JAPAN IN COMMERCE.

A writer in the New York Times discussing the "Coming struggle with Japan," observes that that country will not repeat the ruinous blunder of ancient Rome, by living on the fruits of victory and neglecting invention and trade. The sterile policy of political expansion and aggrandizement the Japanese will not follow. They are tremendously alive to their economic opportunities. Crowded together in their small island, they are forced to import foodstuffs and the raw material of their manufactures. Food and materials they will obtain from Corea and Manchuria, sending in exchange their manufactured goods. Indeed, a multitude of Japanese factories will spring up in the territory they have wrested from the reality and the shadow of Russian control.

That is not all. Their economic writers have made it perfectly plain that they aspire to the leading position in the trade with the whole of Eastern Asia. If they once set out to achieve commercial dominance in that portion of the world, we of the West shall have grave need to take thought about our market interests in those parts. The Japanese are extraordinarily capable. We shall previously mistake them if we suppose they will be less sufficient in the arts of peace than they have been in the arts of war. They excel not only through the possession of a veritable talent and skill in manufacture, but above all they will have the controlling advantage of almost incredibly cheap labor. Goods made in factories where 17 cents a day is the top rate of wages need have not the slightest fear that goods made by men paid a dollar a day or more will ever jostle them at the "open door."

If there be a "Yellow peril," it is a commercial one. In cotton goods Japan can underbid Fall River and Manchester in the Chinese markets. In all sorts of goods the labor cost would be controlling in favor of Japan. It may be expected that Japan as she works out her present ambitions will set up in the East a commercial Monroe Doctrine, and by the simplest process in the world, the process of making and selling goods so cheap that Western nations shall be unable to find any buyers. The ambition of the Mikado's subjects even overlaps the great seas. It was the corollary of the U. S. Monroe Doctrine that they should not concern themselves with the political affairs of Europe. But from the markets of Eastern Asia Japan already casts a prophetic eye upon Western domains. "The completion of the Panama Nicaragua Canal," says the compiler of "The Financial and Economical Annual of Japan" for 1905, "will stimulate our trade with North America, open a new era for our trade with South America, especially with Brazil and the Argentine Republic, and not improbably enable us to find for our merchandise new markets on the west coasts of Africa." Who shall say them nay?

DECEITFULNESS OF RICHES.

It would not be surprising to learn that John D. Rockefeller is not only hurt, but amazed and bewildered, by the general dislike and contempt of his fellow-countrymen, which find expression in the public press and most effectively in Miss Tarbell's magazine articles. He started out in life with the ambition that inspires almost every poor young man—the ambition to succeed in life by making money. He had noticed that the only way to obtain power and position and prestige in his country was to become wealthy. Wealth, he knew, commanded not only luxury and power but also the deference of the world. Ability to make money, he observed, was held to be evidence of ability and character, and the man who had the most money was regarded as the greatest man. And on these beliefs were based his ideals of life.

And now that he has reached a loftier height than any of his fellow-countrymen—now that he is the richest man in the world and by all the rules of the game, ought to be hailed as the greatest man of his time—poor Mr. Rockefeller finds himself an object of general execration, regarded as little better than a criminal. He knows that he is no worse than hundreds of business men of his acquaintance, who are generally esteemed. He knows that he has employed business methods which, though they may not be either honorable or humane or in harmony with the golden rule, are methods which are in common use in the business world. Why should he be selected as an object for the world to point its slow

LOOK OUT FOR GERMS NOW

The Summer Months Call for Constant Vigilance and Use of Mi-o-na.

In the summer months constant vigilance is necessary, or dangerous disease germs will be absorbed from food or drink.

The so-called summer complaints and bowel troubles do not come to people with a healthy stomach, for Dame Nature kills the disease germs with the natural juices secreted by the healthy digestive organs.

Persons with a weak stomach and poor digestion in the summer season live in constant fear of germs of disease. Let these people use Mi-o-na before each meal, and the stomach and the whole digestive system will be strengthened so that disease germs will have no effect whatever. You can eat what you want and all you want without any

fear of indigestion or bowel trouble, if you take a Mi-o-na tablet before each meal.

When there are pains or distress after eating, headache, belching of gases, sour food, and bad taste in the mouth, dizziness, heart-burn, specks before the eyes, turred tongue, sleeplessness, and debility or weakness, it shows that the stomach needs the help of Mi-o-na. Just one little tablet out of a 50 cent box of Mi-o-na, before each meal for a few days, and you will regain perfect health and strength, and be proof against the germs of summer diseases.

Ask C. H. Gunn & Co. to show you the guarantee under which they sell Mi-o-na. It costs nothing unless it restores health.

unmoving finger at? Why should all the millions that he has spent in works for the public good bring him ridicule and sarcasm instead of applause and gratitude?

Alas for Mr. Rockefeller, his huge success has lifted him so high above his class that his conspicuousness makes it inevitable that he should be selected as the type of that class. He is made to suffer not for his own sins only, but for the sins of the system by which he has grown so rich—and not he only, but many others.

There is pathos and irony in this consummation of a career devoted wholly to the ideal of making as much money as possible. If the man has any imagination, how barren it must all seem to him! And yet Mr. Rockefeller has done good service to the world in a way that he has little dreamed—even better service, perhaps than he can render by his gifts of millions for educational purposes. This service is thus pointed out by the Petroleum Gazette:—

Mr. Rockefeller can have the contemplation, poorly satisfying though it may be, that he has typified the kind of an ideal which thousands of others have been aiming to reach, some of them, if not the most of them, without realizing what an undesirable accomplishment it would be if ever attained. Mr. Rockefeller has rendered them the service of exposing the weakness of such an ideal by typifying its aims in actual achievement, and finding in the end that enough of the millions acquired can not be given to pulpits, press, educational or other institutions to justify the manner of their acquisition. This is the chief service Mr. Rockefeller has rendered and it is none the less the chief one because it can afford him little solace in his declining years.

PASSING SHOW.

Stetson's Uncle Tom's Cabin Company, under the able management of Mr. William Kibbie, was presented at the Grand last night to a large and appreciative audience. The vaudeville part of the performance was well put in, every act being encoored several times. Mr. James Bowlen, whose home is in Chatham, was the star of the evening, playing Adolph, one of St. Clair's slaves, in the east, was a member of the famous singing quartette which will be long remembered by the Chatham audience, and did a buck and wing dance, the best ever seen in the theatre here.

"THE GIRL FROM KAYS."

The gay, jingling, rollicking English farcical comedy with music, "The Girl from Kays," which will be presented at the Grand Saturday night next, is said to appeal to all of one's faculties. To those with a sense of humor, there is delight in the bright lines. If they have a love of music the tunefulness of the songs will greatly please them. This comedy has the distinction, so it is stated, of being one of the original lines. It was especially emphasized by the dramatic critics in Chicago, where the play had quite a long and a most successful engagement, continuing for a period of two months. While it is English in location, it has about it a snap of breeziness that may be regarded as quite up to date from the American or Yankee view point. With its entire season's run in New York City, its merit was firmly established, and it has been the largest of any similar travelling organization that has toured the country during the present season. In Chicago alone the Illinois theatre was packed to its capacity at every performance and it replicated this at Boston, where it had a four months' run at the Hollis Street Theatre.

"MY FIRST TRUSTEES."

'Tis over thirty years since I first started "keepin' school." I didn't know so very much, I wasn't quite a fool; We had trustees, we had to have for so in the school law said; There never was another "set" like Jim and Jack and Ned.

Jack kind of bossed the other two, the big man of the crowd; Whatever Jack would "Karkilate" why Jim and Ned "Allowed." Jack was a township councillor—a power in politics, And Jim and Ned, they both "allowed" that "Johnny knew the tricks."

Jim wasn't just the handsomest man I ever heard about; I used to think he must have "warped" when he was dryin' out. His shoulders humped, his legs were bowed, he turned in at the toes; His chin seemed always tryin' to get acquainted with his nose.

Jim's briar-root hung graceful from the opening in his face; The juice coursed down his chin in streams, that seemed to run a race; He never much reminded me of violets in the air— No—Jim was like limburger cheese—you knew when he was there.

Jack owned the biggest farm that was held in all that part; And just to even up the thing—he had the smallest heart— The hired man rose early—just to benefit his health— And not with any thought, at all, of adding to Jack's wealth.

Jack liked a little drink of "grog," he took it with the rest, The kind he didn't pay for was, the kind he liked the best; The hardships of an orphan child, would almost take his breath, He took them to his home, then—made them work themselves to death.

Jack raised a good large family; his wife—God bless her—died; The only rest she ever had—unless the neighbors lied, Jack grieved, 'tis said, a month or more; his heart was full of pain; To show that he had valued her,—he married soon again—

Ned had his faults, but who has not? yet he was kind at heart— 'Twas whispered in his neighborhood, his wife made poor Ned "smart." His home was always open for a dance, or spark or spree; So o'er his failings let us draw, the veil of charity.

Trustees, in many sections, are the queerest of the folk— I wonder if they're chosen as a sort of "standing joke." Perhaps I only fancy this, but let it here be said, The queerest set that ever lived, was Jack and Jim and Ned.

Of Course.
Mrs. John Jacob Astor tells of a visit she once paid to a Parisian tailor in company with a friend who had taken on numerous superfluous pounds. The stout woman was having a gown fitted and complained it was so tight she could not sit down. The tailor, who understood American slang, blandly inquired, "Does madam prefer a gown in which she can stand up and look smart or one in which she can sit down and look sloppy?" Madam ordered the tight fitting costume, at course.

WHEN YOU GROW OLD.
The body needs patching—wasted tissues must be rebuilt, played-out organs restored—blood needs extra nourishment. Elderly people need Ferrozene—need it because it vitalizes and rejuvenates as no other remedy can. Ferrozene builds up the kind of strength that makes one feel good—keeps back the decay of old age and makes you look young and handsome again. Forget nervous exhaustion, renew your vital energy, again re-enter the life of youth. Your remedy is Ferrozene, only fifty cents per box, at all dealers.

Rough Necks.
If you bathe the neck every night in water into which a little pure benzoin has been dropped, then dry thoroughly and use a good cream, you will find any roughness will be relieved. Here is a good cream for this purpose: Lanolin, two and one-half ounces; spermaceti, three-quarters of an ounce; white vaseline, two and one-half ounces; coconut oil, two ounces; sweet almond oil, half dram. Melt the first five ingredients together and beat until the mass concretes, adding the benzoin, drop by drop, during this process. Extract of violet or any perfume may be added if agreeable.

HOW PNEUMONIA STARTS.
You catch a little cold to-day, by to-morrow it has reached the throat, next day the lungs are affected and you wish you had used Catarrhazone, which kills colds in five minutes. In the first place Catarrhazone soothes the irritated membranes and relieves congestion—then it cuts out the phlegm and destroys the germs. It enables the blood to retain a natural supply of oxygen, lung-food, and vitality. In any cough, bronchitis, or lung affection it's guaranteed to positively cure. Decline any substitute for "Catarrhazone."

COLORED SKIN.

A Theory That It is an Intermediary Stage of Development.

The origin of colored skin, or white either, is still unknown. If the sun is really the active agent in its evolution, the power of sunlight must have been curtailed when people took to wearing clothes.

The slightest protection, as seen in the use of ladies' veils, keeps the white skin pure. Therefore, if there is any protection afforded by natural dark skin, an equivalent is obtained for white people by the use of clothes. Until white people begin to discard clothing in the tropics their skin will remain white.

Sunburn must not be confounded with pigmentation of the skin. Sunburn is merely a tanning of the epidermal cells on the surface of the skin, whereas pigmentation is caused by a deposit of dark matter within the deeper layers of the true skin.

Summing the whole evidence up, considering all arguments derived from history, anthropology, ethnology and general evolution, it seems to me that the colored skin is an intermediary stage of development between our primate ancestors and the pure white or Caucasian skin. My general contention is that white skinned peoples come from the oldest stocks of humanity and that in the process of evolution they became white by the use of clothes.—Dr. T. F. Macdonald.

CHURCH ALES.

An Old English Custom of Raising Money For Church Use.

A curious light is thrown on ancient church bazaars and charity balls by certain records kept in some of the churches in England. For instance, in the records of Yateley church, which date from 1543, are frequent references to "church ales," the object of which was to get money for church expenses.

The feast was organized by the church wardens, "who provided a good spread at so much a head, and credited the profits to the church expenditure." It first appears as the "church ale," then as the "king's ale," then later as "our banquet at Whitsuntide." It was probably held in the church and went on until 1643, the year after the civil war broke out, when probably the Puritans put an end to such festivities. It was popular evidently.

One enterprising churchwarden has left on record all the good things which were prepared for the Crumwell "church ale" in the year 1587. They had a band, brewed a quantity of ale, and made a profit of \$42. As money was then worth nearly ten times as much as now, the "church ale" may be said to have brought in about \$400, which was just 100 per cent on the outlay. The band was hired for four days.

THE SENSE OF TRAFFIC.

A Good Thing For Those In Crowded Centers to Cultivate.

Every town dweller should cultivate his "sense of traffic." At first this means that he will take every step in a crowded thoroughfare with a reasoned consciousness. He will never think of his business or his pleasure while he is in the street, but only of the way in which he is going, of what is before him, of what is on either side of him and of what he is leaving behind him. At every crossing he will settle his course, so to speak, and look out for dangers from every point of the compass. After very few weeks of this careful self regulation he will develop the "sense of traffic." Without knowing it he will see and hear and realize all that moves about him. He will automatically avoid collision, and it will be as impossible for him to take a step at the wrong time as it was formerly difficult for him to take it at the right one. He will at the same time preserve his person and lighten the labors of the policeman. Street accidents occur to those who have no "sense of traffic."—London Lancet.

A Curious Story.

In "A Diary From Dixie," by Mary Boyd Chesnut, there is a curious story of a beautiful Washington girl, Mattie Reedy, who, weary of the abuse that her northern friends showered upon the southern general John Morgan, took up the cudgels in his defense. "What's your name?" asked an officer, turning fiercely upon her. "My name now is Mattie Reedy," was the answer. "But, please God, I shall one day call myself Mrs. John Morgan." Up to this time she had never met or even seen John Morgan. Somehow the story came to his ears. He sought her out, courted her and married her.

The First Oyster Eater.

The gluttonous Vitellus is reported to have eaten 1,000 oysters at a sitting. "He was a very valiant man who first ventured on eating of oysters," King James was wont to declare, a sentiment echoed by the poet Gay: The man had sure a palate covered o'er With brass or steel that on the rocky shore First broke the oozy oyster's pearly coat And risked the living morsel down his throat.

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Mrs. Emma Sawyer.

Unless early and correct treatment is applied, the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notches a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well-pounded woman about my own case. I tell every suffering woman about my case."

No Race Suicide Here.

Winnipeg, Aug. 21.—At Prince Albert about 1 a. m. fire broke out in Joseph Kidd's flour mill, causing a loss of \$25,000, with insurance of \$15,000.

WHAT CAME OF A LETTER.

My Dear Aunt Kate: I must tell you the good news. Right after receiving your letter, the day before New Year's I started in with new resolutions on the first of the year. I wrote to Dr. R. V. Pierce, at Buffalo, N. Y., as you requested me to do. I gave him all my symptoms, which were that I was tired—tired all the time and did not care to go anywhere, depressed and sad, and all ambition gone, backache and a dragging feeling, could not sleep, limbs feeling sore and aching. I followed the doctor's advice, which he went to considerable pains to make plain to me—to rest every day—a nap after lunch—complete relaxation—cultivate repose of mind, try not to worry, get as much outdoor air as possible, and practice long, deep breathing exercises. I took his Favorite Prescription, coupled with a wash he told me of. I must say that after following his advice for four months I feel perfectly cured and like a new woman.

Yours affectionately, JEWELL.
Letters like the above save, Schenectady, N. Y., says: "I continued with the medicine until I had taken five bottles, also two vials of the 'Pleasant Pellets,' and I was cured. I always recommend Dr. Pierce's medicine to my friends when they are not well."

PERRY'S MISSION TO JAPAN.

Friendship and Trade Were What He Went to Secure.

The letter which Commodore Perry bore from our government to the mikado asked for a mutual treaty. The original instrument was drafted in May, 1851, by Daniel Webster, then secretary of state, and was signed by President Fillmore. There it rested. In November, 1852, Mr. Webster's successor, Edward Everett, fished it out of the departmental pigeonholes, took it to pieces and refashioned it. Three copies were prepared and were splendidly engrossed in English, Dutch and Chinese. These were inclosed together in a sumptuous gold case, and to make the whole presentment still more impressive to the Japanese mind the gold case was enshrined in a coffer of rose-wood.

The document entrusted to Commodore Perry asked of the Japanese court two things, friendship and trade—first and foremost, friendship, for the safety of our seamen. Many a hapless crew had been driven into their rocky ports by storm or wrecked on their rocky coast, escaping the perils of the deep only to be welcomed by those truculent islanders to a dungeon or a cage on shore. This wrong must be stopped at all hazards. And if, in addition, we could persuade Japan to enter into friendly relations of trade the two countries by mutual interchange of productions might each promote its own prosperity and the welfare of the other. It was thought that orientals might see that as well as Yankees. In the end they did. But it cannot be said that Japan any more than an oyster ever really yearned to be "opened."—Century.

TRUE WAY TO MAKE TEA.

A Science Which Includes Many Mysteries in the Brew.

Luwuh, a poet, saw in the tea service the same harmony and order which reigned through all things. In his celebrated work, the "Cha-king" ("The Holy Scripture of Tea"), he formulated the code of tea. He has since been worshipped as the tutelary god of the Chinese tea merchants.

In the fifth chapter Luwuh describes the method of making tea. He dwells on the much discussed question of the choice of water and the degree of boiling it. According to him, the mountain spring is the best; the river water and the spring water come next in the order of excellence. There are three stages of boiling. The first boil is when the little bubbles like the eyes of fishes swim on the surface. The second boil is when the bubbles are like crystal beads rolling in a fountain. The third boil is when the billows surge wildly in the kettle. The cake of tea is roasted before the fire until it becomes soft like a baby's arm and is shredded into powder. Salt is put in the first boil, the tea is in the second. At the third boil a dipperful of cold water is poured into the kettle to settle the tea and revive the "youth of the water." Then the beverage was poured into cups and drunk. Oh, nectar! The filmy leaflet-bung like scaly clouds in a serene sky or floated like water lilies on emerald stems.

The Change of a Word.

"You wouldn't think there'd be enough difference between the definite and the indefinite article to matter much, would you?" said a woman who writes for a living. "I made a lifelong enemy of a woman once just by writing 'the' where I meant 'a.' It was an account of her wedding I was doing. I said something about the ceremony being performed at the home of the bride's aunt, and then I added that there were present 'only the few friends of the family.' The bride never got over that 'the' in front of few. It happened five years ago, and when my name is mentioned she still froths at the mouth."

Nearing a Crisis.

Jackson (whose financial credit is gone)—I tell you, Witherbee, we are on the verge of a financial panic. Witherbee—Pshaw! What makes you think that? Jackson (confidentially)—Well, sir, Bagley and Roberts used to lend me small sums a year ago, but when I go to them nowadays for five or ten pounds they tell me frankly that they haven't got it. Bagley and Roberts are two of our best business men, too. I tell you, sir, we're going to have a panic.—London Express.

Indifference.

Indifference may not wreck the man's life at any one turn, but it will destroy him with a kind of dry rot in the long run. To keep your mind already made up is to be dull and fossiliferous; not to be able to make it up at all is to be watery and supine.—Bliss Carman's "Friendship of Art."

What She Saw.

Caller—Mrs. De Styl is not in, you say? Why, I saw her through the window as I came up the steps. Servant (blandly)—Shure, mum, that was only her shadow you saw.

Worry Either Way.

Old Party—You worry your mother terribly. Why are you so wicked? Bad Boy—Cause if I'm good she'll worry thinkin' I'm sick.

He is happiest, be he king or peasant, who finds peace in his home.—Goethe.

Steal Liquor From Bonded Car.

Kingston, Aug. 21.—Early yesterday morning two young men of this city, McConville and Kelly, 24 and 19 years, respectively, were arrested at the out-er depot in a half-drunken condition. They had got on a freight train at Napanee and broken into a bonded car. When near the city they began throwing the bottle out, intending to gather them up afterwards. A brakeman discovered them, and they were arrested.

Incendiary on a Ship.

Port Arthur, Aug. 21.—The steamer Gordon owned by the Thunder Bay Harbor Improvement Co., was partly burned Saturday morning, at a loss of \$5,000, covered by insurance. Three men sleeping on board had a narrow escape from being burned alive. The fire had reached the state rooms when the men were awakened. The crew seem to think the fire was incendiary.

REDUCED A HARD SWELLING.

Mr. Gus E. Geroux, writing from Pembroke, tells how he was injured in a lumber camp. "A heavy log rolled against my leg and I was laid up with stiffness and a hard swelling. When I applied Nelson's Nervine I got relief. A few rubbings with this good liniment cured me." In the bush Nervine is indispensable; it cures neuralgia, colds, rheumatism and internal disorders too. No person can afford to be without Nervine. Useful for all internal and external pain. Large bottles 25c at all dealers.

Man Disappears.

Huntsville, Aug. 21.—The disappearance of Andrew Lee of Ravenscliffe, is causing his wife and friends some anxiety. Some time ago he left, presumably with the object of going on the buying for some time, and returning for the buying. He has not since been heard of. Mrs. Lee traced him to Parry Sound, but from that point nothing more can be learned of him.

SUICIDE CAME FROM CHATHAM

Unidentified Man Found With Bullet Through his Heart at Port Stanley

Name May be John Ruff—Body Now Awaiting Inquest at Town Hall.

Port Stanley, Aug. 21.—In a gully at the approach to the picnic grounds an unidentified man committed suicide by shooting himself through the heart to-day at 2.30 o'clock and was found several hours later.

Where the man came from is not known. His name may be John Ruff. The theory that he came from Chatham has been knocked out, because the authorities there state that they know of no man answering the description given.

NOTICED IN CHATHAM.

He bought a ticket for Port Stanley at Chatham to-day, but spoke to no one, as far as is known.

There was an excursion from Chatham and Ridgeway to-day.

Outside of this information there is nothing to show who he is or from what place he comes. The remains were examined and among a collection of minor articles was found a dirty, sand-marked card with the name written, John Ruff, in faded ink.

The dead man is clothed in dark blue sack coat, and vest slate colored, striped pants, heavy woolen socks and No. 9 boots, and wore a black cap with hard cloth peak, seven and a quarter size, white shirt with brass studs.

FOUND IN POCKETS.

In his pockets were two red, cotton handkerchiefs, two small combs, a box of morphia tablets, a ring on which were three small keys, small magnifying glass and 71 cents in change.

The man is about five feet six inches in height, grey moustache and heavy, grey chin whiskers, blue eyes.

The revolver shots were heard by the residents in the neighborhood about 2.30 o'clock, but the dead man was not discovered until some hours later.

The body is waiting inquest at the Town Hall.

\$1,000 worth of Builder's Hardware, Paints, Brushes, Oils, Etc., will be sold Wednesday afternoon and evening at Patterson's Auction Sale.

IMPORTED FIVE ALIENS.

Menzie Factory Superintendent Violated Alien Labor Law.

Toronto, Aug. 22.—Magistrate Ellis has decided that Herman Felsing, superintendent of the Menzie Wall Paper Co., has violated the alien labor law in hiring men in New York, citizens of the States, to work in the company's factory in New Toronto.

Five men were imported, James McClintch, Joseph McGinn, James Millett, Andrew Millett and Edward Sutton. Mr. Felsing was tried on five charges of importing aliens and Mr. Ellis found him guilty on all. Felsing was fined \$50, and costs in each case. An appeal will be taken.

JONES CASE IS LAID OVER

City Council as Yet Unable to Decide on Question of Engineer's Resignation

New Lineman Appointed—Early Closing By-Law Again Discussed—Other Matters

Ald. Austin and O'Keefe were the only absentees at last night's caucus of the civic legislators. The most important item of business before them was the resignation of E. B. Jones, City Engineer. The report of the Finance committee advised that his salary be not increased as he is asked—\$200 a year—but this part of their report was not carried. The matter came up again under the head of new business and was finally allowed to stand until the next meeting.

The minutes of the last meeting were accepted as they stood.

Mr. Flax addressed the honorable Mr. Jones, who had tendered his resignation, and the roots of which are prying up a monument he has erected. He asked permission to cut it.

Ald. Potter, for the Parks and Cemetery committee, reported that the cutting of the tree would spoil the looks and symmetry of a splendid row and the committee were not in favor of removing it. It was decided to cut off the roots rather than remove the tree.

The Board of Works and M. H. O. advised that the proposed sewer on Head street between Victoria avenue and Hilliard street be constructed as a sanitary measure.

Some hitch has arisen over the Raleigh street paving contract. The company signed the contract calling for 50 cents per foot for curb and gutter, thinking the amount was 55 cents. It seems that by some mistake, the specifications called for a price of 55 cents and the company released it, claiming they should be paid their 50 cent contract, although this is all that other contractors are getting. The Council was of the opinion the contract should govern and no action was taken.

The request of C. J. Moore to cut and trim trees was referred to Chief of Police.

The request of Mrs. Annie Jordan for remission of taxes on property near the isolation hospital was referred to Finance. Mrs. Jordan stated she was unable to rent the property on account of its proximity to the hospital.

The City Clerk reported no petitions had been received against the Centre street pavement.

Finance committee Ald. Marshall reported that the gate at corner of Head and Barthe streets be purchased from Wm. Reed for \$75.

The committee advised that the case of G. T. R. hog pens be left with the solicitor to compel the removal of the pens outside the city limits.

They also advised that no action be taken on the city engineer's request for a \$200 increase of salary. This clause of the report was not adopted.

Aldermen Dunn, Westman and Edmondson being of the opinion evidently, that the increase should be granted. This, with the absent aldermen, did not give the motion sufficient support.

The committee advised that the Mayor attend the convention on municipal improvements Sept. 8-9 at Windsor. Their report also advised that water mains be constructed throughout city where needed. With the exception stated the report carried.

Ald. King, for the Market Committee stated that it had been decided that the building should be roofed with slate rather than galvanized shingles.

Westman reported that the Bell Telephone Co. be allowed to trim trees subject to the supervision of the Chief of Police. They advised that the steam laundry be permitted to erect a new building on King St. near Mount House. The verandas on the market square were considered menaces. After consideration they reported that they found the by-law charging license fees to city cleaners working by the day, was invalid and advised that those who had paid them. The Mayor pointed out that the time for petitioning against a franchise being given to the new electric road, the Windsor & Essex, had expired, and asked if there were any delegations present to speak against the franchise. Ald. King said that Harvey street residents, who had entered a petition against the proposed route of the road, would like to be heard, but were not present. Consequently they will be heard at the next meeting.

The by-law for the bitulithic pavement on Centre street was put through.

The Mayor reported that the Clerk had got the city by-laws all in shape for consolidation but before being printed they should be revised by the Council.

Ald. Edmondson—Pretty warm weather for that kind of work. It was decided to meet for that purpose Friday night.

Earlier in the evening the Property committee of the Council had reported that they had been unable to agree upon a choice for the vacant position as electric linemen. Under "New Business" Ald. Edmondson at last night's meeting of the Council moved that Matt. Side be engaged at \$450 per annum. Ald. King seconded the motion.

In amendment Ald. Westman, although recognizing the difficulty in making a choice from the application, all of them from excellent men, moved that R. S. Dunlop be given the position. Seeing that motions were in order, Ald. Marshall moved that the application of Robert Potter, a valued employee of the fire department, be accepted.

In the voting R. S. Dunlop received two votes, Potter three and Side five—the latter being engaged.

The early closing by-law was the victim of a savage attack. A petition signed by about half the grocers in the city has been prepared, asking for the repeal of the by-law, requiring the early closing of grocery stores. This is backed up by a petition signed by about 1,000 rate-payers.

The Mayor brought the matter to the attention of the Council, saying he thought immediate steps should be taken towards the repeal of the by-law. Ald. Marshall explained that he had drafted a by-law to this effect, but thought the proper course would be for a majority of the grocers to petition against the by-law.

Personally he was opposed to the early closing idea, but he understood the grocers themselves were satisfied with it and so a protest from him would have been out of place.

Ex-Ald. Martin was heard on the matter. Their quondam associate charged the present councilors with sitting on the fence, waiting to see into which camp they could drop most profitably to themselves, whether in to that of those in favor of early closing or that of the ones who agitated a repeal of the by-law. He made the startling revelation that leading lawyers had pronounced the statute empowering early closing unconstitutional. Seizing upon this he made it the subject of a scintillating peroration upon the time-honored liberties of the British subject. He guaranteed that every alderman who supported the repeal of the by-law would be elected again, hands down.

Ald. Ainsworth moved, seconded by Ald. Potter, that no action be taken until a majority of the grocers petitioned against the by-law. The motion carried.

Several accounts were passed.

Death a Mystery.

Hamilton, Aug. 22.—How Freeman Jacobs, a Bell telephone lineman, came to his death will probably never be known. He was found fatally injured by the G. T. R. tracks, near Palmerston. None of the G. T. R. train crews saw him, but it is supposed that he was run down by a pilot engine. No evidence that threw any light on the subject was given at the inquest last evening and the jury brought in a verdict of accidental death.

Dive Broke His Neck.

Quebec, Aug. 22.—A sad fatality occurred Sunday evening at Riviere Aux Chiens, Ste. Anne de Beaupre, which resulted in the death of Adelard Racine, aged 27 years. Young Racine in company with others went into the river for a swim. Young Racine attempted to dive and after he made the plunge head first his companions noticed that he made no effort to rise. It was discovered that the young man's neck was fractured, his head, no doubt, striking against a stone at the bottom of the shallow water.

Train Crash Hurts Traveler.

Toronto, Aug. 22.—In a train crash in the yards here yesterday, Albert E. Glickert, a commercial traveler, was sent flying over the top of the other seats in the car. He was badly shaken up and was taken to his home at 6 Sullivan street in an ambulance. A little baby was also badly bruised in the rush made by the passengers to escape from the wrecked car.

Firemen Half Suffocated.

Windsor, Aug. 22.—Chief Murray, Assistant Chief DeWitts and four firemen were nearly suffocated by wood alcohol fumes in a fire at Piggott's lumber mill Sunday afternoon.

Motorman's Hurry Kills 10.

Butte, Montana, Aug. 22.—Nine persons were killed (six women and girls), one fatally injured and thirteen more or less injured, in a collision between a street car filled with returning merry-makers from the Columbia Gardens and a freight train on the Butte, Anaconda & Pacific Railway Sunday night. Conductor Hoagland warned the motorman, but the latter put on speed and attempted to cross ahead of the train.

Schooner a Total Wreck.

Chatham, Mass., Aug. 22.—The coal laden schooner M. C. Haskell, bound from New York for Rockland, Maine, is a total wreck on Handkerchief shoal, and her mate, Nelson Tausen of Rockland, has been drowned. Capt. Winfield and the other members of the crew reached shore in their own boats.

Tornado Upsets Town.

El Paso, Texas, Aug. 22.—A tornado struck Roosevelt, Ariz., yesterday. Almost every house in the town was overturned, but only one person was injured. The town is situated in a gorge.

Unknown Man Suicides.

Port Stanley, Aug. 22.—The dead body of a man was found last evening in the gully on the east side of the picnic grounds. Everything points to its being a case of suicide. The man appears to have been about sixty years of age, and would weigh about 170 pounds; height about 5 feet 8 inches; dressed in black worsted coat and vest, striped pants, white shirt, and laid down collar. A 32-calibre revolver was found in his left hand, with one empty chamber, the ball having been fired into his left breast, his shirt first being opened.

Digs His Grave in the West.

Winnipeg, Aug. 22.—E. J. Jenkins, a young Englishman, committed suicide last evening at C.P.R. depot by shooting himself in the right temple. It is supposed he was suffering from a fit of temporary aberration. Jenkins only arrived here from the east yesterday. During yesterday he bought a return ticket for the old country, saying he intended to leave last night. Deceased was recently employed as steward on an Atlantic line running from Montreal to Liverpool.

Then Dodd's Kidney Pills Cured
Wm. Doeg's Rheumatism.

He Was So Bad That He Could Not
Lie Down, But Had To Sit Night
And Day in a Chair.

Sundridge, Ont., Aug. 21.—(Special)
—Mr. William Doeg, of this place,
now a hale hearty man, tells of his
almost miraculous cure of Rheuma-
tism by using Dodd's Kidney Pills.
"For four years I suffered ex-
cruciating torture," says Mr. Doeg.
"I was scarcely an hour free from
pain. I could not lie down to take
rest, but had to sit night and day
in a chair."
"I was treated for Rheumatism by
several doctors, and also tried sev-
eral medicines without receiving any
benefit. Almost in despair I feared
I never again would be from pain.
Then I read of some remarkable
cures by Dodd's Kidney Pills. I pro-
cured a box and soon found they
were doing me good and before I
had finished the second box I was
entirely free from pain and a new
man."
Dodd's Kidney Pills always cure
Rheumatism by putting the Kidneys
in shape to take the cause—Uric
Acid—out of the blood.

who are supposed to be two of the
numerous tramps, who have of late
infested this locality, departed without
further injuring their victim. The po-
lice have no clue as to the identity of
the ruffians.

"Quick lunch" is one of the com-
monest of city signs. The sign does
not say "a healthy lunch of good
food"—the character of the food ap-
parently is not considered. It's just
a quick lunch,—eat and get away. Is
it any wonder that the stomach
breaks down? Food is thrown at it,
sloppy, indigestible and inartistic
food, very often, and the stomach has
to do the best it can. Normally there
should be no need for medical assist-
ance for the stomach. But the aver-
age method of life is abnormal and
while this condition there will always
be a demand for Dr. Pierce's Golden
Medical Discovery. It is the one med-
icine which can be relied on to cure
diseases of the stomach and other or-
gans of digestion and nutrition. It
is not a cure-all. It is a medicine
designed for the stomach, and to cure
the stomach the stomach diseases
which have their cause in the de-
regulation of the stomach and diges-
tive and nutritive system. It cures
when all else fails.

Potato Soup.

A very fine potato soup is made by
adding a quart of scalded milk, in
which several slices of onion have been
steeped, to two cupsful of mashed po-
tato. Soften, do not melt, a large tea-
spoonful of butter and mix with it an
equal quantity of flour. Add salt, pep-
per and a dash of celery salt and pour
gradually, stirring all the time, into
the milk and potato mixture. Sprinkle
a little finely mixed parsley on top.
Serve with buttered croutons.—New

Expert Tea Blending

HAVE you ever tried to blend colors to match the
shade of the red rose?
Pretty difficult, yet an expert can do it easily.
Why? Because he can tell by looking at the rose
what colors are required to produce that tint or shade.
He can make that precise color every day in the week.
Just as the artist in colors blends the tints of the red
rose, so my artists in tea blend the "rich fruity flavor" of
Red Rose Tea.
With expert knowledge and intuitive skill he selects
the particular picking of rich, strong Indian tea and the
precise grade of fragrant, delicate Ceylon, and by skillful
blending produces the peerless flavor of Red Rose Tea—a
tea which for delicacy and strength is matched by no brand
of Ceylon alone.

INDESTRUCTIBLE PLANT.

There is a creeping moss found in
Jamaica, in Barbadoes, and other
islands of the West Indies, which is
called the "life tree," or more prop-
erly the "life plant." Its power
of vitality are said to be beyond
those of any other plant. It is abso-
lutely indestructible by any means
except immersion in boiling water or
application of a red-hot iron. It
may be cut up and divided in any
manner, and the smallest shreds will
throw out roots, grow and form
buds. The leaves of this extraor-
dinary plant have been placed in a
closed, air-tight, dark box, without
moisture of any sort, and still they
grow.

**Diamond Dye
Blacks.**
Are The Blackest.

The three wondrous and famous
Blacks of the Diamond Dye family,
for Wool, Silk and Cotton and Mix-
ed Goods, have a reputation for per-
fect dyeing work in every part of
the civilized world. These three
Blacks which are sold by all drug-
gists and dealers are simple and easy
to use in the home, and always give
delight and satisfaction to our wo-
men and girls. No other package
dyes in the world can equal the Fast
Diamond Dye Blacks in purity,
strength and beauty of color.
Beware of the crude, adulterated
and worthless black dyes sold in
some stores for the sake of large
profits. Such deceptive dyes are
positively dangerous to handle, and
they are destroyers of good ma-
terials. Your safety and protection
demands that you ask in every case
for the "DIAMOND DYES." Send to
Wells & Richardson Co., Limited,
Montreal, P. Q. for new book, "Di-
amond Dyes and How to Use Them,"
and sample card of 48 colors. All

O. R. A. MATCHES.

Begin Auspiciously But With Fewer
Attending Than Last Year.

Long Branch Rifle Ranges, Aug. 22.—
Nearly 300 marksmen faced the tar-
nished barrels at the opening of the
Ontario Rifle Association matches.
There are not so many as last year
by forty. It was a whole day of bright
light that suited most of the mark-
smen, but the wind was strong from
the southwest, and during the early
part of the day was gusty, getting
steadier, but blowing hard during the
afternoon. All this taken into consid-
eration, the shooting was considered
very good.

The Canadian Club match at 600
yards, Q. M. S. Dymond, Canada S. of
M. did some beautiful shooting, scor-
ing seven successive bull's eyes, and
winning the first prize.

Cadet H. E. Moore, Guelph, made a
possible at the 400 yards range in the
Squad Company match. Cadet-Sergt.
Dundas, also made a possible at
the same range.

Pte. J. M. Jones, 13th Regiment, a ty-
ro, gained fourth prize in the Cana-
dian Club match with a score of 24.
The inner was scored on the sixth
shot. Sergt. Gould, who came next,
made six successive bull's eyes and
finished up with an inner.

In the Canada Company match the
statistical officer is unable to name the
winners of the three team prizes of
\$25, \$20 and \$15, respectively, as the
score cards of three members of the
Queen's Own team were not turned in,
and they could not be located last night.

The individual special prize of \$25
in the Canadian Club match will cause
some dispute. Major Hayes, 7th Fusili-
ers, London, with a score of 24, claims
it, although the London team was en-
tered in the competition the individual
names composing the team do not seem
to have been received by the statisti-
cal officer, and in this event Major Hayes
is out of it, but will enter a strong pro-
test. Several other ties will be shot
this morning.

Canadian Club Individual Prizes.

\$20—Q. M. Sergt. Dymond, Canada
S. of M. 35.

\$15—Major G. W. Hayes, 7th Regi-
ment, 34.

\$12—Sergt. Major Brooker, R. C. D.,
34.

\$10—Pte. J. M. Jones, (Tyro, 13th
Regiment, 34.

Other prizes of \$5, \$4 and \$3 with
scores of 25 to 25 were given.

Team Prizes.

The team prizes were gained as fol-
lows: 1. Royal Grenadier, A team.

Sergt. J. Phillips 69, S. Sergt. Simp-
son 74, Sergt. D. Craig 72, Sergt. W. Kelly
81, Pte. P. Armstrong 76. Total, 372.

This team won the challenge cup,
presented by the ladies of Toronto,
value \$150 and \$30 cash.

2. Governor-General's Foot Guards,
\$25—Capt. Dawson 73, Corpl. R. Mc-
Gregor 76, Sergt. Russell 69, S. Sergt.
Mortimer 74, Pte. Smith 76. Total 368.

3. 13th Regiment, Hamilton, \$20—
Sergt. Major Higgins 71, Staff-Sergt.
Hayhurst 77, Staff-Sergt. Morris 69,
Staff-Sergt. F. Mitchell 68, Pte. D. Mit-
chell 75. Total, 360.

4. Queen's Own Rifles, \$15—Major
Mercer 77, Staff-Sergt. Rooney 66, Sergt.
G. M. Whitley 75, Pte. R. Doherty 72,
Corpl. Mathews 78. Total, 358.

5. 91st Highlanders, \$10—Capt. E.
Skedden 70, Lieut. J. Milligan 81, Sergt.
Garson 67, Pte. Hanes 74, Pte. Arm-
strong 65. Total 357.

Cadet's Prizes.

Cadets' team of six pupils from any
school having a cadet corps recognized by
the D. O. C. of any military district
in Ontario, ranged 200 and 500 yards,
five rounds at each range, prone. Owing
to irregularity of score of the teams
entering and close scores the statisti-
cal officer, Col. Wallace, said he would
consult the match committee before an-
nouncing the team winners.

The individual winners of the Brough
prize in the aggregate of the Cana-
dian Company and cadet trophy matches
were:

\$25—Cadet-Sergt. R. Shaver, Dundas,
92.

\$15—Cadet A. Moore, Guelph, 90.

\$10—Cadet Wm. Mallett, Dundas, 81.

The first stage of the City of To-
ronto match, \$400 and gold medal pre-
sented by the city, at 500 and 600 yards
was shot and the second stage—the
first 60 in the first two ranges, will
be shot in the second stage to-day.

Sympathy With Lord Curzon.

Sinjia, British India, Aug. 22.—
Among the public general sympathy is
being expressed for Lord Curzon of
Kedleston, Viceroy of India, who for
eight weeks has been confined to his
bed, from where he conducted his fight
single-handed against the Cabinet.

There is widespread regret that he
has felt himself obliged to resign, de-
spite the almost unanimous support of
the press and commercial bodies.

The friends of Lord Kitchener are
jubilant, and the Commander-in-Chief
of the forces now stands as the De
Facto Viceroy, with his prestige great-
ly enhanced. In the opinion of the
natives Lord Kitchener's power is su-
preme.

ment of a similar construction sent

four days.

Exhibit of Insect Pests.

Guelph, Aug. 22.—An exhibit of insect
pests and fungoid diseases, which at-
tack fruit trees, will be seen at the
Toronto Fair. It is being prepared by
the biological department of the On-
tario Agricultural College.

Shah Is Safe.

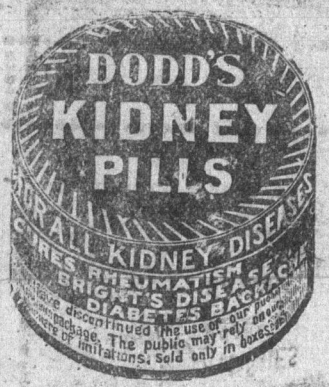

Vichy, France, Aug. 22.—A report cir-
culated to the effect that an attempt
had been made on the life of the Shah
of Persia is denied. Yesterday he was
attending a shooting tournament.

Ottawa, Aug. 22.—Vice-Admiral
Prince Louis of Battenberg is to be

tawa at luncheon Thursday.

GLOBE TROTTER

Richard Brummage is Travelling
Round the World—An Interesting
Story.

Passing through Chatham is Rich-
ard Brummage, a globe trotter. Mr.
Brummage left London, Eng., June
1, 1900, and went out with the de-
termination to walk around the
world. He has traversed England,
France, Belgium, Germany, Denmark,
Sweden, Norway, North Cape, the
land where the sun never sets; Por-
land, Finland, Russia, into St. Peters-
burg, Warsaw, Odessa, Moscow, and
all the principal cities of Russia, and
tried to go to Siberia, but passport
failed. Went into Teperan, Afghan-
istan, Belucistan, across the Hima-
layas to India, went down West
Coast to Madras, took passage for
Ceylon and saw Sir Thomas Lipton's
famous tea gardens, from there took
passage to Sicily, then to Rome,
Venice, Naples, through North into
Serbia, saw famous palace at Belgrade
where the recent frightful massacre
took place. Thence to Greece, Tur-
key, and across into Arabia, and the
principal cities there. In Bavaria he
saw the rehearsal of the "Passion
Play" at Oberamgau, where a
realistic performance is put on every
ten years. Through the Holy Land
to Jaffa, Jerusalem, Bethlehem,
Damascus; sent silk from the latter
place to friends home, valued here
at \$100, there goods were valued at
\$600. In Holy Land saw the tomb
of Christ, tons of Kings, the Mosque
of Ali, the Mount of Olives, Jacob's
well, saw the celebrated Sphinx and
Pyramids. Went into Cairo and
there was the guest of Mr. Arthur
Earle, an Englishman. Mr. Earle
sent out guide with him and pro-
visions and went down the Nile 100
miles. On the way down gathered
the famous Tarus Lily bulbs, ebony
beans, and some of the deposits for
which the Nile is famous. Going back
to Cairo, went across Northern Africa
to Tunis, Tripoli, Algiers and Mor-

steamer to the Congo, then across
through to Pretoria, then went
through the battlefields at Kimber-
