if Saving Money Interests You.

We can more especially save you a big pot of money on Ladies' Readymade White Goods.

Before the war the economical and diligent housewife would buy piece goods and remnants and save money by plying her needle to make garments for herself and her family. White Goods in the piece to-day are difficult to get, and in most cases there seems to be no limit to prices, excepting the blue sky. At the moment we are offering Ladies' White Garments away below in price anything that the cleverest needlewoman could make from to-day's materials, and our prices for these goods are in every case as low or lower than those of any firm in the city. But some day they will have to advance fifty per cent. upon the arrival of newer stocks.
