28th Anniversary Celebration.

Reduces Prices on Everything to Average Just About COST

Being merchants, the best way for A. D. Farrah & Co. to celebrate an Anniversary is to offer to its public the kind of merchandise this public wants, at prices that mean definite and substantial savings.

Think what a remarkable event this is. Everything gets reduced to a tempting figure for a few days! It is indeed an event supreme, an affair extraordinary.

28 Sales going on at the same time

That gives you some idea of the magnitude of Farrah's Anniversary Celebration. It is really a consolidation of sales, each one of importance, 28 in all, merged into one spectacular event.

HORSE RACING AT CHATHAM

The chief holiday attraction was the local horse meet of the fast Chatham Speedway held under the auspices of the Newcastle Driving Club, which drew a large attendance from the towns of Chatham and Newcastle and surrounding country. The meet consisted of four classes, best three in five half mile heats. The horses all being locally owned considerable interest was manifested in the several events which were closely contested and of a most interesting nature. There were two bands in attendance the Newcastle Cornet Band and Northumberland Regimental band, and their excellent numbers rendered between the heats were greatly enjoyed.

ELECTRIC SERVICE ON RAILROAD

The Campbellton-Bathurst suburban service was inaugurated on Monday last, train leaving Bathurst 9.05 a. m. and arriving in Campbellton at 11.55 a. m. This train is an electrical driven one, containing but one car, 55 feet long which comfortably accommodates 65 passengers, and is equipped with 240 Edison cells for motive power and ten cells for lightning purposes, a total of 250. There are four motors on the car, one being placed on each truck. There are two controllers on the car one at each end. This car was operated most successfully between Trenton and Belleville, Ont. running for 34 days continuously 228 miles per day, before being placed on this route. On her first trip Bathurst to Campbellton the following railway officials were on board:—J. C. O'Donnell, General Superintendent; W. N. Rippey, Superintendent Transportation; E. B. Walker, Chief Electrical Engineer, Toronto; Mr. Gage, Assistant Electrical Engineer, Moncton; F. W. Robertson, General Passenger Agent, Moncton; and Robt. Butler, Car Foreman, Campbellton. For the present Mr. A. Turner of Toronto is in charge of the car who is now instructing Mr. Edward Doyle of Moncton who will assume charge of it within a few days.

CLOSING EXERCISES HARKIN'S ACADEMY

The closing exercises of Harkin's Academy were held in the Assembly Hall on Wednesday and Thursday afternoons of last week. On Wednesday afternoon the pupils of the lower grades delighted a large assembly of parents and friends to an entertainment, worthy of the highest commendation. The children acquitted themselves in a most delightful manner, and many favorable comments were passed by those in attendance. The teachers who instructed the children are deserving of congratulations on the splendid presentation of the different drills, choruses, songs and recitations.

A book donated by the Lord Beaverbrook Chapter I. O. D. E. for the highest grading mark in History in Grade VII. was won by Margaret Clarke and presented to her by Mayor C. E. Fish. Money prizes were awarded Margaret McCurdy for highest standing in Grade IX. for French, History and Proficiency, presentation made by Mayor C. E. Fish. Money prizes for Arithmetic and Lat'n in Grade IX. were awarded to Willie Campbell and presentation made by Mayor C. E. Fish. Principal J. H. Barnett spoke to the assembly regarding the advisability of securing the services of a music teacher for the Public Schools, and sincerely hoped that the children's parents would think over the matter and draw the attention of the School Board of Trustees to the necessity of such tuition.

Mayor C. E. Fish in a brief speech addressed the pupils, congratulating them on their achievement.

On Thursday afternoon the Japanese Operetta "Princess Chrysanthemum" was presented by the graduating Class of Harkin's Academy, assisted by other pupils of the school. This performance was staged especially for children, while the evening performance was rendered for the benefit of adults. Too much cannot be said for this first performance of its kind ever put on by the pupils of Harkin's Academy. The beautiful new Assembly Hall was filled with an appreciative and critical audience, who thoroughly enjoyed every number presented. The pupils taking part excelled themselves and are deserving of sincere congratulations for the splendid manner in which one and all acquitted themselves. Mr. A. H. Cole, the director of the operetta is entitled to much credit for the success of the entertainment and for the great interest he displayed throughout the period of rehearsing. Mrs. J. H. Barnett, most acceptably presided as pianist and the success achieved is due in a large measure to her untiring efforts. The Lord Beaverbrook piano was used on the occasion and this splendid instrument is much appreciated by teachers and pupils of the Academy. The proceeds of the entertainment are to be used for the finishing of the stage in the Assembly Room and the Principal of the School Mr. J. H. Barnett, the teachers and pupils, as well as all others who assisted in any way, deserve the sincere congratulations of the general public for the interest manifested by them, in privileging the community of witnessing one of the best local performances ever staged and also for the deep interest they are taking in the welfare of our Public School.

The following is a synopsis of the "Princess Chrysanthemum" Operetta, with the Cast.

MINSTREL SHOW

A minstrel show by a number of Chatham amateurs, under the auspices of the K. of C. of that town was presented to a large and appreciative audience in the Newcastle Opera House last Tuesday evening. The players arrived on the Str. "Alexandra" at 8 o'clock p. m. and the 73rd Reg. Band marched from the wharf to the Opera House. The members of the company acquitted themselves in a very commendable manner and all present were thoroughly well satisfied with the entertainment.

TAG DAY

The Miramichi Hospital Aid held a Tag Day, which was most successful in every respect.

PICTURE PUBLIC VERY EXACTING

SATISFYING the public appetite for moving picture thrills is becoming increasingly difficult, according to Eddie Polo, the Universal serial star, who has probably shaped death on the wrist before a camera more times than any man living.

"The public is becoming so 'movie-wise,' Polo declares, 'that fakes and camera trickery are almost always readily seen, that is why the star and the director come in for a great deal of criticism when such things are attempted.'

Another thing that an audience represents is having the star represented by a double in some particularly hazardous feat. When a certain screen favorite's admirers go to see him in a picture, they like to know that he has the nerve to do everything the script of the film calls for."

"The star may be able to fool them with a double for a while, but when they find it out, as they do eventually, he has lost a lot of followers."

It has been Eddy Polo's business to risk his neck before the camera for several years. He has been the star of a number of Universal serials, the latest of which, "King of the Circus," is to a great extent a story of Polo's early career as a circus performer.

He got his start in pictures by doing things for the camera that no one else would even attempt. He has survived the most dangerous exploits the imaginative Universal writers could conjure up for him, and always called for more. The thing that he has never had a double.

"But a man must have more than just nerve to make successful serials," Polo says. "He must have imagination as well, for every picture must contain entirely new stuff. A star's admirers don't want to see him jump off the same building in every episode."

Where it is going to end Polo doesn't know, for he has now done about everything a man shouldn't if he wants to remain intact until a ripe old age. But as long as the public keeps demanding more thrills, the Universal serial star expects to continue furnishing them.

The new Polo serial, "King of the Circus," will commence at the Happy Hour Theatre Friday and Saturday Matinee Saturday at 4 o'clock.

90th BATTERY GO INTO CAMP

The 90th, (Newcastle) Battery, F. C. A., marched into camp yesterday morning under the command of Major J. L. Lawlor. The camp is being held on the Bule Property and will last for six days. The strength of the Battery is five officers, eighty-one N. C. Officers and men, and fifty-seven horses. The officers are as follows:—

- M. O.—Capt. J. A. M. Bell,
- Capt. John F. McKenzie, Lieut. Cecie R. Locke and Lieut. Charles H. Morris, J. J. Gallah is Battery Sergeant Major and John W. Russell Quarter-Master Sergeant.

On August 1st the Battery will go to Petawawa to compete with other batteries for the Gov. Generals' cup.

DEMAND FOR TANLAC BREAKS ALL RECORDS

Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Unprecedented—Over 20,000,000 Bottles Sold in Six Years—Foreign Countries Clamor for it.

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact, the marvelous success achieved by this medicine is not only phenomenal but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equalled in the history of the drug trade in America.

Fame Is International

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from the Great Lakes, Tanlac is known and honored. Millions have taken it with the

most gratifying and astonishing results and have pronounced it the greatest medicine of all time.

Tens of thousands of men and women of all ages in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse, have testified that they have been fully restored to their normal weight, health and strength by its use.

Restored to Health

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour, gassy stomachs, coated tongues, foulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and of terribly dejected, depressed feelings, state that they have been entirely relieved of these distressing symptoms and restored to health and happiness by the use of Tanlac.

BAPTIST MINISTER CHARGES INTRIGUE

Charges that on account of political intrigue and the action of certain magistrates the enforcement of the Prohibition Act is now in a worse state than it was a year ago, were made Wednesday by Rev. A. L. Tedford in reading a report of the Temperance Committee at the morning's session of the Southern United Baptist Association, held in St. John, N. B. The report further stated that Rev. W. D. Wilson had resigned because he refused to submit to dictation. Who wished to dictate was not mentioned, but presumably was some one connected with the provincial government. Chief Inspector Hawthorne was criticized in the report for the reappointment of former sub-inspectors and for renewing certain vendorship permits that had been cancelled.

The report also recalled that Rev. W. D. Wilson had been refused an increase in salary, the present inspector afterwards being appointed at an increased figure.

Chief Inspector Hawthorne was commended for his stand in regard to the opening of a wholesale liquor depot here.

Mr. Tedford in his report said that the Baptist clergy had a great duty to perform in arousing the public conscience in the forthcoming referendum, and urged that Rev. W. D. Wilson, provincial organizer, be strongly supported and that members see that temperance literature be given wide circulation.

The report aroused intense interest and lively discussion. Rev. Dr. Hutchinson at first advocating that the report be published with the most striking portions underlined. He afterwards modified his opinion.

Other members were in favor of publication, saying that the report confirmed previous suspicions as regards the enforcement of the Prohibition Act.

Rev. S. S. Poole urged caution in the matter. It should be definitely decided whether every statement was true, and if true susceptible of proof. He particularly referred to the allegation made against magistrates.

Rev. J. H. Jenner supported the speaker.

The report was adopted by the meeting and a motion that it be published amended to the effect that it be submitted to the resolutions committee.

IMMIGRANT'S IDEA OF SAFETY AT SEA

Comment has been made recently on the fact that emigrants from Oriental countries to the Pacific coast prefer to travel on steamships with more than one funnel, and consequently dummy funnels were added to some of the ships on that service. Steamship officials on the eastern seaboard state that the desire for ships with two, three or four funnels is not by any means restricted to the Orientals. Third class passengers from Continental Europe have the idea that to be absolutely safe in their passage across they must travel by the biggest boats and the four stackers are by far the most popular with them. The extra stacks seem to represent stability and security to these people, especially those who have spent their lives inland. And officials state, this tendency to patronize the ships with the most funnels is not confined to the immigrant class, as the very best class of passengers generally wish to book on these steamers. Therefore several of the big Atlantic steamers also carry dummy funnels.

However with the advent of the oil burner the ship with several stacks promises to become obsolete as the new mode of construction calls for only one funnel. Also most of the new steamers will be considerably smaller than ships of the Olympic or Berengaria type, though equally luxurious and secure, and quite as good sea boats. No trouble is anticipated in demonstrating to the cabin travellers that the new boats represent the latest in steamship construction and that the larger vessels belong to a class that is not now being produced, but it is expected that steerage passengers will have to be carefully educated to the newer boats before they can be persuaded to book passage in them instead of with the old favorites.

SOBEY—MCDONALD

At the home of the bride's father Lawrence McDonald, Chapin Island Road, Annie May McDonald was united in marriage to Henry C. Sobej, on Wednesday June 29th at high noon. The ceremony was performed by Rev. J. B. Champion. Thirty or more of the couple's immediate relatives and friends were present and after the wedding enjoyed a sumptuous repast. The young couple left on a motor trip for Moncton, Sackville and Amherst, and on their return will reside at Maple Glen. A large number of valuable gifts were received by the bride showing the esteem in which the young lady was held.

ESTIMATE OF NINE MILLION POPULATION

Toronto, June 28—A special despatch to the Star from Ottawa says it is estimated that the present decennial census will show that the population of Canada has gained 1,000,000 since the census of 1911. The population is estimated at between 8,750,000 and 9,250,000 based on statistics already available in Ottawa.

NURSES TO BE GIVEN A SEND OFF

The public health nurses who are being sent out by the Provincial Red Cross are to be given a send off from the Red Cross Depot, on Prince William street, Thursday afternoon, when they will be addressed by Hon. Dr. Roberts, Mrs. G. A. Kubring, and R. T. Hayes, M. L. A., President of the society. It is also expected that the convener of the various committees engaged in Red Cross Work in this locality will be present to extend the good wishes of their societies to the nurses and wish them success in their future work.

The first of next week the nurses will proceed to their various stations, the pioneers in New Brunswick of a movement which has already assumed large proportions in Ontario and Nova Scotia, and which will, doubtless, become national in its scope before long. Four nurses, well equipped with supplies that have been made or purchased by the ladies of the Red Cross, are being sent out: Miss Ethlyn Armstrong, to Bay du Bin; Miss Jessie Murray, to Campbell; Miss Elizabeth Alyward, to Riley Brook; Miss Geta Ferris, to Minto. Another nurse has also been engaged, but she will not be sent out for a little while yet.

PROVINCIAL REPRESENTATIVES

Although the census returns cannot be made public for some time, there is much speculation as to the count in the Province of Quebec, because it is on the population of that province that is based the representation of each province in the House of Commons. The Provincial Secretary of Quebec is credited with estimating the population at two and a quarter millions, an increase of twelve and a half per cent., while previous estimates had placed the figure at two and a half millions. It is pointed out in an Ottawa despatch that if the Provincial Secretary's estimate should turn out to be correct the change in the electoral strength of other provinces with regard to Quebec may not be so great as heretofore expected. "That figure, if correct, would mean that the number of members sent to parliament by other provinces would be determined by dividing 34,615 into the populations of each instead of 40,000 as formerly expected. The average number for each constituency in Quebec now is 32,242." The Maritime Provinces are particularly interested in this matter.—St. John Globe.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. HYDRO-ELECTRIC POWER

The matter of obtaining Hydro Electric Power for the Town of Newcastle has at last been accomplished. This will mean a big thing for the town and surrounding districts. For the past number of years our present Electric Light Plant has been depreciating in value very fast and has also been costing our town a large amount of money both in operating expenses and in piling up deficits year after year. Last fall a Newcastle Commercial Club was formed, and one of the first matters which the Club took up was the procuring of a satisfactory electric service. A committee was appointed by the Club to take this matter up with the Government and the Hydro-Electric Commission of the Province. This committee has worked faithfully and from time to time made their reports of progress to the Club. A large amount of time and energy on the part of the committee members was spent with the result that Hydro-Electric Power for the Town of Newcastle will be a certainty within the next three months. When the Commercial Club had matters to the point where business could be definitely settled, the Town Council was advised, and that body has now entered into an agreement with the Hydro-Electric Commission, whereby Power in an unlimited quantity will be supplied to the Town for lighting and power purposes. The Hydro-Electric Commission have already called for tenders for the cutting of the right of way and the construction of the transmission line, and work will be started at once.

The Commercial Club, while only being in existence for a few months, have accomplished a most beneficial service to our Town, and the members of the Club are deserving of the heartiest congratulations from the citizens. Our town is now in a position (through the engeries of the Commercial Club) to seek industries, (which are badly needed) and we as a community are now in a much better position to induce people to come

to our town and open up places for manufacturing. We are given to understand that it is the intention of the Club to follow up their good work and we have no doubt but that in the near future they will have something else to acquaint the public, which will also be of great importance and worth to the community.

The Commercial Club is deserving of the hearty co-operation of all our citizens, as they are doing excellent work gratuitously for the community at large, and if given the co-operation of all, the good work which has now been commenced will continue to flourish in a much greater degree in the future. Let every one help the good work along.

DEMPSEY RETAINS CHAMPION TITLE

New York, July 3—Jack Dempsey is still heavyweight pugilist champion of the world. A crushing right swing from his fist shattered the aspirations of George sCarpenter in the fourth round of the so-called battle of the century here yesterday afternoon. The pile-driving blow landed flush upon the jaw of the Frenchman, flooring Carpenter for the second time in a trifle more than a minute of fighting in the final and decisive round.

Although he had staggered to his feet after the initial knockdown he was unable to survive the second knockdown and was motionless when referee Harry Ertle tolled off the fatal ten counts.

RUTH'S HOMERS TOTAL THIRTY

New York, July 3—Babe Ruth cracked out two home runs Saturday bringing his total up to thirty for the season. The first was clouted in the seventh inning of the first game, with Boston, the other was made in the first inning of the second game. New York won both games, 5 to 3 and 5 to 1.

Stomach Trouble Due To Thin Blood

It Usually Disappears When the Blood is Made Rich and Red

Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than good, rich red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles, and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is fickle, if you have any of the distressing pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the better condition in which they will put your blood.

These pills are sold by all dealers in medicine, or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE SPIRIT WITHIN

Sir Robert Baden-Powell says: "Scouterat is a means through which the veriest hooligan can be brought to higher thought and to elements of faith in God; and, coupled with the Scout's obligation to do a good turn every day, it gives the base of Duty to God and to Neighbor on which the parent or pastor can build with greater ease the form of belief that is desired. That after all is the secret of the thing—the spirit of the Brotherhood."

"You can dress a lad as Cowboy, as a Tommy or a Jack, You can drill him till he looks as smart as paint, But it does not always follow when you come to scratch his back, That he's really either hero or a saint."

"It is the spirit within, not the veneer without, that does it; and the spirit is there in every boy when you get him, only it has to be discovered and brought to light."

"The Scout Promise to carry out, on his honor, as far as in him lies, the Scout Law is our binding disciplinary force, and with ninety-nine out of a hundred it pays."

GETTING WELL MORE DANGEROUS

(Dr. Huber in Montreal Star)

In every acute germ disease, from gripe to diphtheria, poisons are spread all through the body. They get into the blood stream and, until they are eliminated, have a constant depressing and paralyzing effect on the muscular tissue of the heart. So the convalescence is often more dangerous than acute illness.

When a patient is unmistakably ill, he has a healthy respect for the doctor's orders, and consequently lies quiet and puts little strain on his heart. When he feels better and his fever is gone, then the doctor's cautions seem unnecessary and absurd. He gets up before he should, tries to work or play, and sometimes he gets well anyway—for the heart is a brave, sturdy organ, and even when weakened by its fight with poison, tries to go on with its work of building up decayed tissues. But sometimes he doesn't get well.

The doctors told the parents of a child just recovering from diphtheria, that it should remain in bed and be kept quiet. The parents, seeing that the child was doing well, put it on the nursery floor and let it play with toys as long as it liked. Almost without warning the child died.

A man who had fairly recovered from pneumonia was cautioned to lie quietly in bed until, under the influence of rest and an extra-nutritious diet, he should become stronger. The patient was finding that sort of thing irksome, so he sat up in bed and played cards with his wife—until suddenly he fell back dead.

A gripe convalescent, an elderly gentleman, testily observed "Such a fussy lot, these doctors. Keep making their calls, running up their bills, giving you advice after you are well. My doctor tells me I ought, at least to stay indoors. Bosh! Besides, an old horse that once lies down never gets up." So he put on his coat and went to a directors' meeting, from which he returned that afternoon in a collapse. He died next day.

The above list of examples is enough to show the danger of taking the law of health into one's hands. Doctors realize well, although the patient and his family so often do not, the meaning of the danger signals—the continuing though slight fever, the weak and uncertain pulse, the shortness of breath after a small ex-

ACT III.
Threatened with torture, Saucer Eyes confesses the complicity of Prince So-sli, whom the Emperor orders to instant execution. This is, however, frustrated by the appearance of Princess Chrysanthemum, accompanied by Prince So-tru and Fairy Moonbeam with her hand. The Emperor pardons Saucer Eyes and So-sli at the Princess' request and gives her hand in marriage to Prince So-tru, thus bringing everything to a happy conclusion.

Gives Great Relief

Mrs. A. B. Cabot, 25 Park Ave., New York writes: "My husband has had Minard's Liniment frequently, always with good results. Friends of mine use it for rheumatism and tell me that it gives great relief."

Mrs. Fred Johnson, Box 735, Toronto, Ont.— "I suffered very much with neuralgia in my face last winter, and was advised to try Minard's Liniment, and was relieved immediately after first application. I persevered in using it and it has entirely gone. This winter I can go out without tying up my face and give the credit to Minard's Liniment. Have told several people about Minard's, and others are using it."

Red Hot July Days Hard On The Baby

July—the month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Cholera infantum, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them.

No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

IN MEMORY OF WASTED YOUTH

Richard Hutchison Leaves His Son One Dollar

SALEM, June 24—"In memory of a wasted youth." Alexander Harry Hutchison is bequeathed the sum of one dollar by the terms of the will of his father, Richard Hutchison of Swampscott, who died on June 15, leaving personal estate amounting to \$4500. The will, which was written on Feb. 21, 1919, was filed for probate today.

By the provisions of the will Mr. Hutchison gives his amocular glasses marine charts and boat models to Charles J. A. Wilson.

To Maude H. Kasebier, nee Hicks, his housekeeper, all the rest of the estate is given. With regard to his wife, Mr. Hutchison says: "By my request and at my direction my father has amply and generously provided for my wife and she is not in equity entitled to any part of my estate."

The testator desires in his will that his remains be cremated and the ashes be scattered on the waters at Marblehead Harbor, "without undue publicity." His housekeeper, Maude H. Kasebier of Marblehead, is named as executrix.—Boston Post June 25th

REFERRED TO HIS FATHER

Friends Interpret "Wasted Youth."

That "the wasted youth" referred to by Richard Hutchison, late commodore of the Boston Yacht Club, in his strange will that cut off his son, Alexander H. Hutchison with \$1, was his own, and not that of his son, was the opinion of friends of young Hutchison yesterday.

The son of the former manager of Babcox & Wilcox on Federal street is a veteran of the Yankee Division and he served with distinction overseas as a non-commissioned officer of Battery A, 101st Field Artillery. He is married and has a daughter eight months old. He is employed by a banking house in Milk street. Against such a record of patriotic service and industry, coupled with the universal testimony of neighbors as to his personality and devotion to his family, the indictment in the will has but one interpretation, his friends say.

The dead man was well known in seafaring circles in Boston as a marine engineer, and it was considered strange that he resided in the boarding house of Maude H. Kasebier in Marblehead. Residents at Marblehead declare that the will which named his boarding house mistress as residuary legatee of his estate will be contested by his widow, who now lives in Brookline. His request that his ashes be scattered in Marblehead harbor was complied with several days ago.—Boston Sunday Post, June 26, 1921

OBITUARY

MRS. ELIZABETH STOTHART

The death of Mrs. Elizabeth Stothart occurred at the home of her daughter Mrs. Martin McMurray, Ferry Road on July 1st. The late Mrs. Stothart was ill for only a short time and was in the 86th year of her age. Mr. D. W. Stothart of Newcastle is a son of the deceased lady. The funeral was held on Sunday afternoon to St. James' Cemetery, Newcastle, N. B.

WILLIAM HARRY WATTS

The death of William Harry Watts occurred at his residence in Brooklyn N. Y., on Sunday, June 26. He was born in Woodstock, N. S., and at an early age moved to St. John with his parents. After graduating from the public schools, he entered the employ of Macaulay Bros. & Co., and later moved to New York with his parents and sisters. He is survived by four sisters and two brothers. The sisters are Mrs. Fannie Green, of Cagetoy; Mrs. Alice Hecker and Mrs. Marion MacDorah, of Brooklyn, and Mrs. Audrey Labe, of Montreal. The brothers are J. Clayton Watts, of Brooklyn, and E. L. Watts, retired conductor of the C. N. R., of Moncton.

YOUNG CARAQUET MAN DROWNED

Caraquet, July 1—Yesterday afternoon while bathing, Leo Leger, aged eighteen years, the son of S. R. Leger, M.P.P., was drowned at the public wharf. The body was immediately recovered and medical aid called, but life was extinct. He was a promising young man and had been a very successful student of Sacred Heart College, Caraquet, and St. Joseph's University.

King to have the remains sent home, but for some unknown reason this request was not complied with and Mr. Cassidy received a wire Monday afternoon, advising him that the Coroner refused shipment of the remains, and that deceased had been buried in Altamont. The late Robert Cassidy was 17 years of age and left here last September for the west where he has been employed ever since. Besides his father and step-mother he leaves to mourn one sister, Sadie, two half sisters, Irene and Mildred and one half-brother George. The news was received with great suddenness as his father had received a letter from him the preceding Tuesday, in which letter the young son said that he was in good health and getting along nicely. The community join in deep sympathy for the bereaved family.

NEW BRUNSWICK BONDS SOLD

The offer of Harris Forbes Company, New York and Montreal, for 1,552,000 of 10 year six per cent province of New Brunswick bonds, payable at New York, has been accepted, the bid being 98.7, making the actual rate of interest which the province will pay 6.17 per cent. exclusive of consideration of the exchange on interest payments. This bid was said to be approximately 5000 more favorable than the highest tender for the 15-year bonds.

FIRST SPEAKER OF NEW PARLIAMENT

The Hon. Hugh O'Neill, who has been named as the first Speaker of the Northern Irish parliament, claims descent from one of the ancient Irish kings—that Neill who was king at least 1,000 years ago. His father holds an Irish barony of a nineteenth century creation. Shane's Castle, the family estate, is a richly wooded picturesque place on the shores of Lough Neagh, the fourth largest fresh water lake in Europe. In the grounds of the mansions are some interesting ruined towers and a fortified wall. The Hon. Hugh O'Neill has been a Conservative member of the British parliament for Mid-Antrim since 1914, when he succeeded his brother Arthur who was an officer of the 2nd Life Guards, and the first member of parliament killed in the world war.

PAINS SO BAD STAYED IN BED

Young Mrs. Becroft Had Miserable Time Until She Took Lydia E. Pinkham's Vegetable Compound.

Hamilton, Ont.—"I have suffered for three years from a female trouble and consequent weakness, pain and irregularity which kept me in bed four or five days each month. I nearly went crazy with pains in my back, and for about a week at a time I could not do my work. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Hamilton Spectator and I took it. Now I have no pain and am quite regular unless I overwork or stay on my feet from early morning until late at night. I keep house and do all my own work without any trouble. I have recommended the Compound to several friends."—Mrs. EMILY BECROFT, 269 Victoria Ave. N., Hamilton, Ontario.

For forty years women have been telling how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It is made from native roots and herbs and contains no narcotics or harmful drugs. For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

DOCTORS PITY THE PRESIDENT

Washington, June 25—President Harding's task in having shaken hands with more than 1,500 persons during his reception to delegates to the American Institute of Homeopaths convention aroused compassion among the doctors at the closing session today and a resolution proposing that Presidents hereafter be relieved of that custom was introduced.

It was voted down, however, speakers declaring the President should be permitted to attend to his own business.

BIG COAL STRIKE ENDED YESTERDAY

London, June 28—The British coal strike will end next Monday.

Announcing the settlement in the House of Commons Premier Lloyd George justified the granting of the £10,000,000 to the mining industry on the ground that coal exporting districts were so hard hit by the collapse of the export trade that, if economic conditions had full play, there would be unsupportable reductions in wages. The settlement, he said, was a great and promising experiment; no such principles had ever before been applied in such a vast scale in any industry. He was hopeful that it would inaugurate new relations between capital and labor, not only in coal, but other industries, and he believed that if it was sincerely carried out with good-will it would repay the nation for all the damage suffered through the dispute.

The British coal industry will have been idle 94 days when the miners resume Monday. While in point of duration this closely approaches the record for a British mine stoppage established in 1897, when the strike lasted sixteen weeks, its effect upon the nation's industrial and economic life admittedly has been far more disastrous. Through the enforced closing of steel mills and the curtailment of rail services and other industries closely allied with or dependent upon mining, the ranks of the unemployed have been enormously swelled and the resultant hardships have been increasingly felt by owners, investors, workers and all classes of the population.

Profit Sharing Principle

London, June 28—The House of Parliament tonight completed the settlement of the miners' strike by sanctioning a wage subsidy agreement which will stand until December 31, 1922, and will then be terminable on three months' notice, thereafter. Reductions in wages are two shillings in July; half a crown in August and three shillings in September. The men are to resume work on Monday.

The men's leaders make much of having established a new principle of profit-sharing on a national basis. The owners will forego profits for three months. Afterwards to meet general costs, the owners will take seventeen pounds sterling to every pound paid as standard wages and the balance as profits to be divided in the proportion of seventeen pounds sterling in every hundred to the owners and 83 to the workers. Wages are assured at 20 per cent above the 1914 standard. National and district boards will be established to adjust wage matters.

London, June 28—In view of the final adjustment of the miners' dispute, the country is less apprehensive as to what may result from withdrawal of the Government's subsidy on the railroads in August. It was what was described as the "premature" cancellation of the Government's financial assistance to the coal industry that precipitated according to the miners, stoppage of work, and in some quarters there have been fears that a similar difficulty might follow the cessation of aid from the treasury to the railroads.

ACCEPTED APPOINTMENT

Mayor Chas. E. Fish has accepted the appointment from the Secretary of State Ottawa, of Returning Officer for Northumberland County when the plebiscite on prohibition will be held in New Brunswick in October 18th. In the meantime Mayor Fish will make all necessary arrangements.

SPECIAL FEATURE

"The King of the Circus", will be shown at the Opera House on Friday and Saturday and a Matinee on Saturday afternoon. This film is bigger and better than Barnum. A tremendous thrill is in store for all. Be sure you see this Serial Wonder of the World, Eddie Polo, in his great fight with the man-eater.

CAN YOU BEAT IT?

St. John Times—There are some very bright pupils in our public schools. The accuracy with which some of them interpret cabalistic letters is positively uncanny, and suggests an oriental cast of mind. For example: One of the questions propounded to a class in St. John this week was to this effect:

"What do the letters M. L. A. after a man's name, signify?"

"Members of the Lunatic Asylum."

SPEEDING

Notwithstanding the fact that recently the Chief of Police arrested three automobile speeders who were found guilty and paid their fines, there are still a number of drivers who still persist in this foolish practice. Considerable speeding was indulged in on Dominion Day and there is nothing left for our Chief of Police to do, but to make examples of some more of these fast motor drivers.

A GRASS FIRE

Yesterday afternoon an alarm was sent in for a fire, back of the railroad track, in the vicinity of the Fish Farm and Mr. Frank Hogans farm. It is thought that a spark from a passing train ignited the grass which on account of the dry season is like tinder and the fire rapidly spread to adjacent fields. A large number of citizens including members of the Fire Company went to the scene of the fire and through their efforts the conflagration was gotten under control. A stiff east wind was blowing at the time and by such, the flames were fanned to large proportions. It is fortunate that the wind was east otherwise the fire would have spread into the precincts of the town, and much damage caused.

Last Sunday, July 5th was the regular anniversary Sunday for St. John's Church, Chatham, N. E. Special services were held morning and evening and Rev. J. M. MacLean of Strathlorne, C. B. occupied the pulpit. The Rev. Mr. MacLean was a former pastor of St. John's Church for fifteen years from June 12th 1899 to April 30th 1914. In the afternoon a Bronze Tablet was unveiled in honor of the men of the congregation who served in the Great War. Special music was rendered at all the services.

Catarrahal Deafness Cannot be Cured

Catarrahal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy by local applications, as they cannot reach the diseased portion of the ear. Catarrahal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions. Circulars free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.
