LOCAL OPTION CONTEST TO BE LAUNCHED HERE

Temperance Forces Came to a Decision Last Night--- Meeting Was Held Behind Closed Doors--- Local Hotels May Be Purchased.

There will be a vote taken on local option on Monday, January 5, 1914. This was definitely decided upon last night at a meeting held in the Y. M. C. A. Andrew L. Baird, K. C., was in the chair. The reports from the churches which had not reported at the last meeting, which was held one week ago Monday, were received. The reports were said to be favorable. The committee on business men also reported. The meeting resolved itself into a round table discussion in which the question whether to into a local option campaign or not was fully discussed. Some of the gentlemen present gave stirring addresses. Rev. Ben H. Spence of Toronto, was present and made a short, but very encouraging speech and incidentally stated that if Brantford went into the campaign, Paris was almost sure to do so also. Mr. Spence intimated that the meeting was for the purpose of the year and that the city of Brantford should surround it as a local option territory, the speaker believed demanded a firm and persistent effort to be away with the licensed bar in this city. His remarks were enthusiastically applauded by the meeting. The discussion finally ended in a resolution which was carried unanimously to try local option next January. A nominating committee was appointed to nominate officers for the campaign. They will report at a meeting to be held next Tuesday evening at the Y. M. C. A. The meeting last night was behind closed doors. Temperance people will endeavor to secure two of the present hotels which can be conducted as temperance houses. It is admitted that failure of the local option forces in Galt to carry out such a plan will be a handicap in any contest to be launched in Brantford. The leaders of the temperance forces are very reticent as to the financial part of the undertaking which is one that involves heavy obligations if proper organization is to be effected.

TWO WRECKS REPORTED ON THE GRAND TRUNK RAILWAY

Mr. Charles Watt Had Narrow Escape at Tillsonburg, When Two Passenger Coaches Were Overturned--- Another Smash at Caledonia.

TILLSONBURG, May 21.—Grand Trunk Railway, which leaves for Brantford at 11 o'clock, was wrecked at this point at the edge of the town yesterday afternoon. Two passenger coaches containing about 24 persons and a refrigerator car full of milk in cans were overturned. The baggage coach and a second milk car remained on the track.

Mr. T. Smallacombe, of St. Catharines, suffered a painful injury to his nose, and is in the Emergency Hospital. He was attended by Dr. W. H. Bennett and will be able to leave tomorrow. Five-year-old Evelyn Elford, of Corinth, was taken to the hospital with a gash an inch long on her forehead.

Others on the train were: J. G. Miles, of Ingersoll; S. J. Boehm, Woodstock; J. P. Brinmeed, Toronto; and F. Miller of Hamilton. Conductor Ames of Brantford, was in charge of the train. Baggage man Paul was another member of the party.

The collapse of a truck on the former milk car caused the accident. The broken part dragged for 100 feet, cutting up the ties below the cars overturned. According to witnesses they went over the tracks which accounts for the small number of injured.

A Little Heroine. Little Evelyn Elford is the daughter of Rev. James Elford, secretary of the London Methodist Conference. She had suffered her injury in saving her younger sister, aged four, who was falling off the seat and into the ditch. "I held her right back," said the child, lying on a couch in the hospital in a happy frame of mind.

Mr. Elford had three children with him, and the others, according to the report, "stuck right on." Mr. Elford was telephoned for and hurried to Tillsonburg. His only worry was on their way to Ethel, in Huron county for a visit, but will soon return home. "We had just looked out at the steep bank," told a newspaper reporter, "and I said, 'What if we should ever go over there when the scraping sound began and I saw by the startled look on the conductor's face that something was wrong.'"

The Stratford auxiliary was sent to the wreck last evening, and Port Dover-Stratford train No. 51 backed from Norwich Junction to Tillsonburg to take on the passengers of the derailed train.

They Kick French Soldiers Not Anxious to Serve an Extra Year in Militia

PARIS, May 21.—Some French soldiers are displaying considerable opposition to the decision of the government to keep them for another year in active service, instead of discharging them at the expiration of their two-year term. Demonstrations have occurred in a number of garrison towns and the government is acting with great energy in suppressing opposition.

A number of soldiers who took part in a demonstration at Toulon on Sunday were tried by court martial and sentenced to serve the rest of their term with the disciplinary battalions in northern Africa.

At Macon yesterday 100 soldiers assembled in the public square and sang "The International," the Socialist hymn. Speeches were made condemning the introduction of the three-year term of military service.

British Dancing Masters Are All Tangled Up Over The Famous Turkey Trot

(Canadian Press Despatch) NEW YORK, May 21.—Invasion of the British Isles by the Turkey Trot, the Tango and other modern dances, has so stirred the British public that a spirited discussion of the diversions in question is now in progress in the newspapers, cable advices from London here to-day show, editorial writers have taken up the topic and are treating it freely. "Some of the attitudes in the new dances are strange, we admit," says The Standard, "but surely the important point is that the dancers are not curious in them."

NEW POST OFFICE PLANS ARRIVED HERE TO-DAY

Ground Floor Will Be Laid Out in Most Convenient Style--- Postmaster is Asked for Suggestions.

The plans reached the city this morning of the lower floor of Brantford's new public building. They are here for any suggestions which Postmaster Raymond and Assistant Postmaster Montgomery can suggest. The diagram shows two entrances on Dalhousie street and an entrance for the staff on Queen street. The public lobby, of very handsome design, extends the entire front on Dalhousie street and about half the way up the frontage on Queen street. On the left hand side of the lobby there is a money order office, next to that a registered letter office, and then the stamp vendors office. At the right of the lobby is the Postmasters office, and adjoining that the office of the Assistant Postmaster. To the right hand side of both there is an elevator reaching all floors. The quarters for the letter carriers are most complete, and they will not, as now, be walking on each other's feet in order to attend to their duties. Back of the post office facilities is an examining warehouse for the Customs department, with a concrete platform fronting the same. This will do away with the climbing of a spiral staircase—the antiquated plan at present in vogue in this city. On the ground floor there are also separate offices for weights and measures and the gas inspector.

CHILD ADOPTED BY LOCAL BLIND MAN

The disposal of a five months old infant out of a travelling hospital to a Brantford blind man, Bruce Saunders, has been the subject of an enquiry. Saunders and his wife and the infant are living with Saunders' mother on Spring St. Mrs. Bruce Saunders says that while living at 260 McNab street, north, Hamilton, about six weeks ago, she saw an advertisement in a Hamilton paper which stated that there was a baby boy for adoption, by Mrs. Matthews, who keeps a nursery on Emerald street north. She states that the child was given to them by Mrs. Matthews. The child will be six months old. Inspector Axford is strongly of the opinion that before infant children are handed over in this way a thorough investigation should be made as to the circumstances surrounding the new home to which they are taken. Mr. Axford intends to take the matter up at Hamilton.

Ben. Spence A Mystery Little London Girl Died in a Back Yard on Way Home.

(Canadian Press Despatch) TORONTO, May 21.—Rev. Ben. Spence of the "Pioneer," has donned his armor again and taken after Hon. W. J. Hanna, Provincial Secretary, who has approved the granting of more licenses in New Ontario. Speaking of the Government's action to-day, he said: "There has been in recent years a gradual increase in the number of licenses in New Ontario, notwithstanding the Government's emphatic statement that there would be no more licenses in view of the fact that the people of older Ontario are wiping out the bars at every election."

HE DID NOT WANT TRUST-MADE COFFIN His Home-Made One, However, Was Too Small to Hold Him.

MALONE, N.Y., May 21.—Orville Kimpton, a unique character here, was buried yesterday, aged 87. He was very bitter against trusts and politicians were his particular hatred. He made his coffin several years ago, so no trust-made coffin would fit him. But he was so large his home-made casket had to be discarded.

FIFTY-EIGHT BONES FOR LOVE MESSAGE And the Poor Girl Only Earns Two-Fifty Per Week.

BETHLEHEM, Pa., May 21.—It will cost Gottlieb Huebner, the owner of a confectionery store here, \$58 for a love message from this town to Cleveland, Ohio. Mary Snak, a pretty Hungarian domestic of this place, decided to call her Cleveland, Ohio lover on the telephone. Forty, fifty then fifty-eight minutes she remained in the booth having a real nice time.

Are at Peace CALGARY, ALB., May 21.—Peace has been made between the Dominion Government and the officials of the Grand Trunk Pacific. It is understood the railroad is to get the old site of the mounted police barracks for a depot site, and in consideration of the transfer of this property, the railroad company will build a new barracks in the northwest section of the city at a cost of \$200,000.

IT PAYS TO HAVE RIGHT BRAND OF MEN FOR ALL FOUR BRANTS

New Armoury Building for Brantford is Announced--- Burford Gets a New Post Office---Port Dover Harbor Improvement Will Prove Big Thing for Brantford and Other Towns.

Once more Brantford and Brant County receive notable recognition at the hands of the Borden Government at Ottawa. In the supplementary estimates at the capital brought down yesterday there are these items: Brantford, further grant to new public building, \$50,000 Brantford, new drill hall, 25,000 Burford, post office, 10,000 Port Dover, harbor improvements, 50,000 Total, \$135,000 Brantford's Public Building. The further grant of \$50,000 towards the new public building now in course of erection in this city is one more of other votes which will be made before the structure is completed. The total outlay will approximately reach \$300,000 and may even reach a higher figure than that.

New Drill Hall. The \$25,000 for a new drill hall here is just the beginning of the outlay for a structure which will supply the Brant Dragons with headquarters. At present the two squadrons here have a complement of 84 men each. With the new drill hall the complement will stand. Squadron strength each company: 104 Staff 30 Band 278 Total 278

At present the Dufferin Rifles Armories are in use by both officers and men. The new structure will be situated at the corner of Dalhousie street and Brantford street, on a portion of the land on which the Black Stone Foundry used to stand. The site cost the government \$20,000 and the building it is expected will entail an ultimate outlay of at least \$100,000. It will be most complete in every essential. There will be no big hall as such and the Dufferin Rifles armories will still be used for drill. The outfitting in addition to necessary quarters for everything will also include a spacious riding school. When seen this morning Col. Muir said: "We are all of course very delighted with the government grant and officers and men alike deeply appreciate the efforts of Messrs. Cook-

shutt and Fisher, M. P., and those others who have helped to get us this splendid building." A Battery for Brantford. The new building will also include accommodation for the new field battery which it has been decided to establish in this city. There will be four breech-loading guns, a captain (Col. Ashton), two lieutenants (Mr. W. T. Henderson and Mr. W. E. Kellett), a surgeon, sergeant-major, ferrier sergeant, two trumpeters, and 80 men. There will be four horses to each gun. The establishment of this battery will make Brantford one of the few places in Ontario with a complete military equipment.

Port Dover Harbor. The grant of \$50,000 towards the dredging of Port Dover harbor is the first allotment of an outlay which will probably reach \$100,000 or so. For many years the Grand Trunk Railway has had a terminable lease on this harbor and freight used to be carried between there and Erie, Pa. However, for reasons best known to themselves the company have let the whole property fall into decay. Now that the government has taken hold there will be a mighty change. The Lake Erie and Northern people or some other company will run a line of freighters across the lake and will enable coal to be brought in from the west.

As soon as this railway is opened and the harbor is in shape there will be a cat ferry placed on the route, thus giving cheaper coal to all these towns. "The present vote for Port Dover is the beginning of the work which will continue during the next two or three years or until the port is in first-class shape," said J. H. McCall, former member for Norfolk. Mr. Charlton has also given his support.

SQUAD OF POLICE AT BIG WEDDING Ten Thousand People Wanted to See if Rejected Girl Would Start Anything!

(Canadian Press Despatch) CHICAGO, May 21.—Tumultuous demonstrations attended the wedding last night of Dr. Frank Lagorio, son of Dr. Antonio Lagorio, head of the Pasteur Institute, and Miss Emily Triner. More than a week ago Miss Emily Huggins used youth Lagorio for \$20,000 for what she called "unwarranted jilting." She said the doctor's marriage "would only take place over my dead body" so last night—Lagorio had fifty policemen as guards at the wedding party. The Church of St. Procopius was guarded by another squad of blue coats.

A crowd, estimated at ten thousand, gathered to see if Miss Huggins would start anything. They rushed the church after the entrance of the bride party. A riot call was sent in for more police, who upon arriving began clubbing the crowd. Many were injured but this did not stop the disorder. It was an hour after the ceremony before the crowd dispersed.

In the meantime Miss Huggins was seated at a piano in her home calmly playing "Heart Bowed Down."

Annual Meeting Brantford District Women's Home Missionary Society Held Today

The annual convention of Brantford district Women's Missionary Society, is being held in the Brant Avenue Methodist church to-day. There were over one hundred and fifty ladies present, delegates from the different districts in the county being in attendance. The morning session was opened shortly after eleven o'clock when devotional exercises were conducted by Mrs. Jameson of Wellington St. Methodist Church, assisted by representatives from the Copetown auxiliary.

Mrs. A. Shultz read the minutes of the previous meeting, which were approved of and adopted. Mrs. Shultz then read reports from the secretaries of auxiliaries, circles and Bands in the district, including all the city Methodist churches and Lynden, Copetown, St. George, Troy Paris and Jerseyville. All the reports showed an increase in membership and also a marked increase in the amount of money donated for missionary purposes. A sacred selection was rendered by the Syngham St. Methodist church ladies quartette brought the morning session to a close. The ladies and a number of ministers who were present adjourned to the Sabbath school room to partake of a dainty luncheon prepared by the ladies of the Brant Avenue Methodist church. The afternoon session opened at two o'clock. Calgary Races. CALGARY, ALB., May 21.—The Chinook Jockey Club, which is composed of wealthy Calgaryans, has acquired 80 acres near the city and will construct a mile track and the necessary buildings in time to hold following bridge & duntvertsals.

MERCHANTS ARE NOW ORGANIZED

An Association is Now Formed in Brantford—Officers Are Elected.

A large and representative gathering of local merchants assembled in the city council chamber last night to organize a branch of the Retail Merchants' Association in this city. Mr. W. E. Long was chairman of the meeting, and Messrs. N. C. Cameron and R. C. Doyle were in attendance as representatives of the association. Mr. N. C. Cameron, provincial treasurer outlined the workings of the Retail Merchants Association of Canada. He touched on the bulk sales act, the fighting of co-operative stores. Merchants of the United States are following the method of organizing their as they are here. Illegal coupons are being used by merchants in different towns. The placing of a tax was urged on mail order houses, according to the amount of business they do in every town. False advertising and marking of goods were other features of work undertaken. The following officers were then elected: President, M. E. Long; Vice-President, N. J. Mellen; 2nd Vice-Pres. A. L. Vanstone; Treasurer, T. Wade; Secretary, J. C. Young. Mr. Doyle, the western representative, is remaining in the city the balance of the week, and every merchant that is not already a member is requested to become a member of the Brantford branch.

GOING INTO CONSUMPTION
When your throat rattles, your lungs and chest ache, your throat is stuffed with cold—don't fear consumption—use Catarrhoxone and get well. It clears the throat, cures the hacking, relieves tight chest and soreness in the bronchial tubes. To clear away Catarrh of the nose, nothing could be better. Catarrhoxone is Nature's own remedy—it heals and soothes—cures every form of throat, lung or bronchial trouble. Prescribed by many specialists and used by thousands every day. 25c and \$1.00 at all dealers.
PREVENT TAKING COLD
Often you come home cold and shivering—feet are wet, throat is raw and chest a little sore. A bad cold is just beginning. Put Nerviline Effort Plaster on your chest, rub your throat with Nerviline, and take a stiff dose of Nerviline in hot water. This prevents a chill and checks the cold instantly. No remedies so useful in the home, so sure to prevent serious illness as Nerviline and Nerviline Plasters. Sold by all dealers. Beware of cheap imitations. Buy the genuine and refuse any substitute.

Pericles

By HOWARD L. RANN

PERICLES is the first name of an Athenian statesman and bull whose politician who was born 479 B.C. and died several years after his birth. His recent photographs show Pericles in a dignified attitude and the pointed beard which he wore when he ran for office. People always called Pericles by his maiden name, as his parents ran out of the Greek alphabet when it came to christen him.

It was said of Pericles that he could think deeper and faster on a half-mile track than any high school professor in Athens. He had a wonderful mind of the same clutch type and could see a month long before it turned the corner. One of his favorite pastimes was to go down in some secluded spot and breathe axioms, epigrams and maxims into the ear of a stenographer, stone cutter, who would write them on a tombstone with a cold chisel and thus preserve them to posterity.

Things were in a fearful condition at the time Pericles entered politics. An old standpatter named Cimón had subsidized the Athenian newspapers with the aid of the county printing, and nobody could hitch his team in the Parthenon or build a bungalow on the Acropolis without first lubricating Cimón's itching palm. Pericles called several boob meese together and had himself nominated for mayor on the Citizens' ticket, after which he sharpened up his beard and made a speaking campaign in every ward. He was triumphantly elected, and banished Cimón immediately after appointing a new chairman of the street committee.

For several years Pericles did not have any time to think up new epigrams for use in our school books, as he was kept busy driving off the Spartans, Lacedaemonians and other insects. He remained on the high wave of popularity until 430, B.C., when an epidemic of the Dutch measles broke out in Athens which he was said to have introduced into the country by engaging a German hired girl. The enraged populace deposed Pericles and destroyed some of his axioms, but he was later restored to confidence and died with the rank of brigadier-general. His death was caused by coming in contact with a sample of Asiatic cholera.

With The Police

The marital troubles of Martin and Frances Chimura were aired in the police court this morning when Frances charged Martin with assault, and Martin laid information against Frances, saying she was insane, and that he went in fear of her. Frances was the first to give evidence, and her testimony came in a torrent, a veritable Niagara. Questions that could be answered by "Yes," or "No," were dealt with at length, and the impression left on the hearer's mind was that the lady was studying for a place on the Opposition. And it all had to be translated by Mr. Louis Stander. One question having been dealt with with great volubility and gesticulation, Mr. Stander would turn to the Magistrate with a dazed expression trying to gather the witness' remarks into some sort of coherence, when the lady would add to her testimony with great rapidity and feeling. If Mr. Stander interpreted literally, it is very certain that the language spoke is almost as elaborate as Chinese; but it is believed that there were purple additions and emendations. The witness was too scandalously frank to report in full, but she stated that Martin was "fonder of a

RAILROAD MAN HAD TO LAY OFF

Until He Took GIN PILLS

Buffalo, N.Y. "I have been a Pullman conductor on the C. P. R. and Michigan Central for the last three years. About four years ago, I was laid up with intense pain in the groin, a very sore back, and suffered most severely when I tried to urinate. I treated with my family physician for two months for Gravel in the Bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by GIN PILLS, after having been given up by a prominent physician, who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try GIN PILLS which I did—with the result that the pains left me entirely." FRANK S. IDE, soc. a box, 6 for \$2.50. Jewish lady than he was of his lawful wife, that he never gave her any money, and that he threw her against the stove. Martin denied the allegations of his wife, while the lady and a friend chased her attorney around the room talking and interpreting and having the time of their lives seemingly. At last the attorney turned on them. "You talk too much, both of you be quiet." But this was a bit of by-play during Martin's evidence.

Martin Chimura said his wife was a gadabout, and left her conversational powers to be judged by the court. He had paid for everything, necessary, and had bought clothes for his wife who immediately sold them at about a sixth of the cost price. He was employed by the city and had a good character. The assault complained of was an accident. He was trying to persuade her to retire for the night when she pulled against him so hard that he let go and she fell against the stove. The Magistrate thought he had better remand both cases for a week in the hope that the belligerents would come to terms.

Charles Roantree, charged with being drunk, complained that he had not had time to get drunk when arrested. The Magistrate, however, was of the opinion that defendant had not even then recovered from his indisposition, and fined him \$3. Robert McFarland, from Toronto, was before his Worship for the same cause, admitted the soft impeachment with a smile, and was allowed to go.

London Standard Declares that the War Chest of \$500,000 Is a "Gigantic Bluff."

LONDON, May 21.—The Standard asserts that the militant cause is practically bankrupt. It claims to know that the huge war chest budget of \$500,000 is a "gigantic bluff"; that the \$50,000 subscription at the last Albert Hall meeting consisted of "dummy" subscriptions and that the suffragette subscriptions are rapidly dwindling.

La Diva NON-RUSTABLE CORSET

Before and after your 30th birthday—watch your figure—

Today's fashions enhance the necessity of skillful corseting to disguise where art is helping nature,—for the styles prescribe a natural seeming figure, an almost corsetless effect, and this result is most successfully attained by this year's models of the famous D. & A. and La Diva Corsets. D. & A. and La Diva Corsets, thanks to absence of daisy, and splendid manufacturing facilities sell at from \$1.00 to \$3.00 less per pair than imported ones and being made specially for Canadian Women they give more comfort and longer wear. There is a model for every figure. Our catalogue—sent free on request—will help you to choose the best for your.

DOMINION CORSET CO., QUEBEC. No. 609—La Diva Reducing—shown in cut gives both comfort and style to full figures. The price is \$3.00 and \$2.50, and no better corset is offered at any price.

Books, piano, needlework—these are sometimes diverting, but a woman craves real companionship. THE PASSING OF PUGSLEY

The leadership aspirations of Hon. William Pugsley, who for some time past has been trying to oust Sir Wilfrid Laurier, have been annihilated. The Pugsley bubble was punctured by Dr. Michael Clark, the militant free trade radical from Red Deer, and the ex-Minister of Public Works was humiliated in a drastic manner which has no parallel in the history of Canadian political life.

It came about this way: Mr. Carroll, the Liberal member for South Cape Breton, was speaking on the naval bill the first day of the new rules limiting speakers to twenty minutes became operative. Mr. Carroll had finished his twenty minutes and was proceeding, when the chairman called him to order, remarking that his time had expired. Mr. Borden suggested, as a matter of courtesy, that Mr. Carroll might continue his remarks with the consent of the House.

The following is the Hansard report of what followed: Mr. Pugsley: "There is no rule. Mr. Carroll can continue his remarks as a matter of right."

Mr. Borden: "I understand there is a definite rule of the House on this subject, and I do not think that my hon. friend's (Mr. Pugsley) mode of treating what I intended to be a courteous suggestion is very commendable."

Mr. Pugsley: "I seriously believe there is no binding rule. There was a resolution carried by the majority in which the minority had no opportunity to make amendments or suggestions. I say it is not a rule of this House, but simply a tyrannical resolution of a majority of this House."

Dr. Clark (Red Deer): "I think the Prime Minister is, as usual, extremely courteous. I totally disagree with my hon. friend from St. John (Mr. Pugsley) when he says there is no rule. The rules have been passed, and they are now the legal rules by which debate is conducted in this House. I totally disagree with my hon. friend."

Later on in the debate Mr. Nesbitt of North Oxford allied himself with Dr. Clark in opposing the Pugsley policy that rules of the House should be ignored if they were not to the liking of members of the Opposition.

This public snub on the part of Dr. Clark and Mr. Nesbitt heralded the passing of Pugsley from the battle for the leadership. And through it all Sir Wilfrid Laurier sat with impassive face.

CROPS AND LIVE STOCK

A bulletin issued by the Census and Statistics Office records the condition of crops and live stock on April 30 as reported by agricultural correspondents throughout Ontario.

It is estimated that in Ontario about 18 per cent, and in Alberta about 43.5 per cent., of the areas sown to wheat last fall have been winter-killed. These percentages represent a deduction of 261,000 acres from the total area sown to fall wheat, viz: 1,086,800 acres, so that the area remaining to be harvested is now 825,800 acres.

The condition of fall wheat on April 30 was in Ontario 83.4 per cent, and in Alberta 76 per cent. of a standard representing the promise of a full crop, the corresponding percentages on the same date last year being 71.2 for Ontario and 76.8 for Alberta. For all Canada the condition on April 30 of this year was 82 per cent, of the standard representing the promise of a full crop, or 101 per cent. of the average yield of the past four years. Last year at the same date the corresponding figures were only 72.6 per cent. of the full crop standard, and 87 per cent. of the average of the three previous years.

Spring seeding has made good progress throughout the greater part of Canada, and was much further advanced at the end of April than it was on the same date last year. In the Maritime Provinces seeding does not begin until May, but the weather was favorable and the indications were for an early spring. In Quebec there was also the prospect of an early season, and about 12 per cent. of the total seeding was completed by April 30. In Ontario conditions were more variable, but 40 per cent. of the total seeding was reported as finished. In Manitoba and Saskatchewan over 50 per cent. and in Alberta about 75 per cent. of spring wheat had been sown during the favorable weather of April. In Saskat-

chewan there is an apparent tendency to sow less wheat and devote more attention to dairying and mixed farming. For Quebec, Ontario and the three Northwest provinces the proportion of seeding completed on April 30 was: For wheat, 43 per cent.; for oats, 20.5 per cent.; for barley, 13.7 per cent., and for all crops, 34.7 per cent.

About 22 per cent. of the area in hay and clover meadows is reported to have been winter-killed, but the average condition of these crops at the end of April was 89.6 per cent. as compared with 74.6 per cent. last year.

The condition of live stock remains generally satisfactory, being for all Canada over 90 per cent. of a standard representing a healthy and thrifty condition.

THINGS HAVE CHANGED

That the just needs of Bantford and Brant County continue to be carefully looked after by the four Conservative members of the four Brants has now received another abundant exemplification.

For years the necessities of this city and county were grossly neglected by four Liberal members, who had the ear of two Liberal governments—at Ottawa and Toronto.

The truth was that the quartet of seats were considered to be safe for Criticism for eternity, and that inattention would not count in the election returns.

All that has been very properly and effectively changed. We are not getting things on a "me, too," plea, but on a square basis.

Messrs. Cockshutt, Fisher, Brewster and Westbrook are all certainly most alert on behalf of the legitimate interests of their constituents.

NOTES AND COMMENTS

The four Brants. We had to have 'em, and we got 'em.

And now you'll notice that Brantford and Brant County just needs are receiving proper attention.

That Borden meeting in Toronto has efficiently spiked Laurier's program of a general series of gatherings, at which he would do his acrobatic stunt on the navy question.

The Expositor distinctly refuses to explain why it now favors the Senate throwing out the Navy Bill, when a few weeks ago it stated most emphatically that they shouldn't.

Mr. W. P. Kellett, the chief engineer and general manager of the L. E. & N. Railway, who, backed by a good board of directors, has stuck to the entire scheme with great tenacity, is naturally much pleased at the outcome.

To The Editor

BELIEVES IN PEACE.

To the Editor The Courier, Dear Sir,—In reading the report of the Dufferins at Church in The Courier, I was much pleased to note that the Rev. A. F. Lavell, B. A., is opposed to what is known as civil war. I believe it is all right to maintain a force to keep hoards in check, whose object is plunder and destruction of life and property, but I believe if all the preachers who believe in the Fatherhood of God and the Brotherhood of mankind were to preach that war between civilized or so called civilized nations, were pure and simple black murder in the first degree, that the world would not have to wait long till the warriors would beat their swords into ploughshares and their spears into pruning hooks, and the Kingdom come on earth as it is in heaven. General Sherman never spoke a truer word in all his life, when he said war was hell. It is impossible to imagine a more vivid picture of hell than to look upon a picture of a battle field with all its horrors. We have nothing to do with the wars preceeding the Christian advent, Christ was the end of that world. If God commands us to fight and murder one another then it is wrong for us not to do it. I am pleased to see the Socialists and labor unions are doing much to cripple the spirit of war in Europe.

I remain, Mr. Editor, Yours respectfully, R. BORTHWICK.

Killing the Shade Trees

John Buskard, secretary of the Collegiate Board, has written the city council calling the attention of that body to the fact that the electric wires strung along Brant Avenue are killing all the maple trees in which the wire come in contact, and asks that something be done immediately to remedy the matter and save the shade trees.

District Meeting

A meeting of all the ministers of the different Methodist churches in Brantford district, was held in the Methodist church at Paris yesterday afternoon, the Rev. A. E. Lavell officiating. Carpenters' Demands.

The local Brotherhood of Carpenters and the Amalgamated Society of Carpenters are asking for a nine-hour day and an increase of 2 1/2 cents per hour, or 37 1/2 cents per hour as a minimum. It is claimed that carpenters in other cities work eight hours per day and get 40 to 45 cents per hour. The carpenters are asking the builders to sign an agreement with them for one year. The builders held a meeting last night at which it was decided to meet the carpenters Thursday night and take the matter up with them.

The following gratifying report of the work done in connection with the W. M. S. of the Methodist churches in this vicinity for the year ending with May, 1913, comes from Mrs. Chrysler, the district organizer. Last year's work closed with a splendid convention at St. George, and to-day a similar gathering meets at Brant Avenue Methodist church. 13 auxiliaries to date, also 31 circles and bands. Troy and Jerseyville Mission Bands had the honor of keeping the banner and books for two years. Colborne St. church has the largest membership in the district (251) also the largest increase in funds. Brant Avenue church has the largest life membership (\$8) and the largest number of Circle members (80). Cainsville, our new auxiliary has done well. The organizer wrote 95 letters and 35 cards; gave 48 addresses (Brantford, Norwich, Burford, Bethel, Cainsville, Mt. Pleasant, Swesburg) also spoke to Baptist and Congregational Mission Bands; gave lessons on missionary lines in junior and senior leagues, young ladies class, primary class, Mission Bands, Auxiliaries and Circles. Subjects were: China, Japan, Korea, Mexico, Sumatra, India, Isle of the sea, missionary ships, the lumbermen in Algoma. Distributed 88 bouquets, 60 articles of clothing, fruit and groceries, 200 pages of literature; and also 60 pledge cards were given out.

Spearing-La Rush

A very happy event transpired at the home of Mr. and Mrs. George Spearing, 41 Elgin Street at 8.30 yesterday afternoon, when their daughter Florence L. was united in marriage to Mr. Joseph Charles La Rush of this city—the Rev. Llewellyn Brown officiating.

The bride and groom entered the room to the strains of the Lohengrin wedding march played by Miss Ella Spearing sister of the bride and took their places under the arch which was tastefully decorated with apple blossoms. The parlor was decorated with carnations and roses.

The bride looked very sweet gowned in embroidered marquisette over ivory satin and wore a veil wreath of lilies of the valley and carried bridal roses. Miss Arley Spearing sister of the bride acted as bridesmaid, wearing Alice blue satin and carried sweet peas. Mr. Harry Houlding was best man.

After the ceremony, the bridal party, who numbered 25, sat down to a very tasty dejeuner. The bride and groom were the recipients of many hearty congratulations. Mr. and Mrs. La Rush left at 9.30 for Saakatoon, where they will reside, amid showers of confetti and best wishes for their future happiness. The bride's traveling suit was a navy blue serge with picture hat to match. There were guests present from Toronto, Erie, Pa., Preston, and Brantford. Many beautiful gifts were received.

PAULINE JOHNSON'S TESTAMENT

The will of the late Miss Emily Pauline Johnson, the Indian poetess, has been entered for probate and reveals an unusual amount of contemplation for the inevitable end of her last illness.

The opening clause of the will which provides for the cremation of her remains and the scattering of the ashes, adds—

"When dead, I desire to be dressed in my grey cloth evening cloak, with my small gold shield shaped brooch fastening the photograph of a young boy, fastened around my neck by my small gold chain, also I desire to wear my gold rings of the design of two serpents, and to have my silver and ebony crucifix placed in my hand."

The final clause of will reads as follows: "I particularly desire that neither my sister nor brother wear black nor what is termed 'mourning' for me as I have always disliked such display of personal feelings. I desire that no mourning notepaper nor stationery be used by them, and that no tombstone or other monument be raised in my memory, as I prefer to be remembered in the hearts of my people and my public."

I. O. D. E.

The thirteenth annual meeting of the Imperial Order Daughter of the Empire held in Winnipeg, May 19th to 21st, was largely attended by delegates from all parts of the Dominion from Fredericton to Prince Rupert. The agenda was very heavy, the three days being scarcely long enough for the various reports' discussions and business to be disposed of.

The election of officers for the National Chapter resulted as follows: President, Mrs. Albert E. Gooderham; first vice-president, Lady McKenzie; second vice-president, Mrs. James George; hon. secretary, Mrs. P. B. Featherstonhaugh; hon. treasurer, Mrs. John Bruce; standard bearer, Mrs. Henshaw; all of whom were present except Lady McKenzie, and all of whom are from Toronto, except Mrs. Henshaw, who is from Vancouver. It was decided to hold the next meeting in Toronto.

Mrs. Clark Murray, founder of the order, was present, and it must have been a great gratification to her to see the growth and wonderful work accomplished by a society which is the outcome of her own idea, started at the time of the South African war and for some time managed by her alone.

A telegram from Mrs. Colin Campbell, moved that Mrs. Murray and Mrs. Pessenden, founder of Empire Day, should be made honorary life members. This was seconded and unanimously carried.

Winnipeg with true womanly hospitality did much to make the visit of the Daughters of the Empire interesting and enjoyable. The main streets were strung with electric lights, this being the first time a woman's convention has been so honored.

A motor ride through the city in flower trimmed cars ended in a civic reception by the Mayor and Aldermen in the city park.

The T. Eaton Co. gave a reception in the tea room of their great store.

Football

The second game in the John Hill Charity Cup series will be played at the Agricultural Park on Saturday afternoon between the Y. M. C. A. and the Dragons.

Both these teams are playing good football and the game should attract a large crowd. The proceeds of the game are for a good cause and should be well patronized.

At present the Y.M.C.A. team are a little higher up in the standing than the Dragons. The Dragons are coming fast and will make the Christian Association eleven travel to win.

Samuel Seago will leave no stone unturned to get his team into the very best possible condition for the match. Sam will give the "22th" players lots of running, so as to enable them to be able to stand the strain. Condition is going to play a very important part in this game and both teams are taking no chances in not being there with the staying power.

The Y.M.'s are very feisty and just whether they will be able to run the Dragons off their feet remains to be seen. It will be football right from the drop of the hat and the team that walks off victorious will know that they have been taking part in a football game.

The public and lovers of football should make it a point to attend this

game for the reason that the proceeds (the collection) is donated to a worth cause, i. e. given to the Tuberculosis Hospital fund.

Dufferin Rifles.

All the members of the Dufferin Rifles Football club are requested to be at the Agricultural Park by 7:15 p.m. Thursday night. The team to play Dundas will be picked from the players present. A meeting will be held in the Armories immediately after the practice.

Holmedale Tigers.

The Tigers were too selfish on Saturday; they didn't even share the points.

Harbour's red hat must have scared them.

We are told that the Jungle's inside right was digging his den last Saturday, but we hope he will be fit for next Saturday.

The Jungle's centre half will play against his old team next Saturday. Play up, Earnie!

Jem got back from Hamilton alright on Saturday better than we expected.

The Tigers have a good defence wherever they may roam. If anybody interferes with them away they have to go.

Clark and Maycock were shy last Saturday, but they will bring up lost time next Saturday.

Archer was great last Saturday, but he will have to be greater next Saturday.

The Tigers' goal keeper is always there ready to spring. Good luck, Joe.

Sons of England Football Notes

The S. O. E. played Holmedale some games. Bull dogs and Tigers. Everybody should see this.

The reserve team go to Simcoe to play there. They leave the headquarters, the Roberts and Van-Lane shoe store, 9 o'clock by motor. Anybody wishing to go should give their name to H. Sleeth or Leonard Meares, 51 return.

W. Small is still wearing the S. O. E. colors and has done so ever since the club was formed.

W. Mitchell will not be playing. He is going away for the holiday too bad. We hope to win on Saturday; we should do.

Our first home game on Saturday. We need a big crowd. A holiday, we should get it.

Keightly has scored both goals, and he is out for more.

Look out, Tigers, we mean business.

No Religion Wanted SAULT STE MARIE, Ont., May 20.—The city council last night voted \$36,000 for a new four room public school, to be erected in the west end in the Italian quarter. This follows a request by many separate school supporters for a public school on the grounds that they did not want their children to learn religion in school. Over 800 Italian parents signed the petition and announced that they would transfer their taxes from separate to public schools.

NAPS WON IN THE NINTH YANKS BEAT THE BROWNS

Jackson's Unlucky Throw A Rare Decision Given By Umpire.

CLAYTON, O., May 21—Cleveland won yesterday's game in the 9th innings, scoring three runs and beating out Washington 10 to 9. Each team hit freely; Cleveland using five pitchers and Washington two. In the second Jackson's throw struck a bat and bounded away, three runs scoring. On President Johnson's order, Umpire Dineen put Atrock off the bench, claiming that Washington exceeded their limit of 25 men in uniform. Score: R. H. E. Cleveland . . . 200122003—10 11 4 Washington . . . 042002010—9 12 1 Mitchell, Blanding, Cullop, Kahler, Gregg and O'Neill, Mullin, Hughes and Williams and Henry.

Long George Won His Game.

ST. LOUIS, May 21—Although McConnell allowed St. Louis eight hits yesterday, he kept them scattered and New York won, 6 to 3. Baumgardner was hit for nine safeties. After two were out in the third three runs were scored by New York. Score: R. H. E. New York . . . 02300010—6 9 1 St. Louis . . . 10001001—3 8 1 Baumgardner and Agnew; McConnell and Sweeney.

No Religion Wanted SAULT STE MARIE, Ont., May 20.—The city council last night voted \$36,000 for a new four room public school, to be erected in the west end in the Italian quarter. This follows a request by many separate school supporters for a public school on the grounds that they did not want their children to learn religion in school. Over 800 Italian parents signed the petition and announced that they would transfer their taxes from separate to public schools.

A SECRET OF THE ALPS

Was It Better Kept or Divulged?

By MILLARD MALTBE

Touring in Switzerland. I went to Chamouix with a view to climbing Mont Blanc, but the weather was not favorable, and I was obliged to spend all the time I had to spare for that purpose watching and waiting for a change. I strolled about a good deal, sometimes going up the side of the mountain. On one of these walks I came upon the chalet of an old mountaineer in whose chalet I was interested. He lived with his son-in-law, who was a guide, and his daughter. There were several children, the oldest of whom was a boy of fourteen. Before I left Chamouix I had so far won the old man's confidence that he told me a story involving a bit of family history.

I give it in his own words. I noticed while he was telling it that his face wore an expression of one who had something on his conscience of which he was not satisfied. At least such was my impression.

"My daughter Lena when she was a little girl was a veritable old maid. She would not climb, no precipice over the edge of which she would not look without drawing back. Once I saw her standing on a cliff poised as if ready to fall down on to the snow some forty feet below. Then, to my horror, she stepped off. Her fall was caught beneath her skirts, and she seemed to sail down like a swallow.

"I ran toward the spot where she had fallen and found her in the soft snow some three or four feet below the surface. Had I not been on hand she would have been a dig herself out. When I released her she laughed in great glee.

"I took her home and spanked her, but it didn't do any good. That child did not fear the meaning of the word 'fall.' She was not broken by the air being caught beneath her skirts, and she seemed to sail down like a swallow.

"My old friend Pfeiffer had a son five years older than Lena, and was well made. He had a money down on the line between Switzerland and Italy smuggling goods across the Italian lakes. For the reason of this money, which would one day belong to young Gustav Pfeiffer, I was quite willing to betroth Lena to Gustav to be married when she should be old enough. But Lena had a playmate, Fritz Henkel, who was as fearless among the mountains as she, and the two became lovers. Young Henkel as soon as he became old enough began to guide tourists up the mountain, for he knew every foot of the way, and every one in the valley.

"But I had no idea of my daughter marrying a guide, who was liable at any time to go down with the avalanche and leave her a widow, with nothing to live on, when she could have a young man with money to the bank at Geneva. So I kept my contract with Pfeiffer. Lena was much broken in spirit at not being allowed to marry the young man she loved, but I thought that after she had been married awhile and had children she would settle down to the humdrum of life like the rest of us and forget about Fritz Henkel. She I kept my contract with Pfeiffer. Lena was much broken in spirit at not being allowed to marry the young man she loved, but I thought that after she had been married awhile and had children she would settle down to the humdrum of life like the rest of us and forget about Fritz Henkel.

"When Henkel knew that he must lose her like a good fellow he went away from her to Interlaken and guided tourists up the Jungfrau and the other mountains thereabout. He would not come back here even to see his father and mother, though he sent them a part of his earnings. As for Lena, she did what she could to be content as the wife of a man she did not love. She did not complain, but I saw that to please me she had made a sacrifice that she might never recover from. Besides, Gustav did not turn out very well. His father, unfortunately for my plan, continued to live instead of dying at a proper age and leaving his money to his son. Nor did he give Gustav anything either on which to live. So Gustav, instead of taking up any steady employment, thought he could make money as his father had made it and became a smuggler.

"But every year the revenue men became more watchful and expert in detecting smugglers, and what was worse for the smugglers, more honest, though perhaps this was because they themselves were more closely watched. At any rate, Gustav did not succeed as his father had succeeded and at last was caught smuggling and was sent to prison.

"I was much depressed by what I

A Clear Brain and healthy body are essential for success. Business men, teachers, students, housewives, and other workers, say Hood's Sarsaparilla gives them appetite and strength, and makes their work seem easy. It overcomes that tired feeling.

had done, but Lena did not reproach me. She took good care of me and made what little we had live on as far as possible. And I have learned since that she permitted Fritz to send small sums of money to her to be spent for necessities for me. For Pfeiffer as he grew older grew more and more stingy and would do nothing at all for his daughter-in-law. But Fritz never came here. He was too honorable for that.

"After Gustav had served about a year of his term in prison he escaped with some other prisoners. They were chased into the mountains, and those chasing them saw them while crossing a glacier suddenly go down into a crevasse which was covered over with a thin coating of snow and ice. Since the crevasse was very deep and they must all have been killed by the fall no effort was made to secure their bodies. In forty or fifty years, when the point in the glacier where they were killed reaches the valley and melts, they will appear.

"As soon as I heard of the death of these men I sent word to Fritz that if he chose to marry Lena he would have my consent. He came to see me, but Lena was not sure that her husband had been among the men who went down into the crevasse. He would not say that, and within that time if Gustav were alive she would surely hear from him. Fritz agreed to this, and though we did not speak of it, we all hoped that Gustav would not be heard from.

"But the prison authorities assured me that Gustav was one of the escaped prisoners who had been killed, and I, anxious to undo the harm I had done, persuaded Lena not to wait till the year was out, but to be married, and we would all three be now comfortable. Fritz resuming his work as guide at Chamouix. The truth is we never saw what Fritz could earn, for we had little or nothing with which to procure food.

"So they were married a few months after Lena became a widow or was supposed to have become a widow, for she said she had never seen Gustav. She made several trips with Fritz to the top of the mountain and seemed, like him, to be in her natural element when there.

"And now I am going to tell you a secret that is not known to any one about here. One day I was out on a path leading toward this house, a path which did not come from Chamouix, but from the other direction, and while I was on the trail, suddenly, up a cliff some fifty feet high, I came upon the body of a man.

"He was my daughter's husband. He had evidently been on the path when, after winding around an incline, he had led along the edge of the cliff above and he had fallen. He had died within not more than a few days before, and Lena had not been really married to Fritz. Their first child which was expected, would not be born in wedlock, according to the civil law or that of the church.

"I carried the body to a chasm, the bottom which we men have ever seen, and dropped it in. There it lies buried and will lie till this world is broken by some great convulsion, such as that from which the mountains were formed. That happened fifteen years ago, and neither my daughter nor my son-in-law knows that for some time after they began to live together they were not married. Nor was it necessary that they should be married, for when I found out that they were not married, there are many theories. The one I most count on is that he had contrived when pursued to separate himself from the others and hide till the pursuers had passed. His only safety would be in going as far as possible from his former home. Perhaps he had come to America or Australia. But at last, tired of remaining away, he had concluded to pay a visit to his home. He had stolen into Switzerland and would lead him down to the cliff. How he came to fall over the cliff is in this way: He was not a temperate man, and when sent to prison the habit of drink had already fastened itself upon him. Probably, after he escaped, during his wanderings, he had possibly while on his way to his former home he was drunk.

"A few years after his death his father died, and, having no one else to leave his money to, he left it to Lena. She had always been a favorite with him, and although he had opposed her second marriage on the ground that his son would turn up, as the years went by without any word from him the old man admitted that it was as well that she had married Fritz.

"The narrator paused at this point, but presently continued, and I have imparted this secret, and I have imparted it to you with an object. I have at times been disturbed with an uneasy conscience as to whether I should have acted as I did upon the discovery of Gustav's body. I have told you the story that I might ask you whether I did right or whether I did wrong.

"That," I replied, "is a matter of opinion. I can only assure you that had I been in your place I would have done exactly as you did. I kept my secret." "You would have settled his mind as to his son being dead. But through him you might have revealed the truth to those who would better not know it." The speaker grasped my hand and drew a long sigh of relief.

A MAINSTAY FOR ALL MEN

All Brainwinners who Find Health Declining Should Take Dr. Williams' Pink Pills

Thousands of men throughout Canada are suffering to-day from a deplorable failure of strength without knowing that they are the victims of nervous exhaustion. The signs are plain. The sufferer cannot keep his mind on work, passes restless nights, turns against food and cannot digest it, feels exhausted after exertion, which headaches and fits of dizziness often adds to his misery. These symptoms denote that the nervous system is weakened and insufficiently nourished. Dr. Williams' Pink Pills will promptly cure because they enrich the impure, weak blood and thus give new strength and tone to the exhausted nerves. No other medicine can do this so promptly and so surely.

Mr. W. H. Hipson, East Pubnico, N.S., says: "For a number of years I was troubled with violent headaches. When these spells came on the pain was so severe that I feared I would lose my senses. At the outset these headaches would come about once a week. I doctored for the trouble and did everything possible to get relief, but without avail, and at the same time went on the attacks grew both in frequency and severity. The pain was terrible and with each attack seemed to grow worse. The only relief I could get was from a hot mustard foot bath, and the application of hot water and ammonia to my head; I would not have been led to bed where I had to remain until the attack passed away. At this time Dr. Williams' Pink Pills were brought to my notice, and while I scarcely hoped they would cure me, I decided to try them. After taking a few boxes I found that the attacks were not so severe, and I joyfully continued taking them until I had used ten boxes when every symptom of the trouble had passed away, and I was in better health than I had ever before enjoyed. It is several years since my cure was effected, and as I have not had a headache since I feel that the cure is permanent. This plain statement of my case, but no words can tell what my sufferings really were, and I believe that but for Dr. Williams' Pink Pills I would have been in my grave. For I could not have stood the pain much longer and doctors did not do me any good."

Dr. Williams' Pink Pills are sold by all medicine dealers or may be had by mail at \$2 a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

The parish council of Wymondham, Norfolk, having refused an increased estimate for lighting, the town has been plunged into darkness at dusk, and boys about the streets are lighting up the streets with Chinese lanterns.

AMISS

Many a man's estate left to the management of individuals has through gross mismanagement dwindled to nothing. This is one of the chief reasons why the legal profession and the courts heartily endorse the appointment of trust companies to act as Executor and Guardian in connection with estates. This fact is worthy of your consideration. If you don't find it convenient to call, write for particulars.

Does a College Education Pay?

By RUTH CAMERON

I AM sometimes asked by letter friends, "Does it pay to send a boy or girl to college?"

Being a Yankee, I always answer that question by two others. "In the first place, what is the cost going to be? There are prices too high to pay." For instance, if it is going to include four years of combined study and attempts at self-support for the student, that may be too high a price, especially if the student's health is not of the best. I say "may" because this is pre-eminently a matter in which circumstances alter cases.

Secondly, in what coin do you expect payment to be made. If you expect that a college education will surely increase the earning powers of your son or daughter to an extent commensurate with the investment of time and money which is being made, you will probably be disappointed.

This is especially true if you expect an immediate payment. The graduate of the ordinary classical course in any college is prepared for just one profession—that of teaching. That means that these graduates must either enter that over-crowded field and start at the small salary which such over-crowding causes, or that they must spend further time in making more specific preparation for some other profession, or that they must start at the bottom of some business or profession, receiving approximately the same wage at which a high school graduate would start.

As a rule the college graduate rises much more rapidly and ultimately receives a higher salary, but this is not always true by any means, and if the graduate is a girl she is extremely likely to marry before receiving any financial return for her investment.

On the other hand, if you are willing that part of your payment shall be a broader outlook on life; a larger capacity for intellectual enjoyment; a better standard of living; a handful of precious friendships; and a handful of golden memories for your son or daughter; you will probably find that a college education pays.

Do not think I am disparaging a college education. I would be the last to do that, but I do believe that many fathers and mothers expect too much financial return and are sadly disappointed.

Until our colleges contain specific courses which do actually prepare for some business or profession, it is inevitable that there can seldom be a full financial return for the time and money invested. Whether it is that financial return for the time and money invested. Whether it is that financial return for the time and money invested. Whether it is that financial return for the time and money invested.

In the meantime, let the fathers and mothers who want to know if a college education pays digest the following: "A college education is not to teach one to make a living, but to make a life."

GARDEN SAGE DARKENS GRAY HAIR SO NATURALLY NOBODY CAN TELL

Restores Its Lustre, Prevents Scalp Itching, Dandruff and Falling Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. While it is a messy, tedious task it will repay those whose hair is turning gray, faded and streaked. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly just an application or two of Sage and Sulphur enhances its appearance a hundred fold. Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color and lustre of your hair and is the best thing known to remove dandruff, stop scalp itching and falling hair. Everybody chooses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge of soft brush and draw this through the hair, taking one small strand at a time which requires but a few moments. Do this at night and by morning the gray hair has disappeared and after another application it becomes beautifully dark and appears glossy, lustrous and abundant. A good hair helps folks look years younger and twice as attractive, says a well known downtown druggist.

There is much sickness in the neighborhood at present; among those afflicted being Mr. Alonzo Beemer, Miss Lita Thompson, Mrs. East Sumnerhayes.

Among those who spent Sunday in the village were Mr. and Mrs. S. Burch, Mr. and Mrs. Albert McAllister of Mt. Pleasant, Mr. Oscar Sayles, Miss Vera Smith and Miss Minto Adams of Brantford, Miss Maud Symington of Hartford, Miss and Mrs. C. Shellington of Northfield.

Mr. H. Burch, Mr. E. Campbell and Mr. J. McIntyre are making improvements on their barns.

Miss Lena Minshall is spending a few weeks at Jarvis. On the fifteenth of May a large number of the people of the vicinity gathered in the home of Mrs. M. File to celebrate her birthday and hold a house warming. The light fantastic occupied the attention of the company until the wee sma' hours. A phonograph added to the pleasures of the evening.

A Proud Man.

TORONTO, May 20.—John Barnes was a proud man as he beamed from the box of the premier's cab on the passing procession last night and thirty years fell from his shoulders as his memory carried him back to the night when he sat on the box of the winner's carriage and standing in the shade occupied by Hon. R. L. Borden was Sir John A. Macdonald. There was shouting and cheering that night for it was the night the great N. P. was born. John Barnes is an old man now, over seventy years of age. Mr. Borden shook him warmly by the hand and told him he was proud to be driven by him. He mentioned him in the speech of the evening too.

Conservatives Won Easily.

WINNIPEG, Man., May 20.—The official returns from the Gimli by-election shows that E. L. Taylor, K.C., carried the constituency by a majority of 842. Eggertson, the Liberal candidate led in three polling subdivisions only. Taylor's vote in the riding was 1074; Eggertson's 832.

HAVE BEEN AN UNTOLD BLESSING

New Brunswick Woman Praises Dodd's Kidney Pills.

She Suffered for Four Years, and the Doctor Could Not Help Her, but Dodd's Kidney Pills Gave Her a New Lease of Life.

PORTON, Carleton Co., N.B., May 16.—(Special)—"I find Dodd's Kidney Pills the best kidney medicine I have ever used. They have been of untold benefit to me."

The speaker is Mrs. John S. Dickson of this place. She is enthusiastic in her praise of the great Canadian kidney remedy, and not without reason.

"I suffered from kidney trouble that started in a cold," she continues. "And for four years I was never free of it. I was treated by a doctor, but he did not seem to be able to do me much good."

"I had rheumatism and neuralgia, and my joints were stiff; my muscles cramped and I was always tired and nervous. I perspired freely with the slightest exertion. I was depressed and I had a dragging sensation across the loins."

"Nine boxes of Dodd's Kidney Pills made a new woman of me." Are not Mrs. Dickson's symptoms those of any run-down worn-out woman? They are also the systems of kidney disease. Dodd's Kidney Pills give new life, to run-down women by curing their kidneys.

We Know How

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, heartiness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all diseases cease—no more vital waste from the system. You feel yourself a man and know marriage cannot be a failure. Don't let quacks and fakirs rob you of your hard earned dollars.

NO NAMES USED WITHOUT WRITTEN CONSENT THREATENED WITH PARALYSIS

Peter E. Sumner relates his experience: "I was troubled with Nervous Debility for many years. I lay in bed, indolent and despondent and did not care whether I worked or not. I imagined everybody who looked at me gazed my secret. I no longer had school, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loss, memory poor, etc. I consulted the finger-see and the doctor told me I had nervous debility. I took all kinds of medicines and tried many first-class physicians, were an electric belt for three months, but received little benefit."

He was induced to consult Dr. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerve. I was cured mentally and physically. I have sent them many patients and continue to do so.

Sir Wilfrid's Policy Defined

"This policy of Sir Wilfrid Laurier means one result, and one result only—the severance of every tie that binds this Dominion to the Empire. We are to be of the Empire in peace, but in war we are to retire within the lines of Torres Vedras—we are to assert a happy and safe neutrality, from which, at the conclusion of the conflict, we are to emerge once more into the security and protection of the Empire. The thing is impossible, except as a most cowardly, humiliating and contemptible means of achieving that independence which was the goal of his desire in 1892."—Rt. Hon. Mr. Borden, at the Arena.

MOULDERS STRIKE AT END.

Labor Dispute at Guelph is Gradually Adjusting Itself.

GUELPH, May 21.—The situation regarding the strike of the moulders is gradually adjusting itself and it is expected that in a few days all the trouble will be over. The moulders at Guelph's foundry and at the Guelph Stove Works are all back at work to-day. In both instances the moulders and their employers got together and made slight concessions, and all concerned are perfectly satisfied with the agreement. The men at Griffin's stove works are still out.

NELL'S POPULARITY COMES YEARS AFTER HER DEATH

Nell Gwynn, Courtizan and King's Mistress is Remembered By English People—Her Life and Home.

A curious feature of English life is the fact that Nell Gwynn, courtizan and King's mistress, who died 250 years ago, has been elevated to the position of heroine and arbiter of fashion. "Nell Gwynn hats" and "Nell Gwynn gowns" have become the rage of the society beauty and the stenographer alike. "Nell Gwynn plays" are assured money-makers everywhere. Nell Gwynn's house and retreat have become places of pilgrimage.

It is difficult to realize the reason for this craze. Perhaps it lies in the appreciation of the Cockney girl for the good nature, the careless abandon, and the generally picturesque atmosphere which surrounded "Sweet Nell of Old Drury." And, of course, it has also to be taken into account that the hats of the period were of that extremely broad-brimmed type that enhances almost any face. But even this hardly accounts for the curious vogue of the notorious Nell. It is even more due to the fact that these days human frailty commands a greater need of sympathy, especially when allied with a warm heart and an attractive personality as represented by a beautiful actress such as Julia Neilson, who has made a fortune out of "Nell."

Hundreds of Londoners pay a visit on Sundays to Lauderdale House, where Nell is supposed to have been installed by Charles II. It is a quaint rambling old Jacobean structure that lies on the northern heights of London in a little paradise of a park presented to the metropolis by Sir Sidney Waterlow, the great printer. Although now turned into a rent house and refreshment rooms, the house is still substantially the same as it was three hundred years ago.

Nell's Old Home.

It was built in 1601 for the then Duke of Lauderdale, who was known as "the worst of courtiers at a very bad court." In addition to possessing the character of a profligate, he is reputed to have turned traitor to Charles I and to have assisted materially in his betrayal. At the Restoration he toadied to Charles II, and regained royal favor.

During the Commonwealth the house was evidently seized by Cromwell and possession given to Sir John Ireton, brother of Gen. Ireton, who occupied it until restoration. Then it appears to have been restored to the Duke of Lauderdale. It is reported that on the 28th of July, 1666, Samuel Pepys came up with Lord Bowling's house in a coach and six. About this time the Duke of Lauderdale deemed it expedient to make a journey to Scotland for the good of his health, and the King found it equally convenient to take possession of the house and there to install Nell Gwynn.

Nell has been much maligned, but she undoubtedly had some excellent traits in her character. Considering her origin—she made a start in life by selling oysters in the streets during the day and oranges outside the entrance to Drury Lane Theatre in the evening—it is wonderful that she should have not only retained her independence, but retained her allurements for royal affection. With all her faults, Nell Gwynn never "bothered the King for money," and on his death-bed he is reported to have requested his friends to see "that Nell never wanted for anything."

A Loyal Mother.—Moreover, this lady proved to be a loyal and thoughtful mother. The tradition, which has a good deal of foundation, is that when living in Lauderdale House she forced the King to acknowledge her son, who was afterwards the Duke of St. Albans. There are two versions of the story. One is that Nell, hearing the approach of the King and his retinue one afternoon, walked out of her room on to the balcony, and there held out her new-born babe in her arms, and "having attracted the attention of His Majesty, threatened to let the child fall unless the King gave him a tit."

Charles, thinking she was in earnest, shrieked: "Save the Earl of Burford," and thus the child got the title to the spot. The child at the age of 13 was made Duke of St. Albans, and afterwards attained a fortune by marrying Diana, the daughter of Aubrey de Vere, Earl of Oxford, the family of which Tennyson spoke in "Lady Clara Vere de Vere"—"The daughter of a hundred earls."

After Charles' death she became a lady of the utmost respectability, and her funeral sermon was preached by John Tonison, Archbishop of Canterbury.

Cromwell House.

Within a stone's throw of Nell's old home, is a beautiful old house called "Cromwell House," presented by the great Protector to his daughter on her marriage to General Henry Ireton in 1647. It contains a magnificent old staircase, ornamented with carved figures of soldiers of the Commonwealth army. The balustrades are filled with devices, emblematical of a soldier's calling, and the ceilings and other parts of the house are relieved by the Ireton arms.

The building is now used as a convalescent home for children.

ANOTHER EXPLORING PARTY SEEKS THE ARCTIC REGION

DONALD B. McMILLAN. SEALING STEAMSHIP DIANA PHOTOGRAPHED AT INDIAN HARBOR, LABRADOR.

Equipped with wireless for sledge and ship and prepared to spend four or five years in the Arctic, the Borup expedition, under command of Dr. Donald B. McMillan, will leave New York on July 3 aboard the Diana to try to reach Crocker Land, discovered by Robert E. Peary on one of his previous expeditions north. The principal members of Dr. McMillan's party, according to information made public recently at the Museum of Natural History, will be Maurice C. Tanquary, zoologist of the State Agricultural College at Manhattan, Kan.; W. Elmer Ekblow, botanist and zoologist; Ensign Fitzhugh Green, U. S. N., physicist and engineer, and a surgeon to be chosen.

Carrying a crew of twenty-eight, in addition to the scientific members of the expedition, the Diana will stop for a day at Boston to take on supplies, and then will go to Sydney, Nova Scotia, where timber for the construction of the winter houses will be taken aboard. When the cargo is completed the vessel will go direct to Greenland, where she will obtain Eskimo dog teams and drivers either at Disco or Etah and lay in a large supply of walrus meat for the winter.

Double houses will be built for the explorers and the Eskimos and a large shed will be constructed to house the wireless outfit. A powerful plant has been furnished by the United States Government.

Anecdotes About Famous Bachelors--Wouldn't Marry

It has often been said that there are two kinds of husbands difficult to live with—the genius and the fool. And the chances of happiness are greater with the fool! Thus we find many of our great and notable men who, in making their choice, were very carefully never marrying at all.

Michael Angelo is reported to have said, "I have espoused my art; and it occasions me sufficient domestic cares, for my works are my children."

Sir Joshua Reynolds, the painter, would never marry for fear he might be withdrawn from his studies. Angelica Kauffman and he used to paint each other's portraits, and this was sufficient for society to couple their names together.

So, too, the late Lord Leighton told the Princess of Wales, who, with the Prince, was inspecting the artistic pictures, that he had never married because he could not find sufficient time to devote to a wife.

Sir Isaac Newton once went wooing, and began to smoke, and, in absence of mind, attempted to use the cruet of the lady as a pipe-stopper. This unfortunate act brought his courtship to an abrupt termination, and he never had another.

It was for a not less trifling reason, as most people would think, that Beau Brummel broke off his engagement to marry. When asked with "What could I do, my dear fellow?" he replied, "but cut the connection? I discovered that Lady Mary actually ate cabbage."

Hint Not Taken
 Cowper loved his first cousin and she loved him, but her father forbade the marriage on account of the re-

TRADES AND MEN

An Interesting Night—Union Barred From With Non-U

The session of the Trades and Labor Council held last night was very interesting. It was decided to have a dinner before taking up business. Before the dinner was announced by Davenport and himself were read by the Social Progress Club. There have been holding meetings at the Congregational church each afternoon to interview the Trades and Labor Council re holding the fall term in the Union Hall. Mr. Davenport was present and dressed the Council. He explained the council that the class was held three years ago for the purpose of discussing live issues. There has been a meeting on Sunday in the Congregational church to discuss and owing to Sunday noon not being thought the time to meet, the class would like to have a room where they could meet during the week. Mr. D. considered that it would be better if the Trades and Labor Council to have the class meet in the rooms in the Union Hall. Several delegates expressed themselves as being favorable to the class meet in the hall if it could be secured. It was then Delegate John Sloan and second Delegate Bert Brown that they be left in the hands of the Municipal Committee.

Delegate Moran speaking of market question suggested a story building with a good deal of interest on the part of the citizens. A discussion but nothing resulted.
