HUGHES YET A FIVE TO ONE FAVORITE

Republicans Claim New York by Big Majority on Election Eve

Hearst and Murphy Both Profess to Be Confident of Sweeping the State—Tammany Goes to the Polls Today Sore Against Their "Yellow" Candidate and Are Likely to Knife Him—Contest in Massachusetts and Elsewhere Promises to Be Unusually Exciting.

(From Our Own Correspondent.) New York, Nov. 5.—The New York state campaign which will close at midnight tonight is for the election of a governor and all state officers, thirty-seven members of congress, state senators and members of the assembly. The campaign from start to finish has been in many respects the most remarkable that ever occurred in the state.

Mr. Woodruff today predicted that Hughes would get 150,000 plurality above the Bronx, and that he would carry the boroughs of Brooklyn, Queens and Richmond, also that the greater city would come close to giving the Republican candidate a plurality.

Bitter Feeling in Tammany Ranks.

Mr. Hearst named four of the candidates for the supreme court bench and forced the Tammany county convention to nominate them. He then refused to endorse under his Independence League emblem one of the favorite Tammany candidates for the court of general sessions, Francis S. McAvoy, and refused to endorse one of the Tammany candidates (John J. Brady) for the supreme court.

Two interesting reports on the present peculiar situation are current at nearly every political headquarters in the city. One is that the Tammany leaders care only to save their local candidates and will be glad to see Hearst so badly beaten that he will be forced out of politics. The other

BOAT LOAD OF SEAMEN DROWNED TRYING FOR SHORE AT RICHIBUCTO

I. C. R. ELEVATOR HERE TO BE KEPT BUSY ALL WINTER

Large Number of Steamers to Be Berthed at Long Wharf—Dredge and Scaws to Arrive Today to Clear the Berths There.

(Tuesday Daily Telegraph) The I. C. R. authorities have decided to do their own dredging at the Long wharf, and today or tomorrow a dredge and scaws will arrive by rail to prepare the berths for the Winter Port steamers. It is expected that the dredge, while here, will also deepen the berths at the ballast wharf, where the same machine was employed some years ago.

Enghaged by a furious sea, a boat load of men from the stranded Norwegian bark Adeona, on the reefs of Richibucto, near Rexton, Kent county, went to their death Monday afternoon. A little later the bodies of three of the occupants of the boat were washed on the beach.

TORONTO REAPS BIG REVENUE FROM STREET RAILWAY

City Will Receive More Than \$1,200 Per Day for the Past Year—Company Doing Well, Too.

(Special to The Telegraph.) Toronto, Nov. 5.—The city of Toronto will have received by December 31 from the Toronto Railway Company for taxes, rentals and percentages a sum probably exceeding \$1,200 per day for the whole year. The company's financial year ends Sept. 30, and a statement will soon be available.

PEARY WILL RETURN VIA NORTH SYDNEY

St. John's, Nfld., Nov. 5.—Sir William MacGregor, the governor of the colony, has received a telegram from Commander Robert E. Peary, the Arctic explorer, from Labrador, to the effect that he will be unable to accept the governor's invitation to visit him on the birthday of King Edward, November 9. Commander Peary says further that he plans to return to New York via North Sydney (N. S.)

FIELDING HAD 1016 MAJORITY OVER DR. WELDON

(Special to The Telegraph.) Halifax, Nov. 5.—The sheriff's declaration in Liverpool today shows Hon. Mr. Fielding's majority to be 1,016. He had 2,500 votes and Dr. Weldon 1,484.

TWO WHITES FATALLY WOUNDED IN RACE RIOT

Hattiesburg, Miss., Nov. 5.—Two men were fatally wounded and over 500 shots were fired in a race riot at Wiggins (Miss.), 35 miles south of here, Sunday afternoon and night.

BUATOUCHE REPORTS FIVE LOST

In addition The Telegraph was in communication last night with Buatoche by telephone and the report there was that during yesterday a small boat with five men from the bark had left the wreck for the shore. The seas were running mountains high and the position of the men on the Adeona must have been critical to have urged them to attempt passage to shore in a small boat. Apparently, however, the boat progressed with great difficulty until a point near shore when suddenly an immense wave capsized the small craft and left the unfortunate men struggling in the water.

DESTRUCTIVE FIRE AT GRAND FALLS

Roman Catholic Church and Seven Buildings Totally Destroyed

Grand Work of Bucket Brigade Prevented Many Other Buildings from Burning—Town Has No Fire-Fighting Apparatus—Only \$5,000 Insurance Carried and That Was on the House of Worship—One Woman Carried Unconscious from Blazing House—Loss \$30,000.

(Special to The Telegraph.) Grand Falls, N. B., Nov. 5.—The most disastrous fire in the history of Grand Falls occurred this morning and entailed in less than three hours a property loss of \$30,000.

At 10:30 a. m. smoke was seen issuing from the roof of the Victoria restaurant on Broadway owned by Joseph McCormick and it was discovered that the attic was on fire. The down being without fire protection of any kind it was useless to attempt to save the building and all efforts were concentrated in saving the adjoining buildings.

The men on the post office, which was distant only a few feet from the burning building, worked heroically keeping the roof and sides saturated with water and spreading wet blankets thereon and contrary to all expectations succeeded in saving the building.

Woman Rescued Unconscious. The McCormick building occupied by the owner as a restaurant and hotel and the barns and outbuildings in the rear were totally destroyed. Loss \$25,000; no insurance. The building was 21 stories. The furniture in the lower floor was saved. Mrs. McCormick lost all her clothing and a large sum of money and was carried out of her apartments in the attic in an unconscious condition.

Miss Maria Mulhern lost her clothing and money and Mrs. White, a boarder, also suffered serious loss. The fire spread to the McMillan building on the south, and it and two large barns in the rear were soon consumed.

This building which was unoccupied was owned by Henry McMillan. It was also a 24 story structure. Loss \$2,000. No insurance.

Fortunately the wind was blowing a gale towards the lower basin, otherwise the post office and Barrage building on the north would have burned and set fire to half dozen old shacks and barns and the greater part of the town would have been consumed. As it was several of the old shacks were burned.

A bag of dynamite was conveyed to the scene for the purpose of blowing up a number of old buildings but there being no rain the intention was abandoned.

At one time the roof of A. J. Martin's residence, home occupied by Wm. Manus McShaney, Excavator, St. Thomas House, Thomas Bradley's residence, Val Page's residence and the post office, besides several barns, were on fire, and were extinguished only after the most strenuous effort.

R. O. Church Burned. Burning chimneys and shingles were carried by the high wind past the Roman Catholic church which was distant more than 500 yards from the fire and about noon the cry was heard that the church was on fire. Flying sparks had ignited the interior of the bellry, and the flames soon extended up the tower and to the interior. In an incredibly short time the handsome church was a blazing inferno of fire. Women and even strong men wept when the church was burning. Soon the bell, which had tolled the Angelus three times a day for so many years, tumbled once as if in requiem and then fell crashing into the ruins and was melted.

The C. M. B. A. hall, adjoining the church, also caught fire and in a short

time the hall and magnificent church were burned to the foundations. The church was a large and handsome structure of which the people were justly proud and was erected at a cost exceeding \$80,000. The loss in total and the insurance on the church amounts to only \$5,000.

In less than three hours three large buildings, four separate barns and the Catholic church went up in smoke. Had the town had a system of waterworks the fire could have been extinguished at first without trouble.

Great excitement prevailed during the fire and the citizen turned out en masse to watch the flames.

Late this afternoon the ruins are still burning but all further damage was averted when the church was destroyed. Although the church was almost surrounded by buildings, some being mere fire traps, all escaped destruction.

The altars, statues, stations of the Cross, paintings, organ, pulpit and pews were saved from the church and the C. M. B. A. saved their organ and library from their hall.

Although the church is now a heap of smoldering ruins Father Joyce, the pastor, is not discouraged. Immediate steps will be taken to rebuild on a larger scale. While the church was burning the priest received one contribution of \$100 towards rebuilding. Plans will be made to hold services in Burgess hall for the present.

The fire was caused by a neighbor placed in one of the upper rooms and the hole cut for the pipe not being properly protected by an.

DOMINION STEEL AND COAL COMPANY'S ROW

It is Said That Pressure From Montreal and Toronto May Force Settlement of Dispute.

(Special to The Telegraph.) Sydney, N. S., Nov. 5.—"Absolutely the same" was the statement made by General Manager Jones tonight when asked if there had been any new developments with respect to the difficulty between the Dominion Coal and the Dominion Steel Company.

It was reported that several conferences had taken place during the day between Mr. Jones and President Ross and directors of the company, but the holding of such conferences was given an emphatic denial by Mr. Jones. The officials of the Dominion Coal Company are reticent with respect to the matter, and to the outsider there appears to be a dead lock between the two big companies. The only cessation of work at the plant has been about the furnaces, but only very few of the men are known to be out of the steel being given employment in other departments.

It is reported from North Sydney that the company have placed an order with the Nova Scotia Coal and Steel Company for 50,000 tons for immediate delivery. Efforts are being made to bring the two parties to some sort of a temporary agreement so as to enable the plant to resume full operations, and then to have the major part of the contract settled afterwards. The main matter in dispute with respect to the manipulation of the contract. It is held by the officials of the coal company that the contract calls for the supply of coal just as it comes from the mines. On the other hand the steel company contend that the coal must be of a certain quality, and that it is not to be delivered them as taken out of the pit.

It is learned tonight that despite all reports to the contrary the difficulty will be adjusted probably by tomorrow. Pressure is being brought to bear upon the deputants from Montreal and Toronto to settle the affair.

MILITIA TO PROTECT VIRGINIA NEGRO VOTERS

Charleston, W. Va., Nov. 5.—On receipt of a complaint that the Democrats of Mingo county had been terrorizing Republican voters, placing negroes on the trains and sending them out of the country, Governor Dawson today ordered three companies of the national guard to be mobilized at Huntington, ready to move to the scene of the alleged trouble. Deputy U. S. Marshal Day and Deputy Sheriff A. A. Gault are reported to have been thrown into jail at Williamson (Cal.) and bail refused them. U. S. officers left here today to investigate.

FURIOUS HURRICANE ON NEWFOUNDLAND COAST

St. John's, Nfld., Nov. 5.—A furious hurricane has raged along the coast of Newfoundland for the past two days. An immense amount of damage has been done to shipping and fishing interests, and the railroads and steamboat service have been suspended. The mail boats Carthaginian, of the Allan line, and the Louisiana, of the Diamond line, have been detained in port thirty-six hours. It is feared that many vessels along the coast have met with disaster.

THE BREEDING OF DRAUGHT HORSES

The first time in history that any mention is made of British horses is when Julius Caesar described their strength (54 B.C.). Henry VIII was, I believe, the first king to establish a royal stud, which he did about 1520, enacting laws to promote the breed of strong horses in certain shires, hence the name of "Shires." From that time breeding of horses by the British has been carefully thought out and experimented upon, the result that, owing to the great interest which has been brought to greater perfection in breeding has been gradual, but sure until they have arrived at the present almost perfect state.

WOLFVILLE

Wolfville, N. S., Nov. 3.—Mrs. Wright is spending the week in Halifax, leaving for Amherst on Saturday.

TRURO

Truro, Oct. 21.—Despite the rain on Thursday afternoon a number of guests attended at the home given by Mrs. J. E. Sully, and a pleasant time was spent.

Mr. and Mrs. J. C. B. Oline are glad to know that she is recovering from her recent serious illness.

HARCOURT

MONCTON FIREWATER

Moncton, N. B., Nov. 4.—"Died from exposure while drunk," was the decision of Coroner Ross, who was called upon today to inquire into the death of an Indian named Thomas Abraham Saperie, who was found lying in a clump of bushes at Humphrey's yesterday, a short distance from his camp.

Superior, with Peter Lababe, Denis Peters and two or three other Indians, were in Moncton Thursday and indulged in fire water. Three of the Indians left on the morning train for their camps at Humphrey's and Paines Junction, leaving Peters and Saperie in town.

According to the statement of Peters he and deceased spent the day in Moncton drinking and eating, and then started for Humphrey's well supplied with whiskey. On the way out they continued drinking and by the time they reached Humphrey's station they were very drunk. Some persons, they were started from the camp via the Buctouche track, which runs parallel with the I. C. R. at that point, to guard against being run over by an I. C. R. train. They staggered along until near the Buctouche station where the I. C. R. train, when Saperie could go no farther and sat down on the track, telling his companion to go alone, leaving him to follow. Peters did this, but as Saperie did not arrive later, the two of the Indians went out to look for him. They failed to find him and thinking he had returned to Moncton went back to camp and thought no more about him that night. Next day no search was made for him, the Indians thinking he had been arrested in town. Saturday morning they came to town and learned nothing was known of him by the police.

On reporting this to the camp a search was made along the railway track and Peter Lababe found the body in a clump of bushes, where he had apparently wandered in his drunken stupor, and was discovered on Monday.

Deceased was about sixty years of age and came here with another Indian from Lewis Island, Richmond Bay (P. E. I.), about two weeks ago.

The evidence given by Peters, who was drinking with deceased, showed they were furnished with all the liquor they wanted as long as they had the price. They were allowed to loaf about the barracks and smoke the same as paleface brethren.

Coroner Ross, who investigated the case, came to the conclusion that Saperie's death was due to exposure while in an intoxicated condition and closed his report on the case thus: "And I further strongly censure any person who would supply intoxicating liquor to an Indian."

Deceased leaves a wife and three children in camp at Humphrey's.

College Student Missing

Ottawa, Nov. 4.—A young college student named Thomas H. Shannon has been missing since Thursday. He was of a staid disposition, and his friends know of no reason why he should have left the college precincts. He is a native of Hazelton (Ont.).

TAMMANY OUTLINE ONTARIO ELECTIONS

Toronto, Nov. 2.—Evidence in the election conspiracy case today ranged over the three constituencies of London, Brockville and West Eglon. Brock Covan, deputy returning officer at Elizabethton, in Brockville, admitted having substituted six bogus ballots, which he received from a man he did not know, for genuine ones given to him by known Conservatives.

He afterwards received \$30 for doing so.

J. W. Fullard, another returning officer for the same constituency, told of an attempt of one Henry, a voter, to palm off bogus ballots and of the man's arrest and subsequent trial and acquittal.

Denyer, a Conservative worker, who refused the Conservative majority in his constituency by nearly 50. Duffield took full responsibility for having made the arrangement without consulting any of the other candidates.

John O'Donnell admitted having bribed voters named Puskham and Adams with \$5 each to vote for Hyman in London, the money having been furnished him for the purpose.

Several other witnesses admitted having received bribes at London, the money being given to them by Hyman before the election. Thos. Milson got \$5 from an unknown man after the election. Talbot, proprietor of the Echo, admitted him before the election there would be something in it if he voted right. He generally voted the other way.

Thomas A. Adolph was promised \$5, if he voted for Hyman. He voted for Gray but after the election a man who had promised him the money gave it to him. He took a \$5 Mohon's Bank bill and handed it over to the secretary of the Conservative Association, from whom he obtained it again last night.

William Hubert, Jr., son of the previous holder of the Echo, admitted him before the election asked to vote for Hyman by James Cooper, who told him there was \$10 in it if he did. Being a Conservative he refused to do so and Cooper told him he was a fool. He voted for Gray.

William Hubert, Jr., son of the previous holder of the Echo, admitted him before the election asked to vote for Hyman by James Cooper, who told him there was \$10 in it if he did. Being a Conservative he refused to do so and Cooper told him he was a fool. He voted for Gray.

AN ALDERMANIC DUTY

If it be practicable for the city to appropriate the Gas Company's business and lease it by tender to the concern that will give the most reasonable service, such a course might be the best solution of the present difficulty.

WHICH DO YOU BELIEVE?

Even poets dogmatize. The statement that opportunity knocks once and goes by forever if the door be not opened to the visitor, occurs in many forms in our language.

KENT COUNTY'S SITUATION

If the public and the government were paying men to estimate the amount of standing timber within a certain area that was to be sold they would expect, and exact, accurate information.

A DEAD INDIAN

In Moncton where the Scott Act is an issue just now, and where it must become a livelier issue hereafter, they are called upon to consider the case of an Indian who was found dead from exposure after a debauch.

COMPULSORY VOTING

The very interesting intimation in our Ottawa despatches this morning, that compulsory voting may be put in force by an act of parliament at the coming session, should cause a wave of interest across all Canada.

It should be greatly extended and sharply looked after. The community, in one way or another, cares for a large number of men and women who would be compelled to do so were it not for the fact that they are able to beg, steal or borrow the price of liquor and carry it to resorts where such "white Indians" are welcomed so long as they can pay.

SANDFORDISM

Conditions at Shiloh, the Sandford religious colony in Maine, have become so bad that the governor of the state is being petitioned with a view to having a legislative investigation.

The case of Mrs. Phelps of Kansas City as told by her is pitiable, though more so perhaps than similar ones that have been revealed from time to time.

It is the testimony of Mrs. Phelps and Mrs. Callist that there are in the colony a number of people there and describing their condition. There are about 150 children, she says, and they are half starved and pinning.

GOOD GAS AT AN HONEST PRICE

Toronto has 45,000 consumers of gas. Assuming that each head of a household is a patron of the gas company represents a family of five it will be seen that a very large proportion of the population of Toronto regularly use gas.

A letter purporting to be written by Mr. A. C. Swain, the Chicago gas expert, on behalf of the St. John Railway Company, is printed on another page.

TWO YOUNG WOMEN KILLED BY TROLLEY

Amsterdam, N. Y., Nov. 5.—A carriage in which were seated Misses Lena Cook and Eva Scott, each about 20 years old, was struck by an electric car at a grade crossing three miles from the city today, and both young women instantly killed.

Bank Looters Sent to Prison

Chicago, Nov. 5.—Paul O. Stenland, formerly president of the failed Milwaukee Avenue State Bank, who was arrested in England, and Henry W. Hering, cashier of the same institution, were today sentenced by Judge Finckley in the criminal court to imprisonment for a term of ten years.

Storm Damage at Point du Chevre

Moncton, Nov. 5.—(Special)—The recent storm has done considerable damage along the coast. At Point du Chevre the I. C. R. wharf and new breakwater are considerably damaged.

Does he demand his employees—suppose that he—of the public for good gas at an honest price to be pushed by the statement that the consumer should buy Welshach burners at \$1.25 each and have the pipes enlarged? Do they believe any progress is made in this matter by printing Mr. Swain's personal opinion as to the conduct of the more important party to the dispute in hand, which more important party is the public? On this head the expert says, with some effrontery:

NOTE AND COMMENT

The Frenchman who escaped from the local chain gang, secured a revolver and threatened several women in a country district, and whose examination by the prison doctor with respect to his sanity was not completed, has been set at liberty.

GOT FOUR YEARS FOR BEATING HIS WIFE TO DEATH

Belleville, Ont., Nov. 4.—At the opening of his high court Saturday morning, Ferdinand Kleibrigg, who was declared guilty on a charge of manslaughter, came up for sentence before Justice Britton. His honor said that owing to his age and the fact that the jury had made recommendation for mercy, he would sentence the prisoner to four years in Kingston penitentiary. The sentence caused great surprise and the prisoner sat down with a satisfied look. It was generally thought the sentence was very light.

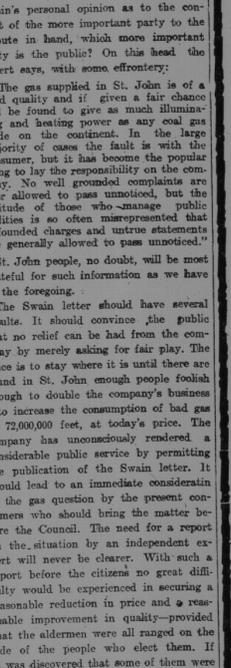

COMPULSORY VOTING LIKELY TO BECOME LAW

Ottawa, Nov. 4.—The government, it is understood, intends to make some important amendments to the election law next session of parliament. These amendments are tolerably sure to include some of a pretty drastic nature and, if the view of the special committee of last session prevails, one feature will be a clause requiring every qualified voter to record his ballot in parliamentary elections on penalty of disfranchisement for a term of years. This, it is thought, may meet the case of the man who "hasn't the time to vote" unless one of the candidates makes it worth his while.

RECORD OUTPUT OF DOMINION COAL CO.

Halifax, N. S., Nov. 4.—The Dominion Coal Company's output for the month of October surpassed any previous record of the company by several thousand tons, and reached the high total of 250,000 tons, as compared with 227,722 in September. This in spite of the loss of coal at Reserve, on account of the destruction of the bankload. Labor is now more abundant than during the summer.

SUDDEN DEATH OF FRANK B. STREET BUT CREW SAVED

Well Known Commercial Tern Vessel G. M. Cochrane of Parrsboro Pounded to Pieces

ORANGE CELEBRATION HAD NARROW ESCAPE

L. O. A. Marched to Church Yesterday and Observed Guy Fawkes Day and King William's Birthday—Water in the River Rising Fast—Other News of the Capital.

Fredericton, N. B., Nov. 4.—The Orange men of the city and Guy Fawkes celebrated Guy Fawkes' day and the 25th anniversary of the birth of King William III. by attending divine service at the George street Baptist church this afternoon. The turnout was a fairly large one, there being about sixty of the brethren in line.

Rev. A. Rideout preached an eloquent sermon, appropriate to the occasion, and was followed by the great interest of the Seventy-five Band led the procession to and from the church.

The water in the river here has risen about a foot during the past few days. Frank B. Street, a Montreal commercial man, widely known throughout the maritime provinces, expired very suddenly at Miss Allen's boarding house, Waterbury street, shortly after 1 o'clock this afternoon.

Mr. Street had made Frederick his home for some time, and was in the city on business. He was a well-to-do man, and had a large family. He was a native of Montreal, and had been in the city for some time.

His death was a great shock to his numerous friends in the city, particularly to his associate at Miss Allen's.

The deceased gentleman was about fifty years of age, and was a native of Montreal. He was a well-to-do man, and had a large family. He was a native of Montreal, and had been in the city for some time.

SCHOONER LOST BUT CREW SAVED

Life Savers Shot Line Across Vessel and Took the Sailors Off in Breaches Buoy—Capt. Tower of Parrsboro Had Recently Bought Boat for \$12,000—She is Insured.

Chatham, Mass., Nov. 4.—The nearly new British tern schooner G. M. Cochrane was totally wrecked on Nauset beach at dawn today. Her skipper, Captain Benjamin Tower, believed to be Pollock, is in running down for Cape Cod on his voyage from Parrsboro (N. S.), to New Haven (Conn.). The captain and five members of his crew were taken off the waterlogged vessel in the breaches buoy by the life savers.

The vessel was being stripped by the life savers last night. The rescued men were: Captain Benjamin Tower, Parrsboro (N. S.); Mate Martin Ward; Cook, William Bloomer; Seaman, George Siddle, Herbert Eaton, Herbert Ross, residences unknown.

The schooner left Parrsboro last week and had fairly good weather down the coast. Last night was clear with a bright moon all night and the Cochrane approached Cape Cod, heading as Captain Tower believed, for Pollock. A shoal lightship, Captain Tower was on deck during the latter part of the night hearing his vessel about southwest. A moderate breeze was blowing at the time from the north-northeast before which the Cochrane was rolling along at a moderate speed but in a very heavy sea.

WAUGER AT LIBERTY AND THE DOCTOR IS SURPRISED

Strangely Acting Frenchman Freed to go to Work—Dr. Christie Starting to Complete Examination as to Sanity When He Learned of It.

Alphonse Wauger, who about a week ago was remanded to jail on charge of vagrancy, was discharged Monday by Judge Ritchie. At the time of his remand his honor gave directions that Wauger be examined as to his sanity, it having been reported that he had been acting in a queer manner.

Monday morning a man named Petek, for whom Wauger had formerly worked, appeared in the police court. He explained that he had worked for Wauger and asked that he be discharged. The prisoner was sent into the jail and the situation was explained to him. Judge Ritchie told him he was liable to a two year sentence in the penitentiary for being an escaped prisoner. On Wauger's assurance, however, that he would go to work for Petek and behave himself he was allowed to depart.

Police Clerk George A. Henderson said Monday in reference to the matter that when a person is remanded from the police court with instructions that he be examined as to his sanity it is usual to wait till the jail surgeon or other doctor employed for the purpose hands in his report. In this case Wauger had been in jail about a week and Dr. Christie had made no statement either written or verbal to the authorities as to his sanity or insanity. On the other hand, he said, from statements which appeared in the newspapers, Dr. Christie was unable after three examinations to make up his mind. Moreover, Wauger was likely to become a public charge. Rev. G. George had remanded his honor gave directions that Wauger be examined as to his sanity, it having been reported that he had been acting in a queer manner.
