Mr. Whitney and various other memthese enterprises were conducted for private profit, used as residences by physicians with large general prac-Province's funds, they should certainly pay taxes. Mr. Gibson considered that as the Government so generously aided these institutions, which were of considerable public utility, the least the municipalities could do was to refrain from taxing them. No amendment was

offered, and the clause stands as originally drafted. A number of other bills of a noncontentious character were passed. The Attorney-General secured a suspension of the rules to allow of the introduction of a bill incorporating F. H. Clergue and others as the Kaminestiquia Company. The House went into commit-

A preliminary discussion also took place in committee on the new municipal taxation bill. The Attorney-Gen-eral suggested that the exemption on personality should be fixed at \$1,000 in cities and graded figures fixed for towns and villages.

Mr. Crawford thought that in smaller places \$1,000 was regarded as a good salary, and to exempt up to that amount would mean freeing a large Nothing definite was done, the clause being allowed to stand over.

Mr. Mahaffy (Muskoka) said that under the present bill that the dwellnumber of people from taxation. bill that the dwellings of officials of public institutions located on the grounds of the institution would be exempted. He did not think that that was fair to the municipality.

Mr. Whitney objected to the clause exempting private hospitals from taxation. He thought hospitals and public institutions supported by the Government should be exempted; but the fact that men were in private business and aided in it by the Government was far from being a reason for exemption—an additional reason for the Brown concurrent resolution that Government Insisted That the Men taxation-particularly as their private hospitals were also used for residential

general practices, and he could not see that it was fair to give them such an advantage over their rival physicians as exemption from taxation. Hon. Mr. Gibson thought the searching nature of the provisions for income tax would atone for the faults

of the act. Mr. Carscallen (Hamilton) thought the Government should satisfy itself as to the profits made by these aided institutions, and if they were making profits the aid should be withdrawn. Unless there were some provision for a free dispensary or treatment to poor patients, he could scarcely see why the Government should constitute itself a sort of paternal supervisor and helper of all these institutions. Pittsburg, March 18 .- Sheriff Dickon has received an order from Governor Pennypacker to hang William L. Hartley and James Edwards on the same day, and is much disturbed over

the matter. "Under the circumstances," he said, "it strikes me entirely improper that the two men should be hanged at the same time. One is a white man and the other a negro, and there is a natural prejudice against associating the

two races. "They were never together in their life, and that is another reason why they should not meet death together. Of all places in the world, the scaffold is one where nothing that could offend the condemned man should be done. There is more than sentiment in thisthere is humanity.'

Hair and Clean Scalp.

"My baby was about six weeks old when the top of her head became covered with thick scales, which would peel and come off, taking the hair with it. It would soon form again and be as bad as before. I tried several things and then went to the doctor. He said it was Eczema, and prescribed an ointment, which did not do any good. A friend.spoke of Cuticura Soap. I tried it and read on the wrapper about Cuticura Ointment as a remedy for Eczema. I bought a box and washed her head in warm water and Cuticura Soap and gently combed the scales off. They did not come back and her hair grew out fine and thick. She is now a year and a half old and has no trace of Eczema." MRS. C. W. BURGES, Iranistan Ave., Bridgeport, Conn., Feb. 21, 1898.

Sergt.-Major Richmond Speaks of West Africa Protectorate.

Few Whites In the Country as They Cannot Stand the Climate.

Mr. John L. Richmond, manager of the Bell Telephone Company of this city, has as his guest his brother, Mr. Thomas Richmond, of the West Africa Protectorate who is instructor of the native regiment of that country, and speaks interestingly of the region. Company Sergeant-Major Richmond

-for such is the rank he holds-was through the South African campaign with the Scottish Guards, before being sent to the West Africa Protectorate by the war department. When he went out as instructor of the native regiment, he had to learn the language of a couple of the tribes, as the are recruited from the interior, rather than from the coast. The regiment consists of about 1,000 men, only the officers of which are white. In fact, there are few whites in the country, as they cannot stand the climate, with its malaria and other dangers. The in a very critical condition, my system was natives, Sergeant-Major Richmond says, are bright, and learn the drills and other things very easily. They are, moreover, good British subjects, especially since the kings of the several tribes were sent to London, England, to attend the coronation. The natives of that country subsist chiefly on rice. It is the staple article of cultivation. Other things, such as bananas, pineapples and tropical fruits, grow wild, so that the matter of sus-

tenance does not bother them. The chief exports of the country are rubber palm oil and cola nuts. There is no ndustry to speak of, and the chief town of the region, Freetown, the capital of Sierra Leone, has a population of but 30,000, while Wilberforce, the headquarters of the native regiment, is only J. S. Hoover, Clinton, J. T. Bain, a village. There is only one white Woodstock, L. H. Taylor, Brantford, company in the district—artillery. head managers. BUILT UP THE SYSTEM AND ADDED TEN POUNDS IN WEIGHT.

Mr. Ed. J. Harris, Newbridge, Ont., was in poor health, but has now been restored to full health and vigor. Here is what he writes us: "Last spring I was all run down. I felt drowsy and miserable, and thought I would surely die if I did not get something to build me up.
After reading one of your almanace I decided to try Burdock Blood Bitters, and before I had taken two bottles I had gained ten pounds in weight, and am now in perfect health, and I can certainly recommend Burdock Blood Bitters to build up the system."

BILL PRESENTED

For the G. O. C.

Ottawa, March 17. - The new militia bill was introduced in the House to-Retiring Officers Re-Elected at the day by Sir Frederick Borden. The naval militia bill will be presented by the this course being agreed to by the cipal business at yesterday morning's colonial defense committee and adsession of the Canadian Order of the miralty. Henceforth, imperial officers coming to Canada will rank with Canadian militia officers according to date of appointment. Still another is removed in the elimination of the clause that gives to the imperial officer in command at Halifax, no matter how junior, command of the Canadian forces in times of war. Under the new act, the command will be given to the senior officer, whether he be the imperial officer in command at Halifax or the general officer commanding.

By the new measure regulations en-

acted in the Dominion will be used in she administration of the militia. The British army act will be utilized in so far as it does not clash with the Canadian law. The permanent force will be increased to 2,000 men, and the pay increased from 40 cents per day to the rate used in payment of the mounted police. It begins at 50 cents a day, increases at the rate of 5 cents a day a year to 75 cents a day. Increased pay is also provided for in the case of the active militia. It will begin at 50 cents a day, as at present, and in-crease year by year till at the end of three years, a dollar a day will be the pay of a militia man with a good re-

Provision is made for annual drill from 16 to 30 days. At present the practice is 12 days' annual drill, and but as circumstances suggest a longer period, the power will be given in the hands of the Government.

A clause regarding cadet corps authorizes the formation of boys over 12 years of age, attending school, in school cadet corps. Boys from 12 to 16 may be formed into a senior cadet corps, who may be attached to the militia under command of the district officer commanding, and shall be trained and drilled under the conditions prescribed.

Power is taken to appoint officers to the rank of brigadier-genera! temporarily. The rank of major-general may be conferred on colonels who have held high executive positions in the headquarters staff on retirement for distinguished service.

Col. Hughes objected to the clause qualifying Canadian officers for the position of G. O. C., that it severed a little link which he held in high estimation. He admitted that Canada had had G. O. C.'s who were not fit for their position, but, on the whole, they had done more good than would have been accomplished by Canadian officers. At present there was nothing to prevent Canadian officers qualifying by becoming officers in the imperial army like Sir Percy Girouard, for instance, whose qualifications no one would for a moment dispute. The colonel also protested against the militia being called out for service in

The bill was read a first time. Sir Wilfrid Laurier informed Mr. Monk that the Government of Canada was invited by Premier Sedden, of New Zealand, to join in a representation to the Imperial Government against. the employment of Chinese labor in British South Africa. The Canadian

Government replied that it did not consider such a course advisable.

Mr. Kemp was informed that no money is due by the Government to the banks of Canada. There was one loan of \$600,000 for six months at 41/2 per cent, and another of \$800,000 for four months at 3 5-8 per cent. Both loans were floated in England.

TURF. PLUNGER RESTORED.

Action of considerable importance to the racing world was taken at the meeting of the stewards of the Jockey Club recently. One of the first things done at the meeting was the reinstating of John J. Ryan, whose get-rich-quick schemes have made him famous from Maine to California. This was followed by the

restoration of Jockey Willie Shaw to Fort Erie Association on Sept. 14, 1898. No cognizance was taken of this rulmont, for Army and Navy, against ing by the Jockey Club till Oct. 31. 1903, when Ryan was barred from the Aug. 21-At Toronto, H. C. Mrs. Alice Gordon Gulick, the Bos ton missionary who spent 30 years in Spain, has just died in London. SO RAPIDLY does lung irritation spread and deepen, that often in a few weeks a simple cough culminates in tubercular consumption. Give heed to a cough, there is always danger in delay; get a bottle of Bickle's Anti-Consump-tive Syrup, and cure yourself. It is a medicine unsurpassed for all throat and lung troubles. It is compounded from several herbs, each one of which stands at the head of the list as exerting a wonderful influence in curing consump-

tion and all lung diseases. Miss Clara Barton is formulating plans for a new and large fund of probably \$1,000,000 for the extension of the Red Cross work.
IT IS A LIVER PILL.—Many of the allments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmethese there is none superior to Parme-lee's Vegetable Pills. Their operation, though gentle, is effective, and the most delicate can use them.
