Ruhr Germans Are Making Drastic Demand on French

REAL PORT DEVELOPMENT IS NEAR

REPLY OF  
FRENCH IS  
DUE TODAY

Herr Stinnes Makes De-  
mand to Government  
in Person.

ASK COMPENSATION

Seek Authority to Continue  
Negotiations Over  
Occupation.

(Canadian Press.)

Berlin, Oct. 9.—Important,  
even drastic, demands were  
made of the German government  
today by the group of Ruhr in-  
dustrialists headed by Hugo  
Stinnes, who recently were in  
consultation with General De-  
goutte, the French commander-  
in-chief at Dusseldorf.

Authority to continue negotia-  
tions with the occupation offi-  
cials in the Ruhr was one of these  
demands.

Provision for longer working  
hours for German workers both  
in the mines and above ground  
was another.

The demands were handed to  
the Government by Herr Stinnes  
himself. He asked an answer  
by noon today. A meeting of  
the cabinet took them under  
consideration this morning.

Demand Compensation.

The industrialists also demanded  
compensation for the confiscated  
since the beginning of the Ruhr  
occupation and for the forcibly levied  
tax, the abolition of the coal tax for  
the Ruhr region, a guarantee that  
all future deliveries of reparations  
could be placed in their preferred  
treatment for the Ruhr in supplies  
of raw materials and foodstuffs.

The working hours under-ground,  
if the industrialists' demands were  
granted, would be 8½ hours, and  
above ground ten hours.

The industrialists also asked that  
the Government's attitude would  
be toward the creation of a railway  
company in the occupied territory in  
which the Rhineland, France and  
industry would participate.

Belgians Optimistic

Brussels, Oct. 9.—Belgian official  
circles are optimistic over the  
situation in the Ruhr. Advice  
reaching the Government show  
the resumption of work on a  
daily increasing scale. The  
Belgian officials in the valley  
declare that 170,000 railway  
workers in the occupied region  
are ready to go back to work  
as soon as the assurances are  
given that the Berlin Government  
will guarantee the payment of  
their wages and authorize them  
to take the oath of "professional  
allegiance" to the Franco-  
Belgian railroad management.

ASK METHODISTS  
TO GIVE \$75,000

Toronto, Oct. 9.—Announcement  
was made yesterday that on

taken in all the Methodist  
churches in Canada with the  
objective of raising \$75,000 for  
the cost of the Methodist share  
for the cover of computing  
church union.

The fund is required by Dr. Chown  
general superintendent of the church  
to meet the expenses of preparing  
legislation, retention of denomi-  
national and joint church union  
committees; transferring the prop-  
erty of the uniting churches in  
various countries of the world;  
establishing and conducting a  
bureau of literature, traveling ex-  
penses of deputations; organizing  
general council to be called after  
royal assent has been given to  
the incorporating act, and other  
expenses.

Official Sent To  
Scranton Strike

Scranton, Pa., Oct. 9.—A repre-  
sentative from the Federal De-  
partment of Labor was expected  
here from Washington today  
to investigate the situation at  
the Hudson Coal Company mines,  
where more than 100,000 men  
are on strike.

The men walked out yesterday  
because of the failure of the  
company to adjust a number of  
alleged grievances. Approximately  
3,000 workers refused to  
obey the strike call and remained  
at work. The loss in production  
is estimated at 80,000 tons daily.

Christmas Trees  
Cutting Started

Saranac Lake, N. Y., Oct. 9.—  
Gangs of men now are at work  
in the Adirondack Mountains  
cutting small evergreens for  
Christmas trees at the earliest  
date on record. Hundreds of  
trees are being cut about  
Upper and Lower Chateaugay  
Lakes, buyers paying top prices  
for the privilege. The majority  
of the trees will be left in the  
woods until about a fortnight  
before Christmas day, when they  
will be shipped to down state  
cities. Special orders of  
choice trees are being shipped

Oklahoma Flood  
Hazard Increases

Oklahoma City, Oct. 9.—Oklahoma  
City's flood hazard has increased  
today as another rise in the  
Canadian River swept down to  
augment the swollen stream, which  
for three days has overspread the  
lowlands.

Scores of families have been  
driven from their homes by the  
water, which stands ten to fifteen  
feet deep in some places, railroads  
service southward from  
Oklahoma City has been seriously  
hampered, and street car tracks  
and paving have been swept away.

The river, normally only a score  
of feet wide, is a raging torrent,  
a half mile in width.

DISCUSSION  
OF PREMIERS  
KEPT SECRET

Regret is Expressed That  
Curtain is Pulled  
Down.

PRESS IS OPPOSED

Lord Beaverbrook Urges  
That Work be Done  
in Open.

(Canadian Press Cable)  
London, Oct. 9.—What did the  
premiers of the Dominions say at  
yesterday's "strictly confidential"  
session of the Imperial conference?

On this there is much question-  
ing today. While it is admitted  
that the delegates could speak  
more freely knowing that their  
remarks would not be reported  
even by way of the dry colonial  
office communications, regret is  
expressed that the curtain should  
be drawn from a Dominion to a  
Commonwealth, the people of  
Canada would want to know why  
he makes such a suggestion.

Remarks Statement  
The Express adds this remarkable  
statement:

"The people of the Dominions  
expect their premiers to do their  
work in the open. If for instance  
Macdonald King were to propose  
to the conference that Canada  
should be changed from a Dominion  
to a Commonwealth, the people of  
Canada would want to know why  
he makes such a suggestion."

"Poison Pen" Letter Writer Active Again;

Author Is the Same Who Wrote to Ryan

New York, Oct. 9.—The author of the poison pen letters who caused a  
Grand Jury investigation of his activities several months ago continues to  
send scurrilous epistles, it was learned from District Attorney Barton  
yesterday. The prosecutor admitted that within the last month letters, similar  
in almost every detail to those received within the last two years by Allan  
A. Ryan and other prominent persons in this city, had been sent to George  
Maxwell, president of the American Association of Authors, Publishers and  
Composers, and another man.

The letters were turned over to Mr. Barton by Nathan Burkan, counsel  
for Maxwell, and a new investigation of their authorship was begun by  
Chief Assistant District Attorney Ferdinand Pecora, who some time ago  
presented evidence to the Grand Jury, based on letters sent to Mr. Ryan,  
which resulted in an indictment being returned against Maxwell. Maxwell  
was entirely cleared of the charge, however, and the indictment against him  
was dismissed.

It was said yesterday that the letters bore only one noticeable difference  
from the letters which had been sent to many persons before the Grand  
Jury investigation. This difference was that no woman was mentioned.  
In a letter addressed to Maxwell the writer was said to have taunted him  
with the declaration, "We are still after you," and added that the recipient  
was not to believe that he had shaken off his annoyances.

Mr. Barton would not reveal whether it was Mr. Pecora's intention to  
begin a new Grand Jury investigation. It was understood, however, that no  
such action is contemplated, but that experts were comparing the two sets  
of letters in the hope that a clue might be obtained on which to arrest the  
author.

COURTENAY  
BAY PLANS  
ARE READY

Two Great Trans-Continen-  
tal System Termi-  
nals Here.

IS ORIGINAL PLAN

Large Yards in Contempla-  
tion Near the Head  
of the Bay.

At last St. John appears to  
be in sight of a real port de-  
velopment. If plans already pre-  
pared are carried out, Courtenay  
Bay will come into its own, and  
a great eastern harbor will begin  
to rival West St. John. The  
Canadian National Railways will  
have their own terminals as ori-  
ginally planned.

Two great transcontinental  
systems will each have their  
own terminals at St. John. That  
was the original plan of Hon. Dr.  
Pugsley and C. M. Hays. It ap-  
pears to have been revived by  
the Canadian National Railways.

The Times-Star presents on page 2  
a copy of plans for terminals at the  
head of Courtenay Bay, prepared by  
the Canadian National Railways on  
July last and submitted to the Federal  
Public Works Department for criti-  
cism. Officials of the C. N. R. have  
visited the site several times of late,  
and in view of Hon. Mr. King's  
statement to the City Council that the  
engineers had reported against the  
proposed wharf extension at Lower  
Cove, and in favor of Courtenay Bay,  
the preparation of the plans shown on  
page 2 proves that the C. N. R. has  
decided to go back to the original  
scheme of Hon. Dr. Pugsley and C. M.  
Hays, and provide government rail-  
way terminals at the head of Courtenay  
Bay.

The picture shows the proposed  
wharves as they would appear if the  
observer were on the East St. John  
side looking toward the city. The  
development will begin on the east  
side, and the first wharves and the  
elevators will be there.

The plan shows two separate  
wharves with a log between them,  
as the most easterly part of the plan  
and the first to be constructed, but  
engineers say the log is unnecessary,  
and the plan should be changed to  
give one continuous pier 2,000 feet  
long. Opposite this would be con-  
structed another pier  
1,200 feet long, and the plan shows  
other berths for future develop-  
ment. The property to be developed  
is owned by the Canadian National  
Railways, and was originally secured  
by the Grand Trunk Pacific for  
terminal purposes. The new plans are  
in line with the old policy. They  
were prepared less than three months  
ago. (Continued on page 2, 6th column)

GLASSES NO--- GLASSES YES

If you do not need Glasses you are plainly told so when you come to Sharpe's, but your doctor would advise you to come to hear even that much.

Most people who get Glasses come to learn the need clear of direct eye pain or partial sight. One of the many indirect alarms and a simple curiosity—coupled with a widening education on the subject leads the wise to a discovery at the Optometrist's that saves such things as headaches, indigestion and common nervous strains.

**We Need More Love Says Magnus**

**Let Us Reason Together and Co-operate, Johnson Urges in Chicago.**

Chicago, Oct. 9.—More love is the need of the hour, Magnus Johnson, Senator-elect from Minnesota, declared in an address here before the Executives Club. He appealed for the co-operation of big business.

"It wasn't only the farmers who revolted in Minnesota at the last Senatorial election," he said, "the bankers, business men and professional men revolted with the farmers. Ninety-eight per cent of the bankers in my home district were for me. I am carrying a message from the business men and professional men of the small town. For the farmer, the business man of the small town, the little banker, each is nothing more than a labor man. Gentlemen, it is up to you to join us. Let us reason together and co-operate together."

"I believe in the golden rule as taught by the lowly Nazarene. There is no

better text for any preacher, and it shall be my text.

"What you business men have achieved by co-operation. The co-operation and the contentment of the city is dependent upon the contentment of the farming community within a radius of 1,000 to 2,000 miles."

Mr. Johnson's address was preceded by remarks from J. Adam Beck, former Representative from Minnesota, who said, "my friend Johnson isn't a red. There are no reds in the State of Minnesota. He is simply leading the Republicans of Minnesota around a de-tour."

"There are some detours that never come back," Mr. Johnson replied in the course of the address.

Your Own Pearls

Are the finest—pearly teeth Millions find them by combating film

No pearls which hang about the neck compare with pretty teeth. Don't leave them coated by a dingy film. Look about you. Note how countless teeth now glisten. Mark what they add to beauty and to charm. Then make this test and learn how people get them.

Protect the Enamel

Pepsodent disinfects the film, then removes it with an agent far softer than enamel. Never use a film comb that which contains harsh grit.

10-Day Tube Free

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the film-coats disappear. It will be a revelation to you. Cut out coupon now.

Don't apologize for your stove's appearance

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

PRESSURE MAKES PRICES YIELD

Stock List Reactionary in Tone at Wall Street Opening.

New York, Oct. 9.—Stock prices continued to yield to selling pressure at the opening of today's stock market and the general list presented a reactionary tone. Oils were in free supply, but the initial recessions were held to fractions. Baldwin, Studbaker and other so-called pivotal shares opened fractionally lower. Woodworth, up 1-2, was one of the few strong spots.

New York, Oct. 9.—Increasing expressions of confidence in fall and winter business by leading bankers and business men failed to stimulate any interest on the long side of the market. Bear traders continued their experimental short selling and succeeded in uncovering a number of weak spots, especially in the automotive and leather groups.

Montreal, Oct. 9.—(Opening)—Canadian General Electric accounted for about three quarters of the trading on the Montreal stock exchange during the first half hour this morning. This issue, besides being the most active, was the strongest of the list.

Exchange Today. New York, Oct. 9.—Sterling exchange steady. Great Britain, 1.55 1/2; France, 6.02; Italy, 4.83 1/2; Germany, 0.0000000. Canadian dollars, 1-16 cent discount.

OPINIONS ON THE STOCK MARKET

(McDougall & Cowans.) New York, Oct. 9.—Bleak Maloney: We look for further advances in the Bull group. In the case of industrial shares discrimination is advisable.

Hornblower & Weeks:—We regard the gradual divestment of interest from the industrial group of the list to be carriers as a normal development. We look for further strength in rails.

Pynchon & Co.:—Our opinion is that the carriers will do materially better. It is the wrong time of the year to expect a broad sustained up-swing.

Houseman & Co.:—There are indications of switching from the industrial into the rail group. We would advise buying good rails of any back.

Evans says:—The market continues to drift without any indication as to what it is going to do next. The extent in trade reaction, which is now under way, is the subject of much discussion, and it is extremely difficult to gauge how long it will last or how far it will go.

SINGING COSTS SON A HOME. Father Gets Yonkers Court to Order Young Man to Move.

New York, Oct. 9.—Because he sings in his home was one of the reasons given by Patrick Condon of 42 Herriott street, Yonkers, in City Court for asking that his son, Thomas, 27, be ousted from the house.

The son was in court on a summons which technically charged disorderly conduct. The father told Judge Charles W. Boots that among the defendant's faults was his singing late at night, which disturbed other members of the family.

He was locked up by police and held to the Grand Jury later on a charge of burglary after Long and his son told how they had been awakened by some one prowling in their basement apartment. They said a lookout had fled as the police car drove up.

Help Shad and Salmon Go Up—Mr. Powell Tells of Meeting.

The International Joint Commission has consented to the erection of fishways in two dams in the St. Croix, to facilitate the passing of shad and salmon to the spawning grounds.

H.A. Powell, K. C., gave an interesting interview to The Times on his return to St. John after the meeting.

The commission met in Ottawa on Oct. 2, and this was its chief business. Application had been made by the fishers of the St. Croix for the erection of fishways in the two lower dams in the St. Croix.

Take Sisters In Smuggling Plot

Alleged Conspiracy in Bringing \$50,000 of Diamonds Into U. S.

New York, Oct. 9.—Miss Augusta Gross, 44 years old, and her sister, Anna, 37 years old, of 117 Montague street, Brooklyn, have been arrested in connection with the alleged smuggling of more than \$50,000 worth of diamonds into the United States, during the last year.

The two women, according to United States Deputy Marshal Edward Frankel of Brooklyn, are alleged to have conspired with a man and his wife, employed on the steamer George Washington as steward and stewardess, to bring the gems into this country.

The Gross women were indicted a few days ago and since then the Deputy Marshal had been trying to apprehend Miss Augusta Gross, who had taken up a summer residence at Northport. Through a subterfuge the marshal was able to get the women from her home and then placed her under arrest in front of the post office at Northport.

She insisted upon being driven to Brooklyn in her own automobile but the marshal refused to allow her to return to her Northport home to "dress" as she had requested.

Sister Is Also Arrested. In some manner, her sister Anna, at her home in Montague street, Brooklyn, received word of the arrest of her sister and when the automobile drew up in front of the Federal Building in Brooklyn, Anna was on the sidewalk.

As her sister stepped from the automobile Anna rushed to greet her, and then she, too, was placed under arrest. United States District Attorney Oliver E. Rosser, who worked up the case against the women and caused their indictment, said:

"We know that at least \$50,000 worth of diamonds have been smuggled into this country, and before we get through that sum will have been greatly exceeded. It is a matter of fact that the two sisters made a striking appearance at the marriage of the late Senator Joseph P. Kamp, set for the latter part of November, had been postponed.

Father Gives Facts In Daughter's Case

"After the way Tanlac has helped my daughter, I feel that I should tell everybody what a fine medicine it is."

The appreciative statement made recently by J. Dorais, well-known contractor, 210 Boulevard Monkland, Villa St. Laurent, Quebec.

"My daughter, Bertha, was in a run-down condition for a year or more, and nervous indigestion affected her so seriously she had to stay home from school at times. She became very thin and frail, and was so nervous she could hardly write. She could seldom sleep, and got so she did not even care for diversion."

"She has gained seventeen pounds by taking Tanlac, and is the picture of health. She eats splendidly, sleeps like an infant, her nerves are steady, she is strong and alert, and enjoys her school work and outdoor life and exercise like other healthy girls. Tanlac is worth its weight in gold."

Tanlac is for sale by all good druggists. Accept no substitute. Over 50 million bottles sold.

Boy Fights Way Into Golf Finals

Paris, Oct. 9.—Thion De La Chaume, a seventeen-year-old boy, was a finalist in the golf tournament at Labourboule for the amateur title of France, losing to A. M. Vagliano, a far more experienced opponent, only after a great battle.

The score was four up and three to play in 36 holes.

Andre Gobert, veteran international tennis player, Davis Cup star and number one in the French ranking list for many years, reached the semi-finals of the tournament at Labourboule, but as the courts were often too small, the golf fairways now are too narrow. All the brilliant as well as the erratic qualities of Gobert's tennis are noticeable in his golf.

Woman Paid for Permanent Job, Says It Wasn't Even Transient

New York, Oct. 9.—Mrs. Romu Fleming, 85, of 281 West Forty-ninth street, appeared as complainant in the Third District Municipal Court against Ferdinand Graf, a hair-dresser, of Daly Avenue, the Bronx, to whom she paid \$25 on May 30 to impart a permanent wave to her long black tresses.

Mrs. Fleming told the court that all her friends have wonderful permanent waves in their hair, and she asked Graf if he could do likewise for her.

For six hours, Mrs. Fleming said, she sat in a chair in the hair-dressing establishment while Graf treated her head with heated tannin, oils, curlers and all the other recognized devices for creating permanent waves.

"I felt awful," she said, "and I was so glad, I gave Mr. Graf a \$2 tip. I was in a happy frame of mind and I thought I had gained a permanent wave. But when I got home I found that the waves were not permanent, and I had to go back to Graf to pay back the \$25 and incidentals."

"My exclamation the hair-dresser, 'I worked so hard over that woman's hair. It just won't take a permanent wave. It's not my fault!'"

### FIRPO CANNOT RETURN PAPERS

#### His Declaration Must Stand, Says New York Naturalization Official.

New York, Oct. 9.—County Clerk James A. Donegan of New York County, who is also Clerk of the Supreme Court, and as such in charge of its Naturalization Bureau, in answer to the questions as to the status of Luis Angel Firpo with regard to his declaration of intention filed with Mr. Donegan on Oct. 1, and which was read quite a little flurried both here and in Argentina, causing a chorus of protest in the latter country, makes the following statement:

### MOTHER!

#### Child's Best Laxative is "California Fig Syrup"

Harry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even if cross, feverish, bilious, constipated or full of cold, children love its pleasant taste. Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

### FACE A SIGHT WITH PIMPLES

#### Large and Red. Itched and Burned. Cuticura Heals.

"My face was itchy and broke out with large, red pimples. They were scattered all over my face and neck and burned so that I scratched which caused them to grow larger. I could hardly sleep at night. They were a real nuisance and my face was a sight."

"The trouble lasted about three months. I began using Cuticura Soap and Ointment and the first treatment stopped the itching and after using two cakes of Cuticura Ointment I was healed." (Signed) Miss Ora Goulette, R. R. D. 4, Box 96, Barre, Vt., March 24, 1922.

Use Cuticura Soap, Ointment and Talcum exclusively for every-day toilet purposes.

### LINIMENT FOUND TO BE POWERFUL GERMICIDE

Originally, Absorbine Jr. was sold only as a pain reliever and an embrocation. It was quickly discovered that the liniment was positive death to all forms of germ life, and it is now used as a mouth wash, for wound dressing and for all disinfecting purposes.

Another surprise was yet in store. When Dr. Pratt of Springfield, Mass., applied Absorbine Jr. to a varicose vein to relieve the intense pain. Not only did the pain leave, but he noticed every day the swollen vein becoming smaller. The treatment was kept up and, today, Mr. Pratt's legs, though he has never used anything else on them, are as smooth as when he was a boy. It has now been proved that Absorbine Jr. is an actual specific for varicose veins, leg ulcers, both pyorrheas and a number of other ailments and injuries besides that for which it was first prepared. Nothing serves so many every day purposes and nothing is better entitled to its place in every home. When it is needed, it will be needed in a hurry. Don't wait for someone to be hurt. ization Bureau in the Hall of Records on Oct. 1, accompanied by a gentleman who, I presume, was a personal friend, and who gave his name as Widmer, and stated through his interpreter that he desired to take out his first papers. He inquired as to the length of time he would have to wait to secure it. He was told that he would have to take his turn on the line and that it would be about an hour. He was further told in answer to a query that he might go out to luncheon and come back and his place in line would be saved. Firpo, accompanied by his friend, got back about 2 p.m. and was taken care of in the usual manner. Firpo answered the necessary questions and signed the declaration of intention in his own hand.

I know of no law of ruling by the authorities at Washington that will authorize me to accept the return by Mr. Firpo of his first papers, which, by the way I have not yet received.

At the present time Mr. Firpo's status is that of any other declarant for first papers, and the record of his declaration of intention to renounce allegiance to the Republic of Argentina will stand forever upon the records of the Government of this country. The declaration cannot be cancelled by any one, and the holder thereof may after completing five years of continuous residence in the United States, apply for final papers provided he declared his intention at least two years prior to that time.

Mr. Firpo claims that his action in taking out first papers was simply "a graceful gesture of appreciation" and not a bona fide intention to renounce allegiance to his mother country. Mr. Firpo, I am told, is an intelligent man and as such it is presumed that he must have had an object in mind when taking out his first papers. What the object was, I cannot say. If it was done for financial gain then the act, instead of being as he termed it, a graceful act of appreciation, was one of contempt of the Government of the United States and its citizens. Neither Mr. Firpo nor any other foreigner can use any agency of the United States as a means of furthering their personal or financial interests, and no foreigner, whether Mr. Firpo or any one else, need fear that the American people do not honor and treat with utmost fairness any one who has respect for the Government of the United States.

#### District Attorney Begins an Inquiry at Instance of Bay City Fans.

### CHANGE OF LIFE LOSES TERRORS

#### For Women Who Rely upon Lydia E. Pinkham's Vegetable Compound

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me. When I started to take it and weighed 160 pounds, I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking Lydia E. Pinkham's Vegetable Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and I owe it all to the Vegetable Compound. I do not see a single hair on my head, and I can do any work for a family of seven now. I will be glad to answer any woman who writes me in regard to my case."—Mrs. Gertrude White, 35 Union St., Greenville, Pa.

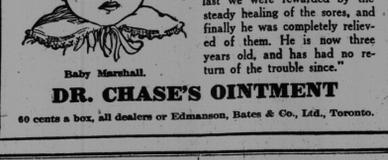

### If You Are Not Well Here is Your Key to Health!

Hattonford, Alta.—"Being run-down after the flu I was in a weakened condition, had dizzy spells and shortness of breath, followed by faintness. The middle age period made things seem as though I'd never feel well again, but I was determined not to give up. Hearing of Dr. Pierce's famous Golden Medical Discovery I sent for a bottle, followed the directions, and soon felt less tired and faint, and finally I got back to my normal state. I have thanked God many times for the restoration of my health so I could remain with my family, and I gladly recommend this Discovery of Dr. Pierce's. Golden Medical Discovery is put up in Dr. Pierce's Crystal Springs Farm, Hattonford, Ont., and sold by all druggists in both tablets and liquid. Send Dr. Pierce 10c for trial package of tablets. Write Dr. Pierce, Prest. Invalids Hotel, Buffalo, N. Y., for free medical advice."

### Eczema Covered Arms of This Healthy Child

#### Mrs. Alex. Marshall, Sprucedale, Ont., writes—

"When my little son was three months old he broke out in sores on his chest and arms. We did all we could to heal those terrible sores, but nothing did him much good. Finally I ventured on a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

### There's Danger IN THE SIMPLE CUT

Your injury may be just a simple scratch, a cut, bruise, burn or scald; but it needs prompt treatment with zam-buk. Neglect and delay leaves broken tissues open to dangerous germ infection and ulceration, blood-poison or even chronic eczema.

Keep zam-buk always handy! This powerful herbal antiseptic applied to broken, chapped, burnt or lacerated skin is instantly effective. It ends all smarting pain and inflammation, makes tissues germ free and germ proof and ensures rapid perfect healing.

Mrs. Valmore Savaria, Moreau St., Montreal, writes:—"I cut my finger to the bone while working an electric machine. The wound went the wrong way and became badly festering. It was surprising how quickly zam-buk stopped the pain. I persevered with the balm, and the wound which for weeks had defied all other treatment was healed perfectly. I shall never forget how zam-buk saved my finger."

In a hundred other emergencies of skin disease or injury, you will find zam-buk invaluable. All chemists 50c-buc.

### McKee Swerved Sharply and Bolted

McKee swerved sharply and bolted squarely into the rail. The heavy rail was broken about in the middle, and Rice was catapulted from the saddle, his head striking the jagged end of the split rail. Both horse and rider crashed into the starter's stand at that point and demolished it.

Rice's mother was in the grandstand at the end nearest the scene of the accident and was a witness of the tragedy.
