SOME PITIFUL CONDITIONS IN LONDON SUBURBS

Poor Law Guardians Find People Inhabiting Stables and Pigeon Lofts.

London, March 17.—(Canadian Press)—Housing conditions in Durham are reflected in the revelation that the poor law guardians are allowing families to inhabit disused blocks of their institutions. The guardians found people living in tents and stables and in pigeon coles. They are determined to take more of the houseless ones into their disused premises as soon as the latter can be made habitable, pending some definite scheme for the building of small houses.

TAKE PRECAUTIONS AGAINST TROUBLE IN N. Y. PARADE

New York, March 17.—Two hundred and fifty city detectives, in plain clothes and several hundred uniformed patrolmen were detailed today to mingle with the crowds this afternoon, when forty thousand men and women are expected to take part in the annual St. Patrick's day parade.

The police order for increased protection was issued in spite of statements of city officials that no trouble was anticipated.

A delegation, claiming to represent the American Association for Recognition of the Irish Republic warned Mayor Hylan Thursday that there would be trouble if the parade was held.

The organization sent the mayor a letter repudiating the action of the delegation. Late yesterday three men drove up to City Hall in a motor. One of them was masked. They sent a letter to the mayor again, warning of "trouble" if the parade was held.

Anonymous letters warning that the St. Patrick's Day parade here today might result in a Free-State-Republican riot, were mailed to the Mount Morris Park out of the line of march, as it contained many varieties of missiles familiar to the Irish mode of fighting.

Despite the protest of President Frank Lippard of the Pacific Coast League, the Ottawa management persisted in playing Hiltman. He worked on the ice was not particularly effective. Cy Denney who was reported to be unfit for play owing to the injuries received in Montreal, jumped into the fray and went practically the whole game.

Governor Smith and his staff, and Archbishop Hayes and other church dignitaries will review the parade as it moves up Fifth avenue.

Ottawa Considers Deportation of Charles Ballard

Ottawa, March 17.—(Canadian Press)—Consideration is being given today to the application from Sydney Mines for the deportation of Charles Ballard, it was said today at the Department of Immigration. It was intended at the department that the application is now in hand.

DOUBLE SHOOTING; LITTLE HOPE FOR LIVES OF EITHER

Louisville, Ky., March 17.—Physicians today held little hope for the recovery of Miss Agnes Robb, seventeen years old, of Winchester, who was shot by a double bullet in the chest here last night, when Coyne wounded the girl and then fired a bullet into his own head. Jealousy was believed to have been the motive. Coyne is unharmed.

18 DEAD, 100 OR MORE INJURED, IN WIND STORM

Memphis, Tenn., March 17.—The death list from Thursday's storm in Western Mississippi grew to eighteen today. The injured numbered 100 or more. The damage done in seven counties swept by a tornado was estimated at \$500,000.

PROPERTY LOSS IN TENNESSEE TORNADO ESTIMATED AT A HALF MILLION.

Memphis, Tenn., March 17.—To reach this city in time to attend the funeral of his son, Capt. Hiram Ulmer of the Burnt Island Coastguard station, was forced to travel twenty miles on snowshoes, the snow-packed roads being otherwise impassable.

MANY DEATHS IN NEW YORK

New York Tribune, Friday.—Reports to the Health Department showed a sharp rise yesterday in the number of deaths from influenza. The number was twenty; on Wednesday it was twelve. There was a decrease in the number of new cases reported, the figure dropping from ninety-seven on Wednesday to eighty-three.

SNOWSHOE TRIP OF 20 MILES TO FUNERAL

Biddeford, Me., March 17.—To reach this city in time to attend the funeral of his son, Capt. Hiram Ulmer of the Burnt Island Coastguard station, was forced to travel twenty miles on snowshoes, the snow-packed roads being otherwise impassable.

REGISTRATION OF CARS MAY BE MADE ANNUAL

Frederick, N. B., March 17.—Annual registration of automobiles with a graduated scale of charges ranging upwards from \$2.50 expected to be brought into force in New Brunswick this year in addition to the usual licensing.

PULP AND PAPER PLANT

A Calais letter of Thursday says:—The big boom is expected to start in Calais and vicinity next week when the Hollingsworth & Whitney Co., representatives will arrive to locate the big pulp mill and paper plant. Contractor Murray is awaiting orders to start excavations, having a car-load of machinery and crew of men ready to begin operations at once.

OPEN AT 10.30, CLOSE AT 4.30, IS STORE'S PLAN

Windhorst Establishment in Cincinnati Will Break Precedent

Advertises Change to the Public—To Give Better Service During the Rush Hours of Shopping Day.

In a plan that revolutionizes established store custom, the Windhorst Department Store in Cincinnati believes that it has found the solution of one of the most stubborn problems of store management and expense, that of leveling off the peaks and depressions of sales volume at different hours through the store day, and particularly of giving adequate service to patrons through the period devoted to employees' lunch hours.

The Windhorst plan, put into effect March 1, is a single one. The store will be opened at 10.30 in the morning and closed at 4.30 in the afternoon, and between these hours employees will have no time off.

In its essence the idea is that it is easier for the store to change its own habits than to persuade a sufficient number of shoppers to change theirs, and more conducive to the development of good will.

The problem of the Windhorst store, which it thus hopes to solve, is not new to the retail trade. In virtually every city big stores have found it difficult to handle the big rush of shoppers during the lunch hours of the day without maintaining a much larger sales force than is needed for the amount of business transacted in the hours before and after the lunch period.

The main purpose which the Windhorst store hopes to accomplish is adequate service to customers during the rush periods, that is, during the hours of operating expense, and through its new plan advertising the store has put the proposition up to the public in this fashion:

"The shortening of shopping hours has not been done for the sake of economy or cutting down expenses, but for the benefit of our patrons. Under the old system our sales force was inadequate during the noon lull hours, 10.30 a. m. to 4.30 p. m., our entire selling force will be in their respective departments continually assuring prompt service to one and all. P. S.—There will be no reduction in salaries on account of the shortened hours, as our aim is to secure the highest standard of service."

The new plan, according to Frank L. Lippard, president of the company, will give the store 100 per cent. working force during the business hours. "At present," he says, "a third of the force gets off at 11 o'clock, a third at 12 and a third at 1 o'clock."

"Under the new plan the saleswomen will not start work until about the time they formerly began to think of lunch. They will be fresh to handle the rush periods, and the business. Those who require slight refreshment will have the opportunity to eat a sandwich or two in the restroom. Going home at 4.30 they will avoid crowded street cars, and will also avoid straggling in the morning."

On March 1, the Colonial Secretary telegraphed the Governor-General that His Majesty's ambassador at Washington.

On March 2, the treaty was signed. Monday's Programme. There was no session of Parliament today.

On Monday in the House of Commons, private members resolutions will have right of way. The first on the order paper proposes that the bankruptcy law be amended or abrogated, the second dealing with senate reform and the third urging that Canada and the United States be members of the League of Nations. The Senate will not sit.

Memphis, Tenn., March 17.—The registration of automobiles with a graduated scale of charges ranging upwards from \$2.50 expected to be brought into force in New Brunswick this year in addition to the usual licensing.

IMMIGRATION DEBATE IN HOUSE

N. S. Member Advocates Lincoln's Policy—Reduction of U. S. Purchases Urged.

(By Canadian Press) Ottawa, March 17.—In the House of Commons yesterday, the immigration bill, introduced by the special committee on agriculture for the appointment of a royal commission on the grain trade to be appointed jointly by the Dominion and the provinces in order to avoid doubts of its powers under the constitution.

R. A. Hoey, Progressive, Springfield, Mass., introduced a debate on the immigration estimates, declaring that the bill would be a disaster to the immigration industry.

E. M. Macdonald, Liberal, Pictou, N. S., introduced a resolution to limit the immigration policy to admit every man of good family, willing to take up his share of the national burden and willing to become a good citizen.

Dr. Hermas Deslauriers, of St. Mary's, favored settling our own people on our lands rather than bringing in outsiders.

C. H. Dickie, Conservative, Nanaimo, advocated the reduction of our purchases from U. S. as a means of checking immigration to that country.

No votes were passed. The Senate did not sit.

Canada's experience in the hotel keeping business since taking over the hostilities connected with the Grand Trunk Railway system has been expensive. Deficits in 1922 of the six hotels in the chain, including interest and depreciation charges, total over \$717,000.

This information was given in reply to questions by G. G. Cooke, Progressive member for MacLeod. Of the six hotels operated during 1922, the Fort Garry at Winnipeg, has the highest deficit, \$331,044.65. The chateau Laurier, in Ottawa, had a deficit of \$138,999.16 and the MacDonald at Edmonton a deficit of \$197,107.47. In all cases, the deficits include interest and depreciation charges.

The Fisheries Treaty. Correspondence tabled in the House of Commons last night indicates that the Canadian Government had some difficulty in arranging the fisheries treaty between Canada and the U. S. should be signed by Hon. E. Lapointe, Canadian Minister of Marine and Fisheries, as the sole representative of the King.

As early as January 16, the Governor-General, called to the Duke of Devonshire, colonial secretary, to have full powers conferred upon Mr. Lapointe to sign the treaty. As late as February 28, Baron Byng called to the Duke of Devonshire to the effect that it was thought the signature by Mr. Lapointe alone should be sufficient.

It is the highest honor, he said, that an intimation was received from Sir Auckland Geddes to the effect that he had been instructed by His Majesty's Government to sign the treaty in association with Mr. Lapointe and that evidently it has been assumed by His Majesty's Government that such was the wish of the Canadian Government.

"The view of my ministers, however, is that the treaty being one of concern solely to Canada and the U. S. and not affecting in particular, any Imperial interest, the signature of the Canadian minister should be sufficient, and they would respectfully request His Majesty's ambassador at Washington to be instructed accordingly."

On March 1, the Colonial Secretary telegraphed the Governor-General that His Majesty's ambassador at Washington.

On March 2, the treaty was signed. Monday's Programme. There was no session of Parliament today.

DIED IN FLORIDA. Mrs. T. X. Gibbons, Main street, has received word of the death of her brother, Con. O'Neill, which occurred recently at his home in Deland, Volusia County, Florida. The Deland O'Neill was the following tribute to the late Mr. O'Neill—Con. O'Neill was a man of generous impulses and never forgot the hospitable ways of the people of his younger days. He was one of Deland's oldest settlers, having been a resident here for thirty-eight years, coming to this city from Canada in 1885. He was a man of excellent habits, fine moral character. His best monument will be the good report that he has left behind him in the community, which he helped to build and in which he was honored by all who knew him." He leaves to mourn his wife and three children, also one sister, Mrs. Gibbons, and one brother, John O'Neill, also of this city.

The special committee of Parliament on agricultural conditions has invited testimony from the St. John man to testify on the activities of the North Atlantic conference on freight rates. W. A. Cunningham, of the C. G. M. M., will be asked to appear again on Tuesday before the committee. It was decided to probe further the matter of freight rates on potatoes and apples and in this connection D. W. Ledingham, of St. John, will be called to give evidence.

YOUNG GIRL WAS AFRAID TO EAT

Miss Howard in Bad Shape—Simple Intestinal Antiseptic Surprises Her

"I was afraid to eat anything, even rice, because I always had trouble with my stomach. Was also troubled for three years with constipation. After taking less than one bottle Adierika I can eat anything and feel fine. My sister-in-law also had stomach trouble so bad that the only thing that agreed with her was hot water. She had good results with Adierika." (Signed) Ardella Howard.

Intestinal Antiseptic. There is now offered to the public a preparation having the DOUBLE action of an intestinal antiseptic and a COMPLETE system cleanser. This preparation, known as Adierika, acts as follows:

It tends to eliminate or destroy harmful germs and colon bacilli in the intestinal canal, thus guarding against appendicitis and other diseases having their start here.

It is the most complete system cleanser ever offered to the public, acting on BOTH upper and lower bowel and removing foul matter which pollutes the system for months and which nothing else can dislodge. It brings out all gasses, thus immediately relieving pressure on the heart. It is astonishing the great amount of poisonous matter Adierika draws from the alimentary canal—matter you never thought was in your system. Try it

Trapper Finds Vicks Handy For A Host of Ills

Ontario Man Just Rubs It on For Most Anything.

Mr. C. Phoenix, of 755 Grey St., London, Ont., writes: "I am very pleased to recommend Vicks VapoRub. I am a hunter, trader and trapper, also a fisherman. I use Vicks VapoRub in place of liniments, because it is very handy to carry and always gives such quick relief for small animal and insect bites, and for chapped hands and lips. My boots would blister my feet and I rubbed it on them and it made them just right. When I go trapping next fall I will have plenty of Vicks VapoRub in my kit. I call it the 'Trapper's Friend'! I have not had a cold all winter and I go out all the time and sometimes stay out all night with my traps."

Vicks VapoRub, the discovery of a Southern druggist, is a combination in salve form of Camphor, Menthol, Eucalyptus, Thyme, Turpentine, etc. Absorbed through the skin and at the same time inhaled as a vapor, Vicks reaches immediately inflamed, congested air passages.

The modern direct treatment for all cold troubles. The successor to goose grease, camphorated oil, liniments, poultices and plasters.

Used for croup and children's colds, Vicks gives remarkably quick results and also avoids nauseating internal dosing. Just as good for adults and for skin inflammations, such as cuts, burns, bruises, bites, stings.

At all drug stores 50c a jar. For a free test size package, write Vicks Chemical Co., 844 St. Paul St., W. Montreal, P. Q.

The Vicks is new in Canada, it enjoys a remarkable sale. Over 17 million jars used yearly.

CHIEF SCOUT COMING

Sir Robert Baden-Powell, who is head of the great Boy Scout movement.

Frank White's celebrated hard mixture, absolutely the purest and finest flavor on the market. Good for the kiddies. a. t. f.

Ungar's Laundry, Ltd., has installed up-to-date stationary tubs and trays and iron all silks, fine flannels and all delicate articles entirely by hand. Phone Main 58.

Colds Yield To Proper Treatment

Every Home Should Have Good Remedy on Hand.

Colds are common these days. In the home practically every member of the family with a cold in some form. Don't neglect that cold. It may seem only a simple matter starting in the head, but once let it get down on the chest, and there is danger ahead.

You can get over that cold in a single night by taking Grip-Fix. Even if the trouble has taken an advanced form, Grip-Fix will still do the work by continued treatment, as cases of cold rarely fail to yield to it in 96 hours. It is a safe and reliable home remedy, thoroughly tested by ten years' practical use. Coming in capsule form it is just the remedy for home use. Always keep a box in the house.

Don't be afraid of Grip-Fix. The formula is printed on every box. But be sure and get the genuine, sold in boxes with the registered trademark printed thereon. On sale at Wassons Drug Stores, 36c per box.

Owing to present conditions, the meeting of the Board of Governors of the Health Centre scheduled for last evening was postponed. A meeting of the Doorkeepers' Circle was postponed for one week.

Miss Ellen Terry, who has just celebrated her seventy-fifth birthday, remains the most popular figure of the British stage.

FAVORS AN OLD HOME SUMMER

Premier Armstrong of Nova Scotia Sees Great Results

1924 is the Year—Legislature Heartily Approves of Action—Tourist Committee Appointed—Prompt Action Urged.

(Halifax Chronicle)

Giving unqualified support to a vigorous policy of tourist development, and outlining legislation whereby the Old Home Summer idea for 1924 for Nova Scotia, a project proposed several years ago, could be made an effective feature in developing the Province, Premier Armstrong, in the House of Assembly last night aggressively placed himself behind the movement, and appealed for the Province to realize the enormous possibilities of the resources it possesses for the development of the tourist trade.

The Old Home Summer idea had, he said, always been one which appealed to Nova Scotians, and to those who had left this Province. The first thing that the committee should do, he believed, was to investigate its possibilities. It would be the means of building up fraternal spirit and a relation which would result in securing business for this Province.

"We can at least give it the sanction of this Legislature," said the Premier. "I can issue invitations to all who left this Province, to return and participate in the affair, and we can assist in forming the committees and in their administration. We can also enable the municipalities and towns to secure money to arrange for their part in the celebration."

Mr. Armstrong concluded his pronouncement with expressing his hope that the committee which had been appointed to study the tourist problems would take up the matter of the Old Home Summer energetically, and report without delay to the House in order that some legislation might be put through before the Legislature proposed.

He also suggested that the promoters of the Old Home Summer should be called before the Tourist Committee and place the entire project before them. Furthermore, the Premier said, if the committee would devise a scheme of developing tourist business at a reasonable cost, he declared that the Government would be happy to go as far as it possibly could to assist.

The names of those appointed to the committee were as follows: Hon. J. J. Kinley, Messrs. Bauld, MacDonald (Pictou), Sealy, Bourinot, MacKenzie, Reid, McLean, Corning, Morrison, Taggart.

Premier Armstrong in opening his address referred to the fact that it was the first time in the history of the Province that such a distinct resolution regarding this matter had been before the Legislature. There was no need for an apology for introducing such a resolution, as the people of Nova Scotia were beginning to appreciate more and more the value of the tourist business, and in view of this developing attitude, it was time that the

CANDLER TELLS WHY HE REFUSED TO MARRY

Files Answer in Atlanta to Mrs. De Bouchel's \$500,000 Breach of Promise Suit.

Atlanta, Ga., Mar. 16.—Asa G. Candler has filed in the United States District Court here an answer to a \$500,000 breach of promise suit recently brought against him by Mrs. Onesima De Bouchel.

Mr. Candler told the court that he became engaged to Mrs. De Bouchel in January, 1922, and that immediately thereafter she proposed that they get married. "I was told," he said, "that she was a wealthy woman and that she had a fortune of \$500,000."

The answer concedes that "a member" of Mr. Candler's family visited New Orleans to investigate "certain suggestions" regarding Mrs. De Bouchel's conduct contained in letters from persons in New Orleans. These letters, it was said, were turned over to the petitioner's attorney and never have been returned.

The answer contends that it disposes fully of the charges brought by Mrs. De Bouchel and asks that her suit be dismissed.

"I answer to Paragraph 85," the answer said, "defendant admits that he made no investigation other than to establish the fact that the statements referred to were actually made by a gentleman in Atlanta, and defendant felt that in any event a marriage thereafter consummated could not be a happy one, as he stated in his letter."

Defendant further stated that he had advised Mrs. De Bouchel of the fact that the statements referred to were actually made by a gentleman in Atlanta, and defendant felt that in any event a marriage thereafter consummated could not be a happy one, as he stated in his letter.

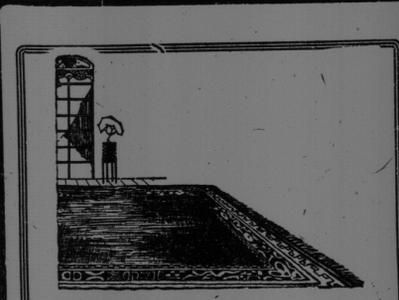

Defendant further stated that he had advised Mrs. De Bouchel of the fact that the statements referred to were actually made by a gentleman in Atlanta, and defendant felt that in any event a marriage thereafter consummated could not be a happy one, as he stated in his letter.

Artificial silk winning fast

Output Has Increased Five-fold in the Last Twenty Years.

Man has entered into active competition with the silk worm, and though the worm has the advantage of several million generations of previous practice in the art of silk making, man is rapidly catching up.

The first person to solve the problem was a Frenchman, Comte de Chardonnet, who in 1854 deposited with the French Academy of Sciences a sealed document. Three years later this was opened and found to contain a method of making artificial fibre by treating cellulose with nitric acid.

Another process, invented by the French and worked by the Germans, got the cellulose into fluid form by dissolving it in a solution of copper and ammonium salts.

In the making of viscose a third method is employed. Wood pulp, such as is used in paper making, is treated with strong soda lye and then with carbon disulphide. This brings the cellulose into solution as an orange liquid. This is forced through minute holes in a platinum nozzle into dilute acid, where each fine stream is drawn into solid fibre and the sulphide is then removed.

During the war another form of soluble cellulose found extensive employment as "sneez" or dope for airplane wings. This is the acetate, made by dissolving cotton or wood pulp in the concentrated acid of vinegar, ac-

And They Cost You Less, These New Spring Wraps

THE BEAUTIES brought out in the opening took our mind away from prices. They are down, down well below the expected, compared with last year's. An example or two: This Polo Cape in different plaids, running to Greens, Blues and Lavenders, and cut to impart the right touch for Sport and Summery places. Crush collar and narrow belt coming out of arm-slits, \$19.75.

The Coats arrive in wrappy, straight and mannish lines. New Blues, Wood Shades, Tans and Soft Greys, including Velours most of them are \$19.75 to \$49.75

At \$19.75, a soft Grey or Heather Blue Tweed of tailored trimness, patch pocket and half lined. At \$49.75 a Doe Duvetyn with arrow breast pocket as well, and satin lining throughout. How much higher would it have been in 1922! And here is a beauty just as low—a Tan Duvetyn Velour fully lined in satin, crush collar and Bulgarian embroidery on collar, cuffs, waist and right and left back, zig-zag stitching of Copen, Henna and Olive. It certainly looks like a whole lot more in price.

Confirmation or Party Frocks For Little Maids From 6 to 14

White Voile in trimmings no older than today, and new low prices. One at \$8.75 has many pointed frills on the skirt, a Silk Sash Girdle rosetted in centre and insertions of Valenciennes Lace. At \$7.95 fine White Voile with the same Lace insertions on both Blouse and Skirt, two rosettes and either round or square neck.

Between \$3.65 and \$4.95 the Voiles have Lace and Tuckings, some have embroidered fronts as well and round or square necks. The main question is which one has more charm. Take your elevator to the third floor.

THE RIDDLE OF THE SPINNING WHEEL

Being An Exploit in the Career of Hamilton Cleek, Detective By MARY E. AND THOMAS W. HANSHAW

(Continued from yesterday)

"And that you are a very gallant gentleman, Mr. Deland—in spite of your somewhat unusual role," she supplemented. Then, becoming serious again, "But don't you think it—well, queer, that if this were the instrument which stabbed Sir Andrew, that there should be no mark of stain upon its blood of any sort? The blade when I found it was absolutely clean."

"H'm. Yes. Rather extraordinary. Unless the murderer had time to wipe it upon anything, Miss Dowd, before consigning it to the curtains. And now, another question: What made you keep the thing secret?"

"I hesitated a moment, as though uncertain what to answer, then, blushing faintly, confronted him. "I have often seen that thing in use in the Duggan household. It has laid claim to many a theatrical bout upon an impromptu stage. It has cut pages of books, and slit edges of papers, and—"

"All the more reason why there should have been some significance to every member of the family in it, Miss Dowd."

"That's one up to you—certainly. But you see the last person I had seen using it, the day before yesterday, when I was here with Cynthia, opening the afternoon, was—really, I'd rather not say, Mr. Deland."

"I'm afraid you must, Miss Dowd." Came a moment's hesitation; meanwhile Cleek watched her narrowly. He saw the colour come and go in her worry-lined face, saw the light that came into her eyes, opening at mention of the name which followed, and drew his own immediate conclusions.

"Oh, very well, then. There can be no harm in your knowing. It was Ross Duggan himself. He had been reading a new book which he had sent to London for—'Poisons and Potions of Other Times.' I think it was called—"

"—and used that very same stiletto to slit the pages with. But that was a couple of days ago, Mr. Deland. Or how it got in those curtains, either."

"I see. And that's all you have to tell me?"

"Cleek's voice was normal, though he was not a little startled at the news she had imparted to him. Ross, indeed—"

wouldn't, even for the sort of love that her kind would give a man! And it was his inheritance which was in jeopardy, don't forget that! It's a pretty kettle of fish, indeed! And this Ross Duggan seems to have half the countryside in love with him! That's the third woman, including his affianced bride. His is surely the deadly kind that they all fall for! Well, I'm glad the inheritance isn't mine, at any rate. There is no fury like the fury of a woman scorned—and a chap can't marry three women at the same time, and live within the law. . . . If he ever did live within the law—in the face of—that—which I saw in the dungeon! But I can't somehow credit him. . . . And yet, who else? . . . Hello, there's Rhea's bell, and Mr. Narkom, I'll dare swear. Well, I'll be glad enough to see his rotundity, bless him!—more glad than I had at first imagined."

And that's exactly who it proved to be. Rhea's bell was certainly useful, that was one thing. It did keep tally of every incoming visitor. And with that huge, high, iron-spiked wall which surrounded the grounds of Aygon Castle, so utterly insurmountable, surely the murderers couldn't have got away very easily last night. Whew! Cleek whistled suddenly, and sat up. He hadn't thought of that! Then the murderers must be here in this household, or in the grounds of the place still—unless Rhea's bell had acquainted the family of their entrance or exit through the great gate.

But the gate had been ajar last night! And he had met Captain Macdonald prowling around on that nocturnal visit of his just after the time when the murder must have taken place. Then who set the gate ajar? Someone in the house, of course! Someone who knew about the thing—be-forehand. . . . That opened up another avenue. He'd ask Miss Duggan. Perhaps it hadn't been opened especially for him, then. Perhaps it had been opened for—someone else. It certainly gave one to think, as the French say, "And he was thinking to such good use that he did not hear the door of the ante-room open, nor the voice of the butler Jenkins repeat a name, and it was with genuine astonishment that he sprang to his feet and saw the portly figure of the Superintendent standing before him."

CHAPTER XII Cleek Makes A Startling Assertion Cleek and Mr. Narkom spent a busy fifteen minutes. Meanwhile, the Superintendent learned of the tragedy which had taken place and of what evidence Cleek had got together for him, had a cursory look round the library and at the body itself, which they had unrolled from its hiding place, and generally took a survey of the whole appalling affair.

"Climax!" ejaculated the Superintendent for the thirty-third time since the recital of the thing. "It's a teaser, I swear! If someone in the house hasn't done it, who the dickens has? When you were came for me to run up here, yesterday, I was up to my eyes in work. But I knew you wouldn't send unless you really wanted me, and who you do that?"

He stopped speaking and let the rest of the sentence go by default. But Cleek had seen, and Cleek knew. The friendliness in their two pairs of eyes deepened to a fellowship which is rare—and good to see.

"I know, old chap. But we mustn't had caught you last night and hugged you to death, or some such rubbish. Until I assured him that your bleeps were equal to all the ghosts in the world. Yes, I saw Dollops, all right. And he said he'd got work to do for you, or something. Some constable had called with a note early in the morning."

Cleek looked up quickly from a survey of the window-sill. "Yes—yes. Had he discovered what I asked him to do?"

"There was a sort of dumb tolerance in the Superintendent's unimaginative countenance. He shrugged his shoulders off handedly. "My dear chap," he responded, "here's his identical message, only I can't imitate his inimitable accent. 'Tell the Gutter, sir, as that there 'Crab and Anchor' wot he wants ter know abart is an innat of the post office.' . . . Now, if you can make any sense out of it, Cleek."

Girls! Beautify Hair At Once

Try This! Hair Appears Soft, Colorful and Abundant—A Gleamy Mass

35 Cent Bottle of "Danderine" Also Ends Dandruff; Falling Hair!

A "Danderine Beauty Treatment" will immediately double the attractiveness of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and possess an incomparable softness, lustre and really appear twice as thick and abundant—a mass of luxuriant, glistening, colorful hair.

Besides beautifying the hair, Danderine eradicates dandruff, itchy scalp, itching and falling hair. Danderine is the best, cheapest and most delightful hair corrective and tonic. It is to the hair what fresh showers of rain are to vegetation. It goes right to the roots, vitalizes and stimulates them. Its stimulating properties help the hair to grow long, heavy, strong.

You can surely have beautiful hair, and lots of it, if you will spend 35 cents for a bottle of Danderine at any drug store or toilet counter. It is not greasy, oily or sticky.

But Mr. Narkom's patience was running a close race with his curiosity, and both in the same direction. He gave an unexpressed sigh and rubbed the top of his bald head disconsolately. "You're the most amazing beggar," he gave out finally, in a tense voice. "Mumbling away like a lunatic, of laundry-bills and spinning wheels and 'crowns and anchors' which are 'innates of village post-offices,' and I don't over?"

Do you suffer from urinary troubles? Gin Pills can bring you quick relief. They soothe that burning sensation in the bladder; the frequent desire to urinate is overcome; irked dust deposits vanish; congested kidneys and inflamed bladder which caused the irritation are restored to normal condition, and you again enjoy comfort by day and uninterrupted sleep by night. Once try Gin Pills and you will not give them up until every trace of urinary trouble has left you.

At your druggists - FIFTY CENTS -

know what all! If I didn't know something about you, I'd say you'd gone suddenly barmy, and light out for little old London before you turned your head on me! But you might let a chap have an inkling—"

"When you've been in this house as long as I have, you'll have more than an inkling—you'll probably know," returned Cleek with a little laugh. "But look here, my friend, we've got to get the body out of here—pronto!—or we'll be having the ladies fainting away and upsetting the apple cart with a vengeance! They're due in here inside of a quarter of an hour, when I'm going to give a little turn of the whole thing again, and see if we can't reconstruct it a bit. The constable outside will lend a hand. Here, Peters!"

"Yesir!"

"Get your friend from the outside window for a moment and give a hand to get—this—out of the room before the ladies come. I want to reconstruct the whole affair in the presence of all concerned. And we'll take away all the gruesome details that's possible. . . . Poor old chap! Poor old tight-fisted laird! Eh, man, but you've got a sterner judge to face now than ever you were yours! And this time justice has to be done, and no gain-saying the fact, either!"

The unpleasant task was barely finished before the sound of footsteps and the humming of many voices in the hallway without told those within that

S.B. Cough Drops advertisement with image of the product box.

The family were reassembling for the performance. Cleek, with a hasty glance to see that all was right, threw wide the door. "Come in, come in," he said in a pleasant, friendly voice. "There's nothing now to be seen but that which all may see, Lady Paula, so neither you

Christian Endeavor

Founder Makes Plea

Dr. Clark Tells of Actual Conditions in Germany—Boston Herald Approves.

(Boston Herald.)

We print in another column, from the pen of the Rev. Dr. Francis E. Clark, founder of the United Society of Christian Endeavor and a New Englander of the highest responsibility and standing a letter which we hope you will read.

There is a time following every war when it is nearly impossible to tell the truth. During war propaganda is absolutely necessary, to make people hate the enemy as much as they should hate him, and it takes, after each war like our own civil struggle, a great many brave and chivalrous spirits to break down the effects of the propaganda of hatred which was induced. We suppose that in 1866 it would have been comparatively easy to get up an argument to go down and whip the English again, just as the subsequent yellow fever epidemics were regarded in some quarters as further visitations of the wrath of the Almighty upon an unrepentant people. When you went South thirty years ago you heard terrible stories of the atrocities committed by the ardent defenders, and of the sufferings and starvation of southern soldiers in northern prisons, in Elmira and elsewhere. It took men like the late Nathaniel S. Shaler, himself a Kentuckian, and a brave soldier of the Union, to tell the truth, as he did in his classes at Harvard, in regard to the comparative atrocities of the two sides. And the truth, as was said of old, "makes men free."

We do not envy the Rev. Dr. Clark the things that will be said about him. But he can at least have the consciousness of telling the truth at a time when the momentum of war propaganda has disordered men's minds.

A BRAVE WORD.

To the Editor of The Herald: It is difficult in these days to say a word about the sufferings of the German people without appearing to take the side of Germany against France, but such is not my desire or intention—simply to tell the truth as I have seen it.

Many people in Germany who were formerly well-to-do are living practically on black bread and tea. One of my friends tells me he and his family have not had a "full meal" for months. Others have meat only once in two weeks. Many boys and girls of twelve to fourteen years of age look as though they were seven or eight, because of malnutrition.

In Freiburg, in Baden, where I recently lived for two months at one of the best hotels, I saw no fresh milk or butter and only the thinnest crumbs of sugar. We had a little (very little) American condensed milk, and unaccountably margarine. I had American coffee and could have bought milk and butter if any was to be had. The cows had been sent to France and only enough retained in Germany to give others babies and invalids a little milk and that largely from American cows which had recently arrived.

In this city of Freiburg, which in 1912 was full of automobiles, I saw only one or two a day, and those from outside. Horses, too, were very scarce, and half a dozen men were often seen pushing a heavy cart. Horses and automobiles had been sent to France, by way of reparations. Hundreds of school children were daily receiving "Quaker Spice," American food distributed by the Friends' organization. Otherwise they could not have lived. We are not in our own and other countries, have doubtless grown rich, but millions of those formerly in comfortable circumstances are now content with the ragged edge of starvation.

A recent correspondent of The Herald's Mail writes: "During the war we saw a German city or town was shelled, and not a farmhouse burned." This city of Freiburg was shelled thirty times during the war. A big theatre and the medical college of the famous university were destroyed, an apartment house near our hotel had been shelled, and many occupants killed. Many other houses had been wrecked. Karlsruhe, a nearby city to Freiburg, was bombed. I was told, however, that for two years, thirty little school children, out for a holiday, were killed by a bomb in that city at one time. This, doubtless unintentional, was the part of the French aviators. Scores of other German cities and towns were also shelled, over and over again.

I am not writing in defence of Germany. She has sinned greatly and is greatly punished, but the most deplorable thing about it is that the punishment is falling upon those of her people least responsible for the war, people who knew only what their government chose to tell them, and who now, in the peace which is worse for them than war, bear the iniquities of their rulers and militarists.

FRANCIS E. CLARK.

Boston, March 8.

KILLS HERSELF AT ALTAR.

German Girl Prefers Death to Marriage With Elderly Suitor.

Geneva, March 17.—News of a tragedy comes from Linden, a small island in Lake Constance, where pretty Fraulein Moser, twenty-one years old, shot herself before the church altar rather than marry a wealthy man twice her age.

When the priest asked the usual question whether she accepted the man as her husband, the girl replied: "No, no! I love another! My parents know this—I would rather die first!" With these words she drew a small revolver from beneath her bridal bouquet and shot herself through the head, falling unconscious as the feet of the priest and dying within a few moments.

NATIONAL CITY BANK BUYS OLD HAVANA CHURCH FOR OFFICES

Havana, March 17.—The old Roman Catholic Church of St. Philip, situated in the centre of the financial district of Havana, has been sold to the National City Bank of New York. The price paid is reported to have been \$1,500,000.

It is understood the church will be razed and an office building erected on the site.

The brain is divided from front to back into two "hemispheres" connected by a band of nerve fibers; in idiots this connection is frequently broken.

Minard's Liniment used by Physicians.

An Easter Hat Guide and Opening by a New Salon

Leading off the Easter Parade are the Casque, reminder of the French helmet, the Cloche and the Poke. The twisted Turban is eternal and simple Black Hats are to be seen at Dress occasions.

A Season of wonderful variance in trimming and materials, and intricate brim lines allowing splendid scope for individual expression. With just these hints the New York Millinery Company welcomes your interest at its opening on Monday and following days at its new store, 203 Union street (Opera House Block).

Greet the Changeable (Shot) Taffetas with large Velvet Poppies and narrow Ribbon falling from brim. A large, Brown Canton faced in iridescent Straw with Velvet Ribbon and Flowers or again the Helmet Touque. Here also reigns the Paisley of graceful side trimming.

One of the Poke novelties about to be introduced has the Wattau back or disappearing brim. The narrow Cloche brim of one creates a wider outline by a sheer Eye-Veil of Tulle, drooping round and trained down. Clusters of flowers complete the picture.

A wide Tagal Straw in Sand and Mauve Mohair shows narrow Velvet Ribbon banding. The Mohair in a large Lace Model appears and disappears through the Straw in Mauve and Grey and is set with Velvet flowers. The all-Black Hats have Feather Pompoms, Cellophane Ribbon and Ostrich bandings.

TIMIDITY CURSE OF CHURCHMEN, SAYS DR. CHORLEY

(New York Tribune.)

Unmistakably taking sides in the Manning-Grant controversy, the Rev. Dr. E. Chorley, historian of the Protestant Episcopal Church in America, preaching yesterday in St. Paul's Chapel, Columbia University, declared the curse of the Church to be timidity. Dr. Chorley is prominent in the Episcopal Church and known all over the country. He avoided names, but none of his hearers was left in doubt as to his meaning. He based his sermon on Barrie's address to the graduating class of St. Andrew's University and finished with the adjuration: "Only be strong and very courageous—strong and courageous in the hour of conflict and defeat."

Assails Lack of Courage.

Nowhere is courage more needed than in the unexplored fields of Christian thought, Dr. Chorley declared, adding:—

"The curse of the Church today is timidity. As a leading lawyer in this city put it the other day, the Church is afraid to affirm new truths and she is equally afraid to deny them. It is not necessary to be a traditionalist, nor a modernist. All you need is to remember to summon up courage to proceed is that truth is like a tide which sometimes sweeps in mighty waves

and sometimes, moving, seems asleep, but it always moves. I imagine that our basic trouble is our lack of courage to follow truth."

Dr. Chorley spoke of the period when Darwin's "Origin of Species" was first launched on an amazed public.

"Religion a Way of Life."

"The Christian world of that day literally shook in its shoes, and some of us, even now, are in perpetual fear that truth is in danger, that some impious person is going to hurt it," he continued. "They fear that the belief in a material hell, in predestination and the infallibility of the Bible is being cast aside in the onward sweep. They think the bottom is falling out of everything."

"But if the growth of knowledge means that we have to reinterpret the creed, rewrite theology and cast aside some of the outworn dogma, don't be afraid. Religion means more than freedom, more than dogma, more than the beliefs of theologians. It is primarily and always a way of life, and when you gaze into the unexplored distances with their possibility of new development of truth, don't tremble—be strong and very courageous."

POISONED RICE KILLS 22. Five Cooks Who Prepared Hangchow Banquet Are Arrested.

Shanghai, March 17.—(Associated Press)—Further reports from Hangchow, capital of the Province of Chekiang, placed the death list at twenty-two among the scores poisoned at a supper there last Saturday of the First Provincial Normal School. The recovery of fifteen others was held to be doubtful.

An analysis revealed that poisoned rice had been served, but whether by accident or design was not disclosed. Five cooks were imprisoned pending the outcome of an inquiry. Medical aid was sent from Shanghai. Earlier dispatches said that 250 persons, including students and teachers, had been stricken with illness.

GOWNS LIMITED TO \$12. No gown costing more than \$12 will be worn by Waukesha, Wis., high school girls at commencement this year. Popcorn has a distinctive food value.

A PROFITABLE PROFESSION FOR WOMEN

Paying from \$30 to \$45 a month and living while in training. McLean Hospital Training School for Nurses offers a three years' course in the care and treatment of nervous and mental diseases, with affiliations that also offer training in medical, surgical and obstetrical work. Instruction consists of lectures and practical work on the wards. Board, room and laundry are furnished and an allowance of \$80 per month for the first and second years, and \$45 per month for the third year. This course is open to young women who have had one year or equivalent in high school. Entrance at any time during the year. For information apply at once to MISS HELEN C. SINCLAIR, R.N., Supt. of Training School, Waverley, Massachusetts.

MOTORS
And Their Care

Beware of the Loose Fan.
Watch the fan and inspect it often for defective riveting at the hub. A loose fan blade may do a lot of damage to the radiator should it break.

To Silence Metallic Noises.
Ordinary cotton braid, such as every woman's sewing kit contains, makes an effective silencer wherever sheet metal comes in contact with sheet metal.

Never Slam Doors.
Slamming of doors on a car is a practice which should be avoided at all times. Persistent slamming racks the hinges and loosens the doors until they become wobbly and hang loosely.

Replenishing Boiling Radiator.
Never pour cold water into a hot, empty radiator without having the engine running. Fill the cooling system by pouring in a gallon of water and waiting several minutes before adding any more. Cold water coming in contact with hot cylinders will crack them.

Replacement of Valves.
When removing valves from an engine for any purpose, it is of the utmost importance to keep them separate and replace them in the identical seats from which they were removed. Failure to do so will be certain to result in leakage and may cause the clearance be-

tween the tappets and stem ends to be wrong.

Attention May Prevent Accident.
Be sure to inspect the wheel bolts, tire lugs and hub caps occasionally. When a wheel comes off the brakes are useless and the car travels on momentum, usually turning toward the side of the missing wheel.

Keep the Motor Clean.
Dirt and water are the worst enemies of the mechanical units of a car, and the more intricate the machine the greater is the damage. When dirt or dust gets into the gears and other parts, mixed with lubricating oil, it makes a dangerous grinding material. Worn bearings, loose parts, lost motion, knocks and breakdowns are the result.

Care of Paint.
To retain the lustre of a car never wash the varnished surface with water warmer than 60 degrees. Cleaning solutions should be avoided, especially if they contain ammonia or any kind of lye soap. No matter how much mud or dirt is on the car, it should not be scrubbed off with a brush. The integrity of the varnish is impaired by every scratch it receives.

Sawdust for Filtering.
To separate dirt, metal and dust from used oil, a filter can be made by fastening a piece of muslin or cotton cloth to a metal or wooden ring large enough to fit over the top of a can or other vessel. The cloth should be left a little slack, and in the shallow bag so formed a quantity of sawdust is placed. The oil to be filtered is poured Run slowly through traffic.

through and leaves its foreign matter behind in the sawdust.
When the shoulder on the wheel, designed to hold the demountable rim, be-

"Wear-Ever"

Aluminum Utensils

are made from thick, hard sheet aluminum.
Light, beautiful and durable.

Northern Aluminum Co. Ltd.,
Toronto

Windsor Kettle

Straight Kettle

comes worn, the tire and rim will creep on the wheel.

A click in the coil usually denotes a leak in the condenser.

This is the best time of the year to have an automobile overhauled.

A wobbling wheel may be caused by bearing wear or by a bent shaft.

The average passenger automobile runs 15 miles on a gallon of gasoline.

A good top dressing, applied at least once a year, will keep the top in good

condition, as well as improve the appearance.

The major items of the operating expenses of an automobile are gasoline, oil and tires.

A gripping clutch has a tendency to spin the rear wheels and wear the tread on the tires.

When signalling your intention to the driver behind, make each motion so it can be clearly understood.

To drive a car with oversized tires does not require any more power than cars equipped with regular-sized tires.

Loose crank and camshaft bearings will increase the distance between timing gears, thus allowing these to mesh unevenly.

cently at the Cathedral of St. John the Divine.

Dr. Gardner's subject was "Are Boys and Girls Between Sixteen and Twenty-five Interested in Religion?" and he answered it by the membership figures of more than 250,000 of the Young People's Service League and the Young People's Fellowship organized in the Episcopal churches.

"These boys and girls see the married women in the office, they read the events of the divorce court, they see the growing power of women in the state and in a subtle way they feel that the whole problem of the equality of the sexes is their problem and the sooner they begin to live the problem, the better. Naturally they look around for conditions where they can meet and talk and play and work together. The church offers one of these conditions, but it does more; it offers ideals of right relationship between humans, regardless of sex. In fact, the ideals of the church are her greatest assets in directing youth."

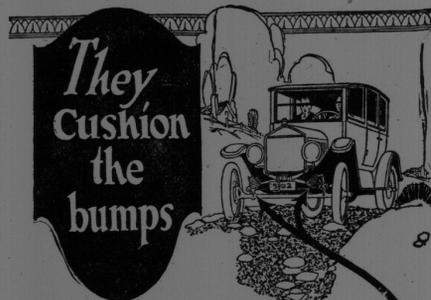

"The second reason for the turning

of youth toward the church is the desire for a high standard of recreation and pleasure. The youth movement in the church intends to restore some of the joy and cheerfulness that have been taken out of Christianity. To be good and not know it to some Christians would not be goodness.

"Youth is making us face the question, could we not play better if we had more ability to play? Could we not have more joy in our religious life if we had been trained to have less self-consciousness?"

SAY 75 P. C. OF PUPILS HAVE SPINAL DEFECTS

Osteopaths at the opening in New York this week of the first free clinic for children in the spinal ills prevention week crusade declared that three-fourths of the children in public schools have spinal defects, and that these are practically all preventable if taken in time. The responsibility for failure to prevent these ills was placed on the parents.

THE better your car the more resilient the springs are sure to be; the more resilient they are, the more surely will violent spring action toss you from your seat.

Side sway, teetering, vibration and side roll going around curves—these discomforts are constantly experienced on city streets, as well as country roads—more so than you realize.

They lead to costly repairs which Hassler's will prevent. By absorbing shocks and holding the car to the road, Hassler's make your car roll smoothly over bumps, and dissipate the jars, jolts and vibration from car tracks, bad pavements, and suburban rough roads.

On tires alone, on repairs alone, on re-sale value alone—Hassler's save their cost. You are paying for them anyway. Why not enjoy them! Your dealer will explain these Hassler facts.

None Better—None as Good

Episcopalians Hail Spirit of Youth Entering Religion

Young People Turning More to Church For Answers to Modern Problems, Says Dr. Gardner.

(New York Tribune.)
Young men and young women to the number of 250,000 are joining or organizing clubs and societies within the Episcopal Church, drawn there by problems raised by the new ideals of equality between the sexes and the desire for a high standard of reaction and pleasure, according to the Rev. Dr. William E. Gardner, head of the religious education department of the Episcopal Church, who preached re-

Spurred

47% bought Ford
16% bought other makes of cars
37% bought all other makes of cars

The Value of Good Judgment—

You are considering the purchase of a car. You are not quite sure of your judgment. You desire to know what the judgment of other car buyers has been. It has been the well-ordered and considered judgment of forty-seven car buyers out of every hundred who have bought cars to buy a Ford car.

Of the remaining fifty-three, the highest number who purchased any one make of car was sixteen.

Forty-seven people will average among them better judgment than sixteen.

And it was the well-ordered and considered judgment of these people to buy Ford cars. These people were scattered from Halifax to Vancouver—with the average transportation needs to solve for themselves and their goods.

They bought Ford cars.

Their judgment was based on—
Lowest Initial Cost.
Lowest Upkeep Cost.
Lowest Prices for repair parts.
Ability to obtain parts readily and anywhere.
Ability to obtain service at any one of 3,000 Service Stations—in a straight line from Halifax to Vancouver (these Service Stations would be only one mile apart).
The knowledge that the price of the car, the repair parts and service labor is standardized to the lowest possible point.

The well-ordered and considered judgment of forty-seven purchasers out of every hundred purchasers of cars to buy a Ford car should be the determining factor on your part to buy a Ford car.

The Price of the Touring Car is \$245.
Freight and Government Taxes extra.
And it can be bought on a monthly payment plan.

Why Chevrolet is the Fastest Selling Standard Car Made

Look at any Chevrolet model and you will understand immediately why Chevrolet is the fastest selling standard car built.

It represents the most sensational value in modern economical transportation ever established.

Chevrolet offers the most striking evidence that it is now no longer necessary to pay high prices for quality transportation.

All Chevrolet models are characterized by beauty of line and finish, comfort, easy and smooth operation. Fisher bodies with their artistic appearance, riding luxury and complete interior appointments are used on all closed models.

Through engineering and marketing efficiency Chevrolet has achieved volume production of quality automobiles, thereby effecting such remarkable economies that Chevrolet now leads all standard built cars in volume of sales.

McLaughlin-Buick

The Standard of Comparison

Year 'Round Comfort for Five Persons
The "Master Four" Sedan 23-37 \$1950

The McLaughlin-Buick "Master Four" five-passenger sedan has every convenience, comfort and refinement of the finest closed car.

The Fisher-built body is trimmed and upholstered in fine plush with hardware of a handsome pattern. Wide doors with large plate glass windows adjustable to any position, giving easy access to the roomy compartments. Silk shades, a soft dome light and fine carpeting are all of a quality found only in high priced closed cars.

Comfort for year 'round driving is assured by a heater for winter and controlled ventilation for summer by means of the cowl ventilator and adjustable windows and the windshield.

Marked refinements in the chassis and in the famous valve-in-head engine increase the riding comfort and add materially to the inherent McLaughlin-Buick qualities of dependability and performance—qualities that have made McLaughlin-Buick "Canada's Standard Car".

McLaughlin-Buick cars carry Class A insurance rating.

URGES H. B. RAILWAY CONSTRUCTION

(Canadian Press Cable.) Andrew Knox, of Prince Albert, a progressive member from Saskatchewan, who urges that the Dominion re-raise the prior claim of the construction of the Hudson's Bay Railway. It is expected the Progressive party will rally to his support.

WIDE RUIN IN IRELAND

Loyalists Fix England's Liabilities at Many Millions.

London, March 5.—(By Mail.)—The British Government has a liability to pay the British loyalists in southern Ireland whose property has been destroyed of nearly \$150,000,000, according to the claims made by a meeting of Irish loyalists held in London recently. Lord Carson, the leader of the Irish Unionists, was the principal speaker. Sir William Dawson, member of Parliament presided.

The chairman was responsible for the estimate of damages suffered. He said that before the trace the claims amounted to ten million pounds, but they had since risen to thirty millions, "and as villages are now being sent into a fire wholesale, no doubt these claims are rapidly increasing."

Lord Carson gave examples of the ruin in Ireland. The Great Southern and Western Railway had lost practically all its capital, amounting to millions of pounds, and all the people who held shares were ruined. He cited numerous cases of individual suffering, told of Irish ladies recently rich who had been reduced to working in England as servants, and declared these were examples from thousands.

DAYLIGHT SAVING.
Halifax Chronicle.—Civic officials and employees of the city hall will adopt daylight saving time commencing on the first Sunday in May and continuing until Labor Day. This was decided by a majority vote of the City Council last night after an amendment to the effect that a plebiscite be taken was defeated.

Governor-General At Celebration At Pictou In Summer

Pictou, N. S., March 17.—Preparation for the celebration in July of the one hundred and fiftieth anniversary of the arrival of the Scotch pioneers at Pictou in the ship Hector will from now on be pushed with vigor. Some delay has been occasioned by the indefiniteness of the Governor-General definitely to state what dates he would have to fill at that time, but His Excellency has advised the committee that he will be in Pictou on Tuesday, July 17, the suggested date when a pageant depicting the arrival of the "Hector" and the landing of her passengers will be a feature of the week.

The programme, which will be announced in detail in due course, will open with special services in all the churches of the county on Sunday, July 15th. Bonfires will be ablaze from the many hill-tops in sight of Pictou harbor on Monday evening, as the "Hector" comes to anchor, and community songs will be sung by the populace. In the harbor Tuesday will see a pageant depicting the landing of the passengers from the historic old ship near to the exact spot where the little band of 1773 came ashore to erect their rude huts ere winter overtook them.

This will be the occasion for speech making by men of note and will be followed by the unveiling of the monument to be erected in memory of the Hector people by St. Andrew's Society of New Glasgow. Athletic and aquatic sports, military sports and reviews, with Royal Navy ships in port, a ball and other entertainments will fill out the week. Enquiries are coming in from all parts of the world from absent Pictouians who hope to be present, and the committee will make the earliest possible announcement as to rates of travel.

MAN DEAD AND HIS HOUSEKEEPER DYING FROM LACK OF FOOD

Boston, March 17.—George W. Ryan is dead of starvation, and his housekeeper, Anna Walker, on the danger list at the City Hospital, due to exhaustion from lack of food. They occupied a tenement in the Roxbury district, where neighbors reported their non-appearance to the police. Miss Walker, who is said to be a widow, was found at the hospital today had recovered sufficiently to say neither she nor her employer had anything to eat for a week. They were both over sixty years old.

The Royal Gazette issue of this week announces that Rev. G. F. Bolster, of Hartland, has been authorized to solemnize marriages.

Influenza Vaccine Tested on Humans

New York, March 14.—A vaccine for combating influenza has been developed and tested on human subjects. Killed cultures of the newly announced influenza germ, bacterium pneumosintes are used. All is ready for quantity production of the vaccine if another severe epidemic should require its widespread use.

Dr. Peter K. Ollitsky and Frederick L. Gates of the Rockefeller Institute for Medical Research, authors of the article, tells how the mild influenza epidemic of about a year ago gave them new strains of the very minute and remarkable influenza germ, which they discovered about two years ago. This new supply of germs resulted in such decisive experiments on rabbits that human experimentation was undertaken.

Officers and men at the Army Medical School in Washington volunteered to submit to vaccination with killed cultures of Bacterium pneumosintes so named because when alive it injures the lungs. Each subject was given three subcutaneous injections of the dead germs, in a manner similar to that employed with anti-typhoid vaccine. The immediate reaction and inconvenience were even milder than those experienced after anti-typhoid vaccination. But ten days after the final injection the blood of seven out of nine men examined contained substances, called agglutinins, which attacked and rendered harmless the influenza germs that were brought into contact with them. This showed that immunity to the disease germs had been established by the vaccination.

As a result of these first human tests, the vaccine is now being offered to much larger groups of men in the United States Army.

"It is not possible, of course, to determine the protective effects of these injections directly," the scientists report. "In the event of a recurrence of epidemic influenza in the near future, however, the efficacy of vaccination with bacterium pneumosintes as a preventive measure may be put to test."

Dr. Ollitsky and Gates declare that we are at the threshold of knowledge of a group of minute micro-organisms of which the influenza germ is just the first. Bacterium pneumosintes is not only micro-organism found in the respiratory tract that flourishes without free oxygen and passes through the pores of the finest porcelain filters. The Rockefeller scientists have found and cultivated other filterable organisms, which do not cause disease in rabbits.

"They indicate, however," the scientists say, "that the cultural methods recently employed in these studies may lead to the isolation of a group of groups of hitherto undescribed bacterial inhabitants of the upper respiratory tract, and so they point to interesting opportunities in this field of bacteriology."

Dr. Ollitsky and Dr. Gates are careful

not to claim too much for bacterium pneumosintes even in the face of all this evidence. "On the basis of experimental observations, and especially in view of the source of the cultures," they say, "their clinical and pathological effects on rabbits, their antigenic identity, and the presence of specific agglutinins in the blood serum of recently recovered influenza patients, it might seem justifiable to claim bacterium pneumosintes bears to epidemic influenza until further experience is obtained." (Science Service)

CANADA PAINT
THE BEST PAINT FOR APPEARANCE AND PROTECTION
ONE-QUART 300 COLORED YELLOW

The Paint for Appearance and Protection CANADA PAINT (Canada's Favorite)

Whatever motive influences your paint buying—whether you paint for appearance or to "save the surface"—you will find CANADA PAINT to be really "the paint of merit," and the most satisfactory from every point of view.

With "Elephant Brand" White Lead as the pigment basis, the quality of Canada Paint is absolutely assured. Easy spreading under the brush, it is far more durable and will cover more space than the so-called cheap paints.

The Quantity Required
To estimate the amount of CANADA PAINT required, add the number of feet in width of front and rear to number of feet in length of building (both sides), multiply by the average height and divide by 425 for two coats.

We carry a complete stock of Canada Paint and other C.P. Products, including the famous SUN VARNISHES. It will be a pleasure to assist you with color cards and detailed information concerning the particular job you have in view.

URGES HIGHER DEATH BENEFIT

Commissioner Davis of New Hampshire Suggests a \$5,000 Maximum—Would Pay More to Injured Workers Also.

Concord, N. H., March 16.—Recommendation that the maximum allowance to a disabled workman should be increased from \$10 to \$15 a week and the maximum death benefit from \$3,000 to \$5,000 is made by Labor Commissioner John S. B. Davis in a report to the legislature suggesting amendments to the present workmen's compensation and employers' liability law.

Mr. Davis further recommends that the law should take under its provisions all classes of labor, except domestic and agricultural, and that the time between the accident and the first payment of compensation should not exceed one week.

He takes the position workmen should receive two-thirds of the weekly pay received. Moreover, he says the employer should be required to take out insurance that an injured workman shall be assured of compensation in the event of injury and that an industrial accident board would be clothed with adequate authority to administer the law.

During 1922 the labor commissioner had 1897 accidents reported, of which twenty-two were fatal and 947 listed as slight.

The St. John Valley train arrived in the city nearly five hours late yesterday having been caught in a snow-drift at Hampstead and the crew being unable to extricate the engine and tender they were forced to remain there until assistance arrived from St. John. The train left the city for the regular trip at 7:30 last evening. All the railway lines in the Maritime Provinces are now reported clear with the exception of the P. E. Island branch of the C. N. R. system which will be opened to traffic by Monday.

THE 1923 SERIES STUDEBAKER LIGHT-SIX TOURING CAR—\$1375

"Built-in-Canada"

A Canadian Car for Canadian Service

The 1923 Series STUDEBAKER Light-Six Touring Car is ideally adapted to Canadian use. It is, therefore, only natural that it has been the center of the crowds at all the Dominion automobile shows. Many have pronounced this car the motoring feature of the year.

Its body—constructed entirely of steel—possesses a beauty of design heretofore confined to high priced cars. Wide, deep seats—upholstered in genuine leather—afford maximum riding comfort for five adults. The Light-Six touring car is as restful as that favorite chair in your living room. The one-piece, rain-proof windshield, with cowl lights in base, and the cowl ventilator, are improvements originated by Studebaker for moderate priced cars.

Mechanically, the Light-Six remains unchanged. Its power and smoothness of operation; its acceleration and dependability have been convincingly demonstrated in the hands of 100,000 satisfied owners.

Its unusual economy has been proven by 27 world-wide tests, which established an average of 26.9 miles to the gallon of gasoline.

And its value is unexcelled, because practically complete manufacture of three chassis types in Studebaker factories reduces overhead to a minimum and virtually eliminates parts-makers' profits. Savings thus gained are passed on to the purchaser.

The Studebaker name for seventy-one years has stood for high quality and value. Your purchase of any Studebaker car—because of the sterling reputation of the maker—carries with it the assurance of absolute satisfaction.

New steel body. Upholstered in genuine leather. One-piece windshield with attractive cowl lights set in base. Quick-action cowl ventilator. Large rectangular window in rear curtain. Curtains, bound on three sides by steel rods, open with doors. Door pocket flaps with weights to hold them in shape. Thief-proof transmission lock. Standard non-skid cord tires.

LOCAL NEWS

GOING TO MONCTON.

Miss M. Gertrude Callaghan, formerly of the Marr Millinery and latterly of the millinery department at M. R. A. Ltd., has accepted the position of manageress of the Marr Millinery at Moncton. Her many friends presented her a parting gift of a silk umbrella and handsome hand bag.

FINAL PERFORMANCE.

The final performance of "The Spider" was given by the Y. M. C. I. players in St. Vincent's Auditorium this afternoon. A large number of children and their parents enjoyed the show. The proceeds of the production will go towards the orphans.

BURIED IN KANSAS CITY.

The funeral of David J. McHale, who died in Kansas City, Mo., on March 9th of pneumonia, was held from St. James Catholic Church, Kansas City, after requiem high mass, on Tuesday, March 13th. Interment was in St. Mary's Catholic Cemetery.

WILLIAM H. BRAYLEY.

The death occurred in Halifax, on Friday of William H. Brayley, after several weeks illness. He was a son of the late William and Sarah Brayley, and leaves three brothers, John, Robert and Alex. J. of St. John, and three sisters, Mrs. J. C. Johnston and Mrs. Sarah Bralley of this city and Mrs. F. C. Nevers of Jernise, N. B. The funeral will be held in Halifax.

MONTCLAIRE DUE TONIGHT.

Word was received at the Montclare would arrive at the Island this evening about 7 o'clock. She is enroute from Liverpool and has more than 800 passengers. The passengers will be landed tomorrow morning and will be sent forward to their destinations in three special trains.

MRS. A. J. FITZGERALD.

The death occurred in the St. John Infirmary this morning of Celine F. Fitzgerald, wife of Arthur J. Fitzgerald of Somerville, Mass., formerly of this city. Mrs. Fitzgerald came to St. John for her health, and friends were shocked today to hear of her death. She leaves, besides her husband, two children, a boy and a girl, one brother, Mrs. D. S. O'Keefe of St. Andrews; also one sister, Mrs. J. J. Mitchell, 8 Alma street, from whose residence the funeral will take place.

STEAMERS AWAY TODAY.

The Canadian Pacific steamships Melita and Marburn are due to sail this afternoon, the former to Cherbourg, Southampton, Hamburg and Antwerp, and the latter to Glasgow. Among the passengers on the Melita will be Hon. Frank Carrel and wife of Quebec; Dr. George E. Cook of Toronto; Dr. Alexander Lecco of Quebec; Miss Mary Lovitt of Yarmouth; N. S., and Mrs. and Miss Sutherland of this city.

LIQUOR CASE.

A liquor case against George Kane was resumed in the police court this morning. Some evidence was given by the inspectors, and further hearing was set down for a week. This case is the outcome of an arrest made in the month of February, when a man, for drunkenness, said that he secured the liquor from a drug store in Dock street. Later the man was unable to identify the premises in which he claimed he secured the wet goods. The case has been hanging fire ever since.

BONNIE ROSSLEY COMING.

Mrs. Rossley, theatrical producer of the famous Rossley Kiddies, received word this morning that her daughter, Bonnie, would arrive in the city on Monday from New York and would spend a few weeks vacation here previous to her return for the summer engagement with the big musical comedy "Plenty Of Pep." Miss Rossley has made good with this big Broadway production and friends in St. John will give her a warm welcome on her visit to the city.

SUGGESTS PENSION FOR AGED VETERANS.

Winnipeg, March 17—A new proposal was put before the Royal Commission on soldiers' re-establishment here yesterday when J. R. Bowler, secretary of the Manitoba Command of the G. W. V. A., recommended that all ex-service men suffering on discharge or subsequently as a result of war to a measurable degree from old age, be eligible for pension and treatment under the D. S. C. R. with pay and allowance if necessary.

Feast Day of Ireland's Patron Saint Observed

Special Services in Catholic Churches for St. Patrick's Day

Rev. Eugene Reynold Delivers Fine Sermon in Cathedral—Speaks of Early Life of Saint and Refers to Present Conditions in Ireland—At St. Peter's.

Sons and daughters of Erin today are honoring the patron saint of Ireland. The Cathedral chimes played Irish airs and there were special masses in all the Catholic churches. In the Cathedral special masses at 7 and 8 o'clock and at 10 o'clock there was a high mass with special St. Patrick's Day oration. The collections in all the Catholic churches will go to the orphans. Some of the Protestant churches have arranged entertainments for this afternoon and evening.

At the Cathedral.

In the Cathedral at ten o'clock the usual solemn high mass, in keeping with St. Patrick's Day, was celebrated by Rev. William Duke with Rev. Raymond McCarthy as deacon and Rev. Simon Oram sub-deacon. His Lordship Bishop LeBlanc occupied his throne and Rev. Robert Nugent was present in the sanctuary.

Rev. Eugene Reynolds preached an interesting sermon on the life of St. Patrick. He dwelt interestingly with the early life of the saint and pointed out that his younger life, even before he entered the priesthood, was an example to the youth of today of docility and obedience. Father Reynolds spoke of his entry into Ireland and the spreading of Christianity among the people who had been accomplished in a manner, unique in itself, as not one drop of blood had been shed in its introduction. He also spoke of the national significance of St. Patrick's entry into Ireland and what he had accomplished not only for the spiritual welfare of the country but also for its temporal advancement.

Conditions Today.

Unfortunately, he said, Ireland had experienced an unhappy era from the days of the seventeenth century up to and including the present time. Happily today, however, a new tide had turned and a measure of freedom had at last brought a ray of hope for the future. However, the national safety of Ireland swung in the balance due to intellectual errors on the part of some of those seeking control. One element was misguided and must be rejected, he said, for the future welfare of the state. Barriers had yet to be removed before a lasting and final peace would come to Ireland but means had been set out by both church and state as to how this could be most speedily accomplished. Prayer was needed and to this end Father Reynolds made a strong plea.

Several Irish airs were played on the organ before the 10 o'clock mass by the organist A. S. Godsoe.

At St. Peter's.

A solemn high Mass was celebrated in St. Peter's church this morning in honor of the feast of St. Patrick, patron saint of Ireland. Rev. Dennis Coll C.S.S.R. was celebrant and was assisted by Rev. James Cloran, C.S.S.R., as deacon, and Rev. George Coffin, C.S.S.R., as sub-deacon.

MISS CANADA IS GUEST ON MELITA

Miss Canada, her mother, Mrs. Fred R. Blair, and Mr. and Mrs. Walter H. Golding were guests of Captain Turbul on the Canadian Pacific steamship Melita today. Following an inspection of the steamer they sat down to luncheon, prepared in honor of Miss Canada.

EXPECT TO REACH OBJECTIVE IN Y. M. C. A. DRIVE

The efforts of those interested in the Y. M. C. A. drive are being rewarded and from all indications their objective \$8,500 will be realized, according to a report issued by the committee in charge this morning. To date \$7,600 in cash and pledges has been received and high hopes are entertained of receiving the additional \$1,000 today or on Monday. The committee has decided to continue its efforts until the amount needed is forthcoming.

WATER POWERS OF NOVA SCOTIA

Hydro Development Going on Well in Sister Province—People Everywhere Want It.

That comprehensive investigations of the water powers of Nova Scotia have and are being made with most favorable results, and substantial and most gratifying development of those powers is going forward as shown by the report of the Nova Scotia Power Commission for the year ending Sept. 30, 1922.

The report gives the present and ultimate capacity of the Generating Stations, as 21,000,000 kilowatt hours and 31,000,000 kilowatt hours per year respectively, pointing out that while the contract only calls for 18,000,000 kilowatt hours per year, yet present consumption indicates a total of at least 20,000,000 kilowatt hours per year.

The report states the water supply as being entirely satisfactory, for after supplying power and driving one mill, there remains in storage more water than at the commencement of the season.

Mr. Armstrong believed that when the rates are finally established there will be a great increase of use of power especially for domestic purposes and that perhaps the full amount of power generation will be taken.

In respect to the Mushamush System, the report states that a contract for a modern generator, referred to in the last report, has since been installed and is working satisfactorily.

The report further states with reference to the Government of Nova Scotia that the Town of Truro has made formal application to the Commission for power.

The report gives a great deal of information in respect to investigations made consequent on formal applications for power under the terms of the 1907 Power Act, made at various times during the past two years by Lawrenceton, Paradise, Bridgetown, Bear River, Digby, Annapolis, Yarmouth, and Barrington.

These investigations were carried out in detail and involved the comparison of several sites, not only with a view to an economical development but also bearing in mind the possible future requirements of the district.

The report gives the basis of detail on which the Commission's engineers based their recommendations that a development on the Bear River would be the best and most economical development for the supply of power to the Middleton-Yarmouth area.

The drainage area of the river is 480 square miles. The location is fairly central to the area it would supply. The Engineer's recommendation proposes to deal with the district from Barrington with an independent development.

The report records that the Town of Amherst has made a formal request for power and that a careful investigation of the Economy River in progress indicates this will prove a satisfactory source of power for Amherst and vicinity.

DUKE OF ESSEX ST. ON FIRE. Levy Loses Trousers, but He Has 100 Other Pairs on File.

New York, March 17.—Joe Levy, lawyer, of 51 Second Street, better known as the "Duke of Essex Street," lost a pair of trousers recently as a result of a fire which started mysteriously in his pocket while he was waiting for a case to be called in Essex Market Court.

The Duke said it was only a temporary inconvenience as he keeps a hundred pairs on file at his home 896 Riverside Drive.

When the fire was discovered the Duke rushed from the court room to the corridor where the flames were extinguished with a bucket of water, but not before the trousers had been irreparably damaged.

Putting on his overcoat he hurried to his office next door and sent Oscar Katz, his clerk, in a taxi to his home for another suit.

Mr. Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 7-622 For Sale by All Druggists in St. John.

Girl Guide Notes. The 1st St. John (Trinity) company now has fourteen members. Two of their new leaders, Elsie Bell and Helen Currie, are to have the honor of conveying greetings from the companies to the Chief Guide when she and Sir Robert are here next week.

Unfortunately they are not staying in St. John but, perhaps, will pay us a visit on their return journey.

The 4th St. John (St. Paul's) were unable to have a meeting this week owing to Miss Barber's illness but she is much better and expects to be on hand on Tuesday.

The 6th St. John (Knox) held their regular meeting on Tuesday afternoon. Two new recruits were added to the number. Guide Christie McAfee received her 2nd class badge.

The 2nd Rochesays are very busy with ambulance at present. Their visit March had twice as many days!

"I Had Bilious Attacks and Stomach Weakness"

Mrs. Wm. Robinson, Youker, Sask., writes: "I suffered from stomach and liver trouble, and used to have bilious attacks so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it."

DR. CHASE'S KIDNEY-LIVER PILLS

One pill a dose, 25 Cents a box, all dealers, or Edmanston, Reese & Co., Ltd., Toronto.

"TUT-ANKH-AMEN BILL" PASSED BY ASSEMBLY

It Prohibits the Reproduction or Faking of Archaeological Relics With Intent to Deceive.

Albany, N. Y., March 17.—The Assembly recently passed the Griffith measure, which has come to be known in the Legislature as the "Tut-ankh-Amen Relic bill." It would make it a misdemeanor to reproduce or forge archaeological relics with intent to deceive.

The bill has the support of the State Archaeological Society, which for years has been trying to prevent fakes from being sold at high prices to collectors.

A Croupy Cough

brings dread to the mother's heart. For safety's sake, keep a bottle of Shiloh, the old time remedy, at hand. A very few drops makes the cough easier at once, and taken regularly gives complete relief.

SHILOH FOR COUGHS

gullible public. Public attention was attracted to the Griffith measure because of the worldwide interest in the discovery in Egypt of the tomb of King Tut-ankh-Amen and the belief that the curio market probably would be glutted eventually with "relics" supposed to have come from the tomb of the ancient King of Egypt.

Minard's Liniment for Corns and Warts. Domestic rabbits mate as often as every eight weeks.

MOTHER, INSIST ON GENUINE "CALIFORNIA FIG SYRUP"

Say "California" to Your Druggist and Refuse any Imitation of this Harmless Laxative for Children

When your child is constipated, bilious, irritable, listless, or full of colic, a teaspoonful of "California Fig Syrup" will quickly start liver and bowel action. In a few hours you can see for yourself how thoroughly it works the sour bile and undigested food right out and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. It never cramps or overacts. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

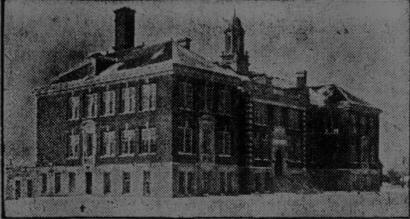

HELPS MAKE RICH, RED BLOOD

There are thousands of people who are ageing and breaking down at a time of life when they should be enjoying that perfect health which carries defiance to disease simply because they are not awake to the condition of their blood. Without organic iron your blood carries no oxygen and without oxygen there is nothing to unite with the carbon in your food as what you eat does you no good. It is like putting coal into a stove without fire. You can now obtain organic iron like the iron in your blood and like the iron in spinach, lentils, and apples from any druggist under the name of Nuxated Iron. Nuxated Iron also contains the principal chemical constituent of active living nerve force; it is, therefore, a true blood and nerve food. It helps create and rebuild new and stronger red blood cells. It has to unite with the carbon in your food as what you eat does you no good. It is like putting coal into a stove without fire. You can now obtain organic iron like the iron in your blood and like the iron in spinach, lentils, and apples from any druggist under the name of Nuxated Iron. Nuxated Iron also contains the principal chemical constituent of active living nerve force; it is, therefore, a true blood and nerve food. YESTERDAY IN THE LEGISLATURE

The Legislature met yesterday afternoon at 9 o'clock and it was announced that the budget would be brought down next Wednesday or Thursday, Premier Veniot, in the absence of Hon. Dr. Hetherington, provincial secretary-treasurer, tabled the report of the Comptroller General on public accounts. This left the members to examine the document, which consists of about 290 pages, in preparation for the debate on the budget next week. It is expected that this debate will take some two days. Hon. Mr. Violette reported that the committee appointed to present the address to His Honor the Lieutenant-Governor had fulfilled its duty and had received a reply which he read.

NEW HOME OF ONTARIO VETERINARY COLLEGE

The Veterinary College at Guelph was recently opened after its removal from Toronto. It is at present situated in the grounds of the Ontario Agricultural College, where the staff and students are in close touch with the live stock holdings of the O. A. C. It is an institution which makes an important contribution to the farming population of the province.

Mr. Scovil presented the report of the committee on standing rules. Hon. Mr. Veniot introduced a bill to authorize the town of Bathurst to issue debentures, also a bill to authorize the sale of town to make temporary loans each year to an amount not exceeding \$40,000.

Mr. Flewelling introduced a bill to authorize the town of St. Stephen to issue debentures, also a bill to amend the act relating to the St. Stephen water system.

Mr. Scovil introduced a bill to authorize the town of St. Stephen to issue debentures, also a bill to amend the act relating to the St. Stephen water system.

Hon. Mr. Byrne introduced a bill respecting live stock and live stock products. He explained that some doubt had arisen regarding the provincial act relative to live stock, as to whether it came within the scope of the Legislature or Dominion parliament. It had been decided in order to remove that doubt that the act of the federal parliament be supplemented by the provincial legislation.

Mr. Flewelling gave notice that on Tuesday next he would move for the suspension of the rule to permit introduction of a bill relating to the town of St. Stephen.

Hon. Mr. Robinson gave notice that on Tuesday next he would move for suspension of the rule to permit the introduction of a bill to amend the New Brunswick Pharmaceutical Act, and relating to the Highfield street Baptist church, Moncton.

Hon. Mr. Veniot rose to a question of privilege and said that he would like to make a brief reference to a matter to which he had called attention yesterday. He had referred to a speech delivered in the House by Rev. H. A. Goodwin, as reported in the St. John Telegraph. He said at the time that he hoped the report was not correct. He had since met the Rev. Mr. Goodwin who had fully explained what had taken place at the meeting. A statement by Rev. Mr. Goodwin had appeared in today's Telegraph, and when he gave out that statement he (Veniot) did not believe he was aware of what had appeared in the paper in reference to his meeting with the Rev. Mr. Goodwin in his statement to the House. Mr. Goodwin, in conversation, explained that in his speech that he in no way reflected on the Premier and had not said that a member of the liquor commission was concerned in the incident he had related. In his interview with the Telegraph he said that a young man who claimed to represent the liquor commission had called on the Premier and had related to him what he had said in the House on account of the incorrect reports that had been published.

The House then went into committee with Mr. Hayes in the chair and took up consideration of a bill to amend the act relating to the Provincial Hospital.

The committee next went into consideration of a bill to extend the time for completing the St. John and Quebec Railway from Centreville to Antigonish until Dec. 31, 1928.

The committee arose and reported progress.

Hon. Mr. Veniot submitted the report of the New Brunswick Electric Power Commission, the report of the honorable Minister of Public Works and the report of the Comptroller General.

Hon. Mr. Veniot reported that the report of the comptroller general be referred to the committee on public accounts, also that 200 copies of the Journal of the House be furnished for the use of the honorable members of the House, and that the time for filing private bills be extended up to and including Tuesday, March 27.

Hydro Report.

Premier Veniot tabled the report of the New Brunswick Electric Power Commission for the year ending October 31, 1922. The total cost of the Musquash development up to that time is given as \$1,898,547.71. Expenses incidental to construction of transmission lines and surveys brought the total expenditure to October 31 to \$2,236,147.91. Sums spent on contracts, supplies, salaries, etc., totalled \$784,162.20. There was expended on the construction of the Bathurst Miramichi trans-

mission line \$122,733.17; on the St. John-Moncton line (including hold-backs) \$189,938.54; on the Westfield line (including hold-backs), \$20,373.30; on the Fair Vale line (including hold-backs), \$1,810.84; on the Norton-Apohaqui survey, \$41.93; and on investigating at Lepreau, Shogomoc, Tete-a-couche and Nepesigan, \$4,115.40, making a total expenditure to October 31 of \$2,236,147.91.

(Answering a question in the House today Premier Veniot said that \$2,000,357.29 had been expended on various hydro projects to January 31, 1923.)

Public Accounts.

The provincial public accounts, tabled in the Legislature yesterday, showed a total outlay of \$227,058.93 for the year ending October 31, 1922.

Agriculture Department.

The report of the Department of Agriculture was tabled on Tuesday by Hon. D. W. Messerue. Although unusually large crops were reported it was said that the farmer's financial condition had suffered greatly on account of the low prices. In many places it had been found necessary to give the farmers aid in the way of free fertilizer.

Public Works.

The Public Works Department report showed the expenditure of \$9,477.59 on wharf repairs. Ordinary bridge expenditures totalled \$265,985.01 and \$994,285.06 was expended on construction and rebuilding of permanent bridges. The total amount spent for permanent roads from the automobile fund was \$55,975.62. The St. John County expenditures were as follows: Ordinary roads, Provincial, \$9,406.93; municipal, \$7,370.83; automobile fund, \$18,570.20; Federal aid, \$13,790.22.

MORNING NEWS

OVER THE WIVES

The will of the late W. L. Carr was recently probated before Judge Jones in Woodstock. The estate valued at \$101,000 was left to the widow after the following bequests were made: \$1,000 to his sister, Mrs. A. D. Holyoke; \$2,000 each to his brothers, Stewart of Boston and Sabine of Bellingham; \$2,000 to his nephew, Byron Carr; \$1,000 to his daughter, Mrs. A. D. Holyoke; and \$5,000 to go towards the erection of a community hall in the town of Woodstock.

STORM CAUSES FLOODS

St. John last night, had a taste of spring. There was water everywhere, in the streets, on the sidewalks and in pools in low places. The unwary pedestrian coined sundry phrases with which to describe his sensations when dropping suddenly into one of these. The storm began yesterday morning about eleven o'clock and turned to rain about noon accompanied by a high wind. Only 34 of an inch of rain fell. The wind drove a 2,300 volt primary wire against a metal sign of the Western Union Company which caused it to burn out. This threw many of the lights in the vicinity out of commission though the damage was repaired as soon as possible. The street car service was interfered with to some extent though the cars were kept running. In Fairville the storm was so bad that the schools closed at noon. The street cars were able to go only to the Post Office. The steamer Montrose was delayed in sailing last night but got away early this morning.

White House Warned.

It was said today the insurgents would turn their batteries loose on Chairman Winslow and other Republican members of the conservative type. This committee and seek to gain control of it.

The House Rules Committee is another on which the insurgents have a close eye. This committee in the last Congress practically put a veto on various measures. Under the rules of the House it has great power.

Conferences of the insurgent Republicans have been held in the office of Representative John M. Nelson of Wisconsin and a close friend of Winslow and La Follette.

The White House has been advised of the activity of the insurgents. A letter to a new member urging him to stay out of the Republican caucus was conveyed to the Administration Representative. One of the reasons why the President has taken a stand against an extra session is that he fears Republican insurgency in the House, as well as in the Senate, might be responsible for the Administration to have a legislative programme shaped to its liking.

REJECTS PRESUMPTION OF "WEAKER VESSEL"

Connecticut Senate Declares It Shall Not Apply to Seaman Death of Married Pair.

Hartford, Conn., March 17.—By a bill passed by the Senate last Wednesday which is to be adopted by the House next week, the deaths of husband and wife in a common tragedy or accident are declared to be simultaneous unless there be clear evidence of the priority of death.

Connecticut, by statute law, thus rescinds the operation of the common law, which has always presumed a woman to hold the weaker vessel and therefore the first to expire when she and her husband, die from a common cause.

22 TO BOLT REPUBLICAN HOUSE CAUCUS

Band Led by Wisconsin Followers of La Follette Threatens a Party Split Equal to 1909 and 1910.

(Washington Cor. New York Tribune.) An insurgent movement has begun among House Republicans which threatens to rival the famous insurgent organization of 1909 and 1910. It is likely to have profound effects on legislation, and its political effects, too, may be far-reaching. The movement is led by Wisconsin Republicans who are in close touch with Senator La Follette and other members of the progressive group in the Senate.

As the result of a number of informal conferences and correspondence with new members a strong contingent of House Republicans will refuse to attend the House Republican caucus and will refuse, also, to be bound by its decisions. This contingent is said already to number twenty-two and efforts are being made to add to it.

The strength of the insurgents, dependent course, will be in the fact that, by combining with the Democrats, they easily can command a majority of the House. Thus they can virtually dictate to the House organization and say what legislation shall pass and what shall not.

The new House of Representatives has 223 Republicans, 20 Democrats, one Independent, one Farmer-Labor member, one Socialist, and, according to the last official figures, three vacancies. It is apparent from this that a score of insurgents would be in a position easily to hold the balance of power.

The insurgent movement may affect the contest over the speakership, but the real aim of the insurgents is to force reforms in the composition of important committees.

It is in the make-up of certain important committees that the insurgents have their main purpose to make their influence felt. While the Committee on Committees will nominate the men to fill the Republican places, it will be up to the House to ratify the selections. In other words, the House actually elects members to committee places.

One of the committees, which the insurgents are bent on organizing to suit themselves is the Committee on Interstate Commerce, which has jurisdiction of railroad legislation. The insurgents hope to displace Representative Winslow of Massachusetts, the present chairman. Mr. Winslow for the last two years has opposed the modification of the Cummins-Esch transportation act. He has resisted all demands of the farm bloc and others to change the rate of freight charges and to facilitate the lowering of railroad rates.

White House Warned.

THE TREND IN FINANCE

U. S. Business Men Are So Optimistic of Future That Industries Are at Capacity Production Filling Their Orders.

(New York Tribune.)

It was particularly evident last week that the confidence of business men has progressed to the point where there is willingness to take even the most conservative of positions. This is not a foreboding sign, but it is a sign of a more active and more aggressive attitude on the part of business men. The change from a state of caution to a state of confidence, while ascertaining as to the nature of the business recovery, is a sign of a more active and more aggressive attitude on the part of business men. The change from a state of caution to a state of confidence, while ascertaining as to the nature of the business recovery, is a sign of a more active and more aggressive attitude on the part of business men.

Are You Saving Money?

Dollars carried in the pocket soon disappear. Deposit them in this Bank and they will earn interest and be available any time you need them.

The Dominion Bank

ST. JOHN, N. B. W. A. FISHER, Manager.

The Canadian Pacific Railway

WILL FIND Farm Help for Eastern Farmers

TO BE OF SERVICE to Eastern Canadian Farmers and help to meet their needs in securing competent farm help, the Canadian Pacific Railway is prepared to utilize its widespread organization to provide such help from a number of countries.

THE CANADIAN PACIFIC RAILWAY will receive and arrange to fill applications for male and female farm help to be supplied from Great Britain, Belgium, Holland, Denmark, Switzerland and Norway. In all of which countries the Company has representatives who have farmed in and the familiar with Eastern Canadian conditions and who are now in touch with such men and women ready and anxious to come to Canada.

THE GOVERNMENTS of the countries above mentioned have expressed their willingness to aid the immigration of this class of their peoples. In order to fill such applications satisfactorily and bring the help to the farmer at the proper time and with a clear understanding of the requirements and obligations of each, a printed "Application for Help" form has been prepared which can be obtained from any of the offices listed below.

The Company will make no charge to the farmer for this service nor will the farmer be required to make any cash advance whatsoever towards the travelling expenses of his help to the nearest railway station. The information necessary for the filling of these application forms, which will be held in strictest confidence, covers the following points—the kind of help wanted—male or female—married or unmarried; date required and for how long; nationality desired; monthly wages offered; kind of work offered, etc.

Mrs. Whitney's Statue Of Buffalo Bill Finds Favor in Cody, Wyoming

New York, March 17—Wyoming is "plumb satisfied" with the statue of Buffalo Bill made by Mrs. Harry Payne Whitney, and the town of Cody, where the statue is to be set up, is more than delighted.

ONE DAY AT JOB, ENDS HIS LIFE

Teller in Bank Shoots Himself—Accounts Found to be All Right.

New York, March 17—Resigning after one day's work as paying teller in a Bronx bank to resume his old job as clerk in a branch of the Chase National Bank at 320 Broadway, A. Russell Kaster, 30 years old, exchanged greetings with other employees when he reached his desk about 9 o'clock in the morning and then went to the basement and ended his life with a revolver shot. Kaster was dead when Dr. Scott Rutherford of the Beckman Street Hospital arrived.

A. R. Kaster, who committed suicide in the washroom of the Shoe and Leather Branch of the Chase National Bank this morning, resigned on Feb. 28 to accept a position with the Cosmopolitan Bank. Two days ago he asked for reinstatement in his old position, which was granted. We know of no reason for the suicide. His accounts were examined and found correct when he resigned from the bank and we have every confidence in his character.

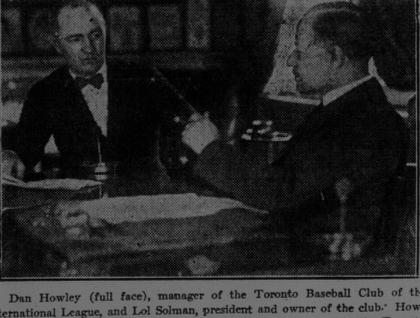

times during the past decade encountered special difficulties, these disabilities are, fortunately, constantly diminishing. Those who follow Mexican affairs are aware that, owing to a provision in the new Mexican Constitution questioning certain property rights, Washington has not yet recognized the Obregon regime. And while the statement is lightly made in Mexico that Mexico is doing and can do very well without recognition, one hears in very influential circles, and it can be believed, that recognition by the States is earnestly wished for, to be followed by other governments. It is believed that much additional mining and industrial activity would immediately ensue on such a development.

A St. John Girl Wins Scholarship

Rev. Dr. David Hutchinson and Mrs. Hutchinson returned yesterday from New York after attending the graduating exercises at Mount Sinai Training School for Nurses. Their daughter, Miss Grace Edith Hutchinson, was a member of the graduating class and received in addition the Estelle and Hugo Blumenthal scholarship of \$800 which entitles the winner to a course of teacher training at Columbia University. Another St. John girl in the class of graduates was Miss Roberta Robinson, daughter of Frank Robinson.

GUIDE TORONTO BASEBALL CLUB

unable to determine the cause of the wound. Belief was expressed, however, that it had been inflicted with a penknife. Questioned at the hospital, the girl first told a story of having hurt herself by falling on a piece of glass while skating in the park. Later she said that a man approached her at Twenty-eighth street and Second avenue asking her to distribute certain matter for him, and that after she had done that he took her in an automobile to Coney Island. Returning to New York, they went to South Ferry and then to Staten Island, where the man tried to attack her. When she resisted, the girl said, he stabbed her. In a third version the girl is said to have changed the scene of the alleged stabbing from Staten Island to Palisade Park.

Joe Moore Defeats Forsman By Inches

New York, March 17—Joe Moore, of the 181st Street Ice Palace, increased his point advantage in the race for the Iceland trophy at the latter rink Wednesday night when he won the final of the quarter-mile Class A race, defeating Paul Forsman of Iceland, by inches. Moore came from behind and barely got up to win in 0:44.5. Bob Hearn, Millrose A. A., was a close third. Moore also finished third in the three-quarter mile race.

by a fire which broke out in the three-story brick building at the corner of Princess and Charlotte streets owned by F. E. Williams. The blaze originated in the fruit and candy store conducted by Claude Richardson and burned along the walls and ceilings, badly damaging the whole interior. Several windows in the back had to be broken and the plate glass windows in front were cracked by the heat. Mr. Richardson estimated his loss at about \$2,000 with insurance of \$1,500. The loss to the building was placed at \$2,000 with no insurance. Dr. S. H. Calne, who has offices directly above the store, suffered heavily from smoke and cutting. He carried \$1,000 insurance. Damage by smoke was done to
