As the object is one which should command the sympathy of Churchmen, there will, no the sympathy of Churchmen, there will, no doubt, be a large attendance.

English Settlers.

There are two English gentlemen here, whose names we withhold for the present, each looking for a farm and cottage on the environs of the city to buy. One is a young man and a very accomplished artist. Should he succeed in getting a suitable place, he will send for his wife and child who are in England: the other is an old gentleman of considerable means who wishes to buy a farm for his son, who with his sister is with the old his son, who with his sister is with the old gentleman. Mr. H. B, Rainsford we believe is negotiating for the purchases.

On Saturday last a young man named Stairs, son of Riebard Stairs, while attempting to shift the belt from the fly-wheel in Pindar's mill, Temperance Vale, with a hand spike, missed his hold and fell on the wheel, mangling himself badly. At last accounts he was doing well.

A careful observance of the laws of health, and the systematic and persistent use of scott's Emulsion of Cod Liver Oil with Hypophosphites of Lim and sods will accomplish this result. This preparation has all the virtues of these two most valuable specifics, in a form perfectly palatable, and acceptable to the most delicate stomach, and we make the unqualified statement that Scott's Emulsion is being used with better results and endorsed and prescribed by more physicians for Consumption—and the diseases leading to it, such as Chronic Coughs, Bronchitis, Scrofula, Anaemia, General Debility and the Wasting Disorders of Children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous.

See What Phyicians and the People Say About It. Messis, Scott & Bowne: 66 West Thirty-sixth Street, New York, September 2, 1876. GENTS,—I have frequently prescribed Scott's EMULSION OF COD LIVER OIL with Hyporhosphilites during the past year, and regard it as a valuable preparation in scrofulous and consumptive cases, palatable and cases and cases are cased as a case of cases and case of cases and case of cases and case of cases are cased as a case of cases of

Yours respectfully, A. H. SAXTON, M. D., Baltimore.

MESSES. SCOTT & BOWNE:—Gentlemen,—Within the last two months I have fairly tried SCOTT'S EMULSION OF COD LIVER OIL with Hypophosphites, and I candidly declare that it is the finest preparation of the kind that has ever been brought to my notice; in affections of the lungs and other wasting diseases, we can conside it our most reliable agent, in a perfectly agreeable and elegant form.

December 10th, 1878.

Yours truly, J. SIMONAUD, M. D., New Orleans, La.

Messes. Scott & Bowne:—Gentlemen,—In September, 1877, my health oegan to fail and my physician pronounced it spinal trouble; under his care I got some relief from pain, but my general health did not improve, and early in the winter I began to raise blood and rapidly grew worse. In May last I was taken with a violent bleeding which brought me to my bed and my life was despaired of for many weeks, violent symptoms appeared, night and morning coughs, night sweats and short breath, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various preparations, but they did me no good. I lost all hope of life and was an object of pity to all my friends. Last September I purchased a bottle of your Emulsion and before it was all taken I was better. I afterwards bought a dozen bottles, with the following results: Coughs subsiding, night sweats stopped, appetite returned, pains in spine disappeared, strength returning, and my weight increased from 18 to 140 pounds in sixteen weeks. I have taken no other medicine since commencing with your Emulsion and shall continue its use until I am perfectly well. I frequently meet some friend on the street who asks, "What cured you?" and I answer, "Scott' Emulsion or Con Liver Oil, etc." I have a friend who has not spoken aloud for 15 months, and he is getting better. I gave him a bottle and he bought two more, then got a dozen, and says it is food and medicine for him. He was given up to die a year ago; but he is improving now wonderfully. My recovery is exciting the surprise of many people, and shall do all I can to make known your valuable medicine.

About the 25th of last April I got a bottle of your Emulsion and at that time I was so prostrated that no ore who saw me thought I could live longer than a few weeks at most. I could retain nothing on my stomach and was literally starving. I commenced the use of the Emulsion in small doses; it was the first thing that would stay on my stomach; I continued its use, gradually increasing the dose; and from that hour I commence mending, and now am able to ride and walk, and am gaining flesh and strength rapidly. I have advised other parties to try it, and some two or three have already tried it. I am sure I shall entirely recover.
