## EMMELINE PANKHURST SUFFRAGE LEADER HERE

**Leader of Equality Movement in England Tells World of Militant Methods of Sisters Who Suffer Prison Sentences For Cause.**

1:15 p.m.—Address to Toronto Canadian Club, McCowkey's.  
4 p.m.—Visit to Prof. Goldwin Smith at the Grange.  
8 p.m.—Banquet Hall meeting in interest of votes for women.  
Sunday, 2 to 4 p.m.—Reception at the residence of Mrs. Stowe Gullen, 461 Spadina-avenue.

When the Grand Trunk express from Buffalo drew into the Union Station last night, a winsome, wistful woman quietly stepped from a rear coach, was greeted by the president of the Canadian Suffrage Association and quietly passed out thru the bustling crowd. There was no ostentation, no noise of shouting, no waving of the battle-ensign, "Votes for Women," just a dignified movement towards a conveyance.

So Mrs. Emmeline Pankhurst, leader of the militant suffrage movement in England, and the inspiration of all who are seeking universal suffrage, arrived in Toronto.

Mrs. Pankhurst in appearance is a pleasing contrast to the impression conveyed by the accounts given of her speeches and her published portraits. In physique she is not large, but of medium build. Her voice is restrained, penetrating and musical. Approaching her, one looks for an aggressive, virile woman, but meets a quiet lady-like person with an anxious gaze and an appealing expression. Mrs. Pankhurst is a volcano of nervous energy. In manner she is terse, dramatic and fervent; she speaks without artifice; her words

EMMELINE PANKHURST

Leader of English militant suffragettes, who arrived in Toronto last night.

regard to the attitude of certain suffragettes playing the "Lady Godiva" act instead of forming prison garments. "I do not admire the ohivary of your journalism," she said. "That malicious story emanated from one paper which has been particularly hostile to our cause, and has never failed to attempt its discredit. We consider the donning of prison garments a degradation to woman who have done no wrong, but have simply asked for what we claim is right. One suffragette, indeed, whom I know, went thru the period of her incarceration clad only in a blanket, and I can go further, and say that forcible methods have been used by the prison authorities, and clothes have been torn from the backs of suffragettes and (the prison uniform) substituted."

"It is a well-known and often stated axiom that the government rests upon the consent of the governed. As we are included in that decree we want our consent to be asked."  
Present Law an Anomaly.  
"Success in itself is no disqualification, and if we conform to the requirements of the law with regard to the necessary franchise qualifications upon what grounds can the vote be denied?" asserted Mrs. Pankhurst, warning in conversation. "Women don't pretend to be perfect, even as men are not perfect; some men even abuse their franchise. The present law is an anomaly. According to the present interpretation a woman is a person whose pains and penalties are concerned, but not where rights and privileges are involved."  
"There is no doubt," she declared in conclusion, "our case is clear, our cause is strong, and we will win."

### Will Soon Vote.

*Why have I come here? I have come here to tell you the story of the militant suffrage movement in England. Women will soon get votes. We have made tremendous headway in the last three or four years. Our organization is large and well equipped, and we are the cause of practically all new suffrage societies being formed.*  
—Mrs. Emmeline Pankhurst.

are sincere and frank, and she draws her listeners to her by an air of courtesy and grace.

A Woman's Idea of Her.  
"What is a woman's idea of Mrs. Pankhurst?" asked The World representative of a prominent local suffragette after an interview last evening.

"I regard her," came the prompt and enthusiastic reply, "as being refined, gentle, courteous, able, pitiful, forceful, well informed, entertaining, obliging, earnest, attractive and soulful."  
And the last adjective tells the secret of the distinguished suffragette's power. The soul is disclosed in voice, gesture and flash of eye. There you find the power, that appeal, the deep penetration that brings men and women to the side of her cause.

"We have already a majority of the members of the house of commons in favor of our demands, and we are said to have a majority of the cabinet," she remarked.

To-day Mrs. Pankhurst will tell Toronto and so Canada, the truth about the fight in England. "I do not think the suffragettes in America and in Canada know much about what we are doing in England. That is just why I am here," she said. "I do not think they are in a proper position to make up their minds about the movement in England. We are satisfied we are doing the right thing under the circumstances."

"Will you advise the women of Canada and the United States?" The World asked.

"No, I have not sufficient knowledge of the conditions on this side of the water to give such advice. The women of Canada and the United States must choose their own methods."

**Acid Throwing Episode.**  
A conversation with Mrs. Pankhurst reveals like a thrilling novel. It is full of surprises, unlooked for situations and humorous incidents. Discussing for a moment the story of her work she said that a cable had told the American and Canadian public about alleged acid throwing by two suffragettes on voters and into the ballot box in a certain by-election. "The facts are," said Mrs. Pankhurst, "these women did not hurl any acid upon voters. Evidently they came to the conclusion that since women qualified to vote were denied the ballot, they would try and spoil the votes of the men. I think it was a decided mistake. Our campaign is not against the ordinary voter; it is against the government. They only took with them to the voting booth a bottle of ink and some photographic fluid, which would obliterate the marks on the ballot. When restrained this mixture fell on the hands of some men. The women told them it was not ink, but would wash off immediately. The story is grossly exaggerated."  
Malignant Story.  
Mrs. Pankhurst expressed herself as shocked and surprised to see that the American and Canadian papers to-day a cable story from Bristol with

## RAILWAY RIGHTS IN MAKING RATES

**Toronto's Case Against C.P.R. and G.T.R. for Lower Suburban Fares Argued in the Supreme Court.**

OTTAWA, Nov. 18.—(Special)—The case of the City of Toronto against the Grand Trunk Railway Company and the Canadian Pacific Railway Company, with regard to commutation tickets for suburban traffic, was argued in the supreme court to-day and judgment reserved. Mr. Chisholm and Mr. Wegness appeared for the City of Toronto and F. H. Chrysler for the railway companies.

Under the act, it is not discrimination, but unjust discrimination that was legislated against. The point to be decided by the supreme court is whether the onus of proving that a discrimination is an unjust one lies on the complainant or whether the onus of proving that the discrimination is just is on the companies. The general section of the railway act which provides that the railway companies hold that the section of the railway act as to discrimination did not apply to such matters as commutation tickets, mileage tickets, or excursion tickets, etc., which were included in a special section of the act. A stated case was filed to have determined whether the general section applied to these classes of tickets.

Up to the Company.  
Mr. Chisholm argued that the only thing necessary for an applicant to make out was a prima facie case, and it would be up to the company to show that the discrimination was justified. The contention that the railway companies had uncontrolled discretion in commutation rates, would be a subversion of the whole tenor of the railway act, and possibly would exclude from its operations the whole of the passenger business of the country, because they could bring all passengers under mileage, excursion and commutation tickets.

The counsel quoted from the interstate commission reports showing that similar contentions on the part of the railways of the United States had been negatived by the various courts up to the supreme court. Mr. Chisholm also contended that there was nothing under the section of the act permitting commutation tickets, to be issued which would necessarily exclude the provisions with regard to discrimination, and if there were, the general provisions should be excluded only to the extent necessary to permit the railways to issue commutation tickets, etc., and not permitting them to discriminate.

Questions of Fact.  
He also held that the question that different circumstances required dif-

## NEW U.S. TARIFF TEMPTS OUR TRADE

**Comparison of Two Months Shows a Great Increase in the Exports to the South.**

NEW YORK, Nov. 19.—The Herald's Washington correspondent wires:

How trade between Canada and the United States on the north and Mexico and the United States on the south fared under the Dingley tariff and its faring under the Payne tariff is shown in statistics prepared for The Herald. It shows great strides in the trade between the United States and Canada and a small increase in the Mexican trade.

British North America, which includes Newfoundland and Labrador, with an estimated population of 7,000,000, took from the United States during the months of August and September, 1909, under the Dingley tariff, goods to the value of \$23,322,309. In August and September, 1909, the first two months under the Payne tariff, the same section took American goods worth \$34,669,107.

In the Canadian trade cement jumped from an importation to the United States of \$17,000 to \$454,000. Lumber, which kept down to \$3,412,000 in 1907, jumped in the two months of the next year to \$4,548,000.

Continued on Page 7.

### EXPERT FEES COME HIGH

Grand Jury Criticize Provincial Official for His Bill.

WINDSOR, Nov. 19.—(Special)—Dr. R. W. Bruce Smith, provincial inspector of prisons, was scored in the presentation of the grand jury to Justice Magee for his seemingly excessive fees in connection with the trial of Richard Kraft, convicted and sentenced for shooting with intent to wound.

The doctor's fees amounted to \$109, whereas the crown attorney had originally credited him with only \$25.

While here, Dr. Smith made his usual jail inspection.

## THE UXBRIDGE TRAGEDY

Archie McLaughlin, under arrest on suspicion of having poisoned his wife and two children and then setting fire to the house; and his favorite little girl, Monta, aged six, whom he saved from the house.

## WIFE POISONED M'LACHLAN IS ARRESTED

**Bodies of Two Boys Will be Exhumed—Analyst Reports Presence of Strychnine in Stomach.**

WHITBY, Nov. 19.—(Special)—Another chapter was added to the McLaughlin case at Uxbridge this morning, when Archie McLaughlin was arrested by Provincial Detective Greer of Toronto, under instruction from the attorney-general's department. The prisoner took matters quite coolly, and after appearing before Magistrate Hamilton, was driven to Whitby and placed behind the bars.

His arrest was the result of Prof. Ellis's examination of Mrs. McLaughlin's stomach, in which was found a large quantity of strychnine.

The final session of the inquest will be held Monday night at Uxbridge behind closed doors, when the medical evidence will be given. Among the witnesses to be examined are Prof. Ellis, Dr. W. C. Slier, Dr. J. A. McClintock, and Miss Helen Greer, Mrs. McLaughlin's sister. Mrs. McLaughlin, McLaughlin has engaged T. C. Robinson, K.C., as his counsel, and Mr. Fehlan, of that firm will arrive here to-morrow. It is understood that, after the inquest, the defence will consent to prisoner appearing before a magistrate at once, for committal for trial, which may not take place until the spring assizes.

An information had been sworn out by the chief of police of Whitby, and a warrant issued by Crown Attorney Farewell, but before notice of this procedure reached Uxbridge, McLaughlin had been taken in charge. The news spread thru the hotel, which was considerably excited, and the arrest of Mrs. Cook, McLaughlin's lawyer, was being adjusted and exonerated warned McLaughlin not to talk to the police. "I'm not telling them anything," the prisoner asserted.

It is understood that McLaughlin has been under surveillance since the last sitting of the coroner's jury on the 4th inst. For several days he had been particularly nervous, and has spent most of his time with his six-year-old daughter, Monta, whom he had rescued from the burning house on the night of the tragedy.

To Exhume Boys' Bodies.  
In all probability the bodies of the little boys will be exhumed and examined for traces of poison.

Monta, the little girl with whom he spent most of his time, was put in the stand at the last hearing of the inquest, but became frightened, and started to cry, and it was not thought wise to continue the examination. In a statement made to Crown Attorney Farewell, she told in a very clear manner a story that was not thought even by cross-examination of a severe nature. In the regular session of the inquest, however, she would say nothing. While she was in the witness box, her father leaned forward in his chair, and a strained expression came over his face, which did not leave it until she had been taken to the court room. Since that time she has been constantly with him.

McLaughlin ate a hearty meal at the hotel, soon after his arrest. The food was ordered by him from the hotel. He begged to be given an exclusive apartment, and broke down and wept when put in the ward with other prisoners.

Detective Greer will return to Uxbridge to-morrow to begin investigations. His sole duty to-day was in making sure of getting McLaughlin.

## The German Naval Budget Away Up

**An Increase of \$43,000,000 in Appropriations Asked for Naval and Military Purposes.**

BERLIN, Nov. 19.—The naval budget estimates of 443,000,000 marks for 1910, the largest in the history of Germany, have been received in silence by the newspapers.

While there will be no modifications in the large shipbuilding program, the naval attaches stationed here are awaiting with interest specific information as to what part of the 171,000,000 marks for new construction will be spent on torpedo boats, submarines, etc.

The total budget proposals of the government for the army and navy amount to 1,260,000,000 marks (about \$32,500,000), as against 1,077,838,000 (about \$26,450,000) in the 1909 budget.

The budget shows that the ordinary revenues and expenditures balance at 2,660,000,000 marks (\$65,900,000), a considerable increase over last year's loan of 132,000,000 marks is provided for.

## DR. BARR, M. P. FOUND DEAD

**Member for Dufferin Expires From Heart Disease in an Ottawa Hotel.**

OTTAWA, Nov. 19.—(Special)—Dr. John Barr of Shelburne, M.P. for Dufferin (Conservative), was found dead in bed at the Cecil Hotel this afternoon.

He was in his usual health yesterday, and attended the sitting of the commons. In the parliamentary lobbies he had a chat with Sir Wilfrid Laurier, and all thru the day seemed to be in excellent spirits.

He did not come down to breakfast this morning, but his non-appearance occasioned no alarm. However, when he did not appear for dinner, Dr. Roche, M.P. (Marquette); J. E. Armstrong, M.P. (Lambton), and Mr. Marshall, M. P. (Eglin), went up to his room and found him dead in bed. He had apparently died in the early hours of the morning, supposedly of heart disease. The coroner stated that no inquest would be held.

The late Dr. Barr enjoyed a wide popularity in the house, and this afternoon Sir Wilfrid Laurier paid a tribute to his memory. He said Dr. Barr was very much respected by the members of the government side of the house, and he desired to convey a sincere expression of condolence to the members of his family.

R. L. Borden described him as conscientious, earnest and indefatigable in the public interest, and was sure that every member would join in an expression of sympathy with the family in their bereavement.

The remains were sent to Shelburne to-night in a special car provided by the government, and escorted by Dr. Sproule, Dr. Chisholm, Dr. Shaffner, T. B. Taylor, J. B. Armstrong and E. H. Lewis.

It is pointed out as a strange coincidence that Dr. Fred Lewis of Orangeville, who, in 1905, succeeded Dr. Barr in the House of Commons, was born in the same town in the Queen's County, Ontario, in 1843, and educated at London Grammar School and Victoria University. He represented Dufferin in the Ontario Legislature from 1872 to 1878, and also from 1890 to 1894, and from 1898 to 1904, when, after the federal gerrymander creating Dufferin as a constituency, he resigned to accept nomination for the commons. In religion he was a Methodist.

## PROBING BARRIE FIRE

**Wife of S. J. Guthrie, Whose House and Theatre Were Burned, Gives Evidence Before Coroner.**

BARRIE, Nov. 19.—(Special)—A fire inquest into the simultaneous fires which obliterated the music hall and gutted the home of S. J. Guthrie last Wednesday evening has been opened by Coroner Dr. Wilts.

Mrs. Guthrie, wife of S. J. Guthrie, manager of the Crystal Grotting Picture Show, in the music hall, related that on the afternoon of the fire she had the contents of the music hall insured for \$900. On the same afternoon she accompanied a Miss Meeks, who had been boarding with her the last four weeks to Allandale, and she alone entered J. C. Hiron's livery and asked him to send over a dry to her house in Thompson-street for trunks. She didn't give her name, telling him a boy would meet him at Brown's bakery and direct him. These trunks, she affirmed, belonged to Miss Meeks, and when pressed as to what hour she was in Allandale with Miss Meeks she obstinately refused to answer, and declared counsel was trying to implicate Miss Meeks. Mr. Hiron delivered the trunks as instructed at the baggage room at Allandale Station. The boy who met him was Mrs. Guthrie's 14-year-old son, and he gave his name to him as Jones, a son of Chas. Jones.

The boy denied that he gave any name other than Guthrie.

Judging from line of questioning of Attorney Cotter, who appeared for the town, and A. E. H. Creswick, counsel for the Misses King, owners of the Music Hall, some startling evidence may be brought out on Monday, when the inquest will be resumed.

No one outside the members of the Guthrie family seems to know anything of the Miss Meeks referred to. The fact that trunk containing silverware which passed thru the fire in the central G. N. W. office showed no trace of silver when afterwards opened tends to suspicion that the person who set fire to building stole the silver.

## NEWS BUILDING SOLD

Savoy Restaurant Will Move to Opposite Corner.

Another important change in Yonge-street real estate is announced to take place at the beginning of the new year.

The statement is made that Charles B. Whitehead, manager of the Savoy Restaurant, has taken over the leasehold of The News on the southwest corner of Yonge and Adelaide, and will transform the building into a high-class cafe and grill room. The price paid for the lease and the building is said to be \$125,000.

The News will move into larger quarters elsewhere.

**Will Sue Horse's Slayer.**  
James J. Hubbard, whose horse was killed by Veterinary Stewart in Burns' Repository on the assumption that it was mad, says he is going to prosecute the veterinary physician. The horse was troubled with nothing but acute indigestion until the vet clouted him over the head with an ax, which was enough to madden anything. Mr. Hubbard bought the animal a week ago for \$50 and refused \$100 for him a few days later.

## THE LATEST BORN

JACK TAR BULL: D'ye think 'e looks like 'Is par.

# All Furs of Quality

Can you tell good fur? Not two people in one hundred can. So it is a very precarious business, this selecting fur garments. You've to depend on your furrier, and he, to carry out his trust, must be an expert on furs, or his good intentions will land you in just the same place as if you took upon yourself the selection.

Fifty years' buying pelts and making them into garments is the history that goes with everything we sell. Fifty years' buying and selling furs to the fashionably-costumed women of Canada has led us to quietly claim that we are dealers in high-class and exclusive fur garments. It is to claim that we have no serious competition in Canada in the matter of good furs.

Our advice is worth considering before buying. Consult us about what is new in the fashion centres. Ask us to explain to you how we know a good pelt when it is offered to us. The advice will not cost you anything, and it will help to convince you that the garments DINEEN sells are absolutely all quality.

You'll find it mighty hard to duplicate the splendid selection of Alaska Seal and Persian Lamb Jackets and Coats now being displayed in our showrooms.

109—Persian Coat, single-breasted, blouse front, low sailor collar, 21 inches long, \$135.00.	1844—French model in Persian Lamb, Bolero front, fancy vest, collarless, small revers, trimmed with white and black, draped and pleated, trimming to match coat, very stylish, \$150.00.
1888—Persian Coat, double-breasted, loose front, tight-fitting back, high storm collar, large revers, medium-size sleeve: 24 inches long . . . . . \$150.00	1725—Persian Lamb Coat, full double-breasted, with fancy or plain buttons, any style of sleeve desired, \$150.00.
24 inches long . . . . . \$150.00	1630—Genuine Alaska Seal Walking Coat, finished with fancy buttons, brocaded lining, a very smart and stylish coat, \$300.00.
26 inches long . . . . . 160.00	2001—Alaska Seal Coat, straight front, tight-fitting back, high collar, full revers, medium-sized sleeves: 24 inches long . . . . . \$275.00
28 inches long . . . . . 170.00	26 inches long . . . . . 300.00
2004—Persian Lamb Coat, "Iona" style, full double-breasted, large collar and revers, an especially comfortable coat for cold regions, heavily interlined and finished with plain or fancy satin: 24 inches long . . . . . \$150.00	28 inches long . . . . . 325.00
24 inches long . . . . . 160.00	32 inches long . . . . . 375.00
1627—Persian Lamb Coat, tight-fitting front and back, double-breasted style, finished with fancy buttons and satin lining, \$150.00.	

## The W. & D. Dineen Co., Limited

140 Yonge Street, Toronto

### POLICE INTERFERE TO KEEP CROWDS BACK

Living Models in Yonge Street Window Cause of Blockade—Police Interfere.

At different times yesterday the police were obliged to interfere with the crowds of people who blocked the street in front of Hobbler's at 131 Yonge street. The cause was due to the exhibition by that firm of their latest creation in an overcoat called "The Utility Coat," practically five coats in one. All day long the interest was intense, and during the evening it was again found necessary for the officers to ask the people to keep the way clear. The new style overcoat is a handsome, stylish, practical garment, can be worn in five different styles. On cold or stormy days you button the collar snugly up under the chin and defy the elements. When the weather is mild you can wear it as a dress overcoat, can be worn with one or both lapels exposed, or military style if preferred, or used for motoring. Seldom has any new overcoat made such a decided hit, and the demand for it is constantly increasing.

**A Despatch From the Admiralty.**  
LONDON, Nov. 19.—The Canadian Associated Press learns that a long comprehensive despatch is being forwarded to the Canadian Government regarding the constitution of the imperial naval staff. The despatch considers seriatim all proposals and objections which have been raised both from the colonial and imperial standpoint. An early reply is urged.

**British-German Trade Agreement.**  
BERLIN, Nov. 19.—The federal council has given its approval of a bill extending to Dec. 31, 1911, the provisional trade agreement between Germany and Great Britain.

**Only One "BROMO QUININE," that is**  
**Laxative Bromo Quinine**  
**Cures a Cold in One Day, Grip in 2 Days**

*B. Williams* on every box, 25c

### AMBROSE LEPIE DEAD

Was Riel's Lieutenant—Once Sentenced to Death.

WINNIPEG, Nov. 19.—There died today at St. Vital, Man., Ambrose Lepie, lieutenant of Louis Riel in the rebellion of 1869-70, aged 75.

As adjutant-general he presided at the court-martial which condemned Thomas Scott to death. At the request of Mr. Tache, Lepie consented in 1872 to leave for the United States.

In company with Riel he left by night in a closed carriage, protected by a couple of policemen, and was conducted across the frontier, going to St. Paul, where he stopped for a year. On his return to Manitoba on Sept. 27, 1873, he was arrested on a charge of participating in the murder of Scott.

After a long trial, in which he was defended by Messrs. Dubuc, Girard and Royal, as well as by Sir J. A. Chapleau, he was condemned to death, but recommended to the mercy of the court.

On the request of Mr. Tache, the sentence was commuted to two years' imprisonment, with perpetual deprivation of his civil rights.

### WIDOW ATTENDED HANGING

Wouldn't Leave Until Husband's Murderer Was Pronounced Dead

PERRY, Okla., Nov. 19.—Now I can return home satisfied, since the murderer of my husband is hanged.

Thus spoke Mrs. Isaac Fell of Caldwell, Kas., to-day after witnessing the execution of Henry Armstrong, who killed Fell in Perry several months ago.

Mrs. Fell would not leave even after the drop had been sprung, but insisted on waiting till the physicians in attendance had pronounced the murderer dead.

Chief Engineer McGirk of the steam engine, wrecked off Pelee Island, will have his license renewed by the marine inspectors.

The \$20,000 bonus bylaw to assist the Barrie Carriage Co. to extend, which was quashed recently by the courts, will, with some modification, be re-submitted at the January elections.

Nearly 6000 Christian travelers wear this button, they have placed 10,000 Bibles in the guest rooms of many of the principal hotels of America.

W. Snelgrove's barn, near Brighton, was set on fire by children playing with matches.

## Hamilton Happenings

Subscribers are requested to request any arrears or delay in the delivery of their copy to Mr. J. B. Scott, agent, this office, room 17, 185 Arcade Building, Phone 1044.

### RYAN AND APPELGATH PROMISE TO BE GOOD

Will Vote For Hydro-Electric Power Contract at Next Opportunity—Address on the War Scare.

HAMILTON, Nov. 19. — (Special.) —The committee that waited upon Aldermen Ryan and Applegath, who gave written pledges before the elections to the Trades and Labor Council that they should support a contract with the hydro-electric power commission, to get an explanation of why they had not voted to close a contract, reported this evening to the council that the two aldermen had explained that they had voted as they did in the belief that the city would get better terms from the commission, but they assured the committee that they would vote for the contract with the commission when it came before the city council again in the fall.

Prof. Lecock, Almarist, Professor Lecock, McGill University, addressed the Canadian Club this evening on the "Rise of Germany," and its position in the world, compared with that of Great Britain. He said he would not address them as an alarmist or a jingo. Was the German navy meant to fight the British? asked the speaker, and he said the answer was "Yes" or "No." The German navy was for the protection of its overseas interests, she could protect her ports with forts, she could concentrate her navy in any particular spot. Sydney, New South Wales, could be bombarded from the sea, and could be razed to the ground. The same fate would overtake ports nearer home. In the event of war, the guns of Germany might be thundering against the Canadian coast, it did harm to consider such a possibility.

The naval scare was not a bad thing because it took people away from the little things like the building of an embankment for a railway to the contemplation of the necessity of arming the empire in such a complete fashion as would be impossible for Germany's sea power to be a danger to the British empire. The empire had not faced as great a danger since 1805 as she now faces in the present.

An Interpreter Accused.

A summons has been issued against Budimir Protich, a court interpreter, on the charge of conspiring with Frank Strauss, who was arrested and convicted of the charge of extortion, knowing that Strauss was innocent. The story is that Bluestein and Strauss were arrested together in Dundas, had a quarrel, and Bluestein consulted Protich to see if a charge could not be laid against Strauss for leasring him. Protich is alleged to have informed him that no charge of that kind could be laid, but that the two concocted a scheme whereby Protich, for a consideration, was to lay a charge of extortion against Bluestein.

Mrs. Morrison, wife of Dr. Morrison, King-street and Grant-avenue, died suddenly at her home to-day.

City Engineer MacCallum has made a plan of the proposed new Welland Canal, showing it emptying into the bay of the city of Toronto, and the bay of the water lots in connection with the beach property belong to the crown, it will be necessary for the government to buy only instead of 20 acres, as was first intended.

Inspector May Retailate.

Fishery Inspector Kerr has consulted a solicitor as to an action against people who were taking a petition to have him removed from office.

### SLOW VOTERS IN CONTROL PROSPECT IN REPUBLIC

Problem of City Greatest of Modern Civilization, Says Rev. C. A. Eaton.

"In the United States we are passing thru the greatest changes, politically, a nation can experience," said Rev. Dr. C. A. Eaton in his address on Church Extension Work at the annual banquet of the Toronto Baptist Church Extension Board in McMaster University last night.

The American nation, he went on to say, was passing thru the day when the balance of power would pass from the rural districts to the congested cities. He feared to think of the future when the voters in the Bowery and Toronto and the slums of Chicago would hold the destinies of the nation in their hands. When that day arrived it would mark the beginning of the final tragedy of a dying nation.

He was glad to find himself speaking to a Toronto audience again, for he had been in Canada as his home and Toronto as the headquarters of the Baptist faith. No other church could boast such an era of prosperity as the Baptist church, nor point to such a display of statesmanship in the selecting of church sites. It was a favorable augury for the future to see the young men taking such an active part in church matters.

The present problem of our modern civilization was the problem of the city, but at present Canada was not called on to face the difficulties which the United States had experienced in this respect. We still had large tracts of western lands capable of absorbing our alien immigrants, and turning them into reputable Canadians. But the aliens who remained in the city and became the slum population remained alien in every respect. This was the real problem.

There were 35,000 foreigners in Toronto to-day, who were here to stay. Their children would not be Jews or Italians, but Canadians, and the Christian Church was the only institution which could grapple with this problem.

Dr. Eaton made a strong appeal to his hearers to look after the downward-sloping churches and see that they did not become stranded thru the exits of their members.

He thought that it would be a good plan to make a Baptist cathedral out of Jarvis-street church, and following the precedent of the Anglicans. In his closing statements he referred to the work which he had done among the Italians of New York City, and said that there were just as good Italians as Englishmen or Americans. A man who much the same when you get under his coat. What was your god? I'm personal evangelism, combined with a display of that love evidenced by the Saviour at the pool of Bethesda. Speeches were also made by Rev. Dr. Firstbrook, who presided at the meeting; Chancellor McKay, Dr. E. H. Hooper, H. L. Stark, J. B. Lawson, J. Wells and F. B. Battell.

### JUST CURED HIM THAT WAS ALL

What Dodd's Kidney Pills Did for Thomas Moon.

Doctors Could Not Cure His Dropsy, But Dodd's Kidney Pills Cleared It Out Completely.

MAIDSTONE, Sask., Nov. 19.—(Special.) Mr. Moon writes: "I was afflicted with Dodd's Kidney Pills did for me." Such is the statement made by Thomas Moon, a well-known resident of this place who for years suffered with Dropsical swellings brought on by diseased kidneys.

"I had pains in the small of my back," Mr. Moon continues, "and across the loins. The swelling commenced first in my legs and gradually got to my body. I tried different doctors but kept getting worse every day until I was swollen up to an awful size.

"One doctor sent me to the hospital where I got a little benefit but the swelling soon all came back.

"Then I used Dodd's Kidney Pills and as I said before they cured me completely.

"Dropsical swellings are caused by diseased kidneys falling to take the surplus water out of the blood. Cures the kidneys with Dodd's Kidney Pills and the dropsy naturally cures itself.

PUBLIC SCHOOL SOCCER FINAL GAMES DECIDED

Fern Avenue, Crawford, Coleman, Givens, Winners—Perth and Grace Tie.

The public schools held their association football championship finals at Varsity oval yesterday afternoon.

The first game was the final in the intermediate series between the Junior League, between Perth-avenue and Fern-avenue schools.

The minor league junior championship was won by Crawford Street School.

The next game, Coleman of East Toronto and Crawford teams came together.

Givens succeeded in defeating Palmerston for the championship of the minor league by soccer.

Palmerston (1)—Goal, Cox; backs, Keough, Alsworth; half-backs, Gilmour, Goodman; forwards, Bally, Dunn, Cynadale, Peel, Seaside, Kilvill.

Givens (2)—Goal, Smith; backs, Ivory, Briery; half-backs, Clark, Mackie; forwards, McNeil, Carter and Stewart.

Perth-avenue and Grace—street school. Alsworth; half-backs, Gilmour, Goodman; forwards, Bally, Dunn, Cynadale, Peel, Seaside, Kilvill.

Highness Wins Derby Cup. LONDON, Nov. 19.—The Derby Cup was run to-day as follows:

1. Highness, 10 to 1. 2. Rathlea, 100 to 1. 3. Specified, 25 to 1.

Payne Wins Oval College. In the two-man series yesterday at Payne's alleys, the local contingent were victorious over College, winning the first three, while the visitors won the last.

Albert College Old Boys. The old boys and girls of Albert College, Belleville, held a reunion banquet at Williams' Cafe last night.

THE OLDEST MAN LIVING. If asked about his years would say they didn't bother him because he always used Putnam's Corn Extract.

Hockey Toronto Pros. Withdraw Rugby Finals To-day Soccer The School Boys Play

Note and Comment Toronto will look on complacently today at the boys in ribbons and chrysanthemums from the provincial towns who are in our midst.

The winners to-day meet Varsity next Saturday in the first game for the Earl Grey Cup. The student committee has been getting out a program, and it is significant that the top line reads "Toronto to University v. Hamilton Tigers."

A week later Parkdale or T.A.A.C., who are themselves playing to-day on Varsity field for the championship of the Ontario Union, play Varsity or Tigers—that is, unless tough riders win.

There is also a big game to-day across the line, Yale against Harvard, one feature of which will be Harvard's six-foot back, O'Flaherty, a stature of six feet, two inches. Harvard has won four football games in Yale since the modern general playing rules in 1907.

Joe Jeannette and Sam McVey have been matched to fight thirty rounds at the Cirque de Paris on Dec. 11. The promoters have hung up a \$500 purse, of which the winner will receive \$300.

According to Bob Murphy, who is stakeholder for the Jeffries-Johnson fight, not a single offer of a month from all sorts of coming in for a month from all sorts of would-be promoters has been accompanied by the necessary \$25,000.

Petrolia Coming Strong. PETROLIA, Nov. 19.—The Petrolia junior football team left here this afternoon for Toronto to play at St. Michael's College, Toronto, to-morrow.

OTTAWA FOOTBALL CLUB EXTRA TRAIN. For accommodation of players and supporters of the Ottawa Football Club the Canadian Pacific Railway are running special train of first-class sleeping cars to and from Toronto.

NOBLEMEN CIGARS. Hang This Sign Up in Your Memory. This "NOBLEMEN" sign in the press and among the cigar dealers is to impress every intelligent Canadian smoker with the DOUBLE VALUE there is in this cigar.

TIGERS VS. OTTAWA T.A.A.C. AND PARKDALE

Two Rugby Finals Will Be Decided Here This Afternoon—Gossip.

Ottawa and Hamilton will take Toronto by storm to-day for the games at Rosedale at 2.30. Ottawa will arrive this morning with a large number of rooters which Hamilton will come in this afternoon by special train.

So great a demand has been made for tickets for this afternoon's Rugby match, when Ottawa and Hamilton play off for the Interprovincial championship, that a number of seats in the bleachers have been reserved, and are now on sale at Love's.

An Ottawa despatch says: Ottawa gave itself over to the evening to worship of football. Two thousand young men accompanied by three bands, paraded to the Union Station and gave a hearty send-off and all the encouragement of which lungs are capable to the Ottawa team which to-morrow will meet the Hamilton Tigers at Toronto.

The special Canadian Pacific train and their followers from Ottawa arrived in the Union Station at 4.45 this morning.

The Tiger management stated last night that neither Wigle nor Smith would be able to play to-morrow, and that Gerard and Tope would be substituted. Gerard is an intermediate who has never played in a senior contest.

Scherrer's Lunch serves a business man's dinner every day, 11.30 to 2.30, 25 cents.

**Toronto Driving Club 3 RACES—3 To-Day at Dufferin Park Admission 25c. Ladies Free.**

**HOCKEY CLUBS.**

The Aronaut Hockey Club met last night and decided to enter a team in the Senior O.H.A. series, the following officers being elected: President, E. McKay; secretary, W. D. Taylor; manager, Pete Saganan; executive committee, Jm. Cosgrave, W. G. Murphy and Walter H. ...

As James F. Sutherland expects to be in Kingston all winter this year, he has decided to assume the management of the Frontenac Hockey Club and have a first-class team in the O.H.A. The 14th Regiment players are still in the city, and a goodly bench of them can be secured for the team.

A Belleville despatch says: A good junior hockey team will be entered in the O.H.A. this year. Last night a Junior O.H.A. Hockey Club was formed, with these officers: Hon. president, J. W. Johnson, M.L.A.; first vice-president, F. R. Lingham; secretary, E. O'Flynn; treasurer, A. E. Spangenberg; Manager, R. Arrott.

Mr. Fred H. Ross, president of the Presbyterian churches in the city, asking that the name of a representative be sent to him, by the city, to attend a meeting to be held at an early date.

Eight Toronto clubs have decided to play Senior O.H.A., they being Arroy, Osgoode Hall, T.C. Mitches, T.C.C., T.R.C., Eatons and Parkdale.

**RAILWAY RIGHTS IN MAKING RATES**

Continued From Page 1.

ferent treatment for different places and different persons was one of the points to be decided by the railway board, and that it was not a hardship on the railways to require them in every case to show some good reason for any difference in treatment.

The proviso at the end of section 241 did not exclude the application of the other sections of the act. The companies might show discrimination in so far as passengers who went to their hotels in certain places got special rates, which they could refuse to others.

Mr. Weggans argued that commutation tickets were tolls under the act and required to be filed as special tariffs.

Justice Ilderton: "Do you consider that there is any power held by the board to give commutation tickets to the section of the act which says: 'The board may disallow any tariff or any portion thereof which it considers to be unjust, or unreasonable, or contrary to the provisions of the act, and may require the company, within a prescribed time, to substitute a tariff of rates to the board in lieu thereof, or may prescribe other tolls in lieu of tolls so disallowed.'

Following on this Mr. Weggans argued that under this section the board had undoubted power, if it considered three cents a mile unreasonable, to impose a rate of two cents a mile. It was not necessary, however, and all the board need do was to issue an order requiring companies to cease discrimination and leave it to the companies to decide whether they take away rates from places which now enjoyed them or grant them to those who had an equal right to enjoy them, but were not now so favored.

**Argument for Railways.** Mr. Chrysler argued for the railway companies that the jurisdiction of the railway board was only a legislative one. The companies had power to restrict or extend the classes of persons to whom tickets should be given, or the classes of tickets which should be given, but the only remedy which complainants had was to ask the board to exercise its legislative powers, and as this power was not controlled by questions of discrimination or preferences, it had also that no tariff need be filed for commutation tolls, and as for excursion rates, they were not required to be filed before the day they went into effect. The board had not the power to compel the companies to sell commutation tickets, but the companies could refuse to sell them at any time.

The justices took the question under advisement.

**COST OF GOVERNMENT HAS GREATLY INCREASED**

Mr. Foster Finds Fault, But Mr. Fielding Excuses as Evidence of National Prosperity.

OTTAWA, Nov. 19.—(Special.)—The commons have had a business-like session today and got thru a considerable portion of the civil service estimates. The sitting was comparatively quiet, the only feature being a discussion over the appearance of the union label on the Labor Gazette, although this publication is printed at the government's printing bureau, an open shop.

Hon. Mr. Foster and Mr. Fielding expressed diverse views as to the tremendous growth of the public expenditure. E. N. Lewis, West Huron, introduced a bill respecting injuries to persons due to motor vehicles, which he said was necessary, as highway assaults by vehicles, not known at the time the criminal code was drawn up, were far too common and required special legislation.

Mr. Sinclair of Guyabro introduced a bill to amend the Canada Shipping Act, which allows the purchase, aboard and inspected should be liable to inspection again in Canada.

A new bill by Hon. Mr. Fisher seeks to amend the Seed Grant Control Act. Hon. Mr. Graham explained that by the terms of his bill to authorize the minister to issue orders regarding seed, and that the minister should be empowered to connect the government railways, no lease would become operative until ratified by act of parliament.

Major Sharp's bill to amend the Bank Act provides that all stocks on which no dividends have been claimed for upwards of six years shall be transferred to the government, as trustees.

Before the orders of the day were called Hon. George E. Foster asked some questions regarding the imperial conference report. He desired to know the attitude of New Zealand and Australia. The other day the prime minister had spoken of what these countries were going to do, and Mr. Foster supposed that their proposals would appear in the report.

Hon. Sydney Fisher introduced a resolution on which a bill was passed providing for the prevention of the spread of insects, pests and disease destructive to vegetation similar to the act introduced some years ago for the prevention of the introduction of the San Jose scale. It had been discovered last spring that a species of the brown tall moth was coming into the country on nursery stock imported from France.

Civil Government Expenditure. At 4 o'clock, Hon. W. S. Fielding, for the first time this session, moved the house into supply, but Mr. Foster said he had a few remarks to make about the expenditure on civil government before the motion passed.

Whereas the expenditure on the civil government list in 1888 was \$1,048,417, for the first time this session, the Conservatives went out of power, increased to only \$1,396,628. On the other hand, there was a decrease in 1896, a jump up to \$2,984,416, or over 50 per cent. more for the fiscal year closing on March 21, 1911, the house will be asked to

**Don't Judge the Lager You Drink by the Price You Pay For It.**

The price has nothing to do with the quality. Imported lagers cost more than O'Keefe's "Pilsener" because of the high duty—NOT because they are better, or even as good.

**O'KEEFE'S "Pilsener" Lager**  
The Light Beer in The Light Bottle

is brewed only of finest barley malt, hops and water—no rice, glucose or other ingredients—which cannot be said of any American lager.

O'Keefe's "Pilsener" is a pure, old, wholesome, healthful lager—brewed right here at home according to the Government standard—and is superior to any imported lager, no matter what the price.

**"The Beer With A Reputation"**  
At all hotels, cafes and dealers generally.

**BLOOD DISEASES**

Guaranteed Cured or No Pay.

If you ever had any contracted or hereditary blood disease, you are never safe until the virus of poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Twenty years experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone spurs, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure if instructions are followed.

Reader if in doubt as to your condition, you can consult us FREE OF CHARGE. Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 20 years.

**WE CURE Nervous Debility, Varicocoe, Stricture, Blood and Secret Diseases, Kidney and Bladder Complaints. Consultation Free.** If unable to call write for a Question List for Home Treatment.

**DRS. KENNEDY & KENNEDY**  
Cor. Michigan & Griswold Sts. Detroit, Mich.

**BLOOD DISEASES**  
Affecting throat, mouth and skin. Thoroughly cured. Involuntary losses, impotence, unnatural discharges and all diseases of the nervous and genito-urinary systems, a specialty. It makes no difference who has failed to cure you. Call or write. Consultation free. Medicines sent to any address. Hours, 9 a.m. to 9 p.m. Sundays, 2 to 5 p.m. Dr. J. Reese, 26 St. Nicholas street, sixth house south of Gerrard street, Toronto.

Fortunately the practice is rapidly going out all over the world; the horse is our friend and we should treat him as such. Let every horseman and horse-lover stand up against the practice and act. It is a regrettable fact that some horse-hoarders are of more concern than the remaining part of him. Foolish arguments are at times brought up and made the most of, whilst a good horseman (who must surely be a good horse-master) would make the best of any such arguments, if there was any truth in them. Fortunately for every horseman (worthy of the name) knows there is not. A four-hand or anyone in quite as safe if unhooked and held as safe if the tail is left quite long, than if docked. Some so-called horsemen consider their "turn-out" smart if their horses or colts have their docks about six inches in length and deprived of all hair.

An undocked horse is safer if in a high English dog-cart than if driven in a light-flyer. The reason is often used in connection with dog-carts by those who do not know.

A private turn-out can be recognized by the way the horse, harness and vehicle are looked after and not by the fact that the horse is docked, as some think. If it is required to make a tail "neat" it can be thinned out and shortened, if required. Some prefer a tail banded square at the end—there is no brutality or permanent injury in that. Besides a tail as long as the natural dock will reach most flies.

**JUDGES' SALARIES RAISED.**  
NEW YORK, Nov. 19.—A resolution was adopted to-day by the board of estimate and apportionment of this city increasing the salaries of the state supreme justices sitting in New York City from \$17,500 to \$22,500. The increase will go into effect Jan. 1, 1910.

TUBES AND THE TRANSPORTATION PROBLEM.

Controlleur Hocken's proposals for a tube railway for Toronto have had the usual effect of bringing up the friends of the street railway in support of the interests and against anything that would tend to lessen the clutch of its tentacles on the city.

The papers which have been howling for the entrance of the radicals have not favor for a plan which provides such an entrance under city control.

Knocks, more or less gentle, are administered to Controlleur Hocken and his plan by the corporation organs.

"That any practical steps will be taken in the immediate future to construct the system is quite unlikely," declares The Globe. "Why should a civic committee bring forward another vast project at a time when the city is straining its resources?" it asks.

Controlleur Hocken's advocacy of a tube railway, says The Star, seems convincing evidence that he is too impractical and visionary. The Star does not doubt "that he really believes in his tube dream, and would plunge the city, a generation too soon, into that undertaking, if he could."

"Too soon for tubes," is the title of The Star's succeeding editorial, in which it argues that nothing should be done till the franchise expires. That is, do not make it difficult for the street railway to get a renewal of the franchise.

All the people are asked to do at present is to state whether they want a tube system, rapid transit to the suburbs, and one fare for journeys inside the city limits.

The plan submitted by Controlleur Hocken for a system partly tubes and partly surface lines is tentative, and open to discussion, but to say as The Star does, that a generation—thirty years hence—is time enough to think of rapid transit in Toronto is to play the Street Railway Company's game too palpably.

The tube system will solve the street railway problem as nothing else can. It will provide quick transport. It will regulate the double and treble fare nuisance. It will cost nothing to the ratepayers.

A sinking fund can be created out of the profits to cover the whole expense, and, in the meantime, the revenue from the street railway can be set aside for the construction of what will prove eventually to be the greatest revenue-producing activity the city can possess. The franchise could be sold for millions at any time. It will save millions to the city.

Why is it too soon to have a tube system then, if it will pay the city; if it will grant relief from present disabilities; if it will give the radicals their much-desired entrance?

It is not too soon for anyone except the Street Railway Company and its friends, who object to letting the city have any vantage-ground in dealing with a corporation that loses no opportunity to strengthen itself against the citizens.

The sooner a tube system can be constructed the sooner Toronto will be delivered from the toils that seriously threaten its growth and progress. Building a tube system and appropriating the street railway franchise are complementary proposals.

A SERIOUS SITUATION.

Evidently some of the students at Toronto University do not yet realize the gravity of the situation created by the hoodlum acts of last Hallow Eve. Apparently these misguided youths think that the offence was a mere British prank, and that as such it should be considered. This is the most charitable construction to be placed on the conduct of those who appear willing that the reputation, not only of the university, but only of Toronto—but of Canada itself, which is on trial in this matter in the eyes of the world, should suffer.

There were gross acts of lawlessness in the destruction of private property on the occasion in question; and still worse, dastardly insult to ladies supposed to be under the protection of the student body.

Had the interference of the hoodlums been confined to other students at a time when proper retaliation could have been administered, the public would not have been interested. But these cowardly acts upon the sacred property of ladies when retaliation was impossible. Had the damage been confined to trivial injuries to university property this could have been...

by the delinquents. These blackguards were not satisfied with their own field, but proceeded to practice their rovelty on ladies and strangers.

Warning had been given in previous years that severe treatment would be meted to future offenders. The leniency of the present punishments is the theme of general comment.

The argument that strangers, not students, mingled with the crowd of students and committed the acts complained of is in itself an admission of guilt. You say you intend to stop the hoodlums?

The argument that the innocent are being punished for the guilty is equally false. Have any attempts been made to produce the members of the mob?

If the students who complain about the punishment of the innocent were in earnest, they could have the names of every man present that night inside three days.

Those who take sides against the university caput in this affair are either utterly unaware of the gravity of the situation, as we suggest; or, if they are consciously arranging themselves against law and order and decency, are strengthening the feeling that such severe measures are necessary as have yet been exercised.

Reprisals such as have been threatened will fully justify the caput in the restitution of all the students who make themselves party to such a policy.

Fortunately, the good sense and gentlemanly instincts of the great majority of the students stand with the caput for the preservation of the university's good name.

WOMEN AND THE VOTE.

Mrs. W. Hews Oliphant has written a letter to an evening paper which indicates, whatever else it does, her total lack of acquaintance with the situation in Canada regarding the political status and influence of women. Her idea of the necessity "to shout myself hoarse trying to drown Mr. Poy's speeches on public subjects" will be the joke of the week.

While deploring the necessity that has resulted in a militant campaign, and in no way condoning the regrettable incidents that have followed the adoption of Right Hon. Arthur J. Balfour's advice to the English suffragettes to make a noise, the Canadian Suffrage Association has clearly recognized that in Canada and in America generally, there is no occasion for the methods that have been employed with undoubted success for the purpose intended in England. Here women have a measure of political influence, slight indeed in proportion to their contribution to society, but with distinct promise for the future. Mr. James Whitney has pledged himself to take up the question when women generally demand it. He is not too favorably disposed to female suffrage, and on one occasion remarked that its advocates were the chief argument against it.

Mrs. Oliphant's plea is not likely to confirm his opposition. Mrs. Pankhurst, who is to speak in Toronto to-day, only asks a hearing from reasonable people. Evenward one Liberal, who have recorded their opinion that women are not fit to vote, cannot refuse to listen to an appeal to reason. The women associated in Toronto with the Suffragist movement are as well-known for their domestic virtues as for their public services, and may well claim a hearing. Mrs. Oliphant's suggestion that they seek notoriety does not commend itself to those who know the circumstances.

AT OSGOODE HALL.

ANNOUNCEMENTS.

Peremptory list for divisional court for Monday, 22nd inst., at 11 a.m.: To be spoken to: 1. McKencher v. Marion (7). 2. Wright v. Coleman (8). 3. Bisky v. Devins (10). 4. Schlemmer v. Greenblatt (23). 5. Re Seymour and Co (47). For argument: 1. Horgan v. Port Arthur. 2. Massa v. Port Arthur.

Peremptory list for court of appeal for Monday, 22nd inst., at 11 a.m.: 1. Sprague, W., re estate of (10). 2. Bruce Mines, Ltd., v. Bruce Mines (20). 3. Wade v. Livingston. 4. Treasurer of Ontario v. Patten (12). 5. Kimball v. Butter Bros. Hoff Co. (12).

Non-Jury Assizes.

Peremptory list for the non-jury assizes at city hall, at 11 a.m., Monday, Nov. 21, 1909: 111. Worts v. Eaton. 112. Adams v. Chapin. 113. McKeady v. Owen. 117. Squitres v. Toronto Gen. Trusts. 119. Imperial Trust v. Nurse.

Master's Chambers.

Before Cartwright, K.C., Master. George v. Strong - J. H. Spence, for defendant, on motion to set aside judgment on default of defence signed by defendant. Duncanson v. H. Kilmer, K.C., for plaintiff, contra. Judgment: Without determining whether a sufficient case has been made out by defendant, it seems better for all parties at this stage to refer the motion to the trial judge. If plaintiff succeeds there will be no objection in giving this defendant leave to plead, as it was stated that the defence was the same as his co-defendants. If the plaintiff should fail the trial judge will be in a position to say what is to be done about this defendant. It would be most unfortunate if anything should prevent a trial at these sittings when the claim is only for \$800, recoverable against five defendants, and for which they are jointly liable as between themselves.

Kemerer v. Willis - Glyn Oslar, for defendant, on motion for a further affidavit and books asked for by Mr. Oslar except accounts filed and sworn to by Willis in the first action. Usual order made. Costs in the cause. The documents must be deposited in court if required by plaintiff. Adjudged for one week peremptory.

Bicknell v. Treanor - Bicknell v. Hargreaves - Bicknell v. G. Hargreaves - Bicknell v. Spencer - Junior (Bicknell and Co.) - Aylesworth, contra, asked for enlargement. Adjudged for one week peremptory.

Merner v. New Hamburg Manufacturing Co. - Paulin (DuVernot & Co.) for defendant, moved to dismiss application for writ of prohibition. Motion granted, with costs. Plaintiff, contra. Judgment: Without determining whether a sufficient case has been made out by defendant, it seems better for all parties at this stage to refer the motion to the trial judge. If plaintiff succeeds there will be no objection in giving this defendant leave to plead, as it was stated that the defence was the same as his co-defendants. If the plaintiff should fail the trial judge will be in a position to say what is to be done about this defendant. It would be most unfortunate if anything should prevent a trial at these sittings when the claim is only for \$800, recoverable against five defendants, and for which they are jointly liable as between themselves.

McLaren - H. W. A. Foster, for plaintiff, moved for an order for the issue of a concurrent writ of summons for a defendant in Manitoba. Order made.

Mobley v. Toronto and York Radial Railway Co. - Davidson (Aylesworth & Co.) for defendant, moved on consent for order dismissing action without costs. Order made.

Warren v. Peterson Lake Silver... Callahan v. Taylor - A. MacGregor... Rector v. Canadian Bank of Commerce - F. Aylesworth... Holmes v. City of St. Catharines - A. C. Kingston (St. Catharines), for the local judge, directing trial of an issue. J. A. Keyes (St. Catharines), for plaintiff. C. E. Connor (St. Catharines), for the city, contra. Upon plaintiff electing as to which defendant he will proceed against, motion dismissed. Costs in cause to plaintiff, and the defendant city against the Gas Co.

McPherson v. McGuire - W. Laidlaw, K.C., for plaintiff, motion for judgment on the facts. J. White, for defendant, contra. Reserved.

Re Hocking J. Singer, for applicant.

solidated action. Parties to amend so that they can be joined in the pleadings only to appear on the record. Holmes v. City of St. Catharines - A. C. Kingston (St. Catharines), for plaintiff, moved for an order for the issue of a concurrent writ of summons for a defendant in Manitoba. Order made.

Mark v. Michigan Sulphide Fibre Co. - W. E. Raney, K.C., for plaintiff, on appeal from judgment of the trial judge in chambers, letting defendants in to defend on terms. J. McCarthy, for defendants, contra. Judgment: Defendants have in my opinion produced very strong evidence to support their contention that they did not owe the plaintiff any part of the claim for which the judgment was recovered, and as the master has exercised his discretion in favor of letting them in to defend, I ought not, I think, to disturb the judgment and the appeal will therefore be dismissed. The costs will be in the cause.

Before Falconbridge, C.J. Re John R. Robertson - D. L. McCarthy, K.C., for Frank Clark, moved for an order declaring lunacy. Re Meredith, for the official guardian. Order made.

Re Reid - J. R. Meredith, for infant, moved for an order for payment into court of certain moneys. Order made.

Re Jones, J. D. McLaughlin Estate - J. E. Jones, claimant, moved for an order for the payment out of sum of \$11,000 in court. No one contra. Order made.

Re Banane, Stubbis v. Banane - G. C. Campbell, for applicant, J. Waldell, for respondent, J. Enlarged one week.

Re Caufing, a lunatic - J. M. Ferguson, for Sarah Elizabeth Caufing, moved for an order for payment into court of certain moneys for maintenance of the lunatic. J. R. Meredith, for the official guardian. Order made for payment with the priority of the official guardian.

Re King v. Macdonald - An application for enlargement of motion on return of habeas corpus. J. S. Cartwright, K.C., for the crown, moved for a certiorari. Enlarged until 23rd inst. All objections reserved.

Re Wherry - J. R. Meredith, for infant, moved for an order appointing moneys in court, and for payment out of moneys. Order made.

Re Western - J. R. Meredith, for infants, moved for order continuing the allowance for maintenance granted by the court. Order made.

OPHONE & AURASAGE

Improved and head noises relieved.

The Aurophone, by exercising the delicate parts of the ear, gives strength and vitality to the auditory nerve, at the same time making distinct many sounds that, without its use, would be dulled or lost.

Deafness is sometimes caused by throat trouble or catarrh, sometimes head noises are the result. Systematic massage through vibration helps under these circumstances.

The ideal means is the use of the Aurage, an electrical apparatus scientifically combining vibration, suction and sound, to clear the ear and get it again into healthy play.

Call at the Optical Department and have these instruments demonstrated for you. Second Floor—Albert Street.

Ontario Bank Case in the Supreme Court. OTTAWA, Nov. 19.—In the supreme court to-day the first case taken up was Ontario Bank v. McAllister, Wallace Nesbitt, K.C., moved to quash the decree. Two actions were taken against the bank which were never consolidated, and separate judgments were given by the divisional court for \$100 each. The actions have been tried separately, and in the second case the defendant submitted to judgment. The appeals to the court of appeal were consolidated, and one certificate of judgment issued, and one security was given for costs of appeal to the supreme court. It was contended that these were two separate actions, in neither of which an appeal would lie. The court held that they had no jurisdiction to grant an application by the appellant to set this case aside until the court of appeal could be moved for. The court of appeal will now be moved for. Motion for judgment reserved.

FISHERIES PROTECTION. New International Agreement Effective in a fortnight. NEW YORK, Nov. 19.—According to an announcement made in New York, to-morrow, the agreement between Canada and the United States for the protection of the waters lying between the two countries from conditions endangering the fisheries has been signed and probably will become operative within a fortnight. The announcement was made by Dr. David Starr Jordan, the American member of the international fisheries commission, which has been engaged for more than a year in drawing up the statutes.

**A RELIABLE MEDICINE FOR ALL CHILDREN**

Baby's Own Tablets are absolutely safe. This medicine is as good for the new born babe as the well grown child. It contains no opiate or poisonous stuff. The mother who gives this medicine to her child has the guarantee of a government analyst that these statements are true. This is worth something to every mother. Baby's Own Tablets is the only medicine that is sold under such a guarantee. The Tablets cure such ailments as indigestion, colic, constipation, diarrhoea and teething troubles, destroy worms, break up colds and thus prevent deadly croup. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medi-

**THE WEATHER**

**OBSERVATORY, TORONTO, Nov. 19.** (8 a.m.)—Cloudy weather, with light local rain or snow, has prevailed over the lake region to-day, and to-night light snow is falling in the Ottawa valley. In Alberta and Saskatchewan light snowfalls have been general, attended by much colder conditions; elsewhere the weather has been fair, and in the maritime provinces and Quebec clear.

Minimum and maximum temperatures: Dawson, 2 below; Victoria, 4 below; Vancouver, 4-7; Edmonton, 2 below; Battleford, 6-16; Prince Albert, 6-12; Calgary, 4-10; Moose Jaw, 2-11; Regina, 4-10; Winnipeg, 2-4; Port Arthur, 2-21; Parry Sound, 24-25; London, 28-41; Toronto, 30-42; Ottawa, 18-30; Montreal, 15-30; Quebec, 18-22; St. John's 20-30; Halifax, 24-34.

—Probabilities—  
Lower Lakes and Georgian Bay—Fresh to strong westerly to southerly winds; mostly cloudy and mild, with light local rains.  
Ottawa and Upper St. Lawrence—Fresh to southerly winds; cloudy, with light rain or snow; higher temperature.  
Lower St. Lawrence and Gulf—Fresh to southerly to southerly winds; cloudy, with light local snow; a little higher temperature.  
Maritime—Moderate to fresh west to south winds; fair Saturday; light local snow or rain at night on Sunday; rising temperature.  
Superior—Fresh to strong winds, shifting to northwest and north; cloudy with light local snow; colder on Sunday.  
Manitoba and Saskatchewan—Decidedly cold; light local snowfalls.

**FOURTH YEAR MEN'S VIEW.**

**Editor World:** Your editorial in Monday's issue gives the students of the University a severe and well deserved chastisement for the disgraceful displays of boorishness that took place on the University grounds on Halloween. 'Cowardly Chit-chat' is a term that rather cringes on the side of mildness when applied descriptively to the loud-mouthed chaps who fare forth under the cover of darkness with a large share of the blame that make use of their class-mates to sidestep them from justice administered with a leniency that is well-meant but entirely wasted. An aspect of the case that has apparently hitherto escaped the notice of commentators is that the guilty parties have allowed President Falconer to be saddled with a large share of the blame that attaches to their rowdiness. One newspaper has gone so far as to state that the affair proved the president to be an unpardonable weakling. Personally, I am persuaded that the president is pursuing a very mistaken policy. As you very aptly put it, in the editorial referred to, he "has endeavored to treat the students as gentlemen, but they have not justified him." The correct course would be so to administer discipline at the university that overgrown college boys and high school boys may be quickly and unmistakably taught that the Province of Ontario is not maintaining that institution for the benefit of such mischiefs as irresponsible minds of such a class. We should police to maintain order at the University? Why not? By what right is the student hoodlump privileged in his attitude toward the president? Is he a downtown member of the same fraternity punished with all the pains and penalties of the law? Appeals to honor and chivalry are administered to them down-town members of the same fraternity punished with all the pains and penalties of the law? Appeals to honor and chivalry are administered to them down-town members of the same fraternity punished with all the pains and penalties of the law? Appeals to honor and chivalry are administered to them down-town members of the same fraternity punished with all the pains and penalties of the law?

**CAUSE AND CURE OF NEURALGIA**

Modern Methods Dispose of the Cause Instead of Treating the Symptoms.

Neuralgia means simply "nerve pain," so there may be a great variation in the character and intensity of the pain and any nerve in the body may be affected. There are a number of causes of neuralgia, but the most common is a general run-down condition of the system. This may be due to a number of factors, such as indigestion, constipation, or a general weakness of the system. It is common in the case of those suffering from anaemia or bloodlessness. This brings us to the actual cause of neuralgia, which is nerve starvation. The blood which in normal health carries to the nerves all of their nourishment, is unable to perform this duty satisfactorily when it is weak or impure. Build up the blood and the neuralgia pain will disappear as the nerves become better nourished. Dr. Williams' Pink Pills are a blood-making tonic, and for this reason cure the most obstinate cases of neuralgia. Every dose of this medicine makes new, rich blood, and it is common in the case of those suffering from anaemia or bloodlessness. This brings us to the actual cause of neuralgia, which is nerve starvation. The blood which in normal health carries to the nerves all of their nourishment, is unable to perform this duty satisfactorily when it is weak or impure. Build up the blood and the neuralgia pain will disappear as the nerves become better nourished. Dr. Williams' Pink Pills are a blood-making tonic, and for this reason cure the most obstinate cases of neuralgia. Every dose of this medicine makes new, rich blood, and it is common in the case of those suffering from anaemia or bloodlessness. This brings us to the actual cause of neuralgia, which is nerve starvation. The blood which in normal health carries to the nerves all of their nourishment, is unable to perform this duty satisfactorily when it is weak or impure. Build up the blood and the neuralgia pain will disappear as the nerves become better nourished. AT THE THEATRES

TORRE, Dramatic Tenor, National Grand Opera Co., Royal Alexandra, next week.

Grand Opera Next Week. The musical event of the season will be the engagement of the National Grand Opera Company...

The principal artists include: Tenors, Battaini, Amadi and Torre; sopranos, Frery, Zavaschi and Tosi; baritone, Alessandrini and Scel-Corsi; contraltos, Fox and Perago, and basses, Gravinia and Farnelli.

The company numbers one hundred, with a picked orchestra of nearly fifty musicians, and is an aggregation not often heard except in a few of the world's largest musical centres.

"Aida" on Monday evening will be given, with Frery, the French dramatic soprano, who is well known at the Paris Grand Opera House.

"Lucia" will be sung on Tuesday evening, with Zavaschi, the coloratura soprano, whose fame is well established both in Europe and South America.

"Cavalleria Rusticana" will be given on Wednesday evening, with Frery, Fox, Battaini, Farnelli, Scel-Corsi, Gravinia and Perazzi.

"Traviata" Thursday matinee, with Zavaschi, Amadi, Farnelli, Alessandrini, Perago, Del Campo, Torre, Scel-Corsi, Farnelli and Giuliani.

"Carmen" (in French), with Fox, Torre (the great tenor), Perago, Tosi, Del Campo, Scel-Corsi, Farnelli and Giuliani, will be Thursday's bill for the evening.

"Rigoletto" for Friday evening, with Zavaschi, Perago, Del Campo, Torre, Alessandrini, Gravinia, Farnelli and Giuliani.

"Aida" with the cast of Monday evening, will be sung for Saturday matinee.

"Cavalleria Rusticana" and "Paz-Hacci" will be the great double bill for Saturday evening, with Fox, Torre, Perago, Del Campo, Scel-Corsi, Amadi, Martella and Giuliani.

"Paid in Full." The Eugene Walter play, will be seen at the Princess Theatre the latter half of next week, opening with a special matinee Thursday, when the Wagenhals & Kemper Company offers it with a New York cast.

"Paid in Full." The Eugene Walter play, will be seen at the Princess Theatre the latter half of next week, opening with a special matinee Thursday, when the Wagenhals & Kemper Company offers it with a New York cast.

SCENE FROM "PAID IN FULL." To be seen at the Princess on Nov. 25, 26, 27.

week at the Princess Theatre, when the famous Edwin A. Reiken's All-Star Yiddish Company, direct from one of the leading Yiddish theatres of New York, will present their latest successes, "The Yiddish Vahel," written by Mr. N. Rackov, and "The Front Jewess," written by the greatest Yiddish playwright, the late Jacob Gordon.

Miss Tilly Koenen. Miss Tilly Koenen's miraculous voice, as it is called, and her wealth of dramatic force and expression have secured for her the premier place on the continent of Europe as a recital artist.

"The Clansman" Coming. Patrons of the Grand are urged, in their own interest, to send in their advance orders by mail for "Clansman" tickets.

"The Battle." The new play by Cleveland Moffet, will be seen at the Royal Alexandra the week of Nov. 29.

Royal Welsh Ladies' Choir. The return of the Royal Welsh Ladies' Choir to Massey Hall on Saturday week, Dec. 4, will be welcomed by all those who heard them on their last appearance here.

RECORD AUCTION SALE OF ARTISTIC FURNITURE. How rapidly Toronto is growing into a metropolitan city is very distinctly shown by the disposal of public auction of the most remarkable and valuable collection of artistic furniture.

Even a cursory examination discloses the exceptional character of the articles that fill every room of the large building. They include a "kneaser" and a Fischer grand piano, both in good condition, and fine tone quality.

Camille Ober at Shea's. Camille Ober, the favorite Parlatan singer, is booked as the headliner at Shea's next week.

May Robson. Miss May Robson, as Aunt Mary, in "The Rejuvenation of Aunt Mary," is coming to the Princess the week of Nov. 29.

All-Star Yiddish Company. One of the most interesting events to take place in this city will occur on Tuesday and Wednesday of next week at the Princess Theatre.

"Wine, Woman and Song." The attraction at the Star next week is one that will be a real winner among the burlesque shows this season.

"Wine, Woman and Song." The attraction at the Star next week is one that will be a real winner among the burlesque shows this season.

How Do You Like the Winter As Far as It Has Gone?

Cold weather always brings discomfort into the house that is not provided with an efficient heating system. The few days of winter we have had so far is only a taste of what is to come.

There is time yet for a change. Get an estimate from your Plumber. The "Sovereign" may be quickly installed.

YORK COUNTY

N. TORONTO COUNCIL NOW CONSISTS OF FOUR

Resignations of Messrs. Burnaby, Howe and Irwin Accepted—General County News.

NORTH TORONTO, Nov. 19.—(Special.)—I move, seconded by Councilor Peart, that the resignations of Councilors Burnaby, Howe and Irwin, as received, be accepted.

The North Toronto Ratepayers' Association, thru the president, D. D. Reid, queried the mayor on the intention or otherwise of the council to again submit the question of annexation.

The proposal to take a vote on the Sunday cars was laid on the table for the present. Young-street houses will be numbered, the work to be done under the direction of Engineer Brooks.

General accounts, totaling more than \$400, were passed. Council met and adjourned early, to enable the members to attend later a local social function.

The North Toronto Ratepayers' Association meets to-morrow (Saturday) night at 8 o'clock sharp. All are invited.

The condition of S. U. Armstrong was last night regarded as extremely critical. Special church service at the Eglinton Methodist Church next Wednesday evening.

WEST TORONTO

Opening of Runnymede Library Was Auspicious Event.

WEST TORONTO, Nov. 19.—The old schoolhouse in Runnymede was the scene of an interesting event to-night when the formal opening of the new public library took place under the most auspicious circumstances.

At an early hour this morning the tailoring establishment of J. M. Gabel, 141 Dundas-street, was broken into and the place ransacked. The auditorium of the Collegiate Institute was the scene of a pleasant social function to-night, when the programme of the college held the annual at home.

Several of the Pickering College Old Boys' play rugby with the school on the new grounds at Newmarket to-day. Invitations are not for the formal opening of the college building next Friday.

EAST TORONTO

Ratepayers' Executive Discuss Big East End Matters.

EAST TORONTO, Nov. 19.—Coleman street juniors to-day defeated Crawford-street juniors by the score of 5 to 0. The game was in the hands of the Coleman boys from the time that the starter's whistle blew until the final signal was ably handed by E. Hanna.

At a meeting held to-night in the East Toronto Ratepayers' Association East Toronto Y.M.C.A. Hall, by the East Toronto Ratepayers' Association, the letter which has been sent to the mayor and the city council by the executive was discussed. These matters were up for consideration:

1. The consideration of the Bloor-street viaduct. 2. The opening of Dawes-road to Gerrard-street. 3. The best lighting of streets, Main-street bridge particularly.

MARKHAM. School Board Appoint Successor to George H. Reed.

MARKHAM, Nov. 19.—(Special.)—The trustees of the Markham High School have appointed a successor to George H. Reed, recently made South York Inspector of Public Schools.

AGINCOURT. Local Temperance Folk Will Hear Good Lecture.

AGINCOURT, Nov. 19.—(Special.)—Rev. J. W. Paddy, pastor of Western Methodist Episcopal Church, Toronto, will lecture in the Temperance Hall here under the auspices of the Mount Melburn District S. O. S. on Monday evening, Nov. 22, on the subject, "Satan's Wives of the Cabbage Patch."

Recommended As An Ideal Remedy

W. S. BOND, ESQ.

Lloydton, Ont., March 19th, 1909. For some years I have been greatly troubled with headaches and indigestion, brought on by stomach disorders, constipation and biliousness. I had tried many remedies with only indifferent success, until 'Fruit-a-Lives' came to my notice.

"I might add that about three years ago I was laid up with LUMBAGO AND SCIATICA—couldn't get out of bed or lift one foot over the other. A good treatment of 'Fruit-a-Lives' cured me of these pains and banished the Sciatica and Lumbago as that to-day I am as well as ever—and can lift anything necessary."

RUGBY AT NEWMARKET.

Several of the Pickering College Old Boys' play rugby with the school on the new grounds at Newmarket to-day. Invitations are not for the formal opening of the college building next Friday.

DEER PARK.

DEER PARK, Nov. 19.—(Special.)—On Thursday evening next, Nov. 25, there will be a "service of praise" in the church, when the choir will be assisted by Miss Lillian Fowler, soprano, Mr. J. Augustine Arlidge, tenor (soloist at the Metropolitan Church), and Mr. Jas. R. Milne, bass (soloist at Old St. Andrew's Church).

FOREST HILL.

The young people of Forest Hill Church (Presbyterian), held a very successful and well attended social gathering last Thursday night.

TODMORDEN.

Samuel Mayne of this place was summoned by a city police constable for allowing his dog to run at large upon city streets.

Credit Auction Sale. of 24 head of fresh milk cows and 24 head of pure bred Jerseys, Monday, Nov. 22nd, 1909, at 1 o'clock.

MARKHAM. School Board Appoint Successor to George H. Reed.

AGINCOURT, Nov. 19.—(Special.)—Rev. J. W. Paddy, pastor of Western Methodist Episcopal Church, Toronto, will lecture in the Temperance Hall here under the auspices of the Mount Melburn District S. O. S. on Monday evening, Nov. 22, on the subject, "Satan's Wives of the Cabbage Patch."

FREEDOM OF SPEECH HERE FEDERATION IS GRATEFUL

Delegates Slap at Self-Arrogated Authority of U. S. Judges—Convention Ends To-day.

"That the freedom of speech, which we have exercised without judicial restraint based on super-constitutional and self-arrogated authority, has been more in conformity with the fundamental principles of a free and self-governing country than is possible in the States of America."

This resolution was adopted by the American Federation of Labor yesterday afternoon, along with the whole report of the resolution committee. It was the final slap of the delegates at the decision of the courts that President Gompers, Vice-President Mitchell and Secretary Morrison must surrender themselves to the authorities of the District of Columbia next week to begin their sentences in jail for contempt of court with the participating shot.

At 10 o'clock this morning the official gathering of the representatives of the tolling masses will be a thing of history. Suggest Appeal. "Injunction in labor disputes are innovations in our modern jurisprudence."

After stating that the issuance of injunctions for the enforcement of the criminal law, which it claims, is a departure from the domain of property rights and an invasion of personal rights, the report declares that, as contained not only in the Magna Charta and Bill of Rights of Great Britain, but in the Declaration of Independence and the constitution of the United States, no man shall be taken, imprisoned, outlawed or banished save by the lawful judgment of his peers.

"When, therefore, any court assumes to exercise powers not delegated to it by the constitution, it invades the rights specifically reserved by that document to the States and the people; its action becomes void from lack of jurisdiction and should not be obeyed."

The form of injunction to which the report objected was that which interfered with free speech and free press.

Enjoins Free Speech. "These are the fundamental safeguards of a free people which neither courts, kings nor caesars should be permitted to destroy."

"The form of injunction to which the report objected was that which interfered with free speech and free press. These are the fundamental safeguards of a free people which neither courts, kings nor caesars should be permitted to destroy."

Chronic Catarrh is A Blood Disease

Which Can Never Be Cured by the Use of Atomizers, Douches, Snuffs or Other Local Treatments.

Long ago physicians found out that the very prevalent disease called catarrh was not a local trouble, but a systemic or constitutional blood disorder instead.

When the blood is impure, it not only sends out the toxins, but it very often eliminates them through the mucous membrane, also, and the result is a catarrhal condition. In view of the foregoing facts, the absurdity of attempting to cure catarrh through local applications should be apparent.

Stuart's Calcium Wafers have long been known as the most effective and powerful blood-cleansing, skin-disease removing, and catarrh cure in existence.

Stuart's Calcium Wafers have long been known as the most effective and powerful blood-cleansing, skin-disease removing, and catarrh cure in existence.

# CANADIAN NORTHERN NIAGARA-OTAWA LINE IN YORK TP.

## NEW ROAD JOINS OLD LINE IN DON VALLEY

### Attains High Level in East Toronto, Making Adjacent Property Suitable For Factory Sites.

The World has, with the accompanying, now published detailed maps of the Ottawa line of the Canadian Northern in the Counties of York, Ontario, Durham.

This map of to-day shows where the Ottawa line leaves the Suburban line in the Don Valley at Leaside-street and crossing the Don Mills-road runs up the valley of Massey Creek to the high level east of Dawes-road and thru the Massey farms into Scarborough Township. As was stated in yesterday's World it is possible to switch back from just east of Dawes-road and make yards and factory sidings out of all the land lying north of Danforth-avenue, and as far west as Leaside-street and even over to Don Mills-road. The York Township right of way is roughly a quarter of a mile on Mrs. Robert Davies' land, a mile on J. H. Taylor, a quarter of a mile on H. Talbot, a mile on William Harris, half a mile on Mrs. W. E. Massey. There will likely be arbitrations on all these parcels as to compensation for the land expropriated.

## WHAT SAY THE PEOPLE ON NAVAL PROPOSALS?

### John N. MacKendrick of Galt Asks The World to Make Manifest Canadian Sentiment.

GALT, Nov. 19.—(Special).—The circumstance of our British connection is, of course, a fact; the question of our loyalty to the motherland is likewise beyond dispute, and the proposition that, as a crown colony and integral part of the Empire, Canada is bound, both by policy and morals, to assume her due share in the means taken for the defence of the British realm and to be willing to bear her fair proportion of the responsibilities generally waiting on the administration of Imperial concerns requires, according to my thinking, no formal affirmation.

So said Mr. John N. MacKendrick, M.A., Sec.-Treas. of the Gore District Fire Insurance Company in a conversation with the World correspondent.

"But," he proceeded, "I must frankly add that I am not in sympathy with the obstruction on our politics of the issues that has been raised as to the relations of this country to Great Britain

In the matter of Imperial defence. In fact, I would say that it is a pity that our government should feel called upon, as earnest of the practical loyalty of Canada, to propose, on behalf of Canadians, a contribution from the treasury for naval armaments. Moreover, I am strongly of opinion that not one in a hundred of our population would approve of a Canadian appropriation voted for warlike purposes. If I am inconsistent in the stand I take, show me, and I shall recede and retract. Imperial defence presents a wide field of discussion. Let it be entered in the right spirit. All loyal and patriotic Canadians are privileged, if not bound to express themselves on the subject.

"The situation, it seems to me, needs the light—of fact, reason, argument. It isn't a party question; let us all trust it will not be made one. As a matter of fact, both parties in Canada have subscribed to the doctrine of Canada's obligation to aid in Imperial naval defence. The issue, then, is not one of principle, but of policy—not a question of 'Shall We?' but of 'How May We?'

In Time of War.

"No doubt, with a few more such intense journalists as Col. G. L. Denison and men of that ilk exploiting their press and on the platform, it might be possible to so present warlike theories as to cause a large body of Canadians to almost any pitch of militarism; at the same time, I strongly believe that the greater body of sober-thinking men, close students of public affairs, unlikely to yield to belated sentiment or befuddlement, would continue to keep their base and balance the issue intelligently, honestly, dispassionately and with the best issues both of crown and colony studied.

"What, let me ask you, would the British Government want most in time of war? Food for its fighting men. And where would that food be more likely to be sought than in Canada, which now is so largely Britain's granary and which promises eventually to be the great, if not one-source of her supply? Canada to-day is contributing to the naval defence of the Empire, by spending millions in a host of Canadian ships that are training our cadets and our rifle club membership and in teaching the maritime population seamanship—than in building battleships that a few years hence would become obsolete and paying the cost of a petty navy that one engagement with a real sea-force would smash to atoms.

"My contention is, then, that in peaceful pursuits, we Canadians are already contributing signally and successfully, at the expenditure of vast sums, to the maintenance of the Empire, afloat and ashore. In armament, too, we are doing something—else the Halifax garrison and the Esquimaux fortifications, taken over by the government, go for naught.

"But, of course, there is nothing objectionable in this sort of manifestation of loyalty. It is not a crime. But isn't

that of a Canadian willing to do for his country and the empire what can be done most helpfully, in reason and propriety, and from the highest sense of national duty?

What say the People?

"We're at the parting of the ways, he declares. That is even so. And the fact impels all the more, the word of kindly caution. The people of Canada do not need to be rounded up for loyalty and British connection any more than they need to be stamped into ultra self-sufficiency and separatism. 'Manifest destiny' is working out along good, honest, undemanding British Imperial lines. We should do nothing to interrupt the peaceful process. Many people look to The World and W. F. Maclean to perceive and condemn the spectacular in questions concerning our Imperial relationships and the fanfare and humbug in our party politics in general. The Maclean-Toronto World section of the political parade may well continue to bear aloft the 'Explosive' banner with supplemental devices.

"And while we sing 'God save the King!' 'We'll not forget the People.' 'It's the People, not the parliamentary leaders and obsequious political patriots, who stand for Canada at this juncture—and always.

"Will The World, with its usual enterprise, try to find out what say the people on Imperial Naval Defence?"

## FISHGUARD AS AN ATLANTIC PORT

### Guinard's Choice of Welsh Harbor as Port of Call Vindicated—More Time to Be Saved.

The decision of the Cunard Line last summer to use Fishguard as a port of call for its steamships has been thoroughly vindicated by successful experience and has conferred a benefit on trans-Atlantic passenger travel that has been highly appreciated by those who have used the Cunard Line since the innovation was put into effect. Not only ordinary travelers for pleasure, but commercial men who make frequent trips abroad are unanimous in testifying that the five-hour saving in time of arrival at London is an advantage over the former practice of going direct to Liverpool and taking the longer trip from that port that could not be dispensed with. Moreover, in addition to the saving of time, the Cunard passengers greatly appreciate the fact that the change enables them to reach London comparatively early in the evening, instead of being locked at the railway termini in the small hours of the morning.

Another advantage, which at times becomes of great importance to travelers who have urgent reasons for arriving in London on time, is that the chances of being held up by fog are largely minimized, as Fishguard ships have not to be navigated up a tortuous channel like the Mersey. The whole journey from Queenstown right into Fishguard Bay is practically a straight line, and over and above all this, the part of the Welsh coast where Fishguard is situated is wonderfully free from fog.

Speaking of the arrival of one of the great liners at Fishguard, an English writer says: "I was struck with the expeditious manner in which the passengers were transferred from the ship to the trains in walking without the slightest confusion or inconvenience. The operation was carried out as easily as if the liner had been brought alongside the quay. The mails and the passenger baggage were handled with equal expedition. The whole operation from beginning to end was a marvel of organization and executive arrangements at the station in order that this examination of baggage shall entail as little inconvenience as possible. To one who has had many experiences of the customs in New York, the arrangements at Fishguard are particularly striking. Courtesy and good humor were apparent everywhere. There was no crowding or confusion of any sort, and I was not surprised to hear a New York passenger observe that here was one thing that the 'Old Country' did better than the States."

The Great Western Railway Co. in spite of the fact that some critics have stated that the innovation would never be made to pay, is expanding considerable sums in constructing a new line at Fishguard in order to which will still further quicken the service. The road is now using two of its most luxurious corridor trains for the convenience of passengers, and they make only one stop between Fish-

## SCIENTISTS TELL US

### The use of a nourishing stimulant is essential. The tissues of the body are constantly being worn down by physical exertion, exposure to cold, and by many other demands constantly made upon the system. The rebuilding, a most necessary part for retaining robust health, is greatly assisted by the use of a stimulating beverage, which acts not only as a tonic, but as a food as well. Ale has positive food value—barley, hops, and pure water are the principal ingredients. Prominent physicians tell us that pure Ale is a wholesome, strengthening food. Trainers of athletes order Ale after vigorous exercise—not only as a stimulant, but as a food that is easily and rapidly assimilated. In nutritive material barley is fully 75 per cent. fat and heat—excellent for cold or frosty weather.

is specially prepared to meet the needs of the home—family—the athlete—or anyone in need of a food tonic. Order a case from your dealer.

## Cosgrave's PALE ALE

Funeral of O. M. Foster.

The funeral of the late Oscar Milton Foster, whose death occurred at Maskeed, Alberta, last Saturday, took place from 111 Victor-avenue, the home of his parents, Mr. and Mrs. Robert Foster, yesterday afternoon to Norway Cemetery. Rev. J. McP. Scott of St. John's Presbyterian Church officiated at the house and the Rev. Mr. Boyce held at the grave. Among the many floral tokens were a wreath from department J. T. Eaton Co.; a spray from Withrow-avenue school; a wreath from neighbors; wreath from Ald. and Mrs. Thos. Foster, and a wreath from Adelaide-street fire station.

Business Failures.

W. Robinson, confectioner, Toronto, has declared. Thomas P. Co. general merchants of Banorot, Ont., have also assigned. Oser Wade is assigned.

Henderson's New Auction Rooms.

Chas. Henderson, auctioneer, has rented the store lately occupied by Gerhard Hertzman on Yonge-street, where he will conduct auction sales for a few weeks.

Gait May License Laundries.

GALT, Nov. 19.—(Special).—The Galt board of health recommends 11-12censin laundries and restaurants. The annual reports show births 170, and deaths 125 in a population of 9452.

They cure by a very simple but wonderful principle which is fully explained in our Free Book. Write us. When your Drafts come, try them—then, if you are fully satisfied with the benefit received, send us One Dollar. If not, keep your money. You decide and we take your word. Address Magic Foot Draft Co., P.D. 45 Oliver Bldg., Jackson, Mich. WRITE TO-DAY.

## Charcoal the Great Absorbent

### Absorbs and Removes Stomach and Intestinal Gases and Makes the Breath Pure.

The able researches of Dr. Stenhouse, published about the middle of the last century, excited considerable interest in charcoal and its wonderful absorbing power. His experiments were directed to the deodorizing as well as the sorbing qualities of charcoal, and he succeeded in proving beyond all question or doubt, that charcoal is the most effective of all animal matter depended, not only upon its quality of absorbent and oxidizing, but also upon its capacity to absorb and oxidize putrefying matters.

Many other noted physicians have since that time investigated this absorbent and oxidizing action, and one of them, Dr. Hunter, has also published an account of his experiments, showing the relative amount of the various gases taken up by the different kinds of charcoal.

Both Stenhouse and Hunter experimented with charcoal made from poplar, box-wood, cocconut shells, willow wood, and various other woods, and they found that charcoal made from willow wood possessed by far the most power of absorbing, deodorizing, oxidizing and destroying foul gases. It may be added here that animal charcoal, which is employed so extensively as a deodorizing agent, is very inferior to wood charcoal as an absorbent and deodorant.

Stuart's Charcoal Lozenges are composed of charcoal made from the finest willow wood, the very best of all woods for this purpose. The addition of pure honey to these lozenges renders them so palatable that no one can resist their taste.

When they are taken into the stomach they do not lie inert and inactive, but get busy at once in the good work of absorbing and oxidizing all foul gases, destroying disease germs, preventing the further formation of gases, stopping fermentation, flatulence and decomposition of food, and cleansing the stomach walls of caustic mucus.

Stuart's Charcoal Lozenges are introduced into the system by being allowed to dissolve slowly in the mouth, where their cleansing action begins, rendering the breath pure and sweet, destroying germs existing in the mouth, and removing tartar from the teeth.

Call up your druggist over the phone, and ask him his opinion of the power of charcoal as a stomach cleanser, gas-absorbent and breath purifier; then, if you wish to send you a box of Stuart's Charcoal Lozenges for a trial, please send us your name and address, and we will send you a trial sample free of charge. Address P. A. Stuart Company, 30 Stuart Building, Marshall, Mich.

## To Be DYSPEPTIC Is To Be MISERABLE.

Dyspepsia is the prevailing malady of civilized life. It is largely due to gross errors in diet, over-eating, too free indulgence in stimulants and over-taxing the stomach with indigestible food, eating too rapidly without chewing the food sufficiently, indulging in hot biscuits, pastry, pickles, condiments, etc.

Burdock Blood Bitters has an established reputation, extending over thirty-four years, as a positive cure for dyspepsia in all its forms, and from all diseases arising from it.

Mrs. Herman Dickenson, Benton, N.B., writes: "I have used Burdock Blood Bitters and find that few medicines can give such relief in dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia and could get no relief until I tried Burdock Blood Bitters. I took three bottles and became cured and I can now eat anything without it hurting me. I will highly recommend it to all who are troubled with stomach troubles."

**COTTON EXPORTS**  
Will Break All Previous Records—High Prices Responsible.

WASHINGTON, Nov. 19.—The total value of cotton exports from the United States for the month of October, 1909, as shown by a bulletin issued today by the department of commerce and labor, reached the enormous sum of \$46,883,330. In no one month previously have such exports ever reached the \$40,000,000 mark.

For the ten months of the present year, ending with October, these exports reached a grand total of \$238,526,885, against \$254,603,265 in the corresponding period of 1907, the highest record ever attained for a like period. If the present ratio is maintained for November and December, all previous records will be broken, and the \$500,000,000 line will be crossed. Large production and high prices are responsible for this showing.

Of the \$41,000,000 worth of cotton exported in the fiscal year 1909, \$17,700,000 worth went to the United Kingdom, \$11,200,000 to Germany, \$10,000,000 to France, \$7,000,000 to Italy, \$4,200,000 to Spain, \$2,500,000 to Belgium, \$4,500,000 to Russia, and \$8,600,000 to other sections of Europe.

TAXICABS AS AN INVESTMENT

A system, which can boast of being the only means of rapid transit in a quick growing community, is an ideal investment, because it is a big money earner.

Toronto's Taxicabs have demonstrated their value as the rapid transit service of this city.

Toronto's Taxicabs have proven their big earning powers, and can, under present conditions, pay a dividend of 10% per annum, or 2 1/2% quarterly, beginning January, 1910.

We advise the purchase of Taxicab Stock at \$6.00 per share, par value \$5.00, and of the time to buy is now.

Subscriptions will be accepted up to 100 shares in the order received at this office.

TORONTO'S PERIL

Films Construction of Public Schools May Bring Disaster.

"Construction," a journal devoted to building trades, will, in its next issue, devote a 16-page article by Editor J. S. Macdonald on the condition of Toronto public schools in regard to the danger from fire.

Mr. Macdonald repudiates the suggestion that his last article on the same subject was inspired by a fire escape manufacturer, and comments on the fact that fire drill is ample protection against loss of life through fire.

The article is in the form of an epistle to Building Superintendent Bishop, and among other things the editor says:

"Do you work upon the principle that you can afford to take chances in an unsafe building as long as another department will undertake to train children to be fireproof and smoke proof?"

Circumstances of the Collingwood disaster are shown in the "child-proof" school buildings which are being built in Toronto. The fire drill, which is held frequently in the face of imminent death, and yet more than half of these little ones died horribly because of faulty building arrangements.

Numerous letters from building inspectors, city architects, superintendents of school buildings and building commissioners in various cities are reproduced, all of which deprecate the lack of emergency exits on structures of this nature.

J. B. Mitchell, commissioner of school buildings in Winnipeg, writes:

"What is a small amount of money in comparison to the life of even one child?"

The letter goes on:

"With regard to the plan and construction of your more recent schools, you maintain that all buildings constructed or remodelled during the past few years have fireproof basements, fireproof hallways and iron stairs. It is further claimed in your behalf that all the school buildings are of 'slow burning' construction, and the students of school architecture in the United States are now inclined to favor high and compact structures, rather than low-spreading buildings.

"While I am free to admit that most of the additions to your schools, since the Collingwood disaster, have been provided with fireproof entrance halls and iron stairs, I have failed to find one school building in Toronto that has been so protected throughout. I would have been glad to see the plans provided with fireproof entrance hall or a truly fireproof basement in one of them.

"The Ogdon School, which I am told accommodates 1400 children, and is the largest public school in Canada, has wooden stairs, its halls are plastered on wood lath, on wood posts. The only fireproofing I could find in the basement were corrugated ceilings nailed directly upon the wood joists, which at the best is only a makeshift. The front stairs from the basement come up directly under the stairways from the upper floors, and the rear basement stairs lead directly into the rear vestibule through which the children are bound to pass in leaving the building. The stairs from the upper floors all lead down into a central corridor, directly under which are your boilers. Should your boilers go wrong during school hours in this building, exit via all four stairs would be cut off and the lower floors of the building would be a caldron of fire.

If this is the best type of building Toronto can afford, in the name of the child who will be a victim of such a disaster, I ask you why do you not provide it with emergency exits? Your King Edward School is even worse than the Ogdon."

"SURE STEP" ON DUNLOPS.

Dunlop "Sure Step" Saves the Bones—Makes Walking Safer.

The Dunlop "Sure Step" Rubber Heel is good rubber to be made with. Then to make it absolutely slipless it has a fabric direct projecting beyond the wearing surface at the points where the foot first strikes the ground.

In walking, the discs, or plugs, are imbedded in the rubber. They are guaranteed not to work out. If anything goes wrong with a Dunlop rubber heel the shoemaker who sold it has authority to give his customer a new pair and charge the cost to the Dunlop "Sure Step" Rubber Goods Company.

The Dunlop "Sure Step" rubber heel will save accidental falls. Have you noticed how the first day of snow and ice set people tumbling. Save your bones. Wear "Sure Steps." Put on by all shoe dealers.

GRIT AND GINGER WILL BRING SUCCESS!

Do you want to win Success? Do you want to make your mark in the world? Do you want to live a life that others will emulate? If so, and you don't feel that you have the necessary Vim and Vigor, I can help you.

Talked with a man who called on me the other day—a skilled mechanic; went to a technical school, graduated with highest honors; had the ability, but couldn't hold a position. Said he knew he had no disease; doctors had told him that, but had no ambition, no energy, no grit. Knew he didn't want to take medicine. My remedy appealed to him; he bought it and I'll make a man out of him; I'll put him in the ranks of the winners.

Misfortune ever dogs the Weak Man—the plodder. About as much fight in these men as there is in a feather pillow, and it takes a lot of Bulldog Grit and Gincer to win in the battle of life as the game is played to-day.

Business of every kind is a battle. Life is full of opportunities, and if a man is always "on the job" and has the Grit and Gincer to grab these opportunities and hold on with Bulldog tenacity and ferocity, Success is his, no mistake about it.

You can't run a locomotive with lukewarm water and you can't win Success unless your body is full of life—your nerve cells full of Electricity. "Electricity is Life!" That's what is claimed by the greatest scientists of the world, and that is the remedy that I offer you.

Give me a man who suffers from weakness—broken in health and spirit, who lacks the essential Courage and Manliness of a brave man, and I can put new life into him with my Electric Belt. With my system of treatment he can conquer his weakness, overcome his pains and aches, and soon be able to hold up his head and count himself a Man among Men.

If you don't believe in Electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security, and I will take your case, and you can't win Success unless your body is full of life—your nerve cells full of Electricity. "Electricity is Life!" That's what is claimed by the greatest scientists of the world, and that is the remedy that I offer you.

Give me a man who suffers from weakness—broken in health and spirit, who lacks the essential Courage and Manliness of a brave man, and I can put new life into him with my Electric Belt. With my system of treatment he can conquer his weakness, overcome his pains and aches, and soon be able to hold up his head and count himself a Man among Men.

If you don't believe in Electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security, and I will take your case, and you can't win Success unless your body is full of life—your nerve cells full of Electricity. "Electricity is Life!" That's what is claimed by the greatest scientists of the world, and that is the remedy that I offer you.

THE TORONTO WORLD

UNEXPLORED REGIONS SHOW MINERAL WEALTH

Broker McIlwain Vary Enthusiastic Over Possibilities of New Districts.

J. A. McIlwain, the well known broker, has returned from two weeks' trip to the unexplored section of the Timagami forest reserve, Mr. McIlwain went up for the purpose of looking for mineral wealth.

On one claim, a small test was made, and the effect of one shot was to disclose mineral wealth altogether unexpected from the surface showings. The minerals disclosed were galena, copper and silver.

Mr. McIlwain intended to prolong his visit, but owing to the severity of the weather and a heavy snowstorm, he with about thirty other prospectors in that section decided that unless they got out at once, they would be unable to return.

These prospectors, Mr. McIlwain said, are men of the most promising in the north.

The prospectors who returned with Mr. McIlwain were highly enthused in regard to the possibilities of the region. Many of them had gold, silver, galena, copper and samples of manganese, which they displayed, but would not give any information as to the location of the claims on which the showings had been found.

Mr. McIlwain is greatly enthused himself regarding the future possibilities of the district, which is at present unknown, and expects it to become one of the richest camps in the whole north country.

Ontario Short of Cattle Feeding Stables Not Full

Comparative statement of total receipts of live stock for the present and corresponding week of last year at the Union yards:

Table with columns for Cattle, Hogs, Sheep, Calves, Horses, and Total Live Stock, comparing 1908 and 1909 data.

The Farmstead.

Come to Dominion Grange. Remember has tempered November Philip's sale on Saturday. That was a big 'mum at the show. Northumberland and Durham can raise good apples.

International Keen competition has to be faced over there. The agricultural colleges of the States strain hard and have a big variety of draught horses in the States upon which to rely.

Wilson's Yorkshire Sale. James Wilson & Sons of Fergus have been breeding Yorkshire hogs for years in the Monkland herd is known all over Canada.

McDonald Farm Crops. Manager John Finke of the McDonald Farm, St. Anne's de Bellevue, sold in Ottawa yesterday this week that the roots and corn crops at McDonald College this year were the best on record.

York County Holsteins. Attention is directed to the advertisement of Holstein cattle by L. Summerfeldt & Sons of Unionville. These cattle are strictly first-class and are prize winners at the fairs.

Do You Realize What an Important Work the Kidneys Do? Do you know that every drop of your blood goes to the kidneys hundreds of times every day?

Do You Realize What an Important Work the Kidneys Do? Do you know that every drop of your blood goes to the kidneys hundreds of times every day?

Do You Realize What an Important Work the Kidneys Do? Do you know that every drop of your blood goes to the kidneys hundreds of times every day?

Do You Realize What an Important Work the Kidneys Do? Do you know that every drop of your blood goes to the kidneys hundreds of times every day?

REACHING OUT FOR FARMS.

Man's first acquaintance with life on this planet began on the soil of a small farm. Here amid the growing fruits, the trees for shade and firewood, and in the cultivation of the land to produce the plant-life desired, thus overcoming the luxuriant defiance of the wild, first began that love of the soil that has remained a legacy for all of Adam's sons.

Perhaps the claim which is at issue is the fact that in these countries are grown the best keeping apples on the continent. This has been well demonstrated by the practical success of a century of packing large quantities in ordinary storage, for the purpose of re-packing, which often takes place as late as the month of April and May.

The Ontario Ladies' College. One of the most important meetings in connection with The Ontario Ladies' College was the annual meeting of the shareholders held a few days ago, at which was presented the financial and general reports for the year.

SATURDAY NOV. 20

Felt Footwear Sale Emphasizes SLIPPERS Monday

WHEN a man comes home of a winter night, takes off his cold heavy boots and turns for his slippers what does he find? That is the question for you to answer. And when you yourself are busy sewing, or dressing for the afternoon, or active in the negligee in the morning, would you not be a great deal happier if your feet were warm and softly clad in thick, non-conducting felt, over which draughts are powerless and the coldest floors exert no influence? And the children—would it not be nicer if, after they come in for tea, they took off their muddy boots and put on neat warm, noiseless felt slippers? Think of the long winter evenings at home with the family around the fireside, or at their lessons—each tired foot slipped in Felt! There, you have the idea of this sale. We offer you the Felt Slippers at prices which make it an advantage to buy now.

Ladies' Felt House Slippers. 750 pairs Ladies' Felt House Slippers, fine figured wool cloth, cuff top, leather covered felt sole. Misses' sizes 11 to 2. Warm, But Inexpensive Materials for Dresses. Wash Goods Department

FOR Children's Dresses, nothing quite so pretty and so useful, too, as cashmerette and wapperette is made to-day. They are good for the hard wear of school frocks, and they are good for indoor wrappers, for kimonos and dressing jackets and many other purposes where hard wear is required. Despite being very pretty, they will wash well. See our showing of these fabrics in the new Wash Goods Department, on the second floor.
