## WRONG PARTY SUMMONED

### Big Grist of Other Items From Simcoe

Simcoe, July 15.—(From Our Own Correspondent).—A summons issued by Magistrate John Goodwin of Welland, on July 11th and demanding an appearance there today, was served on a young lady of Woodhouse, charging her with driving without lights and refusing to light when requested to do so.

Taking advantage of the act the young lady and her parents appeared on Saturday night before Magistrate Guntton and under oath gave evidence that neither the owner of the car nor the markers had been out of the county of Norfolk this year. The number of the marker and a description of the car was cited in the evidence and this was forwarded to Welland. The Magistrate may or may not dismiss the case. The innocent lady however, had to pay \$1.25 into court here for some one's bungling or because as it is rumored some one has been using a blue paint brush on a marker to alter the figures. The young lady in question was actually out working in the hay and her car was in the garage on the farm on July 11th.

Authorities should insist that all markers be kept clean. A bedaubed marker should be looked on with suspicion.

**Manure Spreader Case Develops.**  
When the constables picked up Frank Wilson at Catorville last week and brought him to Simcoe they brought with him his route book and left the station in his charge in its quarters for the night. The owner of the animal and a constable from Welland motored up to Simcoe, arriving here shortly after midnight on Friday. They aroused Turney McNally and he in turn roused Wilson from slumber and the latter handed over the book. Wilson regretted that his employer had been so much inconvenienced, but assured him of his innocence. The visitors left for home shortly before 2 a.m.

**Saturday forenoon** Edward C. Jones, barrister, of Delhi, and Vern Butler, of Windham, came down and went ball for Wilson.

The Constable naturally inquired regarding their interest in the matter.

**Butler Paid Freight on Spreader.**  
The spreader in question was shipped to W. Gilbertson of Simcoe in April 1917, and delivered by cartage to his shop where it was refused. It was taken back to the freight shed. Later on, the freight agent tells us, Vern Butler called and paid the freight, saying that he, or some one for him, would call for the implement.

**Spreader Disappears.**  
The spreader was taken away at noon one day subsequently, but the party responsible for it was not seen. The agent was at dinner and the lady in charge opened the door of the freight shed and admitted the man.

Butler was at the time an agent for the manufacturer of the spreader, it is said. Butler has paid the company for the spreader.

**Theory of Detectives.**  
The detectives were working on the theory that Butler had arranged with Wm. Culver for storage and that Culver was to send a man for the machine. And it is said that Culver sent a man for it but he returned without, saying it was not there.

Wilson worked for Culver and says he had to go to the freight shed a second time for a binder which Mr. Culver bought. This, he claims, is his closest connection with the matter.

**Wm. McNally Reports.**  
Wm. W. McNally went off Saturday morning to report for service in the infantry. He was turned home when he returned, and the spreader was noticed in the yard down when he applied for admission to the aviation corps, and to the navy. It is now called up for the infantry.

Both Morley Day and Miss Ward are reported recovering from injuries received in Friday night's auto mishap.

**Sugar Scarce.**  
Local merchants were last week unable to supply sugar for domestic preserving of fruit. Almost every pound in town was dealt out in small quantities. Just yesterday we learned of one citizen who bartered away a box of cigars for some honey in the comb a short distance west of town.

**Odd Ends of News.**  
Green peas, currants and berries still continue scarce in local stores. Raspberries and blackberries are quoted at 25 to 30 cents a basket. Today the raspberries are on in fair trade and if the weather holds factory peas have been generally an excellent crop.

This was the same bottle which had been taken to Dr. MacGillivray, and the Crown attempted to establish that it had come from the Kitchen some by passing it to Col. York, druggist, of Waterford, on the stand. He read extracts from his ledger showing that in the spring of 1916 on three several occasions, Kitchen had bought a small bottle of carbolic. He identified the label on the bottle as that then in use by him. The coroner wished to put the widow of the dead man on the stand to get evidence concerning this bottle, but the crown was not undertaken to confine examination of witness to this point, and Mr. O'Reilly objected to his client being called in view of suspicious held.

## KITCHEN INQUEST

### Resulted in An Open Verdict by the Jury

Waterford, July 15.—The inquest into the question of how, when, where and by what means Frank Henry Kitchen, of Townsend, came to his death, was re-opened here at 7.20 on Saturday evening, and the evidence was all in at 8.37. Ten witnesses were examined, Crown Attorney T. R. Slaght of Simcoe was present officially, and M. J. O'Reilly, K.C., of Hamilton attended in the interests of the widow of the dead man, who also was present throughout the proceedings. Dr. McGillivray, sworn, gave in evidence

Two of his brothers, his mother, and one other witness questioned on the point, while stating that deceased naturally worried about his wife's continued absence and the amount of work he had to do without a housekeeper affirmed that his attitude and conversation and life left no suggestion that he would be guilty of suicide. Many neighbors were through being on the jury prevented from giving evidence though they had been in close touch with all that had gone on about the place for years.

**Coroner Teeter Reviews.**  
Before allowing the jury to retire, Coroner Teeter gave a masterly synopsis of the whole evidence, remarking that there was no color to the foul play theory. The jury retired about 9 o'clock and reported about an hour later.

**No Signs of Violence.**  
and that had there been violence, some signs should have been found. He described the action of carbolic poisoning, and identified a bottle of carbolic acid as one from which he had taken a sample and which C. C. Barber brought to his office. Ernest Kitchen, sworn, gave details as to his exchanging work with his brother, his missing him, and the search made for him, as previously reported.

**Wife's Continued Absence.**  
and her refusal to make a home for him. The former evidence of his own brother and that of several neighbors was to the same effect. Deceased went on to moments to meet his wife at Waterford any time she reported her home-coming. When she wanted to go away, she went to a neighbor's and phoned for a relative in Waterford to come for her, and she made her last departure while her husband was at work in the field and without his knowledge of her leaving.

**Mrs. Ribble of Simcoe** testified that she was present as helper in the home in April, when Mrs. Kitchen left in this manner, and the witness left at the same time and came by trolley to Simcoe. This witness also testified that Kitchen was careful regarding the children, to the point of carrying them in bottles in the house containing drugs be kept out of the little one's reach.

**One New Development.**  
C. C. Barber, who testified that he, with Detective Miller, had dug over a large plot where the body was found, and had sifted the earth, finding nothing, which had found a bottle partly filled with carbolic acid 20 inches from the spot where the head of the body was found, and lying between two rails. The coroner wished to put the widow of the dead man on the stand to get evidence concerning this bottle, but the crown was not undertaken to confine examination of witness to this point, and Mr. O'Reilly objected to his client being called in view of suspicious held.

**Attorney Slaght, convinced of suicide, seemingly made every effort to get a verdict accordingly. As a result nothing was said about the buggy deceased last drove, whether the key to the house for it was left locked were found on the man, or in any place of hiding. Nothing was asked about any parcel of provisions which might have been brought home that night and left in the buggy or taken to the home. The rumor that the body was found on green grass as if it had recently been placed there was however refuted. No one was examined regarding recent automobile tracks to the place.**

**On one occasion Mr. Slaght reported a rumor for asking a question. "You can't do that except through me," he said. And one of their number thus rebuffed, no more questions were asked by jury men till the taking of evidence closed.**

**Kitchen Not a Man to Take His Own Life.**

## RAILWAYMEN MAY STRIKE

### Ry. War Board Has Made Its Utmost Offer to Shopmen

### LATTER REJECT THEM Unless Either Side Recedes 30,000 Men Will Quit Work Tuesday

Montreal, July 14.—An emergency meeting of the Canadian Railway War Board came to an end this afternoon in the despatch of a letter to Federated Trades stating that the board would not raise its offer of the McAdoo award, rejected by the men's representatives on Friday last. This is taken to mean that 30,000 men will strike on Tuesday unless either side recedes from its position.

It is unofficially understood that the board bases its position chiefly upon the alleged fact that the employees threatening to strike, though constituting the entire class in Canada are only ten per cent of the International Union, the other ninety per cent being Americans, who, it is said, are accepting what the Canadians are rejecting. According to the board, the granting of the men's demands would mean proportionately high increases to all ranks in railway employ, and would involve "either early bankruptcy for every road in Canada, including the C.P.R., or the imposition of freight weights so high that the Canadian industry would be absolutely barred from any share in export business, and domestic costs of living and manufacture would reach ruinous heights."

**Extreme Limit Board Can Go.**  
The board's letter to the men concludes as follows: "The Canadian Railway War Board has offered your committee, representing the Canadian shopmen, who are ten per cent of your international organization, the same wages and hours of labor that now apply or may apply (as the result of negotiations going on at Washington) to the ninety per cent of your railwaymen in the United States. The board feels that you have no moral right to countenance or order a strike, and believes you should accept its offer, which is the extreme limit to which it can go."

**(Signed) The Canadian Railway War Board, William N. Neale, General Secretary.**  
The War Board is meeting the Government Monday morning at Ottawa. The Railway War Board's letter to the Federated Trades representatives is as follows:  
July 13th, 1918.  
Chas. Dickie, Esq., Secretary-Treasurer, Division No. 4, Railway Employees Department, Cara Alexandra Hotel, Montreal, Quebec: Sir: I am directed by the Canadian Railway War Board to acknowledge the receipt of your letter of the 12th inst., reading:

"On behalf of the Executive Committee of Division No. 4, I have been instructed to inform the Administrative Committee of the War Board, through you, to the effect that our membership having decided by an overwhelming majority that they will not tolerate any further delay, and that unless the War Board radically changes their attitude not later than Tuesday afternoon at 2 p.m. we have no alternative but to consent to a general strike."

**Deprecates General Strike.**  
It is a matter of regret to the Canadian Railway War Board that in view of the offer made to you, drastic action should be contemplated by your organization, having in mind the serious results, such a step might have upon the movement of troops, foodstuffs and war munitions at this time.

That there may be no misunderstanding I am directed to remind you that at the meeting on the 5th instant an offer was made to you as follows:  
"Resolved, that the Wage Committee of the Canadian Railway War Board be and it is hereby authorized to say to the committee representing the Railway Employees' Department of Division No. 4, that the Railway War Board, will pay all arrears in the mechanical and car departments the rates and apply the conditions provided for by the McAdoo award, and the amendments thereto in corresponding territory, effective the date the various existing schedules expire, but in no instance will the new rates and conditions be made retroactive beyond May 1st, 1918."

**Purged Increases and Back Time.**  
In the discussion which followed an endeavor was made to make clear to you that under our offer your men would receive not only the same rates of pay and working conditions (known as the McAdoo award) as have already been granted to men in similar classes of employment in corresponding territory in the United States (where working and living conditions are practically the same as in this country), but that any further increases in wages and changes in working hours which may come about there as a result of the negotiations now in progress between the employees and the railways in the United States.

It was pointed out that the War Board's offer meant the payment of increased wages from the dates the various agreements between employers and employees can be changed under their terms, dating back to the date of May 1, 1918. In most instances it is May 1, 1918. It was offered, furthermore, that the War Board would arrange for payment without delay of back time on the basis of the increased rates

States in corresponding territory, effective from the dates on which agreement on each of the Canadian railways can be changed under their terms, which, in the majority of instances, is May 1st, 1918.

**Not Acting Like 90 Per Cent.**  
The War Board, in reviewing that portion of your letter reading "We have no alternative, but to consent to a general strike," and after considering it from every angle, can not understand the position which your committee takes for the following specific reasons:  
(1) Your organization is an international one, having approximately 90 per cent of its members on the United States railways and 10 per cent on Canadian railways.

(2) Your Executive officials have labored with the United States authorities sincerely in the year and now are still so doing in regard to certain hoped-for amendments to the McAdoo award, and have made no threat to cease work.

**No Moral Right to Strike.**  
(3) We have offered to put in effect for the members of your organization on Canadian railways the same rates and hours of labor as have been and may be accorded upon your membership in the United States in corresponding territory, effective from the dates on which agreement on each of the Canadian railways can be changed under their terms, which, in the majority of instances, is May 1st, 1918.

(4) As the Canadian Railway War Board has offered your committee, representing the Canadian shopmen, who are ten per cent of your international organization, the same wages and hours of labor that now apply or may apply (as the result of negotiations going on at Washington) to the ninety per cent of your railwaymen in the United States. ### RE-OPENING OF ST. BASIL'S CHURCH

The formal re-opening of St. Basil's church after its decoration took place yesterday morning, when His Lordship Bishop Dowling of Hamilton was present, having been received at the close of high Mass. The attendance was one of the largest in the history of the church, the building being crowded to the doors, and the walls and ceiling revealed for the first time in their full charm since being decorated, proved equal to the expectations of all. High Mass was sung by Rev. Father Catalan, the Episcopal benediction bestowed by Bishop Dowling. At the close of mass, a procession took place through the church, the school children leading the way and the strains of the Te Deum, while the bishop solemnly blessed the church. In his remarks afterward, His Lordship congratulated Rev. Dean Brady and the congregation of St. Basil's for the splendid work which had been thus completed, and held forth high hopes for the future of the church.

### Removal Sale

In business it frequently happens that when people are forced to go out of business or into larger quarters, a removal sale is held. At such times it is customary to offer goods at greatly reduced prices to clean up old stock.

### We Are Going to Move--

But there will be no sale of old stock at reduced prices, because we have no old stock on hand. We believe our success has been due to two things—keeping only up-to-date stock in all frames, and mountings, newest forms and styles of lenses. The other reason for our success is our service. It has been our aim to give you the most careful, scientific examination of the eyes that is possible—never to overlook any detail in the designing, making, fitting, adjusting or repairing of glasses that makes for complete satisfaction. For these reasons we believe we have been successful. Our business has outgrown our present quarters. In our new offices we have added facilities and equipment that enable us to give even better service.

Amsterdam, July 15.—After expropriating doorhandles, window latches, pots and pans, and copper and brass utensils for munition purposes, the German military authorities have now turned their attention to public buildings with copper roofs. Among the scores of places being stripped are the famous Brandenburg Gate, Prince Albrecht's palace, a dozen churches, and synagogues and several museums. Some of the best known hotels, restaurants and department stores, and also private mansions are being forced to give up their copper roofs.

FOOTBALLERS LOST TO TORONTO

Were Beaten by Undeclared Scottish Team 4-1 Saturday

Brantford United made their first bow to the Toronto fans on Saturday when they met the unbeaten Toronto Scottish in a provincial league fixture, at the Varsity Stadium. Referee F. Baldwin lined up the teams as follows:

Toronto Scottish—Goal, Smith; backs, H. Fidler and Brownlee; half backs, Hight, Ferguson and James; forwards, Anderson, Bruce, Houston, E. Fidler, May.

Brantford United—Goal, McGrath; backs, Holland and Houghton; half backs, Westcott, Robertson and Perrin; forwards, Vipond, Lynn, Smith, Burns and Richardson.

The Scots won the toss, and Brantford kicked off, facing a strong sun. After some midfield play, the Scots made a desperate attack on the Brantford goal, but McGrath kept the Scots' sharpshooters from finding the net.

Anderson, Bruce, Houston and Fidler sent in a heavy, but they had to go all the way to get their four goals on Saturday.

The United will practice at Agricultural Park Wednesday evening.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes, it is harmless.

Notes on the Game McGrath gave a fine display in goal. Perrin did more than hold his own against the Scots right wing.

Westcott played his usual game and worked hard throughout. The Scots are a smart eleven, and they had to go all the way to get their four goals on Saturday.

VERITY'S FIGHT WAY INTO LEAD

Whitewashed the Malleable Team—Holding Them to One Hit Saturday

TWO SNAPPY GAMES

Pratt and Letchworth, leaders of the city league went down to defeat at the hands of the onrushing Flor-makers Saturday afternoon, and as a result, Verity's this week head the column. There was blood in the eye of both teams when they clashed on Saturday afternoon, and as fine an exhibition of baseball as Brantford fans have witnessed in a long time.

The Motor Trucks took the second game of the afternoon, also an unusually close encounter throughout, by the score of 5-3. Young, in the box for the winners, and Walsh for the Cordage each allowed 9 hits, scattered fairly well throughout the game.

BELGIUM IS ENEMY PAWN

NOT TO RETAIN BELGIUM. By Courier Leased Wire. Copenhagen, July 13.—Denial of German intention to retain Belgium was made by Count von Helldorf, the German Imperial Chancellor, in the course of his speech before the Reichstag main committee on Thursday.

"The present possession of Belgium only means that we have a pawn for future negotiations," Chancellor Von Helldorf said today. "We have no intention to keep Belgium in any form whatever."

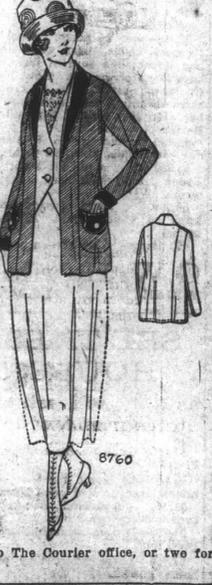

"What we precisely want as expressed by us on February 24," the Chancellor continued, "is that after the war restored Belgium shall be a safe dependent not subject to anybody as a vassal and shall live with us in good, friendly relations."

"I have held this point of view from the beginning in regard to Belgium and I still hold it to-day. This side of my policy is fully in conformity with the general lines, the direction of which I yesterday clearly laid before you."

"We are waging the war as a war of defense, as we have done from the very beginning, and every imperialistic tendency and every tendency towards world domination has been remote from our minds."

LADY'S COAT.

This style of coat will have a strong vogue this spring, for it has good, simple lines and features the waistcoat, which is a Paris novelty. This waistcoat is cut in an attractive shape and has a two button closing. The coat is cut in a straight line from the neck and a smart shawl collar of satin is another new note.

## Rippling Rhymes

THE HARVEST.  
The wheat will soon be ready, throughout the golden west, for workers strong and steady to come and do their best; the long green fields are turning to yellow, in the sun, and viewing them, we're learning how we shall eat the Hun. The wide, wide fields are golden, as grateful to the eyes, as in the ages olden was manna from the skies. For wheat means more than giving a pampered people bread; it's triumph for the living, and vengeance for the dead. The wheat from all these regions where respects soon will sing, will feed our fighting legions, and balk the Kultur King. Old worker, come rejoicing, and bind the golden sheaves, a song of gladness voicing, and not as one who grieves. Old toiler, tread the stubble, like victor proud and strong, nor think the task a trouble because the hours are long. As much as men with axes, you fight the Teuton knives, so bethelty fight your labors, and not like galley slaves. So to the wheat fields journey as gay as knights of old, who hastened to the tourney on fields of cloth of gold. With courage of the stoic, into the harvest prance; there's nothing more heroic on all the fields of France.
