Ogdensburg, N. Y., Jan. 11.-As the result of a family feud between the families Feuds Fatal Edited Says: "No amount of eloquence can equal the wonderful accomplishments of Golden Specific. It is the greatest temperance worker the world has ever seen. I have known it to cure drunkards who were always too drunk to even attend a temperance lecture. Every woman should do her best to make Golden Specific a household word,"

Mrs. Irene Florence, Box 138, Franklin, Warren County, Ohlo, says:

"I had for years patiently borne the disgrace, suffering, misery and privations due to my husband's drinking habits. Hearing of your marvelous remedy for the cure of drunkenness, which I could give my husband's drinking habits. Hearing of your marvelous remedy for the cure of drunkenness, which I could give my husband secretly. I decided to try it. Imixed it in his food and coffee, and, as the remedy is doorless and tasteless, he did not know what it was that so quickly relieved his craving for liquor. I soon found out that my mission was a complete success and that Golden Specific had wrought almost a miracle for me. I want others to profit by my experience, and if you want you are at liberty to refer to me as having told you about this mervalous remedy."

GOOD-BYE COUNCIL OF 1900 President of the Methodist Conference.

Rev. S. D. Chown, D.D., Writes a Letter Praising Powley's Liquified Ozone.

CONDENSED OXYGEN SYSTEM OF CURING DISEASE.

Powley's Liquified Ozone is a new preparation of condensed oxygen. It is the new system of curing disease. Now you may not know about the preparation and you may think we are interested when we tell you about this new discovery, so we do the very best thing possible—get reputable people to endorse our preparation after

using it themselves. Powley's Liquified Ozone is a splendid treatment for all throat or lung affections. It soothes the inflammation in the bronchial tubes quickly, stops the coughing and gives nature a chance to build up the raw tissues after the germ attack. Powley's Liquified Ozone cuts the phlegm and breaks up a heavy cold or grip in a night. If you take it hot before retiring it will make you feel as clear as a bell next morning.

This is what Mrs. Chown says about the way Powley's Liquified Ozone cures Bronchitis: "I have much pleasure in testifying to the curative qualities of Ozone. Since Aid. Sheppard, having moved that the naugural meeting of Council be held in the had four attacks. I consider that for inflammation of any kind Powley's Liquified Ozone

The manufacture of furniture is one of the principal industries in Canala. The supply of raw material is abundant, and can be obtained at a low cost. The industry in the manufacture of the manufacture of the manufacture of the leading countries for the leading countries

Owing to the increasing population and the growing prosperity of the country, the definition of the factories.

Of the production of the factories.

The export trade has only within the last few years been cultivated. Canadian furniture is now being shipped to Great Britain and other countries, and the outlet in the export trade has only within the last few years been cultivated. Canadian furniture is now being shipped to Great Britain and other countries, and the outlet in the export trade has only unlimited. Valuable connections for the export trade have already been formed, and, in addition to the foregoing Factories, the Company will this direction is practically unlimited. Valuable connections for the export trade have already been formed, and, in addition to the foregoing Factories, and the company has acquire the business of THE FURNITURE MANUFACTURERS' EXPORTING COMPANY. LIMITED, of Berlin, Canada, and Liverpool, England, which Company has been acquire to favorable terms, after the organization of the Company also has an option to acquire, on favorable terms, after the organization of the Company has been completed, the business of the ANDERSON FURNITURE CO., LIMITED, of Woodstock, the largest furniture manufacturing establishment in Canada, the pany has been completed, the business of the ANDERSON FURNITURE CO., LIMITED, and the company control of over 75 per cent. of the output of Canadian factories.

The increase in the Furniture Export trade of Canada during the last four years July, 1900, were as follows:

The businesses to be acquired comprise some of the oldest and most important in the trade, and the factories are situated in the best localities for raw material, labor and shipping. They are equipped with the latest plant and machinery, and are capable of greatly increased production with small additional outlay, and many of them have sawmills of their own, which will become the property of the Company. The Company will thus be in a position to carry on its operations in the most profitable manner.

PROFITS.

The accounts of the 17 Furniture Manufacturing businesses as enumerated above have been examined by Messrs. Jenkins & Hardy, Public Accountants, Toronto, and We hereby certify that we have examined the books and accounts of the 17 businesses set forth in the foregoing Schedule, to arrive at the profit for the two years and we hereby certify that we have examined the books and accounts of the 1. Businesses to the seven months ending 31st July last.

As the stocks of the businesses had been taken and the books closed at varying dates, it is impossible to show from the Accounts the actual separate profits for the years ending 31st December, 1898, 31st December, 1899, or for the period ending 31st July, 1900.

We find that the aggregate profits of the businesses for the above-mentioned period amounted to \$517,996.13, which, after making certain necessary adjustments and the charging expenses of management, excepting managers' salaries, we apportion as follows:

In arriving at these Profits the cost of maintenance and repairs of Plant and Machinery has been charged as an expense of the business, and provision has been made eciation, but Interest on Capital and borrowed money has not been charged.

Yours faithfully,

It will be seen from the Accountants' Statement that the profits of the last three years have been progressive; the amount necessary to pay the 7 per cent. dividend on the \$1,300,000 Preference Stock, now issued, being \$91,000, is (on the basis of the profits necessary to pay the 7 per cent. dividend on the \$1,300,000 Preference Stock, now issued, being \$91,000, is (on the basis of the profits of the last two years) more than doubly secured, and leaves an ample surplus for providing for the Reserve Fund and paying the dividend on the Common Stock.

It is anticipated that the above profits will be considerably increased as the result of the amaigamation of the businesses.

ADVANTAGES OF AMALGAMATION.

Among the advantages to be gained by this consolidation of interests the following may be cited:

1st. The purchase of lumber and goods in larger quantities and on better terms.

2nd. Avoidance of unnecessary competition.

3rd. Saving in cost of distribution.

4th. "Specializing" the manufacture of particular goods, which means that instead of each factory having to manufacture many different kinds of furniture, certain factories will undertake special lines.

5th. Development of export trade. MANAGEMENT.

The Board of Directors include the representatives of some of the principal businesses acquired and it is also intended to retain the services of most of the old managers, so that the management of the Company and the superintendence of the various factories will be in the hands of experienced

manufacturers, who have been successfully identified with the furniture trade for many years.

After paying for the various businesses, there will remain a sum of over \$500,000 for the purchase of the stocks-in-trade to be taken over by the Company at valuation and for working capital and the general purposes of the Company.

The price to be paid by the Company for the above-mentioned businesses has been fixed at \$1,859,972, payable as to \$263,472 in cash, \$525,000 in fully paid Preference Stock, \$1,000,000 in fully paid Common Stock, and \$71,500 in mortgages on the perpetty. Stock-Taking Sale

Since the holidays we've carefully inspected the stocks in several departments preparatory to our inventory. We'll continue this investigation throughout the store, and will begin on Monday a Stock-taking Sale with buying chances such as occur at no other time of the year and in no other store. Our stock is all fresh and new, but we've a very rigid time limit here on goods, even the goods of standard makers bought every month. There's no reason for turning them out other than that we call it good store-keeping not to carry goods over from one season to another. Now, if your time to buy fits in with our time to sell, you'll be many dollars in pocket, for we turn these staple goods into money with no thought of profit to ourselves except the ultimate profit of your good-will. Every item of to-day's store news merits your special attention, and hundreds of others not specially mentioned will equally well repay your visit.
