WASTED TIME AND MONEY BEFORE THEY FOUND GIN PILLS

GALETTA, ONT. "My husband used Gin Pills for Backache and Kidney Disease. The doctors and the kidneys failed to do their work properly. As he became worse, we went to a specialist for treatment and unfortunately wasted time and money on remedies that were little or no good. After taking one dose of GIN PILLS, he found them to be exactly what he needed, and after taking two 1/2 boxes of GIN PILLS, was completely cured. We heartily recommend GIN PILLS, at every opportunity to our friends and relatives." Mrs. JAMES B. MILLFORD.

EXPECTS PROVINCIAL PREMIERS TO CONFER

The New Leader of New Brunswick has been invited to ride the Old Eastern Hobby of Keeping Their Representation Without Population.

Ottawa, Nov. 17—If present negotiations materialize, a conference of provincial premiers will be held in Ottawa about the beginning of the year. The prime object of the conference will be a discussion of and if possible, the arriving at some basis of agreement with regard to the question of provincial representation in the Federal House.

Hon. J. K. Fleming, premier of Ontario, in a conference with the Government regarding the construction of the Valley railway, said today that he expected the premiers to meet in Ottawa in conference with the Government regarding the construction of the Valley railway.

LONGSHOREMEN GO OUT ON STRIKE AT MONTREAL

Ships Are Left Standing Idle in the Docks of Montreal—Men Demand Fifty Cents Per Hour—Companies Must Come to Terms or Lose a Lot of Money.

Montreal, Nov. 17—The longshoremen to the number of nearly a thousand stopped work on the seven-teen vessels now in port this afternoon and let the steamers shift for themselves as best they might in unloading and getting their cargoes aboard in an effort to make a quick get-away before the official close of navigation, a week hence, when the insurance policies lapse.

As a result of the strike, of which there is at present no indication of a settlement, every ocean steamship company that owns vessels plying to Montreal is face to face with the serious situation of having their vessels delayed at a time of year when a break in the weather is liable to come at any moment and they might have to fight through frost and ice, snow and general bad weather to get out of the river before it freezes up.

It is claimed by the shipping men, was given for the action of the longshoremen and before the former hardly knew what was happening the latter had been called out from every ship in port.

Began With C.P.R. Men. The strike began with the C.P.R. men working on the Mount Temple and the Lake Manitoba, the latter in the last stages of loading her cargo prior to sailing tomorrow morning.

Anticipating trouble, however, the C.P.R. officials immediately telephoned the longshoremen and a squad of fifty men were rushed to the wharves. The men dispersed then, picketing officials and walking delegates refused to have been busy for ten minutes to three, the Cunard and Thomson men working on the Ausonia and Jamaica came out in boats and shortly after the Allan men followed, though a large percentage of the latter are not affiliated with the union. Laborers on the Manchester liners, White Star, Dominion, Canada and Head Lines, also came out.

All Hands at Work. The officials of the steamship companies have for the time being pressed all hands into the work of loading the cargo and the unaccommodated longshoremen are doing the work in the sheds. It is evident that the crews and stewards cannot replace the longshoremen and the work of the sheds will have to come to terms or lose money.

What the result of the action will be taken is not known and no announcement whatever has been made. The longshoremen are demanding a flat rate of fifty cents an hour for the rest of the season of navigation, day or night. They have been receiving thirty cents per day and thirty-five cents per night with extra for certain kinds of cargo.

The strike, the men claim, is the outcome of the longshoremen's union by the shipping federation. The men claim that two weeks ago the shipping companies agreed that the shipowners have not kept a black list and refusing work to all those who were on the black list.

Department Notified. This claim was announced by the court which demanded further particulars from the men. The men claim that this was done through the aid of the action is held over until the season of navigation is closed, it will do them good. The department of justice at Ottawa has been notified and it is understood that high officials will take the matter into consideration.

The men's action is considered illegal under the federal act, which provides for the enforcement of the act known as the Lemieux Act. No trouble has as yet been reported on the wharves.

ENGLAND HAS HAD A VERY RESTLESS WEEK

Stormy Debates in the German Parliament Have Had an Echo—Morocco Crisis May Be Altered—Bonar Law's Selection Satisfactory to Both Liberals and Tories

London, Nov. 18—(By T. P. O'Connell). At home and abroad it was a restless and uneasy week. The stormy debates in the German parliament have had an echo in England. Lloyd George's famous speech once more comes up and the English papers are full of letters and articles which reveal a full realization of the perilous point to which the relations between Germany and England have come.

At the same time there is even stronger dissatisfaction in the Radical ranks over Persia, where Sir Edward Grey is supposed to have sacrificed the Nationalist party to Russia and to have helped to destroy every attempt that party made to reform the finances and government of the country.

Foreign Office Debate. The ministry at last was forced to face the situation, and Thursday is given up to a foreign office debate, and even a second may be demanded.

The whole story of the crisis a few months ago when Germany went to assist in Persia, Lloyd George made his speech and the military and naval authorities of both countries began their war preparations as if some sort of a crisis was impending.

Affairs at home are equally exciting. Bonar Law's election as opposition leader is equally satisfactory to Liberals and Tories. It is satisfactory to the Tories because Law undoubtedly is better than his two rivals, and satisfactory to the Liberals because his election means the full adoption of the Liberal party policy of high tariff, and the Liberals believe a Tory ministry with an adequate majority can never be elected on that platform.

Liberal Losses in Commons. In the meantime though, things generally are going splendidly, the Liberal loss of a by-election of Oudham, gives them a shake and has given a big impetus to the Tories, which are already higher than for some time owing to the disturbing personality of Balfour and the prospect of a vigorous and united Tory campaign under Law.

The insurance bill now has practically passed through the Commons. The last fight was made by the O'Brien and Healey factions. The fight was not so much against the insurance bill as in the hope of distracting the Irish ranks and injuring the Liberal government and the Irish party and thereby embarrassing the fight for home rule.

SEATTLE IN DARKNESS. Municipal Power Plant Dam is Broken Down by Floods From the Mountains.

Seattle, Nov. 19—The warm chinook winds of the last few days brought a heavy downpour of rain in the lowlands, melted the six feet of early snow in the Cascade mountains and flooded the rivers of Western Washington today. The torrents broke the dam of the Municipal Electric plant, cut off Seattle's water supply, demoralized the railroad service, washed out bridges and flooded many farms and valley towns. No lives were reported lost. The flood increased tonight, however, and it is feared that a property damage will be enormous. The waters carried away the flume at the municipal power plant at Monette, putting the municipal plant out of commission and Seattle's streets are dark tonight except for the power the city has been able to borrow from other sources.

They Wish to Change the Foreign Policy. Vigorous Movement to This End is Reported in England—Want to Break Triple Entente—Persia Case in Hands of Great Britain.

London, Nov. 20—(By W. T. Stead). The greatest sensation of the week in England is the sudden discovery that for some days past a vigorous movement to change the foreign policy, or what you will—has been going on behind the scenes to effect a complete revolution of the British foreign policy.

That policy as fixed by King Edward and concurred in by both parties, is popularly called the policy of the triple entente. It began with an entente cordiale with France and was completed when the entente with Russia was established.

Places Case in Britain's Hands. London, Nov. 20—Persia's reiteration that she has been badly treated in the crisis with Russia has placed her case in the hands of Great Britain. Diplomatic relations with Russia have been interrupted.

Persia has asked Great Britain to advise her as to the course she should follow and has promised to abide by the advice. If necessary, Persia is prepared to comply with the demands of Russia on condition that the Russian troops, if they have already started for Persia, shall return to Russia.

Farmer's Heavy Loss. Fox Warren, Man., Nov. 18—Last night the large barn of A. Hunter, five miles south of here was destroyed by fire, destroying 20 horses, 8 head of cattle, 3,000 bushels of oats, 10 sets of harness and a barn full of winter feed. The barn and contents were partly insured.

WESTERN CITIES ARE OFFERING THE SITES

Land to Value of Million Dollars Tendered for Drill Halls—Hope to Settle the Military Troubles—Expenses Authorized by Governor's Warrant in Past Months.

Ottawa, Nov. 20—That cities of the Canadian middle west have offered sites for drill halls to an aggregate value of one million dollars, conditional only that the government erect buildings, was the statement made today by Col. S. D. Steel, C.B., of Winnipeg, commander of 10th military district, and Lieutenant Col. Wynne, cavalry and cadet leader, of Grenfell, Sask., who have been attending the military conference.

The offers of land for drill halls, according to Lieutenant Col. Wynne, include lots valued at \$100,000 from the city of Regina, a \$40,000 site from the city of Moose Jaw, and \$20,000 sites also from the cities of Regina, Grenfell, Indian Head and other places.

Col. Steel states that from assurances that he has received there will be no difficulty in a satisfactory arrangement of the present militia difficulties in the west.

A statement of expenditures authorized by Governor General's warrant since the last session of parliament was tabled in the Commons today by Hon. W. T. White, minister of finance. It shows that the total amount provided for was \$3,593,456, of which, however, only \$1,250,219 has been spent. The biggest warrant was asked for by the minister of railways. It provided \$1,546,732 to cover the cost of labor on the National Transcontinental railway. The demand of the various departments to cover the cost of civil government and other items totaled \$1,842,717. Twenty thousand dollars was provided by request of the department of state to cover the cost of the reception to His Royal Highness, Duke of Connaught, twenty-five thousand dollars by the Indian affairs department on account of an outbreak of smallpox amongst the Indians of the Yukon. Twenty-six thousand dollars by the department of inland revenue to cover the various items of the Yukon, and twenty thousand dollars by the marine and fisheries department in connection with the reduction of dog fish on the Atlantic.

They Wish to Change the Foreign Policy. Vigorous Movement to This End is Reported in England—Want to Break Triple Entente—Persia Case in Hands of Great Britain.

London, Nov. 20—(By W. T. Stead). The greatest sensation of the week in England is the sudden discovery that for some days past a vigorous movement to change the foreign policy, or what you will—has been going on behind the scenes to effect a complete revolution of the British foreign policy.

That policy as fixed by King Edward and concurred in by both parties, is popularly called the policy of the triple entente. It began with an entente cordiale with France and was completed when the entente with Russia was established.

Places Case in Britain's Hands. London, Nov. 20—Persia's reiteration that she has been badly treated in the crisis with Russia has placed her case in the hands of Great Britain. Diplomatic relations with Russia have been interrupted.

Persia has asked Great Britain to advise her as to the course she should follow and has promised to abide by the advice. If necessary, Persia is prepared to comply with the demands of Russia on condition that the Russian troops, if they have already started for Persia, shall return to Russia.

PUBLIC MEN ANNOYED BY PRIVATE LETTERS

Widespread Practice in Great Britain by Which Money Beggars and Advertisers Evade Vigilance of Private Secretaries.

London, Nov. 18.—Business and public men are suffering from a new abuse. It seems that a great many of the letters sent through the post are marked "Private," "Confidential," or "Personal" and are really nothing of the sort, and men who have a large correspondence complain that the chief advantage they obtain from their secretaries—protection from irrelevant and merely time-wasting correspondence—is beginning to fall, owing to the tendency which the advertising quack and the begging-letter writers are displaying to label their envelopes "Private" for a charity getting their communications past the outer guard. Mr. Robert Pierpont, J.P., who was filling 1909 members of parliament for Warrington, has for some time been setting aside envelopes so marked, with notes as to their contents. An analysis which he has given the following results:—

Really private, 14 To some extent private, 6 Ordinary income-tax papers, etc., on his Majesty's service, 91 Not private, 91 Of the last item 26 contained letters from benevolent moneylenders, and one a sample of chocolate from a firm of cocoa manufacturers. "The effect of this endorsement has been that I have received a book of 100 envelopes, a pamphlet about somebody's eye tonic and a prospectus of a book followed by an application for a subscription to some little cricket club went to Jamaica, a request that I would take a ticket for a charity concert to Italy. Some years ago a publisher sent me by parcel post a gratuity of a book on social or political questions, marked "Private." It was forwarded to me abroad at foreign rates. A body called the "Private" Parliamentary Council used to favor me when I was in Parliament with much printed matter, generally in open envelopes, but marked "Private." It should surely be an unwritten law that the words "private," "confidential" or "personal" should only appear on correspondence which is really confidential. The endorsement of an envelope and matter of common convenience which, apart altogether from the moral side of the question, it is to the interest of everybody not to abuse, since continued abuse will rob it of all value, and men with large correspondences will either to waste hours on the irrelevant or surrender their most intimate affairs to a secretary.

Civilization is founded on good faith and is impossible without it. The difference between the civilized man and the savage is that the latter will never differ in everything but the one fact that they are invariably "he" described as "savage" or "barbarian." In fact, may be considered the distinguishing feature of the barbarian, and that he is generally a man of treachery in getting under a man's guard by making as "private" a sample of cocoa or a printed circular, and that he is generally a man who is to begin by irritating a possible customer or supporter. In a civilized state we do not enforce things with laws and arrows or clubs; there is no every man living in such a state an obligation to play the game according to the rules and make his work good, and every decent man does it. This abuse of the endorsement on envelopes is only a petty matter, but it is symptomatic of an imperfect understanding of social obligations. It is worse than criminal; it is a crime.

Young Girl Burned to Death. Sydney, N.S., Nov. 17.—The most shocking accident for a long time was the death of Mary Ann Fraser today, who, while changing her dress, was suddenly burned to death after an hour. The girl was about 12 years of age, and an orphan. A similar accident occurred at Dominick's, on Monday, when the fourteen-month-old child of Mr. and Mrs. Angus McMillan was burned to death while its parents were absent.

C. N. R.'s Sundry Line. The Canadian Northern railway reports that the work on the line between Port Arthur and Sudbury will be performed with the utmost speed. Steel is laid at the point sixty-one miles west of Sudbury. Officials of the company say that 3,000 men will be engaged on the work throughout the winter, carrying in supplies and in the dynamite cuts.

THE COAL STRIKE IS ENDED IN EARNEST. Lethbridge, Nov. 18.—The strike is ended in earnest. After weeks of rumors to the effect that the two parties got down to brass tacks yesterday afternoon and the agreement was signed up at 5 o'clock by Stockert, the operators and Whitesides, the Stubbie for the miners' work will be resumed on Monday morning, and by the end of the week the 6,000 men will be back on the job and the strike will be a thing of the past. The exact result of the vote is not yet known, but it is reported to be overwhelmingly in favor of the course adopted.

MANITOBA BOUNDARIES

Check Strike Situation. Ottawa, Nov. 18.—No practical headway was made in the Manitoba boundary question yesterday.

In the morning Premier Roblin and Attorney General Campbell saw Hon. R. L. Borden and Hon. Robert Rogers and informally discussed terms of settlement. The matter was to have been before the cabinet council this afternoon, owing to pressure of other business, including consideration by the cabinet of the situation which has arisen in Montreal over the strike of dock workers, the matter had to be left over. It is understood that the difficulty in the harbor was called to the attention of the Hon. W. W. Crothers, Mayor of Montreal, and he considered the matter of such importance that he brought it immediately to the attention of his colleagues. When the cabinet council broke up, no announcement was made, but action of some kind may be taken by the Government on Saturday. In the meantime, the Manitoba boundary question stands over.

BUSINESS VERY GOOD THROUGHOUT CANADA

Situation Sound in Northwest. Great Earnings of All Canadian Railroads For November. Increase of 17.7 Per Cent. Over Last Year.

New York, Nov. 17.—Dispatches to Dun's Review from branch offices of E. G. Dunn and Company in the leading trade centers of the Dominion of Canada, contain a uniformly favorable picture of business activity with the exception of the province of Ontario, where the advance of fall and the advent of winter have retarded the movement of commodities. In substantial parts and most manufacturing plants are well employed. Selling of potatoes in dry goods is in good demand. Improvement is noted among the boot and shoe factories and leather is being taken more freely. Hides are being readily absorbed by tanneries and 15 cents is now being paid for number one.

Trade in Quebec. At Quebec wholesale trade continues fairly satisfactory. There is a liberal movement of groceries and dry goods. Dealers are doing well but provision merchants hardly and leather activity is hardly so much in evidence.

At Montreal reports that winter weather has stimulated the demand for dry goods and that large quantities of goods with canned goods and vegetables are being readily absorbed by the market. Leather continues firm and hides are being readily absorbed by tanneries and 15 cents is now being paid for number one. At Hamilton, the situation is very satisfactory, both wholesale and retail merchants being actively engaged in their business. For all kinds of reasonable merchandise.

SHOULD NOT REMOVE EMBARGO ON CATTLE

New Conservative Leader in British House of Commons Expresses Desire to Help in Every Possible Way in Developing the Resources of Ireland.

London, Nov. 18.—In his first speech in the House of Commons as Conservative leader, Bonar Law last night pointed out the widespread movement in Ireland of removing the embargo on the importation of Canadian cattle. He believed Sir Wilfrid Laurier had gone so far as to suggest to the present that this embargo was a discredited protection. If that embargo were swept away, those raising cattle in Ireland, directly addressing the few Irish present, Mr. Law said, it would be better to be active to help in every possible way in the development of the resources of Ireland. There is nothing I should like more than to make Ireland feel she has an interest in maintaining connection with England.

FIVE JURORS SELECTED FOR MCNAMARA TRIAL

405 Viewmen Have Been Called. These Only Five for Hearing. Finally Permitted to Remain in Jury Box—New List to be Called.

Los Angeles, Cal., Nov. 17.—The fourth and fifth jurors were accepted and sworn in today in the McNamara murder trial, which was begun yesterday. These five were obtained since November 7, when the first three were sworn in. A feature of the day was the evidence that John J. McNamara, by taking a hand in the selection of the jurors who are to try his brother, James B. McNamara, for the alleged murder of Charles J. Haggerty, a victim of the Times' explosion, a year ago.

From his cell in the county jail, where he is held pending trial on a joint indictment with his brother, John J. McNamara sent word that C. J. Heath, of English birth, would not be suitable. Heath was removed by peremptory challenge. The two new jurors are J. B. Sexton, a rancher, and real estate dealer from Alhambra, a suburb, and Wm. A. Carpenter, a painter and formerly a union man, who does not now belong to a union. The three jurors heretofore chosen are Robert Blain, a carpenter, J. D. Green, orange grower; Byron Lisk, mill owner.

Within a few moments after the new jurors were sworn in the seventh venire was exhausted and a new one of 40 men was drawn. This makes 146 men drawn for service in connection with the case. Of this number about one-third have been examined, the others being absent from the county or else attending to personal reasons by Judge Bordwell in preliminary examination.

Big Fight on McNamara Vote. Atlantic, Ga., Nov. 12.—The socialists in the American Federation of Labor have begun their insurgent movement against the present administration of the Federation. The opening sign of hostilities during the present convention occurred in the printed record, which showed a resolution proposing that the Federation adopt the initiative and referendum in the election of officers. The resolution to appropriate \$50,000 for the defense of the McNamara brothers was carried by a vote of 10 to 1.

DECISIVE BATTLE OF REVOLUTION IMMINENT

Rebel Forces and Imperial Troops Expected to Clash Before Nightfall. Non-Nanking—The Revolutionaries Are Said to Be Well Equipped.

Shanghai, China, Nov. 18.—It was expected here this morning that a decisive revolutionary force and imperial troops would come to a clash before nightfall, somewhere in the district between Chin Kiang and the Yangtze. The revolutionary forecasts are correct. This will be the beginning of the decisive battle of the war. The revolutionary forces have planned their attack carefully. During the last three days a large body of rebel troops with guns, provisions, ammunition and other supplies were dispatched for Chin Kiang by rail. These they are advancing today on a Nanking, 60 miles distant. Simultaneously other bodies of troops are scurrying on the imperial outposts via the Yangtze river and small tributary streams from the interior with the object of delivering attacks from these sides.

The equipment of the revolutionaries is excellent. They are well officered. Many of the leaders have had foreign military training. The discipline of the troops is amazing. Many have been through the trenches and are wrought up to the highest pitch by accounts of the atrocities perpetrated at Nanking by General Chang's troops.

Estimates of the strength of the imperial forces vary widely. The backbone of Chang's army appears to consist of 7,000 Shan Tung troops. It is believed, however, that he has short of ammunition and poorly equipped with artillery.

TERRIFIC GALE SWEEPS OVER THE GREAT LAKES

Detroit, Mich., Nov. 18.—Almost a score of damaged vessels in places of refuge, a number of deserted barges left to the mercy of the elements, several costly vessels aground, many sailors cared for in life saving stations and the prospects that the life-savers must battle throughout the night to prevent the loss of lives, such is already the partial toll of a fierce gale and blizzard which raged on Lake Huron and Lake Michigan and across the strait of Mackinac today and tonight.

Alpena was practically isolated for hours. Mackinac, City Stant, St. Marie, Cadillac and neighboring cities were in the path of the storm. Passengers and freight trains have been tied up at Cadillac. The steam barge Isabella Royce, coal laden, and the steamer United Lumbermen, reached Alpena minus their barges.

The Royal Canadian Mounted Police are searching for a man who is believed to have been present at the D.D.D. remedy for years.

WHITNEY HAS TO FIGHT. Leader Rowell's Manifesto Makes Him Squirm.

Ingersoll, Ont., Nov. 17.—Taking as his text the manifesto which recently was issued by Mr. N. W. Howland, leader of the Opposition, Sir James Whitney to-night told the electors who had gathered in the town hall here that his quarters at Ingersoll were being vacated by the Liberal party had already been taken up and finished by the present government. Sir James, referring to the Liberal proposal that additional money be expended on the roads of the province, mentioned the fact that already more than half a million dollars has been expended on good roads this year, and only this afternoon at Toronto he signed an order-in-council providing for the expenditure of additional sums for good roads, bridges and road improvement.

219,055,000 IN ROOT FODDER CROPS OF 1911

Report of Census and Statistics Office Shows Total Area of 9,000,492 Acres. Crop With Potatoes, Beans, Clover Crops, Hay and Clover.

Ottawa, Nov. 17.—The report of the census and statistics office for the month ending October 31st, shows that the total area in potatoes, roots, fodder crops, hay and clover this year was 9,000,492 acres, with a total product value of \$219,055,000. This is \$1,800,000 more than last year, and there is an increase of \$2,210,000 in hay and clover.

The largest increase is shown in potatoes, which is nearly \$5,000,000. Improvement in the value of the product is less by 5,000,000 bushels, the average selling price being sixty cents per bushel accompanied with 45 cents for the crop. The value of this year's product of hay, clover and fodder crop is \$159,068,000, which is less than last year's value by \$2,500,000. Potatoes, turnips and other roots and sugar beets have a value of \$59,990,000 being more than last year's value by \$1,210,000.

Value by Provinces. The quality of all crops this year is 90 per cent and over, excepting wheat, which is 85 per cent, and last year all crops excepting potatoes, turnips and other roots were over 90. The values of all root and fodder crops this year are: Potatoes, \$12,225,000 in Nova Scotia; \$12,598,000 in New Brunswick; \$7,815,000 in Quebec; \$1,800,000 in Ontario; \$1,800,000 in Manitoba; \$3,796,000 in Saskatchewan; and \$6,321,000 in Alberta.

RAINY RIVER LIBERALS MEET IN CONVENTION

Generally Considered That Liberal Candidate Will Have Wide-Away Nominations Accepted. Conservative Nomination is Divided by Two Aspiring Liberals.

Rainy River, Nov. 18.—The Liberals of Rainy River district met in convention in the Empire theatre yesterday afternoon in the neighborhood of one hundred delegates from all parts of the district. The convention was held in the afternoon and continued until 11 p.m. It has been thought that the Liberal party in Rainy River would not be strong in the forthcoming provincial election and in view of the advent of the winter, the party was organized as a result of the deliberation of H. W. Kennedy, who has contested the seat on one previous occasion was unanimously chosen to represent the Liberal interests.

LADY HERBERT FAMOUS WIDOW HAS SUCCEMBED

Notable Career Ended in Death of Widow of Sidney Herbert, Secretary of War in Crimean Epoch—Lady Herbert Enriched Throughout Her Life in Philanthropic Work.

London, Nov. 18.—Lady Herbert, of Lea, the widow of Sidney Herbert, the famous war secretary of the Crimean epoch, died yesterday morning at her residence, Herby House, Belgrave square. Her death will throw many distinguished families into mourning. Her surviving children are the Countess of Pembroke, Baroness von Hugel, Lady Maud Parry, and the Marchioness of Ripon.

Elizabeth Lady Herbert was the daughter of the General Charles Ashle a Court. She was born in 1826 and in 1846 married Mr. Herbert, third son of the Earl of Pembroke. Sixty years ago she and her husband were in the Crimea, where they were absorbed in the husband's work. Lord Herbert's death his widow joined the Church of Rome.

Lady Herbert's life throughout her life was constantly engaged in social, philanthropic and religious work, mainly in the Church of Rome, but she was a great friend of Bishop Samuel Wilberforce and her husband worked with him in a variety of ways. Probably no woman in modern days has been so great a friend of the Church of Rome as Lady Herbert. Her husband's work was much advanced by her charming manner, her popularity in society, her positive love of work and her devotion to the Church of her adoption. She took the greatest interest in the work of all kinds, and in her Anglican days was the foremost to help in the erection of the new St. Boniface church, St. Nurse, sisters of mercy and all women engaged in religious work. In her husband's time she was a friend. Her house in Belgrave square was very open to her religious work, and she was thoroughly acquainted with everything in literature, music and art. To the last she retained her affection for her husband and her two Anglican friends who she never forgot were the Rev. Canon and Mr. Gladstone. She would often talk of the inner history of the Crimean War, with her husband, and she was a great friend of Florence Nightingale and she maintained a lifelong friendship with Florence Nightingale and the work of literature, music and art. EDMONTON NEXT YEAR THE "GATEWAY OF THE CARIBOO"

G. T. P. WILL GIVE STEAMER SERVICE BETWEEN THE TETE JAUNE CACHE AND FORT GEORGE, WAREHOUSE AND WHARVES NOW IN COURSE OF CONSTRUCTION ON FRASER RIVER

Five miles below the Tete Jaune Cache on the Fraser river, a G.P.C. construction camp has been located, and work has been started on the building of a large warehouse and wharves. From this point steamers will take their departure next summer for the trip between the cache and Fort George.

For years "The Gateway to the Cariboo" has been Ashcroft, where freight and passenger traffic has had to be hauled by wagon and stage. Members of a survey party returning from the west on Saturday report the steel head of the G. T. P. to have reached mile 124, a mile from the R.C. boundary on Friday. Steel had been laid across the half mile trestle bridge and was expected to enter British Columbia on Saturday. The grade is reported to be practically ready for the steel from mile 1, B. C. as far as mile 11. At mile 12, B.C. some rocky work is being finished and what is done the path of the "pioneer" will be perfectly clear.

Excursion to Hudson Bay Next Summer is Planned by Fort Churchill's Pioneer Settler.

Ottawa, Nov. 20.—Mr. Wm. Beech, the pioneer settler at Fort Churchill, on the Hudson Bay, who is in the capital this week, is discussing with prominent people a proposal to advertise the possibilities of the Hudson Bay region by conducting an excursion to Fort Churchill next summer.

Mr. Beech's plan is to charter a steamer at Montreal, capable of accommodating about one hundred people, and to start from Montreal on July 10th, or thereabouts, proceed to St. John's, Newfoundland, and up the east coast of that island to Hudson Straits. Calls would be made at Fort Burrell, the whaling stations and other points of interest along the coast. Several days would be spent at Fort Churchill and in cruising in Hudson Bay.

The return trip would be made via the Straits of Belle Isle, Montreal being reached by September 1st. Mr. Beech believes that his proposal, if carried out, would result in the most practical benefit to the north country and to Canada at large.

He says that the excursionists would be given excellent sport and would be afforded opportunities of chasing the polar bear to his lair.

MILITARY CONFERENCE TO BE HELD ANNUALLY

Ottawa, Nov. 13.—At Saturday's meeting of the military conference it was decided that military affairs in general will be discussed annually at Ottawa by a gathering of representatives of the various military units in the Dominion during military week in February when the annual meetings of the Dominion Rifle and Canadian Military Associations are held.

During a discussion on military bands, Hon. Sam Hughes said that he had no objection to bandmen being given an opportunity to make a dollar and so far as he was concerned they would be allowed to play at any gathering or occasion in the realm as long as such proceeds were heavily in the British flag.

Col. Hughes brought up the question of co-operation of municipalities for the establishment of armories. He said that on his western trip they were greeted with offers of sites for drill halls and armories at every city in the west. Edmonton said she would give her drill hall site and will pay for it. "That is the spirit in the west," added the colonel.

Col. Ward brought up the question of paying troops and the difficulties under the present paymaster laborer. A flat rate of pay of a dollar as suggested will increase the expense \$30,000.

"Will people and your members support it?" asked Col. Hughes, who claimed that the present system of training officers was absurdly extravagant.

"If you examine the auditor general's report you will find there are thousands of dollars spent for non-essentials. This has to cease," added Col. Sam with emphasis.

"What is your scheme?" asked an officer.

"You will have it in time and I give you fair warning that your special expenses will have to cease. If we followed all the plans you are offering us we will have to double the expenditure on your militia. I would ask you all to study the auditor general's report, find out the non-essentials and help us to eliminate them."

father of a young family. "A female citizen" closes with a veiled threat, declaring that up to the present she has not been disposed to adopt the tactics of a militant suffragette, but hinting that if the proposed action is taken she may be disposed to protest in the manner of the ladies who have recently invaded the British House of Commons.

"Gates ajar" will no longer be the rule at the commissioners' office. Mayor Armstrong and Commissioner Candy will transact business nervously behind closed doors, and the secretary to the board will be instructed to scrutinize carefully all female visitors before allowing them to enter. When the snow bylaw is passed the Chief of Police may be required to place one of his most stalwart constables at the door of the offices to afford protection to the officials in case of need.

Chicago, Ill., Nov. 21.—A clearing system for railroads, similar to the clearing house for banks, was suggested at a meeting of the traffic club here tonight for a plan for overcoming the delays in Chicago, due to the transfer of freight cars from one road to another, and the difficulty of collecting demurrage charges. Such a scheme, to cost fifteen million dollars and to handle ten million cars a year was outlined by L. C. Fitch, chief engineer of the Chicago, Great Western railroad. The scheme contemplates a semi-circular line of multiple tracks surrounding the city.

Calgary's Mayor OFFERS TO DIVERT COAL TO EDMONTON

Generously Offers to Divert Wyoming Coal Ordered by Calgary to This City.

PRICE IS CHEAPER THAN QUOTED BY COAL COMPANY. Quotations, Being Secured From Mines in Southern Alberta and British Columbia.

A wire was received by Acting Mayor Bellamy yesterday from Mayor Mitchell of Calgary, offering to divert to this city several of the cars of coal ordered by the southern city from Wyoming, to meet the threatened shortage in Edmonton.

Mayor Mitchell's wire was as follows: "Can arrange to divert a few cars of Wyoming coal to you if you require same to meet present conditions in Edmonton. Price \$2.30 per ton on cars at mines.

The price quoted by the Wyoming firm in the wire received by the acting mayor a few days ago was \$2.50 per ton on cars at the mines.

In drawing the attention of Commissioner Cady to this yesterday morning, Acting Mayor Bellamy expressed his appreciation of the kind feeling which had prompted the mayor of Calgary to make this offer.

Wires were sent out yesterday to a number of mines in the south and in British Columbia asking for quotations. Up to the present only one reply has been received, namely, from the Hillcrest, Alberta, offering to supply two or more cars daily of nine feet coal at \$2.25 per ton.

Other replies will probably be received within the next twenty-four hours and the matter will doubtless be brought to the attention of the city council to-morrow night for their action.

A letter was received by the city commissioners yesterday from a person, recently arrived in the city, desiring to place an order in advance for several tons of coal which it is proposed to purchase. This man is staying at a hotel in the city and is unable to occupy the house which he has purchased because he has found it impossible to secure a supply of coal.

NURSEMAID OBJECTS TO REMOVAL OF SNOW

"Female Citizen" Declares That if Snow Bylaw is Passed and Enforced She May Adopt Suffragette Methods to Have it Repealed.

The city commissioners were threatened yesterday with an invasion of their offices by a militant suffragette. The lady in question is a nursemaid, who objects to the proposal to enforce the regulations requiring the sidewalks to be kept clear of snow. This lady, who describes herself as a "female citizen," makes an urgent appeal to the commissioners to consider the lot of those whose duty it is to care for young children, painting a moving picture of their distress when called upon to drag sleds over bare pavements, to say nothing of the danger to life and limb threatened by clean-swept, slippery sidewalks.

After an earnest appeal to any one of them who may happen to be the

A Warning to Mothers

No mother can expect her little one to escape all the ills of childhood, but every mother who accepts fair warning as to the treatment of these little ones can save her baby such suffering. Thousands of mothers of young children keep Baby's Own Tablets in the house—all mothers should do so. The Tablets are a never-failing cure for all the minor ills of babyhood and childhood. They can be given with perfect safety—they always do; never harm. Constipation, indigestion, colic, simple fevers, colds, etc., all rapidly disappear under the treatment with Baby's Own Tablets. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
