**VESSEL BROKE IN TWO;
MEN ON EACH SECTION**
More Disasters Reported From
P. E. Island.
Two Norwegian Barks Wrecked, and There
is Little Chance of Saving the
Crew of Them.

CHARLOTTETOWN, P. E. I., Nov. 7.—A Norwegian bark supposed to be on her way to Campbellton, N. B., is ashore at Black Bush, on the north side of the island, about fifteen miles west of East Point. She is supposed to be a total wreck, but no particulars have yet been received.
Another Norwegian bark is ashore between Priest Pond and Black Bush. She is loaded with deals. The bark has broken in two. There are men on both sections with poor prospects of their lives being saved at present.

**W.G.T.U. WILL JOIN THE
TEMPERANCE FEDERATION**
A Lot of Reports Read and Discussed—
Missionary for Lumbermen—Women
in Jail.

FREDERICTON, Nov. 7.—This morning's session of the Provincial W. C. T. U. convention opened with a prayer by Mrs. Troy, Mrs. Strang and Mrs. Poole, delegates from P. E. Island were introduced and gave reports of the convention. It was resolved to appoint five delegates to meet with the Temperance Federation.
Mrs. Burt read the report upon scientific temperance instruction. Mrs. Bullock read the report on Sunday school work and in the discussion which followed the Ontario W. C. T. U. quarterly lesson leaf was very highly recommended for use in the Sunday schools. Mr. Gilman, the auditor, reported the treasurer's accounts correct. Mrs. Day read the report on peace and arbitration and the discussion was taken up by Miss Mahan of King City, Mo. Mrs. Sampson gave the report of work for the lumbermen and raftmen sent by Mrs. Shaw the superintendent.

**BREACH OF PROMISE SUIT
WILL NOT BE APPEALED**
Verdict for the Aged Defendant Must Now
Stand—Case Was Not Entered
at Present Term.

The famous breach of promise case of Gibson vs. Rowley will not come before the courts again.
It will be remembered that Miss Ethyl Grace Gibson, of Baywater, aged 23, some time ago took action against Capt. George Rowley, an octogenarian of Carleton, for damages on the ground that he had agreed to marry her and had failed to do so.
The case was tried before Judge McLeod at the June term of the supreme court in this city and a verdict was entered for the defendant. Mr. Gibson, father of the plaintiff in the action, announced later his determination to appeal the case, as he understood his daughter would not be re-sentenced to the hospital in which she was training until her position in this action was more fully justified. The appeal should have been entered on the docket of the court now in session at Fredericton. As this has not been done the decision is beyond impeachment, and Judge McLeod's verdict stands.

The Deaver is still at No. 3 crib site, and the job is nearing completion. Mr. Mayes expects to have the site ready for the sinking of the crib on Saturday.

**NO SIGN OF LIFE
ON BARK ADEONA**
Signals Have Not Been Answered
Since Monday
And the Fate of the Crew Is Unknown—
Amid Wintry Storm Crowds Search
the Beach for Bodies.

RICHIBUCTO, N. B., Nov. 7.—The fate of the crew of the wrecked Bark Adeona, is still unknown. This morning boats are making another attempt to reach the wreck.
Light Keeper Richard reported that the distress signal flying from the bark was hoisted on Monday before the boat left the vessel. Since then no signs of life have been seen aboard the wreck.
The brigantine "Lady Napier" anchored inside the beach answering the distress signal of Monday but received no reply. Signals have been sent up from the brigantine several times since, but there is no response from the wreck.
Crowds of people are searching the beaches for more bodies. This morning, with snow falling, the search was moderated.

**LOOSENESS SHOWN
BY BOARD OF HEALTH**
Dead People Summoned to
Attend Court.
For Not Taking Out Milk Licenses—
Enquiry as to a Cow That Was
Killed Long Ago.

Yesterday 119 licenses had been granted to milkmen who have complied with the regulation of keeping the milk in earthenware jars, and eleven vendors who had been reported by the Board of Health inspectors and who had not taken out licenses were to have appeared before Magistrate Ritchie. There was only one of the reported in court and that was Joseph Albert, who with a mixture of broken English and other languages informed the court that the people who reported him had little to do. He only kept a cow for milk purposes, and while the cow was alive and being kept, until necessary to kill, he milked her, just to get enough milk for a few cups of tea. When the neighbors could not get milk in the stores they came to him and were accommodated. He had no cow at present and the last one he had is about eaten up by this time. He was excused and as he persisted in talking was told he was doing an unnecessary lot of work.

The names of the persons reported to the Board of Health were handed into the police court and the duties of notifying the offenders was left to the policeman. One case in particular was most peculiar. A police officer was instructed to notify a Mrs. Campbell at 51 Adelaide street. The blue coat left word at the house, and the next day Miss Campbell, who resides at that number, called the central stationer and telephoned and inquired why she should be summoned to court. On enquiry she was told it was not she that was wanted but Mrs. Sarah Campbell, who was reported by the Board of Health. Miss Campbell was naturally indignant when she informed the police headquarters that Mrs. Sarah Campbell was her deceased sister-in-law who had been dead over a year and a half, and while alive had never owned a cow.
It is needless to say that the name was struck off the list and apologies were in order. How the name could have been reported is unknown to the innocent policeman who left the word at the Adelaide street home and who is in no way to blame.

Magistrate Ritchie announced from the bench this morning that after a consultation with Coroner Berryman it was not thought necessary to have two investigations going on at the one time, and until the coroner's jury has brought in a verdict on the death of James King the inquiry into the Waterloo street fire early Sunday morning will not be commenced.

The suggestion made through the Star yesterday by a number of leading citizens regarding the formation of a 75,000 club for St. John has aroused widespread interest, and on all sides opinions are expressed in support of such a scheme. It has been suggested that those men who were the guests of Mr. Downie at the Union Club should be asked to take an active part in the organization when it is started, and there is little doubt but that these citizens will be pleased to do all in their power.
The Star has interviewed a number of men of all classes, and has not yet met one who is inclined to throw cold water on the scheme. A good many were surprised that such a movement had not been undertaken before, others who did not care to express their opinions just yet promised to do so when they looked further into the working of such clubs in other towns.
Last evening, communications were sent to the mayors of Vancouver, Nelson and Calgary asking for details of the institution, methods of working and results to date of the clubs which have been organized in those cities. Answers will likely be received within a week and by that time it may be that the scheme will be sufficiently advanced to warrant the calling of a public meeting as has been advised by the mayors of Vancouver and Nelson. Among those who have been seen are the following:

JOHN E. WILSON.
J. E. Wilson, speaking, said that such an organization was just what is needed for the city. The population has been at a standstill for a number of years and it is time that something was done to keep the people in this part of the country instead of letting them go out West.

C. J. MILLIGAN.
C. J. Milligan when approached on the subject said that St. John should be better advertised. He stated that at one time the St. John Tourist Association was doing good work, but today was an absolute failure. He would be in favor of a movement which would tend to increase the city's population, but would suggest that instead of a new association being organized, new life be put in the work of the Tourist Association. In their books, the great facilities offered here are not mentioned. Mr. Milligan thought that in the Tourist Association's literature good advertising should be given the city.

W. S. BARKER.
W. S. Barker thinks that such an organization if worked along the right lines would do a lot of good. He believes that St. John could be made the centre of several kinds of manufacturing.

C. B. ALLAN.
C. B. Allan when seen by the Star said: "I believe something on the lines of the 75,000 club would be beneficial as it helps to put a little enthusiasm into the people of this town. It is a move in the right direction, but can only be made a success by all doing something to help it. The young can say or do something in favor of our city, which is quite as good a town as many of the cities of the West."

MONCTON, N. B., Nov. 7.—Criticism of the manner in which the city council handles city business, and the actions of certain city officials, culminated at a meeting of the council held last night in the introduction of the resolution that the legislative committee be instructed to have legislation prepared and presented to the next session of the legislature authorizing a full and complete investigation, under oath, into all matters relating to the administration of civic affairs, including all departments before the police magistrate of the city, upon application of any ratepayers, with full power to the police magistrate to subpoena and enforce the attendance of witnesses and produce the records and all papers demanded. The examination to be conducted in the same manner as an oral examination of the opposite party.
During the session there were many condemnatory expressions of the manner and the conduct of the council's work.
Ald. Edgett said the business was conducted in a scandalous way and that an injunction ought to be placed in the court.
Ald. Welch said that the laws were not complied with and that the pro-

ceedings were of a farcical nature, especially so in regard to reports of committees.
The assessment system of the city was referred to as absurd and it was stated that professional men with large and lucrative incomes are assessed on four or five hundred dollars.
All aldermen were of the opinion that it was time for reformation in the manner of conducting city business.
A communication was read from W. A. Russell, of Shediac, stating that he had been retained by A. W. Holmes to bring an action against the city of Moncton for unlawful imprisonment in the city lockup. He claimed not less than \$100 damages. Proceedings would be commenced at once unless the matter was settled.
James Babkirik, of Sussex, gave the police officers at Moncton a quite severe tussle before he was arrested last night. He was drunk on the midnight express from St. John and was disturbing other passengers. No one appeared to prosecute this morning and he was freed for drunkenness.
A well known resident passed away this morning in the person of Thomas Fleetwood, who for more than twenty-five years has been employed in the I.

W. ALLAN BLACK.
W. Allan Black, proprietor of the Clifton house, stated that he was in favor of such a club being formed. He thought it would help to bring new industries here, and would also increase the city's population.

G. WILFORD CAMPBELL.
G. Wilford Campbell, of the firm of Campbell Bros., when seen by the Star said that he was in favor of having such a club organized. He thought that if a large membership could be obtained the city would be sure to derive some benefit from it. The employers would need to promote the movement among their employees, and in this way men of all classes could be represented in the club. Mr. Campbell thought that new industries might come to the city if such a club was organized.

G. E. BARBOUR.
G. E. Barbour said there is no doubt but such a club would be a good thing for the city. It would tend to increase the interests of the citizens, and would be productive of much good to the city itself.

A. O. SKINNER.
A. O. Skinner said that the citizens should have a fund by which they could offer inducements to new manufacturers and industries which wished to come here. The time is now favorable as this new assessment law exempts all machinery in the factories from taxation, and this itself would be a strong inducement.

N. W. BRENNAN.
N. W. Brennan thought favorably of the scheme, and was heartily in support of the formation of a club which would increase the city's population.

**YOUNG DINGEE HAS
BEEN AT IT BEFORE**
Admits Having Entered
Vaughan's Grocery Store,
Was Traced by a Mitten—Magistrate
Advises Parents to Keep Children
in Their Home!

With tears streaming down her face the mother of little Charles Dingee today sobbed to the court that "I never knew that Charlie was a bad boy before."
Charlie is only a little tot. He will be nine years of age on the 25th of this month, and as he stood before the judge and alongside of his weeping mother his lip quivered and he burst into tears. Although young and looking very small for his age, little Charlie was dealing the past couple of weeks been taking a risk in house breaking at night, and many an able-bodied burglar would shrink from it.
The Star yesterday announced where young Dingee had been taken from school and arrested by Policeman Greer on the charge of breaking into Thomas Brosman's store on Monday night and stealing about \$12. When arrested the young fellow acknowledged that he had stolen the money and took the policeman to the place where he had hidden it.

In the police court today Charlie was the only prisoner, and with his swollen eyes and pitiable sob he showed that he felt penitent for the time. He was fined by quite a gathering of spectators, but his actions for the past couple of weeks were much against him. Mr. Brosman testified that he left his store on Main street about nine o'clock Monday night, and as some repairs were being made a board was placed against a back window. On Tuesday morning when he returned to the store he was surprised to find the board removed from the window and a lighted lamp sitting on the floor. A further investigation showed that the cash drawer had been opened and about \$12 stolen and that not being satisfied with that the burglar had broken a meat axe upon many smashing parts of the safe. He reported the matter to the police and after some few hours work, Policeman Greer arrested Young Dingee.
Policeman Greer told of the arrest and the boy's confession. He also said that on the night of October 26th, 28th and 29th the store of Samuel P. Vaughan, an 128 Adelaide street, had been entered and a quantity of gum and candy stolen. The thief had dropped a black mitten in the store, and with this as a clue the policeman managed to find the mate to the mitten in young Dingee's home. The mittens were returned to the boy's mother this morning, and the money, which was a couple of dollars short, returned to Mr. Brosman.

The magistrate spoke for some length on how a boy should be looked after. The child of today is given too much of his own way. He is allowed to stay out when he should be in bed. If his parents do not give him money he must have it and will steal. Nearly all of the inmates of the reformatory are young fellows who have been allowed to stay out nights to attend the Opera House or York Theatre. The places of amusement are all right and the plays probably good, but it is late at night when they are going home. A back window or door is tempting, they enter, steal and finally land in the reformatory. It is then that the parents say they did not know the boy was out, or that he was selling papers, etc. The place for the small boy at night is in bed after he studies his lessons for school. His honor cited a recent case where on a recent night about 11:20 o'clock, while returning home from posting a letter, he found a small boy curling up in a doorway to spend the night. The boys should not be on the street at night.
The Dingee boy was remanded to jail until the magistrate decides what sentence shall be imposed.

**MONCTON ALDERMAN WANTS
CIVIC BUSINESS INVESTIGATED**
Seeks Legislation for an Enquiry Under Oath Whenever
Demanded—Mr. Fleetwood Dead—A Criminal
Assault Case.

The funeral of Edward Frittle was held in Boston, will take place tomorrow afternoon at four o'clock from Chamberlain's undertaking rooms, Mill street.

C. R. shops and who formerly lived in St. John. He was eighty-five years of age and belonged to England. A widow, son and daughter survive, the latter being Mrs. L. G. E. Lawson, widow of former city clerk of Moncton, and the son, Edward J. Fleetwood, of the Imperial Oil Company, St. John. Deceased was a well known member of the Central Methodist church and was held in general esteem throughout the city.
A report comes from Springfield, Junction that J. C. H. Baggage, a Mason of that place, has been charged with criminal assault upon a ten-year-old girl, and was last night arrested at Amherst. He had two valises with him and was last night bound for the United States. The child assaulted is said to be in a very critical condition.

SPORTING MATTERS

FOOTBALL

ST. JOHN UNION MEETS.
A meeting of the executive of the St. John Football Union was held last evening. It was decided that the cup presented to the club by Ald. T. H. Hylton, should be offered to the St. John Rugby Football Union for competition next year. The Marathons would like to play an all St. John team next Saturday if arrangements can be made.

HIGH SCHOOL PROTEST GAME.
The High School football team through their captain have sent a formal protest against the awarding of the recent High School Victoria game to the latter team. The protest will be taken up for consideration at a meeting of the Junior Football League which will be held in the Y. M. C. A. rooms on Thursday evening. Each club representative in the league is entitled to send two delegates to the meeting.

MONTREAL ASS. TO WITHDRAW FROM THE C. A. A. U.
A sensation was caused today by the announcement that it was the intention of the M. A. A. U. to secede from the Canadian Amateur Athletic Association. The trouble is due to the refusal of the latter body to amend its definition of an amateur so as to allow amateurs to compete with and against professional athletes without endangering their amateur standing. The C. A. A. U. took the stand that amateurs must be amateur in every way. President Grierson of the Civil Service Amateur Athletic Association, Ottawa, added fuel to the flame by making charges that most of the teams playing in the league, supposedly amateur, had in their men who were in reality professionals. He promised to make charges against individuals, and this has done. President Starke is to appoint a committee before which Mr. Grierson is expected to substantiate his assertions. He should have no difficulty in doing so, for everybody is well aware of the fact that the conditions are as he states.

In the meantime the decision of the Montreal Amateur Athletic Association to quit the association has brought a new element in the fight. The Montreal association was a leader in the formation of the C. A. A. U., and if it deserts it will take all local interest out of the body. The contention of the Montreal men is that it is far better for the interest of sport that there should be only two classes in competition, the amateur and the professional, and the semi-professional who had been in recognition under the present system, be

RHEUMATISM
I will relieve your Rheumatism in a few days. Price 25c. Money-back guarantee.

KING'S BIRTHDAY PARTY.
Friday night in Victoria Rink the regular skating programme will be augmented by a number of dances, which is sure to be a great attraction. The dance held in the Vic on Halloween night was a unique and pleasing feature and many participated in it. In fact all the features at the big rink nowadays are bright and catchy, and increasing attendance is proving the appreciation of the young people. Band again tonight.

LOCAL NEWS.

Eyes to be fitted properly should be tested scientifically. Guess work is not safe. D. Boyaner's system of examining the eyes is thoroughly scientific and ensures him an exact and optical error of eyesight. Call at 38 Dock street.

The Executive Committee of the R. L. Borden Club met at their rooms in the Ritchie Building last evening and elected Prof. A. Claver, secretary, and Homer D. Forbes to the Executive Committee.

A Chinaman in the city has the following card nicely painted all in one sentence. "Remember thy Creator in the days of thy youth close the door."—Moncton Transcript.

The special committee of the Common Council which was appointed to cooperate with a committee from the Board of Trade to try and induce a big rolling mill industry to locate in St. John will meet this afternoon at 3 o'clock.

Suffering from a bad cut in his foot a man named Crawford, a resident of this city, was driven in a motor car from the hospital yesterday. Crawford was engaged in chopping at Loch Lomond and yesterday while at work there his axe slipped and split his foot. He was given what attention could be rendered on the spot and was then sent to the hospital, where the wound was dressed. He was afterwards taken to his home on Brunswick street.

His desire to save a few minutes' time resulted in Thomas Jarvis meeting with a rather painful accident last night. Jarvis endeavored to cross the Marsh road, and as the trench for the new water pipe intervened he decided to climb over instead of going around. In doing so he slipped and fell into the ditch, wrenching his ankle badly. He was taken to the hospital, where the boarding house on Marsh street by a couple of men who were passing.

A musical recital of unusual merit was given last night in Trinity school room. Miss Pauline G. Biederman gave a brilliant and artistic performance on the piano. It is seldom that St. John music lovers have an opportunity to listen to a recital of such distinction, and the programme was enjoyed to the utmost. Miss Biederman was assisted by Mrs. J. M. Barnes, J. A. Kelly and Eric Titus, who also took part in the programme, were both in good voice and added much to the attractiveness of the evening's entertainment.

Stmr. Calvin Austin arrived in the city last evening with a small number of passengers. The weather was quite rough on the trip down. It was reported by those on the ship that a storm was brewing and that the escape from drowning while the steamer was in Eastport yesterday. The storm was reported to have been a heavy one and that the boat was prepared to be launched from the Austin. However a boat was sent out from the Eastport and the steamer was saved, although nearly exhausted.

The death occurred yesterday of Francis O'Neill, in the 78th year of his age, at his residence, 176 Rockland street. The late Mr. O'Neill arrived in this city on June 1st, seventy-three years ago, from Ireland. For thirty years he was in the employ of W. H. Thorne & Co. He, however, retired three years ago. The late Mr. O'Neill leaves a wife, four sons and three daughters. The sons are James, Francis, William and Charles, and the daughters, Katie, Lillie, and Minnie, all at home. Deceased is also survived by three brothers, John O'Neill of Main street, Charles of Moncton, and Thomas of Yarmouth, and one sister, Mrs. Eliza Gray of Main street.

Premier Tweedie, Attorney General Pugsley, Surveyor General Sweeney, and Chief Commissioner Hollis will meet in the city last evening for the meeting of the government in Fredericton today. The chief matter for consideration will be the appeal from the decision of the Provincial Board of Health in the case of the city of Fredericton in regard to the dumping of sewage into the river. The case was decided against Fredericton, and is now up for appeal to be considered by the entire executive. The case is an important one and expert evidence is to be produced by both sides.

Hon. Mr. Tweedie said that the matter would take more than one day for consideration, but when the business in Fredericton is completed, the government will meet in this city—probably on Friday—and the tenders for the Provincial Government supplies will be opened and awarded.

Regarding Kent county, Premier Tweedie said that the outbreak had probably been greatly exaggerated and as the cases were of a mild type, and the fear of the further spread of the disease had greatly subsided.

QUEBEC, Nov. 6.—A burglar has introduced a new method of robbing families residences. Last week he put it into practice for the first time, when he managed to learn that the wife of J. R. Thomson, manager of the Upper Town branch of the Montreal Bank, was ill and being cared for by a trained nurse. He gained entrance to the house late at night, and dressed in female apparel similar to that worn by the nurse, who never having done such a thing in the family said she also saw her. She was driven in her dental car to a place where she was hidden. A number of valuable articles were found to be missing from the house. J. W. Johnston, local manager of the Quebec Bank, who resides on St. John street, complains that the same thing happened in his house.

OF INTEREST TO TEACHERS

Circular Issued Recently by the Provincial Association Contains Encouraging Reports.

(Educational Review.)
From a late circular published by the New Brunswick Teachers' Association the following encouraging statements are made. It has now members in every city and in thirteen counties of the province, and is fast becoming a power for good in educational circles. From 1884 to 1902, salaries of all classes of New Brunswick teachers steadily declined; but since the N. B. T. A. was initiated in Albert county, September 25, 1902, salaries of every class have increased, the gains from June 30, 1902, to June 30, 1903, being for each class as follows: First class male, \$7 per year; second, \$5; third, \$3; first class female, \$4; second, \$3; and third, \$2. The aggregate gain to the profession in those three years was \$34,725, while the amount of dues paid to the N. B. T. A. and its subordinate associations did not exceed \$300—a very good return for the investment. The association have succeeded so well during its first three years, when only a small part of the profession, mainly of the higher classes, were enrolled, what may it not accomplish when all, or the majority, of the unorganized teachers become members. The National Teachers' Union of Great Britain, founded in 1870, includes over three-quarters of the profession, and has succeeded in bringing salaries and teaching conditions up to a respectable level, and is consulted by the British government before any important legislation respecting education is introduced. The Chicago Teachers' Union has since 1886 revolutionized conditions in that city. The Nova Scotia Teachers' Union, organized in 1868, has succeeded in securing from the provincial government a system of pensions for teachers. What other teachers have gained, we may gain if we unite and work together.

ENGLAND WANTS A LARGER SHARE OF OUR EXPORT TRADE

Board of Trade Pledges Its Support to the Mission of Mr. Grigg, the British Board of Trade Commissioner Who is Here to Strengthen the Commercial Relations Between Canada and the Mother Land—Resolution Passed Urging that the Government Appoint a Committee to Consider Technical Education.

Richard Grigg, a gentleman sent to Canada by the British Board of Trade, was present yesterday at the meeting of the local Board of Trade. A large number of representative citizens were present and heard Mr. Grigg's presentation of his mission. Mr. Grigg did not arrive at the meeting till late, but in the meantime other business was taken up.

The secretary read a report of the meetings of the council which had been held during the month. All the matters reviewed have already been brought to the attention of the public through the press.

W. S. Fisher at the opening said that the people in this country are beginning to realize the absolute need of technical education. Not that education is not being given, but that it is not being given in the way which would make experts but rather a broad education. He therefore moved the following resolution:

"Whereas, the scarcity and need of skilled labor throughout Canada is becoming more and more marked and is proving a very serious handicap to the country along industrial and other lines; and believing that it is the duty of the federal government to take such steps within their power as may be necessary to overcome this difficulty.

"Therefore resolved, that this board heartily concurs in the resolution presented to the government by the Canadian Manufacturers' Association, urging that a committee be appointed to report upon the best means of establishing a comprehensive national system of technical education which will afford our young men an opportunity to secure such a training in their own country as will enable employers who require skilled help to obtain the same without having to seek it abroad."

Mr. Fisher said that the amount of goods which went from this province and from every province to the corresponding schools in the United States was very great. He would not like to say what the amount is, as it is almost fabulous. He was not going to say anything against these correspondence schools except that they are not in for pressure but for money, which from all indications they were making.

SITUATIONS VACANT—FEMALE
 WANTED—A kitchen girl, Apply at BOSTON RESTAURANT, 7-11-6

REQUEST OF AMHERST CATHOLICS REFUSED
 Wanted Building Taken Over for Town School Purposes, But Board Could Not Act in Face of Opposition

AMHERST, N. S. Nov. 6.—A meeting of the board of School Commissioners of the town was held last evening to consider taking over as a town school the building built for school purposes by the Catholics of the town last year. The request of the congregation was that it be taken over as a town school, similar to those of Halifax and Sydney.

BRITAIN'S BEST OARSMEN
 Attempt Being Made to Get Winners of Oxford-Cambridge Boat Race to Contest With U. S. Eight at Jamestown Exposition.

LONDON, Nov. 6.—There seems great likelihood that the flower of British amateur rowing will be represented in the United States next year if the request accorded Mr. H. P. Burchell, special commissioner of the British Amateur Rowing Association, is any indication of the intentions of oarsmen on this side. Mr. Burchell's chief object in coming to England is to specially invite the winner of the Oxford-Cambridge boat race to row in Virginia against the best eight in America, and while heretofore proposals for representation from Oxford or Cambridge have not even been considered, there is a strong feeling here that the Americans will have an opportunity of witnessing the spectacle of Britain's great crews, which presently best the Americans, contesting in their own waters next year.

R. C. Lehman, M. P., English authority on rowing matters, had a consultation with Mr. Burchell on Saturday, and encouraged the American commissioner considerably by his optimistic view of the proposal. The invitation, which includes a request to both institutions to send crews to the great international regatta on the Hampton Roads course next summer, will be formally presented to Oxford and Cambridge by Mr. Burchell's secretary, Mr. Horn, apart from the rowing feature, is to secure the best athletic talent in Europe for the championship events, which are to be a part of the exposition. He has secured promises from several of England's best rowers to compete in races which are open to the world.

LIVED WEEKS WITH BULLETS IN BRAIN
 Remarkable Case of Young Girl Which Puzzled Many Medical Men.

MUSCATINE, Ia., Nov. 6.—Without knowing that it was her father who shot her or that he was in jail for the crime, sixteen-year-old Bessie Holsten died after living for five weeks with two bullets in her brain. Her last words were an inquiry for opening to the cause of Bessie Holsten has been one of the most remarkable in medical annals, and has attracted much attention from the profession. One of the bullets in the girl's brain severed the optic nerve, rendering her totally blind, yet she recovered consciousness three days afterwards and conversed and acted in a perfectly rational manner and suffered no inconvenience from her wounds beyond the loss of her vision.

PRESIDENT DISMISSES AN ENTIRE REGIMENT
 Some of the Men Were Guilty of Crimes and Their Companions Would Not Tell.

WASHINGTON, Nov. 6.—Unprecedented in the history of the army of the United States is the action of the President, just announced, in dismissing in disgrace from that army, an entire battalion of colored troops because of their failure to disclose the identity of some of their number who had been guilty of violence and murder. As an evidence, however, of his intention to be fair to the colored troops, the President has accompanied this by an order which may amount to a court martial of a white army officer of high grade, who was charged with having cast sturs upon the colored troops. The story of both actions is told in the report of an investigation made by Brigadier General E. A. Garlington, inspector general of the army, relative to the riotous disturbance that occurred at Brownsville, Texas, on the night of August 13, 1896, and that resulted in the death of one and the wounding of another citizen of that city.

THE MUSICAL CONTEST
 Professional Musicians and Dramatists Cannot Compete for Trophy.

OTTAWA, Nov. 6.—The competition committee of His Excellency's musical and theatrical trophy, which is to be competed for in the week commencing January 29th next, at Ottawa, has decided that the competition shall be limited to amateurs and that the term "amateurs" shall be described as follows: "No person who has within the past five years lived by the profession of music or the drama is eligible. It is not intended to exclude musicians, or dramatists, who, while music or the drama is not their main calling, have accepted nominal pay from church choirs, amateur musical organizations and amateur dramatic associations."

BLACK HAND BOMB
 Fronts of Two Houses in Williamsburg Blown Out.

any Persons in Peril, but Nobody Hurt—A Policeman a Block Away Knocked Down.

NEW YORK, Nov. 6.—A bomb was exploded by Black Hand men in the lower part of a three story double frame dwelling inhabited by half a dozen Italian families at 280 Bushwick avenue, Williamsburg, early yesterday morning. Damage aggregating thousands of dollars was done not only to that building but to adjoining houses and hundreds of windows in neighboring buildings were shattered. On one side of the ground floor where the explosion occurred was a tailor shop carried on by Francesco Messina, who with his wife and three small children lives over the store. On the other side of the hall was a picture frame establishment conducted by Salvatore Pottasin.

In the early part of September Messina began to receive threatening letters. At first \$1,500 was demanded, but in subsequent letters the amount dwindled to \$400. No attention was paid by Messina to any of these letters. At times he noticed suspicious looking men watching his store, but he paid no attention to them.

Shortly after 2 o'clock yesterday the neighborhood was awakened by the explosion. It was heard in the Stagg street police station, five blocks away. Police station number 28 was at Johnson and Bushwick avenues, a block distant, was knocked down. The front of the four story apartment houses extending from 287 to 281 Bushwick avenue. In all of these dwellings hundreds of people were shattered. There were reports that many persons had been badly hurt in the explosion and a hurry call for an ambulance was sent to St. Catherine's Hospital. Drs. Miltenner and Sprecht when they reached the scene hurried from the police that while many persons had had narrow escapes nobody was hurt.

The entire front of the dwelling at 280 had been blown out. The front of the adjoining house, 282 Bushwick avenue, had also been blown out, while the home of Dr. H. Kane at 213 Boorum street was much damaged. Police Captain Murphy of the Stagg street station, with Detective Connor and Roundham, Twillman and Lane went to work on the case and three hours after the explosion they placed under arrest Frank and Antonio Pasanilla, brothers, 24 and 25 years old, of 589 Flushing avenue, and Baldassaro Panalfo, 25 years old, of 333 Montrose avenue. The three were taken to the Stagg street police station, where on being searched there was found upon them note paper whose watermark corresponded with the watermark on the threatening letters which had been sent to Messina. The prisoners were locked up and later on, being arraigned in the Manhattan avenue police court, they were held without bail by Magistrate O'Reilly until today.

In the neighborhood of yesterday's explosion there have been two similar explosions within the last two months.

SCOTLAND YARD IS AFTER HUTTON
 His Latest Victim Was a Well Known Toronto Professor—Complaint From High Commissioner.

LONDON, Nov. 6.—The man Hutton, who is alleged to have swindled a number of Canadian visitors in London, succeeded in doing a well known Toronto professor out of a sum of money on the pretext that he required it for a cable to Toronto for funds. Hutton also obtained money from the London branch of the Canadian bank, but the bank authorities hope to get the amount back from relations of Hutton in Montreal. Hutton is also believed to have attempted swindle of several Canadian ladies in London. Chief Inspector Frank Forest, of Scotland Yard, who has just been promoted to the Chief Criminal Investigation Department, has received complaint from Lord Strathcona's office regarding it and has put a couple of his best men on his track.

SAXONY'S KING DEFIED BY HIS DIVORCED WIFE

By HIS DIVORCED WIFE Says She Will Insist on Seeing Her Children According to Agreement.

BERLIN, Nov. 6.—The Countess Montignoso, the divorced wife of the King of Saxony, declared that she is determined to have access to her children. Although nearly four years have elapsed since she eloped with the Belgian tutor, she makes repeated attempts to reopen negotiations for the purpose of seeing her children regularly. The king has now informed her lawyer that he refuses to enter into any kind of negotiations or communications with his former wife, who will be permanently prohibited from seeing her children. To this the countess has replied that she will take measures to see her children without permission. Thereupon she received an answer from Dresden warning her that if she makes any attempt to enter Saxony for the purpose of seeing her children she will be forthwith expelled from the country. The countess made an attempt to enter the royal palace of Dresden to see her children on December 22, 1904, but was prevented, and immediately afterward a decree was issued expelling her from Saxony and ordering her exclusion if ever she attempted to cross the frontier.

Hungry Hair

Perhaps your mother has thin hair! But that is no reason why you must go through life with half-starved hair. If you want long, thick, heavy hair, you must feed it. Feed it with a regular hair-food—Ayer's Hair Vigor. Well-fed hair stops falling out, keeps soft and smooth, and grows long and heavy. Feed your starving hair with Ayer's Hair Vigor!

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (Ltd.) at St. John, New Brunswick, every afternoon (except Sunday) at \$2.00 a year.

ST. JOHN STAR.

ST. JOHN, N. B., NOVEMBER 7, 1906.

A GOOD SUGGESTION.

There could be no better suggestion having in view the prosperity of St. John than that made through the columns of the Star yesterday by a number of prominent citizens for the organization of a 75,000 club. That something must be done, and done quickly, if this city is to keep up with the rest of Canada is evident to all. We have not gone ahead very much in the past ten years in so far as actual growth is concerned, although of course the winter freight traffic has led to the development of the port and in the natural life of the city we have introduced numerous advanced ideas. But our population is scarcely any larger than it was ten years ago, and thousands of our citizens are seeking homes elsewhere chiefly because the opportunities offered here are not sufficient to make them remain, and our industries have not materially increased, and in fact when the development of many towns and cities in other parts of the country is considered we appear to be almost standing still. This is in any way due to lack of natural resources or advantages. We are geographically in as good a position as any city in Canada for manufacturing purposes, for though in certain respects a few other places may have seeming advantage St. John is better situated in other respects. There are towns even in the Maritime Province which are nothing less than hives of industry and which, if their natural advantages alone were considered should not now be in existence, but the enterprise of a comparatively few energetic men great things have been accomplished. There is no reason why the same may not be done in St. John. All we need is united action, to give every resident here interested, ever man, woman and child to feel that it is his or her home, that the prosperity of each individual must depend upon the prosperity of the city as a whole, and to assume a personal share of responsibility in bringing about better conditions. In the past there has been practically no effort towards this end, solely because no existing organization has ever considered itself called upon to perform the necessary work. It is true there is a new industries committee of the board of trade, but these few men could scarcely be expected to devote to the work that time and energy which would be necessary for the proper accomplishment of the end in view, and at any rate new industries form only one feature of the larger scheme of expansion. The hearty co-operation of all would be necessary. The direct object, drawn from the name of the club, would be to bring the population up to double its present number, and to do this would of course involve many other points, including the securing of new industries, the development of natural resources, and an extensive campaign of advertising. Such a work can be carried on only by a new organization and the suggestion is now before the people of St. John is that such a body be formed. The conditions here, it must be admitted, are not such as will warrant immediate success as in the case of Vancouver for instance. The main object of the association is to direct into the proper channels the tide of immigration, while here we must first secure the immigrants. This can be done, anything can be done, if only the people who should be interested will do their proper share of the work. The suggestion is an excellent one, let every person in the city think it over and when the first active steps are taken let all join in the movement.

INDIA'S GROWTH AND POPULATION.

The number of persons to the square mile in India in 1901 (the last census) was 42,390. Of the total of 294,251,058 who constituted the population at the last census more than 200,000,000 were Hindus. The Christians numbered 2,252,241. There was an amazing percentage of widows over widowers in that country. Of Hindus there were 6,000,000 widowers and 19,000,000 widows, and of Mohammedans there were 1,300,000 widowers and 4,500,000 widows, and so on with the other religions. The taxation per head in India has grown from 75 cents in 1895 to 84 cents in 1905, and the debt has grown in that time from \$25,000,000 to \$14,500,000,000. The imports rose from \$225,000,000 in 1890 to nearly \$2,000,000,000 in 1905, while the exports in the same period increased from \$355,000,000 to nearly \$515,000,000.

ENOUGH FOR ALL.

We murmur a lot when the skies are gray. We chafe when the weather is mean. We only smile when the sun sends his rays. And the path for our feet is green: "We're selfish enough to want all the shine. And want all the roses that grow. And want all the summer with blossoms divine. And want all the breezes that blow. We're bound in the gray and the gloom of the day. And we sometimes forget that the cheer is wanted a while by the people that smile. In some other part of the sphere."

AWESOME.

"I tell you, I stand before this painting, awed!" "No!" "Yes, sir. It gives me a new notion of omnipotence." "Well, I declare! The Lord could make a sunset like that if he chooses!"

PERHAPS.

Miss Summergirl—"Can you float alone?" Mr. Financier (absentmindedly)—"I don't know. How large a loan do you mean?"

NO HURRY.

"All the little boys and girls who want to go to heaven," said the Sunday School superintendent, "will please rise." All rose but Tommy Twaddles. "And doesn't this little boy want to go to heaven?" "Not yet!"

AT A LOSS.

Ben Butler was a terror and torment to the judges. On one occasion Judge Sanger, having been bullied and badgered out of all patience, petulantly asked, "What does the counsel suppose I am on this bench for?" "Scratching his head a minute," Butler replied. "Well, I confess your Honor's got me there."

BIRDS OF FEATHER.

Sassaparilla Shooting "Tent"—"Morning, Dougal. I think I heard the wild geese cackling this morning. Flighting south, I suppose." Dougal—"Ay, just that. 'Well, I'll be 'bought' of 'em myself."

BOUNDARY QUESTION

Conference to be Held at Ottawa Next Monday

Ontario Government Confident of Obtaining a Portion of the Territory Adjacent to Hudson's Bay. (Toronto World.)

Premier Whitney, Hon. Mr. Foy, the Attorney-General and Hon. Mr. Matheson, the Provincial Treasurer, will be present on Ontario's behalf at the conference to be held in Ottawa one week from today between representatives of the Dominion Government and the Provincial Governments interested in Manitoba's demand for the extension of the southern limit of the Province northward to the shores of Hudson's Bay. The decision fixing the date was made for a discussion of the subject reached at the recent conference of Provincial Premiers. The Ontario Government has been giving the matter considerable attention, and will make best presentation possible of Ontario's side of the case. How that side is viewed by the cabinet is perhaps best stated by a reference made in the speech from the throne delivered by the Hon. the Lieutenant-Governor at an opening of the Legislature in March, 1905. After an allusion to Manitoba's demand for the extension of the southern limit of the Province northward to the shores of Hudson's Bay, the Premier said: "The Ontario Government's request on hearing of it, that for any division of the territory as made they should be allowed to give their claims to some of the territory, the speech continued: 'I am pleased to inform you that a satisfactory answer has been received from the Premier of Canada, and that we are now, perhaps, entitled to hope and expect that a very large portion of the territory lying north of the present northern boundary of Ontario, believed to be rich in minerals and extending to the southerly and westerly shore of Hudson's Bay, will be included within the boundaries of our Province.'"

The confidence in the belief that Ontario will get considerable of the territory giving access to Hudson's Bay is very strong in Government circles, and has been shown in various ways. For instance, the question of an extension of the Dominion and Northern Ontario Railway to James Bay, the southern portion of Hudson's Bay, has been before the Legislature several times, and I have every expectation that we will receive a bonus, whether or not it is for the whole line or not I am not aware." As at present planned and being carried out the road is 253 miles long.

POLLARDS IN VAUDEVILLE.

The Pollard Ellipticals will make their debut to the people of St. John with an elaborate review of all their successes—a grand pot pourri of catchy songs, musical choruses, magnificent ensembles, dances and funny sayings. This is booked for Friday night, for the last performance is to be the Saturday matinee. In Halifax, when this vaudeville feature was introduced the audience went wild with delight and clamored for encores to every number, but the programme was too long to allow of it. There are close upon thirty selections in this night's set and every member of the chorus aggregation will have something cute and winsome to do.

WILD MAN OF WOODS IS POLICE DETECTIVE

Missing Since May, He is Discovered Wandering About in Filthy Condition.

VIENNA, Nov. 6.—A well known Viennese police detective, Karl Pfeifer, disappeared in May last, while making official inquiries in the neighborhood of Vienna. On July 15 the body of a man answering to the description of Pfeifer was found in an unrecognizable state of decay, and recognized by his wife and other relatives. Last Friday the police reported to his family that Pfeifer had been found alive near Herzogenburg. A gendarme patrolling the woods found him. He was in a dreadfully neglected state. His hair was hanging to his shoulders, his clothes in rags and in a filthy condition. From his incoherent utterances the gendarme man appears to have slept since May in the open, fed on berries and dry bread, given in charity. Pfeifer has been brought to Vienna and handed over to the doctors for examination as to his mental state.

BESIEGED BY WIFE WHO SITS AT DOOR

Husband Whom She Had Thought Dead Turns Up With a Pretty Widow.

BRUSSELS, Nov. 6.—Mme. Lebourgeois is besieging the house in which her husband lives at Dunkerque, state. About four years ago M. Lebourgeois, who lived at Dunkerque, went out for a walk and never returned. A few months later a man's body was dragged from the Seine, and Mme. Lebourgeois recognized it in her husband. The body was buried with due ceremony, and a mass was said for his soul. Last month a Havre merchant went to Dunkerque on business, and met there his old friend Lebourgeois, who was in the best of health, in the company of a pretty young widow. The merchant, on returning to Havre, told Mme. Lebourgeois of his discovery, and she promptly followed her faithless husband to Dunkerque. For the last two days she has been sitting on the door step of the house in which he is living. Both sides up to the present have assumed a passive attitude, the husband contenting himself with sitting behind the bolted door.

OUR SLIPPER SHOW!

We call our Slipper stock "Our Slipper Show" for it's nothing short of a "Show." This is the season of the year when slippers are in great demand, and we have taken unusual care to provide a splendid assortment.

We've Slippers for all occasions and for every member of the family. Slippers that Ladies will delight to wear—Slippers for home, or for balls and receptions. Slippers that will stop the noise of the rumping Boys. Slippers for the Children and for the Babies, and Slippers that will keep the "Governor" of the family happy and contented by his own desire.

Excuse us, please, from trying to describe the styles. It would be an endless task. Slippers from 75c. to \$1.85

Come to our Slipper Show. You'll hardly know which pair to select—they are so hands.

PRUSSIA EXPELS RUSSIAN REFUGEES

Propagation of Offensive Political Doctrines Resented by the Government.

BERLIN, Nov. 6.—Several hundred aliens were expelled from Prussia during the last few weeks, all being Russian refugees who sought a safe asylum in Berlin to await better times in their own country.

The Prussian Ministry of the Interior still regards the presence of large numbers of these Russian aliens as undesirable, owing to the fact that the majority are unable to prove that they possess sufficient means of subsistence or a regular occupation. In a few cases the aliens incurred the disfavor of the authorities by propagating subversive political doctrines in Prussia. Orders were consequently given to carry out wholesale expulsions.

The police informed the aliens that they must leave Prussian territory by a certain date, otherwise they would be arrested and conveyed to the frontier by a police escort, and ejected from the country.

Some were ordered to leave within eight days, others within four, six or eight weeks.

Russian refugees are still flocking to Berlin, but the Prussian authorities are determined to carry out these expulsions continuously in order to prevent numbers of undesirable accumulating here.

P. E. ISLAND PRIEST HAS SERVED FOR FIFTY YEARS

CHARLOTTETOWN, P. E. I., Nov. 7.—Today Rev. James Phelan, Roman Catholic clergyman at Iona, was elevated to the dignity of Monsignor in recognition of fifty years service as priest. He was born in Ireland, emigrated at Charlottetown Aug. 31st, 1856, and was 29 years at Vernon River, P. E. I., and the remainder of the time at Charlottetown and St. Peter's.

The summer lino temperature at St. Andrew's Rollaway was the subject of much favorable comment from the large crowd of spectators and skaters who were present last evening, the occasion being "ladies' night." The balance of the heating arrangement was installed today, and from now on it will be possible for the ladies to skate in summer attire and the gentlemen without hats, without the least danger of catching cold. Tomorrow evening there will be races as usual on Thursday nights, particulars will be announced in tomorrow's papers. Saturday afternoon, Nov. 17th, has been set aside for a children's carnival. Full particulars will be published in the advertising columns of tomorrow's papers.

Given a staple article, and no amount of advertising will give it a permanent and profitable sale unless it is backed by merit; on the other hand, if you do not make it known it will fail, however great the merit.—Earl & Wilson, N. Y.

West End.

MONKS IN FIERCE FIGHT WITH BOLD BRIGANDES

Rifles Successfully Used in Defending Monastery Against a Midnight Raid.

ROME, Nov. 6.—A desperate battle between monks and brigands has taken place at the Abbey of the Holy Ghost, at Santo Spirito, Sicily.

The monastery is one of the richest on the island, and possesses an almost priceless collection of ancient chalice and other sacred vessels, as well as vestments and a jeweled processional cross of great value.

The brigands determined to raid the monastery and murder the monks if they resisted. They accordingly rode up to the main entrance late one night last week and demanded admittance. When this was refused they commenced operations by breaking a hole in the wall.

The monks were roused from their slumbers and ran to the spot armed with rifles. Shots were exchanged, and two bullets passed through the habit of one of the defenders. The monks returned the brigands' fire briskly, and two of the latter were severely wounded.

During the fight the abbot, crucifix in hand, directed the defense. Meanwhile the sacristan hurried to the bell tower and sounded the alarm. The peasants were soon flocking to the monastery from all sides, thinking the buildings were on fire.

The brigands finally escaped in the darkness, leaving their wounded behind. The latter were cared for and then handed over to the authorities.

To let the people know the kind of coffee we serve, we will give a sandwich free tonight to those bringing this ad, with them. ROYAL BAKING ROOMS, 106 Charlotte St.

COMMERCIAL. GREAT WAVES TORE CARGO FROM DECK

Schooner Evolution and Crew in Dire Peril.

Seas Rolled Over the Stanch Vessel and Men Aboard Suffered Bitterly.

PROVINCETOWN, Nov. 5.—With the gale blowing from the west, the schooner Evolution, with a cargo of shingles swept away, hatches lost, hold full of water and her crew nearly dead from thirst, hunger and fatigue, the British schooner Evolution, from Campbellton, N. B., for Bridgeport, Ct., was today towed into port by the tug Harold from an anchorage gained yesterday at 8 a. m., in Cape Cod Bay.

The craft is full of water and presents a sorry picture about decks, which were badly rent and strained by lashing seas, which hampered the stout vessel without cessation from 10 o'clock last Thursday night until she gained the lee of Long Point, being then little more than a raft in appearance on the water.

The Evolution is owned at Archat, C. B. Captain Boudrot's story is one of the most thrilling told here for years.

The superb seamanship and resolution of the master, backed by his crew of five, alone saved the vessel and the remaining portion of the cargo.

With hold full and deck heaped high with shingles, the vessel, on only two or three days of the coast, was reduced to storm-trial, fore-sail and jumbo at the start, and the fore-mast went down in a gale blowing sea, making good weather of it until 10 p. m., when a gale among seas burst over the vessel, first swung aloft squarely over the schooner.

"Hang on for your lives, boys!" the captain cried as the great hill of water over-reached its head, but his words were lost in the roar of water falling across the deck.

For an instant the vessel was hidden from sight from taffrail to knight-heads, then the tumbling torrent, then the great sea rolled to leeward, carrying with it all that part of the deckload that had heaped on the deck.

THE HULL AND GAPSING SEAMS. The Evolution struggled back to the surface a moment later, but the sea was still with rent hull and gapping seams.

Monkey rails had been rased, and the strong deckload fastenings were torn upward by the sea, leaving a gap in the deck through which successive boarding seas tumbled unrestrainedly into the hold.

When the vessel was again submerged, the water poured in from the humming stay, and the new foresail above a rent extending from bolt-rope to luff at a distance of the foremast to luff at had banded its canvas.

Leaving to the task of getting cargo on board over the deck gap that yawned so ominously, the crew quickly saw that such task was futile. As a matter of fact, they were helpless to repair the break in any manner in the circumstances, and in fifteen minutes the hold was filled with water.

Luckily, the schooner had fifteen tons of ballast "next her skin," and this alone prevented immediate capsize, keeping the craft upon her bottom, although little besides her bulwarks was above sea level.

The sea that had wrought such damage also gutted the poop deck cabin, and the water poured into the hold, destroying the provisions, spoiling the drinking water and stripping the crew of anything except that on their persons.

And there was worse in reserve! When the sea after a single reef had been trashed, the water poured over the main deck, and soon of all the 700,000 that had comprised the deckload, only 20,000, the heaviest bundles, remained, and these, water-borne in the flood that filled the waist, were flung from the deck by the waves, and were every leeward lost, menacing the lives of the bustling crew.

SHIPS' GALLANT BEHAVIOR. The rent in the foresail was, fortunately, low enough to permit the further work of the sail after a single reef had been trashed in the schooner—a splendid sea boat—fore-reaching a trifle meanwhile, making slow but sure gain toward land.

From that time until 8 p. m. yesterday the Evolution's men were constantly engaged in a desperate battle for existence. Not one drop of fresh water was obtainable; only a handful of sea-soaked crackers and a few-pound package of oats remained with which to sustain life, and the water-bogged hull was at brief intervals swept by seas that threatened to tear her to pieces.

Seeking temporary quarters in the forward deckhouse after the wrecking of the poop deck cabin, the men quickly found their quarters partly lifted that structure from the deck fastenings and gutted it in turn.

Having a thought of what they must do in the event of an ultimate stranding on the Massachusetts coast, Captain Boudrot entered the poop saloon, where water was washing in floods high against the interior walls, to look for ropes to be used in case of rescue being attempted by means of a breeches buoy, but of all the rope coils there stored, not one was there that had not been so marred and tied in knots by the swirling seas as to be unusable for the time being.

Friday was passed miserably, the gale continuing with violence unabated. Another heavy sea, after the sunken hull and it seemed that the craft could no longer withstand the

tower was given and the vessel was kept away to run into Massachusetts Bay.

That afternoon the wind let go quickly, dropping to a gentle breeze. The sea continued rough, however, and the calm proved of short duration. With the coming of evening the gale resumed business from the same old quarter—north-east—and blew, with increased violence, all through the night.

When the vessel was forced to anchor far from harbor yesterday morning, her men were in a bad plight; worn, half-starved and suffering extremely from thirst. Even then there was no ready relief, for they were unable to work their vessel or their rowboat into the harbor in the teeth of the high wind, and they were forced to wait until evening when the sloop Eunice, Captain Lutz's Hatch, returning to her home port, Provincetown, heard the hall of the famished men, took them aboard and brooked them to the British schooner Helen Schaffer, lying in harbor, where their wants were met.

Capt. Boudrot today entered a protest. The craft will repair here before proceeding on her voyage.

CONFESSES CRIME FOR WHICH ANOTHER SUFFERS

Australian Baker Admits Murder of Mrs. Gordon, Whose Husband is Now Under Arrest.

NEW YORK, Nov. 7.—Unable to eat or sleep under the prickings of his conscience, he declared, John Wachino, 22 years old, an Austrian baker, last night confessed to Coroner Julius Harburger, according to a statement made by the coroner, that he was the murderer of Mrs. Maggie Gordon, 22 years old, who was choked to death at her home on Second street Sunday last.

The woman's common law husband, Alexander Gordon, had been arrested in connection with the murder and was committed to the Tombs prison to await an inquest.

FEWER MOOSE, BUT DEER ARE MORE PLentiful

The recent fall of snow in the New Brunswick woods has been resulting in a decrease in the number of moose killed, but in the place of the moose the hunters are killing plenty of deer. A large number of deer are being received in the market, and Thomas Dean has secured a number of fine carcasses during the past couple of days.

HUGHES BEAT HEARST BY FULLY 54,000

New York Elects the Rest of the Democratic Ticket.

Moran Snowed Under in Massachusetts—Hughes Pleased With the Result.

BULLETIN.
NEW YORK, Nov. 7.—Despatches to the Associated Press up to 8:15 this morning show that the Republicans have elected 214 members of the 60th congress and the Democrats 157 with 15 districts missing.

Almost complete returns from the Greater New York for state offices show that aside from governor the Democrats' complete ticket carried the greater city by pluralities of from 135,000 to 145,000. This would indicate that unless the Republican candidates for offices below governor ran ahead of Charles E. Hughes above the Bronx, the full Democratic state ticket, except governor, may have been elected. Returns from up-state counties are as yet too incomplete to carry anything like an accurate forecast.

BOSTON, Nov. 7.—Complete returns today show the plurality of Governor Curtis Guild, Jr. (Republican) over District Attorney John B. Moran, his Democratic opponent, at 51,662, while Lieutenant Governor Eben Draper, Republican, defeated E. Gerry Brown of Brockton (Ind. League and Democrat) by a margin of 872. Eleven Republican congressmen were elected and three Democrats, the delegation to Washington remaining unchanged.

OSLER, M. P., EXPECTS DISSOLUTION NEXT YEAR

Banquet to Mackenzie Bowell Poorly Attended—He Hopes to See Newfoundland Join the Dominion

TORONTO, Nov. 7.—Before Fifth Ward Conservative Association last night, E. B. Osler, M. P., said he expected a dissolution of parliament before Christmas next year.

YANCOUVER, B. C., Nov. 7.—Prominent men were conspicuous by their absence from the Canadian Club banquet to Sir Mackenzie Bowell. Of course, Sir Charles Hibbert Tupper and his following did not attend. Dealing with Newfoundland, whose entry into confederation he had been accused of hindering, Sir Mackenzie Bowell hoped the time was not far distant when the whole of British North America would be included in the Dominion.

PRIZES TO SPUR MATRIMONY.

"Baby Flat" Landlord to Build Home for Bachelors and Bachelor Maids.

MILWAUKEE, Nov. 6.—The original of the "Baby Flat" in Milwaukee

has taken another step to help keep the world from becoming depopulated. Louis Auer, to show his ideas on the subject of race suicide, a year ago built two fine apartment buildings with other devices designed to attract and with other devices desirable to families with children. He then announced that babies were welcomed and that he would offer a month's rent free for every

child born in the apartments. This week he will let contracts for the largest apartment house in the city, to be built in two wings, with a court between. One half will be devoted to bachelor maids, the other to bachelors. The apartments will be specially fitted for those living singly. To every couple occupying apartments in the building he will give a month's rent free upon their marriage.

THE CIRCULAR STUDY. WILL BRING POWER HERE

The Star's New Series of Short Stories. By Anna Katherine Green.

IN THE ROUND OF THE STAIRCASE.

(Continued.)

"Poor fool!" murmured Miss Butterworth as she and her companion crept back to their old place behind the parlor curtains. "He has forgotten everything but his old routine duties. We shall get nothing from this man." But she stopped suddenly; they both stopped. Bartow was in the middle of the study, with his eyes fixed on his master's empty chair in an inquiring way that spoke volumes. Then he turned, and gazed earnestly at the rug where he had last seen the man. "What he had previously seen take place there. Then he went softly out, and crept away upstairs. Mr. Gryce and Miss Butterworth stepped at once into the light, and surveyed each other with a look of marked discouragement. Then the latter, with a sudden gleam of enthusiasm, cried quickly: "Turn on another color, and let us see what will happen. I have an idea it will fetch the old man down again."

"Do you think he can see through the floor?" "But he touched a button, and a rich blue took the place of the violet. Nothing happened. Miss Butterworth looked disturbed. "I have confidence in your theories," began Mr. Gryce, "but when they imply the possibility of this man seeing through blank walls and obeying signals which can have no signification to any one on the floor above—" "Hark!" she cried, holding up one finger with a triumphant air. The old man's steps could be heard descending. Considerable feebleness, passed slowly into the study, advanced. He glanced in astonishment up at the book shelves and then back to the table, shook his head, and suddenly collapsing, sank in a daze on the nearest chair. Miss Butterworth drew a long breath, eyed Mr. Gryce with some curiosity, and then triumphantly exclaimed: "Can you read the meaning of you see that he came expecting to find a pile of books on the table which it was probably his business to restore to their shelves?" "How can he know what light is burning here? You can see for yourself that there is no possible connection between this room and the one in which he has always been found by any one going above."

SYDNEY TROUBLE STILL UNSETTLED. Heavy Suit for Damages Against Dominion Coal Company Will be Commenced Immediately.

SYDNEY, Nov. 6.—Within a few days the solicitors of the Dominion Iron & Steel Company will commence a suit against the Dominion Coal Company for damages, resulting from the latter's alleged breach of contract between the two concerns. The suit will undoubtedly prove a memorable one. The condition of affairs at the close of the fourth day of the trouble is much the same as the day previous. Blast furnaces, coke ovens and rail mill at the cement works, both of which are dependent on the Steel Company for the raw material, are idle. Only about one hundred men have been laid off at the plant. These are Hungarians, who were employed at the coke ovens. All the men in the idle departments are being given work in other parts of the plant. The open hearth, rod mill, machine shop and pier are all going ahead as usual. There is enough material on hand to keep the open hearth and rod mill going for a considerable time. There is a fairly large stock of rails on hand, but a cargo of 5,000 tons going to Quebec next week will diminish the present supply considerably. The Nova Scotia Steel Co. shipped about five thousand tons of coal to the

POWER HERE

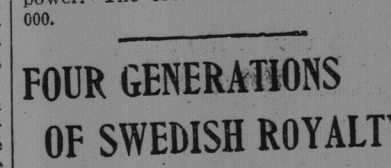

Expecting that Many New Industries Will Start

Grand Falls, Next to Niagara, the Greatest Source of Power in the Country.

Says Mr. Conger

R. V. Conger, the St. John representative of the Grand Falls Power Co., announces that the company have definitely decided to provide a transmission line with the intention of furnishing power in this city and to sell electric power for manufacturing and other purposes in competition with the Street Railway Co. and any other electrical companies. By this line ten thousand horse power will be provided here, the voltage being sixty thousand. The transmission system will be one of the duplicate variety. The line will run from Grand Falls to Fredericton almost directly, and from the capital almost directly to this city. The company will also provide power in Fredericton and probably in other places along the route. The cost of the line will be about a million dollars. The line from Grand Falls is 105 miles in length, and will be a remarkably long distance to bring power. Although considerable per cent will be lost in transmission, the company expect to provide power much cheaper than it is now manufactured, and that it will mean the bringing of new industries to the city. The surveys for the line will be commenced as soon as possible, and at Grand Falls the tunneling will be commenced next spring and run along as rapidly as possible. It is their intention that by the time the power house is completed the transmission line will also be finished. The Grand Falls in his opinion is perhaps, next to Niagara, the best source of water power in the country. When the work is completed the company hope to put on the market 80,000 horse power. The cost will be about \$4,000,000.

FOUR GENERATIONS OF SWEDISH ROYALTY

STOCKHOLM, Nov. 2.—Four generations of Swedish royalty, the King of Sweden, the Crown Prince, his eldest son, Prince Gustav, and Prince Gustav's baby son.

CONVICT TELLS PECULIAR STORY

Tells How Three Prisoners Planned to do Away with Witness They Feared

TORONTO, Nov. 6.—A despatch from Morden, Man., gives an extraordinary story as told by a convict in Stony Mountain penitentiary named Thompson, who was sentenced last week to seven years for burglary in connection with the trial of Doyle for murder now going on at Morden. Thompson says that while he and Doyle and Pat Rooney, a notorious Yeggman from Dakota, were incarcerated in the provincial jail they planned to have Bailey, the crownman witness, put out of the way, as Doyle claimed this was essential to his escaping justice. Thompson claims to have written a letter to Doyle's son, which Rooney smuggled out of jail when released and Thompson's wife transmitted to M. Doyle, Jr. Rooney then went to Battleford and signed Wiener's name in the hotel register, thus drawing a hearing across the trail, which the crown found difficulty in explaining. Thompson was taken from the penitentiary last evening and conveyed to Morden this morning to give evidence and Mrs. Thompson is also under surveillance. This is believed to explain the sudden and mysterious disappearance of Weller. A strange incident happened when Thompson was being brought in from the penitentiary. The horses ran away, throwing the convict and guards out, one of the latter sustaining a broken arm, and it is said Thompson nearly escaped.

TRUE BILL FOR PERJURY AGAINST TOM LEWIS

TORONTO, Nov. 6.—The grand jury in a true bill against Tom Lewis for perjury in the London election case. The O'Meara case was traversed to the next assizes. When O'Meara appears tomorrow morning to hear his pleading the judge will hear an application for bail. The judge also intimated that he would be prepared to consider possession of the Lewis case until the next assizes as well.

TRUE BILL FOR PERJURY AGAINST TOM LEWIS

TORONTO, Nov. 6.—The grand jury in a true bill against Tom Lewis for perjury in the London election case. The O'Meara case was traversed to the next assizes. When O'Meara appears tomorrow morning to hear his pleading the judge will hear an application for bail. The judge also intimated that he would be prepared to consider possession of the Lewis case until the next assizes as well.

HEARST DEFEATED BY 50,000 IN NEW YORK

Carried City by 80,000, But Hughes Won Up-State.

Hearst's Managers Already Charge Fraud — Moran Badly Defeated in Mass. — Democrats have Made Large Gains, but Next Congress Will Be Republican by About 50—Former Majority Was 114.

NEW YORK, Nov. 7, 2 a. m.—Mr. Hearst still claims to have been elected Governor of New York by at least 50,000 plurality, and charges that an attempt is being made to steal the election.

Approximately a plurality of 40,000 or more. Two years ago Governor Higgins was elected on the Republican ticket by 80,560.

There was some doubt expressed to-night as to the fate of the Democratic and Independence League tickets outside of Mr. Hearst, several of the New York newspapers which have been supporting Mr. Hughes declaring that there was a chance that the subordinate officers of the Democratic and Independence League combination had been elected.

GOVERNOR-ELECT CHAS. E. HUGHES

successful by about 50,000 plurality. The rural districts brought about the Republican victory.

NEW YORK, Nov. 7.—Returns from the state of New York, including the Greater New York, with 205 districts out of 4,500 missing, give Hughes (Republican), about 64,000 plurality.

Elections were held yesterday in forty-two states, and while the results in a number of instances were of unusual interest, it may be said that generally speaking there were no great surprises.

Throughout the south the Democratic State and Congressional tickets have been elected by the usual majorities in the west and east the states that were aligned two years ago in the Democratic or Republican columns, show no material change, the Democrats making gains in some instances and the Republicans in others.

Perhaps the widest general interest centered in the remarkable fight for governor which has been waged in New York State, between Charles E. Hughes, the Republican candidate, who throughout the campaign has had the support of President Roosevelt and William Randolph Hearst, who has been running as the regular Democratic and Independence League nominee.

Massachusetts has re-elected Curtis Guild, Republican, as governor, over District Attorney Moran, of Boston, who was the candidate of the Democratic party, the Independence League, and the Prohibitionists.

In Chicago it is estimated that the Independence League ticket held 40,000, but there was a Republican plurality for the state officers.

Pennsylvania has elected Stuart, Republican governor, over the Fusion opposition, by the usual Republican plurality.

As was generally expected, Mr. Hearst showed his greatest strength in the cities throughout the state and took out of the Republican column a number of the more important municipalities which heretofore have been Republican. Among the cities which gave Hearst a plurality were Buffalo, Rochester, Utica, Troy, Elmira, Rome, Little Falls and Johnston.

Mr. Hearst has a majority of nearly 70,000 in Manhattan and the Bronx. Queens county, which includes Long Island city, has gone for Hearst by from 6,000 to 8,000, and Richmond (State Island) has also given the Democratic candidate a plurality.

Mr. Hearst has a majority of nearly 70,000 in Manhattan and the Bronx. Queens county, which includes Long Island city, has gone for Hearst by from 6,000 to 8,000, and Richmond (State Island) has also given the Democratic candidate a plurality.

Michigan, Iowa, New Hampshire, North Dakota, Connecticut, Minnesota, Indiana and Wisconsin, have rolled up big Republican pluralities, although there were some falling off from the usual vote in Iowa.

Nebraska shows big Republican gains, Ohio also shows Republican gains over the Pattison vote of last year. The Republicans expect plurality of 75,000 in this state.

The constitution of the new state of Oklahoma will be written by Democrats. Oklahoma also went Democratic in choosing delegates to the constitutional convention.

New Mexico and Arizona have voted favorably on the proposition to enter the union jointly as a single state. Governor Hoch is re-elected in Kansas by a slightly reduced majority.

The result in Missouri was in doubt at a late hour, the Democrats expecting to gain some of the congressional districts they lost two years ago.

Congressman Nicholas Longworth was re-elected in Cincinnati. Congressman J. Wadsworth, for many years chairman of the house committee on agriculture at Washington, was defeated in the 34th New York district.

The Republicans carried Utah, Wyoming and Washington, and seem to have lost Nevada, while both parties are claiming Colorado. Montana seems to have been carried by the Republicans, and Texas takes its usual place in the Democratic column.

ONTARIO BANK INVESTIGATION

More Revelations Were Made Yesterday — McGill's Action Defined as Ordinary Embezzlement

TORONTO, Nov. 6.—A point of outstanding importance revealed today in the Ontario Bank investigation was that the Ontario Bank, and on these several government statements signed himself as pro chief accountant, he stated that on September 10, 1906, about one month before the bank's difficulty was made known, \$18,335.51, representing \$18,335.51, were deposited in the bank, were written off on the instructions of McGill, former general manager, that entries in the books representing these alleged securities were made upon his instructions, and that frequently large amounts, representing loss on alleged speculations in New York and local firms, were so written off.

Thomas Lawson, from the department of the receiver general, produced statements made to the government by the Ontario Bank, and on these appeared besides the signatures of McGill, those of G. R. Cockburn, president; Donald McKay, vice president; C. Langton, chief accountant, and Chenoweth, pro chief accountant, at different times.

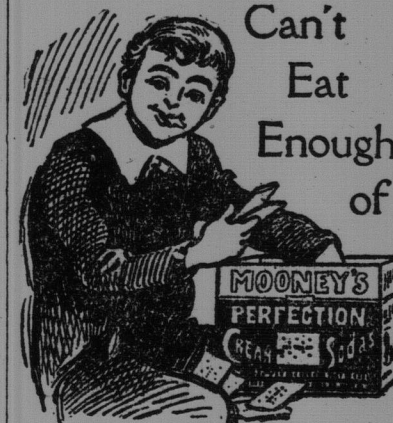

At Arnold's request a case in which Cockburn is concerned, was adjourned for one week. After explaining the bank's method of bookkeeping, Chenoweth said that on September 10, 1906, he had written \$18,335.51 of the bank's books as a reserve for the bank's securities. He received his instructions to do this from McGill.

Is there anything to show that the bank got anything out of this? asked the magistrate. The witness was not able to say. He said advances to New York brokers were made through the bank's agents in New York. He did not know from whom instructions to speculate came.

What is there to show that the money actually went to brokers? asked the magistrate. "Of what is there to show that the money went to a bank in New York? I don't know," he replied back to McGill. Is there any difference between this and ordinary embezzlement?

"No difference, except that it is larger," returned the crown attorney. \$18,335.51 which was written off did not represent all the losses of the bank, but all of them for which there were assets. These assets were made up in general reserve account, which was produced by reduction in capital. This amounted to \$29,000. There was a current reserve account of \$50,308.05. Other items were: \$22,000, Roache reserve; \$24,000, McIntyre and Marshall, Ltd.; \$1,181.91, Cuyler, Morgan & Co., \$23,000.

And the following amounts were credited to accounts named in the reduction of amounts which stood against them and were charged to reserve of loss account: Marshall Spaulter & Co., \$83,329; C. Head & Co., \$7,824. These entries closed reserve for loss account completely.

Can't Eat Enough of MOONEY'S PERFECTION Cream Sodas

Appetite comes with eating and each square of crisp deliciousness seems but to make room for more.

CLAN MACKENZIE

The Clan Mackenzie celebrated their twentieth anniversary with an entertainment in their rooms in the Old-fellows' building last night. There was a large attendance of the members and their friends and the evening was thoroughly enjoyed.

TEMPERANCE MEETINGS

The St. John County Temperance Federation met in the rooms of the W. C. T. U., Germain street, last evening. The meeting was called to consider the reports from the various committees appointed to make arrangements for the coming of E. Tennyson Smith. The reports showed great interest and enthusiasm in the coming campaign.

PROTECTION IN CASE OF SICKNESS OR DEATH

No. 7505, I. O. O. F. "MANCHESTER UNITY." Write for particulars to H. NOAKES, Secretary, 34 Charlotte Street.

GERMAN ENGINEER'S INVENTION TO PREVENT ROLLING OF SHIPS AND TO STOP SEASICKNESS

LONDON, Nov. 2.—Photograph shows an invention which a young engineer named Otto Schlik claims will prevent a vessel from rolling by counteracting any tendency a ship has to roll. It takes the form of a specially constructed turbine, which is fixed on the vessel's bottom. It has been tested on a torpedo boat, and has already met with success. Its adoption on liners is eagerly awaited by those who find even the mildest cross-channel trips an undertaking to be feared, and, if possible, avoided.

NO FAVORS SAYS C.P.R.

Official Says Fowler Only Got Fair Play

But Evidence in Detail Discloses that Price was Reduced at Shaughnessy's Instigation

OTTAWA, Nov. 6.—The insurance commissioners today heard the Canadian Pacific side of the Fowler-Foster-Forrester land deal. The man who looks after the C. P. R. lands, told the story. He said the price was fair and no favors were given.

ONTARIO BANK INVESTIGATION

Mr. Griffin stated he had been at the head of the C. P. R. land department since 1901. The company acquired twenty-five million acres of land as subsidy on main line construction and three and a half million acres for branch lines. The land was obtained by selecting odd numbered sections in areas reserved for selection.

Mr. Griffin explained that he had made an inspection trip through the Vermillion district, had found the land good, the demand for it was high, and had advised Mr. Pope to take this matter up with you. Mr. Pope said he understood the average price of land in the district was \$3.50, but he supposed a special rate would be given a large purchaser.

Mr. Griffin stated that in October, 1902, he had received a letter from Mr. Pope. He produced a letter and Mr. Shepley read it. Mr. Pope wrote 4th October, 1902, that a number of gentlemen and himself were about to form a colonization company for the purpose of acquiring the land in the Vermillion River district of Saskatchewan. Mr. Pope hoped Mr. Griffin would be able to give them the best terms.

Mr. Shepley read a letter written by Mr. Pope October 28, 1902, from the Windsor Hotel, stating that he with G. W. Fowler and Wm. Bennett, who were the principal executives of the syndicate which proposed to buy C. P. R. lands were with him and would like to reserve for the account of the C. P. R. lands when the general price was \$3.50 an acre and raising the price to \$5 an acre placed him in a rather difficult position with his associates.

Mr. Griffin stated that he had heard no more of this matter, arrived in Winnipeg and made inquiries at his office. He had no recollection of their saying to him anything about their conference with Sir Thomas Shaughnessy. He understood the object of the visit was to reopen negotiations for the purchase of land. They specified three separate blocks of land, naming the townships where they would take the general run of the land.

On 22nd November Mr. Griffin wrote Sir Thomas enclosing maps showing the land selected by Messrs. Pope and Fowler, and stating he had agreed to withhold these maps from sale until the question was taken up again at Montreal. The lands reserved amounted to about 50,000 acres. There was an interview in Montreal on December 8th at which Sir Thomas, Second Vice-president, advised Mr. Pope and Mr. Fowler were present. He had no understanding with Sir Thomas or any one else as to the price or terms which should be asked. He went into the conference unimpaired by any instructions. It was agreed to let Messrs. Pope and Fowler have two hundred thousand acres at \$3.50 an acre. The C. P. R. was to first go over the three hundred thousand acre tract and select 75,000 acres or twenty-five per cent. Messrs. Pope and Fowler were then to have the right to select two hundred thousand acres out of the 225,000 acres remaining. He thought this was a good price under the circumstances. There had been a good deal of the eastern portion taken by settlers. The company was to reserve twenty-five per cent of the lands, taking the best.

GERMAN ENGINEER'S INVENTION TO PREVENT ROLLING OF SHIPS AND TO STOP SEASICKNESS

LONDON, Nov. 2.—Photograph shows an invention which a young engineer named Otto Schlik claims will prevent a vessel from rolling by counteracting any tendency a ship has to roll. It takes the form of a specially constructed turbine, which is fixed on the vessel's bottom. It has been tested on a torpedo boat, and has already met with success. Its adoption on liners is eagerly awaited by those who find even the mildest cross-channel trips an undertaking to be feared, and, if possible, avoided.

FAMINE IN CHINA.

Ten Million Persons Near Starvation and Serious Disorder Feared.

SHANGHAI, Nov. 6.—Missionaries report a severe famine in North Kiangsu. About ten million persons are on the brink of starvation. The local magistrates are preventing the people from leaving the region but are taking no steps to provide them with food. Hitherto there have only been slight disorders, but it is feared they will become more serious.

WILL BE ADMITTED

FREDERICTON, Nov. 6.—The Chief Justice will today set a time when those who secured their degrees at the Kings College law school this year will be admitted to the bar. They are Kenneth MacKay, H. Green and J. D. P. Levin, all of St. John. Percy A. Guthrie and Mr. Lewis have succeeded in passing the second intermediate examination.

LOCAL NEWS.

DIPHThERIA IN ST. BASIL SCHOOL

Forty or Fifty Boarding Pupils Have the Disease They Have Been Isolated and the School Closed—Only One Death So Far—No Fear of Further Spread.

In an interview with T. B. Kidner published in the Star yesterday, Mr. Kidner was made to speak of the adoption of technical education "for workmen." It should have read "for workmen."

Steamer May Queen sailed this morning for Grand Lake ports with a full cargo, including two steam boilers shipped by E. Leonard & Sons to the Rutwell Coal Co., Newcastle and the King Lumber Co. of Chipman.

The Board of Health authorities have not yet found traces of Fred. Hanley, who escaped from a quarantined house on Garden street a few days ago. The police have not seen or heard of him, and it is thought that he has left the city. The smallpox patient, Miss Mary Guy, is speedily recovering.

J. B. M. Baxter states that the report of the supreme court proceedings in Fredericton, which in one instance appear to have reflected on the attorney general was incorrect. What Mr. Baxter said was that neither he nor the attorney general expected that the stenographer would have his transcript filed by Thursday of this week.

Judge McLeod on Monday intimated that an award of \$250 would be given in the case of Chittick vs. the city of St. John for the expropriation of a strip of land at Lake Latimer in connection with the water extension. Since the judge's intimation other claims have been sent in and offers to settle in the same basis. These form an indication as to the amount of damages which may follow in the suit. It is estimated that the city and over \$5,000 may have to be paid as compensation to occupiers of land on the pipe line.

At the annual meeting of the Portland Y. M. C. held last night the following officers were elected: President, T. A. Armour; First Vice-President, J. Brown; Second Vice-President, G. Crosby; Third Vice-President, A. Langley; Recording Secretary, MacIntyre; Recording Secretary, D. McCaw; Treasurer, R. C. Thomas; Chaplain, Frank Vincent. The reports read showed the association to be in a healthy condition. The members are working hard to prepare for an inter-provincial fair which will be held in their gymnasium on Nov. 15, 16 and 17. Booths representing the different provinces are to be constructed.

The report of the assessment commission has given rise to considerable talk and at an informal meeting of the Fabian League executive regret was expressed that the commission had exempted incomes of \$300 and under from taxation had taken away the franchise. Col. H. H. McLean, manager of the St. John Street Railway, said regarding the section which provided that for every \$100 of their gross income in lieu of all assessments other than real estate, that it had the appearance of unjust discrimination as it looked like a special tax for the St. John Railway as that are the only body doing that class of business in the city.

THIS EVENING.

Annual meeting of the Sons of Temperance. Band at the Victoria rink. Band at St. Andrew's Hallway. Fair in Carleton, under the auspices of Prentice boys. Smoker in Union Hall, Main street.

MEMORIAL PARK HAS A SURPLUS

Treasurer E. B. Jones' Statement Given Out

The treasurer of Riverview Memorial Park, E. B. Jones, in his report recently presented to the park directorate, gives the following figures. At Dec. 31st a year ago over \$95 in cash was on hand and since then the city grant of \$500, as well as shore rentals amounting to \$25, have been received. These \$525. The disbursements aggregate \$478.78, the principal items in which are \$132.87 for labor on park grounds; \$175 for earth and \$212.22 refunded for loan. There are then items for sodding, hardware, etc. It is gratifying to know that \$141.73 is the substantial balance in Treasurer Jones' hands, though it will be greatly needed towards spring in placing the grounds in shape. Since the memorial plot has been open to the public its energetic directorate has expended the money placed in its hands judiciously and with care. The increasing beauty of the park bears out this assertion, and the thousands who enjoy its quietude and scenery last summer and early autumn will agree that everything possible is being done to give to the people of St. John and Fairville a resting spot and view point well worthy of the city.

GRAND DIVISION.

At eight o'clock this evening the annual meeting of the Grand Division, Sons of Temperance, will open. The election of officers for the ensuing year will take place. Reports from the various divisions will be read. The grand worthy patriarch, Rev. C. F. Flemming of Point de Bute will be present and will deliver an address. The past year has been a very successful one, and Edwin J. Everett, grand scribe, will read an encouraging report.

DIPHThERIA IN ST. BASIL SCHOOL

Forty or Fifty Boarding Pupils Have the Disease They Have Been Isolated and the School Closed—Only One Death So Far—No Fear of Further Spread.

A message to the Star today from St. Basil, in Madawaska county, brought the information that there are now in quarantine at that place between 40 and 50 diphtheria patients. The disease, it is stated, is of quite a mild type, and out of all the cases which have so far developed there has been only one death.

The Star's informant was Dr. J. A. Guy, of Edmundston, who is looking after the epidemic. Dr. Guy said that at St. Basil there is a public school which is attended by about 150 boarders and 50 day pupils. The disease developed in the residence portion of the school, and of course had an excellent chance to spread among the pupils.

The school was at once closed and placed under quarantine while the children who are suffering from the disease were removed to another building near the school and isolated. So far, there has not been any outbreak of diphtheria among the private families. It has all been confined to the school, and Dr. Guy had no fear that there would be any further spread. The children vary in ages from five to fourteen and in spite of their illness are having quite a jolly time in the hospital. Dr. Guy adds that there is nothing to be afraid of. The epidemic, if it could be called such, is under control and there is no reason why anyone even in the vicinity of St. Basil should feel at all worried.

STARVED SIXTEEN DAYS FOR FRIEND

Pathetic Story of a Dog's Devotion to a Horse.

And Particulars of an Inhuman Act on the Part of Two Men in a North Shore Town.

A somewhat touching story of a dog's fidelity to a four-footed friend comes from the North Shore. A hotel keeper in a certain North Shore town owns a large dog of more than ordinary intelligence, and this dog was devoted in its affections to a fine horse which was also the property of the hotel man. During the summer, two strangers came to the proprietor of the hotel wanting to hire a horse for a short time, and obtained the animal spoken of. Night came on, and the strangers did not return, neither, of course, did the horse. This was not so strange, but the dog was also among the missing. Days passed and although a search was instituted no trace was found of either the two men or the animals, and the hotel keeper mourned the loss of his valuable horse and his pet dog. More than a fortnight after the disappearance of the men and the animals, certain parties driving through the woods heard peculiar sounds, as of something in distress. In the bushes on one side of the road, upon investigation, they saw a pitiful sight. Firmly tied to a tree, was the wreck of a once beautiful horse, not a sorry-looking beast, its eyes sunken in, absolutely nothing but skin and bones, with scarcely enough strength left to stand, and all but dead. The light wagon was still harnessed to the animal.

The dog, which had never during all this time, sixteen days, deserted his chum and gone home, was there beside him, still alive, but not much more. On every hand there were evidences of his dog's affection and devotion. Bunches of grass and leaves and ferns, and even rabbits which the dog had caught, found strewn on the ground before the horse, bits of grass even clinging to the harness. The discovery of the two animals was too late, however, to be of much use to the horse, for it died a day or two after, but the dog survived and is the hero and the favorite of the town where his owner lives. Indignation ran high in the neighborhood over the cruel treatment which the horse received from the two men who hired it, but they have never yet been captured, nothing of course could be done.

This story has the merit of being a strictly true one in all its details.

COUNTY COURT.

Jury Selected for the Case of Vall vs Wry and Court Adjourned

At the session of the county court yesterday afternoon the case against Wm. Laskey was taken up. Laskey was charged with stealing tin from the St. John City. He was found guilty and remanded for sentence. This morning the case of Vall vs. Wry which was set down for today was postponed until the next meeting of the court on Friday at 2 p. m. Judge Forbes suggested that as this was the last jury case it would be well to select a jury to try this case so that the rest of the petty jurors could be dismissed. A jury was accordingly sworn in and ordered to appear on Friday at 2 p. m.

Mrs. A. C. Nette, who was visiting her sister, Mrs. Geo. C. Amherst, King street east, has left for New York.

A Good Honest Overcoat

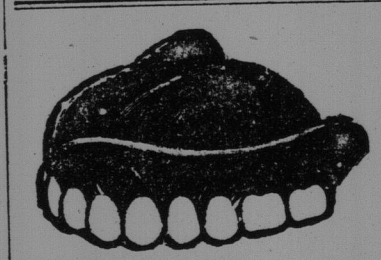

FOR— \$10.00

Not equal to tailor-made—we don't mean that. But better than you'll find in most places for the same money. They are made of good Cheviots, Tweeds and Meltons. Well made, well lined and worth at least \$12, judging from what some sell similar qualities for.

College Hats

For School Girls, Collegians and Misses

THE VERY LATEST

It will be an item of great interest to the school girls and young ladies of St. John to learn that we received yesterday, direct from the manufacturer, a large number of College Hats, otherwise known as the "Cheyenne".

This hat is the reigning rage in American cities, being a feminine adaptation of the college hat worn by young men. Flat, smooth felt with flaring front, decorated with college pin. There has been such a demand for this style of headwear throughout the United States and Upper Canada that our order comes a trifle late, yet it is the first consignment to reach this city. All school girls, collegians and young ladies desirous of being in the front rank of the fashion, on week days at least, should have a College Hat. Our stock includes black, navy, cardinal, wine, brown, pearl and white.

EVERY RELIABLE KIND OF Warm HANDWEAR FOR MEN AND WOMEN

GENTILITY IN WINTER GLOVES is very desirable. No lady or gentleman likes to wear a glove that is either gross or "stuffed" in appearance; rather do they delight in sleek, well-groomed hand-coverings. Just such tidy, dainty qualities do we offer today—the best from England, the best from France.

FOR LADIES

- IN CASHMERE, 25c to 85c—Fast Black and prevailing colors.
- KNITTED WOOL, 25c to 75c—Otherwise known as "Ringwood", or golf gloves.
- IN ANCOLE, \$1.00—In Black, White, Grey. Soft and luxurious.
- IN ANCOLE, \$1.00—Like in "Angola" in name, but different in quality. Long, shaggy wool. Black, White, Grey.
- GIRLS' GLOVES, 15c to 50c—In knitted wool. Other varieties.

FOR THE MEN

- UNLINED, \$1.00 to \$4.00, in Fine Cape, washable leather, rainproof leather, military quality, coachman's gloves, reindeer, buckskin, undressed kid, suede, mocha, sabian.
- LINED, 90c to \$6.00—In kid, cape, mocha, reindeer and buckskin. Lined with fleece wool, seamless knitted wool, silk and wool, lamb, blue fur and grey squirrel. Silk lined tans, mochas, sabians.
- WOOL GLOVES, 35c to \$2.00—Ringwood knit in black and brown; seamless Scotch knit, greys and heathers; Angola in black and grey. Some fleece-lined.

MITTENS, FUR GLOVES, ETC

MEN'S OUTFITTERS.
