Per-Selling

Lately the term pre-selling has been heard quite frequently among busiess men ,and a great deal of time, ought, and effort are being expendd upon this method of merchandising men who are recognized leaders business circles.

Pre-selling endeavors to make the nerchandising campaign fool-proof y planning shead to meet all continencies and by utilizing every postible sales method. Pre-selling is a ester--an investigator. It goes out mto the field, feels the pulse of the narket, and before any great expense incurred by the manufacturer or the merchant—in manufacturing large quantities, on the one hand, or in stocking large quantities on the other the demand for the product is

Pre-selling has been done largely y the use of direct mail, with the ossible addition of trade papers. An example of a thoroughly plan-

ed and strictly successful pre-selling ampaign is one which was recently aunched by a manufacturer of houseold tools. This campaign had two ig problems to solve. The company had decided to package each one of hirty-two of its products, all houseold tools of common use. It had aladopted a trade mark, which was appear on all packages and with which it desired to familiarize the ealers and the rublic.

This company first sent out a fourage folder containing an announcenent of the plans, reproducing illusrations of the tools to be packaged and trade marked, and showing a miniature reproduction of four fullpage advertisements which were to appear in two of the leading magaines of national circulation. This efrt was followed by a publication which was repeated the same mese and a return post card was enrequesting the catalogue. Exnt results were obtained from and the catalogue was mailed to calers whether they had requestor not. The post card was simsent to ascertain whether interest being sustained. The catalogue furnished in a large size for the rs and in an envelope size for

Pre-selling is just another evidence the extreme precautions that today are being taken by business men who have come to realize that, after all, success in business is largely deendent upon careful investigation nd research.-Westinghouse Inter-

Origin of Sin

ROFESSOR ON "RECASTING OF THEOLOGY."

speaking at the conference of modn churchmen at Oxford recently, essor E. W. MacBride, of the Imerial College of Science, South Kenagton, said the doctrine of evolun assumed that the human race been slowly developed out of ome mammalian stock resembling modern monkeys, as the mamals had arisen from lower forms. is doctrine seemed to him, as an nateur, to necessitate an entire resting of the foundations of theology. Denial of evolution, he declared, as intellectual suicide. The belief at men were born in sin was emedded in the baptismal service. If he loctrine of evolution be true, then that was called sin consisted of othing but the tendencies which man ad inherited from those ancestors. Canon W. E. GULLIFORD-JOLLIFFE.

The marriage took place at Hant's or, on Sept. 17th, by the Rev. B. llalieu at the home of Mr. and s. S. Gulliford, of their youngest aughter, Magdalene to Mr. J. C. Jolife of Old Perlican. The bride who ras prettily attired in copen blue rgette with black picture hat, cared a beautiful bouquet of dahlias d ferns, was attended by her friend liss Gertrude King who was prettily tired and carried a bouquet of dahas and ferns. The groom was suported by the bride's brother Mr. Jos. lliford. Mrs. Allan Tuck played wedding march and Mrs. S. Renell the bride's sister sang "The voice hat breathed o'er Eden."

Owing to the recent bereavement the groom's family, whose father ied suddenly in August, only the imnediate friends were present. The bride who for years was emloyed with the firm of S. Short and on as bookkeeper was presented by and Mrs. Short with a piece of

old and by Mr. and Mrs. M. Short ith a cheque. Several other cheques nd pieces of gold and beautiful preshts were received, also many telerams of congratulations. The bride ho has been a great helper in Church ad Sunday School work will be reatly missed, but we hope she will hite her efforts with those of her asband who serves as Superior eacher in the Methodist School at d Perlican. The groom is an exervice man, having served all durhg the war. We wish them both all happiness of life.-COM.

gaze at the dark rolling billow, and nink of the day that is gone. "What have I accomplished this morning?" I ask, now that bedtime is near; "what have I achieved that's adorning the record I'm piling up here? Engaged in my selfish endeavor, engrossed in my own sordid ends, forgetting, forgetting forever the duties I owe to my friends! Forgetting the ill and afflicted, forgetting the weary and worn, forgetting the sorrow depicted on faces of people who mourn. Absorbed in pursuit of the shilling, obsessed by my love of the yen, I pause not, in all of my drilling, to comfort poor suffering men." And so, as the darkness grows deeper, I writhe in my seat on the lawn, but nothing is vainer or deeper than sighs on the night that is gone. How blest to recall, in the gloaming, some

A FINE BILL AT THE MAJESTIC.

Walter Hiers,, Paramount star comedian is seen at the Majestic Theatre in his first Paramount star picture comedy, "Mr. Billings Spends His Dime," in a role that affords him ample opportunity formula inimitable fun-making, Jacquefid Logan is featured as leading woman. The support generally is excellent.

From a hall bedroom to a home in a palace, is the jump made by Mr. Hiers in this rapid fire comedy. He just about manages to make both ends meet until he ventures into a lot of romance, revolution and mystery. With this assortment comes a let of money, \$5,000, which literally falls upon him from a clear sky. The results are highly amusing, tensely dramatic and sweetly romantic. You cannot afford to miss this delectable screen comedy, because its a chaser of the blues.

The Rotary Dinner

The dinner last night which was ndered to G. Prescott Baker of Yarouth, Nova Scotia, the Governor of the 32nd District, by the Rotary Club of St. John's, was attended by a large number of members and guests and was an unqualified success in every way. It was held in the Sterling Restaurant, and the management have every reason to feel proud of the excellent menu prepared, which included "a bird a man," and the admirable

service given. Governor Baker is accompanied by Rotarians E. Allan and Dr. Geo. Farist of Yarmouth; Col. Smith Walker and Harry Pike of Halifax; Andy Dunn and H. B. Gillis of Sydney. It was the intention of several other representaives from Nova Scotia to join the party, but unfortunately circumstances at the last moment made it impossible for them to come.

A more representative gathering of citizens than that to which President Will Morris so ably acted as host it would be difficult to select, and from the opening bars of "Newfoundland" to the last note of the National Anthem at the close of the proceedings, the spirit of Rotary was in the air, and the sentiments which prompt their every movement for the betterment of social conditions in their own town, and for the cementing of the bonds of a world wide fellowship, inspired the words of every speaker. This influence, or whatever it is that nfests guest or member alike, is something which calls for more than passing comment, for it is that which No Songs Like spells success in everything undertaken by the organization and compels unity in a crowd no matter how widely they may differ in their individual opinions and relations.

Of the speeches delivered it is sufficient to say that they were excellent, This applies also, to some products of whether they consisted of the modest every day use. The speaker also referred to Rotary's efforts to encourage and foster high ethical standards in business STOCK MARKET NEWS and professional life, and illustrate his remarks by recounting severa notable instances in which that ob ject had been achieved. The motive of their work, he said, were prompted by the Triple Alliance of love, sympathy and help, and the basis of ever enterprise of Rotary was Service.

CORN PRODUCTS REFINING CO.

(Boston News Bureau, Sept. 16.) . N. Y.—Business of Corn Products Refining Co. in the third quarter has been running along practically at levels of the preceding three months, with continuing improvement in the ROTARY INTERNATIONAL- European outlook. Plant operations continue at 60 per cent. of capacity. Directors meet for regular quarterly dividend action Sept. 26.

Earnings are expected to show some contraction due to the high latter commodity in large measure determining prices in the glucose vances in manufactured goods attended the unward trend of corn prices, and large shipments of Argentine corn at prices from 10 to 20 cents under local market prices have been received for grinding at the Edgewater (New York) plant. Corn Products greatest earning appeared at the time of high corn prices following the war period. However, the prosperity coinciding with the period of high prices was due in part to very rapidly expanding volume of business.

S. E. GARLAND

Forty-Five Years in the Service of the Public-The Evening Telegram.

Col. Starnes, R.C.M.P.

(By P. W. LUCE.)

When Louis Riel raised the standrd of rebellion in the Northwest territories of 1885, one of the regiments ent out to deal with the strange mealomaniac was the 65th Rifles, of ntreal. Courtland Starnes was adhe same Courtland Starnes who, a w months ago, was appointed Comissioner of the Royal Canadian founted Police, in succession to Maj-Gen. A. B. Perry, C.M.G.

Service during the Riel rebellion was directly responsible for Starnes ecoming identified with the R.N.W. M.P., for chance threw him much in the company of Perry and the late General Sir Sam Steele. After being brigaded with these officers for ome time, Adjutant Starnes decided o throw in his lot with the famous

There was not much real fighting in that punitive expedition against the fanatical followers of the French half breed, but the coldiers had to put up with more than the average discomforts of war. Wading through icy swamps, marching through tangled forests in single file, ever on the alert for a surprise attack, doing without a decent sleep for days on end, and living on raif rations 250 miles from railhead, all tended to test the endurance of men and officers. It proved good training for Starnes, and for many of his subordinates who followed his example and became Riders of the Plains.

One of the first posts assigned to Starnes was on the bleak shores of Hudson Bay, where he served three years. The solitude and the extreme cold of that district can be endured only by the strongest men, but the present commissioner bears no marks f the hardships he endured. His iron constitution makes him appear many years younger than he really is.

Having become an Inspector, Starnes was sent to the Yukon in the critical days of 1898. The gold stampede was in full swing, and Dawson was crowded with bad characters. "It looks like a general jail delivery from the south" was the apt way one of the grizzled troopers with Inspector

Starnes expressed it. At first there was a few clashes. but so efficient were the few Mounties that a lot of the more dangerous outlaws left in a hurry, complaining that those d- Mounted Police don't give a man a chance in this Canada

In a remarkably short time the Dawsonites placed such faith in the efficiency of the Redcoats that many miners did not even trouble to empty their gold sluices in the evening. If the gold happened to be stolen by night, they calmly expected the police to recover it!

The name of Starnes is not familiar to the average newspaper reader, although it figured prominently in the public prints only a few years ago. That was when a group of Reds engineered the Winnipeg "revolution, and succeeded in paralyzing industry for many days. In defiance of the mayor's orders, ten thousand selfstyled Bolshevists gathered around the City Hall, and on Main Street, and

refused to disperse. The Riot Act was read.

It was answered with hoots, catcalls and cheers for the Red Flag. Then Inspector Starnes, with fifty Mounted Policemen, rode through the crowd, fearlessly facing fearful odds. One trooper, a Victoria Cross hero, was pulled from his horse and brutally beaten. A number of others were struck by bricks and other missies

But the iron discipline of the R.N.W. M.P. triumphed over the unorganized mob of ten thousand. The "Reds" gave way. The revolution was over. In a few days conditions had return-

ed to normal. Largely because it was clearly understood, at the psychological moment, that fifty wearers of the Scarlet and Gold would stand no nonsense. Those who know him best say that Commissioner Starnes is the personification of British reticence. One thing is certain: he has kept the 11th

FISHERMEN'S SCHOONER RACE UNLIKELY.

GLOUCESTER, Mass., Sept. 25. Indications that the United States Fisherman's Race Committee would abide by the decision of the trustees of the International Fisherman's trophy in having no International schooner races this year but to renew them in 1925, was given to-day by W. A. Reed, Chairman of the United States Committee. The United States Committee received a telgeram to-day from Halifax, N.S., stating that the trustees believed the interests of the event would be served by having no race this year and asked their cooperation, He believed that as a result of the telegram the board would take no action relative to the renewal of the races pending receipt of further word from the Canadian trustees of the trophy. The telegram received stated that the trustees contemplated continuing the series in 1925. No reply has as yet been prepared by the Committee here. In the races between the Gloucester schooner Columbia and the Canadian boat Bluenose last year the Canadian Captain, Angus Walters, sailed away with the series unfinished after an unfavorable ruling by the judges. Sentiment had been growing here of late favoring a spe cial match race between the two ves

Louisville, Ky., Sept. 18. (A.P.)measure to effect a national reduction in public accident fatalities by the co-operative effort of all national associations whose interests touch upon the street and highway traffic problem, will be proposed at the safety congress to be held here September 29,-October 3, the National Safety Council announced.

Among the associations to participate are the United States Chamber of Commerce, the American Auto mobile Association, the United States Automobile Chamber of Commerce, the American Railway Association, the International Chief of Police Association ,the National Bureau of Casualty and Surety Underwriters, the American Electric Railway Association and the American Mutual

"Fift thousand lives are lost in automobile accidents each year, and fully 75 per cent of these accidents are avoidable," said the announcement "Since 1910, the death toll has been increasing at the rate of 1,000 each year and, with the increasing registration of automobiles resulting in street and highway traffic problems which cannot easily be solved, it is probable that the annual death rate may be in the neighbourhood of 30,000 in 1930.

"The collection of public accident statistics and their analysis is probably the most important phase of accident prevention work at the present time. Col. James Sinke, director of public safety of Grand Rapids, Michigan, will explain the system under the universal accident report forms adopted by the National Safety Council, Mark Greves. New Yorke State tax commissioner, will outline the organization and operation of the New York Motor Vehicle Bureau which keeps an accident record for every motor vehicle driver in the state. Many well known leaders of the safety movement will speak."

Execution of Four Pirates

Made Gala Day By Chinese. Tsingtao, Shantung, China, August 12. (A.P.)—The execution here a few emphasized the callousness which is a recognized trait in Chinese psychology. The day was converted into a festival . Peanut, candy and soft drink vendors along the route to and on the field where the execution occurred did a thriving usiness. An immense throng formed a sort of triumphal procession behind the doomed men as they trudged to their death, and looked on wide-eyed at the spectacle of the shooting.

The hapless pirates were arrested while trying to carry out a conspiracy to seize the flagship of Admiral
