SENATOR O'DONOHUE DEAD

Age 78. Home on Church-Street at Age of 78.

Called to the Senate in 1882

Twice Contested East Toronto for the Commons—Sat Two Years in City Council.

The death occurred at 6 o'clock on Sunday evening at his residence, 100 Church-street, of Senator John O'Donohue, one of Toronto's best known and oldest barristers. Senator O'Donohue had been in failing health for a long time, but his illness did not cause his friends any anxiety till two days ago. He is survived by one daughter, Mrs. John Bennis, and his niece, Miss O'Reilly, who was his constant companion and who accompanied him to Ottawa to be with him during parliamentary labors. The funeral will take place to-morrow morning at St. Michael's Cathedral, thence to St. Michael's Cemetery.

Senator O'Donohue was descended from the ancient family of his name, being their chief seat at Glenties, County Kerry, Ireland. He was born at Tuam, Galway, April 18, 1824, and was educated at St. Joseph's College. The family came to Toronto in 1839, and the senator resided here ever since. For some time he was engaged in commercial pursuits, but was called to the bar in 1849 and began the practice of law. He was appointed a Q. C. in 1867.

In 1867 Senator O'Donohue entered municipal life, having been elected alderman, and was successful in 1870, 1871 and 1872. In 1872 he was elected to the Commons, being unsuccessful both times. He was called to the Senate May 31, 1882.

He was secretary of St. Patrick's Benevolent Society during the presidency of the late Hon. Robert Gordon, and held the office of president for many years after Mr. Baldwin's retirement.

In 1848 Senator O'Donohue married Charlotte Josephine, daughter of Dr. Bradley of Toronto, who died in 1851.

WOMAN PROBABLY MURDERED
Body Found in Canal, and Coroner Says Strangulation.

Bellow's Falls, Vt., Dec. 7.—Whether a case of murder or suicide is the question presented by the discovery to-day of the body of Miss Helen E. Berron of Rutland, Vt., in a paper mill canal, with a strip of lace and a piece of clothing about the neck, and a long tongue protruding from the mouth. A verdict of death by strangulation was rendered at the inquest held this afternoon, and also the police have no tangible evidence to lead them to the woman who was killed. It is thought the matter will be thoroughly investigated. Miss Berron was 64 years of age, and had lived in Bellow's Falls, Vt., for many years. She left Rutland last Monday, saying that she was going to Stratford, but instead she was found in the canal. Her body was found on Monday afternoon. On Tuesday a traveling bag belonging to her was brought in by a local man, but by a man whose identity has not been established.

Pilot on C.P.R. Engine on I.C.R. 70 Miles West of Halifax Trips Up a Train—Fireman Hurled from Cab and Picked Up Unhurt in a Field.

Halifax, N. S., Dec. 6.—The worst train wreck in the history of the Intercolonial, the Canadian government railway, happened at 1 o'clock this afternoon at Belmont station, 70 miles from Halifax, when the Canadian Pacific express for Montreal rolled down an embankment, killing seven people, injuring a score of others, and completely wrecking the locomotive, the postal express and baggage cars and several passenger coaches.

Dead and Injured.
The dead are:
William B. McDonald, aged 45, of Cambridgeport, Mass., who had been visiting relatives in New Glasgow.
William Kennedy, aged 23, of Black Rock, N.B.

NO NEED OF PUBLIC MONEY

Sir Charles Tupper Thinks Grand Trunk Can Get Enough from Private Sources.

Investors have faith in the west. Mr. Tarte the ablest man in the Liberal Party, Veteran Politician Says.

Montreal, Dec. 7.—"There cannot be the slightest doubt that at the present time it will be easier to secure the entire capital required for the Grand Trunk transcontinental railway from Canadian, British and American investors, and without any government assistance, than it was to secure that of the Canadian Pacific Railway twenty years ago, even with all the subsidies granted by the government. My particular reason for saying so is that, for the present time, everyone has great faith in the possibilities that will arise from the construction of the new line."

This was the statement made by Sir Charles Tupper, who, twenty years ago, was one of the members most in favor of granting a subsidy to the Canadian Pacific Railway to build its line thru the prairie districts of the Northwest and the Rocky Mountains to the Pacific coast.

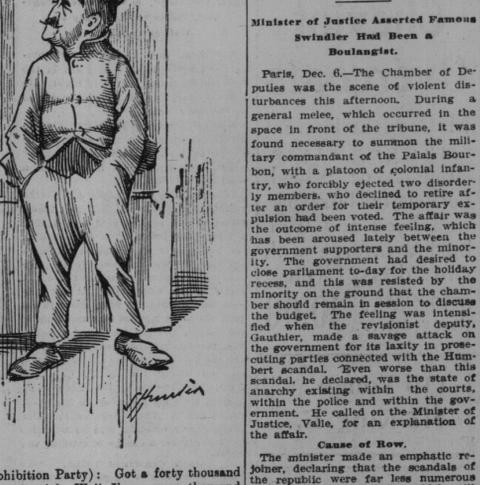

"But then, of course," Sir Charles went on to say, "I do not know whether it is intended that any subsidy should be asked for. I am only making a statement of what I know of the country and faith I believe men have in it."

"And now that Mr. Tarte has left the cabinet, would you volunteer an appreciation of his ability?"

"I have no doubt," I would say that Mr. Tarte is the ablest man in the Liberal party, and when the cabinet test his services it lost those of the best man in it. He has never changed his views with regard to the all-important question of the tariff, and he is the best tariff for the country. His policy of high protection is not only a sound one, but it is the only one that will enable Canada to retain the position it at present occupies. Without such a policy Canada can longer retain its present position."

AWAIT REPLY FROM BRITAIN

Cattle Trade in New England States is at a Standstill, Owing to Disease.

Advices from Washington, however, to the effect that the British authorities have requested an official statement of the situation as regards the foot and mouth disease in New England from our government, and its opinion as to the wisdom of allowing cattle to be landed at Portland, gives reason to hope that some modification of the order may soon be made.

Dr. Salmon of the United States Bureau of Animal Industry stated to-day that it has been his intention to have the work of slaughtering the affected cattle begun by Tuesday, but the heavy snow about the State may cause a delay. Dr. Salmon has engaged a number of laborers, who will be sent to places in which cattle are to be killed, and to the trenches, in which the bodies will be buried.

Unless some changes are made in the plans of the Federal and State authorities every animal that has the disease or has been exposed to it will be slaughtered.

FAMILY STRUCK BY A TRAIN

James Rogers, His Wife and Three Children in a Havelock Smash-Up.

Mr. Rogers, his daughter and one son are badly injured, but hope of their recovery is entertained.

Mrs. Rogers is dead, and the other son is injured beyond hope of recovery.

Mr. Rogers is a much respected farmer, of about 40 years of age, living near this village. The train was on its way to the west, and the father, 14 years of age, and the daughter about 7.

The express always gives a long whistle when approaching this crossing, but it is supposed that, being hurried up on account of the late hour, the approaching train did not hear the approaching train.

The C.P.R. sent the injured man and his children to Peterboro Hospital by special train.

DEMAND GREATER CARE.

Whereas we have learned with regret that J. E. R. Birdsall, a member of Catear Lodge, No. 103, I.O.O.F., has the misfortune to have contracted smallpox, and further that the Board of Health have been somewhat negligent in the performance of their duties, inasmuch as they have not, unless very recently, properly quarantined the residence of the patient, and the inmates thereof from frequenting the public streets and places of business:

CITIZENS CATCH BURGLAR.

Two Shots Did Not Stop Him, But He Was Finally Put Down.

Ottawa, Dec. 7.—B. Nelson Gordon, who was sentenced a few years ago to five years at Kingston for burglary and subsequently released on ticket of leave, was rearrested to-night, being caught entering the house of Mrs. Mary Beaman, on Gilmour-street. The family was at church at the time, and the burglar was notified by Mr. W. S. Wood of the Customs Department, who lives opposite. Mr. Wood got a revolver, and going over to the house pluckily nabbed the thief. Gordon succeeded in breaking away, and Woods fired two shots over his head, but it had no deterrent effect. Woods then approached pedestrian to stop the man, which he did. The two men then got down and sat on him until Policeman George Bush arrived and took him to the station.

SOLOMON'S MIGHTY FORESIGHT

Jerusalem May Yet Get Water From Reservoirs Built by Him

London, Dec. 7.—A writer in The Home Messenger, in describing Bethlehem, says there are immense reservoirs there, built of solid masonry, which were undoubtedly the work of King Solomon. For centuries Jerusalem has suffered from a deficiency of water, but it occurred to no one to use these reservoirs. The late King Edward VII. had the reservoirs dug out, and the water conveyed to Jerusalem thru aqueducts following the very course designed by King Solomon's engineers.

Cape Town, Dec. 7.—In consequence of the dearth of living in South Africa, which obliges soldiers to spend practically all their pay on food, the War Office has decided to make a free issue of 1-2 lb. of potatoes per day to each man. These at present can only be purchased at extravagant prices.

TROOPS QUETTED DEPUTIES

Called Into French Chamber in Order to Remove Some Obstreperous Members.

NOISY ECHO OF HUMBERT SCANDAL

Minister of Justice Asserted Famous Swindler Had Been a Boulangerist.

Paris, Dec. 6.—The Chamber of Deputies was the scene of violent disturbances this afternoon. During a general melee, which occurred in the space in front of the tribune, it was found necessary to summon the military commandant of the Palais Bourbon, with a platoon of colonial infantry, who forcibly ejected two disorderly members, who declined to retire after an order for their temporary exclusion had been voted. The affair was the outcome of intense feeling, which has been aroused lately by the government's call on the Minister of Justice, and this was resisted by the minority on the ground that the chamber should remain in session to discuss the budget. The feeling was intensified when the revisionist deputy, Gauthier, made a savage attack on the government for its laxity in prosecuting parties connected with the Humbert scandal. Even worse than this attack was the declaration, by the state of anarchy existing within the courts, within the police and within the government, which was made by the Minister of Justice, Val, for an explanation of the affair.

Case of Row.

The minister made an emphatic rejoinder, declaring that the scandals of the republic were far less numerous than those of the empire, which still lived in memory. He closed with the assertion that Frederick Humbert had been a Boulangerist deputy.

All Records Again Broken

Ready For Next Year's Crop

Land prepared for crop of 1902—Breaking, 151,285; following, 563,730 acres; fall plowing, 1,015,870 acres; the total area prepared for the crop of 1902 is 1,730,905 acres. These figures are worth noting, for they are the basis of the outlook for next season's crop. They are far in excess of the number of acres ever prepared in any year for the following year's crop.

Of this year's wheat crop, nearly 30,000,000 bushels have been disposed of, the rest is held by farmers. The quantity from Manitoba and the Territories that passed inspection by the official inspectors up to Dec. 1 was 22,307,000 bushels. Of this quantity 11,352,000 bushels graded No. 1 hard, 6,844,000 bushels graded No. 1 northern, 2,100,000 bushels graded No. 2 northern and all other grades 1,917,000 bushels. This may be taken as a fair indication of the quality of our total wheat crop, the oat and barley crop being especially good.

The Whole Secret Of the Remarkable Success of a Remedy for Indigestion and Stomach Troubles. A New Remedy Which May Revolutionize the Treatment of Stomach Troubles.

Now Placed Before the Public and Bears the Endorsement of Many Leading Physicians and Scientific Men.

This preparation is not a wonderful discovery, nor yet a secret patent medicine. It is claimed to cure anything except dyspepsia, indigestion and stomach troubles, which which nine-tenths of our ailments are more or less affected.

The remedy is in the form of pleasant-tasting tablets or lozenges, containing vegetable fruit essences, pure aspic, pepsin (free from animal impurities), Golden Seal and dextrose. They are sold by druggists under the name of Sturt's Dyspepsia Tablets.

Many interesting experiments made with these tablets show that they possess remarkable digestive power, and are equally effective in curing indigestion.

Sturt's Tablets do not act upon the bowels as after-dinner pills and cheap cathartics, which simply irritate and inflame the intestines without having any effect whatever in curing indigestion.

It is the most popular, safest and most widely sold remedy for stomach weakness. This success has been secured entirely

PROF. DUDLEY'S PROPHECY.

St. Nicholas Will Come at 2 a.m. on April 14, 1911.

"When I think coming to the earth again? I know positively," Prof. Dudley, who made this statement in the Toronto Opera House on Sunday night, paused as if to wait for contradiction or to allow the full significance of his words to be understood. No one contradicted him.

"I know positively when Christ will return to this earth," he repeated; and then, by a process of reasoning, he proceeded to tell his hearers how he knew it.

The hour of Christ's second coming, he declared, would be 2 a.m. the day April 14th, and the year 1911. He argued that on that day a certain star would be visible in the heavens. It was the same star that announced the birth of Christ, and it would herald his second coming. There was no doubt about the matter in the speaker's mind. The world's most eminent astrologers agreed that the star would be visible on the day when the Son of Man would come again to rule the earth.

How would some of you like Christ to come when you are cheating your customers? Prof. Dudley inquired. "How would some of you merchants like Christ to come on Saturday night, when you are paying your girls \$2.50 for their week's work? And how would you girls like Christ to come and catch you loafing? You can all think your lucky stars that Christ has not come yet."

The speaker made a short digression to announce that he was not a socialist. He declared he was not an anarchist, and had produced more bloodshed between master and man than any other agency in the world.

He also during his address made the somewhat startling statement that there was not a man on the face of the earth who understood St. Paul's Epistle to the Hebrews.

At the close of his lecture he announced that he would meet a well-known socialist in public debate in Association Hall, the proceeds of which would go to the Anti-Consumption League. Dr. J. B. Barwick, who was present, accepted the offer, and gave a short account of the objects of the league.

An appeal was made by Prof. Dudley for \$100 to go towards defraying the expenses he had been put to. He asked 20 people to subscribe \$5 each. Dr. Barwick said he would give \$5, and another man and two ladies said they would give a like amount. There were no more who were willing to give \$5, so Prof. Dudley said he was willing to take \$1. Several raised their hands as if they would give that much, and then, after calling for 50 cents, the collection plate was passed around.

Butcher Shop Robbed. A Bow's butcher shop at 855 East Queen-street was entered by thieves between 9 and 10 o'clock last night. The lock on the front door was broken and the shopbreakers carried off a quantity of cooked meats. A small amount of money, which had been left in the cash drawer on Saturday night, was also taken. Detective Forrest is investigating.

WHAT ANNOYS KING EDWARD

Publication of Gossip and Chatter in Papers Does Not Meet With His Approval.

PEESESSES IMPART INFORMATION

But as Regards Private Life of Royalty, Lines Are Strictly Drawn Now.

New York, Dec. 7.—The Sun says: much as he appreciates the pomp and circumstance of royalty on public and state occasions, King Edward is annoyed by the publication of details of his private life, which have recently been constantly appearing in the daily and weekly newspapers.

After each visit of a theatrical company or individual performers to Sandringham or Windsor, the newspapers have been filled with interviews with the actors, who gave descriptions of the scenes. One actor described a conversation at a supper; another gave a kindly, appreciative account of the Kaiser's actions. An actress did much to describe the customs in the royal circle had been altered. The charity to be, as the short curtesy which was used in Queen Victoria's time was called, has disappeared, and all the women make awestruck curtsies. The slight bow over the sovereign's hand has been replaced by a very low bow, and the last two weeks King Edward has been kissing the hand of the King.

His Majesty has now intimated to his friends that he is of the opinion that the privacy of his home life should be as sacred as that of the meanest of his subjects. At a dinner one day last week the King declared that he disliked all interviews and personalities in the newspapers. Twice during the last two weeks King Edward has taken decisive steps to carry out the intention of the official one in the Circular. When the company returned to London it was noticed that every member refused to be interviewed. The exception was when the King gave permission for a special photograph of Sandringham for an illustrated magazine article, but he added that pictures should not be taken of any of the private apartments or the large reception rooms.

Sir Edward Russell, writing on this subject in the Liverpool Post, says: "It ought to be frankly pointed out that the most notable person in society themselves writes paragraphs about our doings. I know at least five peesesses who do not scruple to tell their intimates that they are doing this and that every week to a journalist, intimating where they have been. Indeed, the passion imparting information and self-advertisement is boundless."

Spirit of Gallant Poland. Berlin, Dec. 7.—It has just leaked out that during Thursday's violent scenes in the Reichstag over the proposition to pass the tariff bill in bloc, the Polish members sat in a subdued key the chorus of the Polish patriotic air: "Not Yet is Poland Lost."

PERSONALS. Ald. E. Fleming returned on Saturday night after a trip to the Northwest. G. W. Hastings, R.A., formerly of Toronto, is now advertising manager for Buller's, the biggest meat merchants on earth.

MARKS A NEW ERA FOR EGYPT—DUKE OF CONNORCH OFFICIALS. London, Dec. 7.—The opening of the Assuan Dam by the Duke of Connaught Monday will be a signal proof of the lightened methods of British policy. England was drawn into Egypt by the necessity of protecting the navigable waterway to India, and was compelled to act in spite of Mr. Gladstone's pledge that the occupation would be temporary. The permanent occupation has been justified by the threefold improvement of the condition of the population. The Assuan Dam, the result of the engineering skill and industry of British engineers, has done what has cost over £2,000,000. It has put the Nile valley under systematic irrigation, and has made the fertile soil and the water of the Nile available to the people of the Assuan dam are now closed to the storage of water until March 1. The sluices will then be open, and the water will be distributed to the fields of the Nile valley. The security of water control by a low Nile will be avoided, and a great increase in the agriculture of Egypt will be brought about.

ROOSEVELT A TRIMMER. London, Dec. 7.—The Saturday Review yesterday criticized President Roosevelt to the extent of a page. The paper calls him a "trimmer" and says he is paralyzed by the shadow of a second term. His cautiousness, the Review says, has now amounted to cowardice.

MINERS' CASE AGAINST THE MARKLES

James Gallagher Worked for Them 30 Years and Only Received Pay in Money Once.

Scranton, Pa., Dec. 6.—The miners have finished their attack on the Cox mine in the Hazleton region, and have turned the attention of the commission to the collieries of G. B. Markle & Company, in the same locality. The witnesses for the mine workers scored what appeared to be telling points with regard to wages and other conditions prevailing in the mines of this independent company.

The principal witness called against the Markles was James Gallagher, who worked in the Markle mines for 30 years. He claimed the wages were so low that he was always in debt to the company, and that in 17 years he only once received money in wages, and that was \$50. He further testified that he had to deal with the company's store, the only place where the miners could get credit, and that the prices were from 10 to 20 per cent higher than in other places. The witness could get credit, and that the prices were from 10 to 20 per cent higher than in other places. It was only when the company was prepared to cross-examine the witnesses on all things they testified to, and the commission has granted the company privilege of recalling the witnesses.

Rev. H. S. Magee of the Junction Says the Referendum Will Result in Good to Temperance.

BODY OF MRS. ROBINSON ARRIVES

She Died at Sea on Dec. 2.—Linenman Slightly Burned—Funeral of Mrs. McBride.

Toronto Junction, Dec. 7.—Rev. H. S. Magee, pastor of Davenport Methodist Church, preached tonight upon the aftermath of the referendum. He said the result of Thursday's voting came as a surprise to all. The time of year was unfavorable to the vote in country districts. Had the roads been good the requisite number of votes would have been polled. The temperance people were very much surprised at the results in the cities. He was proud of Toronto Junction, which gave a vote of 30 against the plebiscite, and had given a majority in favor of the referendum of over 300. It had been to embarrass the Ross government, but he did not for one moment believe it. To have done that, had the referendum carried, would have been to throw the elections with the government. He believed the change was due to moral influence. With few exceptions, all the towns, cities, villages and townships had expressed themselves in favor of the closing of the saloons. He thought the campaign had been a great success, and would bring good results. He believed the change was due to moral influence. The principal witness called against the Markles was James Gallagher, who worked in the Markle mines for 30 years. He claimed the wages were so low that he was always in debt to the company, and that in 17 years he only once received money in wages, and that was \$50. He further testified that he had to deal with the company's store, the only place where the miners could get credit, and that the prices were from 10 to 20 per cent higher than in other places. The witness could get credit, and that the prices were from 10 to 20 per cent higher than in other places.

It was only when the company was prepared to cross-examine the witnesses on all things they testified to, and the commission has granted the company privilege of recalling the witnesses.
