she would bear her new and great dignities. At her first meeting with her (abine Ministers in Coûncil, at 11 o'clock on the morning of the accession to the throne, she satisfied this curiosity in a way altogether creditable to herself. She accepted her honors with graceful self-posses-sion, convinced her Ministers of her sound judgment by deferring to their opinion in all things, and, by addi-cating all claim to personal govern-ment, justified the kindly popular greeting that her accession had re-ceived by ushering in the most pros-perous era that England had ever known. "To Play a Great Part." "The English like queens," remark-ed the old Duchess of Saxe-Coburg, in the month of May, 1819, as she stood on the terrace of the charm-ing country house at Rosenúu, an open letter in her hand. Among other heirs to the British crown is the Princess May, as a do-scendant of King George III., but in her own right she stands seventy-fourth in the list. The principle upon which the erown descends is that of following one tranch of the family until that is ex-husted, when the next collateral branch is followed multi that is ex-hausted, when the erown reverts still further back. The descendants of Queen Victoria are so numerous that it is extremely unlikely that any other branch of the family of King George III, will inherit it. The descendants of Queen Victoria, in order in which they stood in suc-cession to the throne on Jan. 1, 1901, were as follows: The Prince Giwards. Prince Edwards. Son. Duke of York, grandson.
