MORE QUAKES IN ROCK CHILE

Town of Carrizal Reported to Have Disappeared

Conservation Grows as the Extent of Friday's Disaster is Being Revealed—Indications Now are That the Death List May be 2,000.

(Canadian Press.) Santiago, Nov. 14.—Chile was again visited by earthquake shocks last night. Severe tremors were felt at Lascruces, capital of the Province of Coquimbo, at 11 p. m., and in the hour earlier a report of the earthquake of Maule, capital of the Province of Maule, was shaken, according to advices received here by the National Telegraph.

The town of Carrizal, consisting mostly of underground dwellings, and copper mines, is reported to have disappeared, but no mention of the loss of life is made. The inhabitants number about 200 or some 800 others live at the Port of Carrizal.

Advices from Antofagasta, filed at 9.30 last night, said a strong earthquake had just been felt at Toltal, a report of several thousand population only a few miles from Antofagasta.

Conservation grows as the extent of the earthquake of last Friday is revealed. The number of dead grows hourly as belated reports coming from the stricken Provinces of Coquimbo and Atacama are listed. If these reports are not exaggerated the number of dead will reach at least 2,000.

The two provinces contain a total population of 800,000, and what part of this number are homeless it is impossible to estimate. Many towns and villages have not yet been heard from.

Buenos Aires, Nov. 14.—A relief committee has been organized here to go to the aid of the earthquake sufferers in Chile.

Santiago, Nov. 14.—The Chilean government has asked congress to grant one million pesos for the relief of the inhabitants of the stricken districts and 500,000 pesos to re-establish the public services.

Perhaps 2,000.

Santiago, Nov. 14.—Reports of banditry and disorder in the earthquake district, together with news of additional earthquakes, have reached the capital, causing the Chilean government today to consider the advisability of sending troops to Coquimbo and Atacama.

British Electors Tomorrow Will Choose Parliament

Last Guns in Election Campaign to be Fired Tonight

CANDIDATES 1386

Straight Two-Party Fight at 878 Polls, Contestants More Numerous in 242—Uncertainty of the Woman Vote One of the Worries of Those Making Forecasts.

(Associated Press.) London, Nov. 14.—The last words of Great Britain's election campaign will be spoken tonight. The electorate will go to the polls tomorrow and pick a parliament from the 1,386 candidates seeking seats in the House of Commons.

In 378 constituencies the fight will be a duel between candidates of two parties. In 242 other constituencies the battle is complicated by the presence of three or more contestants.

Even the wisest political seers are uncertain as to what the general result will be. Some newspapers publish estimates of how they believe the various parties will rank when the voters have had their say, but none of the forecasts express great confidence in their own claims. To the unbiased onlooker none has much value, as every calculation is dented with the political views of the man making the estimate.

Worried Over Scotland. During the campaign, events have led to a revision of some of the more sanguine estimates. This was notably the case in Glasgow and Western Scotland, where the united front presented by the Unionists and Lloyd George Liberals originally induced considerable complacency. But now, a Glasgow despatch to the Times says, the greatest danger is that the united front will be regarded as safe a fortnight ago.

Labour is making on the Clyde its most high concentrated effort and pressing the attack with increasing confidence, the despatch reported. "There is a general feeling that if the co-operating parties escape with the forfeiture of only six seats they will have done well. Municipal polls at Glasgow, unlike those throughout England, show significant growth of labour strength, and these results are responsible for the attack of nerves from which Labour's opponents are suffering."

Although some doubts have been expressed regarding Bonar Law's safety in his campaign for election from the central Glasgow district, the correspondent says he is more confident than the Premier will be rejected. But it is certain that his two opponents, Sir George Paish, Liberal candidate, and the Labourite, Balie Mitchell, will poll more votes than it was first expected.

Sir Robert Horne, who was chosen leader of the Executive in Lloyd George's cabinet, is regarded as an almost sure choice of the voters in the Hillhead division of Glasgow, but Sir William Mitchell Thomson is less safe in the Maryhill division, where Annie Swoboda is making a powerful appeal for the vote of women with Liberal interests.

Labour also has shown increasing success against the re-election of Sir William. The situation throughout the popular Lanarkshire is much the same, according to the correspondent, who believes that only unusual energy can defeat the Labourites in several places.

THE CONFLICTING CLAIMS IN MESOPOTAMIA

No. 1 shows the portion of Syria restored to Turkey by the Franco-Turkish agreement of October, 1921, and No. 2 shows the portions of oil lands still claimed by the Turks. British interests in that country are also shown. Bonn Law may call an imperial conference in the new year to discuss the empire's policy toward Mesopotamia.

FIGHTING FOR WATER POWER

Backus Wants \$1,500,000 for What He Bought for \$147,000.

Important Case—Involves the Vital Interests of Manitoba and Winnipeg in Particular—An International Question—To Come Up at Ottawa Tomorrow.

(Special to The Times.) Ottawa, Nov. 14.—With 1,000,000 horse power at stake and with E. W. Backus playing an adroit hand the final showdown, it is expected, and the final cleanup, it is hoped, will take place in the office of Premier King on Wednesday afternoon of this week at the conference between himself, Hon. Charles Stewart, Minister of Interior, Premier Drury of Ontario, Premier Bracken of Manitoba, Hon. T. H. Johnston, representing the Winnipeg Power interests, Governor Frens, of Minnesota, J. B. Chalmers, who is the Dominion Government water power expert, and the renowned E. W. Backus.

Provincial, federal and international rights are involved and a drafted international treaty awaits approval before the Dominion Government can proceed to Parliament and the American Congress. Control of the water powers in the Lake of the Woods, the subject of the conference, the first meeting of which was held here a few weeks ago. Of the 1,000,000 horse power under dispute, one-third has so far been developed, namely, at Fort Francis, at the outlet of Lake of the Woods, and on the Winnipeg River in Manitoba. Another big Winnipeg scheme is now under way.

The crux of the situation lies in the fact that Norman Dam, on the Lake of the Woods, controls the entire power potential of the Lake of the Woods, and Norman Dam is now owned by E. W. Backus who obtained control of it for \$1,500,000 which sum is not yet paid for.

It is understood that the three Governments are not yet unanimously agreed on the question of the proposed dam, but in the congressional elections held last week Senator Kellogg, a personal friend of Premier Harding, was defeated and the hope is expressed here that his successor will not be favorably disposed to listening to Mr. Backus' suit.

THE PRINCE AS A MASON

Following in the footsteps of his grandfather, King Edward, whom he much resembles, the Prince of Wales was recently made senior grand warden of the United Masonic Grand Lodge of England. The picture shows the procession into Albert Hall on that occasion, with the prince in the lead.

Allies To Meet Before Conference In Lausanne Opens

Curzon and Poincare to Talk Things Over on Train

Mussolini to Meet Them in Swiss City and the Three Will Confer Before Start of the Conference—Two French Consuls Expelled by Kemalists.

(Canadian Press Cable.) London, Nov. 14.—The troublesome question of how a meeting of the Allies could be arranged before the Lausanne conference, to outline the allied programme, as Great Britain has insisted, has been solved as a result of an exchange of messages by the channels of Paris, Vienna and London.

Neither Premier Poincare of France nor Premier Mussolini of Italy can leave his capital for a conference elsewhere before proceeding to Lausanne, but Lord Curzon, British Secretary for Foreign Affairs, has arranged to see Premier Poincare in Paris on the way to Lausanne, probably on Thursday, and the conversation will be continued by the two on the train from Paris to Lausanne. Premier Mussolini has arranged to leave Rome for Lausanne on Friday and join his colleagues for a preliminary meeting in Lausanne on Sunday.

Reports from Geneva that the Turks would refuse to enter the Lausanne conference if the Allies made any preliminary agreement evoked a statement in official circles here that little importance was attached to this situation.

Official messages from Constantinople today indicate that the situation there was somewhat easier. It was stated here that the Turks were not prepared to perform the deed, Grover Cleveland once did it while he was sheriff. There should be no more swimming in look place at the Bennis Balm.

His Lordship thought that criminals should be kept in custody until evidence of their propensity for crime and that prisoners should be given some money-making employment so that their dependants would be provided for. Prison labor would not result in more than two-thirds of one per cent of the Dominion's labor.

IS IN TROUBLE ON ATLANTIC

Steamship Monte Grappa on Voyage from Montreal to Venice.

New York, Nov. 14.—Radio messages received early today said that the steamship Monte Grappa, an Italian vessel bound from Montreal to Venice, was in distress on the Atlantic north of Cape Race. A later message picked up at the Charleston navy yard in Boston said that the steamer was bound for the S. O. S. call and was standing by.

According to the Monte Grappa's registry lists the Monte Grappa is a vessel of 7,484 gross tonnage. Captain Bartoli is her master.

IN IRELAND

De Valera is Claiming Free State Government Deactivated—Dublin Nightly Placarded.

Dublin, Nov. 14.—The current increase of activity of armed forces opposing the Irish Free State Government is attributed to reunion of the political and military wings of the Republicanism. This, among other things, resulted in the reappointment of Eamonn Dwyer as "President of the Irish Republic" with a council of state claiming sole authority in Ireland.

There is a wide divergence between the accounts published by the government of its success against the irregulars and those put out by De Valera's party. The government claims to be winning and gradually restoring order, while De Valera's followers record severe losses they say are inflicting and assert that the Free State is already beaten.

WORLD DRY IN A FEW YEARS

Prediction Made at World's Convention of the W. C. T. U.

Philadelphia, Nov. 13.—A "dry" Germany and Austria by 1930, world-wide prohibition within a few years and valuable assistance in government affairs through woman suffrage, were forecast in speeches yesterday at the world's convention of the W. C. T. U.

OBJECTS TO THE "PARTY WIGS" FOR FARMERS

Opposed to Centralization and "Slush Fund" for Farmers

J. J. Morrison is Not Opposed to Broadening Out Along Well Defined Limits—Oppose Crerar and Drury.

(Canadian Press.) Toronto, Nov. 14.—Without opposition from the secretary of the U. F. O., any local in the province may "broaden out" as wide as it likes. It is only as it affects the central organization, the Farmers' movement as a whole, that J. J. Morrison is opposed to the plans of Premier Drury and the wishes of Hon. T. A. Crerar. This, in brief, was the way Mr. Morrison outlined his position in an interview yesterday.

The U. F. O. secretary has long felt that his attitude in regard to "broadening out" and kindred problems of the movement has been misunderstood. He characterized the interpretation given his views by Hon. T. A. Crerar in his manifesto on Friday as another case of failure to understand. With the idea of expressing his position exactly, Mr. Morrison explained his position of the move to open the doors of the Farmers' party to all comers.

The conduct of political matters rested entirely with the local ridings organized as independent political associations, he stated. If the locals called to call in the urban people and give them a voice in the political conventions, very good. During the next federal election urbanites were given the opportunity in several ridings of assisting in the selection of a candidate, and Mr. Morrison not only offered no opposition, but approved of their action.

But to throw wide the doors of the movement as a whole would be a different matter, he remarked. It would mean centralization, the establishment of a central political party, the creation of a "slush fund" and the introduction into the Farmers' party of the old spectacle of a few organizers to govern the people.

While "broadening out" remained a matter of local option, the secretary of the U. F. O. remarked, it was possible to continue without forming another political party. He stated that he planned provincially would be to divorce political action from the Farmers' movement and create a central party, in which farmers would have no more interest than in the age-old political divisions.

CONGESTION OF GRAIN WORSE

Further Reports to Ottawa—Government to Decide Course on Thursday.

(Special to Times.) Ottawa, Oct. 13.—Further reports received today by Hon. Charles Stewart, acting Minister of Trade and Commerce, indicate that the congestion of grain continuing between the head of the lakes and the seaboard. The final report from Mr. Stewart, sent by the minister to make a careful inquiry into the situation both at the bay ports and Port Colborne and Goderich.

The Federal Government cannot now far in adjusting the trouble because of legal limitations and restraints that it could not, for instance, suspend the operation of the Canadian coasting regulations. The most that can be done—and that step might be legally challenged—would be to allow American vessels on their last trip of the season to go into Georgian Bay ports with their grain cargoes for winter discharge and for storage. This would give considerable relief at the head of the lakes. What course the Dominion government will pursue will not be made known until after Thursday's cabinet meeting.

DEVELOPMENT OF THE DOMINIONS

Duke of Devonshire Predicts Gain in Next Few Years—Asking for Settlers from Britain.

London, Nov. 14.—(Canadian Press.)—The Duke of Devonshire, speaking at a luncheon last night, declared that the government would act in the interests of the people of the whole empire. It was no easy task to suggest to people that they should leave their homes and seek new countries but the colonies were calling for immigrants. He ventured to say, especially to the younger men, that happy homes awaited them in the great dominions. Canada, for instance, was calling for British brains, capital and labor. He predicted that the British overseas territories would be greater developed in the next few years.

Weather Report section with a small illustration of a person.

Table with weather forecasts for various cities including Montreal, Toronto, and others.

GREAT OIL FIRE

Houston, Texas, Nov. 14.—A fire is consuming 80,000 barrels of oil in the Humble sector of the Gulf Coast oil field, eighteen miles north of here. It is stored and oil men estimate the fire will burn out later than Thursday. The loss is estimated at more than a million dollars.

MINERS TIRED OF SO MUCH VOTING

Likely No United Mine Workers District Election in Nova Scotia This Year.

Sydney, N. S., Nov. 13.—There will be no United Mine Workers district election in Nova Scotia this year.

LOYD GEORGE ILLUSTRATIONS OF WHAT SOCIALISM MEANS

(Lloyd George at Newcastle.) "I will give you a simple illustration. Take a man who has saved just a little money. He is rather fond of pictures. He cannot buy a very good one, but he buys something which is rather attractive and sticks it in his house. It is not valuable and it is not artistic. If you brought critics to look at it, it would shock them, and they would make him ill; but there it is, something that he himself has bought out of his own earnings. And he looks at it every time he comes home, and he just gazes at it, and shows it to his friends. He sees beauties in it that nobody else has ever discovered. One day that man hears that an invaluable picture has been put out of its frame in the National Gallery. He goes to see it, and he is disappointed. He reads a paragraph in the newspaper and he says, 'What a pity, I hope some day they will get it if it is not destroyed.' And he forgets about it. It does not interfere with his appetite, he does not lose one wink of sleep, and he wastes little time in the morning and looks at his own little picture. (Laughter.) But suppose he came home and found the door open and the window open and found somebody had got inside and his little picture was missing. He would be in a state of mind that is another story. (Cheers and laughter.) What is the vanity in it which makes it so valuable? The sweat of his brow. That is not in the National Gallery picture. As a citizen he deplores it, but that is the incentive of private property that is destroying something which is vital to the work of the human hand."

"Now I will give you another illustration. A short time ago I bought a little place down in Surrey. I built a little cottage there—not much of a place. In fact, it is so small that when the revolution comes no revolutionary revolution will think it worth while confiscating. Therefore I feel tolerably safe whatever the changes may be. And as I saw that there was bad weather coming, I thought I would like to have a little shelter somewhere near London, and that is where I planted rhododendrons there, and I have three or four rose trees, and believe me there are no roses in the market like them. I have been in the city a few weeks, and I have seen a lot of things, and I tell you what I am looking forward to when the springtime comes, and I don't mind telling you, I look forward to see little flowers burst through the green-sward and just looking at me and giving me a welcome, and I don't mind telling you, a little snowfall will give me greater joy than all the splendor of the finest orchids at Kew (cheers). Why? Now that is something of my own. I have worked at it and there are those who must not put your mind on these things; you must concentrate on something which is common to all. Being things, you must take human nature as it is. I am only just a sample out of millions. We are all made like that. It is very common, but you know there is a good deal in what President Lincoln said, 'God loves the common people.' That is why he made so many of us. It is a false doctrine they are building on something which is shifting sands (cheers). It will not stand in the long run. You are putting it in a straight jacket."

ALL SAVE ONE ON LIGHTHOUSE FOUND TO BE LIL

Charlottetown, P. E. I., Nov. 14.—Distress signals flying from the lighthouse on Bird's Cove, Magdalen Islands, and the report that the light was not burning, caused the Marine Department to send the customs cutter, the M. S. Turbid, mother-in-law of the assistant keeper, Bourke, were found very near the lighthouse. The cutter was on her way to the lighthouse, and on arriving there, she found the light was not burning. The cutter was on her way to the lighthouse, and on arriving there, she found the light was not burning.

CHIEF INSPECTOR HERE

In Ottawa on Saturday, the G. W. V. A. are to present a life membership to Rear Admiral Simms of the U. S. Navy (retired).

Some of Senator Harding's advisors are reported urging him not to press the ship subsidy bill.

The entire fabric is overlaid with a plating of gold, which is exquisitely chiseled and enameled, and is absolutely incrustured with precious stones, among which rubies and emeralds are the most prominent. An elegant balustrade containing inscriptions in panel runs round, and the lofty chair, which is one mass of gems, rises to a point in the center whereupon is fixed a circular star of diamonds, with acanthus rays, made at the back. On either side of the star are two bejeweled birds, perched on the edges of the back-frame and facing each other.

The value of the Peacock Throne as it stands today can only be conjectured. When it was in the possession of the Grand Mogul it was estimated as being worth some thirty millions of dollars, but since then important portions of it, such as the canopy of pearls, have disappeared. But it retains an object of surpassing beauty, an exquisite example of Oriental workmanship, its historical association far outweighing its intrinsic value.

FROM POLAND TO CANADA ALONE

Every mail brings proof of the need for Zam-Buk in every home. For anything wrong with the skin—injury or disease—use soothing herbal Zam-Buk. It's the one reliable healer in a hundred emergencies.

BOILS. Mr. E. Hill of Moseley, R. R. No. 1 Ont. says—"Every Spring I suffered from boils. I had them laid but could not get rid until I was persuaded to try Zam-Buk. It is splendid. Zam-Buk scoured the inflamed surfaces and ensured speedy healing."

ECZEMA. Mrs. W. A. Fawcett, 79, 5th Avenue, Montreal, writes—"Hospital treatment failed to cure my weeping eczema. But Zam-Buk cleansed and healed my skin thoroughly."

BLOOD-POISON. Miss P. Helm, Tidnish River, N. S., writes—"I had a terrible case of blood-poison. In one week Zam-Buk removed all pain and festering and brought perfect healing."

ULCERS. Mr. E. Hingham, Brantford, Ont., says—"My leg ulcers defied all ordinary treatment. Zam-Buk ever quickly subdued swelling and inflammation and healed thoroughly."

ITCHY SCALP. Mrs. W. A. Fawcett, 79, 5th Avenue, N. B., says—"My baby's scalp was covered with sores when I got Zam-Buk. Its effect was simply wonderful. I tried Zam-Buk. It subdued pain and removed the piles in a few weeks."

EVERY HOME NEEDS Zam-Buk SOOTHING-SAFE-RELIABLE

You have only to use herbal Zam-Buk yourself to realize how vastly different it is to every other skin remedy in its soothing, healing and anti-viral virtues. All dealers \$0c. box, \$2 for \$1.50.

CONFERENCE ON RESOURCES OF PROVINCES

Western Premiers in Ottawa to Discuss Matter With Premier King.

Ottawa, Nov. 14.—(Canadian Press.)—Premier John Bracken of Manitoba arrived in Ottawa last night and will be joined today by Hon. Herbert Greenfield, Premier of Alberta, and Premier Dunning of Saskatchewan, in a conference with the Dominion Government respecting the return of natural resources by the Dominion to the provinces of Saskatchewan and Alberta.

SEIZES COAL ON MORGAN ESTATE

Newburg, N. Y., Nov. 14.—William R. Perkins, Orange County fuel administrator, has been distributing among residents of Highland Falls 388 tons of coal, which he said was seized on the estate of J. P. Morgan at night and is being distributed to the needy.

PERSONALS

Mrs. R. N. Dean of St. James street, who has been in the hospital for two weeks, is steadily recovering from severe illness.

Rev. F. H. Bone, formerly pastor of the Central Baptist Church of St. John, has taken charge of the Baptist church at Lewisville for three months.

Dr. R. B. Landry, Mrs. Landry and their three sons, Pierre, Paul and John, have arrived in Moncton on their return from a business trip to Toronto.

Dr. A. and Mrs. Baker of Moncton returned home on Saturday night after a two weeks' visit with their son and family in Toronto.

Dr. F. and Mrs. Hart of Indian Head, Saskatchewan, has been made a member of the American College of Physicians and Surgeons.

Mrs. and Mrs. P. H. Heneberry, Castle Street, left last evening on a three weeks' visit to Boston and New York.

Amherst News.—H. B. Swettenham left by motor on Saturday for his home in Hampton, N. B. He was accompanied by his two sisters, Misses Maude and Elsie Swettenham, Miss Laura Martin and Miss Morrison, who spent the week with them.

Mrs. Thomas Daly of Boston arrived in the city on a visit to her parents, Mr. and Mrs. Peter Mahony, Main Street. Her husband, who is a former St. John boy, was formerly a member of the Chicago White Sox, Cleveland Indians and the Chicago Cubs, but this year had been playing in the Pacific Coast League.

J. M. Woodman, general superintendent of the C. P. R., New Brunswick, returned to his home in Moncton on Saturday morning on an inspection tour over the Woodstock district.

Dr. J. McGuffigan left last evening on a business trip to Montreal.

NOTABLES SAIL FOR OLD COUNTRY

Montreal, Nov. 14.—Among notable passengers sailing on the Canadian Pacific S. S. Empress of France on Tuesday from Quebec for Cherbourg and Southampton are Lady De Blaquiere of Bath, England; Sir Harold Burton, C. V. O., C. B. E., president of the Dominion Tar and Chemical Company, London; Miss Cecil Leitch of London, famous golfer; Dr. W. J. Canby of London, geologist; His Excellency Count Andrew Scheptycky, Archbishop of Lemberg, Poland; His Lordship Bishop Octavus Bulks of Winnipeg, Rutherford Bishop of Canada; Col. Herbert Snell, Toronto; Sir Montagu Allan, C. V. O., Lady Allan and Miss Martha Allan of Montreal; Lady Loughheed and Miss Dorothy Loughheed of Calgary; Baron C. A. Attoli, Tokio, Italian Ambassador to Japan; J. Anderson, Shanghai; Mrs. A. C. H. Gray, St. John, England, daughter of F. W. Mosson, Montreal; Lt.-Col. and Mrs. Herbert Mosson, Montreal; Mr. and Mrs. D. J. McDevitt of Ottawa; Miss Eileen Dunn of Winnipeg, director of the Union Bank of Canada, accompanied by his family; W. D. Innes, president of the Paper Box Co., Ltd., Winnipeg, accompanied by Mrs. Innes; L. Pacaud, recently by Mrs. Innes; L. Pacaud, Canadian High Commissioner in London, and Mrs. Pacaud and Miss A. Pacaud of Ottawa; Miss Eileen Dunn of Victoria, daughter of the late Lieutenant-Governor of British Columbia, and Emilio Bolongesi, brother of the Italian Consul-General in Montreal.

RICKARD MAY GET BECKETT

Negotiations With English Boxer for Bout.

Proposed Match With Gibbons, the Winner to Go Against Dempsey—Big Sum Asked for Champion for Meeting with Englishman.

New York, Nov. 14.—Joe Beckett, England's heavyweight champion, will be seen in a bout in Madison Square Garden next month with present champion of America, Tex Rickard materialize. Rickard announced that he had started negotiations in an effort to induce Beckett to come here and box Tom Gibbons, St. Paul light-heavyweight, who is being advanced as a prospective rival for Joe.

Beckett agrees to fight in Madison Square Garden, the winner will be signed to meet Dempsey in a bout tentatively scheduled for a January attraction at the Garden.

The sudden and effective ban in England and France on boxing, which has caused the light-heavyweight title, caused Rickard to change his plans for conducting a human pile for Canada in the long-run instead of throwing money away in making a show of this kind.

Managers of Jack Dempsey, has replied to the offer of a London syndicate for a match between the world's champion and Joe Beckett, according to an item in the London press. The syndicate is demanding \$200,000 for Dempsey's end with a privilege of 50 per cent of the gross receipts of the fight.

The London syndicate, which is said to have the backing of some of the most prominent persons in the kingdom, has offered Rickard \$200,000 for a fight between Dempsey and Beckett.

Kalamazoo, Mich., Nov. 14.—Arrangements for a match between the champion of the U. S. and Canada are being prepared by the Kalamazoo Ice Yacht Club, where the Debutant III of Oshkosh, Wis., last year won the national championship.

The title race will be confined to boats of the twenty-five foot class. Twenty craft will be members of the local club.

New York, Nov. 14.—Two matches are on the second day of the international 192 ball-line billiard tournament. Walker Cochran will meet Roger Conitt, champion of France, this afternoon, and Wim Hoppe, former title holder, will play Edouard Horne, Belgian champion, tonight.

New York, Nov. 14.—Arrangements have been completed for the annual six day bicycle race in Madison Square Garden, in the week beginning December 8 at midnight.

Hamilton, Ont., Nov. 14.—Art Ross, former professional hockey player, has been named to coach the Hamilton N. H. L. club this winter. With Ross at the helm and reinforcements, Fredrickson of Vernon, British Columbia, the former Toronto goaler and Bert Corbeau, of the Canadiens, the Hamilton team is expected to cut a big figure.

Protect Your Health. The Tonic Laxative Effect of Laxative BROMO QUININE Tablets will keep the system in a healthy condition and shield you from all attacks of cold, grip or influenza. 80c. Made in Canada.

HEALTH BUREAU SESSIONS HERE

The quarterly meeting of the N. B. Bureau of Health was commenced this morning in the government rooms here with Dr. G. G. Meakin of Fredericton in the chair. Reports were received from the district medical health officers. No outbreaks of disease of any size were reported. It was said that the services were carried out in a more satisfactory way than previously. Dr. H. L. Abreton, provincial pathologist and director of laboratories, and Miss Melville, director of public health nurses, reported for the year.

Such was the magnificent appeal made to the Rotary Club yesterday by the club's new honorary member, His Excellency Lord Byng of Viny.

ENGAGEMENT.—Moncton Transcript—Mr. and Mrs. Alex. McCallum announce the engagement of their youngest daughter, Hazel Great to Ernest A. Alcorn, the marriage to take place at an early date.

We have a full line of cakes, rolls, etc., to make that party successful. All our lines are freshly made from our ovens.

Try our Shortbread, which is not only for its delicious flavor and its tendency to melt in the mouth. Call or phone.

IDEAL BAKERY Charlotte St. Opp. Dufferin

UNIVERSITE DE MONTREAL AFIRE TODAY

Loss of \$300,000—Radium and Giant's Body are Saved.

Montreal, Nov. 14.—One of the most serious fires Montreal has experienced in several months, early this morning roared through the two upper floors of the Universite de Montreal, St. Denis street, causing approximately \$300,000 of damage. Firemen fought stubbornly for nearly four hours before the flames could be got under control. This is the second disastrous fire the institution suffered, the entire building having been destroyed on the night of Nov. 22, 1919.

Radium valued at more than \$100,000, which was stored in a fireproof vault, escaped destruction. By a freak of chance, the body of the famous French-Canadian giant, Beupreux, which escaped cremation in 1919, once came through the flames untouched, despite the fact that it was kept in the section of the building ravaged by the fire.

Beupreux was a celebrated giant who appeared in variety shows. He was seven feet, five inches tall, and weighed 400 pounds. He died in St. Louis, Mo., fifteen years ago and his body was brought to Montreal for interment. His relatives donated it to the university which placed it in the vault.

Montreal, Nov. 14.—Nine persons were carried out of the Eplandade apartments, here last night, when fire of unknown origin broke out in the basement. Seven of the nine had to be carried down stairs, while two children were picked from their beds and carried to safety. Damage to the apartments could not be estimated at a late hour last night.

FLAYS POLICY OF SOME BANKS

Canon Scott Criticizes Rule Against Employes Marrying Until Certain Salary Reached.

Montreal, Nov. 14.—Speaking here last night before the Young Men's Canadian Club on the subject of "The Place of the Young Man in Canada," Rev. Canon F. G. Scott of Quebec flayed the policy of some banking and other institutions which did not permit their employes to marry before they reached a certain salary. He hotly denounced this policy as a crime, and suggested that the money spent by such institutions in building noble buildings in front of their office edifices would be better spent in building human piles for Canada in the long-run instead of throwing money away in making a show of this kind.

NEW ATTORNEYS

Fredricton, N. B., Nov. 14.—Eight attorneys were admitted this morning by the Supreme Court of New Brunswick to practice in Moncton; Walter Cyril Lawson, St. Stephen, to practice at Minto; Thomas Stranger Courket, Fredericton, to practice in Fredericton; Richard Marshall Palmer, Gagetown, to practice in Sackville; John Howard Drummond, St. John, to practice in St. John; John MacLellan, St. John, to practice in St. John; John Johnson Duggan, St. John, to practice in St. John; Wilest, St. John, to practice in St. John.

FAMOUS FRENCH AVIATOR POIRREE KILLED IN RACE

Le Bourget, France, Nov. 14.—M. Edward Poirree, noted French aviator, and his two mechanics, were killed today when his machine crashed during the competition for the Grand Prix for commercial airplanes here.

HALDANE IN LABOR SUPPORT

London, Nov. 14.—(Canadian Press) Viscount Haldane spoke at Buxley last night in support of Mallon, the Labor candidate. Lord Haldane will take the chair tonight at Hon. Bertrand Russell's Labor in Chelsea, when another peer, Lord Russell, will also speak. Expressing his views on nationalization of railways last night, Lord Haldane said he was not very much in love with the idea, but he did think that in the railway act of 1921, the country had made a substantial contribution to nationalization and it was working quite well. He thought it a harbinger of what an enlightened democracy would do. He said that many things waiting to be done. It was not so much the items in the Labor programme that pleased him as the spirit behind them, said the speaker.

LORD BYNG MAKES APPEAL TO ROTARY FOR BOY SCOUTS

Ottawa, Nov. 14.—(Canadian Press) "I know perfectly well that the future of the boyhood of Canada is in the hands of the country's citizens," reported the Boy Scouts organization, making Canadian citizens, and every way than previously. Dr. H. L. Abreton, provincial pathologist and director of laboratories, and Miss Melville, director of public health nurses, reported for the year.

Such was the magnificent appeal made to the Rotary Club yesterday by the club's new honorary member, His Excellency Lord Byng of Viny.

UNIVERSITE DE MONTREAL AFIRE TODAY

Loss of \$300,000—Radium and Giant's Body are Saved.

Montreal, Nov. 14.—One of the most serious fires Montreal has experienced in several months, early this morning roared through the two upper floors of the Universite de Montreal, St. Denis street, causing approximately \$300,000 of damage. Firemen fought stubbornly for nearly four hours before the flames could be got under control. This is the second disastrous fire the institution suffered, the entire building having been destroyed on the night of Nov. 22, 1919.

Radium valued at more than \$100,000, which was stored in a fireproof vault, escaped destruction. By a freak of chance, the body of the famous French-Canadian giant, Beupreux, which escaped cremation in 1919, once came through the flames untouched, despite the fact that it was kept in the section of the building ravaged by the fire.

Beupreux was a celebrated giant who appeared in variety shows. He was seven feet, five inches tall, and weighed 400 pounds. He died in St. Louis, Mo., fifteen years ago and his body was brought to Montreal for interment. His relatives donated it to the university which placed it in the vault.

Montreal, Nov. 14.—Nine persons were carried out of the Eplandade apartments, here last night, when fire of unknown origin broke out in the basement. Seven of the nine had to be carried down stairs, while two children were picked from their beds and carried to safety. Damage to the apartments could not be estimated at a late hour last night.

FLAYS POLICY OF SOME BANKS

Like Grapes in September!

Rich clusters of Good Hamburg Grapes, their skins tight to bursting with goodness—they're never so sweet as when they come in on the crest of their season.

Tea, too. It holds its goodness for a season, then loses it a little at a time. Last year tea is like last year grapes. The new crop of tea has just been gathered in the gardens of India and Ceylon. And it's the most delicious of delicacies.

Blue Bird is the first to offer this new season tea to you. For Blue Bird brings the fastest selling tea was first to dispose of the last season crop.

So every package of Blue Bird offers you the new crop of tender young tips and baby blossoms. Want a royal cup of tea, right to your taste? Ask for

CORNISH MINERS FOR CANADIAN MINES

The picture shows the embarkation of 100 Cornish miners on the "Audama." Owing to the closing of the tin mines, the community in Cornwall was threatened with distress. The government aided these men to emigrate. The wisdom of their coming is debated on this side.

AWAY TO BE SECRETARY TO HIGH COMMISSIONER

Quebec, Nov. 14.—(Canadian Press)—Lucien Pacaud, former member of the House of Commons for Megantic County, sailed today to take up his duties as secretary of the Canadian High Commissioner in London, to which position he was appointed recently. He was given a farewell demonstration by his electors in Megantic on Saturday.

BOYS IN TROUBLE

Eight juveniles this morning were given sentences of four years each in the Boys' Industrial Home and in each case sentence was suspended. Four were charged with breaking and entering the wagon house of Emery Brothers in King street East and the other four with breaking and entering the warehouse of the Corona Candy Company.

THE CANADIAN-WEST INDIES TRADE

Loading sisal at Nassau in the West Indies. It is used for the making of binder twine, which in turn is so essential to the harvesting of the Canadian crops.

THE VERDICT.

The city has returned to sanity and the open road to progress. Perhaps it would be more true to say that it has removed an obstruction and continued on the march begun last April.

It must be a great source of satisfaction to the United Organizations that their efforts to get cheap light and power have not been blocked by the New Brunswick Power Company.

There is a general feeling of relief that we have come to the end of a campaign which was marked on the side of power company advocates by gross personalities and baseless insinuations.

The friends of public ownership of hydro everywhere will be glad to hear of St. John's decision yesterday, but none have such reason for rejoicing as those who can look forward to a new era of progress and prosperity.

Mr. Fisher will now find himself an object of great interest in certain quarters where he was despised yesterday. Sundry doctors will come to him with medicine which they will assure him is much more effective than he is pledged to administer.

No. 1—(a) The completion and signing of the contract with the New Brunswick Electric Power Commission for Musquash Power.

At last we have a man who will do what he is pledged to do. These things first. Other things will adjust themselves or be adjusted as they come up. And Mr. Fisher will have the people at his back.

THE OLD HOMESTEAD.

Here we came when love was young; Now that love is old Shall we leave this floor unswept And the hearth a-cold?

AN HONORED NAME.

Robert A. Johnston brought to the Times yesterday a clipping from the British Temple of Nov. 11, 1872, or fifty years ago, relating to the late Sir Leonard Tilley.

THE INDIAN NURSE.

She moves from bed to bed with down-dropped eyes, Eyes dark and soft as though her Had pruned the vine upon Italian hills.

**FIFTEEN MINUTES OF RADIO EACH DAY**

By Edward N. Davis  
Formerly Technical Electrical Expert For U. S. Government

Lesson No. 154.  
**SUPER-HETERODYNE RECEPTION.**  
Radio-frequency amplification, that is, amplification of the received radio signals before they have been subjected to rectification, has several decided advantages over audio-frequency amplification, which consists in magnifying the signals after they have been converted into oscillations having an audible frequency. One of these advantages is due to the fact that tube noises and other disturbances resulting from current variations are not magnified as greatly in circuits employing radio-frequency amplification.

The use of radio-frequency amplification in the reception of short wave lengths has its limitations, however, due to greatly increased capacity effects. The higher the frequency, the greater the effect of capacity and at frequencies employed in broadcasting on short wave lengths, for example, the frequency of 600,000 cycles per second (corresponding to a wave length of 500 meters) the increased capacitance of the vacuum tubes and associated apparatus causes a partial short-circuiting of the radio-frequency currents.

**Three Looks At Discounts In Black Fur**

**PONY AND LYNX**—Buying before the rise lets us sell a Coat you must give \$125 for anywhere—at \$75. Forty-five inches of shining Russian Pony with the correct wave and unrivaled wear. Large shawl collar of deep brown Australian Lynx that keeps its full charm, however wrapped. Cuffs to match. Convertible pull through belt. Here only \$75.

**ELECTRIC SEAL**, the perfect "double" of Hudson that's half the cost. Black Skunk shawl collar and flared bell cuffs. Forty inches long, convertible belt, crocheted inset buttons and a lining of Satin with pale blue roses on Californian gold. A \$240 value for \$216.

Another among hundreds is an Electric Seal Sport Coat similarly trimmed with grey Opossum from Australia, \$135.

**F. A. DYKEMAN & CO.**

The accompanying diagram, in which filament battery connections have been omitted for simplicity shows the arrangement of circuits for the Super-Heterodyne method of reception. The circuit for the production of the local oscillation is shown at (O) and is so adjusted that the locally generated oscillation, when combined with the frequency of the incoming signal, produces a "beat" frequency substantially above audibility.

For example, if the incoming oscillation has a frequency of 1,000,000 cycles per second (corresponding to a wave length of 300 meters) and the heterodyne is adjusted to 1,000,000 cycles per second, a "beat" frequency of 50,000 cycles per second will be produced.

The combined currents of the 1,000,000 cycles and the 1,050,000 cycles are then rectified by the rectifier (R) and produce in the primary of the transformer (T) a direct current with a superimposed 50,000 cycle component. The primary and secondary of the oscillation transformer (T) are tuned to 50,000 cycles and the 50,000 cycle current is amplified through the successive stages of resistance coupled radio-frequency amplification and the resultant amplified current is rectified by the detector (D-1).

Due to the fact that the received oscillation, modulated at the transmitting station by music or speech, retains this modulation through the various stages of amplification, the detector (D-1) by rectifying the modulated 50,000 cycle oscillation causes a modulated direct current to flow through the telephone receivers and thus reproduce the original tones of music or speech.

**RECENT DEATHS**

**Mrs. Mary A. Taylor.**

Bangor Commercial.—The body of Mrs. Mary A. Taylor, widow of Xenophon Taylor, was brought to Lincoln for burial on Sunday. She passed away at the home of her daughter, Mrs. Fred Harrison in Hampton, N. H., where she had made her home for the last four years. Mrs. Taylor was for many years a resident of Lincoln, coming here from New Brunswick. She was born in Sussex, N. B., in 1884. In 1889, she married Xenophon Taylor. Eight children were born to them, only four of whom are living: Howard D. of Somerville, Mass.; Brunswick M. of Fairfield, Me.; Henrietta M. of Norway, Me., and Mrs. Harrison.

**Daniel Newman.**

The death of Daniel Newman, an old and respected citizen, occurred at his home, 119 Guilford street, West End, yesterday. The late Mr. Newman was in eighty-four years old and leaves to

**REFUTES IDEA OF EXTRAVAGANCE OF NEW YORKERS**

One of Every Four of Population Has Money in the Bank.

New York, Nov. 11.—(A. P. by mail.)—The popular idea that the term "New Yorker" is synonymous with prodigality in expenditures for unimportant things, extravagance in dress and style of living and outlay for bright light amusements, is refuted by some significant figures just compiled by the Merchants' Association.

On July 1, 1922, the savings banks of New York held on deposit \$2,069,779,824.85, representing accounts of 1,680,626 depositors or more than one out of every four of the entire population.

"These figures," said the statement, "are as significant relatively as positively. They prove that the habit of thrift among the wage earners in the city has grown enormously during the last twenty-five years."

"In 1907 the books of the New York savings banks showed deposits to a total of \$229,907,247.75. The actual deposits in that period have therefore multiplied almost four times. Within the same period the number of de-

positors has increased from 1,222,966. It is true that the increase in numbers of accounts is not commensurate with the increase in population, but a significant fact appears in the per capita comparison. The depositors of 1907 showed an average savings account of \$482.21, while the depositors of today show an average savings deposit of \$1,281.65.

"Those who analyze the significance of figures may draw various deductions of interest from these remarkable showings which are newly assembled, but any argument tending to show that new Yorkers in general are a wasteful lot would have some difficulty in maintaining itself unchallenged."

**PROHIBITIONISTS TO PUSH CAMPAIGN IN SCOTLAND**

London, Oct. 12.—(By Mail.)—"The London Daily Telegraph" reports that indications were clear at the annual meetings of the Scottish Temperance and No-License Union in Glasgow that renewed and stronger efforts to turn Scotland "dry" would be made in view of the forthcoming local vote next year. It was declared that the last polls showed that a majority of Scotsmen were not in favor of the drink traffic, and that what the temperance party needed, was organization. The union of all the temperance forces in Scotland under one control was advocated.

LEAGUE CONTROL OF THE STRAITS

Lord Robert Cecil Speaks of Dardanelles Problem

Says, in Discussing the Situation, That Pre-war Conceptions Must be Cast Overboard—Neutralization Financial Advantage of Turkey.

London, Nov. 1.—(A. P. by Mail)—Lord Robert Cecil, one of the creators of the League of Nations and now prominent in its councils, discussed the Near East situation today. Analyzing the problems that will confront delegates to the approaching conference on the neutralization of the Dardanelles, which is to follow the Near East Peace Conference, Lord Robert declared that in his opinion, and also in the opinion of League members who have studied the situation, there is no satisfactory solution possible except to hand over the Straits to League control, now that both sides of the Dardanelles apparently are to become Turkish territory.

Amplifying his plan for League control, Lord Robert continued: "Any international supervision of the Straits is sure to be found impracticable. The League of Nations will have to do it without armed forces. The League is doing well at Danzig, even where it has a given territory to survey, and it will not need at the Straits any special neutral zone. "In order to deal with the situation, we are obliged to cast our pre-war conceptions overboard. It is curious, but most people who discuss the Straits still think in terms of eight years ago. Although freedom of the Straits has ceased to be important in the old sense, they will still prove to be a burden to the Turks, and if we help to neutralize them, it will be a financial advantage to Turkey."

For Your Breakfast The Cream of the World's Oats

Do you know that you can build brain and muscle better by eating frequently and plentifully of oats than with any other food?

Do you know that Canada grows the best oats in the world—and that you can get the very cream of the oat crop for your daily breakfast porridge?

Every year the Quaker Mills field men find where the best seed, the most fertile soil and the most efficient agricultural care are producing the highest grade among all of Canada's wonderful oats. We secure these choice grains—yet in turn 45% of them are sifted away. Only the very finest, rich, plump oats—only the perfect ones—are good enough to go into the Quaker carton.

That is why Quaker Oats is the most popular cereal food in the world, why it contains more nourishment, and why it has such a distinctive flavour. Though priceless, Quaker is inexpensive. It costs less than a cent a serving.

The oat is a complete food in itself, and Quaker Oats should be the basic breakfast for your family. The sealed carton keeps the oats pure, fresh and flavoury. Milled in very thin flakes, Quaker makes the kind of porridge everyone likes. Sold at every grocery store in the Dominion.

If you have been using other oats try Quaker and see what the best oats are like.

Quaker Oats In Sealed Cartons Only

QUAKER MILLS PETERBOROUGH AND SASKATOON

Also makers of Quaker Flour, Puffed Rice and Puffed Wheat, Tillsen's Oats, etc., all the same high standard as Quaker Oats.

There was a bass drummer ahead of him. Herman Berger of this place took four friends, one of whom had a new rifle of whose penetration he boasted continually, out to the hunting grounds in his car. The car jolted over a bump in the road and off went the new rifle, the bullet going through Herman's leg, the gasoline tank and the radiator, knocking off two spark plugs on the way.

James Couch of Glenwild shot a big buck on election day and went to get his car to take it home. When he got back to the roadside where he had left it, he found the fresh tracks of another car, but no buck.

A PATHETIC CASE (Halifax Chronicle). An inmate of the hospital, whose case attracts much sympathy, is a boy about eighteen years of age, who is feeble minded. It seems he was sentenced to Dorchester penitentiary from some part of the province for an offence, and on completion of his sentence was ticketed to Halifax. He wandered over to Dartmouth and there his feeble minded condition attracted attention and he was admitted to the Nova Scotia Hospital, his temperature at that time being 104. He is now believed to be in consumption. When questioned his mind seemed to be confused and intelligent answers are not obtainable. It is not known to what part of the province, if any, he belongs.

LET'S WIDOW CHANGE NAME. New Jersey Woman Left Husband Nineteen Years Ago Is Still Bitter.

Newark, N. J., Nov. 14.—Mrs. Amanda M. Wollenschlager, sixty-seven years old, of 37 Howard street, Irvington, has been permitted by Judge Dallas Flanagan of Common Pleas to change her name to Mrs. Amanda M. Myers. Mrs. Wollenschlager told the

Judge that she ran away from her husband nineteen years ago because he was cruel to her, and in order to conceal her identity, changed her last name to Myers. Wollenschlager died more than a year ago, but this name was offensive to her, his widow told the court, and her son Elmer, twenty-four years old, has always been known by the name of Myers. The court also permitted him to retain the name.

OXO An OXO a day keeps illness at bay The power of Oxo is the power of beef. Oxo creates energy; it nourishes and fortifies the system against colds, chills and influenza.

PROHIBITION IN NOVA SCOTIA

Secretary Grant of Social Service Council Makes Some Comparison.

H. R. Grant, secretary of the Nova Scotia Social Service Council, writes to the Halifax Chronicle: "Last year there were committed to Nova Scotia jails for drunkenness 2,156 persons, while the yearly average for the previous four years was 2,750, and the yearly average for the four years previous to 1916 was 3,768, that is—comparing the license and prohibition periods there was an annual average decrease of 1,613 under prohibition.

"Again, there were committed to our jails for all offences last year 5,572, while the yearly average for the previous four years was 6,889 and the yearly average for the four years previous to 1916 was 9,932. Comparing the license and prohibition periods there was an annual average decrease in convictions for all offences of 1,083 under prohibition.

"The records of the City Prison, Halifax, show that during the last six years of license there were committed to the City Prison for drunkenness 1,918 persons and for the first six years of prohibition 272. During the license period for all offences there were committed 2,750 persons and during the prohibition period 937.

At next session of the House of Assembly the Government will be asked to improve the Act by Amendments, (1) to remedy abuses in the giving of precept notices and certificates of liquor, (2) to provide that the Board of Vendor Commissioners in Halifax refuse to fill orders for excessive or unreasonable quantities.

"With these and other necessary Amendments and the appointment of a sufficient number of Government Inspectors to ensure proper oversight and enforcement of the Act, conditions will be greatly improved."

SPANKING FOR PARENTS OF ERRING YOUTH URGED

Chicago, Nov. 14.—Parents of young boys and girls who participate in "puppy love" escapades should be publicly spanked, along with their erring offspring, according to Judge Lawrence Jacobs of the Chicago Boy's Court.

Passing on the case of two youthful lovers, Judge Jacobs said: "What these children need is a good, old-fashioned spanking. Furthermore, in nearly every case you will find paternal indulgence. It wouldn't be a bad idea to hand out a little of the same corrective to the parents.

"The baby love germ seems to be highly infectious, but in most cases I believe the 'marriage' excuse is simply to cover up indiscretions. I think if we had a few public spankings of children and their parents the fashion would suddenly become unpopular."

THE PEOPLE PAY IT.

(Financial Post). That the Claims of newspaper editors that the daily and weekly press are largely paying the bills for forest fires are not exaggerated is emphasized by the Forestry Branch of the Department of the Interior. Spruce and balsam are the raw materials of newspaper paper. Dear wood automatically follows forest fires as the United States paper mills are finding today. When Ontario loses 100,000 acres of timber

lands by fire in a single season and Quebec another 600,000 acres, it is not difficult to understand that the price of depletion must be paid by the ultimate consumer of wood products. We cannot hold down the price of newspaper paper and at the same time allow forest fires the right of way.

## Have you heard about the new system of selling Eggs by Grade?

"I WAS down at the grocery store today, and Mr. Williams told me he is selling eggs according to grade now."

"What does that mean? According to size, or age, or what?"

"Well, it means both. The Government has established standard Canadian grades for eggs, and up-to-date stores sell eggs marked 'specials', 'extras', 'firsts' or 'seconds'. The largest, freshest, nicest eggs are the 'specials', the next are the 'extras', and so on down."

"I think that's a splendid idea. Why, when you buy a dozen eggs now, you'll know what you are really getting. Many a time I have bought so-called fresh eggs, and thrown out about half of them."

"So have I, Mrs. Smith. But now, Mr. Williams says, all his

eggs are graded. They have a way of holding them up in front of an electric light, which makes the interior of the egg visible. You can tell exactly the quality of the egg and the grade to which it belongs."

"Oh, I think that will be a wonderful improvement! Think of getting eggs of the quality you pay for."

"Yes, you can buy 'specials' or 'extras' for boiling, and 'firsts' or 'seconds' for other cooking purposes. You won't have to pay as much for the cooking eggs, of course, and you'll be sure the boiling eggs are every one of good quality."

"Isn't that splendid! I'm going to ask our grocer for graded eggs after this. We'll use eggs more freely now."

## Why Teeth Show

In pictures—and everywhere today  
Millions are removing film

Have you noted how most pictures now show pretty teeth? And how countless people, wherever you look, show beautiful teeth when they smile nowadays?

These are results of this new way of teeth cleaning, which millions now employ. Now we urge you to try it at our cost, and to start today.

#### Try combating film

Until late years, nearly all teeth were kept clouded by a film. And 49 in 50 people suffered from film attacks.

Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. It forms the basis of dingy coats, including tartar, unless you constantly combat it. Stains are absorbed by that film.

It also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Thus most tooth troubles are now traced to film. And all those troubles were constantly increasing, despite all care of the teeth.

#### Old ways ineffective

No ordinary tooth paste effectively fights film. In fact, tooth pastes based on soap and chalk even make the film more clinging.

So dental science has for years been seeking film combatants. Two effective methods have been found. Able authorities proved them by many careful tests. And now leading dentists almost the world over advise their daily use.

A new-type tooth paste has been created, based on modern research. The name is Pepsodent. In that tooth paste are embodied those two film combatants—one to curdle the film, one to remove it.

Careful people of fifty nations are now using this new method, largely by dental advice. To millions of homes it is bringing a new dental era.

#### Two other new effects

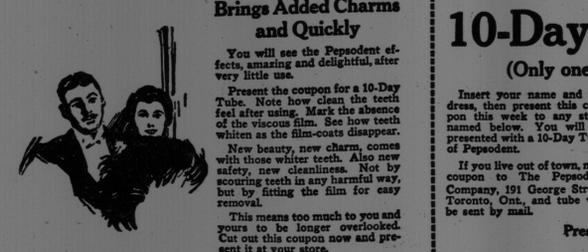

Pepsodent brings two other effects which dental science has now proved essential.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

It multiplies the alkalinity of the saliva. That is there to neutralize the acids which cause decay.

The ordinary tooth paste brings just opposite effects. It decreases these two great tooth-protecting agents which Nature has provided. Pepsodent, with every use, gives them manifold effect.

To millions of people in every clime Pepsodent has brought new beauty, new protection. The benefits will be life-lasting. Teeth conditions among whole races are being altered by this method.

### Brings Added Charms and Quickly

You will see the Pepsodent effects, amazing and delightful, after very little use.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

New beauty, new charm, comes with those whiter teeth. Also new safety, new cleanliness. Not by scouring teeth in any harmful way, but by fitting the film for easy removal.

This means too much to you and yours to be longer overlooked. Cut out this coupon now and present it at your store.

### ARCH DEFENDER SHOE

For Men and Women

A Stylish Shoe and a Scientific Shoe

ARCH DEFENDERS are not an orthopaedic freak—they are elegant shoes made in the Acme of Style and Quality. But they are also made with the patented feature of a spring support—a hand shaped insole moulded on a true foot-form last.

Thus your foot-arch is supported, not by a rigid prop that is clumsy, heavy and cramping but by the spring steel support concealed under the insole, extending from the heel to right under the Scaphoid Bone which is the keystone of your foot arch.

If you have the slightest degree of trouble, Arch Defenders will give you quick relief.

garters at the December meeting, when estimates for the next year are under consideration. Mr. Nagle said he would be lenient towards the bringing over of kindergartens under the public school system, but thought finances govern the board's action.

#### KINGS DAUGHTERS MEET.

Routine business was transacted at a meeting of the teachers' committee.

An unusually large number attended the semi-annual meeting of the King's Daughters last evening in the Guild with Mrs. H. W. Robert presiding. Mrs. M. D. Austin led the devotional exercises and prayer was offered by Mrs. Frank McArthur. Several members gave reminiscences of the past days in St. John King's Daughters history among them being Mrs. George Henderson, Mrs. J. S. Flagg and Mrs. C. A. Clark. Messages of regret that they could not attend were received from Mrs. A. P. Crockett, in Fredericton; Mrs. H. P. Ellis, in Hamilton; Mrs. John Dean, in Montreal; Mrs. Arthur Kirkpatrick, in Westfield, and Mrs. R. A. Jamieson, in the city. Those taking part in the short musical programme were Mrs. Raymond and Mrs. H. B. Peck. Refreshments were served by a committee consisting of Mrs. R. E. Plimpton, Mrs. Robesay McLaughlin, Mrs. Charles Christie, Mrs. Gray Murdoch, Mrs. Frank Smith, Mrs. Frank McArthur and Mrs. H. W. Robertson. A good array of pickles and preserves for the Guild were received at the meeting.

The Methodist Epworth Leagues of the city and Fairville held their second quarterly rally last night in the Fairville Methodist church with Rev. Bertram delivered an eloquent address on "The Challenge of the Cross."

Portland Methodist church held the banner until last night's rally, when Carleton took the lead with an attendance of every member of their League. Carleton street was second with an average of 98.1 per cent. The other leagues represented had the following averages: Fairville, 93.1; Portland, 93.1; Exmouth, 71.4; Centenary, 23.5.

George Campbell and Miss Mildred Bustin each sang a solo and the Misses Lottie Kelly and V. McColgan sang a duet. The scripture lesson was read

by Harold and Miss Audrey McColgan was at the organ.

This rally was one of the best ever held in connection with the Methodist churches of this city. One of the most pleasing features of the meeting last night was the wonderful showings made by the Carmarthen Street League. This body, which had been at a low ebb, had been reorganized recently with Charles Styles as president, and since its reorganization has gone ahead rapidly, until now it ranks with those of the larger churches in the city, with an average attendance of between sixty and seventy.

#### WITH ALL HIS FAULTS, SHE LOVES HIS STILL

Muskegon, Mich., Nov. 14.—Mrs. Joe Snow became angry at her husband, so she told the police he was making liquor. They found the still and liquor and arrested Snow, but Mrs. Snow, the police said, objected to their taking the still.

"I just want you to take him and leave me the still," she said.

Fisher May Be Sworn in Mayor this Afternoon

MUCH ADVERSE COMMENT ON McLELLAN ATTITUDE HEARD TODAY

Reported He Questioned, This Morning, Right of Victor to Occupy Mayor's Chair—Fisher Receives Many Messages of Congratulation—The Vote in Detail.

A general feeling of satisfaction over the result of yesterday's contest pervaded the city today and congratulations from all sides poured in to the Mayor-elect G. Frederick Fisher.

There is a possibility that the new Mayor will be sworn in at the weekly meeting of the Common Council this afternoon. According to the Commission Act, "if a person, other than the incumbent, receives the highest number of votes, he shall be sworn into office."

From the time that the first returns started to come in last night, showing the people and their strong support for hydro without delay, Mr. Fisher was subjected to a veritable bombardment of congratulatory messages.

Samuel Sewel, formerly superintendent of the city water and sewerage department, was today sentenced by His Honor Judge Armstrong to serve one year and six months with hard labor in the common jail of the city and county of St. John.

Sentenced by Judge Armstrong in Case Relative to City Pay Roll.

OPPOSITION TO THE POWER COMPANY'S PROPOSALS SWEEP AWAY; ST. JOHN NOW PREPARED TO GO ON WITH THE JOB IN HAND

St. John Again Speaks Emphatically For The Hydro Current at Cost

G. FRED FISHER ELECTED BY 1015 MAJORITY IN RECALL ELECTION

Unquestionable Mandate from People to "Get on With the Job"—Campaign of Slander and Power Company Propaganda Ends in Complete Rout for Mayor McLellan—Vote Was 4,304 to 3,289.

The slogan of "Power at Cost" received an added impetus from the citizens yesterday when they voted, by the handsome majority of 1,015, to put in at City Hall a man who could be depended upon to keep his pre-election promises and to act independently of any corporation. In ten out of thirteen wards G. Fred Fisher, the people's candidate, had a plurality which constituted an answer to a slanderous campaign, abounding with personalities and reeking with innuendo. St. John has shaken off the threatened mantle and has emerged from the darkness of doubt ready to follow the new leader into paths of cheap light and power. Contesting thirteen wards on the thirteenth day of the month was an unlucky move for the late mayor. The next move is for Mr. Fisher to carry on with his programme in which he will have the backing of the great majority of the citizens as expressed yesterday at the polls.

Mr. Fisher's platform called for: The completion and signing of the contract with the N. B. Electric Power Commission for the Musquash power at 1.2, and the appointment of an independent civic hydro electric commissioner to conduct a civic distribution system; Completion of plans and specifications for a civic distribution system;

An offer of \$2,577,655.56 to be made to the New Brunswick Power Company for its entire property—THE SUM TO BE THE MAXIMUM AND THE OFFER TO REMAIN OPEN TEN DAYS ONLY.

In the event of the offer not being accepted by the POWER COMPANY THE CITY TO PROCEED IMMEDIATELY WITH THE CONSTRUCTION OF ITS OWN DISTRIBUTION SYSTEM.

This platform received handsome and unquestioned endorsement at the polls yesterday, and Mr. Fisher has repeatedly stated that an end would be put to the quibbling tactics employed at the last civic election by the carrying out of his entire programme. He is known as a man who keeps his pledges to the letter.

On October 5 last, the recall petitions concerning ex-Mayor McLellan were placed before the Common Council for action and the date, November 13, was set for the election at that meeting, but it was not until October 16 that Mr. Fisher was selected as the standard-bearer for hydro. It will be seen, therefore, that the hydro opponents had a big advantage, so far as time was concerned. In fact, it was in middle summer that the ex-Mayor's recall petitions were circulated, so the Power Company forces went into the battle fully prepared.

Mr. McLellan's chief plank was arbitration for the Power Company plant. It is interesting to note that on the night Mr. McLellan was elected to his high office on April 24 last, he intimated that no such offer would be made. He further said that it was the first time he had seen the citizens of St. John ready and willing to go out and protect themselves from such a corporation as the N. B. Power Company.

The citizens showed him for the second time that his statement on that occasion was correct.

Analysis of Vote. A detailed analysis of the vote polled yesterday shows that out of a total eligible vote of 12,469, very near the sixty-one per cent. mark was cast, or 7,926 votes.

OF THE THIRTEEN WARDS GAVE MR. FISHER A MAJORITY.

In Guys, it was 151. In Brooks, it was 111. In Dukes, 201. In Queens, 380. In Kings, 160. In Wellington, 121. In Prince, 19. In Victoria, 188. In Dufferin, 84. In Lansdowne, 14. Mr. McLellan's majority in Sydney was 109; in Lorne, 129; in Stanley, 71. He was beaten, generally, even in the North End. That Sydney ward elected to stand with the ex-Mayor was a big surprise, but it hardly equalled the upset given the Power Company candidate in Lorne and Lansdowne, where Mr. Fisher ran his opponent a close race in supposed McLellan strongholds—beating Mr. McLellan in Lansdowne ward.

In the wards that did go in for the Fisher column, there was no doubt regarding the emphatic verdict of the electorate just as there can be no doubt as to the nature and meaning of the mandate given the new Mayor.

There is a total of 18,904 names on the voters' lists for the city, but for yesterday's election some 5,835 names were stricken from the lists as ineligible, leaving a total of 12,469 qualified to exercise their franchise. At the April election, this almost equalled the number eligible, namely, 9,708. Tabulated, the figures are:

April, November. Total 18,904 18,204. Ineligible 5,950 5,835. Qualified 12,469 12,469. Votes cast 7,486 7,493.

The Weather. Election day dawned bright and clear and continued so throughout the morning and afternoon. There was a sharp, biting wind, however. Great energy was manifested by both sides, and auto-

by Walter Golding, manager of the Imperial, as "the new Mayor," and Mr. Fisher's appearance was the signal for vociferous applause.

He began by thanking them for the splendid reception accorded him and congratulating the citizens on having won a great victory. He appreciated the confidence reposed in him by his native city in electing him as their representative at this critical hour in the history of the city. He hoped he would always merit that confidence. He pointed out that there was no reason why the success of these cities could not be duplicated here.

Many citizens had appeared timid regarding the construction of a civic distribution system, but he believed there was little cause for fear should such a policy be put into force. A reasonable and equitable offer would be made by the Power Company, and if the company did not see fit to accept this offer the city would have to build its own system.

Rev. Hugh Miller, minister of St. David's church, left on the Boston train last night, having received a telegram notifying him of the serious illness of his sister, in New Haven, Conn. This necessitates the postponement of the election gathered early at the rooms and received the returns from the various wards telling of the great victory. When the final returns had been made the calls for a speech were so insistent that the successful candidate of the people was forced to step forward to satisfy his friends and workers in his behalf.

The Mayor-Elect. Mr. Fisher told those present that they had good cause to rejoice for it was not only a triumph for himself, but for the citizens of St. John and he was glad to see them rejoicing. He considered that the citizens had won a great victory and incidentally had downed the enemies of their city. He acknowledged that it had been a hard battle, well fought, and against an unscrupulous enemy. He said it was a great success for all who had worked in the interests of hydro.

Speaking of his plans, he said he would make up his mind to do his job and push it forward as rapidly as was reasonably possible, as well as whatever was in the interests of the city. The first great question to be considered, however, was cheaper electricity. He expressed his thanks to the citizens who had stood by him so faithfully during the campaign, and his appreciation to all who had placed their confidence in him and had bestowed on him the great honor of becoming the mayor of St. John. He said he would always be proud of the great vote and honor in mind that it was a people's victory. In conclusion he again expressed his thanks and promises to do his job in coping with the difficult work ahead.

He predicted that there would be serious opposition and was confident of success in the great undertaking.

R. A. McAvity. Ronald A. McAvity, general chairman, was then brought forward for the campaign. In response, he said he considered that he was very kind to bestow on him such an expression of appreciation, but maintained that he was not a candidate for the office. He said they had had the greatest organization in the history of civic politics and paid a glowing tribute to the willingness and wonderful co-operation of the entire committee. He in turn thanked all who had worked with him.

J. A. Barry. J. A. Barry was then called on. He said that the hydro was a problem with which the citizens still would have to cope. He did not consider the fight through, but he felt that the citizens now had a safe and sane man at the helm, who would do all in his power, as he had promised to do, to see that the citizens should derive the full benefits from the hydro development. His remarks were greeted with loud cheers.

Roy Willet. Roy Willet, president of the United Organization, said that St. John had a great opportunity for prosperity. He considered the result of the election a great thing for each and every one. It had been a hard fight, but it was evident that the citizens would allow no one to stand in the way of future progress through hydro development. The people had taught a lesson to one who had been elected, promised, and then had been elected, but had no intention of keeping. He declared that if the citizens would keep together there would be no doubt that St. John would grow and prosper under the new civic government.

P. C. Johnson recited some original poetry regarding the outcome of the election and the downfall of "Harry and the Power Company." There was a good strain of humor in the lines and they evoked hearty laughter and applause.

Mayor-Elect Fisher was then lustily cheered and carried to an automobile and escorted along some of the city streets, while hundreds marched loudly cheering.

At the Board of Trade. Shortly after 9 o'clock G. Fred Fisher arrived at the Board of Trade rooms, where he had promised to speak to the meeting. He was accompanied by an enthusiastic crowd of supporters and rooters who, flushed with news of victory, could not restrain their enthusiastic and hearty congratulations.

All were made heartily welcome by the members of the Board of Trade as many as possible were seated about the room while the speeches were in progress. So soon as Mr. Fisher could shake hands with his many friends he stepped forward to tender his congratulations on his victory, he mounted the platform and was introduced to the meeting by W. F. Burditt, president of the Board of Trade.

When the successful candidate arose, the hall resounded with three hearty cheers from the crowd. Mr. Fisher thanked those present for the honor accorded him. It was more than a personal victory, he said, it was a victory for the people. He hoped that they could get along now with the policy of cheap electricity for the city and that rapid progress would be made towards the goal for which they had been striving. There was only one step to be taken, and that was to overcome it. He again thanked the people present for their support and expressed his gratitude for the day's victory.

Ronald A. McAvity was the next speaker called upon. He said the support for the hydro project for which he stood. There would be opposition, he knew, and close cooperation would be necessary to overcome it. He again thanked the people present for their support and expressed his gratitude for the day's victory.

Mr. Fisher told those present that they had good cause to rejoice for it was not only a triumph for himself, but for the citizens of St. John and he was glad to see them rejoicing. He considered that the citizens had won a great victory and incidentally had downed the enemies of their city.

He predicted that there would be serious opposition and was confident of success in the great undertaking.

MAYOR-ELECT GIVEN ROUSING DEMONSTRATION

A Victory for the People, Says Mr. Fisher After Results Were Announced—Enthusiastic Reception at Board of Trade.

It was a glorious victory. With a majority sufficiently large to leave no room for doubt as to the wishes of the better thinking section of the electorate G. Fred Fisher, the people's candidate, yesterday won the fight for cheap power and there remains but the carrying out of the programme upon which he was elected. No longer hampered by the barnacles of a grasping corporation and its henchmen the civic ship will sail swiftly on combating the mountainous seas which must yet be met until at last she reaches the safe anchorage of power at cost.

Jubilation prevailed at the Fisher headquarters last evening when the returns began to come in. The workers who had spared no effort to secure the election gathered early at the rooms and received the returns from the various wards telling of the great victory. When the final returns had been made the calls for a speech were so insistent that the successful candidate of the people was forced to step forward to satisfy his friends and workers in his behalf.

The Mayor-Elect. Mr. Fisher told those present that they had good cause to rejoice for it was not only a triumph for himself, but for the citizens of St. John and he was glad to see them rejoicing. He considered that the citizens had won a great victory and incidentally had downed the enemies of their city.

THE VOTE BY WARDS

Ward Fisher McLellan. Guys 303 152. Brooks 213 102. Sydney 154 263. Dukes 413 212. Queens 634 299. Kings 309 159. Wellington 401 280. Prince 381 362. Victoria 411 273. Dufferin 314 230. Lansdowne 336 322. Lorne 381 510. Stanley 54 125.

Majority for G. Fred Fisher 1015. Total vote cast 7593.

HYDRO DEBATE AT LAW SCHOOL

The Law Students' Society held a debate last evening on the question of whether or not civic distribution of Musquash Hydro would be in the interests of St. John. The debaters favoring hydro were Douglas McKean, G. L. Nicholson, R. J. Fanjoy, while those in opposition were C. Verner McKimney, H. N. Jonah and H. D. Baldwin. The judges awarded the decision to the latter. The issue was not an election issue by an independent debater and little reference was made to the politicians who won or lost, respectively, yesterday. The judges were Miss Lesley Fickett, G. E. Holly, G. L. Nicholson, while Mr. Bennett, president of the society, was in the chair.

After the debate the students visited Mr. Fisher, the mayor-elect, and in the process of congratulations were entertained.

HOURS FOR BARKING OF DOGS ARE FIXED BY COUNCIL. It remained for the City Council of Lunenburg, N.S., to take all the joy out of a dog's life here, enacting a law prohibiting any and all dogs from barking after the curfew rings at night. It proves the old saying, that all things are possible with a City Council.

Owners of dogs guilty of barking after hours will be fined \$1 per bark.

IS KNOWN HERE. Rev. W. A. Cameron of the Bloor Street Baptist Church, Toronto, and well-known in St. John, has accepted an invitation to preach at the 7th Baptist World Congress, to be held at Stockholm, Sweden, July 21, 1923. On Sunday three official sermons are to be delivered, one in English, one in German and one in Russian, and Mr. Cameron has been chosen by the executive committee to preach to the English-speaking delegates.

promotion of its best interests. He concluded by saying that he would probably rather Mayor Fisher as he had outwitted other mayors, and that they would probably have some disagreements, but in spite of these disagreements, he felt that Mr. Fisher would speak to him when they met on the street.

Other Speakers. F. J. McInerney, chairman of Kings ward, congratulated Mr. Fisher on his election and on the hearty co-operation he had received from the organization of his workers.

George E. Barbour congratulated the Mayor on his election and the city on their having elected him.

John Flood said he had been in the fight for cheap power for more than a year, having got into the fight in the Board of Trade rooms.

A. H. Wetmore was the last speaker. He said he did not take any active part in politics, but wished to congratulate Mr. Fisher as a personal friend. He said he was glad to see that the Board of Trade would now get some co-operation from the Mayor in their efforts for the good of the city.

The meeting broke up as it started with cheers for the new Mayor and for those actively engaged in the election fight.

G. FRED FISHER, The Mayor-Elect.

streets, while hundreds marched loudly cheering.

He predicted that there would be serious opposition and was confident of success in the great undertaking.

R. A. McAvity. Ronald A. McAvity, general chairman, was then brought forward for the campaign. In response, he said he considered that he was very kind to bestow on him such an expression of appreciation, but maintained that he was not a candidate for the office.

J. A. Barry. J. A. Barry was then called on. He said that the hydro was a problem with which the citizens still would have to cope. He did not consider the fight through, but he felt that the citizens now had a safe and sane man at the helm, who would do all in his power, as he had promised to do, to see that the citizens should derive the full benefits from the hydro development.

Roy Willet. Roy Willet, president of the United Organization, said that St. John had a great opportunity for prosperity. He considered the result of the election a great thing for each and every one.

P. C. Johnson recited some original poetry regarding the outcome of the election and the downfall of "Harry and the Power Company." There was a good strain of humor in the lines and they evoked hearty laughter and applause.

Mayor-Elect Fisher was then lustily cheered and carried to an automobile and escorted along some of the city streets, while hundreds marched loudly cheering.

At the Board of Trade. Shortly after 9 o'clock G. Fred Fisher arrived at the Board of Trade rooms, where he had promised to speak to the meeting. He was accompanied by an enthusiastic crowd of supporters and rooters who, flushed with news of victory, could not restrain their enthusiastic and hearty congratulations.

All were made heartily welcome by the members of the Board of Trade as many as possible were seated about the room while the speeches were in progress. So soon as Mr. Fisher could shake hands with his many friends he stepped forward to tender his congratulations on his victory, he mounted the platform and was introduced to the meeting by W. F. Burditt, president of the Board of Trade.

When the successful candidate arose, the hall resounded with three hearty cheers from the crowd. Mr. Fisher thanked those present for the honor accorded him. It was more than a personal victory, he said, it was a victory for the people.

Ronald A. McAvity was the next speaker called upon. He said the support for the hydro project for which he stood. There would be opposition, he knew, and close cooperation would be necessary to overcome it.

Mr. Fisher told those present that they had good cause to rejoice for it was not only a triumph for himself, but for the citizens of St. John and he was glad to see them rejoicing. He considered that the citizens had won a great victory and incidentally had downed the enemies of their city.

He predicted that there would be serious opposition and was confident of success in the great undertaking.

R. A. McAvity. Ronald A. McAvity, general chairman, was then brought forward for the campaign. In response, he said he considered that he was very kind to bestow on him such an expression of appreciation, but maintained that he was not a candidate for the office.

M'LELLAN IS A POOR LOSER

Attributes Defeat to Ignorance of the Citizens—A Wild Speech Loaded with Threats Follows News of Fisher's Election—To Sue for a Million!

The election returns hit H. R. McLellan in the solar plexus. The speech he delivered in defeat, was in its very essence, the sequel of a bad loser. He had his henchmen about him in the testing hour but every decent man present knew that speech for what it was—namely, the speech of a pretender who could not stand the gaff.

A large gathering received the returns at the McLellan headquarters in St. Malach's hall. As each ward return was complete they were posted on a bulletin board.

After three wards had been posted the posting stopped and after a prolonged wait "Fisher wins" was scrawled across the bottom.

The intelligence was received in painful haste. McLellan had come into the hall about half an hour previous, and had been greeted with prolonged cheers. As soon as it was known that Mr. Fisher had won there were calls for the defeated candidate who presented himself on the platform. As soon as order was restored Mr. McLellan said: "Gentlemen, workers and intelligent citizens: I will admit that I am disappointed. I am not making any grandstand play when I say that, having been recalled once before, one more does not hurt. This is not the first time I have been defeated. I am just as sure tonight that I am correct in the stand I have taken as that I am standing on this platform. The fight is not over. I am going to start out tomorrow morning to fight a greater battle than ever, and am not going to forsake those who have stood by me. I am going to save the people of St. John from themselves and not allow them to be the prey of politicians."

Sorry for Them. Continuing, he said that he had incurred the displeasure of many. He said that he was not diplomatic, and that he would never make an emissary to Washington. His chief regret was for the ignorance of the people of the issue at stake. They had given a decision as to whether they should be led with rings in their noses like cattle by a few families and cliques, or whether they would exercise their British freedom. He did not feel a bit sorry, though he was tired and disappointed and felt very badly over the fact that the people of St. John had been so easily fooled. He said he was absolutely and positively sorry for them.

"As recalls have become so fashionable," he said, "let's have another one. This is not sourness but a right and a manner to justify the intelligence of some of the electorate. You will need a less number of names than you had last time. The city charter is a charge must be laid, justified and proven in order to have a recall election. They recalled me because they said I was to you that I have deserted my platform; it is the same as last spring. I am not through and I am not discouraged."

Disgusted. "I am disgusted because the people of St. John failed to display that amount of intelligence which would have been displayed by the people of any other city. Just so soon as the new Mayor is

inaugurated a recall petition may be signed. It is not at the will of the Council to order a recall, but they must do so when called upon. If you exercise the recall you may get some one of better intellect, morals and standing than I am to be your candidate, and I will assist that candidate without vindictiveness.

"Everything that could be used against me today has been used, and has been used right along by the Telegraph, Times and Globe. I will head the petition of recall myself."

"Idiocy" of Others. He then took the returns ward by ward and commented on some of them. Sydney ward, which gave him a majority, he thanked for its intelligence. He expressed regret over the idiocy of the voters in Queens ward. He thought they had been misled by personal prejudice and by aristocrats. If it was going to be a matter of class, he declared that he could stir one up. Referring to Victoria ward, he said he knew the means that had been used there. Of Prince ward he said he expected a majority of 800 but it had been considerably less than that. (He was beaten in Prince.) In Wellington ward he had expected to break even. It gave Mr. Fisher a good majority. He had expected a small majority in Dufferin ward. Lorne ward was his home ward. He made no comment on the remaining wards. The grand total, he said, was a huge disappointment.

The Merchants. The merchants had said that his platform was all right, but they would not vote for McLellan. The merchants had knifed him. They would never get the chance to recall him. The fight had only begun. There were nearly five thousand voters not out to the polls. He was going to try to show these people that they should have been out. "So long," he said, "I have breath and strength to fight the fight I have to go to the N. B. Power Company and ask them to give a rate that others cannot meet."

Referring to the Scheidtmann report, he said that there referred to money voted to pay for the experts and the report had been presented. There might be opposition at the Council to paying the bills. "When you are making a recall," he said, "recall the whole 4—4 lot of them." He urged a return to the democratic form of government. He declared that he would not look for a place on the ticket.

"If Fisher is permitted to occupy the mayor's chair long," he said, "the reasons for returning to the ward system will be much accentuated. The Telegraph, Times and Globe have told you that I am no business man, but I would be glad to enter into a contract to manage the city of St. John and would not take a cent unless I made \$100,000 from the election. If Fisher does not watch his step he will be smothered."

He repeated his intention of going to the Power Company and putting a proposition before them. Then the commission could sell its Musquash power where it could. He reiterated his intention to get an injunction to restrain Mr. Fisher from signing the contract because the power was not there and he could convince any judge of that. He declared that a writ for \$100,000 apiece would be served on The Telegraph, Times and Globe within ten days, and he would be interested in seeing what reply they would make.

Never again, he said, would he enter the civic arena in the city of St. John. He would work night and day until such time as he had to leave St. John to make a living somewhere else, to show the people the facts in their true light. In closing he thanked those who had supported him and urged them not to forget the recalls.

Exit Mr. H. R. McLellan.

It is reported that Frank J. Casey, collector of inland revenue at Charlottetown, has been promoted to the office of assistant inspector of customs and excise at Truro. Mr. Casey is a north end man.

LAST MARQUESS OF BREADALBANE LIES IN FINLARIG SWARD

Higher Title Lapses and the Heir Will be Earl Breadalbane— Estates at One Time Included Thousands of Acres.

London, Oct. 23.—(By mail.)—The funeral of the last Marquess of Breadalbane took place at Finlarig, Killin, yesterday afternoon.

Among the large gathering were tenant farmers and Highland lairds, many in Highland dress, and representatives of public bodies in Perthshire and Argyllshire of which Lord Breadalbane was a member.

The Marquess died in the Central Station Hotel, Glasgow, on Thursday afternoon. He left Dalnallyn on Monday to attend a railway meeting, but became ill in the train, and on arrival in Glasgow was removed to the hotel.

Lord Breadalbane was with him. Great Scottish Nobles. Gavin, Marquess of Breadalbane, had recently completed his seventy-first year, having been born at Fermoy on April 9, 1851.

In November, 1862, the fifth Earl and second Marquess of Breadalbane died childless, and the vast estates—over four hundred thousand acres—of the "Black" Campbells, with a string of Scottish titles, were claimed by his distant kinsman, Captain Campbell of Glenalloch.

His claim was opposed by a cousin, but was finally upheld by Lord Westbury and Chelmsford (Lord Westbury dissenting) in 1864, when Captain Campbell duly became Earl of Breadalbane and Hol-

land, Viscount of Tay and Pentlands and Lord Glenarue, Bederoloch, Ormelie, and Weick, in the peerage of Scotland, and a baronet of Nova Scotia. He did not long enjoy these honors, for he died in March, 1871, when his son, who was still a minor, succeeded.

Entered Public Life. About the middle of last century a determined effort was made to induce the noblemen and other magnates of Scotland to educate their sons at the historic University of St. Andrews, and there the late Lord Breadalbane had been duly sent. He was not long in entering public life, and, having proclaimed his attachment to the Liberal party, was in March, 1873, when still only 21, created Baron Breadalbane of Kenmore, and appointed a Lord in Waiting, his new peerage giving him a seat in the House of Lords.

His party soon went out of office, but on its return in 1880 he was sworn a Privy Councillor and appointed Treasurer of the Household, an office which he filled for five years. He was then, in July, 1888, created Earl of Ormelie and Marquess of Breadalbane, choosing the titles previously enjoyed by his kinsmen, the fourth and fifth earls.

Before entering the House of Lords, Lord Breadalbane had married, in July, 1872, Lady Alma, youngest daughter of the fourth Duke of Montrose and of his famous Duchess, and when Mr. Gladstone for the last time took office, Lord Breadalbane became Lord Steward of the Household, and in the three following years, as Lord High Commissioner to the General Assembly, he and Lady Breadalbane, with conspicuous success, tempered the wind of Erastianism to the Church of Scotland. In 1894 he acquired the Garter, and in 1907 after another Liberal victory at the polls, was made Keeper of the Privy Seal of Scotland. In 1914 he succeeded the late Duke of Argyll as Lord Lieutenant of that county, where, as in his native Perthshire, he had already filled numerous offices and rendered much valuable service to local government.

Indeed in the long intervals of opposition Lord Breadalbane was principally occupied in the management of his vast estates, which at one time extended over 234,000 acres in Perthshire and 204,000 in Argyll, and were exceeded only by those of the Dukes of Sutherland and Buccleuch. Marquessate Expires. Lord Breadalbane leaves no child, and the marquessate again expires. By a curious provision of doubtful validity, in the patent creating the Earldom of

Marquessate Expires. Lord Breadalbane leaves no child, and the marquessate again expires. By a curious provision of doubtful validity, in the patent creating the Earldom of

only sister, Lady Eva Campbell, married in 1876 Mr. J. C. Heathcote, and has an only son, Lieutenant-Colonel John Robert Campbell Heathcote, late of the Cameron Highlanders and Royal Air Force. Despite his years, Lord Breadalbane died at an earlier age than the majority of his predecessors. The first three earls attained the remarkable ages of 81, 89, and 85 respectively, while the fourth, who was raised to a marquessate in his 69th year, died actually on the eve of his 72nd birthday.

UNREADY TO CALL FOR PLEBISCITE ON SEPARATION ISSUE

Port Arthur, Ont., Nov. 13.—Until the Port Arthur City Council is in possession of sufficient information of a favorable nature it will not commit itself to the submission of a plebiscite to the electorate on the question of separation from Ontario and the formation of a self-governing province to consist of Port Arthur, Fort William, Rainy Lake and the district of Kenora.

EDITOR IN CUSTODY HOLDS UP HEARING

Montreal, Nov. 13.—Owing to the absence of John H. Roberts, editor and publisher of "The Axe," a Montreal weekly paper, who is held at Quebec, it was not possible to continue his examination as a witness in the case of Norris P. Bryant, who is charged with having aided and abetted Roberts in publishing libellous statements in "The Axe" concerning the firm of Logan and Bryant, stockholders, of this city. Evidence of Bryant's stenographer was heard and the case was adjourned.

GLAD HIS FORGER SON IS DEAD, FATHER IN TEARS TELLS JUDGE

New York, Nov. 14.—A charge of forgery against his dead son was the defence furnished by Joseph T. Bunt, a Bronx resident, in a law suit that brought him before Supreme Court Justice John M. Tierney. "Judge, I am glad my boy is dead," said Bunt. "He was one of the cleverest forgers in the United States and his misdeeds have involved me in litigations which will continue for ten years. I hate to say this, but it is necessary. My son was clever, and when he was admitted to the bar I was as proud of him as any father could be."

There were tears in Bunt's eyes as he made his reluctant speech. He seeks to set aside an assignment of a mortgage of \$4,000 to Victor d'Andrea. According to Bunt, his son, who died recently, forged the document and collected the money.

AGED MEN SLAIN FOR LIFE SAVINGS TOTALLING \$1,500

Oxford, N. H., Nov. 13.—John and Charles Davis, brothers, the former a civil war veteran, were killed for their life savings of less than \$1,500, the authorities announced tonight after an autopsy on the bodies, which were found last night in a little cabin on the outskirts of this village, long the Davis brothers' home. Their heads had been crushed, evidently with a blood-stained axe found nearby. John Davis was known to carry about with him the

funds of the two, accumulated through fifty years of thrift. A large leather wallet pinned inside a vest pocket was the hiding place of the money and this had been taken. It was found the murderer had overlooked \$96 in a little cloth bag pinned to one of the five shirts on the body of Charles Davis. Neighbors said that the Davis hoard was between \$1,200 and \$1,500.

ST. PAUL'S Y. P. A. DEBATE

The members of the St. Paul's Y. P. A. held a debate and social last evening in the school room of the church. The affair was largely attended and Harold Hamm, president of the association, occupied the chair. The de-

bate was on the relative values of anticipation and realization. The members of the anticipation team were: Woodley, Mrs. H. Roberts, Leslie Rowley and F. Dykeman. The members of the realization team were: W. C. Peters (captain), Miss Edna Crawford, Mrs. Harold Hamm, Norman Betts and Harold Hamm. The hydro question was used in the debate and one of the strong points shown was St. John, in anticipation of the hydro power, and South Bay in actual realization of it. The realization side was awarded the palm of victory by the judges, Miss Dorothy Hickson and Cedric Flewelling. After the conclu-

sion of the debate refreshments were served under the convener'ship of Mrs. H. Roberts.

It was the monthly consecration meeting at the Ludlow street B. Y. P. U. last night and the programme was one full of inspiration. R. J. Rupert, the president, was in the chair and a bright sing song preceded the devotional meeting. Miss Carrie Dunce sang a solo most acceptably. "Reverence" was the topic of the evening and after Mr. Rupert had given a short talk on the subject, the pastor, Rev. W. A. Robbins, addressed the meeting. The programme was completed by each person present reading a portion of scripture bearing upon the subject.

—and no one could quite say when Helen Davis paused and the NEW EDISON took up her song.

Perfection of the NEW EDISON Demonstrated in Unique Tone Test at the Imperial Theatre

It is asking much of any device of metal and wood to expect it even to approximate the tones of the human voice.

All that has been claimed for the unequalled realism of NEW EDISON Re-Creations is established in fact by yesterday's matchless performance.

Yet before a large audience in the Imperial Theatre yesterday afternoon, the remarkable NEW EDISON proved beyond a shadow of a doubt that a mechanical instrument can Re-Create the very living voice of a famous singer.

Miss Davis took her place on the stage beside a graceful Chippendale cabinet. The delight of her golden voice reached out through the auditorium to scores of attentive music-lovers.

Helen Davis, the well-known mezzo-soprano, sang in direct comparison with the Re-Creation of her voice by the NEW EDISON. Even critical hearers could detect no difference between Miss Davis' actual singing voice and its Re-Creation.

Unexpectedly—she stopped singing. The NEW EDISON at her side took up the thread of her song and, in the full, rich tones of the mezzo-soprano, continued it alone.

Could any other phonograph sustain this test? No other has ever attempted it.

Singer and phonograph alternated to the end. So exactly like Miss Davis' living voice was the Re-Created voice from the NEW EDISON, it was only by watching the movement of the singer's lips that they could be certain of the distinction.

The NEW EDISON "The Phonograph With a Soul"

Similar tests were made by Victor Young, the eminent composer-pianist. His instrumental selections could not be distinguished from the Re-Created performance—depth and quality of tone were identical—no difference could be found. With the conclusion of the concert, it had been proved that the NEW EDISON is truly the artist in all but physical presence. Could better evidence be offered than the personal experience of a discriminating audience utterly convinced?

Was the instrument used yesterday a special model? Most emphatically, no! Taken from regular stock; this NEW EDISON is known as an Official Laboratory Model. Each Official Laboratory Model in our stock is guaranteed to sustain the same test of direct comparison with living artists. One of these remarkable instruments is waiting to be delivered to your home. Come in and hear it. And let us tell you about our Budget Plan, which brings this model into your home for no more than you would "pay down" for a talking machine.

Tender Juicy Roasts. With all the delicious flavor retained. No longer need tender roasts of beef be ruined through improper roasting. With one of these splendid SMP Roasters in your kitchen, you can roast fowl or meat or bake fish to perfection! The Roaster will do all the work. It bastes—the fat drips down from above. The roast comes from the Roaster tender, delicious, juicy, full of wondrous flavor. The juices and the flavor cannot escape. They are cooked right in. Surely it pays to cook or roast expensive meat, fowl or fish in the best utensil procurable! With an SMP Crystal Ware or Pearl Ware Roaster, you cannot go wrong. The Roaster guarantees perfect roasting. It ensures delightful tenderness and rare flavor. And then, no matter how hot or how long the roasting, an SMP Roaster cleans as easily and quickly as a china dish or bowl. You can get SMP Roasters in any style, shape or size and at various prices in Pearl Ware—a pearly grey, two-coat enameled ware—or in Crystal Ware—a three-coated, snowy-white enameled ware. Sold in all hardware stores. Insist that your Roaster carries the SMP trade-mark. The Sheet Metal Products Co., Limited. Mr. SMP—Copyright, Canada, 1922, by The S. M. P. Co., of Canada, Limited.

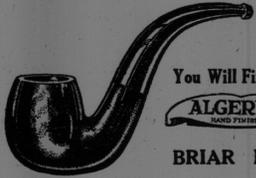

### WILSON SEES U. S. JOINING LEAGUE YET

#### Faith in Ideals Expressed by Ex-President in His First Speech on World Topics Since Collapse.

(From N. Y. Tribune's Washington Bureau.)  
Washington, Nov. 11.—Woodrow Wilson still has faith in his League of Nations and believes America will some day join it. He spoke these convictions today in his first public utterance on world issues since he was stricken more than three years ago while on his League tour of the country, in a brief response to an Armistice Day demonstration at his home. He said:—  
"I am very much moved by this wonderful exhibition of your friendship and approval, and I have been reflecting today that Armistice Day has a particular significance for the United States because the United States has remained contented with the Armistice and has not moved forward to peace."  
"It is a very serious reflection that the United States, the great originator of the League, should remain contented with a negation. Armistice is a negation; it is a standstill of arms; it is a cessation of fighting, and we are so bent on a cessation of fighting that we are even throwing our arms away."  
"It is a singular circumstance to which Mr. Mergenthaler has in part adverted that, while we prescribed the conditions of the Armistice, we will not concur in the establishment of permanent peace. That, of course, was brought about by a group in the United States Senate who preferred personal partisan motives to the honor of their country and the peace of the world. They do not represent the United States, because the United States is moving forward and they are slipping backward. Where their slipping will end, God only will determine. Holds Peace is Positive Thing."  
"And I have also been reflecting upon the radical difference between armistice and peace. Armistice, as I have said, is a mere negation; it is refraining from force. But peace is a very positive and constructive thing as the world stands nowadays, because it must be brought about by the systematic maintenance of common understanding and by cultivation—not by amiable phrases, but the active co-operation for justice; and justice is a greater thing than any kind of expediency."  
"America has always stood for justice and always will stand for it. Many persons who are now standing in the way will presently find that their weakness is no match for the strength of a moving providence. If you will pardon an invalid for putting on his hat, I will promise not to talk through it."  
"I think, then, we may renew our faith in the future though we are celebrating the past. The future is in our hands, and if we are not equal to it the shame will be ours and none other's."  
WATERLOO STREET B. Y. P. U.  
Last evening the young people of the Waterloo street Baptist church, met in the vestry of the church to reorganize the B. Y. P. U. for the coming winter. The pastor, Rev. J. A. Swetnam, was

in the chair and in his opening remarks, outlined the work of the union. The election of the following officers for the coming year took place: President, Rev. J. A. Swetnam; vice-president, Deacon John W. Mott; secretary, Miss Margaret Earle; treasurer, Miss Aggie Pooley; pianist, Miss Florence Kierstead. The following were elected chairmen of committees: Literary, John W. Mott; consecration, Miss Pooley; social and entertainment, Mrs. Harry Coggins; missionary, Miss Ada Coates. The outlook for the union was said to be very promising, and already a financial objective has been established, the first step toward which will be a social next week.

SALES DISTRIBUTOR for the **Vacuelle Suction Cleaner** NOT AN ELECTRIC MODEL

We want immediately a responsible man or firm as Sales Distributor in the Province of New Brunswick. The Vacuelle, which requires NO ELECTRICITY, is really enjoying a big sales success, because a demonstration to Housewives makes a place for the Vacuelle in every home. Our organization is a live and rapidly growing one. In addition to 200,000 homes, the Railroads and many prominent institutions are among our best customers. Every assistance in the way of sales helps and co-operation is given to bring about business that will develop into huge profits and permanency. Please state your qualifications to handle this proposition.

VACUETTES, Limited, 48-York Street Toronto, Ont.

### Beecham's Pills Keep you fit

The executive of the New Brunswick Graduate Nurses' Association met last night in the nurses' home of the General Public Hospital, with the vice-president, Miss Brophy, in the chair. Several new members were admitted to the Association and routine business was transacted. The revision of the by-laws and constitution was considered.

### WOULD SEGREGATE FEEBLE-MINDED

Woman Magistrate of Toronto Advocates Colonies as Solution.

Speaking in St. Thomas last week, Dr. Margaret Patterson, Police Magistrate of Toronto, advocated the establishment of colonies for the feeble-minded as one of the biggest social problems of the present day. The subjects could be housed in small cottages, protected and segregated and enabled to earn a livelihood without having to compete with those of brighter mentality. Canada spent \$7,000,000 caring for the insane last year, Dr. Patterson reported. That amount of money would go far in establishing the suggested colonies, where the feeble-minded would be much happier and the general public safe-guarded to a greater extent. Eighty per cent of the social problems have to do largely with feeble-mindedness, she declared.

### EDUCATIONIST SUED BY A COAL DEALER ALLEGING SLANDER

(Canadian Press Despatch.)  
Halifax, Nov. 12.—J. Bert Mitchell has entered an action for \$50,000 damages against Gerald A. Boate, assistant director of technical education at the Nova Scotia Technical College, on a charge of "slander." The charge originates from remarks Mr. Boate is alleged by Mr. Mitchell to have made when approached for a college coal order by a member of a coal company in which Mr. Mitchell is interested. A POPULAR BOOK.  
Halifax Recorder.—It is a remarkable tribute to the name and worth of Miss Marshall Saunders, daughter of the late Rev. E. M. Saunders, D. D., of Halifax, that 750,000 copies of "Beautiful Joe" have been sold. The American Baptist Publication Society is issuing a new edition, revised and somewhat enlarged by the well known authors.

## Every Dollar Comes Back With Substantial Dividends

A Young Man's Investment

Have you ever heard of an absolutely safe investment, purchased by instalments, which does not require the payments to be completed if you become disabled, but, instead, pays you a monthly income as long as you live?—which cancels all further payments in event of death and pays immediately the full amount you had set out to save?—or, at the end of 20 years, absolutely guarantees to return to you every dollar you have deposited in annual premiums, with substantial dividends?

### The Capital Return Policy

is a new departure in life insurance policies which the Canada Life introduced to the public. It has carried out the above program for a great number of policyholders who wisely took advantage of it.

#### This Policy Gives You---

1. Immediate Life Insurance protection for your home.
2. Cash values, available in emergencies, which, with the substantial dividends added at stated intervals, make your policy a valuable business asset.
3. At the end of 20 years you can draw out all you have paid in, along with dividends which have been compounding at interest.—

Or, you can take a Special Cash Guarantee, along with the accumulated dividends, and continue the policy (fully paid for) earning dividends as long as you live.—

Or, this Special Cash Guarantee may be applied to increase the amount of your policy—for example, a \$5,000 policy would be raised to more than \$7,500.

#### And in addition---

Suppose some day you should become totally and permanently disabled through accident or illness. Immediately all further deposits would cease, and you would receive \$50.00 a month as long as you live—and the \$5,000 would be paid in full at your death. (This feature is added for a small extra payment yearly, which is not returnable with the regular deposits.)

Do Not Pass This By

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

LARGE LINERS CHANGE REGISTRY

Deadly Blow to U. S. Merchant Marine Due to Recent Liquor Ruling.

New York, Nov. 14.—What well informed shipping men declared a deadly blow to the United States Merchant Marine, was dealt when the United States flag, being exceeded in tonnage only by the American flag, that of Panama, enabling them to sell liquor on board the two vessels after they had passed the three mile limit.

At the offices of the United American Lines it was said that no decision had yet been reached as to change of registry of other vessels flying the United States flag.

Apprentice Course by a Pump Corporation Results Satisfactorily to Employer and Worker.

The experience of one large corporation manufacturing pumps and machinery with an elaborate apprenticeship system was given in a statement by the National Industrial Conference Board, New York, as indicative of the attention which such systems are giving to industrial education.

The apprentice courses in this corporation, says the statement, are given in a systematic manner by the system of the pumps and machinery plant, "cover a period of four years, based on regular shop hours, during which time the apprentices receive a thorough practical departmental experience together with instruction in related subjects. It is an inflexible rule that all apprentices must be 16 years of age, as it has been found that, with younger boys constant discipline and supervision are essential to prevent accidents. Apprentices are also required to have completed the seventh or eighth grade in public school, or its equivalent, though exceptions to this are occasionally made after special investigation. There is an observational period of six months.

The remaining three and one-half years of apprenticeship are subdivided according to a carefully planned schedule," says the statement.

All class instruction and lectures are given after working hours from 4.30 to 6.30 p.m. for each group one session a week during the entire apprenticeship period. Each lecture is followed by the individual solution by apprentices of a number of practical problems related to the subject and their own work. Private instruction is given for each apprentice in accordance with his special difficulties in grasping a subject.

Apprentices are hired on an hourly basis, and all transfers and changes of rates are strictly adhered to as adopted for the plant. Work completed in less than the time limit set brings increased earnings. A bonus of \$100 and a position in the department where most efficient or in others where previous training is essential are given each apprentice completing the course satisfactorily. Very few apprentices have discontinued the course since the present system of training was installed. A sufficient number of satisfactory applicants can always be obtained through local schools and plant employees, and the satisfaction already given by apprentices trained in the plant has led the management to consider increasing the number of apprentices in the foundry course by 100 per cent.

NOVA SCOTIA WOOL.

In Nova Scotia, a total of 71,432 pounds of wool were marketed during the past season by the co-operative association. While this is but a small fraction of the total clip for the province, it is considerable advance on last year's co-operative sales. Nearly eight-tenths of the wool was graded as medium combing.

Since Viking Days cod-liver oil, now known to be exceptionally rich in the vitamins, has been a means of health and strength to tens of thousands.

Scott's Emulsion is cod-liver oil direct from the "Land of the Vikings," made into a form not unlike milk and keeps boys, girls and grown people healthy.

VALUABLE GEMS ARE RECOVERED

Detroit Detectives Trace \$125,000 Worth of Jewelry Stolen from President of Maiden Lane Company.

Detroit, Mich., Nov. 14.—Prompt action by Detroit detectives resulted in the recovery of \$125,000 worth of jewelry belonging to Nathan Baylison, President of the Maiden Lane Diamond and Jewelry Company of New York.

A man appeared at the clerk's window of the hotel Stater Friday evening and asked for the key to Room 1221, occupied by Baylison. It was given to him without question, owing to his resemblance to the rightful occupant. Calling a bellboy, the man hurried to the room, locked the door and asked the boy to get a porter, whom he ordered to send the trunk to Michigan Central Railroad station, giving him money to pay the expressage.

He also asked the porter to pay the hotel bill, as he was in a great hurry. Then, taking up a grip containing \$800 worth of ring mountings, the stranger hastily departed.

The robbery was not discovered until Mr. Baylison returned late last night. Police traced the trunk to the Michigan Central station and from there to a local baggage and transfer company, the proprietor of which said he had taken the trunk to a Montreal street.

Hurrying to this address, the officers saw an automobile containing two men dash away at their approach. Entering the house, which was vacant, they found the trunk with its valuable contents intact. The grip containing the mountings has not been recovered.

Mr. Baylison is in business in this city at 93 Nassau street. There was no reply to the telephone when an effort was made to reach his home at 655 West 160th street last night.

NOT SAFE PLACE TO KNOCK EMPIRE

Port Huron Too Near Canadian Border for Tirade Against Empire—Speaker is Challenged.

When William B. Manisagian, who came to the United States with the Near East Relief Commission from Armenia, attempted to make himself "good fellow" with the Fort Huron, Mich., Rotary Club at the expense of the British Empire the other afternoon, he found he was too close to the Canadian border for statements to pass unchallenged.

"The British will be kicked out of Constantinople in three weeks. The French, too, are traitors, and the British

of humanity, in which he hoped the League of Nations and the United States would interest themselves.

"Without going into the political details of the matter, I think Greece should not be judged too severely for her campaign in Asia-Minor, as it was for the purpose of rescuing Greek populations that we first went into eastern Thrace and Asia-Minor. It was not for the purpose of rescuing Greek populations that we first went into eastern Thrace and Asia-Minor. It was not for the purpose of rescuing Greek populations that we first went into eastern Thrace and Asia-Minor.

"As to a loan, we would not need one if we could collect our debts from the United States and other allied countries. It isn't generally known, but the United States never paid the \$34,000,000 which it agreed to pay in 1917, when with England and France it guaranteed Greece a loan of \$30,000,000 pounds to carry on the war by the side of the Allies. The arrangement was that this should be a credit upon which we could draw through the National Bank of Greece. On the strength of this credit, we issued paper currency to provide money for carrying on the great war, and have accounted for every penny which was spent.

"Then, after paying \$14,000,000, the United States stopped payment because of the return of King Constantine to the throne. When the latter demanded the additional \$34,000,000 from the United States, the Washington Government stated that it never was notified officially of the death of King Alexander, under whose reign the credit was extended. Constantine answered this by saying that he had never ceased to reign, then the United States came back and declared the loan was invalid. Nevertheless, it is a real debt, in fact and in honor.

"If we get this money from the United States, and are able to collect our other and larger bills, we will be able to finance our refugee problem. What we plan is not the mere feeding of the people. We want to get them provided with homes, and with occupation; otherwise it will be one of the greatest tasks a small nation ever undertook. It is as if the United States had suddenly to care for a number of refugees equal to one-fourth of her total population."

Asked regarding the reported financial and political relations between Greece and Sir Basil Zarkoff, part owner of Vicker's armament firm and commonly called "Europe's Man of Mystery," Venizelos said:

"He is a great friend of mine. He has been very charitable in a large way to Greek humanitarian causes. He is a French citizen of Greek origin, but he is not my political adviser.

STOP THAT COUGH

Peps will end it. Dissolve Pepsin in your mouth when the cough is troublesome, and the medicinal vapor that is liberated is breathed to the remotest parts of the air passages and lungs. It soothes and heals the inflamed membranes, thus ending the irritation and stopping the cough.

Peps are equally good for bronchitis, sore throat and laryngitis. All dealers, 50c. box, or Peps Co., Toronto.

Worse than that," this gentleman from Armenia was telling his American audience.

Aviator Enters Fry. Sitting next to the Chairman was Wilfred S. Haney, a Sarnia barrister and ex-flying officer, who served in the Near East during the war, and Mr. Haney asked and received permission to speak at the close of the address of the Armenian guest of honor.

"I've flown over the Dardanelles and have seen the crosses marking the graves of 100,000 of the empire's best men who gave their lives in proving that the Dardanelles could not be taken. How many Turks will be required to prove that the Straits can be taken? The ex-officer asked.

A Gentle Reminder. He asked the Armenian visitor if he could remember General Dursen sending sorely needed British troops to aid the Armenians, who were in a tight corner against the Turks, conditional on the support of 40,000 Armenian troops.

Mr. Manisagian nodded his head in assent.

"And how many of these Armenian troops remained by the side of the British when the Turks appeared on the horizon?" Mr. Haney asked, adding there would be a scurry among many Eastern residents if the British were driven out of Constantinople.

His three minutes' heated address was received with general applause by the audience, one guest rising and saying: "In a Scotsman's frage Calgary, and that was good stuff, boy," to the ex-officer.

MANY MORE SOLDIERS IN CIVIL SERVICE POSTS IN THE OLD COUNTRY. London, Nov. 14.—(Canadian Press)—In a letter to the Association of Ex-Servicemen now in the Civil Service, Premier Bonar Law says that, notwithstanding the drastic reduction of the total number of government em-

STOP RHEUMATISM WITH RED PEPPER

When you are suffering with rheumatism you can hardly get around just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Press the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers and castor oil, is available in all drug stores. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest, toothache, instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

It's really the best medicine I've taken yet," says Mr. Densmore Chapman, 207 Prince Edward Street, St. John, N. B. "Doctors have been treating me for the past two years and I have tried all kinds of tonics and laxatives without results. I used to get tired and take dyspepsia during my work. These dyspepsia often compelled me to quit work and to tell me to try liquids only, but even that did not help me.

"I read about Dreo in the papers and determined to give it a trial. After taking one bottle I have gained 2 lbs. I get up in the morning feeling fine and I can put in a hard day's work without trouble, feeling as fresh at the end of the day as I did in the morning. The dyspepsia has disappeared. I can eat anything that is put in front of me and my food digests properly. I feel like a new man and am glad to recommend Dreo to all my friends."

Many people are daily feeling the effects of indigestion, stomach trouble, pain in the back and limbs, catarrh, nervousness, rheumatism and general debility. Dreo increases the appetite, soothes tired nerves, rouses sluggish liver and kidneys, drives impurities from the blood, cleanses the bowels, and contains herbs, barks and leaves, it contains nothing injurious.

Go today to Ross Drug Co., St. John, and ask for Mr. Ranson, the Dreo expert, and let him explain the merits of this great remedy. There is no charge and he will tell you honestly if he believes Dreo will benefit you.

It is sold in all other cities as follows: "Moncton, Geo. O. Spencer; Charlottetown, E. A. Foster; Summerside, J. G. Macdonald; St. John, N. B., McKenna's; Bathurst, W. F. Pepper.

WEAR 'EM LONG IN HAWAII MOAN ANCIENT SAILOR MEN Captain Dingle Says Paris Dress Cases Has Hit South Sea Island Femininity, Too.

(New York Tribune). Cap'n Charles Dingle of the freighter Bay Port, which arrived in Port Newark yesterday from Hawaii and the South Sea Islands, brought a dismal tale of the ravages of fashion in those once famous and innocent regions. It's the Paris-born craze for long skirts, say Cap'n Dingle and his crew, that has sophisticated the spicily isles.

"They wear 'em like a wine bottle," explained Dingle, "and they get a new style petticoat made of moss. Oh, it ain't like what it used to be."

Even Lucky Bill Fanning, optimistic that he is, joined in the threnody. It was enough to make an old-time sailor shed his beard, he said, to see the girls all wedded up in straw and moss like that. Why, he could remember when putting in at some of the islands, it was better than a Fourteenth street burlesque, but now it is duller than Tennessee.

QUEER DUCKS QUACK FOR JOY AS RUM BATHING IS RESTORED. London, Oct. 25.—(By Mail)—A flock of ducks was presented recently by Emmanuel College to the Cambridge University Botanic Gardens. After a few days' sojourn in their new homes the birds began to lose their liveliness. They strolled about in a listless manner, refusing to be gladdened even by the appearance of their keeper with a supply of food.

"Finally the veterinarian administered some liquor to the birds. The effect was remarkable. They resumed their quacking and began flying about in a most pleasurable manner.

"The Emmanuel ducks have for some time had a reputation for melancholy. They had inhabited an old-world garden, two sides of which are overlooked by the students' rooms and it has been a favorite sport of the undergraduates to feed them from their windows with cake or bread soaked with alcohol.

URGES CANADA TO IMPOSE TAX ON ALL AMERICAN MAGAZINES. Vancouver, B. C., Nov. 14.—Taxation of American magazines so as to discourage them from entering the Dominion of Canada was urged by Vernon McKenna, editor of McLean's Magazine, in an address before the Canadian Club here.

He declared that the American publications printed propaganda damaging to the British Empire, that they were seditious, and that the competition of their advertisers hurt Canadian manufacturers.

The walls of the penitentiary at Joliet, Illinois, enclose a space of 64 acres.

VENIZELLOS WILL RESIGN IF HE IS ELECTED

Veteran Greek Statesman Gives Interview on Some World Affairs.

London, Nov. 2.—(A. P., by mail)—Eleftherios Venizelos, ex-Premier of Greece and head of the Greek delegation which will attend the Near East Peace Conference at Lausanne beginning November 18, discussed today the internal affairs of Greece in the first lengthy interview he has given for several months, and also canvassed various phases of the Near East situation as it appears to Greek eyes.

"The rule of King Constantine," he said, "hasbook the Greek monarchy to the roots, but if a forty per cent. minority, we will say, wish to continue the royal institution I imagine that a majority of the Greeks would consent to carry on the present system provided the King's power be nullified."

The aged statesman apparently has recovered from the severe moral shock he suffered recently because of the Greek defeat in Asia-Minor. He seems to be in better health, and speaks vigorously. At the present time he is totally absorbed in making arrangements for the peace conference, and also in caring for a million and a half Greek refugees.

"I am absolutely divorced forever from Greek internal politics," he continued, "and if elected to parliament, I will resign immediately. If the Greek people want a republic, they probably will show it in the coming elections, and the majority will indicate its will. If the monarchy is of no further use to them, they will be able to signify that fact; and if there is a strong minority desiring to continue the present regime, no doubt the majority will consent, with the proviso that I have mentioned. As a matter of fact, there is little difference between a democracy and a republic, as the King is rendered powerless by the constitution, and a republic, I fancy England is just as democratic as possible, not socially, as the United States."

Asked if he had any comments to make on the passing of Lloyd George, or the British Near East policy in its bearing on the fortunes of Greece, M. Venizelos declined to answer, but would be comment on the action of Italy in retaking the ten Dodecanese islands, which she once promised to Greece.

The former premier announced that at the approaching peace conference he would undertake to support an exchange of the Turk population in Greece for that of the Greek Nation in Turkey. This, he said, was a matter of humanity, in which he hoped the League of Nations and the United States would interest themselves.

"Without going into the political details of the matter, I think Greece should not be judged too severely for her campaign in Asia-Minor, as it was for the purpose of rescuing Greek populations that we first went into eastern Thrace and Asia-Minor. It was not for the purpose of rescuing Greek populations that we first went into eastern Thrace and Asia-Minor. It was not for the purpose of rescuing Greek populations that we first went into eastern Thrace and Asia-Minor.

"As to a loan, we would not need one if we could collect our debts from the United States and other allied countries. It isn't generally known, but the United States never paid the \$34,000,000 which it agreed to pay in 1917, when with England and France it guaranteed Greece a loan of \$30,000,000 pounds to carry on the war by the side of the Allies. The arrangement was that this should be a credit upon which we could draw through the National Bank of Greece. On the strength of this credit, we issued paper currency to provide money for carrying on the great war, and have accounted for every penny which was spent.

"Then, after paying \$14,000,000, the United States stopped payment because of the return of King Constantine to the throne. When the latter demanded the additional \$34,000,000 from the United States, the Washington Government stated that it never was notified officially of the death of King Alexander, under whose reign the credit was extended. Constantine answered this by saying that he had never ceased to reign, then the United States came back and declared the loan was invalid. Nevertheless, it is a real debt, in fact and in honor.

"If we get this money from the United States, and are able to collect our other and larger bills, we will be able to finance our refugee problem. What we plan is not the mere feeding of the people. It is as if the United States had suddenly to care for a number of refugees equal to one-fourth of her total population."

Asked regarding the reported financial and political relations between Greece and Sir Basil Zarkoff, part owner of Vicker's armament firm and commonly called "Europe's Man of Mystery," Venizelos said:

"He is a great friend of mine. He has been very charitable in a large way to Greek humanitarian causes. He is a French citizen of Greek origin, but he is not my political adviser.

STOP RHEUMATISM WITH RED PEPPER

When you are suffering with rheumatism you can hardly get around just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Press the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers and castor oil, is available in all drug stores. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest, toothache, instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

It's really the best medicine I've taken yet," says Mr. Densmore Chapman, 207 Prince Edward Street, St. John, N. B. "Doctors have been treating me for the past two years and I have tried all kinds of tonics and laxatives without results. I used to get tired and take dyspepsia during my work. These dyspepsia often compelled me to quit work and to tell me to try liquids only, but even that did not help me.

"I read about Dreo in the papers and determined to give it a trial. After taking one bottle I have gained 2 lbs. I get up in the morning feeling fine and I can put in a hard day's work without trouble, feeling as fresh at the end of the day as I did in the morning. The dyspepsia has disappeared. I can eat anything that is put in front of me and my food digests properly. I feel like a new man and am glad to recommend Dreo to all my friends."

Many people are daily feeling the effects of indigestion, stomach trouble, pain in the back and limbs, catarrh, nervousness, rheumatism and general debility. Dreo increases the appetite, soothes tired nerves, rouses sluggish liver and kidneys, drives impurities from the blood, cleanses the bowels, and contains herbs, barks and leaves, it contains nothing injurious.

Go today to Ross Drug Co., St. John, and ask for Mr. Ranson, the Dreo expert, and let him explain the merits of this great remedy. There is no charge and he will tell you honestly if he believes Dreo will benefit you.

It is sold in all other cities as follows: "Moncton, Geo. O. Spencer; Charlottetown, E. A. Foster; Summerside, J. G. Macdonald; St. John, N. B., McKenna's; Bathurst, W. F. Pepper.

WEAR 'EM LONG IN HAWAII MOAN ANCIENT SAILOR MEN Captain Dingle Says Paris Dress Cases Has Hit South Sea Island Femininity, Too.

(New York Tribune). Cap'n Charles Dingle of the freighter Bay Port, which arrived in Port Newark yesterday from Hawaii and the South Sea Islands, brought a dismal tale of the ravages of fashion in those once famous and innocent regions. It's the Paris-born craze for long skirts, say Cap'n Dingle and his crew, that has sophisticated the spicily isles.

"They wear 'em like a wine bottle," explained Dingle, "and they get a new style petticoat made of moss. Oh, it ain't like what it used to be."

Even Lucky Bill Fanning, optimistic that he is, joined in the threnody. It was enough to make an old-time sailor shed his beard, he said, to see the girls all wedded up in straw and moss like that. Why, he could remember when putting in at some of the islands, it was better than a Fourteenth street burlesque, but now it is duller than Tennessee.

QUEER DUCKS QUACK FOR JOY AS RUM BATHING IS RESTORED. London, Oct. 25.—(By Mail)—A flock of ducks was presented recently by Emmanuel College to the Cambridge University Botanic Gardens. After a few days' sojourn in their new homes the birds began to lose their liveliness. They strolled about in a listless manner, refusing to be gladdened even by the appearance of their keeper with a supply of food.

"Finally the veterinarian administered some liquor to the birds. The effect was remarkable. They resumed their quacking and began flying about in a most pleasurable manner.

"The Emmanuel ducks have for some time had a reputation for melancholy. They had inhabited an old-world garden, two sides of which are overlooked by the students' rooms and it has been a favorite sport of the undergraduates to feed them from their windows with cake or bread soaked with alcohol.

URGES CANADA TO IMPOSE TAX ON ALL AMERICAN MAGAZINES. Vancouver, B. C., Nov. 14.—Taxation of American magazines so as to discourage them from entering the Dominion of Canada was urged by Vernon McKenna, editor of McLean's Magazine, in an address before the Canadian Club here.

He declared that the American publications printed propaganda damaging to the British Empire, that they were seditious, and that the competition of their advertisers hurt Canadian manufacturers.

The walls of the penitentiary at Joliet, Illinois, enclose a space of 64 acres.

My Doctor doesn't call now

"The prescribed Hall's Wine and I began to get better at once. I was run down, he said, and I would have been very ill but for Hall's Wine." Many doctors prescribe Hall's Wine, they find it such a splendid restorative; it rapidly tones up the system and gives power to resist disease. Hall's Wine works wonders in Nerve Weakness, it makes new blood and restores wasted tissues; as an aid in convalescence it has no equal. Get a bottle to-day—a wineglassful at night is a wonderful safeguard.

Hall's Wine THE SUPREME TONIC RESTORATIVE

A doctor writes: "After long experience I prescribe Hall's Wine whenever I can; it is by a long way the most dependable restorative we have." Another doctor writes: "I prescribe Hall's Wine whenever I can; it is by a long way the most dependable restorative we have." Another medical man says: "Hall's Wine never fails." BUY A BOTTLE TO-DAY! AT YOUR DRUGGISTS Extra Large Size Bottle, \$2.25. Proprietors: STEPHEN SMITH & CO., LIMITED—BOW, LONDON, ENGLAND. Sole Canadian Agents: FRANK L. BENEDICT & CO.—45 ST. ALEXANDER STREET, MONTREAL.

Healthy Mother Merry Children Happy Home. TO maintain a happy home the housewife must keep in good health. Her duties are many and various, and it seems as if every other member of the family depended very much on her. "Where is my hat?" cries the boy. "What did you do with my coat?" asks the daughter. "I can't find any handkerchiefs," yells the husband. The housewife is usually the advisor and general manager of the family. Lydia E. Pinkham's Vegetable Compound helps women to maintain a happy home by keeping them in good health. Winnipeg, Manitoba—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said that he could do nothing for me, owing to my condition. My husband's grandmother advised me to take Lydia E. Pinkham's Vegetable Compound and I started it right away, and everyone noticed what a different woman I was in a short time, and able to do my work."—Mrs. EMILY DAVIS, 721 McGee Street, Winnipeg, Manitoba. Thousands of women owe their health to Lydia E. Pinkham's Vegetable Compound. LYDIA E. PINKHAM MEDICINE CO. LYNN, MASS.

Jo-Bel THE WONDER SALVE Will Cure Anything Curable (Registered) Jo-Bel has given a greater percentage of relief to its users than any other remedy on the market. Read this: Mr. W. J. Crawford, 404 Union Street, St. John, said: "For thirty years I was a constant sufferer from piles, sometimes better, but always bad enough. Over a year ago I was confined to bed for two weeks. I began using Jo-Bel. I used two full boxes and have had perfect relief ever since. There's nothing can compare with it." Sale all druggists, or Jos. A. Murdoch, 137 Orange Street, St. John, N. B. Price 50c and \$1.00. Mail orders promptly filled. Absorbine, Jr. should be applied promptly for the chief danger from cuts and bruises is the danger from infection. Absorbine, Jr. is both a corrective and a preventive remedy; an efficient antiseptic it prevents infection, and its healing and soothing properties take out all the soreness from the wound. \$1.25 a bottle at most druggists. W. F. YOUNG, Inc. 344 St. Paul St., Montreal. Absorbine, Jr.

"I Had Bilious Attacks and Stomach Weakness" Mrs. Wm. Robinson, Yonkers, N.Y., writes: "I suffered from stomach and bilious attacks, and used to have liver trouble so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it. On my sister's advice, I began to use Dr. Chase's Kidney-Liver Pills, and must say that they have made me feel like a new woman." DR. CHASE'S KIDNEY-LIVER PILLS One pill a dose, 25 Cents a box, all dealers, or Edmanross, Bates & Co., Ltd., Toronto. ASPIRIN UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all. BAYER Genuine. Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for Colds, Headache, Rheumatism, Toothache, Neuralgia, Neuritis, Earache, Lumbago, Pain, Pain. Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Germany. It is the only Aspirin in the world. While it is well known that Aspirin is a Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

BOWLING.

Clerical League.

The New Brunswick telephone quintet staged a sensational rally this evening on the Victoria alleys in their Clerical League match against the strong Sugar Refinery team and captured all four points from them. Last night's victory for the phone men put them well up in the championship race and give them a splendid chance to cop the first section of the league. While none of the winners rolled exceptionally high every man rolled consistently and they finished with a practically uniform average, less than fifteen pins separating the high and low man.

N. B. Telephone Co.— Total. Avg. Smith 83 86 85 254 84.2-3

THE QUESTION OF  
PAID COACHES

Sport and Scholarship Both Suffer, Says New York Globe—Players are Mere Automats.

The New York Globe says, editorially—Alexander Melickjohn, president of Amherst College, is prepared to prove with academic thoroughness that college reputations thrive too often for athletic rather than for scholastic reasons. Many colleges are at last attempting to catch young men unawares, to save them an education while they are thinking of something else. These institutions seek football and baseball victories, get many and expensive coaches, attract great outside crowds, build up great funds and great interests unrelated to formal education. This, thinks President Melickjohn, is bad for college instruction, and bad for athletics.

BILLIARDS.

Schaefer First Winner.  
New York, Nov. 14.—The Schaefer of Chicago defeated Scott Hager, teacher of Germany, 500 to 228, in the first match of the International 182 ball-line professional billiard championship tournament last night. The winner's average was 297.17 and his high runs 149, 72 and 86. The German's average was 195.17, with runs of 105, 44 and 86.

HOCKEY.

Seattle Wins Open.  
Vancouver, B. C., Nov. 13.—Minus two of their stars of last year's world's hockey championship series—Hugh Lehman and Jack Adams—the Vancouver Maroons received an 8 to 2 setback from the Seattle Mets in the opening game of the Pacific Coast Hockey League here tonight.

BASKETBALL.

Y. M. C. I.; Central Baptist, 9.  
The Y. M. C. I. defeated the Central Baptist basketball team last night on the Y. M. C. I. floor, by the score of 17 to 9. The teams were:  
Y. M. C. I.— Central Baptist—  
Forwards: Golding, Burns  
Centre: McDonald  
Britt  
Defence: Barnes, McCarley, Arthur

Montreal Bouts.

Montreal, Nov. 14.—Wally Hopwood, Welsh featherweight, was awarded the British decision over Ralph Brady, Syracuse, in a ten round bout here last night. Kid Roy, local bantamweight, gained the decision over Young Diamond, New York, in ten rounds.

Wagon Handicap.

Omaha, Neb., Nov. 14.—Fighting against a handicap of nine pounds in weight, Frankie Schoell of Buffalo, won referee's decision over Bryan Downey of Cleveland, in ten rounds here last night. Rock Smith of New York scored a technical knockout over Frankie Welch of Chicago in the seventh round.

SULGRIVE VISITORS  
PLACED A WRATH  
ON GRAVE OF IRVING

(New York Tribune, Saturday)  
One of the final tributes on the part of the English delegation recently visiting this country on a patriotic tour will be the placing of a wreath, brought from England, on the grave of Washington Irving, the ceremony to be under the auspices of the women's committee of the Sulgrave Institution, next Tuesday afternoon.

FRIEDMAN BEATS  
K. O. LAUGHLIN

(Canadian Press Despatch).  
Philadelphia, Nov. 13.—Sailor Friedman, of Chicago, stopped K. O. Laughlin, of Bethlehem, Pa., in the fourth round of their scheduled eight-round bout here tonight. Laughlin had become a punching bag for Friedman when the referee stepped in and stopped the bout. The men are welterweights.

NEW FLOOD OF 700,000  
REFUGEES IMPERILS GREECE

Relief Sought From U. S. to Enable  
Nation to Survive; 350,000 Flee Constantinople.

Washington, Nov. 14.—Fearful of the advance of Turks into the Constantinople district, thousands of Greek and Armenian refugees are sweeping in on Greece, which is totally unprepared to care for them, the American Red Cross was advised today in a cable in the report from its relief representative at Athens. Unless America and other nations increase their relief contributions Greece will be unable to survive, the Red Cross official quotes the Grecian Minister of Relief as declaring.

"Two wholly new floods of more than 700,000 refugees in Greece by 700,000 and the information is staggering in relief work here. In the opinion of Daxides, the newly created Grecian minister of relief, it may mean the death of the Greek nation in closing its doors to the American Red Cross representative this morning."

The fate of Greece is now in the balance. Whether we survive or perish as a nation depends on the help we get from the outside."

Dancing from 9 until 12 p.m.  
DANCING SATURDAY AFTERNOON FROM 4 TO 6.

AN AMAZING RECORD.

(Toronto Mail and Empire).  
Mrs. Mary Wright, aged 62, in her action against the Toronto Transportation Commission, before Mr. Justice Logan, for \$10,000 damages for alleged injuries received on February 28, when she fell into the vestibule of a Harbour Street car owing to the alleged negligence of the conductor, was yesterday given \$1,500 by a settlement. She alleged the door of the car was closed while she had her foot on it and the fall she received, resulted in an alleged high nervous state.  
Mrs. Wright was given judgment for \$8,500 as the result of a street car accident in 1913, and in 1917 \$2,000, following a collision between a freight train and the passenger train in which she was riding to Grimsby.

A NEW DIGNITY FOR JAPANESE WOMANHOOD

The slavery of the picturesque Geisha Girls, which has existed as long as the history of Japan, has been abolished by a court decision. The Geishas were girls sold in early childhood by parents who could not afford their support, and were trained as entertainers.

MAY PRESENT THE EVIDENCE ON MONDAY

Prosecution in Case of Slaying of Minister and Woman Had Planned it for Thursday of This Week.

(Canadian Press) New Brunswick, N. J., Nov. 14.—It was planned yesterday that evidence on which indictments are to be sought against a woman and two men for the slaying of Rev. Edward W. Hall and his choir leader, Mrs. Eleanor Mills, would be presented to the Somerset County grand jury on Thursday morning. This was changed later. County Detective George Totten announced that the authorities possessed evidence tending to discredit the statements of an affidavit filed with Mr. Mott by Mrs. Nellie Lo Russell, a nee-gress, who lives in a shanty a short distance from the pig farm of Mrs. Jane Gibson. In her affidavit, Mrs. Russell swore that she had been talking to Mrs. Gibson on the night of September 14, at which time Mrs. Gibson claims to have witnessed the slaying of Mr. Hall and Mrs. Mills. Last spring, according to Totten, a complaint was made to Prosecutor Heckman of the sanitary conditions of Mrs. Russell's farm. The woman was declared to have neglected her stock and was called to Mr. Heckman's of-

rice. Mrs. Russell, according to Totten, has credited Mrs. Gibson with having made the complaint against her, saying that relations between the two women had been strained ever since. Mrs. Hall yesterday addressed letters to Mr. Mott and Foreman Gibbs of the grand jury, declaring her innocence of any participation in the double slaying, and asking that she be permitted to tell her story before the investigating body. The letters said she was willing to sign a waiver of immunity before she testified.

Somerville, N. J., Nov. 14.—The presentation of evidence in the Hall-Mills murder mystery to the Somerset County grand jury probably will be next Monday.

GOES DOWN ON FIRST TRIP FOR NEW OWNERS

S. S. Nordland is Sunk in Lake Michigan With Half Million Dollar Cargo.

Milwaukee, Wis., Nov. 14.—After being buffeted by a heavy storm for two hours and springing four large leaks in her hull, the Nordland, carrying merchandise valued at more than \$500,000, sank eight miles off St. Francis, near here, in Lake Michigan, yesterday afternoon. The officers and crew, nineteen in number, took to the small boats and rowed safely to shore. The Nordland was of wooden construction, of 700 tons capacity and thirty-three years old. It was her first voyage under her present ownership.

High radium minerals are said to exist in copper. The United States nickel is 75 per cent copper.
