

VOLUNTEERS ENROLL FOR BATTLE AGAINST TRIPLE ALLIANCE NEXT TUESDAY

Peers and Middle Classes United in Firm Stand in New Trouble.

MILITARY PREPARES FOR SERIOUS TROUBLE

Special Constables, Enrolled in War, Numbering 250,000 Men, to be Called.

London, April 8.—If the triple alliance order for a general stoppage of work by its members is made effective, it seems certain there will be a rush of volunteers from the elements not in sympathy with the strike movement. An organization which probably will have an important part in this emergency is the middle class union, composed mainly of the "new poor" and the so-called "wageless" who contend that through lack of organization they have failed to achieve increases commensurate with those received by the trade unionists, and that they have been penalized through the high living costs resulting from the advances to the trade unionists.

Slipped Into Boiling Well in Car Shops

William Wood at Moncton Has Narrow Escape from Horrible Death.

ONE LEG SCALDED UP TO THE BODY

Body of James Shea, Missing Since Last November, Found in Richibucto River.

Special to The Standard. Moncton, N. B., April 8.—William Wood, an employee of the logging room of the C. N. R. erecting shop, has a narrow escape from a horrible death.

For the protection of these civilian volunteers and to facilitate their services, the government has available not only the regular army and naval establishments, but also its reserve forces, but may use the territorial organizations.

Mr. Lloyd George already has indicated that the special constabulary formed during the war and totalling about 250,000 men, will be called out. This uniform force usually is employed to assist the police in the preservation of order in the more populous centres.

EMBARGO BILL UP ON MONDAY

Sub-Committee Says Farmers Must Have Purchasing Value of Money Restored.

Washington, April 8.—Republican members of the House of Commons this afternoon is that the action of the triple alliance is an attempt by direct action to intimidate parliament and the nation. The prime minister announced the military and other measures which the government intended to take to defeat this attempt.

Labor Demands Norris' Resignation

Group Cabinet is Idea That Will be Proposed in a Motion in Manitoba.

Winnipeg, April 8.—The labor group in the Manitoba Legislature through A. E. Smith, member for Brandon, will present on Tuesday next a motion calling upon the Norris Government to vacate office and turn over the administration to a cabinet composed of representatives of the various groups in the order of their numerical representation in the House.

Soviets Lands Unite

Stockholm, April 8.—Soviet Russia and the Soviet Republic of White Russia have signed a treaty under which they become a single republic, according to reports received here today.

MONTREAL EGG PRICES

Montreal, April 8.—Eggs which last Friday were selling at 33 to 40 cents a dozen on the Bonaventure market, were today on sale at 25 cents.

BREAD DOWN ONE CENT

Chicago, April 8.—The price of pound loaves of bread was reduced today from 10 to 9 cents by a concern operating a chain of stores.

Wireless Operator On "Impoco" Hurt

Hand Crushed While He Was Being Taken off the Stranded Oil Carrier.

Yarmouth, N. S., April 8.—During the transfer of the crew of the stranded steamer Impoco this morning to the steamer Royalite, Edgar Ryall, of Toronto, wireless operator on the Impoco had one of his hands badly crushed.

BATHURST CIVIC FIGHT SHARPEST OF MANY YEARS

Two Candidates Out for Mayoralty and Eight Already for Wards.

MORE EXPECTED BEFORE POLLING

White House Declared Total Fire Loss With Insurance of \$25,000.

Special to The Standard. Bathurst, April 8.—The civic elections here this year promise to be much livelier than for some years past.

Winnipeg Editor Before House Bar

Member of Legislature Will Move Tuesday to Bring Free Press Editor Up.

Winnipeg, April 8.—In the legislature next Tuesday, M. J. Stanbridge, member for South Clements, will move that the editor of the Manitoba Free Press be brought before the bar of the House to answer for his conduct against the dignity of this House.

Schooner Burned But Crew Saved

Vessel Abandoned Fifty Miles off Florida When Masts Were Burned to Deck.

New York, April 8.—The United States schooner, Conneliffe, from Mobile for Arto, Porto Rico, was destroyed by fire and her crew rescued by the British steamer Parthenia, a wireless message from the Parthenia received today here said.

\$15,000 Fire in Carquet Garage

Foulem Garage and Seven Cars Total Loss in Fierce Outbreak.

Bathurst, April 8.—The Foulem Garage at Carquet forty-five miles from here, was totally destroyed by fire on Wednesday night. Seven cars were in the building at the time and all were destroyed.

ARRIVES WITH PRISONER

North Sydney, April 8.—Detective Kennedy arrived on S. S. Kyle this evening with Dr. George Farrell, accused of securing money under false pretenses in Guyboro and tomorrow will be turned over to the authorities there.

LABOUR DEMANDS NORRIS' RESIGNATION

Group Cabinet is Idea That Will be Proposed in a Motion in Manitoba.

Soviets Lands Unite

Stockholm, April 8.—Soviet Russia and the Soviet Republic of White Russia have signed a treaty under which they become a single republic, according to reports received here today.

MONTREAL EGG PRICES

Montreal, April 8.—Eggs which last Friday were selling at 33 to 40 cents a dozen on the Bonaventure market, were today on sale at 25 cents.

BREAD DOWN ONE CENT

Chicago, April 8.—The price of pound loaves of bread was reduced today from 10 to 9 cents by a concern operating a chain of stores.

WORLD NEWS TODAY

The Maxwell offer is the last special prize offer of The Standard's contest. The \$1,400 Maxwell will be given to the contestant who turns in the greatest amount of subscription money during a week period ending Monday, April 11th.

FINLAND AND RUSSIA LIKELY TO FIGHT

Tension Between Two Nations is Increasing and Clashes Are Very Likely.

Stockholm, April 8.—The tension which has been noticeable recently between Russia and Finland is becoming more acute. Reports show that the Russian Bolsheviks have invaded the Republic of Karelia districts, to which the Russo-Finnish peace treaty had been guaranteed autonomy. The inhabitants of the district are fleeing into the interior of Finland.

BRITAIN NOT TO QUESTION IRISH REPORT

Sir Hamar Greenwood Declares Committee of 100 Report Valueless.

NO REPRESENTATIONS TO UNITED STATES

"Commission Has No Official Character" So Affairs No Occasion for Writing.

London, April 8.—The London Times this morning publishes a reply of Sir Hamar Greenwood, the chief secretary for Ireland to T. P. O'Connor, one of the Nationalist leaders in parliament, who had asked Sir Hamar whether the report of the American Committee of One Hundred on conditions in Ireland had represented British forces as killing, assassinating and torturing people and also with destruction in Ireland, and whether the British Government would make representations to the United States Government in reply to "this serious indictment."

STANDING BOARD TO STUDY RAILS AND NAT. MARINE

Premier Moves for Such a Committee to Deal With Problems of Two Services.

AUDIT SYSTEM MAY BE CHANGED

Hon. W. L. Mackenzie King Moves Amendment to Give Board Wider Powers.

Ottawa, April 8.—By a vote of 73 to 58, the amendment of the Liberal leader, the Hon. W. L. Mackenzie King, against the motion of the Premier to appoint a standing committee to consider questions relating to the national railways and marine was defeated.

HIGHER TAXES TO BE PLACED ON N. S. TRADE

Expect to Increase Provincial Revenue by Over \$115,000 Annually.

FINANCIAL BODIES ARE MOST AFFECTED

Additional Tax Imposed on Gross Earnings Within the Province.

Halifax, April 8.—Hon. E. H. Armstrong, acting leader of the government, introduced in the legislature today a bill to amend the Provincial Revenue Act. Mr. Armstrong in explaining his measure said that it was an act to amend and consolidate what is known as the Sequestration Revenue Act of the province, and also respecting the taxation of certain companies of a paid up capital of \$50,000 or more.

HALIFAX LUMBER COMPANY ROBBED

Chain \$12,000 Has Been Embezzled from Office of Hammond Company.

Quebec, April 8.—The embezzlement of a sum of \$12,000 from the office of the Hammond Lumber Company, Ltd., at Halifax, N. S., had been brought to the attention of the Quebec police who have been asked to co-operate in efforts to locate Joseph Grandmison, a man of about sixty years of age, who is alleged by the company to be connected with the matter.

ARRIVES WITH PRISONER

North Sydney, April 8.—Detective Kennedy arrived on S. S. Kyle this evening with Dr. George Farrell, accused of securing money under false pretenses in Guyboro and tomorrow will be turned over to the authorities there.

\$15,000 Fire in Carquet Garage

BRITAIN NOT TO QUESTION IRISH REPORT

VOLUNTEERS ENROLL FOR MINERS' BATTLE

Peers and Middle Classes United in Firm Stand in New Trouble. Military Prepares for Serious Trouble. Special Constables, Enrolled in War, Numbering 250, 000 Men, to be Called.

(Continued From Page 1.) The refusal of the miners to yield on the question of permitting pumps to return to the mines had as its motive a conviction that the withdrawal of the pumps is the only weapon in their hands. They argue that a few weeks' cessation of work will not really injure the mine owners, now, considering the depressed condition of industry, have ample stocks of coal on the surface. They declare that the mine owners have brought this fate upon themselves by insisting that the pumps among those whose contracts will be cancelled until they accept new wage terms, made not through joint discussion, but by the mine owners themselves. The arguments of the miners had absolutely no support, except on the part of the extreme socialist newspapers. The other newspapers condemn them strongly, and general sympathy is expressed that the miners refused to listen to the advice of men like Herbert H. Asquith, John R. Clynes and Arthur Henderson.

Labor's View. In this connection Mr. Clynes, who is chairman of the parliamentary labor party, made an interesting statement on the adjournment of the House of Commons this afternoon. While expressing regret over the decision of the miners, he said, he equally regretted that Mr. Lloyd George had thought it proper to make imputation against the motives of the leaders of the miners. He proceeded to say that the actual damage done to the mines up to the present had been so small that it did not justify this fact being made the cause for interfering with negotiations which might lead to a settlement of the dispute. Mr. Clynes concluded by declaring that the cost to the country through the strike likely would be far greater than would have been the case if the government had continued to control the mines a little while longer until the wage question was settled.

What Owners Think. Mine owners tonight issued a statement in which they attempt to refute the opinion of Mr. Clynes, that the actual damage done to the mines up to the present had been small. The

Sixteen Families Receive Free Milk

Free Distribution Was Started by Local Council of Women—Excellent System. Sixteen families will receive free milk today as a result of the Free Milk Distribution which was started by the Local Council of Women. At a meeting of the distributing and investigating committee held yesterday morning at the Red Cross Depot, it was announced that these sixteen families will be served with milk for Saturday, and on Sunday twenty families will be sent free milk. West Side cases will be looked after the first of the week.

Excellent System. An excellent system has been devised, worked out in connection with the Board of Health, Victorian Order of Nurses, Associated Charities, Free Kindergarten Workers, Red Cross, Y. A. D.'s and members of other Relief organizations. Cases of need are investigated by some member of this committee and tickets given to the family. Pasteurized Milk is then sent from a City dairy to the case. A fresh supply of tickets will be used weekly so that no more milk will be furnished than is actually required. In many of the houses where milk is being sent there are cases needing pre-natal care, in other homes there is sickness or unemployment and so children are not receiving nourishing food.

Miss Haslam of the Victorian Order presided at yesterday's meeting. Those present were Miss Ethel Jarvis, Mrs. A. M. Rowan, Mrs. W.D. Forster, Miss Mary Platt, Mrs. A. F. Robinson, Mrs. W. B. Tennant, Mrs. G. E. Barbour, Mrs. F. E. Holman.

statement points out that although the majority of the flooded pits can be reopened, the operation will be costly, and that only a small fraction of the regular men employed can be set to work during restoration.

Reserves Called Out. A deputation of the railwaymen and the transport workers will visit the Prime Minister tomorrow morning to convey to him the decision of the triple alliance to back the miners. In some quarters this visit is being regarded as a new peace move. Likewise of interest is an authorized statement issued tonight to the effect that the government is still willing to call a conference as previously suggested to discuss the question of a pumping the mines. A supplement of the London Gazette tonight contains all the necessary proclamations calling out the reserves. The Gazette states that steps are being taken to put into force all the government's precautionary measures to ensure the operation of the public services and to maintain food supplies. Every bit of candle wax saved and put in a small muslin bag, makes a good pad to run the iron on.

Beggar Breaks His 32 Years' Silence

Notre Dame 'Faker' Tells Police He Tires of Listening to Lies. Paris, April 8—He reminded one of some down-trodden character in a Victor Hugo story. Silently, for he was raised in a deaf man, he stood about in the shadows of old Notre Dame and asked alms of the passers-by. He was a beggar, but a keen observer and a bit of a philosopher. Tall and gaunt, he left a lasting impression on all who passed. Thus in the thirty-two years during which he worked at his trade of beggar in the same neighborhood, he became a widely known character, although he had never done anything except ask alms with a gesture.

From time to time the police arrested him and charged him with mendicancy, but each time the doctor's examination indicated he was deaf and dumb. To his policeman's error. The other day a new policeman was put on the beat. He did not know the beggar's reputation and so he arrested him. But the inspector promptly ordered his release. "We know him well," he explained to the new policeman. "The poor fellow is deaf and dumb." To his amazement the beggar replied to him, saying: "I am sorry to contradict you, Inspector, but I can speak and hear as well as you. During the thirty-two years that I have kept silence and earned my livelihood by maintaining this deception, I have seen and heard many lies and so much harshness and hypocrisy that I am determined for once to give vent to my feelings, even if I have to go to prison for it. I shall at least be able to say that I have told the truth once during my life. And that is the last thing I shall ever say."

The man then resumed his silence and nothing has induced him to break it again. Inquiries showed that during his thirty-two years of silence he had earned a comfortable little fortune and was on the point of retiring.

Awarded \$13,000 For False Arrest

Burlington, Vt., April 8—Miss Cora E. Ryan obtained a verdict of \$13,000 in her suit against the Orient Insurance Company of Hartford, Conn., and L. S. Hays, insurance adjuster. She sued for \$25,000, claiming malicious prosecution for arson in 1913, following the burning of her millinery store in this city. She was acquitted of that charge when tried in Chittenden county court. Miss Ryan, whose store was insured with the company for about \$900, charged that the company prompted the authorities to have her arrested for arson.

AFTER RENT PROTECTOR'S Guisport, April 8—If there are any rent profiteers in Guisport they stand a good chance of being shown up in the near future if the special committee appointed by the city council can get the evidence that it is alleged may

New Strength For Victims of Anaemia

Loss of Strength Follows When the Blood Becomes Thin. Anaemia is the medical term for thin, watery blood. The sufferer loses strength, becomes short of breath and complains of palpitation of the heart after the slightest exertion, such as walking up stairs. The lightest task becomes a burden. There is a loss of ambition, the victim loses weight and as the disease progresses the appetite is affected, color fades from cheeks and lips and fainting spells may occur. Anaemia is not a disease that corrects itself, and if unchecked it progresses steadily. But it can be combated by good food, fresh air and proper tonic for the blood. As the blood becomes rich and red under this treatment, the symptoms disappear as in the case of Miss Ercyone Joyce, Westville, N. S., whose mother tried Dr. Williams' Pink Pills for Pale People. Her mother's doctor was very delicate, and was often under the doctor's care. As her father had died of consumption, my friends feared she would fall a victim to that dread disease. As the years went by and she was merging into womanhood I began to fear that I would lose her. Then I decided to try Dr. Williams' Pink Pills, and I could soon see a change for the better. For the next three years, at intervals, she took the pills, always with the best results. Now at the age of sixteen she is a fine healthy girl, and I never tire of telling those who see the wonderful change in her condition that she owes it to Dr. Williams' Pink Pills.

Miss Joyce herself says: "It gives me pleasure to confirm the statements made by my mother. Since using Dr. Williams' Pink Pills I have gained in weight, and from a sickly girl, suffering from headaches, dizziness and a languid feeling, I am now as well as other girls of my age, and I owe it all to Dr. Williams' Pink Pills." Dr. Williams' Pink Pills can be obtained through any medicine dealer, by mail, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

to be had for the asking. The matter was brought to the attention of the city fathers by Ald. Evans, who moved a resolution, seconded by Ald. Carter, that Mayor Burgess appoint a committee to investigate rent profiteering and how prices here compare with outside cities on food and clothing.

Twenty-Five Attacks On Crown Forces

Widespread Campaign by Sinn Feiners Against 'Spies and Informers.' Dublin, April 8—The official weekly summary of attacks against the police and military, issued today shows that the casualties suffered by the crown forces during the week decreased to twenty-five, as compared with 46 last week. Seven police barracks were attacked and two policemen murdered. The Sinn Feiners, while ten civilians were murdered by Sinn Feiners. There were 25 attacks on the mails and 61 arrests for political offences, with 36 convictions. 81 persons were interned, the total number now interned being 2,532.

'Killing Spies.' There has been a wide-spread Sinn Fein campaign against "spies and informers," the past few days. Thomas Byrne, a former soldier was shot dead in the presence of his mother in Drumlish, County Longford. Mrs. McDonogh, wife of the proprietor of a public house, and Corporal Edward Weldon, were killed in Castleknock, County Roscommon. Jas. Mona, of Knockanureary, and Peter Conroy, of Forman, were taken from their homes and shot dead. Bridges have been blown up in various parts of County Cork, and all roads leading to Thurles have been entrenched and obstructed.

German Laborers Barred By Rheims

Paris, April 8—The former inhabitants of Rheims, 70,000 of whom have returned to the ruins of that city, object to any plan of having German laborers rebuild the town and have announced that they want to do the work themselves. M. Loucheur, minister of devastated regions, who recently visited Rheims, was told by the mayor of that place that it has suffered damages from war to the extent of 74,000,000 pounds.

ECZEMA You are not the only one who suffers from it when you have it. It is a skin disease which is cured by the use of the famous 'Eczema Ointment' which is sold by Dr. J. C. Chase's Ointment Co. You mention this paper and send 5c stamp for postage. See a manufacturer to send the public service information, 'Eczema Ointment' Co., Limited, Toronto.

That Tired Feeling

is Just As Much a Warning as 'Don't Look and Listen.' It indicates run-down conditions and means that you must purify your blood, renew your strength, tone and your power of resistance, or be in great danger of serious sickness, the grip, flu, fevers, contagious and infectious diseases. Do not make light of it. It is serious. Give it attention at once. Ask your druggist for Hood's Sarsaparilla. He knows this good

Hood's Sarsaparilla

Genuine Bayer Aspirin
Nothing Else is Aspirin
Warning! Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 21 years and proved safe by millions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Made in Canada. Handy tin boxes of 12 tablets cost but a few cents—Larger packages. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of West Germany. It is well known to the public as the Bayer Tablets of Bayer Company.

How to Meet the Shortage Of Dwellings in America

When the call came to feed starving millions across the seas, American generosity, efficiency, and foresight were not wanting. Now comes a call to provide shelter for a great nation without homes enough for its growing population—and that nation is the United States. In the largest city of the country, 100,000 families are doubling up with one or more other families; there are places in the city where twelve persons live in three rooms; where four persons sleep in a kitchen every night; and hundreds of rooms in which four or five persons sleep. There is tuberculosis and there have been isolated cases of typhus. These conditions exist and this description appears in a report of a committee of the United States Senate which calls for government action to help build homes for our people.

In THE LITERARY DIGEST this week, April 9th, the leading article is devoted to the housing shortage and the steps that are being taken by Federal and State Governments, Builders Associations, and other agencies toward alleviating the condition.

Among the other striking news-articles in this number of THE DIGEST are:

- Tearing Up the Turkish Treaty**
While the Allies and Turks Are Engaged in This Action, the Greeks Wage War on the Turkish Nationalists in Defense of the Treaty.
 - The Japanese Problem in Fiction
 - The Y. W. C. A. and the "Class Struggle"
 - The Sunday School vs. Bolshevism

BOARD MAY SELL HOUSES AT RATE LESS THAN COST

Legislation Sought at Fredericton to Permit Housing Boards to Act.

LEGISLATION TO PROTECT ROADS

House Will Not Meet Again Until Monday Night at Nine O'clock.

Fredericton, N. B., April 8.—The House met at 2 o'clock when Mr. Robichaud presented the report of the Committee on Corporations and Mr. Hayes that of the Committee on Municipalities.

Hon. Mr. Robichaud submitted the report of the Committee on Standing Rules. Notices of inquiry were given as follows:—

By Mr. Howland, as to the price to be paid for gravel pits taken over from one Greenlaw at Saint Andrews.

By Mr. Dickson, as to the cost of the permanent roadway from Saint John to Robbinston and the total mileage constructed?

By Mr. Tracey, as to whether surveys have been made for a bridge at Bath, Carleton county and the estimated cost of the same.

Mr. Smith (Conservative) introduced a bill to amend the town of Woodstock to issue debentures; also a bill to amend an act relating to the said town.

Mr. Robinson introduced a bill to amend the Fisheries Act.

Mr. Foster introduced a bill to amend the Better Housing Act. He explained that certain municipalities, which had taken advantage of the act and erected houses, were desirous of disposing of the same, but because of decreased values, could only do so at a loss. They now asked authority to make up the difference by an assessment.

Hon. Mr. Foster introduced a bill to amend the New Brunswick Electrical Power Act of 1920.

Hon. Mr. Foster presented the annual report of the directors and chief engineer of the St. John and Quebec Railway Company.

The House then went into committee with Mr. Hayes in the chair and agreed to hold up the bill of the Association of United Shipbuilders of New Brunswick, to amend the Church of England Act, and to incorporate the Sussex Amateur Athletic Club.

In Committee.

The House again went into committee with Mr. Hayes in the chair, and took up consideration of a bill to amend the Theatres and Circuses Graphs Act.

Hon. Mr. Hayes, replying to a question by the Opposition, said that there was a provision in the law allowing an appeal from the decision of the Board of Censorship, but it had seldom been acted upon. He presumed that

object was to give some protection to theatre owners who want to considerable expense in purchasing films.

Mr. Hayes said he thought the right to appeal might very well be done away with. The bill was agreed to, and the committee reported on a bill to amend the Schools Act. The committee had taken consideration of a bill to amend the Highway Act.

Protecting Roads.

Mr. Richards on the motion which empowers the Governor-in-Council to make regulations for highway traffic, and impose a penalty of twenty-five dollars for violation of such regulations, said he thought it was placing altogether too much power in the hands of the government.

Hon. Mr. Veniot said he could see no difference between placing the power in the hands of the Governor-in-Council, and placing it in the hands of the various city and town councils. Those bodies had the right to regulate street traffic and the roads of the province were just as important. At the present time there were 11,000 cars in use and somebody should have the power to regulate the traffic. As the matter stood now, a building could be placed on a street and moved on a highway road and at night could be left unprotected or not as the owner saw fit.

The committee amended the bill by inserting a provision requiring that notice of the regulations shall be published in a newspaper circulating in the locality affected.

The committee agreed to bills relating to land surveyors and the survey of land and to amend the probate courts act.

Game Act.

The bill to consolidate and amend the Game Act was next taken up.

Hon. Mr. Mercereau said he did not see the necessity of a provision in the act requiring camp bags to take out a license at a cost of \$1.

Mr. Dickson on the motion fixing a license fee of \$15 for non-resident bird shooters, thought that there should be a limit on the number of birds taken in one day. There were many so-called sportsmen who killed birds for the mere sake of killing them.

Hon. Mr. Robinson approved of the suggestion and said he would discuss it with the Chief Game Warden. Mr. Henley asked if vendors' bonds were required.

Hon. Mr. Robinson said he believed that they were.

The committee reported progress.

Hon. Mr. Foster moved the suspension of rule 78 to permit of a bill the introduction of provide for the construction of municipal buildings for the city and county of St. John.

To Aid Woodstock.

Mr. Tracey introduced a bill to authorize and empower the municipality of Carleton County to assist Agricultural Society No. 41 with an annual grant, a bill to permit and authorize the town of Woodstock to assist Agricultural Society No. 41 with an annual grant, and a bill to exempt the debentures of Agricultural Society No. 41 from taxation.

The House adjourned at 5:22 p.m. until Monday night at 9 o'clock.

FLOUR PRICES DOWN

Minneapolis, April 8.—Flour prices in Minneapolis have dropped fifty cents a barrel the last week, bringing the price of standard patents at the mills down to \$8.15 to \$8.40 a barrel (different brands).

When the commands and entreaties of mother and dad had failed.

Preliminary Hearing in Robertson Case

Station Agent Charged With Responsibility for Wreck Appears Before the Court.

Truro, N. S., April 8.—Preliminary hearing was held here yesterday in the case of Leonard Robertson, station agent of Denmark, N. S., who is charged with responsibility for the wreck of the Short Line express No. 34, at Urquhart's Sliding, March 18, in which Engineer J. J. Ferguson lost his life.

Magistrate Taylor reserved his decision until April 14, and the accused was released on \$5,000 bail after four-toon witnesses had given evidence as to the mechanical details of the switch which was immediately responsible for the smash-up and the whereabouts of Robertson on the day before the wreck.

Labor And Costs Keep Shoes Dear

Fredericton, N. B., April 8.—John D. Palmer, president of the Hart Boot & Shoe Co., Ltd., of this city, and vice-president of the Canadian Shoe Manufacturers' Association, made important predictions as to the outlook in the Canadian shoe industry and as to the prices, at the annual dinner of the traveling salesman and executive heads of the Hart company at the City Club here.

Labor and overhead costs, he said, had not yet begun to decline to any noticeable extent and when a decline came it would naturally spread over a long period and would come about through a very gradual process. He therefore declared himself as confident that there could be no further substantial reduction in shoe prices to the consumer for some time. Peak prices had already been reduced by the manufacturers about one-third, he said, and they had been compelled to absorb great losses in the readjustment of prices.

He said he believed the imposition of the luxury tax had been responsible for a very large proportion of the losses, and cited that as an illustration of government interference of any kind with a well developed and highly competitive industry in a country causing disaster. He said it would take the shoe manufacturing industry quite a long time to come back to its former position or to a profitable basis.

GUIDES ELECT OFFICERS

Fredericton, N. B., April 8.—The New Brunswick Guides' Association has elected: President: W. Harry Allen, Panniac; vice-presidents, Henry Ogilvie, Tobique; Arthur Pringle, North West Miramichi; Frank Russell, North West Miramichi; Thomas McEachern, Southern Section; secretary, J. Harold McMurray, Fredericton.

A "woods" snapper is to be held near Fredericton in August. A committee of the Association has the matter in hand.

The guides decided to oppose the proposal to reduce the big game season this year and also to request the provincial government to make a change in the regulation with regard to mooseheads requiring points on the horns instead of three.

His Back Does Not Bother Him At All

MANGER WASSON PRAISES DODD'S KIDNEY PILLS.

New Brunswick Man Returns Enthusiastic Over His Growth to Health and Gives Dodd's Kidney Pills the Credit.

Sisson Ridge, Victoria Co., N. B., April 8.—(Special)—Enthusiastic over the benefit he has received from the use of Dodd's Kidney Pills, Mr. Manger Wasson, a well-known resident here, is telling his story to all who suffer from kidney troubles.

"I had an awful lame back and was not able to do any work," he states. "I tried two good doctors and they could do nothing for me, so I tried Dodd's Kidney Pills. Now I am as well as ever. My back does not bother me at all. Dodd's Kidney Pills have done me a wonderful lot of good."

Dodd's Kidney Pills are purely and simply a kidney remedy. They strengthen the kidneys and enable them to strain all the impurities out of the blood. Ask your neighbors about Dodd's Kidney Pills.

Newfoundland Has An April Blizzard

St. John's Harbor is Frozen Over and All Traffic Greatly Impeded.

St. Johns, Nfld., April 8.—An April blizzard and weather so cold that the harbor here has been frozen over solid for a week have delayed shipping to and from Newfoundland ports and hampered traffic on the colony's railroad. Midwinter conditions prevail in all parts of the island.

STOP THAT TICKLING IN THE THROAT

by Using Dr. Wood's Norway Pine Syrup.

That tickling in the throat sensation is most distressing and causes a nasty, irritating, dry cough that not only keeps you in misery all day long, but also prevents you enjoying a good night's rest.

Dr. Wood's Norway Pine Syrup, which is composed of the most soothing and healing expectorant herbs and barks combined with the lung-healing virtues of the world-famous Norway pine tree will give almost instant relief in all cases of this nature.

Mr. E. A. Price, Port Carling, Ont., writes—"For about a month last fall, I had a bad cold and cough and a tickling in my throat. I coughed nearly all the time. I tried different remedies and cough syrups, but could get no relief. A friend advised me to use Dr. Wood's Norway Pine Syrup, and before I had used two bottles, my cough was all gone, and gone for good. I have not coughed since."

Dr. Wood's Norway Pine Syrup is packed in a yellow wrapper; three pine trees the trade mark; price 25c and 50c, a bottle at all druggists; manufacture only by The T. Millers Co., Limited, Toronto, Ont.

Nolan Sentenced To Penitentiary

Young Man Accused of Embezzlement from Fraser Co. Gets Two Years.

Newcastle, April 8.—The county court met in session on Tuesday, with Judge McLatchey presiding. The young man Nolan was tried under the Speedy Trials Act, found guilty and sentenced to two years with hard labor in Doole's Penitentiary. Nolan was arrested for embezzlement of money from the office of the Fraser Lumber Co., at Nelson.

Fire Victim Dies From The Burns

Mrs. Cornwall of Smith's Cove, Who Was Badly Burned, Passes Away.

Dagby, N. S., April 8.—Mrs. Charlotte M. Cornwall, 44 years of age, wife of A. J. Cornwall, of Smith's Cove, is dead as the result of injuries she received a few days ago when a burst of flames from a small coal heater set fire to her clothing. She was badly burned about the lower part of the body before her husband was able to extinguish the flames.

Hunting Season Dates Remain Unchanged

Fredericton, N. B., April 8.—A definite announcement has been made by Premier Foster, after hearing a delegation from the New Brunswick Guides' Association that the open season for hunting big game in the province this year would remain as it has been, but that the Game Act will be amended so as to provide for the open season in 1922 commencing on October 1, instead of September 15.

JOHN CUNNINGHAM DEAD

Clover Hill, April 8.—The many friends of Mr. John Cunningham, sr., will regret to learn of his death which occurred at his home here. He had attained the age of 81 years and leaves one son, John B. Cunningham, of this place, and one daughter, Mrs. Orlando Smith, of Campbellton, 14 grandchildren and several great grandchildren, besides other relatives.

GRAND FALLS CO. GIVEN TWO MORE YEARS FOR WORK

Power Company to Spend at Least \$150,000 in Next Two Years.

GUARANTEED WORK FOR AFTER YEARS

Large Portion of Power Developed to be Used in This Province.

Fredericton, April 8.—The Grand Falls Company, Limited, were granted an extension of their rights for two years in the Grand Falls water power under a decision reached by the corporations committee of the Legislature early this afternoon.

At the earlier conferences the point upon which the representatives of the company and the town of Grand Falls failed to reach an agreement was as to how much the company should have to spend during the two years' period, or have to forfeit their rights. The town suggested \$200,000, but the company thought \$100,000 would be nearer an equitable amount. When they were unable to agree the matter was referred to the sub-committee of the corporations committee and their report was presented to the committee when they met shortly after 1 p.m. today.

Agree Upon \$150,000.

At 2:30 p.m. the committee rose and it was announced that the amount agreed upon for the company to have expended before May 1st, 1923 was \$150,000.

A further provision agreed upon by the committee was that if at the end of two years the company are able to show \$200,000 actually expended on development work they shall continue with the development work as rapidly as shall be considered reasonable by the lieutenant-governor-in-council. It is also understood that there will be a provision made in the bill that will guarantee a large proportion of the power developed to be for use within the province of New Brunswick.

Sir Herbert Holt, of Montreal, is the president of the Grand Falls Company.

WILLYS-KNIGHT

Continually in the "Pink of Condition"

THE Willys-Knight appeals strongly to the motor car connoisseur. Experience with other fine cars only makes motorists appreciate this one the more. While some cars are waning in efficiency the Willys-Knight is still gaining in power. Its sleeve-valve motor seems endowed with a spirit of perpetual youth—with no valves to grind—no periodical adjustments to make. No wonder the Willys-Knight sleeve-valve motor is continually referred to as the motor that "improves with use."

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

San Francisco, April 8.—The steamer *Will Hill*, accompanied by a U.S. Coast Guard cutter is steaming up the Mexican coast with her crew in mutiny, according to a message received here today by the agent of the steamer's owners, the Williams Line of New York.

WEDDINGS

St. Dunstan's church yesterday afternoon at 5 o'clock, Robert Hamilton Hallett, in the employ of the C.P.R., in this city and Mrs. Mary M. Boyle, formerly of Wausau, for some time past residing in this city, were married by Rev. Charles Carroll. They will reside in the city.

OBITUARY

Mrs. J. R. Randall
Fredericton, April 8.—After a long illness, Mrs. Caroline, wife of J. R. Randall, died yesterday, aged 43 years. She leaves also four sons and two daughters, Gordon, Lawrence, Charles, Raymond, Annie and Greig, all at home; one sister, Mrs. S. J. Thomas, of St. John, and four brothers, John Fulton, of Lakeville Corner, Harry and Thomas, of this city, and Sydney of Ripley.

Grain Shipments
Are Much Smaller

Season of 1920-21 Sees Less Grain Going from Port—Very Little More to Go.

There has been shipped through the port of St. John for the 1920-21 season to date barely eleven million bushels of grain and the probabilities are that not more than half a million more will be shipped. This will be one of the worst seasons in many years so far as the grain shipments are concerned, the U. P. R. handling more last year than the C. N. R. and C. P. R. together will this year.

C. P. R. Shipments

The figures given The Standard yesterday show that up to date there has been shipped by the C. P. R. 8,500,000 bushels of wheat and 2,049,836 of other grains, making a total of 10,549,836. They have in their elevators about 800,000 bushels and are not expecting any more to arrive for shipment this season. Last year at this same date the C. P. R. had shipped out over 11,000,000 bushels.

What C. N. R. Have Shipped.
The C. N. R. have shipped to date 1,357,403 bushels of wheat, 66,833 of rye and 28,250 of oats, making a total of 1,452,487. They have no grain at all in the elevator at present and are not expecting any more this season. Last year they shipped from this port over three and a quarter million bushels.

The total shipments by both to date are 10,406,173 bushels, as compared with a total of about fifteen million last year.

Great Auction Sale
OF
HORSES

At Grand Trunk Stock Yards, Point St. Charles, Montreal. Tuesday and Wednesday, April 12th and 13th, at 10 a.m. each day.

FUNERALS
The funeral of Mrs. Margaret Rafferty took place yesterday morning at 10:45 from Fitzpatrick's undertaking rooms to the Cathedral, where requiem high mass was celebrated by Rev. Raymond McCarthy. Interment was in the Catholic cemetery, at Rothesay.

CANADIAN FIRE LOSSES
Toronto, April 8.—Fire losses in Canada during March, 1921, according to the Monetary Times, aggregated \$12,200, as compared with \$1,783,300, in March 1920.

This makes a total of \$7,095,600 for the first three months of 1921, compared with \$6,326,625 for the same period last year.

BACK TO THE OLD PRICE

GIN PILLS FOR THE KIDNEYS

DURING the long period of increasing raw materials, labor and advertising rates, it was our policy to maintain the price of Gin Pills at 50c. a box just so long as it was possible to do so—in fact, we maintained this price long after many other products had increased in price.

In September last we felt we had reached the point where the increased cost of production and advertising rates made an increase in price imperative and Gin Pills were raised to 60c. a box. It was our firm resolution, however, to bring the price back to 50c. again just as soon as it seemed possible to make the reduction.

Recently circumstances have affected the cost of production and we are pleased to announce that the price of Gin Pills has been again set at

50c. a Box

Every druggist and dealer throughout Canada is now able to supply this well-known remedy at the original price.

Our Guarantee
of money back if they fail to give you relief still holds good.

National Drug & Chemical Co.

Gin Pills FOR THE KIDNEYS

Gin Pills are famous throughout the Dominion and abroad as the most efficacious preventative of all kidney diseases, and as the finest restorative for deranged kidneys. Try them now—at the old price.

IN THE EDITOR'S MAIL

TAX ON AMERICAN MAGAZINES

The Editor of The Standard:
Dear Sir:—With reference to the proposed tax on American magazines referred to in your editorial appearing in The Standard issue of the 6th. It is quite true there are very few, if any, magazines published here for their one object the extending of information which will tend to cultivate the minds and intellects of those who read them.

Are not the magazines or newspaper publishers in business for the same purpose as any other business house, to sell goods which will incidentally net them a profit in dollars and cents? To make this profit possible the magazines or newspapers must sell advertising space.

I believe if you will take an assortment of magazines you will find that the ones that are of educational value are the ones that carry the greatest percentage of advertising. Why? For the reason that the revenue derived from the sale of this advertising space enables the publisher to employ the writers that produce the material which is of educational and intellectual value. How long would our newspapers be in business if they did not carry advertising?

Let us compare a few magazines. In the first group, number one, we will place the Atlantic Monthly, the World's Work, the Literary Digest, the Saturday Evening Post and the Popular Mechanics. These five magazines contain a total of about 997 pages, of which 478 consists of reading matter and 519 pages of advertising matter.

Let us take group number two. Broxy Stories, Nancy Stories, Blue Moon, the Parisienne and the Black Mask. This little group contains about 23 pages. 31 of which is made up of so-called stories and 19 pages of advertising. The advertising in this class of magazine is segregated, which is the class of magazine, on account of its segregated advertising, you are in favor of exemption from tax, if exemption is to be made.

In group number one I think you will agree will be found magazines that without exception are of educational value, which are read and enjoyed by all classes, the college professor, the manufacturer, the merchant and the mechanic, while in group number two it would be hard to find any writings that would tend to elevate the mind to the better things of life or be of intellectual value.

If you will now refer to the dispatch from Ottawa on March 30, appearing in our local papers of March 31st, you will note that it was proposed to tax magazines carrying advertising. This would mean that the worth while magazines such as mentioned in group one would be subject to this tax, which would practically prohibit the sale, while the class of magazine mentioned in group two with no advertising would be exempt. It is the magazine that contains the advertising that also contains the writings of authors and editors which are worth while reading, from a literary and educational standpoint. Is not this the kind of literature we want to encourage the sale of, not hinder? Therefore if this tax is imposed would it not be wise to classify magazines and impose the tax according to their value from an educational and literary standpoint, and not from the standpoint of advertising?

Yours very truly,
C. A. MUNRO.

A SURE RELIEF FOR WOMEN'S DISORDERS
10 Days' Treatment Free

Orange Lily is a certain relief for all disorders of women. It is applied locally, and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered normal. As this treatment is based on strictly scientific principles, and acts on the actual location of the disease, it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. Price, \$3.00 per box, which is sufficient for one month's treatment. A Free Trial Treatment, enough for 10 days, worth 75c., will be sent Free to any suffering woman who will send me her address.

Enclose three stamps and address Mrs. Lydia W. Ladd, Windsor, Ont.
SOLD BY LEADING DRUGGISTS EVERYWHERE.

"At Forty-Five"

"YES, at my age I suppose I should expect a change in my condition. But I am so nervous and irritable, so easily excited and worried, that I cannot understand what is wrong."

"I know just how you feel, my dear, for I have gone through exactly what you are experiencing now."

"But you are not nervous."
"No, not now, but I was in a far worse condition than you are, when a friend advised the use of Dr. Chase's Nerve Food. I need not tell you more, for you know how well I have been for the last few years."

Mrs. H. Alchora, 23 Gerald St., Charlottetown, P. E. I., writes: "Dr. Chase's

Nerve Food was recommended to me by an aunt who used it while passing through the change of life and was completely built up by its use. From my experience as a wife and mother I find that the majority of users are women, especially women passing through the change of life; next by young mothers to regain strength after baby comes, and also by mothers for their young daughters entering their womanhood. While it is good for all classes of humanity, I am sure it is especially so for women, as they seem to be troubled most by nervous diseases."

Dr. Chase's Nerve Food, 50 cents a box. All dealers, or Edmondson, Bates & Co., Ltd., Toronto.

LABOR LEADERS' FOLLIES

The sooner Messrs. Campbell and the other labor leaders who have been so busy in the city, the better it will be for their own interests. They may be able to cause a certain amount of temporary inconvenience, but that is the limit of their powers. The idea that the whole of the citizens of St. John are going to submit to the dictates of a few score of their number, because of some fancied grievance, is a notion that is not to be entertained. If these men choose to start trouble unnecessarily, there are ways and means of dealing with them that will probably be more effective than pleasant. Mr. Campbell's threat that a larger police force would be needed in the city very shortly if the activities of the labor party were to be controlled, can be taken for the little it is worth. It merely emphasizes the fact that he is a reckless agitator, who is prepared to make all the trouble he can.

Mr. Campbell advocates the adoption of the same tactics that the labor leaders employed when the war was on of putting women in front, knowing full well that the Allies would not fire on them. He calls on the women to stand by the men, and fling their taunts, because he thought the police would not interfere with women. If the women are foolish enough to take part in any attempt to create a disturbance and breach of the peace, they will have to put up with the consequences, just as their men friends will have to.

WE UNDERSTAND THAT ONE OF THE SPEAKERS AT LAST NIGHT'S MEETING SPENT MOST OF HIS TIME AND ENERGY IN ABUSING THE STANDARD. IF IT AFFORDED HIM ANY PLEASURE—WELL AND GOOD; IT DOES NOT HURT US. THE STANDARD IS UTTERLY INDIFFERENT TO WHAT THESE BOLSHEVIC AGITATORS MAY THINK OR SAY ABOUT IT, AND DOES NOT CARE ONE iota whether they and their associates buy it or not. We do not cater to that class of thought. Labor could have no armer friend than The Standard would be in any legitimate grievance. It might have, we believe, in equal rights for all—as far as labor is concerned, any way. But the campaign that Mr. Campbell and his associates are endeavoring to carry on is not one of equal rights for all; they want their own particular way, and all those who are not with them may go to the wall. It does not matter to him what becomes of others; he has a soft job himself, one in which the pay is regular and strikes are unknown, so why should he care what happens?

THE GOVERNMENT AND THE GRAND TRUNK

The position of the Government in regard to its difficulty with the Grand Trunk, as outlined by the Prime Minister in the House, seems an entirely proper one. Briefly the position, according to the Ottawa Journal, is this. Under the agreement to arbitrate the value of Grand Trunk stock, it was laid down that the arbitrators were to have nine months in which to investigate and make a report, the road meanwhile to remain in control of the Grand Trunk directors, but with a special board of management. Because of delays, mainly due to dilatoriness on the part of the Grand Trunk Company, the inquiry of the arbitrators—according to the Grand Trunk Company—has not been completed within the time specified; and the Grand Trunk Company, as a consequence, asks an extension of time. This the Government is willing to grant, specifying, however, and quite properly, that the road shall pass into the Government's hands at the expiration of the nine months, as originally agreed. The Grand Trunk people have not seen fit to accept; they want the arbitration proceedings prolonged, also their control of the road.

Under the circumstances the Government acts rightly in saying to the Grand Trunk: "We have fulfilled our part of the agreement as to arbitration, but you must further time we are pre-

THE CANADIAN NATIONAL R. R. SYSTEM

The business of giving the Canadian National Railways a bad name financially goes on apace. From the published reports one would consider these railways destined of earning power.

This is not true. It is important that the real figures be given to the public so that there may be general knowledge of the fact that the National Railways have tremendous earning power, and that it is increasing steadily.

In 1920 the total earnings of the Government Railways were \$127,447,752. In 1919 the total earnings were \$105,036,174. The increase of twenty million dollars in one year is a fact of very great importance. It is of greater importance by reason of the fact that excessive and unscientific railway rates have seriously restricted the movement of railway traffic.

With increase of population, scientific rates, and efficient management the Canadian National Railways will be one of the greatest factors in the prosperity of Canada.—*Vancouver Sun (L.A.S.)*

LLOYD GEORGE'S LEADERSHIP

New York Herald: When Arthur Henderson the foremost and perhaps the strongest of the British labor politicians, declared that he challenged David Lloyd George with the coal strike issue he made a gross mistake as to a plain matter of fact. He did not challenge Lloyd George, he did not challenge the coalition Government with his coal strike was the institution of the sovereignty and the power of the people of Great Britain. To call Lloyd George lucky, then, as many are doing, because when harder pressed than ever he had been before, with his natural support melting away from him like a snowfall under a spring sun, suddenly he has offered to him and seized the opportunity to become the public's great champion against a single selfish interest—to call him lucky, because that event is to show a poor appreciation of his greatness, which is as marvelous as his opportunism is astounding.

Lloyd George, knowing, as Henderson does not know, the difference between a political attack on an individual and a political, social, economic and physical war on a nation, proves himself, in truth, whatever may be said of his passion for power and his trafficking to retain it, the supreme figure in the British public mind. The coal miners say they are fighting for a living wage as justification for their war on the nation, but Lloyd George knows his British public, knows it is fighting for the life of the nation. In that sort of battle he stands forth with superlative confidence as the nation's protector, with all this means to a race which faces any national crisis with a steadiness as serene as it is dauntless.

A BIT OF VERSE

THE WOODSEY GMELL.

The perfumes of far Araby
 Are what, so learned traveliers tell,
 But there's a perfume dear to me—
 The homey, homey woodsey smell.

The wealth of woods where croopers cling,
 Where beds of Balm of Gilead smell,
 The wondrous robe of early spring,
 Is perfumed with the woodsey smell.

There's perfume in each basil switch,
 There's perfume in the growing locks,
 And I can smell the pig-nuts rich,
 That swell the cherry chipmunk's cheeks.

Upon this log the lichens hang,
 Before the breeze each leaflet nods,
 On yonder stump a bit of punk
 Is burning incense to the gods.

The dark, dank leaves are damp and deep,
 The buds lift up their modest heads,
 The flowers awakened from their sleep
 Do kick the blankets from their beds.

Their little tombs were dark and still,
 Their little tombs were lone and lone,
 Hark! From a high—a heavenly hill
 The laughing Gabriel blows his horn!

All! You can purchase wnan you will
 A bottled rose, but I know well,
 No cunning hawk shall o'er-deal
 The wide and wondrous woodsey smell.

If you would breathe that perfume sweet,
 That scents the trailing skirts of spring,
 Forsake the office and the street,
 And into these woods the birds sing.

The precious flower that died last fall
 Comes from her tomb, benign and true,
 And with her tender fingers small
 She makes a cradle of her grave.

Her little blanket and her sheet
 Are trimmed with lace that's all
 All about,
 The angels made them fair and sweet,
 And sprayed them with their own perfume.

Draw softly near and meet her well,
 This little stranger in the sod,
 For in her tender breath you smell
 The far-off gardens of our God!
 —The Khan.

THE LAUGH LINE

It's often a man's strong right arm that favorably impresses a woman.

You can't make a man believe it, but the most tragic moment of marriage is that in which his wife asks him how she looks in her new hat—and he stops to consider!

Suffering Johnny,
 "Does anyone know why Johnny Jones is not in school today?" the teacher asked her class.
 "Yes," replied Willie Smith eagerly, "he's got a splinter in his eye and has to go to the dentist."

Benny's Note Book

BY LEE PAGE

SPRING.

O back to the big birds singing
 To show the little birds how,
 It used to be Fall and Winter
 But Spring is wat it is now.

The grass is short and greenish
 The days are long and warm,
 And skool seems worse than usual
 Even if you are on the first form.

The coconuts try to turn butterfies,
 The buds try to turn into leaves,
 And the fellows play ball without coats on
 And furthermore roll up their sleeves.

The seeds are springing from the ground
 All disked like trees and plants,
 And put away in camphor till next year
 Are millions of short winter pants.

The 21st of March is the first of Spring,
 The same as it was last year,
 But the date is not near as important
 As the fact that now it's here.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without surgery or irritation.

Gratitude.
 "You did me a favor ten years ago," said the stranger, "and I have never forgotten it."
 "Ah," replied the good man with a grateful expression on his face; "and you have come back to repay me?"
 "Not exactly," replied the stranger. "I've just got into town and need another favor, and I thought of you right away."—*Detroit Free Press.*

RAILWAY MEN TO

Over 1,500,000
 Between Co
 try and Ni
 text Pils—All
 Are a Failure.

London, April 5.—

Lloyd George, the prime minister and the author of the new budget, led to the streets, having failed, to receive a warm reception, with their own police and the railwaymen, the members of the union should be called publicists in the past.

Last night's demonstration, at the suggestion of the railwaymen, was a success. The demonstrators and owners to a meeting, at which the railwaymen would discuss the question of passing the new budget, but the general feeling was that the railwaymen should be called publicists in the past.

All efforts to restrict the railwaymen's freedom of movement, to be discussed by the railwaymen and the owners to a meeting, at which the railwaymen would discuss the question of passing the new budget, but the general feeling was that the railwaymen should be called publicists in the past.

THE GOVERNMENT'S VIEW

The government's view in its view that the construction of the mines should be first considered.

This early this afternoon, the government's view in its view that the construction of the mines should be first considered.

The Triple Alliance, taken over command side of the controversy, has been its formation in 1915, and resigned the chairmanship of the Triple Alliance.

Of Local Year

The total ship tonnage to Liverpool this year is estimated at 1,000,000 tons, and is the same percentage of 1914.

About 8,000,000 tons of coal are expected to be shipped to Liverpool this year, and is the same percentage of 1914.

Chalk is being mined in the vicinity of Falmouth.

Georget

A Rare \$4.00

Included in the dainty, model taupe, navy, attractive and new and dainty tily embroidered.

This special splendid quality supply at a very low price.

(Blouse Sect)

RAILWAY AND TRANSPORT MEN TO STRIKE TUESDAY TO HELP THE COAL MINERS

Over 1,500,000 Men Will be Involved in Great Struggle Between Government and Labor in Great Britain—Military and Naval Reserves Will be Called up to Help Protect Pits—All Negotiations Made Through Lloyd George Are a Failure.

London, April 8.—All efforts by Mr. Lloyd George, the premier, to bring the miners and the mine owners together to discuss the differences which led to the strike in the coal fields, having failed, the miners executives went into conference this afternoon, with their partners in the triple alliance, the transport workers and the railwaymen, to decide when the members of the allied organizations should be called out in a sympathetic strike on Tuesday morning next.

Last night's decision by the premier, at the suggestion of the more moderate labor leaders, to invite the mine owners to a conference this morning, at which the first subject for discussion would be the resumption of pumping to clear the mines of water, led the general public to believe a settlement was in sight and that the impending strike, promising to be the greatest in the history of the country, would be averted.

ever, will be in the hands of the younger men who brought about the present situation in the belief that the reduction of wages which the miners were asked to accept would also be forced upon the other workers should the miners strike fail.

The mine owners were in waiting throughout the day to meet the miners, and they were still at the board of trade when the news of the break reached them. Considerable opposition to the strike amongst the rank and file of the railwaymen appeared today. The Liverpool Union telegraphed to J. H. Thomas, general secretary of the railwaymen's union, declaring the Liverpool men would not strike unless a ballot of the men favored such action.

STANDING BOARD TO STUDY RAILS AND NAT. MARINE

Premier Moves for Such a Committee to Deal With Problems of Two Services. AUDIT SYSTEM MAY BE CHANGED

Hon. W. L. Mackenzie King Moves Amendment to Give Board Wider Powers.

Mr. King replied the committee which the government resolution provided for would be restricted. The result of his appointment would be the bringing down of an academic statement, but it would not get any information which would throw light on the situation.

Home had the right to any and all data on public matters. The government's duty was to bring down all that was asked for by members of parliament. It must either do this or else assume the responsibility of refusing to bring it down.

Mr. King then moved, in amendment, that such committee shall have power to enquire into all matters in any way relating to the railways owned or controlled by the government of Canada, whether under the direction of the department of railways and canals, or under any corporation in which the government are stockholders, whether relating to the construction or operation, from the date of the appointment by the government of the board of directors of the Canadian Northern Railway Company down to the present time, and similarly to enquire into all matters in any way connected with the Canadian Government Merchant Marine, either in respect of the construction or operation of ships, and that such committee shall have power to send for papers, persons and records, to engage counsel and transportation experts, and to make such reports and recommendations from time to time as in their judgment will be calculated to promote the public interest.

SIXTY-FOURTH ANNIVERSARY. Friends of Mr. and Mrs. John Knox Little River, congratulate them on the sixty-fourth anniversary of their wedding which they celebrated yesterday at their home. They were married in St. John on April 8, 1857 by Rev. Dr. Bennett and lived in the city for many years, later moving to Little River where they have resided for some time.

WANT A LONG LEASE. A delegation from the North End Improvement League called on the mayor yesterday and asked that the organization be given a long term lease to the north end playgrounds recently acquired from Armstrong and Bruce, as this would be a greater incentive to the members to put in permanent improvements. Consideration of the request was promised. Those who attended the meeting were: Commissioner Horton, G. F. Stevens, president; R. P. Haman, George Haman, W. R. Scott, G. E. Day and W. H. Turner.

Every barrel the same, and as a result every baking is the same. Uniform quality at all times and under all conditions is the policy which earned the reputation of **PURITY FLOUR** "More Bread and Better Bread"

A Free Course in "Salesmanship"

Would you like to be in a business that will glorify a Good Living? A Profitable Future? A Provision for Old Age?

The Life Insurance Business offers permanent success, does not fluctuate, is a professional occupation, and has been truly named "The best paid hard work in the world."

We are willing to take any ambitious man and train him in our work, provided he shows some ability. This is done by a correspondence course and personal assistance, free of charge.

When he is fully prepared for the work, we place him in a position and help him deal with all phases of Life Insurance, including the new and rich fields of Business Insurance, Monthly Income, Pension, Group Insurance and Succession Plans.

The first two lessons of the Company's correspondence course will be sent to anyone interested. It will pay men who desire to get on in the world to look into this.

All correspondence is strictly confidential.

CANADIAN LIFE ASSURANCE CO. Head Office, Toronto

All Efforts Fail. The miners, however, were firm in their stand, insisting there should be no restriction regarding the questions to be discussed by the conference and an exchange of letters between them and Mr. Lloyd George failed to change their minds.

The government was just as firm in its view that the threatened destruction of the mines by flooding should be first considered. This early this afternoon it came to be known that a deadlock had been reached and that apparently nothing short of a backdown by the government could avert the industrial upheaval.

No More Discussion. Speaker Rhodes warned the House that this subject had been widely debated on two previous occasions but owing to its importance he would place the widest possible meaning on the rules of debate. He asked members, however, to bear the rules of debate in mind.

Mr. King then moved, in amendment, that such committee shall have power to enquire into all matters in any way relating to the railways owned or controlled by the government of Canada, whether under the direction of the department of railways and canals, or under any corporation in which the government are stockholders, whether relating to the construction or operation, from the date of the appointment by the government of the board of directors of the Canadian Northern Railway Company down to the present time, and similarly to enquire into all matters in any way connected with the Canadian Government Merchant Marine, either in respect of the construction or operation of ships, and that such committee shall have power to send for papers, persons and records, to engage counsel and transportation experts, and to make such reports and recommendations from time to time as in their judgment will be calculated to promote the public interest.

"77" for sale at all Drug and Country Stores.

Humphrey's Homeo. Medicine Co., 154 William Street, New York.

The Triple Alliance, which has now taken over command of the labor's side of the controversy, has a membership of 200,000 miners, 200,000 railwaymen and 200,000 transport workers. It is the chief of Robert Smillie, who has been its president since its formation in 1915, and who recently resigned the chairmanship of the miners' federation. The leadership of the strike, however, will be in the hands of the younger men who brought about the present situation in the belief that the reduction of wages which the miners were asked to accept would also be forced upon the other workers should the miners strike fail.

The intention of the British government to issue an appeal for volunteers for the transport and other essential services, in view of the prospective triple alliance strike, was announced in the House of Commons late today by Mr. Lloyd George, the premier. A royal proclamation would call up the army and navy reserves, he said.

The government also intends to enroll special constables and form a special emergency force for a period of ninety days to protect the police in the execution of their duty, the premier added.

Mr. King then moved, in amendment, that such committee shall have power to enquire into all matters in any way relating to the railways owned or controlled by the government of Canada, whether under the direction of the department of railways and canals, or under any corporation in which the government are stockholders, whether relating to the construction or operation, from the date of the appointment by the government of the board of directors of the Canadian Northern Railway Company down to the present time, and similarly to enquire into all matters in any way connected with the Canadian Government Merchant Marine, either in respect of the construction or operation of ships, and that such committee shall have power to send for papers, persons and records, to engage counsel and transportation experts, and to make such reports and recommendations from time to time as in their judgment will be calculated to promote the public interest.

Of World-Wide Interest Fifty-Five Years Ago Today

Tax Wood Trade.—The clearance of wood laden vessels at this port between 27th March and the 10th April, were 8 ships of 6,819 tons, carrying 5,478,000 superficial feet of deals. Of these, 3 of 5,225 tons, with 4,105,000 feet of deals went to Liverpool; 1 of 456 tons, with 400,000 feet of deals to Clyde; 1 of 449 tons, with 292,000 feet of deals to Bristol Channel; 1 of 679 tons, with 881,000 feet of deals to an Irish port.

The total shipment, this year, from 1st January to 10th April, were in 31 ships of 23,457 tons, carrying 1,071 tons birch, 461 tons pine and 37,440,000 feet deals; in the same period of 1895, the quantity of deals sent was 21,704,000 feet; and in that of 1894, 21,237,000 feet.

About 8,200,000 feet of deals have been sent to Liverpool this year, against 11,000,000 feet in the same period of 1895, and 12,333,000 in that of 1894.

"Chalking the lamp-post" is the term for bribery in Philadelphia.

Queen Square as it was Fifty-five Years Ago Today

We are glad to see by our American despatch to-day that the Senate of the United States has passed the Civil Rights Bill over the veto of the President. This bill declared that the colored people of the South are citizens of the United States, and its provisions confirmed these people in the enjoyment of their rights as freemen in a free country. Mr. Johnson, whose line of policy is especially Southern, vetoed the measure, but by the two-thirds vote of the Senate, it has passed into law. It is to be hoped that the result of this veto will be to show the President that he is fast losing the confidence and esteem of the people of the North, and that this will induce him to change his course, and steer it a little more on the side of liberty.

F. W. Daniel & Co. - LONDON HOUSE - Head King Street

ANTHEM BEFORE CONCERT.

Chatham, April 8.—An invitation was started in local theatres last night when the National Anthem was played at the beginning instead of the end of the performance. The idea was the result of a suggestion made by the Daughters of the Empire, who have lamented for some time the lack of respect for the anthem shown by the audiences when the hymn is played at the end of the programme. The

FAMOUS ACTRESS DEAD.

New York, April 8.—Mrs. William Faversham, who while she was on the stage was known as Julia Opp, died here today at the Post Graduate Hospital following an operation. Her plan was evidently acceptable to the people of Chatham generally, for when it was started the audience in both theatres applauded heartily.

Provide Pensions For Missionaries

Most Important Work Accomplished by the Executive of Baptist Missionary Union.

The Executive of the United Baptist Women's Missionary Union continued its meetings yesterday in the Germania Baptist Institute. From 9 to 10:30 in the forenoon the time was spent in committee, reading manuscripts of the history of the Union prepared by Miss C. H. Martlet, of Wolfville, Miss C. R. Fullerton and Mrs. David Hutchinson of this city. The history, which takes in 50 years of work in the Maritime Provinces, will later be published with illustrations.

The Executive resumed its sessions at 10:30. The resignation of Mrs. M. L. Cross, Vice President for Nova Scotia, was received. Mrs. Grant, preceptress at Acadia, was appointed to the office. The chief and important business of the forenoon was the considering of a system of pensions for lady missionaries.

The system approved provides that lady missionaries, retiring after 35 years of service, who have reached the age of 65 years, shall receive a pension of \$500 yearly. If she has served ten years and retired with the consent of the Board she will be allowed

Nothing To Equal Baby's Own Tablets

Mrs. Georges Lefebvre, St. Zenois, Que., writes: "I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Lefebvre says thousands of other mothers say. They have found by trial that the Tablets always do just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus hasten indigestion, constipation, colds, colic, etc. They are sold by medicinal dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

of \$300 a year, and \$20 a year for every extra year of service up to 30. Any one retiring on account of ill health will receive sympathetic consideration by the Board. The gift of a Victory Bond of the denomination of \$1,000 was accepted from Mrs. Mason of Halifax. This gift is for the purpose of providing an automobile for one of the lady missionaries in India. The Executive also provided \$250 a year for the upkeep of an automobile owned by another missionary in India. By the aid of these automobiles the missionaries are able to reach more people and visit districts that would not otherwise be reached regularly.

New President The most important business of the afternoon was the securing of a new President. It was understood at the convention in October, that Mrs. Hutchinson, who has been President fourteen years, would only continue until the April meeting of the Executive. At the meeting yesterday she insisted that she be relieved of office. The Executive regrettably accepted her resignation and Mrs. W. G. Clarke of Fredericton, was appointed to fill out the term.

A Committee was appointed to prepare an address of appreciation of Mrs. Hutchinson's services to the Union, and have it illuminated for presentation to her.

The names of two future missionaries were considered, one for India and one for Bolivia, but no appointment was made.

Bound Over To Keep The Peace

Titus Smith Charged With Assaulting Secretary of the Old Country Club.

In the police court yesterday afternoon Titus Smith charged with assaulting P. G. E. Horne, secretary of the Old Country Club was bound over to keep the peace and allowed his property after entering into bail to the sum of \$200 and providing three sureties of \$500 each. The case arose out of an alleged threat said to have been made by Smith at a meeting of the Old Country Club when he threatened to throw the complainant Horne out of the club, and when he also rushed at the

MRS. SOLOMON SAYS:

By HELEN ROWLAND (Copyright, 1920, by The Wheeler Syndicate, Inc.) Being the Confessions of the Seventh-Hundredth Wife.

My daughter, more ingenious than the imagination of a post-agent are the ways of a woman; and more amusing than the April weather is her inventive genius!

Yes, the masculine Cypselus, crying: "Haha! What a WOMAN invented or discovered, since the beginning of time—save radium!"

But I say unto you, the inventions of woman are little-but, oh my! how innumerable!

Go to! Was it Woman who invented the art of conversation, even in the Garden of Eden, and thereby discovered good and evil?

Yes, verily. Likewise, was it not woman who invented clothes, and also fashions and the changing of styles? For, man in his simple naivety, would have been content to go forever clad in fur and feathers and warps! And the shaving of his chin had not entered his thoughts, until the kissing of woman inspired him thereto.

Verily, since the first day, woman has been constantly inventing things for the comfort and delight of man.

Behold, in the kitchen, she invented strange contrivances for the beguiling of his palate and the regulation of his stomach.

She transformed yesterday's veal-stew into today's chicken pate; she turned a tomato can into a cracker jar. She marked today's salad-dressings, from last night's discarded vegetables; and a can-opener, from an old hairpin and a razor-blade.

For the pleasing of man's eyes, she invented an hundred ways of torturing her hair and an hundred strange things for the adornment of her head; from a piece of chicken-wire and an old blouse she constructed a new spring hat; and from a mass-of straw: she produced an embroiderer's knitting-needle.

Moreover, was it not woman who invented MANNERS?

For, when two or more men are alone together, are they not all as savages in their words and their ways, and their surroundings?

Likewise, was it not Woman, who invented romance, and sentiment, and flattery? Yes, and, peradventure kissing, also?

For, what man would daily with the "hors d'oeuvre of Love," did he not know that woman demanded these things of him, and could be won without them?

Lo, all the days of her maidenhood, doth a dismal invent-romantic dreams concerning her lover. And all the days of her widowhood, doth she invent excuses for her husband's short-comings and flee to cover his failings and dazzling tales concerning his progress and his gains and his victories.

Behold, she turneth hops into beer, and cherries into wine, and flour into bread, and water into soup, and a case into an house, and love into a fine art. Lo, and a wild bachelor into a tame husband!

For, this is her best of best!

Go to! Let man climb upon the house-tops and proclaim his inventions. Let him boast of his printing press and his steam engine and his flying machine.

But woman will batten with secret snuggles.

For, verily, the great inventions of Man may lengthen his life and preserve it; but it is the little inventions of Woman which make it worth living!

And, what man hath ever invented ANYTHING so dear to the heart of the world and so necessary to human happiness—as ELIBATION?

Selah.

Hon. Mrs. Smith Criticises Films

Deplores Type of Pictures That Are Neither Elevating Nor Ennobling.

Montreal, April 8.—A general review of national conditions prevalent in Canada today and the task now confronting the nation of building up the political and social commentaries of the system of the country, formed the substance of an address given by the Hon. Mrs. Ralph Smith, minister without portfolio, in the legislature of Ontario, before the Canadian Club here today. Speaking on "signs of the times" Mrs. Smith stressed the fact that woman has entered the public arena permanently, that her contribution to reconstruction is greatly needed, and that women are ready to do their utmost to promote a truly national spirit.

Deplores Picture Types

Mrs. Smith also touched upon the need for reconstruction in the home, leading up to the subject of amusement and picture shows, and deplored the type of picture that was neither elevating nor ennobling.

Why she deplored the distinction of being the first woman to occupy the Speaker's chair in a parliamentary legislature was explained by Mrs. Smith later in the day at a tea given in her honor by the local branch of the Council of Women. The decision was taken as she said, upon her realization that if she accepted, the women of her province would be left without a spokeswoman on the floor of the House.

complaint with upraised hand. When the evidence was given, the defendant said he had resigned from the club's executive and that Horne was trying to put him out of the club entirely, he pleaded guilty to attempted assault only.

Harry McHugh pleaded guilty to being drunk and also to having liquor in his possession, and was fined \$200 or eight months in jail. He was remanded in order to arrange for the payment of the fine.

Why Rheumatism Comes With Cold Weather

(By Valentine Mott Pierce, M. D.) A close connection exists between these two—cold weather and rheumatism. Every one has recognized the difference in the appearance of their water as soon as it gets cold; there is often a copious sediment of "brisk dust."

Several causes may lead up to an accumulation of uric acid in the system, which, in turn, causes backache, rheumatism or gout, or great pains, swollen fingers, and painful joints.

At all such times persons should drink copiously of hot water, say, a pint morning and night, and take "Aspirin" three or four times a day. This "Aurifer" (anti-uric acid) comes in tablet form and can be had at almost any drug store. It dissolves the uric acid in the system and carries it outward.

Refused Early Meal Boy Shoots Himself

Eleven Year Old Lad's Insane Act Because Ball Game Was Delayed.

Posidon, Mich., April 8.—Angered because his mother failed to provide his breakfast this morning as early as he desired so that he might go out and engage in a game of ball, 11-year-old Kermit Brown, son of Mr. and Mrs. Fred Brown, of this city, went into the basement of his home and shot himself. The boy had asked for an early breakfast, and when his mother told him to wait a while, turned about and walked away. Suddenly a shot rang out from the basement. The mother investigated and found the boy dead with a bullet hole in his breast. He had placed a small caliber shotgun in a chair, fastened a string to his trigger, and then seated himself opposite it. Death was instantaneous.

DEFEATED P. R.
London, April 8—In the House of Commons today a record reading of the Resolutions Representation Bill was defeated by a large majority.

Moncton Players Were Defeated

Y. M. C. I. Intermediates Took Aberdeens Into Camp Last Night by Score of 27 to 25.

The Y. M. C. I. Intermediates vindicated themselves last night by defeating the Aberdeens High School Basketball squad at Moncton by a score of 27 to 25, in a close, fast game on the Intermediates' home floor at the Y. M. C. I.

In doing so they equaled themselves with the Moncton boys, who defeated the mtn Moncton a short time ago.

A Fast Game
The game was a fast one all the way through, and afforded many exciting moments to the large crowd of rooters in attendance. Moncton had somewhat faster combination, which they used to advantage, but the Y. M. C. I. carried the superior defense.

The first half ended 18 to 16 in favor of the Y. M. C. I. An amusing feature of this half was when the Y. M. C. I. scored a fake goal through one of the Moncton boys, who, in a long drive down the floor, drove the ball to the ceiling, in glancing off the ball hit the board above the Y. M. C. I. basket and plunged down into the Y. M. C. I. net. The play caused a great deal of amusement. Both teams worked hard in the second half, each scoring nine points, but the lead given by the fake score enabled the Y. M. C. I. to pull out two points ahead.

Players and Points
Y. M. C. I.—Forwards, McCrowd (9), Tansman (4); centre, Fyfe (14); defense, Dobbstein, Gordon. Moncton—Forwards, Ganong (9), Weppe (4); centre, Colpitts (13); defense, Brub (2), Chandler, spares, Steeves, Palmer.

North And South Amateur Golf

Piñebury, N. C., April 8—P. Merriman of Waterbury, and Gardner White of Nassau, will meet tomorrow in the final of the North and South Amateur Golf Championship. In the final today White defeated Perry Adair of Atlanta, four and three, while Merriman defeated Frank Dyer, of Upper Merrimack, two up.

Y. M. C. I. HIGH SCHOOL GIRLS' BASKETBALL

Y. M. C. I. High school Sport
The Y. M. C. I. High school girls' game between the Blues and the Whites last evening was a spirited one and the girls were warmly applauded for their good play. Close checking kept down the score. The Blues led at the end of the first half by a score of 2 to 1, and took the game in the final period with a score of 3 to 1. The teams lined up as follows:
Blues—The Misses A. Dwyer, M. O'Leary, L. Flood, M. Crozier, F. Connolly.
Whites—The Misses V. Farren, F. Flood, G. Fraser, M. O'Connor, M. Kane.

Seeking Change In Smelt Open Season

Port Elgin Fishermen Ask That Fish Be Taken from Nov. 1 to Jan. 15.
Port Elgin, N. B., April 8—At the monthly meeting of the Port Elgin Board of Trade the corporation committee reported that a survey of the town has been made and a plan prepared. The petition has been signed by the requisite number of citizens and is now ready to present to the Government. It is hoped the first Council will meet before the close of the present year.

A petition signed by 350 fishermen and exporters of smelt, was presented to the meeting. This petition asked that the open season on smelt for the district Northport to Port Elgin, be from November 1st to January 15th. The present season is from December 1st to February 15th and as the waters in the rivers of this district are very shallow, the heavy ice forms early, this prevents the entry of the fish and that practically none are caught. Now that the railways provide refrigerator cars and as there are good cold storage facilities in the town the objection that the fish could not be handled so early in the season does not hold.

The board approved this petition.

Halifax Wanderers Defeated St. John

Fast Game at Sister City Y. M. C. A. for Maritime Championship—Score 37 to 20.

Halifax, N. B., April 8—The Wanderers' Basketball team reached the climax of their season's honors tonight by defeating the St. John contingent for the maritime championship before a crowded gallery at the ship before a crowded gallery at the Y. M. C. A. gymnasium. With nine points to make up from the previous game, and with a decided handicap of weight to against, the local boys drove the ball through for an even 20.

Smooth Combination
Both teams struck a careful stride and guarded closely for the first few moments. St. John got their smooth combination working early and kept the ball well up the floor, where Willett and Evans, for the visitors, did their heaviest scoring. Lane broke through for the first score for the Wanderers after five minutes' play, which was repeated by Fahey. The Wanderers then loosened up and forced the pace to the end of the period, which ended 17-10 in their favor.

There was intense excitement when the Wanderers' scoring machine got down to work in the second period and ran up the lead that won them the championship. St. John's prospects went, when their combination seemed to give way early in the second half. They steadily lost cohesion and from then on it was left to the individual performers to work up and notch their baskets. The score sounded with the visitors still on their toes to recover, and in a final flash of speed they ran their score up four points.

The goal shooting of Fred Fahey of the Red and Blacks, was the best exhibition of the evening. MacOy ranked next in individual points, although he missed many fine shots. Nixon and Marshall put up an exceptional defence for St. John.

The Line-ups
The line-up of the teams was as follows:
St. John: Forward, Wanderers. Willett, MacOy. Centre, Fahey. Evans, Lane. Guard, Nixon, McLeod, Marshall. Hattie. Druggart, Sewart. Young.

This evening the St. John team will go up against an all-star Halifax aggregation, and another interesting match is expected.

Hand Mutilated By Electric Fan

Right Hand Nearly Severed at Wrist by Being Caught in Rapidly Revolving Fan.
Timothy Cahill, 109 St. David street, employed at the factory of John Kimble & Sons, Ltd., as an engineer, met with a serious mishap yesterday when he injured his right hand so badly that amputation at the wrist joint was necessary. Mr. Cahill attempted to tighten up a nut on a hand part of the air circulating system, while the fan was in motion. It was revolving at the rate of 650 revolutions to the minute and his hand was drawn in and almost severed at the wrist.

He was rushed to the Public Hospital where the injury was attended to. Mr. Cahill suffered considerably from loss of blood and shock sustained. Last night he was reported as suffering great pain but his condition, on the whole, was regarded as satisfactory.

Zionists Send Jew Regiments To Palestine

London, April 8—The Zionist organization will support a number of Jewish regiments in Palestine in order to relieve the British administration of some of its financial obligations, says a despatch from Jerusalem today. This decision was reached as a result of a conference between Winston Spencer Churchill, the minister for the colonies, and Nehum Sokolow, chairman of the Zionist World Executive Committee.

Sharks Won From Orioles

Interesting Game Furnished at the Y. M. C. I.—Teams Evenly Matched.

The Portland Orioles and the Sharks of the Y. M. C. A. furnished an interesting game at the Y. M. C. I. last evening. Both teams were very evenly matched and put up a fine brand of play. The Sharks led in the first half by score of 18 to 15. They maintained their lead in the second, although it was reduced by one point, the Sharks winning 20 to Orioles' 23. The following players took part:
Sharks—Stamers, Lee, Williams, Curran, Walstead, Oldford. Orioles—F. Yemans, Friars, E. Yemans, Kirk, K'Ham, Lingley.

Boy Scout Officers Were In Session

W. V. B. Riddell, Field Organizer from Ottawa Outlined New Scheme.

There was an enthusiastic meeting of Boy Scout officers and Troop Commissioners at the Scout Headquarters, Province street, last evening with S. G. Olive chairman.

Reorganization
The meeting opened with a talk on troop committees and reorganization by W. V. B. Riddell, Field Organizer from Ottawa. The speaker outlined the organization of a troop committee where it is planned to have a new scheme for chartering the troops. Each troop applies on the new form and discussion follows.

St. George's Day is the birthday of the Boy Scout movement and Guy L. Sher, District Commissioner, opened the discussion regarding the observance of the day.

Church Parade
It is the intention of the Scouts to hold church parade on Sunday, April 10th. The West St. John troops will parade to the First Presbyterian church while the troops on the Eastern side of the harbor will attend their respective churches.

It was announced that Peter Clinch had offered to hold boxing classes for the Scouts in the city and see that they were trained and able to learn go at a defence. The matter will be dealt with by the local council later.

King's Short Badges
Commissioner Short reminded the Scout Masters about the King's Scout badges, stating that if the wearers do not have them replaced by the first of November the badges will be removed.

The matter of a provincial emblem was discussed and the meeting was in favor of it being adopted.

The provincial camp to be held on Grand Lake August 1st to 15th was talked over and it was shown that at least three hundred boys would be there to enjoy one of the best outings in their lives.

Co-operation
W. V. B. Riddell spoke on the co-operation of loyalty to the Boy Scout movement and also about the Canadian Boy Magazine and at the close of a most interesting address he was tendered a vote of thanks.

Among those present at the meeting were, S. G. Olive, Commissioner Short, W. V. B. Riddell, N. R. Betz, W. P. Allen, J. R. Robinson, W. W. Alingham, W. Allen, W. Tippet, O. J. Lawson, G. C. Elliott, C. G. Hoyt, Wilfred Maden, C. E. Upham, William Harrington, Edward South and John Kimball.

ENGLISHMAN LOST BOUT

Boston, April 8—Nate Stogel, of Revere, was awarded the decision in a ten round bout here tonight over Ted "Kid" Lewis, of England. Both men are welterweights.

SEVEN ALLEGED CONFESSIONS.

New York, April 8—Former Governor Whitman, who is in charge of the Elwell murder investigation, in explaining his reluctance to credit the confession made by Roy Harris in Buffalo, today disclosed the fact that the authorities already had received seven different confessions, six by letter and one in person.

Young Montreal Outpointed Lynch

Bantamweight Champion Was Outpointed in Ten Round No Decision Bout.

Cleveland, April 8—Young Montreal, of Providence, R. I., decisively outpointed Joe Lynch, bantamweight champion, in a ten-round no-decision bout here tonight. Newspaper sport writers at the Ringide gave Montreal seven rounds, Lynch one, and called two even. Montreal weighed 118 pounds, and Lynch 115½.

Six Day Race At Chicago

Leaders Have Covered 1,770 Miles Six Laps at 120th Hour of the Race.

Chicago, April 8—Two teams gained laps in the six-day bicycle race today, Madden and Magin lapping the field this afternoon, Bellman and Degreves repeating the feat tonight. Their work placed these two teams on equal terms with Cory and McBeath, who previously had held a one-lap lead. The other teams all were a lap behind the three leaders, who had covered 1,770 miles, six laps at 11 o'clock, the 120th hour of the race. Cory and McBeath led in points with 181½.

Arrested On Serious Charge

George L. White Alleged to Have Obtained Money Under False Pretenses.

A young man named George L. White was arrested about 6:40 o'clock last evening by Sergeant Detective Powers and locked in at police headquarters. The prisoner is charged with obtaining money under false pretenses and also with presenting false checks to the value of thirty-one dollars. From what could be learned of the case last night, the defendant is said to have come to St. John stating that he had money in the bank to his credit, and after issuing checks for certain amounts, it was learned that there was no funds in the bank belonging to the man issuing the checks.

White will appear before the police magistrate in the police court this morning.

GREEKS RETIRE AGAIN.

London, April 8—The Greeks have evacuated Adana-Karabeslar, the junction point of the Bagdad Railway south of Eski-Shehr, and retired to Lomlu Bunar, 40 kilometers to the west, says a Reuter despatch from Smyrna.

Greek General Recalled

London, April 8.—The London Times today prints a newspaper report from Smyrna stating that owing to the failure of the Greek offensive in Asia Minor, General Papoulas, commanding the Greek forces on the Smyrna front, has been recalled and replaced by General Metaxas, chief assistant to the general staff of the Greek army.

MINE LEADER GUILTY.

Pittsburgh, Kan., April 8.—Alexander Howat, Kansas Mines' Union head, today was found guilty of contempt of court in ordering a strike of coal miners two weeks ago and was sentenced to pay a fine of \$300 by Judge Curran of the Crawford County district court today.

HERESIES ABOUT HEALTH

By William T. Ellis

The International Sunday School Lesson for April 10 is: "Bible Teachings about Health," 1 Cor. 6: 15, 20; 12: 24-27; Gal. 4: 7, 8.

For the current three months the Sunday Schools of the world are studying a series of topical lessons on "Some Social Teachings of The Bible." The second lesson of the course deals with "Bible Teachings about Health." These present commentaries are planned while the writer lies in a hospital in Puerto Rico, looking out upon the palm trees and the blue waters of the Caribbean Sea, after an operation and an anæsthesia which took him to the very gates of the life wherein there is neither pain nor sorrow. So the subject is treated from a somewhat expert and authoritative standpoint. At least, what follows is the fruit of long and quiet musings in a place where everything is attuned to the note of physical suffering.

Naturally, amid such conditions, some might be expected to echo the common cry, "Health is the most important thing in the world." On the contrary, I am clear in the conviction that neither the Bible nor human experience supports this popular idea. Instead, there is ample reason for declaring that this modern cult of health, despite all that is right and desirable in it, is one of the greatest heresies of our modern times. Our day has exalted physical well-being and physical sensations into wholly disproportionate importance. Health is not the first consideration of life; any civilization that makes it so is bound to go the way of body-panicking Rome.

The Carcase As An Idol

One of the sheet anchors of safety of our western world's democracy is that millions of men and women are soberly thinking about the trend of the times and about things in general, who give real thought to the symptoms and tendencies of our day is that people generally are placing too strong an accent upon the body and its sensations. Materialism has the right of way. Pleasures of the senses are engrossing the world. Eating and drinking and seeing and feeling and the general indulging and adorning of the body are the present engrossment of the race. Our day's mood is frankly and rather shamelessly carnal. The pendulum has swung to the limit away from the high heroism of self-sacrifice which it reached during the war.

All this is so obvious that it needs no bill of particulars. A glance at the clothes of the young people, especially of the younger women, a peep into the motion picture theatres of even the smallest towns; a scanning of the news columns of the daily papers; a thought of the relative importance of athletics and scholarship in our colleges—in almost every direction one turns, this present mood of materialism is manifest. The body and its appetites is the centre of the world's thought. The body is the centre of the world's thought. The body is the centre of the world's thought. The body is the centre of the world's thought.

Sharpening The Soul's Scythe

This idea that physical well-being is first, which is at the basis of the degrading principle of materialism, must be met boldly and faced in the spirit and with the teachings of the New Testament.

Of course, it goes without saying that our bodies are the tools with which our personalities work, and therefore should be kept in condition. Care of the body is as important as the sharpening of the scythe in only the scythe; it is not the farmer. "We have bodies," runs the old saying; to which a wise man retorted, "Yes, we have bodies, but we are souls." Our souls are not the servants of our bodies; but our bodies are the servants of our souls.

Some lesser is saying, "Does not our Lesson text tell us that our bodies are the temples of the Holy Spirit?" Assuredly; but they are only the temples, meant for ministry of the Divine Inhabitant; they are not the Holy Spirit. The body's place is a secondary place, not a primary one. The real reason, for taking care of the body is that it may fulfill its highest spiritual mission. The three passages assigned as the basis of the present Lesson are all to the effect that the physical man should be kept subordinate to the soul. That the International Lesson Committee could find no stronger plea for the care of the health is almost sufficient comment upon the Lesson. They seem to say, "Keep the body's scythe sharp, that it may do the soul's work well."

Who Is At The Helm

Said a wise Scotch shipmate to me the other day, as we talked of books and men, "There seem to be no good books being written these days." Then he went on to explain that he meant books of noble vision; fiction of high idealism, works that would live. Instead, we have a dreadful torrent of trivial and "smart" and sensual stories.

GREEKS FACING DEFEAT IN ASIA FRENCH CONTEND

Campaign Was Undertaken Against Advice of Foch and Experienced Generals.

INTERVENTION BY ITALY POSSIBLE

Security of Allies Threatened and Fleets May be Employed.

Paris, April 8.—It is the French of social belief that the Greeks are in danger of serious defeat in Asia Minor. Advice reaching the Quai d'Orsay says that Constantine's forces only failed completely in their attempt to take Eski-Shehr, but that the northern wing of the Greek army is being pressed hard by Mustafa Kemal, and depends upon the possibility of the Greeks preventing a disaster.

French Resentful

The French are highly resentful of reports from Athens that France intentionally aided the Turkish Nationalists by making peace on the Cilician front and thus liberating some 25,000 Turkish troops. The French argue that the Greeks know that France was working for peace with Kemal, and furthermore, that the Greek communiques emphasize that the Turks from the Cilician border have not been able to reach the battlefield.

It is reported today that the Greek Foreign Minister has asked Italy to intervene as mediator, but the French Foreign Office has no information to this effect.

It is interesting to note that both the Greek attempts to beat the Turkish Nationalists were undertaken against the advice of French generals. At Boulogne last year, when Venizelos offered to dispose of 50,000 men, Lord George and Milner agreed, Foch told Venizelos pointedly that the Greeks could not execute their plan because they did not have the half-million soldiers needed to occupy all Antolia. In London last month when the Greeks again declared that they could deal with Kemal, General Gouraud, French minister of the Turkish Nationalists in Northern Syria, advised the Greek War Minister, M. Gounaris, that he was attempting more than he could accomplish.

The advice of Foch and Gouraud was given from a professional point of view and was not warped by the desire of French diplomats to make terms with Mustafa Kemal.

The decisive defeat of the Greeks would make it necessary to call for another Allied conference on Turkey, which might or might not have more fortunate results than the first.

An afternoon dancing frock of tangerine crepe satia is trimmed with side panels of gold lace. There is a sash of tangerine grosgrain ribbon.

BAR RED FROM MEXICO

Ford THE UNIVERSAL CAR

Quality at low price through quantity production

QUANTITY output has a direct bearing on manufacturing costs. The Ford Car is a Canadian product; with few exceptions every part of the car you buy is made in Canada.

Last year our output was over 55,000 cars. Consider what this means—220,000 wheels, 220,000 tires, and over 27,000 tons of steel and other metals were used in twelve months.

When buying in such quantities we get the lowest possible prices on raw materials—and we get the same quality as a company buying in smaller quantities at higher prices.

The Ford car—simply designed and built of finest materials is so low in price that it is within the reach of every man of moderate means. Quality and value are built into every car.

Wherever you go—**Ford Service**

Ford Motor Company of Canada, Limited, Ford, Ontario

DRUNKEN MAN SHOOTS COPS AND SUICIDES

Chicago Woman Missing After Fight Following Moonshine Party.

ATTEMPTED ESCAPE BY MOTOR FAILED

Slayer Wounds a Restaurant Keeper in Michigan City as Next to Last Act.

Michigan City, Ind., April 7.—Two Michigan policemen were shot to death and their murderer committed suicide as the result of a moonshine party of Chicagoans here yesterday, which culminated in an outbreak of shooting in the heart of the city. The dead men are Capt. J. M. Zimmerman and Patrolman Paul Spencer of the Michigan City police force, and William Dismal, who was a railroad engineer running between Michigan City and Chicago until he turned to crime after having lost his job through liquor. He is said by the police to have served a prison sentence for robbery.

Four Under Arrest

Three men and one girl, companions of Dismal, are under arrest, and the police are searching in the mud of the river with grappling irons, trying to find a second girl who came with the others from Chicago. Her name is given as Helen Conway, and when the upriver of the shooting had died away a search for her remains, footprints leading to the bank of the river. Her hat was lying on the bank, and she seemed to them so intoxicated that she might have fallen into the water if she did not throw herself in.

The original party that came to Michigan City from Chicago consisted of Dismal, Miss Conway and Pauline Gibson. With William Caruth of Michigan City they appeared on the streets here late yesterday, at the end of a moonshine party, all of them the worse for liquor. They had a taxicab and ordered the driver to go to 1113 Pine street.

Wanted Boas

"I want some boas," said Dismal. The taxicab drove to the Shelburne Hotel, where the girls and the men went to a room occupied by Jas. Gaster and W. M. Hayes of La Grange. Then they drove to the Crystal Hotel, where Caruth left the party. As Caruth went Miss Gibson climbed from the taxicab and reeled into a doorway. The chauffeur of the taxi set up a cry for aid, and a large crowd gathered at the Crystal Hotel. Patrolman Spencer answered the call.

Commits Suicide After Reporting Own Death

Long Branch, N. J., April 8.—Two hours after reporting a neighbor to telephone to his brother that he was dead, Michael Pell, 567, was found dead in his home today in Eatontown, N. J. Beside the body lay a revolver. County Physician Antonson said Pell had committed suicide. Early in the day Pell met a neighbor, Charles Riddle. He asked him to call up Charles Pell of 240 Park avenue, Newark, and tell him that he (Michael Pell) was dead. Riddle thought Michael was joking and soon forgot the conversation. Later, however, he decided to go to Michael's home and found the body on the floor.

- 1 Pill a Laxative,
 - 2 Pills a Cathartic,
 - 3 Pills a Purgative,
- This is the Way Milburn's Lax-Liver Pills Work

You will never see any of the old griping nauseating, sickening pills, containing, as they do, calomel and other drastic mineral ingredients, once you use Milburn's Lax-Liver, a pill that is purely vegetable.

They work gently and effectively, without a gripe or pain. If you are troubled with constipation, indigestion, drives to distraction with sick headaches, if your tongue is coated, your breath bad, your complexion muddy, your eyes yellow, have itching spots before the eyes, jaundice, itching, bleeding or protruding piles stir up your sluggish liver with a few doses of Milburn's Lax-Liver Pills.

Mrs. Roy Mackie, Griffin, Ont., writes:—"I desire to express my thanks for the relief I have had by using Milburn's Lax-Liver Pills. I had been suffering for some time from constipation and bad headaches. I tried all sorts of cures, which did me no good, until I was advised to try your pills. I got great relief after taking only a few doses."

Price 25c. A visit at all dealers, or mailed direct on receipt of price by The E. Milburn Co., Limited, Toronto, Ont.

Boys and Trail Rangers

A TUNIS CONCLAVE

"For the first time since the work started, the public of the Border Cities had a real opportunity last night to witness in graphic form just what is being done to the boys of the country, when large numbers gathered to witness the first Tunis Boy Conclave in the gymnasium. With games, novelty relay races and other activities, the boys filled in the evening, appearing at an entertainment which was most unique to the majority of the citizens present.

In a short address at the opening of the program, Floyd St. Campbell, mayor of the community, explained that the occasion was simply the first of a number of similar conclaves that will be held at regular intervals throughout the year.

In complete charge of all the evening's activities was Major Fred J. Smith, national physical director, who had personal supervision over all the various activities of the young athletes. Major Smith made a decidedly good impression on boys and spectators alike by the efficient way in which he carried through the long program without without a hitch.

The grand winners of the evening were the Myrtles with a total of 165 points, while the three girls ran a close second with 158. The other squares counted as follows: Fox from 127; St. Christophers, 100; Beaulieu, 83; Addams, 81; Walverines, 75; Marathons, 75; Lava Wires, 66.

The following events were run off: Shuttle Potato Race, Stick Pull, Indian Wrestling, Victoria Cross Relay, Turpie Pull and Indian Club Exercise.

The program concluded with the Omaha tribal prayer, the formality which winds up all meetings of the Tunis Boys, and the ceremony was impressive in the extreme. The circle of boys, standing with arms and eyes lifted heavenward, chanting the ward prayer, was a scene that brought a tearful spectator to his feet in reverence, and the crowd departed, feeling that they had witnessed one of the greatest works that have been carried on in the history of the Border Cities.

School Work Delays This Lad's Sentence

Judge Agrees to Wait Until End of Term Before Imposing Manslaughter Sentence.

New York, April 8.—The annual sight of a high school boy pleading for a stay of execution of a sentence for manslaughter so that he may complete his class room work attracted attention in the Court of Quarter Sessions, Newark, yesterday.

Says Cork People Did Not Get Food

(Copyright, 1921, by Public Ledger.)

London, April 8.—An official investigation of supplies sent from the United States to Ireland by responsible men whose names for the present your correspondent cannot disclose, has resulted in a serious state of affairs. It will be recalled that after the burning of Cork two cargoes of foodstuffs were sent from American cities to the people of Cork. One consignment of 500 cases of canned goods landed in Cork, January 15 by the steamer Honolulu was never distributed because it is alleged the shopkeepers of Cork refused to permit distribution on the ground that the people of Cork were able to buy their own supplies and also because the Irish people were not accustomed to tinned food when fresh food could be had.

The second case is that of 2,000 sacks of flour brought to Cork February 12 by the steamer Omega consigned to the Cork Industrial Development Association for relief work in the United States. Instead of distributing this flour to the people it was sold to bakers in Cork. None independent understands that distributors in these cases proving that the people of Cork did not receive the American relief have been forwarded to Washington.

Contents Mrs. Eddy Is Active Worker

Lawyer in Christian Science Suit Asks Court to So Declare.

Boston, April 8.—The question whether Mrs. Mary Baker Eddy, founder of the Christian Science church, who died in 1910, is still an active officer of the church was raised today for the courts to decide. Edwin A. Krauthoff, of Washington, appearing at a hearing in the supreme court in one of the several pieces of litigation involving the present government of the church, asked for an injunction to restrain any revision of the manual. He said he desired a declaration by the court that Mrs. Eddy, its founder, and author of the Manual, is an active officer of the church just as much as the board of directors are active officers.

Judge Brayley remarked that he did not see how such a condition could possibly exist. The doctrine of the church and admissions by church officers, Mr. Krauthoff contended, will prove it.

The judge denied the motion for temporary injunction, but indicated that he would refer the question for fuller consideration to former Judge Frederick Dodge as master. Mr. Krauthoff then requested that Judge Dodge be required to pass on the status of Mrs. Eddy, and Judge Brayley said he would consider that question on Friday.

Proceedings today were in connection with the effort of John V. Dittmore, who was ousted by the board of directors from the body, to prevent the revision of the manual. It was agreed between counsel by stipulation that his name should not be removed for the present.

FIX PRICE FOR TOMATOES.

St. Catharines, Ont., April 8.—Forty cents a bushel will be the price paid for tomatoes by consumers this year, according to the statement of a man prominently connected with the canning industry here yesterday. The price last year was fifty cents.

Olefin last much longer and looks better longer if polished with beeswax-turpentine than if washed.

Teacher Advises "Spirit Lashing"

Philadelphia Supervisor Urges Novel Method of Punishment for Unruly Scholars.

Pottstown, Pa., April 8.—Miss Margaret T. Maguire, a Philadelphia public school supervising principal, in an address on the "Spirit of Discipline" at the local teachers' institute today declared that "you can lash the spirit more than the body."

"You must get a bad boy by spiritual relation. There are some few children who need corporal punishment. They should be taken to the schools for the incorrigible and dealt with. Develop the children spiritually as well as mentally and you will have true discipline. Some persons think that discipline should not exist in the land of liberty and tolerance of brave. We must realize, however, that the easy route is not the best route always. We should discipline ourselves. Discipline in the school-room helps pupils and teaches to develop. Positive quietness in a school-room does not necessarily mean good discipline in the school. If work requires noise and it is different from work in fine and it is different from disorder. Labor and work make a really beautiful harmony."

Discussing school examinations, Dr. Henry C. Curtis, said that every school district should have at least one motorbus to take the children on trips to places of historic interest. "It costs but half cent a mile per passenger for a bus of that kind, and

that is certainly cheaper than the 5-cent motorbus fare they have in this town," he concluded.

WOOL MARKET POOR.

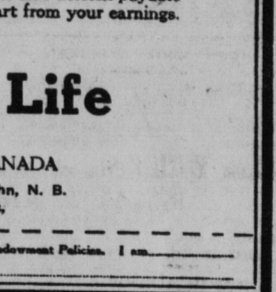

Boston, April 8.—The Commercial Bulletin tomorrow will say: "The market has been somewhat less active this week in the opinion of well informed observers and possibly a bit easier on the whole, although there have been some spots of decided strength. The mills are fairly well occupied and continue to cover quietly. Shearings is reported in the southwest more generally."

With the cream left in.

REGAL The Big Value in FLOUR for Bread, Cakes & Pastry

Which Contestant Will Win The Special Prize Maxwell?

A magnificent new five-passenger Maxwell Touring Car with a value of \$1400 will be given away as a special prize in The Standard's contest to the contestant who turns in the greatest amount of subscription money during a three-week period ending Monday, April 11th at 6 p.m.

This is the last special prize of the Contest. The Maxwell auto was purchased from and is on exhibition at The Princess Garage, Princess St. (Agency for the Maxwell).

New contestants may enroll and compete for the special prize Maxwell only if they wish. All contestants started with a "clean slate" for the special prize Maxwell. Work done previously in the contest does not count on the Maxwell therefore new contestants or those low in the list have an equal chance to win it, with those topping the published list.

All votes secured while working for the Maxwell will count towards the regular prizes, consisting of the Standalone, the Gray-Dart, the Regular prize Ford, the Movie Star Contracts and the other regular prizes.

A Love Story of the South as Told by a Horse.

(Anna Agnes Buckley)

He is a Southern gentleman of the old school and dear Master Philip, with his snowy hair and straight military figure...

He was a wonderful figure as he sat on my neck, his great long limbs body supple, so stoupe, in perfect accord with his slightest movement...

I remember well one morning when the groom had brought us her little mare Dolly, a silly, skittish young thing...

HORSE GRIEF-STRICKEN

Favorite Trotting Mare of the American Press.

We publish the following just as it appeared in the London dispatch to the American press:

"Mr. Winans always used to visit her first and feed her with sugar and talk to her and she was always the first to be harnessed for a run around the track..."

A HORSE'S LOVE

(Horace Seymour Keller)

You housed me in the winter, and I love you, friend, for that!

You stroked me with a kindly hand, Caressed me with a pat,

You have been patient when I knew So little of your ways,

As awkwardly I tried to do, My best to win your praise,

Some may not think a horse may care About such kindness—yet In wintry storm or summer fair I never shall forget.

And so I won the heart of you, And you the heart of me, I love you, friend, for that, Devotedly and free.

THE DONKEY'S APPEAL

Why don't you strike me? Ever faithful in service to do I live!

And all my working days I labor, And all my strength to thee I give!

Why strikest thou me? Why strikest thou me? Why strikest thou me?

A Regular Saturday Page for the Kiddies

Puzzles

- 1—Reversals. My second part of a ladder and find favorites. 2—Nonsense. I have an intended slight and find small light cakes up and down.

3—Diamond

My first is in the affirmative. My second is an article. My third is found on rose bushes.

3—Brain Tease

In each of the following sentences a word is to be placed in the first space, then its letters rearranged in another word for the second space, so that the sentence will then read correctly.

4—Concealed Grand Opera

A letter taken from each word will reveal in each sentence the name of a Grand Opera.

ANSWERS TO PUZZLES

- 1—Reversals. 1. Step-pets; 2. Sun-buns; 3. Embrims; 4. Tuber-rebut; 5. Bag-bag; 6. Dalia-alled.

2—Diamond

HO N E S T Y

3—Brain Tease

Manor, Roman; Ocean, canoe; Words, sword; Cork, rock.

4—Concealed Grand Opera

1, Aida; 2, Martha; 3, Huguenots; 4, Faust; 5, Traviata; 6, Carmen.

Birthday Greetings

Uncle Dick wishes many happy returns of the day to his nephew and niece whose birthdays occur during the week commencing today.

Prof. Leitch Says Not a Success for Dollar View WORK HARD FOR VERY LITTLE Man on the Farm Able to Set Price Goods Sold.

A SYMPATHETIC HORSE

Many a creature will fight savagely for itself or its young, but animals that will battle for others are not so plentiful.

Two men, accompanied by a fierce mastiff, were going across a field, when the dog broke away from them.

With one spring he was over the hedge that separated the fields. Then he made for the scene of the conflict.

Before the dog realized his danger, the horse seized him with his teeth, tore him away from his prey, and then, by a dexterous movement, wheeled around and flung out his heels, giving the dog the full benefit of the kick.

This was a sort of warfare that the mastiff did not relish. He promptly slunk off, with his tail between his legs. The horse then strutted proudly round the donkey as if elated by his victory.

"GOOD-BYE, OLD BESS"

Alfred Wheaton Sweet in "Farm Poems."

There's no use in talking, Ann, I've got to sell "Old Bess" if I expect to do some biz.

And get the money for a rest. I'll have to get a Gomobile, Or go flying through the air, Or sell the farm and fix'n's And give up in despair.

I drove my team in town today To sell some fruit and eggs; And Bess, you know, is a fine old horse With four good level legs.

The way I put her o'er the road I'll bet would make you smile; But a load went by in a buzz machine And had me beat a mile.

When I drove up to Johnson's store He said, "Hi Brown, you're late; I'd like the other fellow's stuff, I had no time to wait.

The world is moving quicker now, I'll give you just a tip; Trade your horse for a flying machine, And make a faster trip.

But somehow, Ann, I cannot sell "Old Bess" for good and true; She brought me down to clover dell When I came courting you.

We'll keep her here with us, dear wife, Until we see a better day; She's earned with us a peaceful life, Until we say "Good-bye."

\$200.00 IN CASH GIVEN AWAY

ALSO A NUMBER OF MERCHANDISE PRIZES WILL BE OFFERED.

Do you know the name of the Vegetable that is shown in the picture below? In order to solve this puzzle cut out the picture and send it to the editor of this paper.

Write on the name of the Vegetable on a separate piece of paper and send it to the editor of this paper.

Do not forget to send your name and address with the picture and the name of the vegetable.

The name of the vegetable is... (The picture shows a vegetable, likely a carrot or similar root vegetable.)

FARMERS NOT PROFITERS HE DECLARES

Prof. Leitch Says Farming Not a Success from the Dollar View. WORK HARD FOR VERY LITTLE MONEY Man on the Farm Was Not Able to Set Price at Which Goods Sold.

Brandon, April 1.—“Are farmers profiters?” Prof. Archie Leitch, head of the economics department of the O. A. C., asked the question at a public address delivered here recently, and answered by asking for answers to the following questions: Does the farmer get too much return for the capital invested? Does he get too much return for labor expended in the good of the community? Does he take too much away from the labor of other people?

Not a Profiter. Answering the question, Prof. Leitch viewed it from an economic standpoint. Surveys of 1,600 farms surveyed officially, in five counties, in four types of farming, the average farmer earned \$115, plus a house and whatever he could actually obtain for his own and his family's use from the farm. The average number of acres worked was 27.5, at 29 1/2 cents an hour. The average yearly value of the house was \$360 and living expenses obtained from the farm a little over \$450, which made the wage about 10 cents an hour more. He paid an average of 29 cents an hour to his hired man, with the same living conditions. From these conditions he declared the farmer was not a profiter. The Greater never intended that the man who produced the foodstuffs of the world could be a profiter. If one farmer made \$2,000 more than another it was because he produced more. After 10 centuries of the basic industry, it was beyond the power of the man to make six prices. These were controlled by the rich grovers in the Orient and the ranchman of the Argentina, as well as the home or export market.

Million A Year For Agriculture Fund Helps Provide Adequate Education for Country Life.

An insight into the progress that is being made in agricultural instruction, both for adults and juniors, is to be gathered from the report on the Agricultural Instruction Act for 1919-20, recently submitted to the Dominion Parliament. Under this Act \$1,100,000 is now divided annually between the nine provinces of Canada with a view, as the report says, of the industry of Canada. That the objects sought are being attained is shown by the review of the situation regarding agricultural instruction as it now exists in this country. Schools have been established, colleges extended and brought nearer to the farmer, research has been greatly encouraged, the agricultural representative system has been adopted and fostered, home life improved, school farms have been brought into being, and knowledge in every branch of agriculture and domestic science has been made more readily available. How the funds forthcoming under the Act are applied is illustrated by the fact that in an allotment of \$25,000, was devoted in 1919-20 to the Agricultural Representative system, and \$644,070 to instruction and demonstration. Boys' and girls' clubs were extensively aided, and women's institutes, home-makers' clubs and similar organizations, had their funds augmented in such a manner as to lead remarkably to their growth and increased spread of their usefulness. How important a figure in the direct advancement of agricultural instruction the Act is, the fact that in the six years of its existence \$1,280,145 has been allocated to colleges and schools of agriculture, exclusive of veterinary colleges, to which a special grant of \$20,000 is made annually. The problem facing those responsible for educational policy, says the report, is to provide adequate educational opportunities for those destined for country life, and that in large measure is the purpose for which the funds granted by the Act are being used.

When black history is worn out, save the type to clean black goods or to wipe off dirt. They have no other use.

Bacon Type Coming Into Its Own.

The wholesale price of heavy bacon of standard grade is 50 per cent cheaper than very light fancy bacon.

This statement from a review of February data issued in the weekly issue of Chicago, is highly significant to Canadian hog breeders and farmers. It indicates two things: 1. That the hard-type hog is losing its predominant market value as the demand for this in Britain is becoming normal and because of the increased vegetable oils are now making a food-fat supply. 2. That there is a swing of the pendulum towards the bacon-hog type which has been persistently urged for Canadian production during the last thirty years.

The fall statement made by the Institute of American Meat Packers is worth consideration, notably because of the frequent reports that hard-type hogs are increasing in popularity in the Western Provinces. “Large, fat, corn-fed hogs of fine quality,” it says, “are plentiful. So far as the meat is concerned, the difference in quality, heavier hams and bacon can be bought very much cheaper than light hams and bacon. Fancy hams weighing from 14 to 16 lbs. can be bought at wholesale about 4 cents a pound cheaper than fancy hams weighing only 8 to 10 lbs. The wholesale price of heavy bacon of standard grade is 50 per cent cheaper than very light fancy bacon.” It follows that if these conditions exist, the prices which will be paid for live animals to yield such weights will quickly correspond. An answer to the question which way the wind blows, as the recent suggestion at a Chicago conference is important that a new grade to be called “old and soft-fat hogs” should be added to the Government Reports throughout the United States. The idea beneath is that American producers may learn from the low levels of the price which will inevitably be paid for old and soft-fat animals how profitable they are to produce. Nor is the difference in price altogether a matter of quality; the official statement already quoted adds: “The lower price for a heavier cut does not necessarily mean that it came from a meat animal of poorer quality. It often happens that the heavier hog was thoroughly finished while the lighter hog should have been fed longer. That is to say, it was not a matter of care and feeding by the farmer, but simply of the right selection of a type now getting more and more in demand.”

Parasites Cause Disease In Sheep

Permanent Pastures Are Often Source of Infection to the Flock.

Sheep probably suffer more than any other kind of live stock from parasites. They are practically immune to tuberculosis, which is one of the serious ailments of the domestic animal, and among sheep there is nothing comparable to the devastating outbreaks of cholera among swine. Sheep have comparatively few bacterial diseases. Nevertheless there is a steady loss of sheep in all parts of the country and this loss is mostly due to parasites. It is the shepherd's business to prevent disease rather than to attempt to cure it after it has made its appearance. While there are special treatments for the various diseases which make it advisable to call a competent veterinarian, there are a number of ways to prevent disease caused by parasites. Among these are pastures rotation, use of force crops, feeding from racks or board fences, draining or filling swamps, and preventing wandering dogs from getting into the flock. Permanent pastures perpetuate parasites. The eggs of the internal parasites pass from the animals in the manure and their pastures become infested. The proper disposal of the manure will aid in preventing this. Damage from parasites is greatest as a rule among lambs and young sheep. Hence, it is important to pay special attention to the care and handling of lambs and yearlings. Animals which are infested with parasites usually do not have fever, but they are unthrifty and will lose rather than gain in weight. As a rule, also, there is some interesting disturbance, shown by diarrhea or constipation. Two Groups of Parasites. Parasites of sheep are divided into two general groups, external and internal. Among the former, lice, sheep ticks, and scab mites are the most common. One application of sodium sulphide in the form of powder rubbed into the skin will kill biting lice, but not sucking lice. Both kinds of lice, sheep ticks and scab mites are destroyed by dipping the sheep. For lice and sheep ticks a number of dips are recommended in the bathing, including coal tar creosote, creosol, and nicotine or nicotine sulphur. For scab mites the official dips are lime-sulphur and nicotine-sulphur dips. Arsenical dips are not well suited to sheep dipping. All places which have been occupied by lousy sheep should be regarded as dangerous from this standpoint for a period of three weeks; if occupied by lousy sheep, as dangerous for two months; if occupied by scabby sheep, as dangerous for a month or two in the case of buildings. Quarantine measures are essential in eradicating scab. The most common internal parasites of sheep include tapeworms, flukes, roundworms, and a few other forms such as the maggot-cysticercus in the head, the tongue-worm and the one-celled Protozoa. One of the most common of these is the grass, in the form of which it is largely prevented by amearing the nose of the sheep with a preparation made of equal parts of tar and grease, or tar and kerosene. Other important internal parasites are tapeworms, the gid parasite, hydatid, liver flukes, stomach worms, hookworms, and lung worms.

Hatch Early To Insure Winter Egg Production

With the average small-farm flock where hens of a general-purpose breed are kept, it is most satisfactory to let the hens do the hatching. If the hens are of a non-broody breed, however, it is necessary to use incubators or to purchase baby chicks. Whatever the method of hatching, it is most important that it be done at the right time of year. The proper time of hatching varies with different localities, being earlier in the South and later in the extreme North. The aim should be to hatch the chicks at such a time as will allow the pullets to reach their full development and begin laying in October or November, as those earlier maturing pullets must be depended upon every largely for the Fall and Winter egg production.

VALUE OF TRAPNESTING.

Trapnesting is usually not practical on general farm flocks where chickens are kept largely for eggs and meat, though it pays well to head the farm flocks with cockerels out of high producing trapnested hens. Trapnesting is tremendously practical for the constructive breeder and absolutely necessary for pedigree, unless birds are mated in pairs only and each pair separately penned. For matings, as compared with pair matings, make it impossible to identify the eggs laid by individual hens unless trapnested are used.

BUTTER-FAT TESTS SHOW VARIATIONS

Depends on Animal and How Sample of Milk Taken. SEPARATOR METHOD HAS EFFECT ON TEST Many Things Have to be Considered in Getting a Proper Test.

The butter-fat test of milk is subject to variations because of some of the following factors: Breed of cow, period of lactation, portion of milk drawn, nervous excitement of the cow, improper sampling of the milk and improper manipulation of the Babcock test by which the fat content of milk is commonly determined. The four chief dairy breeds, in the order of their milk-fat content, from highest to lowest, stand in the following order: Jersey, Guernsey, Ayrshire and Holstein-Friesian. Within each breed are individual cows whose milk will test higher or lower than the breed average. In general, as the lactation period advances the fat test of the cow's milk increases. The milk fat drawn from a cow is very much lower in fat content than the last drawn or “strippings.”

Better Living Conditions Wanted

Want Better Schools and Churches for Rural Centres to Hold Children at Home.

“What do farmers want?” is the question that is prominent in the minds of the people today. The real farmers want to stick to their farms. Down deep in their hearts they want to live out their lives on their farms and hope that some of their children may do the same. They do not want to see great changes that will swing ideals and standards too far away from the more humble and prudent practices of the past. Farmers are not grumblers. They carry out the every-day tasks of the farm, the home, and the community, and remain equally well satisfied. But farmers sometimes decide that, in recent years, they have had enough. The following conditions apply to the hand separator. If the milk varies in test from time to time the cream separated from it should be taken from the cellar at the time the willows begin blooming. To reduce drifting, a full day should be chosen for bringing milk out of the cellar. The milk should be about 60 degrees F. and should be reduced to about one inch, these can be enlarged as the season advances. In some parts of Canada where the spring is long and cold the bees will need protection when first placed out. In any place they should be protected against cold winds by the use of wire-mesh. As soon as the weather permits all colonies should be examined for stores and queen. Each colony should have from ten to fifteen pounds of stores, colonies with less can be helped from those having a surplus. Before equalizing stores, however, be certain that American brood are not present. If a colony has a surplus after the beekeeper has no combs of honey saved from last year's crop, the bees must be given a thick sugar syrup. If the bees have been wintered well supplied with stores in the fall, feeding and equalizing of stores will be unnecessary in the spring. The water level in the beehive should be kept at the normal level. If there is no water near the apiary, it is advantageous to provide a watering place in some other place in the apiary. Running water is best. All weak and queenless colonies should be united. One good strong colony is worth more than two or three weak colonies but unite the weak to the colonies of medium strength. Weak colonies having a queen can be united to strong, queen colonies. Brood should not be taken from strong and given to weaker colonies too early in the spring but this can be done at a later date. Hives and frames are well filled with bees. Spreading brood is not advisable as it may result in a lot of chilled brood. Colonies wintered outside are all the better if kept in their cases until the first super is well filled with bees. Hives in which the bees have died should be transferred to the apiary at the first examination to prevent other bees from robbing. Clipping the queen's wings is advantageous in the case of swarming and it is advisable to clip the queen's wings at the beginning of the first honey flow. As the season advances and the queen is laying to her full capacity, a single brood chamber will not have sufficient space for maximum production of brood. As soon as the hive becomes well populated with bees, the brood chamber should be enlarged by adding a second story without a queen excluder. G. B. GOODRICH, Apiarist.

Separation Must Be Properly Handled

Unless Proper Working Conditions Machine Will Not Do the Work Intended. Hand separators used for separating cream from milk, skim milk when operated correctly. Frequently, however, one finds that a separator is not doing its best. The three most common causes result in decreased separating efficiency. Milk when lower in temperature than 60 degrees F. does not separate so well because the cream clots its oil well, causing much of the whole milk to leave the bowl through the skimmed-milk outlet, thus increasing the amount of fat in the skimmed milk. When the bowl is run at a speed under normal the separation of cream is not thorough, and consequently skimmed milk will test much higher than it should. When the float is not used and the milk is allowed to flow into the bowl at a rate greater than for normal flow, the whole milk crowds out through the skimmed-milk outlet, giving a high per cent of fat in the skimmed milk.

MANAGEMENT OF BEES IN SPRING

Some Hints for the Apiary Owner on Best Methods of Getting a Good Start. To secure a maximum honey crop, it is necessary for the bee-keeper to have all his colonies up to maximum strength in time for the main flow of honey. This can only be accomplished by careful management during the spring. Bees that have been wintered indoors should be taken from the cellar at the time the willows begin blooming. To reduce drifting, a full day should be chosen for bringing milk out of the cellar. The milk should be about 60 degrees F. and should be reduced to about one inch, these can be enlarged as the season advances. In some parts of Canada where the spring is long and cold the bees will need protection when first placed out. In any place they should be protected against cold winds by the use of wire-mesh. As soon as the weather permits all colonies should be examined for stores and queen. Each colony should have from ten to fifteen pounds of stores, colonies with less can be helped from those having a surplus. Before equalizing stores, however, be certain that American brood are not present. If a colony has a surplus after the beekeeper has no combs of honey saved from last year's crop, the bees must be given a thick sugar syrup. If the bees have been wintered well supplied with stores in the fall, feeding and equalizing of stores will be unnecessary in the spring. The water level in the beehive should be kept at the normal level. If there is no water near the apiary, it is advantageous to provide a watering place in some other place in the apiary. Running water is best. All weak and queenless colonies should be united. One good strong colony is worth more than two or three weak colonies but unite the weak to the colonies of medium strength. Weak colonies having a queen can be united to strong, queen colonies. Brood should not be taken from strong and given to weaker colonies too early in the spring but this can be done at a later date. Hives and frames are well filled with bees. Spreading brood is not advisable as it may result in a lot of chilled brood. Colonies wintered outside are all the better if kept in their cases until the first super is well filled with bees. Hives in which the bees have died should be transferred to the apiary at the first examination to prevent other bees from robbing. Clipping the queen's wings is advantageous in the case of swarming and it is advisable to clip the queen's wings at the beginning of the first honey flow. As the season advances and the queen is laying to her full capacity, a single brood chamber will not have sufficient space for maximum production of brood. As soon as the hive becomes well populated with bees, the brood chamber should be enlarged by adding a second story without a queen excluder. G. B. GOODRICH, Apiarist.

Brown Rot of Orchard Fruits

(Experimental Farms Note) Brown rot is one of the most serious fungous diseases of the orchard. It is most destructive on plums and cherries. Peaches in Canada are usually not seriously affected. Losses in the orchard result from the following: in cherries from blighting of the blossoms, and rotting of the green, half-ripe or ripe fruit; in plums from blossom blight, rotting of the ripening fruit and occasionally blighting of the twigs; in peaches and apricots from blossom blight, twig blight, rotting of the ripening fruit and as an important primary cause of peach canker; in apples and pears occasionally causing a rot of the ripening fruit. The fungus causing brown rot hibernates in many places in the orchard. It may live over in the blighted twigs and cankers or in the hanging and fallen unharmed fruits. From all these sources there is an abundant production of spores in the spring. These are wind-blown. The important factors which determine a destructive attack of brown rot are high humidity and temperature. Twenty-four hours more or less of these air conditions which are suitable for spore germination lead to widespread rotting of the fruit if it is in the susceptible stage. The proper care probably not eliminate enough of the overwintering material to effect adequate protection by this method alone. However, it is advised that blighted twigs and hanging mummies be removed from the trees before the buds start and that the fallen mummies be removed from the orchard or burned. In addition to such eradication measures spraying will furnish fair protection against brown rot. Spraying the fruit while it is ripening has been objectionable because it could not be marketed in a stained condition. Dusting with sulphur fumes is the most susceptible condition, while it is ripening and in transit. The proper time would then need to be educated to receive such fruit. Spraying for brown rot in cherries and plums should approximate the following schedule: Lime sulphur 1-10, first application just before the blossoms open to prevent blossom blight, second application just after the shucks have fallen and before the fruit begins to color. The insecticide should be added to these spray applications. For brown rot in peaches the sulphur may not be used as it will burn the leaves. Self-boiled (not home-boiled) lime and sulphur of the formula 8-8-60, that is eight pounds of stone lime, eight pounds of sulphur and after this has been thoroughly mixed with the lime is slaking it is made up to fifty gallons and diluted with three times its volume of water. Last applications, first just after the blossoms fall, second about three weeks later and third about one month before the fruit will be ripe. Lead arsenate, 2 pounds of 50 gallons, should be added to these spray applications to control the aphid and the scale. Last applications of lead dust (50-10) should be experimented with on susceptible varieties. W. H. RANKIN.

DAIRY OUTLOOK IN CANADA IS FAVORABLE ONE

Butter Market is Strong With Prices Still Advancing. CHEESE IN DEMAND AT HIGH PRICES Condensing Factories Have Reopened But Are Paying Less for Milk.

The present market for dairy produce in Canada is featured by strength all the way through. The butter market has been advancing for almost two months now and in a couple of weeks recently there was a sensational advance of 5 1/2 cents a pound for the finest creamery. Our own cities and towns offer a most attractive market for the higher grades. Prof. Dean of Guelph is of the opinion that Ontario is one of the best butter markets in the world. Canadian Market Attractive. In fact, the Canadian market has been so attractive that some butter has come in recently from the United States, to which market we exported several car loads before Christmas. The cheese market, too, is unusually buoyant and prices are reaching a great deal higher than the most optimistic expected at the close of the last season's make. Recently the powdered milk factories have started to operate again and the condenseries have re-opened, although these concerns are paying greatly reduced prices as compared with a year ago. Prices High For Some Time. Present markets engender optimism. Perhaps it is just as well to utter a word of caution, as some are apt to become too enthusiastic and base their plans for the whole of the next year on present quotations for butter and cheese. Dairying for a couple of years to come will be in comparatively a stronger position than any other branch of agriculture. This much seems assured. However, to be expecting too much, however, to look for a continuance of present prices throughout the season. The Canadian market is not in line with other markets. The high prices ruling for both butter and cheese are due to over-production and a consequent shortage of stocks to arrive on the new make comes on the market. Recently the British Government ceased rationing butter as supplies were coming in more liberally than usual. A lower price. The Australian make is large and New Zealand will probably export a tonnage of butter to 25,000 tons of butter to reach the British market in great quantities. Present prices prevailing in Canada are apt to be considerably higher when the new make is marketed.

Sweet Clover Good As Pasture Crop

The advocates of sweet clover for pasturage are coming to the fore. To The Free Press, J. W. Clark, of Cambridge, writes, that he has found, in his Dominion-wide tour, with attendance at many farmers' meetings, that the value of sweet clover as a pasture crop and as a fertilizer, is rapidly becoming known and appreciated. Many farmers who tried it out last year declare it to be the best ever, that are now firm that sweet clover will produce more milk than any other known crop. The cattle should be turned in before the clover grows too tall, as if allowed to grow too tall the laterals near the roots die and the plant does not grow further. In fertilizing value, in adding to the soil humus to the soil, the value was great. Considered in the past as a weed, it was now being recognized as one of the most valuable of forage crops, though not so strongly recommended as a hay crop. Some yellow blossoms lay tied to cows, however, appeared like alfalfa, and was giving great results. Now I Have a "Buckeye" Say! I told you the eggs I've lost and the trouble I've had trying to make a makeshift incubator do the work of a "Buckeye" you'd have believed the story. No more experimenting for me! In future I'll have nothing if I can't have a BUCKEYE THE WORLD'S BEST INCUBATOR. All the biggest breeders in the country—and the smallest—use the "Buckeye." Anybody can run it. Operates automatically and can't go wrong. Hatches every hatchable egg—more and better chicks than you can get from any other incubator regardless of price. We know the "Buckeye" so well that we cheerfully guarantee it to do this—and stand back of the guarantee. If we sell you a "Buckeye" you'll be tickled out of your skin at the splendid results you get. Seven days—40 eggs to 600—Come in and see how they work—or we will send you a catalog. W. N. THORNE & CO., LTD., HARDWARE MERCHANTS ST. JOHN, N. B.

THE STANDARD'S FINANCIAL SECTION

HEAVY TONE TO WALL STREET IS GENERAL STATE

Call Loan Opened at Six Per Cent. But Was Forced to Seven Later.

DUTCH OIL MARKET IS MUCH STRONGER

Steel Advances \$2 Per Ton to Meet Increased Cost of Production.

New York, April 8.—The stock market was extremely lethargic and moderately heavy today. These conditions were directly attributable to higher money rates and increasing apprehension in connection with the British industrial situation.

Dealings were lighter and more confined in scope than any session in the last fortnight. Total transactions of \$50,000 shares consisted largely of the usual speculative issues at recessions of 1 to 3 points.

Call loans opened and renewed into next week at six per cent, but before mid-day the paucity of offerings forced the rate to 6 1/2 per cent, and on the close a 7 per cent rate ruled.

N. Y. QUOTATIONS

Table with columns: Open, High, Low, Close. Rows include Am Beet Sug, Am Car Pdy, Am Smelt, Anaconda, Am Tele, etc.

TENDERS WANTED

Sealed Tenders will be received by the undersigned at their office, Globe Atlantic Building, St. John, N. B., until Saturday, April 18th, at 12 o'clock noon, for the Assets of the Estate of W. E. Ward, consisting of Stock-in-Trade, Hats and Caps, Men's Underwear, Scarfs, Neckwear, Collars, Shirts, etc.

The stock can be inspected and inventory examined any day between the hours of 10 and 12 o'clock at 112 Prince William Street.

Paper Companies Once More Leaders in Montreal Lists

Winnipeg Rails Only Utility Stock to Show Any Strength in Small Trading.

Montreal, April 8.—The papers occupied some prominence in today's trading on the local stock exchange. Brompton and Laurentide led the market in activity with the former strong in early trading, but yielding later to 3 1/2%, and a final recovery to 3 3/4, a net loss of 1/2 point.

Outside these two issues there was little of interest in the group. The utilities were mostly neglected with two of the group showing small gains, Winnipeg Railway and Power.

SOME ARE STRONGER

Stronger issues in the general list were in Sectors, which added a fraction at 1 1/4; Brownies up a fraction at 27 1/2; Canada up six points at 25, and Bank of Montreal, which added a point at 20 1/2.

MONTREAL SALES

Table with columns: Bid, Asked. Rows include ABIBHI, Brazilian L, Brompton, Canada Car, etc.

MONTREAL SALES (McDougall & Cowans)

Table with columns: Bid, Asked. Rows include ABIBHI, Canadian L, Brompton, etc.

GOSSIP AROUND THE MARKETS

President J. E. Aldred, of the Shawinigan Water and Power Co., Ltd., stated that that enterprise and allied interest in the St. Maurice Valley are completing establishment of a line of steamers to ply between Three Rivers and United States ports.

Financing of Brompton Pulp and Paper Company, Ltd., has been completed, and of the amount of \$2,000,000, twenty year convertible 8 per cent bonds to be offered, approximately \$1,000,000 have been taken for investment by the directors, leaving about \$1,000,000 for the public issue.

New York funds in Montreal are quoted at 1 1/4 to 1 1/2 per cent, premium. Sterling in New York easier, demand, 3.85%; cables, 3.89%; Sterling in Montreal easier, demand, 4.36%; cables, 4.37%.

LONDON OILS

London, April 8.—Close: Calcutta Hased 214 1/2. Lined oil 25s. 6d. Petroleum, American 2s. 4 1/2. Spirita 2s. 4 1/2. Turpentine spirits, 44s. Rosin, American strained, 15s.; type "G" 14s. 6d. Talow, Australian, 36s.

UNLISTED AT TORONTO

Toronto, April 8.—Unlisted sales today were: 200 Brompton, 22 1/2 to 21; 200 B. A. Oil, 31 1/2 to 31; 15 Dominion Bridge, 76 1/4 to 76; 50 Hollinger, 69 1/2; 200 McIntyre, 19 1/2.

LONDON MONEY MARKET

London, April 8.—Close: Bar silver 33 3/4 per ounce; bar gold 104s 11d. Money market quiet. Discount rates short bills 5 1/2 per cent. Three months' bills 6 1/8 to 6 3/8 per cent. Gold premiums at Lisbon 140.

TURPENTINE AND ROSIN

Savannah, April 8.—Turpentine steady, 47 1/2; sales, 35; receipts, 37; shipments, 194; stock, 5,235. Rosin, quiet; sales, 419; receipts, 424; shipments, 252; stock, 90,498.

REAL ESTATE TRANSFERS

The following real estate transfers have been recorded: W. Y. Beatty and others to D. E. Smith and others, property in East St. John.

Labor War Overseas Hits Chicago Wheat

Gossip That Exporters Are Offering to Re-sell Stocks Detrimental Also.

Chicago, April 8.—Wheat prices turned downward today, influenced to a considerable extent by disturbed labor conditions in Great Britain and by gossip that exporters on the United States side of the Atlantic were offering to re-sell. The market closed nervous at 1 1/4 to 2 1/2 cents net lower.

CHICAGO

Chicago, April 8.—Close: Wheat, May, 1.34; July, 1.11 1/4. Corn, May, 95 1/4; July, 83 1/4. Oats, May, 27 1/4; July, 23 1/4. Pork, May, 15 1/2; July, 16 1/2. Lard, May, 9 3/4; July, 10 1/4. Rib, May, 9 3/4; July, 9 1/4.

TORONTO

Toronto, April 8.—Manitoba wheat No. 1, 1.79 3/4; No. 2, 1.76 1/4; No. 3, 1.71 1/4; No. 4, 1.59 3/4. Flour Man. Spring wheat patent, firsts, 10.30.

WINNIPEG

Winnipeg, April 8.—With little or no news from outside points, today's local grain market was of an extremely dull nature. The future market, after opening 5 1/2 to 1 1/2 cent higher, advanced to 1.08 1/2 for May, but as the result of selling pressure and lack

RAW SUGAR MARKET

New York, April 8.—Raw sugar was unchanged early with the committee quoting five cents for Cuba's cost and freight, equal to 6.03 for centrifugal. There were sales of 40,000 bags. The continental sugars were sold at 3 1/2 cents below these quotations. Refined was unsettled and unchanged to 4 cents lower.

MONTREAL PRODUCE

Montreal, April 8.—Oats, Canadian Western, No. 2, 62 to 63. Oats, Canadian Western, No. 1, 65 to 66. Flour Man. Spring wheat patent, firsts, 10.30.

OFFERS OF THE MARKET

Offerings of the market ranged, May closing at 1.64, the low for the day. In contrast to the future market, the cash situation was fairly strong, there being good demand with light offerings and premiums advanced to 15 1/2 over the May for No. 1 northern in spot position.

CASH PRICES

Cash prices: Wheat, No. 1 northern 1.73 3/4; No. 2 northern, 1.75 1/4; No. 3 northern, 1.71 1/4; No. 4, 1.60 3/4; No. 5, 1.51 3/4; No. 6, 1.37 1/4. Feed, 1.27 1/4; track, Manitoba, Satchewas and Alberta, 1.74 1/4.

MEN AND BUSINESS

Various countries that have been dependent on Great Britain for coal must draw on the United States for fuel if the British coal strike continues.

Coalmen who have been questioned justify the increase. They say the majority of the bituminous mines have been producing coal below cost. In various instances, they explain, coal that cost \$2.50 or \$2.95 a ton to produce has been selling for \$2.15 or \$2.25 simply because the public has been out of the market, holding off from purchasing because of dullness in industry or refusing to stock up because of the belief that prices would be forced lower.

THE BANK OF NOVA SCOTIA

They have grown with the bank and the bank has grown with them. The Bank has helped them, by sound and careful service, to grow, and as their business increased so also did that of the bank.

POLITICS IN CHINA ARE IN CHAOTIC STATE

Fighting and Plans for War Occupy the Attention of Tuckers of Provinces.

DR. SUN IS LEFT WITHOUT AN ARMY

Fall of Tang of Yunnan Makes Conditions Unsettled in That Territory.

(Copyright 1921, by Public Ledger.) Shanghai, April 8.—To analyze conditions in China at this time is difficult even for the most astute student of politics. For everything is confused and not even the Chinese know what is in the immediate future. Tang Chaiyao, of Yunnan, has lost his Tuckers. A month ago Tang Chaiyao was the most powerful man in his part of the country. To many he was invincible. For nine years he held sway in the southwest of China, handling Yunnan, Kwangsi and Chechian into a confederacy which could meet all-comers. Yet he retired without a battle. He was disgusted and weary and he left General Ka Ping-chun take over as soon as he assured Tang that the minor officials would be permitted to continue in office. Who is Ka Ping-chun? Last year he was sent to Szechuan as 'commander' of Tang Chaiyao's army of occupation. He knows little about administration and will probably not be able to continue in office for any period because all of the other generals who had served under Tang Chaiyao will want to know why he should be prominent. Why should they not all be Tuckers? And Yunnan is a poor province. It cost about \$9,000,000 to run the province, which had a revenue of only \$5,000,000. The deficit was made up by war in Szechuan and other provinces. When an army is victorious in a neighboring province it helps itself to the revenue.

Fighting Renewed in Szechuan. In Szechuan fighting has broken forth again. Huang Ke-wu and Lu Tien-shan had been Tuckers and they fought each other for years. This winter, however, they came from Yunnan, they joined forces. Huang, coming the civil governor and Lu the Tuckers. They joined forces because it was easier to get money that way from Pekin and other cities because they faced a common enemy, Tang Chaiyao in Yunnan. Now that Tang is gone, these gentlemen do not see why they should split the spoils. Why not take it all and have a little spring fighting besides? So the goateak merchants in Shanghai received word from their principals that no goateaks could be shipped until they had 'no' over making war.

Meanwhile, the great man, Sun Yat-sen, is sitting down in Canton planning war to last through the spring and summer. Fortunately, for China, Sun Yat-sen has neither an army nor money. He is so dependent on General Chen Chun and Chen Chun does not want to fight. He had enough fighting last year when he spent seven months getting the Kwangsi faction out of Kwangsi. He is a believer in the local autonomy ideal for China and he feels that there is enough constructive work to be done in Canton without going outside of the province to make holy wars for a constitution which means nothing to the masses of the Chinese people and is only important to new secretaries in legations. Chen Chun might be a little more like to fight foreigners, but even Russian bandits. They want to fight China because civil war brings with it wealth for them, while foreign wars means only expenses. So Yung is still in the hands of Baron Ungers and none of the heroes of last summer's fighting is doing anything to rescue the city.

Meanwhile an election of members of Parliament is to be held. The president had called the election because he wanted a constitutional Parliament. But the Chinese people ask: Why is it necessary to bother about this question just now and is Hsu Hsi-chang constitutional himself? In these questions the foreign observer can interest himself but little. For they are not of the slightest importance. Hsu Hsi-chang is president and there ought to be a Parliament. If the people boycott the election, parliamentarians will be selected who are not representative and who will not vote in the interests of the Chinese people. The fact that the provincial autonomy movement is making such rapid strides would indicate that there is a general sentiment throughout China that sooner or later a Parliament will sit in Pekin, wherever the capital may be at the time, which will be selected by the people through the provided institution. For a country like China this procedure would be effective for good, for the masses are ignorant, easily misled and tricked into playing the game of the politician and the militarist.

BRITISH PORTS. Manchester, April 7.—Avt, str Manchester Importers, Philadelphia via St. John, N. B. FOREIGN PORTS. New York, April 7.—Avt. str Hargrave, Halifax; Carmanis, Liverpool. Queenstown, Halifax.

ARRIVED ON WAY. S. S. Atlantic on her way to this Port from London with general cargo. She is consigned to Furness-Withy & Co. Due Next Week. S. S. Manchester Mariner is expected here from Philadelphia some time next week. Manchester Shipper Har. S. S. Manchester Shipper arrived in Port last night from Manchester with general cargo. Furness-Withy & Co. agents. Caraquez Sails.

The R. M. S. St. Charles sailed from Bermuda yesterday for St. John with passengers, mail and general cargo. She is consigned to William Thomson & Co. Five Master Here. The five-masted auxiliary schooner Empress arrived in port yesterday from Brunswick, Ga. and is lying at the Pettigill wharf. She is registered at 1814 tons, and is the largest sailing vessel to visit St. John this season. Owing to her unusual size she is attracting a great deal of attention along the water front. She will load lumber here for the United Kingdom. Another large vessel, the ship Port Celestino, sailed from the Clyde on Thursday to load lumber for the United Kingdom at St. John. Both these vessels are consigned to J. T. Knight & Co. Schooner Burns. Three-masted schooner J. E. Ralston, Farnboro, N. S., was burned at sea on Tuesday last. It is supposed the crew was saved. The schooner was bound to Farnboro from San Domingo.

FIND STOLEN GEMS. Rome, April 8.—Continuing the debate in the senate today on the announcement of Count Stora, the foreign minister, that he had signed a commercial agreement with Russia, Senator General Giardino recalled that stolen jewels had been found in the baggage of the members of the Russian mission in Italy. Acceptance of these jewels by the government, he declared would make the Italian receivers of stolen goods.

Leaders in North Disagree. Meanwhile in the north, Chang Teo-ling and Tao Kun are beginning to disagree. The fall of Yung has made it necessary for the two military leaders to decide upon doing something to save the territory of China from foreign aggression. And neither wants to do the job. These warlords do not like to fight foreigners, but even Russian bandits. They want to fight China because civil war brings with it wealth for them, while foreign wars means only expenses. So Yung is still in the hands of Baron Ungers and none of the heroes of last summer's fighting is doing anything to rescue the city. Meanwhile an election of members of Parliament is to be held. The president had called the election because he wanted a constitutional Parliament. But the Chinese people ask: Why is it necessary to bother about this question just now and is Hsu Hsi-chang constitutional himself? In these questions the foreign observer can interest himself but little. For they are not of the slightest importance. Hsu Hsi-chang is president and there ought to be a Parliament. If the people boycott the election, parliamentarians will be selected who are not representative and who will not vote in the interests of the Chinese people. The fact that the provincial autonomy movement is making such rapid strides would indicate that there is a general sentiment throughout China that sooner or later a Parliament will sit in Pekin, wherever the capital may be at the time, which will be selected by the people through the provided institution. THE WEATHER

Toronto, April 8.—During today a disturbance from the southwestern states has moved directly across the Great Lakes accompanied by showers and thunderstorms. It continues very cold in Western Provinces.

AROUND THE CITY

CENTENARY CHURCH—Strangers and visitors are always welcome to the services of this church.

MEMORIAL WORKSHOP—His Worship the Mayor announced yesterday that he expected the Memorial Workshop would be in full running order by the first of the week.

IS IMPROVING—Marie Boyce, 171 City Road, who had his right foot amputated Thursday is improving. The reason for amputation was an injury to the foot some months ago when it was run over by an automobile.

GOING TO INDIA—The Laucars from the crew of the S. S. City of Colombo are being sent by rail to New York and will be sent from there to India.

AKERLEY CASE POSTPONED—The case of Johnston Lodge, L. O. B. A., vs Mrs. Grace Akery was yesterday postponed until Monday, on account of the sickness of Mrs. Akery.

MARBLE SLAB RESTORED—The commissioner of public works has issued instructions to his department to have restored a marble slab in the Old Burial Grounds, dedicated to the memory of William Donald, who died in 1824. The slab, which was supported on pedestals, fell or was pushed over recently.

TWO LOW DRUNKS—The number of men in the city who came under the eyes of the police as being intoxicated last night amounted to a modest total. They were locked up at police headquarters and this morning will be given a chance to answer the questions, "Where did you get it?" and "Who gave it to you?"

CHOIR BANQUETED—The Ladies Aid of the Obedient Church tendered a banquet to the church choir in the church parlors last night. Among the guests were the 50 members of the boys choir. Addresses were delivered by Chief Justice McKeown, Rev. H. A. Goodwin, Joseph Lively and others.

HAD JOLLY TIME—A bunch of young marine officers, linked arm and taking up the whole of Princess street from curb to curb, attracted considerable attention as they marched up to Charlotte street from the ferry last night. The boys were out for a lark and their jolly smiles drew many a cheery response from those who watched their progress.

AT SOUTH END CLUB—There was a good attendance at the South End Boys' Club last night when the children of Carmarthen street Methodist church Sunday school presented a most enjoyable programme. Isaac Mercer presided and the songs, recitations and playlets were well rendered.

LAST CAR CLUB—The Last Car Club is the original name of a club which was formed recently in St. John and which promises to have a successful career. It consists of twenty members and was organized at Riverview, the residence of Mr. and Mrs. Cadogan. Its main object is sociability and as its name indicates, meetings will be held up to an early hour in the evening.

C. P. R. OFFICIALS HERE—A party of C. P. R. officials were in the city yesterday afternoon on an inspection trip and left last evening for Montreal. Those in the party were: A. Price, general manager of the eastern lines; J. M. Woodman, general superintendent of the New Brunswick district; George Whitley, assistant superintendent of motor power; A. A. Goodchild, general stores agent; and Norman Rankine, special publicity agent.

TO CONFER TODAY—The report of H. E. N. Kenait, on the cost of power developed from coal by the New Brunswick Power Co., will be further considered this afternoon at a conference of the city fathers, representatives of the Hydro Commission, the Provincial Government and the New Brunswick Power Co. It is expected Premier Foster will represent the Government, C. O. Foss and E. H. Smith the Hydro Commission and Messrs. Ross and Robinson the Power Co.

FUNERAL NOTICE—The members of the Knights of Pythias Lodges are requested to attend the funeral of their Brother SAMUEL KEE, about 10 o'clock, 275 Brunswick Street, on Saturday afternoon, at 3 o'clock.

By order, H. H. McLELLAN, Secretary.

LABOR LEADERS SPEAK LOUDLY AT MASS MEETING LAST NIGHT

Trades and Labor Council Said Larger Police Force Would be Needed on Portland Street—The Standard and Other Newspapers Abused—Women Urged to Join Crowd.

"I used to think Portland street was a quiet street, but it required all the police force and the Commissioner of Public Safety to patrol it recently. I think St. John will need a larger force shortly," said F. A. Campbell, president of the Trades and Labor Council, speaking before a meeting of cotton workers at Orange Hall, Simonds street last night.

Referring to articles which appeared in The Standard, F. A. Campbell stated that labor leaders worked probably as hard as other men, and that he thought The Standard and other newspapers were trying to lead people astray regarding labor leaders.

He went into details in connection with the affairs at the Maritime Mill Works, saying that facts would be brought out at Sunday's meeting which Mr. Melvin would not want known and which would turn the sympathy of many people towards those who are striking, and against that "bunch of wops" or what are vulgarly known as "scabs."

Appealed to Women. He urged the women present to stand by the men who are striking, saying that while the organizations are helping them, they are not doing enough. Mr. Campbell asked that all women present assist in the picketing by going to the Maritime Mill Works each night. A word from a woman is harder to bear, and a taunt from them more effective than any man's. The police would not interfere with women, he thought. Crowds had been large, but should be larger, giving the men moral support.

Value of Organizations. In regard to the value of labor organizations, Mr. Campbell told of the town of Marysville, where eight representatives had been elected in the city council, and he understood the labor organization had also elected one of their number mayor of the place. He described labor conditions of long ago and said that today, if it were not for the labor organizations, he believed that employers would not stop at a ten hour day, but would take the best of the twenty-four, giving whatever wages they chose.

Over Four Hundred Crew Taken Off Knights Delighted

St. John Lodge K. of P. Hosts At Home in Castle Hall—Excellent Programme.

St. John Lodge, No. 30, Knights of Pythias, were hosts at an agreeable evening in Castle Hall, Union street, and the four hundred and fifty guests enjoyed every minute of the time. Black's orchestra supplied the music for the programme of dances and an efficient committee looked after the serving of refreshments. The entertainment features were gems of art and every performer was forced to respond to encores.

St. John Lodge has now a membership of 350. Of this number fifty had been added in the present term and many more are seeking admission. The chairman, G. C. Cosman, chairman of the lodge, in a few well chosen remarks, welcomed the guests, after which dancing and card playing was the order of the day until ten o'clock, at which the hour the following programme was carried out:

Reading, Miss Tillie Ross; solo, Clarence Girvan; reading, Mrs. Sears D. Smith; solo, Miss E. Climo; piano solo, Mrs. J. M. Barnes; solo, Thomas city solo, William Lantry's solo, Miss Scott; accompanist, D. Arnold Fox. At the conclusion of the programme, refreshments were served and dancing indulged in until the "wee sma' hours."

The committee in charge were: G. R. Andrews, chairman; H. Akery, J. A. White, E. S. Waters, C. T. Green, O. S. Dickey, E. P. Sealey, Scott, Hurdett, O. S. Colwell, J. Irvine; entertainment committee, J. J. Holder, Harry Black, J. A. Burd.

Received Easter Offering of \$60 Women's Missionary Aid of German Street Baptist Church the Recipients.

An Easter Offering of sixty dollars was handed in at a meeting of the Women's Missionary Aid of German Street Baptist Church. Mrs. B. S. Cooke, president was in the chair and the excellent programme was prepared by Miss E. L. Colwell upon the subject "Western Missions."

Readings were given as follows: "Early History of Missions in the West"—Miss Harold Rivington; "Loyal Home Missions"—Miss Harvey Colwell; "The Peace River Mission"—Miss Helen Simons; "Work Among the Scandinavians"—Mrs. H. Brewster Hunt; "Work Among the Hungarians and Slavs"—Mrs. W. B. McIntyre. A solo "Open the Gates" was beautifully rendered by Mrs. Diane Ferguson. The meeting was a most interesting one throughout and was largely attended.

Reptiles in Natural History Museum

Alligator, Crocodile, Lizard, Turtle, Tortoise and Snake Make Interesting Case.

An interesting case containing a specimen of every class of reptile has been placed on view in the Natural History Museum on Union Street. Members of the reptile family include the alligator, crocodile, lizard, turtle, tortoise, and snake.

Large Alligator. That which at once attracts the attention of a visitor to the museum is the large alligator, a specimen some 6 feet long. It is mounted diagonally from one corner of the large case to the other. A baby crocodile ranged alongside the big alligator presents a decided contrast. In addition to the alligator, two large hawkbill turtles take up a considerable portion of the case, and in addition a large Mexican king snake, and a pair of horned toads from Western America are to be seen.

Treats of Interest. The toads are of interest in that while they are but three or four inches long, they resemble very closely miniature of the giant dinosaurs which are said to have roamed the world in the early ages when mammoths were common. The case does not include all specimens in the museum, for in addition there is the skin of a 20 foot anaconda, a giant snake of South America, which was presented to the museum by Mrs. Frederick Harding. There is also the shell of a green sea turtle over 9 feet square, and which in life weighed over 800 lbs. This turtle is highly prized for its flesh, steaks from it closely resembling beef steaks. The majority of the reptiles are natives of the tropics or of the Southern states.

Believed The Work Of An Inebriate

Police Officials Scout Idea of Attempt Made to Burglarize the Union Bank.

Police officials scouted the idea of an attempt having been made to burglarize the Union Bank early yesterday morning. They also discredit the theory that an organized band of professional crooks is at work in the city as the result of their efforts whenever breaks have been made, have revealed that those engaged in the work were raw amateurs. Work of Inebriate. They are inclined to the belief that the break in the window of the Union Bank was caused by an inebriate who lost his balance and went against it with disastrous results to the glass. They hold it would be quite impossible for one bent on burglary to have gained access to the banking rooms through the opening made.

Cuts of Long Standing. According to Mr. C. A. Munro there was no attempt made to burglarize his place yesterday morning. The diamond cuts in the glass noticed for the first time by some one yesterday which led to the opinion that an attempt had been made to enter the place during the early morning hours, have been on the glass for a year or more. Diamond cuts on the plate glass of a store opposite to the block where Armstrong & Bruce's office, recently broken into, are located, are plainly visible. These cuts were made some five or six years ago and should not be construed with being the results of crime outbreak now.

City Well Policed. The opinion is held by many that St. John is not suffering from crime as much as some other cities of the same size and certainly not as much as many smaller ones. The city police department and the city detectives are on the job and have been most successful in bringing to justice those guilty of criminal acts. They have a big territory to cover and do it well, and deserve credit for the efficient manner in which they go about their work.

Following the three interesting basketball games played in the Y. M. C. I. gym last evening the members of the teams, the Aberdeen High School boys of Moncton, two Y. M. C. I. boys of St. John, the Fortinard Y. M. C. I., G. A. Clark, and the intermediates of the Y. M. C. I., were tendered a very pleasant reception and social by the Y. M. C. I. Entertainment committee. A number of vocal and instrumental solos were given, choruses sung, and at the conclusion of the evening's programme refreshments were served. Mrs. H. J. Sheehan chaperoned the company of light hearted young folks. Joseph Donovan was chairman of the hustling committee responsible for the very attractive programme.

Our Fifty-Fifth Anniversary Celebration. Able Demonstrates the Value-Giving Ability of This Store. This event marks an important chapter in the business career of this establishment, now widely known in the community. Coming at a time when economy is an important feature, it presents one of the most fortunate money-saving opportunities in the history of St. John. Months of effort are behind the special features we shall daily offer, for we determined when we started planning this Anniversary Celebration that we would have something to celebrate it with. All goods on sale are fresh and new, up-to-date in style and reliable in quality—the sort of goods you can buy without hesitation, and all priced so attractively that you will save many dollars if you supply all your Spring Apparel and Home Needs in this sale. Our advertisement can only give you a slight idea of how remarkable the daily savings will be. Watch our store news regularly. Each day will unfold an Economy Story. Manchester Robertson Allison & Co. KING STREET GERMAIN STREET MARKET SQUARE

FINAL DAY FOR FAIRY OPERETTA. This is the last day for the children's fairy fantasy "Beauty and The Beast" at the Imperial. There will be two matinee performances to accommodate all school children—at 2 o'clock sharp and again at 4. The pictures will be run between—Charlie Ray and the serial. The operetta will be shown once at night, at 8 o'clock, after the first run of pictures.

ROSE BUD DAY. Remember the children on Saturday, April 9th. TRANSFERRED. Fred Raloff, who was stationed in this city as U. S. Immigrant Inspector has been transferred to Rouse's Point, New York, and left here this week to assume the duties at the new station.

NOTICE. All persons practicing as Professional Engineers in the Province of New Brunswick, are hereby reminded that the period of grace allowed by the Engineering Profession Act, chapter 55, 1920, within which registration must be made will expire on April 24th, 1921. J. A. W. WARING, Secretary and Registrar. Box 84, St. John, N. B.

TRAIN DELAYED. The Truro train, due here at 9:30 p.m., was delayed an hour in arrival last night.

FORD CAR STOLEN. A five passenger Ford touring car, bearing dealer's plate No. 225 was stolen from Sydney Street about 8 o'clock last night. The police officials were notified but up to a late hour last night had failed to find the car. CLIFFTON HOUSE, ALL MEALS 60c.
