DEALERS HELP IN ANTI-TYPHOID CAMPAIGN

"We are doing our best to carry out Dr. Melvin's suggestion not to deliver milk in bottles which is the typhoid epidemic is on," is the promise by milk dealers this morning. "It is almost impossible to cover our rounds, however, as very few of our customers can be induced to leave cans out for us without being asked each time. We still take the milk around in bottles, and then empty the bottles at the doors."

EAST END BALL GROUNDS CASE

The trouble which took place on the East End League grounds during the game last Saturday, when Edward Graham says he was assaulted by two youths, named Simon Orr and Edward Simon, was given another airing in the police court this morning. Three more witnesses told of the circumstances, but their accounts differed in such essential points as to who struck the first blow or made the first act.

New Brunswick's Lumber King Has Passed Away

ALEX. GIBSON DIED AT MARYSVILLE TODAY

Born 94 Years Ago, From Poor Boy Rose to be Captain of Industry

Organized Great Lumber Business and Cotton Manufactory and founded Town of Marysville—A Record of a Mammoth Work Well Done

(Special To Times)

Frederickton, N. B., Aug. 14.—Marysville is today mourning the death of its founder and foremost citizen, Alexander Gibson, New Brunswick's greatest capitalist and industrialist. The news that his long and useful career has been brought to a close did not come as a surprise, as it has generally been known for some days that the end was near. Yet it was the sole topic of conversation here this morning.

He had been in failing health for the last year, but was able to be about the house until three weeks ago, when he suffered an attack of la grippe, with complications. Yesterday he seemed brighter than usual, but towards morning he had a weak spell. He retained consciousness to the time of his death. Plans for the funeral are not completed, but service will be held at 2:30 on Saturday afternoon, and it is likely that Rev. George M. Campbell of Seckville, will be the officiating clergyman.

WAS 94 YEARS OLD

Mr. Gibson celebrated his ninety-fourth birthday on August 1. Besides his two sons and three daughters, there are seventeen grandchildren and forty-three great-grandchildren. One sister, Mrs. Cline, resides in Millville.

FIFTY THOUSAND IDLE IN BERLIN

An Army of Unemployed in Germany; Demand on Government For Work and Insurance

(Canadian Press)

Berlin, Aug. 14.—As a result of the protracted financial and industrial depression, Germany is confronted by the problem of caring for an unprecedented army of unemployed. Attention was called to this condition by seven huge mass meetings of the unemployed in various parts of the city, yesterday. Resolutions were adopted demanding that the government enact a law granting insurance against unemployment and demand-

GENERAL STRIKE COSTLY FAILURE IN ITALY

Three Killed, Sixteen Wounded, 2,478 Arrested and Millions of Dollars Lost

Milan, Italy, Aug. 14.—The "general strike" in Italy, which has now come to an end, has resulted in the death of three persons, the wounding of sixteen and the arrest of 2,478, while the financial losses to workmen and employers amounts to several million of dollars.

CUPID ON THE WIRE

Evanston 'Phone Service Disrupted by the Little God

Evanston, Ill., Aug. 14.—Residents of Evanston, who have been complaining about telephone service this summer, were told yesterday that Cupid was the cause of the trouble. During the last month, seventeen telephone operators out of seventy at the Evanston exchange have resigned to get married and Assistant Manager Gates learns that even the girls who have remained at the switchboard are engaged. "Cupid seems to have possession of our wires," said Mr. Gates.

(Canadian Press)

London, Aug. 14.—Oscar Straus has been in London for two weeks and has devoted the entire time to studying the social welfare schemes which have been introduced by the Liberal party. He tells the correspondent that as a result of what he has seen regarding co-operative homes, he shall endeavor to introduce similar schemes in New York.

STRIKING SPEECH BY CHANCELLOR

Lloyd George Against Feverish Expenditure on Armament

(Canadian Press)

London, Aug. 14.—A striking speech was made by Chancellor of the Exchequer Lloyd George in the House of Commons yesterday on the question of the expenditure on armaments.

Fears Disaster Ahead

Nothing, said the chancellor, had done more to create money stringency and arrest new orders, than the sudden feverish activity in the expenditure on armaments in France, Germany and Russia. With every additional pound spent on armaments, credit was destroyed, with the confidence which created the activity, and energy of commerce.

THE CONCERT OF EUROPE NOW IS IN EXCELLENT TUNE

Important Announcement by Sir Edward Grey

ACTION AS TO TURKEY

One of Great Powers Might Intervene if Provoked—Albania to Be Autonomous State Under Prince to Be Selected

London, Aug. 14.—The concert of Europe is in excellent tune, according to the foreign secretary, Sir Edward Grey, who, however, hinted in the House of Commons that it was possible one of the great powers might intervene in Turkey if provoked.

THE CONCERT OF EUROPE NOW IS IN EXCELLENT TUNE

"We have reached a stage at which the concert of Europe is so firmly established that the adjournment of the ambassadorial conference can raise no doubt regarding the health and well-being of the concert. We have reached an agreement on the subject of Albania and the island in the Aegean Sea."

WANTS TO BE LAST OF IRISH SECRETARIES

Hon. Mr. Birrell's Desire—Political Chat Following Lord Alverstone's Resignation

London, Aug. 13.—The Chronicle this morning announces that Lord Alverstone's resignation is in the hands of Premier Asquith, but his successor as lord chief justice will not be appointed till after the long vacation. The appointment will undoubtedly be offered to Sir Rufus Isaacs, who in the event of his acceptance, will be succeeded as attorney-general by Sir John Simon.

SALVATION ARMY OUTING

A Sunday school picnic was held by the Charlotte street coterie of the Salvation Army yesterday at Armstrong's cove, about eight miles out the Red Head road. The party left the city about 9:30 in the morning in four trolley-cars and two carriages, which were well filled. The usual picnic games and races were enjoyed by the children and dinner and supper were served. The party, in charge of Adjutant Parsons and the other officers and Sunday school teachers of the coterie, returned to the city about nine o'clock, leaving after having spent a very pleasant day.

BUSINESS HOUSE BARS HOBBLE AND SLIT SKIRT

New Britain, Conn., Aug. 14.—Several hundred young women stenographers and clerks employed by a large manufacturing concern here, are receiving polite notes in their pay envelopes this week, with information that the slit skirt, the hobble and diaphanous skirts are not to be tolerated. Each girl is asked to appear for work in business like and modest clothes.

WHO'S AFRAID OF ANY OLD WAR LORD?

Berlin School Children Make Flying Tackles at Emperor William's Warlike Person Just as They Would at Dad's

Berlin, Germany, Aug. 5.—Part of the vacation fun of a lot of school children in Berlin recently was playing with the emperor. This photograph, which shows Emperor Wilhelm at a vacation home for children which he established, speaks volumes for his real character. There was nothing alarming about him to the children and they clustered about him and fought to hang on to his arms, legs and clothes. The emperor spent the afternoon laughing and dragging about scores of children who were attached to various parts of the royal person.

CAPTAIN A. W. COPP OF PARRSBORO IS KILLED

North Sydney, Aug. 13.—A particularly sad accident, resulting in the death of a well-known master mariner, occurred here today. The victim was Captain A. W. Copp, of Parrsboro (N. S.), owner and skipper of the three-masted schooner St. Maurice.

The St. Maurice arrived here from Fernandina (Fla.), on Thursday, with a cargo of hard pine for the Nova Scotia Steel & Coal Company. Today the cargo was being unloaded at the terminus wharf. A gasoline engine was used for hoisting, but the lumber was heavy and the winch often slipped back. Captain Copp caught hold of the tackle hooks as a heavy stick was being hoisted, and was swung about three feet off the deck. Captain Buffitt, North Sydney, who was running the winch, called to him to let go. He did so, and dropped to the deck. As he let go, the stick shot up about eight feet, the chain slipped and the stick fell across the captain's legs, breaking both at the thighs. It then bounced off and coming down again struck him across the abdomen. Death was almost instantaneous.

LABOR DAY PARADE

As a result of the circular letter sent to merchants of the city by the board of trade, asking them to take part in the preparations for the Labor Day parade and help to make the parade a success by having their rigs turn out in the procession, active steps are being taken by the merchants, and Mr. Hoag received a letter from the Wilson Box Company yesterday promising four decorated carts. Besides the work done by the board of trade in the matter, the Trades and Labor Council are taking active measures to make the parade a success by sending delegates to urge the merchants to help, and the prospects for a good parade seem to be very good at the present time.

How Farmer's Wife Rigged Up Telephone in Kitchen and Gets Gossip

"Persons who would normally think it a disgrace to eavesdrop or spy on their neighbors seem utterly without conscience when the telephone is in question and will go to any lengths to get every time the bells ring, whether it is their call or not. As an evidence of the extreme to which it can be carried I will remember a case where for some unknown reason the bells beyond one of the stations seemed in constant trouble.

One time they would operate perfectly, five minutes later they would ring so faintly that it was hard to distinguish the call. The manager was on the verge of frustration, as he had gone over the line a dozen times, trimmed every tree that could possibly have been in the way, adjusted bells—in fact, done everything he could think of.

"In despair he came to me and told me his troubles. I suggested that we drive out to the last 'good' station and, to his surprise, asked him if he dared walk in without rapping. He said he could, and the two of us entered very unexpectedly, the telephone being in the kitchen at the back of the house. The picture we found was, to say the least, amusing. The good housewife, in her haste not to miss anything, had actually rigged up a clamp to hold the receiver on the back of a rocking chair and spent her leisure time in comfortably listening to every word that went over the line.

She had even gone so far as to devise a method of opening the primary circuit on her own instrument so that the batteries would not run down. This is an extreme case, but shows how far some folk can go.—Farm and Fireside.

PLEASANT POINT PICNIC

With excellent weather as a strong inducement and well arranged order of amusement the Pleasant Point Sunday school picnic held yesterday on Mr. Arbo's grounds in Millford concluded a grand success. The morning saw a large number of the little ones on the grounds in full enjoyment of the many games and amusements designed for their pleasure and until nightfall the merriment prevailed.

The grounds presented a very pretty sight in decorated booths and tastefully ordered arrangement of the different pieces of apparatus for amusement and all were liberally patronized adding success of the outing was due to the efforts of well organized committees which were:

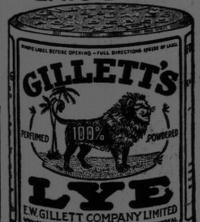

Tea tables—Conover, Mrs. F. Tippins, Mrs. Wm. Hamm, Mrs. N. Knox, Mrs. Harry Kierstead, and Misses E. Barie and M. Kierstead.  
Refreshment table—Misses Grace and Ella Hamm, M. Williams, M. Long and D. Kierstead.  
Gents' bean toss—George King.  
Shooting gallery—Ernest Arbo.  
Babies on blocks—Wm. Arbo.  
Loop-the-loop—Harry Archer.  
Some of the prize winners were Miss Ella Sherwood, rattan rocker; Mrs. Knox, carver set; and W. Chisholm.

Daily Hints For the Cook

PINEAPPLE SHERBERT  
Cover two tablespoons of gelatin with cold water, let stand until soft, then add one cup of hot water and stir until dissolved. Peel and chop finely one large pineapple. Boil one pint of water and one pint of sugar five minutes, and the dissolved gelatin, pour the mixture over the pineapples, let stand until cold, partially freeze, add the beaten white of one egg and freeze until firm. Let stand packed in salt and ice for two hours before using.

CURRENT CUP CAKES  
One and one quarter cups sugar, 7/8 cup butter, four eggs, quarter cup milk, one level teaspoon mace, one cup prepared flour, one and a quarter cups pastry flour, two-thirds cup cleaned currants. Cream sugar and butter, cream in the eggs one at a time (without beating), add milk and beat well. Sift flour and then measure. Add flour and mace sifted with flour into cake mixture. Add currants last. Bake in small muffin tins or fancy cake tins in a moderate oven.

Relief for Catarrh Sufferers Now FREE

You Can Now Treat This Trouble in Your Own Home and Get Relief at Once.

By the new method the nose and throat are treated by an effective local remedy applied directly to the affected areas.

THIS terrible disease has raged unchecked for years simply because symptoms have been treated while the vicious germs that cause the trouble have been left to circulate in the blood, and bring the disease back as fast as local treatments could relieve it.

C. E. Gauss, who experimented for years on a treatment for Catarrh, found that after perfecting a balm that relieved the nose and throat troubles quickly, he could not prevent the trouble beginning all over again.

On test cases, he could completely remove all signs of Catarrh from nose and throat, but in a few weeks they were back.

Careful experiments and investigations have shown that as the troubles were expelled from the nose and throat, the real cause of the disease was overlooked and in a short time the Catarrh would return stronger than ever.

Mr. Gauss has gone way ahead of the ordinary methods of treatment and has provided a remedy that

Kills the Germs in the Blood and immediately gives relief to the nose and throat.

has perfected the New Combined Treatment, since admitted to be the logical, safe, scientific method.

CHARMING NOVELTY AT NICKEL, STARTING FRIDAY

"What Happened to Mary" Photo—Novel in Twelve Reels; One Each Week

On Friday of this week a distinct novelty will be inaugurated at the Nickel in the form of a serial novel in motion pictures. This will be the now famous "What Happened to Mary" series which for a year back have delighted motion picture patrons all over the world as well as readers of that popular magazine, The Ladies' World.

The Thomas A. Edison motion picture company collaborated in producing this interesting story in which Mary Fuller, idol of millions of picture fans, plays the leading role.

"What Happened to Mary" is a sweet but adventurous story of a lone girl in a big city, and it is the Nickel's intention to give a thousand foot instalment of it each Friday until the series is exhausted. It was impossible to guarantee the regularity of a weekly chapter at previous dates because of the spotty condition of the picture service throughout Canada, so the Nickel people have waited a sufficiently long time to guarantee against any breaks in their serial picture.

It will be necessary for persons intending to enjoy the "What Happened to Mary" series to get the first of the Saturday matinee to get the first of the story. Each week's instalment will be a finished picture, but as it is unusual thing with continued stories, each final climax will leave the watcher eager to see the next instalment.

THE CHOCOLATE SOLDIER

George Bernard Shaw's comedy, Arms and the Man, with its rings of melody at the time-honored notions of war, heroes, love, courage, and so forth, furnishes a lively background for the blithe and joyous melodies of Oscar Straus. This celebratory emotion—relieving fun, tender sentiment, anger, sadness, patriotism—all being set to music by the "Chocolate Soldier" which comes to the Opera House August 20, 21, 22, 23.

The Whitney Opera Company is a rarity among such organizations, for stars are unknown in its ranks, but every member is an artist of high importance. Such names as Lottie Collins, Francis J. Boyle, Harry Raitheigh, Lella Hughes, Lucille Saunders, George Tallman and Sylvian Langlois add glamour to it, while Signor deNovellis and his orchestra are so well known that mention of them is superfluous. The opera is mounted with a scenic background that is marvellously beautiful, depicting Bulgarian scenes.

DREDGING FATALITY INQUEST

While there was none of the sensational evidence which was offered at a previous session of the inquest into the death of Ernest Ross, the scowman who was drowned in a Canastota Bay on July 14, the three witnesses called last night by Coroner Berryman seemed united in testifying that as a general rule only one man went out on the scows of the Norton Griffiths Dredging Company, although there was life-saving apparatus always aboard.

"But," remarked the coroner, after hearing some of the testimony, "what was the use of a life belt in the cabin when there was nobody on board to throw it?" The drowning man could not very well climb aboard the boat again and throw it to himself.

William Johnson, William Large and Bartholomew Pelly were the witnesses called. The first was a fireman, the second a foreman on the company's dump heap and the third a regular scowman. The inquest was adjourned until next Monday night.

What is Your Occupation?

There are many occupations where the eyes are used constantly for close work. With proper lighting and the eyes in good condition, a large amount of this kind of work may be done without injury to the eyes.

But if there is any eye-strain such work in many cases aggravates it very rapidly.

The result is often apparent in the loss of the worker's efficiency. He works more slowly and his work is not up to standard in quality.

The worst feature is that working under such conditions for any length of time is apt to injure the eyes permanently.

If you are doing close work constantly, make sure that you do not work with comfort, do not take any risks with your eyes. Have them examined by our skilled opticians, who will give you reliable advice about your eyes.

DETECTIVES GET INTO WRONG DEPARTMENT

Embryo Sleuths, Seeking Divorce Evidence, Find Trouble Instead

New York, Aug. 14.—Searching, they said, for divorce evidence, two men, who described themselves later as Jas. B. Varring of 228 Greene avenue, Brooklyn, and Davis Willard of 75 West 119th street, stealthily entered the apartment of Elnora de Sapri, an art editor, on the second floor of 149 West 121st street, early in the morn and were all but out to pieces by the editor and his wife, who they believed led to the apartment where they expected to find a woman for whom they were in search.

One of the men, climbing in through the window, struck Mme de Sapri, who awakened her husband. Later by the presence of the men and believing them to be burglars, the deSapris jumped from bed and grabbed the two weapons from the wall.

Husband and wife attacked the two in the dark, striking them repeatedly with the sword. The men begged for mercy, but the angered pair paid no attention to them. Then the men attacked de Sapri and his wife, and both were badly beaten.

Three other men tried to break their way into the apartment, were compelled to retreat by the woman and her Japanese sword. They, too, were later arrested and charged with disorderly conduct.

Policemen Cleveland and McNulty, attracted by the cries, managed to stop the furious onslaught on the critic and his wife and lead the two embryo detectives to the street, where an ambulance surgeon worked for an hour patching up their numerous injuries.

De Sapri and his wife also required medical attention.

NEW BRUNSWICK'S LUMBER KING HAS PASSED AWAY

(Continued from page 1.)

In the year 1866 Mr. Gibson acquired the mill and lumber holdings of Rankine, Ferguson & Company, on the Nashwaak river, and founded the town of Marysville, named in honor of his wife. He at once began a series of improvements, which resulted in the building up of a town which has since excited the wonder and admiration of every visitor—a town without a peer in the dominion.

Here Mr. Gibson established mills for the manufacture of large and small lumber, also grist mills and brick yards; and as a means of providing employment for the young people of the place, he erected and equipped one of the largest cotton mills in Canada.

A Great Industry

Mr. Gibson's timber holdings on the Nashwaak river include a large tract of land which he acquired from the New Brunswick & Nova Scotia Land Company. For forty years he had cut and manufactured on an average 30,000,000 feet of lumber a year, the bulk of which has been shipped to English and European markets. A force of 1,200 men and nearly 100 horses was employed

to handle this vast quantity of lumber. At the cotton mills 600 hands are employed and the output is shipped to all parts of Canada. A total of twelve hundred million feet of lumber has been cut out on the Nashwaak lands in Mr. Gibson's time, and they are as valuable today as they ever were.

A few years ago, Mr. Gibson, by acquiring property at Blackville, extended his lumbering operations to the Miramichi. The lumber from the mill at Blackville is forwarded to Gibson by rail and taken to St. John in scows for shipment to the old country. The deal manufactured at the Marysville mills were floated down the Nashwaak and loaded upon scows at the mouth of the river, three miles below the town.

In addition to his cotton and lumbering business, Mr. Gibson found time to engage in several railway enterprises. In conjunction with Senator Snowball, of Chatham, the Canada Eastern railway, 118 miles in length, from Fredericton to Chatham, besides a branch from Blackville to Indiantown.

"He is part owner in conjunction with Senator Temple of the handsome steel railroad bridge which spans the river between Fredericton and Gibson. He built at Marysville and has maintained with great success one of the largest cotton mills in Canada. He erected and donated to the New Brunswick Methodist Conference one of the finest churches in the province and has since maintained it entirely at his own expense.

"There is a town of 2,500 inhabitants, owned and controlled by one man more absolutely than the Czar of Russia controls his vast domains; but the reign of this industrial Alexander is a beneficent one; his subjects are contented and law-abiding, and Marysville is in all respects a model community. It is a beautiful town as well, standing as it does a monument to the energy and ability of New Brunswick's foremost citizen, Mr. P. E. Howland, who offered to construct the Canadian Pacific railway.

Too Much for One to Handle

In 1897, owing to the great increase in his business, which made it impossible for one man to attend properly to all its complicated details, Mr. Gibson's vast enterprises were taken over by a stock company, known as the Alexander Gibson Railway & Manufacturing Company, Ltd. Mr. Gibson was appointed president and general manager of the company, and filled the position up to the time of his death, giving it his close personal attention.

He was a man of remarkable energy and it has been many years since he has taken a holiday. He had always been in the enjoyment of perfect health.

In religion Mr. Gibson was a devout Methodist and one of the greatest benefactors of his church in the maritime provinces. He built, at his own expense, the magnificent Methodist church at Marysville, and presented it as a free gift to the New Brunswick and P. E. I. Conference. He also paid the minister's salary and supported the church out of his own pocket.

Mr. Gibson's wife, who was Miss Mary Robinson, died seventeen years ago. There are two sons—Alexander Gibson, Jr., ex-M.P., mayor of Marysville, and James Gibson. He has four

daughters—Mrs. John R. McConnell, Mrs. Charles H. Hart and Mrs. Frank M. Merritt, all of Marysville.

Concerning Mr. Gibson, the late Frank H. Risten of Fredericton, once wrote: "The spruce tree is king in New Brunswick, but the spruce tree bows his head in homage to Alexander Gibson. Starting in life as the provincial poor boy, in the village of Lepreau, his career reads like a romance. He employs an army of men in the woods, on the stream and on the river, cutting, driving, saving and shipping nearly 50,000,000 feet of lumber every year. He built the original New Brunswick railway, about 200 miles in length, extending from Gibson to Edmundston, with a branch to Presque Isle—all of which is now a part of the great Canadian Pacific railway system. He built in conjunction with Senator Snowball, of Chatham, the Canada Eastern railway, 118 miles in length, from Fredericton to Chatham, besides a branch from Blackville to Indiantown.

CLEVER LAWYERS

A suit was brought some years ago by the people of a certain quarter of Montreal against a manufacturing company. The vile odors of the chemicals used in the works, they alleged, had made the neighborhood untenable and seriously lessened the value of their property.

The judge and the jury were disposed to turn a deaf ear to the complaint. The company was rich and powerful and the judge and the jury were declared, "was too intangible a grievance to grasp."

When the prosecuting attorney replied he said: "How long a time really is five minutes? Let me see. Will his honor command an absolute silence in the courtroom for that space?"

The judge granted the request. There was a clock on the wall. Every eye in the courtroom was fixed upon it as the pendulum ticked off the seconds. There was breathless silence. We all know how time which is waited for creeps and halts and at last does not seem to move at all. The keen-witted counsel waited until the tired audience gave a sigh of relief at the close of the period, and then he quietly asked:

"Could he not have struck one fatal blow in all of that time?" Dramatic effects, however, are hazardous agencies to men, as it is not impossible to sopify them by an antilemax, as a member of the English parliament found when at the close of a fiery adjuration to the government to declare war he cried out: "Unsheath the sword!" and drawing a dagger threw it on the floor.

"Ah!" coolly said an opponent, "There is the knife, but where is the fork?" A shout of laughter was the result. Green Bag.

Effort to Heat up Old Animosities Declared Failure

WANT MATTER SETTLED

Views of the Westminster Gazette

—Never Mind Law, But The Covenant, Says Carson— Case Set Out By John Dillon

(Times' Special Correspondence)

Dublin, July 31.—The "Westminster Gazette" (Liberal), says:—

"For our part, we are convinced that the government need not have the slightest fear of public opinion in going forward with the Irish bill. Nothing in recent months has failed more signally than the effort to heat up the old anti-Irish animosities. Electioneers who want votes dwell on almost any topic in preference. The general sentiment is in favor of a settlement of the Irish question, and a vast number of people are of Lord Dunraven's opinion that it would be a disgrace to statesmanship if, after all these years of debate and agitation, parliament made shipwreck with another Irish bill. We could imagine nothing more disastrous for the government than to blanch before Sir Edward Carson's threats, and appeal helplessly to the electors for guidance, not on the principal of home rule, but on the particular way of solving the Ulster difficulty. That is precisely the kind of problem which electioneering statesmen to solve for themselves, and they will have an account to settle either with a government which professes itself helpless or with fanatical opponents who try to make a settlement impossible."

Ulster Unlikely Plans

What Ulster will do if home rule is established is now set beyond all doubt by the drama witnessed at Craigavon when Sir Edward Carson and the 200,000 Orangemen. Sir Edward chose the emotional scene to make a final proclamation of Ulster's intention.

"We intend to take over the government of Ulster for ourselves. I know nothing of legality or illegality. My covenant is to me all that is meant by legality or illegality."

That is the organized determination of Sir Edward Carson's party, to take effect from the day that home rule is declared. A general election, however, is issued that no Orangeman or Unionist shall pay taxes or rates which would go to Dublin and that the decisions of the courts shall not be recognized. The organization will be quite completed this autumn.

Should a Parliament be sitting in Dublin towards the end of next year, a Unionist provisional government would be sitting in Belfast thwarting every effort at every turn which the Dublin parliament might make for the purpose of carrying on what they would be pleased to call the government of Ireland.

Speech by John Dillon

Under the auspices of the Birkenhead Liberal Association, John Dillon, M.P., addressed a large meeting in the Hippodrome, Birkenhead, on home rule. Before the union, he declared himself loyal, a great nation, proud of her parliament, although an independent parliament, but still a parliament more or less responsive to Irish public opinion. Then came the unionist's general election, there had been three general elections on the home rule. When in Ireland, however, an amendment was proposed, there had been three general elections on the home rule. When in Ireland, however, an amendment was proposed, there had been three general elections on the home rule.

**LITERARY TREASURES**

Priceless Documents That Have Been Saved From Destruction By Chance

(London 'Tit-Bits)

Hidden away in national museums and libraries, and zealously guarded, are priceless manuscripts and books which, but for a fortunate chance, might have been lost to the world. The chief treasure of a museum at St. Petersburg is the oldest-known Greek manuscript of the New Testament, which was about to be burnt by the monks of a Syrian monastery, when, by a lucky chance, one of the priests, struck with the antiquity of the manuscript, interfered in time to save what had been thought to be valueless. The incident reminds one that the Magna Charta, which is carefully guarded in a glass case in the British Museum, was saved from destruction by Sir Robert Cotton, who, so the story goes, one day had entered his tailor's shop precisely at the moment when the knight of the scissors was about to cut up for patterns the ancient-looking document with its many imposing seals attached. Although Sir Robert did not at first recognize the value of the document, he judged it was something of historic interest, and purchased it from the tailor for a few shillings. After passing through the hands of various generations of his family it at last found a resting-place in the British Museum.

Discovered by Chance

An interesting story, too, is attached to a valuable Greek manuscript which came to the Bishop of Ugento in a startling way. It was wrapped round a fish and brought into the bishop's presence. By the merest chance he examined it, and found it to be part of a treatise thought for many centuries to be lost. The worthy bishop hastened to the stall of the salesman in the market, where the fish had been bought just in time to save the remaining pages of this literary treasure.

One of the most highly-prized manuscripts of recent times, that of "In Memoriam," was rescued just in time from a cupboard in a house where Penryson had lived for some time as a bachelor. As a matter of fact, it was the poet himself that the recovery was due, for he remembered that the book wherein he had transcribed the original draft had been hastily thrown into the cupboard where he had been accustomed to keep pickles and jams. When the friends sent by the poet to recover the manuscript arrived on the scene the contents of the cupboard had been removed by the landlady, who was just then engaged in her task of house-cleaning, and who tartly advised her visitors that they had come none too soon, in so much as she would have burnt all the "trash" she had found.

Among other valuable manuscripts discovered by chance might be mentioned the famous journal of his Italian travels written by Montaigne, now looked upon as one of the greatest of French literary treasures, while Milton's commonplace book, wherein were entered the rough notes and plans of his poems, which for more than 200 years was lost, finally turned up in the garret of a neglected house in London.

**GEN'S BILL A GOOD ONE**

A thrilling two reel production entitled "The Rival Engineers," was presented yesterday at the Grand Theatre to a very pleased audience at each show. The feature was to have been "The Tiger Lily," a three reel picture by the Vitagraph Company, but owing to some misunderstanding, it was impossible to show it. The railway story was substituted and gave much pleasure. It is a drama replete with sensationalism and thrilling venture, while there is also a touch of tenderness in many of its scenes of life amongst the railway men which appeal to the more sympathetic side of one's nature, and create augmented interest in the outcome. The picture will be presented again tonight.

There were also two Essany pieces, "Building the bridge and dam at Chats," a silver loving cup has been presented to Elias Toy, a Pennsylvania railroad conductor, who has worked continuously for fifty years without losing a day or receiving a reprimand.

RHEUMATISM KEPT HIM IN BED

Suffered Tortures Until 'Fruit-a-lives' Cured Him

McMillan's Corner, Ont., Sept. 30th, 1910.

Your remedy, 'Fruit-a-lives' is a perfect panacea for Rheumatism. For years I suffered distressing pain from Sciatica or Sciatic Rheumatism, being laid up seven times a year for days at a time. I went to different doctors who told me there was no use doing anything-it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me-except to blister. 'Fruit-a-lives' and they cured me.

Since then, I take 'Fruit-a-lives' occasionally and keep free of pain. I am satisfied 'Fruit-a-lives' cured me of Rheumatism and they will cure anyone who takes them in this way. If this letter would be of value to you, publish it.

JOHN B. McDONALD.

Indeed, the letter will be of value to and to the thousands of sufferers from Rheumatism, Sciatica, Lumbago, and Neuralgia. It is possible to get a certain cure. \$5c a box, 6 for \$25.00, trial size 25c. At dealers or from Fruit-a-lives Limited, Ottawa.

BUSINESS OUTLOOK BETTER

Boston, Aug. 13-The industrial situation in New-England, which has been halting since spring, shows numerous signs of at least temporary improvement. Notices were posted this afternoon on the gates of seven mills of the Fall River Iron Works Company, Fall River, the largest print cloth plant in the world, announcing that the entire concern will start full on Aug. 25.

The Iron Works mills have been shut down since May 10 and about one-eighth of the 6,000 operatives went to their old homes in Quebec and the maritime provinces.

Devonshire woolen mills, Manchester (N. H.), and many of American Woolen Company's thirty-five plants in New England are resuming operations but not to capacity. Many rubber mills, which have closed, will start again.

Judge D. Cady Herrick, who will act as chief counsel for the governor at his trial, said tonight that "talk of resort to force is the merest rot."

"He will meet the charges against him in an orderly and dignified way," said Judge Herrick, "and will do nothing to encourage the dignity of the state."

He will engage in no physical scuffle to assert his rights to discharge the functions of governor."

The governor himself was silent. When at 6 o'clock tonight he left his office in Fredericton, he was asked if he expected to return tomorrow.

"Yes, sir," he replied, in angry tones.

IN MEXICO

Mexico City, Aug. 13-A statement made by Minister of War Blanquet that he will not be a candidate for the presidency and that his only candidate is Provisional President Huerta, has aroused considerable interest here. The close relations between Blanquet and Huerta are considered to make Blanquet's indication tantamount to an official statement that Huerta will run for the office of chief executive of the republic.

Mexico City, Aug. 14-The over-whelming defeat of the rebels under Venustiano Carranza and Julio Madero, at Torreon is confirmed. Carranza and Madero are said to have reached Durango and the bulk of the rebel force is reported to be falling back on Pedernales, a small town in the mountains.

Federal reinforcements are being hurried from the north with the purpose of following up the government's victory.

PREMIER IN CITY

"I have not looked into the Suspension Bridge matter," said Premier Fleming, who arrived in the city at noon today, when he was asked about the Telegraph's interview with contractor McEwen. It is a question which he is to do with the department of public works, and until he have looked into the matter more fully I cannot speak with certainty about it."

Premier Fleming is in the city to attend a meeting of the Jordan Sanitarium Commission. The final arrangements for the annual opening on September 15 will be made this afternoon. The premier said that both Sir Wilfrid Laurier and Premier Broder would be unable to be present, but other prominent men would be invited.

GIVES HIM WARNING

A saloon belonging to Gordon Watters at Grand Bay was stolen about twelve o'clock on Tuesday night. The owner was informed by parties who saw them, of the identity of those who were in that open motor boat, and issued a warning to "Charlie" unless he returns the net, steps will be taken according to law. 1-14-18.

MILL STARTED

The stove mill at South Bay recently built by John E. Moore was put in operation today. All parts of the mill are in action as yet, but probably will be in the near future. The new mill is a fine addition to those already in the lower part of the river, and will employ a large number of the unemployed and the manufacture of staves.

SULZER'S WIFE VERY ILL; COMPLICATION OVER IMPEACHMENT

Albany, Aug. 14-The illness of Mrs. Sulzer, wife of the governor, is so serious as to be regarded almost as critical, according to announcement made by C. Platt, Governor Sulzer's secretary. Two additional specialists on nervous diseases were summoned from New York by telegraph this morning to attend her.

Albany, N. Y., Aug. 14-With Governor Sulzer impeached by the assembly and the date of his trial before the senate set for Sept. 18, the spectacle was presented tonight of two men pleading for the governor of the state of New York.

As soon as the articles of impeachment were announced at an early hour this morning by the Democratic majority in the assembly were presented to the senate, which will meet at 3 o'clock tomorrow. Lieutenant-Governor Martin H. Glynn announced his intention of occupying the executive chamber.

Friends of Governor Sulzer declared that the governor intended to continue in office and use every effort in his power to maintain his position, on the ground that the assembly had no constitutional right to consider impeachment at its extraordinary session.

Some asserted that the governor would go so far as to summon military aid if necessary to prevent the lieutenant-governor from occupying the executive chamber.

Judge D. Cady Herrick, who will act as chief counsel for the governor at his trial, said tonight that "talk of resort to force is the merest rot."

"He will meet the charges against him in an orderly and dignified way," said Judge Herrick, "and will do nothing to encourage the dignity of the state."

He will engage in no physical scuffle to assert his rights to discharge the functions of governor."

The governor himself was silent. When at 6 o'clock tonight he left his office in Fredericton, he was asked if he expected to return tomorrow.

"Yes, sir," he replied, in angry tones.

OTTAWA MAN A SUICIDE IN BALTIMORE HOUSE

Baltimore, Md., Aug. 13-Louis Olekiewicz of Ottawa, killed himself by inhaling illuminating gas in his room on the second floor of 816 Courtland street.

A suit case found in the room contained clothing and several cards. One was printed, "In case of accident notify C. E. M. B. Society, care of Chateau Laurier, Ottawa, Canada."

BURIED TODAY

The funeral of Mrs. Gilbert Bent was held from her late residence, 26 Summer street, in Ferrhill today. The service at the house and grave were conducted by Rev. W. H. Barralough.

To Make Hairs Vanish from the Skin

(The Modern Beauty.) Superficial growths of hair or fuzz literally vanish from the skin following an application of the de-lonate paste. Just enough paste is made with the powdered de-lonate and water to cover the hairy surface and after 2 or 3 minutes it is removed and the skin washed to take the remaining paste. This simple and painless method is far more satisfactory than the electric needle and seldom calls for repeating, excepting where the hair is very thick.

It is surprising how beautifully long and curly the eyelids grow when pyroxin is applied at the roots with thumb and forefinger. Rubbing pyroxin on eyebrows makes them come in thick and silky, but not so curly and don't get any where no hair is wanted.

POLICE GRAFT SENSATION MONTREAL

(Canadian Press) Montreal, Aug. 14-Excitement reigns at police headquarters, owing to the reported disclosure of a system of alleged graft in connection with houses of ill-fame in Montreal. Twelve affidavits connecting twelve members of the force have already been made out accusing those mentioned of levying toll on disorderly houses in return for police protection and a regular practice of going into houses of ill-fame and ordering free drinks.

Chief Campeau stated that the charges were not at all beyond his credence. "There are some 800 men on the force, and it is not improbable that among them there are some dishonest persons. 'For my own part,' he concluded, 'I am not the thing cleared up as soon as possible.'"

CHARLTON TO ITALY TO STAND TRIAL FOR MURDER OF WIFE

Faces Sea Voyage Compactly as Relief From Prison Cell

New York, Aug. 14-The case of Porter Charlton, self-confessed slayer of his wife, was removed today from the jurisdiction of the United States, when he was given over by the warden of the jail at Jersey City, to two Italian policemen, in accordance with extradition papers. He was reported to be in high spirits in prospect of a sea voyage after nearly three years confinement and confident that in the hands of the Italian police he would receive an acquittal.

Before being removed to the steamer 'De Italia,' which will sail today for Italy, he shook hands with all the jail officials and his fellow prisoners, and was also visited by his father, Judge Paul Charlton, who, with his wife, who is the prisoner's step-mother, will go to Italy to be present at the trial.

Charlton was a young man clerk, and was on his honeymoon with Mrs. Reville de Italia, near which they had been living in a villa. Mrs. Charlton's body was found on June 10, 1910, in a trunk at the bottom of the Hudson river, which was traced to America, where he confessed to killing his wife.

He has bitterly fought extradition for the last three years, but on July 8, last, he lost his last appeal, when the matter was given up to Italian jurisdiction.

FREDERICTON ACCOUNT OF DESERTION AND ELOPEMENT

Of an alleged elopement case, told in a Times' Fredericton despatch yesterday, the Gleason says:-

Edward Suffolk, a steam boiler foreman employed by James H. Corbett & Sons Company, Inc., has deserted his wife and four children, and has eloped with Miss Lulu Horley, daughter of Lieutenant-Governor Martin H. Glynn.

Suffolk has been employed on the St. John Valley Railway by the Corbett Company and until a few days ago was in charge of the steam shovel operating at Friar's Brook, Sunday county, where his wife and family of four children, whom he brought on from their home in Pennsylvania, resided in a rented house at Upper Gagetown.

While engaged at Friar's Brook, Suffolk is said to have met Miss Hayward and they became very friendly. Suffolk passed as a single man and a young man who became enamored with her. Equally they both disappeared, and since then it has been learned that Suffolk drove out the money he had in the Royal Bank of Canada in this city and borrowed other amounts until he had about \$5,000. With this money they started west, but where they started for or brought up nobody who knows will be able to say.

Mrs. Suffolk and her children, including a baby only fifteen months old, were left alone and without funds at Upper Gagetown. Since then she has closed up her house and arrived here this morning by steamer Hampshire, accompanied by Mrs. Michael Conkie, wife of the engineer of one of the Corbett steam shovels. With her family is the guest today of Mrs. William James, Brunswick street, wife of one of the Corbett company's superintendents, and tonight she is leaving for her home in Pennsylvania, the Corbett company providing the transportation.

Mrs. Suffolk was highly respected at Upper Gagetown and made many friends there, who sympathize with her keenly in her present difficulties. It was said by one of her friends today that she married Suffolk seventeen years ago and that he deserted her on a previous occasion, about twelve years ago.

THE FISH MARKET

Those who fancy the meaty steaks of fresh salmon have but two more days in which to satisfy their taste as the salmon season will close tomorrow. Lately only a few odd fish have been brought in and it has been hard work to keep the local market supplied. Salmon prices range from 17 to 28 cents a pound according to the day.

Hardly any halibut are on hand. What fish there are bring eighteen cents a pound.

Swirl fish, which is a new fish here, but popular in the States, is in abundance and is one of the fish stores. It is selling at fifteen cents a pound.

During the last week the mackerel were, which had been fairly heavy before, fell away and the local dealers have had to depend on the salted species. They are selling at between eight and thirty cents.

Haddock and cod are fairly abundant and are bringing eight cents a pound. Herring bring thirty cents a pound. Salted herring bring thirty-six cents. Salted cod are going for twenty-five to forty cents each. What few haddock and cod are in great demand at twelve cents a pound.

-Next Meeting in Woodstock (Special To Times)

Chatham, N. B., Aug. 14-This afternoon Woodstock was chosen as the next place of meeting of the Grand Lodge, I. O. O. F. The following officers were elected: Charles E. Cruickshank, New Glasgow, grand master; H. E. Codner, St. John, deputy; Rev. Canon Newnam of St. Stephen, grand warden; J. J. McKinnon of Charlottetown, grand secretary; J. H. Balcom, Halifax, grand treasurer; W. M. Field, Annapolis, grand chaplain; Rev. Canon Newnam, grand representative; S. B. Ebbett, Fredericton, grand marshal; Daniel C. McDonald, Sydney Mines, grand conductor. Installation will take place this evening.

MAY BE NO MORE NOON MEETINGS AT THE CITY HALL

There is just a possibility that the noon-day meetings which have been held since the commissioners took office may be temporarily suspended or perhaps permanently. There was no meeting today. Commissioner Schofield is away owing to ill health. Commissioner Wigmore is up river today, and Commissioner McLellan has not been attending the meetings since the agitation for the 'open door' that means that there would have been Mayor Frink and Commissioner Agat to attend the meeting.

It was said today that nothing is included in the constitution governing the holding of daily meetings at noon. There is no clause which ordains that meetings be held, but they have been held more for the purpose of bringing the commissioners together in conference to talk over informally the affairs of the departments, and they have proven convenient. If the daily gatherings are eliminated from the programme, it would probably mean that a conference would be held at any time aside from the weekly council meeting that it was considered advisable or imperative to do so. Nothing definite has been decided in connection with the matter as yet.

QUEBEC INSURANCE MAN IN TROUBLE

Quebec, Aug. 14-Private W. Hawkins of the 46th Highlanders, Canada's fourth winner of the King's prize at Bisley, blue ribbon of rifle shooting in the British empire, arrived here this morning on the Tunisian.

Accompanying a welcoming delegation were officials of the Victoria Life Company, who were present to hand Private Hawkins a rifle from Sir Charles Ross, the president of the company and a member of the great performance of the King's prize had accomplished with a weapon of this firm's manufacture. Private Hawkins left for Montreal, where another reception awaits him.

TECHNICAL EDUCATION COMMISSIONS WORK MAY GO FOR NOTHING

Toronto, Ont., Aug. 14-The Mail Empire says that the report of the technical education commission, after three years of travel and work, may be voided as antagonistic to provincial rights.

Head of Edmonton Hospital

Winnipeg, Aug. 14-Dr. James C. Pyshke, superintendent of the Montreal General Hospital, who has been appointed superintendent of Edmonton's three hospitals, under the supervision of the city hospital board, at a salary of \$8,000, is the son of a former general manager of the Bank of Nova Scotia.

DIARRHŒA, DYSENTERY, SUMMER COMPLAINT, PAINS IN THE STOMACH, CHOLERA MORBUS, CHOLERA INFANTUM, SEA SICKNESS AND ALL LOOSENESS OF THE BOWELS ARE RAPIDLY AND EFFECTUALLY CURED BY THE USE OF DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

This Famous Remedy has been on the Market for Over 65 Years, and Has Yet to Fail To Do What We Claim For It.

Do not allow yourself to be imposed upon by an unscrupulous druggist who tries to give you one of the so-called Strawberry Compounds instead of "Dr. Fowler's."

CAPTAIN BENTLEY WINS IN McLEAN MATCH

Yesterday Afternoon's Results In Shooting at the P. R. A. Meet

Sussex, N. B., Aug. 13.—By making the record score of 101, Sergt. H. M. Smith, of the 19th F. B., won the Association cup at the range here yesterday. The former highest score, 100, was made by Sergt. E. F. Gladwin, of St. John, last year.

The shooting for the Strathcona cups, for juniors and senior cadets in public schools, was carried on in conjunction with the first two ranges of the Association match. The senior cup was won by J. K. Oldham, of Fredericton, while T. White, of Campbellton, carried off the junior series.

Captain L. O. Bentley, of the 68th regiment won the McLean cup with a score of 48 out of 50, ten shots at 800 yards. The cup last year was won by G. F. Fletcher, formerly of the St. John R. A., but now in Australia, with a perfect score.

Table with 2 columns: Name and Score. Includes entries for Gr. H. D. Lockhart, G. A., J. A. Speight, A., J. H. McNutt, R. A., Sgt. I. S. Bonnell, Hussara, P. L. Dixon, Grand Falls, P. Harris, Sackville, Cadet T. White, Campbellton, and Cadet Lieut. E. A. Stephenson.

TOUGH ON THE BOY

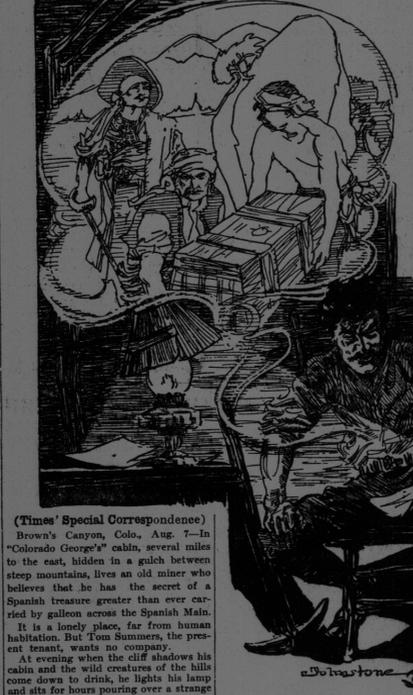

A sad story is told by a Pennsylvania man of a lad in his town who, like many another boy, has been obliged to wear the castoff clothing of his father.

One afternoon this lad was discovered in tears. "What's the trouble, my boy?" asked the man who tells the story.

"Why?" explained the youngster, between sobs, "pop has gone and shaved his face clean, and now I s'pose I'll have to wear all them red whiskers."—Harris' Magazine.

WHEN WILL MOON'S RAYS FALL JUST RIGHT IN CHALK CREEK CANYON AND REVEAL FABULOUS SPANISH TREASURE TO OLD TOM?

Men Have Spent Their Lives in This Rocky Mountain Gulch Seeking the Secret Cave, and Lonely Tom Summers Wants No Companion in His Search

(Times' Special Correspondence) Brown's Canyon, Colo., Aug. 7.—In "Colorado George's" cabin, several miles to the east, hidden in a gulch between steep mountains, lives an old miner who believes that he has the secret of a Spanish treasure greater than ever carried by galleon across the Spanish Main.

It is a lonely place, far from human habitation. But Tom Summers, the present tenant, wants no company. At evening when the cliff shadows his cabin and the wild creatures of the hills come down to drink, he lights his lamp and sits for hours pouring over a strange old parchment.

Often he sits thus all night. And then, at dawn, he shoulders his pick and shovel, and starts off on the long tramp to the base of Mount Princeton, southwest of Buena Vista. But he goes there only when the moon is near the full.

As long as his food lasts Summers moves slowly up and down the Chalk Creek canyon, tapping rocks, digging away debris, peering into caverns, sleeping by day and working by moonlight, and pausing often to consult his worn parchment.

When he has found the locality indicated by the chart, the moon's rays, at a certain elevation, will fall upon the entrance of the secret cave where the romantic old "conquistadors" stowed their gold. But Summers has not yet discovered the precise spot, or the time of the night, month and year when the moonbeams make the proper angle to bring into relief the rudely carved figure into relief the rudely carved figure.

CLOTHING AND FOOTWEAR DEALER IN ENGLAND

Shortage of Wool Given as Reason in the Former Case

London, Aug. 14.—The higher cost of dressing is making itself felt at the tailor's and the dressmaker's, and in the boot shops and the outfitter's, and in practically every department of the great dress stores.

Women who are now ordering clothes for the country house season are finding that almost every article of feminine wear for the early autumn costs more than it would have done just a year ago. So far as clothing is concerned, in fact, it is taking \$250 to do the work that \$200 would do a season or so ago.

The tailor-made coat and skirt which could be sold last year for \$20 is now \$212 if carried out in the same quality of woolen material. Boots and shoes, gloves and stockings, scarves and caps, traveling wraps, sport suits, all are rising more.

Even the simple everyday navy blue serge which has so long been the standby of the mothers of England, has gone up, and for the blue serge for the outfits which the children will take back to school in September, ninety-seven cents a yard will have to be paid as against sixty-two cents last year.

Interesting and varied were the reasons advanced for these increases in the price-lists by a number of heads of departments and traders with whom a representative of the "Wall Mail Gazette" discussed the new problem of the higher cost of dressing.

"It is a world of shortage of wool which has caused the present increase in the price of hosiery and woollen goods of all kinds," explained a departmental manager of a store which is world famous. "The cost of all articles in wool and in silk and wool is up by from 10 to 25 per cent, according to the grade of yarn employed."

"The sudden surge of cashmere has sent up the price of all cashmere goods, which are in great demand on account of their lightness and warmth. Cashmere sport coats, which women wear which are in great demand, are selling readily for the early autumn and holiday season at \$20 to \$25. Two years ago these cashmere coats, identical in quality, would not have brought more than \$10. The demand has been so great that the supplies of wool are nearly all used up."

Joseph McVay, contractor for the preliminary excavating and concrete work that has to be done before the Dominion Bridge Company can commence work on the new provincial government bridge across the overflowing falls, says that the delay in work on the bridge up till now has been the fault of the government.

J. E. Wilson, government representative on the ground, lays the blame on Mr. McVay and calls the latter's statement a "contractor's excuse."

"Why haven't I commenced work on the east side of the river?" repeated Mr. McVay, when asked this question. "Well, I promised to start work there May 2nd and the government agreed to have that two story house over taken away by that time. The government didn't fulfill its part of the contract, so I couldn't pull mine."

"Stuff and nonsense!" exclaimed Mr. Wilson, over the telephone, when Mr. McVay's statement was repeated to him. "That house he talks of was taken down by Thomas Flaherty three weeks ago."

"But that wasn't May 1," mildly remonstrated the reporter.

"I know it wasn't. But you can say Mr. McVay's talk is just a contractor's excuse—nothing more."

In Mr. McVay's opinion the dilatoriness of the government will prevent the actual steel construction of the bridge until next year, although the Dominion Bridge Company was to have commenced work next month. The bridge itself will hardly be finished now for traffic in November next year.

"Ten thousand dollars the government paid over in good, hard cash for that strip of ground over there," he said, "to Miss Mary Burns and Tom Flaherty. Then they called for tenders for the removal of the house and finding nobody except Tom willing to remove the blamed thing they sold him back his house for \$5. Pretty good, that—don't you think?"

"Not an Enterprise for the 'Quitter'"

"If there is one enterprise on earth," says John Wanamaker, "that a 'quitter' should leave severely alone, it is advertising. To make a success of advertising one must be prepared to stick like a barnacle on a boat's bottom."

"He must know before he begins it that he must spend money—lots of it."

"Somebody must tell him that he cannot hope to reap results commensurate with his expenditure early in the game."

"Advertising does not jerk; it pulls. It begins very gently at first, but the pull is steady. It increases day by day and year by year, until it exerts an irresistible power."

GOVERNMENT AND G. T. P. MANAGEMENT AT ODDS

Ottawa, Aug. 13.—There is evidently a serious hitch in the negotiations between the government and the Grand Trunk Pacific Railway Company in regard to carrying out the agreement as to the operation of the National Transcontinental by the company.

The government naturally wants to make the leasing and operation of the Cochrane to Winnipeg section of the National Transcontinental a part of the agreement for the leasing and operation of the whole line from Moncton to Winnipeg. But it is stated on good authority that the company would prefer to come to an arrangement with the government contemplating merely the use of the Winnipeg to Cochrane section by the G. T. P., leaving the balance of the line for the government to do as it likes with.

Such an arrangement would give the Grand Trunk a through transcontinental line. According to some, at least, of the officials of the company this is "all that is wanted."

It is stated that this is the real reason for the present delay in concluding any agreement as to the operation of the line from Winnipeg to Cochrane. This arrangement will be reached before long as the government and the Grand Trunk are both anxious that the new outlet for western grain should be utilized when the crop begins to move. But under the circumstances it is hardly likely that any permanent agreement can be concluded this year.

Deafness Cannot be Cured by local applications, as they cannot reach the seat of disease, and that by constitutional means, additional electric holts and other machinery that would tend to reduce the cost of the output. He expects to remain in Nova Scotia until late in October. Mr. Burchell while in Europe visited different parts of Germany studying the best methods of treating and marketing lignite coal. He will report his findings to the government of Saskatchewan, which asked him to report on the subject.

CIRCUS TRAIN STRUCK; EMPLOYEES ARE HURT; SOME OF THEM WILL DIE

Omaha, Neb., Aug. 14.—Thirteen employees of the Barnum & Bailey Circus, whose train was struck at Richfield, Neb., by a Rock Island passenger equipment train, were brought to this city, all suffering from fatal or serious injuries.

Richfield is a small town, without telegraph facilities, and the serious nature of the wreck did not become known until several hours after it occurred. In addition to the thirteen taken to the local hospital, twenty-nine other injured were brought to Omaha. The injuries of these consisted of bruises and cuts.

The wreck occurred a little after midnight. The circus train was pulling into the siding at Richfield, but had not cleared the main line when the passenger train struck it.

DEVELOPING THE JOGGINS

Aim of Company to Double the Output—New Machinery to be Installed (Amherst News)

The News had a pleasant call today from Mr. Henry H. Palmer of New Castle on Tyne, G. B., and George B. Burchell, the well-known mining engineer of Montreal, formerly of the Joggins Mines. Mr. Palmer is now making his headquarters at the Joggins and is representing the English capitalists who have advanced a large sum of money for the further development of the valuable coals areas owned by the Maritime Coal, Railway and Power Company at the Joggins and at Chignecto. He indicated that the company was going about the work quite but systematically and all hoped when the work was completed that the output of the mines would be more than doubled. It was proposed to install more electric coal cutters, additional electric hoists and other machinery that would tend to reduce the cost of the output. He expects to remain in Nova Scotia until late in October. Mr. Burchell while in Europe visited different parts of Germany studying the best methods of treating and marketing lignite coal. **POLICE COURT**

Hugh McAdam, aged about sixty, was on the prisoners' bench this morning, charged with begging in Douglas avenue and also with attempting to enter the house of Mr. McKeith. He pleaded guilty to the first charge, but denied the second. He was remanded. One prisoner was fined \$4 or 10 days for drunkenness, another was remanded.

**OUT, IS SOON IN AGAIN**

Yesterday was the third day in succession that a prisoner has been let out of jail in the morning and re-arrested in the afternoon. Charles Morrison, a colored man is the latest. About two months ago he was arrested on charge of being drunk and throwing a lamp at his wife. Yesterday morning he was released. He was free about twelve hours and during that time was chiefly engaged, according to the police in leaning against houses and gazing into space. Anyway, as he seemed due to remain in the street late at night, and could not give a satisfactory explanation of his movements he was taken back to his old quarters in King street east. This morning he was remanded again.

**SENATOR DOMVILLE  
SUING FOR \$20,000**

Hearing in Action Brought Against Central Railway Company of Canada

Hearing was had before Mr. Justice McKeown this morning in the case of Senator James Domville vs. The Central Railway Co., of Canada, on application of Fred R. Taylor for the defendant to set aside an order granting leave to sue. Mr. Taylor objected that there was no cause of action in the jurisdiction under the rules, that the cause of action did not authorize the order, that the endorsement on the writ was defective, and that in any event the defendant should be furnished with the particulars. D. Mallin, K.C., for the plaintiff, asked leave to amend by striking out certain matters. The court considers.

This is a suit brought by the plaintiff to recover \$20,000, which amount is alleged to be due as commission on the sale of certain bonds and stocks in England. The original writ was issued by the late Dr. L. A. Currey, K. C.

**FUTURE LEAGUE MEN  
ON EAST END GROUNDS**

Fan Writes to Times Inviting N. B. & Maine Magnates to Look Them Over

"To see some of the players in the East End League out of what were counted a sure hit, is what you don't often see in the N. B. and Maine or any league," writes an enthusiastic fan to the Times. He goes on to praise the brand of ball which was played between the N. B. and Maine League in their sixteen inning game on Saturday and says that in Lawlor, Stirling and Parlor the manager of the All Stars has three very classy young pitchers. Stirling, who is only seventeen, has lost but five out of sixteen games he has pitched so far to date. The writer closes his letter by suggesting that some of the head men of the N. B. and Maine League come to the next East End League game, as he thinks there is plenty of good material for future big league players to be seen there.

**GREEKS TRAVEL

Manager Leonard, With The Tickets, Misses Train For First Time in 28 Years - More Pitchers

There came nearly being no game in Fredericton today. A "double-header" was billed for today, but it was only through extraordinary endeavor that it was made possible; this extraordinary endeavor resulting in a special C. P. R. train being chartered by the Marathon management at a cost of \$100 to get the team to the Capital.

The Greeks to a man got aboard the train as usual in the Union Depot and got as far as Fairville. It was then learned that Manager Leonard was not on board. For the first time in twenty-eight years he had missed his train. And he had the tickets for the others in his pocket. The players got off at Fairville, and at once the management got busy in an effort to have transportation arranged. Automobiles were suggested, and motor boats, but it was finally decided to charter a special train rather than disappoint the capital fans.

The train pulled out about 10.45 o'clock. A few local fans went along to "root" for the home-team. The chartering of this train is another of the extra expense items not figured in the general outlook. The expenses to date have been very heavy, with the loss of holiday games, and Saturday contests, as well, owing to bad weather.

It was not known this morning who would pitch in this afternoon's contest, but it looks as though Shankey and Charles would have to do the honors. Woodcock is expected to reach the city on Saturday, and the management, who feel the need of more heavies just as keenly as do the fans, are after two more who may be here tomorrow or Saturday.

**KNIGHTS OF PYTHIAS WILL  
DECORATE GRAVES THURSDAY**

Arrangements Completed For Annual Memorial Day Proceedings

The Knights of Pythias of three local lodges, New Brunswick No. 1, Union No. 2, and St. John No. 86, will observe their annual Memorial Day on Thursday next. They will decorate nearly 100 graves in Fernhill, Church of England, Cedar Hill in Methodist cemeteries, as well as sending flowers to outside sections of the province and sister provinces.

The knights will assemble at Castle Hall, German street, early in the afternoon and, preceded by the City Pipe Band, will set about their labors of love and remembrance.

The lodges have issued a large number of shipment cards to friends owning flower gardens, and it is expected the usual generous response will be made for decorative purposes. The secretary of the memorial day committee says that the receiving depots for the flowers will be as follows:

Hasen J. Dick's drug store - Corner Duke and Charlotte streets.  
F. Clinton Brown - Corner Union and Waterloo streets.  
H. J. Mowatt - Haymarket square.  
S. H. Hawker - Corner Paradise Row and Mill street.  
S. W. McMackin - 285 Main street.  
F. W. Munroe - Union Hall, Main street.  
P. Nase & Sons - Indian town.

**FILLING IN WORK AT THE  
MARSH BRIDGE CRITICIZED**

Refuse Declared Being Used on Section of the Roadway

Citizens in the vicinity of the Marsh Bridge object to the manner in which the work of filling in on a section of the road just beyond the bridge, in front of Benjamin Robertson's store is being carried on.

The St. John Railway Company, in laying their tracks to Kane's Corner, were required by the city to lay their rails at this particular place, considerably above the present level of the road, and city men are now at work filling in the remaining width of the road, with the intention of putting this section on a higher level.

To have the roadbed raised along this section would no doubt make a great improvement if it were properly done, but the material being discussed for that purpose is the cause of complaint as it appears to be nothing more nor less than the sweepings from other streets of the city, or backyard refuse. At any rate it is certainly meant for the city dump, since there is no means at present of having such rubbish consumed.

Bits of old wire, sticks and scraps of paper can be plainly seen mixed in with a very fine soft kind of earth which would be better described as dust.

Although a thin coating of gravel is being spread over the top of the filling, the heavy traffic which is continually passing over this road must soon break through the crust, making deep holes in the road which would make it much worse than before. At present a large portion of the new road remains uncovered with gravel and on a windy day or when teams are passing over it, great clouds of dust are raised.

It can hardly be believed that this material is being used with the authority of the commissioners, and it is hoped that the matter will be investigated.

**THE TEAMSTERS**  
Yesterday a placard appeared on a post near the corner of Charlotte street and the north side of King square announcing that the teamsters would be found on the south side of the square. The old stand is no longer to be open to the teamsters but whether they will be allowed to remain on the south side for all time remains to be seen. The teamsters are not satisfied with the change.
