SUNDAY SCHOOL BOARD REPORTS GOOD PROGRESS

In the report of the annual meeting of the general assembly's board of Sabbath Schools and Young People's Societies of the Presbyterian Church, just to hand, the treasurer's statement shows total receipts for the year of \$20,890.60.

The expenditures were \$18,227.92, leaving a balance on hand for the year of \$2,662.68. The report on the work in normal schools was presented by W. J. Knox, and following considerable discussion, it was decided that the whole question of a suitable course for normal schools, agricultural colleges, etc., should be referred to the committee on training.

With reference to the plan for promotion work it was resolved that a conference by a representative of the board should be had with all the presbyteries. The question of young people's rallies is also to be included in the board's policy of promotion work.

On account of there being so many girls as boys in the Sunday schools, it was recommended that the general assembly be requested to add the names of three women members to the church, to the present membership of the Sunday school board.

It was reported that a graded list of books for general reading was in course of preparation, which list will be sent to those desiring same. With reference to the work among foreigners it was decided to appoint a committee on Sunday school work among the non-English-speaking people in Canada.

In connection with the promotion of religious education, reference was made to the recommendations of the last general assembly regarding the forward movement in all work of the church, and the action of some of the synods in planning for a definite three-year forward movement. It was agreed that the board would heartily cooperate in this movement.

The premier has received a letter from Col. Rennie, enclosing a letter from a member of the staff of the Manor Court Military Hospital, Folkestone.

The writer says: "Please accept our most grateful thanks for the lovely case of apples. Nothing can say can really express how much we appreciate this splendid gift from the government of the Province of Ontario. I think it might interest me to know that last week I tried to buy some nice eating apples for the patients here, and they were 4d each. I got a few. No deep apple pies until your apples arrived the other day, and made us all very happy." Col. Rennie says the letter is only one of many received.

CANNOT REFUSE RACING LICENSE

Ontario Government Has Not Power to Prohibit Meets in the Province.

DEBATE ON GAMBLING

Sam Carter Calls for Prohibition of the Sport During the War.

The Ontario Government has no power to refuse a license to a Dominion chartered racing corporation if they put up the money; the government would be willing to do without the tax money, but as long as the corporations go on making money the government will not be content to go without its consequent revenue.

This was Hon. T. W. McGarry's reply to L. F. Widge's criticism regarding the licensing of the Devonshire track at Windsor, where, he said, they now had 42 days of racing in the year.

The member for South Essex is moving for a return of the correspondence regarding this track, and particularly that correspondence which passed between J. T. White, solicitor for the treasury, and Dr. Reaume regarding the possible purchase of the charter held by the Western Ontario Racing Association, Limited, urged that as the track brought undesirable characters into Windsor and as the best citizens were sick of the licenses should be cancelled, especially for the duration of the war.

Sam Carter (South Wellington) said that the government must take the responsibility for the betting evil, since they did not make the tax prohibitive.

At the opening of the Premier's House and N. W. Rowell paid tributes to the late member for Marlborough, R. R. Garney, who had died during the day. It was pointed out that at the beginning of a suitable course for normal schools, agricultural colleges, etc., should be referred to the committee on training.

Mr. McGarry went into detailed history of the application for a license to the Devonshire track. For a year, he said, he had refused to grant it, then the courts and the lawyers had better take the money than let the concern go on betting without turning anything over to the government.

Nothing more than that, he argued. It did not give permission to bet, neither did it give a license. He held that the company's Dominion charter, which was granted in 1914, was valid under the provisions of the Miller amendment to the Criminal Code, passed in 1914.

**GREAT WEALTH COMES ON DAY OF HER BURIAL**  
Mrs. Christina Kains Inherits a Million Dollars Just Too Late to Be of Use to Her.

Mrs. Christina E. Kains, 25 St. Mary street, whose funeral will be held at St. Peter's Church, Tyroconnell, today, was heir to a quarter of a million dollars, which is held by the executors of the estate of the late Geo. McVicar of Port Arthur. Mrs. McVicar is to receive the remainder of the estate, which is valued at \$1,000,000.

The validity of the will was contested before Justice Meredith by eleven nephews and nieces, who alleged undue influence. The will, however, was admitted to probate.

Mrs. Kains, who was 53 years old and a niece of Mr. McVicar, was born in Tyroconnell, near St. Thomas, and moved to Toronto sixteen years ago. She died after an operation at the Western Hospital Thursday. She is survived by her husband, Charles Atkins, a son, George, and two brothers, Dr. Charles Kains of Michigan and A. Kains of Tyroconnell.

The story of the fortune, when it was related before Justice Meredith, showed that Mr. McVicar owned much of the land upon which Fort Arthur is built. The property was given to him by the Hudson Bay Company, with which he was associated. He discovered the once-famous Shunnap silver mine, which netted him \$10,000.

**KNITTING MILL EMPLOYEES SAY THEY ARE LOCKED OUT**  
As the result of a mass meeting of about 150 employees of the Simpson Knitting Company in the Leary Temple Sunday afternoon, who had been locked out by their employers because they belong to the newly-organized Textile Workers' Union, it was decided that the action of the company should be recognized as a lock-out and that the factory should be picketed yesterday to ask others to join.

As a result, it is claimed by the workers, another 125 were added to those who had been laid off.

**Chinaman Claims Damages for Being Charged With Theft**  
Hearing will be continued today by Judge Denton and a jury of the case of Fred Sun, a Chinese laundryman, who is asking \$1000 damages as a result of a charge of theft laid against him by Truman Pennox in police court July 1914.

Pennox, a builder, constructed property at 1137 Davenport road several years ago for \$3800 for the Chinaman, who made an initial deposit of \$500 and gave first and second mortgage, paying cash for the balance when the building was completed July 26, 1914.

The plaintiff sold a furnace, a boiler and some washtrubs, which Pennox had installed, to Henry Freeman, the laundryman, who was unable to pay the interest due on the mortgages, and Pennox pressed a charge of theft of the articles against him. The charge was dismissed. The Chinaman now maintains that his reputation has suffered, his business has been curtailed, and he has been put to much expense as a result of the police court case.

SEEK TO PROTECT STANDARD PRICES

Grocery Manufacturers, Dealers and Wholesalers Meet to Discuss Under-Cutting.

Proposed legislation regarding the legality of contracts between manufacturers, wholesalers and retailers was the subject of a conference of the Toronto Board of Trade yesterday, at which representatives of many large Canadian manufacturing, wholesale and retail firms were present.

The meeting was called in order that the Retail Merchants' Association of Canada might outline a plan of action that would protect the interests of those doing business thru the present channels of trade.

After electing Hugh Blain as chairman of the meeting, E. M. Trovorn, secretary of the Retail Merchants' Association of Canada, told of the attitude adopted by the government when the recent deputation requested that the present investigation of the high cost of living be taken from the department of labor and turned over to an inland trade commission under the department of trade and commerce.

Hon. T. W. Crothers was present at the hearing of the deputation, and stated that various retailers had written the department asking that the setting of retail sale prices be abolished. In reply to the request of Mr. Trovorn that these requests were made only by the catalog and mail order houses the minister made no denial.

That the community life, along with the small general storekeeper and ultimately the wholesaler and manufacturer, was threatened by the mail order interests was the emphatic statement of Mr. Trovorn. He counseled a strong Dominion-wide campaign against the powerful but invisible efforts of these interests to centralize trade in themselves to the ultimate destruction of the present system of distribution. No organization, he claimed, had the right to take regular well-known lines of merchandise out of the price to actual cost, and use them as bait to draw trade.

The present investigation was getting nowhere, and was a move to destroy the present method of distribution effecting a reduction in the cost of living.

Horace Chevrier, of Winnipeg, president of the Retail Merchants' Association of Canada, said that the present investigation did not include the farmer or the gardener, and was under the wrong department. It should be under a committee on inland trade under the department of trade and commerce. This commission, composed of men of high intelligence and business ability, would show the same way as the railway commission. If the railway commission had worked well in standing between the people and the railway, in which only one-tenth of the average man's income was spent, why should a commission not work well in the case of food, on which 40 per cent. of the average income was expended?

Bill Would Prove Disastrous.  
The Knowles bill, prohibiting contracts of all kinds between wholesaler and retailer, if it becomes law, Chevrier said, would ruin the legitimate trade of the country.

J. W. Fitzgerald, of the Castle Company, wholesale grocer, of Ottawa, told of an interview he had with W. P. O'Connor, solicitor of the department of labor, in connection with the questionnaire submitted to all wholesalers by the department of labor.

Mr. O'Connor, he said, stated that if the wholesalers had met him in a proper attitude he would not have taken any steps against them as he felt that the methods of distribution were proper ones, but not legal. As this attitude had not been adopted, he intended to bring the wholesalers to their knees at several times the price paid the two previous winters and labor today cost fifty per cent. more than it did thirteen months ago.

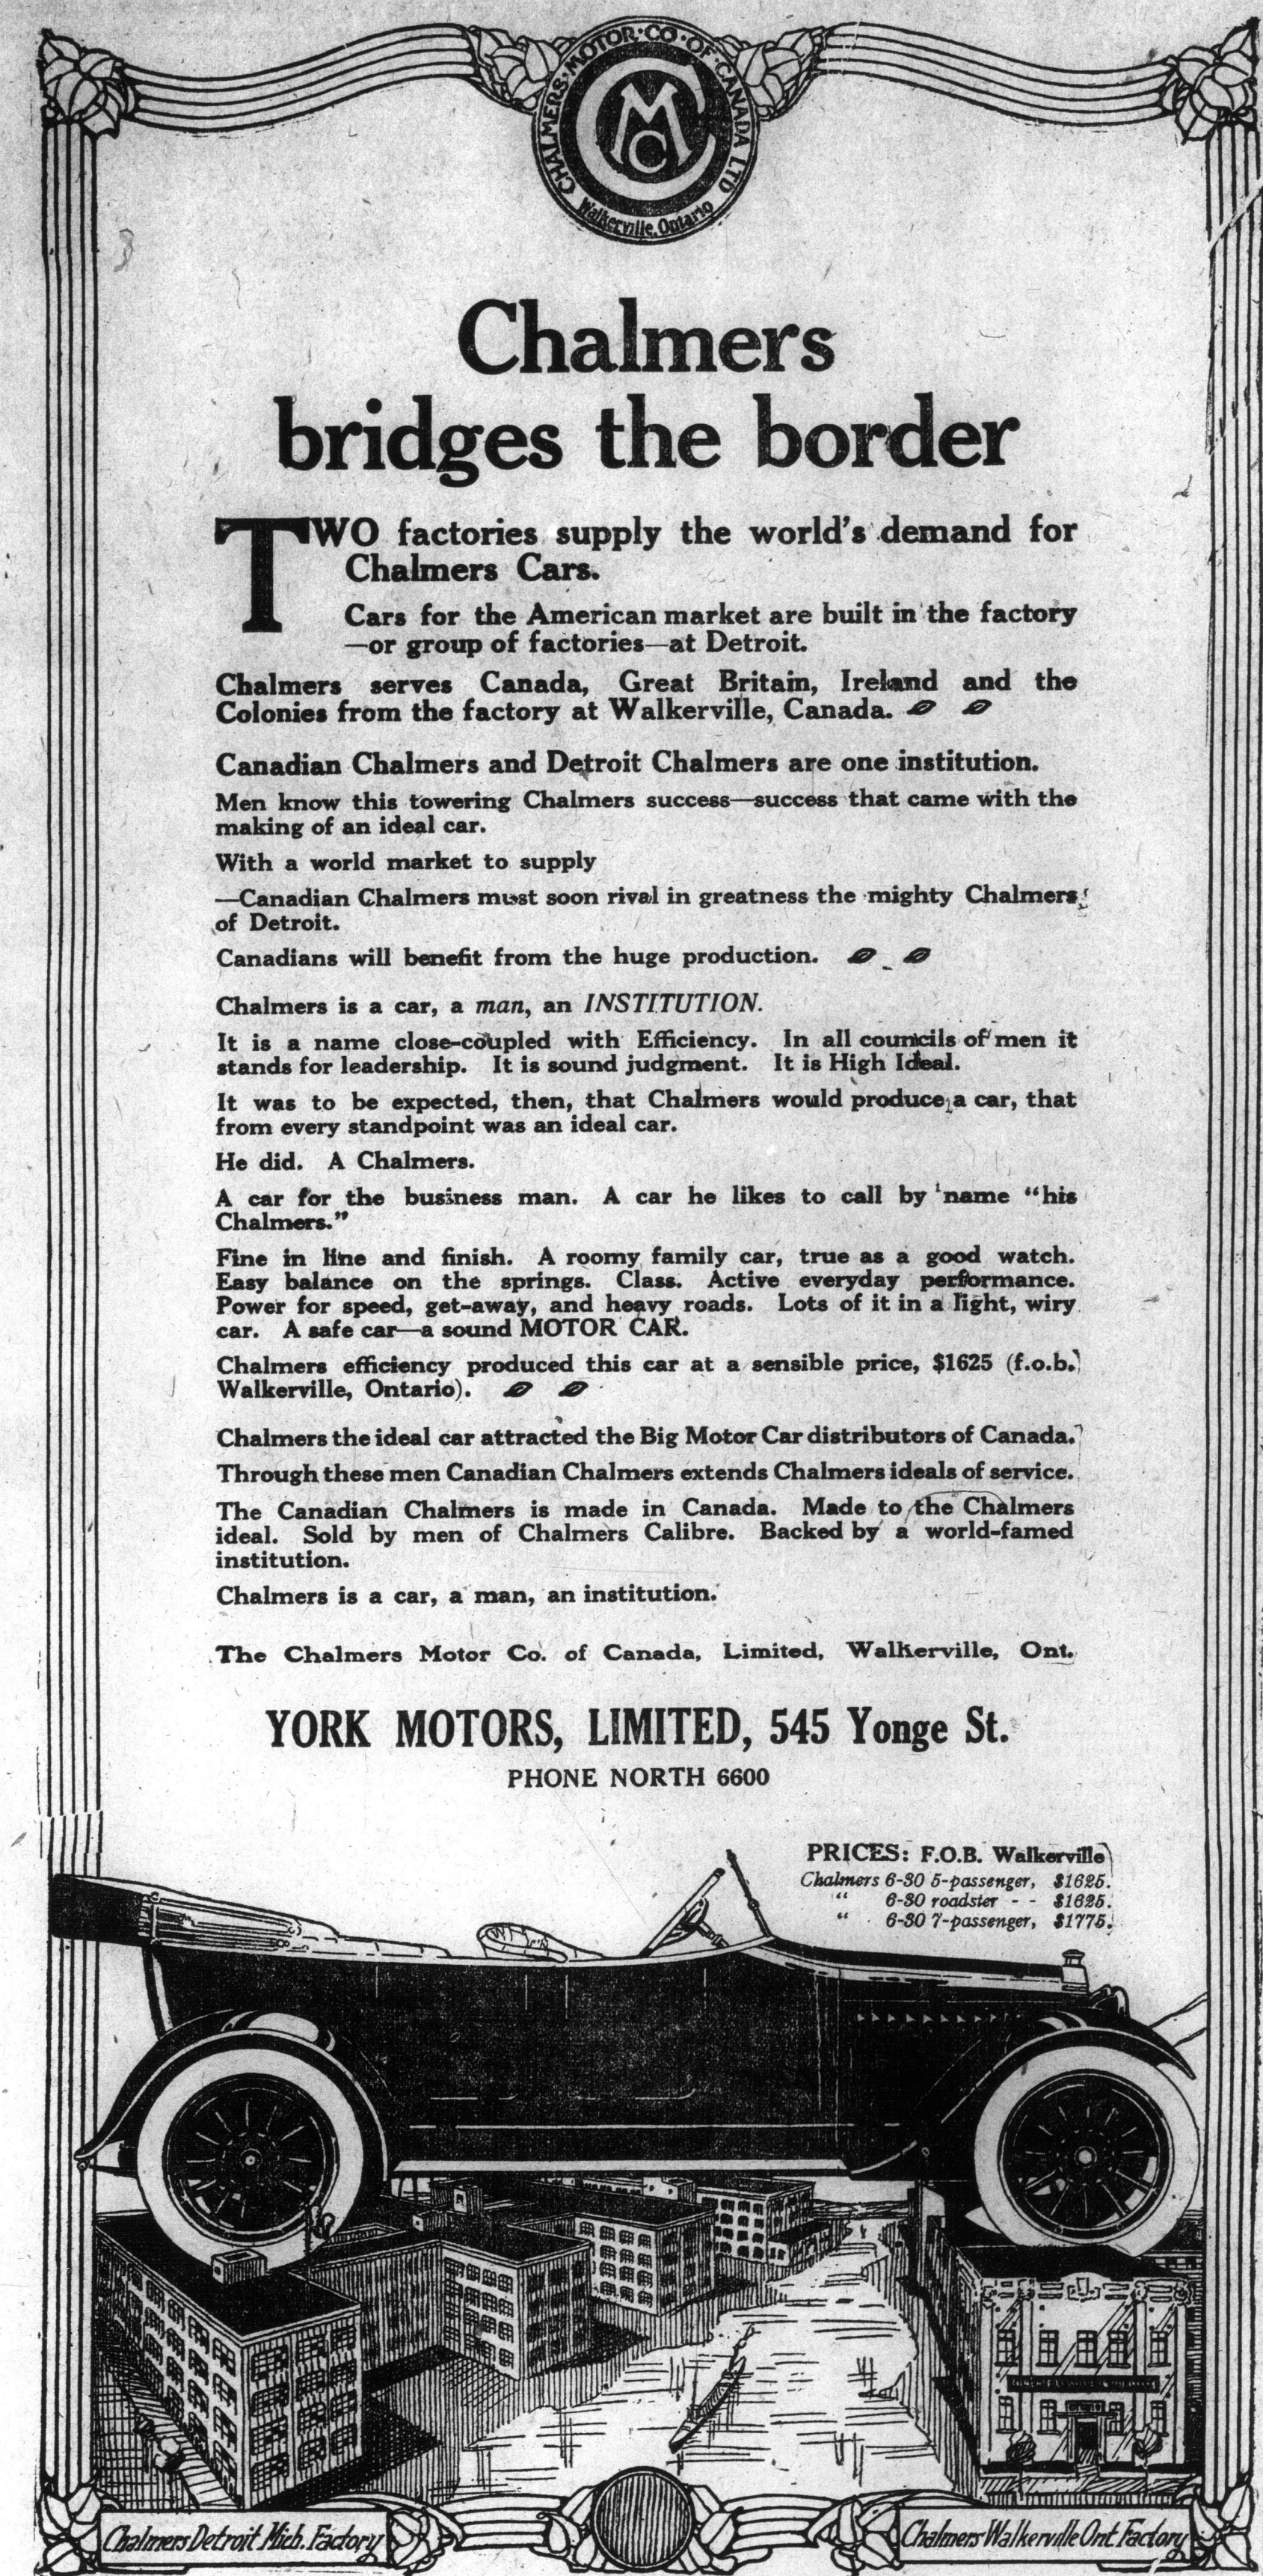

Manufacturers' Price to Stand.  
E. F. B. Johnston stated that in his opinion the order-in-council could not prevent the manufacturer from placing the price on his goods at which he sold them to the wholesaler, the retailer or the consumer. Manufacturers have the right to make goods and the law of competition would prevent them from setting too high a price as if the price set was too high, the public would not buy them. He considered the best way to meet the legal opinion of the department of labor would be to initiate proceedings against a manufacturer or wholesaler, who it thought was violating the law and not the trade of the country disturbed by the opinion of one man, but have a proper decision from the supreme court.

Merchandise had been sold under the contract plan for the past thirty years, and if the plan was prevented it would disrupt the whole system of trade throughout Canada.

The meeting passed a resolution that in the opinion of those present it was a mistake to disturb the present methods of internal commerce.

The best interests of the consumers as well as the different sections of trade would be served by maintaining the present customs and support was promised the Retail Merchants' Association in its endeavor to have an inland trade commission appointed, and in the effort to have the public and the department of labor's wisdom of the department of labor's methods in connection with the high cost of living legislation.

STUDENTS TEAR DOWN PORTRAIT OF KAISER

High School Boys at Washington Substitute Picture of Wilson.

Washington, March 19.—Patriotic students in Central High School here today tore down from the walls of a class room a picture of Emperor William of Germany and hung in its place a photograph of President Wilson, decorated with two American flags. The emperor's likeness disappeared before officers of the school before several days opportunity to present to Miss Marie Siebert, teacher of German, a resolution protesting against the presence of a murderer's picture, and demanding its removal. Harry Roper, 15-year-old son of Daniel C. Roper, recently appointed to the tariff commission, led the agitation before several days ago against the picture by turning its face to the wall several times. Miss Siebert, who is an American citizen, insisted that it should remain, saying that the intent ed to use it to illustrate a lecture. Then the cadet officers interested themselves and they were ready to act today when other students entered the room during recess and made the substitution. School authorities are investigating the incident.

Lafamme's Dentals Bring the Allan Cup to Queen City

DENTS BRING BACK CUP WIN ROUND BY ONE GOAL

Winnipeg Victorias Scored Four Goals in Final Period to Tie Up Round—Dents Scored Winning Goal in Overtime.

Winnipeg, March 19.—The Allan Cup, emblematic of the amateur hockey championship of the universe, will travel to Toronto again, after a sojourn in the west for six years, the Dents taking back the trophy by virtue of scoring 12 goals to 13 against the Winnipeg Victorias in the two games which wound up tonight.

The Victorias showed that western hockey still is in a class by itself when they outplayed and outscored the easterner's contest, thereby tying the score for the series, but in ten minutes' overtime play Toronto got the deciding goal, which entitled them to take the cup east.

The game was one of the most spectacular and most heart-breaking finishes ever staged in the west, and, for that matter, ever played in a final contest. The Vics came out for the last period four goals down on the series, as the Dents were leading, 2 to 2; but the Bisons showed what western pluck is made when they completely played the Dents off their feet, and amidst the greatest of excitement, piled up four goals which held their opponents scoreless.

Only the most remarkable kind of goal-kicking by young Stewart in the final period prevented the easterners from being completely routed, as there was no stopping the Vics once they got started.

With President Wilson's letter in my possession to the American ambassador in the southern republics, stating the name of my visit to that country, it gave me quite a mission class and prestige. The name was that the cordiality extended to me was quite satisfactory.

Only ten minutes of the period had elapsed when Nevada pulled at the most spectacular stunt of the game, and the way that the Toronto were faltering, and the renewed vigor of the cup would stay here. But the easterners shook themselves, tightened up, and principally thru the phenomenal goalkeeping of Charlie McEwen, who was awarded a number of remarkable saves, and full time ended with the Vics leading, 6 to 3, and the score.

The young Victorias had come thru in the pinch and only the break in their game kept them from retaining the cup. But the superbman uphull battle, that will never be in vain. The rest of five minutes before overtime play was started and Toronto had removed the goal.

The checking was so close that the combination was at a premium, and in the final effort was the rule of the game. The Victorias were a changed team from that which was beaten by three goals in Friday night's play.

SOUTH AMERICA IS RIPE, SAYS SULLIVAN

Ted Sullivan, whose return to New York from South America was briefly noted last week, writes interestingly of his trip and comments on the opportunities for developing baseball enthusiasm in the southern republics.

With President Wilson's letter in my possession to the American ambassador in the southern republics, stating the name of my visit to that country, it gave me quite a mission class and prestige.

THE FORMAN MYSTERY

"Miss Forman—Edith—since we first met on the night of the tragedy which robbed you of a sister, I have loved you. You were cold then to me, but I cherished the hope in my heart that I should see more of you and that my love for you would win you to me. When you became ill I blessed the good fortune that had placed me in a position to serve you; and in bringing you back from the brink of a grave, I had more than the usual professional interest of doctor for patient to urge me on. I sought more than the mere winning of a case, I wanted you to nurse you back to health and strength and once restore you to your niche in my heart as its idol.

OTTAWA CALLING FOR VOLUNTEERS

Orders Issued for Mobilization of Forty-Eight City Regiments.

Ottawa, March 19.—Under the new plan for creating a Canadian home guard force of 50,000 men to allow a number to go overseas, orders were issued this morning by the militia department for the mobilization of 48 city regiments.

The district officers commanding will recommend to the militia department such of the usual corps as it is considered desirable to mobilize.

This order does not mean that men who at present belong to militia regiments will be ordered out, but rather that the names and organizations of existing regiments will be used in connection with the creation of the new force.

The city regiments to be organized as home guards in eastern Canada at once are as follows:

London division: 7th Fusiliers, London; 21st, Windsor; 22nd, Woodstock; 23rd, St. Thomas.

Toronto division: 2nd Queen's Own, 10th Grenadiers, 48th Highlanders, 104th and 116th, Toronto; 13th, Hamilton; 18th, St. Catharines; 38th, Brantford; 51st, Hamilton; 51st, Sault Ste. Marie.

Kingston-Ottawa division: 148th, Kingston; 15th, Belleville; 41st, Brockville; 43rd and Governor-General's Foot Guard, Ottawa; 57th, Peterboro.

Quebec division: 1st Regiment, 3rd Victoria Rifles, combined with 88th Westmount; 48th Highlanders and 6th, Montreal; 53rd, Sherbrooke.

Quebec division: 8th and 9th Battalions, Quebec.

Maritime division: 62nd, St. John; 63rd and 66th, Halifax.

Local tribunals whose duty it will be to decide whether volunteers should be allowed to enlist as home guards or remain at their present avocations will be appointed at once.

The establishment of a battalion under the plan is 1002. In the beginning the whole staff of a battalion will not be appointed.

The arrangements for the farewells have been placed in charge of the Daughters of the Empire. Petrograd, March 19.—Further progress by the Russians in Persia, who have now reached the vicinity of the Turkish border, is reported today by the war office. The statement follows:

CANADIANS HOPE FOE WILL FIGHT

Troops Do Not Want Germans to Repeat Their Somme Retreat.

Canadian Headquarters in France, March 19.—There is a feeling of short of elation among the Canadians in the trenches, now that winter has definitely gone and that they have come out of the trying ordeal of the winter trenches in fine physical condition and excellent morale.

A trip along the front today revealed the strong hope that the enemy would not repeat his Somme retreat, but would stay and put up a fight.

The Canadians are not doubtful about what would happen if Fritz stayed. There is no boasting, because they know that the Germans on this front are good men, but the Canadians are willing to be put to the test against them.

The German heavy guns have been strangely inactive during the last day or two compared with ours. The enemy may be holding masked batteries of his heaviest guns in reserve for the day of need, but if not, he is badly outclassed on his record in this vital particular.

The city is held on lease in perpetuity granted by the Chinese Government to the British crown, which sublets plots to private owners. TRADING IN MINES LACKED FEATURE

No Perceptible Response to Improved Military Situation.

Despite favorable war news and the bullish tone of the New York market, local mining stocks showed little or no response with trading moderately active, but lacking in anything to arouse interest.

The list was mainly steady, while in spots a little heaviness was in evidence. The active features, which have been holding the attention of the speculative traders were conspicuous in this respect, with some moderate fluctuations.

Discussion of the latest developments in international affairs seemed to attract the attention of brokers and the public alike, the fact being that the stocks were more or less of a secondary consideration.

In the gold stocks Apex was a little firmer at 9 1/2 to Boston Creek changed hands at 116, while Dome Ex. lost half point from the opening at 39 1/2.

Dome was steady at 20. Big Dome looked slightly improved, changing hands at 18. Hunton weakened, opening fractionally lower, but settling back to 25 1/2.

A sample of the ore taken from this property was on view yesterday. It was remarkably rich in free gold. Mr. Harry Cook states that a shipment will be made very shortly.

As has been the case for the last week, Hargraves was the stock in which the largest individual trading took place, the deal being 200 shares at 28 1/2.

Kenabek was at 22, while Korr Lake was at 4.50. However, the stock opened slightly higher at 22, went up 1/2 point, then after receding back to 21 1/2, closing at 20 1/2 bid.

Beaver held comparatively unchanged at 4 1/2 to 4 3/4, while Chamber-Ferland slipped back to 5 1/2. Shamrock lost a point from the opening at 23. Nipissing remained firm at 18 1/2.

Other than these there was little change from last week's prices. Thompson-Krist continued one of the firmest spots in the list, maintaining its recent gains and selling at 35 1/2 through West Dome was steady at 28 1/2.

Newray at 12 1/2, V. pond at 4 1/2, and Teck-Hughes at 71, were steady but quiet. As a rule, however, the case for the last week, Hargraves was the stock in which the largest individual trading took place, the deal being 200 shares at 28 1/2.

THORO EXPLORATION OF NEWRAY PROPERTY. Diamond Drilling Expected to Reveal Valuable Ore Bodies.

The drilling and crosscutting now in progress at Newray is sending confidence to confirm the geological conclusions which have prevailed since the early days of the camp.

Attention centres around the diamond drilling, which promises to locate some big bodies of ore on the eastern side, and at the same time to establish the identity of Newray with Pearl Lake formation.

The company's mill, which is now being overhauled to start up the latter part of April or the first of May, has a 200-ton capacity.
