ELEVENTH YEAR—No. 106

WILL IT COME TO THIS?

WHEN WILSON WAS FINALLY NOMINATED THE DELEGATES WERE TOO TIRED TO MAKE DEMONSTRATION

Missouri Remained Faithful to Clark Until the Last; Underwood's Leader Withdrew His Candidate's Name After Forty-fifth Ballot

GOVERNOR MARSHALL OF INDIANA HIS RUNNING MATE

BALTIMORE, July 2.—Governor Woodrow Wilson of New Jersey, was made the presidential nominee of the Democratic convention at the afternoon session today, when on the forty-sixth ballot he received 999 votes to 84 for Champ Clark.

Only four ballots were necessary today to reach a nomination. When the convention adjourned last night, it seemed to be in an all but hopeless deadlock.

When he reached here, however, he learned that the Illinois delegation, at an early morning conference, had decided to switch from Clark to Wilson.

After the forty-fifth ballot, Senator Bankhead, Underwood's manager, ascended the platform to withdraw his candidate's name.

At the evening session, after two ballots had been cast with Gov. Marshall of Indiana, leading Gov. Burke of North Dakota, the candidate who had run second in the primary.

Governor Wilson said that at one time during the campaign he had been despaired of receiving the nomination.

WESTERN CANADA "BRIGHT GREEN PATCHES" THAT MAKE CANADIAN PROSPERITY

Written by John Gogswell for The Morning Albertan, and "Western Canada Week by Week," the issue of the Publicity Branch of the Canadian Pacific Irrigation and Colonization Society.

"But what is it," the little-travelled man sitting on the observation platform asked, "that makes this splendid prosperity you claim for Western Canada?"

The feature of the man who knew, covered the surrounding country, as he answered, "The bright green patches."

Some one, years ago, mentioned in passing that "the basis of all wealth is land."

Western Canada already has several cities of over fifty thousand population, more over twenty-five thousand, a great many over five thousand and a legion of smaller cities, towns and villages.

Then the cities will show the effects of the rural activity and the clang of manufacture will fill the air with discord but the pockets with dollars and all will be prosperity.

WATER WILL BE DIRTY AGAIN TOMORROW AND MANY WILL PUT THEIR FOOT ON THE RAIL

"THE city water will be dirty again tomorrow," said City Engineer Child to The Albertan last night.

"If the people are afraid of it they had better fill their bathtubs and pails, as there is absolutely nothing we can do to remedy this until the filtration plant is put in," the engineer continued.

"We are also having a great deal of trouble these days with some of the sewers, which are overflowing. Complaints are coming in here all the time from residents who are having either their cellars or yards flooded."

"We can afford them very little remedy either, until we get the storm sewers built. They will be larger than the other sewers and will also have a straight outlet to the river."

"At present the sand and silt come down and fill all the catch basins, and this naturally causes the sewers to overflow. We are working on the storm sewer at present and have a gang of men at work all the time now up near Mount Royal.

CALGARY IS THE MOST PROSPEROUS CITY IN NORTH-WEST, SAYS HARRY L. KNAPPEN

Former Publicity Man of Interstate Fair is Enthusiastic Over the Metropolis of the Great Canadian West

"Calgary today is the most prosperous and aggressive city in the Northwest, barring none," said Harry L. Knappen, one of Vancouver's most active realty operators, yesterday.

"I was for several years publicity agent for the Spokane Interstate fair, the banner exposition of the inland empire. Strangely enough, the largest attendance we ever had there during my regime was 37,000, and I notice by the newspapers that this was the attendance at the Calgary Industrial Exhibition on Dominion Day."

MEDICINE HAT BEATS IT OWN RECORD FOR BUILDING

Council Passes Resolution of Sympathy With Sufferers in Regina

(Special to Albertan) Medicine Hat, July 2.—At the city council meeting tonight a resolution of sympathy was extended to Regina for loss of life and damage and offering any assistance possible.

Plans are to be prepared for widening of the walk of English street to carry the water main to the other side of the river.

A donation of \$50 was made to the Carlier monument fund.

The end of June saw the building permits pass the million mark for 1912, far ahead of the total for the whole of last year.

The deceased had been in Calgary for some years, though it is not thought he had any relatives here.

It is not known yet whether an inquest will be held, but it is improbable.

QUICK DEATH COMES TO JOHN LOVE

John Love, well known Calgary, and well to do, dropped dead in the Windsor restaurant about 4 o'clock yesterday afternoon.

Dr. Spankie was called but before he arrived the man was beyond aid. Harrison and Foster ambulance was called and he was removed to their morgue, where Coroner Costello later viewed the remains.

BISHOP MATHEU IS MUCH DISTRESSED BY REGINA CALAMITY

Quebec, July 2.—Monsignor Mathieu, who has been attending the French speaking congress at Quebec, and is still remaining here for a while, was deeply affected by the terrible calamity that visited Regina.

From what he has been able to gather, Monsignor Mathieu said that the cyclone must have passed within a very small distance of the palace, in fact, it must have demolished the tower spire.

Winnipeg, July 2.—K. P. Kirkpatrick of Ottawa has received the appointment of superintendent of the Grand Trunk Pacific railway, with jurisdiction over the Melville-Regina, Regina Boundary and Regina-Moose Jaw lines.

MANY CROOKS AND SURE THING MEN COME TO CALGARY BECAUSE OF BIG FAIR ATTENDANCE

A world of crooks and thugs and sure-thing men have been attracted to Calgary because of the exposition, the fame of which has gone into every corner of Canada and the United States.

Chief Cuddy and the detective department of the city have been busy for a week, watching the smooth ones who separate the unwary from their money.

Seven, who were operating little sure-thing games on the exposition grounds, whose records were such that the police were warranted in interfering, have been suppressed by Chief Cuddy.

Moncton, N.B., July 2.—Slighting was possible for an hour after a heavy squall and hail storm which visited this vicinity yesterday.

SPECIAL MEETING OF THE CITY COUNCIL IS CALLED TO CONSIDER REGINA RELIEF

It is expected that Calgary, as well as most of the other cities of Western Canada, will contribute to the relief fund that is to be raised for the people of Regina, many of whom were left destitute by the tornado that visited that city last Sunday afternoon.

A special meeting of the city council has been called for tonight when the aldermen will discuss the matter. Mayor Mitchell when asked by The Albertan last night if anything had been done said he had called a special meeting of the council for the purpose of discussing the matter.

It is likely that if the city fathers decide to vote any money for the relief of the sufferers, the sum will be a good sized one, in keeping with the prosperity that has come to Calgary during the past few years.

GRANTS FOR THE RELIEF OF STRICKEN REGINA

Table with 2 columns: Donor and Amount. Saskatchewan Government: \$25,000; Alberta Government: 10,000; Manitoba Government: 10,000; Canadian Pacific: 5,000; City of Edmonton: 1,000.

REGINA, Sask., July 2.—The work of clearing away the debris of Sunday's disaster is proceeding well. The task is gigantic but hundreds of workmen are engaged on it.

Throughout the day the C.P.R. have had a large gang at work erecting new freight sheds, operations being continued into the night and the large temporary structure is now almost completed.

It has been suggested that a special assessment should be levied upon the citizens at large to raise a million dollars or more in order that the ruined district may be rebuilt without delay.

Commissioner Thornton stated tonight that he could use fifteen hundred workmen from other towns. One suggestion now under consideration is the proposal of Mayor McAlara that the city should utilize the property it possesses west of the city, and erect 500 dwellings at a moderate figure.

Regina, July 2.—Ida McDougall, Lorne street, died today of injuries. The total dead now number thirty.

London, July 2.—The city council tonight instructed the clerk to prepare a resolution of sympathy with the council and citizens of Regina in their loss by Sunday's cyclone.

Montreal, July 2.—The mayor of Montreal has received a request from the mayor of Regina for 1,200 carpenters to help repair the damage done by Sunday's cyclone.

Danville, P.Q., July 1.—The collapse of a rotten bridge here yesterday caused the death of John Coolit and the serious injury of his father, Antonio Coolit. Two horses they were driving were also killed.

Bank clearings for June amounted to \$2,210,886, against \$1,926,229, an increase of 14.8 per cent.

Bank clearings for June amounted to \$1,778,000. Last June they were \$1,362,000, an increase of 29.8 per cent.

Water turned into domestic supply system. New government experiments have not prevented the operations of those who pick pockets of purses and valuables and help themselves to the good things of others.

Numerous complaints were made, but it was practically impossible to fix the guilt on anyone, and the police contented themselves with warning suspicious characters away.

CARRY GOODS FOR RELIEF FREE OF CHARGE

Winnipeg, July 2.—The Dominion Express company announces that it will transport free of charge anything for the Regina cyclone sufferers when consigned in care of the authorized relief committee in charge at Regina.

WHAT THE GREAT WEST DID YESTERDAY

In Calgary: Work is proceeding rapidly on twenty-five new mixed farming demonstration farms of the Canadian Pacific railway. Crops in all improved farm colonies give promise of a bumper harvest.

Bank clearings for June amounted to \$2,210,886, against \$1,926,229, an increase of 14.8 per cent.

In Victoria: Bank clearings for June amounted to \$1,778,000. Last June they were \$1,362,000, an increase of 29.8 per cent.

In Winnipeg: An office building is announced, eleven stories, to cost \$250,000. All the municipalities confer in Winnipeg this month to further the work of the Manitoba and Alberta League.

In Vancouver: Government analysis of the waters of Big Quill lake shows them to possess as great curative powers as the famous Carlsbad. A sanitarium will soon be under construction.

In Inverness: Water turned into domestic supply system. New government experiments have not prevented the operations of those who pick pockets of purses and valuables and help themselves to the good things of others.

Numerous complaints were made, but it was practically impossible to fix the guilt on anyone, and the police contented themselves with warning suspicious characters away.

### BIG BATTLE LOOMS IN MEXICO TODAY

Skirmishing on the Frontier Between Vanguards Means Final Clash

At the Rebel Front, Bachimba, Mexico, July 2.—Skirmishing today between the vanguards of the federal and rebel armies indicates that the battle here, upon which the fate of the revolution hangs, is at least at hand. Heavy fighting is looked for tomorrow, as the government forces have stationed themselves at Consuelo, eight miles south of here. General Orozco is here directing the rebel operations.

**Fight in Wealthy State.**

Chihuahua, July 2.—The wealthy state of Sonora, whose northern boundary marks the international line along New Mexico, Arizona and Southern California, will furnish the next scene of the Mexican revolution. Defeat at Bachimba, 40 miles south of here, is certain to mean a general exodus of the rebels west to Sonora, where many rich mines and haciendas are located. An indication of the direction to be taken by the rebels was the ordering today of General Salazar to Casas Grandes, on the Mexican Northwestern railroad, one of the gateways from the state of Chihuahua to Sonora. General Salazar just arose from bed, where he had for three weeks been confined with a severe illness.

On orders from General Orozco, the archives of the revolution were removed today to Juarez for safe keeping. Two hundred and fifty prisoners, mostly political offenders, were removed from the penitentiary here with the understanding that they would be placed under contract to work for a lumber camp on the Mexico Northwestern, the funds derived to go to the rebel cause.

General Orozco sent the prisoners away, thinking General Huerta might reach Chihuahua and release them.

### STEALS TO FEATHER NEST

Young Woman Under Arrest Said by Policeman to Have Confessed

Chicago, July 1.—Hardships of one young woman and the efforts of another to assist her prospective husband in furnishing a home are believed to have been responsible for the arrest of Mrs. Ethel Shattuck, 726 West Fifty-fourth street, and Miss Pauline Smith, 5231 Indiana avenue, shop girls.

They are charged with systematically stealing from a downtown department store where they were employed. Nearly \$16 worth of jewelry was found on the Smith woman when she was taken into custody as she was leaving the store. Articles valued at \$100 were found in her room.

Detective Sergeant Edward White, who made the arrests, said the young women admitted their guilt. Miss Smith, he declared, told him she had planned to be married in a few weeks and she had given some of the jewelry to her fiancé and sold some to furnish their flat.

Mrs. Shattuck is alleged to have said she was in financial straits and needed the money.

**STORM BLEW A LETTER 35 MILES**

Drafts for an Italian Farmer by an Illinois Farmer

McLeansboro, Ill., July 1.—While cutting wheat on his farm two miles east of here, George James found a letter that had been blown from Bush, thirty-five miles away, by a tornado which almost destroyed that town in April.

The letter and drafts were written in Italian. They were turned over to an attorney of this city, who will endeavor to find Luigi Cingari, to whom the letter was addressed.

### COCKROACH GETS THE TELEPHONE NICKELS

New York, July 2.—"Hello! Hello! Hello!—Well, why don't you give the number? Hello! This is Hetzel of the Equator Cafe, what! Hello! I don't hear you! What in—Hello! Is it on the bum, is it. Why don't you say something? Bah! I go outside and get a new telephone? Speak loud, I can't hear you! Ooh!"

This was Hetzel's own telephone he was talking to and it was two days ago. Not a response came to his irritated outpourings. There had been no strike in the Equator Cafe as Hetzel knew. But why he couldn't get "Central" he couldn't quite understand. Again and again he shouted into the mouthpiece. He couldn't even get his nickel back. Five nickels he had put into the place where nickels were scheduled to be dropped. There was no response and there was no return of the nickels. Evidently the telephone was out of order.

He would go outside and use another telephone to register his kick. There are lots of telephones in his immediate vicinity. He got one and accounted for the vocabulary. "What he didn't say to 'Central' couldn't be found in Coney Island.

This morning a man from the telephone company called on Hetzel. When he asked the proprietor of the Equator if his telephone was out of order Hetzel grew tropical in his speech. So the man from the "office" went to work blithely humming a tune. He took the machine apart, but when he looked inside he dropped his tools.

"What is it?" cried Hetzel.

"Come here; you got a central of your own," yelled the phone man.

"How do you suppose we can take care of things like this?"

Hetzel went cautiously to the telephone. There, inside the machinery was one big cockroach holding down the five nickels. Hetzel threw up his hands, then threw up his eyes.

Then he shrugged his shoulders.

"Well, if you can beat that," he said, "I see it. What will you have?"

### 2,600 FEET IN THE AIR WITH A WOMAN

Fowler Took a Passenger High Over Kansas City

Kansas City, July 2.—What is believed to be a world's record was established this morning in aeroplane circles when Robert G. Fowler of the Mars-Fowler Aviation company rose in his aeroplane 2,600 feet above Kansas City with a woman passenger, Mrs. J. B. Wright of New York. The two left Overland Park at 8:10 o'clock for a morning jaunt through the air. There was no intention of breaking a record.

Fowler glided over Westport and the Country Club district in big sweeping circles, gradually rising higher and higher, until the barometer registered the record-making mark.

"I could hardly believe my eyes when I glanced down and saw the gauge of the mercury in the tube," Fowler told his manager, Charles L. Young. "I knew I was forcing the plane up all the time, but I hadn't the least idea it was going so high."

The record made this morning will not stand, however, as the flight was unofficial. Mr. Young says it is four hundred feet better than any other flight made with a woman passenger.

The woman's record flight for height with a man passenger is 5,840 feet, made by Prevost in Courcy, France, December 2, 1911.

Fowler and his passenger reached Overland Park at 8:50 o'clock. Mrs. Wright didn't show the least signs of nervousness. When she reached the Washington Hotel, where she is stopping, she sent a telegram to her husband, a broker in New York, about her record-breaking flight.

### WHERE THE CORN GOES

(From The Pittsburg Gazette-Times)

Some one professes to have discovered that the reason meat is so high is because 60 per cent of the corn crop is going into the breweries and distilleries instead of into cattle. And doubtless the high price of brewery and distillery products is due to the circumstance that the other 40 per cent is going into cattle and breakfast foods. Which reintroduces us to be rock bottom fact that one thing this country really needs and must have to bring prices to a level more satisfactory to the plain people is larger corn crops.

### GHOSTS SHOOTING CRAPS

Uncanny Churchyard Noises Came From an Ancient Vault

(From The New York Sun)

Philadelphia, July 1.—In a dislodged old vault in a churchyard containing the bones of some colonial man or maiden, a group of roistering men were found the other night laughing, talking, smoking and shooting craps. The vault in which they sat was the oldest in Old Trinity burying ground and it is falling into decay.

For more than a week residents of the neighborhood have heard uncanny sounds emanating from the churchyard after midnight and the place was believed to be haunted.

A group of young men who wanted to see the ghosts ventured into the place last night and surprised the group of young men seated around a wood fire shooting craps.

## THE DEMOCRATIC NOMINATION

Whatever the outcome of the presidential contest in the United States, the announcement of the nomination of Governor Wilson by the unanimous vote of the Democratic convention is of special interest as marking the rise of a new force in the higher plane of American public life.

When comparing the public life of England and the United States it has been customary in the past to remark, as one of the most conspicuous differences, that political life in the former country claims the services of a far larger number of men of the finest intellectual type. The absence from political life in America of men like Lord Morley and Balfour, who combine with the highest qualities of statesmanship, distinction in scholarship and literature, is cited in support of this view. The public life of any country that is able to attract such men is undoubtedly the richer for their services. Hence the interest in the rapid rise of Governor Woodrow Wilson, formerly president of Princeton University, author of the best history of the United States extant and a recognized authority on economic science.

It is only a little more than a year ago since Woodrow Wilson left the presidential chair of the university, which through his efforts had been raised to a position in the front rank of American institutions of learning, to contest for the Democratic gubernatorial election in the then Republican state of New Jersey.

The many who were inclined to sneer at the entrance into politics of the university professor, and who predicted his defeat, received with a shock of surprise the news that Wilson, after an aggressive and exceptionally brilliant campaign, had been elected by approximately 50,000 plurality over a strong and clean opponent.

During his term of office he succeeded in enacting a program of progressive legislation which included the new Election Law, providing for the purification of the elective franchise and the prevention of fraudulent voting; the Corrupt Practices Act, a sincere and effectual attempt to exterminate fraud and corruption in primaries and elections; an Employers' Liability Act; a stringent Public Utilities Law, providing for the regulation of public utilities by commission, and a law providing for the establishment of the commission form of government in the municipalities of the state.

There appears to be little doubt that, if elected, he will make an able president. There are those, however, who, while paying the highest tribute to his abilities and personal integrity, declare that he has not the popular qualities which will ensure his election in November. Will they be disappointed, as were those who predicted his defeat in the gubernatorial contest in New Jersey?

We leave the political prophets to answer that question, content to know that by keeping silence where few Canadians have the right to speak, we shall at least avoid the discomfort which many of their number will experience when the result of the poll is declared.

## PLAYGROUNDS FOR CHILDREN

The city council took a step in the right direction when it appointed a committee to confer with the City Planning commission and the Parks board on the question of playgrounds for children. Up to the present, however, one important and necessary provision has been overlooked. The City of Calgary should follow the course adopted in the larger modern cities and appoint a supervisor of playgrounds. It is of vital importance to provide the children with space in which to play, but a provision only less important, is that of teaching them how to play.

The city council could not do better than to appoint to this position such a man as Mr. J. M. Sharpe, the secretary of the Boys' department of the Y.M.C.A. Since coming to the city Mr. Sharpe has devoted most of his time to organizing the boys of the city into leagues for the proper playing of athletic games. He organized the Schools' Hockey league of last winter, and the Junior and Juvenile Soccer leagues. He was one of the founders of the Schools' Lacrosse league and was the originator of the Playground Baseball league, whose work has just been brought to such a successful conclusion.

When the Women's Canadian club decided to arrange the races for the children of the city, which

were held at the fair grounds on Monday, Mr. Sharpe was the man selected to direct them. Some four hundred children participated in the races and every event was run off with speed and dispatch. As an organizer of athletic activities among the younger generation, Mr. Sharpe cannot be excelled.

The city council would make no mistake in securing the services of Mr. Sharpe. He understands the problem of the playground thoroughly, and his character is such that the children who are brought under his influence would be better for the association with him.

## EDITORIAL NOTES

With the recommendations of the parks board, the city planning commission and their own special committee before them, the city council should have no hesitation in allowing the ratepayers, at the first opportunity, to give their approval to a scheme for the purchase of park spaces in those sections of the city where no such provision has yet been made. The time will come when such provision will have to be made and the city council will do well to "do it now."

The Tory press is daily asserting that the reciprocity issue was killed and buried last September. Their repeated assertions of the fact suggest a fear, which is perhaps not unfounded, that it shows an inclination to stir in its grave. If it be dead its ghost is certainly displaying remarkable activity in Saskatchewan and the Borden-Haultain forces seem to be in some doubt as to whether they will be able to "lay" it.

A French scientist has discovered a germ which he believes will be able to deliver the knockout in the first round of a bout scheduled with the germ that is responsible for old age. The latter has had the championship for so long, however, that it will be unwise to bank too much on the chances of this new aspirant for the title.

William Jennings Bryan, in the Congressionalist, has an article on religion and politics in which he asks whether the two will mix and answers the question in the affirmative. He might have cited as evidence in support of his contention the dispatches that advised the world that Bill Taft celebrated the successful operation of the "steam roller" by attending church on the Sunday following the Chicago convention.

A critic of American history attributes its dullness to the absence of feminine influence in public affairs. No future critic will be able to say the same of British history. Whatever may be said of public affairs in England at the present time, any suggestion of dullness that is due to the absence of feminine influence is the last criticism that can be made. Premier Asquith and his associates would willingly dispense with a little of the feminine influence even at the cost of increased dullness.

## Stories of the Streets

(By Harry F. Burmester.)

The melancholy days have come, the toughest of the season. When Freddie Lewis' nose-Panama is simply out of reason. The dannels that the highbrow wore are once again motting.

While I without an overcoat am shivering and aching. Old Sol, old top, I scolded you about one week ago. 'Because you slipped us sunshine when I felt we needed snow. But listen Bo, don't take it hard, come, let us get together. Forget this line of plumb-er's work, here's some summer weather.

Tough, isn't it, when you've shot the family roll for a section of summer scenery and have it all figured out how you're just about ready to paralyze the avenue. Then all of a sudden this care-less individual who deals out sundry varieties of temperature, loses his calendar and turns loose some November weather. Yes, Bo, some tough.

Alvin Solberg, the realty operator, is one of the sorely oppressed. And by the way, you want to make that Sol-berg name—sounds like a cross between sunshine and the Bering sea. Do you get me? Solberg is still chafing under the sarcasm of a prospective purchaser, who, when shown a homestead recently, announced in no uncertain terms that he considered houseboats unsanitary and added:

"But I'll take a lease on these lots during July and August and give you \$3,000 for the skating privileges."

"Billy" Stokes—William would sound almost blasphemous—was discussing "weather" yesterday and expressing his feelings in no uncertain terms. Out of fairness to Mr. Stokes please don't misinterpret the "no uncertain" part. Quoth Will:

"Two men were passing through Texas on a Southern Pacific train. One of them gazed drearily through the window at the expanse of desert and remarked: 'All this country needs is some rain and a little better society.'

"That's all they need in Hades," was the rejoinder. "But Hades doesn't figure with this place," came back the first speaker. "Texas Rangers attention!"

J. C. Drury, proprietor of Gienn Ranch, at Cowley, and Harry Pollett, from the same place, are in Calgary for the exhibition. Both are "regular fellows" and raconteurs of the old school.

"It's a decade (pronounced deck-ed) since I was in Calgary," exclaimed Pollett yesterday. "Goodness gracious (or something unlike that) what a growth!"

"Why decked?" inquired Drury. Don't be a boob always. That is pronounced decade—"jong a," like lay. It was always "decayed"—explanatory spelling—when I went to college."

"So was the college," rejoined Pollett.

This one is about a thoughtful man: He rushed into a well known buffet, ordered a Collins fizz, deposited a dollar bill and admonished the "wine clerk"—that's highbrow chatter for barkeep—to keep the change and incidentally keep a lookout for the purchaser today:

"I feel that creeping paralysis coming over me that tells me that I'll not have any money tomorrow and I want you to buy me a drink when I'm broke."

Mark Drumm calls this "lethargic foresight."

Following the boxing contest at Bassano between Bayley and Allen for the lightweight championship of the Dominion, Mark Drumm told this one during a fight fanfest:

"Young Griffio, the most illiterate as well as the cleverest boxer the world has seen, was approached by a promoter who wanted to match him with Kid Lavigne. 'I'll give you \$1,500 for your bit,' he explained. 'That's easy money, Griffio.' 'Griffio scratched his head. He couldn't count money and he was puzzled. Finally he exclaimed in disgust: 'Nothing doing. I won't take a cent less than a thousand.' 'The match was made.'

## PRESIDENT CHAMBERLIN IS ON HIS WAY WEST

Says the Grand Trunk End of Transcontinental Will Be Finished on Time

Winnipeg, July 1.—President E. J. Chamberlin of the Grand Trunk arrived here from Chicago today, and will leave the middle of next week for the West to introduce Morley Donaldson, the new vice-president and general manager of the Grand Trunk Pacific.

Mr. Chamberlin stated that the Grand Trunk's end of the National Transcontinental will be finished and scheduled before the end of 1914, and sooner if labor troubles do not interfere. There will be no increased passenger service for the head of the lakes until rights of way have been fixed up. But the company is getting ready to handle a lot of this year's crop; and this end elevator and yard facilities are being augmented.

AD MEN HELP BRIDES IN  
THEIR MATRIMONIAL  
TRIALS

San Francisco, July 3.—At last the enterprising advertising man has made married life easy.

Every bride-to-be who stepped up to the marriage bureau in Oakland yesterday left the place completely equipped for any possible emergency.

After the ceremony she decides she has made a mistake in the man she selected for her husband she will only have to refer to a certain blue covered book which accompanied her marriage license and find a list of transfer and express companies ready "night and day" to take her baggage or that of her husband's away.

On the other hand, if after marriage her husband confesses that he is not a millionaire and that he must depend on her for his meals until he gets the next increase in salary, she need only refer to the handy book again to find a thousand recipes designed to make home cooking an absurdly simple procedure.

The handy blue book is called "The Bride's Cook Book." As soon as the county clerk's office yesterday presented a natty dressed young man appeared with a stack of the volumes. He explained that the brides-to-be might find them useful and asked the deputy clerk to distribute them, with each marriage license.

The books are issued by a hundred or more advertisers about the bay. Half of the book is devoted to cooking recipes and the other half to advertisements. The latter include the addresses of photographers, milliners, furniture men, bakers and many others. It is to be noted that the book seemed to appeal mostly to express men, as their advertisements are the most plentiful. The natty dressed young man announced that copies of the book are to be placed in the hands of all of the brides in Oakland and San Francisco.

**WRONGED WIFE A POOR SHOT; FIRED AT HUSBAND**

After Married Life of Twenty-four Years Finds There is Home Wrecker

Kansas City, July 2.—As a big motor car carrying two men and two women near the bridge at Fifteenth street and the Blue river from the east at dusk last night, a woman stepped to the middle of the road. She held a revolver in her right hand.

"You can't go by here!" she exclaimed, and showed her weapon. The driver swerved to the other side of the road and increased speed. Then the woman fired five times at the man and woman in the car. A block down the road the car stopped for a few seconds and then continued its course.

"That man was my husband," the woman with the revolver said afterward, "and the woman with him broke up our home. She's a coward, for she ducked so I'd shoot him. I was shooting at her more than him, for she's the cause of all my trouble."

Tells a Pathetic Story  
A pathetic story followed—how she and her husband had lived together for twenty-four years, had raised a son, now 21 years old, only to have her home destroyed by another woman, her husband's stenographer.

"I've been sick for several months," she said, "and I guess a woman doesn't know what to do with so much trouble. We've been separated nearly three months and this morning I called up my husband and asked him to come over and see me for a little while. But he refused, saying he was busy. He admitted he was going to a picnic out past the Blue with three other men. But I suspected this woman and at 10 o'clock I went out near her home and watched. Sure enough, my husband drove up in his motor car and then two couples got into the car, with baskets of lunch. Of course they beat me to the bridge, but I waited until they returned at 7 o'clock. I've been trying to find out if I hurt any of them. If I hit my husband I'd like to care for him."

Met "That Woman" at a Dance  
"My husband met that woman at a dance. She's not a girl, but is about my age—41 years old. Then the trouble began."

The husband last night denied knowledge of the shooting. He showed no evidence of having been shot up. "I didn't know anything about it if she shot at me," he said, "but the woman she refers to causing any trouble, there's nothing to it."

The "woman in the case" declared she would not talk of the affair when called up by telephone.

Electric Diet to Make Chickens Grow Fast  
New York, July 2.—A novel poultry farm, in which electricity will be utilized to hasten the growth of the chicken, is being equipped in Europe, where experiments with the electric current in stimulating the growth of chickens have been very successful. If the Great River undertaking comes up to his expectations other farms will be established on the same plan, with the result that the supply of poultry will be greater and the price consequently lower.

While Dr. Lienuu is giving no guarantee that the workman is going to have a hen in the pot for every meal if his expectations are realized there is unquestionably a solar plexus blow coming to the best trust.

"The principle is simple," said Dr. Lienuu last night. "It is just a question of stimulating the fowl with an electric current so that its circulation will be increased. The result will be increased assimilation. The power of the fowl to assimilate more food and to assimilate it more quickly means that it will increase in weight and increase quickly. Not only will the product be marketable sooner than otherwise, but the chances of loss by death will be greatly lessened."

**WRONGED WIFE A POOR SHOT; FIRED AT HUSBAND**

After Married Life of Twenty-four Years Finds There is Home Wrecker

Kansas City, July 2.—As a big motor car carrying two men and two women near the bridge at Fifteenth street and the Blue river from the east at dusk last night, a woman stepped to the middle of the road. She held a revolver in her right hand.

"You can't go by here!" she exclaimed, and showed her weapon. The driver swerved to the other side of the road and increased speed. Then the woman fired five times at the man and woman in the car. A block down the road the car stopped for a few seconds and then continued its course.

"That man was my husband," the woman with the revolver said afterward, "and the woman with him broke up our home. She's a coward, for she ducked so I'd shoot him. I was shooting at her more than him, for she's the cause of all my trouble."

Tells a Pathetic Story  
A pathetic story followed—how she and her husband had lived together for twenty-four years, had raised a son, now 21 years old, only to have her home destroyed by another woman, her husband's stenographer.

"I've been sick for several months," she said, "and I guess a woman doesn't know what to do with so much trouble. We've been separated nearly three months and this morning I called up my husband and asked him to come over and see me for a little while. But he refused, saying he was busy. He admitted he was going to a picnic out past the Blue with three other men. But I suspected this woman and at 10 o'clock I went out near her home and watched. Sure enough, my husband drove up in his motor car and then two couples got into the car, with baskets of lunch. Of course they beat me to the bridge, but I waited until they returned at 7 o'clock. I've been trying to find out if I hurt any of them. If I hit my husband I'd like to care for him."

**Health for Every Woman No More Headache**

From Weakness and Despair Thousands Have Been Restored to Robust Good Health by Dr. Hamilton's Pills.

That sick women are made well by Dr. Hamilton's Pills is proved in the following letters:

"For years I was thin and delicate. I lost color and was easily tired; a yellow pallor, pimples and blotches on my face were not only mortifying to my feelings but because I thought my skin would never look nice again I grew despondent. My appetite failed. I grew very weak. Various remedies, pills, tonics and tablets, I tried without permanent benefit. At last my sister put into my hands a box of Dr. Hamilton's Pills. She placed reliance upon them, and now that they have made me a well woman I would not be without them whatever their might cost. I found Dr. Hamilton's Pills by their mild yet searching character very suitable to the delicate character of a woman's nature. They never once gripped me, yet they established regularity. My appetite grew, my blood red and pure—heavy rings under my eyes disappeared, and today my skin is as clear and unwrinkled as when I was a girl. Dr. Hamilton's Pills did it all."

The above straightforward letter from Mrs. J. Y. Todd, wife of a well-known citizen in Rogersville, is proof sufficient that Dr. Hamilton's Pills are a wonderful woman's medicine. Use no other pill but Dr. Hamilton's. All dealers or The Canadian Cigarette Co., Kingston, Ont.

Plans Being Made for Intercity Football Game for Near Future

Red Deer Cup Competition Not as Good as Last Year's Latest Football News

The heavy rains have been expected during the past week or so while making the farmers smile, have been playing havoc with the arrangements of sport fans. Hillhurst Park is all under water, impossible for playing any kind of a game on and the bunch of footballers who plodded along but were intending to play last evening, gloomily surveyed the muddy patch and with a "nothing doing" ran to catch the first street car back to the city.

The Calles and Thistles were scheduled to play but another date will have to be found for the match, as is the case with the Postoffice-Hillhurst match which should have been the attraction over at Hillhurst on Thursday last, but had to be postponed on a similar account.

Some time ago the Calgary City Football League made advances to the Edmonton league to play inter-city games, home and home, between the two leagues, and Edmonton have jumped at the idea. They make a proposal for Calgary to visit Edmonton on July 25th, maintaining their \$125.00 to guarantee them a similar amount when Edmonton come to play down here. These terms will be entirely reasonable to the Calgary men and probably they will go north on the 25th. However, a meeting of the executive will be held on Friday evening of the Y. M. C. A. to discuss the matter.

In order to make a selection it is probable that a game will be arranged between two picked sides, a game that will be worth watching.

The competition for the Red Deer cup was played off at Red Deer on Dominion Day, but was not such a successful affair as last year. Invitations were extended to the Edmonton City, Calgary, and Hillhurst, but the Calgary Calles could not see their way to make the trip but Hillhurst, the possessors of the cup, went to defend it.

Some time ago the Edmonton league had endeavored to arrange a match with Hillhurst at Calgary on Dominion Day but owing to the weather the match was postponed.

## THE ESKIMOS WAKE UP AND SHUT OUT BOOSTERS

Kid Ford Pitched Air Tight Game and Was Given Good Support

Lefty Gelvin and Control Were Not on Speaking Terms

Umps Longanecker Affixes a Five Spot Fine on Pep Wicks

Edmonton, July 2.—On Dominion Day, Chesty Cox and his minions spent the rainy afternoon curbing the fate which fell upon them in playing two games with the moulting Gray Birds, and adding two more wins to their already respectable total. Last evening they were awaiting the same fate for making them play, as when Lefty Gelvin started did not stand by the score board read: Edmonton 5, Bassano 0.

It was very gratifying to the fans, but Bassano team did not take the same kindly feeling regarding the result. There were several factors which united towards defeating Chester Eugene Ford pitched one of his real good games, and was remarkably strong in pitching. Isbell drove out a home run with Dudley perched on first, and the entire Edmonton team exhibited a lot of pep. Dudley made a brilliant error, and it was the only error of a very minor nature.

Lefty Gelvin started the pitching, control were not on speaking terms last night. He binged Macklin in the back, bounded one off Westcott's knee cap, and the next picture showed him dipping the long ball into the bench, while the Boosters were talking to Westcott's nurse. O'Neil donned the Red Cross nurse and did nothing to justify a medal.

Wicks broke and ran, and nothing accounted for the first two Edmonton runs in the second inning. In the seventh, when Isbell bunted one over Mills' head in deep on the left, and the ball had reached the infield on the succession of relay throws, Wicks broke and ran, and the umpire gave the locals their last counter in the seventh.

The Boosters acted on every close decision, and craved in the most apparent manner. The umpire did not rattle Umpire Longanecker. Pepper Wicks tried to engage in some petty brawling, but was easily caught by a five dollar fine plastered on him so fast it took the world-famed second base break away. Box score follows:

Edmonton: AB R H PO A E. Macklin, 2b, 3 0 0 1 0 2. Westcott, ss, 3 0 1 4 1 0. Ford, cf, 3 0 0 0 1 0. Wicks, rf, 3 0 0 0 1 0. Dudley, lb, 4 2 3 10 1 1. Isbell, c, 3 0 0 0 0 1. Longanecker, p, 3 1 1 5 2 0. Total, 25 6 2 14 10 2.

Philadelphia, July 2.—After Brooklyn took the lead in the eighth inning today as the result of two passes, Wheat's home run and doubles by Hummer and Tooley. Philadelphia won its game in the same inning on two passes, Knabe's sacrifice, Doolin's single and R. Miller's double. The score: Brooklyn 10, Philadelphia 6.

## SPORT VIEWS AND REVIEWS

Bill Rickard, of Vancouver, may be the last heavyweight to meet Tommy Burns in a ring battle, for the ex-champion has about decided to retire from active pugilistic affairs after his battle on November 8, in Saskatoon.

Tommy may change his mind, but at the present time he intends to step into the ring for the last time in August.

What the matter with the old time baseball enthusiasm, which, in the past, made Calgary famous all over Canada? On Monday night there were exactly twenty-five fans who plunked down four-bits to watch the Bronks beat Red Deer by the score of 3 to 1, and on Saturday not a single person paid admission.

It is quite possible to conceive of such a condition if the pennant race were walkaway, and the local team were out of the walking, but when the first three teams are so bunched that one day's game will make anyone of these teams the leaders, there must be something radically wrong.

This is the last week of the first series, and the week which will decide the location of the pennant, yet there is not enough interest to warrant the maintenance of a ping-pong league.

The boys are playing good ball now, and poor exhibitions can no longer be given as an excuse for the falling off in attendance.

The fact that the park is located so far away from the heart of the city is the excuse which most of the fans would give, but if there were the interest, which Calgary people used to take in their team, evidently, the distance would make but little difference.

There's something radically wrong, either in the management or otherwise, and steps should be taken at once to locate the trouble and remedy it.

Bill Clark, of The Edmonton Bulletin, commenting upon the proposed tour of an English football team, composed entirely of women, says: "Of course, they do not hope to win the championship of Canada by defeating the champions eleven of Calgary, but they figure that such a team would be a novelty and would attract considerable attention. It reminds us of a ditty we heard someone humming recently. It runs like this:

"Arf an hinch, 'arf an hinch, 'Arf an hinch howard; 'Ampered by 'oble skirts; 'Opped the four 'undred."

## CRICKETERS OF ST. JOHN'S WIN FROM MACLEOD

Local Team Wins Game by a Margin of Forty-four Runs

At Macleod on Monday, the St. John's club beat the Macleod Cricket club in the return match by 55 runs, the Saints thus taking both games, having beaten the southerners earlier in the month at Calgary.

An early start was made and, winning the toss, Napier sent in C. Hall and George to face the bowling of Walker and Johnson. A bad start was made, George being easily caught by Johnson at six, after Redgrave had knocked up the ball in endeavoring to make the catch. McKay and Hall made a nice little stand, Hall doing most of the scoring, made some nice shots on the leg side, mostly bounded.

However, Johnson caught and bowled McKay at two and Robinson was bowled by A. Downing, who had gone on for Johnson, at 49. Hall was out at 50, being well caught and bowled by Gus Downing, and half the Macleod wickets were down for 77. Harry Napier was well caught by Redgrave behind the "sticks" off one of Hall's specials at 55, and it looked as if Whitfield, did not bat.

Apart from Hall and Brown, who played strong cricket, there was little of note in Macleod's batting. Timms bowled well and kept a good length, and both McKay and Taylor hard and fast for 39. Walker one for 19. E. Hall two for 22, and A. Downing two for ten.

Hall and Jones went in for twenty minutes before lunch to face the bowling of Harry Napier and C. Hall, and could make little headway, both bowlers keeping an excellent length, and but three runs were made when lunch was taken. Jones being credited with two and Hall one. After lunch, however, play livened up considerably, although the batsmen could still do little with the Napier, his first six overs being maiden. The score was carried to 82 before Jones was caught by Napier off George for 17 and played 31.

The chief features of his innings being his fine defence and nice leg-glide. Napier, after scoring five, was caught at point by Matthews off a skiar at 76, and A. Downing was bowled at square leg. He showed a remarkable defence for about an hour and a half, and made some pretty shots to leg. Both these batsmen were out off successive balls from Harry Napier, when Redgrave spooned one up to McKay the latter completed the "hat-trick" amid loud applause from both sides, and it was indeed a fine performance at this stage of the game, but the rally came too late. Peacock hit well for 19, hitting one out of the ground for 6, and when time was called Timms and Walker were each 7 not out, the final score being 156 for nine wickets. Harry Napier came out best with five wickets, but Robinson bowled much better than his analysis shows, and was a great source of trouble to the batsmen who went in earlier on.

A most enjoyable time was spent, the Macleod boys, as usual, being most hospitable, and without doubt they are

## THE ESKIMOS WAKE UP AND SHUT OUT BOOSTERS

Kid Ford Pitched Air Tight Game and Was Given Good Support

Lefty Gelvin and Control Were Not on Speaking Terms

Umps Longanecker Affixes a Five Spot Fine on Pep Wicks

Edmonton, July 2.—On Dominion Day, Chesty Cox and his minions spent the rainy afternoon curbing the fate which fell upon them in playing two games with the moulting Gray Birds, and adding two more wins to their already respectable total. Last evening they were awaiting the same fate for making them play, as when Lefty Gelvin started did not stand by the score board read: Edmonton 5, Bassano 0.

It was very gratifying to the fans, but Bassano team did not take the same kindly feeling regarding the result. There were several factors which united towards defeating Chester Eugene Ford pitched one of his real good games, and was remarkably strong in pitching. Isbell drove out a home run with Dudley perched on first, and the entire Edmonton team exhibited a lot of pep. Dudley made a brilliant error, and it was the only error of a very minor nature.

Lefty Gelvin started the pitching, control were not on speaking terms last night. He binged Macklin in the back, bounded one off Westcott's knee cap, and the next picture showed him dipping the long ball into the bench, while the Boosters were talking to Westcott's nurse. O'Neil donned the Red Cross nurse and did nothing to justify a medal.

Wicks broke and ran, and nothing accounted for the first two Edmonton runs in the second inning. In the seventh, when Isbell bunted one over Mills' head in deep on the left, and the ball had reached the infield on the succession of relay throws, Wicks broke and ran, and the umpire gave the locals their last counter in the seventh.

The Boosters acted on every close decision, and craved in the most apparent manner. The umpire did not rattle Umpire Longanecker. Pepper Wicks tried to engage in some petty brawling, but was easily caught by a five dollar fine plastered on him so fast it took the world-famed second base break away. Box score follows:

Interesting Study in Difference of Lat-  
itudes Presented by Harvests  
(From The Kansas City Star)  
The news that wheat harvest has be-  
sun in Oklahoma presents an inter-  
esting study in the difference in lati-  
tudes. The big army of harvesters has  
started upon the great industrial march  
to the north.  
In another ten days they will reach  
the Southern Kansas line; a week of  
ten days later they will be in Central  
Kansas; a week later they will cross  
the northern line into Nebraska, and  
then by the same stages will journey  
on through Nebraska and into the Dak-  
otas.  
The ranks will be depleted, of course,  
but new volunteers will take their  
places, so that the ranks will be kept  
filled. But the old veterans of the ser-  
vice enlist for the entire time. They  
stay by the same stages will journey  
on through Nebraska and into the Dak-  
otas.  
It is the real "bread line" of the coun-  
try. They are not only bread winners,  
but they are also the bread saviors of  
the nation.

## DETECTIVE'S DEVIOUS TRAIL AFTER A PUPPY DOG

**Sleuth Comes Up With \$500  
Quarry After Vainly Inter-  
viewing Many Dogs**  
NEW YORK, July 2.—Detective Van  
Twistern, of the East Fifty-first street  
police station, got this assignment the  
other morning.  
"Go out and find an Airedale pup-  
valued at \$500, which disappeared from  
the Ritz-Carlton on Wednesday night  
and which belongs to Mrs. J. G. Tower,  
a guest at the hotel."  
So out went Van Twistern and found  
it.

First he interviewed Patrick Mooney,  
a porter, who was told to take the dog  
out for a walk, and who informed the  
sleuth that the "shippery little devil  
shid out under me hand and went  
hocky down Madison Avenue."  
Then came a series of interviews  
with storekeepers, drug clerks and  
post office policemen, none of whom had  
seen an Airedale.

**Hairs as a Clue.**  
Then Van Twistern saw that he had  
some real work before him. He was  
standing on the corner of Madison  
avenue and Forty-fourth street, when  
a man with a valise and an overcoat  
thrown over it came by. On the bot-  
tom of that overcoat were several  
bristly brown hairs. Van Twistern  
followed the overcoat. It went into a  
bar, where his owner took a hurried  
drink. It came out and went up to  
a taxicab in which a woman with ear-  
rings and dark eyes sat. By her side  
sat a dignified Irish sister. Van  
Twistern sighed and stopped at the  
corner.

Presently came two Ethiopians, talk-  
ing earnestly to a soldier. The  
sleuth's ear caught the word "dawg."  
An hour and a half later the soldier  
came out of a Seventh Avenue back  
room. On a new leash he led a dog.  
It was a bull terrier. Van Twistern  
went back to his corner.  
**Evidence of Dog's Attire**  
A one-legged man with a scar on  
his right cheek came up to the detec-  
tive and asked for a light. Van Twis-  
tern stopped paring his nails, gave  
the stranger a match and remarked  
that it was a pleasant day. It was  
said the one-legged man, and would  
Van Twistern have a drink. From  
the one-legged man's pocket protruded  
a bit of brass, the stud of a dog collar.  
Over his ginger ale the sleuth sud-  
denly asked whether the one-legged  
man was interested in dogs. Was he  
You bet, and he had one now. He  
would like to sell it if the price was  
forthcoming. Van Twistern wanted  
eager to buy, but said he would look  
the dog over. In the yard of a Second  
avenue tenement house, under a mast  
with a curious flag waving from it,  
stood Van Twistern at dusk looking at  
a wiggy pup. The one-legged man  
pointed out its merits. Van Twistern  
shook his head and went back to his  
corner. The pup was a beagle pup.  
It was quite dark when Van Twis-  
tern, who had hidden clear to the detec-  
tive behind a man with a basket,  
which contained, as it turned out, a  
Maltese kitten, had gone on a Fifth  
avenue stage to the Museum beside  
a man from Metuchen, who had con-  
fided to his neighbor that he had re-  
ceived a telegram to come in and look  
after a dog. The animal was a Clum-  
ber spaniel. He made friends with a  
sickly little girl at whose house "a  
new dog had come in a basket and he  
did man from a guy in a hotel." It  
was a Schipperke.

It was quite dark then when passing  
a house on Forty-eighth street Van  
Twistern heard one loud yap. He  
went into that house and there found  
an Airedale pup chained up. The  
house owner said he had found him  
in the morning and was waiting to see  
if the loss was advertised.  
At the Ritz, Mrs. Tower said it was  
her dog and thanked Van Twistern.

**HUSBAND WHIPS MATADOR**  
A Bullfighter Was Beaten and Fined  
for Stealing an Admirer's Wife  
Chicago, July 1.—Paul Ynacno is a  
successful matador and very much ad-  
mired when at home in Mexico, where  
a bullfighter occupies a more exag-  
gerated position than an American mat-  
inee idol. Ynacno is a native of Mex-  
ico and at once became the pride of the  
Mexican colony of railroad laborers  
there. The women adored him, the men  
respected him and the children idolized  
him. But Ynacno didn't care particu-  
larly for the respecting and idolizing.  
He preferred adoration and eloped with  
one of the adorer's, Cesarita, wife of  
Francisco Rames.  
Five days ago Ynacno and Cesarita  
left Topeka, Kansas at once took up  
the trail and found the pair last night  
near Myers Avenue and Third Street  
on the Kansas side. Ynacno is a good  
bullfighter, but his failure was an in-  
famous husband fighter. Rames caused  
the matador to look like one of his own  
victims in the bull ring. This morning  
in the municipal court Rames told his  
story and was released. His wife said  
she was tired of the bullfighter and  
agreed to return to Topeka with her  
husband. Judge Carlisle fined Ynacno  
\$100.

## SIDEWALK SKETCHES By Edward L. Rann

**SINGING**  
Singing is a form of vocal fireworks  
indulged in by people who never know  
when anybody has had enough. It is  
used for the purpose of entertaining  
guests who are too polite to try to  
escape. There are two kinds of sing-  
ing—legal and illegal, to which may be  
added several intermediate varieties,  
none of which attempt to keep in  
the same block with the singing of  
cadenzas, arpeggios, octave jumps and  
blistering top notes at them until the  
cooler come home, without showing the  
slightest fatigue, hoarseness or inten-  
tion of letting up. Illegal singing is  
the most common variety, and should  
be accompanied by a fall sentence. It  
is resorted to by people who are self-  
taught and not afraid of anything in  
human form. The illegal singer gener-  
ally carries around a tremolo which  
starts in one key and winds up in the  
other, and is never able to go into the  
head register without changing gears.  
There is nothing in the whole realm of  
musical literature that will cause an  
illegal singer to commit a basic Sing-  
ing is taught at 20 cents per teacher  
perspiring post-graduates who can  
tell a future Meiba at once by the  
size of her father's bank account.  
Every teacher has a method which he  
refuses to let go at less than \$4 a half  
hour. Every method is based on the  
primordial principle of playing the  
mouth at an angle of forty-five de-  
grees and discharging the voice at the  
rate of 400 revolutions a minute. When  
this is kept up until the audience is  
glassy-eyed, the singer is said to be  
virtuoso. One experience with a  
genuine, hand-sewed virtuoso is gen-  
erally sufficient for people who are  
not accustomed to mingling with the  
higher and more expensive forms of  
art.

**STRANGE DUEL TOO REAL**  
Gravina, a Spanish Basque, Was Stab-  
bed in the Eye by a Singer  
New Orleans, July 2.—Signor Gra-  
vina, one of the most noted bascos of  
Spain, is in a hospital today as a result  
of being stabbed in the eye with a  
saw east night in the presentation of  
"The Barber of Seville" by Constantino,  
the tenor. Constantino is prostrated  
with grief. Women members of  
the cast swooned when the accident  
occurred, but the orchestra continued  
playing in an effort to quell the ex-  
citement of the big audience.  
Constantino tried to continue sing-  
ing, but the notes faltered and finally  
the curtain was lowered and the au-  
dience dismissed.  
Gravina suffered a hemorrhage of  
the brain and complete paralysis.

**WOMAN TURNED ON WOMAN**  
A Feminine Court in Colorado Refused  
Mrs. Peck a Divorce  
Meeker, Colo., July 2.—A suit for di-  
vorce, brought by a woman here yester-  
day, heard by a woman judge, pro-  
ceeded and defended by women attor-  
neys, and lastly decided by a jury of  
twelve women, resulted in a victory  
for the less "deady of the species."  
The feminine jury, without leaving the  
box, returned the verdict denying Mrs.  
Hiram E. Peck a divorce.  
Cruelty and failure to properly sup-  
ply her financial needs were the alle-  
gations made by Mrs. Peck. She prayed  
for absolute separation and alimony  
of \$1,000 a year.  
Mrs. Peck a Large Woman  
Attorney Hazel Clark represented  
the plaintiff and Attorney Eva Skinner  
defended Mr. Peck. Judge Marguerite  
Harp occupied the bench. The clerk  
abstained from the usual formalities.  
All of the women are of this place.  
Mrs. Peck, who is a large woman, in  
her testimony before the court, as-  
serted that on a certain date several  
months ago Peck—who is a very small  
man—violently assaulted her with a  
blow which was sufficient to injure  
him for a small amount of money,  
and finished the job by cruelly drag-  
ging her around the room by her hair.  
What the evidence brought out  
Cross-examination brought out the  
interesting information that Mrs. Peck,  
in testimony before the court, had  
question, had been committed for  
office by one of the political parties;  
that on the date which the disagree-  
ment is alleged to have occurred, she  
had demanded \$100 from Peck for  
campaign expenses, informing her  
lord that unless she got the  
money, he would "clean up the floor"  
with him; that Peck, owing to tempo-  
rary financial embarrassment, had  
been unable to furnish the money;  
and that Mrs. Peck then seized Peck  
by "the neck and the seat of his pants"  
and proceeded to "pound it out" of  
him.  
In the meanwhile, Peck was skat-  
ing along the floor on his nose, his  
big claws in contact with a feather  
duster, which he had fallen from a table,  
and with this deadly weapon he suc-  
ceeded once in striking his militant  
spouse upon the ankle.

**LION HEART.**  
The lion hearted Richard in happy  
days of yore, was wont to bathe  
people and wade in crimson gore; he  
looked around for victims, his hands  
on battle axes, and when he ran across  
them, he calmly broke their backs.  
He's been the gaudy hero of scores of  
rattling books; old men have told about  
him in winter inn parlors; and even  
yet the minstrel about his glory sings  
—but no one ever accused him of doing  
useful things. Had Richard stayed in  
England and buckled down to his  
duties, he would not be the hero of  
bughouse poet's strain; his bones  
would lie crumbling among forgotten  
kings—our heroes are not people who  
do the useful things. Today we make  
an idol of him who wields his jaws;  
the man of tinkling cymbals is given  
the adoration, if he goes forth and bal-  
lows for this or that reform, we call  
him lion hearted, an oak tree in the  
storm, a bulwark of the nation, a  
David with his slings—we never want  
a hero who does the useful things.  
The men who build the cities and  
maintain the deers' bloom, the men  
whose busy fingers attend the mill and  
loom; who send the ships of commerce  
across the vast deep; who toil to  
further science when others are asleep,  
who rob the hills of riches, the quar-  
ries of their stone; whose go their way  
obscurely, their names to fame un-  
known, while we applaud the fakier for  
wearing the welkin rings—our heroes  
are not people who do the useful things.

**FOUR PERSONS DROWNED IN  
AND NEAR WINNIPEG ON  
DOMINION DAY**  
Winnipeg, July 1.—Four lives lost  
by drowning in Winnipeg and the  
neighboring resorts characterized  
Dominion day here.  
At Winnipeg beach, Charles Pat-  
erson, a Winnipeg real estate dealer, and  
Miss Carrie Riley, a niece of R. T.  
Riley, the well known Winnipeg finan-  
cier, met death while bathing. Adam  
Bole, aged 20, a Winnipeg plumber, was  
drowned this evening in the Red river  
near River park.  
Later in the evening a boy named  
McHugh, aged 10, was drowned while  
bathing in the Red river near Norwood.

this neighborhood. I am always up be-

The second farmer said he was al-  
ways up before that and had part of  
the chest done. The first farmer  
thought he was a liar and decided to  
find out. A few mornings later he got  
up at 2 o'clock and went to the neigh-  
bor's house. He rapped on the back  
door and the woman of the house  
opened it. "Where is your husband?"  
asked the farmer, expecting to find his  
neighbor in bed. "He was around here  
early in the morning," answered the  
woman, "but I don't know where he  
is now."

## GERMAN NURSES WORK LONG DAY

**Hospital Employees Have No  
Regular Hours Allotted  
for Sleep**  
The number of hospitals in Ger-  
many has increased in the last quar-  
ter of a century from 3,000 to 6,000  
and the number of beds from 141,000  
to 370,000. While the population has  
increased only 30 per cent, the number  
of hospital beds has increased 100 per  
cent.  
Naturally this growth has extended  
to the nursing profession. Fifteen  
years ago there were 75,000 nursing  
sisters to attend a good many men in  
Germany, for there are about 70,000  
certified male nurses.  
England heads the list, according  
to The Times, in the number of nurs-  
ing hospitals. This is due to the fact  
that there are 23 to every 10,000 inhabi-  
tants, Germany only 14.50 and Austria 8.25.  
**State Protection Demanded**  
Unfortunately the title "Schwester"  
in Germany has been abused as much  
as the English "nurse," and there is  
a demand for state protection for both  
titles and for the profession. Cross  
sisters have obtained this protection  
and state regulation will probably do  
the same for the nursing profession.  
The placing of nurses is not yet or-  
ganized and centralized and therefore  
is largely in the hands of middlemen  
or registry officers. This is at which  
the nursing career may begin varies  
from 18 (Baden), to 35 (Berlin).  
For male nurses the lowest age is  
19, but it is usual to begin after the  
period of military service, which in  
Germany has always to be reckoned  
in giving evidence of the usual time  
necessity for professional secrecy. In  
a court of law nurses are not obliged  
to give evidence unless they are es-  
pecially permitted to break this rule.  
**Unlimited Working Hours**  
The law allows unlimited working  
hours. In Berlin the day means twelve  
hours and the night twelve hours. In  
some night nursing. In a Leipzig hos-  
pital six hours without interruption  
once a week, followed (when under the  
diakonissen or religious) by an hour  
for religious service.  
A sister in a private nursing home  
reports: "For three months worked  
from 9 a.m. until 9.30 p.m."  
Sister Agnes Karll reports overwork  
in the case of some probationers.  
Small wonder that the morning and  
evening religious services are usually  
attended by a few nurses. "Even  
the best nurse, after two years of  
such work, is unable to work any  
more," is the conclusion of a private  
nurse.  
**Pay Higher Now**  
In Dusseldorf, where nineteen of the  
largest hospitals are run on the best  
lines, the nurses today receive 22.50  
with two hours intervals for meals and  
rest. Everywhere day work and night  
work are mingled instead of being  
separate. There is a general desire for  
better organization on this point and a  
three-shift system, with a total of  
nine or ten hours work.  
Payment is another point in need of  
improvement, especially among the  
male nurses. In Dusseldorf the begin-  
ner starts with \$2.50 a month, the  
second year the probationer receives  
\$30 a year, the sister \$106, rising in  
nine years to \$150, the master nurse  
\$180 to \$190. Another constant ground  
of complaint is the food provided in  
hospitals.

in all things."  
One day, when sent out to cover a  
speech, Jack turned in his copy read-  
ing with this statement in the lead: "Three  
hundred and ninety-nine eyes were  
fixed on the speaker."  
The editor tore his hair and hailed the  
young man before him.  
"Sit," he demanded, "what is the  
name of all that's bold did you put that  
absolutely foolish statement in your  
story?"  
Never blinking an eye, Jack replied:  
"Why, Mr. Gray, there was an old man  
in the audience with only one eye."  
Jack is now an editor himself in San  
Francisco.

MEXICAN CROESUS IS NOW RUINED AND IN EXILE

Gen. Luis Terrazas Was For Fifty Years Ruler of Rich State of Chihuahua

Chihuahua, Mexico, July 1.—What- ever else may be the result of the revolution in Mexico, it has already accomplished the downfall of the great house of Terrazas. It is the irony of fate that Gen. Luis Terrazas, who for more than half a century was practically the ruler of the whole state of Chihuahua, should lose his vast possessions in the same manner that he acquired the nucleus of them. It was by means of war that he obtained his first grasp upon the industrial affairs of this state, and it is through war that he has suffered during the last eighteen months losses aggregating many millions.

After long years of financial and political dictatorship of a region embracing some of the greatest resources of the state, Gen. Terrazas is now practically an exile. So strong is the feeling against him on the part of the new elements that have risen against the government that he deemed it advisable several months ago to go to California, where he is living quietly.

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber the same as there is in tea or in paint. In most other articles, Cheap cut lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a dilapidated cheap look, making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality counts. Our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.

with little expectation. It is said, of ever being able to return to Mexico. Luis Terrazas was born in the city of Chihuahua in 1838. At the beginning of the Mexican revolution he was the richest man in Mexico and one of the richest in the continent. His wealth was variously estimated at \$10,000,000 to \$15,000,000 gold. It is said that he owns one-third of the houses in the city of Chihuahua, besides his 15,000,000 acres of land, mines, meat packing plant, factories of various kinds, banks, live stock and various other kinds of property. His investments are found in other parts of the republic. He was said to be the greatest cattle owner in the world.

During the thirty-six years of the Diaz regime Gen. Terrazas was Diaz's right hand man looking after the rigid enforcement of the Diaz policies in the state of Chihuahua. He is a Diaz type of man. It was his daring and successful management of military campaigns in the troublesome days preceding the beginning of Diaz's administration that won for him national recognition and gave him the start which resulted in his becoming the wealthiest man in the country. His parents were poor, and in his early boyhood he had a hard struggle. Soon after he reached man's estate he opened a mercantile establishment in this city and began to take an active interest in the politics of the state.

The first office to which Terrazas was elected was that of "Jefe Politico," mayor of Chihuahua. This was in 1880, at a time when the whole country was overrun with bandits. A large force of brigands captured the city and drove out the governor and other officials. Terrazas organized a volunteer army and in a relentless campaign put the bandits down. In recognition of this he was elected governor of Chihuahua in this state, the nucleus of his later vast landed holdings.

At the outbreak of the revolution which resulted in the overthrow of Diaz there were in the employ of Terrazas more than 10,000 men. Most of them belonged to the peon class and lived on his ranches and farms. It is claimed that the uprising in the state of Chihuahua, which practically won for Madero, was due chiefly to inequities of taxation practiced by Terrazas government. It is stated that notwithstanding his vast possessions, Terrazas himself paid only a few thousand dollars in taxes. The revenue was obtained chiefly from the middle and peon classes.

With the breaking of the power of Terrazas great numbers of men who belonged to his army of laborers have joined the revolutionary forces. With no semblance of the order in the rural regions of the state for many months, the big properties belonging to Gen. Terrazas have been at the mercy of freebooters. The most of them posing as revolutionists.

IS HELEN KELLER TO HOLD OFFICE?

Offered Membership on Schenectady Board of Public Welfare

Rochester, July 1.—Helen Keller, the blind, deaf and dumb woman, whose mastery of an education in the face of these handicaps has made her world famous, is now considering the proposition of becoming a member of the city of Schenectady, N.Y.

The position for which Miss Keller has been mentioned is a membership on the board of public welfare, a body much favored by the city. George W. Lupton, the Socialist mayor of Schenectady, Miss Keller is herself a Socialist and is a firm believer in votes for women.

Mayor Lupton intends that his new board shall have jurisdiction over tenement conditions, children's playgrounds and numerous other matters that do not properly come under any regular department of Schenectady's city government.

"I have heard nothing from Mayor Lupton regarding the matter," said Miss Keller, "though I know such a board was to be established. I think it will do a great good. It is a new scheme, fraught with many difficulties. The problems would have to be met as they might arise."

"One thing I would try to do would be to wipe out the slums, for it is there that sickness, disease and immorality are born."

"The only way to bring about any permanent improvement is to prevent rather than to alleviate. When the children are born blind, we have institutions for them. But how much better it would be to be able to prevent blindness."

"I would no so far as to say that poverty is the fundamental cause of almost every evil. Poverty is a horrible thing. It is the cause of crime, disease and suffering of all kinds. Poverty drives people to vice. I am convinced that the best way to cure the old-fashioned theory that vice drives people to poverty."

"Why do the stumps matter? They exist because they cost. It is not those who own them better dividends than improvements would be."

"Yet I am convinced that the world is growing better. There are more healthy happy children today than ever before though there are still far too few."

"There are more schools and colleges more hospitals and institutions for the blind the crippled and the deformed. There are more broken women than ever before but there are still far too few."

GIRLS ASK FOR ARREST OF 'SUN BATHERS'

Family of Four, in 'Natura's' Clothing Only, Workshop in Back Yard 'Parlor'

Chicago, July 1.—Another group of sun worshippers, which has been throwing up all semblance of conventional dress, has come to grief. Warrants were sworn out yesterday for the arrest of Mr. and Mrs. John Palmer, 1448 North Wood street, conductors of a weekly worship of the sun in the back yard of their residence.

The warrants were procured by Miss Luck Foreman, who lives with her mother in the same building. Miss Foreman, who is 20 years old, and her sister, Miss Victoria Foreman, 17 years old, told Municipal Judge Dieter at Shakespeare avenue court, that they had been delegated by several neighbors to obtain the arrests.

"Service" at Sunday Noon

The last wild service of the sun worshippers occurred last Sunday noon, when the sun was at its highest. Mr. and Mrs. Palmer, according to Miss Foreman and other neighbors, with their two small children—James, 11 years old, and George, 6—left their flat on the first floor, and went through a strange procession round the back yard, all four dressed only in nature's clothing.

The "temple" is the great contract in the "sun parlor" of Ottomar Zar Adulst Haniak, leader of a cult being prosecuted by federal authorities. In the temple of the Palmers there is no luxuriant roof parlor, where nude persons may recline on couches as they go through their unusual forms of worship.

RAISE ARMS TOWARD SUN

Their worshippings is done in a barren back yard, surrounded by a fence and low wooden sheds. The "service" in March of 1907 Terrazas defeated a division of the French army in this city. After the war the government donated to him a tract of 8,000,000 acres of land in this state, the nucleus of his later vast landed holdings.

PORTRAITS BRING \$125,825

Two Mezzotints Command \$6,750 Each at Sotheby's

London, July 1.—A collection of old mezzotint portraits formerly the property of a private collector was sold at Sotheby's today. The total realized was \$125,825. Some of the articles sold and the prices realized were:

A whole length portrait of Mrs. Mathew in landscape, with dog, by W. Dickinson, after Sir Joshua Reynolds, \$2,000.

A three-quarter-length portrait of Mrs. Sheridan, exclusively rare, \$4,250. Valentine Green's portrait of George, Duchess of Devonshire, after Sir Joshua Reynolds, \$5,700.

The same artist's portrait of Jane, Countess of Harrington, \$4,320. Valentine Green's portrait, whole length, of Mary Isabella, Duchess of Rutland, after Sir Joshua Reynolds, \$7,750.

The same artist's portrait of Emily, Countess of Salisbury, \$2,600. Henry Hudson's portrait of Mrs. Curtis (Mrs. Palton, the painter's wife), \$4,600.

John Jones's portrait of Mrs. Davenport, after George Romney, \$2,300. Miss Cumberland, by John Raphael Smith, after George Romney, \$4,000.

The same artist's picture of "The Governess Family," \$6,000. Smith's portrait of Lady Catherine DeMauville, after Sir John Giltner, \$4,000.

James Walker's "Mrs. Masters," after George Romney, \$1,500. William Ward's "Daughters of Sir Thomas Frankland," after Hoppner, \$6,750.

The same artist's "Mrs. Michael Angelo Taylor," after Hoppner, \$2,850. Thomas Watson's "Warren Hastings," after Sir Joshua Reynolds, \$5,250.

\$24,896 AWARD TO LABORER

Jury Gives Verdict for That Sum for Personal Injuries

White Plains, July 1.—A verdict for \$24,896.50 was awarded by a jury in the supreme court here today to Perry Tompkins presiding, to Perry Griffith of Mount Vernon against the American Bridge Company, a subsidiary of the United States Steel Company. The plaintiff sued for \$25,000 damages. It was shown that he had accepted \$100.00 as temporary relief after the accident which led to the bringing of the suit.

According to the testimony Griffith was working on the New York, Westchester & Boston Railroad at Morris Park on March 9 and was handling a derelict on a car when someone on a hill above him turned loose a steel rod of cars. The cars ran down the incline and men shouted to Griffith to jump. Griffith jumped from the car but was on his feet only a few moments when a second car struck him. His right arm was paralyzed, and he received an injury on the left side of the head which has resulted, it is claimed, in partial deafness. The jury was out two hours.

TALKER QUILTS

Camorrist Argues for Month, Then Says He Was Muzzled

Viterbo, July 1.—There was another sensation today in the trial of the Camorrist for the murder of Genaro Cucinotti and his wife. About ten days ago Signor Licci, the counsel for some of the prisoners, who had been talking for three weeks, threw up his sponge because they asked him to wind up his argument. He finally was prevailed upon to remain and promised to finish in a week or so. He has been talking ever since. Today he did not appear, and sent a long letter in which he stated that he did not propose to be "muzzled." Big reason he abandoned the defence of the "Innocent Camorrist." He went on to say in the letter that he was convinced that justice would finally triumph notwithstanding the machinations of the carabinieri, the hostility of the newspapers and the insufficient protection from the bench. Judge Bianchi ordered the next counsel to begin his speech, which was finished this evening. The prisoners were jubilant, as they want the case to come to an issue, but their joy was short lived, as Judge Bianchi adjourned the case in order to allow a lawyer engaged in the Paterno trial to come to Viterbo.

TELLS OF ESCAPE AFTER BEING KIDNAPPED BY PEOPLE IN AUTO

Asserts it is Result of Refusing to Testify Against Telephone Company

Chicago, July 1.—Although the police of the Irving Park station have been unable to substantiate her story, Miss Rose Johnson, of 1918 South Oakley boulevard, last night reiterated a narrative of sensational kidnaping supposed to have taken place last Wednesday night.

Miss Johnson swore out warrants for the unidentified occupants of an inclosed touring car. She says they seized her about 9:30 p.m. at the corner of Leavitt and Taylor streets, where she was on her way to the Irving Park telephone exchange, where she is a night operator. She asserts the two men and one woman in the machine made her believe that they were under way to South Chicago, because she heard them talk about Manhattan beach about half an hour after the start.

However, a little later the two men left the machine to get a drink, she says, and she succeeded in running away after having punched the woman several times in the eye.

The kidnapers luckily had brought her near her place of work, and after she reported at the Irving Park police station she went to the exchange and filled her post that night.

According to Miss Johnson, the abduction is the culmination of attempts that have been made to make her testify against the telephone company in the case of another operator who died June 18. Although Miss Johnson refuses to give the name of the deceased, she says her relatives are known to the company as professional injury lawyers.

PEER OF CARRIE NATION BONEHEAD PLAYS

When Liquor is Sold Husband Against Orders Marengo Woman "Shoots" Pe' the Saloon

Elgin, Ill., July 1.—Marengo has a real successor to Carrie Nation in Mrs. Mink Johnson, but the new bar destroyer went her perditions on her.

Several weeks ago Mrs. Nihan told H. C. Channing to discontinue selling intoxicants to her husband. When her husband did not return home last night before 10 o'clock, she went to the saloon armed with a revolver. Upon entering she began firing, breaking many mirrors and narrowly missing several men lined up at the bar. Mrs. Nihan fired two desperadoes.

GUNS EXPLODE ON CRUISER

One Gunner Killed, Many Wounded on French Warship

Toulon, July 2.—Two heavy guns of the cruiser Jules Michelet exploded this afternoon at two hours interval. At the first explosion one man was killed and several others injured. When the second gun blew up ten men were wounded.

The cruiser was engaged in target practice at 5,000 yards, when at 3:30 p.m. there was a terrific report, which was followed by flames from turret No. 3. When the smoke cleared away the corpse of the dead gunner and the nine injured men were rapidly transferred to a tug and thence to the hospital on shore.

The gun practice was then resumed and at 4:30 there was another explosion in turret No. 8. Two officers and eight men who were wounded were rushed ashore amid intense excitement. The gun practice was then stopped. The utmost secrecy is being maintained regarding the explosions, their cause and nature. The amount of damage to the warship is also kept secret.

The Jules Michelet explosions are said to have been caused by a deflagration of the famous French B black powder, which was the cause of the accident to the cruiser Gloire and afterward resulted in the disaster to the battleship Liberté.

The firing on the Michelet was being carried out with sixteen meter guns at a range of 4,000 to 5,000 yards. The best gunners in the Mediterranean fleet were competing under the command of officers from the special gunners school.

Chief Gunner Poll, who is considered the best marksman in the French navy, at the moment of the explosion grabbed a young gunner an threw him to the flood. Poll acted as a shield for the youngster and was seriously injured. The young gunner escaped injury.

There was still another explosion later during heavy artillery practice. A gunner aboard the battleship Victor Hugo was killed by the blowing out of the breach block in turret 3.

BEAT WIFE BEATER

A Pennsylvania Mob Punished a Brutal Husband With a Hose

Beaver, Pa., July 1.—Thirty-five masked men, dressed as women, took J. W. Bowman from a policeman, after tying the officer to a fence, and escorted Bowman to a park, where they beat him with a rubber hose. Bowman had been arrested, charged with wife beating. After hearing the case the justice instructed the officer to take Bowman home, and if Mrs. Bowman agreed to let her husband return he was released. Bowman then went to the Bowman home the prisoner was taken by the vigilance committee.

SHE HELD THE GROOM

Philadelphia, July 1.—Calling one of their number, Mrs. Sadio Foley, who weighs 245 pounds, to sit on the groom, who was struggling with half a dozen young girls to prevent his bride being kidnapped, was one of the pranks tried on Edward A. Dougherty after he had been married to Miss Marie A. Green.

The bride was seized by her friends, and after quieting the husband by having Mrs. Foley sit on him, the bride was spirited away to Debano, where she was kept for several hours before she was allowed to rejoin her husband.
