatening to kidnap the boy. This afternoon Mrs. Mulhern received a third letter saying that the boy had been kidnapped and that he would not be returned to his home until she deposited the money at the place designated in the former letters.

U.S. RECIPROcity NO MAGNET TO CANADA. Donald D. Mann Says That We Find Our Commercial Future Within the Confines of Empire.

D. D. Mann, he of Mackenzie & Mann, contributes an article to this week's Saturday Evening Post of Philadelphia on the subject of "Canada and Reciprocity," and his conclusions can be summed up in one sentence in his concluding paragraph: "We have decided that our future must be as our past has been."

He notes that eight times was Canada refused by the United States reciprocity similar to that which obtained from 1854 to 1896. "To-day," he writes, "Canada is being courted. She is a willing friend, but no suitor." There is a nation of difference between the situation of forty years ago and the position of 1909. It is possible that the last chance of there being only one political power on this continent vanished when the former treaty was abrogated.

At that time Canadians feared that the cutting off of their most direct market would ruin them. But instead, it gave Canada a chance to discover herself, and the adoption of the national policy in 1878 was followed by the beginning of the construction of the C. P. R. "You can no more revert to the old Canadian idea of reciprocity than you can replace the locomotive by the stage coach," says Mr. Mann. "To discuss the possibility of the absorption of Canada by the United States is utterly to forsake practical politics. You must realize that Canada is a nation, so much bigger than any tariff wall, that she can afford to be, as she is, undisturbed by it. "But that is not to say that the tariff is a closed book between Canada and the United States. Conditions are continually changing, and also the United States tariff against Canada produced the Canadian tariff against the United States, and, incidentally, the Canadian nationhood a sure and certain influence in the world, both tariffs may be handled so as to produce greater business between the two peoples' files."

Conserving Resources. Were it not for Mr. Mann, Mr. Mann says he would be willing to go a long way with Carnegie in his contention that the industries of the United States are now so powerful that they need no further support from the nation. He believes that the conservation of natural resources, or "raw materials," may be the best key to the future politics and policies of the continent. "Hitherto, in considering tariffs," American statesmen have assumed the uttermost exploitation of the country's natural resources. So they put a tax on Canadian coal, and iron ore, for instance. Now they are justly becoming alarmed at the depletion of the American supply of coal and iron ore. Broadly speaking, it seems to me that when this continent was laid out, several natural free trade zones were provided, which were also meant to be operative without hindering the development of two kindred but independent nations within its coasts. "There is one, indeed, that is outside the coasts of the United States, and that is the sea. They declare, and I believe, that the development of a restricted reciprocity found one of their arguments in the sea. They declare, rightly, that it is foolish to tax the people of the northwestern states in order to prevent their fish food being landed near to where it is caught. The inexhaustible supply of fish in the northern waters would be a great benefit to Nova Scotia, and shipped thence to their customers in the United States. If that were done, Nova Scotia would be able to follow the natural course of development, and the consumer in the United States would have more fish for his money, or more money for his fish. "Nova Scotia coal deposits are the natural fish supply of New England. The American tariff keeps them out. But the Canadian tariff gives to Nova Scotia coal the Montreal market, by reason of the tax upon Pennsylvania coal."

May Work Itself Out. "I cannot, at this moment, think of any considerable manufacturing advantage that would be sacrificed by a readjustment of the coal tariff. There are now conditions surrounding the mechanical production of coal in Nova Scotia, which would, I think, adjust themselves by the opening of the English market. I have reason to know that the Pennsylvania coal industry is not in a position to compete with the natural fish supply of New England. The American tariff keeps them out. But the Canadian tariff gives to Nova Scotia coal the Montreal market, by reason of the tax upon Pennsylvania coal."

Notice to Agents and Newsdealers. Orders for extra copies of The World, on account of the summing up of the Kinrade inquest, should reach the circulation department under no circumstances later than this evening. Agents are requested to state clearly how many extra copies they will require for Friday morning.

BIG KILLING GOES TO-DAY

I wish to advise all my followers of this exceptionally good thing that is the medium of a big killing to-day.

SHARKEY EASTERN WIRE

PIMILCO

This wire will take the place of our LOS ANGELES wire. THE PIMILCO meeting will be one of the best.

Owner and Trainer

No money required until after the race. Responsible parties wishing to bet five dollars next Monday and give me one-third of the winnings.

To-Day's Entries

Table listing race entries for San Antonio, Texas, April 21. Includes race names like FIRST RACE, SECOND RACE, etc., and horse names like Bob Lynch, Great Land, etc.

SAN ANTONIO'S SUMMARY

SAN ANTONIO, April 21.—The races today resulted as follows:

Summary of race results for San Antonio, including race names, horse names, and winners.

DOWN COME MILK PRICES

Rate Will Be Seven Cents a Quart.—Dealers Say Cause is Over Supply.

There will be a reduction in the price of milk to the consumer about the first of May, whereby the bottled milk can be purchased at eight cents a quart.

Bristol Society Reunions

The annual reunion of the city held its annual reunion at the Sons of England Hall last night, when a splendid program of music and dancing was given.

Right style, superior fitness

With quality combined, As well as rare distinction, In every suit is found.

560,000 DAMAGE DONE BY BOILER EXPLOSION

Miller's Great Conservatories at Bracondale Wrecked—Shock Felt and Debris Scattered.

A property loss anywhere from \$50,000 to \$50,000, the miraculous escape of more than a score of employees, not to mention residents in the neighborhood, and the almost total destruction of the second to largest conservatories in Canada, covering nearly 4 acres, was the net result of a boiler explosion on the extensive grounds of Fred Miller & Sons at Bracondale, out on the northwestern outskirts of the city, about 1.50 years ago.

Owner and Trainer

No money required until after the race. Responsible parties wishing to bet five dollars next Monday and give me one-third of the winnings.

The Toronto World A Morning Newspaper Published Every Day in the Year.

THE WAY OUT OF TWO SITUATIONS.

The City of Toronto is about to embark on a public ownership, so far as the distribution of electric energy for power and light is concerned.

The city as a corporation, and the citizens of their own accord, are also determined that they will take over the street railway franchise when it expires 13 years hence.

In connection with electricity, the proposal is that the city raise money in London to pay for the new distribution power and light outfit.

The mayor and city treasurer are now in London for the purpose of floating city securities to pay for the new electric plant.

The World's suggestion in a word is that both properties be taken over at once on arbitration, that the shareholders receive the arbitrated amount in city bonds secured on the two properties and bearing moderate interest.

Public ownership works while you sleep. It also works while you are awake, wherein it differs from a lot of its opponents.

ereph of telegraphs, and telephones

and express service and railways and other public utilities, which in other countries have escaped the levy of private control.

As soon as it was clear that the Beck policy was beyond peradventure the "mounted heaps" began to melt and the declarations that power could not be sold at less than the price higher or lower inflicted upon the public were abandoned.

Now the cry is all in the other direction. The companies can sell cheaper than the Hydro-Electric Power Commission, a long-suffering public is informed. Of course they could or they would have been no Hydro-Electric Power Commission.

Public ownership has already been such a success in this line where its mere application has fore-stalled the anticipated benefits of its full operation.

Rev. C. H. Shortt, well-known to Toronto for many years, has returned from Japan on a visit, and has been relating his experiences as a missionary in the Chrysanthemum Kingdom.

Our civilization is a material one. Materialistic thought has governed our work-day views for two generations. Only during the last generation has there been a return to the saner view of man's spiritual origin, his immor-

IN THE LAW COURTS

ANNOUNCEMENTS.

Osgoode Hall, April 21, 1909. Motions set down for single court Thursday, April 22, at 11 a.m.

Peremptory list for divisional court for Thursday, 22nd inst., at 11 a.m.

Peremptory list for court of appeal for Thursday, 22nd inst., at 11 a.m.

Master's Chambers. Before Cartwright, Master.

Judges' Chambers. Before the Chancellor.

They Want More Corpses. Medical students at Queen's have a grievance.

Car Lines City Wants. The civic sub-committee on street railway extensions has prepared a report recommending that the company be asked to give a number of additional car lines in return for the city's giving the railway the streets it asks.

Expect 200,000. Superintendent of Immigration looks for a big influx.

Rebellious Clergyman Coming. A popular young woman of Princeton, took her life by means of a large dose of strychnine.

EATON'S FRIDAY BARGAINS

A partial list—every price means money savings.

Of course the early shopper benefits most.

GERMAN FINANCE REFORM. Proposals to Tax Gas, Electricity and Advertising Are Dropped.
BERLIN, April 21.—Pvince con Buelow, the imperial chancellor, delivered a long address on finance reform, which he said, it was the unanimous desire of the nation, should be settled this session. Responding to deputations, representing all classes of the population, from nearly every state in Germany, the chancellor said that the proposals to tax electricity, gas and advertisements had been definitely dropped. Other things would be introduced in their places, while the death duty would be changed into an inheritance tax, so as to meet the popular wishes.

SOUTH AFRICAN SHIP WANTED.

# Offered for Public Subscription

## 7% Cumulative Preference Stock

1000 Shares at a Par Value \$100 With a Bonus of 20 Per Cent. in Common Stock.

# The Slater Shoe Company, Limited

Authorized Capital	\$1,000,000
Common Stock, Authorized and Issued	\$500,000
Preference Stock Authorized	500,000
Preference Stock Paid Up	200,000

One Thousand (1,000) Shares of Slater Cumulative Preferred Stock is now offered for Public Subscription with a Bonus of 20% in Slater Common Shares which will make the Capital Preferred paid in and subscribed \$300,000; Capital Common authorized and issued \$500,000 and leaving in the Treasury Preferred Shares \$200,000.

This is the best known and one of the most progressive and prosperous of the Canadian Industrial Corporations, and it is seldom that investors are offered such an opportunity to secure a sound and substantial dividend-paying stock with a bonus of 20 per cent. of common stock.

The Subscription Books will be open until Wednesday, May 15, and shares will be allotted in the order in which subscriptions are received. As most of the recent stock issue has been taken up by the Directors and Shareholders, only the 1000 shares of the 7 per cent. preferred stock is offered to the public.

This 7 per cent. preferred stock is both cumulative and preferred as to Assets, Capital and Dividends. Dividends are payable quarterly on January 1st, April 1st, July 1st and October 1st. The Company has no bonded indebtedness.

This great industrial corporation has for its Directors and Shareholders some of the most careful and successful business men and investors in Canada.

The authorized capital of the Slater Shoe Company is \$1,000,000. The business was founded over forty years ago (in 1869) by the late George T. Slater, and the Company has been under the continuous management of his Son, Charles E. Slater, the President and General Manager of the Slater Shoe Company, Limited.

Dividends have been declared and paid regularly on the Slater preference stock.

To those who understand the organization of a large manufacturing company, and the substantial value of a prosperous going concern, with its good-will, Trade Marks, and its World-wide reputation, the investment offered must be both attractive and profitable.

In the first five years after the organization of the Slater Shoe Company in 1899 the sales were \$1,823,847. In the second five-year period, or, to be exact, in four years and eleven months, the sales were \$3,390,822; or nearly double the first five-year period.

In the "depression year" of 1908, the sales, like those of all the Canadian industrials, showed a decrease. But the Company have completed arrangements to double their factory capacity, and thus be in a position to meet the constantly increasing demand for their high-class shoes.

The new capital is required for the enlargement of the present factory and for the development of the growing business of the concern.

The present Board of Directors of the Slater Shoe Company, Limited, is composed of the following gentlemen:

- CHARLES E. SLATER, President and General Manager.
- WILLIAM STARKE, Vice-President (President of the Starke-Seybold Co., Limited, Montreal).
- JAMES W. WOODS, President of Woods, Limited, Ottawa.
- ANSON McKIM, President of A. McKim, Limited, Montreal.
- L.T. COL. ROBERT STARKE, of the Starke-Seybold Co., Limited, Montreal.
- WILLIAM SMITH, gentleman, Montreal.
- W. F. BORLAND, Guardian Insurance Co., Montreal.
- J. NELSON McKIM, of A. McKim, Limited, Montreal.

Subscription list opens to-day at the offices of the following:

The Bank of Ottawa (The Bankers of the Company) and all its Branches, Gault & Ewing (Brokers), 112 St. James St., Montreal.

The Slater Shoe Company, Limited, Head Office, 103 Latour St., Montreal. All Slater Shoe Stores and Agencies in Canada.

Application forms may be obtained at any of the above offices.

Subscriptions paid in full within ten days of allotments will be entitled to the full quarterly dividend on July 1st.

Terms of Payment—10 per cent. with application, 15 per cent. on allotment, 25 per cent. 1st July, 25 per cent. 1st October, 25 per cent. 1st January, 1910.

### FORM OF APPLICATION

I hereby apply and subscribe for ..... 7 per cent. cumulative preference shares in the above-named Company at the par value of \$100 per share (with 20 per cent. bonus of common stock), and I request you to allot to me that number of shares, and I agree to accept the same or any smaller number that may be allotted to me.

Herewith I hand you \$..... being a deposit of 10 per cent. per share, and I agree to pay the further instalment of 15 per cent. per share on allotment, and the balance in three equal payments of 25 per cent. each, on the first days of July, October and January next, and I authorize you to place my name on the Register of Shareholders in respect of the same.

## IMPORTANT AMENDMENTS TO THE CRIMINAL CODE

Among Others, It is to Be a Criminal Offence to Reproduce or Sell Pirated Compositions.

OTTAWA, April 21.—(Special).—Hon. Mr. Aylesworth this afternoon introduced a bill to amend the criminal code. It makes a corporation, municipality or company liable to be proceeded against by summary process before a justice of the peace. It provides for punishment by imprisonment for carrying an offensive weapon, such as a dagger, knife or dirk, the manufacture and circulation of immoral publications or pictures is aimed at in penalties that shall be extended not only to persons who offend against the present law, but also to those who assist in distribution or circulation or have

## FAUST IN MINIATURE

Pleasing Presentation of the Gounod Masterpiece.

A fashionable audience attended Jas. A. Quarrington's production of Gounod's "Faust" given in miniature form, with large chorus scenes eliminated. The continuity of the plot was not, however, destroyed. W. E. Brown made a very fair Faust, but his forte was in his clear tenor voice. A Quarrington as Mephistopheles was beyond adverse criticism, while Miss Violet Hunt as Marguerite had an excellent conception of her role and proved herself a soprano of great ability. In this production Miss Madge Bona as Martha was very successful in that character, and well deserved the applause she received, while Jas. Quarrington used his fine baritone voice to great effect in the role of Valentine, a character in which his interpretation was excellent. The chorus, which appeared but twice during the evening was well trained and their singing was beautiful. A great deal of credit is due to Prof. Collier Grounds of Buffalo, the musical director.

Notwithstanding the unfavorable weather a very fair audience attended the grand concert given last night at Broadway Hall. By this concert Miss Winnifred Parker proved herself to be an ecstasizing of great ability, while her sister, Miss L. Parker, possesses a soprano voice that will in the near future make her famous. Mr. Kennedy won repeated applause through his excellent baritone voice, while Miss Fenwick was a violinist of great ability.

## DRIVERS ARE RELIEVED.

Senator McMullen Withdraws Bill to Prevent Railway Accidents.

OTTAWA, April 21.—(Special).—The senate resumed this afternoon after the Easter recess.

Senator McMullen dropped his bill to compel a driver of a vehicle on approaching a railway crossing to "stop, look and listen," and Senator Cloran also withdrew his measure forbidding the marriage of a guilty man or woman. Replying to Senator Louhead, Sir Richard Cartwright said there had been no negotiations with any authorized representative of the German Government with respect to reciprocal trade relations.

WILLIAM HAWTREY

In the character of John Browne in "An Englishman's Home," at the Princess next week.

The sale of seats for "An Englishman's Home," which begins a week's engagement at the Princess Theatre next Monday night, will begin this morning. It will be played by a company of English actors under the direction of Charles Frohman, who has exactly duplicated the London production of the play. In the company are William Hawtrey, Nellie Thorne, Dallas Anderson, Dorothy Fraleigh, a Toronto girl who makes her professional debut here in this piece, Ernest Stanley and G.M. Graham who will be most pleasantly remembered as members of the Alexandra stock company, and twenty-five others.

Those who are fortunate enough to gain admittance to the Royal Alexandra Theatre next week, will see in "Beverly of Graustark," a play of action, comedy, with rare literary

with local theatre-goers. The management are putting up a splendid performance for the money. A change of motion pictures is scheduled for today and a complete new bill of specialties for next week.

Paka's Hawaiian Trio will be the popular feature of the great bill at Shea's Theatre next week. The special features for the week are: Murray Freedman & Co., presenting "Tony and the Stork;" and Stuart Barnes, the favorite monologist. Other acts included in the bill are: Henry and Wolford, Reiff Brothers, Duffin Redey Troupe, Zaracarmen Trio, and the Isinetograph.

The Rice & Barton Big Gaiety Extravaganza Company which comes to the Gayety next week, is undoubtedly the first in farce comedy, first in vaudeville and first in light extravaganza. "Brown Among the Daisies," is a glittering, brilliant satire.

Young Muldoon is creating a lot of excitement at the Star this week. Arie Edmunds, the clever local, will do for a return match again to-night. Next week "The Tiger Lilies" are coming and with them will be found "The Great Eyewit" who claims to be the only rival of Harry Houdini.

The performances given yesterday afternoon and evening by the Toronto Rowing Club Minstrels were greatly enjoyed by large audiences. In addition to the success of the other soloists, particular mention should be made of the capital baritone songs, "There's Always Something Wrong," by Dick Newman. It was one of the best things on the program. The company appears at Hamilton at an early date.

Many Toronto people have recollection of the beauty and charm of Miss Edith Miller's voice and personality when she was soloist in the Bloor-street Presbyterian Church. It will be most interesting to hear her now that she has achieved a foremost place among concert singers of Great Britain. She has surrounded herself with a very excellent company in Alfred Heather, tenor; Thorpe Bates, baritone; and Miss Maud Bell, cellist. The sale of seats begins this morning.

To Curtail Shunting. Shunting across Bay-street will be curtailed by the C.P.R. after May 1. Thereafter only passenger trains for the Union Station will be shunted over that crossing. Freight trains will be made up without blocking the way down Bay-street to the ferry landing.

London's City Engineer. LONDON, April 21.—C. H. Wright, demonstrator at the School of Practical Science, Toronto, will, it is understood, be chosen as assistant city engineer for London.

Dr. Chase's Ointment. Dr. Chase's Ointment is a certain and guaranteed cure for eczema and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. Dr. Chase's Ointment, Dr. Chase & Co., Toronto.

Shore Acres. In which Archie Boyd will be seen as "Uncle Nat," will be the offering at the Grand next week. A daughter of the late Mr. Herne, Dorothy, is a member of the company. Continuous vaudeville as presented in the Majestic at 26 and 28th streets is bound to be a favorite entertainment

merit. Every act has its big scene, and the climax of the third act is said to be the most gripping episode introduced into a play in years. Seats now on sale.

"Mrs. Temple's Telegram," a dramatized laugh in three acts, will be presented here at the Grand to-night, Friday and Saturday. The story, which has been declared to be the most entertaining farce produced in many years, is that of a man, who having been caught high in the air in a Paris Wheel, the machinery of which has broken down, is kept there all night. Returning home he endeavors to tell his wife the truth about the matter, but she does not believe him, so he resorts to a lie instead.

## PILES

### RADIC-ACTIVE GELATINE KILLS MALIGNANT TUMOR

#### New York Surgeons Report Successful Result of Experiment With the Treatment.

NEW YORK, April 21.—What physicians pronounce one of the most remarkable cures thru the agency of radium in the history of medical science has just been confirmed by the examination of a patient who was expected to die six months ago who went to Flower Hospital with a malignant tumor, the size of a child's head, in his abdomen.

The large mass which threatened his life has disappeared and the small remaining knot in its place has the character of a tumor and is simply scar tissue, which has not been removed by the process of absorption.

Dr. William H. Dieffenbach and William Tod Helmut, who have had the case in charge, claim for Flower Hospital the discovery of the method employed, which was the injection of gelatine impregnated with radium into the tumor itself after the seat of the trouble had been reached by opening the abdominal cavity. The practice in the only other similar case on record, one performed in Europe some days ago, was to enclose the radium in a glass tube, which was sewed up in the tumor.

**Operation of No Avail.**

When the patient, who is a prominent resident of Westchester County, was taken to the hospital Dr. Dieffenbach called in Dr. Helmut with an idea of performing an operation for the removal of the tumor. After a thorough examination Dr. Helmut found the tumor to be so large and its roots to have invaded so much of the abdominal tissue that he refused to operate.

A council was held, and it was decided to treat the patient with the X-ray for the purpose of preventing the spread or growth of the tumor. By this method the physicians succeeded in checking the advance of the tumor, but after three months of the treatment the skin of the patient became so irritated that the application of the X-rays had to be discontinued.

Another examination proved that any operation for the removal of the mass would prove futile, and as an heroic attempt to save the life of the patient Dr. Dieffenbach proposed that the tumor be exposed and that radio-active gelatine be injected into the diseased parts.

The patient was placed under the influence of an anesthetic and the gelatine, which had been impregnated with 100 worth of radium, was injected in three places in the tumor. The incisions were drawn together with a purse string suture and the abdomen was closed.

**Improvement is Rapid.**

When the tumor was disclosed the surgeons pronounced it a round cell sarcoma, a most malignant variety of tumor, but cut off a small piece of the mass for analysis. A later examina-

### MAY ACQUIRE PROPERTY TO ADD TO RAMSDEN PARK

#### Canada Furniture Co. Wants Land on Dufferin Street in Exchange.

The board of control is desirous of increasing the area of Ramsden Park, but is dubious as to whether the terms offered by the Canada Furniture Company, which occupies a portion of the property required, should be accepted.

The company's factory, an old wooden structure, occupies a strip of land with a frontage on Yonge-street of 60 feet, and a depth of about 200 feet. In return for giving it up, the company wants a block of land on Dufferin-street, adjoining on the south the land occupied by the Sunbeam Incandescent Light Company. The company wants about 200 feet frontage on Dufferin-street.

Controller Hocken, who with the acting mayor looked over the Tanner Hollow property yesterday afternoon, says there would be little use in acquiring the furniture company land unless the adjoining land of about the same area occupied by the National Mattress, Fleet and Bating Company is also secured. The present area of Ramsden Park is 17 1/2 acres.

The board of control yesterday agreed to remove restrictions preventing the erection of business places on the north side of Bloor-street at the request of William Stewart, who plans to build a large apartment house, including several stores, east of Yonge-street.

### TACKLED A BURGLAR

#### Caretaker of Allan Gardens Almost Captured His Man.

Ernest Collins, superintendent of the Allan Gardens, reported to the police that early yesterday morning he was awakened to find a burglar in his house who after a severe struggle escaped thru his kitchen window.

Collins can see his front stairway from his bed. He is a light sleeper and was awakened by the creaking of the stairs. He leapt from the bed and collared the man before he reached the ground floor. A struggle ensued and the man, who was large, broke away from Mr. Collins, who is a small man. He overtook the intruder in the dining room and strove to hold him while he phoned for the police. He was forced to use his hands in the struggle, but his 12-year-old son took a hand at the telephone. Meanwhile the burglar had pulled Mr. Collins across the slippery oilcloth to a kitchen window and made his escape.

**Effects Seized For Auto Insurance.**

PARIS, April 21.—The personal effects of A. Hart McKee of Pittsburg were seized this morning at a local hotel to satisfy an overdue insurance premium on an automobile owned by his divorced wife. The clothing included 22 colored vests, innumerable shirts, 12 pairs of silk underwear, hundreds of pairs of gloves, large numbers of cravats and handkerchiefs, suits of every color for every occasion, and a collection of walking sticks.

### WATERWORKS TALKED OF GOWGANDA TOWN SITES

#### Gowganda Will Become a Somewhat Straggling Town Round North End of Lake.

GOWGANDA, April 15.—(From the Man in the Camp.)—Notwithstanding that the most favorable portion of the townsite lies across the lake, where the Montreal River pours out of the lake to run farther north along the shore on the east side, it is firmly believed that there will be a permanent location right here—at this end of the Elk Lake—Gowganda town. It is altogether likely that for some time to come Gowganda will resolve itself into a straggling town all round the north end of the lake. This is almost a safe bet. The buildings on this side are substantial, some two stories, and one building a three story one. There are hotels galore, some of them open night in and others peculiarly unit proper, or that portion of Coleman and Buckle Townships embracing the three or four square miles of territory which is the producing area, has steadily increased its production, as well as its reserves. Probably 1909 will show a large increase over 1908. Reserves have increased as well as probabilities from future development. Exploration, especially at depth, has been in several instances most important, and gives additional evidence that the district will be long lived.

Far greater attention is being paid to ores of lower grade, not of sufficient value to market, crude but desirable for concentration. Undoubtedly there are extensive bodies of this class of ore which should yield large profits. The extent of these bodies of so-called low grade ore is the best evidence of the strength of many of the veins, and, consequently, proof of their probable longer life in many cases.

Stimulated by the success of Cobalt, during the past two years there has been extensive prospecting both north-westerly and southeasterly, notably along the Montreal River near the present Town of Elk Lake, near Maple Mountain, at South Lorrain, 20 miles southeast of Cobalt, and during the past year in the Gowganda and Miller Lake districts westerly from Elk Lake, from 20 to 30 miles. Prices have often been greatly inflated, and, consequently, disaster and a probable reaction in sentiment will often result. Nevertheless, purely from a mining standpoint on Victoria-street north of Kingston street was referred to the police commissioners.

### NEW ONTARIO CAMPS WILL DOUBLE OUTPUT

#### F. C. Loring, M. E., Looks For Much Larger Ore Output During Present Year.

Frank C. Loring, writing in The Canadian Mining Journal, says: Cobalt proper, or that portion of Coleman and Buckle Townships embracing the three or four square miles of territory which is the producing area, has steadily increased its production, as well as its reserves. Probably 1909 will show a large increase over 1908. Reserves have increased as well as probabilities from future development. Exploration, especially at depth, has been in several instances most important, and gives additional evidence that the district will be long lived.

Far greater attention is being paid to ores of lower grade, not of sufficient value to market, crude but desirable for concentration. Undoubtedly there are extensive bodies of this class of ore which should yield large profits. The extent of these bodies of so-called low grade ore is the best evidence of the strength of many of the veins, and, consequently, proof of their probable longer life in many cases.

Stimulated by the success of Cobalt, during the past two years there has been extensive prospecting both north-westerly and southeasterly, notably along the Montreal River near the present Town of Elk Lake, near Maple Mountain, at South Lorrain, 20 miles southeast of Cobalt, and during the past year in the Gowganda and Miller Lake districts westerly from Elk Lake, from 20 to 30 miles. Prices have often been greatly inflated, and, consequently, disaster and a probable reaction in sentiment will often result. Nevertheless, purely from a mining standpoint on Victoria-street north of Kingston street was referred to the police commissioners.

### ELECT NEW ARCHBISHOP IN TORONTO ON MONDAY

#### Members of Anglican Upper House Already Assembling For Important Business Next Week.

A meeting of the House of Bishops of the Anglican Province of Canada will be held at the synod office on Monday, to elect a successor to the late Archbishop Sweatman. The Bishop of Ottawa, as the senior bishop of the province, will, it is expected, be elected to the succession, to the presidency of the provincial House of Bishops and to the position of archbishop.

This will not dispose of the question of the Anglican primacy of Canada, which was also rendered vacant by the death of the late archbishop. That will follow on Monday, or at a subsequent date, at a meeting of the House of Bishops of the general synod of Canada, which includes the bishops of the ecclesiastical provinces of Canada and Rupert's Land.

Archbishop Matheson of Rupert's Land has arrived and is the guest of Rev. Canon Cody. He will be a prominent figure to-day at the meeting of the general synod mission board, when he probably will be asked to preside, as, owing to the death of the late archbishop, the chairmanship is vacant. The board will meet this morning at the synod office at 10 o'clock. The financial reports, which Rev. Canon Tuohy will present, will be the most gratifying in the history of the Church Missionary Society. Bishop Newtham is another missionary bishop who is here for the mission board meeting.

The Sunday school committee met yesterday afternoon and considered reports from the synod office and considered reports from Nova Scotia dioceses. The Bishop of Nova Scotia presided. The reports demonstrated an increasing interest in the Sunday school work, both in volunteering for Sunday school work, participation in the various courses of study and the support of the Sunday school publications.

### REPAIRING THE TOWER

#### The heavy rain of yesterday afternoon put a stop to the preparations for repairing the tiling of the city hall tower. The work must be carried out thru the building up of a scaffolding from the base to the cap of the tower, a distance of 75 feet.

In order to put up the scaffold it is necessary to punch holes thru the ridge of the tower and erect stout planks, which support planks securely nailed across. This operation is to be repeated at intervals of five feet, until the top is reached. The first undertaking, and the most difficult, will be to place the 20-pound ball or final on the top. Half a ton of tile will be needed and the job will take two weeks. Douglas Davy is the fearless young man superintending it.

A protest from Rice Lewis and Son against the locating of a taxicab stand on Victoria-street north of Kingston street was referred to the police commissioners.

The preliminary work on the trunk sewer was begun yesterday on Mark-street just west of the Don, but was stopped by the rain. Ten men were on the job, and a trench two feet wide by 30 feet long was started. The section embarked upon will extend from the Don to the corner of Duchess and Jarvis-streets.

The city engineer denies that there is any possibility of bay water per-

### COALING THRU THE WALLS OF THE TUNNEL

#### Premier Whitney will lay the corner stone of the new transportation building at the exhibition grounds. The ceremony will take place next Monday at 4 p.m.

Commutation rates will be brought before the railway commission at next week's sitting.

The special civic committee and representatives of the guild of civic art will hold an organization meeting in the city hall to-night at 8 o'clock, regarding plans for the beautification of the city.

### PHOEBE, JOHN AND BRANT ST. SCHOOLS OLD BOYS' ASSOCIATION

#### Phoebe, John and Brant-street Schools Old Boys' and Girls' Association are holding their first reunion in Ogdan School, Phoebe-street, on Friday evening. All ex-pupils are cordially invited. Tickets can be had at the school.

Secretary Murray of the C. M. A. will be back from the West Indies in three weeks.

Schomberg Farmer's Will.

Wm. Lynn Schomberg, left his farm worth \$5000 to his nephew John Lynn, and legacies amounting to \$3746 to fifteen other relatives.

The Ontario property of the late Rear Admiral Walter, Annapolis, Md., has been probated at \$3672. The widow is left a life interest in the estate.

Letters of administration have been granted Dr. Macnamara, West Toronto, for the estate of his late wife, who left personality of \$253 and real estate valued at \$240. The husband and two young sons have equally divided.

J. D. Thompson, West Toronto, made his will in the hospital the day before his death. His widow is the beneficiary. The estate amounts to \$675.

R. W. Atkins, Kenora, left property valued at \$4700 to his brothers and sisters.

THURSDAY MORNING

NEW BULLISH MOVEMENTS INAUGURATED AT NEW YORK

Interest on Wall Street Kept Intact by Freak Features—Stocks Appear Scarce at Toronto Market.

World Office, Wednesday Evening, April 21. A somewhat better market was witnessed at the Toronto Stock Exchange to-day, although transactions were of the usual limited character.

The clearest indication of a scarcity of real offerings to-day was the scarcity of General Electric to 115 on a buying order of 10 shares.

Trading in the ordinary sense was scarcely a part of to-day's proceedings. Many prices were made because actual buying was not in sight.

Mackay common was strong on the support and it would seem as though an outlook for the future was brighter.

The listed mining shares were decidedly better. The Rens, Nipissing and Trethewey each selling at advances.

Trethewey was stronger to-day and the shares closed at the top market.

Investment stocks held with a steady firmness and a purchase of Canada Permanent had to be made at an unusual advance.

Despite the market dullness, prices of both speculative and investment issues have a determinedly strong undertone.

Wall Street Pointers. Serious car strike threatened in Pittsburgh.

THE DOMINION BANK

VICTORIA STREET BRANCH. We are occupying our new premises at the corner of QUEEN and VICTORIA STREETS, where a Modern Banking Office has been fitted up.

A FEW BULLISH FEATURES DEVELOP. World Office, Wednesday Evening, April 21.

American Telegraph and Telephone was started into activity at the Wall-street market this morning, and as a part owner of the shares, Mackay was also taken into bullish speculation.

There was enough stock offering to more than fill the incoming orders. Porto Rico is attracting some attention, and sold higher to-day.

Strength in two mining issues—La Rose and Trethewey—rounded off the bullish disposition of the market, and the rest of the issues simply presented a position of marking time.

CANADA AND THE G.T.R. OWNS VERY LITTLE STOCK

President Says People Here Are Interested in the Road Only as Consumers.

LONDON, April 21.—(C.A.P.)—The half-yearly meeting of the G.T.R. was held to-day at Reading. The report stated that 1908 was the worst year in many for the G.T.R.

Also suffered. Business, however, was improving. Referring to the G.T.R. President Laurier pointed out that Sir Charles Rivers Wilson pointed out to Sir William Laurier's return to power as testimony of the country's sanction of the scheme.

Before next October Sir Charles Rivers Wilson pointed out to Sir William Laurier's return to power as testimony of the country's sanction of the scheme.

There were \$2,000 shareholders in Great Britain, and not a thousand pounds of stock was held in Canada.

The interests of the shareholders were best looked after here.

BOOKBINDING EXHIBITION. Begins Next Wednesday Evening, in Reference Library.

George H. Locke, the chief librarian, has arranged for the reading room of the reference library on Adelaide-street, to be open on Wednesday evening, April 22, from 7 to 10 o'clock.

There will be on exhibition the collection of illustrations of the book binding art, the processes, the materials and the results, which has been displayed in the great libraries of the United States.

It is not a lavish exhibition of de luxe work, but an educational exhibition of economic and efficient processes.
