The first prostration from heat in this city this year occurred this morning on north Richmond street, when Thomas Deverly, a cutlery traveller, from Montreal, collapsed shortly after alighting from C. P. R. train No. 5. Mr. Deverly was assisted by a few passers-by, who hastily got some re-storatives, while one ran for Dr. Tillmann. Fortunately, a little brandy which was secured from a near-by hotel, revived the gentleman, so that he was able to board a car and go to his

TWO BOYS CAUGHT STEALING BRASS GOODS

Were Neatly Nabbed by P. C. Lucas While on His Beat.

While he was on duty last night P. C. Lucas found two boys at White's machine works on King street busily engaged in piling brass into a bag. He promptly arrested them, and this morning there was several dollars' worth of brass goods on exhibition at the police court. The boys were found guilty by the magistrate, and bailed in the sum of \$100 to appear in a week for sentence. The boys promised to take the brass back, and never to steal again, and it is likely that the court will suspend sentence on them.

To Run the Entire Affairs of the City-Some of Men Favored by the People.

The municipal pot is beginning to boil—probably with the heat of the weather—and it looks very much as if there will be one of the greatest campaigns in the history of the city under way in the early autumn. Already several candidates, or rather prospective candidates, for the mayoralty, are looking the grounds over.

Some of them have gone so far as to prepare a slate, and many prospective aldermen who would add weight to his candidature, have been invited. The prospects for a citizens' slate are much brighter than ever, and it is known that many well-known, successful businessmen have expressed a will-ingness to run for the aldermanic

It is absolutely certain that the board of water commissioners will be rearranged. The legislature has given the council power to do this.

The number of members will be increased to five and they will have con-

The majority of citizens prefer, so far as can be learned, that the whole government of the city be done by a board of control, but the city fathers doubt that it would be received favorably by the citizens, and the increase of the water commissioners' board to five members will be undertaken as a first step towards finally governing London by a board of control or commission.

New York, June 23. - After day of conflicting statements, the district attorney's office, acting under instructions from Mr. Jerome and the police department, under orders from Commissioner Bingham, refused tonight to discuss further what progress has been made in the search for Leon Ling, the Chinaman who is wanted for the slaying of Elsie Siegel.

HILDRETH'S ENTRIES

Chief Stake Winner of Season Nominated Restigouche and Fitzherbert.

New York, June 24.—This is Suburban Day at the beautiful Sheepshead Bay racetrack. While among the eight horses that are carded to start in the Suburban today, there are no such steriing performers as Salvator, Henry of Navarre, Ben Brush or others who have had the honor of leading home their 12 fields in the classic event, still there is class enough among them to warrant the class enough among them to warrant the belief that with fair weather, the race from the ringing of the bell to the stretch will be full of interest.

Sam Hildreth's Entries. Sam Hildreth, the chief winner of stake events thus far this year on the Metropolitan circuit, has nominated Restigouche and Fitzherbert to carry his colors. It is thought he will declare to win with Fitzherbert and that Restigouche, the Keene castoff, will be sent out to cut a pace that will break the records of all those behind him save his stable mate, repeating, if possible, the tactics employed in the Brooklyn handleap, when the Commander colt ran ahead of his field and then was pulled out to let Sam Hildreth, the chief winner of stake the Commander colt ran ahead of his field and then was pulled out to let King James in on the railt

ROMANS WORRY OVER **QUEEN MARGHERITA**

Rome, June 23. - Romans are at last becoming anxious about the health of their dear queen mother, Margherita. It has been said for some time that she had a cold, or influenza, or neuralgia, and so the time went on and she did not recover, was never seen, and it began to he said that she was really ill.

The conviction has gained ground in these days from the fact that at the palace they admit that she is confined to her bed. Both the Quirinal and the Vatican, for some unknown reason, are reluctant to confess that any of the royal family or the Pope is ill, so that when they deny any illness at all, and thus, by an obvious process of reasoning, it is said when it is confessed that Queen Margherita must keep to

her bed, she must be seriously ill. The nature of her illness is specified, but it is supposed to be a weakness left by the influenza and severe facial neuralgia. Queen Margherita, although strong - looking woman, has for years been afflicted with those

nervous affections such as motion necessary for her. This fact sidered the strongest wooden vessel was noted when the present king was a little hoy, and after. Margherita was in the carriage at Queen the time her husband's life was attempted in Naples. The shock was so great that she was sent to the Riviera, where the only thing which could not quiet her in a fit of nerves was music, and musicians were sent from Rome there on purpose to play. In time these spasms passed, and then came the tremendous shock of the murder of King Humbert, and unfortunately the old restlessness return-ed, the only cure so far being automobiling. She has been much criticised for her excessive use of this means of ocomotion, those blaming her being unaware that it may be called her

INDUSTRIAL DEPARTMENT.

In January, 1907, the Metropolitan Life Insurance Company largely increased the benefits in its Industria policies by reason of a heavy reduction in expenses and improvement in mortality experience. During the past three years the Company has steadily reduced its expenses, so that it is enabled to mak a further increase in benefits. Industrial insurance policies have a unit of weekly premium-three cents, five cents and multiples thereof-and the amount of insurance varies with the age. In other words, not only does the Company issue a new table for policies hereafter issued, but it makes the increase retroactive since the present form of Limited Payment and Endowment at age 80 policies were adopted.

Upon the OLD INDUSTRIAL POLICIES the Company is paying out TWO AND A HALF MILLIONS OF DOLLARS IN BONUSES THIS YEAR, bringing up the total Bonuses and Concessions upon Industrial polfcies to EIGHTEEN MILLIONS OF DOLLARS IN SIXTEEN YEARS. It was really a picnic on wheels, because the committee had supplied every luxury that is enjoyed by picnic parties. One of the best trains in point of equipment that ever took an excursion party from London was furnished by the Canadian Pacific Railway. Montreal, June 24. - Ex-Alderman Ames, M.P., was one of the witnesses at the royal commission today, and his evidence was an example of the favors which are at the disposal of the members of the Montreal city council. Mr. Ames testified that when he was first elected to the city council he was asked by the city assessors if he desired the valuation of his property for assessment purposes to be offer, saying that if the valuation was correct for him as a citizen it must also be correct as an alderman.

There seems to be a perfect carnival of perjury going on at the investigation among the members of the In nearly every case where charges have been made evidence diametrically opposed to that given by the witnesses to the charge has been forthcoming.

It would seem from the evidence that middlemen had scouts out in the rural districts looking up farmers with bank accounts, who were willing to pay for appointments to the fire department. Mr. Beverldge asserted that the

American tax on tobacco is only a fraction of the tax of most other civilized nations. Stating that the annual consumption of tobacco in this country amounts to five and a half formal consideration of the proposed child, he added, that if we taxed topacco at the same rate as is imposed by England and France, the United States would every year derive \$333,-386,666, instead of less than \$50,000,000 as at present. Furthermore, he asserted that the tax on tobacco is now lower than at any previous time except for a few years prior to 1898.

Mr. Beveridge declared that the greater proportion of the proposed tax would fall on the trust, which, he declared, is bitterly resisting the adoption of his amendment.

Beloved by Clergy and Laity-Some Warm Words of Eulogy for Mrs. and Miss Rutledge.

There was a very large gathering at Wesley Hall last night on the occasion of the farewell social given to the Rev. Dr. Rutledge and his family by the ladies of the Ladies' Aid Society. After the gathering had been opened with prayer by Rev. James Kennedy. Dr. Eccles, who acted as chairman,

Rev. J. G. Inkster also bore his tribite to the worth of the retiring pastor, on behalf of the Ministerial Alliance 'Personally," he said, "I am exceedingly sorry to see Dr. Rutledge leaving your church and our city. He is not by any means an average preacher, but far above them. And I am sure the citizens of London would be greatly pleased if he could remain, but unfortunately he is a victim of your system. It is my opinion that when a church gets a pastor it likes, and a pastor comes to care for his people, he should be permitted to remain. We in the Presbyterian Church err in the other direction, and that is one of the reasons why I am such a strong advocate of church union, that we might get some of your system, and you some We wish Dr. Rutledge Godof ours. speed as he goes to take up his new charge.
