## A Vote for Borden is a Vote for King and Flag and Canada

### Under Which Flag?

When all is said and done the issue of the election to-morrow is not reciprocity, nor Liberalism, nor Conservatism, nor the price of beans, nor the market for barley, nor English, nor French, nor the falsehoods of The Globe, nor the misrepresentations of The Star, nor any other inequitable feature of the great political campaign that is to be advanced a stage to-morrow. Canadians have to ask themselves when they vote, if it be merely to keep a party in power or a man in office, that they cast their ballot. Behind the candidate, behind his undertakings, behind his party leader, behind the party itself rise up the great questions and the great ideals that are to decide the national destiny of Canada. Are we looking to the domes of Washington or across the shimmering ocean to the towers of Westminster for answers to these questions, and inspiration for these ideals?

### An Irrevocable Step

Canada, the virgin nation, standing with reluctant feet where the brook and river meet, has to decide, and is daily deciding by imperceptible degrees, whether the river sweep of her destiny shall run. To-morrow a great decision will be taken, and upon that result will depend whether there shall be a Canada at all; whether the independent nationhood of the country shall develop into vigorous life; or whether, inclining to the great nation to the south, Canada shall adopt the standards of that people, accept the terms of her life and trade, merge her individuality with the mighty flood of humanity across her border, and cease to be a separate entity. There can be no half-measure of wedlock between Canada and the United States. If Canada decides to put on the engagement ring to-morrow the marriage with Uncle Sam will be duly solemnized, and Uncle Sam will take care that there will be no divorce.

### Ottawa or Washington?

Canada's chance of independent nationality is in the development of her own life, her own agriculture, her own trade, her own political relations, her own finance, her own literature, and art, her own sound humanity. The actual incidents of the present campaign indicate the wide difference between United States and Canadian ideals. The Globe, supposed to represent Canada's highest standards, contaminated by the influence of Washington, poisoned by American political methods, has sunk so low in the practice of personal abuse, vilification, misrepresentation, bitterness and every art of political debasement that its best readers are astounded, and its old friends are ashamed. If United States influence could so degrade a newspaper with the reputation of The Globe, does Canada as a nation desire to lay itself open to such sinister and corrupting influences?

### The Bedraggled Plume

Sir Wilfrid Laurier, who has been admired by us all in the past, has himself succumbed to the miasmic vapors that arise from the United States political jungle. He, who least of all, should have been expected to do it, in his malarial delirium, has taken to raving of race and creed and class, and betrays at last the senility of seventy. Apparently nothing interests him but the grip of office. Canada and her destiny concern him not, who will have left but little time to answer the impeachments of her disinherited people. His sands of time are sinking? Let Canada perish, so that Laurier be left in power! That is the motive behind the government campaign. All that discredited governments have done in the past: all that they have learned of the crooked arts of politics in the United States: all that their own degenerate cunning could devise in this election to debauch the electorate, and everything that has been done has been charged to the opposition? The people are not blind. The readers of The Globe are not utterly obtuse. Only the truth finally prevails.

### N. Y. SUN ADMITS BORDEN GAINS.

In a forecast of the election results in Ontario, The New York Sun's correspondent places the result at 25 for reciprocity, 81 against reciprocity, a gain of 11 for the Conservatives. The standing in the last house was 50 to 33. The Sun thus anticipates a change to 61 against reciprocity, and only 25 for it.

### The People Know

We are willing to rest the case on the intelligence of the people. They know who has shown envy, hatred and malice. They know who has been reasonable and moderate and faithful to facts. They can judge who best represents Canadian ideals, and they can decide whether Canadian ideals or United States are what they want. The best men of the Liberal party have come out in hundreds to repudiate the unholy alliance between Ottawa and Washington. The rank and file of the Liberal party have been amazed and disgusted by the methods of the Liberal machine. Here in Toronto the unscrupulous and utterly mendacious attacks made on Mr. Kemp, on Mr. Bristol as late as yesterday, probably to be renewed and expanded to-day; the utterly foundationless story circulated about R. L. Borden and the Jews, with whom he has always had the kindest relations; and the general campaign of iniquitous slander have all served to defeat their purpose. People know that even the Conservative party is not so black as The Globe would represent. But it was easier to revile again than to explain the facts set forth about the Liberal government. Facts are sufficient.

### A Canadian Leader

Mr. Borden may not be the cleverest man in America, but he is a decent, honorable gentleman and he has the average and more than the average share of brains. He represents the Canada that Canadians are proud of. Sir James Whitney was belittled in his time by The Globe and other Liberal organs. Sir James has made good where The Globe pets have made bad. R. L. Borden will make good also. Canadians will elect him to-morrow.

### FOR CANADA.

There was a flag, the fairest flag, Wide to the heavens that flew; Whisper it low, it was a flag, Barred o'er with red and blue, And whiter than our northern snow The argent glimmered, And oh! that flag had felt the drip Of heroes' blood like dew.

Where is it now? They sell it, friend, Out yonder in the mart. It is in dear old snow should it be? To a cold and alien heart. But the wounds of them that died for it In their children's children smart.

They came with fair and specious words, The wily trader folk. They urged on us a seeming gain And fine and smoothly spoke— Might we for silver pieces new Our loyalty revoke.

For milk we ask, and bread and meat, To dole to hungry men. Yea, so the furnace fire of wealth Be tended, might and main; For woe to have, ye what ye had, And waste will ye again.

We'll trade you any useless thing That's made beneath the day— Made cheap by childhood's feeble hands. That never learned to play. We'll trade it for your good, brown wheat. And your birthright sold away.

Oh! let them in the open door, Set wide each stubborn gate; Proclaim abroad a market day, To all who dare compete With a folk who sell young flesh and blood.

For gold or a coronet. Ah! where is laid the fairest flag That ever kissed the air? Will it float above the alien smoke, And a people's dumb despair, When every fire we lit shall die, And their rise everywhere?

Will it float above your children's sons, Bowed to the will of toil and woe, In the iron grip of hands of steel, Greedy, relentless, slow. Made gross with lust and luxury, And power no king may know?

Oh! fools that sell the fairest flag, Wide to the heavens that flew. The flag of light and liberty, Spread bright with loyal blue— With red for hearts magnanimous, And white for pure and true. Oh! sacred flag, that felt the drip Of heroes' blood like dew.

—Laura E. McCully.

### FARMERS SEE THE POINT.

Thirteen car loads of harvesters returned from the west yesterday. On the way down a vote on reciprocity was taken. The result showed seven men only in favor of reciprocity. It was stated that sentiment in the northwest is swinging round to patriotic and national views of the situation, and the British-born are deserting the Liberal party.

### ELECTION RETURNS.

The election returns to-morrow night will be shown on a sheet in front of The World office in West Richmond-street. The public will find this a convenient location from which to view the result, as the returns will be posted direct from the telegraph wires in The World office. A series of comic views will be displayed.

### PREPARING TO CONTROL OUR MARKETS

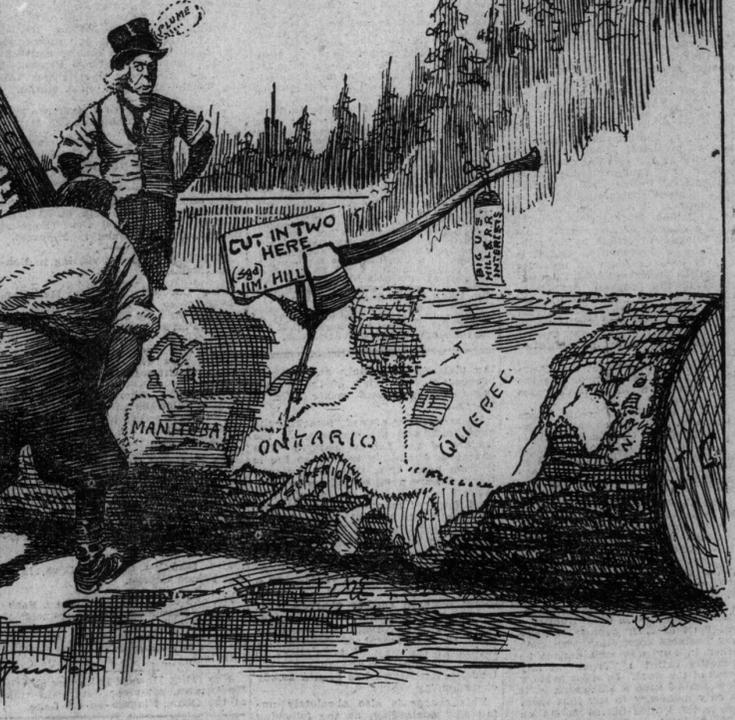

Secret Circular Sent Out by American Department of Commerce and Labor—U. S. Manufacturer Should Control Canadian West, It Says.

HALIFAX, Sept. 19.—The Halifax Herald to-morrow will publish a secret and confidential circular from the department of commerce and labor, Washington, dated Sept. 1, 1911, enclosing the report of United States Consul-General John E. Jones, of Winnipeg, under date of Aug. 23, 1911. The department, in a preparatory note, says the report commands the earnest consideration of the trade organizations and business men of the United States, and that the information should be discreetly to the organizations to which it is sent. The circular begins by stating that persons receiving the circular are cautioned that the information contained therein should not under any circumstances be published, and that same is furnished with the understanding that it is to be used only for the benefit of American firms and individuals. The report is based on the prospect of a reciprocal understanding between the United States and Canada, and proceeded to say that AMERICAN MANUFACTURERS SHOULD INVESTIGATE THE WESTERN CANADIAN MARKET, WHICH FOR MANY REASONS SHOULD BE ABSOLUTELY CONTROLLED BY AMERICAN MANUFACTURERS. Western Canada is growing at an enormous rate, the circular says, and it is expected that the population of the west, at the conclusion of the present census, will show an increase of several millions. Being closely in touch with these markets, the consul states that he realizes its importance to American trade and believes the seriousness of the situation to-day demands the earnest attention of every manufacturer in the United States. The document closes with a reiteration of the importance of western Canada as an American market.

### WATCH THEM!

They would cut in two and ruin the national log.

### ENGLAND IS THE MONEY BAG OF THE WORLD

England lends Canada all the money she needs for federal purposes, provincial and municipal purposes. She fills up the coffers of the loan companies, the railways, and all the public utility corporations get all their money in England. And they are getting it by hundreds of millions a year.

England will lend little or no money to the United States. She lacks confidence in American financial methods.

Reciprocity will make England more or less suspicious of Canada—we will lose her confidence.

Our one best asset to-day is the confidence the London Money Market has in Canada and Canadians.

It is an easy thing to destroy this: all we have to do is to start drifting toward Washington and adopting American methods.

Don't trifle with the best thing we have!

### BULLDOG AGAINST PACT

Captain Woolner, the Owner, Adopts Ingenious Plan to Further Campaign.

A ferocious looking bulldog promenaded along the waterfront yesterday afternoon with a dog's cart and on both sides were printed the words "against reciprocity." The dog was owned by Capt. Jas. Woolner of the freight steamship Dundee.

### VAN HORNE MAKES PATRIOTIC APPEAL

Received Enthusiastic Welcome When He Appeared on a Political Platform for the First Time—Reciprocity Unsparingly Condemned.

MONTREAL, Sept. 19.—Sir William Van Horne appeared to-night in Montreal on a political platform for the first time. The Monument National, in the heart of St. Lawrence Division, was crowded to the doors to hear him and he received an enthusiastic welcome. Sir William's theme was reciprocity, which he attacked unsparingly, both from the economic and national viewpoint. He addressed his appeal to all the various elements, which make up the population of the division, having something to say to French, English and Hebrew alike. Mr. G. F. Johnston, the opposition candidate of the division, also spoke to the electors.

After brief introductory speeches by local orators, Sir William was called upon. Sir William Van Horne was received with loud applause when he rose to speak. He devoted his address entirely to the reciprocity issue, opening with the following words:

As a Citizen of Canada. "I do not come before you as a politician, nor do I speak for any corporation or special interest. I speak only as a plain business man who has the interests of the Dominion of Canada very deeply at heart. It does not matter to me which political party is in power at Ottawa so long as the material interests of the country are protected and promoted. I have never in my life voted at an election, but I shall cast my first vote Thursday against reciprocity. This silly and dangerous thing is not a question of men or of party. This observation applies particularly to the members of the farming community. Notwithstanding the power of government patronage, I believe the election will result in a victory for the opposition. I believe that the true state of public opinion will be manifested on election day, and the government will suffer defeat.

"The opposition to-day comprises not only the Conservative party, but thousands of Liberals who are working earnestly to avoid what they believe to be a national calamity. Government Completely Worsened. "The campaign is now practically over so far as argument is concerned, and there is no doubt that the advocates of reciprocity have been completely worsted in the argument. It only remains to do the necessary work of pulling the vote.

"To-day, I believe that there is not a single constituency in Ontario which is really safe for the government. It is sincerely to be hoped that every man who feels the importance of defeating this ill-advised and improvident surrender of our national interests will not cease to work for the good cause until the election is over."

"With earnest and enthusiastic work during the next two days, I am confident that we shall win. "When it came before the American congress reciprocity was supported by a large majority of both political parties. They had much to gain and they ignored party lines. We have much to lose if it and we should likewise ignore party lines."

The speaker then outlined his reasons for opposing reciprocity. It would, he declared, destroy Canada's fiscal independence; it was supported by many

### THE PARTING OF THE WAYS.

Before he casts his vote to-morrow, we trust every reader will take the trouble to read the article on page 8, on the "Bloodless Conquest of Canada." We are at the parting of the ways, and this election means a step away from Britain or a closer union for Canada with the empire.

HAMILTON HAPPENINGS

SIR WILFRID WORKING FOR FREE TRADE GOAL

Reciprocity Will Only Be Supported By Hide-Bound Partisans.

HAMILTON, Sept. 19.—(Special).—Another rousing meeting on the reciprocity pact was held in the Conservative headquarters for ward seven, where a packed house again greeted the speaker this evening. Samuel Barker, M.P., was the principal speaker, and he aroused great enthusiasm in his treatment of the question. He declared that at heart Sir Wilfrid Laurier was a free trader, and that he had been working towards his goal in dealing with the United States by first trying to get unrestricted reciprocity. This was turned down, and he then tried commercial union. Now he wanted reciprocity in natural products. Mr. Barker declared that no loyal Canadian would willingly vote for the treaty, but that a great many hide-bound partisans would do so. In reply to the criticism that the Conservative party were in an alliance with the Liberals and their followers, the speaker asked if the Conservatives could be accused of disloyalty because in this election they were associated with good Liberals who were bolting their party on the reciprocity question. Frank Quinn, Wm. Bell, K.C., and C. R. McCullough also addressed the meeting.

Lineman Fall From Pole. John Spalis, a lineman for the Bell Telephone Co., fell from a telephone pole on which he was working early this afternoon and broke his wrist and was otherwise painfully but not seriously injured. He was taken to the city hospital.

Jas. Fuller, 219 Wood-street East, was locked up to-night, charged with touching one Pat Garrity.

In preparation for the rigors of the coming winter it is alleged that William Challener, 39 Murray-street West, filled a cell at the police station, charged with theft.

A Rate War? The possibility of a rate war between the Cataract Power Company and the city in the matter of supplying electrical energy has been suggested by a letter, which it is supposed the manager of the Cataract has written the city, asking if the municipality desires a conference in the matter of rates. Mayor Lees was out of the city on the 19th and it could not be known whether or not the letter had been received. Sentiment in civic circles, however, seems to be opposed to the principle of any agreement between the city and the company on the rate question. If the company sees fit to ask for a rate war, the city will probably fight the matter out.

HOW THE GLOBE FALLS. Bases Editorial on Utterance of a Liar, Who Was Also Drunk.

Editor World: The Globe refers in an editorial to an interrupter at one of my meetings who claimed to work for the company in which I am interested for six dollars a week. The man in question was not only intoxicated, but he never was in the employ of any company with which I am connected. He was a professional interrupter, and when he had made the living statement and got it reported his mission was ended. The men who work for the company with which I am connected get just as good wages as those who work for The Globe, or those who work in any other factory in Toronto.

The Globe has indeed a poor cause when it descends to such tactics. A. E. Kemp.

Morriscy's No. 7 and Lini-ment Cured His Knee—"Feels Good as New."

St. John, N. B., April 12, 1911. "I am glad to report that my knee is completely cured of Rheumatism—thanks to Father Morriscy's No. 7 Rheumatism and Kidney Pills, which they alone are responsible for my cure. I was troubled for a number of years and tried everything I heard of, and needless to say spent quite a sum of money without any results. I have no further trouble now, and my knee feels as good as new. I was personally acquainted with the late Father Morriscy and know his remedies are good. Anyone suffering from Rheumatism and kidney troubles should by all means try No. 7 Tablets, as I can cheerfully recommend them."

WALDRON WELL DEVELOPED GUN MATTERS OF FACT

Correspondence Printed That Weekly Sun Man Declined to Let His Readers See.

Editor World: In fairness to myself and to my fellow citizens who have shown their confidence in me by twice electing me to represent them in the Ontario Legislature, I desire the favor of placing before your readers my side of the controversy with Mr. Gordon Waldron.

Waldron was not a candidate and up to that time had taken no public part in this election. Mr. Waldron saw fit to publish what I considered to be a very unfair and misleading article in his paper, The Farmers' Sun, regarding myself and the business with which I am connected. To this article I replied in the following letter:

Editor Farmers' Sun: I do not usually reply to personal attacks, but my attention has just been called to an editorial in your issue of the 2nd of August under the caption of "The American Trust in Canada," which is so absolutely unfair and misleading that I must ask you to give this letter the same publicity as the original charges.

Your first statement is that I am opposed to the British preference. This is absolutely untrue. On the contrary, I have been in favor of a British preference for more than a quarter of a century. This can be readily verified by my publications and speeches, and it is largely because I am an upholder of the British preference that I am opposed to the proposed reciprocity treaty with the United States, because I believe with President Taft and James J. Hill that such a treaty will effectually prevent any further extension of our inter-imperial trade.

You further state that the American Watch Case Company is the concern making watch cases in Canada. This is entirely incorrect. There have been seven watch case factories established in Canada. Of these, the P. W. Ellis Co., and ourselves are the only ones still engaged in the business, all of the others having failed to make their factories pay.

You also state that I sold out to an American trust and am now simply the nominal head of this business. It is true that I was fortunate enough to interest some of my personal friends in the United States in this business and that some of them are largely interested in one of the watch case companies and two of the watch movement companies in that country.

You also state that I am now a trustee of a "Trust" in any sense of the word. In order to show how absurd such a statement is, it is only necessary to say that there are in the United States more than half a dozen large watch case companies and half a dozen watch movement companies independent of each other. In interest some of these companies have an agreement between the city and the company on the rate question. If the company sees fit to ask for a rate war, the city will probably fight the matter out.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, converted into a hotel, and is now ready to receive all parts of the city. Erected in 1908, Modern and strictly first-class American plan. Rates \$1.50 per day. Thos. Hanrahan, proprietor. Phone 1465.

OLD LADY ALMOST CRAZY WITH ECZEMA

A Remarkable and Convincing Statement of the Success of Cuticura Soap and Ointment in the Treatment of the Pain, Itching and Burning of Eczema

"I, the undersigned, cannot give enough praise to the Cuticura Remedies. I had been doctoring for at least a year for eczema on my foot. I had tried doctor after doctor all to no avail. When a young girl I sprained my ankle three different times, paying little or no attention to it, when five years ago a small spot showed upon my left ankle. It was not until I had a doctor that I found out it was eczema. He drew a small blob from the ankle about the size of a match and about as thick, and he told me that the eczema spread to the rest of the foot. The doctors never could heal the hole in the ankle. The whole foot ran and itched and burned. My husband and my sons were up night and day wheeling me from one room to another in the hope of giving me some relief. I would sit for hours at a time in front of the fireplace hoping for daybreak. The pain was so intense I was almost crazy. In fact, I would have been for long at a time. One day a friend of mine dropped in to see me. No more had she glanced at my foot as she sat down as I did, and why in the world don't you try the Cuticura Remedies, she asked. I told her the doctors and their medicines, and not being able to sleep at all, I decided to give the Cuticura Soap and Ointment a trial. After using them three days that I had not slept for a long time, I was up for eight long hours. I awoke in the morning with but very little pain. In fact, I thought I was in heaven. After using the Cuticura Remedies for three months I was perfectly cured. I am now well and happy. I am a great believer in the Cuticura Soap and Ointment and am glad to have my story published. Send to Potter, D. & Co., 27 Columbus-st., New York, for free sample of each with 32-p. book.

The platform "wanton and without provocation." In view of the foregoing this would seem rather wide of the mark.

He accused me also of "attacking the good faith and the character of the leaders of the Liberal party." This charge is absolutely untrue. I have never attacked the good faith of any of the leaders of the Liberal party. I have gone out of my way to express my belief in the honesty and good faith of many of them, and have specifically Sir Wilfrid Laurier, Hon. Mr. Fielding, Hon. Mr. Paterson, Hon. Mr. Fisher and the Hon. Mr. Aylesworth. I have, however, attacked the policy, especially this reciprocity measure, as every Canadian citizen has a right to do.

Mr. Waldron further charges "that no man in Canada has been so assiduous as W. K. McNaught in his assaults upon the parliament of Canada for favors in the way of tariff laws to benefit his business and that his attendance at Ottawa has been a steady obsession." This charge is also absolutely unfair and misleading. The following will show. When I organized the American Watch Case Company in 1885, the duty on watch cases was 30 per cent. ad valorem. In 1897 this duty was lowered to 20 per cent. ad valorem, at which rate it has remained ever since, and I have never made any attempt to have it raised. Regarding the "Gold and Silver Stamping Act," which I am accused of introducing in parliament in 1906, I may say that this act was originated in Montreal. It came before the Manufacturing Jewelers of Canada and was endorsed by them and subsequently by both the wholesale and retail jewelers of Canada. The act was introduced in parliament by Hon. R. W. Scott; the then secretary of state, and was carried through both houses as a government measure. This act was so highly thought of by the government that the governor-general, in his speech upon the prorogation of parliament that session, alluded to it as a measure highly in the public interest. It is quite evident from what

he said that Mr. Waldron is utterly ignorant of the history, scope and effect of this act, and differs entirely from the leaders of the Liberal party regarding it.

Mr. Waldron also brought forward an extract from the recent judgment in the Sovereign Bank case as a reason why I should be considered unworthy of public confidence. In regard to this judgment I am advised that it undoubtedly will be reversed at the appeal, which will certainly be made against it. So far as the story of the Sovereign Bank failure has been given to the public, and that the charges against the directors. Some day, perhaps in the far distant future, the true and complete story will be told, when it will be found that so far from being guilty of any wrongdoing, the directors of the bank should be entitled to the thanks of the shareholders, whose money they endeavored to save. Personally, I am contented to wait until that day comes for a complete vindication of my conduct in connection with the Sovereign Bank.

So much for Mr. Waldron's charges, and now just a few words in conclusion.

Mr. Waldron kindly invites me to enter an action against him for libel. Mr. Waldron has law to sell and to accept his up trouble. I am a busy man and much of my time is gratuitously devoted to the service of the public, and I cannot afford to waste my time and money upon a trial upon which a jury would be certain to disagree, according to their politics. His wish for a legal action will, therefore, not be gratified so far as I am concerned.

Further, it is Mr. Waldron that is on trial at the present time and not myself. He has asked for the confidence of the electors of West Toronto, and he will be judged upon his record, and I have no doubt that on Thursday next, when they hand in their verdict, he will find that his unfair and un-British methods of conducting a campaign will be properly resented.

W. K. McNaught. Toronto, Sept. 19.

## GOOD WORK ON HYDRO PLANT

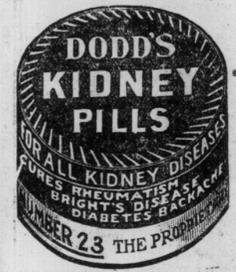

City's Only Difficulty Lies in Securing Labor.

"Work on the hydro-electric system is being rapidly completed," stated P. W. Ellis, chairman of the civic hydro-electric commission yesterday. The only drawback was that they could not get all of the labor they wanted. However, they were doing things as rapidly as possible. As for houses lighting they had been receiving orders from all over the city and excellent progress was being made in that work. Sponsons efforts were being made, he said, to have things so that the Toronto Electric Light Company could have all of their lights out by the end of September. There are 80 miles of streets in Toronto, so the work of stringing wires and putting up lights is a big task.

To Escort British Journalists.

Rev. Rex Crossdall, publicity manager of the C.N.R., has left for Saskatoon, where he will meet the visiting British journalists and conduct them on a tour of the company's line through north Saskatchewan. It is expected that the party will leave Saskatoon on Sept. 21 and visit Prince Albert, North Battleford and Lacombe, and will then return to Winnipeg, arriving there on Sept. 23. The visitors will inspect several large grain farms.

The tour is under the auspices of the Canadian Northern, and the idea is to show the journalists the possibilities of Western Canada.

## NEW WORLD'S RECORD GRAND CIRCUIT RACES

Peter Thompson, 3-Year-Old Gelding, Trots Mile in 2.08 1-4—  
Exciting Finishes.

DETROIT, Sept. 19.—Peter Thompson, bay gelding, driven by Serrill and owned by A. B. Cox of Paoli, Penna., won fresh laurels to-day at the Michigan State Fair grounds, when in the second heat of the Matron Stake, he established a new world's record of 2:08 1-4 for 3-year-old trotting geldings. Last month at Cleveland this same son of Peter the Great set the mark at 2:09 1-4.

All three heats in the trotting division of the Matron Stake were thrilling contests, and in each instance there was a whipping drive down the stretch and a close finish. Margaret Parrish, with Mainleaf close up, showed the way to the line in the first heat. Half way down the stretch Atlantic Express came thru with a rush and beat the others by a few lengths. In the second heat Atlantic Express, Margaret Parrish and Mainleaf raced side by side to the head of the stretch. Then Peter Thompson, who had been lying in fourth position most of the way, broke thru and shot under the wire a scant head to the good.

They were all well bunched in the final heat, and five of the youngsters came into the stretch abreast. In one of the fiercest drives ever seen on a Detroit track, Atlantic Express, slightly in the lead, was forced to a break a hundred yards from the wire, and crossed the line running with Peter Thompson. The break cost the Bellini colt the race as the judges set him back to second position.

Charley Mitchell easily won the 2:11 trot, finishing the third heat in a common job. With Sir R. breaking badly and dislocated in the first heat of the 3000 pacific division, there was nothing to worry Hal B. Jr., the Canadian stallion, he winning in straight heats, eased up. Only three youngsters entered in the pacing division of the Matron Stake. The race was a procession, with DeForest leading from wire to wire in both heats. Summaries:

# WARNING. ROORBACH NAILED

On the Evening of Election Day, 1908, in speaking to the Electors I referred to the nature of the ridiculous and untrue stories which were circulated by certain parties with a view of accomplishing my defeat. I am reported in the "Mail & Empire" as follows:

"Mr. Kemp then referred to the ridiculous stories that were circulated to injure him by certain disreputable persons who had no standing in the community. Those persons were the scum of the earth and fought him below the belt."  
"Correct Copy, Editor 'Mail & Empire'."

An anonymous circular is now being distributed in which there is a labored effort made to try and make it appear that I referred to the Voters of East Toronto in general as "the scum of the earth," instead of to those who invented and circulated these malicious falsehoods, and whom I charged with the offence. The effort is not only childish but it is, in my estimation, most unfair fighting.

The report clearly shows that no reference whatever was made to the Electors but to a few of Mr. Russell's Workers who filled the Constituency with falsehoods against me and sought to defeat me, not by fair discussion of public questions but by slander and vilification. The scurrilous document which is now being distributed ventures to appeal to the workingmen who are my most loyal and enthusiastic supporters.

This unfair and final effort of Mr. Russell, I submit, is not only an insult to the intelligence of every voter in East Toronto, but it is so thinly veiled that any one can see that the whole object is to create a false impression. The Electors on Thursday night, undoubtedly, show their resentment of such tactics.

During the campaign I have confined myself to the discussion of the Great Issue now before the Electors, the question of the Reciprocity Agreement made between the Government of Sir Wilfrid Laurier and President Taft, to which agreement I am uncompromisingly opposed, and while I feel that Mr. Borden and his followers will win the Election, even in the event of Sir Wilfrid Laurier being returned to power I shall still hope to accomplish its defeat, as I earnestly believe it is not in the interests of Canada.

A. E. KEMP.

GUilty OF ASSAULT.  
A charge of aggravated assault was preferred against John Stewart, Jas. Sullivan and Phil Moylan, before Judge Winchester in the court of general sessions.  
Wm. Bowen, who claims that he was assaulted, occasioning actual bodily harm, was going along Eastern-ave. on his way home from work on Aug. 15 last. Stewart, Sullivan and Moylan were standing on the street and when he attempted to pass them, they refused to make way for him, and he was struck. A free fight ensued. The scuffle, came out, and received several blows.  
A verdict of guilty of common assault was brought in against Stewart, Sullivan and Moylan. They had a long record of previous convictions. They were unable to furnish bail, and remain in custody.

ETNA AGAIN ACTIVE.  
CATANIA, Sicily, Sept. 19.—The eruption of Mount Etna, which yesterday seemed to be calming down, to-day resumed its former activity. It is feared that eight peasants have been cut off by the lava. Shots from their guns, evidently to attract attention, were heard, but no aid could be given, as nobody was able to approach the spot because of the floods of lava.  
Piles, fissures, etc., successfully treated without an operation. Write for free booklet and references, Dr. Hawke, 21 Wellesley-street, Toronto.

## Genuine English-made Overcoats

From English and Scotch Material

Men who know best are demanding the ample, roomy, classy coats known as the English Models. Not content with imitations, our buyer purchased them direct from the maker who supplies the leading Men's Tailoring Establishments of world-wide reputation in London, England. There are a number of the newest designs in Men's English Hand Tailored Overcoats, each made with a distinction and style of its own. Among these styles are found the well-known Guards, Aintree, Balmacoon, and other favorites for the present season.

One or two clothing experts just returned from Europe, by way of New York, report that the very same goods are now displayed by the leading New York Men's Clothing Specialists at one-half more money than we mark them.

Come and see these swaggar garments on Thursday.

Here are some descriptive details:

At \$24.00—A dark brown, grey and green mixed ulstering, in heavy weight, made with the English Raglan shoulder, single-breasted, fly-front style, slash pockets, cuffs on sleeves, lined through the shoulders and sleeves with the best of English satin. ## A Three Days' Sale of Linoleum and Oil Cloths

Thursday, Friday and Saturday

We have been fortunate in completing a great purchase of floor oilcloths and linoleums at an unusual price—some discontinued patterns, some pieces slightly imperfect, some perfect new stock, but with the price very much cut. Our usual linoleum sales are for one day only, but this is a sale of such great proportions—such an enormous quantity of goods are represented—so great are the actual price reductions that three days will hardly suffice to effect the sale.

HEAVY CORK LINOLEUMS, 33c. Two yards wide only, carpet, matting and block patterns, slight imperfections in design but nothing to affect the wear. Per yard ..... 33

SCOTCH CORK LINOLEUMS, 37c. A great range of beautiful patterns, well seasoned, heavy linoleum, a very special bargain. Per yard ..... 37
