MR. BOWSER, ORATOR

HE TACKLES A COUNTY FAIR ADDRESS.

If Mr. Bowser had discovered
a way of scowering a balloon against
a cyclone he could not have looked
more important than he did the other
evening as he came home from the
office. Mrs. Bowser noticed his gen-
eral bearing at once and began to
wonder what had caused it, but it
was not until they were seated at the
dinner table that she queried:
"If anything special happened to-
day?"
"Some folks might not call it spe-
cial," replied Mr. Bowser, as he
swelled out a little.
"You haven't been buying a
barrel of root beer for a fall
toner?"
"Mrs. Bowser, when I buy a barrel
of root beer for a spring or fall
tonic the said barrel will be rolled
in at the basement door. No barrel
came this afternoon, did it?"
"You are not talking of trading
the house for a chicken farm?" she
persisted.
"Nonsense!"
"Then—then—"
He regarded her for a minute in
silence and then pompously observ-
ed:
"I shall be very busy in the li-
brary this evening, and if any one
calls you are to say that I am not
at home. I have a little address to
write."

"Oh—What sort of an address? I
hope it is not one for some club.
You remember how the Jolly Old
Boys made a fool of you last spring.
They pretended they wanted an ad-
dress, and then—"
"Stop right there, Mrs. Bowser—
stop right there!" he exclaimed as he
pointed his knife at her across the
table. "I know nothing about the
Jolly Old Boys. I never wrote an
address for the Jolly Old Boys. The
Jolly Old Boys can go to grass for
all of me. What do you mean when
you say that they made a fool of
me?"
"Why, they got you to write an
address and then shouted and laugh-
ed and gaped you so that you could
not deliver it. Don't you remember
how they stood you on your head,
made you climb a ladder and rolled
you on a barrel?"
"Why thunder, woman, but are you
talking such talk to me? Are you
out of your head? Have you gone
plumb crazy since I left the house
this morning?" Bowser laughed at
Bowser on a ladder! Bowser rolled
on a barrel!"
"But you told me so when you
came home that night."
"Never! Never in all this world!
However, we have had enough of
this. Don't ask me any more ques-
tions, for I shan't answer them. I
have no time to throw away on lun-
atic."

"Ladies and gentlemen!"
Mrs. Bowser subsided, and a few
minutes later Mr. Bowser finished his
dinner and went up stairs and lock-
ed himself in the library.
"Is that he's going to practice
on the water pipes?" asked the cook
in a whisper.
"Oh, no."
"Will he blow up the range or the
furnace, me'am?"
"He is going to do some writing."
"But if he's going to put dynamite
in the chimneys to clean them out
you should let me know, Mrs. Bow-
ser. I'm the sole supporter of a wi-
dowed mother, and I don't want to
be found hanging across the clothes-
line a mangled corpse."
Mrs. Bowser sat down in the sit-
ting room to read, and it was a full
hour before she heard from Mr. Bow-
ser. She finally came out of the li-
brary with some sheets of paper in
his hand and a perplexed look on his
face, and after pacing up and down
the room for two or three minutes
he said:
"Perhaps I spoke too harshly at
dinner, but I had a great thing on
my mind and was somewhat worried
about it."
"If you help you at all I shall be
kind to," she replied.
"It's just this way. I received a
call today from one of the executive
committee of the Branch County
Fair. He wanted me to write and
deliver an address. There's no no-
way in it, but lots of fame. I want
to get up the very best address I
can for the county fair this fall,
and if you help me a little I could
do it."

angrily exclaimed Mr. Bowser. "I
was a fool to appeal to you. I might
have known that your jealousy would
lead you to find fault with whatever
I wrote. Don't agitate yourself fur-
ther. Your opinion is nothing to me."
He therefore retired to the library
and slammed the door after him, and
it was fifteen minutes before he re-
appeared. He had tried again, and
after swallowing his pride he read:
"Follow citizens: As I cast my
eyes over this smiling landscape to-
day, and recall the fact that when
Christopher Columbus landed here
four hundred years ago he found no-
thing but a vast and silent forest
filled with whooping Indians and
raging wild beasts—I say that when I
look around me and see—"
"But Columbus landed down in
Florida, you know," interrupted Mrs.
Bowser.
"And what of that? Can't I speak
in a general way?"
"You have a vast and silent forest,
and then you say it was filled

"Certainly, I'll help you. How
much have you got written?"
"Not so very much, but it's good.
I will read it to you."
"Ladies and gentlemen! It goes
without saying that I stand here be-
fore you to-day with all the amon-
tions surging up in my breast that
Washington led when he crossed the
Delaware. After Lexington—after
Bunker Hill—after years of patriotic
suffering, we finally achieved our in-
dependence and we stand here to-day
under the banner of freedom."
"But I don't like the beginning,
dear," said Mrs. Bowser, as he paused
for breath. "Now, don't get an-
gry, but you see that Lexington and
Bunker Hill and Washington crossing
the Delaware have nothing whatever
to do with the Branch County Fair."
"I'd like to know why they have
been? Could Branch County have
had a county fair except for those
things?"
"That's an indefinite. I should
plunge right into my subject at once.
You seem to have mapped out a
Fourth of July oration instead."
"Nothing of the kind, woman!"

"WENT DOWN AND ROLLED OVER."

behind him. Arriving at the corner
drug store, he asked of his family
druggist:
"Say, White, where did Columbus
land in America?"
"On the coast of Florida," of
course.
"Um! Do you know anything
about the Branch County Fair?"
"I'm in the moon about that."
Mr. Bowser walked out of the store
seeing red. There was a man wait-
ing on the corner to strike him by
a dime. He was a poor man and a
wary and discouraged man, having
lost his wholesale drug goods business
in the California earthquake.
"Will I will I!" shouted Mr. Bow-
ser in glee as the man made his re-
quest. "You bet I will!"
And then two men struggled for a
moment—went down and rolled over
and up and fed—and it was the
blood-thirsty Mr. Bowser who pur-
sued with demonic yells.

THE JERICHO P. O.

PAP PERKINS, POSTMAS- TER, HOW BOOM WAS KILLED.

We had had a Liar's Club in Jeri-
cho for over five years, and it was
admitted on all sides that it had
been a great benefit to the town. It
met at the post office every night in
the week, and on Saturday nights it
drew farmers in from five miles a-
round. Many of the latter would
have gone to Dobbs' Ferry to buy
their groceries but for the club. They
just loved to sit around on the bar-
rels and boxes and hear the Liars
lie, and it was calculated that their
purchases at the stores amounted to
over a hundred dollars a week.
In addition to the farmers, when-
ever a peddler, a lightning-rod man
or a piano agent found himself with-
in five miles of Jericho on night or
Sunday coming on he made for the
village so as to be present at the
meeting of the Liars' Club. Strangers
passing through and intending to
simply stay over night at the tavern
would hear of the club and stop for
two or three days. The three minis-
ters of the town had set out under
after time to break up the club. Dea-
con Spooner was chairman, and a
number of the church, but when they
argued and appealed and threatened
to discipline, he merely replied:
"We are a club of liars, but we
don't lie to hurt any one. They are
just sick, pleasant lies, told to pass
the time away and to help along the
business of the town. Take away
our liars and we would degenerate
into a one-horse burg in two weeks."
The Liars' Club had passed its
fifth year and was gaining on it all
the time when there arrived in Jeri-
cho one day a little old man who
gave his name as Abijah Goodheart.
He came to look for a relative, but
the person had moved away. Mr.
Goodheart wouldn't have stayed be-
yond two days if he hadn't happened
to hear of the club. His old wrink-
led face lighted up with eagerness, he
rubbed his hands with glee, and he
waited an introduction to Deacon
Spooner at once. When the Deacon
was brought around the two fell in
with each other and that night Mr.

ARIZONA KICKLETS.

LOTS OF THINGS HAVE HAPPENED OUT WEST.

As usual, when we rode over to
Lone Jack one day last week to ask
the editor of the Banner why he had
called us a liar over the telephone,
we discovered that he had made for
the woods. We shall have the luck
to run across him some day and
strew his carcass on the sands of
time.
We don't know whether our at-
tempted contemporary shot at us one
night last week or not, but as long
as he says he did we will let it go
at that. If he had shot, then the
moon had a narrow escape.
Mr. Henry Shine writes us from
Salt Lake City that he will come to
Givensdam Gulch within a month and
will be here with a bullet. We'll
bet ten to one that if Mr. Shine ar-
rives here with any such bee in his
bonnet he will become a permanent
occupant of our private editorial
graveyard.
Colonel Shipley wishes us to an-
nounce that he raised strawberries
this summer as large as quart bowls.
We make the announcement to please
the colonel, but add, for the benefit
of the public at large, that we have
ever found him the biggest liar in
Arizona.
The twenty-two saloons in this
town formed a Trust last week and
raised the price of drinks one hun-
dred per cent. The indignant
populace had wrecked five buildings
and got well started, the trust an-
nounced a bust and prices went back
to normal. We have, you see, our little
war, even with trusts.

THE KING AND THE CARTERS.

The King was riding out with his
suite when he was halted at the foot
of a long and steep hill by a dozen
carts, and the king, who was com-
ing that way, and who had a peti-
tion to present.
"O Brier of the sun, moon and

ers, "I have been selected to state
your law in which you intended to
take yourself off."
"I think I said something about
drowning."
"Nice, easy way, and the girl?"
"She sighed, but said nothing.
Canst tell me, O Sage, if my love is
returned?"
"Certainly it is, my son. Get a
girl to sighing and love sticky fol-
lows. Old Sam Ray, of Pikeville,
could have told you that."
"But, O wise man, canst tell me if
I will be happy if we marry?"
"You love, and she loves if you

CAMPING OUT.

"When you catch me going into
the woods again with a party of men
on a vacation you will catch a wasp
asleep," said the hardware mer-
chant who had just told a female
customer that if she didn't like his
washboards she could go to pot.
A minute later he had cooled off
enough to resume:
"There were six of us, and we
went into the woods up-State with
tent and all equipments. We were
to fish, hunt and loaf, and so far
the other five went they looked to be
strong, healthy men. After a drive
of thirteen miles right into nowhere,
we came to a puddle called a lake
and pitched our tents. Three of the
five were too exhausted to help any,
and the other two played out as
soon as the tents were up. Then I
remembered that my ruptured, weak
rheumatism, nervous prostration and
consumption were the ailments in
camp.
"I had to gather and bring in all
the wood or we would have had no
fires. I had to do all the cooking and
we should have had nothing to eat.
I had to wash all the dishes or they
would have remained without wash-
ing. They looked it on me for fair.
They fished and loafed and lied, and
I had to do all the work. If any of
them were called on his ailments broke
out, and I was the only one who
times I was asked to go twenty
miles for a doctor. I didn't go, how-
ever, but they did throw all the work
on my shoulders, while they took all
the fun, and I was the only one who
went with them until the very last."
"How did you do it?" was asked.
"I left the camp at dark and walked
all night through the woods and
took the train for home, and the
other five were so far as I know. The

"ROBBED OF FIFTY DOLLARS AND OUR GUNS."

I was telling the solemn truth. There
has been so much lying here that I
thought I would slip in something
truthful for a change."
"Say, you do it nicely," compli-
mented the Deacon as he winked at
him.
"But I can prove the story to be
true."
"It's the slickest lie I ever heard,
and you shall receive all credit for
it. Don't brag about it."
Other men complimented him on his
gigantic lie, and winked at him when
he declared he had been telling the
truth, and the iron entered the old
man's soul. He wrote letters to Col-
orado, and in the course of a couple
weeks he got affidavits as to the
truth of his story. They even sent
on claims from the feet of the bears.
Bankers, merchants and ministers
united in saying that Mr. Goodheart
had never been known to tell a lie.
He got all this and much more, but
Deacon Spooner came around and
looked him in the face and said:
"I told his story once more. He
took plenty of time, and rung in all
the old incidents and a few new ones.
I was surprised at his fact to be pub-

UNCLE ELI'S FABLES.

THE SAGE AND THE YOUTH.

One day as the Sage was lying on
his back in the sun and wondering
why a ram's horns had a twist in
them instead of growing straight as
a broom-stick and being put to use
as baseball bats, he was approached
by a young man who made him be-
siance and said:
"O Sage, I have come all the way
from Pikeville to drink of thy wis-
dom."
"That's a right smart town, that
Pikeville," replied the old man as he
sat up. "Anything like a Fall boom
on there?"
"Pikeville is holding her own and a
little more, O wise man, but what I
would ask thee about is this: There
dwelleth near me a fair and gentle
maid."
"So? They are always fair and
gentle, I believe."
"I no sooner beheld her than I loved
her."
"That's right. Never lose any time
in getting hold of a good thing."
"Three days ago I told her of my
love, O Sage."
"Right again. Never let a girl get
away from you for the want of a lit-
tle gab."
"I poured out the tale of my love,
she listened to me, I told her that
unless she consented to be mine I
should kill myself."
"Very proper, young man—very
proper. Did you specify any partic-

take yourself off?"
"I think I said something about

MR. FIELDING ELECTED BY OVER 1000 MAJORITY

His Majority of Two Years Ago Nearly Trebled.

Queens-Shelburne's Emphatic Answer to Accusations Against the Minister of Finance--He Led in Almost Every District--Dr. Weldon May Lose His Deposit.

SHELburne, N. S., Oct. 31.--Hon. W. S. Fielding has been returned for the constituency of Queens-Shelburne by a majority of over one thousand over Dr. R. C. Weldon, almost trebling his majority of two years ago.

Had it not been for the riding which prevailed all over the riding the victory would have been more complete. Still it is complete enough to silence forever the imputation that Mr. Fielding's last election was influenced in the least degree by the expenditure of money.

It is doubtful whether Dr. Weldon will save his deposit.

Table with 2 columns: District Name and Votes. Includes Sand Point, Shelburne, and Queens County.

HALIFAX, N. S., Oct. 31.--Fielding's total majority is 1,028. He will arrive in Halifax tomorrow.

OTTAWA, Oct. 31.--The return of Hon. W. S. Fielding in Queens-Shelburne, by an increased majority, has given the members of the government here and the Liberals of Ottawa the greatest satisfaction.

His majorities have been increased in eighteen out of the twenty-three polling places in Shelburne county and in several of them, particularly Clark's Harbor, his gain has been large.

Complete returns from Shelburne county are as follows:

HEAVY GALE ALONG COAST

Tremendous Tidal Wave Does Damage

New England Coast in Grip of Storm--Fortunately Few Vessels are Exposed

BOSTON, Oct. 31.--After an unusual spell of mild weather the last day of October brought a heavy north-easterly gale to the New England coast.

Only the hardest steam powered vessels doubled Cape Cod, going north, although several tug boats with light barges passed south around that stormy peninsula.

The little schooner J. Arthur Lord, of Vineyard Haven, which grounded in Nantucket sound yesterday, signal-ling for assistance when the storm broke, was severely damaged.

At ten o'clock tonight a cold sleet was falling in St. John, N. B., and other parts of the province reported similar conditions.

NEARLY ANOTHER RAILWAY DISASTER

Federal Express From Boston Collides With Freight--Only Good Luck Prevented Fatality

SHARON, Mass., Oct. 31.--The engine of the Federal express, bound from Boston to Washington, had a side-on collision at 8:25 o'clock tonight with the engine of a freight train at a crossover about half a mile south of the Sharon Heights station on the Providence division of the New York, New Haven and Hartford railroad.

The freight train was backing from the outward track, on which the Federal express was approaching to the north when the express came up. Ten seconds later the freight engine would have been on the inward track.

The death occurred in Boston last week of Mrs. Samuel Thibideau, formerly of this city.

At St. John, N. B., on Oct. 27th, of Mr. and Mrs. Simpson, a son.

ACQUAINTANCE WAS VICTIM'S CHUM

Prisoner for Shelburne Murder Pleads Innocence

Evidence Against Him Seems Slight--Portuguese Stranger Also Under Suspicion

LIVERPOOL, N. S., Oct. 31.--Clarence L. Spears, who was arrested at Shelburne, yesterday by Chief Power, charged with the murder of a woman at Way, at Mitchell's Brook and brought here last night is a native of Louisiana.

It is now evident that Way came to his death before supper time on Saturday, as provisions left with him in the morning were scarcely touched and contact with him had been sent to him from the cook house.

Spears was arrested at Brownell's lumber camp yesterday afternoon by Constable Power, and protested his innocence, stating that he did not see Way at all on Saturday.

Way was a quiet and industrious man, well liked by all who came in contact with him.

At ten o'clock tonight a cold sleet was falling in St. John, N. B., and other parts of the province reported similar conditions.

At St. John, N. B., on Oct. 27th, of Mr. and Mrs. Simpson, a son.

WOODSTOCK, N. B., Oct. 23.—Milmore v. the Town of Woodstock, after a trial lasting five days, was concluded today. This morning J. B. Connell, K. C., addressed the jury, followed by Daniel Mullin, K. C., for the plaintiff. The charge of His Honor Judge Gregory was a clear review of the evidence and somewhat in favor of the plaintiff's contention. At half-past five the jurors retired. It took them an hour and a half to agree. Through Marshall A. Smith, foreman, they announced a verdict for the plaintiff and assessed damages at \$25, Costa, and very heavy ones at that, go with the verdict. Mr. Connell was granted a stay of posture.

His honor adjourned court until Thursday afternoon, as he has to be in Fredericton tomorrow to hold an adjourned session of the divorce court. Mr. Mullin, who received many hearty congratulations on his able conduct of the case, leaves for home tomorrow morning.

Rev. J. J. Callahan organized a lodge at Wilnot, Carleton county, Oct. 20th and the following officers were installed.

- C. T.—Archie Tracey.
C. T.—Myrtle Kirkbride.
L. D.—Mrs. Jas. McLeod.
V. T.—Winnie Gardner.
Secretary—Miss Jessie Rockwell.
T.—Markie Barrett.
F. S.—Phoebe Turner.
M.—William McLeod.
D. M.—Lucy Estabrooks.

Organized—Elva Turner.
Guard—Sterling Kirkbride.
Sentinel—Oscar Estabrooks.

A few days previously he organized a lodge at Waterville. This makes 20 lodges that have been organized since grand lodge met in July, making one of the best years in the history of the society.

Arrangements have been made for an exceptionally strong speaker to visit the province during January and February in the person of Prof. G. W. R. Hill of Minn. Prof. Hill ranks with the late Dr. Mann, Col. Sobiesky and the late Col. J. J. Hickman as a brilliant orator. The G. L. executive have been exceedingly fortunate in securing him for two months. He has done I. O. G. T. work in England, Scotland, Ohio, Michigan, Illinois, Iowa, Wisconsin, Minnesota, South Dakota, Arizona and Washington, and brings flattering testimonials and press notices from all. His name is familiar to all acquainted with I. O. G. T. work and coming to the help of our growing time he is sure to add great strength to the order.

Our own well known Michael Kelly of St. Martins is preparing to resume the work and is now planning a tour of the province. John Farley, P. G. T. of Bristol, is again actively engaged in the work, and in November will visit the existing lodges in Victoria, organize new ones and also a district lodge.

Rev. H. A. Brown of Elgin has been appointed provincial deputy grand chief templar, and will devote some time to reviving dormant lodges in Albert and Kings adjoining.

Prof. J. E. Nichol, chairman of the Massachusetts prohibition party, which was the first party to nominate Moran for governor, is coming to New Brunswick immediately after the election to work for the I. O. G. T.

FREDERICTON, N. B., Oct. 23.—Rev. Mr. Sheewa was today elected rector of St. Mary's, the parish lately vacated by the retirement of Dr. Duffy. Only one ballot was taken and resulted as follows: Sheewa, 20; Dibley, 7; Raymond, 2. Mr. Sheewa, who voted assured election, Mr. Sheewa proved the successful candidate. It is understood that Rev. Mr. Dibley had given it out that he could not accept the rectory unless he could keep part of his present parish in Sunbury, and this proposition was not acceptable to St. Mary's.

FREDERICTON, N. B., Oct. 30.—The funeral of the late Charles Alexander Burchill took place at three o'clock today and was very largely attended. Service was held at the Cathedral by Rev. Sub-dean Street, the hymns rendered being "Lead Me On" and "Abide With Me." Interment was made at the Old Burial ground.

The funeral was under the auspices of the Masonic order and was preceded by the Fredericton Brass Band. The Royal Arch Masons acted as pall-bearers and the deceased was laid out in the full dress of that order. The Forsters and city officials walked in a body in the procession. The Forsters and the deceased was laid out in the full dress of that order.

Among the visiting Masons were Grand Master Everett and Grand Warden Tutts, of St. John. The mourners included the son, grandsons and sons-in-law of the deceased.

SACKVILLE, N. B., Oct. 30.—A very enjoyable musicale was given at Main Street Baptist Church last evening under the direction of C. G. Steadman.

The first number on the programme was an anthem by the choir of the church, which was well rendered. A vocal solo by W. H. Davidson was much appreciated. John Guy rendered an organ solo very effectively. Miss Mabel Dixon gave an appropriate and enjoyable reading. Messrs. Waite and Mair gave a pleasing vocal duet; Mrs. Steadman rendered an organ solo very artistically. A generous collection was taken in aid of the new organ fund.

The first reading circle of the season was held at the home of Mrs. W. W. Andrews last evening. Dr. Baker presided. The evening was spent in discussing the best ways and means of making these gatherings a success during the winter season. Refreshments were served at the close of the evening.

Through Dobson returned last evening from a six weeks' trip to Winnipeg. Mr. and Mrs. J. J. Beaudry have returned to their home in Boston, after a week's extended visit in Sackville, the guests of Mrs. Beaudry's parents, Mr. and Mrs. Oliver Wry.

Twenty-five U. N. B. students arrived in town last evening and are guests at Ford's Hotel. The football match this afternoon between U. N. B. and Mount Allison promises to be very interesting.

David Babcock of Upper Sackville is critically ill.

Wm. Anderson and bride have returned to Manitoba, after a pleasant visit with Mr. Anderson's parents, Mr. and Mrs. Job Anderson, Middle Sackville.

The funeral of the late Gordon Ayer was held yesterday and was largely attended. Rev. E. L. Steeves conducted

ed the service. The hymns were feelingly rendered, under the direction of Miss Jennie Fawcett. The floral tributes were very beautiful. Interment at Upper Sackville cemetery.

TRURO, N. S., Oct. 30.—The toggery shop of E. Phillips Co. was burglarized last night by an exceedingly intoxicated man, who, however, knew what he wanted to take from the store, and made a careful selection of one pair of trousers, a coat and vest of small size, hat seven and one-eighth, two pairs gloves seven and a quarter, two fancy waistcoats, a necktie and umbrella. The burglar broke the glass in the front door. He was taken back at his stomach while in the shop and committed a general nuisance. His detection should not be a matter of dim-culty.

AMHERST, N. S., Oct. 30.—On Saturday last miners working in the north slope of Springhill mines became alarmed at a dense quantity of smoke laden with poisonous gases that penetrated that portion of the mines. Fire was at once suspected and over five hundred men at once quit work. The management took active steps to locate the fire and since Saturday noon have been working night and day to ascertain the cause.

It is now thought that there was an explosion of gas in an abandoned portion of the mine but that no fire resulted therefrom. The management is very reticent about giving out definite information but the hope is expressed that matters are not so bad as at first reported, but the men will not be able to resume work for several days. The slope where the fire is reported has the largest output of the mines. It would be a serious matter if fire proved to exist.

DIPHTHERIA CLOSES HAVELOCK SCHOOL

Teacher Was Stricken Down First— Suspected Thief Gives Himself up— Stolen Property Recovered

HAVELOCK, Oct. 23.—Before Magistrate Oswald N. Price the preliminary examination of Clarence Humphrey began today. S. D. Patterson spent a week hunting before he found his stolen property, going first via Chipman to Fredericton and Woodstock, then back to Norton, up to Moncton and into Kent Co., near Buctouche. The suspected thief gave himself up on Friday night last. The court adjourned today until Wednesday afternoon.

When more witnesses will be examined. The defendant is still in charge of Constable Corey.

Last Wednesday the primary teacher, Miss Beattie Howard, was not able to attend to her duties. On Saturday her case was pronounced diphtheria and the house quarantined. Today the intermediate and advanced departments were closed till Thursday.

Dr. Curry, the late blacksmith on the Cannan Road, has bought the shop recently closed by J. D. Seely, and last week opened to the public.

Dentist A. J. McKnight spent last week here on his vacation, while Walter Alward attended to his business in Moncton.

Last week Miss E. Louise Fricke and her sister, Mrs. Fowles, left here on a tour to Boston and New York.

Dentist Walter Alward goes to Chicago in the morning, where he will locate. He has spent a profitable summer here on dentistry.

On Thursday Mr. and Mrs. Nepton Coates move into the station house of the E. & H. railway. Mr. and Mrs. W. W. Killam, who have lived there for seventeen years, will spend the winter at Moncton. Mr. Killam has retired from railroading, owing to ill health.

The first number on the programme was an anthem by the choir of the church, which was well rendered. A vocal solo by W. H. Davidson was much appreciated. John Guy rendered an organ solo very effectively. Miss Mabel Dixon gave an appropriate and enjoyable reading. Messrs. MORE VICTIMS OF ATLANTIC CITY TRAGEDY FOUND IN MUD

Coroner Believes Others May Be Buried There—List of Known Dead is Now 54—Coroner is Convinced Bad Condition of Bridge is to Blame for the Wreck.

ATLANTIC CITY, N. J., Oct. 30.—The contention of Coroner Gaskill that a number of persons who lost their lives in the electric train wreck on the Thoroughfare bridge may be buried in the mud where the cars plunged was borne out late today, when the bodies of Mrs. Paul Felsburg, Mrs. Selma Johnson and Mrs. Sarah Miller were recovered from under the third car. This car hung from the abutment in the centre of the bridge with its nose in the mud, and when the workmen were trying to lift it from the water the bodies worked loose. That of Mrs. Miller was pinned fast in the wreckage, but that of Mrs. Felsburg floated up to the view of the workmen. Mrs. Johnson's body was found some time later.

The finding of these bodies increases the official identified number of the dead to 51, and the total number of bodies 54. There are still known to be among the dead the bodies of Mrs. Frank Monroe, three year old Joseph McElroy, H. N. Burch and Arman Alexis Tedesco, which makes the certain number of dead in the wreck 53, three still remaining three unclaimed bodies.

The second of the cars was raised this afternoon and it is probable that before morning the last one will be entirely out of the water, by which time it is expected that several other bodies will be recovered.

The finding of the body of Mrs. Miller was followed at the temporary morgue by a most pathetic scene. Mrs. Miller, who was in poor health, had taken the trip to the sea on the electric train with her daughter and grandson, Leslie. The elder Mrs. Miller's son was here today to get the bodies of his wife and son and arrange about the shipment of the bodies when the body of his mother was brought in. Miller collapsed after crying out that he was left alone on his vacation.

The police tonight in going over the effects of some of the victims at the city hall found a letter in the pockets of a garment taken from one of the

unidentified bodies. It was addressed to William Granning, Penn. Door & Sash Co., 25th and Callowhill streets, and was written by a brother. This apparently identifies one of the unclaimed victims.

While there has been no report of ghoulism at the wreck, the police tonight reports a mean theft that bears upon the affair. While the body of Edward Elmer of Archville avenue lay unidentified thieves broke into his cottage and looted it on Monday night.

Aside from the search for the bodies, forest centers on the inquest which will be held by Coroner Gaskill Thursday. While he will not express an opinion before the inquiry as to the cause of the accident, it appears from his statement, made this evening that he is convinced the bridge on which the accident occurred is not as it should be and may have to be rebuilt. The officials generally want a most rigid investigation so that the responsibility may be just placed.

The central figures in the inquiry on Thursday will probably be Daniel Stewart, the old bridge tender, and John Spiker, the tower man, who operates the signals. Stewart declares positively that he locked the door properly after the schooner yacht Sinbad passed through and the railway officials say that in any event the signal for the train would not have been given when the train came along had the rails not been right. John Spiker, the towerman, when asked about this, said that he could not see the tracks clearly enough from his position to know whether the tracks were in line, but he said he got the signal from the bridge tender that they were all right and gave the train a clear track.

An usual in case of this kind, a wild canard was started today by some one to the effect that the accident was the result of spite work on the part of river pirates, and the statement was enough to send a shudder through the police. The chief displayed considerable anger when asked about it, and he and Coroner Gaskill said it was absolutely absurd.

KENT COUNTY EPIDEMIC OF SMALL POX GRIP

MONCTON, Oct. 30.—Seventy-two cases of smallpox within a radius of a few miles and in one house thirteen members of a family seriously ill with the dread disease, shows the fearful spread of the epidemic in Kent county. The affected district is in the vicinity of St. Anthony and St. Norbert, and at a meeting of the City Board of Health last evening a detailed report was made of the prevalence of the disease was submitted by Dr. Botford, who has visited the locality within the last few days. So bad was the situation deemed that the board immediately sent telegrams to Premier Tweedie and to Dr. F. Fisher, chairman of the Provincial Board of Health.

A man named Ella Gallant went through Moncton from the infected district some few weeks ago and went to Shules, securing work in a lumber camp. Last Friday he developed smallpox and was turned out, going through Moncton to his home. At Buctouche no one would hire him a team nor help him in any way, so he was obliged to walk to his home, a distance of several miles, and was seen there by Dr. Botford while the latter was taking his trip through the district.

Secretary Northrup of the local board communicated these facts to Dr. Bliss of Amherst and intimated that immediate action should be taken to establish a quarantine over the camp at which the man had been employed. Dr. Botford, who was detailed to investigate conditions in the infected locality last night, presented the board with a detailed report.

In some families in the infected district are five, in others are four, in one thirteen cases, all the members of the household being affected. The quarantine is a most imperfect one. One man has been appointed to patrol the whole district, and drives around each day telling the inmates to keep in their houses and leaving in the yards what food may be necessary for their subsistence. That the quarantine is far from being effective is shown by the fact that two men from the very heart of the infected district were able to travel by train to Moncton, and it is known that others have left both the villages which seem to be the centre of infection.

Chairman Fisher of the provincial board arrives here tonight and will confer with the local authorities tomorrow morning.

Premier Tweedie was in the city yesterday, and in conversation with a Sun reporter said that he had wired Dr. Fisher of the Provincial Board of Health to proceed at once to St. Anthony's and take charge of the work of caring for the patients and of preventing the further spread of the disease.

ARRESTED FOR S. MURDER

Clarence Spears Charged With Shelburne Crime

Body Identified as Edward Way, a Section Man on the Halifax and South Western Ry.

LIVERPOOL, N. S., Oct. 30.—It has been made clearly apparent that the man whose body was found yesterday beside a brook near Granite Village was murdered and robbed. The body has been identified as Edward Way of Kempt Road, Halifax. The man at whom suspicion points has been arrested.

Way was a section man on the Halifax and S. W. Ry. district near Granite Village. He had the position for some time and was attentive to his duties. He left for his work Monday morning and that is all that is known until late in the afternoon driver Fred Jones of Engine 67 came speeding from Shelburne and was found lying by the roadside. He supposed it to be that of an intoxicated man, but in passing he noticed blood about the neck and immediately applied the brakes and brought the train to a standstill. The man was dead and the body was quite cold. It was taken aboard the train and brought at once to Liverpool.

An examination by Dr. Keddy and Dr. Spies revealed the fact that the first temple had been pierced by a bullet which had come out in front of the angle of the left lower jaw, shattering the body and destroying several teeth. The right ear, which was bruised, appeared a bad scalp wound about a half inch long. The back of the neck was much contused. On front of chin skin was off, the tongue badly cut, evidently from the teeth, while the throat was full of blood. There was an abrasion upon the left ear, while the neck was quite dark from hemorrhages. There were also two old bruises, one in front of the entrance of the bullet, the other near the left temple.

The coroner's jury met at the undertaking parlour of S. West at nine a. m., and it was not until 5 p. m. that they were able to come to a verdict. From the evidence before them they recommended the arrest of Clarence L. Spears of Sable River, a workman in Brownell's lumber mill at Granite Village. Chief of Police Power at once left for the latter place and has made the arrest. The father of the murderer was in the time worked in the Halifax dockyard.

The verdict of the coroner's jury was willful murder. Spears was brought here tonight for examination.

HALIFAX, N. S., Oct. 30.—Edward Way, the victim of foul play at Liverpool, was a son of Henry Way, machinist at Macdonald & Co.'s, this village. He was first intimated the father received of the murder was through the press. The young man was 28 years of age and for a time worked in the cotton factory here. The body will be brought to Halifax tomorrow for interment.

WAS HIS FORTUNE ONLY A DREAM

Carl Cremer, Montreal Man, Who Said He Inherited \$400,000 is Under Arrest

MONTRÉAL, Oct. 30.—Carl Cremer is under detention at the police headquarters, but so far no charge has been laid against him. Cremer, who is a German, came out to Montreal about twelve years ago and secured employment with the C. P. R. afterward working as a teamster and latterly as a shipping clerk for the Canadian Rubber Company. All his employers say that he was honest and a hard worker.

A few weeks ago he announced that his father was dead and that he was heir to a portion of his property valued at \$400,000. On the strength of this announcement, Cremer bought a \$18,000 residence on Pine avenue, ordered \$5,000 worth of furniture, made to order, from a leading firm of furnishings from the leading department stores, several thousand dollars worth of jewelry and five horses, for which he agreed to pay \$2,500. The money was to have been married this morning, but he failed to appear in the neighborhood of \$25,000.

He also borrowed a little money, but not much. One of his creditors became suspicious and this led to his detection by the police. So far Cremer has failed to produce the slightest proof of the genuineness of the legacy. The police believe that the man is holding under an hallucination. Cremer was to have been married this morning, the arrangements having been completed.

BIG ROLLING MILL AT SYDNEY. New Concern Will Start With \$1,000,000 Capital. It Will Employ 250 Hands and Pay About \$500 a Day in Wages. SYDNEY, Oct. 30.—The city council as a committee of the whole have been conferring with the promoters of the railway construction plant scheme behind closed doors for several nights. It has leaked out that the proposed plant is to consist of a modern up-to-date rolling mill, equipped with the latest machinery, operated by steam and electricity for the manufacture of bar steel, angle bars, the angles, joists, rails, railway spikes, track bolts and other articles used in connection with building and railway construction. The plant is to have a capacity of 40,000 tons of finished material. The cost of construction, building, machinery, etc., will amount to about \$1,000,000. The capitalization of this company will be in the vicinity of one million dollars (\$1,000,000). This amount will also include the working capital of the company. It will take from seven to nine months to erect the buildings and install the machinery, which will take about \$500 per day. A large number of the men employed will be skilled workmen, which it will be necessary for the company to bring to Sydney at extra expense. The buildings will be constructed of steel with concrete foundations, and the storehouses of brick or concrete, and will cover an area of over 50,000 square feet. The aid they think necessary for the city to provide to induce capitalists to look favorably upon this enterprise would be fifty thousand dollars 4% per cent. 30 year bonds, which the company would accept at par, exemption from taxation for twenty years, and water at the same rate as the other large corporations.

RECENT DEATHS

Mrs. D. W. McCormick died suddenly yesterday afternoon at the Victoria hotel. Mrs. McCormick had been several years, suffering from heart disease, but of late had been in fairly good health.

RONALD McDONALD, an old resident of Deperre, Wisconsin, died on Oct. 14. He was born at Miramichi, New Brunswick, Feb. 10, 1838. In 1867 he was a partner in the firm of Reid, Farrell and settled at Deperre in 1872.

DAVID WILLET, who died at 107 Hazen street, at the residence of his son-in-law, Robert Willet, on Oct. 28. He was a well known resident of the city for many years.

Mr. Willet was born at Girvan, Ayrshire, Scotland, on the 22nd April, 1824. He was a solicitor by trade, but gave up his trade on his appointment as gas manager of his native town on the completion and construction of the gas works at that place.

CHARLES L. COREY. The death of Charles L. Corey occurred suddenly Tuesday at his residence 324 Union street. For some time past Mr. Corey, who was a well-known carpenter, had been ill, owing to internal injuries due to a fall from a ladder, but his death yesterday was unexpected.

DE FOREST W. MOWBRAY. The death of this unfortunate young man, which occurred on the 17th inst. at White Head, Kings Co. brings to the minds of some of the older residents of the neighborhood an unusually mournful chapter of family history.

MRS. LAURA ANNETTE FELTZ. She is the daughter of the late H. Wickham of Chicago, who practically ran her off in 1868. She was married to a certain Mr. Wickham, who was a partner of Wickham.

FAR WORSE. "Ah!" cried she regretfully, as he released her. "I have broken your heart!" "Worse than that," replied the rejected lover, "you have busted my fountain pen."

CASTORIA. The kind you have always bought. Signature of Dr. Williams.

RUNITED BY HIS NAME. A young doctor, who had established himself in a country district and become popular, had just begun to congratulate himself on the fact that his popularity was increasing.

BEWARE OF MERCURY. A favorite method of administering this deleterious drug is in cathartic pills. Beware of "quick-result" articles, which do more harm than good.

BEYOND THE PALE. A friend of James Whitcomb Riley tells of an occasion when the humorist, "Hecuba," excitedly invited to social functions, was induced to attend a "literary" dinner in Indianapolis given in honor of a novelist of the day.

NERVOUS AND WORRIED. Mr. Archibald Sutherland, Principal of the Scotch School, Sydney, N. S. W., writes: "I was greatly troubled with nervous dyspepsia and after meals I often felt like vomiting and my stomach was sore."

THE RAILROAD DISASTER. The railroad disaster Sunday near Atlantic City, by which about sixty persons were killed, had among the victims two ladies who have been known in St. John. Mrs. Walter Bradshaw and Mrs. Cora Bibber Brown, both of Eastport, (Me.) Mrs. Bradshaw and Mrs. Brown were sisters of George Sweet, who was once the proprietor of the Hotel Waikato, Philadelphia. They had been visiting their brother, and were taking a Sunday outing to Atlantic City.

UNIONS' WAR

ON JAP LABOR

Fighting California Began Ten Years Ago.

The fight waged by organized labor against the Japanese on the Pacific Coast, in Hawaii and Alaska, which has now developed into an international matter, has been of about ten years duration and has become much broader than the present difficulty over the exclusion of Japanese children from San Francisco schools indicates.

BEFORE the entrance of the Japanese into the labor field of California and the northern coast States began to be seriously felt their presence in the case of Hawaii and Alaska, the fish packing plants of Alaska were the first to be affected.

Most of the sugar plantations in Hawaii are worked on the sub-contract system. The contractors, hired directly by the owners to cultivate and cut the cane, parcel out their acres to Japanese sub-contractors, each of whom is the head of a gang, very much as the contractors of the past.

IN the fish canneries of Alaska, and the Columbia River region of Washington the Japanese padrone system of Hawaii has been of late years successfully duplicated. Several hundred thousands of Japanese are now employed in manual labor of the lowest order involved in cleaning, cutting and packing fish.

IN the raisin picking district throughout the San Joaquin valley region, in California, the Japanese have been growing more numerous every year. Yet the labor field has not been so much invaded by the Nipponese as is demonstrated each year when the ranch owners are hard put to it to get laborers of any kind to pick their fruit.

As a class they have been found more efficient than the average Swedish or German workmen on the coast. The Japanese work as a rule for less pay than their fellow workers, and usually ask smaller pay than that given other servants out of consideration for their duties.

THE organized labor protest against the brown men in California began first in the fruit industry, and there it still is the strongest. No attempt to recall the Japanese out of working at non-union wage has ever been made, and the only recourse has been to intimidate in Fresno, one of the greatest fruit centers of California, there have been frequent armed clashes between the whites and the Japs, resulting from an attempt on the part of the white laborers to drive the little fellows out of town.

As San Francisco grew to be the strongest union town in the United States there followed a unionizing of the legislature of California. The Union Labor party appeared in San Francisco politics eight years ago at the election of Schmitz as mayor and has remained in the field, sending delegates to the legislature and setting the lead for other towns throughout the state in making organized labor a factor in politics.

The legislature of California at present is very near a union labor party, though Herrin, the Southern Pacific boss, still is able to swing things his way by a narrow majority. Schmitz, the union labor mayor of San Francisco, is a strong gubernatorial possibility four years hence. The whole municipal government of San Francisco is union labor and has been for eight years. The president of the San

RIVALRY BETWEEN TWO MAIL ROUTES

(Montreal Star)

Sir George A. Drummond has come out in favor of a four-day Atlantic mail service between Europe and Canada, but whether the experiment of bringing the mails from Liverpool to Sydney, C. B., in order to have a possible three hours over the Montreal route is a matter of course, will be decided next spring depends according to Mr. Hannah, the passenger manager of the Allans, upon the action of the Government in the premises.

"That matter is now in statu quo," said Mr. Hannah, to a Star representative. "The experiment may be repeated, and again it may not. To carry it out means a deflection of about one hundred and fifty miles on the part of the steamer. The difficulty is that the Intercolonial has only a single track between Sydney and Montreal, a distance of over a hundred miles. This means that to carry out this experiment with any success the company would have to suffer a loss of about a double track. If there was a double track, of course, you would have a train going at the rate of forty miles an hour to the eighteen which the steamer would make."

"However, that is a matter for the Government and not for us. If the Government desires the matter to be still further attempted, of course, we would do our part. Naturally, the people of Sydney are anxious to have their port given a reputation. It is a matter of only three hours that could be accomplished, at the best, is the game worth the candle?"

"Ah, well, that is the point," said Mr. Hannah smilingly. "But it is not for me to say anything as to that." A difficulty in the case is the exceedingly tortuous character of the Intercolonial in the eastern section. It would be impossible to make fast time upon the line in the neighborhood of Sydney. Then there is the Gut of Canso to be ferried over—the train would be placed upon the ferry and drawn across—a work taking time. This means another loss. It is considered by experts that if the road were straightened and a bridge built across the Gut labor field has not been so much invaded by the Nipponese as is demonstrated each year when the ranch owners are hard put to it to get laborers of any kind to pick their fruit.

THE other fields of unutilized labor invaded by the Japanese are those of section work on the railroads, clam and abalone digging along the coast, and house services. In the latter occupation the Japanese have been engaged in greater numbers yearly. Most of the Japanese house servants are men who attend school between mean times and sit up over their books every night.

As a class they have been found more efficient than the average Swedish or German workmen on the coast. The Japanese work as a rule for less pay than their fellow workers, and usually ask smaller pay than that given other servants out of consideration for their duties.
