

THE DISASTER IN JAV.

One Hundred Thousand Persons Killed by the Recent Earthquake. London, Sept. 1.—Despatches from Java report that fears of further eruptions are allayed on the burial of the corpses, which are chiefly strewn on the coast. The vapors issuing from the fissures in the divided mountains have caused unusually rapid decomposition of exposed parts of the great rock at the summit of the peaks. A number of them split apart suddenly on Wednesday, causing loss of depending earth. This caused several huge landslides, carrying destruction and death on the edge of the town of Narra. Fifteen Chinese in a section of the sanitary corps were buried. A vessel which attempted to enter the straits of Sunda on Wednesday had a hole stove in her bow.

After strong urging, on Saturday evening, Ross was prevailed to call on Mr. Keenan, and for the first time since June, 1880, the two men met. Mr. Keenan's bill for training, boating and keeping of the carman aggregated \$500. The influence of friends of both parties caused Mr. Keenan to reduce the amount to \$200, which was paid at 12 o'clock Sunday.

Upon receiving the money Mr. Keenan said: "Well, I've got this bit of money; I don't know how to use it, but I'm sufficient to satisfy all my debts, and I don't want a penny of it. I think that the legal costs will run up just \$50, and the other \$150 I propose to divide equally between the little sisters of the poor, the old and the infirm children. I said if ever I got any of it that I would never keep it, and I propose to keep my word."

The money was advanced for Ross by Mr. John Cullen of Boston. Ross made a positive denial of the statement that he had not given the money to the sisters of the poor. He said he did not want to give the money to the sisters of the poor, but he would give it to the sisters of the poor.
