European Intelligence.

Arrival of the "Europa."

The steamship Europa, which arrived at Halifax on the afternoon of the 7th inst., brings the following intelligence:—

GREAT BRITAIN.

In the House of Commons on the 26th, Mr. C. Wood made some financial explanations relative to India, and asked for discretionary power to borrow five million sterling for railway purposes. He believed that at the end of the present year the Indian expenditure and income will be balanced. He said the Government had evinced great anxiety to develop the resources of India as a cotton producing country. He believed the result would be that ultimately England would be rendered independent of America for cotton. This year the supply of cotton from India will be about 300,000 more than last year.

The House of Lords on the 26th instead of their amendment to the Bankruptcy Bill, opposing the appointment of Chief Justice in Bankruptcy but they retreated from their other amendments.

In the House of Commons the same evening Mr. Buxton called attention to the increase of the Cuban Slave Trade and the importance of supplementing the exertions of the naval force, on the African Coast by other measures, especially by the reappointment of a Consul at Mozambique.

A general debate ensued in which the Emperor Napoleon's free emigrant schemes were denounced, some members contending that the introduction of Coolies into the French Colonies was worse than the Slave Trade. Mr. Gregory hoped the Emperor of the French would now co-operate with England in putting down the Slave Trade. Recent events in America would be trusted pre-American capital being embarked in the nefarious traffic.

Mr. Hope said the Slave Trade would continue until made unprofitable, he suggested differential duty on slave-grown sugar.

Mr. Palmerston said nothing, but progress public opinion other nations could extinguish trade, but he regretted public opinion France had of late considerably retrograded. Government was desirous of stopping French system of free emigration which was Slave Trade in disguise, but the only alternative was the granting of facilities for Coolie emigration, which would be carried out as an experiment under most approved regulations.

He regretted Government had not been more successful in inducing the United States to take more stringent measures to put down the traffic which is chiefly carried on by American vessels, he did not think the Consul at Mozambique would do much good, but was worthy of consideration—subject dropped.

Mr. Lindsay urged the importance of Government carry out recommendation of Merchant Shipping Committee, and inducing Foreign Nations to fully reciprocate the privileges granted by England. Milner Gibson promised to introduce a Bill on this next session.

The usual Ministerial White-Bait dinner at Grosvenor is anticipated of the close of the session fixed for 31st and Parliament was expected to prorogue 6th August.

At a Cabinet Council held at St. James on the 25th, at which contemplated Ministerial changes were accomplished, viz:—Sir G. C. Lewis to War Department, Sir G. Grey Secretary for Home Affairs, Mr. Cardwell Chancellor of the Duchy of Lancaster, Sir Robert Peel, new Secretary for Ireland was sworn in a Privy Councillor.

The Times says Layard succeeds Lord Woodhouse as under Secretary of Foreign Affairs.

The mystery attending extraordinary fatal encounter between Major Murray, and Mr. Roberts in London was solved at a Coroner's Inquest. The evidence of a lady living under Murray's protection shews sought to gain affection, failing in which he attempted the life of Murray. Jury returned verdict of Justifiable Homicide.

Influential meeting of merchants of London protested against great increase of rates of Fire Insurance on warehouse goods, &c. Beheved Companies will reconsider before adopting new scale. Meeting pledged itself to form new company if old persisted.

Times in a leader on Galway line, says contract is still afloat through political concern has weathered all tempests in which property and credit of commercial concern have been shipwrecked.

FRANCE.

Paris papers were busily discussing Lord John Russell's speech against annexation of the Island of Sardinia to France. Moniteur continued silent.

Paris correspondent of Times says it was rumored there was a notion of trying England with faith of Sicily for her connivance at annexation of Sardinia whenever proper moment comes.

In some Paris journal it was said Emperor was expected to proceed from Vichy direct to Châlons Camp.

Treaty of Commerce between France and German Zollverein is to be signed immediately.

In October the Nord of Brussels is to be published as organ of Franco and Russian Alliance.

New York Aug. 6.—A dispatch to the Tribune says that a Unionist of Winchester, who left there on Tuesday last, states that Johnston's force at no time exceeded 12,000, and that his whole force, including outposts of Martinsburg, &c., never exceeded 12,000. That Winchester would have welcomed Patterson with open arms; that Johnston's orders were to retreat on Manassas, and that the militia of Winchester would have sided with Gen. Patterson, and prayed for his arrival. There are no troops at present at Winchester but its militia. The secessionists had but fifteen cannon at Winchester, and Patterson's course has alienated many who would have welcomed a bold and decisive movement.

The Herald's dispatch says that the secessionists still receive a daily mail from Baltimore.

The exceeding minuteness of the Southern reconnaissance at Chain Bridge has induced Gen. McClellan to place an ample force there.

An order to pack up and move this afternoon was received by the Massachusetts 7th with great enthusiasm.

It is stated that the secessionists intend keeping Magraw and Harris, who went with a bag of rice for Col. Cameron's body, to exchange for the passage of the Savannah.

rich quartz collected at Chamcook Lake which is now being quarried; that there is gold to be had, we learn is true, but whether it will not cost more to get it than it is worth is a problem yet to be solved.

GOLD IN LOWER CANADA.—A practical gold miner, who spent some years in the placers of California, has furnished the Montreal Commercial Advertiser with an account of his exploration of the Chaudiere gold district during the present summer. He spent two months in prospecting the country from the junction of the Du Loup and Chaudiere rivers where the Montreal Company worked, and where the Napanee Company is now working, to the Maine and New Brunswick boundary line. Although the season has been one of the worst ever known for prospecting, the water in the rivers and brooks being at flood height, his general exploration is represented as having been highly successful.

PRESENTATION.—On Wednesday evening the Institute was filled with gentlemen and ladies and Volunteers in uniform to witness the presentation of a sword to Capt. B. Lester Peters by the Volunteer Artillery Company under his excellent command. The City Brass Band was in attendance and discoursed excellent music. An appropriate address was presented by Lieut. Sargent on the part of the Company, to which Capt. Peters made a suitable reply. Speeches were made by Lieut. Colonel Foster, Thurston and Gray, and by Capt. Peters himself. Lieut. Col. Foster hinted in the course of his remarks that the Volunteer was a set of colors at the hands of the ladies of the City. The speech of Lieut. Col. Gray was conceived in a happy strain and elicited great applause. The sword, we understand is of excellent workmanship and a valuable possession.—[Morning News.

LOOK OUT FOR HER.—We have reason for believing that the Southern vessel which has for some weeks past been in the harbor of St. John N. B. is destined to make the attempt to run the blockade. The owner of the vessel, and a sea captain familiar with the Southern coast, both citizens of Charleston, S. C. went to St. John, a short time since, and their movements, although conducted with great caution, are known. The Steamer New Brunswick on Tuesday carried from Boston to St. John, eleven hundred dollars worth of tin plate, twelve hundred dollars worth of block tin, nine hundred and fifty dollars worth of quicksilver. This is an unusual importation to St. John, both as regards the kind of articles and the quantity, and is no doubt destined as part of a cargo for the vessel we have referred to. We hope this vessel will be closely watched, and her first attempt to run the blockade will result in her capture. It is very well known that she has a considerable quantity of munitions of war on board.—[Eastport Sentinel.

RECOGNITION OF THE CONFEDERATES.—The Washington correspondent of the Philadelphia "Ledger" has the following:—

"A letter from London, the source of his statements, asserts that should the first pitched battle result in the success of the Confederates, the recognition of the Confederacy would be a fixed fact, and that as goes England, so goes France and the continent."

WHERE THE TROUBLE LIES. Dr. Smyth, a prominent scholar of South Carolina, inquires in a pamphlet, "What is the difficulty, and what the remedy?" and answers:—

"Not in the election of Republican President? No. Not in the execution of a Fugitive Slave Bill? But in the lack of will these. It is found in that metallic Rod Republican doctrine of the Declaration of Independence! Until it is trampled under foot, there can be no peace."

THE TORONTO "GLOBE" says that Canada will not be represented in the Exhibition in London next year. The Government considers that the state of the Provincial Finances will not allow them to go to any expense for such a purpose.

Suddenly on the 13th inst., of disease of the heart, Mr. Thomas Berry, aged 61 years, leaving a wife and large family to lament their loss.

boppers which, it is believed, CANNOT be
obtained from any other Assurance Office.
F. D. M. FROM RESTRICTION.—The Policy

almost complete protection against forfeiture.

SAFETY AND PERMANENCE.—The Association

most extensive and successful Life Offices, and
thus possesses an element of safety and perman-
ence not contained in smaller institutions.

RISKS OF PARTNERSHIP.—The Policy holder
is wholly exempt from the Liabilities of Partne-

PROFIT SURE.—A Share of Profits is allocat-

standing at the preceding annual balance and it
applied so as to reduce the present outlay for his
