RUSS FIGHTING BULGAR

First Clash in Eastern Roumania Where Bulgar Outpost Was Captured.

Special Cable to The Toronto World.

LONDON, Sept. 5.—The loss of Orsova and Herkulesfurdoe, two Transylvanian towns, is reported in an official dispatch received from Vienna tonight, although no statement has been sent out from Bucharest. The Rumanian war office announced several days ago that the railway stations of Orsova were within range of Rumanian artillery, and the retirement of Austrians from the town has been rumored in the past day or two.

Russians Oppose Bulgars.

Russians and Bulgarians are fighting in Roumania. The Russian war office announced today that the first clash between the Bulgarians who invaded eastern Roumania and the Russians, who went to assist Roumania, occurred yesterday. A Bulgarian cavalry outpost was seized by Russian cavalry.

Rumanian Advance Rapid.

The advance of the Rumanian troops in the first five days of their campaign was considerable, and at some points was as much as 80 kilometers (about 48 miles), says a dispatch from Urgent under date of Saturday to The Petit Parisien. The forward march, however, now has been somewhat slackened because of the difficulty of sending revictualing convoys.

Roumania's Declaration of War.

The despatch adds, as so unexpected by Austria that only a few troops of the dual monarchy were on the Rumanian frontier, and these were not on guard when hostilities were begun. Half an hour before war was declared by Rumanian officers were drinking with Rumanians at a frontier railroad station. Soon afterward a Rumanian outpost entered the station, took the officers as prisoners and then captured quantities of materials. The Rumanian offensive was so sudden that the Austrians had not time to blow up bridges nor tunnels.

Roumanian Town Taken.

Bulgarian forces have captured the Roumanian town of Dobrich, 12 miles inside the Roumanian frontier, it was announced this afternoon. German airplanes have again bombarded Bucharest. Dobrich (Dobrich) is across the Roumanian border northwest of the Bulgarian port of Varna. Dobrich is the largest town yet captured by the Germans and Bulgarians in their invasion of Roumania. It has a population of about 15,000, and was in Bulgaria until the last Balkan war, when Roumania forced the Bulgarians to surrender the Dobruja territory.

C. P. R. LINER MONTREAL DAMAGED IN COLLISION

Big Freighter Towed to Anchorage in Thames After Mishap.

LONDON, Sept. 5.—The C.P.R. liner Montreal was in collision with a British warship in the Downs today, and was towed to an anchorage in the Thames off Tilbury.

Advices received by C.P.R. steamship officials at Montreal are to the effect that the steamer was not greatly damaged.

The Montreal is a steel, twin screw, four-masted steamer built in 1909 for service between Canadian and English ports. She is 469 feet long and has a beam of 62.2 feet. Liverpool is her port of registry. The steamer carried 20,000 cases of cheese.

FRANCE'S WAR OUTLAY CONTINUES TO EXPAND

Appropriation Asked for Last Quarter of Year Shows Increase.

PARIS, Sept. 5.—Alexandre S. Ribot, the French minister of finance, will ask the chamber of deputies for appropriations for the last quarter of 1916 amounting to \$347,000,000 francs, or about \$69,400,000 more francs than was asked for the present quarter. The total appropriations asked by the French Government since August, 1914, will amount to \$1,000,000,000 francs (about \$200,000,000) roundly.

MAJ. MADDEN, PHYSICALLY UNFIT, GETS DISCHARGE

Special to The Toronto World. ST. THOMAS, Ont., Sept. 5.—Word has been received in St. Thomas, that Major H. B. Madden, who went overseas in command of C. Company of the 21st Battalion, has been honorably discharged as physically unfit for further service. Major Madden will return to Canada soon.

EX-MINISTERS' TRIAL ENDS IN DISAGREEMENT

Only Three Jurors for Acquittal of Roblin, Coldwell and Howden.

WINNIPEG, Sept. 5.—After hearing evidence and argument for six weeks the twelve men chosen to try the guilt or innocence of Sir Rodmond Roblin, George H. Coldwell and James H. Howden, reported at 4 o'clock this afternoon that they could not agree. Justice Prendergast accepted their statement and they were discharged.

TO BE SECOND TRIAL

Charge Against Roblin of Destroying Documents Was Laid Over.

The jury stood 9 to 3, so Percy Webb, the foreman, told the judge. It was learned afterwards that nine were for conviction and three for acquittal. The case was put over to the full assizes, but whether or not there will be a second trial of the charges against Sir Rodmond Roblin, also was laid over. The ex-ministers, who have not been in custody at any time, continue at liberty on their own bail bonds of \$50,000 each.

BRITISH DRIVE TOWARDS COMBLES WHILE FRENCH WIN ON THE SOMME

Strong German Positions Taken by British Troops, Who Continue Forward Movement From Guillemont South to Depth of Nearly a Mile.

Special Cable to The Toronto World.

LONDON, Sept. 5.—In the great battle which continues violently to rage on the front of the Somme, the British army today again pushed forward and captured all the ground between Falfemont Farm and Leuze Wood and the outskirts of Ginchy, and they further strengthened their positions in the Leuze Wood, capturing the greater part of it and taking 60 more prisoners.

They had gained a footing in Leuze Wood in all-night fighting in which they advanced 1,500 yards east of Guillemont. South of this battleground the British also captured a strong system of German defence on a front of 300 feet around Falfemont Farm, and today their operations were directed to clearing the enemy out of the intervening space of a depth of 1,500 yards between the Leuze Wood and the Falfemont Farm and that farm and Ginchy Village.

These successes gain the British Army control of all the high land on which the German defensive system rested these twenty months in Picardy. The British positions are now higher than the German positions, and they consequently dominate the positions of the enemy.

The total number of prisoners taken by the British in the past three days' fighting amounts to about 1,100. The French also, in conjunction with the British captured several important positions north of the Somme, and both the British and the French are now approaching Combles, the key of Peronne.

Tonight's British official communication says: "Today's fighting resulted in further strengthening our positions in the Leuze Wood, of which we now hold the greater part. Sixty more prisoners were taken."

ENCOUNTER BAD WEATHER. "Despite the heavy enemy artillery fire and the indifferent weather conditions our troops are still pushing forward, and are in possession of all the ground between Falfemont Farm and Leuze Wood, and between Leuze Wood and the outskirts of Ginchy."

"During the day we bombarded the enemy's positions in the vicinity of Hohenloher redoubt, opposite Ginchy and south of Neuve Chapelle. Yesterday despite unfavorable weather our aeroplanes carried out successful co-operation with our artillery."

The text of this afternoon's British official statement says: "During the night we increased our gains in the neighborhood of Guillemont. In spite of the enemy's stubborn resistance and an unceasing deluge of rain our troops pushed forward to 1,500 yards east of Guillemont Village and have obtained a footing in Leuze Wood."

"Further south, after severe fighting, the whole of the enemy's strong system of defence on a front of 1,000 yards in and around Falfemont has fallen into our hands."

"Prisoners continue to be brought in, and the total up to last night since the morning of September 3 exceeds 1,000."

"Fighting in Ginchy continues. "During September 3 hostile aircraft showed great activity, and fighting in the air was continuous. The enemy's aircraft were forced to remain some miles in the rear of their own lines and entirely failed to interrupt the work of our machines. On two separate occasions our aeroplanes opened fire on the enemy's troops on the ground."

"As the result of many combats three hostile machines were brought down and seemingly wrecked. Many others were driven down in a damaged condition. One of our aeroplanes dropped a hostile kite balloon. Two of our machines are missing."

Hundred Machine Guns, Many Prisoners and Strong German Defensive Position Taken by French, Who Repel Enemy Counter-Attacks.

PARIS, Sept. 5.—The French troops have captured the Village of Ommecourt, Hospital Farm, Rainette Wood and part of Marrières Wood, and progressed in other regions north of the Somme, according to the official communication issued by the war office tonight.

South of the Somme a furious battle raged throughout the day. The French captured a line of German trenches and repulsed all counter-attacks. The prisoners captured since September 3, number 6550, and the cannon 36.

The text of the French night communication reads: "On the Somme front, despite the bad weather, our troops continued to progress, and during the day secured important advantages. North of the river, following a series of brilliant actions, in which our troops gave proof of irresistible spirit, we pushed our line into the district east of Forest. We reached the west outskirts of Anderlu Wood, took by storm Hospital Farm and Rainette Wood, captured part of Marrières Wood and occupied to the northeast of Clerly the extremity of a hill traversed by the road from Bouchavesnes to Clerly."

STRENGTHEN POSITIONS. "We also strengthened our positions north of the river, connecting them with the southern bank and taking the Village of Ommecourt, which is entirely in our hands."

"The war material taken since September 3 in the north sector includes 32 guns, of which 24 are heavy guns, two bomb throwers, two trench guns, an important stock of 150 millimetre shells, one captive balloon and a large number of machine guns. We have not yet counted the prisoners captured on Tuesday."

FIERCE FIGHT RAGED. "South of the Somme the battle proceeded the whole day with extreme violence. The enemy multiplied his counter-attacks, launched in mass at a great number of points along our new front, notably southwest of Barleux and southeast and south of Belloy. Notwithstanding the repeated efforts of the enemy we maintained our lines and inflicted sanguinary losses on him."

"Between Vermandovillers and Chilly we carried a salient and numerous isolated positions held by the Germans."

"East of Soyecourt an attack by our troops gave us a line of German trenches and enabled us to reach the outskirts northwest and south of Dedicourt Farm."

TAKE 100 MACHINE GUNS. "The total number of prisoners taken since yesterday south of the Somme has reached 4007, including 55 officers. In the same southern sector four heavy guns and a hundred machine guns fell into our hands. The total number of prisoners taken since Sunday on the French front of the Somme is 6505 and the number of guns 36, including 28 heavy guns."

There was an intermittent cannonade on various parts of the front, which was rather violent east of the Meuse (Verdun sector) in the sectors of Fleury and Chenois."

The text of the French official statement of this afternoon follows: "On the Somme front, despite the bad weather which prevailed all night hampered operations. Our troops are organizing themselves on the ground gained."

COUNTER-ATTACK BEATEN. "North of the river the Germans delivered a strong counter-attack, debouching from Anderlu Wood against our positions between Combles and Forest. Caught under the fire of our artillery and machine guns the assaulting troops broke up and flowed back to their starting line, having suffered heavy losses. The enemy made no further attempts."

"South of the Somme the Germans attempted an action at only a single point of the front, to the east of Belloy-en-Santerre, where several attacks were repulsed by our fire. The enemy left about 100 more prisoners in our hands."

"On the banks of the Meuse (Verdun sector) the night was comparatively calm. In the Fleury and Le Chenois sectors we took 50 prisoners, including two officers. An enemy attack to the southeast of Thiaumont Work met with a complete reverse."

"Aviation: One of our aeroplanes, which was attacked by four enemy machines, succeeded in freeing itself from its opponents, one of which was subjected to machine gun fire at very close range and crashed to the ground in the 'hautes districts.'"

VENICE AND GORIZIA RAIDED BY AUSTRIANS

No Damage Done in Venice, But Three Lives Lost in Gorizia.

ROME, Sept. 5, via London 7:45 p.m.—An Austrian naval aeroplane squadron dropped bombs on Venice Monday night without doing any damage, says an official statement issued here today. On Sunday and Monday nights Austrian aircraft dropped bombs on Gorizia and three other towns in that vicinity. Three persons were killed in Gorizia and the roof of the Church of St. John was damaged. The statement says: "During Sunday evening hostile aircraft dropped bombs on Marino and yesterday evening on Lucinico, Sdrausina and Gorizia. Three dead and some wounded are reported in Gorizia. A seaplane squadron during Monday night dropped 20 bombs on Venice without doing any damage."

Salvation Army Work Discussed—Rowell at Labor Congress.

Canadian Associated Press Cable. LONDON, Sept. 5.—Premier Hearst and Hon. R. A. Payne have had a busy week spent in official work. They conferred today with Gen. Bramwell Booth on Salvation Army work in Canada after the war. They visit Bramshott tomorrow and Cliveden on Thursday.

N. W. Rowell, K.C., has arrived at Birmingham for the trades union congress. During his visit to Scotland he was received on the Lion by Admiral Beatty.

James Simpson of Toronto, Canadian delegate to the congress, spoke yesterday night on the prohibition movement in Canada. Arthur Henderson presided.

TORONTO AND WINNIPEG HOLD RECRUITING LEAD

Enlistments Thruout Canada Approach Three Hundred and Sixty-Two Thousand.

By a Staff Reporter. OTTAWA, Sept. 5.—The total enlistments in Canada to date are 361,693. During the last fortnight they amounted to 3,670 men. The Toronto and Winnipeg districts are still far in the lead in recruiting with 81,537 and 74,441 men respectively. The marines provinces have enlisted 22,608 men; London district, 29,946; Kingston, 27,908; Montreal, 31,681; Quebec, 6,995; British Columbia, 24,885; and Alberta, 32,702.

All in the Day's Work. Even the Thin Mason has to take his share of the disappointments and discouragements of this war-time. He would have been satisfied to have held his onerous and often thankless task until the war was over. And he was a trained mechanic and had his working card by apprenticeship and merit. But the foreman and a noisy walking delegate, who thought he was the whole works, both made it so unpleasant that he asked for his time and is going to labor elsewhere, where there may be a little more concern for a workman among fellows on the job.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

UPON the hills of Picardy the British and the French armies continued the battle of the Somme yesterday, without giving the enemy respite, and they again beat down all opposition and took the ground allotted them to take. They have now well breast the last convolutions of the Albert Ridge and they are bearing down on Combles, the key of Peronne, and also, perhaps, of Baupain, and so they are strengthening their base of operations for an offensive movement over the watershed which separates the valleys of the Somme and the Oise from the valleys of the Scheldt and the Sambre. They are now passing over important strategic ground and they appear to have a fairly clear road ahead of them, with no field fortresses overly strong till they come to Combles. That point, however, is by all accounts a rather tough proposition for tackling, for all the other strong villages have fitted into the general scheme of German defence mainly as points of support for Combles.

The work allotted to the British forces in front of Combles was well and scientifically done yesterday under the duding hand of Sir Douglas Haig, master tactician. In the night operations they captured the whole remaining German second line of defence between the Mouquet Farm and the point of junction with the French. They drove, it seems, in addition, two wedges into the supporting system of the German third system of defence, one for a distance of 1500 yards east of Guillemont Village to the Leuze Wood, and the other further south, by capturing the whole of the German strong system of defence on a front of 1500 yards in and around Falfemont Farm. In the fighting of yesterday morning and afternoon they demolished the section of German defences that remained intact too badly shaken between the foregoing two wedges and they also enlarged their foothold in Leuze Wood till they held the greater part of it, taking 60 prisoners there, and they also drove forward to the out-

Tweed Top Coats That Shed Water Like a Duck's Back, \$30.00

THESE COATS are made of tweed materials that have been scientifically treated with whale oil. They are showerproof, impervious to all wet or dampness. The water when it strikes the coat simply curls up and rolls off, just like water from a duck's back. It's a new creation that is sure to find favor with hosts of men, for it has the advantage of being a showerproof coat with the appearance, feel and style of the ordinary tweed garment.

The illustration shows a dressy slip-on model with full cut skirt, set in sleeves, medium length notched lapels, 2½ inch cuffs and slant pockets, with opening to inner garments. The shoulders and sleeves are lined with a fine quality satin and all seams are double stitched. They are all made of sturdy English porous material, in grey, brown, green and bronze mixtures, and some in indistinct effect. Very fashionable coats they are for fall wear, for either men or young men. Sizes 34 to 44. Price 30.00

In similar style as the coat illustrated, only with raglan sleeves, are coats in a bottle green, soft clinging material in self shade. These are also shower proof and in same sizes. Price 30.00

Another smart style, high storm collar that buttons up close to neck. Made of Scotch tweeds in rougher weaves in grey and greenish mixtures with reddish overplaid. These are also specially treated to shed the water. Price 27.50
—Main Floor, Queen St.

Wide Flat Brims Without Much Curl Are Features of the New Soft Hats for Men This Fall

THEY'RE HERE, stacks of them, in a bigger range of colors and shapes than we've probably ever shown before. Men can easily select a smart becoming Fall Hat from such a display as this, and not pay an exorbitant price, either.

Although there are hats with pencil edge and curl brims in the display, the style that is outstanding for 1916 fall and winter wear is the wide flat brimmed model with very little, and in most cases, without any curl at all at the edge. The feature about these hats is that the brim is self conforming and can be turned into any desired angle or shape that best suits the wearer.

These are exceedingly fashionable looking hats and will be worn quite extensively this fall among dressy young men as well as the well-dressed middle-aged man.

The leading value in our display comprises three models at \$2.00. The Fifth Avenue being a good example of the slight rolling edge, having a narrow, self colored binding and just a slight curve at the edge of the brim. It's an American-made hat in medium shades of green and grey. A smart fedora that will appeal to the young man particularly.

The Belmont is a model not quite so flat, having a sort of half pencil edged brim. It's also an American-made hat in shades of navy and light green, with dark band and light green cord edging.

The Boulevard has a more pronounced roll at the edge. It is in a medium shade of grey with black band, bow and edging and light colored cord, a shape more suited for the man of conservative tastes. These three models are our leaders in value without any sacrifice of neat style or serviceable material. Price, each 2.00

EXHIBITS VISITED BY ROYAL GUESTS

Duke and Party Followed by Large Crowd During Stay at Exhibition.

ALL KEENLY INTERESTED

Works of Art and Other Display Brings Forth Words of Praise.

Despite threatening clouds and a chill breeze from off Lake Ontario, a large crowd at the fair yesterday gathered around the administration building long before 1 o'clock, in order to greet the vice-regal party on its arrival to take luncheon with the directors before touring the grounds.

Shortly before the hour T.H.H. the Duke and Duchess of Connaught and the Princess Patricia, accompanied by Sir John and Lady Hendrie, Miss Hon-drie, Col. Stanton, military secretary to the duke, his aides, Major Duff and Capt. Mackintosh, and Col. Clyde Caldwell, side-de-camp to the lieutenant-governor.

Drawn up in front of the administration building was a guard of honor from the 16th Battalion with the national band, and headed by Major T. Gass. As soon as the party stepped from the motor the band played the national anthem, and the Royal standard was hoisted to the top of the flag-pole on the plaza.

The party was welcomed by President Noel Marshall, Past President and Mrs. Joseph Oliver, Past President John G. Kent and Manager Orr. The duke then, in company with his escort, talking for some little time to a returned warrant officer who had his hand down up in a sling.

All thru the luncheon, during which the regimental band played from its position on the lawn in front of the administration building, the crowd patiently waiting in ever-increasing numbers, crowded the broad space between the building and the Goodrich restaurant. When the band was not playing there was a hushed reverence from the crowd waiting to pay tribute to the family that has so well filled the house for the past five years.

During the long wait many tributes were heard and many were the remarks that the party was so soon to leave Canada. Many of the waiting women were in mourning and spoke to one another of their men. Not a few had men folk with them. The Princess Patricia's Light Infantry, and were especially anxious to catch a glimpse of the duke and his family. The regiment was named. Not only were the people gathered in front of the administration building and around the very steps of the palace, but the manufacturers and horticultural buildings were dense with those desiring a view of the party.

When at last the luncheon came to an end and the governor-general appeared on the steps, the waiting crowd of one another of their men. Not a few had men folk with them. The Princess Patricia's Light Infantry, and were especially anxious to catch a glimpse of the duke and his family. The regiment was named. Not only were the people gathered in front of the administration building and around the very steps of the palace, but the manufacturers and horticultural buildings were dense with those desiring a view of the party.

After leaving the art gallery, the party, accompanied by a large crowd, especially of women, went thru the munitions building, where they were first interested in the splendid exhibit of fuses and then by the booth of the Women's Emergency Corps, manned at the time by Mrs. Cummings and Mrs. L. A. Hamilton. The torpedo in charge of Warrant Officer Miller, of the submarine depot at Halifax, was of considerable interest. The duke asked the naval man several questions, and was shown the operation of the propellers, the pistol and gyroscope.

From the munitions building the party was taken to the government building, where the prince and princess were interested in the sale of her miniatures. After a tour of the government building, the vice-regal party went to the reviewing ground where the 16th Battalion was drawn up for review, and received the duke with the royal salute, the royal standard being run up the flagpole by a boy scout. A brief review was followed by the march past, the salute being taken by the duke.

This was followed by a review of 1700 Boy Scouts from 40 Ontario dis-

FITTING CLIMAX TO A BIG DAY WAS IMMENSE MILITARY TATTOO

Great Spectacle Brings Forth Praise From Duke of Connaught and Party in Whose Honor It Was Planned.

Toronto's farewell to His Royal Highness the Duke of Connaught, Governor-General of Canada, and T.R.H. the Duchess of Connaught and Princess Patricia could not have taken more fitting form than the goodbye that was said last night in the presence of a military tattoo and the Federation of Empire spectacle as seen from the grand stand at the Canadian National Exhibition. It was a grand climax to an impressive day, it was the symbolizing of all the love and respect which Toronto and Canada holds for its representative of the King and his family. It was in keeping with Connaught Day—and the one in whose honor it was set apart witnessed the whole, in company with the duchess and the princess.

And when the day was over, when patriotism had spent itself, when all that could be done to leave a lasting impression upon the distinguished guests of how much Toronto and Canada have learned to admire them had been done, even in pageant form, it was appropriate that the massed bands should play "Should Auld Acquaintance Be Forgot?" It was a band with a meaning touch which must have found its way into the hearts of those comprising the royal party. Eight hundred and fifty musicians in all, with 1000 torchbearers, took part in the tattoo. There were 20 bands, all of which are on active service and came from Camp Borden for the occasion. One by one they entered the stage, taking up positions immediately in front of the stand and each playing its own regimental march. The major-ity were in place when two policemen on galloping horses signaled the arrival of the duke and party. As their motor cars sped up to the centre, the bands proceeded playing to unite in "God Save the King," and this was the signal for great cheering. The party seated, the program was continued.

Marches of inspiring origin kept the great audience in a high state of enthusiasm and "Marching Thru Georgia" brought great applause. Soon a band entered playing "Tipperary" and ev-

FAREWELL TODAY

Mayor Church to Deliver Address in Council Chamber.

With his term of office as Governor-General of Canada rapidly drawing to a close, the Duke of Connaught is in Toronto for a farewell visit accompanied by the Duchess of Connaught and Princess Patricia. The party arrived in Toronto Monday morning, and the guests of Sir John and Lady Hendrie at Government House. The duke spent Monday at Camp Borden, and yesterday the party had a busy time at the exhibition. Early yesterday morning the governor-general was out for a walk, accompanied by one of his aides, and later received a number of prominent citizens. At noon the royal guests left for the fair, and

tricts, and the presentation of war badges to 110 Boy Scouts, after which the party took tea in the women's building, leaving the grounds shortly after for dinner at Government House.

To Discard Freckles, Tan, Pimples, Wrinkles

The use of creams containing animal substance sometimes causes hair to grow, when you use ordinary mercurized wax. There is nothing better for a discolored skin, as the wax actually absorbs replaced cuticle. The latter is naturally a clear, smooth, healthy complexion, full of life and expression, freckled, tanned, over-rede, blotchy or pimply skin. Get an ounce of mercurized like cold cream, raising in the morning or so to complete the transformation. The ideal wrinkle remover is made by dissolving an ounce of powdered axolite in a half-pint witch hazel. Bathing the face in the solution brings almost in-

SELECT FIELDS IN THE HORSE EVENTS

Splendid Class of Animals Made Up for the Small Entry.

WON FIRST HONORS

Crow and Murray Figured Prominently in Prize List Yesterday.

Small but select fields were the rule in the horse events before the grandstand yesterday afternoon. There seemed some of the classes have only one or two entries. In the class for standard bred roadsters, matched gelding or mare, there was only one entry, by I. Mabee, Avonmore, which showed good speed and way of going.

Four were entered in the class for high steppers and Crow & Murray won first honors with a nice looking mare that had plenty of style and action. Graham Bros. of Chatham were second, and J. Tilt of Brampton third. In the class for pair of geldings or mares to a suitable vehicle, also it was a close decision as L. N. Bate of Ottawa, who was third, showed a classy little pair that had excellent style and went very evenly together. She fenced with a nice pair of bays, with good action and conformation. Crow & Murray again took down first honors in the class for single gelding or mare with a good looking chestnut who had plenty of style and a nice way of going. L. N. Bate of Ottawa was second and third.

In the lightweight hunters class J. Crow & Murray won the middleweight championship with a fine bay gelding who fenced cleanly and had good conformation. In the champion class for heavyweight hunters, Crow & Murray again were to the fore with a fine bay chestnut gelding, who fenced cleanly and looked an ideal hunter.

DUKE SHOWS INTEREST IN WOUNDED SOLDIER

An example of the little things which make the Duke of Connaught everywhere popular was seen at the close of the review yesterday, when His Royal Highness observed wounded soldiers among the spectators. The soldier was Private Keaton of the 16th Battalion, who had been wounded at Festubert. The duke shook hands with him and seemed otherwise interested.

BIG TATTOO AT EX. FEATURES NEW SONG

"WHEN YOUR BOY COMES BACK TO YOU" PLAYED AND SUNG BY 80 BORDEN BANDS.

The song that is fast becoming a country-wide hit—"When Your Boy Comes Back to You"—was played and sung by the massed bands of Camp Borden before the Duke of Connaught and 20,000 spectators, in the Grand stand at the Exhibition last evening.

This song made a wonderful hit at the big tattoo held in Borden recently. One hears its haunting melody almost everywhere. Monday evening the Highlanders played it at Scarborough, while last night it was programmed by the Toronto Symphony Band at the Exhibition. Shea's and other leading orchestras are playing this catchy tune almost constantly, and now the phonograph and player-piano are taking it up. It is the hit of the season.

The song is by Gordon V. Thompson, writer of "When Jack Comes Back," "Khaki," "Do Your Bit," and other popular airs.

You Pay Lower Cost Per Mile Because Goodyear Tires Are Made in Canada

The Goodyear Tire and Rubber Co. of Canada, Limited, manufacture Goodyear Tires in Canada. They import only raw materials. Goodyear "made in Canada" tires cost you considerably less because the duty on raw materials is much less than that on finished tires. Imported tires, however, bear this extra cost that adds nothing to the quality. Choose, then, between Goodyear Tires, carrying the low duty on raw materials, and imported tires, carrying the high duty on finished products. Do you see that the higher price you pay for imported tires does not necessarily mean higher quality? So the situation stands with the majority of imported tires selling at higher prices than Goodyears. In the United States most of these same tires sell for less than Goodyears. But they do not have nearly so large a sale. American motorists find that Goodyear higher cost per tire gives lower cost per mile. In Canada, where Goodyear cost per tire is lower than that of imported tires, Goodyear cost per mile must be much lower.

Table comparing Goodyear tires made in Canada vs. those not made in Canada. Includes tire sizes (30x3 1/2, 32x3 1/2, 34x4, 36x4 1/2, 37x5) and prices for different tread patterns (Plain, All-Weather). Also includes a list of Goodyear Service Stations across Ontario, Alberta, and Saskatchewan.

PLAYS, PICTURES AND MUSIC

"THE GINGER GIRLS."

One of the fastest and merriest
ever presented in burlesque
appears for a week's engagement at
the Star Theatre, beginning Monday,
the well-known comic, who is said to be
better than ever this season, in the
two-act comedy, "The Ginger Girls,"
written and staged by himself and George
Wagner. Al Dupont, John D. Bol-
man, Marion Chase, Gertrude Kallstrom,
the prima donna soprano, and Niblo
and Spencer, the extraordinary sing-
ers, dancers, and last but not least,
Mabel Lynette, positively the liveliest
soubrette in her line.

"ON TRIAL" HUGE SUCCESS.

"On Trial," the gripping melodrama
that is being presented at the Alexan-
dra Theatre this week, is meeting with
enormous success. It has received the
endorsement of press and public; the
critics lauding it thru their papers
and the public turning out to the point
of capacity houses. As is well known
by this time, the story concerns the
trial of a man charged with murder.
The excellent company includes How-
land G. Edwards, W. B. Clarke,
Frances McGrath, Luella Moroy, Flo-
rence Moore, Russell Parkin and others.
Seats are now on sale for all perform-
ances.

ALBERT BROWN IN "THE BLACK FEATHER."

What promises to be a gala event of
the local theatrical season is the ap-
pearance of the Grand Opera House
next week of the celebrated Albert
Brown in a new play entitled "The Black
Feather." This elaborate musical ex-
travaganza is known to all burlesque
lovers as one of the leading organi-
zations of the season. Heading the
cast is that popular comedian, Solly
Ward, who, as usual, will offer a new
routine of birth-creating material,
with Miss Frankie Rice in a reper-
toire of songs, eccentric dances and
clever impersonations of well-known
stars, Jec Perry, Stella Wood, the
Big Four, Minerva Emmett and
Lynn Cantor, with large and varied
selection of premier vaudeville
specialties.

"THE MASKED RIDER."

An entirely new program will be
given today at the Regent, showing
the feature, "The Masked Rider,"
with the supreme stars, Harold Lock-
wood and May Allison, in the leads.
The Regent Graphic, depicting the
latest interesting events that have
happened in the old land. A splendid
educational picture and incidental
music by the Regent Symphony Or-
chestra. Today will be the only op-
portunity of seeing this program, as
owing to popular demand the Mary
Pickford feature, "Hulda From Hol-
land" will be given the first showing
tomorrow, Thursday, Sept. 7.

AT THE GAYETY.

"The Roseland Girls," with Solly
Ward, will be the attraction at the
Gayety. This elaborate musical ex-
travaganza is known to all burlesque
lovers as one of the leading organi-
zations of the season. Heading the
cast is that popular comedian, Solly
Ward, who, as usual, will offer a new
routine of birth-creating material,

RECRUITING LITTLE BETTER YESTERDAY

Forty-Two Applied for Overseas
and Twenty-Seven Were
Attested.

Recruiting in Toronto yesterday was
better than any previous day of the
last two weeks. During the day 42
made application at the recruiting de-
pot for service overseas with different
units and 27 were accepted. The Irish
Battalion topped the list. They had
five attested.
The Canadian Mounted Rifles are at-
tracting a splendid class of men to the
cavalry branch of the service. One of
the recruits obtained yesterday was
Pte. George Smithson, 62 Austen ave-
nue. He returned soldier. Smithson
left Toronto with a draft from the
74th Battalion and was wounded last
April. He is now fully recovered.
Sergeant Fred G. Robbins, who has been
in Hamilton for some time, in charge
of the C.M.R. recruiting, has been
transferred to the Toronto staff and
will in future be connected with the
C.M.R. depot staff at 89 West King
street.

THOMAS WILKIE DEAD WAS Y. M. C. A. WORKER

First Man in the World to Intro-
duce Y. M. C. A. Work in
Military Camps.

FORMER TORONTIAN

Was at One Time Engaged in the
Building Up of Long
Branch.

Word was received in the city last
night of the death of Thomas J.
Wilkie, who died yesterday in Los
Angeles, Cal., in his 73rd year. Mr.
Wilkie was the first general secretary
of the Toronto Y.M.C.A. in 1868, and
afterwards moved to Brooklyn, where
he conducted the campaign for the
organization of the first association in
that city. Returning to Toronto, he
was engaged in the Y.M.C.A. work
and was active in the building up of
Long Branch. He became travelling
secretary of the Y.M.C.A., which position
he held for a number of years.
In 1870, Mr. Wilkie started the first
Y.M.C.A. work in the world amongst
the soldiers. He introduced the idea
at Niagara Camp and the military
authorities of England and U. S. were
quick to follow. At this time the
Queen's Own and the Royal Gren-
adiers were stationed there during the
summer. Brig.-Gen. Logie was then
adjutant of the Queen's Own.
Mrs. Frank Whitmore, of Alexan-
dra, who died yesterday, was the
sister of Mr. Wilkie, and her husband,
Reeve Cornell, Scarborough Township, is
a brother-in-law.

EXHIBIT OF DOGS BEST ON RECORD

Some Very Valuable Specimens
of Canine Land on
View This Year.

MANY U.S. ENTRIES

Emphasize Increasing Recon-
gnition of Big Toronto
Annual.

Increasing interest followed the exhibit
of dogs which took place at the
exhibition of many owners who on
former occasions were represented by
their canine friends, was one of the
largest ever collected at the National Exhibi-
tion. Some of the specimens of dogland
were of very many classes and fami-
lies and each particular species had its
own special quota of admirers.
This year more than on any previous
occasion the exhibit was of an inter-
national element, owing to the large num-
ber of entries from the United States,
the fact emphasized being the recog-
nition of the big Toronto annual as
the place where keen competition be-
tween Canada and the United States
was carried out between the canine con-
tenders.
Boston Terriers, Airedales, fox-terriers
and collies are in the majority, the cocker
and water spaniel being in the num-
bers than in preceding years. The St.
Angeles, a handsome collection and
the English toy spaniel, which is
Pomeranians are amongst the biggest
exhibits shown.

CITY TO SELL COAL AT COST TO PEOPLE

Milkmen, Bakers and Coal
Men Criticized at Board
Meeting.

If Commissioners Harris and Chis-
holm report favorably the city is
going to go into the coal business for
the benefit of the public. At yester-
day morning's board meeting, Mayor
Church declared the
city's coal at a cost of \$6.05 per ton
f.o.b. Cartage from any rail point
within the city would be added. He
explained that in April coal dropped
50 cents a ton, then the price
jumped ten cents per month, until
September, when it went up six
dollars. In May, he said, he had re-
ceived coal at as low a price as \$5.68.
It was his own request that Com-
missioner Harris be assigned to
work with him on the task. He be-
lieved there were a number of cor-
poration cost yards that might be
used and Controller Cameron said
that his suggestion was the best he
had heard on the subject. The mayor
believed freight rates could be cut
by bringing the coal over by
water but the commissioner says dockage
charges would eat up any saving.
"Hurry along the report," concluded
the mayor. "If these cost companies
don't do something we'll have civic
coal markets in Toronto."

FIRE ON KING STREET.

HAMILTON, Wednesday, Sept. 6.—

HIGH SCHOOL OF COMMERCE OPEN

Ceremony Performed Last
Night by Hon. C. Howard
Ferguson.

MINISTER URGED CARE

Spoke of Neglect in Teaching
Pupils Duty to the
Empire.

Toronto's magnificent new High
School of Commerce and Finance, high-
lighted on Roxton road, was formally
opened last night in the presence of a
large audience by Hon. C. Howard
Ferguson, acting minister of education.
Many prominent citizens were on the
platform, including Arthur Hewitt,
president of the board of trade; F. G.
Morley, secretary of the board, and
Trustees, including Hodgson, Shaw,
Hunter, Hopkins and Steele of the
board of education. At the conclusion
of the ceremony, inspection of the
building took place.
Congratulating the board of educa-
tion on its latest educational institu-
tion, Mr. Ferguson pointed out that a school
where young people could be trained
for business careers had long been a
necessity in Toronto. "It was certain
that it would receive the support of all
classes of citizens and become a great
success. Speaking of educational work
generally, the minister was of the
opinion that there had been some neglect
in teaching pupils their duty as
members of the British Empire, and he
urged that more care be given in fu-
ture to instilling in the minds of boys
and girls a greater sense of patriotism.
Apparently the minister was so en-
gaged with his address that he forgot
to mention the school's name, and he
to perform and he resumed his seat
without declaring the school open. He
was reminded of this fact later on and
repeated the name of the school, and
officially declared the school open.
Chairman W. Houston made a brief
speech, after which the school was
opened for the first time. The
work of the education board during
the past two or three years. He was
certain the new school would be as
successful as the technical school, and
he forecasted the establishment of
similar institutions all over the coun-
try.
President Hewitt of the board of
trade declared that it was high time
that a school for the instruction of
pupils for commercial careers was estab-
lished. He pointed out that for
years opportunities had been provided
for all classes and other pro-
fessions, but none for the boys who
wished to become a commercial man.
He urged the support of the school
by all classes, and that the pro-
vision for scholarships had already
been made.
The course of study at the school
is a broad one and takes three
or four years to complete. Pupils are
trained in mathematics, science, lan-
guages, literature, grammar and a
very good course of commercial train-
ing. The latter consists of the follow-
ing: Accounting, stenography, sec-
retaryship, salesmanship, time in ac-
tual work and banking and exchange. The
auditorium will be used quite often
for lectures, and the school will be
prominent by its success.

PLAN TO ESTABLISH SOLDIERS ON FARMS

"Soldiers' Homestead Act" is
Promoted in British
Columbia.

COMMISSION AIDING

Primary Instruction Given
Convalescents in Canadian
Hospitals.

Canadians are looking forward with
considerable hope to the arrange-
ments made and making, to establish
ex-soldiers as farmers.
First in order of importance, of
course, must be the Dominion Govern-
ment plan. This, as the prime minis-
ter assured Sir Rider Haggard the
other day, "will be satisfactory to all
those who have at heart the great
purpose of the act. For its details we must
wait till parliament meets."
Then there is the scheme embodied
in the British Columbia Soldiers'
Homestead Act. This includes a free
grant of land and a loan of money
for improvements to each soldier set-
tler, with exemption from all except
school taxes, and a five years' ex-
emption from seizure for debt.
There is also the scheme of the
Canadian Pacific Railway—a develop-
ment of the ready-made farm system,
the company devoting millions of dol-
lars to this enterprise.
Most of the schemes proposed are
for able-bodied men; and for general
farm work an able body is as neces-
sary as an able mind. But some forms
of work on the farm can be hopelessly
undertaken even by men more or less
disabled.
The government, thru its military
hospital commission, is already giving
the men at one of the convalescent
stations instruction in gardening
and poultry raising; and a good deal
of progress may be expected along
these lines.
Some of the men have either lived
in the country or worked on the land
before, while others are town bred;
but all alike have shown considerable
aptitude. They have been disabled in
various ways. Two, for instance, have
lost an arm, and one a hand, but all
three have shown themselves com-
petent to do good work in every
country life, and work in the
open air, have been of benefit to them.
The main endeavor has been to
make the men good all-round farm-
ers. Some of them will be able to
manage small farms of their own,
others have obtained or are obtaining
practical knowledge to assist in gar-
dening, dairy work, or poultry rais-
ing. All spend much more time in ac-
tual work than in attending class-
room lectures; but they are taught
the necessary theory and chemistry, and
enough veterinary surgery for simple
purposes. Some of the men have al-
ready been placed in good situations.
One of the most urgent require-
ments of our own country is that our
returning soldiers shall be encourag-
ed and assisted in every practicable
way to seize the opportunities offered
them for such training; and this will
be available not only at the convales-
cent hospitals, where a beginning can
be made, but afterwards at the agri-
cultural schools and colleges which
have offered to instruct men disabled
from returning to their previous oc-
cupation.
The government makes special
money allowances for the mainte-
nance of the men and their families,
while the instruction is being taken.

Orilla, Ont., Nov. 25th, 1914. "For over two years, I was troubled with constipation, drowsiness, lack of appetite and headaches. One day I saw your sign which read 'Fruit-a-tives make you feel like walking on air.' This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. I have a good appetite, relish everything I eat, and the headaches are gone entirely. I recommend this pleasant fruit medicine to all my friends."

London Paper Contents Last Honors Would Be Out of Place.

LONDON, Sept. 5.—The proposal that the crew of the destroyed German airship be given a military funeral in England has aroused some opposition. The London Star says: "It is unfortunate that the British official mind is so utterly yout of touch with the public mind, because such blunders only give rise to unpleasant and undesirable reactions. It is perhaps, not too late to reconsider this egregious official blunder and to give these baby-killers a plain decent funeral such as would be given say, to an English workman, who, after a long life in honest industry, unfortunately dies in the workhouse."

OUTPUT FALLING OFF

Recruiting Said to Have Hampered Work of Producing Munitions.

By a Staff Reporter.
OTTAWA, Sept. 5.—The best means of mobilizing and utilizing Canada's labor forces during the period of the war, the solution of the industry, and the acute demand for production was the subject of a conference today between Hon. Crothers and Hon. Roberts, representing the government, and representatives of the Trades and Labor Congress and the textile steel and munitions industries. Those present were J. W. F. Valle and C. B. Gordon of the imperial munitions board; J. C. Watters and P. M. Draper of the Trades and Labor Congress; William Inglis of Toronto, William Theburn, M.P., of Montreal, and Mark Workman of Montreal. Particular mention was made of the necessity of producing munitions as fast and as extensively as possible.

For the government it was stated that in the matter of recruiting they would endeavor to harmonize the war needs at home and abroad. Keeping also in view the situation in the labor market.

Try Magnesia for Stomach Trouble

It Neutralizes Stomach Acidity. Prevents Food Fermentation. Doubtless, if you are a sufferer from indigestion, you have already tried pepsin, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble. In some cases do not even give relief. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little magnesia—the ordinary carbonate, citrate, oxide or milk but the pure bicarbonate magnesia which you can obtain from practically any druggist in either powdered or tablet form. Take a teaspoonful of the powder mixed with water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in your stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy lumpy feeling that seems to follow most everything you eat.

You will find that, provided you take a little bicarbonate magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger, pain or discomfort to follow, and moreover, the continued use of the bicarbonate magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

FOUGHT ZEPPELIN AT CLOSE RANGE

Lieut. Robinson Not Deterred by Clouds of Smoke Sent Out.

IRON CROSS AS TROPHY

Bold Aiator Obtained Souvenir From Wreckage of the Airship.

LONDON, Sept. 5.—Lieut. Leefe Robinson, the 21-year-old aviator who has been given the Victoria Cross for bringing down a zeppelin during last Saturday night's raid over London, was one of the most unconcerned spectators in the field at Cuffley where the destroyed zeppelin lay early Sunday morning. While he was chatting with his back toward the wreck of the airship, the searchers discovered an iron cross.

"Pass the word to Robinson," said the senior officer. When the lieutenant went up to him the senior officer gave him the iron cross and later a revolver which was found in the wreckage. This was the first indication which the spectators had that it was Robinson who brought down the airship.

When the alarm that zeppelins were approaching was given in London on Saturday night, Lieut. Robinson immediately ascended in his aeroplane. Several times the searchlights revealed his plane flying around in search of a zeppelin. At last, in the darkness, he picked up an airship which a moment later stood out boldly in the glare of several searchlights.

Lieut. Robinson made his attack at close range. The zeppelin attempted to elude him by sending out great clouds of smoke. It disappeared in the clouds, but Robinson kept up the pursuit and soon saw the zeppelin burst into flames.

AN INTREPID AIRMAN

Youthful Flyer, Determined to "Do a Zeppelin," Accomplished Feat.

LONDON, Sept. 5.—King George today awarded the Victoria Cross to Lt. Robinson, who brought down the zeppelin in Sunday morning's raid on London, the war office announced today.

The official announcement made known for the first time that the zeppelin was destroyed in a thrilling air fight by an English aviator and not by shells from anti-aircraft guns.

Lt. Robinson was in the air for more than two hours, engaging the raiders under the most difficult circumstances. Before bringing down the zeppelin over Cuffley, he attacked another airship.

Lt. Leefe W. Robinson was 21 years old in July. He took his pilot's certificate at Farnboro on his 20th birthday, and he is considered the keenest youngster in his squadron.

Five months ago he said quietly he had made up his mind to "do a zeppelin." On several occasions he has taken part in chasing German airships.

PEACE CONGRESS PLANS REJECTED

Great British Labor Gathering Frowns on U.S. Delegates' Proposal.

A LIVELY DISCUSSION

German and Austrian Workers Share Blame for Bringing on War.

BIRMINGHAM, Eng., Sept. 5.—The proposal made by the American Federation of Labor that a labor and peace congress be held simultaneously at the conclusion of the war was rejected this evening by the trades unionists' congress.

An acrimonious discussion was provoked by the talk of co-operation in the American Federation of Labor's plan to hold a labor and peace congress at the same time and place as the fact that the American proposal includes the bringing together of workers from Germany and the allies.

While rejecting the idea of German participation in the discussion of labor's claims, the speakers insisted that workers who had fought, sacrificed and paid for the war were entitled to an influential voice in the settlement, and should not be left unconsidered, as hitherto always had been done.

Whether a congress which will include entente allies, American and other neutral workers' organizations will be arranged has not been decided, but the meeting showed such anti-party toward German and Austrian workers that the proposal from the American Federation of Labor was rejected by a majority of three-quarters of a million votes.

CROPS DAMAGED BY BAD WEATHER

Prairie Provinces Suffered From Rain and Frost, Reducing Yield.

CUTTING BEGINS LATE

Sections of Alberta and Saskatchewan Have Grain Frozen.

OTTAWA, Sept. 5.—A special press bulletin issued today by the census and statistics office reports on the conditions of field crops in Canada, at the end of August as summarized from telegrams received from the Dominion Experimental Farms and stations in accordance with arrangements made between the departments of trade and commerce and agriculture.

Prairie provinces: Manitoba: From Brandon it is reported that the Manitoba wheat crop is about half the normal yield and practically all low grades; oats and barley are an average crop. Cutting has begun.

Saskatchewan: The weather during August has been unfavorable for grain and damage to wheat by rust is reported from the Peace River, Mackay Creek, Gull Lake, Eston, Prelate, Oshern and Scott, reducing the yield and grade. Frost is reported from points in the Moose Jaw, Saskatoon and Battleford districts. Harvesting is beginning in the first week of September. At Scott, in the Battleford district, harvest was delayed by cool weather and cutting has only just commenced. Hailstorms did much injury early in the month. Late crops of wheat in lowlands were badly frozen on the 11th. Yields of wheat that has escaped frost and rust will be satisfactory.

Alberta—Munichon: Cutting not general until first week in September. Some wheat crops show effects of frost on Aug. 10.

Carmanagan: Crops good if they can be secured before frost. Lethbridge: Harvest over a week later than last year. Cutting general. No damage to wheat from frost; no appreciable damage from rust. Lacombe: Three degrees of frost Aug. 10 damaged much grain over an area of 150 square miles. Certain localities immune. Harvesting of barley is general and wheat cutting has begun. A further ten days of good weather is required to render safe crops that are so far uninjured.

FOUR FOE DESTROYERS IN BATTLE WITH SUB.

COPENHAGEN, via London, Sept. 5.—The captain of an incoming ship reports that he observed outside of Stockholm Skargard yesterday four German destroyers in an engagement with a big submarine. Suddenly the Germans fled southward, and 15 minutes later returned with four torpedo boats. But no submarine was then visible.

TO STOP UNIONISTS FROM WORKING WITH NON-UNION

Carpenters and Bricklayers' Largest of Union Organizations, May Take Drastic Action.

HAMILTON, Wednesday, Sept. 6.—It is learned thru union circles here that the United Brotherhood of Carpenters and Joiners and the Bricklayers' International Union have plans underway which will put a stop to union men working alongside of non-union men. The two brotherhoods are the largest in membership of all the brotherhoods in America, and have control of over 10,000 men in Canada.

TREASURER TO SUGGEST DIFFERENT USE OF BONDS

City Treasurer Bradshaw will advise council at its next meeting to change its methods of using bonds under the waterworks bylaw. The ratepayers endorsed the raising of \$6677 for waterworks, and it was generally understood that the money was for the Scarborough scheme of duplication. But one-fifth of the amount has been used for general waterworks purposes. The lump sum is eating up \$108,000 a year in charges, so the treasurer wants to issue bonds at different intervals as the money is required.

For Your House, the Best Heating!

Canadian Winters make house heating an important problem. Seven months of cold weather and during five of them the thermometer does a jig around "zero." Nothing creates more misery than not being able to keep the house warm. There is only one satisfactory Heating System and that is Hot Water. A Hot Water Boiler works with the least consumption of fuel and gives the utmost general diffusion of heat. The steady inflow of hot water direct from the boiler keeps the heat constant. Hot Water Heating is not affected by drafts, winds or any of the erratic eccentricities of Hot Air Systems. You can keep every room in your house at 70 degrees with a King Hot Water Boiler and Radiators. Note the advantages which the King Boiler and King Radiators offer you—(1) Fuel Economy. (2) Quick Heating. (3) Easy Operating. If you want to know what it would cost you to install a complete Hot Water Heating System, ask your architect or your heating engineer, or write us and we will gladly give you the information you desire without any obligation to you.

Free Book

We have printed a handsomely illustrated booklet on the subject of Hot Water Heating, entitled "COMFORTABLE HOMES," which very simply explains the important features of this method of house heating and gives much valuable information. We will gladly send this booklet free, postage paid upon receipt of your name and address.
