THE E. & F. SPECIAL WRINGER

GUARANTEED FOR 3 YEARS.
By this we do not mean that this wringer will wear only three years; but that if through accident any parts give out within that time, we will replace it free of charge.

Medium, Family Size, \$5.00
Extra Large Size, - 6.00
These Wringers have extra good rubber rolls and are ball bearing; hence they require only half the labor to turn as the old-fashioned, ordinary wringer does.

EMERSON & FISHER Ltd., 25 Germain St.

ALREADY THE TOWN OF FERNIE IS RISING FROM ITS ASHES

Before the Smoke Has Cleared Away, Citizens Plan to Build Better Than Before—Report of Destruction of Michel is Verified

FERNIE, B. C., Aug. 5.—A summary of the fatalities in the great fire disaster is as follows: Vernon Lane, a miner, formerly of Cowley, Alta; Mrs. Clara Ralston; the Ford family, consisting of the father, mother and two small children; Lena Bell, a negro; an Austrian miner, autographed in the Hoerner Mine, was self-reported at first as Engineer Anderson. Four boots of different sizes, each containing a human foot, were found in the ruins yesterday morning. The remains of a human being found in a bush near here, were brought in in a pall. The body of a dead miner, killed in the mine dump, was burned in the fire. It is rumored that two women perished with Lena Bell, also that a woman plunged into the Elk river and was drowned. All hope has been given up for Alex Barton and Frank Thompson, of Camp Fernie. Four men have been found dead on the track. MEXICO, B. C., Aug. 5.—A fierce gale of wind yesterday fanned the smoldering embers in the forest west of the town into renewed life. The flames spread and the town was in peril. The flames spread and the town was in peril. The flames spread and the town was in peril.

CANADA'S NAVY TO BE IN PORT TONIGHT

Four Government Cruisers Will be Here

The Desigouche and Christine Here Now—Curlew and Lansdowne Due a Little Later.

The harbor will this evening have quite a naval appearance when no less than four government vessels will be in port. The large government steamer Res-tespouche arrived in port this morning and will do some work in the bay looking after the large buoys. The revenue cutter Christine which is somewhat larger than the Curlew also put in to port this morning on official business and both steamers are at the government wharf. The steamers Lansdowne and Curlew are expected to arrive this evening and Commander's fleet will make quite a stir in port.

ALDERMEN CANNOT ANSWER COMMITTEE'S QUESTION

Want Sub Committee to Give Information Before They Will Consider a Change.

Some surprise is being expressed in civic circles over the action taken yesterday by the sub-committee on division of the city. The feeling seems to be that the council would decide the question of whether a change should be made without waiting for further information. The feeling seems to be that the council would decide the question of whether a change should be made without waiting for further information.

INSURANCE COMPANIES MAKING REBATES

Office Staffs Now Busy Figuring Reductions on Account of Better Water Service

The staffs of the various insurance offices are busy these days making rebates on all fire insurance policies on commercial risks which were written before the recent water tests. After the tests proved satisfactory the underwriters decided to take off the extra twenty-five cents per hundred. This is the balance of an increase of forty cents made several years ago, the first reduction of fifteen cents being made when the chemical engines were purchased.

CHICAGO STOCKYARDS HAVE MURDER MYSTERY

Portions of a Young Woman's Body Found Scattered About Mud Lake.

CHICAGO, Aug. 5.—A mystery confronts the Chicago police as the result of the finding of the several limbs of a young woman in Mud Lake, a part of the south branch of the South River, near the stock yards yesterday. Experts who have examined the gruesome evidence of murder, pronounce the portions of the body found to be that of a blonde woman more than 18 years of age, who has been dead not more than ten days. That a crime was committed and the body hacked up in order to destroy all evidence is indicated by the manner in which the limbs were cut from the torso and the feet severed at the ankles in order to make identification impossible. Dragging of the lake for other parts of the body will be started by the police today in the hope of finding the head and trunk of the body.

YESTERDAY WAS ANOTHER SCORCHER IN CHICAGO

CHICAGO, Aug. 5.—Yesterday's heat record in Chicago was almost a duplicate of Monday's. A searching blast forced the mercury up to 94.5 degrees, just one and nine tenths of a degree lower than the high water mark of the day before. Eight deaths and a number of prostrations were recorded.

C. P. R. STRIKE TODAY FROM COAST TO COAST

Fifteen Hundred Men Quit Work in Montreal And Reports From Winnipeg Say That the Walk-out is General All Over the System.

MONTREAL, Aug. 5.—Sharp at ten o'clock today the machinists in the C.P.R. shops went out on strike. The boiler makers, steel cutters, tin-smiths and helpers to the number of 1,500 left work, protesting against the finding of the conciliation board. The car shops where the parts are assembled are working full time. The men at the shops in Winnipeg also quit work. The men here were evidently not aware that they would go out for many of them had their lunches in their pockets. At 10 o'clock about 500 left their benches and anvils and from then on to 11 they drifted out until 1,500 had quit. Advice from Winnipeg states that the strike is general all over the line.

FOREST FIRES ALONG BORDER

After Respite of Two Weeks St. Croix Owners are Fighting Flames Again

CALAIS, Aug. 4.—After having a respite of two weeks owners of woodlands along the St. Croix river are again at work fighting fires, which are springing up in all directions, threatening the outskirts of the towns and settlements and causing no end of uneasiness. Just back of Milltown and within a short distance of Calais considerable areas of forest are being burned and a call was made for men to fight the flames which spread with marked rapidity in the direction of the river, fanned by a brisk west wind. There is not a single drop of water anywhere with which the flames may be fought and the ground is so dry that it makes but little impression upon the scorched earth. The fire covered the area of the Murchie and Tyler lands getting into the latter on Monday notwithstanding the fact that a brisk wind was blowing the sparks in the very opposite direction. The Tyler lot was piled with brush from operations previously carried on and the huge piles sent up a dense smoke which alarmed the inhabitants of Milltown, who thought their homes were in danger, and the men who were sent out to prevent the flames from spreading nearer the houses had a hard time to keep them within bounds. It is said that the fire on this lot was purposely set by someone who wanted to have a little excitement, as its location was such that under the conditions prevailing Monday it was next to impossible for it to get started in any other way. The Murchie fire which threatened to work as far as the cemetery had been burning for several days and was practically extinguished by a crew of men sent out Friday evening, but the wind of Monday fanned the embers into life and the flames made rapid progress in the general direction of the river, sending up clouds of smoke which gave residents of the city proper the impression that a serious conflagration was in progress and that there was danger to farm property along the river road. The land through which the fire is now running is not particularly valuable suitable only for firewood but unless the element is checked it will in time reach more valuable land and do serious damage to farm property in its path. The men are greatly handicapped in their efforts to stop the spread of the flames, the ground being parched to a considerable depth and all the brooks and mudholes baked for lack of moisture, and the work of beating them out by means of boughs is slow and exceedingly hot work. On the New Brunswick side of the river a brisk fire was in progress in the neighborhood of Mo-hannes and the clouds of smoke were added to those sent out by the burning brush and trees on the American side of the line. Should the present conditions continue longer a large tract of country will be burned over and rain is the only thing that will save land-owners from heavy losses.

CAPE BRETON TAILOR COMMITTED SUICIDE

Ronald Gillis Shot Himself—Flashes From the Pistol Set Fire to His Bed.

SYDNEY, N. S., August 5.—Ronald Gillis, a young man aged 25, who had been in the hospital for some time, was found dead in his boarding house on Victoria Road at about 4 o'clock this morning with two bullet wounds in his body and a revolver lying on the floor near the bed upon which he had apparently fallen. The bed was found to be ablaze and the fire quenched without assistance from the fire department. The theory is that Gillis committed suicide and that the flash from the pistol set the bed on fire. An inquest will be held tonight.

CRAZY FIREBUG LEFT A SMOKY TRAIL IN MONCTON

FARM DISTILLERIES TO BE ESTABLISHED

Methylated Alcohol as Rival to Petroleum

Agents of Government in Europe to Learn Foreign Methods of Extracting Products.

LONDON, Aug. 5.—John G. Capers United States Commissioner of Internal Revenue and Dr. Crampton, chief chemist of the Bureau of Internal Revenue have come to Europe on a mission which is of great importance. This is to study the methods of the manufacturers along the intercolonial, including Amherst and Truro. The matter will be taken up by the local board at a meeting on Monday evening, when maritime delegates are to be appointed. The local board will also make efforts to interest other boards.

TO PREVENT THE SHOOTING OF SNIPES OUT OF SEASON

Doug Clinch Secures Police Assistance in Looking After Courtenay Bay Flats

There has been considerable complaint from real sportsmen that others do not try to keep within the game laws, but go out and shoot game before the season opens. One of the chief complaints is that persons from the city invade the Courtenay Bay flats and other places near the city and shoot snipe during the month of August. So frequently has this law been violated that when the season opens on September 1st, the sportsman has awaited the proper time, finds that there are few, if any, snipe to bag. Douglas Clinch, the secretary of the New Brunswick Fish, Forest and Game Protective Association, was a caller at the police headquarters this morning and Chief Clark said that he would assist the association in every way to prevent the snipe being shot out of season. The action taken by the association is being warmly praised by all true sports.

GAVE HIMSELF UP AFTER MURDERING A WOMAN

Young Negro Rather Surprised a Philadelphia Cop—His Confession Was True Though.

PHILADELPHIA, Pa., Aug.—Walking up to a policeman last night, a young negro said: "Reckon you better lock me up, boss, I killed a woman, but I did it in self defence, and I want to be locked up. I had to do it to save myself." The policeman arrested the man, who gave his name as Robert Barrington, and his story was then investigated. In a house in the southern section of the city the police found Maggie Albert, a young negro, dead, with five bullet holes in her head. The revolver with which the murder had been committed had been held so close to the woman's face that the powder had badly scorched the flesh. Jealousy is believed to have been the motive for the crime.

ABERGAVERNENY, ENGLAND, AUG. 5.—R. E. Walker, the South African sprinter, who won the final of the 100 metre dash at the Olympic Sports, yesterday broke the world's record for 100 yards, his time being 9.25 seconds, 1/5 of a second less than the record made by Dan J. Kelly at Spokane, Wash., June 23, 1904.

CIRCUIT COURT

The special sitting of the circuit court was resumed today. In the case of Robert Jones and Co., of England, vs. George S. Cushing, the plaintiffs claim \$1,000 damages for alleged breach of contract. The plaintiffs claim that they had in 1902 an option on some thousands of box shooks, and after lumber went up the defendant would not send them. This morning George S. Cushing filed that the plaintiffs did not exercise their option within a reasonable time. Argument of counsel will be heard this afternoon at 2:15 o'clock. H. A. Powell and F. H. Taylor for the plaintiffs; M. G. Reed and W. A. Ewing for the defendant.

VISITED THE ASYLUM

The members of the local government in their capacity as hospital commissioners, visited the Provincial Hospital for Nervous Diseases this morning and inspected the buildings and the farm. Everything was found in a very satisfactory condition and no improvements or changes were suggested. Under the late government the hospital had been brought up to a high standard of efficiency and the institution gives little chance for criticism.

The members of the Water and Sewerage Board will journey to Quebec tomorrow for the purpose of inspecting the Misco pulp mill, which is the property of the Water and Sewerage Board. The inspection is the result of a motion made by Ald. McDermott at the last meeting of the Board. The motion was caused by the application of the lessees of the mill property to have their annual rental reduced from \$3,500 to \$2,000.

ASEPTO SOAP POWDER
SWEETENS THE HOME.
All thrifty housekeepers are using Asepto Soap powder. It makes washing, scrubbing, etc., easy, and it prevents sickness. It sterilizes. Price 5 cts. per package.

The boring operations in Courtenay Bay are of great interest to a number of persons who gather along the shore while the boring is going on. At low tide the scow from which the borings are made rests on the mud, but at high tide floats. So far the material struck by the drill has been clay, sand and gravel. Material of this kind makes progress rather slow, but the boring will be continued until rock is struck, when operations will be begun again farther out in the bay.

A young squaw who arrived in the city last night from Esport and who says she is only seventeen years of age, was placed in the police station by Sergeant Campbell for protection. The girl was with two other squaws when she arrived, but becoming tired, she stayed in the ladies' waiting room and fell asleep. When she awoke her companions had disappeared and she did not know where to go. Sergeant Campbell took pity on her lonely condition and she was accommodated comfortably at the police station. The squaws intended to leave for up the river today.

"ALL ABOARD"
Farm Laborers Excursions leave Aug. 11th and Sept. 5th. See general arrangements outlined in advertising columns. Read the posters issued, or call on railway agents.

Things looked rather blue for Constable Erb, of Sussex, in the Scott Act down on Monday evening and only for the timely interference of the Chief of Police he might have received a severe beating. It appears that the constable acted unwisely in taking James Hanley from the Union Hotel to the Doyle pool rooms. A number of men gathered round the constable and compelled him to leave the premises and seek refuge. The Chief of Police was called out and after a considerable time matters were quieted down. During the affair Hanley did not make any attempt to escape. No arrests have as yet been made but it is expected that some action will be taken immediately.

MOONLIGHT EXCURSION
Loogo Portland S. of E. will hold their moonlight excursion tomorrow evening on the steamer "May Queen."

3 CENTS APiece FOR RATS.
Jamaica Using Them to Kill Their Brethren by Spreading Disease.

KINGSTON, Jamaica, Aug. 4.—The health authorities here have established a rigid quarantine against rats from Cuba, where yellow fever is reported.

The Government of Jamaica is paying 8 cents a head for live rats, and then given to citizens to turn loose in their houses in an endeavor to kill off other rats, to which disease is communicated by the inoculated animals.

TORONTO WOMAN'S PLEA

GAINS BROTHER'S LIBERTY
Was Serving a Life Term in Minneapolis Prison for Manslaughter Committed Two Years Ago.

ST. PAUL, Minn., Aug. 4.—The State Board of Pardons has granted a pardon to Alexander McEwan, sentenced to life imprisonment for manslaughter in 1906 for the murder of a woman in a restaurant. McEwan was granted a full pardon on the condition that he remain in the State for three months. McEwan was granted a full pardon on the condition that he remain in the State for three months.

A grand Masonic fair is to be held in the new hall at Hampton Station on Wednesday, Thursday and Friday of next week. An excellent programme has been prepared including musical shows in the agricultural hall in the village. A fine time is assured all who attend.

BAND AT SEASIDE PARK
There will be a band and fireworks at Seaside Park tonight.

An inquiry into the charges made against Policeman Lawson of Fairville by the Women's Christian Temperance Union of that place was held yesterday afternoon by the Highway Board at the Court House, Fairville. The result was not satisfactory to the W. C. T. U. Nothing could be proven against the officer, for the parties who made the complaint failed to appear and give evidence.

When asked by a reporter for the Sun yesterday what the band stand in the King square would be opened, President Carroll replied that the first concert would be given in the stand tomorrow evening. Neither electric effects nor the painting will be complete for the opening. The City Cornet Band have been practicing an excellent programme of the latest and best airs, under Bandmaster Williams. It is expected that His Worship Mayor Bullock will be present, and address those assembled.

The St. John Rifle Club will hold their annual cash prize and Morrison Cup match this afternoon on the local rifle range. The match will start at 2 o'clock sharp at the 500 yard mark. It is hoped a large number of the members will be present. The challenge pitcher donated by N. J. Morrison, captain of the club, has aroused the interest of the old shooters who are going to make the match as interesting as possible. The cash prizes will be divided into two classes.

The picnic of the parishioners of St. Peter's and Holy Trinity Churches will take place at Torryburn on Tuesday next. Large and efficient committees have the affair in hand and a grand outing is expected to take place. The Sunday School children will walk from the church to the station, headed by the City Cornet Band. All the games, sports and races will take place at an excellent dinner and supper will be served on the grounds. There will also be refreshments, soft drinks, etc., on sale. The first train will leave at 12 o'clock and others at 12:30 and 2:30 P. M.

While several bathers were enjoying themselves in the waters of Courtenay Bay yesterday afternoon a large sea dog appeared in their midst and sent them scurrying in all directions. The animal is thought to be part of a group which was seen some days ago. The dog was very tame and had a savage appearance which frightened the bathers and put an end to their sport. One of the bathers attempted to chase the sea dog away, but without success, and others were supposed to have been in the neighborhood, but could not be seen. The appearance of sea dogs is somewhat unusual and several intend visiting the place today to catch a glimpse of their visages.

GENERAL'S LEPPER WIFE BECOMES A MANIAC
Goes Insane After Examination When Told of Her Condition.

BISHOP, Ariz., Aug. 4.—General David K. Ward, who died of typhoid fever in Los Angeles several nights ago, was buried in a mountain side near Tombstone.

General Ward's wife and his wife arrived in Tombstone on Friday from Macao, Ariz., where they went from Los Angeles last night. Dr. Green, the county physician, said that Mrs. Ward was a maniac having lost her reason following the examination at Los Angeles, when her physicians told her she was afflicted with leprosy.

Mrs. Ward's mother, an old resident of Tombstone, is said to have died from leprosy three months before.

PERICE-BELDING.
A quiet wedding took place yesterday afternoon at 270 Germain street the home of A. M. Belding, editor of the Evening Times. His second daughter, Florence A., was united in marriage with George H. Perice, of Athol (Mass).

The ceremony was performed by the Rev. Gordon Parker, only immediate relatives were present. The bride was given away by her father. Immediately after the marriage Mr. Perice left for Boston, enroute to his future home in Athol. Mrs. J. Eugene Parker, sister of the bride, left by the same steamer with her infant son, Ronald, returning to her home in Athol.

ALUM.
Alum should never be absent from any household. It has a very good effect if applied to bleeding wounds, as it checks the loss of blood. Boiled in milk in small quantities it is good for toothaches. It must be held in the mouth, not swallowed. For bleeding of the mouth or tongue a wash in cold water in which alum has been dissolved is very effective.

The Bison
This shape has splendid style for such a comfortable collar. 14 inches at back, 12 inches at front, through the laundry. The collar that goes through the laundry. Same shape as above in silk brand. Demand the Brand. Makers Berlin.

ST. JOHN TENNIS PLAYERS IN THE MONTREAL CONTESTS

MONTREAL, Aug. 4.—Inches was the most successful of the St. John players in the tennis tournament today. He remained in the double singles competition by scoring an easy victory over Hal of Montreal, and in the second game—New York 4, Cincinnati 1 (game called after first half eighth, darkness).

McAvity of St. John was defeated in the double singles contest by the local player of Montreal, and towards the close of the play the light was very bad. Boys of Barrie Shervell and Shuckling of Montreal have shown the best form so far.

Following are the scores of the games in which St. John men played:
All-Canadian singles: Shervell, Montreal, beat McAvity, St. John, 6-2, 6-2.
Inches, St. John, beat Wickes and Evans, Montreal, 6-4, 6-4.
Inches, St. John, beat Haig, Montreal, 6-2, 6-2.

BASEBALL.

NATIONAL LEAGUE.
At Brooklyn—St. Louis, 6; Brooklyn, 3.
At New York (first game)—New York, 4; Cincinnati, 3 (13 innings).
Second game—New York, 4; Cincinnati, 1 (game called after first half eighth, darkness).

AMERICAN LEAGUE.
At St. Louis—New York-St. Louis, postponed, New York team delayed behind a rain storm.
At Cleveland—Washington, 5; Cleveland, 7.
At Chicago—Boston, 4; Chicago, 1.
At Philadelphia—Philadelphia, 4; Chicago, 2.

EASTERN LEAGUE.
At Guelph, Ont.—Toronto, 1; Jersey City, 14 (7 innings, r.f.p.).
At Baltimore—Baltimore, 4; Rochester, 3 (10 innings).
At Providence—Montreal, 9; Providence, 1.

YACHTING

The quarterly meeting of the Royal Kennebec Association was held last evening. Few matters other than the regular routine business were brought up.

One law member, George H. Hilyard, was elected.

It was decided that the fleet hold a Labor Day outing to either Brown's Flats or Devil's Back. The boys will start on Saturday and return on Monday or Tuesday.

SALE OF TORONTO NEWS

TORONTO, Aug. 4.—The sale of the Toronto News, as announced tonight causes much talk in the city. Many people think the paper will be controlled by the Conservatives and made a Tory organ.

The announcement says that J. W. Flavie, the chief owner, has sold out his share to the company of which J. S. Willson, the present editor, will be president and the policy of the paper will continue unchanged.

FATAL MISTAKE OF NURSE

BRÖCKVILLE, Aug. 4.—Carl Lee, a young man eighteen years of age, died today as the result of a fatal mistake made by a trained nurse. He had been threatened with typhoid since coming from Quebec, where he had gone as a member of the forty-first regiment of this town. The nurse in giving him medicine by mistake administered carbolic acid. He died in three minutes.

HAULED DOWN ROYAL BANNER.

Can Only Be Flown When the King is Present.

LONDON, Aug. 1.—When the Duchess of Devonshire, a Royal Standard was run up over the hotel where she was staying, a party of officials called at the hotel and ordered the standard hauled down, informing the management that an order had been issued that the Royal banner could only be flown when the King was present. Consequently, the King's sister-in-law finished her lunch under the Union Jack.

MAJOR-GENERAL LAKE INSPECTS ARTILLERY

The general inspection of the 3rd New Brunswick Regiment, Canadian Artillery, took place last evening. General Lake, the inspector general, being the inspecting officer. The regiment was inspected as a battalion and each battery as a company.

SALUTARY SETBACK FOR THE SOCIALISTS

Effect of Recent Labor Riots in France

General Confederation of Labor Committed a Premeditated Revolutionary Act.

PARIS, Aug. 4.—The labor riots which occurred Thursday at Villeneuve, St. George's, took the form of an open revolt when the followers of the General Confederation of Labor committed a premeditated revolutionary act, so far from promoting the aims of the ultra-socialists, it will undoubtedly lead to a salutary setback to them. The General Confederation of Labor, if it is not suppressed entirely, will certainly have its pernicious activity curbed. Its suppression will entail fresh legislation which is possible. Meanwhile events have served to irrevocably fix a gulf between the Republican majority and the extreme Socialist wing, which, both in the Chamber of Deputies and in the press, acts as the agent of the revolutionary confederations.

DEATH SENTENCE IS COMMUTED

OTTAWA, Aug. 4.—At this afternoon's meeting of the cabinet council the sentence of death passed upon an Englishman named Barrette, of Prince Albert, for the murder of his step-son last spring was commuted to life imprisonment. Barrette, while in a fit of rage, had snatched a pistol at his wife but the weapon missed fire. His little step-son then ran in between his mother and step-father, and the latter in trying to brush him aside, discharged the pistol, killing the child. When arrested he was tenderly nursed by the child who had his arms around the horror-stricken man and begged the law officers not to take father to jail.

ST. PIERRE MAN IS MURDERED BY SAILORS

HALIFAX, Aug. 4.—News comes from St. Pierre, Mic., that on Saturday last a man named Lucien Larrioux, a boarder at the house of a widow named Potier, was robbed and murdered by three sailors from the French brig Marvrol. The story is that the sailors found Larrioux asleep in his room and in robbing him woke him up, and while in the act of raising their hands for a time looked serious in his face and Larrioux fled in the hospital. One of his assailants was described by Larrioux as having a long beard.

FIRE AT FREDERICTON

FREDERICTON, Aug. 4.—The fire department was called out this afternoon at 7:15 P. M. by the alarm bells. When the firemen arrived the flames had gained considerable headway, and for a time it looked serious. The loss is estimated at about \$400 and is fully covered by insurance.

In the pool betting tonight on the races Northern Spy, Miss Letha and Louise E. are the favorites in the 215 class, while in the 225 the betting is made in sets.

John Rodkin of Kingsclear this afternoon hooked a large salmon at Hart's pond, opposite Springfield. This is the second catch of the season.

THE HAPPY HALF HOUR

Thursday Ladies' Night

ANOTHER RECORD OUTPUT

HALIFAX, Aug. 4.—July was another record breaking for output from the collieries of the Nova Scotia Steel and Coal Co. being over 3,000 tons greater than for the previous month. The figures follow: Sydney No. 1, 21,153; No. 2, 2,897; No. 3, 24,485; No. 4, 1,357; No. 5, 5,238. Total 58,315 tons.

SEARCHING FOR MISSING VESSEL

OTTAWA, Aug. 4.—The Marine Department has sent the customs steamer Gladiator to search for two missing fishing vessels which were driven off St. Paul Island, near Sydney, C. B., in a recent storm and have not since been seen.

GOOD FOR VESSEL OWNERS

KINGSTON, Aug. 4.—Shippers of Canadian grain, in anticipation of a very lively fall, are offering big prices to vessel owners to handle the North-west wheat from Fort William to Montreal. Charterers have been closed. Figures as high as 75 cents per bushel.

MAJOR-GENERAL LAKE INSPECTS ARTILLERY

The general inspection of the 3rd New Brunswick Regiment, Canadian Artillery, took place last evening. General Lake, the inspector general, being the inspecting officer. The regiment was inspected as a battalion and each battery as a company.

Thursday Ladies' Night

ANOTHER RECORD OUTPUT

HALIFAX, Aug. 4.—July was another record breaking for output from the collieries of the Nova Scotia Steel and Coal Co. being over 3,000 tons greater than for the previous month. The figures follow: Sydney No. 1, 21,153; No. 2, 2,897; No. 3, 24,485; No. 4, 1,357; No. 5, 5,238. Total 58,315 tons.

SEARCHING FOR MISSING VESSEL

OTTAWA, Aug. 4.—The Marine Department has sent the customs steamer Gladiator to search for two missing fishing vessels which were driven off St. Paul Island, near Sydney, C. B., in a recent storm and have not since been seen.

GOOD FOR VESSEL OWNERS

KINGSTON, Aug. 4.—Shippers of Canadian grain, in anticipation of a very lively fall, are offering big prices to vessel owners to handle the North-west wheat from Fort William to Montreal. Charterers have been closed. Figures as high as 75 cents per bushel.

Furnishing Homes

For over a score of years we have furnished a very large number of homes in this city, and we can furnish your home with good reliable furniture, carpets etc. at very low prices.

We do not handle that cheap trashy fare goods that spoils the appearance of any home. Come in and look around and see how low our prices are

Amland Bros., Ltd.

Furniture and Carpet Dealers,
19 Waterloo Street.

Sackville Would Keep The Enterprise Foundry. SACKVILLE, Aug. 4 - In view of the fact that the Enterprise Foundry used to pay out every fortnight some \$1,500 in wages, practically all of which was spent in Sackville, it is not to be wondered at that the rumor that the Enterprise was to be sold to the holding of a special Town Council meeting Friday evening to consider the matter.

Lost and Found. LOST - Last night at Nickel, Gold Locket. Reward if returned to Star Office. 5-8-1.

Miscellaneous. AGENTS WANTED - Men and Ladies for one of the best and most useful household articles ever introduced. Every house, office and store should have Liberal commission. Address P. O. Box 210, City.

Notice. Notice is hereby given that the Francis Kerr Company, Limited, has purchased all the right, title and interest in the coal and wood business lately carried on by the St. John Fuel Company, and will continue the said business under the firm name of FRANCIS KERR CO., LIMITED.

Tin Money. Tin money was once used in England probably on account of the rich tin mines of Cornwall. Early English coinages contained much of this tin money, principally in the form of fathings and halfpennies.

COIN COUNTING BY MECHANISM

Marvelous Apparatus Which is Being Successfully Operated in Bank of England.

LONDON, Aug. 4. - A remarkable machine has been installed for experimental purposes in the counting house of the Bank of England. It is the invention of a Swedish engineer. The apparatus counts and sorts money into paper tubes or bags at the rate of 72,000 coins an hour. In the Bank of England fourteen expert cashiers, working all day long, are able to count only \$5,000 in small silver coins. The new machine will do so in a fifth of the time.

The apparatus is worked by electricity. It has a hopper at the top which discharges into a series of hoppers, which are tipped over by mechanical action. They fall upon a polished metal plate. This is tilted downward and broken up by raised metal rules into exactly a hundred squares, which may be so altered in size that any desired coin, slipping into them, is held firmly in its place.

As the coins fall upon the plate, mechanism hidden beneath it caused it to move rapidly to and fro with a sieve-like motion. The result is that, when the coins are tilted, they fall into a few seconds "sifted" off and return to their original receptacle, while in each of the hundred squares lies a sixpenny piece. By mechanism even more ingenious the hundred coins which have been sorted are placed in paper tubes, and are stacked, without the chance of error, in twenties, fifties or sixties.

Twenty Dollar Checks Caused His Suicide. NEW YORK, Aug. 4. - Charles W. Westfield, 22 years old, an assistant bookkeeper in the Produce Exchange Bank, committed suicide by shooting himself through the head in the book-keeping building this afternoon, and two checks bearing his signature were presented at the paying teller's window.

Manchester Unity. The sixteenth annual session of the grand lodge of Acadia District, I. O. O. F., Manchester Unity, opens in King Edward lodge rooms, Barrington street, at ten o'clock tomorrow morning. The officers of the New Hampshire did not give out the names of the men.

Stirrups. Stirrups were unknown to the ancients. They were first used in the fifth century of our era, but were not in common use even in the twelfth century.

Overheard on the Links. "Neatness is essential on the links," said H. J. Whigham, the golfer, at a dinner in Chicago. "At Shinnecock Hills one day I played behind two young and pretty girls. Overtaking them, I heard the younger say, 'How many holes on this course, Alen?' 'Nineteen, dear,' said Alen, 'including the one in your stocking.'"

Slightly Different. Bonus (struggling author) - I was surprised at the favorable reception accorded the little farce comedy I wrote last month. But what did you dramatic critic mean by suggesting that I write another one before I retire? Nagus (literary editor) - He didn't put it quite that way. He said you ought to write one more and then quit. - Chicago Tribune.

SCHOONER CREW'S STRUGGLE FOR LIFE

Vessel Caught in Hurricane off Halifax.

Thrown on Her Beam Ends - Crew Had to Cut Away Sails to Allow Her to Right - Towed into Halifax.

HALIFAX, N. S., Aug. 5 - Thrown on her beam ends in one of the fiercest squalls of Sunday's hurricane the three masted schooner, Noronberg, was only saved from becoming a total loss by the prompt action of Captain Pederson and his crew. With slight seas breaking over the bulwarks and washing the deck load of laths overboard and threatening to sweep the crew into the sea, Captain Pederson and his men swarmed along the weather bulwarks and with axe and knife cut away all the schooner's sails and she slowly righted. Then some spare sails were set but although the schooner was only 25 miles off Halifax when the accident happened she could not make port, tugs having to bring her in. The cabin and forecastle were flooded, provisions ruined, and clothes of the crew washed out of the forecastle.

BRYAN ENDORSES THE PHONOGRAPH

Regards It as Digitized Method of Disseminating Speeches - Spent a Busy Day.

FAIRVIEW, Neb., Aug. 4 - A striking contrast with yesterday's William J. Bryan today spent a busy day. The torrid weather did not seem to affect those desirous of making the long trip to Fairview. They came in great numbers, some on business bearing on the campaign and many purely of a desire to pay their respects. The procession of visitors began early and kept up until well into the evening. The intensity of the heat did not seem to disturb Mr. Bryan much. He cordially greeted everybody who called, and personally escorted large parties through his home.

Early in the day he gave out a statement in which he referred to Mr. Tatt's talk into a phonograph and seized on the opportunity to express the opinion that the use of the phonograph for the dissemination of political speeches would be regarded as a dignified method of discussing public questions.

Mr. Bryan evinced much pleasure at the assurance given by a delegation of brewery workers of Quincy, Ill. and of several farmers from Phillips and Newton counties, Kansas, speaking for many others from whom he would receive good support.

DESSERTERS TRAGED BY SEARCH LIGHT

NEWPORT, R. I., Aug. 4 - Four men of the crew of the New Hampshire, who deserted the ship before the morning, were captured today and returned to the battleship to meet court martial charges.

The men seized the 12 oared cutter of the ship but were discovered by the searchlight which was turned on the men and they were followed until they made the mainland near Newport. Here they set the boat adrift and threw away the oars. The Newport police were notified and the cutter was recovered.

St. John. The sixteenth annual session of the grand lodge of Acadia District, I. O. O. F., Manchester Unity, opens in King Edward lodge rooms, Barrington street, at ten o'clock tomorrow morning. The officers of the New Hampshire did not give out the names of the men.

Stirrups. Stirrups were unknown to the ancients. They were first used in the fifth century of our era, but were not in common use even in the twelfth century.

Overheard on the Links. "Neatness is essential on the links," said H. J. Whigham, the golfer, at a dinner in Chicago. "At Shinnecock Hills one day I played behind two young and pretty girls. Overtaking them, I heard the younger say, 'How many holes on this course, Alen?' 'Nineteen, dear,' said Alen, 'including the one in your stocking.'"

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dredging" will be received until Friday, August 14, 1908, at 4.00 P. M., for dredging required at the following places in the Province of New Brunswick -

Buctouche Beach, Buctouche Harbour, Gaspereaux River and Pointe du Chene.

Tenders will not be considered unless made on the form supplied, and signed by the actual signatures of tenders.

Combined specification and form of tender can be obtained at the Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the works. Only dredges can be employed which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within twenty days after the date they have been notified of the acceptance of their tender.

An accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, must be deposited as security for the dredging which the tenderer offers to perform in the Province of New Brunswick. The cheque will be returned in case of non-acceptance of tender. The Department does not bind itself to accept the lowest or any tender.

By Order, R. C. DESROCHERS, Asst. Secretary, Department of Public Works, Ottawa, July 28, 1908.

Newspapers will not be inserted if this advertisement if they appear without authority from the Department. 2-3-3

SHAD.

The commission appointed by the Federal government for the purpose of ascertaining, if possible, the cause of the destruction of the shad in Maritime waters, has, during the past week, been holding daily sittings in Nova Scotia. The reports of these hearings differ very little from day to day. Every morning some resident who has a fair understanding of the situation, tells what he knows. Witnesses who follow simply endorse what has previously been said, realizing that there is only one explanation and that repetition is unnecessary. The evidence of the first witness in the entire hearing is exactly the same as will be given by all the others. The shad and other fish have been destroyed by man's greed. The waters of the Maritime Provinces, inland and coastal, should be swarming with shad, but instead of this the numbers now annually caught are ridiculously small. Every year the shad seeks the quiet waters of rivers and lakes during the spawning period. In former days countless thousands swam up the St. John and Kennebec rivers and other streams along the coast. At that season the fish are not fat to eat, but this has evidently never been considered by the thoughtless men who have slaughtered them. The rivers have been filled with nets, so closely placed that a shad would have to be a competent navigator to find its way between them. Not only has the local demand been supplied, not only the American market attended to, but year after year cartloads of the valuable fish, each capable of producing thousands of others, have annually been taken from the river and hauled in carts to the farms where they have been used as fertilizer. Enriching the land at \$100 per load was for years the popular custom, and now a commission has been created to ascertain the cause of what has become the fish which goes to the spawning beds, but the beds themselves have been destroyed by sawdust from the many mills dotting the rivers and streams. Until the dumping of sawdust into the rivers is absolutely prohibited and the fish properly protected during the spawning season there can be no improvement in the shad fishing, but let the fish alone for a year or two and they will speedily increase in numbers. It is to be hoped that the report of the present commission of inquiry will recommend an absolutely close season for shad for at least three years.

THE FENCE IS DOWN.

There is no fence around the Provincial Hospital in Lancaster. When one stops to think of it, this is a most remarkable state of affairs in comparison with the methods adopted only a few years ago. Within the memory of every young physician, persons sent mentally were subjected to what is now regarded as very harsh treatment and the idea of permitting such freedom as is today granted, was then looked upon as absolutely dangerous. Lunatics, it was believed, had to be confined, and no precautions for their control could be too rigid. Bolts and bars, and high fences were the ordinary safeguards; manacles and even balls for the feet, such as are used at times in prisons, were not unknown. And today even the fence around the Provincial Hospital grounds has been torn down. It is not needed. Its presence is detrimental to the recovery of patients. Nothing makes a man, be sane or insane, so anxious to wander, as does the knowledge that he is unable to move about according to his will. The demented men and women in the hospital frequently tried to break through or climb the fence. They knew they were shut in and they were determined to get out. Now they look around and see nothing to hinder them. But with the realization that they are no longer confined they lose the desire for wandering. The attempts at escape from the hospital will be of less frequent occurrence now that the fence is gone, but the careful watch of the attendants will not, however, be relaxed.

The Mount Royal Cemetery Company, in a report recently issued, makes the statement that popular prejudice against cremation seems to be disappearing. During the past year there has been a marked increase in the number of persons declining in favor of cremation as against burial for deceased friends. From all points of view this method of disposing of bodies is to be commended, although it will take a long time for the feeling against the plan to wear off. People whose friends die prefer not to think of what becomes of the body in a few months after it has been put under ground. If they were permitted to open the coffins a year after burial there would be no further objection to cremation.

HOW TO BE HAPPY.

Old Gentleman.—Rastus, if you had half of that big watermelon, would you be happy? Little Rastus.—"No, sah. Old Gentleman.—"What more would you want to complete your happiness?" Little Rastus.—"De odder half ob dat melon, sah."

CUTTING THEIR WEEDS.

Hyker.—"Why did you give up smoking?" Fyker.—"In order to marry a rich widow." Hyker.—"I fail to see the connection." Fyker.—"She refused to give up her weeds unless I would give up mine."

SWEEPING THE CONVENTION.

"I nominate for President our friend and former associate now nobly serving his country in State's prison," "But a man in jail can't run," suggested another delegate. "Nor he isn't apt to make any bad breaks, either," resumed the first speaker, this happy hit sweeping the convention with the force of a tidal wave.

FINAL TEST.

Spongem.—"I say, old man, in case I should die suddenly, will you make sure that I am really dead before they bury me?" Knox.—"Yes, you may depend on me. I'll ask you to have a drink, and if you don't sit up and take notice, I'll tell the undertaker to go ahead and plant you."

SIGNS OF PRECOCIITY.

"I believe," declared the Irishman, "that me youngest son's born to be a surgeon." "That leads ye t' say that?" asked his friend. "O! caught him usin' th' scissors on a book O'd lately bought, an' before O! could stop him he cut out th' appendix."

A SUGGESTION.

He.—"I can never think of the right thing to say at the right time." She.—"Why don't you try saying the right thing sometimes even if you get in the wrong place?"

EARTHQUAKES CAUSE A PANIC IN CONSTANTINE

Eight Persons Injured—Property Loss \$200,000—Half Naked People Run Screaming Through Streets.

CONSTANTINE, Aug. 5.—A number of earthquake shocks were experienced here yesterday, but the most serious occurred last night. A preliminary investigation has resulted in an estimate of the damage done in the city being placed at \$200,000. At first it was believed there was no loss of life, but later three bodies were found. Eight persons were injured and it was feared that more casualties would be reported. The patients in the hospitals fled half naked to the street and the prisoners in the city jail screamed in terror, imploring to be released. In the excitement, however, they were forgotten. A majority of the people of the city are encamped in the open spaces fearing to return to their homes. Reports from the interior show that the earthquake was generally felt, but nowhere was the damage done as severe as that in this city.

STRIKERS DYNAMITED MINES; USED RIFLES

A Pitched Battle at Alabama Colliery in Which No One Was Hurt.

SACKVILLE GIRL HAD A NARROW ESCAPE

SACKVILLE, N. B., Aug. 3.—A Sackville young lady was one of a party who had a most unpleasant and dangerous experience on Northumberland Strait a week ago last evening when for a time it was feared that eight or nine persons would lose their lives through drowning. The party had set out from Cape Tormentine in a motor boat in the morning for Prince Edward Island and having reached the Island safely had spent the day there. The start for the Cape on the homeward trip was made about half past seven in the evening. When some distance from the island shore it was found that the water was very rough and some difficulty was met with in the management of the boat. Finally the boat began to take in water rapidly and despite energetic balling such quantities were shipped that it was impossible to keep the engine running. The boat was tossed about and some of those on board had little hope of ever reaching safety again. The boat had neither sail nor oars and without motive power there was grave danger. Fortunately, however, the strong wind was blowing on the island shore and about midnight the boat drifted back to the island and the party was safe. Had the wind been in another direction the experience, unpleasant and dangerous as it was, would undoubtedly have had more serious results. The party reached Cape Tormentine again some hours after the second landing on the island.

HUSBAND'S KISS SAVED HER LIFE

Woman at Torbridge, Eng., Had Narrow Escape

Was in a Trance and Husband's Farewell Kiss Led to Discovery That She Was Not Dead.

LONDON, Eng., Aug. 4.—A great sensation has just recently occurred in the town of Torbridge. A woman named Mrs. Carton, after a short illness, to all appearances died and was placed in a coffin and all arrangements were made for the funeral. Just as the coffin was about to be screwed down the husband asked to be left alone with the body for a few moments. He bent over the coffin to kiss his wife a last farewell. For an instant the man was daunted with wonder and joy, his wife's cheek was quite warm—she was alive. A doctor was immediately summoned and confirmed the anguished husband's hopes. She was immediately removed to a hospital, where her condition is rapidly improving and she is now well on the way to recovery.

SMOKED 55,402,336 113 CIGARETTES IN A YEAR

Enormous Number Reported by Government—Little Cigars Not Counted

WASHINGTON, Aug. 5.—Cigarettes to the number of 55,402,336 113 were consumed in the United States in the last year. Counting the number of men and boys of smoking age as 25,000,000, each consumed 2216 cigarettes last year.

LOOKING FOR LAND TO SETTLE JEWS

Zangwill Says an Expedition Will Start Soon

Address of 4,000 Hebrews in the White Chapel District of London.

LONDON, Aug. 4.—Israel Zangwill, addressing 4,000 Jews in Whitechapel, advised emigrants at the present time to go to the western States of America. He urged them not to go to the eastern States, especially New York, where there are already a million Jews, and no more are wanted there. It was the third anniversary of the Jews' Territorial Organization, now known as the J. T. O., which resulted in the split among the Zionists. It aims at forming an autonomous Jewish colony. Zangwill announced that an expedition was shortly going to investigate certain lands to that end, but he was not empowered to say where the land was situated.

HALF UNITED STATES UNDER PROHIBITION

Nearly 40,000,000 People Live Where Saloons is Forbidden, and the Area is Growing

DENVER, Aug. 5.—Dr. P. A. Baker, general superintendent of the Anti-Saloon League, who is here to tell the people of Denver what has been accomplished by the prohibition movement, says:— "Nearly 40,000,000 people in the United States now live in prohibition territory."

ROTHESAY COLLEGIATE SCHOOL, Rothesay, N. B.

HEADMASTER: REV. W. R. HIBBARD, M. A., Late Senior Mathematical Master at Trinity College School, Port Hope.

Well known boarding school for boys. Preparation for the Universities. R. M. C. or for business.

Manual Training. New gymnasium ready for use in September. Five resident masters for average attendance of 70 pupils. Situation unexcelled.

The school is managed on what is known as the Home System, i. e., the boarding houses are quite separate from the main school buildings, and each in charge of two masters. Next term begins September 10th. For illustrated calendar and other information, apply to the Headmaster.

TRYING TO CIVILIZE A LITTLE SAVAGE

Samuel, aged 11, of the Chunchoo Tribe of Peru, is Enjoying Himself in Los Angeles.

LOS ANGELES, Aug. 4.—Delighted with his surroundings in this city, where he has been but a few days, Samuel, an eleven-year-old boy of the man-eating Chunchoo tribe of Peru, is enjoying himself to the utmost.

Samuel was brought to Los Angeles by Mrs. Chester W. Brown, wife of a mining engineer. The boy was the center of attraction on shipboard on the voyage from Mollendo.

Mrs. Brown and her mother, Mrs. M. E. Louis, made the journey in forty-seven days, and on the ship the Chunchoo had found much to excite his curiosity, but with true Indian stolidity he expressed little or no astonishment.

Samuel took his first automobile ride recently, and Mrs. Brown smiled, thinking that he certainly would show delight, but the little Chunchoo savage took it as a matter of fact.

Of English he still knows little. He says fluently "good morning," "good evening," and recently at dinner, after tasting a delicious soup, remarked politely that it was "very good chupe."

The word "chupe" is tribal lingo for a dish that corresponds to American soup, and the little savage was quick to associate the terms.

Samuel spends much time amusing himself with other children, is a general favorite, and is making fast friends. His temper is sunny, his disposition even. He is quite a mimic, and recently was on the lawn indulging in all sorts of boyish pranks.

ANOTHER UNFORTUNATE NOBLEMAN CAPTURED

LONDON, Aug. 5.—The engagement is announced of the Hon. Hugh Melville Howard, brother of the Earl of Wicklow, to May, daughter of Benjamin A. Sands, of New York.

SERGE SUITS

The wisest men are those who grasp good opportunities. Here is a suit we are proud of—a blue and black serge, English cloth, with a finish that doesn't glare and is very easy to keep clean. The suit is made for service. And at the same time it is made to retain its shape and original elegance. It is exceptionally well tailored by the skillful craftsmen of the famous 20th Century factory. Now here's the point: This same suit sells at Montreal for \$32. But a few years ago WE started selling them for \$18, and although the manufacturers have since then increased THEIR price to us, we are still offering the suit at the same old price. Perhaps the best possible proof that the suit is as good as we think, lies in the fact that several of our customers have ordered again and again, also advising their friends to purchase this remarkable value.

COMMITTED DARING
ROBBERY ON TRAIN
Held up Ticket Sellers and Got a Bunch of Money—Jumped From Train With Their Loot.

THE WILY CASTRO
GOT THERE FIRST
Now Understood That the Hague Was Intending to Recall Dutch Minister and Sever Relations With Venezuela.

CANTON, Mass., Aug. 4.—Chief Henry E. Galligan and the officers of Canton are tonight searching for the three men who committed a daring hold-up and robbery on a train from Boston today and jumped from the train, making their escape. The robbery occurred on the 1227 train out of Boston on the Providence division of the New York, New Haven and Hartford R. R. Three men held up one of the passengers and taking from him \$140, jumped as the train was passing Green Lodge, a flag station. The man who was robbed left the train at Canton Junction, and reported the robbery to Chief Galligan who at once instituted a search for the men. Up to a late hour none of them had been apprehended. The man who was robbed promised to remain in Canton to appear against the man who was captured, but tonight he could not be found, and his name is not known. The man who was robbed promised to Esau, of Orient Heights. He had been selling tickets for an outing of the Columbus Association of this city who were on their way to Sharon. The money taken from him represented the proceeds from the sale of tickets. The robbers jostled the man in the vestibule between the cars and securing the money, jumped from the train. Three other men in charge of the picnic were also robbed of small amounts. It is believed, by the men who made their escape.

THE FROG SEASON HERE; CRAKERS CAN FIND INSPIRATION IN THESE STORIES

One Frog Saves Drowning Child—Another Kills Political Snake—Intelligent Frogs' Timepieces—Frogs' Logs Generate Electricity.

FROG'S CRY BRINGS FATHER TO RESCUE.
FROGTOWN, Pa., Aug. 4.—The humble bullfrog has come to his own at last. He saved the life of a young child Thursday. Shortly after dusk Willie Schmolli wandered alone to the house of his parents and, reaching the bank of the creek, began playing among the rushes. In some manner the youngster tumbled into the water and, unable to swim, he was carried down stream. A large frog with a strong, resonant voice, saw the accident and, leaping to the top of a log, began calling in a deep tone, "Hee-hee-hee-hee-hee-hee." The boy was attracted by the calls and the listened intently. "Somebody is in distress," he shouted, and he rushed down to the creek just in time to see little Willie sinking for the third and last time. Mr. Schmolli jumped into the river and dragged his darling child ashore, where after some effort he was restored to consciousness. He then hunted up the frog and patting him on the back, announced that so long as any of the Schmolli family lived the thoughtful animal should not want for food. This day, now, Willie takes down a mess of chopped meat for his friend.

CERTAINLY FROGS CAN TELL THE TIME.
HOPPERSVILLE, Pa., Aug. 4.—Several students of nature assert that frogs are excellent clocks, and they observing them at any hour of the day one can be accurately informed as to the time. Most persons have noticed that at different times during the day the sounds from the frog ponds undergo a change in note and in volume. This fact caused the investigation to be made with this result: Early in the morning the call frogs, which are the youngsters, announce in a shrill treble that it is "6 o'clock." This is kept up until all the animals are somewhat excited. Dippy then utters a note that is "dinner time," then the frogs cease their labors. Along about noon the croakers, possessing contracts to work, come out on the bank, and seating themselves in a shady spot, proceed to tell everybody that it is "dinner time." This, only interruptions are caused by the frogs catching flies for personal use. In the evening it is the husky old bullfrog who gets on the job, and with a rumble, calls out "8 o'clock," "turn in."

FROGS LEGS MAKE ELECTRIC CURRENT.
CROAKERS, Pa., Aug. 4.—"If electricity will make frogs' legs jump, then it follows logically, that sufficient frog legs will make electricity." This is the argument put forth by B. G. Dippy, a local scientist, who is regarded by his neighbors as being somewhat eccentric. Mr. Dippy thoroughly believes in the principles he has laid down, and says that if there were enough frogs he could light and heat the world and run all the trolley cars. He says that in order to demonstrate the solidity of his theory he caught a dozen healthy frogs and placed them in a machine, attracting to the legs of each a small quantity of zinc, and wire in turn was connected with a small motor. He then employed a small boy to tickle the toes of the frog, and with each kick an electric impulse was given to the motor. This was done until the frog grew tired, and stopped when the boy grew tired. Mr. Dippy does not believe that eating frogs' legs will cause a person to become charged with electricity. A sufficiently high charge can be made by the restaurant keeper.

TEN-POUND FROGS RAISED BY HANDE.
LILYPAD, Pa., Aug. 4.—Caleb Watts is raising in a pond near here some of the largest frogs on record. For several years he has devoted his time to frog culture with a view to increasing the size of the succulent hoppers. The demand for frogs is greater than the supply, and they readily bring \$1.50 a dozen. Especially large and selected frogs are worth \$2.50 a dozen. Mr. Watts says that there is no reason why frogs should not grow to a weight of ten pounds. He believes they should be raised by hand and should be given plenty of rich nourishing food at regular hours. He feeds them a mixed diet of liver, cornmeal and flies brings the best results, and he has a half dozen or more frogs which weigh six or seven pounds. At his frog farm Mr. Watts selects his stock from the largest tadpoles only, and he raises them in small ponds. He says they get too much exercise in large ponds, and it keeps them thin.

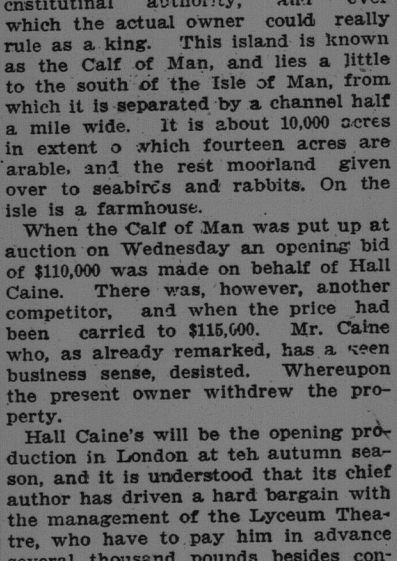

RATTLE IS SLAIN BY HOPPING FROG.
TADPOLE, Pa., Aug. 4.—There was a fierce battle in Pike pond other day between a huge frog and a rattlesnake. It ended with the frog killing the snake. Persons who witnessed the mighty struggle declare that it evidently started over politics. The frog living in the water was, of course, a prohibitionist, while the snake had affiliated himself with some other party recognized by liquor. During the day the frog delivered several prohibition speeches to a large audience, and his voice attracted the attention of the snake, which came down from the hill to see what all the trouble was about. He carried with him his rattle and also a campaign button, which he flaunted conspicuously. Infuriated by the arguments, the rattlesnake made a rush for the frog, and the battle started. The snake endeavored to get a grip on the frog and swallow him, but the smaller opponent was wary and kicked with such vigor that the snake tied itself in a knot with pain. At each opening the frog sent in sledge-hammer kicks, and once it knocked off the campaign button and damaged six of the rattles beyond repair. The snake tried to pick up the button, and this gave the frog the chance it was looking for. Leaping upon the snake's back, the frog hopped up and down, breaking the rattlesnake's back in three places.

UNHOLZ OUT-POINTED BY DICK HYLAND.
NEW YORK, Aug. 4.—Dick Hyland, of California, out-pointed Rudolph Unholz, the Boer champion, in their six round fight at the Navarre A. C. in Ulmer Park tonight. Hyland out-fought his opponent in every round and in the last round dropped Unholz to the floor with a right hook to the jaw. The Boer managed to arise but Hyland beat him all over the ring and at the end Unholz was almost out.

HALL CAINE IS NOW MASTER
Author Has Acquired a Large Part of the Soil of the Isle of Man

Bid for Smaller Islet of That Name When It Was Put up at Auction Last Week.
LONDON, Aug. 4.—Hall Caine is by all odds the most important personage on the Isle of Man, not excepting Lord Raglan, the lieutenant governor, or the speaker of the Island Parliament, the House of Keys. Picture postcards of the novelist, his family, belongings and residence and Grebla Castle meet the eye of the letter to Douglas or Ramsey in every shop window, and are sold by hundreds of thousands annually to tipplers who during the summer visit the island from Lancashire manufacturing towns, and who go out in droves in the hope of catching a glimpse of the famous author. Mr. Caine is as valuable an asset to this island as its palubrious breezes, and the local appreciation of him is correspondingly keen. His views are listened to with greater attention than the united voice of the whole House of Keys, and, in a figurative sense, it is often said of him that he owns the Isle of Man. What is not generally known is that this, to a great extent, is true in a literal sense. During the financial crisis through which the island passed a few years ago, and during which the banks were practically closed to business, Mr. Caine was almost the only solvent man in Manxland. He possesses a keen business sense, and, during this period of financial stress, was able to lay out funds, over which he had control, to considerable advantage. A friend of his who visited him recently at Grebla Castle, took several long drives with him, in the course of which the question was often asked who owned the land over which they were passing. In every case, Mr. Caine's response was either that he owned the land outright, or held a mortgage upon it. Like Alexander Selkirk, he might have exclaimed: "I am monarch of all I survey."

AMUSEMENTS.
DAMON AND PTHIAS AT THE UNIQUE.
All who attend the Unique Theatre today will witness one of the greatest pictures ever photographed. Everyone has heard the beautiful story of "Damon and Pythias" and the announcement that they will be able to see in motion pictures this historical event which took place many hundreds of years ago, will be received with pleasure. This very excellent picture is over 2000 feet in length, the scenes are beautiful beyond description and the colorings are very elaborate. Do not forget that this picture is something different from any ever exhibited in this city. From all sections of the world where this picture has been shown some glowing testimonials of its exceptional beauty, when this is added to the comfort, coolness and cleanliness of the Unique it is safe to predict bumper houses for the next two days. Ladies and children should not forget that they can see the complete show at the afternoon matinee and thus avoid the crush in the evenings. The Unique's high-class vocalists, Miss A. Outous, and Will Harrison, will be heard in the latest New York song hits.

TONIGHT AND TOMORROW AT NICKEL.
The people of St. John are evidently fully appreciative of the fact that they are enjoying the latest and best feature in the line of motion picture entertainment at the Nickel, by the manner in which they are attending the picture showing of the Humantov company. Yesterday the crowds were large and the production of The Two Orphans proved immensely the novelty of the thing and the startling lifelikeness of the play completely captured every on-looker, and few there was who did not say it was as enjoyable as a real production of a large company. Today the lovely French drama will receive its final presentation. The additional features of the Nickel's programme for tomorrow are two new Pathé pictures: A Bothersome Husband and In the Government Service. Miss Foley and Mr. Gurney will sing and the orchestra will present one of the most satisfactory of the novelists' ambition. This week is has been seeking to obtain possession of an island which has no government, no House of Keys, no courts of law, and no laws, and ever which the actual owner could really rule as a king. This island is known as the Isle of Man, and lies a little to the south of the Isle of Man, from which it is separated by a channel half a mile wide. It is about 10,000 acres in extent, and the rest moorland given over to sheep and rabbits. On the Isle is a farmhouse. When the Calf of Man was put up at auction on Wednesday evening, a bid of \$10,000 was made on behalf of Hall Caine. There was, however, another competitor, and the price was raised to \$115,000. Mr. Caine, who, as already remarked, has a keen business sense, desisted. Whereupon the present owner withdrew the property.

DR. JEKYL AND MR. HYDE AT THE BIJOU.
To mention the fact that Dr. Jekyl and Mr. Hyde is the top notcher on the Bijou programme today insures this house of crowds and witnesses. AT THE PRINCESS.
Large audiences enjoyed the performance at the Princess Theatre yesterday, and larger crowds may be expected today when an entire change of programme takes place. The management are offering to their patrons a larger programme of motion pictures than usual. There will be five of the best reels obtainable and they are of the latest production. "Who Owns the Basket?" is one of the films that is most amusing. "The Fine Easter Egg" is another comedy picture that is sure to please. "Silk Hats Ironed," and "The Sausage Thieves" are two more comedy pictures, while the fifth film is a dramatic scene entitled "Father and Son." The above programme is the largest in the city and the Princess management are being most successful in giving to the St. John theatre goers one of the best performances in the lower provinces. The rendering of the latest illustrated songs by Harry Newcombe is alone a feature, and this popular baritone is more of a favorite than ever.

LOST CHILD WATCHED BY BULL COUGHES
Frankie Mother's "Instinct" Leads Her to Daughter Six Miles in Wyoming Hills.
THERMOPOLIS, Wyo., Aug. 4.—When the four year old daughter of Mrs. Powers wandered away from a sheep camp, forty miles northwest of Thermopolis, she was married last Tuesday to a young divorcee and that he intended to marry her. Mrs. Clark is 22 and about a year ago she got employment as housekeeper at the residence of Dr. Clark. Dr. Clark's wife died about nine years ago. Dr. Clark's two sons, who are physicians and have been associated with him in his practice, were not pleased with the attitude of their father toward the housekeeper. They told him so, but he declared that he loved the young divorcee and that he intended to marry her. Dr. Clark is estimated to be worth \$20,000.

SIX

THE STAR, ST. JOHN, N. B. WEDNESDAY, AUGUST 5, 1908

The Foolish Niece of My Uncle

By F. D. BARROWS.

(Continued.)

All through the months of work that followed I was a hopeful creature. Like all inconsistent people, I trusted that the impossible might happen, and somewhere, I should see Wilson Roberts again, and we would be the jolly companions we had been for two short weeks in the autumn. Strangely enough, I refused to think of Star, and believed that what I hoped might be possible.

I was far too busy a person, writing days and keeping house for Uncle Robert, to think of anyone much, but it was in the twilight, when I rested for a few moments and sat reading alone, that I dreamed wild things. Perhaps Uncle would be studying a new sonata or giving some lessons in his study across the hall, and the harmony would steal in close to my heart. One night, as I sat here, I spied my unopened mail lying on the table. Mail usually is dull and uninteresting, and I was never in any hurry to open it, but tonight I made a dive for it, and afterwards I was glad I had done so. My desk was piled high with uncorrected work, and it was growing dark, but still I sat reading that letter over and over. Across the hall Uncle was playing a soft overture to one of his scholars, outside, the rain splattered against the windows, and willfully enough I thought of another rainy afternoon in the autumn.

I felt wildly happy as I sat smiling down on those sheets of paper, for a long time, so many thoughts came rushing over me that I was bewildered. First, there was joy—and then sorrow—then joy again. It was all clear now.

The letter was from A. P., and just full of news of Wilson Roberts. He was off in some outlandish place, building a bridge, and she had news for him. He had left Star behind with her—of course I remembered Star? I shivered at the remembrance. Star had been taken away and was to live with some of her parents' relatives, because I knew that she wasn't Wilson's child—simply the child of a dead friend of his. Here I almost fainted! The idea had flashed into Aunt Phoebe's head that perhaps I had thought she belonged to Wilson, and that was why I had expressed such a longing for him in my letters. He had mentioned that to her, for she had told him some of the things I had said about him in them. Here I cried, and to think I had forbidden her to give him the slightest clue as to where I lived. (Just as if he might have wanted it!) Of course, now he had no time to search out a silly girl, when he had to build. A. P. could not tell when he would be back, but he had promised to visit her some time in the winter. Then I formed wild plans.

I had always taken things in my very worst form. Uncle often said that made him look at me so steadily, so it must have been the way I said it. My momentary bravery left me, and there I stood not daring to take my hands from his shoulders, for fear I should sit down on the floor in a limp heap; and in a second I could not, for he was holding me so close that I could scarcely breathe, and he just made me tell him how much I loved him before he let me go. But he did afterward, and it took so long to do it, that it became dark, and we heard voices on the porch.

"It's A. P. and your uncle!" Wilson whispered, grasping my other hand—for he already had one. So this was Uncle's important convention. But Wilson and I scoted.

A THIRD NEEDED.

"You need" said the expert to the sufferer, "two pairs of glasses, one for reading and one for long distance." "Can't you make it three pairs?" "Loving: Field Marshal Lord Roberts, Lady Alberta Roberts, Lord Strathcona, Lord Bruce and other notables."

ST. JOHN MAN PRESIDENT OF DENTAL ASS'N.

OTTAWA, Aug. 4.—The Canadian Dental Association opened its fourth biennial meeting this morning at the Normal School. About 100 members of the association are in attendance.

A resolution was passed expressing regret of the association at the death of Dr. W. S. McInnis, late president of the association, and James M. Magree, D. D. S., of St. John, N. B., was elected as his successor for the ensuing year.

The opening report was read by Dr. George K. Thompson of Halifax, who discussed the question of the dental education of the public and school children. He advocated examination of the children in the schools by capable dentists, who would be able to give a verdict concerning the condition of teeth and mouth. The members of the association who took up the question after Dr. Thompson were a unit in demanding legislation making it imperative that school children should be placed under the supervision of the dentist as a preventive measure. The general opinion was that a great deal of suffering and misery and permanent ill-health is due to neglect of the teeth.

A general discussion on the subject was led by Dr. R. J. Reade of Toronto and Dr. W. C. Davy of Morrisburg. The association will remain in session until Thursday afternoon.

"LOYDS" ALWAYS READY TO "TAKE A CHANCE" TO "FAMOUS BRITISH ORGANIZATION WILL INSURE AGAINST ANY CONTINGENCY FROM BAD WEATHER TO SUDDEN DEATH—ITS ORIGIN AND HISTORY.

Advocates of the anti-gambling measures of this state and, especially those who believe in the spirit as well as the letter of the law, would not take too much to heart the stories about men who, wishing to bet on the results of the Presidential election, have resorted to the device of insuring themselves, through Lloyds against the election of Bryan, says the New York Evening Post.

Some such policies have been written in the last week, but there are very few of them in existence, and, in the opinion of insurance brokers who do an international business, the number of transactions between now and November will not be large.

Many of the brokers in this city will not take the election business at all, and the few who do are very careful about their clients, so it should be supposed that any Tom, Dick or Harry of a "piker" can run into an insurance office with a ten-dollar bill and get a policy against Bryan at a 20 per cent. premium, and one against Tatt at a 60 per cent. premium.

"You must think I'm a bookmaker," said the broker to the client who had just secured for several of his clients insurance against the election of Bryan upon their assurance that such a contingency would mean a real loss of money. "But hedge betting was a little too much."

Four years ago an election bettor had \$5,000 stake against Bryan. "I see no way that I can lose," he said, "unless Roosevelt drops dead."

The man took the suggestion, and secured a policy against Bryan for \$100,000 and a candidate in the United States that any of the local brokers can recall.

Sea and Car Sickness Quickly Cured

By Motherell's Sesslek Remedy, The Only One For Sale and Recommended On All Steamships.

Do not hesitate buying ticket by Ocean. Let us show you Motherell's Sesslek Remedy, for fear of sea or car sickness, for Motherell's Sesslek Remedy will guarantee you all the pleasures of travel. Write for information and testimonials from prominent people to the Motherell's Sesslek Co., Ltd., 151 Cleveland Building, Detroit, Mich.

For sale at recommended in St. John and Charlottetown, N. B., at Moore and Royal Pharmacy, and G. A. Riecker.

PROTECTION AGAINST RAIN.

But there are other policies just as curious, which may be obtained from the historical Lloyds of London, and merchants who organized that association more than 200 years ago never dreamed of it.

"There is no more infrequently used insurance policy than the marine policy of Lloyds. A fortnight ago the marine policy of Lloyds was used to insure a cargo of goods against rain and consequent loss of sale receipts. Still more recently had \$5,000 stake against Bryan who spent \$15,000 in advertising the sale of a big estate in Westchester County, secured by a Lloyds policy of \$100,000 for one year against the death of the Shah. Everybody, of course, is familiar with the insurance on the life of the King taken by the public as a precaution.

So there is much ground for the saying that Lloyds will insure anything or against anything. But that is not literally true.

"The insurance against the race-track laws is evaded," one broker was asked, "by getting insurance against this or that horse falling to win."

"Most all valuable show and race horses, and many of the valuable polo ponies, are insured, but only against damage in transit, or only against damage in transit or death or accident. Lloyds used to insure horses against death or accident, but actually following the hours or running on the track, but insurance has been curtailed."

WILL SPEND ONE MORE DAY IN OTTAWA

OTTAWA, Aug. 4.—The people of Ottawa will have a chance of seeing Lord Roberts tomorrow evening. The field marshal is arranged to spend one more day in the capital, leaving at 7:30 p. m. tomorrow by special train for Montreal. Lord Roberts will receive the civic address at 3 o'clock tomorrow afternoon in a private meeting with the mayor and council at Rideau Hall. His reception of the South Atlantic veterans in Ottawa was arranged for the same time. In the evening before leaving for Montreal he will, at the request of Mayor Scott, drive to the station by a circuitous route, so as to gratify the desire of Ottawans for a glimpse at the empire's most famous soldier.

WHEN HIGHBALL BROKE A LEG.

The last famous case of horse insurance in this country was that of Highball, the odd-on favorite, that broke his leg when coming down the home stretch many lengths ahead of every other horse in the race.

So far as integrity and responsibility is concerned Lloyds may be considered as ranking with the Bank of England, and yet it is little more than a club. It is, in fact, a society of many subscribers, each one of whom contributes £5,000 upon his election, and from this aggregate sum the losses on marine insurance (the real business of Lloyds) are paid. All other insurance in the name of Lloyds is done by the individual members on their own responsibility.

An underwriter who is a member of the society, has his own circle of intimate friends and business associates in the organization, and such groups and individuals subscribe for this, that or the other risks and divide the losses or the profits among themselves.

A man wants to be insured say for \$500 against a risk on a certain day. His underwriter in Lloyds undertakes the matter, and pledges himself for the sum of his risk for \$100. That, in its simplest form, is the way of the so-called marine insurance.

Two centuries or more there has never been a conspicuous failure on the part of Lloyds to pay.

It all began in a coffee house, Edward Lloyd's coffee house in London, where the merchants and ship owners gathered every day to discuss the weather and the chances of a voyage. Marine insurance was then over a century old. In fact there was a European ordinance covering the matter in 1535, but the coffee-house group decided to do

Just a Few Ideas.

How many of the people who read this have taken the trouble to send for or get an Exhibition Prize List?

Probably not one in a hundred, and yet the Prize List is the Fount of Official Information of the Exhibition.

There are suggestions on almost every page for Exhibits.

The conclusions of Exhibition Associations for the last 25 years are found there—in the list of competitors for which prizes are offered.

There's where you'll get ideas. So first of all in your effort to help the Exhibition, get a Prize List.

If you own a good horse, Show Him at the Exhibition. If you read the prize list you will be surprised into how many classes he may enter and compete. You may have a prize winner and don't know it.

Follow this up and get busy.

There are many matched teams—carriage and draught—in the city. Some of them are always on hand—why not more of them? We could have a great horse show—a splendid Exhibition feature—if the horse owners will come in.

Think it over and Send in Your Entry.

Then there are the big horses—the handsome strong horses—which haul for the wholesale trade—what a show they would make if all competed.

What do their teamsters say?

All kinds of horses in all kinds of business can find a chance to compete, and the prize list will tell how and where.

Be sure you call at the Exhibition offices, 23 King Street, (up stairs), and get a copy.

These are ideas for owners and lovers of horses—ideas which, if put into practical shape for September 12th to 19th will help the Exhibition.

PERHAPS SHAKESPEARE KNEW SHAKESPEARE.

Eighty years before the cruise of the *Titania*, the "good ship Tiger" was insured in such a way that she might touch not only at Christian ports, but also at places along the Barbary coast. That was at about the time Shakespeare wrote *Macbeth* in an *Age of Discovery* history of marine insurance it was thought worth while to suggest the possible connection by quoting the line, "Her husband's to Aleppo gone, master of the *Tiger*."

"In *Twelfth Night*" there is this reference, "And this is he that did the *Tiger* capture." It is also an account of the voyage of the *Tiger* to Tripoli in Hakluyt's Voyages.

That was at about the time Shakespeare wrote *Macbeth* in an *Age of Discovery* history of marine insurance it was thought worth while to suggest the possible connection by quoting the line, "Her husband's to Aleppo gone, master of the *Tiger*."

FIRST ENGLISH POLICY.

The first policy written in English of which there is any record was made in 1535. It was found in the records of selected pleas of the Court of Admiralty and edited for the Sheldon Society as follows:

"Spanyard dwelling in London doth cause to be assured in the name of Anthony of Andover from any part of the Indies of Calicut until Lixborne in the ship called *Cancra* whereof he was captain and master Peter de Lixborne was his mate, and many other goods apperlyng to Anthony de Billar and Ventura de Fryas or to whomever they shall appertain, against all perils by sea or land, and against death or accident, but actually following the hours or running on the track, but insurance has been curtailed."

BRONSON HOWARD DEAD IN NEW JERSEY

Dramatist and Author of Note Has Passed Away

NEW YORK, Aug. 4.—Bronson Howard, dramatist and author, writer of several plays which stand as landmarks in the American dramatic field, died today of heart failure at Avon-by-the-Sea, N. J., after an illness of about a year. Mr. Howard, who went to the coast resort on June 25 in the hope that the sea air might benefit him, improved in health for a time, but in the last two weeks failed rapidly. Mr. Howard and several near relatives were with him as he died. His funeral will take place at Avon Thursday afternoon, and shortly afterward the body will be removed for interment to Detroit, where Mr. Howard was born sixty-eight years ago.

Bronson Howard began his journalistic career in 1859, when he came to this city, where he was connected at various times with the *Tribune* and the *Evening Post*, but he practically retired from newspaper work in 1872, devoting himself largely thereafter to dramatic work. As a dramatist he was best known by reason of the successes of *Saratoga*, *The Banker's Daughter*, *Old Love Letters*, *Young Mrs. Winthrop*, *The Heartist*, *Shenandoah*, and *Aristocracy*. From 1876, the date of *Saratoga*, to 1898, when he published *Kate*, he was engaged primarily with characters essentially American.

In 1880 Mr. Howard married Miss Wynham, a sister of Sir Charles Wynham, the English comedian.

WOMAN KILLED IN AUTO ACCIDENT

Owner and Driver is Held by Police Without Bail

BOSTON, Mass., Aug. 4.—One unknown young woman was instantly killed and three others were seriously injured in an unusual automobile accident on Elm Hill avenue, near the campment of the Knights of Pythias tonight.

An automobile owned and driven by W. G. Seavey, jr., of Elm Hill avenue, struck an electric car and, bounding back, hit several people in the crowd of the Pythian camp, where it awaits identification. Miss Alice Cobb, of Adams street, and Miss Winifred Waters received internal injuries which may prove serious, and R. Montgomery, of the Woodlawn street, was injured about the body. All the injured lie in the vicinity, either in Dorchester or Roxbury.

The police immediately placed Mr. Seavey under arrest and he is held by the police without bail. In the auto, besides the driver, were Miss Irene Schaeffer of 30 Michigan avenue, Miss Mabel Murray of 20 Fowler street, and Mr. Schaeffer of 30 Michigan avenue.

Think it over and Send in Your Entry.

Then there are the big horses—the handsome strong horses—which haul for the wholesale trade—what a show they would make if all competed.

What do their teamsters say?

UNWILLING IMMIGRANTS ALL BEING DEPORTED

MONTREAL, Aug. 4.—Twenty immigrants from England who recently arrived in Canada, have been returned from the ship *Calcutta* and are being deported home in connection with the Dominion immigration agency to be deported. Eleven of them are adults, and nine are children. They are being deported because they are either unable or unwilling to work in Canada.

MISS ELLEN McSWEENEY OF MONCTON DEAD

MONCTON, Aug. 4.—Miss Ellen McSweeney died this afternoon after a long illness. Miss McSweeney was a woman of literary gifts and brilliant conversational powers. She was a daughter of the late Peter McSweeney and sister of Senator McSweeney and George McSweeney. The sisters are Mrs. Henry Young of Florida, Mrs. Edgar Newhouse of West Orange, N. J., Mrs. J. J. Walker, Moncton; Sister Saint Aloysius, Sister of Charity at Dorchester, Mass., and Misses Johanna and Agnes at home. Deceased was born in Moncton, where she resided during her entire life.

SENT TO PENITENTIARY

MONTREAL, Aug. 4.—J. A. D. Poltraz, who was formerly secretary-treasurer of the School Commission of Lacolle, and who pleaded guilty a few days ago to the charge of embezzlement of \$2,000, was sentenced this morning by Judge Choquet, in the Court of Session, to three years in the penitentiary.

PATERSON'S Cambridge Wafers

PATERSON'S Cambridge Wafers is a delicately dainty new biscuit, made from cream of wheat... ex-quisitely crisp and tempting. It is only for good gooder. Buy by name.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY

There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year. In the world's history no medicine has ever met with greater success.

ZEPPELIN CAME DOWN THIS MORNING TO MAKE REPAIRS

STUTTGART, Aug. 5.—Count Zeppelin's airship descended on a plateau near the village of Echterdingen, five miles south of the city shortly before 8 o'clock this morning, owing to a defect in one of the motors.

FRIEDRICHSHAFEN, Aug. 5.—The many thousand people who had waited since daybreak for the return of Count Zeppelin's airship from its record breaking voyage, were greatly disappointed when it became known shortly

after ten o'clock that the airship had been compelled to come down at Echterdingen. The Prince of Wurtemberg, who was one of those who had come out to the floating shed to which the balloon was expected to return, accompanied personally to tie people in the launches and boats swarming around the shed that the balloon could not be expected back before tonight or tomorrow morning.

Lead, but we would not neglect reasonable profits on buying. The demand may be said of Locomotive. If all the stock offering in Steel from 46 to 47 is taken professional will expect a cross 50, reversing their position which is short. Very little Steel preferred is for sale.

News reports this morning present practically nothing of additional news. The market is at present discounting a good government report to be published on Saturday. It may be said, however, that the strongest support of the market and one that will render futile professional attacks that have been and are likely to be made, is the plentiful money condition. We suggest the maintenance of the conservative bull position as a rule.

BERLIN, Aug. 5.—The independent press criticizes the abbreviation of the university course in the case of "Doctor August Wilhelm," the fourth son of the Kaiser, who this week got the degree of doctor of political science at Strauburg University after a course of two instead of the usual three years. The Minister of Education is questioned for weakness of character. It is pointed out that it is impossible for even an unusually talented student to obtain a degree in so short a term. Also "undue favoritism" is openly charged against the university examiners.

LOCAL NEWS
St. Mary's Band will hold a garden party on the afternoon and evening of Saturday, August 8th, on Mr. Echebrecht's grounds, Red Head Road, Duckboards leave Haymarket Square.

W. S. Harkins has gone to New York to arrange for his next dramatic season. Orson M. Dunn will again be a member of his company. Jessie West, the clever soubrette, who was here with Harkins some years ago, is dead at Brooklyn, N. Y.

That gate at Onnetto which has been the cause of considerable comment on the part of suburbanites and others during the past few months, has been removed. Yesterday, acting on instructions from the public works department, Edward Finley of Brandy Point, road supervisor for the district, took down the gate and with the assistance of horses, pulled up the posts.

"If you are playing the waiting game don't overdo it." Pidgeon's great clearance sale is drawing to a close and your chance will soon be gone. Have you seen the special final clearance prices on their remaining summer stocks in men's and boys' clothing, hats and furnishings? The shoe bargains are more sweeping than ever at Pidgeon's, corner Main and Bridge Sts.

Major General Percy H. N. Lake, C. B., C. M. G., Inspector General of Cavalry militia, who last night inspected the 3rd regiment of Artillery, will tonight inspect the 2nd Fusiliers. He will leave on the late train for Halifax and will return via Fredericton. General Lake, speaking to a reporter, said that he had been informed by a member of the militia committee, that Prince Wm. street had been selected as the site for the new drill hall. Regarding the extension of the militia he said that attention was being given to the west where numerous new corps were being organized.

The congregation of St. Mary's church united last evening in extending an enthusiastic reception to their rector, Venerable Father Raymond, and Mrs. Raymond on their return home from England. The members of St. Mary's congregation united with various societies of the church and St. Mary's band in presenting to them a formal address of welcome. The ceremony, which took place in the school house, was attended by many. Rev. E. B. Hooper, of St. Paul's (Valley) church, was in the chair.

Douglas W. Clinch, the secretary of the New Brunswick Fish, Forest and Game Protective Association, arrived yesterday from Ottawa and Montreal, where he has been in the interest of the association. He has secured the promise of trout fry for the province in 1909, and an inspector to report on the dam at Mispec and Big Salmon River, also one at St. George. Mr. Clinch said he was pleased assistance from the Minister of Public Works and numerous others.

At the afternoon session of the government yesterday it was stated that an order in council had been passed permitting the local school board to issue bonds to the amount of \$15,000 for the purpose of defraying the cost of furnishing the school buildings with fire escapes. Consideration was promised a delegation from the Grand Marais Steamship Company who asked that the \$1,000 subsidy be again granted. Col. H. Montgomery Campbell, president of the Board of Public Works will be considered later.

The death occurred last evening, at his home, 28 St. Patrick street, of Louis Thoroughgood, one of the most highly skilled leather workers in the city. Mr. Thoroughgood, who was sixty-seven years of age, came to this country from England about 1880, and took charge of the custom making department in George Driscoll's business on Germain street. After that concern changed hands he remained for twelve years with James Driscoll, the new owner. Afterwards he removed to Fredericton, but returned to St. John and has since been in business for himself. He was a particularly competent workman and an estimable citizen.

FORMER ST. JOHN MEN
HERE ON VACATION

There are two visitors in the city on vacations who are attracting considerable attention. For years ago their deeds in the fire department were worthy of admiration. The older members of the department know them and the younger ones are making their acquaintance.

Jim Belyea, who about 20 years ago was a daring driver in the local department, is here from San Francisco, and his old time friends speak of the days when he drove the hose wagons and ladder trucks to fires. He is now a great big policeman on the San Francisco force and one of the finest in the Golden City. Some of Jim's old friends hardly knew him at first, but despite the enlargement of his body, he is still the same good fellow as when he left St. John.

The other old fire department driver who is in the city is "Billy Nell", who at one time drove from No. 2 station. He left St. John the year after the big fire of '77, but in his looks there is little change and he is being warmly greeted by old friends who were little changed and he is being warmly greeted by old friends who were little changed.

John Donohue is a big policeman from the State of Massachusetts. Mr. Donohue is spending his vacation here and is renewing old acquaintances and meeting new friends.

PERSONAL
Harold Ellis returned today to Ottawa after a vacation spent at his home here.

Mrs. J. Wade and Miss Catherine Wade returned to the city today from Boston, where they have been visiting Mrs. Wade's sister, Mrs. Webster.

E. F. Jones, formerly of this city, is in St. John on a visit.

THE STRIKE STARTED
AT TEN O'CLOCK

G. P. R. Carmen and Machinists
Quit Work

McAdam Shops Closed—Bay Shore and Other Points Affected—No Trouble Anticipated.

Promptly on the stroke of ten o'clock this forenoon all men employed in the mechanical departments of the Atlantic Division of the C. P. R. put on their coats and quit work. There was no excitement and the closing down of the shops resembled very much an early dinner hour. At Rockham Junction the divisional point at which the principal works are situated one hundred men walked out. A few weeks ago the same men were at the shops in the car service department who had been dropped during a recent dispute, and these men were among the men who had this full force was to be utilized in handling the more mechanical work in the event of a strike among the machinists. Consequently it was something of a surprise to the bosses at McAdam today when the carmen joined their associates and left the whole works in the hands of only a few men.

There are on this division upwards of two hundred men affected by the strike. Some are employed at Bay Shore in the round houses and yards, while other gangs are found beyond McAdam. So far as can be learned all are now idle.

There does not appear to be any disposition on the part of the men to make trouble. The Star representative who accompanied today sent word that while a great deal of talk is heard on all sides, it is not tinged with any bitterness. The men look upon the present movement not as anything local, but as a dispute in which they are taking only a part of a very large organization. There is no local bitterness, and this is looked upon by outsiders as a reason why the men believe the fact that during the last three or four months the men have lost considerable amounts of money has been feeling the brunt of wages.

Speaking to The Star this morning General Superintendent Downie did not anticipate any serious results. He has no fear of trouble with the men, as relations on this division have always been most cordial. He realizes that there is no disposition on the part of the men to act otherwise than in accordance with the instructions issued by their organization.

Regarding delay to traffic, Mr. Downie was not making of course that the absence of the men would be noticeable, did not believe there would be any interference with business. He believes things will go along on this division at least, in the usual way, and that for the present at least the company's traffic will not suffer.

FRED DUNCANSON TO RETIRE
Says That He Will Sell His Richly Bred Mares This Fall.

Fred Duncanson, the well known horseman who is here with his swell racing stable for the meeting which will start tomorrow, announces that he will hold a dispersal sale and retire from the racing game permanently. Fred has not been altogether satisfied with the way things have been breaking for him this season so that he and his friends hope that he will reconsider his decision he is now all in earnest about the sale proposition, and says that it will take place this fall after the St. John exhibition races, when he will sell out the two fast mares he is racing this year as well as all of his rigging.

The latest addition to the stable is Idle Moments, a bay mare, foaled in last fall. She is a bay mare, foaled in last fall. She is by Taylor and Marvin of LaFayette, Indiana. She is by Ira Band (2:15), the sire of John S. Band (2:15), the season's champion three year old pacer, Dr. Band, (2:15), and a lot of other good ones. Ira Band has the right kind of breeding, being by Jaywood, he by Nutwood (2:15), son of Belmont, by Alexander Abdallah, son of Rysdyk's Hambletonian; Idle Moments' dam is Rena Mark (dam of Dr. Band, 2:15), Pastime, (2:15), by Jaywood, son of Happy Meadow, V. G., Rysdyk's Hambletonian. Her second dam is Spirit, by Keystone, son of Billy Good Dust, third dam, Bird (dam of John G., (2:15) by Ottawa.

The other mare to be sold is Laura Merrill (2:15), made in a winning race last fall. She is a bay mare, foaled in 1902, by Lentell, 4:03, he by Axelb, dam Evangelina; the dam is Sudio Lee, by George Lee, 2:19, Studley Lee's dam is Lilly Wilkes, Wilkesonian, 1:30. She was bred by J. M. Leach and Co., of Kokomo, Indiana.

These two mares cost Mr. Duncanson a total of \$2,500 or more and should sell high when placed under the hammer.

A shirt has been made in the Duncanson stable and Tommy Raymond is now the driver in charge. The Phair and Allen mares are in charge of Pin Collins who is conducting a separate stable.

EVANS-SWEENEY.
At seven o'clock this morning the church of St. John the Baptist, Broad street, was the scene of a quiet but pretty wedding, when Miss Bertha Sweeney, eldest daughter of Mr. Hugh Sweeney, 172 St. James street, was united in marriage to Mr. Wm. G. Evans, of the same address. The bride was attired in a traveling suit of Copenhagen blue with hat to match, and carried a white prayer book. Miss Mary Sweeney, sister of the bride, acted as bridesmaid, and wore a pretty costume of cream Panama cloth, with hat to match, and carried a large bouquet of sweet peas. The groom was supported by Mr. J. J. Butler. The happy couple left by the steamer Prince Rupert for a short trip through the Annapolis Valley, and on their return will reside at 27 Clarence street. Many useful and beautiful presents were received.
