# A Strike Was Declared on C.T.D. at 9.30 Last Night and Trainmen Quit Work

## TRAINMEN STRIKE, SHOPS CLOSED COMPANY'S OFFER TO ARBITRATE REJECTED BY THE MEN PASSENGER TRAINS KEPT GOING

**Order Went Into Effect at 9.30 p.m.—All Trains on Road Run to Their Terminals—Effect on Freight Service Will Not Be Apparent Until To-day—How Company is Fighting Strike.**

**ON STRIKE** 3850 Men  
G.T.R. 2800  
Central Vermont 350

**DEMAND** Standardization of wages and working rules  
OFFERED 18 per cent. increase in wages and full demand not later than Jan. 1, 1913.

**THROWN OUT** 5000 Men  
The company has issued an order closing down the big car shops during the strike.

**MEN OUT:** Conductors, brakemen, baggage men, yardmen, Engineers and firemen are not out, having their own agreement with the company that has not expired, and the operators and dispatchers did not strike, reaching an agreement yesterday.

**STRIKE BREAKING:** Despatchers, freight agents, road foremen, yard masters, traveling engineers and rule instructors pressed into service as impromptu conductors and brakemen.

MONTREAL, July 18.—(Special.)—The most far-reaching strike ever launched in Canada began this evening at 9.30. The Grand Trunk conductors and trainmen having been ordered out by Vice-President Murdoch of the Brotherhood of Trainmen.

Although both parties evidently felt that a strike was in the air, the breaking off of negotiations was a surprise to the public generally who thought that President Hays would give in at the last moment, and that, perhaps, the men also would not go so far as to strike.

Now, however, the die is cast, and 3850 men on the Grand Trunk, from Portland to Chicago, and 350 men on the Central Vermont, are now pledged to fight the company to the bitter end, in order to enforce their demands for the standard rate of wages in that particular territory.

**Shops Are Closed.**  
The bolt from the blue heaven was the announcement from the company that their shops at Montreal, London, Toronto, Stratford, Port Huron, Battle Creek, Fordland, Chicago and all other points would be closed indefinitely, throwing perhaps 5000 men out of employment. This will affect 250 men here, 700 in Toronto and 1000 in Stratford, and its effect may be calculated from the fact that the payroll at the Montreal shops amounts to \$150,000 per month.

President Hays, discussing this feature of the great industrial upheaval, stated that he regretted having to deprive so many good men of their work, but that the company was faced with a great conflict which, he felt, had been unjustly forced upon them, and which left an absolute necessity for the course he had taken.

**Refused to Arbitrate.**  
President Hays oked this afternoon to leave the dispute to an independent arbitration, the decision to be reached on both sides, but the men would not hear this, and negotiations came suddenly to an end.

It came out this evening that the company have retained several private detectives and other officials scouring the county for days past getting together non-union train crews and setting

### A Loyal Lot of Men.

The Grand Trunk men have been considered for many years. They are the only people doing business with the company that have been expected to be patient. The shareholders who took the original loss are all dead and buried, and present holders have no substantial grievance. But the ghost of former extravagance and mispolicy has been haunting the men who operate the road for fifty years. They are as fine a lot of men as ever served a railway and many of them went away with the money in their pockets without a kick. They were always loyal to the old Gen. Lee. Now these men think the time has come for them to get their equal in pay and consideration, equal to that of other roads. Mr. Hays admits it, but says wait till we make the money in the west like the Canadian Pacific. The men say, give it now. And it is likely that they'll get it—Mr. Hays ought to make the effort. It will pay him in the long run.

**Sir Wilfrid Laurier, Speaking on Terminal Elevators, Says Public Ownership Is the Only Remedy, But Is Cautious With His Promises.**

BRANDON, Man., July 18.—(Special.)—Sir Wilfrid put in one of the busiest days of his trip in the wheat city. In the morning he received a civic welcome. This afternoon he had an extended conference with over two hundred delegates of the Manitoba Grain Growers' Association and later met a deputation from the board of trade, who asked for a branch line from the Grand Trunk Pacific, some fourteen miles away. The most important meeting of the day was the prime minister's conference with the grain growers who presented four memorials:

1. Asking for the abolition of duty on agricultural implements and a reduction of the tariff for revenue only.
2. Government ownership of terminal elevators.
3. The establishment of independent commissions of abattoirs.
4. A shelled wheat train service, the immediate building of the Hudson Bay Railway by the government and its operation under a commission.

The terminal elevator proposition Sir Wilfrid promised immediate attention. He was not prepared to go the whole way towards public ownership, but that was the only remedy he saw. "The outlet for the prime minister to discourage the abattoir scheme, and both he and Hon. Geo. P. Graham, minister of railways and canals, were silent upon the government ownership and operation of the Hudson Bay Railway. From the premier's reply, there appears to be no immediate indication that Brandon will be connected with the Grand Trunk Pacific, altho, his remarks were intended to convey the impression that at some time this would be done."

**Men's Last Offer.**  
In the afternoon the committee and officers presented Mr. Hays with the last possible basis of settlement that could be considered, which proposed to put into effect a temporary modification of the standard till 1911. Mr. Murdoch went on to say that Mr. Hays had refused completely the board's recommendation to standardize conditions on the Grand Trunk, proposing to perpetuate existing conditions.

The full effect of the order will not perhaps be felt till 7.30 to-morrow morning when trains starting before 9.30 this evening will reach the destination. He also said: "There is a protective fund of \$1,000,000 back of us and we will have no trouble about settling our bills for a month. We are now paying to the members of the order of conductors and \$35 a month to trainmen."

**Hope to Get Men.**  
Should the order be issued we are confident that it will be found that many of the employes of the company in the train service will disregard such strike and continue service with the company. We have a large number of applications from other parties desirous of obtaining employment, and shall also recruit largely from our own forces in other departments.

"In the meantime we shall make effective the rules and rates of pay offered by the eastern railway settlement of matters all shops on the system will be closed."

## Our Western Farmers, Shaughnessy, Laurier

Sir Thomas Shaughnessy is the head man of the great Canadian Pacific Railway. This head man, great as he is, said some time ago that as for his railway, himself and associates, they were paying no attention to what The World said about the way the new stock of the company was being issued as "melons" to shareholders or to the World's criticism of the proposed distribution of the funds of the company as a further bonus or meion to shareholders.

While this was a most brave and reassuring statement it must not be forgotten that Sir Thomas had already paid some attention to the criticism that was made in parliament and The World about the issue of stock, and contrary to his declaration that the last thirty millions of stock would be issued as par and that it was proper to issue it at par, he did pay sufficient attention to put it out at 125 instead of par, and thus put an additional seven and one-half millions in the treasury that could under the charter of the company be used for the reduction of rates.

Seven and a half millions saved—twice that, however, (at \$175 a share) switched away to the shareholders from the traffic rate payers, the people of the west!

Now, here is coming another annual meeting, and the question is, is it to be repeated? Think all you people of the magnitude of these illegal diversions of money declared by law to be ear-marked for the reduction of traffic charges!

Dare Sir Thomas "pay no attention" to The World, and in the midst of the awful crop failures in the west this year, switch away millions more of dollars of lands to his shareholders!

For those who pay the traffic charges Ruined Crops!

For the foreign shareholders millions of more money—that belongs to the people—given to the shareholders!

What a balm to the condition of things in the west if that Fifteen Millions of last year had gone to lower freight and passenger rates; if the immense surplus of this year and some of the swollen land values went to a further reduction of freights or in passenger rates!

It was all out and dried, notwithstanding any denials that may now be on the way, that this land melon was to be carved up at the forthcoming annual meeting!

Let us wait and see if Sir Thomas dare be a party to it.

Let us see whether he will pay no attention to The World's protest. Let us see what Sir Wilfrid Laurier will say to the crop-stricken farmers of the West when he comes before them with his merry tale of "Transportation, more transportation!"

Dare he, too, sit silent any longer?

Isn't Transportation, but C.P.R. rates that they are thinking about.

The farmers of the west, the great west, are watching Shaughnessy and Laurier on this vital issue, notwithstanding the awful silence of the press and of our public men. Never was such abject silence heard in this land.

Dare Shaughnessy pay no attention to this protest!

Dare Laurier refuse to demand for the people of the west the rate reduction that the C.P.R. has provided for them!

Is it to be more melons for shareholders?

Or, some relief to the farmers who pay the traffic charges?

Watch the panorama as it unfolds and watch the stock market as its pointer.

**WESTERN CROP REPORTS.**  
The Canada Grain Co. yesterday received a telegram from President G. T. Somers, now in Winnipeg, saying: "Drought, high temperature, and hot winds playing havoc with crops; southern part of provinces reported completely failed. Condition is serious. Think rain and cool weather would give good crops in north and middle."

A letter from a farmer four miles from Hazelridge, which is 17 miles east of Winnipeg on the C.P.R., says: "Everything in a flourishing condition here. Crops are coming along in grand style."

## TO JAIL FOR TEN DAYS FOR NEWSPAPER THEFT

**Magistrate Kingsford Makes an Example of Three Boys—\$10 Reward for Detecting Other Cases.**

The theft of a newspaper or even fifty newspapers a day may seem a matter of small moment at first blush, but upon a deeper consideration it is not so insignificant.

It means just that many subscriptions for the paper are not at your door in the morning, you are not pleased. Then you blame the newspaper publisher and consider the one person to blame for the culpability of newspapers in general, or that sheet in particular.

But if the papers are being stolen, the newspaper publisher is not to blame until it is too late to rectify the theft. It is for this reason that stealing newspapers and stealing milk are two of the meanest crimes on the calendar.

The World offers ten dollars reward to anyone who furnishes evidence leading to the arrest and conviction of anyone stealing its papers. This offer is made to protect the subscriber and the advertiser from the meanest sort of thief.

Samuel Berkowitz, Fred Lang and Aaron Weinstein, three newbeys who were yesterday sent to jail by Magistrate Kingsford for theft of the newspaper, had newspapers from the packages sent on the early morning ferry to the island.

For some weeks, complaints had been received at the office of the department of this paper from the island that the delivery had been missed to a number of subscribers. It was found that somewhere between the office and the island these papers were being stolen at the rate of from 20 to 50 a day.

The department got busy, with the result that the three young men were caught red-handed on the 6.10 ferry to the island on Friday last breaking into the packages and taking the papers.

"This is to make an example, to show that this sort of theft is not a little thing, but a very grave harm both to the people and to the newspaper," said Magistrate Kingsford in sending the young men to jail for three days without the option of a fine.

It is not alone at the island that these thefts have been taking place, and The World is determined to stamp them out.

**W.M. MACKENZIE HOPEFUL**  
Thinks an Optimistic View of Crop Conditions is in Order.

The World asked Wm. Mackenzie yesterday about the reported failure of the crops in the west. His reply was: "Never take the pessimistic view until the last shower is in."

He went on to say, from the reports received a week ago from most of the points along the line of the C.N.R. in the west, "that the average condition of the crops was good, and he expected to receive reports again tomorrow confirming the state of affairs of a week ago, and showing considerable improvement. His own opinion was that the crops have been reported down far too much, and that when the grain came to be cut, there will be almost an average, and at many points, good crops."

This was especially true along the line of the C.N.R. Any had reports that have come along have come mainly from the south. Mr. Mackenzie was quite hopeful as to the general condition of the crops in the province, and for the reasons stated above.

**WISHED BABE WOULD DIE**  
Mrs. Dumas Frequently Gave it Short Time Only to Live.

Coroner Graham's jury heard some evidence at the morgue last night in connection with the death of the infant, Walter Brown, who died on July 2, at 3 Gerrard place.

Mrs. Ransy, at whose home Russell Dumas and his wife, who adopted the baby, lived, was the first to testify. Mrs. Dumas had told her that her husband was a doctor and that at times he gave the child laudanum and powders to make him sleep. Mrs. Dumas had also told her she hoped the child would die on Wednesday, as Russell was going to take her and her sister to the island and if he lived they could not go. Before the little fellow's death witness said Mrs. Dumas had said that Russell thought he could pull him thru, but as the doctor said the child's brain was affected it was better to pull out of misery.

Mr. Dumas, said witness, "was always giving it half an hour to live."

Dr. A. R. Pyle, who examined the baby's stomach, said that he found no traces of laudanum or poison in it. The inquest was adjourned for a week.

## PAPAL DELEGATE IS NOT LIKELY TO RETURN

Is Said to Be Regarded by High Church Officials as a Fifth Wheel to the Wagon—Will Not Be at Eucharistic Congress.

MONTREAL, July 18.—As the opening of the Eucharistic Congress is only seven weeks away, it is nothing more than natural that the interest in this great Roman Catholic function should be daily on the increase. His Excellency Mgr. Sbarretti, for a number of years papal delegate to Canada, will not be amongst the dignitaries present, and no one appears to know if his excellency will ever return again to the Dominion. It has in fact been felt for some time past that his excellency was like a fifth wheel to the ecclesiastical coach in this country for as yet no one has been able to see what the Ottawa delegate has done that could not have been accomplished by the archbishops and bishops of the Dominion.

Mgr. Sbarretti was looked upon as a political agent, a former minister of justice having unfortunately convinced the Vatican that the natural leaders of the church over here were not of the same calibre as the first delegates were brought about by a petition sent to Rome, signed by every Catholic Liberal member of the senate and house of commons. The statement was made not long since

## HOW THE STRIKE BEGAN IN TORONTO

The local effect of the trainmen's strike was to prevent the timely departure of the three trains due to clear from the Union Station last night after the walk-out of the trainmen on both sides, but the Montreal flyer, due to move eastward at 10.15 p.m., but which didn't get fairly under way until 11.25 p.m. The train for Belleville, which was to start at 11 p.m., but held up until 11.34 p.m., and the train for Montreal, which should have left at 11.20 p.m. but didn't get under way until 11.45 p.m. The Grand Trunk officials expressed confidence that the train due to arrive from Hamilton at 1.15 a.m. would go on to Muskoka at 2.05 a.m. and be able to carry out its program.

Both sides professed satisfaction with the outcome locally last night. Superintendent U. E. Gillen of the Midland division smiled cheerfully as he made the announcement that the trains were kept going, but the strikers took plentiful consolation from the obvious fact that the railway was compelled to bring into use the services of officials to act as conductors. The train from Belleville, which arrived on time around 10 p.m., carried as conductor Superintendent Coleman of Belleville, and when the train for Montreal pulled out an hour late, it was Mr. Coleman who walked the length of it with a swinging lantern, gave the engineer the signal to start and shipped the train. The conductor, Superintendent Bowker went out on the Detroit train. It is asserted by strikers who were present at the proceedings, but maintained perfect order and good nature, that the trains were without their complement of trainmen. The engineers and firemen are not affected by the strike thus far.

**Started Out Haltingly.**  
It was 11 p.m. when the Montreal train began to move out of the station. It was made up of nine coaches and baggage car and carried a full load of passengers. The train crawled along slowly after several false starts and when about 100 yards out of the station came to a stop, and so remained for nearly 15 minutes. Apparently, the engineer was not enthusiastic about

making the run, and reports were current that the fireman would quit the job at Belleville, if not before. The train finally disappeared, after having been delayed an hour and ten minutes.

Among the passengers on the train was a contingent of Masons, bound for the meeting of the Ontario Grand Lodge of Masons at Belleville.

Considering the importance of the trip, there was strangely little excitement at the station. Early in the evening it was reported that the men would quit at 9.30 p.m., but Superintendent Gillen and other officials, in conference in Mr. Gillen's office and declined to discuss the situation. When an official came in at 9.40 p.m. with the announcement: "Everything in the yards has gone dead," no surprise was shown.

**No Disturbance.**  
Passengers for outbound Grand Trunk trains accepted the condition of things philosophically, the looking wistfully at their more fortunate fellows booked to travel by the C.P.R. Good nature prevailed. J. D. McDonald, district passenger agent of the G. T. R., and other officials moved about among the passengers were advised to wait, the promise being given that early or late, the trains would pull out. A number of Grand Trunk detectives were present, on the lookout for individuals who in the company's interests, it might be desirable to exclude. Lotteries were called upon to show their tickets. One of the suspects proved to be a Port Credit hotelkeeper and the alert detective was disconcerted on discovering this gentleman's identity.

**Superintendent Gillen Satisfied.**  
When seen at midnight, Superintendent Gillen smiled as he said all was working well, very well indeed. It was stated in his office that the Hamilton train was expected to start with Conductor Meyers and the Muskoka train with Conductor Flanders, but the strikers claimed otherwise.

While the law requires that each train shall be manned by three qualified men—outside the engine crew—who have passed the rules of the company, the men say that No. 2, the Montreal

train, which was due to start out at 10.15, and which was an hour late getting away, had not a single "qualified" man aboard.

Superintendent Coleman of Belleville, who acted as conductor, got all of his railroad experience, they say, from the Scranton School of Dependence. Grant Gordon, who acted as brakeman, is a car distributor in local Superintendent Farrell's office, and they allege he never had any practical experience on a train. The train had no baggage man. This was the International Limited, connecting with the eastern and western lines. No. 17, which was due to depart for London and Detroit at 11 p.m., had Superintendent Bowker of London acting as conductor, whilst Traveling Engineer R. Fish of Hamilton did the braking. A traveling engineer is a sort of road foreman of the engineers.

All the incoming trains reached destination, even the some of them arrived after 9.30 p.m., and some left the city before that hour. This was according to instructions from headquarters. The crews who started on their runs prior to the appointed hour, are bound to finish their runs. Some anxiety was felt the Union Station that the International Limited from Detroit, due in Toronto at 11.10, was about 20 minutes late in arriving. Her engine broke one of her pistons. Just before she reached the city, she was east of Parkdale in his disabled state, but was unable to lift the long train into the yard and was stalled until No. 13 from Niagara came along, and gave her a push.

**Pickets for the Men at Mimico.**  
Pickets for the men returned at 11.30 with the information that not a wheel turned in the Mimico freight yards after 9.30 p.m. Four "manifests" (fast freight) were stalled on account of no crews to take them out. The engines were ready because the firemen and engineers are restrained from a strike because of an agreement with the company which has still a few months to run.

No regular yardmen were working in the Union Depot yards after 9.30. The telegraphers waited anxiously for

## Our New York Letter

(From Our Own Correspondent)

New York, July 15.—This notion of wearing veils instead of hats in the evening is rather a pretty one, and is one of the Summer fads which crop up. No one quite knows how, but which take possession of the younger element each Summer season in some form or other.

The pretty young girls who ride down to the beaches in the breezy open cars all wear over their hair, not the ordinary hat which accompanies the daytime costume, but a long chiffon veil in some dainty color, tied in two knots which come directly over the ears, the space between the knots fitting over the head like a little round bonnet. The long ends of the veil fall forward over the shoulders like Gretchen braids of hair and give a youthful look.

One sees these knotted veils also in sail and motor boats and they are most popular for evening motorizing. For the hair is kept trim and tidy under the little knotted cap, while the whole head covering is delightfully light and cool.

There are, also, chiffon motor hoods shirred on heads, which are becoming as well as comfortable for warm weather use. Persian printed chiffon is used for these bonnets with a lining of plain colored chiffon harmonizing with the Persian design, and the light chiffon is run in half-inch tucks through which pass flexible reeds. These reeds are caught together in a group over each ear and a big rosette of the chiffon covers the stitches. Sometimes a little tulle is added at the back of the bonnet, to protect the neck from dust.

For the satisfying of every taste, while the early date of the offer makes it vastly more worthy of consideration by prospective buyers. They are divided into three selling groups, as follows:—

Lot 1—Popular Length Coats and Stylishly-made Shirts of repp, crash, plain linen and Hollands, with short and shawl collars, plainly finished, and with broche or Oriental trimmings and smart button ideas; the colors natural, rose, navy, blue, cream, grey. ## New Effects in Men's Outing Suits

A New Weave at \$14.00 is an instance of the particularly good buying to be had. The material, a lightweight tweed, has the general appearance of a grey and white stripe effect, the ground is of alternate very fine grey and white stripes, with narrow light grey group stripes 1 1/2 inches apart, the whole blending so well that the stripes are not "striking," yet are most effective. It is a new design that will strongly appeal to young men; new single-breasted model; trousers have belt loops and cuffs. Price Wednesday ..... \$14.00

At \$12.50—Two-piece Suits, in those popular medium and dark grey tropical worsteds, pin check patterns; coats are three-button single-breasted style, with medium long roll; trousers have belt loops and cuffs; sizes 35 to 44.

At \$13.50—Two-piece Suits, in light brown, greys and smoke shades, pin check and neat striped patterns, lightweight worsteds, single-breasted half-lined coats; trousers easy fitting, and light cuffs.

At \$16.50—Two-piece Suits, in tropical worsteds and flannel-finished tweeds, the favorite colorings and new designs; superbly tailored in three-button single-breasted styles, half-lined coats.

## HENLEY RACE RULES CHANGED.

Important Alterations Made in English Regatta Events.

LONDON, July 18.—Important changes have been made in the rules governing the English Henley regatta. The following alteration to existing rules, recommended by the committee of management, was adopted:

"No crew or member of a crew shall be entered for the Ladies' Challenge Plate and for the Thames Challenge Cup at the same regatta, such crew or member thereof entered for both such races, shall, before the draw for heats and stations in the numerous entries for the Ladies' Plate and Thames Cup, as to necessitate a four days' regatta. Thus the expenses have been considerably increased, without any proportionate increase in the receipts.

The alteration is regarded with favor among the principal rowing clubs around London, who are debarred from competing for the Ladies' Plate, altho they frequently have to row against the college crews competing for the ladies' eight.

Thus the change will tend to bring the competing crews more in line, and the racing should thereby be an improvement upon previous years.

## ENGLAND HAS JOHNSON RIVAL.

British Heavy-Weight is Touted as White Man's Hero.

LONDON, July 18.—Eugene Corri, the most noted fight referee in England and who refereed the Burns-Moir championship fight, when asked if he thought it possible to find a man capable of beating Johnson, replied: "I believe it is. There is a man down at South End, where I live, who has a great chance, in my opinion. His name is Bombardier Wells. He was formerly in the army and has just returned from India and was trained while there by Maloney, an American, and beat every man he met.

"Wells has a longer reach than Johnson, stands 6 feet 3 inches, and for a heavyweight is wonderfully quick on his feet. He is 21 years old and his last match was with Gunner MacMurray, whom he knocked out in half a round. His next match is with Jim Maher of America.

BUSINESS IN THE UNITED STATES

The United States is the uncertain factor in the world's money market. Gold is being brought into New York steadily from Europe, not at all a good sign.

ELECTRICAL FARMING.

On former occasions The World has directed attention to the experiments carried on under the direction of Sir Oliver Lodge, principal of the University of Birmingham, for the purpose of ascertaining the influence of electricity as a stimulant of plant life.

The new process is now under test on a plot of two acres, part of a farm at East Northport, near New York, and the method employed is that used in Germany with remarkable effect.

AVIATION ASS'N SUE WRIGHTS FOR \$40,000

Claim Breach of Contract for Neglect to Send Machines and Mechanics to the Weston Meet.

The International Aviation Association have, thru their solicitor, Alexander MacGregor, entered suit against the Wright Company of Dayton, Ohio, for \$40,000 damages for breach of contract.

The association officials claim that the agreement made by the Wright Company provided two things: First—That the Wright Company would furnish one aeroplane on July 7, two on July 8, three on July 9, three on the 10th, three on the 11th, two on the 12th, two on the 13th, and two on the 14th.

It is claimed in regard to the first part of the contract that the Wright Company had only one machine in operation during the time of the meet, and that on Tuesday, July 12, they failed to make any flight whatever, and on two other days, they were unable to get a machine off the ground for short flight, and were obliged to make further repairs.

They also claim that during the time of the Toronto meet, the only Wright aviator who appeared during the entire time of the meet was Ralph Johnson. Duval La Chapelle was sent to Detroit without consulting the management on Tuesday night, July 12.

Mr. Walsh did not appear at any time during the meet, nor did Mr. Hoxsey. Furthermore, it is stated that the Wright Company used Mr. Hoxsey for making flights at their meet there, which lasted from Thursday to Saturday of last week.

NEED CANADIAN FRUIT IN THE ENGLISH MARKET

Plenty of Opportunity to Improve Trade, Says Lockie Wilson, Who Has Investigated.

J. Lockie Wilson, superintendent of agricultural societies for Ontario, returned from an eight weeks' trip to the old country and will submit a report to the government, which, when printed, will be distributed among farmers.

The peach business can be worked up to a wonderful extent in England, said Mr. Wilson. "Peaches have sold in Covent Garden Market as high as from 8 to 18 pence each. The Englishman wants fine stuff, and wants something different from what is to be seen in every store.

Market for Tomatoes. The same thing applies to tomatoes in England, Mr. Wilson found. He saw tomatoes selling in the open market at three pence a pound. Most of these are grown and shipped from the Canary Islands, while thousands of pounds are grown under glass in England, at great expense.

"The tomatoes we grow in Ontario are well suited to the English market," he said. "In Prince Edward County we grow across the line, and in the Canaries they pack in peat and sawdust and ship to London. It takes seven days to get to London, and the tomatoes will keep in London without cold storage, from one to two weeks.

"Some years ago we sent tomatoes to the old country in cold storage, but they didn't do well. The reason for that was that tomatoes rot very quickly in the cold. But if they are carefully packed in peat and sawdust, and sent to London, they will bring good prices in the market there. We have the peat and we have lots of sawdust, and we have an amount of wood to keep the machines in order, and as a result, did not fail to make flights on each day.

'JOE' MARTIN IN CITY HARD ON HIS LEADERS

Asquith Without Genius to Lead—Believes There'll Be Compromise Over House of Lords Vote.

Joseph Martin, ex-premier of British Columbia, and now Liberal member of parliament for East St. Pancras, London, Eng., was in the city yesterday, leaving at night for the coast.

"As far as the Radicals are concerned, they want no compromise. They contend that the veto resolution as introduced by the government and put in the house of commons, was the right course. If the government determine any compromise whatever, they will forfeit the support of the Radical party and also infuriate the Labor and Irish members.

"In spite of this, I believe that the government intend to enter into a compromise, and they will carry with them probably a majority of their supporters in the house of commons. There will be a large minority ready to turn them out of office. They will have to rely on the Conservative party to keep them in power.

"I believe it will be part of the compromise that the Conservatives will keep their seats in office until the next general election, which will probably be in about five years' time. This looks rather an improbable course for the Conservatives to take, but it must be remembered that they put forth their whole strength in January last, and they did not believe if an election took place now that they could carry the day.

"I believe that the present government would be sorry to see the house of lords destroyed. The object of the Conservative party in carrying a compromise and agreeing to keep the present government in office is to protect the house of lords from destruction, as they rightfully consider it the most important asset of their party.

"The premier, Mr. Asquith, is a man of considerable ability and highly respected, but he has no qualifications for any party to succeed in a battle such as the destruction of the house of lords, without having a strong leader."

TRAINMEN STRIKE, SHOPS CLOSED

Continued From Page 1. word to strike or not to strike until 10 o'clock. When they hadn't been advised by that time they knew that a settlement in their branches, at least had been effected. They were asking pay for Sunday labor and a minimum of \$65 per month. Generally they asked a scale which would put them on a basis almost even with the C. P. R. operators.

History of the Strike. The men were not prompted to their action by any message. Rather they took their arbitrary stand because they received no communication. It was originally intended that they strike at Sunday midnight. Then they were advised to await the outcome of a 10-day conference with President Hayes.

The strike may not affect the men in the roundhouses in the slightest, unless after a day or two a great many of these are laid off thru lack of work. The men say that 4-5 of the engines will not move; there will be absolutely no freight transported and very shortly the company are bound to cut down the coal and oil supply thru sheer idleness.

In case the G.T.R. is able to get men to take the trains, the men say that the other roads of Ontario will not accept their business at transferring points in the fear of precipitating trouble in their own shops. This means that the Grand Trunk can't get thru freight past such ports as Niagara Falls, Buffalo and all eastern connections from Montreal or the roads out of Ontario and Detroit.

HOW 1000 OFFICE BOYS HAVE ROBBED N.Y. STATE

Have Participated in Fraudulent Use of Cancelled Tax Stamps—Estimated at \$2,000,000.

NEW YORK, July 18.—State Comptroller Clark Williams has issued a statement in which he reveals the inner details of a conspiracy of one thousand W. E. street office and messenger boys, stamp dealers and runners, who last year defrauded the state out of \$2,000,000 in stolen stock transfer stamps.

Confessions from a number of boys indicate that the thieves worked under the very noses of the most reputable brokers and bankers in the financial district. The lads made as much as \$18 a day disposing of new or cancelled stamps. Some of the stamp dealers have become independently rich. Even junk dealers were made a part of the system, and from them cancelled stamps were purchased in vast quantities to be used again.

In their passion for the quick wealth to be obtained thru stamps, some of the stamp dealers even hired burglars to raid brokers' offices at night in order to obtain the cancelled stamps in the waste baskets.

"The importance of this revenue will be appreciated," says Comptroller Williams, "when it is understood that during the last fiscal year taxes amounting to \$5,355,646 were collected from the sale and transfer of stock. The department was aware that thru improper practices considerable revenue was being lost, but not until a thorough investigation had been made was the magnitude of these frauds apparent. At the outset it was estimated that the state was losing \$2,000,000 a year."

Brokers frequently send messengers with a certified cheque to the order of the agent of the comptroller to make necessary purchases. Instead of buying direct from the agent, the boy obtains the stamps from a stamp dealer at a discount of from 5 to 7 per cent., delivering the certified cheque to the dealer, who, in turn, presents it to the agent of the comptroller and purchases stamps of small denominations, which are in such demand that the dealer can easily dispose of them at par.

"In following out this work, we have been surprised at the ingenuity displayed in creating tickets and stamps affixed ranging in value from \$1 to \$20, which clearly indicate their second use."

"As evidence of these methods, the comptroller has the signed confessions of several brokers' employees and messengers, and also many oral confessions, which corroborate each other and explain the methods by which from \$500 to \$1800 has been realized by messenger boys in the course of the year's transactions. The department has found emanating from at least one hundred different brokers' offices tickets giving clear evidence of the second use of stamps and honestly on the part of brokers' employees."

J. N. MCKENDRY BURIED

Many Beautiful Floral Tributes From Friends and Associates.

All that was mortal of J. N. McKendry, for many years a leading merchant, who died in London, Eng., on July 1, while on a holiday trip, took place yesterday afternoon from the residence on Eglinton street, the large number present and the many magnificent flowers which were sent to be placed upon his coffin proved how popular he was with his business associates and his large circle of friends. Prominent among those who were present were the following: J. N. McKendry, a wreath from the King Solomon Lodge, A. F. and A. M.; a wreath from the Canadian Order of Foresters; a spray from the Canadian Temperance League; a wreath from the Ladies' Aid of Sherbourne-street Methodist Church; and a wreath from the Wychwood Methodist Athletic Club.

The service was conducted by Rev. Dr. Ross of Sherburne Methodist Church.

ASSAULTED THE CONSTABLE

WOODSTOCK, July 18.—(Special.)—Edward Harrington of Brantford and Edward O'Connor of Walkerville, were sentenced to five and six months respectively in the central prison. The young men were on a spree here, got fighting and severely handled Constable Robinson. They were charged with disorderly conduct and assaulting a police officer. Both have police records.

MILK CAUSED INFANT MORTALITY

OTTAWA, July 18.—(Special.)—Of two hundred babies that died in Ottawa last year, ninety-seven died during August. The cause of the deaths, says the city health officer, was chiefly owing to the difficulty in preparing and keeping ordinary milk at the homes. To combat this the city has decided to have milk prepared in several different strengths and put up in bottles, one for each feeding.

Waitress Killed by Flat Cars

WINNIPEG, July 18.—(Special.)—Alice Bell, employed as a waitress in the C. P. R. lunch counter, was instantly killed while taking a short cut to work thru the C. P. R. yards, passing between two flat cars, when the switch engine struck on the track and caught her between the cars.

THE NEW SHEA'S THEATRE

"Vaudeville de Luxe" at But Slightly Increased Scale of Price.

Manager Shea has sent out an announcement circular to patrons of the Yonge-street Theatre, regarding the policy of the new theatre at Richmond and Victoria-streets, which will be opened on Clivie Holiday, Monday, Aug. 1. It is intended to present "vaudeville de luxe." Mr. Shea says in part:

"Vaudeville has made tremendous strides in recent years. Salaries of artists have doubled and tripled and the weekly cost of our shows is more than double what it was five years ago. All this time prices of seats have remained the same. The time has come when it is absolutely necessary to make a slight advance, and knowing that our patrons will prefer this to a cut in the quality of performances, we have decided to make the change on Aug. 1.

"On and after this date the first 10 rows of orchestra chairs will be 75 cents, and the remainder of the ground floor 50 cents. Daily matinees will be held at 2 o'clock, and tickets at 25 cents to any part of the house.

"We have arranged for the appearance here of several stars never before seen in vaudeville. When you realize that these great artists will be surrounded by seven other vaudeville acts you undoubtedly will agree that we are justified in the slight advance asked."

ORGANIZING PEACE CELEBRATION

NIAGARA FALLS, Ont., July 18.—To-morrow the Association for the Peace Celebration in 1915 will be permanently organized at a meeting here. Prominent men from both Canada and the States will be in attendance.

Another unknown body was taken from the river to-day in a bad state of decomposition, having evidently been in the water over a month.

Five Killed by Dynamite Explosion. NAZARETH, Pa., July 18.—Five men, all foreigners, known by numbers, were killed this afternoon in the quarry of the Nazareth Portland Cement Co. by the premature explosion of a charge of dynamite. This is the same quarry in which seven men were killed in a similar manner a few weeks ago.

CRITICAL SITUATION IN SPAIN

Workmen Threaten to Call General Strike.

BARCELONA, Spain, July 18.—Great anxiety over the approach of the anniversary of the Barcelona riots of July 27, 1909, is apparent in government and police circles.

The Carlists and Republicans are now holding opposition meetings, and the situation is becoming tense. The threat of the workers' organization to call a general strike.

Gen. Weyler, captain-general of Catalonia, who one time was governor-general of Cuba, is assembling his troops at critical points, with the intention of crushing any outbreak.

The churches and convents, probably of the Duffin Driving Club, are being equipped with steel doors.

BUTCHERS' PICNIC

Big Program is Arranged for To-Morrow's Annual Event.

Ladies, please do your shopping early to-morrow so far as the butcher is concerned. The exhibition is assembling at noon sharp, so that all the butchers can attend their ninth annual picnic, to be held at the Exhibition grounds.

The unusually fine program has been prepared. It includes three trotting races, for prizes, under the auspices of the Duffin Driving Club, with a half-mile running race for butchers' silver horses. Silver cups will also be given for butchers' turnout. Then there will be a mile hand race, a bicycle race, a free-for-all chase after a slippery cap and greased pig, cap to own; a baby steeplechase, with prizes for classes under and over one year; all kinds of foot races, jam eating and watermelon contest, and climbing the greasy pole. The Royal Grenadiers' Band will give a concert, and an orchestra will provide music for dancing.

INVESTIGATING IRON DEPOSITS.

COBALT, July 18.—(Special.)—A party of men left here to-day to fully investigate the iron deposits on the Mattagami. The men are accompanied by canoe men and guides, and will be gone a month, making a short pleasure trip out of the journey. Those who are going are: Dr. Crozier, R. F. Strath, E. Leduc, Port Arthur; J. Newman, Duluth; W. F. Powell, Halesbury; and R. J. and R. F. Flaherty, Cobalt.
